

The Supreme God

Chapter 471 The Hope Of Revenge

Once he heard that there was Scorching Evil Fire which ranked third in the Unearthly Fire List in the Fire Valley, Austin's eyes were filled with greed. He could already imagine himself possessing the elusive power.

There were twelve kinds of Unearthly Fire in heaven and earth, and each of them was invaluable.

However, when he thought of the danger involved in acquiring the Scorching Evil Fire in the Fire Valley, he hesitated. He was ambitious but not reckless enough to lose his life, and besides, he was aware of his limitations.

'It seems I'm not powerful enough to go deeper into the valley.

Each Unearthly Fire is powerful enough to destroy the world. Even if I was powerful enough to go deeper and reach the place where the Unearthly Fire is, I'm afraid that I can't take the Scorching Evil Fire away with my current level of competence, ' thought Austin.

From the contemplative look on Austin's face, Angus figured out what he was thinking.

"Haha! Young man, it seems you have previously entered the Fire Valley and know how dangerous it is inside.

It's true that with your current level of competence, you can't even approach the Scorching Evil Fire, let alone take it away. Any carelessness will cause you to be burned into ash.

But don't despair. I can help you fetch the Scorching Evil fire in the Fire Valley, because I had tamed it before my death, and I was its owner," Angus said in a low voice.

"What? Senior, you're the owner of the Scorching Evil Fire?" Austin's eyes became alive once more in amazement and he looked at the old man with awe in his eyes.

Since he was capable of taming the Scorching Evil Fire, then the elder was by no means ordinary.

"Yes. In fact, the reason I became a soul was because of the Scorching Evil Fire. Alas! It's a miserable story. Let bygones be bygones.

The Scorching Evil Fire can recognize my breath. If I put a strand of breath of my soul into your Soul Sea, then you can approach it.

And I will put the method to tame the Scorching Evil Fire into your Soul Sea too.

Even so, you still should be careful, especially when you get close to it. You must communicate with it sincerely through your mind, and only when it accepts you as its owner, will it completely belong to you."

With that, Angus drew a strand of breath from his soul and pressed it into Austin's Soul Sea together with detailed information about how to subdue the Scorching Evil Fire.

Although it was the breath of a soul, Austin could still feel a strong spiritual sense power come into his Soul Sea. He couldn't help but secretly admire the old man's powers.

'It seems Angus' spiritual sense power had reached an extremely high level when he was alive. When compared to his, my current spiritual sense power is nothing at all, ' he thought.

sending a strand of breath to Austin's Soul Sea, Angus flicked his fingers and shot a pill to

I'm familiar with the Mysterious Nether World and I will transfer all the detailed information about this special space to your Soul Sea. After

fetching the Scorching Evil Fire, you will get huge benefits from the Mysterious Nether World."

With that, Angus transferred more information into Austin's Soul Sea.

Austin was excited beyond comprehension. He could not believe his luck in meeting this mysterious and knowledgeable old man. 'Angus has been in the Mysterious Nether World for several hundred years, so he must know a lot about this place. With these instructions, I will be able to go through the Mysterious Nether World without difficulties,' he thought.

Before leaving, Austin bowed to Angus respectfully. The old man in front of him had told him everything he knew and given him everything he could give him, so although they did not have the master and disciple kind of relationship in name, they were in reality.

Austin left the space behind the cliff with Violet and the gnome. After some time, they came to a smooth cliff at the end of the Medicine Valley.

Until now, Austin had been in the space behind the cliff for about two days.

In spite of the short period, he had gained a great deal.

The first was a five-fold increase in his spiritual sense power. Now he was able to probe an area of 45000 meters around comfortably. Austin believed that his current spiritual sense power was much higher than most of the Sky Realm cultivators.

Next, he would get the Scorching Evil Fire which ranked third in the Unearthly Fire List soon. This would be the highlight of his journey.

... ..

The moment he strode out of the cliff, Austin frowned. He could sense a dozen strands of strong vital energy force rushing in the direction of the cliff.

Several strands of the vital energy force were extremely powerful, and he deduced that the person who had released them had a very high cultivation base.

Austin released his spiritual sense power to probe and soon, he was clear about the source, tracks and target of the vital energy force. He summoned his own vital energy to form a protective cloak around himself and several strands of vital energy force that had honed on him like a laser target towards him were blocked.

Then he used the bodily movement skill and moved a hundred meters away and dodged the attacks from the ever-increasing vital energy force while breaking no sweat.

Austin had reached the medium stage of Mysterious Realm in vital energy cultivation base, but his vital energy was much stronger than most of his peers who were cultivators at the medium stage of Mysterious Realm.

He was confident that his vital energy force could even be on a par with cultivators who had reached the premium stage of Mysterious Realm.

With a strong vital energy, spiritual sense power and the Wind-commanding Skill, Austin broke the vital energy force attacking him easily.

"These guys did it!" he said to himself.

Austin stopped moving, and a cold expression appeared on his face once he recognized the faces of those who had initiated attack. They were no other than Leo and his followers.

The Supreme God

Chapter 472 Outnumbered

Discovering the smooth wall of the cliff, Leo and Symon focused on studying it carefully.

Having reached the medium stage of Mysterious Realm, Leo had also acquired the spiritual sense. He used its spiritual sense several times to scan the wall and found that something was hiding behind it.

