

The Supreme God

Chapter 531 Pick A Quarrel Again (Part Two)

Although the ten masters were able to suppress them by using the vital energy force, they were, however, unable to force the guards and servants to betray Austin. They were extremely loyal towards their master.

At that moment, the entire Royal Palace was bustling with activity because of the commotion they heard which came from the Austin Palace.

They all left their palace doors in order to see what had happened in Austin's house. Curiosity drove them towards the ruckus. "Oh?"

"The Gloomy Mountain Ancestor has returned to trouble Austin once again." "He looks so serious today. He has even brought an army with him."

"Yes, you're right.

Soren has even brought along his nine sworn brothers in order to finish Austin this time around."

"You guys are just speculating again. I heard that Soren has prepared a party for his nine sworn brothers this morning, but I have no idea why they have returned to the Austin Palace."

"Well, I heard that the owner of the Austin Palace was a promising and powerful young man.

He has recently moved into his palace last month along with all of his followers.

Anyway, he is just a new comer in the Royal Palace.

It's just normal that someone older would come for him in order to teach him a lesson."

"You are right. When I was supported by the royal household and has just moved here, I was also restricted by the hidden rules of the palace.

I was forced to give a few hundred vital energy crystals just to save my ass from punishment." The residents of the Royal Palace stood outside Austin's house and they gossiped to no end.

It was as if they had nothing else better to do in their own households.

Soren called Austin a newcomer and scolded him like he was an innocent kid.

"But it's too late to teach you the rules. It doesn't really matter if you know them, because you are about to take your last breath."

Soren suddenly changed his tone which was filled with menace, trying to threaten Austin.

Looking at Soren's disgusting face, Austin remembered all of the things he had done to the Austin Palace, and then every cell of his body was filled with anger and killing intent. 'How dare this ingrate insult and threaten me right on my doorstep!' Austin thought to himself.

"Soren, I think that is enough talking already. You are just wasting your breath with this little boy. Let me smash him into pieces already. We need to go back and celebrate. Our last round of drinking was far from enough for me, so don't let this son of a bitch waste our time!"

A stout man curled his lips as he spoke.

Instead of waiting for Soren's consent to take action, he suddenly jumped up into the air and tried to punch Austin with his powerful fist.

"Huh."

Without saying a word, Austin effortlessly reached him with a single jump. Then he concentrated his great force—the strength of 30, 000 pounds on his right fist and flung towards the man relentlessly.

Crack!

One of the man's arms had instantly broken off, which drooped feebly and looked weird and gross.

Bang!

Austin landed another punch on the man again, and this time it hit square on his chest.

Crack. The stout man only heard a sharp snap.

He looked down, surprise filled his face and then he saw a hollow appeared on his chest.

The Supreme God

Chapter 532 No Mercy

Austin broke the robust man's arm with a punch and then hit his chest with another. His motion was quick and fluid, and gave his rival no time to react.

"You..."

The man gasped, unable to finish, as he coughed up blood mixed with pieces of his internal organs. He lowered his head and realized that his chest had a crater-like dent. Immediately, his eyes were filled with astonishment and horror. Clearly he wasn't expecting such a vicious attack.

When his gaze then moved to Austin, fear clouded his senses. He moved his lips but no sound came from his throat.

The man fell like a toppled scarecrow. He was still twitching in pain and blood spilled from the corner of his mouth. With time, his eyes turned empty and life disappeared from him.

All of this happened in no time at all. The tables had turned so quickly that the audience had trouble adjusting to the fact that the man who had been jumping on Austin moments ago was now lying on the ground knocked out by two punches.

An eerie silence followed.

Everyone was trying hard to grapple with the events that had transpired.

The robust man was at medium stage of the Mysterious Realm, yet he had been killed by Austin in just one second!

This was not an equal fight at all. Austin had wielded his fists just twice and the man was now dead!

In fact, the news that Austin had crippled Blood Wolf Ancestor's right arm with merely one punch hadn't reached the residents in the Royal Palace yet. None of them knew that Austin had improved his martial arts cultivation by a significant margin after returning from the Mysterious Nether World.

Besides, Austin had only used his bodily movement skill and his physical strength to kill the robust man. Nobody could tell at what stage Austin's cultivation base actually was because he hadn't used any vital energy at all!

Quite naturally, for these people, it was all too incredible that Austin could kill a cultivator at medium stage of the Mysterious Realm so easily.

Every cultivator at medium stage of the Mysterious Realm was qualified to be a superior elder of any sect in the Violet Orchid Empire. However, Austin, who hadn't even turned 20 yet, had killed a cultivator of that level without batting an eyelid.

Even Soren, who had been grumpy all this while, was dumbfounded. After a while, he snapped out of his astonishment and shouted furiously at Austin, "You... You killed him. You brute!"

"Yes I did. Do you want to avenge him? I know you are a part of the ten sworn brothers. Now that you've come here together to give me trouble, I must send all of you to hell to join your dear brother!"

Seeing how terrifying Austin's attack was, the cultivator couldn't help but to shiver in fear. He had no courage to fight back at all and instead shuffled his feet backwards in indecision.

Thanks to his proficiency in bodily movement skill, he managed to safely move some distance away and narrowly avoided the sword.

