Chapter 1420-1422

Chapter 1420

“This is marvelous. It looks like the geniuses are coming out!” The members of the families were overwhelmed with emotions as they gazed at the huge pale blue-colored light dome from the outside.

Among them stood the all-too-confident Quentin. He walked a couple of steps forward and said loudly, “Everyone, it is obvious that many geniuses have died in this competition. Sigh... This is a training for them, and the geniuses who survived this competition are true geniuses.

They’ll definitely have a longer journey in life after experiencing a baptism of blood.”

Quentin had no idea that the secret technique that connected him and his son had stopped working after his eldest son took the pill to increase his fighting prowess. Hence, he did not feel anything when Cloud died.

As a result, he naturally thought that Cloud was still alive and had avenged Tyrell successfully.

“That’s right. The geniuses who survived would definitely have some achievements in the future!” The master of the Lagorio family, Trenton Lagorio agreed wholeheartedly, believing Jack had perished and that the cooperation between the three families would surely bring them the results they wanted.

The only incident was that the opposing motley crowd took some precautions in the later stages, so many of their people should have died as well.

However, it was sufficient so long as 300 to 400 of the competitors from the White family, including Jack, had died. That was the result he wanted.

The family master of the Church family also stood forward with a smile on his face. "That's right. Everybody has been informed of the rules before the competition, and everybody should obey the rules. Even Master Hunt accepted the death of his second son. Indeed, he must be saddened, but this has been fated. All we can do is accept the outcome."

Quentin also nodded. "Sigh... It's alright, seeing as a couple of days have passed. It's normal to be unable to accept it in the beginning and feel sad. I believe that many of them who come out later would be sad too. However, as martial artists, we should focus on pursuing the principles of life, right? We shouldn't put too much attention on relationship related issues."

"That's for sure. What Master Hunt said is very true," replied Trenton smilingly. He then looked at Nash and asked, "Master White, that son of yours is a genius. Oh, that's right. You had two sons, but one of them didn't return after traversing a dangerous area, and he must've died for sure. That's quite regretful, and my heart aches as he was my grandson."

Pausing for a moment, Trenton then continued, "However, you'd be hurt much more than I'll be if this second son of yours, Jack also died, am I right? By then, you'd only be left with a daughter, Yule! Haha!"

Quentin, knowing that Trenton hated Nash to the core and that Trenton had tried his best to butter up to him, wanting to get into the Hunt family's good books, he chimed in sarcastically, "That's right. If that's the case, Master White will truly be in a miserable situation. I still have my eldest son, while you'll be left with none!"

Master Church even added on with a smile, "Didn't that daughter of his also join the competition? What would he do if she also died in the forest? He might have to go home and hurry up in making babies. Otherwise, his line of descent would genuinely end!"

Nash's face darkened, baffled as to how these three family masters would gang up on him and speak in such an unscrupulous manner in front of everyone.

Noticing his bitter expression, Trenton continued to throw jabs at him and sneered, "Is something wrong? Master White, we're just joking here, and the competitors aren't even out yet. Could it be that you're really afraid? You can't even take a joke?"

Nash glared at the other party fiercely and said, "Trenton Lagorio, you've also said that the competitors haven't come out yet. How would you know that my son is dead? It is true that my son's combat power isn't as strong as some geniuses, and that his fighting prowess is also slightly lower compared to some geniuses, but the forest is huge and Kobe Mountain is vast as well. He might not have bumped into those strong masters. As long as he's careful, I know he'll walk out alive!"

Nash glanced at the light dome at this point and continued to say, "My daughter, Yule, would definitely come out alive as well!"

Suddenly, several people were hurled out from the light dome and accidentally fell to the ground as they were not on their guard.

"Oh my, they've come out. They truly have come out. Surprising how they're all just hurled out like that!"

Chapter 1421

A man stood up and rubbed his butt before looking at the crowd in front of him. At this moment, many competitors were also thrown out of the spiral.

Some of them who reacted in time immediately activated their Chi to help them land smoothly. Those who reacted slightly slower, on the other hand, landed straight on the ground in an embarrassing manner.

"Haha... Haiden, I knew you'd be alive. Quickly, come to me, my beloved grandson!" The Second Elder of the Zachary family was delighted when he saw that his grandson had emerged unscathed

Haiden rubbed his butt and dusted himself before walking toward him. With a bitter smile, he spoke, "I'm alive, but my luck was really bad. I didn't get many tokens!"

“Forget about the tokens, they’re not that important. The most important thing is how many people are alive right now. From the light spots on this light dome, we can deduce that almost half of the people in this competition have died.” Emotions overwhelmed the Second Elder of the Zachary family. Although his grandson was quite strong and was in the intermediate stage of the true god level, there were a couple of freaks who joined this competition. Some of those people had extremely high combat power, hence he was slightly worried, even though Haiden was talented.

“So many have died? Sigh... I wonder how many from our Zachary family are alive.” Haiden sighed as he despondently watched on as more people were hurled out from the spiral.

Many of the family masters tightened their fists as they waited anxiously.

Spotting Yule’s figure not long after, Titus turned to Nash and excitedly exclaimed, “Yule has come out!”

“Yes, I see her! I see her!” Nash was slightly at ease when he saw Yule coming out. There were quite a few geniuses from the White family who came out beside Yule, and a dozen of them slowly emerged.

However, he was still slightly worried. After all, 400 people from each family joined the competition, and only a dozen had returned at the moment. He had no idea what to expect next “Beth has returned too!” added Titus happily upon spotting Beth.

Kenneth was overwhelmed with delight when he saw his daughter coming out. “Beth, come here!” he gushed.

Beth quickly flew toward him when she saw them. “Father!”

Kenneth immediately asked, “Where’s Jack? Did you see him? Is he still alive?”

Nash and the others also looked at Beth, unable to control their anxiety as they anticipated news of Jack.

Chapter 1422

Beth rolled her eyes at everybody when she saw how impatient they were and said, "Why are you guys so impatient? Isn't he coming out soon? Goodness gracious!"

"He's coming out soon?" Nash was stunned before an ecstatic expression appeared on his face. "What great news! This means that my son is fine, and he's coming out soon!"

After he finished speaking, Nash -unable to contain his excitement-walked toward Trenton and gloated, "Did you hear that? Our geniuses told us Jack is fine upon returning here. Nothing happened to him, and he's coming out shortly!"

"How... How is that possible?" Trenton frowned in disbelief. Did Jack not join the last huge battle, or was this guy a coward that he hid somewhere during the last couple of days to wait for the competition to end?

Sure enough, a figure was sent flying outward at this moment and almost fell to the ground. He quickly focused his Chi at his feet and landed slowly on the ground.

"This is great, Young Master Jack has returned!" Many of the elders and patronums from the White family were delighted. Jack's talents were greatly recognized by them.

Jack was the beacon of hope among the White family's younger generation. Many people looked forward to having him being their next family master, and he had gained the support of many.

If Jack died during the competition, that would be a huge loss for the White family.

"How's this possible? This guy truly had walked out unscathed!" The family master of the Hunt family, Quentin Hunt immediately glowered in disbelief, momentarily at a loss for words.

He suspected that it was indeed Jack who killed his second son and was aided by Helena. After all, his son had some contradictions with them previously. Initially, his son did not want to join the competition as he felt that it was meaningless, and Tyrell only decided to join the competition after the squabble between him and Jack happened.

Hence, there was a large possibility that his suspicions were true.

If Jack was still alive, that meant that Cloud had not avenged Tyrell yet.