However, Leo's spiritual sense was much weaker compared to that of Austin's. He ended up making several futile attempts to enter the wall which had been sealed by a stronger spiritual sense.

Each time he attempted to break into the wall, his spiritual sense bounced back by the stronger sense on that wall.

Symon, Wilson, Garret, and Caden also tried to break the spell but even their joint efforts failed to yield any result.

The firmness and indestructible strength of the wall piqued the curiosity of all the cultivators. In fact, it led them to believe that there was some amazing treasure behind the wall.

All the cultivators eventually agreed to demolish that wall by using their vital energy force.

One by one, the cultivators started taking turns in their attempt to attack the wall. Throughout the day, dozens of cultivators used all their physical as well as spiritual strength to pull the wall down, but it remained intact.

When they were on the verge of giving up, all of a sudden, Austin showed up from the wall.

In an instant, everybody was taken aback.

It took them a moment to break free from the reverie and come back to their senses.

Wilson was the first one to identify Austin. He frowned and shouted at him in a stern voice, "Austin!

I'll not let you go this time."

"Turns out you are a member of Blood Wolf Team," Austin responded coldly.

"Austin, you have done a lot of terrible things to our team. Today, I'll make you pay for it!" Wilson declared indignantly.

The obstinate and nonchalant attitude sported by Austin's irked Wilson beyond words. He took a stride, and a vital energy force emitted out of his body.

Austin had killed Abbott, two guardians and over two hundred members who were deputed to guard the base in imperial capital city overnight. This event had a very bad influence on the reputation of the Blood Wolf Team in the Violet Orchid Empire.

Fortunately, the founder of Blood Wolf Team, Blood Wolf Ancestor who had retired long ago came to the salvage. Otherwise no one could have saved them from being doomed.

After losing so many cultivators, Blood Wolf Ancestor rearranged all the survivors of the team and kept everything under his control. He gave his verdict that Austin was their biggest enemy, and their immediate mission was to bring Austin down.

Abbott was Wilson's master. The latter was bestowed with his affection and happened to be one of his choicest disciples. Being in the good books of his master helped Wilson to gain prestige among the Blood Wolf Team. And he had even been considered the perfect candidate for the next head of Blood Wolf Team.

But his master had been killed by Austin. Wilson was aware that he could take Abbott's place as soon as he brought Austin down to avenge his master's death.

Indisputably, Wilson was one of the best among the young-generation cultivators in the Violet Orchid Empire. However, Austin differed in his thought about Wilson's credibility and believed that he could put an end to him in no time.

"Is that so? I doubt that.

You'd better get out of here."

Denali's sweet, soft voice reverberated, cautioning Austin about the attackers.

"Oh, I see," Austin said with a mysterious smile.

"Joan, if you don't ask her to behave herself, I'll have to teach her a lesson," Leo said bitterly with a grim expression, looking at Denali with a trace of killing instinct in his eyes.

Austin regarded Denali with a mark of gratitude in his eyes for warning him out of good intention in this dire situation.

"Are you saying they wanted to steal my elixirs?"

Austin waved his hand and dozens of herbs appeared before him.

Ssss...

The vicious looks on the face of the attackers gave way to a mark of astonishment.

There was a spark of thrill in their eyes as they marked the floating herbs. Their blood started to boil and the hunger to achieve the invaluable herbs could be noticed in their stance.

There were dozens of herbs that were at or above the sixth grade, and ten of them that even belonged to the seventh grade!

In the Violet Orchid Empire, even the biggest sect, the Peripatetic Sect didn't have a seventh-grade elixir.

The herbs of the seventh grade were rare treasures that even money couldn't buy even at the markets of the Violet Orchid Empire.

The attackers, as well as the onlookers, had never seen so many valuable elixirs together with naked eyes.

The very thought of the large sum of money that the herbs would cost made them feel ecstatic.

Austin had acquired the ten elixirs of the seventh grade in the wall of that cliff and not in the Medicine Valley. Before he left Angus, the latter picked some herbs up in the field in front of his log cabin and gave him them as a gift.

In fact, Angus had given Austin dozens of seventh-grade herbs. Austin didn't show all of them to his greedy opponents.

"Are you an idiot? You know they wanted to steal these herbs from you. Why did you show them?"

Denali stomped her feet expressing her disgust towards Austin's gesture. 'Don't you know it's dangerous to show your wealth to others? How could he make such a mistake?' she wondered.

The herbs were close to Austin. He waved his hand and put them back to his Space Ring.

The truth was, Austin's action just displayed his contempt towards Leo and the rest of the cultivators who surrounded him for combat. He knew their real power very well. 'I'm not sure whether I could defeat them. But one thing is for sure. It's impossible for them to take my elixirs away, ' he said to himself.

"Violet, after I help Iris and Anna out, you should take them with you and leave.

"I'll take care of the rest," Austin instructed Violet in his mind.

Once he threw himself into the fight, he was afraid that Iris and Anna might get injured. So he planned to send the two girls away. In that way, he wouldn't have any misgivings.

"Yes. I do have many elixirs. But I don't think you can take them away from me. You losers," Austin said scornfully.