Before he could sigh with relief, Austin's sword had already extended its range of attack. In fact, it was the fire that it emanated that extended from the sword and reached the man.

The flame hit the man's chest eerily, the hisses of the fire echoing.

It penetrated his body and came out the other side.

With a scream of pain, the raging blaze engulfed the man.

After that, Austin turned to the other cultivators and attacked them employing the same method of attack. The flaming sword in his hand was quite like a furious dragon.

Those cultivators employed all of their skills to defend themselves in vain. Austin's sword radiance complemented by the flames from his sword cut through his enemies like paper.

Austin looked in no mood to show mercy.

Finally, he pulled his sword out from Soren's chest. The fire spread around the latter's body burning his flesh. The smell of scorched flesh wafted in the air.

Soren widened his eyes in shock as he stared at Austin. Numerous expressions went through his head primary of them being doubt as well as regret at being so foolhardy.

His body fell and was eventually swallowed by the fire.

The whole audience was shocked in silence.

Even the residents of the Austin Palace such as Mike and Evan were taken aback by Austin's show of strength. The other cultivators living in the Royal Palace would have obviously been flabbergasted.

The fight lasted for less than a quarter. Austin had proved his worth again by killing ten cultivators at the Mysterious Realm in such a short period of time!

Some cultivators who had discussed about the rules of the Royal Palace were shut into silence.

After seeing Austin killing those cultivators at Mysterious Realm so easily, they now understood how ridiculous it was to uphold the status quo of older residents bullying the newer ones.

In the world of martial arts, the cultivators' strength was the only thing that spoke!

The Supreme God

Chapter 533 A Reward Of One Thousand Vital Energy Crystals For Each Man

Austin killed the ten Mysterious Realm cultivators who made flagrant provocation against them at a fast speed. On the ground were pieces of burnt debris of the carcasses, reduced to a pile of ashes which was a shocking sight to see.

"Evan, Herbert, check their Space Rings and store them away. Take them as compensation for the bullying you have suffered during this period of time."

Evan and Herbert were still in shock from what they had just experienced, when Austin's voice got them out of their stupor.

"Austin. You are awesome, Tin," Evan couldn't hide his feelings of surprise and joy. He had scarcely stayed with Austin since he left the Sun Sect. Evan's cultivation base had reached the eighth level of the Energy Gathering Realm among all the outer disciples of the Sun Sect, which was pretty good. But the scene that he just saw Austin comfortably butchering ten master-hands at the Mysterious Realm level without breaking a sweat was still making his head spin in disbelief. Mysterious Realm cultivators were high in rank and powerful opponents, they were the same level as Theon, the Sect Leader of the Sun Sect, incredible that Austin just defeated them!

"Tin, you scared me. I guess Sect Leader Theon was no match for you."

Herbert said in a surprised and joyful tone.

"Well, spare me your fawning, go and pick their Space Rings first. Pay special attention to the one that belongs to the Gloomy Mountain Ancestor, the treasure he looted from Austin's Palace should be stored in his Space Ring," Austin called out to them.

In the Prime Martial World, warriors usually put their valuables in their own Space Rings and carried with themselves for safety.

Pulled from their reverie by Austin's voice, the two jumped into action and sought out the Space Rings from the debris of burnt out carcasses.

At that moment, around six to seven hundred guards were still surrounding the Austin Palace.

The guards all served the ten Mysterious Realm cultivators. When the Mysterious Realm cultivators died, the guards were still standing around in a trance, unable to process what had just happened to their masters. It suddenly struck them that they had no plan for such an outcome and therefore stood stupefied just looking at each other.

They had intended to charge in and fight hard to their best, showcasing their abilities and special skills for their masters. When they got back, they would be rewarded handsomely. They never at any point thought that within a split of a second all their masters would be annihilated.

The look Austin gave them was grim and cold as they still stood there surrounding his palace.

"Oh? Why are you still here? Your masters are already dead, and yet you don't want to go," Austin said coldly.

"You... You killed my master."

Among them were some extremely loyal guards, they exchanged looks and discussed whether they should avenge their dead masters. Some guards thought they had a great advantage in terms of their quantity. Although the delicate-looking lad was fierce, they had the numbers to their advantage, fear was not their option.

back to the main

All the guards, servants, maidservants had been informed about Austin's invincible might. Their cheerful master had killed ten Mysterious Realm master-hands who came and made provocations against him.

All the guards, servants and maidservants were surprised and proud of their master's prowess. Their emotions were clearly written on their faces.

Looking at Austin in awe, none of them had expected this refined young master to be so awesome! He looked as if he was only a green, gentle boy, with a trace of childishness on his face.

'Some time ago, that Gloomy Mountain Ancestor always came to the palace and brought with him people who were overbearing and tyrannically bullied all the people in Austin Palace to a point of exhaustion.'

'As soon as our young master got back, he unexpectedly killed that Gloomy Mountain Ancestor and relieved us of the grievances we had suffered.'

They thought of all his actions and congratulated themselves at having such a competent and wonderful master. All his followers had saved face because of their imposing master.

Back at the palace, Austin ordered all his subordinates to gather in the hall.

With a flip of his wrist, a great number of vital energy crystals were taken out of the Space Ring and piled on the ground. They were taller than a man and were glittering and eye-catching.