“Could it be somebody else?” Old Master Hunt, who was standing at the side, could not help but frown as he secretly guessed. After all, none of them knew for sure what happened inside.

The First Elder of the Hunt family thought about it and spoke, “There were so many people in that forest. I refuse to believe that none of them knew nor saw how the second young master died!”

Whoosh! Whoosh! Whoosh!

As more and more people were thrown out of the dome, Jack slowly walked toward his

Family

However, Jack was stopped by Alejandro just before he got to his father.

“What’s wrong? Is there anything Master Cabello needs?” Jack frowned. It was known that the relationship between these two families had been strained all along.

Alejandro immediately smiled embarrassingly and asked, “Jack, you’re dating Helena, right? Have you

seen the three of them there? Do you know about their current situation?"

Jack could see how worried Alejandro was about his three daughters. Perhaps this was the love of a father.

He smiled and said, "Don't worry -all three of them are well and alive. Nothing happened to them!"

"Great! It's great that they're all alive!" Alejandro stepped a couple of steps back and gave way to Jack after he received the news. The burden that weighed his heart was removed at last.

After all, half of the people who joined this competition were dead even though his three daughters were talented. His worries were unavoidable as too many people had died. He was most worried about Daniella, as her fighting prowess was only at the initial stage of the true God level.

No. 1 Supreme Warrior

Chapter 1423-1425

Chapter 1423

Jack's words had very much assured and calmed Alejandro.

True to his word, Helena and the others were thrown out one after another not long after.

Some time later, about 100 to 200 members of the Cabello family, White family, and Lancaster family had come out.

"I heard that Tyrell Hunt had died?" Nash asked Jack when the latter stood before him.

Jack smiled and spoke, "Let's talk about the details after we go back. Some of the people from the other families might cry due to anger soon."

Nash nodded; talking about what happened at that place was not the best idea to do. It would be bad if people from the other families around them overheard them, even if they spoke softly.

“Cry due to anger?” Nash was stunned though was delighted as he realized something.

They were able to notice some things from the light dome previously. The people from the Hunt family seemed to have formed an organization with people from some families and were killing geniuses from the other families.

However, it looked like their opportunities to do so failed eventually

“This is weird. Why are the only ones returning from our family so few?” The members of the Norman family started to panic when they saw that not many of their people had returned while many of them from the White family, Cabello family, and other families had returned.

Everybody started to worry, especially when none of the family master’s three sons came out.

Time slowly passed. Some third-class aristocratic families were delighted as they had around 300 people remaining, while those who only had around 100 people left had darkened expressions on their faces.

The light dome gradually darkened as well, which meant that almost everyone inside had come out.

“Impossible!” Finally, Trenton could not hold it back anymore. Up until that moment, only about | two dozen people out of the 400 contestants from the Lagorio family who entered had returned. From the proportion, it was obvious that many of their members had died.

His glower was dark, bitter, and spiteful.

“Why hasn’t Cloud come out yet?” Quentin was equally irate. Not only did Cloud not come out yet, but only a dozen of the Hunt family’s geniuses had returned at this moment. The situation, no doubt, looked bleak.

After a while, the First Elder of the Hunt family reminded Quentin with a frown on his face, “Master, there are only a dozen light spots left on the light screen.”

Obviously, only around a dozen people had not returned.

“Don’t speak about it!” Quentin tightened his fists and gritted his teeth.

After around ten seconds, the remaining people had come out. The White family had around 300 people left while the Lancaster family and the Cabello family also had about 300 people. Only a few dozen of their people had died yet, compared to the other families, the situation of these three families was obviously better.

Even the Zachary family and the Ximenes family were in a neither good nor bad situation as about 200 of their members had returned

“Impossible! Why... Why hasn’t Cloud come out?” Old Master Hunt shook his head continuously after the light screen disappeared, unable to comprehend the truth. He knew all too well about Cloud’s fighting prowess and combat power. He could be considered as the best among the younger generations, yet he did not come out.

Nash could not help but feel amused by what Quentin said previously. He stepped forward and persuaded the latter, “Master Hunt, we’re sorry for your loss, but please accept what has been fated. You mentioned previously that this is quite normal. The young people can only grow after they experience the baptism of blood!”

Chapter 1424

The corners of Quentin’s mouth twitched uncontrollably a couple of times, and his facial expression

contorted uglily upon hearing Nash's words. Quentin was mocking others just moments ago, never once thinking what went around would come around.

"Master Lagorio, your family seemed to have suffered a serious loss this time as well!"

"By the way, why does the Church family only have so few people left? All three of your families are big families!" Shelby could not help but step forward and started mocking the other family when she recalled how they gloated and paraded themselves moments ago.

"Impossible! I'm sure that Cloud is still alive! I'm sure of it!" yelled Quentin loudly after mulling over his thoughts. Eyes slowly reddening, he could not accept the fact that his eldest son had also died. He even struggled to recover from Tyrell's death, and his heart had only started to feel better. Never did he see it coming that his eldest son had also died.

One of the elders from the Hunt family wore a grieving expression as he stepped forward and said, "Master, everyone is out now. This formation and the light screen had also disappeared. The young master has..."

"Master, this... This..." Trenton also stepped forward. Apart from the grieving expression on his face, he was also in disbelief. How could the union between the geniuses from three families fail to topple their opponents? Worse still, their three families had suffered such a huge loss. Although these three families had many geniuses, it was still difficult for them to accept that more than 300 top-tier geniuses had died in one occasion.

"What about this? I didn't expect something like this to happen either!" Quentin glared at Trenton angrily, inwardly facepalming at how insensible this guy was. What would they do if the other families realized their plans based on what he said?

However, Jack stood forward at this moment and humored, "Master Hunt, I think an explanation is required from you about certain things."

“Explanation? What do I need to explain?” Quentin’s facial expression contorted into bitterness and pale anger. He was in grief as both of his sons had just died, and he suspected that Jack and Helena were the ones who did it. After all, Helena was incredibly beautiful, and she needed only to bewitch his son and look for an opportunity to sneakily attack him, mortally wounding his son. There was a huge possibility of his son being killed if the two of them attacked him together.

It shocked him that this Jack would talk to him in such an interrogative way.

Jack smiled coldly as he challenged the other party, “Haha... When we were fighting inside, some of us heard about how members of your family wanted to work together with people from the Lagorio family and Church family to kill geniuses from other families. Isn’t that a bit overboard? Apart from that, we keep bumping into people from these three families attacking our people. They worked together to kill those who were isolated!”

“So that’s what this is about. Quentin Hunt, isn’t this a bit too much? Did you guys agree earlier before this to work together and attack our people?” Darryl Norman had been extremely angry as many from his family had died, including his three sons. How could he not get angry when almost half of the contestants from their family had died? He suspected at that moment that all three of his sons had died because of this prearrangement!

“That’s right! You’re crossing the line if you people had colluded since early on! You’ve caused so many of our people to die!” Many people from other families also stood forward and expressed their protest.

“How can you call this a competition? I think you people just want to work together and kill the geniuses of our family, aren’t you?”

Chapter 1425

Alejandro from the Cabello family spoke his mind in anger.

“I hope you’ll be able to offer us a decent explanation, Master Hunt!” persisted Nash.

Jack was appeased when he saw how the people from the Hunt family had instigated everybody there.

Guessing that Quentin would have been pissed and angry because both his sons had died, Jack believed he would have also questioned what happened during the tournament and would search for the killer. Even if he could not kill the person at this moment, Quentin would not simply let it go.

However, Jack's prompt action of questioning him before he could do anything had forced Quentin into a state of passivity.