The next second, he summoned over ten Spiritual Sense Flying Needles and using his mind, controlled them to aim at the three Blood Wolf Team members' heads as they were standing close to Iris and Anna.

The Supreme God

Chapter 473 A Strength Equal To A 30 Thousand Pound Punch

With the use of his mind, Austin formed nine of his Spiritual Sense Flying Needles. Each set of three needles was aiming at a member of the Blood Wolf Team. When Austin finally released the needles, the three needles struck the head of each of the three members of the Blood Wolf Team.

Several months ago, Austin's spiritual sense could only reach a small area. But now, its coverage had increased fivefold.

Now, his spiritual sense could cover a range up to 45, 000 meters. Such a strong spiritual sense was far beyond the imagination of any cultivators at the Mysterious Realm and the Sky Realm.

With his improved spiritual sense, his Spiritual Sense Flying Needles' power was also enhanced.

The three members of the Blood Wolf Team were only at the Earth Realm: one was at the medium stage of the Earth Realm, while the other two at the preliminary stage of the Earth Realm. However, their spiritual senses were still far from Austin, thus there was no way they could resist the three Spiritual Flying Needles.

In an instant, their heads felt like being split by a strong force. The pain was unbearable that they started to cry miserably. Their hands were over their heads as they roll on the ground.

After releasing the Spiritual Sense Flying Needles, Austin jumped and instantly disappeared leaving behind a vague shadow.

In a blink of an eye, Austin reappeared in the middle of the crowd, standing beside Iris and Anna.

After Austin reappeared, an emerald green mist suddenly started to accumulate in the middle of the same crowd. Everyone was stunned and frozen in fear. Luckily, Violet had the presence of mind. She instantly pulled Iris and Anna to a corner to get away from the crowd.

Everything happened in a flash. Even when the three members of the Blood Wolf Team cried on the ground, the rest of the crowd could not comprehend what Austin had done.

"Show me what you got, you so-called young elites of the Violet Orchid Empire!"

Austin declared. Since these men had challenged to take on him simultaneously, Austin would not show them any mercy. He did not hide his arrogance anymore and declared a fight against them.

He pulled out his sacred sword to display the Illusory Swordsmanship. With a few sword potentials, a hundred sword radiances were shot to the crowd like splashing water.

radiances, it did not reach the area where Denali was

attacking him. And

Austin raised his arms and released the hidden strength within his body. His vigorous refined blood flowed through his body aggressively, and then a brute force sprung out.

The next thing the attackers knew was Austin started to move like a monster. With a strength of up to 30 thousand pounds concentrated on his arms, he cut through the wind and rushed toward the crowd like lightning.

Seeing that Austin made his first move, the diabolic wolf transformed by the vital energy of Wilson also rushed in to meet Austin's attack.

Instead of escaping, Austin threw out a fist toward the wolf with great force. The fierce force pressurized the air and made a rumbling and clattering sound.

Bang! Austin's fist and the diabolic wolf clashed with each other!

Bang! Another loud sound was heard and unexpectedly...

The wolf was smashed into pieces as a soft rock crashed by a hammer.

Bang! Bang!

Austin continuously attacked. He was moving with lightning speed, throwing a dozen of powerful and heavy punches at his opponents.

Leo's Four Fists, Caden's Three Fierce Knife Blades, and Garret's Burning Giant Palm were all defused by Austin's fist.

Since the attacks from the other cultivators at the preliminary and medium stage of the Earth Realm could not even scratch him, Austin just ignored them completely and did not bother to counter these attacks.

The weaker cultivators' best attack could only shake Austin a little or if they were lucky enough, they could leave a small bruise on his body but nothing more serious.

As he faced the attacks from the cultivators at the premium stage of the Earth Realm, Austin just swung his fist to counter these attacks and turn them into ashes.

After fending off the first round of attack, Austin stepped back a little. He struggled to stand straight for a while due to the aggressive vital energy and blood flowing through his veins.

The Supreme God

Chapter 474 The Number One Weapon Of The Bloody Wolf Team (Part One)

Even after the assaults, Austin's physical body of flesh and blood was now strong enough to quickly recover after a little rest.

"Oooh!"

The spectators gave little squeaks of surprise at the scene unfolding before their eyes.

They couldn't believe their eyes when they saw Austin face the assaults of more than 30 opponents merely by his physical strength. Although Austin had reeled back ten feet because of the attacks, it was quite clear that he was not hurt as badly as one would expect.

The young martial artists present there had never seen such prodigious physical strength which they were witnessing.

Austin took a deep breath and murmured to himself, "It looks like it is still a bit difficult to win by physical strength alone under the combined attack of so many people. Fine, in that case, I shall not waste my time with these people anymore.

If they want to kill me, I have to give my best shot to save myself. Even if I am not able to kill all of them today, I'll slay as many as I can."

He ceased his pacing and reined in the surging blood and energy pounding in his chest.

At that moment, a great fortitude aroused in his heart. His eyes were filled with the lust to kill. Without saying a word, he held out his hands before his chest, making several complex gestures with his hands. The vital energy began to emanate from his palms, and moved ahead, twisting like golden snakes.

In the blink of an eye, a nine-layered golden pagoda came into being.

It stood suspended in the air before Austin for some time, releasing bursts of powerful vital energy force.

