

The Supreme God

Chapter 3561 The Power Of The Land Of Death (Part One)

"Quit your yapping and just come at me!

If you're brave enough to meet your doom!" Austin yelled with a cruel sneer. Despite being in a seemingly helpless situation, he was still so confident and calm.

The nine medium-grade divine gods of the gods of light side were all behind him. They glanced at each other and decided to come to Austin's aid.

"We can't let him do this alone! Let's fight alongside him! At least we can cover for him!" one of them said.

"Sirs, with all due respect, you don't have to worry about me. I can handle them on my own.

While I'm taking care of them, please utilize this chance to crush those altars."

Austin quickly relayed his message to the nine medium-grade divine gods through his spiritual sense.

After he ensured that they received his message, he gazed at the gods of darkness in front of him and prepared to attack.

'This is the perfect opportunity to test my new-found power, ' Austin thought to himself.

Swoosh!

Austin instantly vanished from where he was standing and rushed forward at an incredible speed.

His speed was lightning fast that he reached a preliminary-grade divine god in a blink of an eye. He swung his fist and threw a massive punch at the unaware god of darkness.

last words, brat! No one's going to save you now!" the fire-disaster beast also

The two ferocious beasts both came at Austin from the opposite direction. They released all their energy and planned to finish Austin with one decisive blow.

"You're dead meat!"

The other divine gods of the god of darkness side and the isolated alien spaces were also on their way to Austin. They wore their smug faces as they assumed that it was finally the end for Austin.

For them, there was no way that Austin could get away this time.

However, just as when they were closing their gap from him, the look in Austin's eyes became extremely sharp.

He then suddenly waved his sleeve.

Then, in a blink of an eye, a small continent materialized beneath his feet.

As each second passed, the continent grew at an astonishing speed.

"You're the one who's got nowhere to run!" Austin shouted.

Then, he quickly made some gestures that hastened the expansion of the continent.

The gods of darkness and the creatures from the isolated alien spaces were heading towards Austin at full speed, so they had no time to think or stop as they saw the huge continent that appeared out of thin air.

None of them had seen this coming, and they didn't even know what that continent really was.

Although the continent only covered an area of about four thousand square miles, Austin had already set up several lands of death in it that contained the space law. Hence, even the creatures which were still a billion miles away from the continent were trapped in the lands of death created by Austin.

The Supreme God

Chapter 3563 The Law Of Gravity (Part One)

The small continent crafted by Austin rumbled forward like a fortress floating in the air, moving with haste.

Austin stood with his head held up high on the continent and his hands behind his back. His calm demeanor at the front made him look like a dominating figure.

"Go to hell!"

He suddenly opened his mouth, anger brimming in his tone. As a result, the purple flying sword quickly morphed itself into a sharp purple light and slashed out.

Boom!

The small purple sword unleashed a terrifying purple light. The light quickly exploded and enveloped its surroundings like bright fireworks when it halted its movement.

Puff! Puff! Puff!

The preliminary-grade divine gods were eventually reduced to pieces by the constant attacks of the purple swords.

"Sirs, you may go and destroy those altars. I'll deal with these guys and keep them off your back.

Hurry up! Destroy as many as you possibly can!"

Austin turned to the medium-grade divine gods and shouted on top of his lungs.

Boom! Boom! Boom!

the small continent began to speed up its movements and moved forward. As it spun rapidly in the air, thousands of earth dragons charged towards the enemies and pounced at them one after

each of their faces at this sight. The growing odds of their apparent loss made them lose their will to fight. All they could do was to dodge and retreat to

them were warriors at the Divine Realm or

impossible for them to hold off attacks from

It was known to everyone that these nine medium-grade divine gods were handpicked by the Jade Emperor himself. Each of them was outstanding among all medium-grade divine gods of their level.

Boom! Boom! Boom!

The nine medium-grade divine gods moved in a steady formation with extremely agile movements, and it was hard to keep up with them with the naked eye. Each of them pulled out various advanced magic

treasures one after another without allowing the enemy with a window to react. They employed all kinds of secret skills to damage those altars.