"I know everyone has suffered a lot from the Gloomy Mountain Ancestor these last days. You can rest assured that from now on since I killed him you will experience more peace.

... Austin said a lot of things to soothe them.

As a master, he should show some basic care to these two thousand heelers.

"Next, everyone please line up and receive your crystals. I have prepared a reward of one thousand vital energy crystals for each of you for your daily cultivation."

In the Mysterious Nether World, Austin found a normal vital energy crystal range with Dewey and each of them dug at least tens of millions of crystals from there.

For now, he had hundreds of stacks of vital energy crystals and superior vital energy crystals stored in his Space Ring, to get a specific amount even Austin was too lazy to count them.

This time Austin took over three million vital energy crystals from the Space Ring as gifts for his heelers, which was a tiny quantity compared to all the crystals in his Space Ring.

"What? Everyone will receive a thousand vital energy crystals?"

It amazed all two thousands of them to hear his proclamation.

The Supreme God

Chapter 534 A Good Master

A thousand vital energy crystals! That was an unbelievable amount of wealth.

The guards, servants and maids of the Austin Palace were mostly at the Energy Gathering Realm.

A thousand vital energy crystals was already a huge amount to the Energy Gathering Realm disciples of the five prominent sects, let alone to those people who served others.

Even if Austin didn't give them one penny, they would still serve him loyally like they did before.

That was why when Austin announced the news and told them to line up to receive the award, all of his two thousand followers were dumbstruck when they heard it.

They thought that what they heard was wrong! They couldn't believe their ears!

"Master!"

A beautiful maid with an oval face called out with her trembling voice.

"Oh? What is it? Why are you not lining up to receive the vital energy crystals?"

Austin asked her, confused.

"Master, we are only your humble servants. We are as insignificant as the dust in the air. Sir, we are very thankful to you for rewarding us with so many vital energy crystals. We feel flattered and honored."

The maid choked out with tears running down her eyes. Her body trembled because of the sudden burst of emotion that she was feeling.

The other two thousand people all gazed at Austin with immense gratitude on their faces.

"It's not a big deal. I'm happy to give you at least that much."

Austin smiled gently. His words were like a spring breeze that warmed their hearts.

"Don't think too lowly of yourselves. You are not unimportant.

Evan stammered.

Herbert's gaze was firmly stuck to the piles of vital energy crystals in front of him. He started drooling and he lost all of his manners at the sight of so much money.

Mike also glowed with surprise. When he first met Austin, Austin was only at the Earth Realm. During that time, the Flaming Sun Valley and Blood Wolf Team were hunting him down and he was constantly on the run.

However, in only a short period time, Austin grew to become such a powerful man. Mike was very pleased to see that Austin had made such great achievements. He was also happy for the two ladies that were lucky enough to be wed to such an excellent man.

Austin ignored their surprised looks and divided the vital energy crystals that were on the ground into three parts.

"Uncle Mike, Evan, and Herbert, each of you would take five million vital energy crystals for cultivation.

There are also several fifth grade and sixth grade marital arts skills. You could take them and see if something would fit you."

Austin said casually while taking out a few colorful jade slips. Every jade slip has a fifth grade or sixth grade martial skill recorded in it. Austin got them from the Emperor Library in the Mysterious Nether World.

The first floor of the Emperor Library had all of the fifth and sixth martial skills. Austin and Violet worked together to seize the treasures. Both of them gained fast speed and excellent body movement skills. Without a doubt, they were the biggest winners who collected most of the treasures during the mad scramble.

With their strengths combined, they were able to seize several dozens of colorful jade slips together.

Wow!

When he saw the seven or eight fifth and sixth martial skills in front of him, Mike felt as if his breath was taken away. It took him a while to recover from the shock.

Even for some large sect like Peripatetic Sect, which ranked the top among the five prominent sects, only a few fifth or sixth grade martial skills were at their disposal. He couldn't believe that Austin was just randomly throwing them out. It was astonishing.

The martial skills that Austin had were more precious than the marital skills that the five prominent sects in the Violet Orchid Empire had, combined.

Herbert was flabbergasted for a short while. He suddenly burst into laughter and started jumping around the heaps of vital energy crystal. He was grinning from ear to ear. He felt as if he was the happiest man in the whole world.

Mike and Evan stepped forward to take the vital energy crystals.

Seeing all of them satisfied, Austin left the hall and entered his exclusive practice room.

He sat down with his legs crossed and closed his eyes in repose.

It was time for him to sort out his trophies that he got from his trip to the Mysterious Nether World. He needed to plan for his next move.

The Supreme God

Chapter 535 Check His Trophies

In the Austin Palace, Austin was practicing in his specially curated cultivation room.

Sitting cross-legged, he practiced a cycle of the Golden Sun Scripture. After four hours of practice, his strength and vital energy were back in top form.

After all, during the month he spent in the Mysterious Nether World, he was entirely focused on dueling or to be alert of potential dangers that were more often than not lurking in the corners. He had not been able to devote any time to have a good rest and practice the Golden Sun Scripture.

Now that he was finally out of the Mysterious Nether World, it was safe to have a good rest and practice. He was feeling relieved. After all, he had succeeded in overcoming multiple difficulties and he deserved this leisure.