Austin didn't stop his action. Instead, he tried harder and continued to create another golden pagoda at a faster speed. Shortly afterwards, the second golden pagoda took shape. Then came the third. And the fourth... After a short while there were six pagodas that

vital energy force continuously rushed from the golden pagodas, disturbing the air and making sizzling sound like water being boiled.

faces turned serious. In the Outstanding Talents Exchange

blade light from the sky. It seemed to be shot straight

Austin knew it was Symon's blade. He sneered as the blade gleamed wickedly.

Though Symon's movements were inconspicuous, Austin's spiritual sense was so strong that he immediately noticed Symon's movements when his right hand, which he had hidden in his sleeve moved. It held a small flying knife.

When the flying knife was released, others could not see it, but Austin's strong spiritual sense enabled him to see the trajectory of the flying knife clearly.

The flying knife wasn't aimed at the golden pagodas. It actually skirted around the golden pagodas and made its way towards Austin's chest.

Symon was indeed an insidious and impassive man, just like a vicious and venomous snake. He had been in silence for a long time as he was waiting for a proper chance to launch an attack on Austin. He waited for that moment when Austin's defensive awareness would be relaxed. Symon didn't quickly take action, and once he took an action, he aimed to kill his target.

Just as the flying knife was about to strike Austin's chest, he tried to move his body slightly to the side, but the flying knife went straight through his chest.

To everyone's surprise, the flying knife passed through and went across the air but didn't cause any damage to Austin's body. It turned out that the flying knife had only been able to cut through the shadow of Austin's figure. Before the flying knife went through his body, he had swiftly dodged his true body aside to escape the attack.

Seeing this, Symon's face went pale. The things that happened when he used the flying knife to kill Austin during the Outstanding Talents Exchange Games recurred: the flying knife he exerted did no damage to Austin again.

"Boom! Boom! Boom!" The six golden pagodas were confronted with the attacks by Leo and the other people, making a series of deafening sounds as they clashed.

With the continuous sound of metal collision, intense vital energy force was released and it instantly overflowed in all directions with its violent power.

Austin was now at the medium stage of Mysterious Realm. Though each of the golden pagodas was only made up of seventy percent of his vital energy, the assembled power of six golden pagodas was mighty enough to place more than thirty martial artists, including Leo, at a disadvantage.

The Supreme God

Chapter 475 The Number One Weapon Of The Bloody Wolf Team (Part Two)

Apart from that, some weaker martial artists suffered as their bodies exploded by the attack of the six golden pagodas. Instantly, they burst into pieces.

"Let me see, how longer you can resist my attack!" sneered Austin.

After he deflected Symon's flying knife, he continued to control the six golden pagodas with his mind, sending out several rounds of attack.

At the same time, he quickly waved his hands before his chest, and in a moment four more golden pagodas appeared in front of him.

"Let's go on!" he shouted coldly.

The newly-formed four golden pagodas dashed towards the opponents with lightning speed once he uttered those words.

Up to now, he had already formed ten golden pagodas in total and they kept bombarding attacks against the martial artists crazily.

Under the violent shock wave of vital energy force, the ground across hundreds of feet was shaking wildly, as if there was an earthquake.

The ground was shattered into pieces, creating several huge cracks. The cracks kept appearing and spread around as the attacks got fierce.

The overwhelming power of the ten golden pagodas pelted stones and spread sand in all directions and darkened the sky.

It didn't look like Leo and the other martial artists were besieging Austin. Rather Austin was controlling the ten golden pagodas to besiege Leo and the others.

"Aaaaargh!" they screamed as Austin continued to launch attacks mercilessly.

The battle lasted only a quarter of an hour, and the winner was determined.

In the beginning, while there were more than 30 people on Leo's side, now there were hardly six people left. More than 20 people were killed by Austin's ten golden pagodas.

They were Leo, Wilson, Garret, Caden, Symon and Joan.

looked disheveled and weak. There were even some

enough,

Obviously, the old wolf was very monstrous. There was a primitive rune flashing on its body. It had to be an extremely powerful beast!

"Is it a level 9 demonic beast?" murmured Austin as he stared at the old wolf.

Judging from the energy that the wolf sent out, he could see that it was indeed a demonic beast's spirit and it had no real flesh and blood. It was often said that after a demonic beast died, people conserved its spirit into the carved wooden wolf.

"Master, this is Red-Winged Wolf. It is a kind of ancient demonic beast and it has a lot of strengths. As for this one, it must have been a demonic beast king when it was alive. So even if it is only a spirit now, it has the strength of a level 9 demonic beast that cannot be underestimated. Please be cautious, Master," Violet requested Austin.

"This Red-Winged Wolf is not only powerful, but when compared to other demonic beasts, I guess it has more attacking methods. Maybe it is capable of some ancient skills that have been lost to the world."

In fact, even if Violet didn't inform Austin about the beast, he could smell danger from the physique of the old wolf and knew that the wolf must be some unusual creature.

"Wolf Ancestor, please avenge the deaths of our Bloody Wolf Team." After saying that, Wilson began to sing an incantation which seemed to agitate the old wolf that stood above his head.

"Attack!"

With a loud outcry, the old wolf moved. The odd rune on its body kept glinting as its short front paws glowed with a bright golden light. Suddenly a big golden claw was formed. It went straight towards Austin.

