

## Chapter 1558

“Elder Moseley, what now? The other party wouldn’t hand over the stone ball! Also they’re so united, and...and we can’t defeat them! Ugh! What a mess!”

Matthew was down in the dumps and he did not know what to do next. In a blink of an eye, he lost more than fifty thousand men, plus those who died before the battle with Jack and his groups, he was at a huge loss right now. Even worse, strong people like Elder Lock and Elder Hartman were killed by the other party as well.

He was truly out of ideas.

“Sigh! We’ve no other way anymore. We have lost so many men, and those who survived the tough battle suffered injuries as well. Even if we go after them right now, we’re simply no match for them. Not to mention there is no fighting morale nor spirit among us. So, for the time being, we can only cease our attack temporarily.”

Elder Moseley gazed at the crowd blankly and shook his head helplessly in the end. His tone was full of despair.

“Temporarily? What do you mean? Are you saying that there’s still a way, a hope, for us to get the stone ball?”

Matthew’s eyes immediately lit up upon hearing Elder Moseley’s words.

“That stone ball is obviously important, so much so that those people from other families of the mainland would not want the stone ball to fall into our hands. Perhaps, they thought that if the stone ball is in the brat’s hand, they would still have a chance to snatch it from him once they get to the mainland. And if the stone ball is with us, it won’t be so easy for them to grab it anymore!”

Elder Mosely paused for a few seconds before continuing, "So, I guess that's why they were so united beforehand and did not fall for our scheme of sowing discord among them. Instead they decided to stay still!"

"Yes, you're right. Sigh! There's no other way now, right? That stone ball...the more reluctant they are to give it up, the more I feel that the stone ball is the way to the ultimate god realm!"

The Master of the Hall of Divine Royal said with a sigh.

"Master, this is what I think. Everyone should go back to rest first, and then we'll send some people to the continent and scout. If there's any news about the ultimate god realm, we'd know!"

Elder Moseley gazed at Matthew and then said, "By the way, do you want to seek help from your senior? I know there have been some conflicts between the two of you and are not on good terms, but so many years have passed, he shouldn't be upset at you anymore. Besides, if you tell him that there's news about the ultimate god realm, I believe that your senior will definitely be interested! After all, if you could get help from him to find out who that brat is and where he lives, half of our job is considered done!"

"My senior?"

A few horizontal lines formed between the brows of Matthew and his expression turned solemn. "I'm afraid that he would command his men to strike against me, and I'll definitely be no match alone! Unless...unless, we go in a larger group! At least one or two hundred strong people! It's safer that way!"

"All right! Let's go to him with hundreds of strong people! Besides, we should send more people to poke around about the stone ball!"

Elder Moseley nodded and the conversation ended. The crowd rested for a while before they continued to set off, heading out of the forest.

Only, what made the Hall of Divine Royal hesitate was that there was no Jack nor his team to help kill the monster beasts and create an opening for them anymore. Before that, they fled in a panicky manner and encountered many monster beasts. That made them lose another number of men.

On the contrary, Jack and his group possessed amazing combat ability. When they were heading out, they paced at a faster speed. So, they only lost a few men before successfully exiting the Black Windy Island!

#### Chapter 1559

Another few days passed by quickly. Jack and the others have finally left the sea territory and arrived at the continent in the southeast of Daxia.

After resting for a short while, the group went on a discussion about how they should distribute the spoils, then they distributed all the spoils they had gotten throughout the trip.

Those people from the second and third class families were grateful for the expedition to the Black Windy Forest. The journey to the Black Windy Island was not only treacherous but also full of traps and monster beats, and if it were not for Jack and the others, they were afraid that not many of them would have come back alive, and they would not even have the chance to share the martial materials and resources from the spoils.

“Although we lost more than ten thousand men, the outcome is better than what we expected. Hmm. I wonder how the other teams are doing, especially the team of the Hunt family. They were assigned with Bright Snow Mountain, and it’s a lot nearer than Black Windy Island, perhaps, they have already returned to Daxia. I wonder what’s the result!”

Nash spoke his mind as he pondered.

“Well, based on what I have observed and understood about the Hunt family’s style of doing things, it’s true that they have a lot of men, and they are strong, but they would certainly act separately after

entering the mountain together. They might even fight and kill each other for the treasure. Although Black Windy Forest is more dangerous than Bright Snow Mountain, their number of casualties might be higher than ours!”

The First Elder of the White family, Kenneth White, laughed as he analyzed the Hunt family’s temperament. In the dangerous excursion to the Black Windy Forest, the White family contributed a lot and naturally, they received more resources and benefits. What was more delightful was that the stone ball was with Jack! Therefore, throughout their journey back to Daxia, happiness, and excitement were hanging on their faces; they were bursting with joy and could barely conceal their delight.

“He’s right! This is the best and the wisest decision I’ve ever made for my family to follow the White family, Cabello family, Ximenes family, and Tudor Family to the hazardous Black Windy Forest! Best decision ever!”

The head of a second-class family exclaimed with a smiley face; he arched his hand and bowed to Jack and the other prominent families. “Well. We shall bid you adieu now. Young Master Jack, thank you very much and I hope you’ll deliver good news to us very soon!”

“Young Master Jack, we’re leaving too. Looking forward to the good news!”

The people from the other families also took off after saying goodbyes to Jack and others.

Jack’s strength, power, and combat ability had completely convinced these families and powerhouses, and many of them even started to flatter the White family, hoping the White family would take care of them in the future.

“Master White, Jack, we’re leaving too!”

When most of the crowd were almost gone, Alejandro, too, arched his hand and saluted Jack and others. “Hopefully you manage to examine this stone ball and discover the way to break through to the ultimate god realm. It’d be really worrying and problematic if we can’t find a way to break through to the

ultimate god realm through this stone ball. We finally got some clue about the ultimate god realm, and if this stone ball...sigh!"

"Master Cabello, don't be preoccupied with it. That ancient formation was left behind by someone in the past. Now that the ancient formation has been activated, the location of the seven points appearing on the screen is pointing toward the Seven Dangers. I believe that this is not a coincidence. And there is a stone ball in every seven dangerous places! It's certainly not a coincidence I believe."

Jack responded confidently." What I'm suspecting is that the ancient formation might have been destroyed by someone deliberately...could it be that someone does not want us to know about the clue? Or, perhaps, the ancient formation was ruined because of the long period of time? I'm not too sure."

"All right. Then we'll wait for your good news!"

Alejandro nodded his head, and only then took Daniella and Helena—who was somewhat reluctant to leave Jack, and the others and left together.

After the other families had left, Jack summoned his flying sword and took the White family member home.

Chapter 1560

"Mommy, why isn't Daddy back yet? I have broken through to the next level again. He'll definitely be happy to know when he comes back!"

In one of the courtyards of the White family, Kylie, who had been playing for a while, ran to Selena and whined with a pouty face.

"Really? My little Kylie is so amazing!"

Selena's eyes immediately lit up after hearing her daughter's words. "Your Daddy has been away for ten days; he should be back soon. And if he knew that our little Kylie had broken through to the ninth-grade martial practitioner, he would be delighted!"

Kylie was incredibly talented, and Selena was happy about it. Kylie was so young and yet she was already at ninth-grade martial level and was about to break through to the grandmaster level! She would definitely be able to attain good achievements if she trained hard!

"Hehe, Mommy is amazing too!"

Kylie chuckled in return. Then she ran away to have fun with some other kids in the courtyard.

"Sigh, I wonder how Jack and the others are doing. Sigh! That is an extremely dangerous place!"

"Sigh!"

Selena gazed upward at the sky and sighed out loud.

Just as her words fell not long after, she saw a group of people riding on a flying sword in the distant sky heading toward her.

It was Jack's flying sword! This sight before Selena cheered her soul instantly. She shot up from her chair and said to Kylie, who was playing on the side, "Kylie, look! It's Daddy! He's back!"

Sunshine flooded Kylie's big and beautiful eyes the moment she heard Selena's words. She immediately ran over and yelled, "Yay! Daddy is back! Daddy is back!"

The others from the White family also turned their heads toward the sky and saw Jack's flying sword heading toward them. Their spirits were flying high and they were jumping excitedly as though Jack was

the Santa Claus who brought them gifts!

There's a lot of people on the flying swords! Looks like our White family did not lose a lot of people this time!"

Someone from the crowd said with a relieved face.

At this time, Jack's flying sword stopped midair, slightly above the courtyard of the White family residence. Everyone on the sword hopped off and landed on the ground

"Master White, how was it? What happened there?"

Lancelot and the others immediately approached Nash and surrounded him in the center with immense excitement written over their faces.

"Hahaha! Oh my...we gained a lot this time! We went to the Black Windy Island, and we did not suffer a lot of casualties, only around one thousand or so. We're satisfied with the outcome!"

