

The Supreme God

Chapter 341 You Are Pretty Handsome (Part Two)

He gritted his teeth and cultivated another vital energy palm, and it attacked the headman again.

Bang! Bang! Bang!

They had battled three palms together. Mike's face was deadly pale with all the vital energy depleting from his body. He panted strenuously and spit out blood. Using too much vital energy had taken a toll on his body and strength.

"Mike, just give up and leave now! We won't let this asshole humiliate us. We'd rather die right now than live without dignity! Don't worry about us!"

The two girls, one in a red dress, the other in white, both cried.

"You want to kill yourselves? Continue dreaming! I'll kill you, old donkey!"

the headman shouted and degraded Mike even more. He was furious to hear that the two sisters would commit suicide. Suddenly, he activated all the vital energy in his body and released the power in the premium stage of the Earth Realm.

A bloody wolf claw materialized and leaped forward, creating a sharp noise. With enormous power, it charged at Mike's head directly.

"Brother, I'm sorry! I'm not able to safely protect the ladies. I'm so sorry for it!" Mike murmured.

Then he roared and cultivated a palm with all the might left in him. Once again, he smashed on the headman.

"Mike, watch out!"

the two ladies screamed from the carriage.

They were clearly aware of the difference in power between the two, and that Mike might die with that blow.

The headman had decided to kill Mike as soon as possible to get the two beautiful ladies. If they would commit suicide, then all their efforts would be in vain. He must kill Mike with one last blow!

Boom!

A loud blare of things crashing together filled the entire area.

'What happened?

had

"Little beggar? Are you really the little beggar?"

the girl in red dress inquired.

"Err-"

Austin hesitated. He didn't know how to explain that he was not a beggar. The two beautiful ladies on the other had settled that he was indeed a beggar.

"Alva, he is really the beggar that we met today! He looks a little familiar to me.

Little beggar, you are more handsome than the last time we met. You look different now. Where did you get your clothes? Did other people give them to you?

In fact, you look pretty good in those new clothes!" she uttered in amusement.

"Ahem- Ahem-"

Austin didn't know how to answer such praises from a beautiful lady. That was the first time that someone praised his appearance.

But today, when he met the two ladies at the hotel, he was in a terrible condition. His clothes were ragged, and he was dirty all over—no wonder they thought of him as a beggar.

He had a good shower and a change of new clothes. Even though he might not be very handsome now, he was clean and decent compared to before.

There was a striking contrast between his appearance from when they met and now. Therefore, the girl thought that he was much handsomer than he actually was.

"Little beggar, why are you here? It's dangerous to stay here. Go quickly!"

the white-dressed girl said urgently. She was elder than her sister, so she was more aware of the danger that they were faced with. She didn't want one more innocent person to die with them.

Her words reminded the girl in red dress, and the latter panicked.

"She's right! Little beggar, just leave now. It's very dangerous!"

the girl in red also reminded him, with genuine concern dripping from her tone.

Austin felt touched with their worries. How kindhearted the two ladies were! Even though they were in a grave situation, they still cared about other people's lives beyond themselves!

The Supreme God

Chapter 342 To Kill With One Strike

"Shut up! I don't care who you are. I'm the Wolf General of the Blood Wolf Team. I showed mercy to you and tried to let you go, but you wasted the opportunity.

You're a good vital energy refiner. Though you're young, you are at the premium stage of Earth Realm.

Still, don't you dare think that you can challenge the members of our Blood Wolf Team.

We have at least more than ten cultivators at the Mysterious Realm.

Besides, I don't think you can reach the premium stage of Earth Realm at such a young age as yours. You must have taken many

elixirs to help you get a breakthrough and reach this realm," the man said in contempt.

With a wave of his hand, he gave a snort and went on, "Even without the help from our powerful cultivators at the Mysterious Realm, I can take you down without any difficulty.

So, remember you should not mess with any member of the Blood Wolf Team.

That's all I want to tell you. Keep it in mind as a warning. It's up to you now. You can choose to stay here further or leave."

'Well, how surprising! I never thought that things would take such a turn. This man is the Wolf General of Blood Wolf Team. I already took care of the other wolf generals earlier, and I wouldn't mind killing another one. He is digging his own grave, ' Austin thought in scorn.

The Wolf General's advice and threat didn't work on Austin. Instead of getting scared, the young lad studied the Wolf General from head to toe. 'I'm going to take his life. I'm sure Abbott would be pissed off after he learns about his underlying's death. What would he do?' Austin thought, smiling to himself.

"What? Little Beggar, you... you reached the premium stage of the Earth Realm?"

"Little Beggar! Are you also a cultivator?"

Female voices full of astonishment and disbelief resonated from the carriage and reached Austin's ears. The maid in red and the maid in white seemed to be thunderstruck by this revelation.

Austin burst into laughter as if he had heard a ridiculous and hilarious joke.