A sense of approaching danger overwhelmed him as he saw the claw coming towards him. It was beyond his expectation, as the old wolf's attacking method was quite like that of a human being. It was able to materialize its demonic power into different forms to fight against its enemies just like human martial artists materialized their vital energy to attack.

As the big golden claw approached Austin with immense power, he was not hesitant to summon the ten golden pagodas to confront it.

The next moment, right in front of the eyes of the crowd, the ten golden pagodas collided heavily with the big golden claw.

The whole world seemed to quiet down after the clash.

Seconds later, the violent vital energy began to surge, exploding in an instant. The whole sky was filled with raging vital energy.

The collision between the two forces was so fierce that the Medicine Valley seemed to shiver. Everyone present staggered back quickly in

horror, and they all hurriedly exerted their vital energy to envelop their bodies for fear of being affected by that raging vital energy.

At the same time, they kept their eyes focused on the ten golden pagodas and the big golden claw. The two sides seemed to be equally strong.

Earlier Leo and the others were seized with fear when they were attacked by the ten golden pagodas, but now, the old wolf that Wilson had summoned could stand up against the assaults of the ten pagodas. Therefore, at the moment, Leo and his group could finally heave a sigh of relief.

The Supreme God

Chapter 476 A Discreet Retreat From The Battlefield (Part One)

Altogether, ten sets of golden Grand Pagodas tussled with the Red-winged Wolf. Initially, they seemed to be a worthy match in terms of strength and it seemed like the battle would go on interminably. But then, after several minutes, chinks in the armor began to appear. Suddenly, things changed and the fatality struck the golden Grand Pagodas.

As the people watched the fight with their mouths open in wonderment, came an ominous, rumbling sound.

Much to their astonishment, one of the Grand Pagodas exploded into flames.

The explosion was so loud that for a moment people went numb—unable to hear a single thing except a constant piercing, shrill sound. Needless to say, the situation looked positive for Wilson, Leo and the others. Because of the explosion of the Grand Pagoda, the Red-winged Wolf had now fewer enemies to deal with. Sensing the smell of imminent success, they became relaxed and beamed with delight.

This wasn't all, though. There was happier news coming.

A few seconds after the explosion of the first Grand Pagoda, a second, and then a third followed—all of them bursting into flames.

The sound of the violent explosions echoed in the air and shook the entire valley. Some trees which were long dead caught fire due to the scorching heat of the explosions. The smoke began enveloping the entire area. Along with the explosions, the vital energy force waves swept over the valley and spread out far away, stretching beyond the horizon.

you are, there is no way you could stand up to my team and our

a grade four martial arts skill. There were skills that were more effective than it. And now, he was watching a more powerful

must have been a fierce and terrifying beast when it was alive. The golden wolf claws the animal had sent at the Grand Pagodas had sustained the ghastly and compelling demonic force well. Moreover, one could tell that the beast was proficient in absorbing the strong devil power. Austin felt that as compared to his Grand

Upon assessing his own strength, the impression struck Austin that even if he had condensed out another Grand Pagoda, the golden claws of that wolf would disperse it just as easily as they had done to his other Grand Pagodas. If he did condense more Grand Pagodas, his attack would look more like a futile exercise than an effective, valid counterattack. His effort would be in vain.

Given the situation, with the powerful Red-winged Wolf's hovering around and protecting those people, Austin did not seem to hold any potency over them in strength. There was also a tiny possibility that he might be defeated and torn to pieces by those golden claws.

Weighing the pros and cons of the situation in his mind, Austin decided to step back and beat a hasty retreat.

Austin had always had an intention of winning, but he was not going to be foolhardy. He thought that it was best to escape from a battle whose outcome was uncertain than risk all that he had got. After coming to that decision, he used his mind communication skill and told Violet to prepare for a retreat.

After informing Violet, Austin began his evacuation plan. He pulled out his sacred sword from its sheath and put his Illusory Swordsmanship skill into action.

While it was emerging, the sword zinged, and a hundred streaks of sword-light emanated from the blade. Within seconds, after activating his sword intent, the vital energy began transmitting to the sword violently like water rushing with full force from one end to another.

While the vital energy swirled around the sword, flashes of blinding light spread out and lit up the entire valley.

Everyone watched the sword with amazement and alarm, wondering what other skill Austin would use to harm them using the sword. As a matter of fact, the sword was just a decoy that Austin was using it to divert their attention. Looking for the opportune moment, Austin briskly threw his Spiritual Sense Flying Needle straight into Wilson's Soul Sea.

The Supreme God

Chapter 477 A Discreet Retreat From The Battlefield (Part Two)

With a scream that conveyed unbearable pain, Wilson held his head in his hands and crouched down. The sword had completely taken his focus off the fight that he had not expected the needle coming. He would have been able to extricate the needle and defend himself from the devastating pain if he was a tad bit more powerful. However, since he had just reached the premium stage of Mysterious Realm, and his spiritual sense had also recently come into existence, he was still too weak to protect himself from such a hit.

Austin, while all those people were wondering what had suddenly happened to Wilson that made him suffer so much, leapt up in an instant and retreated to two hundred meters away, his vital energy force swirling around his legs.

