## Chapter 3471 Two More Big Fish

"Otis, don't worry. It won't be easy to find the chaotic magic treasure since it's in a hidden cave.

If both teams perished at the same time while fighting for it, it should still be in that cave,"

a charming smile pulled on the lips of the girl in pink.

Both her pleasant voice and beautiful facial features, coupled with her smooth and delicate skin, made her incredibly attractive.

Even a gentleman like Otis felt aroused by her charm and quickly looked away from her.

"That's great! Lisa, lead the way!"

Otis was filled with joy and his entire face lit up.

Their entire team was being led by Otis.

Because he was a very strong fighter among his peers at the same level as medium-grade divine gods.

"Wow, what a good actress! Her act was almost perfect.

It's hard for ordinary people to notice that she's a hypocrite."

A sneer appeared on Austin's lips as he watched.

"Seems like Otis completely trusts these six bitches.

Fortunately, Master Magee and I learned their identities in advance, No matter what the game they're playing, they're already doomed to lose.

Master Magee, let's go and meet Master Otis.

But let's not expose their plot first.

I'm going to discuss with Master Otis how to deal with them first," said Austin.

"Of course, Austin."

Magee readily agreed with a nod.

Almost at the same time, the two of them jumped out from their hiding place.

Shock filled Otis and his companions when two people suddenly appeared in front of them.

"Otis! There's two people ahead! It seems like they are on their own," the girl in pink said in surprise.

"You're right!

But... they seem very familiar. Are they..."

Austin asked excitedly.

"Alas..."

A long sigh left Otis at Austin's question.

Even Bernie's face twisted into a bitter and helpless expression.

From their expression alone, Austin could guess what was happening to them. Seeing the measly 2000 points above Otis's head, while only 1700 points hovering over Bernie just confirmed his guess.

Among the small team, all the other members also had very low scores, some only had around 300 to 400 points.

With the competition going for as long as it had, such low points weren't anywhere near good enough.

Based on how Otis and the others looked, they were aware that they were in a desperate situation.

"Amazing! Look at you two! Your points!"

All of a sudden, Otis' jaw dropped to the ground as his eyes focused on Austin's points!

Austin got more than 2000 points.

While Magee had more than 3000!

Since the start of the competition, Austin and Magee were acting together, which meant that they were on their own the whole time.

It was an amazing feat that they survived for so long without being hunted down.

No one could have possibly imagined that they'd get such high points!

Disbelief was clear on their faces as they gaped in shock at the illusory points above Austin's and Magee's heads.

Since they all suddenly met, they were so excited that they didn't have the time to carefully look at each other's points. It wasn't until now that they began to actually look at their scores.

"Otis, don't look at me. It's all because of Austin.

If it wasn't for him, I would've been dead already,"

Magee explained with a smile.

"Master Magee, you flatter me.

If it wasn't for your insanely powerful strength, I wouldn't have been able to hold on till now,"

Austin hurriedly argued.

"All right. I have to say, no matter what happens, as long as Austin's here, I can always deal with it,"

a bitter smile appeared on Otis' face.

'I didn't expect to find two more big fish here!

Excellent!

Every member of this team is a loser with low points. I was just starting to get bored.

Now two big fish came to me! What luck!

Lisa and her five other female companions lit up in excitement, all of them looked at Austin and Magee with undisguised greed in their eyes.

With a brighter smile, Lisa couldn't stop herself from excitedly walking towards Austin.

Chapter 3472 Lure Us Into A Trap

"Whoa! Magee, Austin, I can't believe that two of you had garnered so many points! You're truly amazing!

I admire people like you," Lisa gushed over the two of them.

She looked at the both of them with sparkling eyes.

"Is that so?"

Austin sheepishly smiled, pretending to be attracted to her.

"You also have a lot of points. In fact, you made more than I did!

Which means you're better than me," he continued.

His gaze was focused on the number hovering above Lisa's head.

She had over three thousand points.

Compared to Otis, she had amassed more.

Austin scanned her friends' score. He found that each of them was roughly around three thousand points.

'These bitches gathered more than three thousand points. It looks like they have tricked plenty of teams.

But no matter, they will all die in my hands.

My team and I will then get their points.

It's too bad that their team consists of over fifty members. Hmm, that looks a lot, but it would be too difficult to kill them all if they're banded together.

However, if we manage to destroy them, we would acquire a lot of points!

Austin rubbed his chin as he formulated a plan to terminate the six women.