Four of them had the possession of a chaotic magic treasure respectively. Injecting their maximum strengths in their attacks, they knocked down four or five altars with a single blow.

In the blink of an eye, hundreds of altars were reduced to dust as they exploded on the spot.

"They are not destroying those altars quickly enough! Hurry up! Do it more quickly!"

In the distance, Austin started to get more desperate as time passed by. He could faintly sense several nasty auras approaching them hastily. If his nine companions didn't finish up in time, he was afraid their lives would be endangered if the sources of those auras arrived at the scene.

Apparently, several formidable allies from his enemy's side were making their way towards them with the intention to kill and destroy.

Austin was getting anxious. He wanted to demolish as many altars as they possibly could with the time they had.

His growing concern to finish off the altars was due to their connection with the evil baby. The altars made it possible for the evil baby to be born ahead of time, so their annihilation was their top priority.

The more altars they were able to knock down, the more the tables would turn in Austin's favor.

During his flow of thoughts about the situation, he suddenly had an idea crack up in his mind. He tightened his jaw and concentrated long and hard to manipulate his continent to his will.

The Supreme God

Chapter 3564 The Law Of Gravity (Part Two)

Boom! Boom! Boom!

As a result, the continent under his feet changed its course of direction and headed towards the nearby altars with Austin maneuvering its movements from the front.

Thousands of earth dragons continued their course of action and jumped into the chaotic void to pounce wildly at the enemies, killing them on the spot.

Simultaneously, Austin focused his attention and manipulated the purple flying sword to chip away at the altars.

Boom! Boom! Boom!

Whichever direction Austin took, the altars would crumble to the ground one after the other.

The creatures responsible for holding the sacrificial ceremony were rendered helpless as they didn't possess the strength to fight back. Their lives were as insignificant as those of bubbles that popped under pressure. Soon, the pillars of each demolished altar was painted in crimson with their blood and flesh splattered all over the place.

In less than a second, Austin made quick work of hundreds of altars and smashed them to the ground.

Even after inflicting incalculable damage to the enemy, he refused to stop.

Boom! Boom! Boom!

With the drive to keep moving forward, he manipulated the small continent with his mind to chip away at the altars while also employing his bodily movement skill to keep pushing forward without a second's

worth of delay. With every slight wave of his fist, he switched his direction as he scanned his surroundings looking for his next target.

Boom! Boom! Boom!

Austin's speed was equivalent to the speed of light as he passed by in a flash. His movements were impossible to register. Whichever direction he took, all the altars stationed there would fall helplessly, adding to the ruins.

"Take this for all the damage you've caused! Go to hell!"

Even though there was a significant amount of distance between them, a giant man took the initiative and threw a golden spear using one hand with all his might.

Boom! Boom! Boom!

As it shot from his hand, the golden spear morphed into golden lightning and pierced its way through the sky, directly aimed at Austin and his companions

At the same time, Austin started to sense the chaotic void he was in starting to sink.

An indescribable drop in gravity suddenly took charge and manipulated the space around them.

As a result, Austin felt his body turn sluggish as the weight of it suddenly increased beyond his control. It even became difficult for him to raise his finger, let alone his body.

As he ran his gaze to register what was going on, the space around him began to crack under pressure from being unable to withstand the burden. Crack! Crack! Crack! Many cracks formed due to it failing to endure the oppression.

"Damn it! This is the unique skill of the dawn race. They are using the law of gravity to press me!

Once the gravity law is used, it can instantly increase the gravity of this space by tens of thousands of times, or even hundreds of thousands of times!"

a medium-grade divine god beside Austin shouted, feeling distraught.

"The law of gravity? I must admit that it is quite a fascinating skill!

It seems that all the laws in the world are amazing in their own unique way!"

Austin couldn't help but let out a sigh of exasperation.

The Supreme God

Chapter 3565 Take Some Prisoners (Part One)

"Damn! The members of the dawn race are so proficient in the gravity law.

I can't move even an inch!" one of the nine medium-grade divine gods of the god of light side exclaimed in panic.

