

No. 1 Supreme Warrior Chapter 1673

Nash smiled indifferently and waved his hand as he spoke, "Master Cabello, there's no need to be so polite. Even if we didn't share this martial art technique with you, I believe you'd obtain one in the forest soon-breaking through into the ultimate god level was just a matter of time. It looks like this is a treasure-hunting place with all the innumerable precious items here. Jack wouldn't have obtained two martial art techniques so quickly if it wasn't so!"

"Haha... That might not be it. We're more at ease the sooner we break through into the ultimate god-level. Otherwise, we wouldn't be able to fight back just like when we met the monster beast comparable to a master in the First-grade ultimate god-level. Now that we've broken through, we'd be able to hold back the opponent even if we're unable to defeat the monster beast. We'd be able to contend against them, at least!" Alejandro laughed out loudly. Unfortunately, he did not meet any of the masters in the peak stage of the true god-level from the Cabello family. If not, the Cabello family might have two to three more masters in First-grade ultimate god-level if they trained together!

Nash exchanged glances with Jack before they asked Alejandro, "By the way, Master Cabello, did something flash past you and made you feel that your entire soul entered another space when you were breaking through into the First-grade ultimate god-level?"

Surprisingly, Alejandro looked at Jack and Nash with a confused gaze, not knowing what they were on about. "Another space? What space?"

Nash's heart dropped before he asked again, "It's a space that looks like a black sky, and there are many light balls in the surrounding. The balls are all different in sizes and colors, and would flash past you like meteors. They'd zip past you in a flash, but this only happened in the blink of an eye before they vanished."

"That's right. My father and I experienced this the instant we broke through!" added Jack. "We thought that every person who broke through to the ultimate god-level would see this scene. Did Master Cabello not see it?"

"No! I've broken through just like that!" Alejandro was puzzled, not knowing what even happened.

After some time, the First Elder of the White family, Kenneth White, also stood up with a smile. “Haha... What a feeling! I’ve broken through and became a First-grade ultimate god-level master! I’ve finally achieved the ultimate god-level!”

Everybody smiled when they saw Kenneth’s excited ways. All of them understood that the older a person was, the higher their expectations toward the ultimate god-level.

Seeing how much younger he had become, Selena beamed, “First Elder, your white hair seems to have decreased immensely!”

“Truly?” Kenneth immediately took a mirror out and said after taking a detailed look, “Yes, I definitely look much younger and much more spirited. Although I’m still an old man, I look much better than before. Even my looks have increased greatly!”

He then looked at Jack. “Jack is the best one as he had broken through into the ultimate god-level at such a young age. A master like you will surely break into the soul-penetrating level sooner or later. You guys are the ones who truly preserve your youthful appearance!”