'Ha-ha! These men acquired lots of points. That, too, will be ours. You better enjoy the last few moments of your lives while you still can, ' Lisa sneered inwardly.

She had her wanton gaze fixed at Austin, seducing him.

Austin and Lisa were both pretending to like each other when they wanted each other dead.

"By the way, where is Clarence? Haven't you found him?"

It will be great if we get him,"

Magee mentioned out of the blue.

"Uh..."

Lisa was rendered speechless. Annoyed, she showed a hint of her authentic self. There was unnoticeable malice flashing through her eyes. But she immediately retracted it, and she pretended to smile sweetly to save herself from embarrassment.

"Austin, you are really a loyal and righteous man.

But... Alston has many excellent subordinates under his command.

What's more, I've heard that he has acquired over ten thousand points, and he even has refined a very powerful chaotic magic treasure.

So it's not easy to avenge your friend. I think it would be nice to think twice about your plan," she soothed.

Austin knew that Lisa was trying to lure him into a trap to eventually strike them down.

"Oh? You're right. Do you have any plan in your mind?"

Austin asked.

"I'll be honest with you, Austin. I am planning to take Otis to a chaotic magic treasure.

If he acquires this treasure and refines it successfully, his fighting skills would dramatically increase.

And the overall strength of our team would also improve along with it.

By then, you will have the chance to take revenge on Alston and his team,"

Lisa offered after pondering for a while.

"She has a good point, Austin. Let's set off now. If people from other teams take action ahead of us, they will get that chaotic magic treasure. We can't let that happen,"

Otis agreed.

'This bitch is so adamant about getting us into a trap so that she could put us down. She is such a pain in the ass.'

Although Austin looked calm on the surface, he was furious and was itching to finish off Lisa.

'A chaotic magic treasure... Now that they had set their plan to fool us with a chaotic magic treasure, perhaps I can use the same way to handle her and her team.'

An idea flashed through Austin's mind.

'Okay, that's it!'

Austin made up his mind.

"Master Otis, do you believe me?"

he suddenly asked Otis through his spiritual sense.

"What? What are you talking about, Austin?"

Of course I trust you.

If it weren't for you, I would still be trapped in the mountains and wouldn't have the chance to be here.

Dude, what is it? Wait, are you suspecting Lisa of something?"

Otis replied through his spiritual sense.

### Chapter 3473 Three Chaotic Magic Treasures

"That's right. These six women are actually spies sent by another large team, and they intend to lure you and your team into a trap so they can kill you all.

Master Otis, starting now, I'm going to need you to work with me.

I'll deal with this. I've come up with a plan, but this should remain between you and me.

I'm going to hunt them and their whole team down, all right?

For now, only you, me, and Master Magee know about this.

Don't let the others find out about this yet,"

Austin talked to Otis through his spiritual sense.

"All right. I believe in you.

You're resourceful, clever, and you also have a lot of trump cards.

You have my support, and I'll keep it from others for the time being,"  
Otis agreed.

Since they were covertly communicating with each other through the spiritual sense, they didn't show any emotions to keep others from finding out.

Otis carried on with their conversation with the others to avoid being suspected. "Ha-ha! What do you think of Lisa's suggestion, Austin?

I know you're still at the Divine Realm, but you've always been very smart.

I think you'd do well, so I'm appointing you as the counselor for our team.

You need to voice out your opinions on major matters in the team, all right?

With you joining us, I believe that everything will turn out well and we'll be able to take the victory," Otis declared.

His voice was loud and filled with confidence.

"Well..."

Otis' announcement took all the team members by great surprise.

Lisa thought restlessly as she stared at Austin.

At the same time, she was also quite puzzled. 'Something's not right here. How was he able to bring so many medium-grade divine gods to respect him like that?'

Lisa tried to mask her agitation and said, "Austin, what are you worrying about? Don't you realize how important this chaotic magic treasure is for a team?"

The moment we get our hands on it, the strength of the whole team would be greatly improved!

So, what are you waiting for? We'd better hurry up and get that treasure!"

Just when Lisa finished talking, she walked up to Austin with all five of her friends. They surrounded and ogled him while their sweet scent filled his nose.

For a moment, Austin seemed to see things. He saw that these attractive women were dancing around trying to seduce him.

He then realized that some law power was also being used on him.

'Wow, what a powerful enchantment skill!'

Austin remarked as he snapped out of his illusions.

Aubrey, Lisa's team leader, had taught all six of them these skills.

Now that they were trying to get Austin to search the chaotic magic treasure that didn't even exist, they used the skill on him.