"You must be kidding! Interesting. Do you have any idea what you are talking about?"

You're the Wolf General of Blood Wolf Team, yet you allow me to leave! Does that really make any sense? Don't be ridiculous. Have you forgotten your task?"

"Our task?" the Wolf General repeated, stunned at Austin's words. started to think about his mission. 'What was business.

I don't get it. Why didn't you take him down directly? Why are you wasting time talking to him? If you had done so, we would have already completed our task and returned to report it to the commander."

While Fred Zhou spoke, he approached Austin with a sinister grin.

His remarks infuriated Harry. 'He never shows any respect to me because the Eldest Wolf General trusts him the most. He has disobeyed my orders several times. Now he wants to challenge that brat! I'll not stop him. He'll learn some lessons from it,' the Wolf General thought.

Harry was aware that his subordinate Fred couldn't defeat Austin. After all, Fred was at the medium stage of the Earth Realm while their target was at the premium stage of the Earth Realm.

Austin laughed out loud and declared, "Abbott, you want me dead, while I want you to die. Watch out! I'll kill all your men."

He started his Wind-commanding Skill. The next second, he stopped in front of Fred. With a wave of his arm, he gave Fred a punch carrying 4, 000 kilograms of force in the chest.

All of it happened so fast that the rest of the men didn't see or realize that Austin had moved an inch. Neither did Fred.

At present, Austin's single stride was up to 100 meters. So it was a piece of cake for him to take a step forward and reach Fred who was a mere six meters away from him.

Without even realizing that the enemy was before him, Fred was displaying his best skill—the Lightning Strike—to end Austin's life while lost in his own thoughts. 'This time, most of our top cultivators were sent to carry out a mission. Now that I'm going to take Austin down, I'll take the credit. What a day!' He was so happy that he almost laughed with joy and pride.

However, things didn't go his way. Out of the blue, he was struck with an enormous power, and the next second, he saw a fist coming at him. His eyes dilated in shock.

It happened so quickly that Fred didn't get a chance or moment to defend himself.

Bang!

A loud noise resounded in the air and reached everyone's ears.

With eyes wide-open in shock, Fred took the blow. A deep hole appeared in his chest where the fist had landed.

Blood started to fill his mouth and trickled down lips and chin.

"It happened so fast!"

Those were the few words Fred was able to utter. Like a deflated balloon, he fell on the ground breathless.

Austin had made only a single move, and got rid of his attacker.

He had beaten a cultivator who was at the medium stage of the Earth Realm with only one strike.

The crowd present there stood still after they saw Austin bring Fred down effortlessly. He had done it with so much ease as though he just swatted a fly.

The Supreme God

Chapter 343 My Master Is Born Amazing

He had presumed that beating Austin would be a piece of cake, what with him being the master of the medium stage of the Earth Realm in Blood Wolf Team. Unfortunately, he had grossly underestimated his opponent. Not only did Austin defeat him, he actually executed him with just one blow to his chest.

All the disciples standing around were astonished at the sudden turn of events.

As they made sense of the events, a voice rang out in the crowd.

"Hey, you! How dare you kill Fred right in front of me? The sheer audacity! You've killed too many of the Blood Wolf Team. You need to be put in your rightful place, now. Enough is enough! You are dead.

Guards, take the two girls and the old one away. As for this little bastard, I'll deal with him myself."

The fifth Wolf General ordered loudly. Austin had tested his patience one too many. He had to be killed.

The disciples of Blood Wolf Team gathered together in a crowd, safely protected by their size as well as the anonymous nature of a crowd.

"Come on, you fools! You'll all be dead today anyway! Fight like you belong to the Blood Wolf Team!"

Austin had already told Violet with his mind to protect the two girls who were sitting inside the carriage. Violet had promptly appeared beside the carriage with a green light, ready for combat.

Austin laughed loudly as if mocking the fifth Wolf General. He then drew his sacred long sword out and activated it. He pushed the sword forward with his internal force and let it take up its own momentum. Immediately more than thirty sword-lights rushed out towards the enemy ready to turn them into ashes.

Every single sword-light was filled of Austin's powerful vital energy force.

"Ah!"

"Ah, ah!"

The disciples screamed in agony when they were inflicted by the inescapable sword-lights.

A dozen of disciples in the cultivation base of the Energy Gathering Realm were killed instantly.

He, the fifth Wolf General didn't expect Austin to have such an impact. Countless men were killed in a matter of moments. Austin was getting onto his nerves, and the fifth Wolf General was desperate to retort with vengeance.

"Little bastard, how dare you? You'll go straight to hell! Die, asshole!"

girl in red

Austin turned around to see what was happening. Mike was under attack and was being besieged by three disciples of preliminary stage of Earth Realm. Mike had been badly injured while fighting the fifth Wolf General. He had lost all strength and was now too weak to fight again. The three disciples knew this and wanted to inflict as much damage as they could.

