

The Supreme God

Chapter 3461 Encounter With Magee

"You're just a Divine Realm brat, but you were able to enter a medium-grade divine god level competition. Seems like you have something special, or perhaps you have some secret skill and trump card to your advantage.

However, all your tricks are nothing in the face of absolute strength.

None of your tricks will work on me!"

The man suddenly came to a stop in the middle of his speech when he saw the one thousand points that appeared above Austin's head!

"No way!

You got one thousand points!

That's incredible!"

Surprise bloomed on his face as he automatically put up his guard at the same time.

"Brat, you're as weak as an ant. How could you possibly kill ten medium-grade divine gods and get one thousand points? I don't think you're that strong.

Impossible!

Tell me, how did you achieve that?"

Confusion could be clearly seen on the man's face as he studied Austin head to toe.

"Sir, I just saw several people fighting each other. Both sides were seriously injured and were all dying.

So I plucked up all of my courage and took the chance to attack..."

Austin stammered, pretending to be completely terrified.

"Well, that makes sense.

Seems like you were very lucky.

I didn't expect you met such good fortune.

You've got so many points in such a short time."

The man couldn't help but nod in agreement. In his opinion, this was the only possible reasonable explanation.

It was impossible for this young man in front of him, who was only at the Divine Realm, to possibly kill ten medium-grade divine gods with his low level martial arts. That was far too unbelievable for him to even consider.

"Ha-ha! I admire you to some extent, brat.

I carefully concealed my trace and whereabouts all this time, picking out the people weaker than me and then attacking them in secret. It wasn't easy for me to get five hundred points as I faced many dangers.

Yet, here you are who got lucky in such a short time and earned so many points.

But I'm luckier than you!

What you earned will belong to me. All your points is mine.

Although Austin's current comprehensive strength was a cut above
the rest, he stood no chance of winning against a large group of
medium-grade divine gods.

After advancing ahead for about ten more miles, Austin's face
suddenly darkened.

Something was amiss ahead of his path.

Faint waves of violent fighting energy spread out from that direction,
coating even areas at a distance.

So Austin focused to summon several earth dragons, letting them lurk
underground and quickly swarm as one forward.

"Something really is happening over there!"

Through the message from the earth dragons, Austin found that two
groups of people were in the midst of battle right in front of him!

An equal number of people were fighting from both sides.

Eight or nine divine gods were present on each side.

Every second of the battle was breathtakingly fierce!

It was right at that moment that the battle between the two sides seemed to reach its peak. All kinds of secret techniques and magic treasures were pulled out one after the other without pause.

Both sides clearly suffered great losses.

Almost everyone was profusely bleeding or trying to stem their wounds.

Every moment of the battle was clear for Austin who was looking through the eyes of the earth dragons.

"Maybe my chance has come!

It's better if they all die together. I'll go out and take on all of them after!"

Austin murmured to himself.

Moments passed as he stayed still and watched the fierce battle.

Suddenly, he noticed something.

Slowly, Austin's eyes began to narrow at what he saw.

"Magee!

It's really him!"

A certain powerful medium-grade divine god stood out among the two groups, surprising Austin so much that he almost let out a shout.

This discovery shocked Austin to the core.

He didn't expect to meet an acquaintance within the competition so soon.

'Seems like Master Magee is also injured.

I have to get closer to him. If he's in danger, I have to be there to help him in time!

Austin thought to himself.

So he quickly took out the Reincarnation Token and activated it to conceal his aura.

After he perched himself on an earth dragon, he dove into the ground and sneaked towards the distant battlefield.

The Supreme God

Chapter 3462 Something Smells Fishy

Ever since Austin was thrown into this region of medium-grade divine gods and the competition began before he was even ready, he had been trying to find his friends like Otis and Magee so they could team up and fight side by side. It wasn't an easy job to locate someone in this vast region he didn't even know, but Austin knew he had to try his best. He just didn't expect that he would run into Magee so soon.

At the time, both sides were engaged in the most spectacular yet tragic life and death battle. Every single fighter involved, no matter what realm they were in, used their most powerful secret skills and took out their life-saving magic treasures. They fought against each other ferociously and desperately and thus, produced such an indescribable battle in history. Broken and mangled bodies lay everywhere.

Like in any battle, this one was divided into two teams, seemingly well-matched in strength. Neither of them could defeat the other completely. It was a fierce battle, with divine blood gushing out from the injured divine gods. It lasted for quite some time and almost all the medium-grade divine gods who participated in the battle were exhausted.

In every direction, heartbreaking screams and curses, as well as furious roars could be heard continuously.

The whole scene made sense. Killing was the most important thing in this competition!

The more people they killed, the more hope they had, that they would be able to get out of the Fallen Divine Valley alive. For this single reason, everyone fought desperately, giving it all they got.