However, it didn't work on him since all the energy they produced from the enchantment skill that entered his Soul Sea ended up being eaten by the spiritual tree and the spiritual dragon.

"Well, you're right, Lisa.

The chaotic magic treasure means a lot to a team. It will play an essential role in taking the victory.

And since you're a good person, I'll tell you a secret.

In that cave you mentioned, there's only one hidden chaotic magic treasure.

But what if I tell you that I know a place where we can find not just one, but three chaotic magic treasures?"

Austin pretended to be bewitched, so when he spoke, he glanced at the six women salaciously from time to time.

"What?! Are you serious?"

Do you really know a place where we can get three chaotic magic treasures?!"

Everyone around them was shocked at what Austin had just disclosed, except Otis and Magee.

They both knew that it was just a hoax and that Austin's real intention was to deal with Lisa and her friends.

# The Supreme God

Chapter 3474 They Had Ulterior Motives

"Austin! Are you telling the truth?"

Are there really three chaotic magic treasures?"

In order to support Austin's words, Otis pretended to put on a surprised and shocked expression and his breath became heavy.

"Austin! That's unbelievable! Three chaotic magic treasures? Are you sure? You're not just kidding, right? That's awesome!"

As for the others who didn't know the truth, their faces turned red because of excitement. They were so excited that they couldn't utter a complete sentence.

As for Lisa and her five companions, their eyes lit up as they stared at Austin. They were too excited and were short of breath as their chests heaved sharply up and down.

"Ha ha, do you think I would lie to you?"

Austin said with a smile and a wink.

"No, I don't think you would!"

I trust you. With my understanding of you and our friendship, Austin, you never lie to me!

Ha ha... It's awesome!

If we can get all three chaotic magic treasures, our strength as a team will increase sharply. We won't have to live in fear like we do now!"

Otis burst into laughter.

Of course, it was all an act in support of Austin.

"So, do you think we should go to the place mentioned by Lisa to get that chaotic magic treasure, or to the place I know first, and get three different ones?"

Austin pretended to ask.

"Well..."

Otis seemed like he was seriously thinking it over.

'Three chaotic magic treasures!'

At this time, Lisa was making eye contact with her five companions.

The six women's eyes widened!

"Sisters, I didn't expect this guy to know the whereabouts of three chaotic magic treasures. Well, apparently our plan has to be changed. This is equally important.

Find a way to inform Aubrey immediately!

We must get the three chaotic magic treasures before anyone else does.

If our team can get a hold of all three, our strength will greatly improve, and it is even possible for us to become one of the strongest teams!"

Lisa sent a message to her five female companions as an undisguised greed flashed through her eyes. She was so excited that even her heart was trembling inside.

"That's right!

Three chaotic magic treasures in one place! We can't miss them!"

Hearing Austin's words, Lisa was overwhelmed with excitement and got dizzy. She tried her best to control herself, with a gentle and kind expression on her face.

"Well, Austin, you promised you would get me the three chaotic magic treasures,"

Lisa said immediately, casting charming glances at Austin, batting her lashes at him.

"Okay.

I believe you and I will obey you!"

Austin took another step towards Lisa and got very close to her body.

"Ha ha, you are such a good boy."

Lisa covered her mouth and laughed. She was able to safely dodge a kiss!

She knew that everything would be easy as long as Austin agreed.

Just now, Otis had clearly declared that he would hand over the decision-making powers over the team to Austin.

"Otis, I've made up my mind. Listen carefully.

My five sisters will go back and take the chaotic magic treasure. They will find out if anyone of our previous team has survived.

If there are survivors, my five sisters will participate in your team along with the chaotic magic treasure and the surviving members.

As for me, I will go with Austin and you, so we can get the three chaotic magic treasures.

What do you think, Otis?"

Lisa turned to Otis and said.

"Well, It's all up to Austin.

Since he has agreed, then of course you can!"

Otis nodded.

"Okay, great! Let's go now."

Lisa was overjoyed. She thought she was very smart. She had turned this small team around with her little finger.

After the discussion, her five female companions left together and went to the cave to get the chaotic magic treasure and look for the team members who could still be alive!

Austin led the team to another direction.

'Humph! You brat, when I get the three chaotic magic treasures, you will know how powerful I am!'

Lisa thought to herself proudly as she ogled at Austin.

'Bitch, you will regret it!'

Austin laughed in his heart and gave Lisa a playful wink.

They both had their own ulterior motives.