"Explanation, my foot!" growled Quentin instantaneously as he slapped his thigh. "We've never had such thoughts. If that's the case, why are so many members from our families dead? If you aren't prepared and our three families have united, more of your people should be dead compared to ours, as all of you were isolated in the beginning!"

Trenton turned his hate-filled glare toward Jack and scoffed, "Don't make up such slanderous charges, Jack. I'll let you know that you're going to face retribution for saying such things!"

"Retribution?" Jack smiled coldly and added, "There are so many people from different families and so many contestants. They know very well about the situation they have faced. If I'm making things up, it's impossible that everyone is implying the same thing, no?"

Helena immediately stood forward and angrily rebuked, "Master Lagorio, are you with a guilty conscience? Let me tell you: Many members from our family had faced the murderous hunt from the geniuses of your families! Your people even killed those who handed their tokens willingly and surrendered!"

"That's true! The members of our West family had also met with many of such situations. I was lucky to be alive because I managed to escape, and that's even a struggle!" a young man from the West family chimed in as he stood forward.

"That's right. Our people also faced the same thing!"

“Yes, this is too much!”

The geniuses from the other families came forward and expressed their utter fury. It was natural that they were unhappy as they felt that they had been schemed against by others who had a headstart in a competition

Those third or second-class reclusive families were especially furious.

“Master Lagorio, what else needs to be said? It looks like my son isn’t the one making slanderous charges, right?” Nash smiled coldly as he looked at the other party. Although the Hunt family was strong, all other families apart from the Church and Lagorio families-were on their side. This made him more confident when he spoke. After all, these three families could not go against so many families, could they? If everybody cooperated, these three families would be no match for them collectively.

“How would I have known about this? Anyway, our families never had such discussions before the competition in secret!” Trenton immediately replied without much confidence, flustered and guilty. “Anyway, I don’t know about this. What is this actually about? Apart from that, why would so many of our people die if that was the case? This doesn’t make sense!”

No. 1 Supreme Warrior

Chapter 1426-1428

Chapter 1426

“We’re alive because we

Noticed everything much earlier, and we got lucky!” said the smiling Jack.

“That’s right!” Daniella crossed her arms at her chest as she challenged, “This competition of yours has gone overboard, and it must’ve all been premeditated!”

“Master Hunt, I hope that you can give us an explanation! None of my three sons came out! None of them!” Darryl, overtaken with fury, wanted nothing more than to rush forward and fight, and he was only held back because his deep-seated conscience told him he was no match for the man before him.

“How would I know how your son died? My sons are dead, and so many members of the Hunt family are dead. This is too weird!” Master Hunt stomped his feet in anger. He then said to the many competitors who survived the competition, “Do any of you know what actually happened? I’d understand that my second son has died; I’ll presume that it’s because he wasn’t really skilled. My eldest son on the other hand had pills with him to increase his fighting prowess, and he even had a speed-enhancing rune, the Divine Traveling Rune. He has such a high fighting prowess, and his combat power is comparable to the Peak stage of true-god level. Who on earth is strong enough to kill him?”

“We truly know not about it, Master Hunt!” exclaimed members of the West family immediately.

“That’s right, we didn’t see both young masters of the Hunt family when we were in there. How would we have known that they died?!” insisted a genius from the Zachary family. “On that note, we hope that Master Hunt won’t change the topic of the conversation. Please answer our question as to why you and the other two families would unite and go against our families. You guys must’ve planned everything out much earlier than this!”

Quentin had no idea what to say at that moment. He wanted to get the person who killed his sons out and whip the person’s dead body to resolve the hatred in his heart.

However, he had to face the inquiry of so many people here.

He closed his eyes as he clenched his fists tightly. After some time, he exhaled deeply.” Firstly, I have to clarify that all three of our families had never discussed nor planned anything about uniting and killing people from other families. I assume the reason they did that was because their friendship had grown during the competition, and that they felt they would fare better in fighting against the others when they band together.”

Quentin paused here before he continued, "With that being said, this was something the competitors conceived impromptu, and it has nothing to do with our families, and no way was it premeditated!"

"That's right! This was something they thought of at the spur of the moment, not something premeditated!" Trenton immediately went along and said, "It's normal for our younger generations to have united, considering the relationship between our families had been well all this time. For example, the White family has a better relationship with the Lancaster family, so their prodigies must've teamed up to fight against their enemies as well. Apart from that, the Ximenes family and the Zachary family also have a good relationship!"

Master Church also nodded and said, "Exactly-this is all a normal, much expected behavior. I urge everyone to have no ill thoughts about the matter!"

Quentin glanced at Master Norman again before he spoke. "Master Norman, I felt that extreme heartache that all three of your sons had died inside. However, these are the rules of the competition. We had agreed that surviving and dying in the competition are personal responsibilities. If they have perished, no one can look into it after they come out, right? I do not plan to look into it, even though my son is dead!"

"That is true. Let's not think about what happened inside. The situation had gotten to this point, no matter what happened in that forest." At this moment, Old Master Hunt stepped forward. Although he was heartbroken, they were the ones who set these rules. Apart from that, they purposely stressed the rules because they thought that their people would surely win. How could they embarrass themselves at this moment? So many geniuses had died, including his two grandsons. Those who died would not come back alive. It was not worth being on the receiving end of the ridicule.

"What Old Master Hunt said is right; let bygones be bygones. I believe that your Hunt family wouldn't do such a despicable thing," said Master Ximenes as he stood forward, thoughts mulled over. "Since the competition has ended, it's time to calculate the tokens. Let's distribute the rewards for this competition based on the ranking. How about that?"

"Master Ximenes is right, let's calculate them." The visibly crestfallen Quentin felt waves of heartache at that moment.

As everybody calculated the tokens, Quentin helplessly turned to the Hunt family's First Elder and muttered, "First Elder, I feel that Cloud isn't dead. His secret technique ... I can still feel the connection with him in my body!"

"There's still a connection? He's surely alive, then!" The First Elder of the Hunt family was over the moon when he heard this and continued, "I'm sure the other party left because they thought that the eldest young master was dead.

He must've survived and played dead back there. Haha... He's probably still in that forest!"

"That's right! Why didn't I think about that? You should bring a few men to go search inside. Find Cloud, do you understand?" Quentin's eyes lit up as he was inwardly delighted. It was feasible enough. What if his son still had not died or was acting dead?

The First Elder immediately brought a group of people as they rushed over to search for their eldest young master.

Jack immediately frowned when heard this, though he relieved himself at the thought Cloud was genuinely dead. After all, he did cut Cloud into two halves with his sword, and Quentin was probably thinking his son survived due to that secret technique of his that made it such that he was still in connection with the eldest young master. Jack estimated that the technique might have malfunctioned on him.

Helena and Daniella, on the other hand, were worried silly when they heard this. They were anxious. Would they not be in trouble if Jack did not end Cloud's life for certain, and that he managed to survive after all?

Never did the two ladies expect that Quentin had caught their frowns and worried expression. He could not help but frown and his heart immediately dropped.

Quentin felt that his son's death definitely had something to do with Helena. Why else would she be so worried and

Nervous when she heard that Cloud was still alive?

Not long after, the calculation of the tokens was completed.

The top-three of the individual category were Jack, Helena and Randall. The White family triumphed in first place in the family category, followed by the Lancaster family, and then the Cabello family!

The Norman family, Hunt family, Church family and the Lagorio family had a very, very low position in both the individual and family categories.

However, they did not care much about the ranking as the geniuses who died in this competition had caused them enough grief.

