

No. 1 Supreme Warrior Chapter 1675

Jack smiled and comforted Lancelot, "Don't worry yourself, Third Elder. You've just broken through into the peak stage of the true god-level some time ago, so you should rest for some time and try to break through again next time. After all, this is a great realm, and it wouldn't be tangible if everybody could break through so easily."

Lancelot nodded and said, "You're right. At least our White family has four masters in the First-grade ultimate god-level now. Surely, our family is the one ahead among all the forces that entered this area!"

Nash chuckled as he modestly corrected, "We can't be sure about that. After all, many people have been separated, and we've been delayed for four days here. Within these four days, everybody might've been further separated while we have no way of knowing their situation! We only have a couple of hundred

Alejandro also nodded. "Sigh... I wonder where Helena and Venus are at. We haven't reunited with them after coming in for so many days. Now that we've delayed four days here, some people might've walked further away during these four days. I hope that Venus and the others crossed no paths with stronger individuals."

Daniella quickly comforted him, "Don't worry, Father. My sisters have strong fighting prowess, and they'll be just fine so long as they're not too unlucky. On top of that, Eldest Sister is already in the peak stage of the true god-level, and she might've broken through into the ultimate god-level!"

"Let's go. We've been delayed for quite some time now, and it's only one or two o'clock in the afternoon. If we go out now, we should be able to find quite a lot of spirited grass before sundown. We have quite a number of people here, so we can spread out and just make sure we're still able to help one another. I plan to search for spirited grass during the daytime so I can try cultivating third-grade elementary pills during the night!"

Jack smiled indifferently and said, "The second grade pills can help raise the levels of those in the demi-god or true god-level quickly. Although they can also help raise the fighting prowess of those in the ultimate god-level, the effects aren't very profound. If I can cultivate third-grade pills soon, they'll greatly benefit those in the ultimate god level!"

“Third grade!” Alejandro and the others inhaled deeply at Jack’s remark. They had never imagined pills of such a level as they seldom harnessed third grade spirited grass outside, let alone third-grade pills.

Jack, with his profound ability in cultivating pills, had become a second-grade premium alchemist before they realized it. He was capable of saying something like this as he might be able to become a third-grade alchemist quickly with his hardworking studies.

Standing at the side, Selena had a small frown on her face. She knew Jack’s impatience in trying to raise the level of his pill cultivation skill had everything to do with cultivating fourth-grade pills to help lift her.

Indeed, it was a difficult feat to achieve, but it moved her when she saw Jack working so hard for her.

A thought then occurred to Alejandro as he took out his martial ring and passed it to Jack. “By the way, Young Master Jack, we obtained quite a number of third-grade spirited grass these past couple of days. Will you take a look and see if any of these spirited grass are suitable for you to be used in cultivating pills? You can just take them if so. After all, we wouldn’t have the martial art technique to practice so soon without you, and I wouldn’t have broken through into the ultimate god-level so quickly!”