## The Supreme God

Chapter 3475 Luring The Enemy

Following Austin's lead, Otis hurried his group forward.

"Austin, where are we going?"

About an hour later, Otis finally couldn't help but ask, making sure to send his message telepathically so that no one could eavesdrop on their conversation. Even though he tried to suppress it, he was unable to hold back his curiosity any longer.

"We're going to find a dangerous place and set up some arrays around it so we can kill our enemies,"

Austin promptly replied.

"Austin, you can be honest with me. What's wrong with Lisa?"

Otis questioned, glancing around surreptitiously even though he knew no one could overhear them.

Before they all set off, Austin didn't manage to tell him about Lisa's identity.

Now in response to the question, he quickly used his spiritual sense to tell Otis Lisa's background and the details of her evil plans.

"What? What a hateful bitch! She even tried to set up a trap to hunt down my team!"

Austin, I'm so lucky you arrived in time. I would have completely fallen for her trap otherwise!"

Although they weren't standing that closely together, Austin could still hear the angry grinding of Otis' teeth as he paled after learning about Lisa's plot.

"So, what's your plan?"

Do you want to lure that team with more than fifty people here and fight them?"

We have too few people on our side. We're far from being their match!"

Otis set aside his anger for now and began to worry about Austin's plan instead.

"I don't have a specific plan to deal with them yet. For now, let's move forward and find a dangerous place. After that, we'll fight with all our might when we meet them. If we win, that would be great. If we can't, we run!"

I can set up more arrays. It shouldn't be a problem.

Let's give it a shot!"

Austin grimly suggested.

"Fine.

Since you've already roughly planned it out, I'll give you all my support and trust you!"

Otis nodded in agreement. He didn't become a divine god by being scared of taking risks.

Half a day later, they finally arrived at a suitable place.

'Yes! There's a very dangerous terrain ahead. That's the exact kind of place we need!'

All of a sudden, Austin's eyes lit up and brightened his entire face as he stared at the mountain range in front of him, pleasant surprise filling his chest.

"Hurry up! We're almost there!"

As one, the five beautiful women hurriedly nodded.

"Well, we'll divide into three groups and move forward in these three directions. We'll thoroughly search every nook and cranny!"

Aubrey announced, deciding this was the best course after carefully thinking it through.

Afterwards, he quickly divided his team into three smaller groups, each with about eighteen members.

He led one group himself, and the other two teams were led by two powerful medium-grade divine gods.

"Remember, don't go too far!

If we can't find them within thirty miles from here, turn back and gather here."

Aubrey's eyebrows furrowed as he cautiously warned them.

"Don't worry! We understand!"

Both the leaders of the other two groups quickly nodded in agreement.

Moving at the same time, the three groups departed to search in the three directions.

On a distant mountain peak, two figures hid within a dense forest.

One of them was Austin, and the other was Otis.

"Ha-ha! Everything's going exactly as I expected.

Each group seems to have about eighteen people. With the help of the arrays, we should be able to deal with them!"

A sneer appeared on Austin's face as he carefully studied the situation.

"Austin, you did a good job. This is a genius idea. You separated them so we could deal with them one by one.

Even if we can't win, we could still escape."

Otis showered him high praises while wearing a gentle smile.

With a wave of Austin's hand, waves of yellow Earth Energy rose from the ground and shrouded the two of them completely like fog covering the sky.

A moment later, the group assigned to search in the west left no stone unturned.

Suddenly, a large bamboo forest appeared in front of their eyes. Loud rustles of the leaves echoed in their ears as the bamboo trees swayed in the breeze.

"Hey! Darnell! Look!

Lisa left this mark! It's pointing to the bamboo forest up ahead!

Could the three chaotic magic treasures really be in the forest?"

A cry of surprise left one of the beautiful women.

She was calling out to the leader of the group assigned to the west, a strong man with a ferocious face and bore a machete on his back. His name was Darnell.

"Let's go inside and have a look!"

With a wave of his hand, he led the group into the bamboo forest.

# The Supreme God

## Chapter 3476 The Metal Trapping Array

Darnell and his men rushed into the bamboo forest like a gust of wind.

The bamboo forest covered a vast area.

Unlike any other bamboo forest anywhere, the bamboos here were so thick that it would take a full grown adult to encircle the trunk with his arms.

With that kind of width, the bamboos towered high up in the air, taller than trees. Whenever a strong wind blew and passed through the forest, they would let out a loud and eerie howling sound.

Deep in the forest, the team wandered around but got nothing.

A moment later, Darnell's men began to panic.