The three disciples almost succeeded in finishing off Mike when Austin reached him.

He summoned three flying needles this time and stabbed them into the disciples' heads. The flying needles struck them hard and they fell, writhing in pain. Mike was saved!

The spiritual sense of Austin had risen to a new level. His flying needles were causing severe damage to those at level of preliminary stage or lower.

He was able to cause immense destruction to the enemies' spiritual souls.

As for the disciples of the medium stage of Earth Realm, he could stall them long enough to keep their power from not causing harm.

The cultivation base of the three disciples were at the level of preliminary stage of earth realm, and they didn't have the power of spiritual sense, so their spiritual souls were hit fiercely, and they lost their consciousness when Austin's flying needles stroke them.

Austin activated illusory swordsmanship and more than thirty rays of sword-lights shot towards them.

With their screeches, each of them was hit by more than ten sword-lights, and blood gushed out from the holes the sword-lights got through.

"Hey, man Thank you for saving me."

Mike was extremely grateful. After all, he was almost killed by the three disciples of preliminary stage.

He thought that nothing would be able to save him and he sure as hell hadn't expected Austin to come and defeat them as if it was child's play to him.

Mike was impressed by Austin's fierce power.

He stood up with some effort, and as soon as he turned around he saw a man lying in the dust. He immediately recognized that it was the fifth Wolf General.

'Holy shit!

In a short span of time, he had killed three preliminary stage disciples of Blood Wolf Team.

And one of the Wolf Generals was also killed, too. What a merciless boy he is!' Mike thought.

"Hey, kid, how can ... how did you?" Mike couldn't finish his question.

The two girls in the carriage, one in red and the other in white, had seen all that had happened. They too were dumbfounded when they saw Austin killing people, cutting them apart like they were vegetables. They looked at him with admiration and shouted, "Hey, beggar boy, well done! Bravo!"

And a voice said, "Well, my master was born amazing!"

The Supreme God

Chapter 344 Let's Go To The Imperial Capital City Together

Violet, with all her will and power, defeated all the cultivators of the Energy Gathering Realm in the Blood Wolf Team.

Everyone knew that speed was the strength of the nine-tailed demon fox. Although Violet was not as fast as Austin for the time being, it was still impossible for those cultivators to escape her.

"Oh, my God! We're so lucky to have come across you today, young man. Otherwise, I can't imagine what would have happened to my two young ladies," Mike sighed. He was overcome with emotion.

Seeing that all the members of the Blood Wolf Team had died, Mike knew that the unexpected disaster was finally over. A feeling of relief and gratefulness for having survived came over him.

Of course, he knew very well that it was this young man who got them through this catastrophe.

"That's very kind of you, Mike. I have not yet thanked you for the delicious meal the two ladies had prepared for me earlier today."

"You must be kidding. With your skills, you must be blessed with plenty of good fortune. That meal was probably nothing compared to all the blessings you already have."

Mike knew that Austin had the cultivator base of the premium stage of the Earth Realm. This meant that he could be the backbone of any force and that he should never be regarded as a poor man.

Austin flashed him a vague smile. With regard to wealth, he really was rich. After all, there were tens of millions of vital energy crystals in his Space Ring.

"By the way, little beggar, how come you suddenly showed up in this village in the middle of the night?"

The voice came from inside one carriage. It was the girl in red. She still addressed Austin as 'little beggar'.

Upon hearing the nickname, Austin coughed slightly.

Although he felt helpless, he could not argue with an innocent girl.

"I'm on my way to the imperial capital city. I'm just passing through this road," he replied.

"What? Little beggar, are you saying you are going to the imperial capital city? What a coincidence! We are also heading that way! Why don't we go together?"

However, I know a way to ensure your safe arrival in the imperial capital city," Austin stated earnestly.

With a graceful movement of his hands, two ghostly figures appeared right beside him. They looked and smelled like rotting corpses.

"Ahh!"

Terrified by the two ghoulish forms now standing in front of them in the moonlight, the two girls turned pale. They ran behind Mike as their piercing screams echoed briefly through the night.

Even Mike was startled. He instantly became more vigilant.

"What do you mean, young man?"

"Oh, easy, easy. Don't panic. They only do my bidding. They'll never hurt you without my permission.

You can hide them in one of your carriages on your way to the imperial capital city. With them escorting you, no one can hurt you...as long as you don't encounter cultivators of the Mysterious Realm."

"Oh? Really?"

Hearing Austin's explanation, the two girls and Mike instantly breathed a deep sigh of relief.

"Little beggar, are these two really that powerful?" the girl in red asked.

Mike looked at the two corpse generals. Their scarlet eyes looked hauntingly cold and gloomy, which could be frightening for many people. He had a slight feeling that they owned matchless strength.

"Yes! Let me put it this way; if I fight them, I may have some trouble defeating them."

Austin answered with a chuckle.

"Wow!"