Nash laughed wholeheartedly as he spoke. "Also, Jack is so amazing! He grabbed the stone ball!" he added.

"The stone ball?"

Lancelot exchanges puzzled glances with the others. They were confused.

Nash then told the crowd everything.

“Oh, so there’s a stone ball inside every Seven Dangerous Place, hmmm. This stone ball must have a lot to do with being able to break through to the ultimate god realm!”

An old man from the crowd frowned and fell into contemplation.

“Tch! The Hunt family is truly sleazy and cunning. They knew that the Black Windy Island is the most dangerous place out of the Seven Dangers, yet they as a strong family chose to go to Bright Snow Mountain and made you guys go to Black Windy Island! How unfair!”

On the other hand, Lancelot was huffing and puffing at the situation, clenching his fist and face burning with anger as he spoke.

#### Chapter 1561

“Heh. Once us aristocratic families knew that we could only choose from two danger zones, I knew that they would definitely choose Bright Snow Mountain, which is closer and is not so dangerous!”

Nash chuckled and added, “But thank goodness Jack thought of a plan and made agreements with everyone in advance. This is how we were able to prevent the forces from the sea from successfully driving a wedge between us. Only then could we get the treasure back without suffering huge losses!”

“That’s right. It’s true that we were fortunate to have Jack, so clever and strong in fighting. He killed so many fighters from the Hall of Divine Royal, and only then did they give up on attacking us and escape!”

Kenneth was emotional when he thought about what had happened a few days before.” The monsters of Black Wind Island are not only strong, but they frequently appear in groups. No wonder they’re so fearsome!”

“I think that the tree was too powerful. An Elder at the peak of the true god status from the Ximenes family was actually killed when he was not being careful!”

Another Elder from the White family spoke with a pang of regret.

“That tree is indeed strange. Who knows why it’s so strong? And it is also smart. Thank goodness it couldn’t move. If it could run like the monsters, it would be even harder for us to fight it!”

Nash also furrowed his brows. It was the first time they had seen a tree like this.

“I think it has something to do with the stone ball!”

Jack thought about it and made a guess, “The people of the Hall of Divine Royal said that there was a powerful ancient tree somewhere deep in the danger zone, and we even saw it. This means that all those ancient trees are of a similar type, and the only point of similarity between them is that they all have a stone orb on them. That’s why I think this has something to do with the stone ball!”

Here, Jack paused for a while before continuing, “Also, I noticed something strange!”

“What is it?”

Everyone immediately looked at Jack in anticipation, their eyes filled with curiosity.

“While I was taking this stone ball, I realized a problem. It’s actually absorbing Chi in small quantities. I couldn’t help but be suspicious and think if it’s some kind of living thing. If it can absorb Chi on its own, doesn’t this mean that it’s able to cultivate itself?”

Jack did not beat around the bush. He flipped his palm and took the stone orb out of his martial ring, showing it to everyone.

“It’s truly absorbing Chi, but not at a very fast pace. It’s very slow!”

Everyone was stunned after they observed it for a while.

“Why would they absorb Chi? Unless they can truly cultivate themselves?”

Kenneth frowned.

Lancelot gently knocked his hand on its surface and put his ear closer to it. “Strange. There’s nothing. It doesn’t sound hollow either. Don’t tell me this is some kind of egg?”

Mason burst into laughter after he said that. “Haha. Don’t speak too soon. Besides from its unusual color and the fact that it has some strange inscriptions on its surface, this thing does look like a fossil of a dinosaur egg, judging from its size. Maybe it’s actually a monster’s egg? If that’s the case, then it might not have anything to do with breaking into the true god status!”

“No way!”

Lancelot shook his head. “If it were a fossil, why would it absorb Chi on its own? Besides, why would it appear on top of the seven big trees in the Seven Dangers? I don’t think all of this is a coincidence. Rather, it feels like someone had specially arranged this!”

“Specially arranged?”

Lancelot’s words evidently struck something within Jack.” Now that you mention it, I do think that people from the past have arranged this. This object absorbs Chi by itself and is placed in danger zones, so it’s difficult for people to find it. But what’s the use of the Chi after it’s absorbed?”

“Ugh, I have a headache from this. I think we won’t be able to get any information out of this for a while. I wonder if the master of the Divine King Sect has found anything after conducting research for so long?”

Furthermore, he has quite a few eggs in his possession!”

Nash heaved a sigh and spoke slowly.

## Chapter 1562

“That’s true. So many days have passed by already. I wonder if they’ve found anything. It seems like we should find some time to pay the Divine King Sect a visit!”

Jack also thought of something and could not help but say, “That force in the sea territory, I think it’s called the Hall of Divine Royal? The names of the Hall of Divine Royal and the Divine King Sect seem related. Is there a connection between these two forces?”

“I know!”

He did not think that the First Elder would speak up at this moment, “When they were younger, I think they were fellow disciples of the same master. They fell in love with the same woman, and the woman did not make her feelings clear between the two. At first, the woman was the girlfriend of the master of the Divine King Sect, but later I think she was caught in bed with the master of the Hall of Divine Royal. So the master of the Divine King Sect killed the woman, and the two disciples became enemies since then!”

Here, Kenneth paused for a while before continuing, “And between the two, the master of the Hall of Divine Royal chose to leave the mainland and went into the ocean. So the master of the Divine King Sect was the fellow disciple of the current master of the Hall of Divine Royal!”

“The two of them actually apprenticed under the same master? Won’t it be troublesome if those two forces decide to make an alliance? Who would be able to oppose them then?”

Titus’s expression darkened after he heard this. He spoke with a worried tone.

“Heh. I don’t think it’ll be happening. Although they haven’t interacted for years and don’t quite see each other as mortal enemies anymore, and the animosity between them has decreased, I still believe that they won’t cooperate with each other. The master of the Divine King Sect has a pretty good character. As for the master of the Hall of Divine Royal, while I’m not familiar with him, I don’t think he’s a nice person. After all, he had seduced the girlfriend of his own fellow disciple!”

Kenneth chuckled and spoke.

“It seems that they will not make an alliance no matter what happens. We have nothing to fear then!”

Jack gave a bitter smile and spoke with emotion, “Who knew that the two disciples from the past would actually become the masters of such powerful forces.”

“All right, everyone, go and take a rest. We’ve managed to obtain quite a lot of spirited grass this time. It’ll be enough for everyone’s cultivation for some time now. Especially for those at the advanced stage of the true god status—you must work hard! If Jack manages to find something from the stone orb, and we discover the method to break into the ultimate god status, you will have the chance to do so!”

Nash flashed a satisfied smile and told everyone to leave and rest first.

Jack kept everything and walked over, lifting Kylie up and carrying her into the place where he stayed.

“Daddy, guess what cultivation level I’m at now?”

Kylie immediately asked, grinning. The little girl wanted to give Jack a surprise earlier.

“Hmm, you were still a sixth grade martial artist when I left. From your looks, you’re definitely not just a seventh grader. You wouldn’t be so happy if you were a seventh grader!”

Jack thought about it and said, "I think you must be an eighth-grade martial artist now, right?"

"Hehe!"

Kylie giggled when she heard this. "If you came back two days earlier, Daddy, I would have been an eighth-grade martial artist. But I already broke into the ninth grade yesterday! And Mommy has already broken into the level of a ninth-grade grandmaster. Don't tell her I told you. She wants to give you a surprise!"

"Naughty girl!"

Jack heard this and gently patted his daughter's head. "Before I know it, you're already seven years old. Time passes by so quickly!"

"Oh, right. Mommy said that she wants to quickly break into demi-god status. Once she does, she'll be able to fly. And she can follow you wherever you go, and she'll be able to defend herself too!"

Chapter 1563

Kylie quickly thought of something and told Jack all this.

"All right, I got it. Good girl, The next time your mommy has anything in mind, tell them to Daddy. Understand?"

Jack smiled and told Kylie, "All right. I'll bring you and Mommy to the bottom of the mountain to play at night. How about that?"

“Okay. Yay! We can go out to play!”

Kylie cried excitedly.

At night, Jack did not rush to research the stone orb. At any rate, he already possessed it, and he had time to study it.

After he accompanied his daughter and wife to the bottom of the mountain, he rested for the entire night

The next morning, Jack was just about to take the stone orb out to study it. He did not think that Fiona would drag Andrew, Theodore, and Joan to see him at this time.

When he saw the four of them and Fiona’s grinning expression, Jack knew that Fiona must be highly anticipating something. She even dragged his mother over.

“Jack, Didn’t Third Young Mistress Cabello say that they were going to give some of their treasure to you -the Bone Marrow Cleansing Water or something. What happened? Did she forget?”

Fiona asked, grinning.