After practicing the Golden Sun Scripture for four hours, he opened his eyes and took out his Space Ring.

"It's time to check what I managed to obtain in the Mysterious Nether World. It was a fierce trial but I survived and got a good harvest."

With this in mind, he took out all the medicinal herbs from his Space Ring. He had been able to acquire almost a mountain of herbs from the Mysterious Nether World.

The medicinal herbs were his biggest harvest in the adventure. Most of them grew in the Medicine Valley.

Austin began sorting them so that he could get an accurate measure. Close to seven hundred were at the fourth or fifth grade;

more than two hundred were at the sixth grade; about sixty were at the seventh grade and only ten of them were at the eighth grade.

These medicinal herbs were priceless. In the Violet Orchid Empire, only sheer luck could get a cultivator a herb at a grade of six or higher. Many cultivators would never get a chance to even see a grade seven or grade eight medicinal herb in their whole life.

Angus had said the Mysterious Nether World was an ideal place for medicinal herbs to grow. One reason was that it was an isolated desolate world; the other being that it was rich with spiritual energy.

Even though there were countless cultivators coming in for a trial, only few medicinal herbs were picked. Don't forget that these herbs were duly protected by many powerful diabolic beasts.

That was also another reason why there were so many medicinal herbs at higher grades.

Among the medicinal herbs that Austin had obtained, there were ten black and white fruits. Austin knew these were soul-recovering fruits.

In fact, Austin had managed to collect thirteen soul-recovering fruits in total. But he gave three of them to Reuben, the youngest prince.

spirit fruit, was at the eighth grade. In all probability, one could only find it in a place like

not a fool. He was definitely not going to give all the thirteen soul-recovering fruits to Reuben. The ten fruits he was left with could help him make

the jade slips that recorded grade six martial skills from the

Austin got five jade slips, on

Mike, Evan and Herbert. At the end, there were close to forty jade slips left in

Among all of the jade slips, Austin was most interested in those that recorded grade seven martial skills. It was natural for one to have an affinity for the highest grade skills.

Austin used to fight with enemies using the Grand Pagoda Summoning Skill, the Illusory Swordsmanship as well as his strong physical body when he was at the Earth Realm. He employed the same tactics at the Mysterious Realm.

The Grand Pagoda Summoning Skill was a grade four martial skill, which was oppressive enough for the cultivators at the Earth Realm and those at the Mysterious Realm.

But as a grade four martial skill, it had its limitations. When Austin had achieved the Sky Realm, he realized the Grand Pagoda Summoning Skill was useless if his enemy was at the Sky Realm.

Its power was limited by its grade.

If he used the Grand Pagoda Summoning Skill and threw a Grand Pagoda to a strong cultivator at the Sky Realm, his rival would flick the Grand Pagoda away because he had an extremely powerful vital energy force. Austin knew he had to make his offense better and more formidable.

The Illusory Swordsmanship was at the same grade with the Grand Pagoda Summoning Skill. As a grade four swordsmanship, its power also was limited when he reached the Sky Realm.

In fact, Austin had reached the Sky Realm and had strong powerful vital energy force. Using the Grand Pagoda Summoning Skill and the Illusory Swordsmanship wouldn't make his attack more powerful. Instead, it would actually weaken his strong vital energy force.

These two martial skills were now like chicken ribs—things of little value or interest.

His strong physical body was not as useful as it used to be.

His body force was about 30, 000 pounds. For a rival who was at the Mysterious Realm, it would be useful and effective. He could even bear the most powerful punch made by a cultivator at the Mysterious Realm.

But it was not enough to fight with a cultivator at the Sky Realm.

Austin's martial skills and battle strategies were too weak to use at the Sky Realm. It was time for an upgrade.

He had to now practice higher grade martial skills.

Austin stared at the five colorful jade slips in front of him and was eager to see the grade seven martial skills recorded on them.

"I really hope the skills on these jade slips can help me practice," muttered Austin.

He took a short breath and put the grade five and grade six martial skills into his space ring.

Then, he took up a jade slip that recorded a grade seven martial skill and put it on his forehead. As he was thinking of it, his spiritual sense entered into the jade slip.

The Supreme God

Chapter 536 Cultivating The Brutal Blast Fist (Part One)

Austin took one of the five jade slips with the seventh grade martial arts skills in his hands and placed it against his forehead. Meanwhile, he drove his spiritual sense to read the letters on the slips.

All of a sudden, a flash of colorful light flared in Austin's Soul Sea. One after another streams of information turned into lines of mysterious ancient letters, which flowed slowly around in his Soul Sea, waiting for him to read it.

"This skill is called the Demon-terminating Whip.

It is a martial arts skill of the seventh grade.

It is made up of ten steps. Once you have mastered all ten steps, you can crack a whip one thousand times within one breath. This can develop into an arsenal, and its power is more than you can imagine."

As Austin had learned, the first jade slip contained a seventh grade whipping skill.

One thousand whip lashed in one breath! The power of this seventh grade martial arts skill was extraordinary, but Austin had no interest in taking a whip as his weapon. Thus, he decided not to cultivate this skill and thrust the jade slip into his Space Ring without thinking.

After that, he took out another jade slip and also pressed it against his forehead just like the first time.

And a flash of colorful light illumined his Soul Sea again.