"They're amazing!"

The girls and Mike were surprised at the two corpse generals' supposed strength. They had no idea how powerful these two

seemingly dreadful things could be. With the protection of this enchanted pair, they were confident of their safe arrival in the imperial capital city.

The Supreme God

Chapter 345 The Heartbreak Of Losing One's Beloved Grandson

Although both the maidens and Mike wished Austin could go with them to the Imperial City, Austin clearly knew that the Flaming Sun Valley and the Blood Wolf Team were trying every possible mean to hunt him down.

After some consideration, Austin decided to send two corpse generals to escort them. They would undoubtedly be safe under the protection of those two since no Mysterious Realm master could rival with their power.

Every Mysterious Realm warrior was a respectable leader in a sect or a group. They had no reason to harm them.

Austin planted an idea into the two corpse generals' Soul Sea—they should shield the three from any harm and at any cost. After that, he bade them farewell and went on his way with Violet.

Meanwhile, the maidens and Mike went on their way immediately that night, getting away from C Village—a horrible place full of corpses.

When they arrived at a small town the next morning, Mike hired some servants and Energy Gathering Realm warriors at a very high price.

He also hid the two corpse generals in one of the carriages before continuing their journey. . .

After Austin and the carriages had gone away, one corpse, among all the dead ones, stood up with blood all over his face. It was really terrifying.

"Lucky me! I was born with my heart on my right chest. Otherwise, I will be sent to hell by the fierce sword-light.

Who would expect Austin, a very young lad, to be so powerful? I am nineteen years old, and I have been chosen by the senior executives as a prospective elite to train.

Surprisingly, Austin, young as he is, is so powerful that even I cannot ward off one of his sword-lights. It is too embarrassing!

Well, I better go back immediately. I'll be rewarded if I report his trace to the leaders."

The corpse struggled to get on his feet while muttering to himself under the moonlight. He stared at the direction at which Austin had gone away.

It turned out that the man's heart was in his right chest. Though Austin's sword-light hit him directly on his left chest, he just blacked out and was lucky enough to escape from being killed.

He stopped muttering and left C Village like a ghost—a specter who was the sole survivor of the whole Blood Wolf Team in that place.

A couple of hours later, Abbott, who was sitting inside the headquarters of the Blood Wolf Team, wore a gloomy face. His eyes were full of anger and almost could be used to kill people.

For several days, the Blood Wolf Team had sent out most of their elites to hunt down Austin, but he vanished like a phantom to nowhere and left no trace at all.

Ever since Abbott was put in charge of the Blood Wolf Team, it instituted their rise to fame in the entire Violet Orchid Empire—to a point where it could be even compared with the five famous sects.

Consequently, Abbott garnered more and more respect from everyone in the Violet Orchid Empire. Even the high executives had to pay him proper respect by addressing him as Lord Abbott.

no one could believe that Austin, just a young disciple, had slaughtered hundreds of the Blood Wolf Team, including six Wolf Generals whose cultivation base was at

"Fellows! Last night, the fifth Wolf Generals was slaughtered by the bastard, Austin. He had a cultivation base in the premium stage of

Earth Realm. Judging from this, Austin has become somebody—a rather strong opponent who had the guts to kill our comrades.

However, Austin is just a boy, about sixteen or seventeen years of age. He is not even in his twenties, and yet, he has already been so powerful. He must be a devil, a devil, indeed!

The hatred will never perish; only death can take it all away. That bastard will definitely stir more trouble for us so we must hunt him down and never stop until his body lay lifeless on the ground.

As he is so talented, we cannot allow him to become stronger. Otherwise, he will ruin us all one day.

We can never let him cultivate more to be one of the strongest!

It is now our top priority to assassinate Austin.

Next, we will send every one of the Blood Wolf Team, including us, to hunt him down!"

"Additionally, send a message for Dwayne, the Chief Elder of Flaming Sun Valley, that Austin is heading to the imperial capital city. Tell them to ambush him along the way if they track him down. I wonder how he will be able to survive such siege!"

Apparently, there were no objections among the rest of them. For a long time, Abbott had enjoyed the full power of his leadership in the Blood Wolf Team. What's more, his analysis of the situation was totally right and reasonable. . . .

Flaming Sun Valley, now on its spring season, was a quiet and peaceful valley. One could smell the scent of flowers and hear the soothing hums of the birds. The spring brought a magnificent scenery with nature at its liveliest form.

However, a heartbroken old man was burning joss paper in front of a lonely tomb, as if the air around him was gloomy amidst the bright sunshine of spring.

"Raymond, every generation of our house, only had one son. It has been five generations. You were the only heir.

I never thought that bastard Austin would dare to kill you, the only heir of our house.

My hatred towards him is a blazing fire which can never be put out even by all the rivers and seas in the world.

That son of a bitch made me go through the pain of losing my beloved grandson!