Having been notified beforehand, Violet took Iris and Anna and followed Austin.

Considering his skill, escaping from such a danger was not difficult for Austin—all thanks to his prominent bodily movement skill. In a flash, he had already retreated to about six hundred feet away in just a few steps.

Once they had retreated to a safe distance, Violet transformed into a green cloud of smoke and slid into the Illusion Bead.

As for Iris and Anna, Austin took them by their hands and flew out of the valley. Upon unfolding his Wind-commanding Skill, Austin glided as fast as a flying arrow. It was impossible for any of the men on the ground to discern their figures clearly.

"Guys, I apologize to you for my unexpected departure. But don't worry. For your today's hospitality, I will pay back ten times as pleasant for you."

Austin's voice traveled in the air and reached their ears as they gawked at his receding figure.

to have some spiritual communication with his master Wilson. When Wilson was hit by the Spiritual Sense Flying Needle

an invaluable opportunity to put him to his death!" murmured Garret in dismay.

Caden sighed deeply and lowered their heads in great regrets,

that Austin had improved his skill so much in such a short period that he now had the ability to take them down at the same time? They wanted to kill Austin today once and for all. It turned

In truth, before the treasure exploration in the Mysterious Nether World had even started, they had already been granted the most powerful weapon of their own sects by their sect management teams. It was a protective measure in case something bad happened to them and endangered their lives. The weapons they brought with them were so precious that they certainly wouldn't reveal them unless it was absolutely necessary.

As a result, when confronting Austin, even though more than twenty men were punched to death, they still did not take out their most powerful weapons. Each one used their own weapons to guard themselves.

They knew they had only fought together because Austin endangered them all and they felt the urgent need of eliminating him. However, they also knew the repercussions of what would happen once they killed Austin. If they used their most powerful weapons at Austin, then they would have obviously attracted the attention of others. Also, if they had eventually succeeded in killing Austin at length, it was very likely that the current truce among the sects would have ended. The warriors would have drawn swords against each other and it would have turned into a fight for the most powerful weapons.

Who would have thought that Austin would give them such a surprise and would retreat from the fight? The plan of killing Austin was now a distant dream.

Now that they had lost to Austin, they realized that fighting him with their own skills would not be much of a use. If they used the same strategy again, it would just give him another chance to slip through their fingers. No. They must release the secret weapons and fight together to finish him truly.

All hopes were dashed. They were regretting their initial readings about Austin's strength.

As much as they didn't want to admit, it was true that Austin's strength had climbed up to an unbelievable level. Losing the chance just now could mean that killing him in the future would become almost impossible.

Also, after this event, Austin would inevitably have more grudges against them and would want to kill them at any cost. So thinking of what would likely happen to them in the near future, they all shivered with fear and shook their heads at their idiocy.

The Supreme God

Chapter 478 The Second Time's A Charm

After leaving the Medicine Valley, Austin kept on running. A few miles away from the battleground, he reached a quiet place in the middle of a forest. Alas, he was at a safe place for now. He decided to take a quick rest to recover his strength.

He was exhausted from the fierce battle a while ago. He could quickly recover the vital energy he had lost from the battle using the vital energy stone. However, he needed time to recover from his mental exhaustion.

After resting for almost an hour, Austin felt completely refreshed. He was in his peak condition again and ready for a new fight.

As he continued to rest a little longer, he reflected on his battle with the cultivators from different sects. The Red-winged Wolf he had faced was only a demonic spirit, however, its strength was beyond Austin's power to defeat it. From his encounter with Wilson, Austin learned that the Blood Wolf Team had a great inheritance which enabled them to rise quickly in the Violet Orchid Empire.

The demonic spirit of the Red-winged Wolf was a level-nine demonic beast equivalent to a powerful cultivator at the Sky Realm!

Austin felt that the odds were in his favor when Abbott hadn't taken the woodcarving of a wolf with him. If it had been the case, it would have been impossible for Austin to defeat and kill him.

After his reflection, he turned to his two companions: Iris and Anna. He had managed to save the girls from the group of cultivators for now, but he knew that they were still in danger.

Austin knew that his friendship with Anna and Iris had caused them to be enemies with Wilson and his group.

If the two girls were to separate from him, their lives would be in grave danger. Austin believed Wilson's group would not stop looking for Anna and Iris. If they found the girls, Austin was certain that Wilson and his group would do any cruel things to the girls to pacify the grudge they had on him.

With these in mind, Austin decided to keep the girls in his company. Although they would become a distraction to him, he was left with no other choice.

"You will have to stick with me for the next couple of days. I know it's not what you planned, but I have no other choice. I don't want you to be caught by those cultivators again," Austin said to the two girls.

As she heard these words, Iris beamed with pleasure. She had witnessed Austin's fight with over thirty cultivators including famous young talents like Leo.

Despite being outnumbered, Austin had still managed to defeat his enemies and killed most of them.

With this, Iris was reassured that they would be safe in Austin's company. He would be the perfect shield for them against all their enemies.

matched to Austin, thus, he didn't bother

With only the aura coming from his physical strength, the fire beasts which got in his way were shattered into fragments and instantly vanished into thin air.

No matter how many level-one to level-three fire beasts got in his way as he moved deeper into the valley, Austin just kept rampaging without even fighting back.