Meanwhile, Austin hid in the distance and watched the battle unfold, exhilarated just by merely witnessing such a scene.

'Just fight hard. In the end, I'm the one who gains all the advantages, '

Austin thought to himself.

At that time, the people from both sides began to diminish in number as more and more participants got injured or were killed.

Throughout all of this, Austin was not reckless and remained calm.

Even if he rushed out now when those medium-grade divine gods were already on the brink of exhaustion, it would still not be easy for him to defeat them.

After all, they were all medium-grade divine gods. If any one of them chose to perish together with him, he could very easily bring Austin down with him. The situation then would be extremely out of control and his life would be nowhere near safe.

Thus, Austin remained in place, patiently waiting.

Of course, his spiritual sense was always paying attention to Magee. If he sensed that Magee was in danger, he would definitely rush out to save him, without any regard to what might happen to him.

"If you hand over the Chaotic Striding Boots, I can let you go. Then we don't have to fight to this extent!"

a medium-grade divine god suddenly shouted across the battlefield as he paused awhile.

He was the leader of one of the teams.

"Nonsense! We have worked much too hard to find the boots. Why should we give them to you?!"

No way! Over my dead body!"

the leader of the other team snorted.

"Well, then I won't stop until you are dead! And that will be today!

Kill them all!"

The fight between the two sides resumed and became more intense.

Soon, the final moment of life and death approached.

Bang!

Towards the end of this fierce battle, a seriously injured medium-grade divine god's body was attacked by two fighters from the opposing team. Unable to take any more attacks, the divine god's body exploded into pieces, his mangled remains scattered on the ground!

The number of casualties on both sides was increasing.

The smoky medicinal power kept crawling and spreading to all directions.

A stream of great force was then emitted from his body. The momentum was huge!

Sure enough, in an instant and right in front of everyone's eyes, the tall and thin man's strength returned to his peak state!

"Go to hell!"

The silver spear in the hand of the tall and thin man grew several times in size and as huge as a mountain that rumbled towards the fat monk.

The fat monk had been fighting for half a day and was badly injured, not to mention drained and exhausted. He was severely dehydrated and his eyes were dry from thirst.

How could he fight off the tall and thin man at his peak state?

After a few more moves, a loud explosion spread out like a force field that swept across the area!

The fat monk's body instantly exploded as well, and his soul was quickly destroyed!

The tall and thin man raced towards the monk and took all the treasures that he left.

Of course, all the points of the fat man were automatically transferred to him as well.

Because he had killed the fat monk, he had also obtained one hundred extra points as his reward.

"Go to hell!"

The winner, with a silver spear in his hand, rushed towards the man in white robe wielding two sabers, one on each hand. He was as aggressive and determined like a tiger coming down the mountain.

Meanwhile, Magee was also fighting fiercely with the man in the white robe.

Then in an instant, the poor man in white was killed by the joint attack of his two opponents! Since the fat man was already dead, it was expected that the two would join forces to kill off the lone man in the white robe.

In the end, only the tall and thin man and Magee were the last fighters standing, emerging as the winners and survivors of the most epic fight ever!

The tall and thin man, because he had the Soul-healing Elixir, completely reversed the situation and won the top spot and final victory.

Above his head, his points had reached more than two thousand points!

Moreover, the much-coveted pair of boots had also fallen into his hands.

"Haha, great! We finally won!"

Magee was also very joyful.

During the battle, he was also able to kill quite a few people and obtained more than one thousand points.

"Yes, I won!

The title of the winner belongs to me!

So many people were beaten to death. I didn't expect this! I am just so lucky! I should actually thank you all for making things so much easier for me!

Now, all the points and magic treasures are now mine, too!"

The tall and thin man laughed hoarsely, and his face was very ferocious. He now sounded like the demon from the deepest bowels of dark hell.

"Oh, crap! It looks like Magee is in danger! I thought this was over, but no! He wants to kill Magee and takes his points!"

Austin hid in the distance and saw the killing intent in the tall and thin man's eyes crystal clear. He was shocked that the latter was going to turn his back on his own comrade.

"Hmm, what do you mean?" Magee questioned and frowned.

Then his blood suddenly ran cold as he turned his gaze towards the tall and thin man. He finally realized that something was fishy with his teammate.

The Supreme God

Chapter 3463 Got The Chaotic Striding Boots

"Don't you get it?"

Ha-ha!

Listen to me, Magee. You are indeed powerful, but that alone can't help you, because it seems that you're not quite smart enough.

That's important, you know? Because of that, I bet you can never make great achievements in your life.

Now, there's just the two of us left in our team, and you're badly injured, like a spent arrow.

Tell me, Magee. What's the use of keeping you alive?"