Ah, I swear! I will hunt him down and tear him apart!"

The old man, who was crying with great sorrow, was Dwayne, the Chief Elder of Flaming Sun Valley.

Around the same time, a disciple was rushing into the valley.

"Chief Elder, Chief Elder! We received a word from the Blood Wolf Team that they have tracked Austin's trace."

"Really? They have found Austin?"

"Well, well, well. Such great news. Ha-ha! Look at what fate brought you, Austin. I will definitely tear you apart!"

The Supreme God

Chapter 346 Level Six Blade Intent (Part One)

Someone moved swiftly like lightning on the mountainous road that led to the imperial capital city.

That person was Austin.

It had been a day since he parted ways with the two young ladies who traveled along the main road.

The young warrior chose to walk down the narrow country road. He and the ladies were headed towards the same destination but were on different paths that did not overlap.

To determine his progress, Austin consulted someone and learned that at that point, he was neither near nor far from the imperial capital city.

If he walked at his regular pace, it would take ten days to reach the imperial capital city.

But the young fighter was not in a hurry to reach the city. Besides, the long journey gave him the opportunity to cultivate his Wind-commanding Skill.

Previously, Austin spent dozens of days solely to understand this skill. Now, he was able to stride forward and reach a distance of 100 meters. In battles, a walking speed at this rate gave Austin a considerable advantage.

Still, this walking speed was far below the maximum speed that one could realize by cultivating the Wind-commanding Skill. Deep inside, it was clear to Austin that it was possible for him to reach 200 or even 300 meters with one stride as long as he mastered the last two steps of this skill.

On this mountainous road, nothing but a person galloping like a steed was seen moving. He was walking so fast that it seemed as if he was flying. As Austin practiced, the only things left in his wake were swirls of dust and intermittent shadows.

Many times, some countryside villagers suddenly felt a figure flashing past them while they walked the fields. That blur of movement often had them thinking there was something wrong with their vision.

But by the time they finished rubbing their eyes to check if they were hallucinating, the vision had already disappeared.

Shiiing!

The blade shimmered with bright light along with the loud howling of the wind that lingered in the air.

There was no actual blade, and only blade light was visible.

For a moment, Austin felt as if he were in a forest, then a mountain, the sea, then a world of blades.

"It's a level six blade intent!" he mumbled joyfully.

As he realized what he witnessed, Austin then understood that the young man in black who stood before him had comprehended the level six blade intent.

In that instance, he felt nothing but streaks of intense blade light as they cut through the skin all over his body unceasingly.

It's a good thing that Austin was now at the third level of the Overlord Body-refining Formula, so he was firmer and stronger. He had also cultivated the Golden Sun Scripture, so the light golden vital energy in his body was overbearing and potent, being mightier than the vital energy refined by normal cultivators.

Stifled by the level six blade intent, the dazzling light ball in Austin's elixir field, which was as big as half a watermelon, sensed the

imminent threat. Suddenly, there was a humming sound. Then, surges of pure vital energy were being transferred to Austin's limbs and all the rest of his body.

Then, without notice, all energy from the intense blade intent that hovered over Austin was diffused.

At the same time, Austin's level four sword intent was brought into play to aid his counterattack. As soon as he drew this out, the blade intent around his body completely disappeared.

Finally, the level six blade intent no longer overpowered Austin. It meant nothing to the warrior.

"You are Austin!" the young man in black scoffed.

The tone of his voice was very condescending. He sounded like an emperor, who felt it was degrading to speak to a person who was far inferior to he was.

The Supreme God

Chapter 347 Level Six Blade Intent (Part Two)

"Yes, I am Austin," the warrior replied.

He spoke calmly and hardly showed any emotion.

"Hmmm. It seems that you are somewhat powerful. But anyway, how dare you offend the Chief Elder of the Flaming Sun Valley!

While our Chief Elder may not be ranked number one in cultivation accomplishments, he has served three heads of the Flaming Sun Valley and enjoyed a very honorable position in our valley. And because you offended our Chief Elder, you have annoyed all members of the Flaming Sun Valley.

So Austin, you are doomed to die!"

He made this declaration as coldly as he could without any expression, as if he cared about nothing except for the blade intent.

"However, before you die, I want you to know that I am Augustine, the principal disciple of the Flaming Sun Valley," he declared with a laugh. "Perhaps, young guys like you often hear about Frank of the Flaming Sun Valley, who stands out among the young generation of the Violet Orchid Empire. But his reputation is unearned, as he can only resist against three of my moves at most.

That is the best he can do."

Taken aback by the introduction, Austin mumbled to himself. 'He's Augustine of the Flaming Sun Valley? And Frank can only withstand three of his moves?'

Told about Frank of the Flaming Sun Valley, Austin was aware the guy was well-known among the Violet Orchid Empire's young generation. And it was a surprise to hear that Frank was only able to withstand three of Augustine's moves.