“That’s right, Jack. We wanted to see you yesterday, but your mother said that you were working hard outside. So she prevented us from seeing you, to let you rest properly. See, we care about you!”

Theodore also looked at Jack with a grin on his face.

“Don’t worry. There are only four of you here, so it won’t be a problem. Just one drop per person will do the trick!”

Jack gave a bitter smile and took out a small porcelain container. Then he took out four more bottles and dropped a single drop of Bone Marrow Cleansing Water into each of the four bottles. He then thrust them on everyone.

“Is-isn’t one drop too little?”

Andrew took the bottle from Jack’s hand and frowned. It seemed that he was unhappy.

“Jack, I’m sure you have more in that bottle. Seriously, my daughter is so pretty, and she’s married to you. And our family has treated you well. Why are you so stingy? Aren’t you being too miserly, giving me only one drop?”

Fiona was also unhappy. She spoke in a sour tone.

Jack’s expression darkened when he heard this. “All of you are older, so one drop is enough to cleanse your entire body. You only need to mix it with hot water and soak in the water for half an hour, then you can become a first-grade martial artist already. Is that not enough for you? Besides, even if I were stingy, I wouldn’t have given my mother only a single drop, right?”

Fiona continued stubbornly, “Then how would we know that you’re going to secretly give your mother another drop later?”

“Heh. I can give you two drops if you want but your body won’t be able to take it. Not only will you cleanse your body, but you’ll also die while you soak in the water. Think about it for yourself then!”

Jack spoke with a cold smile on his face.

## Chapter 1564

“Gasp!”

Fiona took a sharp intake of breath after she heard Jack’s words. She was scared witless now. “Two-two drops will kill you? Never mind then. I’ll take one drop!”

“Thank you, Young Master Jack!”

Theodore gave Jack a fist-to-palm salute, his emotions in a tangle. His son had provoked Jack so much before, yet Jack still treated him well. This made him feel sorry. Perhaps his son did deserve to die.

“Heh. No worries!”

Jack chuckled. Only then did Fiona, Andrew, and Theodore leave the room.

“Third Young Mistress Cabello stole this treasure, right? It seems like she really likes you. Will the master of the Cabello family scold her for this?”

After Fiona and the others left, Joan asked with worry in her voice.

“Don’t worry, Mom. Master Cabello is a nice person. Daniella told me that her father knows about this, and he himself had given it to us! Now relations between our families are good. I believe that it won’t be like before, where the two families saw each other as mortal enemies!”

Jack smiled and assured Joan.

“Mmph. Then I can relax. I don’t really care about cultivating myself. I’m so old already. It’s definitely too late for me to start training now. If I can’t be a fighter, I definitely won’t be someone at the ultimate-

god status who can live for two hundred years. My only wish is to see you lead a happy life!”

Joan nodded her head and spoke, her voice thick with emotion.

“Mom, even if you can’t be a fighter, you’ll already be a martial artist once you cleanse your body. You’ll be a lot stronger than regular people, and at least you won’t easily fall sick. Of course, if that’s the case, I believe that you’ll be able to live a long life without a problem, Mom!”

Jack took his mother’s hand and smiled.

“All right. As for you, I hope you’ ll be able to succeed soon. Your father told me that being able to find the way to break into the ultimate god status is of utmost importance, as well as who will be the first to find the way. This might change everything in the future, and it might change the entire structure of the cultivation world! You must work hard. After all, the White family and our relatives from the Taylor family who came over with us all rely on you to protect them!”

Joan nodded her head and spoke earnestly, “But I believe that you will break into the ultimate god status! Selena has good talent too. I hope that she’ ll be able to catch up to you and become a fighter at the ultimate god status too!”

“I’ll definitely work hard, Mom!”

Jack bobbed his head.

Yet at this time, a few youths from the White family came running in

“Young Master Jack, there are two women at the bottom of the mountain who want to see you. And they have children with them!”

One of the youths immediately reported to Jack in a respectful tone.

“They want to see me? And there are children?”

Jack was confused. “Did they say who they were?”

“They didn’t. They just said that you’ll know once you see them!”

The young man replied immediately.

“All right. I’ll go see them!”

Chapter 1565

Jack nodded his head and answered.

“All right. I’ll get out of your hair now and prepare to cleanse my body and be a martial artist as soon as possible. Last night, your father even taught me some knowledge about the cultivation arts.”

Joan gave a small smile and left.

Jack followed the youths and quickly went down the mountain.

“Greetings, Supreme Warrior!”

The two middle-aged women were each holding a child. When they saw Jack, they immediately kneeled down. There were a few bodyguards behind them.

“You – Why are the two of you here?”

Jack’s heart thudded when he saw the two.

He had seen these two once when he had gotten married. It was Fernando’s two wives. One of them was named Sarai, and the other was River.

Jack did not know how to inform them of what happened to Fernando all this while. A month ago, he finally told Lana to inform them of the situation.

All this while, he was filled with regret, and he did not know how he could ever compensate the two.

After all, they were not in need of money now. They had lower cultivation levels, but they were already seventh or eighth-grade martial artists. He wanted to find some time to visit them and take them in. He had told Lana about this too. He did not think that they would actually bring their children over at this moment.

“Supreme Warrior, we know what happened to Fernando. The forces that attacked him were foreign forces, so he still contributed to the country and brought glory to our land. We managed to find our way here because we asked the Goddess of War, Lana, to give us directions. We wanted to come and see Fernando, and we’ve brought our children over!”

Sarai’s expression was pinched when she spoke about Fernando. Red began to rim her eyes.

The two children were still young, only about two or three years old. They looked rather pitiful.

“Supreme Warrior, we have no wish to disturb you, but we truly want to see him. Don’t worry. After we see him, we’ll leave in two days!”

River also chimed in hurriedly, afraid that Jack would be unhappy with their appearance.

Jack gave a bitter smile. "I wanted to bring you two over in a few days," he said. "I was busy before, having to take part in the martial arts competition for the youths among the eight main families, and then going into the Seven Dangers to search for treasure. I was so busy that I didn't have time to see you. It's great that you two are here now!"

Here, Jack paused before continuing, "Since you're here, you should stay on. There's plenty of Chi here. You can properly cultivate yourselves here. I'll arrange accommodation for you, and you'll be my esteemed guests here from now on! Don't worry. Fernando won't die. I'll find a way to bring him back!"

"Can we truly stay here? Thank you, Supreme Warrior!"

Sarai and River's expressions were filled with excitement.

"Of course. Just treat this place as your own, and tell me if you need anything. I'll also get Lana to pass some martial resources to you to help you cultivate yourselves! This way, by the time Fernando wakes up, your cultivation levels will be increased. Won't it be great if you can give him a surprise?"

Jack smiled and spoke to the two, "Oh, right. And don't call me 'Supreme Warrior' anymore. Everyone calls me Young Master Jack here. You should call me Jack or Young Master Jack. Either one is fine."

"Thank you, Young Master Jack!"

River smiled, then she added, "But the Gods of War, Lana, and Ethan, told us about our husband's situation. And we've been regularly keeping in touch. He's in terrible condition now. We're afraid...afraid that he won't be able to come back!"

“We have hope so long as he’s not dead!”

Jack clenched his fists. “of course, I only have a year and seven months left at most. The Cryo Pearl will probably only last that long before melting. Now though, I know a few treasures that can save him, at least. I’ll definitely think of something to get them, even if I have to tear the entire country apart!”

## Chapter 1566

What Jack said moved both women near tears.

Sarai Campbell, on the other hand, still had that bitter smile on her face as she lamented, “Sigh... It wouldn’t be so easy since Ethan Hays also said that what we need is a fourth-grade pill, while the two other precious items are third-grade premium spirited grass. We’ve only read about fourth and third-grade items from the ancient tome. Haha... We don’t even see third-grade elementary items on a regular basis, let alone third-grade premium and fourth-grade items!”

River Harris chimed in, “Young Master Jack, we know that you purposely said that to comfort us. Don’t worry; both Sister Sarai and I are strong-willed. After all, we’ve spent some time on the battlefield before, and we’ve learned to take matters of life and death easily. Let’s put aside how difficult it is for you to find these things and only focus on the pill. Are you capable of becoming a fourth-grade elementary alchemist in one year? That’s too difficult!”

Their words made Jack sighed inwardly as he knew it truly was a difficult feat. Firstly, the existence of these precious items was an issue. Secondly, so what if they existed and they managed to find all the different ingredients needed for the pill? He was just a second-grade intermediate alchemist, and it was a very troubling journey to become a fourth-grade elementary alchemist!

He had been running away from this fact all this time. He could only repeat to himself, Lana, and the others that this would work without fail.

However, the hope of succeeding was as small as winning a five million lottery.