The tall and thin man paused as he shifted his gaze from Magee to the sky. He looked full of ambition and spoke with evil intention.

He then looked smugly at Magee. "After I kill you and get all the points and treasures, I will go hide.

I acquired so many points, and that would be enough for me to refine the Chaotic Striding Boots and the other treasures as well.

After having a good rest, I will show up once again and..." he snorted. "And then I will definitely be powerful enough to kill all of my opponents!

So now, Magee, let's cut the crap. Do you want to end your life on your own, or do you want me to do it myself?"

he asked Magee with an impish grin.

Hearing this, Magee was furious and pointed at his brazen teammate with his trembling hand. "You!

How dare you even think about killing your own teammate?

You're worse than a beast!"

The other laughed wildly. "Teammate? Ha-ha! You are so ridiculous! In this competition, the rule says that the one who kills more people than the rest will be declared as the winner.

How could you even trust your teammates?

You are indeed out of your mind, Magee.

Now, enough talking!"

He let out a maniacal laugh, and all his strength surged out. The silver spear in his hand had turned into a silver flood dragon that had quickly rushed out.

However, Magee was a short-tempered man who was not afraid of death. As he listened to the tall, thin man speak about killing him, he took a deep breath and clenched his fists.

He then roared, circulated his remaining divine energy, and confronted his teammate who was now his enemy. "I'll fight you to the last moment of my life!"

Of course, in such an exhausted state, Magee was undeniably not a match for the man at all. He mustered all his courage to fight despite knowing that he might die by his hands in just a few moves.

Just then, dozens of yellow earth dragons from underground soared into the sky and besieged the tall, thin man.

The shadows of the four legendary beasts, the blue dragon, the white tiger, the vermilion bird, and the black tortoise also appeared in front of the man. They formed an array from four directions and surrounded him.

Points!

Treasures!

All of them belonged to Austin.

When he killed this tall and thin man, his total points had reached three thousand and eight hundred points.

He had become one of the contenders who had the most points.

He then turned to Magee and asked him with great concern, "Are you all right, Master Magee?"

Magee laughed and tapped Austin's back. "Ha-ha! I'm fine, Austin. Fortunately, you arrived on time. Otherwise, I'd have been dead!"

Seeing that the tall, thin man was finally killed by Austin, Magee felt completely relieved that he was now able to laugh.

"By the way, Austin, you're just at the Divine Realm, right? Why are you in this region?"

Magee asked curiously.

"That's true, though I don't know what happened.

I thought I would be sent to the region of the preliminary-grade divine gods, but I didn't expect I'd come here,"

Austin replied with all honesty.

"Hmm. You know, Austin, although you're only at the Divine Realm, your real combat power has surpassed most of the preliminary-grade divine gods'. Your prowess is closer to that of a medium-grade divine god.

Some of the weak medium-grade divine gods may even find themselves unable to defeat you!

I guess that's why you got assigned to this region."

Magee rubbed his chin as he made his speculation.

"Hmm, maybe."

Austin nodded as he stared into the distance.

"Anyway, hurry up, Austin. Take out the Chaotic Striding Boots and refine them. Your speed will soar by times!

By then, I'm sure you'll be able to truly gain a foothold in this region!"

Magee was thrilled for Austin.

The latter chuckled as he took out a pair of silver boots.

He looked at it closely and asked, "Did you mean this pair of boots?"

"Yes, that's the one.

What you have right there is a chaotic magic treasure!"

Magee explained.

The Supreme God

Chapter 3464 Refine The Chaotic Striding Boots

Austin looked at the silver boots carefully. They shone dazzling golden lights, and had mysterious runes rising all over them. He could tell that the boots contained an enormous amount of energy.

"Master Magee, you should refine these boots.

After all, you have fought over it,"

Austin said as he handed the boots to Magee.

"Austin, what are you talking about?

If you hadn't come in time, I would have died.

Your combat power is good because of all your trumps cards, but your vital energy realm is too low.

It will definitely hold you back.

If you can manage to refine the Chaotic Striding Boots, your speed will greatly increase. To a certain extent, this can make up for your low cultivation base. You need them more than I do.

Moreover, these boots are a high-grade chaotic magic treasure.

It will cost a lot of points to refine them.

You see, I only have slightly more than a thousand points. Even if I wanted to refine them, I'm afraid it's not possible.

However, you have over three thousand points. I reckon it's enough for you to refine the Chaotic Striding Boots,"

Magee responded with a smile.

"Keep them, Austin. Now, let's find a quiet place for you to refine those boots!"

Magee urged.

"Well, if you say so. Thank you so much, Master Magee," Austin replied.

Austin was not a pedantic person. He knew that it was almost impossible for him to stand out in that competition area for medium-grade divine gods.