"Unbelievable! The White family managed to get first place in both the individual and group categories!" Titus, Kenneth, and the others were overjoyed. The White family had truly shone in the competition.

Chapter 1428

"The White family has made a great earning this time. Who would've thought they would snag two first-place positions!"

"That's right. It's like the saying, 'You can't judge a person by appearance, just as you can't judge riches by measurement.' The White family's young master is truly favored by the gods. He managed to get first place with his intermediate stage of true

God level's fighting prowess, and he had gotten so many tokens!"

“He might’ve been lucky. After all, this competition is about finding tokens, and there’s no need to fight with others. I’m sure that he wouldn’t be able to fight the other freaks who are in the final stage of the truegod level!” Many of the people surrounding them also started to discuss among themselves.

Darryl then came forward toward Quentin and, thinking it through, asked, “Master Hunt, do you truly think the eldest young master isn’t dead? If he wasn’t, the formation would’ve sent him out, right?”

Quentin nodded and said, “There’s still such a possibility. This is the first time we’ve used this formation, and there’s a possibility that it failed to sense him. Apart from that, what if my son pretended to be dead? What I can confirm right now is that the connection between me and Cloud is still obviously there. The connection will always be there if I don’t cut it off or if he’s truly dead.”

Quentin looked at the forest in front of him at this moment and continued, “Regardless of that, the close connection is still there, and this means he’s definitely alive!”

“There might be a possibility that the formation failed to sense him? Maybe it can’t sense those who are badly hurt?” Darryl also frowned before his eyes lit up faintly. He then turned around and yelled to their First Elder, “First Elder, First Elder! Bring some people with you and go in for a search. See if you can find some of the Norman family’s geniuses and if my three sons are still alive. Nobody had ever used this formation previously, and this is the first time it’s used. It might not have accurately detected everyone’s status in that forest!”

“Alright, alright! I’ll bring some people in for a search!” The eyes of the Norman family’s First Elder also lit up when he heard this. His grandson had died inside, and it would be best if what Darryl said was true. What if his grandson was still alive?

“It’s like what I’ve said: how could so many people be dead? There might be people who weren’t sent out because the formation can’t sense them!” rushed the master of a family. Around half of the contestants from their family had died, and such a matter was somewhat unacceptable.

Many of the families sent people in for a search after they heard this.

“Jack, should we send somebody in for a search?” Nash glanced at Jack. He believed that what was shown on the screen was definitely correct. The spots that disappeared one after another surely meant deaths.

Jack thought about it and said softly, “Yes, send some people in as a ruse.”

Nash nodded and pretentiously sent people in to search.

The Cabellos and Lancasters also sent some people in for a search when they saw that the White had sent some people into the forest

Since everybody had gone in for a search, none of them were impolite enough to leave. Jack also could not tell Nash on the spot that he was the one who killed all three young masters of the Norman family and both young masters from the Hunt family. With that, everyone else had to wait out there.

About two to three days later, those who went in to search for possible survivors had returned, though with dispirited expressions as they came out fruitless.

“Impossible; I can still feel the connection. Could there be something wrong with this secret technique of mine?” Quentin still could not believe that his eldest son had died. He shook his head continuously when he received the report from the First Elder and the others.

“Master, let’s face the truth. We... We found the eldest young master’s body and it...it had been separated into two halves. He can’t be alive!”

No. 1 Supreme Warrior

Chapter 1429-1432

Chapter 1429

The First Elder sighed as he helplessly explained.

Quentin was so infuriated that he gritted his teeth. His figure shook in anger as growled, " Argh!"

However, nobody expected Jack to fly upward at that moment and became the person that caught everybody's attention.

Quentin looked at Jack and questioned him, "Jack, why did you fly up? Do you know who killed my son?"

Jack looked at him and said, " I'm sorry for your loss, Master Hunt. Those who are dead can't come back alive, and you said this yourself that this is the competitions' rule. Everybody has to bear the consequences no matter what it is, am I right?"

"You..." Quentin was furious but he also did not know what to say. These were the words he repeatedly told everybody.

"Then why else did you fly up, young man? Do you want to get everybody's attention?" questioned Trenton as he pointed at Jack. His family had lost a large number of prodigies, and the thought of it embittered them.

"I flew up because I want to inform everyone about something everybody wants to know!" replied Jack, smiling as he did. "We discovered something wonderful back there, and this might be related to finding ways to breakthrough into the ultimate god level!"

"Really?" Many people had excitement written in their eyes. Those who were in the final stage and peak stage of the true-god level were especially excited.

Even the originally grieving Master Hunt and Master Norman also had a glint of something different in their eyes.

“Young man, this is greatly related, and you can’t simply make things up!” The First Elder of the Cabello family was just as invigorated. He was looking forward to Jack telling them something useful, but also feared what he would say instead would be garbage.

“That’s right, young man. So many of us had never found anything viable over the years, yet you suddenly found one? Are you boasting?” Trenton had a cold smile on his face, not believing Jack had found something useful.

“Don’t worry. How would I dare say something like this if I’m not certain about it?” Jack glanced at the other party coldly before he addressed the crowd, “Have everyone noticed that there was a pattern in the sky of the screen previously? That pattern was like a map of our Cathysia. As for those seven flashing light spots, I asked Helena and the others about those spots with different colors... Everybody said that those positions were the same positions as the seven dangerous places!”

“Brother Jack, are you saying that there might be secrets about the ultimate god level in the seven dangerous places?” gushed Randall in utter excitement.

“That’s right!” Jack nodded before he spoke, sure of himself, “Apart from that, I feel that the possibility is greater than normal! The seven dangerous places definitely have secrets about the ultimate god level!”

Chapter 1430

A family master was inwardly shocked when he recalled it. “Yes, it does look like that pattern is the map of our Cathysia. We didn’t look too much into it before, but they do match now that we think about it!”

“Yes, the seven dangerous places are very well-known, and not many escape to tell the tale of those dangerous places! Although there are precious items inside those places, none of us dare to truly enter them!”

Another woman thought about it and nodded. “We searched for many places but failed to obtain any news about the ultimate god level. Could it be possible that the items related to the ultimate god level are in these seven dangerous places?”

“That’s right. We’ve never traversed the deeper areas of these dangerous places. Is something in there, though? Goodness. Should we go have a try? Although it’s difficult for those with the semi-god level fighting prowess to survive after entering, that’s because none of those in the true-god

Level had entered the area. Wouldn’t it be much better if a large number of us, and best if they have the true god level fighting prowess, enter the area?” The First Elder of the Cabello family already looked like he wanted to leave.

It was obvious that he had long wanted to breakthrough into the ultimate god level, seeing as he was rather old and that his fighting prowess had achieved the peak stage of the true-god level since long ago. Based on legends, he would achieve another 200 years worth of life if there truly was a way for him to break through and achieve the ultimate god level.

“First Elder Cabello, don’t be duped by this young man!” Unexpectedly, the Hunt family’s old master smiled coldly at this moment as he added, “I think this young man is making silly guesses and is unreliable. He might want to deceive us old people into entering dangerous places and let us die inside when we do that! After all, none of us clearly know how dangerous that place is!”

First Elder Cabello’s face instantly darkened when he heard this. He then asked Jack, “Young man, how can we trust you about things you simply say without any evidence?”

“Haha!” Jack chuckled abruptly. “I wouldn’t say something if I truly have no evidence. Yes, these are my assumptions, but there are still some basis to them.”