“Yes, it is difficult, but I’ll try my best!” assured Jack after a moment of silence. “Alright, let’s stop talking about this. As long as Fernando is still alive, I, Jack White, won’t give up on him. Come, let me bring everyone to visit him!”

River thought of something and added, “Let’s visit Lana first so she can help us take care of the children. We don’t want the children to see their father lying there...”

Jack nodded and quickly led them up the mountain. He arranged accommodations for them before ordering his subordinate to gather Lana, Ethan, and his other disciples over.

Lana immediately stepped forward and said to both women, “Sisters, we planned to fetch the two of you after a couple of days. I never thought you’d find your way here!”

“We’ve dismissed all the helpers in our house, and I decided to come with the children after discussing it with your Sister River. We plan to visit Fernando. We haven’t seen him for quite a while now, and we miss him badly.”

Sarai smiled weakly and said, “We don’t want the children to see their father in that state, though, so please help us take care of them for some time, and we will go take a look later.”

“Sure, no problem!” Lana agreed to it. Jack soon led the two of them to pay Fernando a visit.

Jack felt waves of bitterness in his heart when he saw how Sarai and River acted after they saw Fernando. The two of them sat by the thick ice layer and started crying.

## Chapter 1567

Jack never imagined that such an unyielding man, a man who made great contributions to Daxia, would end up in such a situation and be enslaved into a puppet by others.

This was also because the other party was in a hurry to lure Jack out so they could kill him. Otherwise, Fernando's life energy would completely disperse some time later to the point he could not be saved.

Even as he returned to his room, Jack still looked dejected with a deep frown on his face.

Selena walked toward him and took his hands into hers as she studied his expression. "Honey, don't give yourself too much pressure-just try your best. Don't blame yourself, do you understand? Otherwise, I'm afraid that this will affect your power to train! It'll be troublesome if this affects your breakthrough as you'll meet obstacles difficult to overcome."

"Alright, I understand." Jack nodded and continued speaking to Selena, "By the way, Selena, the Cabellos gave us Bone Marrow Cleansing Water sufficient for ten people. I've used four of the portions as I've given some to our mother and the rest today. There's still enough for six people, and I just had a thought: Should we make a trip back to Middle Province? Shall we distribute some to Sharon, Tanya, and the others?"

Selena smiled gently. "Sure! They've treated us well before, and there's not much use to keep this item. You should go back and give it to them, but I think I'll be staying back to train so I can break through into the initial stage of the demi-god level soon. By then, I'll be able to fly around. I'll stay at home to accompany our daughter. I've been talking with Sarai and River these past couple of days as well, I'll bring them around so they'll be well acquainted with the White family!"

Jack was inwardly relieved, never thinking his wife would be incredibly understanding. "I was afraid that you'd be unhappy due to jealousy because I planned to send these to Sharon and the others!"

However, Selena rolled her eyes when she heard what Jack said. "Why should I be jealous? They're all amazing girls, anyway. Previously, my mother wished for you to get involved with the George and Drake family. Who knew that the White family was actually one of the eight shadow families and you had such a strong background"

Jack smiled bitterly. "I never thought that I'd return to the White family someday. I initially thought that I'd never return to the White family in this lifetime, too. Who would've thought that that woman, Lily Lagorio, was the one who impeded the journey all this while."

Selena smiled and said with great understanding, "You've been quite tired and under great pressure recently. It'd be nice to go out and relax!"

"Don't worry, I only see them as great friends. I'll be back soon," promised Jack smilingly.

The next morning, Jack headed for Middle Province on his flying sword.

"Ah, I'm so bored!" whined Tanya in a café located in Middle Province. "I wonder how that guy is right now. That guy never contacted us after he went to Gin City, but I heard that they've been wiped out after they offended a great force. He must be alright!"

Yvonne, who was next to her, had a wane smile. "You shouldn't think so much; Jack's incredibly capable. How can people like us be worthy of him? Apart from that, Jack has such a great relationship with his wife, so how can it be easily shaken? Isn't that the person we fell for?"

Tanya glanced at Yvonne and said with a bitter smile on her face, "Cousin, you've finally acknowledged that you like him as well. You had always denied it in the past!"

## Chapter 1568

Unexpectedly, Yvonne rolled her eyes at Tanya. "How dare you comment on me when you also acted the same way before? It'd be great if you were as brave as Sharon. Even though she failed, at least she confessed, right?"

Tanya smilingly replied, "That's right—at least she had more things worth remembering him by. Who would've thought Jack was the Supreme Warrior and had such strong combat power? There hasn't been any news or rumors about him in recent months. He might be living in seclusion, even."

At this moment, Yvonne actually saw Sharon walking with a guy on the streets outside, and she seemed incredibly happy. "Tanya, look over there. Isn't that woman Sharon? Why is she with a guy?"

“Hey, why does this guy’s figure look so familiar?” Tanya could not help but frown as she eyed the man.

Soon, the two of them exchanged looks and simultaneously exclaimed, “Jack!”

“Oh, my, it is him! Why has he returned?” Tanya suddenly stood up and walked toward the entrance of the café.

“Tanya, would it be bad for us to just barge forward like this? Would we be interrupting them?” Yvonne was just as inwardly excited as she followed after Tanya meekly.

“What are you afraid of? We’re good friends with Sharon, so why should we be embarrassed?” Tanya had longed to meet Jack again, and she did not want to lose such an opportunity after seeing him again.

Although she knew Jack harbored no feelings for them, she would still be satisfied even to speak with Jack once again.

“Jack, Sharon!” Tanya stopped and called out to them after running a couple of steps forward with her bodyguards.

Jack and Sharon turned around at the same time, seemingly surprised

“Jack, it really is you. Why have you returned?” Tanya was delighted when she saw that it was indeed Jack.

Before Jack could even explain, Sharon chirped, “The two of us were about to go look for you guys. Who would’ve thought we’d meet in the streets! Jack had just returned and went to visit my house, and he was prepared to go to yours!”

“Is that true? You still know that you should visit us?” Tanya wore the look of suspicion yet felt giddy inwardly. Even if this guy thought of her as a friend, it was better for him to remember her than to forget her.

“Of course. I have something that I’d like to give to everyone!” Jack smiled. “It just so happened that I have a precious item sufficient for a couple of people, so I thought about you guys. That’s why I’m back; I’m prepared to give it to you.”

“Really? It’s great that you still remember us, your old friends!” spoke Yvonne with a roll of her eyes. “It’s quite late. Why don’t we search for a place to have dinner?”

“Alright, this will be my treat. Let’s go and search for a place to eat. We’ll catch up on old times over food!” Jack nodded. The group soon found a hotel and ordered a table full of food.

#### Chapter 1569

“By the way, Jack, we heard news that you went to Gin City when you left and also the so-called Swallow City, right?” asked the curious Tanya minutes after they dug into their meal.

Jack nodded as he then relayed some of the events that happened these few days while drinking

After they finished speaking, he took out three small porcelain bottles and placed them in front of the three women. “This is what I’ve mentioned. It’s a precious item capable of purifying the body and making you a martial artist, enabling you to join the journey of training; the Bone Marrow Cleansing Water. Just add it into hot water and soak yourself in the water for half an hour, but it’s best if your maid can be on guard next to you as it might hurt over time. I fear you girls might pass out due to the pain!”

“It doesn’t matter if it’s painful or not. It’s nice to be able to train!” Tanya took the small porcelain bottle in front of her as her eyes burned with determination.

“Yes. It doesn’t matter how strong I am-so long as I can train. Becoming a grandmaster in a place like

Middle Province will mean not everyone can harass me!” Yvonne was equally happy and looked just as fired up.

“I still have three more bottles here, so everyone should take another bottle each. Those that aren’t too old should be able to use it. You can give it to others in the future!” Jack took out the remaining three bottles and placed them on the table.

“That’s too much considering how...precious these are. You’re giving more to us when you’ve already given us a bottle?” Spoke the abashed Sharon.

Tanya thought about it and said, “That’s right, Jack. Aren’t you treating us a bit too nicely? By the way, does your wife know about this? Won’t she be unhappy?”

“Haha... It’s alright, I’ve told her about this. You guys can take everything. I’ve also prepared a copy of martial art technique, some spirited grass, and other items as well. It should be enough for everyone to train for one to two years!” Jack smiled again and took out the martial enhancement material before giving it to the three of them.

“Jack, you...you’re so nice to us. I don’t know how to thank you!” Sharon came toward Jack with a blush on her face and said, “It might be difficult for us to meet in the future. Can I get a hug?”

Jack originally wanted to refuse the suggestion but he failed as he was hit with Sharon’s expectant yet pitiful expression. With that, he stood up and stretched out his arms.

Sharon was secretly delighted. She immediately rushed into Jack’s arms shyly and hugged him tightly.