If the Chaotic Striding Boots could really boost up his speed, it would be advantageous for him in fighting his opponents.

"Okay. Let's go.

Moreover, lots of participants have formed groups in order to have better chances of surviving.

There are only two of us, so we'd better be careful,"

Magee said in a low voice.

Then, Austin and Magee soared into the sky and began to look for a safe place.

However, at that moment, the two of them paused in their tracks at the same time.

Immediately, the two of them entered the cave.

Magee said.

"Okay. Thank you, Master Magee,"

Austin replied.

Then, he went into the cave and sat down cross-legged.

As he concentrated with his eyes closed, a pair of boots appeared.

They floated mid-air in front of Austin.

The boots looked simple; they were silver and were engraved with some runes.

It was the Chaotic Striding Boots.

"In this competition, it requires one to have sufficient points to refine a treasure.

I hope my points are enough to refine these boots,"

Austin murmured to himself.

"Come on!"

Austin communicated the points he had obtained with his mind.

In the next second, a tremendous refining power like a raging wave appeared, and stroke the Chaotic Striding Boots!

Afterwards, the torrent-like power was absorbed by the boots.

In a second, some restrictions began to come off of the shoes. Austin then opened his eyes, and saw the restrictions shatter into pieces.

Subsequently, the boots began to emit a daunting and breathtaking aura.

As Austin sat cross-legged, streams of endless power vigorously swirled around the Chaotic Striding Boots in an attempt to refine them.

Meanwhile, in the competition area of medium-grade divine gods, the slaughter among people continued, and was getting more and more intense by the second.

Almost all of those who had no companions ended up being killed.

All the survivors had made allies and had formed teams.

The number of each team members varied.

It ranged from several to a hundred members.

The teams with more members were almost invincible and were occupied in killing their opponents.

The weaker ones either hid from those strong teams, or tried to terminate those that were weaker than them.

The Supreme God

Chapter 3465 Alston

Somewhere in the medium-grade divine gods' competition area, a large team was recuperating.

This team had more than one hundred members.

Considering the varied numbers of members per team, that particular group had a relatively big number.

It was known that a team with more than fifty people had a certain degree of deterrence among others.

A team of more than one hundred people was like a giant!

At that moment, the members of the large team sat cross-legged on the ground of a broad open space with their eyes closed.

In the middle, there was a man who looked particularly outstanding. He was tall, and had a wide forehead, and a pair of almond-shaped eyes, which were also closed then.

The points above his head had already exceeded twenty thousand!

Such points meant that he had killed at least two hundred people in the competition!

The mere thought of it would send shivers up and down anyone's spine.

If it were in the context of the outside world, more than two hundred medium-grade divine gods would have been able to turn the entire Sea of Chaos upside down.

However, all of them had died in the hands of that man with a striking demeanor.

Based from the number above his head alone, one could see how terrifying his strength was.

"Look, guys! Alston is refining that chaotic magic treasure!"

"Yes, you're right. Alston is so lucky. He found a chaotic magic treasure not long after the competition began.

Such a treasure was far more powerful than all the divine magic treasures.

As long as he successfully refines it, his fighting power will soar!"

"By then, the strength of our team will naturally rise and we will be unbeatable!"

Many people around looked at the man in the center from time to time and speculated.

"Shh!"

How dare you blabber on and on, you gossipmongers?! This is the most critical moment for Alston to refine the magic treasure. If you disturb him, can you bear the consequences?"

a medium-grade divine god scolded the onlookers.

The others were shocked. Immediately, they kept their mouths shut and dared not utter any more sounds.

It turned out that the man who was seated in the middle of the group was none other than Alston.

At that time, he was refining a magic treasure, in particular, a chaotic magic treasure.

The magic treasure floated in mid-air in front of him, and emitted a dazzling divine light.

Alston suddenly announced loudly.

"Yes! Oh my god!

Thank you, Alston!"

Everyone got more excited after they heard Alston's promise.

Entering a supreme universe was something that everyone had ever dreamed of.

It was one of the main reasons why most of the medium-grade divine gods were willing to follow Alston.

"All right. Get ready, everyone.

Let's rest for a while before we take action,"

Alston concluded.

"Okay!"

Everyone roared in agreement. The atmosphere was very intense and the people's morale was at an all-time high.

All of a sudden, a middle-aged man in a black robe stepped forward and said to Alston, "By the way, Alston, I just got the news that I have a rival who is also here. His name is Otis, and he has assembled a team with about twenty people.

In the past, in the three thousand big and small universes, he was among the gods of light. I had a younger brother who belonged to the gods of darkness that was killed by him during the war between the two sides.

I've long wanted to find an opportunity to kill Otis and to take revenge!