"This skill is called the Eighteen Demon-subduing Stick Movements, and the weapon is a stick. It is a seventh grade martial arts skill, a furious, unbeatable one. Every movement is based on attacking aggressively. If you can reach the Major Achievement Stage, you can stand tall on top of cultivators at the same level as you, perhaps even beating cultivators of higher levels!" it told Austin.

However, Austin also had no interest in taking a stick as his weapon, and he became a little anxious now. What if he was unable to find a suitable and available martial arts skill after going through all of these jade slips? So far, these two skills were not his type. Although their grades were high, he wouldn't get the desired results if he forced himself into cultivating. Even if he tried as hard as possible, once he realized that he didn't like these two weapons, he would ultimately fail. He was even reluctant to touch them.

Heaving a deep sigh, Austin took the third jade slip in his hand and began reading it with his spiritual sense.

will need to possess enough vital energy at first. It is made up of eight fist positions, which are: the tearing force, the

he had never seen or even heard of such a skill

jade slip, the Kirin Transformation Formula required simultaneous refining of

skill and a vital energy skill, and in Austin's mind, they were different systems.

Thus, he sighed with feeling several times at this new discovery.

This world was so large and filled with various wonders! And all people needed were a pair of sharpened eyes to find it.

Austin savored the thought of this formula in admiration. He was unable to take his mind off it. Yet, at the same time, he knew that he would work hard on it later.

Since it was powerful in both attack and defense, it would definitely improve his fighting ability to a higher level if he cultivated it assiduously.

Thus, he also set this jade slip aside.

Austin smiled breezily as he took the next jade slip and pressed it against his forehead. It was also a seventh grade martial arts skill.

Just as before, a flash of information immediately flowed into his Soul Sea.

"This skill is called the Demon-creating Skill.

It is a martial art skill which uses spiritual sense," it read slowly.

Austin's eyebrows lifted a little upon hearing the first words. He wondered what this skill was about, and his curiosity was piqued.

Without any delay, he kept reading in his Soul Sea, wanting to learn more about it.

Since it was called Demon-creating, then it must concern the creation of a demon. But what was it used for?

As he read more, he discovered that it could, in a moment's thought, create a demon inside the Soul Sea of a rival by using your spiritual sense. The demon created could then devour the rival's spiritual sense and soul.

The Supreme God

Chapter 537 Cultivating The Brutal Blast Fist (Part Two)

Austin couldn't help crave this spiritual sense skill after he had briefly read the introduction, and he wanted to interpret its profound mystery.

So far, Austin had read five jade slips and learned five new martial arts skills, while three of them had gotten his attention.

Actually, he had already decided to try the three later, and they were: the Brutal Blast Fist, the Kirin Transformation Formula, and the Demon-creating Skill.

Austin had gained lots of experience in the Mysterious Nether World, and the most impressive was the spiritual elixirs and the martial arts skills. Needless to say, there were also other precious experiences. He had run into Angus by accident and received the Scorching Evil Fire. Later he was lucky to get to know the Flame Emperor, obtain his vital energy and master the Flame Swordsmanship.

In conclusion, Austin felt his journey to the Mysterious Nether World had not been made in vain. He had not only made great progress in cultivation and stepped into the Sky Realm, but he had also received so many precious treasures. It was indeed a rewarding cultivation.

After he had carefully sorted out all of his achievements from this journey, Austin left the secret chamber where he had been cultivating for some time.

The first thing he did was to call Mike to come over. He handed over all of the fourth and fifth grade elixirs which he intended to sell to Mike, and asked him to sell them at the auction houses at the imperial capital city.

After that, he spent a whole day with Ivy and Sue. Although Austin had been setting almost all of his attention on his cultivation, he knew that he needed to spare some time for his wives. Since he had married them, he ought to do as a husband should and take care of his wives.

It was a wonderful day for the three of them in the garden of Austin Palace. He sat on a stone bench with both Ivy and Sue, where they whispered loving endearments into each other's ears and showed intimacy without any holding back. It felt great to be so greatly

attached to each other, and it was relaxing for Austin to be together with his wives after a hard cultivation session.

Both Ivy and Sue were ravishing, sweet tempered beauties. Austin was still a young man at his seventeen, vigorous and active. It was a pleasure for him to spend time with his wives, and thus he devoted his heart and soul to please them. And they reciprocated in turn.

The next day, Mike returned from the imperial capital city.

He had succeeded in carrying out Austin's assignment and had managed to sell all of the elixirs.

Mike had taken nearly two hundred elixirs of the fourth or fifth grade with him, and he earned eighty million vital energy crystals this time in sales.

However, Austin didn't take even one of these vital crystals from him, but left all of them in Mike's care. This sum would be used as a cultivation fund for his two wives.

wed, Austin had tried his best, as a husband should, to provide for them from his vast resources to make

with his fist. Besides, it inevitably combined with the body power. As Austin's body power was overwhelming, it was much better for him to cultivate fist positions instead of other resources, because it would provide a

When adopting the tearing force, it would tear the vital energy force of a rival into two when punching him. And if the target was the body of a rival, it would directly tear his body apart with aggressive force.

The pulling force was also delicate.