After some time, Sharon felt the welled-up embarrassment in her that made her back away with a flushed face.

“I... I want a hug too!” Tanya abruptly stood up and walked over angrily, hugging Jack instantly

Yvonne was still hesitant when she saw how proactive Tanya was. She looked at the wine glass in front of her before pouring a whole glass of wine for herself. She gulped everything down in one go before standing up. "We might not see him anymore in this lifetime once he leaves. I want to hug the Supreme Warrior, too!"

Jack was embarrassed, but he could only stand there and let the three women take turns in hugging him for a while.

Everybody had their fair share of drinks before they left the hotel.

Jack also sent the three of them home before spending the night in the hotel. The next morning, he left Middle Province on his flying sword.

Jack could not help but stop when he flew toward the edge of Middle Province. He turned around and glanced at the familiar city. "I hope that the three of you can find someone suitable for you and cherishes you three fondly."

## Chapter 1570

Jack soon left the Middle Province and then returned to the White Family.

After returning to the White family, he studied that stone ball for two days. After all, he had not only reached the peak of the True God realm, but was also very stable in this realm. Therefore there was no need to cultivate, and what he had was plenty of time.

Unfortunately, after studying this stone ball for two days, he couldn't learn anything from it other than the fact that it was absorbing the surrounding aura into it all the time.

"It looks like I should go to the Divine King Clan and ask, although I'm afraid that if I sent someone to inquire, there would be nothing useful from that inquiry!"

Jack couldn't help but smile bitterly after thinking about it for a while.

He didn't have much time, he didn't dare to keep delaying, even if he delayed for one more day, Fernando would be in a bit more danger.

"Are you planning to go alone, or are you taking more people with you? Would it be too dangerous for one person? What if, when the time comes, the people from the Divine King Clan want to snatch that stone ball of yours, what then?"

Hearing Jack's words, Selena asked with some concern.

"I'll just go alone, don't worry, that Divine King Sect already has three eggs in their hands now, there's no need to grab this one from me, besides, with my current strength, it's not that easy for them to keep me there!"

Jack smiled, when he went to that Black Wind Island before, his realm wasn't even particularly stable yet, he hadn't fully adapted to that newly increased power in his body, but even so, he was able to easily kill strong people with peak True God Realm cultivation.

But now that realm of his was even more stable, and his combat power was also a few points more powerful. so even if he went alone, he had nothing to fear.

"Well, the other party has been holding those three stone balls for almost twenty days now, right, and with so many people in their Divine King Sect, there must be more than one person staring at those stone balls, so it's good for you to go and ask!"

Selena said after thinking about it, she nodded.

At noon the next day, at the Divine King Sect.

Several old men, all staring at the three stone balls in front of them, kept studying them, and after studying them for half a day, one after another, they continued to shake their heads one after another.

"Hey, there's not much progress, other than finding out that this stone ball can actively absorb aura, there's no other clues, these strange runes on it, we can't read them either, these patterns are connected to them, it can't be some kind of formation, right?"

The First Elder of the Divine King Clan, after taking a closer look, couldn't help but speculate.

"Master, a group of people have come outside, saying they are looking for you, there are eighty or ninety people here, each with a cultivation level that isn't low!"

Unexpectedly, just at this moment, a few disciples of the sect flew in and immediately reported.

"So many people? Did they say what kind of people they were?"

Master Yates frowned and immediately put away the stone ball that was placed on top of the table.

The First Elder laughed and said, "There is no need to guess, it is probably people from other family powers, recently there are always people coming over, wanting to ask you if you have researched anything. hehe, there are even some second-class family heads, privately looking for me for tea. as for the purpose, it is merely in hopes to get a glimmer of information. After all, any bit of information about the Ultimate God Realm is quite sensitive."

"No, even if other clans or sects come to visit, they usually don't come with so many people, it's too

disgraceful for them to come with so many people! Even if they want to guard against our Divine King Clan, then they should just let the others wait on the mountain not far away. there is no need to come with so many, not to mention so many experts!"

Master Yates, however, shook his head.

The man who had come to report the news, however, smiled bitterly and arched his hand to the crowd, "Master, the other party said, you will know who he is when you see him, saying something about being an old acquaintance, he just hasn't seen you for many years, so he came to visit you!"

"An old acquaintance?"

Chapter 1571 skrappie

The elders looked at each other, confused.

The group of people soon flew out and arrived at the front of the sect, stopping in front of the group of people who had come to visit.

"You are?"

Master Yates looked at these people in front of him with a puzzled look on his face, among them was an old man who looked somewhat familiar, but he could not recall where he had seen him.

After all, once his younger brother had left back then, decades had passed. Everyone had gone from being middle-aged back then, to being old men now.

"Older brother, it's been a long time!"

Matthew Charles chuckled, before he arched his hand at Master Yates in front of him and asked.

Hearing this somewhat familiar voice, Master Yates finally recognised who the person in front of him was, and the smile on that face instantly stiffened, and his face became ugly.

His fist clenched as he gritted his teeth and said, "It has indeed been a long time, I didn't expect that you would dare to bring people to come here and find me?"

After saying that, Master Yates clenched his fist with a thick surge of chi on it, then in a flash, he appeared in front of Matthew and blasted his fist at him.

When Matthew saw this, he also immediately clenched his fist, mobilized the chi in his body, and then directly blasted a punch at Master Yates.

After this punch was thrown, both of them were shaken and sent flying for several steps before they stopped.

"Senior brother, don't fight. I've come to see you today for something, besides it's been so many years, why hurt the peace between us as brothers over a woman?"

Immediately after standing firm, Matthew advised Master Yates.

"Who is your elder brother? It's been long since I have disregarded you as a younger brother, so don't call me senior brother in the future!"

Master Yates was so furious that he directly waved his sleeves, then put his hands behind his back, "Get lost!"

"Master, no, Master Yates, it's fine if you don't recognize me as your younger brother, let's just pretend we're strangers, okay?"

Matthew smiled awkwardly before saying, "I've come here on behalf of the Hall of Divine Clan to ask you something! Look, we've come all this way, can we go in and talk?"

"If you have something to say, say it, and say it quickly!"

Master Yates coldly dropped a sentence.

"It's about some matters regarding the Ultimate God Realm. Any other matters, I believe that would not interest you at all Master Yates, but this matter regarding the Ultimate God Realm, I believe this would definitely interest you!"

Matthew smiled, he thought that as long as he mentioned this matter of the Ultimate God Realm, his elder brother would definitely be very excited and interested.

However, he soon realised that he could not see that excited look on Master Yates's face.

"Strange, could it be that the Elder Brother had already known about it?"

Matthew immediately frowned and began to contemplate.

Seeing that look on Matthew's face, Master Yates also reacted instantly before deliberately revealing a few moments of surprise, "Really? About the Ultimate God Realm thing? If it's true, oh, then do tell me about it!"

## Chapter 1572

"Master Yates, it's not good if we talk about it here is it? I'm thinking, how about we find a place to sit down and talk?"

Matthew smiled and finally said to Master Yates.

"Fine, then let's go over there to the council chambers to talk!"

After Master Yates thought about it, he led the people to fly directly in the direction of a palace, while Matthew and the others, immediately followed behind.

Soon, everyone was sitting down around a huge stone table.

"Speak!"

Although Master Yates agreed to let the other party in, his attitude wasn't very good. After sitting down, he also had a nonchalant look.

"Hey hey, elder brother, oh no, Master Yates, let me tell you, you may not know, some time ago, there was a group of people from the upper mainland who went to our side of the sea, think about it, our place is so far away from God King Hall, so just what did they go there for?"

"Our people, at once, guessed that these people must have known some secret about the Ultimate God Realm, and that's why they went inside our sea! So, we secretly followed them and eventually found out that they had actually gone inside the Black Wind Forest of Black Wind Island! In the end, it seems that there was a fight over an egg that was like a stone!"

Matthew looked at Master Yates with a smile and gave the general situation, and finally said, "So, we

guessed that this stone ball like thing, must have some relation to breaking through to Ultimate God Realm. So we got into a fight with them, but the other side was quite strong. we actually couldn't beat each other, especially that White family's kid, it was really terrifying! We weren't even a match for him, and he even killed two of our strongest people at the peak of the True God realm!"

"Hehe, is that so? The White family's brat is so formidable, good on him! His killing, it's also kind of helping me out!"

Unexpectedly, when Master Yates heard this, he instead smiled coldly and said with an indifferent expression.

The corners of matthew's mouth twitched viciously for a few moments before he said, "Master Yates, the past is the past, is it, are you not interested in this stone ball? What I mean by this is that water rich in nutrients shouldn't flow to outsiders' fields!"

"Water rich in nutrients should not flow to outsiders' fields? What do you mean?"