He only stopped when he met a hundred of level-four fire beasts. Austin then took out his sacred sword and employed the Illusory Swordsmanship.

Austin's spiritual sense was now at a surprisingly high level. Even if there were hundreds or even thousands of fire beasts attacking him at the same moment, Austin could precisely sense every motion of each beast. He avoided all the attacks using the Wind-commanding Skill and retaliated with the Illusory Swordsmanship. His sharp sword hacked his enemies like cutting papers and wiped out a bunch of beasts with every slash.

At the same time, he summoned the light ball from his elixir field and instructed it to absorb the energy of the fire spirit stones from each of the dead fire beasts.

The fire spirit stones contained strong and pure masculine energy that was valuable to any cultivator. Austin didn't want to waste any of this precious resource.

As the light ball absorbed the masculine energy, it kept on growing. Seeing this, Austin's face lit up with pleasure.

Aside from the energy that he would need, Austin also stored some fire spirit stones in his Space Ring for his two companions, Iris and Anna. Now that they were his companions, he decided to do them a favor and bring them some fire spirit stones for their benefit.

Austin had gone 2, 500 meters into the valley during his previous visit. Although he hadn't reached the bottom of the valley, he had scanned the way ahead and learned that it was 4, 000 meters away from its entrance.

This time, he had reached 2, 500 meters into the valley once more when he decided to take a rest.

He was in the same situation as he was during his first visit. Upon his arrival at that place, hundreds of level-six fire beasts suddenly appeared. They transformed their blazing bodies into beasts of all types such as fire tigers, fire wolves, fire lions, fire snakes, fire birds, etc.

Each beast radiated a sense of danger as they focused their burning eyes at Austin. It seemed as if they would all jump on him at any moment.

A level-six fire beast had the power equaled to a cultivator at the preliminary stage of the Mysterious Realm. Though it would be difficult, Austin was confident that he could defeat a level-six fire beast.

However, in the face of the large crowds of level-six fire beasts, Austin had hesitated for a bit.

He wondered whether it was worth putting his life in danger and fighting the level-six fire beasts or it would be wiser to avoid them and move on to the bottom of the valley.

The Supreme God

Chapter 479 Find The Scorching Evil Fire

Austin's strength was in the medium stage of Mysterious Realm, as compared to his peers he was far beyond the expected stage of his realm, coupled with the vital energy stone in his elixir field, he hardly needed to worry about the depletion of his vital energy. Austin believed that with his current level of skills set even if he was pitted and had to fight against hundreds of level six fire beasts in the battle, he could probably not win, however, he would probably still hold them off for a pretty long time before losing life soon with the strength that he possessed.

The life-and-death kind of battle was actually the best trial for a cultivator to make improvements in their fighting skills. If Austin fought with hundreds of level six fire beasts, he was assured of laying a solid foundation for further improvement of his practical combat abilities, practical combat experience and future cultivation.

If it had been years ago, Austin would have chosen a less taxing battle in which he was guaranteed an easy win.

But in the battle he was currently involved in, Austin had a hard time suppressing the surging and tumbling fighting spirit in his chest, since it was now almost second nature for him to fight with all his might. He had to restrain himself since the main purpose of his visit to the Fire Valley was for the Scorching Evil Fire. If he continued to consume too much mental energy here, he would not be in his optimum and this

would inadvertently affect the collection and refining of the Scorching Evil Fire.

Although the Scorching Evil Fire had been tamed and controlled by Angus, and Angus had also taught him the method of collecting and refining the fire in detail, maintaining his mental and physical state at the peak was still priority for him to be alert and precise when collecting and refining the Scorching Evil Fire.

After a brief struggle, the fighting spirit in Austin's eyes finally faded away.

"Ha-ha, next, I'll try Angus's method, and see whether there is any effect."

Setting his mind in motion, Austin communicated with the aura of Angus's soul which had been put into his Soul Sea by Angus.

Suddenly, Austin felt a slight tremor from the aura of Angus's soul, and then a soft milky white light ring slowly spread out from his Soul Sea, and soon formed a circle of milky white light curtain which was seemingly quite weak around Austin's body.

In the light curtain, there were bursts of diverse strains of aura that were different from Austin's usual aura, which he identified as Angus's aura.

After the formation of the milky white curtain, the fire beasts which had been earlier roaring, cracking their teeth and mouths hysterically and preparing to attack Austin suddenly calmed down. They seemed slightly confused, and it was reflected in their sudden erratic movements and wondering eyes. Gradually, the fiendish ferocity on their faces faded away.

"It seems that it's quite effective." Concluded Austin.

Looking at the fire beasts which were beginning to calm down and become quiet, Austin's nerves relaxed after confirming his theory.

At the same time, after the milky white light curtain covered Austin's body, the hot air waves, which were generated from the continuous burning flames in the surrounding environment, also mysteriously missed Austin's body and instead the temperature around his body was normal.

Although the pale white light was very weak and almost invisible in Austin's eyes, under the shroud of Austin's spiritual sense, he could still precisely capture the trajectory of the light.

The pale white light, after spiraling about three or four circles in the valley, suddenly stopped. It seemed to have confirmed a place in the northeast corner of the valley and was heading towards the corner directly.

