

## Chapter 1161 - The External Domain of Tilted Peak Sector

### 1161 The External Domain of Tilted Peak Sector

Primal Chaos City Leader stood amidst the void space.

“Three universe reincarnation eras can be divided into dozens of powers, with the total almost up to 100 powers,” he said. “Close to 100 powers... yet not one of these is comparable to the two holy grounds.” He sighed. “Both of these two holy grounds are extremely powerful. Compared one-to-one, no power stands up to theirs. Of course, if we were to look at an entire universe reincarnation era and not just individual powers, even our primal universe—which seems to be the weakest reincarnation era—would be stronger than either one of the holy grounds alone. I am guessing that it would need the total powers of both holy grounds to be comparable to the power of our entire primal universe.”

But Luo Feng was genuinely shocked. The power of an entire primal universe?

There were only a couple of universe supreme beings in the primal universe! For instance, the Hong Alliance had slightly more than 30 universe masters from its top nine powers and top-tier 12 powers, but the highest power stopped at the top-tier level. Although it did not have any universe supreme beings, its universe masters were far from weak. Some other universe masters were lone wanderers, some stayed hidden, and some had gone missing. Adding all these up, the entire primal universe could be estimated to have at least 1,000 universe masters!

There were only a couple of universe supreme beings but close to 1,000 universe masters! And two holy grounds had to be combined powers to stay competitive and comparable?

“Don’t look so shocked,” said Primal Chaos City Leader. “Putting together both holy grounds, the total quantity of universe masters might not match up to ours in the primal universe, but they may have undergone countless cycles of reincarnation.” He sighed. “They may not best us in terms of quantity, but in terms of quality... they are top-notch! At least, they dared to step out of their comfort zone to wander and roam, and most of them can comprehend a strongest technique.”

Luo Feng sucked in a breath of cool air. A strongest technique? Those who came out were all able to comprehend the strongest techniques?

“This was the information recorded by great beings from the primal universe, the final stage of ruination of the second universe era, the first universe era, and the two holy grounds.” With a wave, Primal Chaos City Leader took out a transparent crystal ball that was dazzling with threads of golden light. In a serious tone, he said, “This is extremely classified information, and it has taken us eons to collect it; some of these materials may implicate highly confidential events. Even if the powers of our primal universe did communicate and exchange information, the highly confidential ones are always kept hidden. Once you have finished going through them, destroy it all.”

“Yes, Teacher,” Luo Feng said, nodding.

He understood. During the trip to Universe Ocean, Primal Chaos City Leader had been gradually briefing him on some of the information he needed to know first and foremost. If such a great deal of information was directly given to him while still in the primal universe, he might not have absorbed it

with due vigilance. But in Universe Ocean, if one saw how the universe had undergone ruination and personally experienced the kind of shock it brought about, he would come to hold such information in high regards.

With the transparent crystal ball in his hand, Luo Feng penetrated it with his godly power. At that moment, information rushed into his mind...

Within this universe that was collapsing, there were a few godly corpses floating afar. Primal Chaos City Leader's attention was focused on Luo Feng, who was accepting the information he had been given.

"This... this..." Luo Feng's eyes widened as he gazed at Primal Chaos City Leader.

"Have you felt the pressure yet?" Primal Chaos City Leader laughed.

"Yes." Luo Feng nodded repeatedly.

After learning all this confidential information, Luo Feng felt a rising sense of crisis. It was too weak! The primal universe he was from was indeed the weakest! His godly power was at a disadvantage. Being the weaker side, he relied on Miniature Universe, Shi Wu Wings, and Flame Sand Cup to enable himself to be one of the better-faring ones in the primal universe. However, if he was compared amongst those in the Universe Ocean, it was obvious that he would be at the end of the line.

Just like the two holy grounds, in terms of godly power, Luo Feng lost when it came to strength. Furthermore, all of those that formed the two holy grounds were able to comprehend their strongest technique. Meanwhile, even if Luo Feng had Miniature Universe, Shi Wu Wings, and Flame Sand Cup to boost his power, he still ranked at the bottom compared to the two holy grounds.

"Initially, I intended for you to come here only after you had become a universe master," said Primal Chaos City Leader. "You may not have the ability to win fights, but you are very competent at keeping yourself alive. If you continue to sharpen and hone your skills, it will be very helpful in helping you become a universe master."

Luo Feng nodded.

"Let's go."

Shua!

Primal Chaos City Leader led the way for Luo Feng. They left this miniature universe that was on the verge of collapsing in an instant and continued on their journey.

They continuously teleported at a high frequency, at times traveling along natural wormholes.

On the sixth day after Luo Feng entered Universe Ocean, amidst the endless chaotic airflow...

"Right ahead is one of the dangerous lands," said Primal Chaos City Leader, pointing to a point far ahead. "'Vibrating Sand River.' Although its danger level is much lower than the three most dangerous lands, if caught trespassing, you would still face the danger of annihilation. Even for me, I must pay extra caution when exploring that land. If we were so arrogant as to teleport anywhere we wish within the Vibrating Sand River, I'm afraid we would be in danger of being annihilated."

Luo Feng nodded. On the Universe Ocean map given to him previously, there were many descriptions of the various dangerous lands, and Vibrating Sand River was considered an average one.

“Within Universe Ocean, we humans must know the dangerous lands,” said Primal Chaos City Leader. “The total consists of more than 3,000 places, and with the passing of time, the numbers are gradually increasing.” He laughed and continued, “Universe Ocean is truly too big! Only places like the two holy grounds would know more about these dangerous lands, but they are not willing to share the information with us.”

In a blink of the eye, it was already Luo Feng’s eighth day in the Universe Ocean.

Primal Chaos City Leader brought Luo Feng on another teleportation before they finally stopped.

“Very soon, we will be able to see one of the three most dangerous lands, ‘Tilted Peak Sector.’ The other dangerous lands were nothing compared to Tilted Peak Sector.”

Luo Feng and Primal Chaos City Leader stood in the void space, side-by-side, and gazed into the distance.

Luo Feng squinted. “Wow...”

In the distance was a lofty mountain. One of the peaks had fallen off to mid-mountain level, as though some great existence with limitless power had sliced through the mountain horizontally, causing the peak to fall off midway down the mountain.

Hua! Hua! Hua!

From the peak of that slippery main mountain, enormous waterfalls cascaded down, landing midway down the mountain. The water flow spread out to fill its surroundings, submerging a small part of the fallen mountain peak. At the same time, countless small rocks rotated around that mountain peak in continuous flight.

“That is Tilted Peak Sector,” explained Primal Chaos City Leader. “It is named ‘Tilted Peak’ because the mountain’s peak fell in this tilted manner. Look at those small rocks.” He pointed to the countless rocks continuously flying in a winding manner around the mountain and said with a laugh, “We are currently 100 million light years away. They seem like small rocks from here. If you were to guess, how big do you think they are?”

Luo Feng was stunned. The Universe Ocean Map that was given to him was considered very detailed in its descriptions of Tilted Peak Sector; for instance, Tilted Peak Sector’s main mountain stood at a height of 98.02 million light years, and the fallen peak had a maximum diameter of 12.26 million light years. The external domain made up the outside area of the mountain. Its danger level was lower, but some dangerous spots in the external domain would still be enough to annihilate certain universe masters who were weaker in the ability to save themselves.

The internal domain made up the inside area of the mountain. The danger level here was very high; even the strongest universe masters might be annihilated. Meanwhile, at the core of the mountain... even universe supreme beings might be annihilated!

“The rocks...?” Luo Feng muttered under his breath. “The map did not provide any descriptions of the sizes of those rocks, whether they are big or small. But if the main mountain is tall as 98.02 million light years, then, going by proportion, we could estimate the sizes of those rocks.”

Luo Feng tried to visualize how big the rocks were by estimation.

“I suppose the size would be measured in terms of light years,” he said, again shocked by what he just learned.

Within the primal universe, a mountain as tall as 100 million light years was an impossible sight. For a single rock to take a size that had to be calculated in light years... Only Universe Ocean, where the primal universe had emerged from, could make this possible.

Primal Chaos City Leader laughed. “Let’s go. We are still very far from it; we still need to teleport for quite some time.”

A while later, Luo Feng and Primal Chaos City Leader made it to the external area of Tilted Peak Sector.

Hua! Hua!

Numerous gigantic boulders flew about at high speeds. Previously, while they had observed the scene from 100 million light years away, these had appeared to be small rocks. Now, looking at them close-up, they were so big that they were practically immeasurable, and all of them were maintaining a speed of flight that was several times the speed of light. (The ultimate speed of light in Universe Ocean was not the same as the speed of light in the primal universe).

“Look,” said Primal Chaos City Leader. “That is one of the great beings from the Jiu race, one of the pinnacle races from the first universe era.”

Primal Chaos City Leader pointed to a beast in the distance. It took the look of a flying beast with gigantic wings covered with scales and a blood-red body. It was looking in their direction.

“Primal Chaos City Leader!” it said.

The flying beast’s single eye flashed a look of fear, then it teleported away as soon as it could.

“The Jiu race...” said Luo Feng.

He recalled that the races that had been born two universe reincarnation eras before the final ruination would exhibit differences from the Jiu race in the current primal universe upon undergoing changes. The Jiu race had been born within the current primal universe, but the entire race had since been exterminated. However, during the first universe reincarnation era, it had actually developed into a pinnacle race!

Shua! Shua! Shua!

They teleported repeatedly, and another long moment passed. Passing by celestial rocks that were flying at a speed which was a few times faster than the speed of light, they finally landed on a celestial rock with a diameter of approximately 8.2 light years.

“The external domain of Tilted Peak Sector has countless celestial rocks, and these rocks are constantly flying at an extremely high speed,” Primal Chaos City Leader said. He stood on the surface of the celestial rock and looked around at the surrounding void space. “However, standing on this celestial rock, you will realize that... all the other rocks appear relatively static.”