Everybody looked at Jack in silence as if they awaited his explanation. Even if Jack was just making an induction, they also hoped that he could give them much more reasonable facts to increase their confidence.

Jack took a moment before he continued, “Everybody, think about it. The book from First Elder Cabello and the legend tells of the ultimate god level. Apart from that, the presence of the names of the third-grade pills, fourth-grade spirited grass, and others are proof of the ultimate god fighting prowess’

truthfulness! This formation, on the other hand, is truly ancient, which means that it was left behind by people many years ago. It seems like it's going to, and wants to, tell us something, but it's been too long and these stone pillars had been destroyed for certain reasons to cover up some things!"

Everybody nodded after they heard this. After all, what Jack said seemed to have proved something-the truthfulness of the ultimate god level.

Quentin thought about it and said, "How about this: I think we should all return and take a rest, seeing as the competition had just ended. Regarding the seven dangerous places containing secrets about the ultimate god level, let's come back and discuss this a month later. What do you say? After all, every family has lost quite a lot of people, and I'm sure some family masters and elders are rather despondent right now. Everybody should regain their mental fortitude during this time and try their best to breakthrough in terms of fighting prowess. What do you say if we agree on a location to discuss this matter one month after this?"

"I think it's well-thought-out. It's decided then. Well, since the Cabello family is in the middle position, everybody can come to our place for a discussion a month from now and decide on it. What do you guys think?" Alejandro proactively proposed after thinking about it.

"Haha..." Quentin chuckled before he concluded, "Alright, it's decided then!"

"Alright, let's all leave."

Chapter 1431

The family masters gradually left with their families.

"Father, Jack is my best friend. Can I go for a trip to the White family and come back to the Cabello family next...next month?" begged Daniella hesitantly after they walked a short distance away. "Oh, yes, my eldest sister can follow us. Jack saved our lives during the competition, right? He's also your boyfriend! Don't you want to go?"

Daniella purposely mentioned Helena in fear that her father, Alejandro would be suspicious and would stop her from leaving.

Helena was embarrassed as she noticed Daniella was deeply involved. Her sister wanted to follow Jack just moments after leaving him. She was too clingy for her own good.

However, Helena could only play along as she smiled at Alejandro. "Father, shall we go out on a trip? Let's take this as a way to relax. What do you think?"

"The White family is our enemy. You two..." Alejandro wanted to remind his two daughters just like how he did before, but he trailed off halfway.

As he thought of what to say next, he spoke, "It's best if the two of you don't follow them. I know that Helena pretended to say that Jack was her boyfriend to reject Tyrell; any person who knew what was going on could tell. Still, I never thought Jack would choose to keep quiet and even pretend along to help you. This young man had really done something good!"

Helena frowned. It looked like she would not be able to visit the White family with Daniella.

Alejandro's heart suddenly stopped when he saw Helena's expression. "Goodness, Helena," he uttered, "you're thinking about going to the White family? Have you genuinely fallen for the young man from the White family?"

Panicked, Helena hurriedly denied, "No! How's that possible? The time that I know him isn't even as long as Daniella did. It's just that he saved our lives during the competition and even saved the lives of many of our prodigies, so we treat him as a great friend!"

Venus, who was by their side, also jumped in instinctively and said, "Father, don't you think that we should ease the relationship between both families a little? After all, it's easy to make enemies but hard to resolve them, right? Those involved during what happened years ago had died, and it's quite normal for somebody to kill to snatch precious items, right?"

"I..." Alejandro had such a thought for a long time but he could not let go of his pride. He had stood firm on this matter all along.

"Master, Young Master Jack truly saved us. Why don't we just let go of what happened many years ago?" implored a young genius from the Cabello family.

"That's right, Master! Let it go!" Several young geniuses also stood forward.

"Alright, alright!" Alejandro smiled bitterly as he took a couple of second-grade elementary level spirited grass out with a flip of his hand and passed it to Helena. "You and Daniella can go catch up to them. Tell them that what happened between our families has been resolved. This is a token of appreciation for Jack assisting the Cabellos."

Chapter 1432

"That's the spirit, Father! You've finally figured it out. We'll definitely improve the relationship between our families!" Daniella exchanged glances with Helena after hearing Alejandro's verdict before taking the items from him. She held Helena's hands and went running where Jack and the others left.

Stunned, Alejandro watched as both beautiful figures slowly faded from his view. "What's going on? Why does Daniella seem to be more excited than Helena?"

Venus, who was by his side, had a weird expression on her face as she smiled and said, "It might be because Daniella is more playful and is thinking of going out to play!"

Many chuckled upon hearing her words.

After they travelled some distance away, Alejandro asked, "Alright, Venus, now that we've traveled so far, I have a question for you..."

Unexpectedly, Venus interrupted Alejandro before he could finish, "Father, I know what you want to ask. Let's wait till we get home."

"Alright." Alejandro nodded embarrassingly with an awkward smile on his face.

Jack and the others slowly left Kobe Mountain on foot to not raise the suspicion of the Hunts or let them know he had an ultimate-grade spiritual tool.

Plagued by his curiosity, Titus then spoke up, "By the way, Young Master Jack, is it true that nobody knows who killed both young masters of the Hunt family and the three young masters of the Norman family? More importantly, the two young masters of the Hunt family, that is, considering they have extraordinary combat power. It's rather hard to digest!"

Unexpectedly, Jack smiled mysteriously and confessed, "I'm the one who killed them."

"Haha! How can that be? You're pulling our leg, Young Master Jack!" Titus laughed in disbelief. However, he soon frowned and said, "Did you? Had Helena seduced those people and wounded them badly before you gave them the fatal blow? If that's the case, you truly have passed the death sentence on them!"

Jack looked at this old man, momentarily at a loss for words, before he spoke, "Housekeeper White, I have to admire your imagination as you can think of something like this. Do you think that the first young mistress of the Cabello family is such a person?"

"That's right. Housekeeper White. What are you talking about? Do I look like that kind of person?" The two of them did not expect their conversation to be overheard by Helena and Daniella, who had just caught up with them. Helena immediately rolled her eyes at him, rather stunned at his random guess.

"Oh my... Speaking...speaking of the devil! It looks like we should never talk about somebody behind their backs!" Titus had a smile written over his face as he spoke. "Firstly, I have such thoughts because

the First Young Master Hunt had a high fighting prowess and strong combat power. Secondly, it's because Miss Helena is much more beautiful compared to the others and is extremely talented to boot!"

"Hmph! Don't think I'll forgive you just because you praise me for my beauty!" Helena pretended to be angry as she crossed her arms at her chest.

"By the way, ladies, the two of you are..."

Chapter 1433

The second elder faintly froze, then jokingly said, "It can't be that you can't let go of our young master, and that's why they are catching up, right?"

Once Helena and Daniella heard this, the two beauties couldn't help but have slightly red cheeks.

"Not at all!"

Daniella tilted her head, then took out the spirit grass and handed it to Nash: "By the way, Master White, my father said, this time in the competition, Jack saved our lives. Moreover, Jack also helped my sister to resolve the crisis. So looking at all of these things, the previous feud between the two families, hopefully, can be dissipated, and these are from my father's heart, as a thank you to Jack!"

"Oh, I really didn't expect that your father would become so polite!"

Nash had actually stopped hating the other party a long time ago. It was just that the other party targeted him at every turn, and sometimes he had to hit back at the other party, so that the people of their family wouldn't be too tolerant.

He took the spirit grass and put it away, then smiled: "Good, good, our two families' hatred can dissipate. I hope our two families can build more friendship in the future!"