It could hold the attack of a rival, put it under control and pull it aside. What was more, it could pull that attack around and return it back to attack its owner, which was similar to the light fingers in Tai Chi, a kind of traditional Chinese shadow boxing. This allowed for the accomplishment of a great task with little effort by clever maneuvers.

Then it was the turn of the breaking force. Once punching, it would break everything in its way into pieces from the inside, and it was indeed a formidable force. .

With the chopping force, the cultivator's fist would become like a blade.

It would split the very air, leaving a smooth, neat incision. .

The softening force was relatively gentle.

For instance, if the cultivator punched a tree, it would not appear any different on the surface, but on the inside it would be smashed into a pile of fibers. .

To this moment, the effects of Austin's Overlord Body-refining Formula reflected its advantages by giving him a strong body.

He not only had a powerful physical strength, but also a body as strong as nails. But what was of greater importance, he could utilize every single part of his body as he wished.

Consequently, Austin was freely able to learn all of these fist positions without too much difficulty, from the tearing force, the pulling force, and the rotating force to the more complicated softening force. He simply stretched out his hand and brought them to life in front of him.

It took him half a month to learn all eight the forces.

By then, he was skilled in all of them.

To his disappointment, he didn't manage to complete the final step, to combine all eight forces together and generate a massively destructive blasting force. Although he had practiced many times, it felt unfinished, and he was unable to achieve the satisfying effect which he had expected.

But Austin wasn't frustrated, and he believed that he would throw a perfect Brutal Blast Fist some time later, perhaps in a month's time at most.

And the power would be multiplied once his fist could give out a blasting force.

The Supreme God

Chapter 538 Help Me To Rule The Empire

The Brutal Blast Fist consisted of eight different fist forces and during its cultivation, Austin spent more time on the first one, the tearing force.

After successfully completing the cultivation of the same, he got a deep understanding about the Brutal Blast Fist. What's more, he was also in prime physical condition which was critical for cultivating fist skills. Therefore, now he felt much easier as he went on to cultivate the remaining fist forces.

It took him about half a month to cultivate them successfully, but Austin was able to finish most of the steps of this skill.

Yet another step remained which allowed a cultivator to unite the eight fist forces into one and produce an explosive power. Austin hadn't succeeded in mastering this step yet.

But he believed that if he practiced harder, he would be able to master that very soon too.

There were several skills on his agenda right now, which meant he couldn't spend his entire time on the same skill. After the Brutal Blast Fist, Austin began to shift his attention towards a spiritual sense skill called Demon-creating Skill.

Once mastered, this skill would allow a cultivator to morph a demon out of nowhere into his opponent's Soul Sea. The demon would then swallow the opponent's spiritual sense power and spiritual souls.

It was a very mysterious skill and, several levels higher than the Spiritual Sense Flying Needle, which was much more powerful.

Such spiritual sense skills were rarely seen these days. However, several hundred years or even almost a thousand years ago, when

the Flame Emperor was alive, these skills would have been more common.

After a month of intensive, yet boring practice in the cultivation room, Austin finally succeeded in the cultivation of this powerful skill, allowing him to add one more spiritual sense skill to his repertoire in addition to the Spiritual Sense Flying Needle.

Now, he shifted his attention towards the cultivation of the Kirin Golden-body Scripture, which included seven steps. Each step allowed the cultivator to morph parts of his body into a lion claw, a dragon head, a deer horn, a tiger back, a bear waist, a snake scale, and a leopard tail. Austin examined these steps thoroughly.

Then he began to practice the first step, Lion Claw.

After practicing for some time, Austin had a feeling that among the three grade seven martial arts skills he had picked up, the Kirin Golden-body Scripture was the most powerful and also the most difficult.

He knew that with increasing power, cultivation time also increased, and therefore, he had to be patient.

It took him about half a month but after that, Austin could morph his hands into a pair of lion claws. They were actually Kirin's claws, but were shaped like a lion's. What's more, they were also several times stronger than a lion's claw.

By the time he had finished the first step of the Kirin Golden-body Scripture, he had spent a whole two months inside the cultivation room.

In these two months, he had finished the cultivation of Demon-creating Skill, all the steps of the Brutal Blast Fist except for the last one, as well as the first step of the Kirin Golden-body Scripture, Lion Claw.

Since he had mastered one of the trio completely and had also learnt parts of the other two, Austin decided to leave the cultivation room now.

The moment he came out, Mike told him that Reuben, the youngest prince, had been here a dozen times in the last two months, looking for him.

In the last two months, the most sensational piece of news in the imperial capital city was that the emperor himself had decreed that his youngest son, Reuben, would become the crown prince, and, later on, the emperor's successor.

Austin wasn't surprised, since he had given the soul-recovering fruits he had picked up from the Mysterious Nether World to the Prince Reuben himself.

But to his surprise, following his suit, Evan and Herbert had also locked themselves in their own cultivation rooms for practice and hadn't left.

was amused, but felt satisfied as well. If Evan and Herbert could become more powerful and not need his protection anymore, it

asked,

"Yes. I've had this idea for a long time."

Austin nodded.

Reuben stared at him with a blank expression for a few seconds, and then continued, "It's okay. I know that the Violet Orchid Empire is too small for you. It's true that with your current cultivation base, there is not much room for your improvement here. I think you'd be right in venturing into the outside world."

Reuben knew he couldn't force Austin to stay here.