Master Yates raised his eyebrows and slowly asked.

"Hehe, what I mean is simple, that is, at that time, there were quite a lot of people from the other side, and now they must have gone back to their respective families. But even so, this White family is not that easy to deal with, so, our two families should join forces. go and snatch that stone ball, and then study it together to see if we can break through to the Ultimate God Realm together!"

Matthew chuckled, before he gave his idea away.

"You have a good idea!"

Master Yates sighed with emotion and said to Matthew "However, I'm not interested in that stone ball right now, so you'd better go!"

"Not interested? Are you kidding? That thing, it might be able to find the mystery to break through to Ultimate God Realm, and you're actually not interested?"

Matthew rubbed himself to his feet, his eyes full of disbelief. how could he have ever imagined that his older brother would say such a thing. to be able to break through to the Ultimate God Realm, might allow one to have a life span of two hundred years, in such a case, he was actually not interested?

Master Yates then directly took out a stone ball and placed it in front of him, "I have one here already, just study it yourself, why would I want to rob it? What's more, you've also said that the White family is not to be messed with!"

"You have one too?"

Matthew took two steps forward, and then intended to walk over and look at the stone ball.

## Chapter 1573

However, Master Yates placed his hand on top of the stone ball and it was gone in a flash, stowed away.

Matthew was speechless for a while, before he retreated and sat down, frowning, "Actually, there are two of them? No wonder you didn't want to rob the White family's stone ball!"

"This thing, there are more than two, there is one inside each of the Seven Great Dangerous Lands. I could have not told you this piece of information at all, but it's fine to tell you, after all, even if I don't tell you about this, you will definitely be able to inquire about it after you go down there!"

Master Yates said with a smile.

"There is one in each of the seven great danger zones? In which dangerous land did you get this one?"

As soon as Matthew heard this, his heart moved and he immediately asked.

"I know what you're thinking, you want to go and see the stone balls inside the other dangerous lands, right? Unfortunately, it's too late for you to go now. The ancient sects and clans on the other continents have already acted long ago, and by now, those stone balls have all been taken out. So, you'd better stop dreaming!"

Master Yates finally laughed, "Alright, I can only tell you this much, I've already given you enough face, you'd better go, go back to your seas!"

Matthew naturally did not want to die, nor could he be willing to go back just like that. After thinking about it, he then asked Master Yates, "So, you should have gotten this stone ball for some time, right? I wonder, have you researched anything out?"

"Hehe, if I had already researched something, why would I be here talking nonsense with you? I must be in a hurry to break through, and if I break through to the Ultimate God Realm, one day when I'm in a bad mood, I'll go to your bullshit God King Hall and show you how powerful I am!"

When he thought of what happened back then, Master Yates's heart was still a little troubled, so he didn't have any good words to say.

"Hey, elder brother, why do you have to? It's just for a woman, and it's been so many years and she's dead, so you'd better let it go!"

Matthew sighed and persuaded.

"Let it go? If it wasn't for you, she wouldn't have died!"

Master Yates slapped the table and stood up, "Get lost, I never want to see you again! To be able to talk to me for that long today is already considered good enough for you!"

"Alright, in that case, then we'll leave!"

Matthew also knew that even if he continued to stay, he wouldn't get any more information, and he was already satisfied with being able to get so much useful information today.

Next, he planned to have someone ask around to see which other powers had obtained this kind of stone ball, and when the time came, to see which of the powers that had obtained this stone ball was the weakest, he would find this weakest power and snatch one over first.

In his heart, he could only pray that the White family would not be the weakest power, after all, that kid from the White family was too strong, and he did not want to fight against them.

"Master, there's someone visiting outside!"

However, just as they were about to leave, a disciple of the Divine King Clan ran in and once again arched his hand.

"I'm not in the mood for visitors today, no matter who it is, tell him to go back first and say that I'm not in a good mood!"

Master Yates waved his hand, he reckoned that it was some family head who wanted to come and inquire about the situation again. These days, he was so annoyed by this matter, plus today, he was a bit more impatient after meeting this murderous junior disciple.

But Matthew had brought so many people here, and he had just tested Matthew's strength, and it was not an easy feat to kill the other party. so he simply did not want to pay attention to the other party.

Chapter 1574

That disciple did not immediately withdraw, and after thinking about it, he then said softly, "Master, the person who came is not from a second-class family or a third-class family, it's, it's the young master of the White family, Jack!"

"It's that brat?"

Elder Mosley glanced at the others and Matthew upon hearing this, and the other people from the Divine King Hall were also slightly shocked, not expecting that that brat had actually come as well.

"It's him?"

The Divine King Clan's Master also froze for a moment. if it was a general family head of a small power, it would be alright if he chose to either see or not see him, there was no need to give face to the other party.

However, if it was Jack, then he had to give face, not to mention that he had just learned from the God King Hall's Hall Master that Jack still had one of those stone balls in his hand.

However, after thinking about it, he asked again, "How many people did he come with? There wouldn't be many, would there?"

That disciple then said, "Only one person came, this kid came on his flying sword. He's quite bold to dare to come alone!"

"Really only one person?"

Before Master Yates could say more, Matthew's face had more than a hint of excitement. If only Jack was alone, wouldn't this be the best chance to snatch the treasure from his hands? This kid definitely had that stone ball on him, and there were dozens of them here, and each one of them was also a strong person with True God realm cultivation. so if they all went together, couldn't they still snatch the treasure over?

"Yeah, there's only one, and we've all seen it!"

That disciple immediately said.

"Let's go, go out and take a look at this kid!"

With a wave of his hand, Matthew flew out with the others.

"Go!"

Master Yates was stunned and instantly reacted to what Matthew meant by this, and immediately flew out with his men as well, and also asked one of the elders to go and call some more of the clan's strongest people over.

"You guys are actually here too?"

Jack waited for a while, but he didn't expect that the first ones to fly out were dozens of people, and they were actually from the Divine King Hall, which made his face frown slightly, quite surprised.

"Haha, kid, isn't that quite surprising? I truly didn't expect it. you are actually coming to the Divine King Clan alone, you brat, you must be looking for my elder brother to discuss this matter of the stone ball?"

Matthew laughed out loud, a few more moments of excitement in his eyes.

Of course, he deliberately mentioned the fact that Jack had come alone, just to see if Jack had really come alone. In case this kid had brought others with him, hiding in the distant woods or on the big mountain, then they wouldn't dare to make a move easily.

"What I had come to discuss with Master Yates, has nothing to do with you, right? I really didn't expect that Master Yates was actually your elder brother!"

Chapter 1575 Medz

Jack smiled coldly and said.

Hearing that Jack did not emphasize that he had not come alone, Matthew's heart was pleased. it looked like this kid had really come alone, so that would be good.

"Shoo shoo shoo!"

Just at this time, Master Yates flew over with his men as well, along with more powerful people from the Divine King Sect, who also rushed over one after another.

"Master Yates, this kid is the person we want to find. He actually came alone, If we strike at him later, I

hope you won't interfere. after all, this is a personal grudge between me and him, this kid killed two of my peak True God realm powerhouses, and quite a few True God realm experts, this debt, it's time to settle it!"

After seeing Master Yates arrive, Canghai Ming smiled and said in a calm manner.

Master Yates froze for a moment, then sneered, "Hall Master Canghai Ming, this is not very good, this Jack is not an ordinary person, he is the son of the White family's head, moreover, he is the heir to the White family head, and he came to my place, I should naturally receive him well. He came to my clan today, thus he is the guest of honor of my Divine King Clan. How can I allow you to kill the guest of honor in my clan? What if word of this gets out? When that happens, who will dare to visit my place anymore?"

The corners of Canghai Ming's mouth immediately twitched slightly a few times before he said, "Master Yates, this is nothing, right? After all, this is a private matter between our two families, so if you don't help either party, it would be justifiable for word to get out.

But Master Yates sneered, "In my eyes, Jack is my guest, and you people are not.

When Jack saw that Master Yates was actually trying to help him, his heart was slightly warmed.

However, he still arched his hand at Master Yates, "Master Yates, thank you for your kindness, however, the Master of this Divine King Hall is right, between me and them, it is indeed considered a personal grudge, and I don't want to involve your Divine King Clan in our two families' affairs!"

"What! You ....."

Divine King Sect Master Master Yates was speechless in his heart, was this Jack crazy? The other side had several peak True God Realm powerhouses, not to mention that there were so many late True God Realm and mid True God Realm cultivators, so many people, and Jack still didn't appreciate it? Wasn't this tantamount to sending him to his death?

The First Elder of the Divine King Clan was also furious and directly said with a cold face, "Jack, are you crazy? Can't you see that our Master is trying to help you? If you do that, what's the difference between that and seeking death?"