They had been going around in circles and it seemed like they were coming back to the same spot.

"This is not good. Darnell, I think we are lost."

"This bamboo forest is like a giant maze."

"I feel dizzy."

"Damn it! Yeah, something is definitely wrong. I can't tell which way is the right way, either," Darnell said as he became alert.

His eyes darted back and forth to check if there was any danger lurking behind the thick bamboo stalks.

Just then, there was rumbling sound followed by a strong tremor.

Around them, thick bamboos shot out and rose from the ground.

They had barely reached full growth when they turned into sharp golden arrows, coming at the squad from all directions and at a terrifying speed.

At the same time, a large amount of yellow Earth Energy gushed out from the ground like a dusty cloud of smoke.

It then formed massive yellow cage, shot up and flew towards Darnell and his men.

"Watch out!" Darnell screamed at his team.

As one of the cages was about to land on him, he swung the machete just in time, sending the yellow cage pummeling in the opposite direction.

The other team members also took action and took on a defensive stance forming a circle facing outward to protect each other.

"Austin, the geomancy array you set up seems very powerful!"

Otis remarked, shocked and in awe as he and Austin hid at a safe distance where they could watch the entire scene unfold.

"This bamboo forest is of metal elements in nature. I made the Metal Trapping Array so that I can use the metal attribute Earth Energy to take down the enemies.

In other words, I have turned the forest into a land of death.

It is less dangerous than the natural land of death.

But, it can distract this squad for a while and keep them occupied.

All right, Master Otis, it is time to take action and wipe out them,"

Austin explained.

"Okay! Let's get started!"

Otis nodded in agreement.

only sixteen left.

Otis' team, on the other hand had twelve including Austin. Obviously they were outnumbered.

However, the Metal Trapping Array set up by Austin targeted only Darnell and his men. Otis' team was not affected by it.

Deep in the bamboo forest, golden arrows overwhelmed Darnell and his subordinates. Meanwhile, they had to deal with the massive yellow cages.

Besides, a large amount of the powerful Earth Energy formed thick foggy clouds floating that blanketed the bamboos all around them. Darnell and his men were at a loss and couldn't tell the right direction.

Otis and his companions had the upper hand in this environment.

"You set us up! You bastard, you are beyond evil!

Where is Lisa? Show her to us!"

the attractive woman yelled as she pointed her finger at Austin.

Whoosh!

Suddenly, Austin was standing in front of her.

He moved so fast that the woman didn't have time to react.

"You will meet that bitch soon," Austin said impassively.

As he waved his hand, more than ten huge earth dragons tore the ground, rushed out and pounced on the appealing woman.

He then dashed towards the woman, and unleashed his full might on her.

"Darnell, help me!"

the woman screamed in terror.

She became aware that she could not even hurt Austin at the slightest. His bodily movement skill was much too advanced and mysterious.

Austin could dodge all her attacks without even trying.

But she found it hard to avoid Austin's simplest of moves.

After just a few moves, Austin punched her in the face, bashing her head in and crushing some of the bones that protected her eyes.

Without wasting another second, he threw another three-punch attack at the woman. The woman failed to avoid it and took all three.

Her face was so twisted that it could no longer show any expression.

"Arrgh! Boy, you are so cruel! How could you be so merciless to a lady?" the sexy woman screamed hysterically as excruciating pain devoured her.

Her words were getting harder to understand as blood started to pool in her mouth.

The instant those words left her lips, her delicate body exploded.

All her points and magic treasures were automatically transferred to Austin's.

"You give yourself too much credit. Why would I show mercy to you?"

Austin sneered, with no compassion in his eyes.

Whoosh! He disappeared as the woman collapsed in a lifeless heap.

Austin moved on and showed up behind another enemy.

The secret realms in his body were well connected, and the endless chaotic energy was surging and concentrated in Austin's fist.

Bam!

Austin smashed his opponent's head with one strike.

With the Chaotic Striding Boots and the Peerless Lightness Skill, Austin could achieve high velocity even at abnormal levels.

## Chapter 3477 Falling Into Their Trap

In a quick moment, Austin alone had already killed four people. For someone of his caliber, it was just a piece of cake.

His terrible fighting power even shocked Otis, Bernie, and the rest of his team. Their eyes were glued on him while their jaws almost dropped to the ground.

There were several members in the team who had joined only recently, so they were not that familiar with Austin and what he could really do.

Precious, they didn't understand why Otis, Bernie, and the others allowed Austin to lead this team. At that time, they were quite unhappy that Otis trusted Austin so much.