However, he is stronger than me. Besides, he has a small team now. I'm no match for him.

Alston, please help me avenge my brother!

Besides, I've detected some gods of light around this area.

They are also from the three thousand big and small universes.

I want to rip those gods of light into pieces!"

"Oh, I see.

Well, send someone to inquire about the specific location of this Otis. Once you get the word, inform me immediately. I'll bring our people to kill him and his team so you can take your vengeance on him.

It will be as easy as pie for us to kill those gods of light,"

Alston agreed with a nod.

"Thank you, Alston!"

the middle-aged man in black said happily.

The Supreme God

Chapter 3466 Seduce This Guy

In the middle of a dark cave, Austin sat cross-legged with his eyes closed.

The crackling sound of breaking eggshell was heard from the boots in front of him.

When the cracking sound stopped, streaks of blinding golden light rushed out of the boots.

Austin opened his eyes and laughed happily at the sight of this. "Ha-ha!

I did it!" he exclaimed, filled with joy.

The pair of boots shone brightly like pure gold.

Austin had successfully refined them. This means that there were no longer any restrictions on the surface of the boots.

"All right. Let's me see what the Chaotic Striding Boots can do!

I am wondering how much they can increase my speed." His eyes were filled with excitement.

He got up and began concentrating.

Whoosh! Whoosh!

The boots merged directly into Austin's feet, as if they were tailor made for him.

Whoosh!

In a blink of an eye, Austin disappeared without a trace.

In a split second, he reappeared dozens of miles away from the cave.

"These shoes make me at least ten times faster than before!"

He could hardly contain his glee.

In the Fallen Divine Valley, there were some very special laws that slowed down one's bodily movement skill.

This also prevented anyone from flying in the sky or activating omnipotent skills related to space.

This was the reason why the valley was inescapable.

Anyone who was brave enough to enter had their movement slow down to a grinding halt.

With the Chaotic Striding Boots, Austin could now move ten times faster, which almost mitigated the effects the valley had on his speed.

"I feel that these shoes will be of much help to me while using the omnipotent skill related to space.

It is impossible to use the Space Teleportation in the Fallen Divine Valley. But once I leave this place, I can only imagine what breakneck speeds I can achieve.

No wonder the shoes are a magic treasure at the chaotic level!"

the short man said with a smug.

"You have a good point,"

a woman said to the short man with a smile.

This woman was scantily dressed. Her pink clothes were very thin, almost transparent, revealing her plump breasts and curvy hips.

Most men would be aroused just by looking at her.

"Honey, I'll be glad to show you what I know. When you're free, let's find a nice and quiet place so I can teach you," the short man said as he maliciously stared at the woman.

His eyes were filled with lust and desire.

"Screw you. Can't you think of anything other than sex?"

Let's talk business. If you let me have this boy's points, I'll make sure to reward you,"

the woman in pink answered back as she drew closer to Austin.

She planned to take Austin's life so that she would be the one to get his points.

'There are only two prey, but there are six members in our team. This means that not all of us could get points. I need to take action now, ' she thought to herself.

"Ha-ha! Boy, come over here and let me have a good look at you.

I have a soft spot for boys with good skin like you,"

the woman in pink said to Austin as she took a seductive look at him.

"You are seducing this brat in front of my face,"

the short man whined with a sullen face.

"Come on, boy. Come over here. Don't be afraid. I will not make you suffer," the woman in pink continued to coax Austin, gesturing at him to approach her.

She seductively moved and slightly pushed her breasts together, leaving the men staring at her.

The rest of the men burst into laughter as their eyes remained fixed on the woman.

"Are you flirting with this guy in front of us?" one of them said in a playful tone.

The six of them didn't think that their prey could flee. They were confident that Austin and Magee would lose to them.

And it was a matter of time before they finished off their prey and got their treasures.

They thought it was not bad to have some fun first. After all, they needed a break.

The Supreme God

Chapter 3467 The Killing

"Ha-ha! With all due respect, miss, do you really want to kill me or not?"

Austin showed no signs of fear as he smiled calmly at the woman in pink.

"The six of you seem to be a small group. It looks like everyone is really forming teams in this area,"

Austin added.

"Yes, most of those who didn't join a team had already died.

Young man, are you interested in joining our team?"

the woman in pink asked with a playful smile.

"Ha-ha-ha!"

The other five people in her team all broke into fits of laughter.

"Let this rascal join our team? Seriously, baby? I can blow a horde of weaklings like him to death with one breath!"

"You like a little toy boy, don't you?"

Be careful. They may be good-looking, but they are nothing but hopeless airheads! Ha-ha!"

The rest of the men laughed wickedly and joked on.

"Ugh, what dirty thoughts you guys have!"

the woman in pink blushed and whined.

At that moment, the atmosphere was more relaxed.