Jack did not care and said, "It doesn't matter, there are not many of them, even if they all came at me, I'm afraid there are only five True God Realm peaks, with many more in the middle True God Realm and early True God Realm, if I don't show them a little bit of skill, they really won't know how foolish it is to chase us to this continent!"

Now that Jack's cultivation level has completely stabilized, his combat power had also improved a lot compared to before. The most crucial thing was that he was the only one here, the other White family members were not here, he didn't have so many worries anymore, in such a situation, he really didn't put these dozens of so-called strong people in front of him in his eyes.

"Hall Master, this kid is too crazy, isn't he? How dare he say that there are only five strong people with peak True God realm cultivation!"

"Yes, Hall Master, this kid actually doesn't mention us, the late True God realm cultivators, could it be that he doesn't put us in his eyes?"

Many of the strong men from the Divine King Hall were all furious and looked at Jack in front of them with anger and great displeasure.

"Jack, since you have thought it over and have said so, then let it be, I won't care about this matter, if you regret it then, it's useless to beg me, I am a person, once I decide not to interfere, I will definitely not interfere!"

Master Yates was also a little upset, he wanted to help out with good intentions, but he didn't expect this kid Jack to be ungrateful.

"Think about it!"

Jack smiled and flew a little further away in a flash, then hooked his hand at the Hall Master of the Divine King Hall, "Are you sure you want to fight me? Don't regret it when the time comes! The people of this Divine King Clan will not help you!"

## Chapter 1576

"Haha, do we still need their help? Kid, you're joking, right? Here we have five strong people at the peak of the True God realm, each and every one of them is a super powerful existence, not to mention, there are a dozen or so late True God realm, with many mid True God realm and early True God realm cultivators, and not even a single person at the demi-god realm cultivation, do you think you still have a chance of surviving?"

There was a man in the middle True God realm, but after hearing this, he laughed out loud.

"Swoosh Swoosh Swoosh!"

Those other men, too, immediately scattered and formed a circular arc, preparing to attack Jack.

Jack's eyes narrowed slightly, his fist surged with aura above his fist, and he actually flashed, taking the lead in charging out.

"Swoosh!"

Jack's speed was as fast as lightning, instantly turning into a streak and disappearing in place.

"What speed!"

There was a guy who immediately exclaimed in amazement, feeling like his eyes were blurry.

"Be careful!"

An old man next to him, immediately exclaimed in shock.

However, it was already too late as Jack abruptly appeared in front of the man from before and blasted him above the chest with one punch.

"Boom!"

A huge boom sounded, and the man with an early True God Realm cultivation level was actually directly blown away by Jack's fist.

"My god, no way, he has at least an early True God realm cultivation, and his body is already very hard, but he was actually blown up?"

Someone immediately exclaimed after seeing this scene, seeing how powerful the explosive power within that body was with this punch from Jack just now.

"Boom!"

However, just as his words fell, Jack appeared in front of another man of the middle True God realm, and similarly, he blasted the other man away with a single punch.

"This power, I'm not even a match for sure!"

Master Yates, who saw this scene, sucked in a breath of cold air, the power within Jack's body was just too powerful, this kid's combat power was indeed perverted to a terrifying degree.

However, with so many strong people on the other side, could Jack, alone, really be a match for the other side?

"This kid, charging directly into the crowd of the opponent, if they fight in close quarters, the opponent's people are not good enough to make a move for fear of hurting their own people, this kid is really too smart!"

The First Elder of the Divine King Clan, after looking at it, actually spoke up.

Master Yates's heart dawned, then he understood why Jack actually took the initiative to rush out, as long as the people on the other side, didn't pull away for a short time, it would be hard to strike at him, moreover, with this speed, he was flying between the people, it would be hard for everyone's attacks, to be aimed at him.

"Damn it, this kid, it's so abominable!"

Seeing that in a matter of moments, Jack had killed two more strong people with True God realm cultivation, Canghai Ming was so angry that he gritted his teeth.

"Everyone, spread out a bit!"

Canghai Ming was not stupid and instantly saw through Jack's intentions and said in a panic, "Everyone don't make a mess, this will even let him have his way!"

After such a short while, Jack had killed several powerful people, Canghai Ming also felt it, and almost

all of them panicked, one by one they were nervous.

After all, there was a good chance that they would be next.

With a flip of his palm, Jack directly took out that extremely high quality spirit weapon, and quickly injected his aura into it, the sword in his hand instantly glowed brightly, and Jack's aura, instantly followed by climbing up a lot.

Chapter 1577

"Swoosh!"

Jack chopped out with his sword, and a slash of flame went straight for several guys in front of him.

"Give me an attack!"

Those guys clutched the swords in their hands, and one by one, they also put their attacks into play, this time Jack was a bit far away from them, and finally had a chance to counterattack.

"Boom boom boom!"

However, even so, the four men's attacks were actually destroyed easily by Jack's attacks, and the next second that remaining aftermath landed directly on them.

"Bang Bang Bang!"

Several slightly dull sounds rang out in quick succession, three guys were directly decapitated, and the other old man, whose cultivation level reached the late True God realm, was not decapitated, but he was also seriously injured and fell heavily to the ground, a mouthful of blood gushed out, unable to even stand up.

"Roar!"

At this time, one of the elders at the peak of the True God realm finally aimed at Jack and attacked him, an incomparably huge fierce tiger made of aura just appeared in front of him and then charged at Jack.

"Hmph!"

Facing such a terrifying attack from his opponent, Jack, however, coldly snorted, not only did he not show the slightest fear, his eyes even had a little more fighting spirit in them, a terrifying battle spirit that filled his heart.

"Great Wave Impact!"

Jack leapt fiercely and slashed his sword out in front of him, and a wave of aura appeared in front of him, flying directly out in front of him.

As Jack now performed this move, that attack was again clearly a few points more powerful than before, the wave covered a larger area and the wave looked higher.

"This kid's fighting power seems to be a few points more powerful than before!"

A guy's face looked ugly after seeing this scene.

"This attack of his covers a very wide area directly, there are more than a dozen people on the opposite side, all within the attack range!"

Master Yates couldn't help but let out a sigh of relief after seeing this scene, Jack's combat power made him feel scared.

He no longer had any doubt that if it was himself who met such a strike from Jack, he was afraid that he would not be able to dodge it and would only be able to resist it, not to mention that he might not even be able to resist it for long.

"Ah!"

The powerful people on the other side that were covered by the attack, one by one, also unleashed their most powerful attacks.

However, in front of Jack's attack, their attacks were destroyed as if they had been wiped out.

Twelve people were killed by Jack just like that, which also included the peak True God realm powerhouse who had cast out a huge fierce tiger.

"Urgh!"

Seeing this scene, Canghai Ming sucked in a breath of cold air and his face turned white with fear, only now did he realize how terrifying this fellow Jack was, he flung his sword out and actually turned around and ran, "Everyone, run, this kid is too powerful, if this continues, if he performs a few more attacks like the one he just did, we will all be finished!"

Those other people were also terrified, the attack of twelve people just now could not even block Jack's strike, killing all of them, this was the first time they had seen such combat power.

Of course, if they knew that Jack had killed six strong people with peak True God realm cultivation when he had not yet broken through to the peak of the True God realm, he wondered how they would feel.

"Want to leave, it's not that easy?"

Jack's speed was too fast, and after blocking his opponent's chop with one sword, he directly aimed another sword at Canghai Ming in front of him and chopped out.

"Wave Sword!"

This time, Jack executed an even more powerful attack, a stalk of aura flying swords, which was actually like a sword dragon, directly rushed out.

## Chapter 1578

Canghai Ming looked back and turned white with fear, Jack's attack this time was even more powerful than before, moreover, the speed of this attack was really too fast, it caught up with him in a flash, obviously even faster than him.

"Fire Phoenix Chop!"

Seeing that he was about to be caught up, he had no choice but to turn around immediately, injecting his aura into the extremely high quality spirit weapon in his hand, and blasted out with his sword at the front.

Several other guys, who were also within the range of the attack, also immediately stopped and executed their attacks.

"Roar!"

In front of Canghai Ming, a huge phoenix actually appeared, which looked like it was all condensed from aura and charged straight ahead with a terrifying fluctuation.

"Boom boom boom!"

Those flying swords of Jack landed on top of the fire phoenix in an instant, attacking it non-stop, blasting that phoenix away after a few moments, moreover, those flying swords were still continuing forward, destroying the attacks of those few people behind them.

Although the flying swords kept being consumed, the attacking power of each of those flying swords was amazingly powerful, and there were still quite a few of them left, which separated directly and went at those five people in a flash.

"Luckily, the Hall Master has bought us a lot of time!"

Someone had already flown a dozen miles away, and after looking back, he was still in a state of shock.