All of the nine gods of light that were sent to scout the Yellow Cosmos, along with Austin, were all trapped in the void due to the gravity law that was employed by the giant. With their entire bodies being

restrained, they couldn't do anything but watch as the giant's golden spear flew towards them.

However, Austin wouldn't just stand by and wait until all of them were killed.

With a burning determination in his eyes, he summoned the Reincarnation Token, the Kaleidoscopic Compass, and the Layne's Ruler through his mind.

In this desperate situation, those three magic treasures would be his best chance to escape.

With that, he activated all three magic treasures simultaneously.

They started emitting brilliant lights that formed a dome to protect him.

At the same time, under his control, the continent spun rapidly and gave off dazzling yellow lights. Fragments of the earth law emerged from it along with thousands of earth dragons.

The earth dragons growled ferociously as they violently lashed out in the skies.

With all of them simultaneously called forth by Austin, the Kaleidoscopic Compass, the small continent, and the thousands of earth dragons seemed to be interconnected. They incurred the purest, basic law power.

In just a split second, Austin felt that the laws of gravity surrounding them began to dissipate.

The law power that he released somehow countered the laws of gravity, canceling them and making them explode until they gradually vanished.

After a few moments, Austin and the other medium-grade divine gods were all delighted to find that they were able to move freely now.

Swoosh!

Austin wasted no time and activated the Reincarnation Token, releasing a powerful teleportation force.

what the first divine god said.

"Well, good job, Austin!

You really are a great help," the Jade Emperor expressed his appreciation to Austin.

"You don't have to mention it. I just did my job.

By the way, I've caught many prisoners.

I thought that they would be somehow useful if we interrogated them," Austin explained.

As he waved his sleeve, dozens of divine gods and tens of thousands of cultivators at or below the Divine Realm appeared and landed in front of Austin.

Austin had restricted their powers, so they were unable to move freely.

These people belonged to the ones who were trapped in the continent that was created by Austin.

While some of them were finished off by Austin, he spared the rest to take as prisoners.

"Wait. What? You've taken all of these people as prisoners?"

The Jade Emperor and the other core members of the gods of light were both surprised and elated at what they saw.

Among these prisoners, several of them were medium-grade divine gods and over twenty were preliminary-grade divine gods.

That was why the gods of light were very impressed at how Austin did this.

Then, Austin began counting and inspecting his captives.

"Damn it! Where did the thoroughly-odd beast and the fire-disaster beast go?"

I thought I captured them too,"

he said with a disappointed look on his face as he finished with the rough headcount.

'I'm sure that those two were caught in the lands of death. But it's strange that I could not find them anywhere. It means that they were able to escape. But how?' Austin was lost in his thought.

The Supreme God

Chapter 3566 Take Some Prisoners (Part Two)

"Austin, does it mean that you even took on the fire-disaster beast and the thoroughly-odd beast?"

Peterson asked in astonishment.

He found it hard to believe what Austin had just said. The two ancient beasts were among the top masters of the gods of darkness, and they were pretty known for their cruelty and terrifying strength. Even Peterson and Morphy could only push them into a stalemate. However, Austin was saying that he was sincerely disappointed because they got out of his grasp.

"Yes, I know that I caught them.

But somehow, they managed to escape.

They must have used some unique secret skills.

I was careless!" Austin said with a frown.

"Well, the thoroughly-odd beast and the fire-disaster beast are among the top masters of the gods of darkness. They couldn't be underestimated.

You're right. They must have gotten away through the use of brilliant secret skills. You shouldn't be too hard on yourself. Those beasts have gained a lot of experiences since ancient times. It's not unusual for them to exhibit a trick or two.

Besides, you've already done a good job capturing all of these divine gods.

We'll be sure to extract every useful information from them," Queen Siobhan said as she comforted Austin.

"By the way, Austin, have you found out what the gods of darkness were really up to?" Frost asked abruptly.

They only knew that those gods of darkness were up to something, but they had not yet discovered what exactly their plan was. That was why several scouts were sent to the Yellow Cosmos to uncover their ploy.