"Austin, I'm sure you will reach an extremely high level in martial arts in the future. If I'm in trouble someday and need your help, I would appreciate it if you can give me a hand for the sake of our friendship."

Reuben told him sincerely. He knew that with Austin's cultivation base and talent, he would make more incredible achievements in the future. If he could get close to Austin now, maybe Austin would help him out in some critical moment.

"Hahaha! Prince Reuben, it's very kind of you to look up to me! If there's anything I can do for you in the future, do let me know and I will try my best."

Austin replied with a laugh.

"Fine. Austin, then it's a deal!"

Reuben's face lit up.

"Prince Reuben, could you please do me a favor?"

Austin asked.

"Oh?"

"What's it? Come on! Just tell me," Reuben asked, a little surprised.

"When I leave the Violet Orchid Empire, my friends would like to stay at Austin Palace in the imperial capital city.

I hope you can help me take care of them."

Austin requested.

Ivy and Sue, who were his fiancées now, had cultivation bases which were too low at the moment, so it would be impossible for him to take them with him.

Mike, Evan, and Herbert's cultivation bases were also not high enough. If someone came to make trouble, like the Gloomy Mountain Ancestor had done, Austin wouldn't be able to come back to protect them.

Prince Reuben had become the crown prince now, so except for the emperor, he was the most powerful person in the imperial capital city.

It would be the wisest decision to let him take care of his friends who were going to live in the Austin Palace.

"Hahaha! That's as easy as pie!

I will arrange some imperial guards to ensure the safety of the Austin Palace.

I have recruited some capable cultivators in the last few days, and I will ask them to take care of your friends too," Reuben replied, patting his chest. He was trying to cozy up with Austin, and here was his chance. He was glad to do Austin a favor.

Austin was satisfied. Now, he would be able to leave Violet Orchid Empire without any worries.

The Supreme God

Chapter 539 The Second Travel To The Grand Desolation Mountain

Austin clearly knew that the youngest prince had agreed to do him a favor so that he would owe him. However, considering that the prince was nice to him, Austin was more than willing to return the favor someday.

The two had become closer and treated each other as close friends.

It was in that afternoon that the youngest prince took his leave.

"Master, are you really going to leave the Violet Orchid Empire?"

Violet asked.

"Yes," Austin replied in a determined tone.

"Master, before leaving here, I want to go to the Grand Desolation Mountain.

Before I met you, I lived deep inside the Grand Desolation Mountain. I was forced to leave my home because of the sixth-grade rhinoceros king.

But some of my best friends are still there. I want to see them.

Besides, you can actually establish your own team to protect the Austin Palace," Violet proposed, hopeful that her master would grant her request.

"Oh?"

Build my own team? Are you saying that I should recruit people to work for me?"

Austin responded, seemingly curious and shocked with her proposal.

He knew that Violet must have put forward that suggestion for some reason.

Violet grinned and said, "Master, no need for that.

Have you forgotten about the Beast-subduing Skill that the Flame Emperor has taught you?

You can even tame tenth-grade diabolic beasts with this skill. I just thought that maybe you can vanquish a dozen fifth-grade or sixth-grade diabolic beasts in the Grand Desolation Mountain and ask them to guard this place.

I'm sure they are much stronger than those royal guards. What do you say?"

Upon hearing this, Austin patted his head lightly and exclaimed with delight, "Oh, yeah, you're right.

How did I not think of that?

Now that I have mastered the Beast-subduing Skill, I should make full use of it.

Desolation Mountain. Since the sixth-grade rhinoceros king was atrocious to you, I'll make him pay for what he had

he was still impressed by the incredible speed that the Unearthly Fire had brought.

Austin was more than grateful to Angus for introducing the Scorching Evil Fire to him. It not only improved his battle force but also sped up the process of refining elixirs.

He then threw the rest of the elixirs into the herbal pot.

The extraction of each elixir was done within a few seconds.

Although Austin manipulated the Scorching Evil Fire with great care, he still had a problem extracting the last elixir.

The herb was burnt to ashes instantly.

The failure in extracting the last elixir suggested that Austin failed to refine the third-grade elixir.

Austin wasn't frustrated about the result for he was aware that it was impossible for him to succeed so quickly.

Hence, he repeated the process, and after a dozen attempts, he somehow managed to extract the essence of all the third-grade elixirs

However, the last step to refine the Energy-prevailing Elixir didn't go well.

Although Austin had read and memorized all the cautions and steps about refining the third-grade elixirs, he still made some mistakes in executing it.

Austin clearly knew that practice made perfect.

But after attempting for over ten times and not getting anywhere, he finally stopped, lay on the bed and fell asleep in his clothes.

The next day, he got up early and went on his way to the Grand Desolation Mountain.

Most third-grade or fourth-grade diabolic beast lived in the outer mountains of the Grand Desolation Mountain.

The third or fourth grade diabolic beasts were as strong as the cultivators at the medium or premium stage of the Earth Realm.

As a cultivator of the Sky Realm, Austin could kill more than ten diabolic beasts of that two levels with just one move.

Therefore, he didn't stick around and instead walked deep into the Grand Desolation Mountain.

According to Violet, her abode was deep in the mountain.