Luo Feng nodded. Yes. The rocks that were near the main mountain peak were flying slowly, while the ones farthest away flew the fastest. This was how the relative distance between the countless rocks was kept at an eternal constant.

“Huge Axe Creator is currently here in Tilted Peak Sector.” Primal Chaos City Leader laughed and continued, “So, the great beings of our human race in Universe Ocean are mainly gathered here in Tilted Peak Sector.”

Understanding dawned upon Luo Feng. “No wonder Huge Axe Creator was not aware of what happened earlier in the Yuan Ao Secret Region. He was right here.”

“This celestial rock will be the temporary gathering point for our human race,” Primal Chaos City Leader explained. “Of course, universe masters of other races from the Hong Alliance will be gathering here, too. Follow me.”

He led Luo Feng away via short-distance teleportation.

Shua!

They reached another spot that was three light years away from the celestial rock. On the surface of the celestial rock, any of those indentations could easily be as deep as a million miles or even more.

Amidst this valley was a temple. Outside the temple, two figures were engaged in casual conversation. When they saw Luo Feng and Primal Chaos City Leader arriving all of a sudden, they rushed to greet him.

“Primal Chaos City Leader,” said one.

“Primal Chaos City Leader, you have arrived,” said the other. “Have you brought Luo Feng?”

The moment Luo Feng landed within the valley, he could sense a total of five universe masters inside and outside the temple. They were all universe masters whom Luo Feng had seen before via the virtual universe, and they exuded auras that were the same as the simulated ones in the virtual universe, which was why he was able to determine their identities clearly. Out of these five universe masters, three were from the human race, and two were members of the Hong Alliance and were from non-human races.

“Primal Chaos City Leader.”

“Primal Chaos City Leader.”

Three figures stepped out from the palace to welcome them, clearly appearing because Primal Chaos City Leader was a figure of an extremely high position.

“Milky Way Horde Leader, welcome to Tilted Peak Sector.”

Friendly laughter resounded. This was someone Luo Feng was familiar with: Remote Lord Master.

**Chapter 1162: Pu Ti's Ambition**

In the godly palace, seven universe masters sat around the round table.

“We all come from Tilted Peak Sector to see you, knowing you were here.”

Remote Lord Master smiled. Both of them were of the bloodline of Teacher Origin. One was a disciple of Darkness Master, and the other was a disciple of Primal Chaos City Leader, so they were naturally close.

Luo Feng looked around. “Peng Gong Master, Absolute Darkness Master, Firestone Master, Roach Prison Master... Thanks for welcoming me here.”

“This is the first time you entered Universe Ocean. We surely need to welcome you here.” Peng Gong Master stroked his beard and smiled. “Some universe masters entered the water area or internal area of Tilted Peak Sector. It’ll take them at least 100 years—sometimes even an era—to fly out, as they need to dodge the dangerous places, which is why they’re not here.”

Luo Feng nodded. The more dangerous the place was, the more cautious he needed to be when teleporting.

“It’s the first time Luo Feng has entered Universe Ocean, so, according to the tradition...” Primal Chaos City Leader waved his hands, and wine cups showed up in front of all the universe masters. There was already wine in them. Primal Chaos City Leader smiled and said to his disciple, “Milky Way Horde Leader, we wish for you to have endless true treasures and eternal life!”

The other five universe masters followed: “Endless true treasures, eternal life.”

Luo Feng nodded. “Endless true treasures and eternal life.”

He knew about this tradition as well. After all, it would be a real adventure in Universe Ocean. Even universe masters with multiple bodies could die! Even universe supreme masters could be killed! Nobody could say for sure that they could survive! They could only avoid those places that were too dangerous.

Without a doubt, it was an adventure in Universe Ocean! And they were all there for valuables.

“Milky Way Horde Leader, although we wish you endless true treasures and eternal life, I have some warnings to give you,” said Firestone Master.

Luo Feng raised his eyebrow and smiled. “Please go on, Firestone Master.” He’d heard that Firestone Master was stubborn and straightforward.

Firestone Master’s voice resounded in the palace. “Your power is enough to see the outer area of Tilted Peak Sector with other universe masters. However, it’s not enough to adventure alone and get true treasures. The universe supreme masters from the first universe era are all maniacs. If you meet one of them, you might die! Of course, you have multiple bodies, but the true treasures with your human body might be gone. I think your true treasures are highly valuable.”

Luo Feng shook his head. It was indeed true that this Firestone Master was forthright. He knew he was not strong enough, but it was unnecessary to be so frank.

“That’s right,” said Remote Lord Master. “The great beings from the first universe era are mad. They might haunt you to death.”

“We can’t really blame them,” said Absolute Darkness Master. “There were generations of incarnations in the universe. Even if they can survive the big bang of the original universe, a great being can live, at most, for three incarnations. When the time has come, all the great beings of the first universe era will die, including universe supreme masters.”

“That’s right, three eras at most.”

“Just look at those broken miniature universes, and you’ll know how many universe supreme masters have died. Almost nobody can live for more than three incarnations.”

“Except the two sanctuaries.”

“Those are only two universes.”

Luo Feng nodded. There were indeed lots of mysteries in Universe Ocean. Why three incarnations only? And why were the two sanctuaries the exceptions?

How large was Universe Ocean? How many small universes were there in Universe Ocean? How many dangerous places were there? How many Lands of Extremis were there? Were there only three Lands of Extremis? Could there be a fourth Land of Extremis aside from the Tilted Peak Sector, Flowing Countless Mountains, and Universe Boat?

“The first universe era faces extinction,” said Primal Chaos City Leader. “So they train themselves with madness. Without a doubt, you can only break the circle if you get stronger! After all, the two sanctuaries succeeded, so nobody wants to give up. Luo Feng, you need to watch out for the great beings of the first universe era.”

“Yes, teacher.” Luo Feng nodded.

“Not only those from the first universe era,” said Firestone Master. “You need to mark down all those top-tier universe masters. You need to avoid them, and the two sanctuaries. You need to avoid everyone from the two sanctuaries. You’re nothing compared to them.”

Luo Feng frowned.

“I know you’re upset now, but this is for us of the Hong Alliance,” said Firestone Master. “If you run into danger, report it to the virtual universe, and the virtual universe system will tell all the great beings in the Hong Alliance. Great beings closest to you will get there as soon as possible.”

“I understand.” Luo Feng nodded his head without saying anything further.

He was indeed a bit displeased, but he didn’t defend himself against anything. He wanted to prove himself with his accomplishments.

\*\*\*\*\*

Soon, Remote Lord Master, Peng Gong Master, Absolute Darkness Master, Firestone Master, and Roach Prison Master left the palace and started to adventure through Tilted Peak Sector.

Roach Prison Master and Firestone Master were talking in the space of the outer area of Tilted Peak Sector.

“Firestone, why were you so mean just now? Luo Feng isn’t that weak.”

“Why? Why do I have to be less mean? Just because of Primal Chaos City Leader? Besides, I wasn’t wrong.” Firestone Master’s nose exhaled fire. “Luo Feng fought Master of Banff before. Master of Banff is good at illusions and bad at material attack, and he doesn’t even have a supreme technique. How did Luo Feng do? He was suppressed, and he could barely rival Master of Banff with that miniature universe.”

“That miniature universe killed all those universe knights with one shot,” Roach Prison Master said.

“Humph! He can only kill the weaker ones,” said Firestone Master. “A miniature universe is like a domain type true treasure. It can only kill the weak, but what about the strong? It can only aid, and that kind of supreme technique requires a lot of energy. It consumes godly power, and it can only add some power. Even so, he only has material attack skills equivalent to Master of Banff. Without that miniature universe, anyone can crush him.”

Firestone Master was breathing fire again as he continued, “Humph! I was being too nice. He is one of the weakest. Those ancient guys from the first universe era are all mad, and everyone from the two sanctuaries can crush him. Was I wrong? If he dies, the true treasures will be seized. How long has he practiced? The true treasures might be bestowed by the human race. We have to make great efforts to get a good universe master, yet he has so many after just becoming a universe master. Just wait and see. He’ll be crushed.”

“Yes, he is indeed weak.” Roach Prison Master lowered his giant head.

“Humph!” said Firestone Master. “He’s human, so his teacher Primal Chaos City Leader will go rescue him every time he’s in danger. Without his teacher, he’ll definitely be killed in Tilted Peak Sector.”

\*\*\*\*\*

Only Luo Feng and Primal Chaos City Leader were left in the palace.

“Luo Feng, I’ll go adventure, as well,” said Primal Chaos City Leader. “Contact me through the virtual universe.”

“Yes, teacher.” Luo Feng nodded.

“Okay.” Primal Chaos City Leader glanced at Luo Feng, smiled, and disappeared.

Luo Feng looked back to the godly palace. He was the only one here now. It seemed that great beings in Universe Ocean were indeed sharpening themselves.

“I need to study the information on Tilted Peak Sector and great beings.”

On a rock outside the godly palace, Luo Feng closed his eyes with his legs crossed and started to organize the information and highlight the important parts.

\*\*\*\*\*

Hua!

The rocks were flying at a speed several times the speed of light, but Luo Feng looked tranquil. He didn't rush to adventure the outer area of Tilted Peak Sector.

"Huh?" Luo Feng took a token out. "Teacher Sitting Mountain Guest is contacting me? No wonder it's a true treasure communications token. I can make contact even in Universe Ocean." Luo Feng penetrated the token with a trace of his mind.

"Luo Feng, are you in Universe Ocean?" Sitting Mountain Guest passed on a piece of information.

"Yes," answered Luo Feng.

"Which Lands of Extremis?" asked Sitting Mountain Guest.

"Tilted Peak Sector. How do you know I am in one of the Lands of Extremis?"

"Because they have the most true treasures. Where else would you go? Some remote and dangerous places with few valuables? The human race is not stupid. Okay, if you run into danger, you can call for help, but I hope you won't do so."