"Yes, we have. As a matter of fact, it is much worse than we expected,"

Austin replied through gritted teeth.

Jade Emperor tapped Austin's shoulder as a

Everyone, including him, had high hopes towards Austin.

"Yes, sir. I'll do my best,"

Austin declared confidently.

"All right. Is everyone ready?"

Let's move out!" the Jade Emperor ordered.

As a very decisive man, he led the group to take action.

With every step that he made, an astonishing amount of energy surged and spread out in the chaotic void.

All of the creatures that witnessed them pass through couldn't help but shudder at the vicious energy being emitted.

As the Jade Emperor rushed forward, his body became taller and taller.

His huge and well-built body, along with his thick black hair, exuded a majestic and graceful aura. His eyes were blazing as if he could see through everything. Everyone who saw him was appalled, and no one could compare with him in terms of demeanor.

The Jade Emperor had been a legend in the three thousand big and small universes since ancient times.

He was just born in a small world and had mortal parents.

Then, later in life, he began to cultivate persistently. With his diligence and passion for martial arts, he finally became a divine god.

Moreover, he was the one who personally established the Heavenly Court, which was a powerful organization in ancient times.

Until now, there were still numerous members of the Heavenly Court who were loyal to him.

He was indeed a powerful man, full of charisma.

Even Austin couldn't help but feel in awe as he looked at the Jade Emperor.

The Supreme God

"The Jade Emperor has made his move!"

On the other side, the gods of darkness and the creatures from the isolated alien spaces shouted in panic.

"Screw him! Don't let him intimidate you. Attack!!!"

Powerful cultivators rushed out one by one, ready to fight against the Jade Emperor

"This is it. Let's make this an epic fight."

Queen Siobhan addressed her people at the camp of the gods of light. Then she walked out elegantly to join in battle.

"Jade Emperor, you are now old and your time is up!

We are no longer in the ancient times.

The glory of you, gods of light is nothing now but a piece of history. It has gone!

In this life, you must face your destiny, which is to fall! Your defeat is imminent and you must accept your fate."

A tall and strong man of the dawn race, holding a huge axe in each of his hands, trampled on the void with his bare feet and ran towards the Jade Emperor, bursting into laughter while at the same time flashing a murderous look in his dagger-like eyes.

"You are wrong. The glory of us gods of light will continue in this life and on to the next,"

the Jade Emperor said in a calm yet booming voice that echoed in all directions. His eyes were as cold as ice.

"Kill them all!"

The giant man kicked in the air and crossed a billion miles in the void and reached his opponent in a flash. Like a fierce tiger, he slashed at the Jade Emperor.

With this strike, the terrifying battle began. With a stroke of the Jade Emperor's palm, the heaven and earth turned upside down and inside out. At the same time, time made a recoil, flowing back to the past, which shocked everyone.

Bang!

The huge man's axes were blown away, and his body was sent pummeling like a kite broken from its string.

People of the dawn race were born with great strength, and they had the power to fight against divine gods.

However, the Jade Emperor was a top master among the premium-grade divine gods, nowhere near the weak ones. He could defeat any one from the dawn race.

"Brothers, this is our moment! Our time to fight together!"

Dozens of people from the dawn race swarmed towards the Jade Emperor to besiege him.

They were well aware that they were absolutely no match for the Jade Emperor in a one-on-one battle, hence the show of force in numbers.

At the same time, several premium-grade divine gods, Queen Siobhan, Frost, Brain and Oswald also took action and positioned themselves to fight against the premium-grade divine gods from the gods of darkness and the isolated alien spaces. They could not take chances during this epic battle.

In the fierce battle, all the premium-grade divine gods used the law of supreme enlightenment which they had mastered. This completely disturbed the equilibrium of space and time.

Watching from afar, at the void where the premium-grade divine gods were fighting fiercely, one could only see blurry figures moving rapidly, bright light balls, and terrifying energy waves spreading here and there.

Except for that, nothing else could be seen.

Fortunately, these premium-grade divine gods deliberately controlled the fighting place and fixed it in one position, without randomly shifting it.