They even secretly looked down on Austin.

After all, Austin was merely a young man at the Divine Realm to them.

In their opinion, the level of his power was too low, and he was no doubt a mere junior, no better than an apprentice.

It was difficult to convince the full support of the whole group when he took the lead and made decisions on behalf of the whole team.

But now that they saw with their own eyes that Austin had killed four medium-grade divine gods in the blink of an eye, they were completely shocked and awed by the fighting power that he had displayed!

After this major turn of events, no one in Otis' team dared to look down on Austin anymore!

"Master Otis, we must run faster!"

Austin roared, urging them move more quickly.

Shoop! Shoop! Shoop!

He activated the Chaotic Striding Boots and the Peerless Lightness Skill at the same time. Like a ghost, he disappeared and then appeared at a terrible speed to launch sneak attacks on Darnell's team.

Unable to respond in time, Darnell's men suffered a lot and were almost exhausted to the core.

Puff! Puff! Puff!

In no time, Darnell's team was completely decimated. Austin had killed every member without giving any of them a fighting chance.

Seeing the opportunity that they had been waiting for, Otis, Austin, Bernie, and the others all rushed towards Darnell, intending to smash him into pieces. With no one to protect him, they were sure that he would meet his death today.

"No!"

Darnell shouted unwillingly before he was surrounded by Otis' team and ended his life.

In this battle, Austin killed the most enemies which totaled five enemies. He did this all on his own.

Now, he got more than three thousand points from all his kills.

As for the others, each of them had killed at least one enemy.

Especially for Otis, he was the one who ended Darnell's life. As a result, his points shot up to more than four thousand points.

"Let's move!

We need to hurry and deal with another group!"

With a wave of Austin's hand, more than a dozen earth dragons swam to each of them.

Otis and the others jumped onto the backs of their earth dragons.

At Austin's command, the earth dragons carried the team into the ground.

In this area, Austin had already set up several arrays. He had even communicated with the Earth Energy and thus he could use the earth dragons to teleport themselves in an instant at an exceedingly high speed.

A few seconds later, in the north, they came upon a huge river, rolling and flushing, with astonishing power and momentum.

A moment later, they had arrived at their destination.

Somewhere towards the east from this place, Aubrey's group was seriously busy searching for something.

"Damn it!

Something is wrong. We might have been fooled!"

Aubrey, who was fortunate enough to have been born with a handsome face, had been searching the east area with more than a dozen members. Suddenly, he stopped and his face was gloomy as he thought of something.

"The more I think about it, the more strange I feel!

I think it is better to go back first and gather with the other two groups!

From now on, our team, with more than fifty people, must not be separated. We must act together!"

Aubrey said in a firm tone.

"That's right!

Aubrey, for now our team has been divided into smaller groups. If we are unlucky to meet a team with the larger number of people, the consequences will be unimaginable."

"Hurry up! Turn around and gather all the other members!"

The other team members also broke out in a cold sweat after thinking about it carefully.

So far, the competition had been mainly about the fight between teams instead of among individuals.

Moreover, the number of team members mattered most.

They had to act together to gain the advantage.

Now, the team led by Aubrey was actually divided into three smaller groups and acted independently!

While it worked in other circumstances and even in the previous challenges, this was a very risky strategy.

If one of the smaller groups encountered a much bigger and stronger team, they would definitely come to a miserable end!

"Fuck! I was completely distracted by the three chaotic magic treasures and made such a wrong decision.

It must be a trap. I was completely fooled by those things!

Hurry up!

Everyone, follow me! We have get to in touch with the other two teams and regroup as soon as possible!

Hurry up!"

Aubrey roared loudly. He used his bodily movement skill and turned around to run away.

The other team members followed him closely.

At this moment, something blocked their way.

"Ha ha ha!

No matter how fast you move, it would not work anyway.

So save your energy.

Your team members in the other two groups are all dead!

If you want to see and talk to them, there is only one way you can do that. I'm afraid you have to go to hell for the reunion!"

A loud laughter resonated in the surroundings.

Boom! Boom! Boom!

Before the laughter faded, a great number of earth dragons appeared tearing the ground open and then soared to the sky.

Standing on the back of each earth dragon was a person.

## The Supreme God

Chapter 3478 Wipe Out Aubrey's Team

"That's the brat called Austin Lin, Aubrey!" the two attractive women exclaimed in unison.

They pointed their fingers towards one of the young men riding one of the earth dragons.