"I understand," answered Luo Feng.

\*\*\*\*\*

Universe Ocean, deep in the chaos airflow, in a dangerous place known as "Bei Hua Xue Lan Domain."

A palace was floating. There were servants in the palaces; all of them were universe knights. This was where Sitting Mountain Guest really lived, and Bei Hua Xue Lan Domain represented him.

There were almost 100 powers in Universe Ocean, but no power wanted to mess with Sitting Mountain Guest. Everyone knew he was a handful.

Inside the palace, a towering elder sat on the throne, and a human with a snake's tail and a human body was serving him.

"Haha, Pu Ti, your little brother entered Universe Ocean as well," Sitting Mountain Guest's voice rumbled.

"Congratulations, teacher," said Pu Ti.

"It's too early to congratulate me now. He's not powerful enough." Sitting Mountain Guest looked down at Pu Ti. "Pu Ti, you've been following me the longest, so you know me the best. Your second brother disappoints me, so I have almost given up on him now. You're the most hard-working one, but I know that Luo Feng has the greatest potential, followed by your second brother. You have the least potential, but now, you're the strongest."

Pu Ti bowed. "I've been practicing for the longest time, and I've been by your side. I've seen a lot, so I comprehended more."

He was low-key and never showed off. Even Flame Emperor looked down on Pu Ti, as he only viewed him as a servant. He didn't know that Pu Ti had surpassed him.

“I’ll give you a chance. The same chance your second and third brother have. Go to Universe Ocean.” Sitting Mountain Guest looked at Pu Ti and took out a piece of blue wood. “I can’t give you the true treasure that suits you best, so I’ll give you this strange object. Godly wood... I’ve had it for an eternity, but I just view it as a collectible. You should be able to wield its power.”

Pu Ti’s godly body trembled. The same chance his second and third brother had? He’d been waiting for this for so long.

“Yes, teacher, I’ll try my best not to disappoint you.” Pu Ti bowed, but his voice was filled with faith.

Sitting Mountain Guest nodded. “Go.”

Pu Ti bowed again before leaving the palace.

Sitting Mountain Guest looked through the palace door ward Tilted Peak Sector in the distance, and he said slowly, “I’ve been waiting for too long...”

### **Chapter 1163: Calling for Help**

On the surface of the celestial rock was a soul that looked as big as a speck of dust—standing at a height of thousands of kilometers was the human form of Luo Feng.

“Tilted Peak Sector!”

Luo Feng stood on the celestial rock and looked around the vast void space that surrounded him. From afar, he could see the lofty and boundless main mountain with a gigantic waterfall cascading from its peak. It exuded endless power without restraint; this power attracted countless celestial rocks to circulate it while in flight, and it also forced a great amount of chaotic airflow to break apart.

“From today onward, I, Luo Feng, shall start to roam Universe Ocean.”

Radiant rays surged in Luo Feng’s eyes, making them sparkle like crystals.

Shua!

He disappeared from the celestial rock right away and reappeared amidst the faraway void space. Thereafter, he repeatedly teleported himself and charged down toward the boundless water domain that took form upon repeated impact by the cascading waterfall.

Tilted Peak Sector’s external domain could be divided into space domain and water domain. Space domain referred to the void space where many gigantic celestial rocks flew about randomly. The danger level here was extremely low, as only some celestial rocks would occasionally pose a degree of danger. The majority of these countless celestial rocks had already been explored over a long period of time. That was why great beings would more often refer to the external domain of Tilted Peak to the water domain.

The water domain that took form under the impact of the cascading waterfall spread out to encircle the entire main mountain. There were jagged rocks of distorted forms fraught with danger. Many areas would deter even universe masters from teleporting about. Universe masters had to be extremely

careful even when they were flying forward. They would only dare teleport when they were by the area near the edge of the water domain and had carefully inspected with a domain type true treasure to ensure that the coast was clear.

“The most common yet most terrifying danger found within the water domain in the external domain of Tilted Peak Region would be... ‘water flow spirit.’”

Luo Feng stood high up in the sky and overlooked the vast water domain beneath him. The water domain was massive, with a diameter of a couple hundred million light years. It was even bigger than an entire human universe kingdom! And bigger than the Ancestral God secret region!

“Water flow spirits have no intelligence, nor do they bear any consciousness,” Luo Feng said to himself. “They only have basic instincts. They will only attack you if you get close to them... A water flow spirit in this water domain will be able to rely on its surroundings for power, and such power is comparable to that of a universe master.”

Thereafter, he was extremely careful as he directly rushed into the water domain below him, causing splashes of water as he landed.

In Universe Ocean, even undying godly spirits would be annihilated the moment they entered. Yet this endless water domain was able to exist. Clearly, there must have been something extraordinary about this “water;” every drop was like a star, and when waves of this water surged, the impact was extremely frightening. However, universe masters would still be able to block off this impact without difficulty.

“The water domain is fraught with danger but loaded with treasures.” Luo Feng was also aware that the treasures within the water domain existed in various forms. To obtain a treasure, one needed luck, power, and guts.

\*\*\*\*\*

When Luo Feng entered the water domain, the depths of the vast and limitless water domain was around 100 million light years. With such a large quantity of undulating rocks, and the water pressure reaching such a frighteningly suppressive degree, even a universe knight could have turned to powder in an instant.

Hong! Long! Long! Long!

One celestial stone slowly rose from beneath, causing the surrounding stones to start vibrating as it continued its gradual emergence... Slowly, it continued.

The entire process took quite a while before coming to a halt. The celestial stone was already jutting out at an approximate height of close to a million kilometers. Then peace resumed.

Being 100 million light years away, Luo Feng did not detect anything amiss. He continued to explore the water domain with extreme care, and he was only at the shallowest region of the water domain.

\*\*\*\*\*

Three million light years away from Luo Feng.

Firestone Master, with his towering godly body vaguely encircled by flames, flew slowly within the water domain. As a matter of course, he had parted ways with Roach Prison Master. After all, while roaming the Universe Ocean, the chances of finding treasures would be higher if one was traveling alone.

“Humph! Humanity sent Luo Feng into Universe Ocean, probably for him to hone his skills and steel himself. They want to cultivate his ability well. We, the non-human races from the Hong Alliance, did not have such opportunities.” Firestone Master was filled with bitterness. “He was able to gain so many true treasures without having to take any risks. It was said that, at the sector lord level, he already owned a few true treasures. We shall see. See how much trouble this fellow can create. I think it won’t take him long to start calling various parties for help.”

Firestone Master was filled with disdain. Such occurrences of great beings seeking help were not unprecedented. Way back when the demons of the primal universe wanted to cultivate and train Chang Vulture Master, who was an extraordinary genius with staggering powers and extremely high potential, they sent him into Universe Ocean to enable him to hone his skills. They bestowed him with some formidable true treasures for self-protection. When he met with dangers that he could not ward off or resist, other great beings from the demon race would send help immediately.

After a long period of training and cultivation, Chang Vulture Master eventually became a universe master known to be the cream of the crop and a most frightening figure! He was high in the ranks, only second to Dream Demon Ancestor and Shock Demon Ancestor. Apparently, Dream Demon Ancestor and Shock Demon Ancestor were incredibly sharp in identifying Chang Vulture Master’s potential.

But... this did not conceal the fact that Chang Vulture Master had sent out calls for help on several occasions, and those calls for help had created quite a commotion among the entire demon alliance.

“Luo Feng has great potential. Definitely an extraordinary genius with astounding power but obviously still at the bottom of the ranks. If he were to run into the older universe masters, he would be at a great disadvantage and would probably have to send out calls for help.” Firestone Master shook his head.

“Make a scene, just go ahead and make a scene. There is only one thing that I don’t know. Will he be able to reach the level of Chang Vulture Master of the demon race in the future?”

Although he was displeased, Firestone Master knew that the moment Luo Feng asked for help, if he was nearby, he would immediately dash over to wherever Luo Feng was to render help.

“If he asks for help and I provide him with help, I’ll be able to give him a piece of my mind,” Firestone Master said to himself.

He knew that this would make Luo Feng unhappy, but he was a universe master who had undergone an immeasurable period of cultivation. Why should he allow himself to be bound by any rules—or anything else at all? If he wanted to laugh, he would; if he felt like scolding, he should; he was die-hard stubborn. So what?

I am unhappy with you, he thought. I would curse at you. I simply cannot find anything pleasing about you, Luo Feng. So what can you do?

Firestone Master was in the depth of the water domain, careful to avoid the water flow spirits in the distance. The water flow spirits were all white. At times, they took the form of white airflows. Other

times, they took the form of humans, and other times, they were in the form of beasts. They were always in different strange forms as they drifted about the water domain.

This area was already considered quite deep and extremely dangerous. The speed of flight was way much slower. And teleporting? It was impossible to teleport at all! After all, once a water flow spirit attached itself to any being, the results were scary to imagine.

“Huh?” A sudden realization gave Firestone Master a good shock, “A sealed space?”

The space waves within the surroundings of the water domain ceased in a split-second. Firestone Master knew there was trouble looming. He looked around carefully and saw a spot of light in the distance.

The spot of light laughed. Its laughter was transmitted via the water domain, and almost within an instant, it reached Firestone Master.

“Hahaha, Firestone Master from the human alliance of the primal universe?”

That spot of light... It was a life form taking the form of a human. His entire body gave off a hazy, white light, and at the back of his head, there was a circular white light. Amidst the white light, was a vague form of a gigantic, single-eyed shadow.

“Divine Eye race!” Firestone Master immediately transformed into a beam of light and fled.

The Divine Eye race was one of the pinnacle races from the first universe era and was said to be the strongest pinnacle race during that era, with a total of seven universe supreme beings within the race! The Divine Eye race was a very secretive and scary race. They could have emerged in the first universe reincarnation era possibly due to certain unique accidents that happened during the evolution of the primal universe, and they possessed astounding power.