Otherwise, some nearby areas would have been affected and the space barrier would have been broken.

At the same time, surprising everyone, Austin appeared beside an altar like a ghost.

With a wave of his hand, he hit the altar with a small continent which suddenly appeared and was now floating in the air.

Boom!

The altar exploded on the spot.

Beside the altar, tens of thousands of creatures holding the sacrificial ceremony were blasted into pieces, turning the place into a pile of mangled carcass.

While releasing the small continent, Austin had already opened his mouth and spat the purple flying sword to chop the other altar in half with it.

Boom!

Under Austin's control, the small continent rotated furiously like a high-speed spinning plate, continuing to smash into other altars in its way.

Austin himself also activated his Chaotic Striding Boots, and with the help of the Peerless Lightness Skill, he jumped onto another altar and punched it.

Austin moved so fast!

Boom!

Five altars were destroyed in a row.

"Well done, Austin!"

In the distance, the Jade Emperor, Queen Siobhan, Frost, Brain, Oswald and other premium-grade divine gods of light were all overjoyed.

"Austin, stop!"

The thoroughly-odd beast and the fire-disaster beast were so angry that they used their bodily movement skills to catch up with Austin, but to no avail.

Austin's speed was too fast. He would just turn into a shadow and would flash everywhere.

Moreover, every time the thoroughly-odd beast and the fire-disaster beast were about to catch up with Austin, Austin would immediately use the Reincarnation Token to teleport himself away from them.

Utterly frustrated, the thoroughly-odd beast and the fire-disaster beast could do nothing to Austin.

Only he could use the Reincarnation Token to move at an astonishing speed and destroy the altars.

Before one could keep count, about eight thousand altars were destroyed!

"Stop!"

When the premium-grade divine gods of darkness saw what was happening right before their eyes, their hearts were broken.

These altars had cost them a lot of energy, resources and time. They couldn't watch Austin destroy them and do nothing.

"Austin, how dare you!

Don't you remember that your wife is still in our hands?"

Baham shouted at Austin.

Austin's face was as cold as ice as soon as he heard Baham's words.

Hearing the mentioning of Caroline, Austin was full of killing intent.

"Thad, return Caroline to me right now, or I will make you regret this day!"

Austin looked at Thad and said coldly.

The others around were secretly surprised.

How dare a preliminary-grade divine god speak to a premium-grade divine god in such a rude tone?

They had never seen anything like this before.

The Supreme God

Chapter 3568 A Great Beast From The Beast City

As soon as he finished speaking, Austin turned around and dashed towards the altars around the Yellow Cosmos.

Using two chaotic magic treasures, the Reincarnation Token and the Chaotic Striding Boots, allowed Austin to move at breakneck speeds. Almost everyone had a difficult time following his lightning-fast movements. All they could see was the tracks he left behind.

Under his control, the small continent and his purple sword easily destroyed the altars one after another, creating loud explosions.

Austin also attacked the altars himself in order to quickly eradicate all of them. Wherever they went, altars exploded almost instantaneously.

At this point, chaotic energy began to release out of all the secret realms in Austin's body.

He also made use of the abundant amounts of chaotic energy present in the chaotic void within a billion miles around him. The secret realms inside Austin summoned all these untapped energy towards him.

Austin felt that he was going to enter the next phase of the cultivation of the Introduction to Vital Energy Circulation.

Tons and tons of chaotic energy continuously flooded his body.

Aside from the pure chaotic energy, there were also numerous law fragments that integrated into him during the process.

These fragments were much more precious than the chaotic energy.

Austin threw his head back, and let out a vicious roar.

He felt he had the strength of the entire universe bottled up inside of him. The feeling was euphoric.

'This is it! I'll have another breakthrough in the Introduction to Vital Energy Circulation!'

Austin's heart pounded through his chest as he was filled with excitement.

"This guy seems to have gotten stronger!" Peterson and Morphy both exclaimed in joy.

The two divine gods knew exactly what was going on with Austin.

"Stop this! You little bastard!" the thoroughly-odd beast and the fire-disaster beast yelled at Austin. Fear started creeping up to them.