"Austin, what should we do?"

Magee secretly sent a message to Austin through his spiritual sense.

"Don't worry, Master Magee. These medium-grade divine gods are just ordinary in strength. Don't be afraid of them,"

Austin replied.

"Honestly, I'm not interested in joining your group.

There are only six of you in your team. You are too weak, and I'm sure you will all be killed soon. Ha-ha!"

Austin said disdainfully.

"You bastard, how dare you say that!"

the handsome man could not help but get offended.

"Ha-ha! Look at you getting cocky. You haven't grown up yet, but you're acting like you can beat us all.

Now, you can go to hell!"

the woman in pink said as she smiled sarcastically. The sparkling in her eyes remained the same, but her voice was turning a little cold.

Austin came to the back of another man and launched another high-powered attack.

The force of his tremendous sword aura, dozens of earth dragons, seven divine gods, a majestic dragon, and Austin's violent fist ravaged the man's back!

At the same time, to assist Austin's attack, Magee also dashed madly towards the man.

Before taking action, Austin had already secretly informed Magee of his sneak attack through his spiritual sense, and asked him to cooperate.

Therefore, the two of them ganged up on that man and caught him off guard.

"Please! Help me!"

The man who suffered the joint attacks of Austin and Magee was scared to death. Austin's extraordinary bodily movement skill and speed made him feel desperate!

"Stop!"

"Brat, you're courting death!"

The other four men finally came to their senses. They roared and rushed over to help their teammate.

However, it was too late.

Boom!

In an instant, the man's head blasted into pieces!

All his points and treasures were immediately transported into Austin scores and Soul Sea respectively.

"Damn it! Let's kill that fiend together!"

The remaining four men were all shocked and enraged as they tried their best to take Austin's life.

"Master Magee, let's run and let them chase us!"

Austin shook his body and took Magee away quickly. While he stood dozens of miles away, he immediately turned around and sneered at the four men.

He knew he couldn't fight against them altogether.

Instead, he planned to use his advantage in bodily movement skill and speed to deal with them, and to bring them down one by one.

"Come on! Let's kill that brat and avenge our girl!"

The remaining four men were infuriated and used their bodily movement skills to run after Austin. The short man was the most wrathful one. His eyes blazed wildly with fire, as if he was eager to swallow Austin alive at once.

In a few seconds, the four men had already caught up with Austin.

However, their bodily movement skills were not at par even among themselves, just as Austin had expected.

The short man was the fastest and now the closest to Austin.

"Hey, I'm waiting for you."

Austin sneered, grabbed Magee's sleeve, and took him. In an instant, they arrived in front of the man with a short stature.

"Go to hell!"

With all their might, Austin and Magee attacked at the same time.

Boom!

In the blink of an eye, the short man's body was completely shattered after only a few moves!

The Supreme God

Chapter 3468 The Power Of The Chaotic Striding Boots

Austin stood in the air as he was surprised at his destructive power.

'It turns out that its maximum speed is indeed terrifying!

People often don't take speed as a fighting skill. However, when one can move much more swiftly than his opponent, other skills won't even matter.

As the old saying goes, the faster it is, the harder it can be defeated.

Ha-ha!

That's amazing!

Austin got a little excited.

He had unintentionally obtained a pair of Chaotic Striding Boots, which had helped him gain a strong foothold in the competition.

Because of this powerful chaotic magic treasure, Austin was filled with confidence.

Moreover, he didn't feel the need to be as cautious as before when traversing the competition area for medium-grade divine gods.

"It's your turn!"

Without hesitation, Austin displayed the Peerless Lightness Skill, activated the Chaotic Striding Boots, and rushed towards one of the remaining three men.

It did not take him much time at all to strike the man.

Among the remaining three men, the man who ran at the forefront naturally became Austin's next target.

It was Austin's general strategy; he would scatter his enemies first, and then defeat them one by one.

"Hurry up! Save me!"

The man was so frightened that his voice trembled. He was growing desperate, so he hurried to ask for help from his two companions behind him.

Austin's horrifying bodily movement skill and speed made the man scared to death and have no will to resist at all.

However, Austin and Magee didn't care about him in the slightest.

All of a sudden, they launched a series of violent attacks, like two fierce and unstoppable tigers!

Boom!

Their joint forces caused a wild torrent of energy to surge in the whole world.

The man was just an ordinary medium-grade divine god. Magee alone was enough to defeat him, not to mention with Austin's help.

In an instant, the man was finished within two moves!

Boom!

Then, the man's body was completely shattered.

Magee agreed.

Without hesitation, Austin took Magee, used the Peerless Lightness Skill, and activated the Chaotic Striding Boots. In a flash, they disappeared, and their speed was so fast that no one could follow their trace at all.