“You think you can escape us?” he great being from the Divine Eye race said.

Hong! Long!

Countless grains of sand appeared out of nowhere, and these countless grains filled the surrounding area with a radius of three light years within an instant. The surrounding space was earlier sealed, but even if it had not been sealed, no one would have dared to teleport through it without inhibitions. After all, this area was a dangerous land located deep within.

A radius of three light years... How could Firestone Master possibly fly out of it within a short time?

“Ice Sand Ocean!” Firestone Master gritted his teeth and looked back at that human form life-being dazzling with white light. With a furious hum, he spurted flames out of his nostrils. “An Yong Master, I have not gained any incredible true treasure. And I escaped the moment I saw you. Must you chase after me so relentlessly?”

“Life is limited,” the human form dazzling with white light slowly articulated. “Eternity is hard to find. Through endless killings, I seek the path to eternity. This is my only path now. Firestone Master... meet your doom.”

Hua!

Enshrouded in white light, with circular white rays at the back of his head, the single-eyed shadow of An Yong Master approached at an extremely high speed and charged towards Firestone Master at full force.

“Damn,” said Firestone Master, then he roared in rage, “Want to kill me? In your dreams!”

Yet he continued fleeing at full throttle, trying his very best to stall for time... At the same time, in the primal universe, his other body was speedily calling for help within the virtual universe.

“Previously, I was still commenting about Luo Feng’s pleas for help. Who would have thought that, in the blink of an eye, I would become the one asking for help? This lunatic from the first universe era, he truly is insane! How unlucky I am, to have bumped into An Yong Master.”

Firestone Master was filled with anxiety. He knew that he was facing true danger now.

“I only have a hope of surviving if either Primal Chaos City Leader or Peng Gong Master rushes over now.”

Firestone Master was also aware that those who were able to make it over to him within the shortest time possible were those few he had met up with earlier at the gathering point: Remote Lord Master, Roach Prison Master, and Absolute Darkness Master. But they were not powerful enough, and Luo Feng was not even worth a mention...

Only Primal Chaos City Leader and Peng Gong Master could save him. But those two were so powerful that they would most probably be at the internal domain of Tilted Peak Sector, and if they were really at the internal domain, then rushing over here would take a long time.

\*\*\*\*\*

The call for help was sent, and the virtual universe system transferred the call to the universe masters of the human alliance who were within Universe Ocean at that very moment right away.

Within the deep mountain region of Tilted Peak Sector’s main mountain.

“Firestone Master is calling for help? An Yong Master of the Divine Eye race from the first universe era is hunting him down?”

Hong! Long! Long!

Flames shot up into the sky. Every flame exerted an impact that was strong enough to annihilate a universe master. A barbaric giant whose every step was elusive like that of a phantom, flashed past the erratic outburst of flames.

“I am too deep inside. Even rushing back will take a long time. I won’t be able to make it on time.”

“Firestone, you have to depend on your luck.”

\*\*\*\*\*

“An Yong Master?”

At that moment, Roach Prison Master was considered the nearest to Firestone Master; it was somewhere within the water domain, more than one million light years away from Firestone Master. On its gigantic head, its eyes blinked.

“Big trouble. I’m afraid my presence will not make much of a difference, but I will try my best and see if I can be of any help.”

Hua!

Roach Prison Master sped up and charged into the sky. With a single teleportation, he was in the upper skies of the water domain. Thereafter, he repeatedly teleported through the void space to get to his intended destination in the fastest time possible.

\*\*\*\*\*

Luo Feng also received the call for help.

“Huh? A call for help? Firestone Master is calling out for help? The address indicates that the place is only slightly more than three million light years away from me.”

Luo Feng did feel some resentment toward Firestone Master, but they both were, after all, fellow members of the human alliance.

“An Yong Master... is not one to be trifled with.”

Shua!

Luo Feng teleported out of the water domain right away and thereafter teleported repeatedly and speedily, rushing toward his destination.

#### **Chapter 1164: An Yong Master and Luo Feng**

Two towering beings fought each other in the water area of Tilted Peak Sector. An Yong Master held a golden scepter, sometimes using it as a long staff, sometimes as a hammer. Constantly, he performed a supreme technique. Besides, An Yong Master didn’t defend himself against Firestone Master at all!

“Maniac...! The beings from the first universe era are all maniacs, and An Yong Master is a maniac even compared to those other maniacs.”

“Aaah!” Firestone Master roared.

He tried to stay away to buy some more time. However, in Ice Sand Ocean, he was significantly slower, and he was at an absolute disadvantage, which was why he was caught up to by An Yong Master time and time again.

“Firestone from the human alliance, die and become a sacrifice on the path of my eternity,” said An Yong Master.

He had a gentle voice, but that scepter was piercing the universe space.

Hong! Long! Long!

The golden scepter had an oval head, and the head of the oval was like a gourd.

Si! La!

The scepter avoided the shuttle from Firestone Master, and the head hit the chest of Firestone Master. Without a true treasure weapon to resist it, the power of An Yong Master hit the chest of Firestone Master.

Crash!

The armor trembled, and his chest trembled as well. His godly body cracked, and he bounced away. Just when he bounced away, his shuttle hit An Yong Master as well.

Peng!

There was a deep sound. An Yong Master's godly body was weakened after getting hit, but it quickly recovered. He only paused for a second before charging again.

Firestone Master was indignant. "Maniac! He is insane! Why did I have to run into him? I would have at least been better off if I'd run into others."

Actually, he was a pinnacle universe master like Flame Emperor. An Yong had better true treasures and a stronger godly body, so he was one level superior to Firestone Master.

Firestone Master was at pinnacle level while An Yong Master was at the top-tier level, rivaling Ice Mountain Master. Firestone Master's life should've been in danger, as he was only one level inferior. However, An Yong Master was trading his own injuries for his enemy's injuries and was utilizing his speed and consuming his godly body. Even those at his level would be in trouble, not to mention Firestone Master, who was one level beneath him.

When Luo Feng was fighting Star River Master, Star River's supreme technique "River in Darkness" had been first resisted by Star Tower, but Luo Feng's godly body was still consumed. If it weren't for Star Tower, Luo Feng might have been annihilated with one move.

Injuries for injuries... It wasn't easy to implement. If Firestone Master had been as powerful as Huge Axe Creator and able to resist the scepter, An Yong Master wouldn't have been able to implement that move. However, An Yong Master was better at techniques, and he used several supreme techniques interchangeably. Sometimes, he used it as a hammer, sometimes a staff, and sometimes as a bayonet... Each move had terrific power, and Firestone Master wasn't able to resist most of them.

To trade injuries for injuries, one needed to have enough confidence in his godly body. After all, he was hurting himself while hurting others, if he didn't have a strong enough godly body, he would die before killing his enemy.

A voice was transmitted through the water area. "Firestone, I don't dare to venture into Ice Sand Ocean, so I can't help you. You're on your own now."

"Roach Prison Master?"

Firestone Master felt happy first, but then was let down. It was useless. Roach Prison Master was at his level. That Ice Sand Ocean covered an area of several square light years, and it would take him a long time to fly here. Besides, even if he made it, Roach Prison Master wasn't strong enough.

"Nobody can save you," said An Yong Master, holding his scepter. "You only have 50 percent of your godly body left, and I can kill you within ten moves."

"Damn it... You just have your armor and body!" Firestone Master roared.

He ran away when he saw An Yong Master, as he knew how An Yong Master fought. An Yong Master's armor was a top-tier pinnacle true treasure armor, and it was able to weaken the attack to 1/100,000th.

The godly body of An Yong Master had a life gene level of almost 10,000 times! He had a plant body, and it had a godly body several million kilometers tall. Even if he were trading injuries for injuries, he could implement it smoothly with that huge body constantly supplying power.

"My godly body is also a special life form, and it's 100,000 kilometers tall. Under my weapon, it might take him a long time to kill me. But he's trading injuries for injuries; it consumes my godly body hundreds of times faster."

Firestone Master was still hit no matter how hard he tried.

Hong! Long!

His godly body was being weakened. 42 percent... 37 percent... 31 percent...

An Yong Master smiled. "Die."

"No! No!" said Firestone Master.

He had tried everything to dodge the attacks or to use his weapon to resist them, but it was no use! An Yong Master used his techniques alternatively, and Firestone Master couldn't defend himself against them at all.

\*\*\*\*\*

Roach Prison Master was at the shallow water area. He looked at the endless Ice Sand Ocean and sighed.

"Firestone, only Peng Gong Master and Primal Chaos City Leader can get there to save you. Otherwise, nobody can help you now."

Hong!

A being showed up.

"Roach Prison Master," said a familiar voice.

Roach Prison Master turned his giant head and he a black-haired human in silver armor.

"Luo Feng?" Roach Prison Master was disappointed. He transmitted his voice: "Luo Feng, Firestone Master is being hunted by An Yong Master, and only Peng Gong Master and Primal Chaos City Leader

can save him. We can't do anything about it. Don't go in. You'll be in danger if you enter that Ice Sand Ocean."

"Perhaps I can't defeat An Yong Master," said the black-haired human, "but I'm not afraid of him, either."

"Huh?" Roach Prison Master was dazed.

And then, a dimming golden light appeared in the water area. At the same time...

Hong! Long! Long!

Golden flames extended and crushed Ice Sand Ocean with the help of Golden Country.

Shi Wu Wings and Fire Sand Cup... A combination of the two!

\*\*\*\*\*

Helpless! Firestone Master felt helpless. He only had 20 percent of his godly body left, so he couldn't even resist anymore.

An Yong Master smiled and moved forward. "Die!"

But suddenly, An Yong Master grew angry. "Who—?" he roared.

Hong! Long!

Ice Mountain Ocean, which had trapped and slowed down Firestone Master, was dismantled. The water became an ocean of flames. The sight thrilled Firestone Master. Suddenly, he heard a voice.