They went after Austin in a bid to stop him from destroying more altars along with a platoon of medium-grade divine gods and preliminary-grade divine gods.

However, Austin had no intention of fighting with them. He strategically hid from them using his superior bodily movement skill to his advantage.

Not long after, Austin had already laid waste to over ten thousand altars.

"Ha-ha! This guy is full of surprises," Peterson remarked.

He was filled with pride while watching his disciple's excellent performance.

"Well done."

The other premium-grade divine gods of light including the Jade Emperor, Queen Siobhan and Frost were also impressed with what Austin had done.

"We must do something. If this goes on, our efforts will be for nothing!"

The Jade Emperor, Queen Siobhan and Frost overheard their conversation.

But no one else could hear them.

Frost immediately told what he heard to Austin.

After receiving the message from Frost, Austin turned around to look at the void where the premium-grade divine gods were fiercely fighting.

Even though he resented Thad, his heart softened when he learned that Thad was protecting Caroline.

'The good thing is, Caroline is safe for the time being.

But I have to get her back as soon as possible.

It's only a matter of time before they get fed up and attack her, '

Austin thought to himself.

He then continued to destroy the altars.

Out of nowhere, a vicious laugh echoed throughout the chaotic void.

"Ha-ha!"

Austin suddenly couldn't move an inch.

Not far away, a space teleportation channel appeared, and an evil cloud with bright colors floated out from it.

Inside the cloud, a vicious looking creature stared straight into Austin's soul.

Sweat dripped off Austin's forehead as he felt the ruthless, bloodthirsty aura being exuded by the creature.

The demonic aura it emitted was far stronger than that Austin had met before.

In an instant, Austin's eyes flashed red with anger, and his blood began to boil. He was slowly losing control of himself.

The people from the Divine Corpse Palace were the first one to notice what was happening with Austin.

They turned to look at him.

"It's a powerful member of the beast race from the Beast City.

The three thousand big and small universes is in for a treat,"

one of the horde from the Divine Corpse Palace said with an eerie smile.

"I will not let you continue destroying these altars. Go to hell!"

The creature's voice reverberated throughout the void as he looked at Austin.

Then he stretched out his hand with blood-red fingernails towards Austin.

Austin heard the hysterical cry of countless members from the beast race.

Violent and powerful demonic aura came barreling towards him.

In a blink of an eye, the creature's blood-colored finger grew and was about to touch Austin's forehead. If the creature managed to touch him, his spiritual soul would vanish in an instant.

The Supreme God

Chapter 3569 The Prince From Beast City

"You shameless beast!

Let him go!"

In the distance, the Jade Emperor, Queen Siobhan, and the other premium-grade divine gods were greatly frightened at the scene. They shouted in rage, knowing how dangerous the situation was.

It all happened in the blink of an eye.

Now, no matter how desperate they wanted to save Austin from the hands of the huge beast, it would be too late.

"Ha-ha! You don't have to hesitate, my friend from the beast race. Go ahead and kill that bastard right now!"

Baham and Silas, as well as the members of the dawn race, urged the creature from the beast race as they burst into wild laughter. They were very satisfied with the beast's performance, knowing how sly Austin could be.

"Austin, get away from him!"

Peterson, Morphy, Otis, and the others could just yell at Austin anxiously. They tried to warn him with the best that they could because they had no way to save him at this point.

The gods of light watched helplessly as the demonic finger of the beast approached Austin's head.

"Ha-ha! Human boy, why do so many people give importance to your puny life?"

You're just a preliminary-grade divine god, aren't you?

Do you hear their voices? Some want you to live, while some want you to die.

But ultimately, it's up to me whether you can still breathe the next second.

Do you resent me? I have your life in my hands now!"

The demonic beast laughed maniacally as it stood on the cloud.

"Is that what you think?

That you can decide what will happen to me?"

Despite the life-threatening situation that he was in, Austin just looked at the beast with a mocking smile.

The next moment, he closed his eyes and calmed down.