If this was true, Augustine's strengths might be extremely awesome.

And as Austin came to realize this, he looked even more serious.

But he laughed lightly as he said, "Well, what you mean is that you're the extraordinary talent in the Flaming Sun Valley.

And you also said you were going to kill me. Don't jump to conclusions so rashly. Now, it's still too early to predict who the winner will be," Austin said with confidence.

Wind-commanding Skill.

Sense Flying Needle.

Summoning Skill.

Overlord Body-refining Formula.

Twin Shadow Blades.

Illusory Swordsmanship.

For the warrior, every one of these skills was an ace in the hole. However, Austin judged that it seemed impossible for him to fight against Augustine's level six blade intent with any of these martial art skills.

He had no choice but to try and use all of them together.

Of course, the Spiritual Sense Flying Needle was inevitably his first choice.

Since Austin had cultivated the level four sword intent, he knew well that intent existed in a cultivator's soul, and fighters had to comprehend intent with their souls.

The Spiritual Sense Flying Needle was especially for attacking cultivators' Soul Sea, spiritual souls, and other souls.

After some thought, Austin concluded he would surely be able to weaken Augustine's blade intent by unexpectedly attacking his Soul Sea with Spiritual Sense Flying Needles as soon as he utilized his level six blade intent. In this way, the only possible way for Augustine to fight was using his level five or even level four blade intent.

In terms of sword intent, this would put Austin on a par with Augustine. Then, Austin wouldn't be under the control of Augustine's level six blade intent.

After more pondering, Austin suddenly thought of how to fight his opponent and gain confidence.

It was at this moment that Augustine abruptly soared and his steel blade flickered.

The action stunned Austin.

Suddenly, he heard a very loud booming sound.

It came from a streak of thundering light that emitted from Augustine's steel blade.

The streak of light flashed swiftly and violently with great force, slicing through the air as if cutting bamboo and grass.

The Supreme God

Chapter 348 Killing Augustine

On his way to the imperial capital city, Austin suddenly found himself face to face with Augustine, a core disciple of the Flaming Sun Valley.

Augustine had already learned a level six sword intent. Also, from the vital energy that Augustine used for his blade intent, Austin realized that his opponent's cultivation base was at the premium stage of the Earth Realm. That wasn't going to be too much trouble since Austin was also at the same stage.

Augustine was calm and composed in front of Austin and it looked as if Austin was doomed to fail.

After a few minutes of looking at each other, Augustine threatened Austin, "You bastard! I am going to use the blade aura and cut you into pieces."

Blade aura perfectly copied the soul of blades and was a mighty and gorgeous tool. It wasn't easy to dodge it.

"Fizz! Fizz! Fizz! Fizz!"

Every time the aura traveled, the surrounding air was cut into pieces by its sharp blade intent and a sound like someone crying in pain was heard. The leaves that lay dead on the mountain path were carried by the fierce wind that came with the invisible blade and were ground into powdery dust. Even large bushes found themselves cut into pieces.

Shoop!

The aura headed for Austin directly. It was flying at an extremely high speed and looked like it wanted to kill everyone in its path.

"Ha ha ha, Austin, I don't even need to use a level 6 blade intent to kill you. What I am doing is taking up less than two-thirds of my energy. You would have been a goner had I utilized a level 4 spell too."

Augustine laughed loudly. However, once the real fight began, his eyes became filled with madness and his breath began to speed up. In fact, with time, his anxiety grew and he had to gasp for breath.

"Yes?"

Austin froze for a moment.

He could see that Augustine was crazy about fighting and it was going to be hard to stand up against him since his favorite pastime was to practice his skills. Also, his strength was clearly outstanding.

However, Austin was also crazy about practicing, wasn't he?

Furthermore, the blade aura Augustine was letting off a level 4 blade intent, and not at his full strength. Austin decided that his sword intent could be used against this aura.

Without any hesitation, he drew his sword at the very moment his opponent's level 4 blade intent appeared.

His superior sword was drawn so rapidly that it could not even be seen. It was surrounded by a sharp sword aura which hit against the blade aura like a meteor tearing the sky.

"Bang! Bang! Bang!"

each other exploded. Vital energy gushed

He had spent his whole life studying blade doctrine. He was dedicated to practicing the blade intents which could kill opponents in a single step.

However, he was poor at bodily movement skills and couldn't avoid physical attacks.

Bang!

A powerful punch struck his chest.

Crack, crack.....

Augustine's entire ribcage was broken and twelve pairs of bones fell out, all smashed into pieces.

Then, his body fell down, floppy like a damp sock. Even though he was dead, his eyes were still staring at Austin, full of questions, grievances, and resentment.

He never understood out how Austin could ruin his level 6 blade intent till the moment he died.

Augustine was at the premium stage of Earth Realm. His spiritual sense power never came into being. What's more, even though he had practiced blade aura for a long time, he was ignorant of several other skills. Therefore, he lost.