"Still not going, Firestone Master?"

"This voice..." Firestone Master was dazed.

Wasn't that Luo Feng?

"Quick! Go!" Luo Feng urged.

Sou!

Firestone Master ran away. He felt unhindered. While in Ice Sand Ocean, he felt like he was trapped in the swamp. However, he didn't feel any resistance in the golden flames; instead, the flames were boosting him and making him faster.

It was the opposite for An Yong Master. He immediately slowed down.

"Who is it?" An Yong Master roared. "This is the Flame Sand Cup of Yuan Ao Master! And that golden light domain can control the space and time! Who are you?"

He had a stronger godly power than Luo Feng, but he was at a disadvantage. True treasures and techniques had different requirements for godly power.

True treasures and techniques had thresholds and limits. When it came to "Miniature Universe," becoming undying was the basic requirement, and it would take 10 percent of the godly body. However,

when Luo Feng got stronger, he would hit the limit. If Luo Feng became a universe master and improved his godly body 100 times, Miniature Universe wouldn't take 10 percent of his godly body, because when universe masters performed supreme techniques, it only took them a limited amount of godly power.

Ultimate techniques were also different from supreme techniques. The same rule applied to true treasures. The user needed to be strong enough to drive it.

The more powerful one got, the more powerful true treasures he was able to wield. However, there was a limit to true treasures, which was why ordinary true treasures were abandoned by universe masters. They craved pinnacle true treasures and even supreme true treasures.

Top-tier true treasures, pinnacle true treasures, and supreme true treasures...

"I won't let you run away if I have a pinnacle domain type true treasure," said An Yong Master. He was exasperated and rescinded the space seal.

Hua!

Firestone Master was thrilled. He teleported himself to the shallow water.

"I see how it is," said An Yong Master.

He sensed that Firestone Master was only several light years away... He teleported himself there as well.

\*\*\*\*\*

Luo Feng and Roach Prison Master were both in the water area when Firestone Master showed up.

Firestone Master felt awkward. "Luo..." he said.

Luo Feng's facial expression changed. "Wait."

A being appeared near them,—a being with a scepter. There were halos behind his head, and a single-eyed phantom was in the halo. It was An Yong Master!

An Yong Master's eye glinted with anger. He glared at Luo Feng.

"Human, I've never seen you!" An Yong Master said furiously.

Luo Feng glanced at An Yong Master. "Now you do."

Shua!

Luo Feng and the two universe masters teleported themselves, and they got out of the water area and fled away.

"Human! Silver-armored and black-haired human!" An Yong Master shouted with madness and indignation.

## **Chapter 1165: Divine Eye Clan**

An Yong Master stood in the shallow water. His solitary eye looked ferocious.

“That silver-armored and black-haired human! He came here to rescue Firestone Master, and he’s with Roach Prison Master. He must be a human from the original universe.”

An Yong Master was thinking. The human race was bred in all the three universe eras, and humanity was a pinnacle race in both the first and the third universe eras. Only in the second era were the humans relatively weak, as only one universe supreme master had been born.

In the original universe, any race with one universe supreme master could be called a pinnacle race. However, for the first and second universe eras that went through the complete incarnations, they had quite a few universe supreme masters. The human race of the second universe era was as powerful as the one in the original universe, yet it wasn’t a pinnacle race.

I haven’t seen him. And he’s not in the database of Divine Eye race, An Yong Master thought. He must be a new great being, and he’s using the Flame Sand Cup of Yuan Ao Master. I saw Yuan Ao Master use that last time. Apparently, he got it recently. Did Yuan Ao Master die? Otherwise, the Flame Sand Cup wouldn’t have fallen into the hands of that human.

An Yong Master was baffled.

\*\*\*\*\*

The Divine Eye clan had seven universe supreme masters, so it had seven miniature universes. In one of the miniature universes...

“Seventh True Master.”

An Yong Master’s avatar walked out of the gleaming and half-transparent palace and looked up at the sky. “Was a new universe supreme master born in the human race of the original universe? I was trying to kill that Firestone Master, but I was stopped by a silver-armored and black-haired man. I want his information.”

A voice came from the sky. “Stopped? Is he stronger than you?”

“No, he’s far weaker than me.” An Yong Master raised his head. “However, he has the Flame Sand Cup and a special valuable to control space and time, so he suppressed my Ice Sand Ocean. Besides, he, Roach Prison Master, and Firestone Master were all there. I can’t defeat them all.”

An Yong had teleported himself and found Luo Feng and the other two. If he had been confident enough, he would have performed space seal and fought them. However, he knew that his enemy had a domain to suppress him, and there were three of them, so he watched Luo Feng leave.

“Wait a moment, and I’ll make contact and ask about it,” said the voice from the sky.

“Please, Seventh True Master.” An Yong Master bowed.

After a short while...

Actually, there were had been trades among the powers in Universe Ocean. Some related to valuables, while some had to do with information sharing. As long as there were benefits, there would be trades. The Divine Eye clan was a superpower from the first universe era, so there were many powers who wanted to fawn over the Divine Eye race.

“I’ve got the result,” said the voice from the sky.

An Yong Master immediately raised his head.

“Silver armor and black hair,” the voice continued. “You haven’t met him, but he’s a new universe master of the human race. Milky Way Horde Leader, Luo Feng. He’s just an ordinary master, and he has the same level of material attack as Master of Banff. The only supreme technique he knows is like a miniature chaos world.”

“Oh? A new guy?” An Yong Master smiled. “Master of Banff is proficient in soul attack, but he’s weak at material attack. It seems this guy is weak.”

“There are six levels of universe masters, and he must be at the second level,” said the voice from the sky.

“He seems to have a special true treasure, the human race gives him some precious true treasures to protect him.” An Yong Master smiled. He was only a young guy who was good at fleeing, which meant there was nothing for him to be afraid of. “Only at the second level...”

The first universe era divided universe masters into six levels. The first level was the elementary universe masters with a life gene level of 100 times, and they didn’t even create ultimate techniques.

The second level had a life gene level of 1,000 times, and they created ultimate techniques and had good true treasures. They were the ordinary level.

The third level was the pinnacle level, like Flame Emperor and Firestone Master.

The fourth level was the top-tier level, like Ice Mountain Master, An Yong Master, and Star River Master who didn’t perform his trump technique.

The fifth level, the top-tier of the top-tier, consisted of those like Star River Master and Primal Chaos City Leader. They usually had merged supreme techniques or had gained strange objects.

The sixth level, which didn’t exist in the original universe, was for those who had supreme true treasures.

“Only at the second level...”

An Yong Master sneered. He was at the fourth level. He had a plant life body at a life gene level of almost 10,000 times, and his armor was able to weaken attacks to 1/100,000th. Even Luo Feng was only able to rival him after becoming a universe master. If he repaid injuries for injuries, even Ice Mountain Master would have needed to avoid him.

“Humph! There are only few pinnacle domain type true treasures,” said An Yong Master. “The Divine Eye Race has almost 100 universe masters. The most powerful universe masters have all the pinnacle domain type true treasures. If I can have one, you, Milky Way Horde Leader, will die!”

An Yong Master looked forward to it. After all, the Divine Eye Race was the most powerful pinnacle race in the first universe era! They had seven universe supreme masters and almost 100 universe masters! They had all lived for an eternity. An Yong Master was only a middle universe master.

“Just wait and see, Milky Way Horde Leader,” said An Yong Master. “This was only our first meeting. We have plenty of time to fight each other.”

\*\*\*\*\*

Three beings stood on the rock in the outer area of Tilted Peak Sector.

“Firestone Master, you don’t need to...” said Luo Feng.

“You’ve saved my life, so I owe you big time,” said Firestone Master. “No need to be humble. If you need anything, just tell me. I’ll be there as soon as I can, no matter what I’m doing.”

Luo Feng couldn’t help laughing. This was Firestone Master. Stubborn! Incredibly stubborn! He would scold you no matter how much you’d accomplished, but once he made a promise, he would fulfill it no matter how high the cost.

“Firestone Master, even you’re not able to deal with the danger?” Luo Feng couldn’t help asking.

He was confused, as he thought that someone who had survived Universe Ocean for such a long time would at least have some survival skills.

“Even if I run into a universe supreme master, I can defend myself against him for a long time, as long as he doesn’t use a supreme true treasure. I’ll use my true treasure weapon to resist it, and it can weaken the power by more than 90 percent, and with my armor, the threat will be very small! Unfortunately, the fighting style of An Yong Master can suppress me exactly. He has a variety of moves, yet I just make attacks directly. And he exchanges injuries for injuries.”

“Actually,” continued Firestone Master, “I have a strong godly body, too. I have a godly body of 100,000 kilometers, so normally, I’m not afraid of that. However, An Yong Master is better than me. He knows several supreme techniques, and he can change his moves at any time. It’s already rare for someone to be capable of that. And there are fewer whom I can’t defend against. On top of that, those with better godly bodies... basically don’t exist. There are only a few of them in Universe Ocean, so I usually avoid them.”

Luo Feng nodded. He was right. Several supreme techniques, change of moves, and a fast and better godly body than Firestone Master... It was indeed rare for someone to possess all three of those.

“I’ve decided after this time,” said Firestone Master. “I’ve lost a great portion of my godly body, so I’ll study defensive technique during this time. I’m a Firestone special life form, so I’m not flexible enough. I need to create a shield technique. If I can have both a shield and a shuttle, I’ll be much safer.”

“You should’ve done so a long time ago,” Roach Prison Master said.

“Yes.” Luo Feng nodded as well.

Different life forms had different ways of fighting. Yuan Ao Master was like that. He had an enormous body and wasn’t flexible enough, so he used a shield. Of course, humans were naturally flexible. Luo Feng was able to resist with a blade.

“I’m too overconfident,” the voice of Firestone Master rumbled. “Luo Feng, I owe you forever. Just ask me anytime you need something. I’ll go back to the original universe first. Next time, I’ll bring a shield.”