In the corner of his Soul Sea, three streams of vicious energy were well-hidden in this spot.

They were inconspicuous but deeply terrifying.

Austin didn't want to resort to using these, but he had no choice right now.

These were the streams of energy that were placed by the sky-devouring dog in Austin's Soul Sea before he left the Fallen Divine Valley.

The sky-devouring dog was the one who oversaw and operated the Fallen Divine Valley. Furthermore, its master was once the strongest governing god in the entire Sea of Chaos.

Needless to ask, the sky-devouring dog's strength must also be horrifyingly strong.

It could be assumed that it was even on par to some of the strongest premium-grade divine gods.

But now, they were seeing an almost impossible scene. This very demonic beast was knocked down by Austin and was now the one in grave danger.

"This guy never fails to surprise us!"

Peterson murmured as he was still in a state of shock.

"Impossible!

How could you possess such tremendous energy?"

The demonic creature was hurt badly. Fortunately, he was able to react quickly at the last minute, unleashing several chaotic magic treasures to block Austin's attack.

If he was even a second late, he would have died.

Then, the demonic beast took out a huge transparent bottle, which was full of dark red blood, emitting a demonic luster.

He opened the bottle and drank the content in one gulp. Immediately after, his appearance looked a little better.

"Ha-ha! Damn you, brat! I have been careless just now.

I didn't expect that you possess such power to make me suffer to that extent."

A few moments after drinking the blood from the bottle, the demonic beast was able to breathe smoothly, and his energy was gradually coming back to his body.

Soon, endless demonic aura rose from his body in the form of smoke.

"But unfortunately for you, you still can't escape from your inevitable death!"

the demonic creature bellowed in a bloodthirsty voice as his piercing gaze was fixed at Austin.

Then, he started walking towards Austin with a devilish grin on his face.

"Do you think I'll let you?

You're going to face me first!"

the Jade Emperor roared as his imperial aura quickly spread in all directions.

Previously, he didn't have the time to interfere with the demonic beast's attack.

But now that he was well prepared, there was no way that he would allow the beast to attack Austin again.

As the Jade Emperor was filled with rage, the skies were filled with thunder and lightning. All kinds of supreme enlightenment laws emerged from the depths of the void like colorful ribbons, causing the entire chaotic void to shake and tremble violently.

Endless dazzling lights lit up the entire chaotic void.

Then, the Jade Emperor swiftly moved at lightning speed and rushed towards the demonic beast, intending to crush the latter into pieces in just a single strike.

However, just as when he started rushing towards the demonic beast, another figure appeared out of nowhere.

"Why are you disturbing them? If you want to fight someone, then let me play with you."

Suddenly, a young man in purple robe stepped out and easily blocked the Jade Emperor from advancing further.

This young man had a pair of ominous demonic eyes that were filled with hazy evil power. Staring at them would be enough to let one see millions of demonic creatures roaring viciously. It was as if they wanted to crawl out of his eyes and devour anyone staring at them.

"It's him!

It's the prince of the beast race from the Beast City!"

Even the powerful creatures from the gods of darkness were shocked by his sudden appearance.

The Supreme God

Chapter 3570 The True Identity Of Hackett

Even the Jade Emperor was shocked at the sight of the young man dressed in purple.

The demonic aura he emitted was too strong and pure.

It could be said that he possessed the purest demonic aura that one could ever witness.

The Beast City was known as an extremely dangerous place where lots of powerful creatures resided.

Hence, the Jade Emperor didn't have the slightest intention of underestimating this young man.

However, the young man was aggressive.

Without any warning, he launched an attack at the Jade Emperor the first chance that he got. He released an eerie demonic fog and directed it at his opponent.

From the dark fog, a skeleton claw suddenly came out and attempted to grab the Jade Emperor.

With that, the Jade Emperor had no choice but to step back and stop going after that powerful member of the beast race. He knew that there was no way he could easily get past the young man.

"Ha-ha! Look at that. Now, there's no one to save you!" The powerful member of the beast race turned to Austin and taunted him.

"Say your last words, brat.

You're going to hell!"