Not long after Austin and Magee disappeared, a dozen people dashed over from all directions, and each of them had a menacing look on their faces.

The leader was a middle-aged man with a sculptural face. His expression was extremely cold, and the illusory points above his head had reached 3000 points!

"Sir, those two guys have managed to run away!"

"They are too cunning. They were here just now, but in the blink of an eye, they vanished into thin air!"

More than fifty medium-grade divine gods surrounded the middle-aged man in the middle.

It was evident that the middle-aged man was their leader.

"Well, that's a pity."

The middle-aged man had a sinister smile on his face.

"At this stage of the game, it's becoming more and more challenging to kill any opponent.

It is now a fight between teams.

Listen! We need to find a team with a small number of people and eliminate them directly!

I have a very powerful chaotic magic treasure with me, but my points are not enough to refine it.

You all have to help me get more points. When the time comes that I have sufficient points and have successfully refined the treasure, we can wipe out all the teams and win this competition!"

the middle-aged man declared loudly.

"All right! We will try our best to help you!"

"By now, more and more contestants have found powerful and rare treasures, and have refined them.

In addition to a large number of divine magic treasures, there are also a small number of chaotic magic treasures appearing in this area.

I can't believe that you have found a chaotic magic treasure. If you do refine it, your combat power will greatly increase. At that time, you will definitely be able to lead us to win!"

The others cheered up one after another.

"Yes, there are lots of magic treasures in the competition area for medium-grade divine gods, but only the chaotic magic treasures can really improve our strength here in the competition.

Cultivators who have obtained chaotic magic treasures will definitely have the upper hand!

If you all help me, I will lead you to great victory. Not only can you leave the Fallen Divine Valley alive, but you will also have a bulk of invaluable treasures in hand!

By then, we will all make a great fortune!"

The middle-aged man burst into laughter.

"Yes, we will definitely support you!"

The rest of them were inspired by his words and became emotional.

"Well, let's go!"

The middle-aged man immediately waved his hand.

Whoosh!

Then, the team went away in an instant.

The Supreme God

Chapter 3469 The Situation Was In A Mess

Filled with purpose, Austin and Magee started off running at full speed.

In fact, they moved so fast that they couldn't see what was in front of them. Austin trusted his gut to lead him in the right direction and keep him from danger.

Along their journey, they slowed down at times and observed their surroundings. Almost every time, they encountered other teams, all with many members.

After weighing the pros and cons, Austin and Magee chose not to join them and kept moving.

Still, there were moments where the teams saw them and shot attacks their way.

Fortunately, Austin possessed his brilliant bodily movement skill and was able to use it to escape, bringing Magee along with him.

After hours of running, they arrived in a desert, where a team was milling around aimlessly.

There were more than forty members in this team, which made it a relatively strong team and they all had their eyes peeled for opponents.

The man who was in the lead wore golden armor all over his body, and the points floating above his head had reached more than six thousand!

"Boss, we are worried. You have enough points to stand out among all the medium-grade divine gods.

However, our points are not enough. How can we win?"

Some of the other team members complained, slumping their shoulders.

"Stop whining. Don't worry.

I will lead you to continue to hunt other people so that your points will continue to rise.

Besides, I've refined a chaotic magic treasure, meaning there are few medium-grade divine gods who can defeat me. Don't doubt me!"

The leader in golden armor said arrogantly.

From behind a huge sand dune on the left side of the desert, Austin poked his head out and focused his gaze and spiritual sense on that team. They walked away from their leader and resumed their pacing.

Magee also joined him by poking his head out cautiously.

"We've been traveling for days now. My feet hurt and nothing seems to be changing.

There are many teams but we haven't been able to find a chance to take action."

After observing for a while, Austin lowered himself slightly so just the top of his head was peeking out.

In the past few days, both Austin and Magee had felt nothing but despair and they only wanted to sleep or fight, yet neither had presented itself.

They wanted to find an opportunity to hunt down other participants again, but they didn't expect that they would encounter a large number of teams along the way.

Unlike him and Magee, all of those teams had at least ten members.

Although Austin was strong and fast, he didn't dare to make a move unprovoked against the team in front of him.

and it seemed like it was too late for Austin to find others to what he could see, no one else was alone.

Magee said, sighing. The helplessness in his tone was never going to leave.

Suddenly, the facial expressions of Austin and Magee turned worried.

Another team, dozens of miles away, was walking towards them in a slow march.

"Let's hide for a while,"

Austin suggested. He then activated the Reincarnation Token and found a place nearby where they wouldn't be seen.

He also communicated with the Earth Energy and quickly set up an array to hide their body heat and breathing.

The array he just deployed was actually turning this place into an artificial land of death that was in a relatively smaller size.