"I wonder if the Hall Master will survive!"

Another fellow, also with a sunken face did not care too much and left. They scattered in all directions one by one and fled.

"Bang bang bang!"

Those four guys, unable to resist at all, were struck by the terrifying flying swords of aura, directly piercing through their bodies and falling from the air.

"Make it bigger for me!"

However, that Hall Master of the Divine King Hall, however, immediately threw out his extremely high quality spirit weapon which then grew larger, forming a very large shield.

Almost as soon as he threw the flying sword out, he turned and fled, turning into a streak of shadow and heading straight ahead.

"Boom boom boom!"

Jack's attack was parried by the flying sword, but the flying sword was also blown away.

"Pfft!"

The Extreme Flying Sword had a hint of spiritual connection with Canghai Ming, and now it was being blasted one after another, causing a mouthful of blood to gush out of Canghai Ming.

However, he still gritted his teeth and controlled the flying sword once again, continuing to fly and blocking in front of Jack.

"Boom!"

Jack blasted out another attack, landing on top of the flying sword, and the connection between Canghai Ming and the flying sword was completely shattered. Canghai Ming once again gushed out a

mouthful of blood, and the flying sword immediately became smaller and fell down.

Seeing this extremely high quality spiritual weapon, Jack hesitated for a moment and flew down directly, catching it before it hit the ground, and only then did he fly up again.

However, with such a delay, those guys had already rushed into the distant woods of the big mountain, and it was obviously not that easy to continue the pursuit.

"Forget it, let's spare your life for now today, killing more than twenty strong people is enough, not to mention, there are still two Elders at the peak of the True God realm among them!"

Jack looked at the ground, smiled faintly, and flew down again to pick up his spoils of war.

## Chapter 1579

"This kid, he's too strong, so many people surrounded him and he actually killed more than twenty people from the other side unscathed, if it wasn't for Canghai Ming and the others who escaped quickly, I'm afraid they would have died here too!"

Looking at Jack who was picking up the spoils of war below, a middle-aged woman from the Divine King Sect said with immense emotion.

"This son must never be offended, and must even be befriended... Fortunately, we have, before, always acted in a low profile and have not offended him! Although this kid's cultivation level is at the peak of the True God realm, his combat power has far exceeded his cultivation level, I suspect that it's even comparable to the combat power of an Ultimate God Realm powerhouse! Although, I've never seen a strong person with an Ultimate God Realm level either!"

Master Yates also let out a long breath, that scene just now was too shocking, especially the two consecutive moves that Jack performed before him, which still reverberated in his mind.

"En, I'm afraid that the people from the Cloud Sky Clan and the Lagorio Family are in trouble, haha, if they offend the White Family, they are looking for death, especially the Cloud Sky Clan, they had already lost six strong people at the peak of the True God realm when they said they met a terrifying demonic beast before, now they are even more reduced in strength!"

The First Elder of the Divine King Clan nodded, then said.

"En, this time, I don't know how the Yunxiao Clan's losses will be after entering that dangerous land, if their losses are large, I reckon that the White family might dare to strike. If the losses are small, the White family's people, I reckon, won't strike for the time being, because quite simply, the White family's top powerhouse, as a whole, is still a bit less, and Jack doesn't want to have a big sacrifice, if a big sacrifice is needed in exchange for the White family's victory, that's a bit uneconomical!"

Master Yates thought about it before guessing.

And just as their words fell, Jack also flew up from below, then he arched his hand at Master Yates: "Thank you for your kindness just now, Master Yates, but this whatsoever Divine King Hall's people, they followed us to that Black Wind Island before, causing us to lose some more people overall as well, since we ran into them today, we must teach them some lessons! "

The corners of Master Yates's mouth twitched slightly, this was not a lesson to the other side, if the other side ran a little slower, these strong people would have been killed, then, the God King Hall would basically be considered to exist in name only!

"Haha, Young Master Jack, your combat power is really unspeakable of!"

Master Yates laughed, "After all, you are a valued guest of our sect, so I naturally want to help if I can, but I didn't expect that Young Master Jack would be so powerful, we didn't even need to help and you could handle it alone!"

After saying that, Master Yates thought about it and immediately led the way, "Let's go, if Young Master Jack has anything to do, let's talk inside!"

"Good!"

Jack nodded, he also felt that after such a battle just now, these people from this Divine King Sect were obviously looking at him a little differently than before, with a little more respect.

"By the way, these corpses ....."

However, after just a few steps of flying, Jack stopped again and looked at those corpses on the ground.

"Hey, you don't need to worry about this, our people, they know how to clean up!"

Master Yates laughed.

"Thanks a lot then!"

Jack arched his hand.

Canghai Ming and the others, one by one, were scared to death in their hearts, and kept flying for an hour or two before they stopped. Canghai Ming was also pale, obviously suffering from a lot of injuries.

"Damn, this kid's power is too perverted, how can he have such terrifying fighting power?"

Canghai Ming took out a healing pill and after swallowing it, he said with a big gasp of air.

"Hall Master, now, what should we do?"

"Yes, Hall Master, that kid is too powerful, we'd better go back to the seas, this White family, it's better not to offend!"

Several old men, all persuaded Canghai Ming as they were really scared.

"You guys are really no good! If we go back to the seas, I'm afraid we won't be able to break through to Ultimate God Realm for the rest of our lives, moreover, this time we failed to surround that kid, now he might be afraid of our large number of people and not bother us, but what if he breaks through to Ultimate God Realm and directly leads people to kill our God King Hall? What then?"

Canghai Ming glared at these guys in front of him with no good grace, then clenched his fists and said with a firm face, "We can't leave, let's find a place to stay first, and then we'll discuss it afterwards!"

## Chapter 1580

Canghai Ming and the others were prepared to find a place to stay before making plans, keeping an eye on the movements of the major powers on the mainland.

Moreover, they quickly sent two people to go back to the God King Hall and bring some demi-god realm True God realm powerhouses with them, intending to stay on the nearest island off the coast from the mainland and wait for orders at any time, so that they could not come in time when they needed to use a large amount of manpower.

At this moment, Jack, Master Yates and the others, once again returned to the immense and incomparable council chamber.

"Well? Master Yates, let's talk about matters regarding this stone ball. I got one, but I studied it for the past two days and couldn't see anything. I know Master Yates has been studying it for quite some time now, I'm not sure if there were any breakthroughs?"

Jack smiled and said directly, "If there are any ideas, I wonder if you can tell me a thing or two!"

"Haha, you kid, you're really straightforward!"

After Master Yates was stunned, he actually laughed out loud, "So many people who came to visit all wanted to inquire about this matter, but they all beat around the bush and talked about other irrelevant matters for half a day, some even patted me on the back for half a day before getting to the main matter, you are different, you went straight to the point right away!"

"Haha, isn't that good? This way we can all save time, right? Especially Master Yates, your time is so precious, how can you waste it on something insignificant?"

Jack laughed and quickly looked at the other party seriously again and said, "Right, Master Yates, if you don't want to tell me anything or don't want to discuss it with me, I'll leave now!"

"Why the need to leave so early? I like your character!"

Master Yates said with a smile, then with a flip of his palm, he took out a stone ball and placed it on the table in front of him, "We have been studying this stone ball, and we have been staring at it every day, but to be honest, we haven't seen anything so far. The only thing we know is that the stone ball is automatically absorbing aura, and the runes on it feel like they were left over from a long time ago, and we don't know what they do!"

"Right, Young Master Jack, we even tried to smash this stone ball, but it couldn't even be smashed, it felt solid, not hollow, it shouldn't be any kind of egg. We even put it on fire and burned it, but didn't find any change either!"

Another elder of the Divine King Sect, after thinking about it, then said at the side.

After hearing this, Jack looked slightly strange, he really didn't expect that the people of this Divine King Clan had actually tried so many other methods.

"One more thing, we found that this thing, if it's in the night of the full moon, then the speed of absorbing spiritual qi is incredibly fast, at least ten times faster than at ordinary times, maybe even twenty times, this can absorb a lot of spiritual qi in a day!"

Master Yates spoke again.

Jack sucked in a breath of cold air, his heart was really shocked, "In two or three days it will be the full moon again, wouldn't this rate of absorption be even faster if the seven stone balls absorbed spirit energy at the same time? The spiritual chi in our places is not as dense as the spiritual chi on that Black Wind Island, if we go at this speed, more will actually be absorbed?"

"Yes, this thing is only absorbing aura and not spitting it out, what is it trying to do? This is indeed nothing if you look at it for a short period of time, but if they keep on absorbing aura non-stop, then it will still be scary after a long time!"

Master Yates said with a frown again after thinking about it.

"Young Master Jack, what about you? Do you have any other views, or thoughts?"

Master Yates asked Jack again after thinking about it.