"Hey hey, right, it just so happens that while we were in competition, we were quite stressed. My sister and I intend to go to your White family for a stroll, as a break. After all, Jack and ourselves can be classed as good friends, right? You will not mind, right?"

Daniella asked with a smile as she put her hands behind her back.

"Oh, I can't wait, I can't wait for the two of you to visit our house, this is something I can't wait for!"

Nash laughed, he is not stupid, it seems like Jack's relationships between the two girls was not like the relationship of ordinary friends. Otherwise, after sending the spirit grass, they should go back, so why do they still want to come visit our home?

"Could it be that Helena and Jack, as a fake couple, slowly developed real feelings?"

Finally, Nash thought secretly in his heart that he thought it was a great possibility. It should be that Helena would like Jack, but if she came alone, she was afraid of being seen. After all, the two were pretending to be lovers. If this was seen, she would be embarrassed at that time, so she called Daniella to come with her. If that was the case, it made sense.

"Second elder, the Hunt family young master was really killed by Jack, his combat power is too strong, you guys don't underestimate him!"

Helena looked at the White family second elder, said: "But you rest assured, we will certainly keep it a secret. Although this is known by more people, paper can not cover the fire, I'm afraid that sooner or later, the Hunt's will know, but we certainly will not say anything. At that time, maybe the White family will develop and surpass their Hunt family!"

"Beyond the Hunt family? Oh, this is too difficult, too difficult, we do not dare to think so! To be acknowledged as one of the Eight Shadow Families is already a great ambition!"

Nash was very modest, after he finished speaking, he looked at Jack again, wanting to confirm again, "Jack, did you really kill that Young Master Hunt?"

"Dad, really one-on-one, it's hard for me to be his opponent, it was mainly with the help of my sword. This is what happened....."

Jack then briefly explained what happened.

"So that's how it is, fortunately you have a very high quality spiritual weapon, the speed of the flying sword is also fast enough to delay the time, so that Cloud suffered the backlash of that elixir, which, come to think of it, is too thrilling!"

After everyone knew what was going on, Nash and the others only then had a burst of clarity in their hearts. Jack's combat power, indeed, was so much weaker than the Hunt family's young master, if it wasn't for Helena teaming up to attack at the beginning, plus the flying sword delaying time later, it would have been impossible to come out alive.

"However, I feel that if I were to fight the young master of the Hunt family again now, he should not be my opponent at all!"

Jack, at this time, actually smiled slightly and said with confidence. "Even if now the people of the Hunt family know that I killed him, our White family is not easy to bully anymore!"

Chapter 1434

Hearing Jack's words, everyone was shocked!

Jack actually said that it is not a problem to deal with Young Master Hunt alone now?

After thinking about it, Nash suddenly thought of a possibility and said with some excitement, "Jack, could it be that you have broken through?"

All the Elders and others, one by one, sucked in a breath of cold air. They could remember, Jack seemed to have broken through to the middle stage of the True God Realm, and it had not been a few months. His combat power was already comparable to a strong person at the late stage of the True God Realm.

If, after only a few months, Jack has broken through again, then his talent is too good to be true.

Moreover, if Jack breaks through to the late True God realm, plus with the ultimate grade spiritual weapon increasing his attack power, then Jack's combat power is comparable to someone in the Peak of True God Realm! In that case, not only would he not be afraid of Young Master Hunt, but Cloud would not even be his opponent!

"No way! You've broken through again?"

The faces of both Daniella and Helena also revealed a look of surprise as they each looked at Jack in disbelief.

In the crowd's expectant eyes, Jack smiled blandly, then nodded: "I have broken through, and moreover, I can now refine a second-grade low-level pill, and I am considered a second-grade low-level alchemist."

"My goodness, no way, a second grade alchemist, this, this is something!"

The First Elder's voice was trembling with excitement.

"Oh my god, great. Great! In the future, our White family will definitely become stronger and stronger!"

"Yes! Now his cultivation level is already at the late True God Realm and his combat power is comparable to the peak of the True God realm, in that case, our White family will have almost three people in the peak of True God realm. We are now no longer the bottom of the Eight Shadow Families but we are in the top tier!"

The other masters of the White family, after hearing the good news, were all extremely excited.

"Master White, did you hear that? The second young master is already a second grade low level alchemist, a second grade alchemist! With this our White family has hope to surpass the Hunt family!" Titus was excited, his voice trembling. He really did not expect the Jack's alchemy talent was so amazing.

"Haha, I heard it, I heard it!"

Nash then laughed out loud, this excellent young man in front of him, that is Nash White's son. He really wanted to tell the world about it.

He thought about it before saying, "If we have a second-class pill, in the future when our disciples want to break through to the early True God realm and the middle True God realm or something, it will be even easier. And this time our White family did not experience much death and injury, we also got a lot of spiritual herbs, plus this time we also got the main prize, the harvest is too big!"

After thinking about it, the First Elder said: "Right, Master White, I suggest this month, our White family people do not have to go out to look for cultivation materials, with so many cultivation resources we can issue them out to the family. Then everyone can focus on cultivation and we can gain major improvements in the next month."

Nash also nodded: "Yes! Our family reaped a lot of benefits, but inevitably there will be others who are jealous and angry. Because of this we should quickly improve ourselves and not wait until our enemies react. We must reach a level where they would not dare mess with us before that happens!"

Chapter 1435

"Yes, we have three strong people comparable to the peak of the True God realm, and this time the Hunt family loss is not small. Plus we have a good relationship with the Tudor family and with the Cabello family, and now we can also make a good relationship with some other families. Plus we did not provoke others much, if the Hunt family even knew that young master Jack killed the two young masters, they would not dare to act rashly!"

The First Elder, on the other hand, nodded, and he felt a lot of pressure lift off of him at this understanding.

"Well, now that we have gone so far, let's go. Everyone, come on up, let's talk in detail about some of the things that happened during the game on the road!"

Jack flipped his palm and took out his flying sword, then floated in front of everyone.

Everyone was full of smiles, and one by one, they jumped on, while Jack controlled the flying sword and flew in the direction of the White family home.

By that time the people from the other clans had all left, while the people from the Lagorio family and the Trevino family were still here, each with a gloomy face.

"Master Hunt, who do you think did it? Moreover, we were prepared. Those other clans, before, had no idea that our people would join hands to kill their people. We can't be so unlucky!"

The Lagorio family head was gloomy, still a bit puzzled.

"How do I know? I really don't know who actually killed my son! We must investigate slowly in the future. We can't just forget about it, I still don't believe that there will be an impervious wall!"

Jared's fists clenched, when he thought of his two sons, he was so angry that he almost vomited blood.

"Yes, we will also inquire about it, we can definitely find out something!"

Master Trevino clenched his fists, although his son did not die, but the third elder's grandson, who was a well known master, was actually also killed, he also had a medium-grade spiritual weapon that was stolen from him. Their family's loss this time is really too big.

The most speechless was Trenton, who originally wanted to take advantage of this opportunity to kill this kid Jack. But he did not expect that the White family would not lose many people. Jack is alive and well, but his family has lost a lot of masters. Now he does not know how long they will have to wait to have their revenge.

He had broken through to the peak of the True God realm cultivation, which is great news, originally he thought that would bring revenge one step closer.

However, he did not expect that the First Elder of the White Family had also broken through to the peak of True God Realm, in which case, he felt that his desire for revenge was really a bit distant.

"Master Hunt, I think it's very likely that it was the kid Jack White and Helena Cabello. If you think about it, the second young master went for them, and with Helena being so beautiful, if she tricked him and then Jack came in the help, he would not have stood a chance." Trenton thought about it, and said to

Jared.