"Well, what a genius! But luckily, with my current spiritual sense power, I can easily stand up against a level 6 blade intent from a warrior at the premium stage of the Earth Realm now.

If Augustine had known a higher blade intent, or if his cultivation base of vital energy was just a level stronger, my spiritual sense power would not have ruined his blade intent.

I really should start learning more about swordsmanship. Otherwise, I will fail next time if I meet someone who knows a higher level blade intent."

Austin concluded, looking at Augustine's eyes.

Then, he looked at the Space Ring on the middle finger of Augustine's left hand. He picked it up and took it into his hands.

As a principal disciple of Flaming Sun Valley, Augustine was sure to have a fortune. . . .

Oh, no!

Just after taking Augustine's Space Ring, Austin suddenly felt that something dangerous was catching up to him.

He released his spiritual sense power and scanned a radius of about 3000 meters.

About 1000 meters away, about a dozen people were heading for Austin. An elder man was leading the company and giving out some torrid air which felt like a volcano eruption. Where he passed, all the water in the air seemed to evaporate.

There was also a middle-aged man surrounded with a deep aura and with his eyes full of cruelty and deceit.

Dwayne!

Abbott!

The Supreme God

Chapter 349 Arrived In The imperial Capital City

Austin suddenly realized that both Dwayne of the Flaming Sun Valley and Abbott of the Blood Wolf Team had come here for him.

Dwayne had already reached the premium stage of Mysterious Realm. Austin was clear that he stood no chance of winning against Dwayne and Abbott.

His only option was to leave as quickly as possible. He transformed himself into a shadow and rushed toward the imperial capital city.

... ..

In a place about 1, 000 meters away from Austin...

"Abbott, are you sure that this is the direction Austin went in? We have been chasing him for a couple of days but he's still nowhere to be seen," Dwayne said anxiously.

"Elder Dwayne, I'm sure he went this way.

I have sent hundreds of soul-chasing mice to find him and all of them found Austin's smell at C Village, which suggests that he must have stayed there for some time.

Soul-chasing mice are the Blood Wolf Team's secret weapon. They're unique to us and they're even better than hounds when it comes to sniffing out targets. I'm pretty sure that my soul-chasing mice will lead us to Austin. Besides, he must have gone through this rugged mountain road," said Abbott confidently.

Suddenly, Dwayne froze, as if he had heard a significant sound coming from far away.

"You're right, Abbott, your soul-chasing mice are amazing. My spiritual sense just found Austin. Right now, he's on the run about 1, 000 meters away from us."

When Abbott heard Dwayne's words, his face lit up with a smile.

"Are you sure? It seems that Elder Dwayne's spiritual sense is superior to mine and found Austin before I could. Wait a minute. I'm going to contact my soul-chasing mice."

With those words, Abbott closed his eyes to communicate telepathically with his mice.

All of a sudden, his eyes shot open, filled with excitement.

"You're right, it's Austin's shadow! I have five soul-chasing mice chasing after him. I've ordered them never to lose sight of him."

"Abbott, you're the boss. Let's creep up on him and kill him before he even knows what's happening. I'm going to avenge my son.

But remember, we have to be really quiet. Austin is really cunning and he has somehow gotten a pair of wings.

If he realizes that we're coming after him, he'll use it to escape as quickly as possible."

Recalling the way Austin had escaped from Sun Mountain last time, Dwayne frowned.

"You're right. Let's sneak up on him and give him a surprise attack. We'll deal with his wings then."

Abbott nodded in agreement.

The two warriors of Mysterious Realm jumped up into the sky and soared like birds toward Austin.

Warriors of Mysterious Realm used their rich life vitality to soar quickly through the air.

Although they couldn't fly as flexibly as real birds, they still had a significant advantage over regular warriors running on the ground.

... ..

However, Austin had already sensed the movements of those two warriors and realized that he was their target. The one thing he knew for sure was that he didn't want to fight those two competent warriors at the same time.

... ..

"Elder Dwayne, it seems that Austin can't be hunted down this way. He's very cunning and he has many methods to escape from us.

There must be something else we can do," said Abbott.

Quickly calming down, he started to try to think of a way to handle the situation.

"Something else? What do you have in mind? Inspire me!"

Dwayne was confused.

"So far, we barely know anything about Austin. He's one of the outer disciples of Sun Sect.

But what about his family, his parents, brothers, sisters, and friends? We know nothing about them. We should send somebody familiar with the Sun Sect to secretly investigate his background. He must have some relatives or friends that we can use as bait.

We can catch them and let him know that his relatives and friends are in danger.

Then, he'll show up in front of us by himself.

There won't be any need for us to chase after him," said Abbott slowly.

He was quickly plotting everything in his mind.

"It's worth a shot. Austin murdered my son. I want him to have a taste of the sorrow of losing someone he loves deeply.