Although it was not as dangerous as those natural born and large-scale lands of death, it was useful at the critical moment.

Before long, the team of more than fifty people reached them and stood in the forest.

Shoop! Shoop! Shoop!

Like lightning, figures landed around them one after another in the dense forest, and luckily, they had just managed to hide in time.

Every member that appeared was huge and menacing, cracking their knuckles and glaring around the forest.

Neither Austin nor Magee were surprised to see this.

At this point, only the strongest contestants would still be alive.

Moreover, this team had more than fifty people, making it a very powerful team.

"What? This is weird. There were two people here just now. Why did they disappear all of a sudden?"

Questioning, the team members continued to search the area with sharp eyes.

Fortunately, they didn't notice Austin and Magee, who were hiding very close by.

"Everyone, by now you all know that the competition is getting more and more fierce as this competition goes on.

Our opponents will challenge us in ways you can't imagine.

Therefore, we need to come up with some tactics to overcome every difficulty we may face.

I wonder if you have made up your mind about the honey trap I proposed earlier,"

a handsome man with a fair face named Aubrey suggested.

Next, he looked at the six female members in the team.

These six female members were all charming and graceful!

"Well, Aubrey. We think it is so embarrassing.

Besides, this is a life and death battle now. Even if the six of us are willing to sacrifice ourselves to seduce other people, they may not fall into our traps. They are all smart,"

a pretty woman in a pink dress said hesitantly.

The Supreme God

Chapter 3470 Meeting Otis

"Why is it so embarrassing?

It's not like I'm asking you to actually sleep with them. I just want you to lure those people in small teams and seduce them into thinking you are weak and fragile.

Once they took the bait, we can take advantage of them and kill them!

Here, I will teach you an enchantment skill that I have studied recently. After you cultivate this skill, you can form an enticing array vigorously with great power.

When I was travelling in the Sea of Chaos, I accidentally came upon this set of charms in an ancient cave. It is extremely precious, but I'll give it to you for free so you can practice it,"

Aubrey said.

"Besides, you can rest assured that if you succeed, the six of you will get more benefits than the others!

How does that sound?

I advise you listen to me and follow my plan. After all, this competition is about surviving and eventually leaving the Fallen Divine Valley.

It's survival of the fittest! Think of it as a matter of life and death!"

Aubrey persuaded the group of women.

"Well... fine!"

The six female members of the team finally nodded in agreement after thinking for a while.

"Okay, then. I'll teach you the enchantment skill.

Others, take a break!"

Aubrey was overjoyed.

"The situation is getting more and more messy.

Austin, let's leave here as soon as possible,"

Magee proposed to Austin.

"All right."

Then, Austin left quietly with Magee.

Lisa, the woman in the pink dress, replied and smiled gently.

"Originally, the six of us belonged to a team with more than thirty members.

Not long ago, we found a chaotic magic treasure.

To our surprise, another team with the same strength suddenly arrived and fought us for it.

It was a fierce battle.

Since our strengths were at par with each other, both parties had many casualties and majority of the members alive got seriously injured.

We were all severely wounded in the battle that we almost completely lost our fighting power. There came a time when most of us had accepted our fate!

Fortunately for us, the leader of our team was benevolent. At that critical moment, he tried his best to protect us and as a result, we managed to escape and survive.

After recovering, we sneaked back, looked at the battlefield from afar, and found that two teams had perished there together. Every single one of them was dead on the spot.

Until this day, we are still traumatized from that tragic battle!

Moreover, we fear that some of our enemies might not have died. Therefore, we dared not to get close to see what was going on.

Eventually, we left and went to a remote place to heal ourselves.

Then, we met you guys!

Otis, please believe me. We are all weak women. Our team has been destroyed. We are helpless!

If you allow us, we'll follow you from now on. Please...Please let us!"

The girl in pink, Lisa, began to sob in a low voice as her slender shoulders trembled slightly.

She wept and looked quite pitiful that anyone would feel sorry for her and have the urge to protect her.

As a kind-hearted person, Otis was always empathetic with other people's emotions. He could not bear to see a woman so distressed, so he immediately stepped forward to comfort her.

The other five girls also began to cry grievously.

"Lisa, don't worry. From now on, you and your friends can become members of our team.

Come on, let's hurry and see if the chaotic magic treasure is still there.

If we can obtain it, our team's strength will be greatly improved,"

he said with enthusiasm.

"Really? You'll let us stay? That's great! Thank you, Otis. You are so kind,"

Lisa exclaimed in a seemingly surprised and joyful tone. She smiled so brightly, but there was an imperceptible killing intent in her pure eyes.

The other five girls also burst into laughter at Otis' promise. From time to time, they winked at the male members in the team, which made the latter aroused and swallow saliva nervously.