“Have a safe trip,” said Luo Feng.

Firestone Master told Roach Prison Master, too, and then they left.

“Although my armor is ten times stronger than that of Firestone Master, his godly power is tens of times better than mine, so he has better defensive power than me. And he has a bigger godly body.”

Luo Feng sighed. The good thing was, he was more flexible, so he could resist An Yong Master. With his Shi Wu Wings and the Flame Sand Cup, he could fight and run whenever he wanted.

“I need to sharpen myself,” said Luo Feng. “My weakness is that my attacking technique is only at the ultimate level. Those such as Firestone Master and Roach Prison Master have created a supreme technique. As for An Yong Master, he has several supreme techniques.”

\*\*\*\*\*

Luo Feng and Roach Prison Master separated, and he kept adventuring through the outer area of Tilted Peak Sector.

Time flew. Luo Feng could sometimes run into the great beings before the incarnation, but with Shi Wu Wings and Flame Sand Cup, he didn’t encounter any real danger. After all, the top-tier universe masters and universe supreme masters were in the inner area of Tilted Peak Sector.

One year. Two years. Three years...

Luo Feng was gradually made known to the great beings from the other two universe eras, and they knew that although Luo Feng had mediocre power, he was a handful.

### **Chapter 1166: Annihilation**

In the twinkling of an eye, it was already Luo Feng’s sixteenth year in Universe Ocean.

Amidst the deep end of Tilted Peak Sector’s water domain.

“I have been here at Tilted Peak Sector for sixteen years, but I have not seen any true treasure around.”

Luo Feng leaned against a mountain rock and looked at the white water flow spirits that were tens of thousands of kilometers away. White streaks fluttered and drifted about—be it white human form or white beast form—the strangely-shaped water flow spirits were attracted to their own kind based on pure instinct. They were playing together within the deep region of the water domain where, occasionally, high-frequency piercing cries could be heard.

The celestial rocks within the water domain were all equally huge. Each and every one of these rocks resembled a towering mountain range, where every sunken area was like a grand canyon, every protruding part was like a gigantic mountain peak, and every gently sloping surface was like a vast plain. At least, that was how it looked to Luo Feng, whose godly body was hovering at least one thousand kilometers away...

“I have encountered more than 100 battles these past sixteen years, and these battles have allowed me to greatly improve in my cultivation of beast god path.”

Luo Feng was quite satisfied. Over 100 times, he had fought hand-to-hand with great beings from the first and second universe eras. The primal universe (third universe era) was very weak, so great beings from its top nine powers and top-tier twelve powers, regardless of being in the primal universe or in the Universe Ocean—unless there were attractions such as treasures—would be highly unlikely to fight and kill one another.

However, during the first universe era and second universe era... Even if there were no true treasures, great beings would fight and kill one another the moment they crossed paths!

During his time in Universe Ocean, Luo Feng had the chance to get in touch with novel styles of combat! Also, the novel ways of making use of universe laws were real eye-openers for him, as he could then comprehend by analogy. This allowed him to improve tremendously when it came to the cultivation of beast god path. It was many times faster than diligently training for it in the primal universe. Even his accomplishments in the study of secret engravings were also improved by leaps and bounds...

“What a pity I am still unable to create a strongest technique,” Luo Feng lamented. “When can I attain the third level of Star Tower is still an unknown with no definite future. Just wait. Roaming Tilted Peak Sector is always as such. The majority of the time, there will be peace, but the moment an opportunity arrives, everyone will go all out to fight for it.”

Luo Feng transformed into a beam of light and took flight quietly, where he began to explore again. The water domain was simply immense.

Countless great beings from the three universe eras had spent endless time exploring the water domain, but no one was able to explore all of it. Now, Luo Feng was also exploring the water domain at his own pace...

\*\*\*\*\*

“Previously when I discovered Firestone Master, I secretly followed him,” said An Yong Master. “When I was near enough, I immediately released a domain type true treasure and sealed space.” An Yong Master, positioned in the void space, shook his head with a sigh. “Firestone Master was such a silly one; just when I managed to exercise some self-restraint and was so close to being able to kill him, this human form Luo Feng from the primal universe had to appear out of nowhere and foil my plan. If I had succeeded in killing Firestone Master, I would have obtained many true treasures, and with those treasures that I already owned... I suppose I would be able to exchange for a pinnacle domain true treasure.”

Again, An Yong Master shook his head and sighed. He was full of resentment. By his side was another great being from the Divine Eye clan. The circular light behind its head also had a single-eyed shadow—this was a characteristic that was unique to great beings of the Divine Eye clan.

“An Yong, any gains from your trip to the internal domain?” the other great being asked.

“The internal domain is much too dangerous,” said An Yong Master. “I merely wandered about the considerably safer areas within the internal domain. These places had already been thoroughly searched before. Although I fought quite a fair number of battles here, and there was even once where I managed to corner my opponent, the other party was crazy enough to dash into the dangerous region within the

internal domain. I was not daring enough to follow suit." An Yong Master was filled with a sense of helplessness. "Therefore, nothing gained."

"I think it is still better to explore the water domain at one's own pace," the great being of the Divine Eye clan said. "The danger level is low, and occasionally, a treasure may be up for grabs. Who knows? You may even be able to cross paths with some weaker universe masters who you can kill easily."

"Imperial, your trip was rewarding?" An Yong Master asked.

"Slightly." Imperial Master smiled.

\*\*\*\*\*

This was the only conversation that Imperial Master and An Yong Master shared. Thereafter, they parted ways. It was always lonelier within Tilted Peak Sector, so great beings of the same clan would usually engage in conversations, albeit briefly, when they met with one another.

In the blink of an eye, another two years flew by.

Hua! Hua! Hua!

Imperial Master was handsome, and his entire being dazzled with a misty, white light. At the back of his head was the same circular light, and within this circular light was a single-eyed shadow. He flew slowly at the lowest region of the water domain.

He did his best to explore the various mountain peaks at the lowest region of the water domain (naturally protruding mountain rocks), as well as the numerous valleys. He did this without a trace of impatience. He was a super great being of endless life, and even if he were to spend tens of thousands of eras exploring, it would still be very peaceful.

"A cave."

A seemingly ordinary mountain cave appeared ahead, and Imperial Master flew in right away.

The cave had an approximate diameter of several tens of thousands of kilometers, its depth was tens of millions kilometers. Imperial Master flew within the cave with great caution... At times, within the water domain, caves and valleys that seemed ordinary might possibly house hidden treasures.

"Huh?" Imperial Master felt a faint and weak trace of energy ripples. "Energy ripples! Could it be..."

Imperial Master's eyes lit up in an instant. His face changed to one filled with vigor as his eyes swept every inch of the cave before him. He even used his godly power to scan the surroundings.

He advanced at an extremely slow pace. The cave was dark, deep, and winding. Imperial Master suppressed his raging emotions; his speed went even slower.

After close to six hours...

"That is it!"

Imperial Master had just completed a bend in the cave when he saw, at the far end, a screen of bright light. This got him even more worked up.

“Haha! It might be possible that there are hidden treasures within the water domain, probably even unique gains to claim.”

Imperial Master was moving at a very slow speed, but he soon arrived at the screen of bright light.

“Valuables. Great treasures!”

Imperial Master raised his head and saw that there was a bright screen blocking the path ahead. This bright screen was giving off an extremely weak energy ripple. Even stranger, Imperial Master had previously used his godly power to scan his surroundings, but he had not discovered this bright screen.

“A bright screen... Only if there were some extremely strong true treasures in Tilted Peak Sector would such a unique situation surface. For example, if there was a dangerous land in the surroundings, or there were bright screens such as this one that went undetected.”

Imperial Master was now running high on emotions. As a great being from the first universe era, he had no lack of experience. Based on his previous experiences, the bright screen by itself posed no threat.

“Still better to exercise more caution,” Imperial Master said with a wave.

Hua!

A blue sphere appeared out of thin air and started to expand rapidly. It soon reached a height of thousands of kilometers. Imperial Master’s godly body stood at a height of 1,000 kilometers. Thus, with one step, he had made his way into the sphere.

“This must be a top-tier sealed palace type true treasure. If I were to hide within it, even if a universe supreme master were to launch a full-scale attack, he would not be able to kill me.”

Imperial Master grew increasingly excited. He might have roamed about for countless period and encountered unique situations due to appearances of certain treasures, but those were times that he was with the other great beings of Divine Eye clan. This was the very first time he could have such a valuable treasure all to himself.

“Judging from this level of activity, this would, at the very least, be at the level of a pinnacle domain type true treasure. Who knows? It may be a strange object or even some unique object that is extraordinary.”

Imperial Master was controlling the top-tier sealed-palace type true treasure.

Hua!

Flying slowly, when he came into contact with that bright screen, it felt as though he was breaking through a layer of water. There was not a trace of obstruction at all.

“Huh? Another bright screen?” Imperial Master was shocked to discover that there was another layer of the bright screen behind the first one.

Hua!

Again, he broke through another layer of bright screen.

“A third layer!” Imperial Master was getting more excited and expectant as he continued breaking past layers.

A fourth layer! A fifth layer! A sixth layer...! There was a total of nine layers!

“This must be some incredible treasure land. Haha! Seems like, I, Imperial Master, have quite good luck.”

Imperial Master had just passed through the ninth layer of the bright screen...

Hong!

“No!”

Everything resumed a state of silence.

The dark, deep and winding cave went back to its normal quiet serenity. The bright screen was still there; there was not a trace of difference or change. It was as though Imperial Master had never entered.

\*\*\*\*\*

The Divine Eye race from the first universe era owned seven miniature universes. In the middle of one. Before his avatar appeared, Imperial Master was filled with excitement and expectation, but what closely followed was a look of fear and panic.

“No!”

Peng!