When Austin first met Violet, she was just a third-grade demonic beast. At that thought, he was astonished to know that she used to live in the innermost part of the Grand Desolation Mountain. He couldn't imagine how she had survived with such weak strength.

'No doubt she was forced to leave her home by a sixth-grade rhinoceros king, ' Austin thought, recalling what Violet had told him.

The minute he entered the outer range of Grand Desolation Mountain, he asked Violet and the gnome to get out of the Illusion Bead.

The gnome was an active being, and boredom almost killed it after being trapped in the Illusion Bead for so long. The second Austin released it from the bead, it vanished without saying a word to him.

Austin shook his head with a helpless expression. 'It will come back after hanging around.

It is shrewd and moves at an alarming speed. Only a few diabolic beasts could hurt it, I guess, ' he thought, not worrying much about the gnome which had just escaped to freedom.

The Supreme God

Chapter 540 Cultivating In The Forest

There was a dense forest in the outer mountains of Grand Desolation Mountain range.

All of a sudden, a deafening snarl of an angry beast came breaking the apparent tranquility of the forest.

"Roar!" The roar reverberated through the towering trees.

Then, a giant beast with unpleasant smell stormed out of the forest, breaking several trees that stood in the way. Its whole body was badly scarred, and the wounds were bleeding freely. Its skin had ruptured in places and raw flesh could be seen peeping out of his wounds.

"Hah! You beast, stop running! Let me practice my Brutal Blast Fist with you."

A young man came out, chasing the beast. He was as fast as lightning as he ran after the beast. The young man was none other than Austin. He stopped the beast in its tracks with a laugh.

As Austin proceeded ahead with his cultivation practices, he went into the depths of the outer mountains of Grand Desolation Mountain range to practice his skills with the demonic and diabolic beasts. He had just started practicing the Brutal Blast Fist and wanted to use it in the real fights to test its power. As a result, the nightmare of the demonic and diabolic beasts had started. Whenever Austin met demonic and diabolic beasts above level 4, he would use the Brutal Blast Fist to fight them.

The level 4 and level 5 demonic and diabolic beasts were equivalent to cultivators at the Earth Realm.

And given the upgraded power and strength Austin acquired lately, he could kill these beasts effortlessly.

However, in order to practice the Brutal Blast Fist, he didn't use his other martial arts skills. Instead, he would use different kinds of forces of the Brutal Blast Fist on these unlucky beasts. Austin always liked to challenge his own skills in every step of his cultivation process.

Demonic and diabolic beasts were born with strong bodies. Thus, they were the best opponents for Austin to practice the Brutal Blast Fist with. He had been dealing with these beasts for several days. After days of practice, he attained control over the Brutal Blast Fist more skillfully.

And much to his surprise, after he knew the Brutal Blast Fist better, he was even successful in using the eight forces together, causing the beasts to explode from the inside.

The beast Austin was dealing with at the moment was a black rock diabolic bull. It was a level 5 diabolic beast.

It was clear from its name that its whole body was black. And by the virtue of its black body, it would not be visible at night.

its high defensiveness—its

beast, equivalent to a cultivator at the premium stage of Earth Realm, it was difficult for a

bull for almost an hour and had used eight forces of the Brutal Blast Fist on it one after another. In fact, he had reduced his strength on purpose. However, despite its hard skin, every time Austin hurled a force on the black rock diabolic bull, it had wounds all over its body that even made

the opposite. He stared right into the eyes of the black rock diabolic bull, overjoyed.

The glowing ball of the eight forces was slammed into the black rock diabolic bull's body.

"Explode!"

Austin cried out with an ecstatic expression on his face.

Bang!

A loud thud came from within the black rock diabolic bull's body. It quivered as if had been struck by a thunderbolt and started bleeding. Blood started flowing out of its eyes, ears, nose, and mouth in a steady stream.

Then its four limbs couldn't support its body anymore. Its body fell on the ground. The blood gushing out of its mouth also had a bit and parts of internal organs coming out with it. The light in its eyes faded as the life air left its body putting it to eternal rest.

The power of the integrated eight forces of the Brutal Blast Fist was indeed amazing. The black rock diabolic bull looked intact on the surface, but its internal organs had been smashed into pieces.

Austin looked at the lifeless black rock diabolic bull, flashing a satisfied smile. It was the sixth time that he had succeeded in integrating the eight forces.

Austin patted the black rock diabolic bull's head and a bloody beast core flew out. He grabbed it and put it in his Space Ring.

He had a separate Space Ring exclusively to store the beast cores.

The beast core of a level 5 diabolic beast cost more than 10, 000 vital energy crystals. Austin was super rich now, and he didn't take this amount of vital energy crystals seriously. Beast cores took up too much space. He wouldn't hunt level 5 diabolic beasts to collect their beast cores anymore. But since this one had been killed already, he collected its beast core as well.

Now, Austin planned to hunt demonic and diabolic beasts that were above level 6 because their beast cores might be useful in pill refining.

In the Mysterious Nether World, he had collected many beast cores of level 6 and level 7 demonic and diabolic beasts.

He would not sell these beast cores for money; he didn't lack money.

Now that he had achieved yet another target, it was time for him to move ahead. Hence he used the Wind-commanding Skill to move towards the depths of the outer mountains of Grand Desolation Mountain range.