With his hands clasped behind his back, Austin playfully glanced at three of them. He had this charming but cocky look on his face.

"I see. You're that brat.

Where is Lisa?

What did you do to her?

The three magic treasures, what happened to them?

Do they really exist or not? Tell me!" Aubrey demanded.

His sharp gaze was fixed on Austin. He released an aura of a medium-grade divine god and directed it straight at him. He wanted him dead.

"Lisa? Ah, yes. We have torn that bitch into a million bits already.

Members of your other two squads also suffered the same fate," Austin casually mentioned, fanning Aubrey's flames further.

He darkened his gaze and locked eyes with him.

"Now, it's your turn," Austin threatened in a dangerous voice. They all felt a chill down their spine.

"This is a hoax!

You are nothing but a heartless killer, you brat!

Countless members of my group have perished in your hands!"

Aubrey was seething with anger as he realized that they had fallen into a trap.

"Get your ass over here. I'll rip you to pieces!"

he howled.

"Is that so? I'd like to see what you can do to me," Austin said with a vicious smile on his lips.

Then, he suddenly vanished and materialized in front of him in a fraction of a second.

His speed caught Aubrey by great surprise.

He didn't expect that a young man at the Divine Realm could move at such a terrifying speed.

Before he could recover from shock, Austin released streaks of sharp sword-light and controlled them to attack him.

The sword lights were like fireworks that were set off.

Boom!

Austin readied his massive golden fist and swung at Aubrey.

At this point, not any one of them could even catch up to his swift movements.

After a short while of hacking and slashing, seven medium-grade divine gods died at Austin's hands.

Since plenty of his men had already perished, Aubrey's team no longer outnumbered Otis' team.

Otis' group now had the upper hand in this fight, considering that they had Austin with them.

"Argh! It can't be. I had over fifty men at my disposal. You ruined my team!"

Aubrey roared furiously as he watched his subordinates get killed one by one.

When he spoke, he was fighting with Otis and ten medium-grade divine gods.

There was no doubt that Aubrey was a formidable opponent. He was stronger than most divine gods of his level.

He was fighting with eleven medium-grade divine gods, but he didn't lose for the time being.

No wonder he could organize a group of fifty people and become the leader.

"Regardless of your power, you are still doomed!" Otis declared.

Then, they attacked Aubrey with their full strength, while they marveled at his powers.

"Awesome!"

Austin praised as he watched the fight.

"But the game is over!" he added.

With that, Austin drew closer to Aubrey from behind.

As he got nearer, Austin swung at him with his full capacity.

"Kill him!"

Otis and his companions also launched all-out attacks on Aubrey.

He was starting to lose the battle.

Realizing this, Austin punched him in the head.

Then, he hit his neck and his spine.

Aubrey let out a heart wrenching scream.

His voice was full of horror, despair and regret.

He was smashed into pieces by Austin.

"We finally finished off this troublesome guy!"

Otis, Austin and the ten medium-grade divine gods breathed a sigh of relief and collapsed to the ground.

So far, Aubrey and his team of fifty people were wiped out.

After the fight, Otis and his team members all had a great harvest.

They annihilated all of their enemies and acquired their victims' points and treasures.

Above all of them, Austin garnered the most.

He had eleven thousand points in total.

Aubrey had earned over five thousand points in total. After he got killed, Austin got his points.

Chapter 3479 I Have Faith In You

"Let's find a safe place where we can rest,"

Otis ordered as he looked at Austin.

"On it." Austin nodded.

Not long after he led the group to a hidden cave.

Since he was proficient in the Earth Exploring Technique, Austin could easily scan the nearby terrain through the Earth Energy for a safe place to rest.

There, they all let out a sigh of relief as the fatigue finally set in.

They all obtained loads of points and treasures from the battle earlier on.

Someone took out some pills or precious natural resources and swallowed them to replenish the energy they had lost in the battle.

Some began to refine their newfound magic treasures using the points they just gained.

Austin was disappointed to see that all the treasures he collected that day were only at the divine level.

He wasn't interested in any divine level magic treasures anymore. After all, he already had two chaotic magic treasures, the Reincarnation Token and the Chaotic Striding Boots.

He just decided to save his points for chaotic magic treasures.

Austin then took out two magic pills and swallowed them.

One of the pills was the Energy Restoring Pill. It was used by divine gods to restore their energy.

The other was called the Heaven Will Pill. It contained fragments of several types of laws. Once a cultivator ingested it, he could now better understand the laws of nature.

In the next day, Austin had refined the two magic pills.