His avatar was annihilated

The instant when his avatar was annihilated, the master of that entire miniature universe, which was the third true master of the Divine Eye clan, discovered right away.

“Imperial... has been annihilated!” His sighs resonated throughout the entire miniature universe.

On the supreme land of the miniature universe, the avatars of a dozen universe masters residing at different places started to arrive.

“Third True Master, Imperial Master has been annihilated?”

“How did he come to be annihilated?”

“Who killed him?”

“How did he die?”

Within an instant, everyone was shooting questions out of anxiety. After all, according to their clan’s method of division, Imperial Master was a fourth-tier universe master (considered to be at the top-tier level), so even if he was exchanging blows with a universe supreme being, if the fight lasted for a short period of time, he could still hope for chances of survival. To the entire Divine Eye clan, the annihilation of a universe master was an occurrence that would only happen once in a blue moon.

A sound was heard from the sky. “Imperial was annihilated within a split-second; his avatar was not able to leave behind any information at all. The speed at which he was annihilated did not even give him time to leave any information. The moment one meets with an extremely dangerous situation, the foremost thing to do should be to establish contact with other great beings to call for help.” The voice articulated these words slowly. “That means... Imperial Master must not have detected any trace of danger beforehand. And when he realized how frighteningly close danger was, it was time for him to face annihilation.”

“He didn’t even get to find out why he was annihilated?”

“Even a universe supreme master would not be able to achieve this.”

“What can be so fearsome?”

“Seems like it was purely Tilted Peak Sector in its truest form creating such fearsome danger. Solely a great being’s power alone will not be able to achieve something of this degree.”

The avatars of these universe masters all knew.

\*\*\*\*\*

The Divine Eye clan was divided into seven major miniature universes, and naturally, all of them kept close contact with one another. News of the annihilation of Imperial Master was rapidly spread to the higher-ups of the Divine Eye clan.

“Imperial was exploring the water domain.”

“Danger must have reached him from a certain area within the water domain.”

“For something to create the danger of instant annihilation for Imperial even within its water domain... There is something quite extraordinary about this place.”

“According to the final information related to this situation that could be found, shortly before his annihilation, Imperial ought to have been at the 193,293rd frame of reference shortly before his fall... Now, I am ordering the three universe masters from my clan who are in the water domain of Tilted Peak Sector—An Yong Master, Replenishment Master, and Time Banishing Master—to head to this frame of reference within the water domain to conduct investigations. You all must be very careful... If you find something amiss or detect a trace of danger, you cannot dash in there on your own.”

“Understood!”

“Understood!”

“Understood!”

An Yong Master, Replenishment Master, and Time Banishing Master responded to the order without further ado, then teleported within the void space of Tilted Peak Sector at a very high speed. They ventured deep into the water domain and advanced to the 193,293rd frame of reference for detailed exploration.

**Chapter 1167: Attraction from the Wing**

On top of Tilted Peak Sector, the giant rocks flew several times faster than light, and three beings gathered, all of them glowing.

“Imperial didn’t leave any message when he died,” said a great being of Divine Eye clan. “I can’t even imagine the danger he ran into. Even if it’s in the inner area, few places could render Imperial Master unable to leave a message. It’s normal only at the center of Tilted Peak Sector.”

“Yes, it’s indeed very dangerous this time.”

“We shall follow the order from the first true master, and once we find somewhere dangerous or strange, we’ll report it immediately.”

“I’m just afraid that our efforts will be in vain. Chances are Imperial didn’t even die in the area specified.”

“That’s right.”

“That’s the area that was specified days before Imperial died. He might have died in the area around it, and chances are he died in the inner area.”

“Doesn’t matter. Just follow the order. I’ll be responsible for this area; An Yong, that one; Time Banishing, that one.”

“Okay.”

Hua! Hua! Hua!

They dispersed.

\*\*\*\*\*

The area was too large, and there were countless creatures such as water flow spirits. None of the powers dared to claim that they had inspected the entire water area, and the water area would change as time went by.

After six days...

“I’ve finished.”

“Me too.”

“No one.”

Three universe masters met. They looked at each other, but no one had found anything. What should they do?

“One reference area is too large. We use domain type true treasure for inspection, and each time, we can inspect several light years,” said An Yong Master. “Though it’s fast, we can’t find the real lands of valuables.”

“Of course we know. Then what should we do? Go in there one by one?”

“However? It’ll take forever to walk one light year. An area one light year long, one light year wide, and one light year tall... how long will it take?”

The inspection wasn’t flying. Imperial inspected those caves carefully and got out if he didn’t find any valuables. He walked slowly across the caves, cracks, and woods. It would take more than 10,000 eras to finish one light year. And it would take far more than 100 million eras to finish the entire era.

“We can’t do a detailed inspection. We can only do a brief one.”

“Let’s report it back.”

“Okay.”

\*\*\*\*\*

They reported.

“Keep inspecting!” ordered First True Master. “It’s been a long time since Imperial died in that reference area. And he might have left the area before he died. Keep searching. Inspect all the areas around reference area 193293.”

“Yes,” replied An Yong Master obediently.

They wouldn’t resist, not even for a brief inspection. It took another few years for them to inspect the 100 nearby areas. They acquired senior true treasure weapons by luck and found two strange places. However, when the Sixth True Master arrived, he didn’t find anything.

“What a waste of time.”

“Who knows where Imperial died? Perhaps in the inner area!”

It was in vain. The Divine Eye clan did thorough research as well. They first inspected the water area, then researched whether the true treasure Imperial Master had appeared in the hands of the great beings of other races. The Sixth True Master went there directly... However, they could only admit failure in the end. They didn’t gain anything.

Usually, the Divine Eye race wouldn’t just give up if its great beings were killed! However, they couldn’t find anything this time, so they could only deal with it. An Yong Master, Time Banishing Master, and Replenishment Master separated from one another.

Time Banishing Master and Replenishment Master left while An Yong Master kept going deeper in the water area.

“I met Imperial before he died, and he seemed to have gotten something in the water area,” said An Yong Master. “It’s likely that he died in the water area, I’ll keep inspecting in reference system 193293.”

\*\*\*\*\*

12 years had passed since Imperial Master died. Luo Feng flew in the space, and he looked at the waterfall on the towering Tilted Peak Sector.

“Tilted Peak Sector is said to be one of the three Lands of Extremis. It’s been 30 years since I came here, and I haven’t run into any danger.”

Hong! Long! Long!

The giant waterfall was tens of millions of light years high, and each drop of water could rival a star. How powerful the entire waterfall was! If all the water was concentrated to one point, even universe supreme masters could be killed! While separated, the water at the bottom kept changing under the churning and crashing.

“I’ll go to the main mountain of Tilted Peak Sector. I’ll just stay on top. It’s not going to be dangerous if I don’t go in.”

Luo Feng kept teleporting himself.

Shua! Shua! Shua!

He kept approaching that mountain... And it was the first time he arrived at the main body of Tilted Peak Sector.

After 30 million light years of teleportation, Luo Feng was pretty close to the main mountain.

“Huh?”

Shua!

Luo Feng stopped in the sky. In front of him was the main mountain of Tilted Peak Sector. However, Luo Feng frowned and looked down. “How? My Shi Wu Wings?”

He looked back at his Shi Wu Wings, which were intermittently trembling.

Summoning!

It was like magnets attracting each other. His Shi Wu Wings seemed to be attracted toward something.

“It’s a weak call. Which direction is it? The deep of water area?”

Luo Feng looked down and frowned. He wasn’t inexperienced. Tian Yang Knight’s “Light Wings” had previously attracted his wing, but that attraction had been incredibly strong. This attraction, however, was feeble.

Is the third wing down there? Luo Feng wondered. I’ll go check.

Sou!

Luo Feng teleported himself ten light years.

“Much stronger.” Luo Feng’s eyes gleamed, and his Shi Wu Wings started to tremble heavily. Apparently, the summon was strong. “Down.”

Luo Feng teleported himself again.

Hong!

He entered the shallow water.

Hong! Long! Long!

His Shi Wu Wings started to shake intensely.

“Such strong summoning!”

Luo Feng was exhilarated. He performed Golden Country. The dim light permeated and formed a blurry golden light area with a diameter of 10 light years. Of course, this wasn't the limit of Golden Country, but Luo Feng didn't dare teleport himself too far in the dangerous water area.

Shua!

Luo Feng moved three light years forward and entered the danger zone. He could only teleport himself a little bit farther in the deep water zone.

Shua! Shua! Shua!

Following the summoning, he went forward. However, he moved 100 million kilometers forward each time.

“It has to be a component of the Shi Wu Wings,” said Luo Feng. “Hahaha! I knew it. I know there were other components. I didn't expect to find them in the outer area of Tilted Peak Sector.”

Luo Feng was exhilarated. When he found the true treasure wing of Tian Yang Knight, he found that the third level of engravings wasn't complete. Apparently, there were other components.

He'd thought that they may have been taken by other great beings in Universe Ocean. After all, many great beings had wing valuables, and chances were, the great beings who acquired a true treasure wing might give it to a universe knight, as they thought it wasn't powerful enough. Another possibility was that it had been left in Tilted Peak Sector...

I can't believe I sense it so easily, thought Luo Feng. Is it on a great being, or just resting in place somewhere?

Luo Feng flew quickly, and he landed in front of a cave.

“It's inside. It's coming from the inside.”

Luo Feng looked at the cave and started to move inside carefully. The cave was enormous.

Weng! Weng! Weng!

Shi Wu Wing trembled intensely, and Luo Feng even needed to suppress it with his godly power.

“The summoning power is too strong... much stronger than last time,” Luo Feng whispered. “Is it because my Shi Wu Wings are complete?”

Luo Feng felt confused. After more than three hours, Luo Feng saw the screen of light in the distance.

“A light screen?”

Luo Feng got close carefully and looked at the light screen in the distance. Although the Shi Wu Wings on his back were trying to fly off of him, Luo Feng was still calm and cautious.