By the way, your words reminded me of something important. Before Austin left Sun Mountain, he asked Theon, the Sect Leader, to protect Evan and Herbert. I guess Austin must care about them very much.

We can get our men to arrest them and get word to Austin about it. Then, he will stand before us and confront us."

Dwayne roared with laughter. They had finally found a way to catch Austin without using too much effort.

... ..

Austin, who was unaware of what Dwayne and Abbott were plotting, flapped his wings and flew toward the imperial capital city.

He had stored a large quantity of superior vital energy crystals inside his Space Ring, so he didn't need to worry about the consumption of those crystals. On his way toward the capital, he replaced the crystals several times, consuming dozens of them in the process. Finally, he found himself looking at the walls of the imperial capital city.

The formidable walls stretched out as far as he could see.

He had never seen such grand and magnificent walls before.

There were flags flying on the walls with some ancient words written on each and every one of them—Grand Imperial Capital City.

A moat of several hundred meters in width and ten thousand meters in length surrounded the city. Above the moat were several drawbridges through which people could go in or out of the city.

"So I finally get to see the imperial capital city. This is where the royal family of Violet Orchid Empire lives. It's such a grand and magnificent city."

Austin sighed, marveling at the intimidating walls. Having lived in villages and small towns his whole life, Austin had never entered a city before.

He landed in a clearing in the dense jungle and withdrew his wings. Then, he took a short break before stepping toward the gates of the city.

When he saw the soldiers standing guard there, he realized that he would have to be frisked by them before being allowed to enter the city.

He walked through the drawbridge and approached the gates. Then, he saw that there was a queue of people waiting to get inside.

The Supreme God

Chapter 350 Outstanding Talents Exchange Games (Part One)

On arriving at the gates of the imperial capital city, Austin put away the Eagle Wings and stood in the line for the inspection before entering the city.

The elongated queue in front of the city gates stretched far along the street owing to the large mass of more than ten thousand people. The mixed bunch of people from varied origins was waiting to get access to the imperial capital city. Austin stood there looking forward, his gaze fixed to the city gates and rather nonchalant towards the noise that came from the crowd behind him.

Austin heaved a sigh as he waited for his turn. The imperial capital city was a really prosperous place.

Austin carried a very polite, peaceful and impressionable personality with a friendly demeanor. He hid his own cultivation base most of the time with Magical Aura-changing Skill. So he appeared to be an ordinary person without any vital energy inside his body.

Even the inspection soldiers could not suspect his hidden skills. They took a glance at him and allowed him to pass the city gates.

As Austin took his first step inside the imperial capital city, the cool breeze brushed across his face. He closed his eyes, took a deep breath and opened his eyes once again with a spark of contentment in them and a bright smile on his face. Evidently, he felt excited.

He knew that the imperial capital city was the center and the most prosperous place of the Violet Orchid Empire.

In the Violet Orchid Empire, the deciding power lied in the hands of the stronger ones.

This was a place where strength was given optimum importance. Whether one was noble or not depended on his own strength.

In other words, the imperial capital city, where the loyal family lived, was the martial arts center of the Empire.

The imperial capital city was home to numerous powerful cultivators who had the capacity to control the top five sects of the Empire.

was way beyond all the sects. They had many resources much ahead of people's imagination. So they could keep a great many powerful cultivators in

The air bore the traces of the exotic aroma of their rouges and other makeup.

The imperial capital city had so much to offer that it would be difficult to describe its opulence in words.

'I seem to have experienced nothing, compared to people who live here. Owing to my stay in the Sun Mountain all these years, I've never seen such a huge city full of splendor. There are so many new things here that make me curious to know more about them.'

Austin heaved a deep sigh as he introspected.

Ever since Austin landed into this city, he was in good spirit and enjoyed exploring the city with much awe and amazement.

After roving around for more than an hour, Austin entered a restaurant near a lake. He ordered some food and began to enjoy the food by himself. After a long journey, this was the first time that he had got the opportunity to relax and take rest.

Most of the guests in this restaurant were cultivators.

Most of them were cultivators from the community of martial artists and they were talking about the different techniques in the martial arts field with vivid expressions.

These cultivators were oblivious to the surrounding and the people as they were engrossed in discussing the subject of their interest.

Austin was listening to them while he was eating.

"Mr. Zhuo, our Bloody Hero Gang has sent fifteen talents to participate in the Outstanding Talents Exchange Games including you. You have been at the preliminary stage of the Earth Realm at such a young age. Moreover, you have learned level three palm intent. You are really a talent that we count on. I wish you success in the games. May you obtain the championship! Cheers!" someone from the same group said to another young man.

"Haha. What are you saying? That's too bold an estimate for a cultivator like me. You make me feel ashamed. I know my cultivation skills very clearly. Each sect of the Violet Orchid Empire has sent out their most talented disciples and all of them will strive to obtain the championship. It will not be easy for me to get it.