He opened his eyes and got up.

Not only was he back in his peak condition, but he also grew stronger.

The others in the cave also stood up.

"Austin, if my guess is right, your shoes are..."

Otis talked to Austin through his spiritual sense.

"Yes, this pair of shoes is a chaotic magic treasure,"

Austin confirmed.

"Huh... No wonder you have become so fast.

Chaotic magic treasures indeed are amazing!"

Otis exclaimed.

"With this, you could now easily slay any medium-grade divine gods.

This is a good news for our team!

It was the Scroll of Yin and Yang.

A massive painting of Yin-Yang rose into the air. All of a sudden, the sky went black.

The circles of Yin and Yang on the drawing began to move, which produced destructive columns of energy.

Boom!

The Almighty Pagoda was immediately broken into pieces, and every one of the remaining medium-grade divine gods died on the spot.

The battle was over in an instant.

The next thing they knew, a flurry of points and treasures poured into Alston's body.

He was floating in the air with his hands behind his back. There was a triumphant look on his face.

Alston's score, which could be seen over his head, climbed to over ninety thousand.

"Ha-ha!

I think it's safe to say that I have the highest points.

I'm the best.

No one can compete against me!"

Alston shouted into the air.

"Alston is invincible!"

"Alston, you will surely win the first place in this competition. I have no doubt about that."

"No one can be a match for you, Alston. Everyone will bow at your prowess."

Many medium-grade divine gods complimented him left and right.

They were very thankful to Alston since they had gained a lot alongside him.

Their points ranged from several thousand to tens of thousands.

"Ha-ha!"

Alston threw his head back and laughed wildly.

It took a moment before he got over his crushing victory.

"Well, let's finish off the rest of the participants in this area,"

Alston said as he regained his composure.

Then he stretched out his right hand and a dozen colorful stones appeared in his palm.

"I noticed that there is some powerful restriction in this Fallen Divine Valley that weakens our spiritual sense.

Therefore, we can't use our spiritual sense to perceive things from afar or talk to others who are far away. This may be a hindrance to us.

But I can solve this problem.

I brought the contacting stone from my hometown, a supreme universe.

It can allow us to communicate with each other over long distances.

It can work well even if we are in a place where we are unable to communicate with each other through our spiritual sense,"

Alston said.

## The Supreme God

Chapter 3480 The Insidious Alston

"We now have more than 200 people on our team!

Plus, we have found five chaotic magic treasures so far.

If they were to compare other teams in the competition area for medium-grade divine gods, our team's scale and grain are definitely first-rate!

There's no doubt that we're also the strongest.

However, there are pros and cons to making it this far.

Now, when other teams hear our name, they won't even dare to fight us head-on. They would all just flee and hide.

Because of that, I've come up with a plan.

We'll divide our team into three, and so each team would consist of around seventy members.

Each team would be equipped with a chaotic magic treasure.

I'm sure that a piece of chaotic magic treasure, coupled with a team comprising seventy people, is enough for you to subdue anyone in this medium-grade divine god competition area,"

Alston announced as he paced back and forth. He looked quite pleased and confident about the plan he came up with.

"Lude, Jade, Hyman. Stand up!"

Alston called them out coldly.

Three medium-grade divine gods with sharp auras immediately stood up.

All three of them had tens of thousands of points above their heads. Although they had accumulated points that had gotten astonishingly high, Jade had the most points in the whole team since she had reached fifty thousand points. Besides Alston, she had the most intimidating record.

What was more, Jade was extremely charming. She had eyes that were as gentle as water, a slim figure, and such a lovely face. Her beauty was undeniably top-notch.

"Listen up, you three. Each of you will form a team of seventy members and lead them in hunting down other competitors."

Alston gave them the order with absolute authority.

As he glanced at the three of them, he added, "I believe in your strength. You'll be alright on your own."

The young man laughed ambitiously with Alston.

"If you're serious, then that's great. If the Pan Clan decides to ally with us and get together in our hometown at the supreme universe, I'm sure we will be invincible!"

Alston was overjoyed at the thought.

"Well, my friend. Let's go and find a safe place, so we can have a good rest.

Only ten of us are left here, so we have to be careful,"

Alston said as he looked around to check their surroundings.

"Hah-ha! You're worrying too much. Do you really think that those medium-grade divine gods from the rubbish universe can kill us both?"

the young man reassured him and smiled confidently.

"You're right."

Alston smiled and felt at ease.

In just a second, the two of them left, along with eight more of medium-grade divine gods.