With an immense killing intent in his eyes, the powerful member of the beast race dashed towards Austin.

He released an overwhelming demonic aura that spread out and soon filled the chaotic void where he and Austin were battling.

The area was engulfed in darkness, and not a single shred of light could be seen.

The demonic aura locked the entire space down to prevent Austin from escaping.

With all things set up, the powerful member of the beast race silently approached Austin. However, he decided to stop in his tracks when he reached a safe distance, and unleashed an incredible law power that he planned on using to crush Austin.

He decided to bring Austin down using his law powers.

This was because he was taking precautionary measures the moment Austin unleashed the same terrifying energy that he used before. The powerful member of the beast race suffered great damages from it the last time, so he didn't want to take chances.

'He's not going for a close battle, huh? He is smart. His powers are incredible too, '

Austin remarked in his mind as he sensed the law power that his opponent started releasing.

With all the experiences that he had, Austin had already met several members of the beast race.

However, the member of the beast race in front of him was the strongest one that he had ever encountered.

At this point, Austin perceived that the infinite law powers were coming at him from different directions. His foe planned to trap him in by surrounding him with law powers that seemed like huge walls.

As the law powers came closer, the surrounding space started distorting and even time was affected.

Austin began having difficulty moving and even breathing.

'I have no other choice. I have to go all out!'

Austin calmed his nerves and gritted his teeth.

Then, he called forth the continent. It instantly emerged, releasing powerful law of earth that hung down like thousands of chains.

mean by Hackett's real

there something that he's been hiding all this

but couldn't quite come up with a conclusive thought.

Hackett was one of the leaders of the gods of darkness. No one in the three thousand big and small universes didn't know him. Even the younger generation knew his name.

"Let me tell you a secret. Hackett isn't from the three thousand big and small universes.

He is originally from the Beast City. He is actually a powerful member of the beast race,"

the Jade Emperor stated with a straight face.

"What are you saying?" "How is that possible?"

Everyone was dumbfounded except for Queen Siobhan.

Since ancient times, Hackett was a famous figure since he was one of the esteemed leaders of the gods of darkness.

Under his and Elliot's leadership, the gods of darkness had fought with the gods of light for such a long time. This war revolved on the three thousand big and small universes.

The fierce battle between the two forces greatly affected the creatures of the universe community.

Hackett was like a celebrity in the worst possible way. For the creatures of the three thousand big and small universes, all he brought were pain and misfortune.

If one wanted to write about the history of the three thousand big and small universes, Hackett's name couldn't be left out.

His name would always be interconnected with the universe community.

However, right now, the Jade Emperor was telling them that Hackett was not a native of the three thousand big and small universes, but he was actually from the Beast City. It was natural for all those who heard to be shocked to their core.

"Just a few people know about this.

It was a secret entrusted to me by Parker.

Back then, after Parker left the three thousand big and small universes, he ventured into the Sea of Chaos. And as he stumbled upon the Beast City, that's when he learned of Hackett's true identity.

Then, later, Parker shared this with me through some kind of omnipotent skill,"

the Jade Emperor explained in detail.

"After the gods of darkness left the three thousand big and small universes, Hackett and Elliot led their men into the Beast City.

Under an arrangement with the beast race, they settled down in the isolated alien spaces and formed an alliance with the creatures residing there,"

the Jade Emperor added.

"Now it makes sense."

The divine gods nodded but expressed different thoughts from the information that they heard.

"So, I guess the reason why the powerful member of the beast race and the young man in purple from the Beast City came here is because of Hackett.

Their alliance wasn't just a coincidence then," Frost conjectured.

"You're right.

It seems that Hackett held a very high status in the Beast City to be able to use and command such formidable figures," the Jade Emperor answered.

"Wait a minute.

Then, this means that besides the gods of darkness and the creatures from the isolated alien spaces, the entire beast race is also formally our enemy?

This is ridiculous!" Brain exclaimed anxiously.

"That is correct.

Now, you understand how grave our situation is, right?

I know you'll hate to hear it, but we're currently not on the winning side," Queen Siobhan declared.