"Now there is no evidence at all, even if there is, we can't make a move!"

Jared said gloomily "You guys better go back, take a good rest, perhaps, inside these seven dangerous places, there really is a way to find a breakthrough to the Ultimate God Realm, and once I break through to the Ultimate God Realm, I will seek every one of them out."

After hearing this, Trenton felt a little fear and immediately said, "Anyway, it's not our family, we are allies, what's more, our family doesn't have anyone who can do this!"

Chapter 1436

The Trevino family's head also panicked, "Then it's definitely not our family's people. After all, the second young master and the first young master's cultivation is pretty good, the second-class and third-class family masters certainly do not have such ability, and the three young masters of the Norman family also died. There are only a few people who can do this, right?"

Jared nodded, "No way, this breath, I can only swallow it and bear with it first!"

"Cough, Master Hunt, we had agreed beforehand that on completion of this matter, you would give us two spiritual herbs or something? This is what you said, our two families lost so much, and you promised this benefit to us. You should honour it, right?"

After thinking about it, Trenton coughed slightly twice before asking with a cheeky face.

One of the reasons why both he and the Trevino Family Master hasn't left yet was for this matter.

"Yes, Master Hunt, it's definitely a promise!"

The Master Trevino also chimed in.

Unexpectedly, Jared said with a cold face, "I am talking about after the completion of the matter, was this not to be handed out at the end of the competition had this matter been successful. Now that our plan has failed, you want me to give you guys benefits as well? You guys are too greedy, right? Besides, your two families have died, and my Hunt family has lost so many people, not to mention, my two sons have died, and I still have to give you benefits?"

The Master Trevino and Trenton looked at each other, and both of them were so speechless again.

"Alright, then we'll leave first, Master Hunt, our condolences for your loss!"

In the end, the two men could only bow to Jared and take their people away.

After walking a bit further away, Trenton could not help but curse, "Damn, he is too deceitful, not giving us any benefit at all, if I had known that this was the result, I would not have agreed to cooperate with them privately in the first place!"

The Master Trevino was thoughtful, smiled bitterly and said, "He did not give us any benefits, but I expected that, after all, this time so many masters of the Hunt family died. His two sons had also died. Whatever resources he promised us, he certainly will not give after that!"

After thinking about it, Trenton frowned again, then said to the Master Trevino, "Master Trevino, this Jared is an old fox, you mentioned that he said to go to the Cabello family a month later to discuss, will he privately find someone to go inside the seven dangerous places to explore first?"

"This possibility is still there, however, this possibility is not very large, because these seven dangerous places are full of danger. Nobody knows what is in there and they are deep, so nobody will go alone. Moreover, it's not just one dangerous place, but seven dangerous places, so I believe they will definitely discuss it with us before making a decision!" Master Trevino thought for a while before he said.

"That's right, if it's just one dangerous place, they will definitely continue to think of ways to act, but seven dangerous places, they are just one family, how could they deal with it? Moreover, some of the dangerous places are not far from the four ancient clans!" After thinking about it, Trenton said.

Two days quickly passed.

"Sister, do you think that according to reason, shouldn't brother-in-law have returned two or three days ago? It's been almost a month and a half since they went out, how come they haven't come back yet? I heard that this time the competition may be more dangerous, brother-in-law won't have any problems, right?"

Inside the courtyard where Jack and the others lived, Ben looked at Selena, then said with a frown.

"Blah blah blah, don't talk nonsense, your brother-in-law is so talented and has such high combat power, he won't be in trouble!"

Selena, on the other hand, immediately gave Ben a white glance, then asked, "By the way, how's your cultivation now? Don't stick to Elaine every day, she needs to cultivate as well!"

Chapter 1437

"Don't worry, sister, I'm a first-grade grandmaster; I occasionally go to the mountain with Elaine to stroll around!"

Ben laughed and asked, "Your talent is better than mine, and you can cultivate more quietly than I can. I rarely see you cultivating your level; I'm afraid you've already become a third-grade master, right?"

"Third-grade master?" Selena smiled. "Oh, you also underestimate your sister, your sister is already a fourth-grade master."

Selena frowned at her own cultivation improvement, and was not very satisfied "Hey, I can break through to the demi-god realm. The grandmaster cultivation is powerful, but he can not fly, a demi-god realm cultivation is good and can fly for a short time. With a demi-god realm cultivation level, even several ninth-grade grandmasters are not your foes!"

Ben laughed "Come on, I think you are greedy, your cultivation is already very good, I do not know how many people envy you for this cultivation breakthrough speed. I see you, if you reach the demi-god realm cultivation, you must want to break through to the True God realm cultivation sooner!"

At this time, Elaine actually also came back from outside, with Kylie who went out with her to play together.

"Kylie, you go inside and play, I have something to do with your mother!"

"Sister-in-law, what's the matter?"

Seeing that Elaine had sent Kylie away, Selena's eyebrows knitted slightly, sensing the fear that it was not a simple matter again, her expression also became serious.

"There is something, I do not know how to tell you, you have to take a minute to prepare yourself!"

After thinking about it, Elaine bit her lips.

Selena was immediately startled, thinking about Ben's speculation just now, she now seriously doubted if Ben had just given her a precautionary shot, could it be that Jack really died in the competition?

Selena was silent for a moment before saying. "Did Jack die in the competition? Say it, I can handle it!"

"This is not true, this competition is estimated to have just ended a few days ago. How can we learn know yet? Nobody has even spread the word!" Elaine laughed bitterly before she said.

"That's good!"

Selena's heart felt suddenly relieved: "Then what is it, I see you so gloomy, making it seem like the sky is about to fall, and I didn't have a moment to prepare!"

"It's like this, I heard that, in Kobe City, the Cabello family's first lady announced that she and Jack are a couple. People inside that city are all talking about it, it's already out there, everyone is saying that Helena kissed Jack in the street, and the two announced that they are lovers!"

Elaine looked at Selena: "So, I feel, brother-in-law may want to marry a young wife, a second wife!"

Chapter 1438

"Wait, you're talking about the Cabello family's eldest lady, Helena? Is it Daniella's sister?"

Selena frowned, then asked with a surprised face, this news caught her a bit off guard. Moreover, the Cabello family's eldest miss, was so proactive in the city, in front of many people, and took the initiative to forcefully kiss Jack? What is this?

"Yes, the rumor came out that it was Helena!" Elaine nodded: "'I'm sure of it!"

"It can't be, right? If it was Daniella, I think it still makes sense, I can see that Daniella looks at Jack differently. In fact, I have also been prepared. Now many family heads and what not, have several wives. some elders also. I can only say that he is an excellent man, and so there would be many people who like him!"

Selena smiled bitterly, then said again: "And, I think if Daniella and Jack are together, then it is also very good, for the development of the White family it is quite good, Daniella is simple-minded but thinking of giving my parents their family treasure, so that my parents can also become martial artists, and also can cultivate, is very kind. If the two families are married, it will be good for the development of the White family!"

Speaking of which, Selena didn't know whether to cry or laugh as she said: "But how come it was Helena who kissed Jack? Why not Daniella? Have you guys misheard?"

"I also feel strange because, according to reason, they have not known each other for long, right? They should not have known each other before, they should have met only in Kobe City, right?"

Elaine was also confused.

She looked at Selena, then said with some admiration again, "Sister Selena, a woman like you, it's really not simple. I think you have that feeling of being an empress! For Jack to be able to marry a wife like you is really considered a blessing!"