Austin could not help but get excited. Without a doubt, with such a reaction and precise movement, he knew that the pale white light must have found traces of the Scorching Evil Fire.

So, without any hesitation, he moved, instantly catching up with the pale white light with the speed of lightning.

Soon, Austin found that the pale white light had stopped over a crack in the ground with a width of more than a meter.

'Was the Scorching Evil Fire hiding in this crack in the ground?' He wondered.

It was finally time to actually face the Scorching Evil Fire, which ranked third on the list of the Unearthly Fire. Even though Austin had been calm the whole time, at that moment, he felt his heart flutter, he could not help but jump around in a jig because of excitement.

He gingerly put one foot over the other, lightly stepping towards the crack on the ground. He nervously got closer and closer to the crack!

Finally, he arrived at his destination and seriously looked into the crack on the ground.

A red flame was slowly rising from the crack.

Looking at the red flame, Austin's pupils suddenly shrank to the size of a needle tip. He was mesmerized and in awe, all these emotions were reflected in his eyes which kept moving rapidly trying to take in everything at once.

What got Austin in such a frenzy was that the red flame was quite phenomenal. Whenever it flipped slightly, it constantly transformed into various animal forms, such as a cow, tiger, lion, leopard, ape, snake, eagle and so forth.

"Is this the Scorching Evil Fire?"

He was obsessively staring at the red flame in the crack on the ground, as he murmured aloud to no one in particular.

According to the information that he had memorized about the Scorching Evil Fire that was placed in his Soul Sea by Angus, he

recognized the red flame at first glance. It was indeed the Scorching Evil Fire!

The Supreme God

Chapter 480 Making A Spiritual Sign

The bright scarlet Scorching Evil Fire lay in the crack which was about a meter wide on the ground. It was crackling and sparks were flying everywhere.

Austin gazed at the scarlet flame as he stood by the crack, not even daring to take a reckless move as he contemplated how to go about this dilemma.

The Unearthly Fire, it was said, was like dynamite, which needed to be treated with great caution, for it would produce a violent and destructive force if triggered accidentally.

The pale white light that had just led him the way was now suspended above the Scorching Evil Fire, as if it was waiting for Austin's next move.

Austin observed that the Scorching Evil Fire remained quiet and safe despite of his proximity. It was all because of the pale white light which was suspended above it. He was sure that without it, the Scorching Evil Fire would have consumed him in seconds. How much more dangerous if it was an ignorant person who would carelessly approach it.

Austin tried to recall several times the method of collecting the fire, which Angus had put into his Soul Sea.

Actually, the method was very simple and easy to follow. It only consisted of three steps.

First of all, Austin must merge the soul aura which Angus had left behind in his Soul Sea with his soul. This would create a sort of camouflage for Austin because his soul would contain a little bit of Angus' aura. It was a perfect method to hide his aura.

Then, he must make a spiritual sign in the Scorching Evil Fire.

And finally, Austin needed only to absorb the Scorching Evil Fire into his body and refine it.

After reviewing the method a few times in his head and making sure there were no mistakes, Austin sat down crossed-legged on the ground. Of course, Austin tried his best to be quiet and gentle, or else he might disturb the Scorching Evil Fire beside him. Any unnecessary and false move might trigger the flames and its destructive power. If that should ever happen, then he would definitely be burned into ashes in just a few minutes.

Sitting cross-legged, Austin took a gentle deep breath before he began. He first wrapped Angus' soul aura and infused it with his spiritual sense in his Soul Sea. This required extreme concentration, so Austin closed his mind off from his surroundings and focused at the task at hand.

still somewhat hesitant

sense, there was also his own breath. Hence, the Scorching Evil Fire was both familiar and resistant to the spiritual sense which neared it.

This only meant that it would not fully accept his spiritual sense immediately and easily.

According to Angus, dealing with this kind of situation required a great deal of patience and concentration. Being hasty would only complicate the situation even further.

Therefore, Austin controlled the whiff of spiritual sense, inch by inch, as slowly and softly as possible towards the Scorching Evil Fire.

He tried once, twice, three times... After Austin tried several times, the Scorching Evil Fire finally lowered its guard against Austin's spiritual sense.

After all, there was Angus' aura in the spiritual sense.

Finally, the trace of spiritual sense melted into the fire and made a sign in it.

With the appearance of the sign, Austin suddenly felt a peculiar connection with the Scorching Evil Fire—he could actually communicate with it through his mind. It was a weird feeling but Austin eventually got used to it.

Whew!

Austin let out a long sigh of relief. The second step was successfully completed. His patience paid off in the end.

It was really thanks to Angus' soul breath that the Scorching Evil Fire finally accepted Austin's spiritual sense.

Then there was the last step—to absorb the Scorching Evil Fire into his body!

Austin communicated with the Scorching Evil Fire with his mind and then instructed the spiritual sign inside the fire to slowly float towards him.

In the process, the Scorching Evil Fire seemed to have sensed that something was amiss. Its scarlet flame began to billow slowly, expanding wide in the blink of an eye, and it slowly released out a stream of energy which frightened Austin.

With the terrifying energy sent out of the Scorching Evil Fire, Austin's clothes were instantly incinerated and turned into ashes in the blink of an eye. Austin didn't even have enough time to react in order to protect himself. Everything happened so fast.