"You just asked me to prepare myself and that really scared me. I was worried he died, but instead you have news that he may have found a second wife. In my opinion, the latter news is not even bad news at all!"

Selena smiled, and said: "Of course, if he likes a woman who is not a good woman, I naturally will not agree, but the Cabello family's three daughters, it is said that any one of them are very beautiful and very cultivated. The White family also needs to get on good terms with the Cabello family, so the White family will also benefit!"

"That's right, after all, women are selfish, I was afraid you wouldn't be happy!" Elaine laughed, then added: "No, in the future, ah, even if Jack has other wives, they all must listen to you only, you are the queen, they are all concubines!"

"You girl!" Selena gave Elaine a white look.

Ben heard the conversation between the two, he couldn't help but cough twice and said to Elaine, "Ahem, Elaine, then do you want to be the queen?"

"Be the queen? Do you think you are Jack? If you can surpass your brother-in-law in cultivation, it's not a bad idea! When your cultivation surpasses your brother-in-law, then I agree with you to find another wife, even if you find eight to ten, I'll agree!"

Ben suddenly hung his head and said: "Forget it, that is more difficult than ascending to heaven!"

"Humph, you do not have the ability, and still want three wives and four concubines, dream on you!" Elaine coldly snorted.

Seeing her brother and her sister in law both flirting with each other, Selena, who was on the side, once again couldn't help but laugh.

After another moment, Joan came out with Kylie in her arms.

She looked at Selena and the others. She worriedly asked: "Selena, Jack did not say how long he would be gone? It's been so many days. Why hasn't he come back yet? According to reason, it should have returned a few days ago, right? There's nothing wrong, right?"

Chapter 1439

"Mom, don't worry, Jack is with Dad and the others, surely nothing will happen!" Selena smiled gently and said.

Just as her words fell, up in the sky in the distance, a flying sword was flying quickly towards them, and on top of that flying sword, there were several hundred people standing.

"They're back, they're finally back!"

Elaine was the first to see Jack and the others, and immediately stood up, excited beyond measure.

"Mom, look, he's back, isn't he?"

Selena was also happy in her heart, she hadn't seen Jack for more than a month. Honestly, it was wrong not to miss him, however, she found that this time passed quite fast if she tried her best to cultivate, and she didn't have time to think about him.

"Well, it's good to have him back!"

Joan also nodded.

"Wow, Daddy is awesome. Oh, he actually has a flying sword, when Kylie grows up, Kylie also wants to be so cool!"

After Kylie saw Jack, her big beautiful eyes couldn't help but shine with a kind of adoration.

"Good Kylie, in the future, you have to work hard to cultivate, you know?" Selena turned back and looked at Kylie and said.

Just as they finished speaking, everyone had already jumped down from their flying sword and landed one by one in an open space, while many of the White family's youngsters and guardians and so on, all immediately rushed over to this side.

"In-laws, you guys are back, huh? What a hard time, how was it? How was the result of this competition?"

Fiona and Andrew also rushed over and immediately asked Nash with a smile.

Nash smiled and said to the two people, "Don't worry, this time, we got first place in two competitions, the reward of spiritual herbs is quite a lot, and everyone is very competitive. In the competition forest, they also found a lot of spiritual herbs. Only a few dozen people died!"

"A few dozen people?"

The seventh elder immediately frowned, "Master White, this is a bit much, right? In the past, there weren't many people in a competition like this, right?"

"Hey, it's a long story, how about this, I will let Jack tell everyone about the specific things. After all, some of the things that happened in the middle of the competition, I'm not very clear about!" Nash smiled bitterly and finally said.

Jack then stood out, and then said, "The thing is this competition and the previous competitions are a little different. In the previous competition, there were challenges and so on, while this time the competition was....."

The crowd listened to the fascination, especially about what happened on in the inside, how Jack saved others, and trying to distract the young master of the Hunt family. When they heard these things, everyone broke out in cold sweat for Jack.

Especially Selena and Joan and others, who were also worried in their hearts, if not for the power of Jack's flying sword, they probably wouldn't have been able to see Jack.

Chapter 1440

"Honey, this is too dangerous for you, if not for that flying sword, I'm afraid you wouldn't have come back!"

Selena's heart had a burst of fear. She could feel that inside the forest it was extremely dangerous for Jack and he couldn't have a moment of carelessness.

"Haha, now there is no need to be afraid, this is also considered a blessing!"

At this time, Nash laughed out loud: "Jack, after killing Chet Hunt, was able to recover his alchemy formulas. He can now refine pills and has become a second-grade low-level alchemist. Moreover, with the help of a second-grade low-level pill, he has managed to break through to the late stage of the True God realm cultivation. Now his combat power is about the same as mine!"

"No way, Jack is so powerful?"

When Fiona heard this, she sucked in a breath of cold air, she really did not expect that her son-in-law

was actually so excellent in his cultivation talent.

"My goodness, a second-grade low-level alchemist? Brother-in-law, you are too good! Does it mean that in the future, if you are happy, you can reward me with a second grade pill?"

Ben was also incomparably excited, with such a good brother-in-law. In the future, as long as I have a good relationship with my brother-in-law, then occasionally getting two pills should not be a difficult thing.

When Fiona heard this, her eyes also lit up and she immediately said, "That's for sure, you are his brother-in-law, of course he is happy, after all, he has married such a beautiful sister like yours, can he not be happy? Right Jack?"

Jack couldn't help but smile: "Yes, when in need of pills, I will naturally give. However, the pills, which also depend on the time, can't be used too often."

"Haha, good son-in-law, that's fine!"

Andrew, on the other hand, laughed. He had no need to worry. Jack will be the next head of the White family so he does not need to worry about anything., He is getting old now so he can live a leisurely life here, and have a few more good years. But his own son, if with the help of Jack, can become a strong person with a cultivation like the True God realm or demi-god realm, then he will have it much better.

After all, as parents, naturally all want their sons and daughters to be good.

"Haha, in-laws, just rest assured, Jack will certainly not treat you badly!"

Nash laughed out loud, his face was so satisfied. Jack's outlook had far surpassed that of Lance, and he was relieved that the White family could be handed over to Jack in the future.

Moreover, his heart is also very sure. Now that Jack is already so powerful, if in a few years, Jack can break through to the peak of the True God realm cultivation, then not even Master Hunt will be Jack's opponent.

Although Master Hunt's combat power is in the peak True God realm, but Jack's combat power is not that simple.

"Great, looking at this, our White family is going to rise soon!"

"Yes, this time, the Trevino family, the Lagorio family and the Hunt family, have all lost so many masters. Because of this, our White family can really take advantage of the opportunity to rise!"

"However, young master Jack killed two young masters of the Hunt family. Everyone must not say anything, or else that Hunt family people will certainly make trouble sooner or later. What we have to do now is to secretly improve our cultivation and improve the overall strength of the family!"

Many people of the White family, after knowing the specific situation, then they also discussed it among themselves.

"By the way, this time, we also found out a big secret, that is, the seven dangerous places are likely to be related to the legend of the Ultimate God Realm. However, all these families have agreed that in a month's time, they will go to the Cabello family to gather, and then discuss this, then go to the seven dangerous places to find clues!"

"I decided, within this month, everyone will not need to go out to find materials, we got a lot of cultivation resources this time. plus the rewards we won are quite a lot. I intend this month to tell the branch family's that there is no need to pay cultivation resources. leave everyone to cultivate well for a month, we have the materials. We will also take out according to each person's needs and distribute them down. Everyone will have a good month of cultivation!"