“Something’s wrong. Very wrong.”

Luo Feng frowned. “If Shi Wu Wings have another component, and that component doesn’t have an owner, it should fly toward me. On the other hand, if the component has an owner, he should also be able to feel the attraction. Isn’t he curious?” Luo Feng looked to the light screen. “Based on what I know about Tilted Peak Sector, only special valuables will lead to light screens like this one.”

As for ordinary to top-tier true treasures, they would be randomly placed in a corner.

“A light screen and a summoning from Shi Wu Wings,” said Luo Feng. “That component isn’t flying toward me.”

Although Luo Feng desperately wanted to get this component, he didn’t dare to venture forward. He knew how dangerous Tilted Peak Sector was.

“This is so strange. I’ll let my Mosha body get in first.”

Luo Feng decided quickly. In the past years, every time he ran into something weird, he let his Mosha body go first.

Shua!

Mosha body appeared and flew forward. He touched the light screen and entered.

### **Chapter 1168: Space of the Wings**

The Mosha godly body was small. The purity of its godly power was low, and it did not own any true treasure. Even if a Mosha body had been sacrificed, the godly bodies of Golden Horned Beast and the original earthling body could easily recover this minuscule loss by breathing for a short moment. That was the reason why, for the past 30 years, Mosha body was stationed at the external domain of Tilted Peak Sector to deal with areas that involved uncertainties.

Going through the bright screen...

Hua!

“Huh?” Mosha body looked ahead, feeling confused. It was still a tunnel ahead of him, and there was a new bright screen. “Two layers of the bright screens? The three most dangerous lands are the scariest places of Universe Ocean. Unique situations will only arise under certain extremely unique regions.” Mosha body was confused. “Now, there are two bright screens in a row... What could possibly be in there?”

Sou!

Moving forth with agility, he easily passed through that bright screen. The screens on their own would not be able to obstruct the way of intruders... but they could cause all sorts of exploration, even those by godly powers, to fail.

“My god! A third layer of the bright screen?” Mosha body was in great shock.

He continued drilling! The fourth layer! The fifth layer! The sixth layer!

Mosha body was in total shock by then. From the information regarding Tilted Peak Sector, Flowing Countless Mountains, and Universe Boat that the human race had provided, there were descriptions of scenarios of scary true treasures being born. And also, records of scenarios involving the birth of supreme true treasures. But of course, every scenario was different.

There was a total of twelve records on bright screens, of which three were related to true treasures and nine were related to rare treasures. The former three scenarios about true treasures involved a pinnacle true treasure with one layer of the bright screen, a superb pinnacle true treasure with three layers of the bright screens, and a superb pinnacle true treasure with three layers of the bright screens, respectively.

“The seventh layer, the eighth layer... There is... There is actually a ninth layer! A great hidden treasure. This is definitely a super, great hidden treasure. If a great being told me that there was a supreme true treasure within it, I would believe without a doubt!” Mosha body was worked up as he looked at the ninth layer of the bright screen before him. “Judging by the way the Shi Wu Wings put up such a crazy struggle in their efforts to fly into this cave, it is possible that there is another component of Shi Wu Wings inside...”

“Even if it was a component of a supreme true treasure, it would not possibly be so overwhelmingly powerful. It would not be able to wield nine layers of the bright screens.”

Mosha body did not know what to make out of the situation.

Luo Feng was filled with confusion. Firstly, that missing component did not fly out on its own. Secondly, the beckoning was intense. It far surpassed the time when he first encountered Flowing Light Wings. Thirdly, nine layers of the bright screens was unbelievable.

“Could it be that in there is not only a component of Shi Wu Wings, but also another true treasure? For instance, a supreme true treasure?”

Mosha body tried to suppress the many thoughts running through his mind. When it came to hidden treasures, if one held on to overly beautified expectations, the greater the disappointment would be; reality could, at times, be very cruel.

“Whatever. I shall find out for myself.”

Hua!

He drilled passed the ninth layer of the bright screen easily.

“This is—!”

The moment Mosha body passed the ninth bright screen, he realized that the surroundings had become an incomparably gigantic dazzling space. Mosha body still had a fleeting moment to make some quick, careful observations before numerous gigantic dazzling rays swept pass him like blades. Then he felt excruciating pain coursing through his entire being.

Peng!

Mosha Body was annihilated in an instant.

\*\*\*\*\*

Luo Feng was in the cave, outside of the first bright screen.

“What the hell is this?” Luo Feng blinked his eyes in disbelief, completely taken aback. “This—this... My Mosha body is, at the very least, a universe knight, yet this was enough to annihilate a universe knight within an instant. He was not allowed any time to think at all. What an extremely frightening attack. It was comparable to the attack by a universe master.”

Luo Feng pondered a bit.

“I shall try again!”

The next moment, another Mosha body appeared beside him. Like a flash of light, it once again made its way past the bright screen before them.

\*\*\*\*\*

Before the ninth bright screen, Mosha body gritted his teeth.

“The moment I enter, I shall execute my talent technique Domain. That will be able to keep me alive for a short period of time. I shall see for myself just what treasures there are in this land of hidden treasures—to be able to enshroud the surroundings with such a fearsome power.”

Hua!

In a split-second, he had drilled his way past the ninth bright screen, and the moment he entered, he executed his talent technique Domain. Within that immeasurably vast space, Mosha body had completely conformed to an area of 10,000 kilometers.

Hong!

Countless mighty rays swept across everything like sharp blades. In this vast space, “Universe Space” itself had become an endless stream of particles. Not long after Mosha body had transformed into Domain, he felt the impact of the earth-shattering power that attacked him, annihilating him in an instant.

\*\*\*\*\*

Luo Feng stood frozen before the first bright screen deep within the cave, too stunned for any reaction. The next instant, his eyes lit up.

“Heaven-destroying and earth-shattering! This destroys everything within the universe space! Time and space constitute the Universe. My Mosha body executed its talent technique, Domain, but was still unable to survive. This is utterly...”

Luo Feng was greatly fearful as the realization dawned upon him, but at the same time, deep within his heart, he felt a surge of immeasurable ecstasy. Hidden treasures were absolutely the utmost, greatest,

top-tier hidden treasures, and it was highly possible that a supreme true treasure was hidden within them!

The so-called “force-breaking method”! All laws in the face of such an absolute power would have to retreat.

It was just like how universe supreme beings could ensure that their orders, once given, would be strictly enforced. Even the origin of the primal universe would temporarily retreat from the battle without a fight! Similarly, the power unleashed by a supreme true treasure could form an absolute domain for a certain area, and all laws pull back and no longer exert any influence within this domain. Within this domain, even universe masters might be annihilated.

“The mysterious land beyond the ninth bright screen... is already so powerful that it can destroy time and space. Force breaking method! I suppose it would be something on the level of universe supreme masters and supreme true treasures.”

Luo Feng revealed a trace of glee. There was not a hint of fear, only excitement and happiness. The stronger, the better. Its strength represented the fact that this treasure was undoubtedly fearsome. Luo Feng was not at all worried that he would not be able to get that treasure.

“I have Blood Cloud Palace and Star Tower with me,” Luo Feng said to himself. “Blood Cloud Palace is a flying palace type true treasure. It was extremely powerful and was best in defense against material attacks. Even if universe supreme beings dealt a full blow with all their might, they would not be able to destroy Blood Cloud Palace. Even the power dispersed by a supreme true treasure would not be able to easily annihilate a top-tier flying palace true treasure.”

This was common knowledge. With a top-tier flying type true treasure, one could run rampant within the Universe Ocean. But Luo Feng was unaware that, before him, Imperial Master of Divine Eye clan had tried to intrude the same region as he did now—while hiding within a top-tier palace type true treasure. Imperial Master had tried to intrude by flying in while hiding in his palace type true treasure... and he had come to a tragic end.

“Blood Cloud Palace and Star Tower, especially Star Tower, are supreme true treasures,” Luo Feng said to himself. “Based on what Teacher said, there is not a place in the three most dangerous lands that would be able to cause damage to my supreme true treasures. But, before I enter, it is always better to first understand the situation inside well.”

I don’t believe that the blade-rays that tore my Moshu body apart could be so pervasive a presence, Luo Feng thought.

Previously, Moshu body had been annihilated twice without a glimpse of the actual situation inside. It only knew that the dazzling blade-rays sent him to his doom.

\*\*\*\*\*

Shua!

Moshu body intruded once again. As expected, it was met with the sweeping strokes of those mighty, endlessly dazzling blade-rays to be annihilated within a split-second right away.

The third time, followed by the fourth, then the fifth...

“I shall try 100 times if that’s what it takes. I don’t believe that I will end up being annihilated every single time.”

Luo Feng was not someone who took risks easily. Star Tower might be powerful enough to keep him safe, but that only represented the fact that Star Tower was able to ward off material attacks. In the information provided by humans, there were more than a handful of records of such dangerous lands where even Star Tower would not be able to escape if it fell in.

Getting Mosha body to die repeatedly was a way to gather more information. It was out of safety considerations. As for Mosha body, even if it had to be annihilated 100 times, the godly power that it consumed would only require a short moment for the original earthling body and Golden Horned Beast body to bring it to recovery.

Shua! Shua! Shua! Shua! Shua! Shua!

It was being annihilated insanely and repeatedly. Every single time, he would come to face with a high-frequency, mighty, and endless storm of blade-rays and be annihilated in an instant.

The 39th time, Mosha body intruded all over again.

“Ha!”

Mosha body was elated to see that the gigantic and endlessly dazzling blade-rays had gathered into a “storm.” This boundless storm surrounded him all around, but it did not touch him at all, albeit momentarily. Mosha body immediately scanned his surroundings, speedily observing everything inside.

Not even a millionth of a second! But with the speed of Luo Feng’s consciousness, he could get a clear view of the scene.

This was an incomparably vast space; amidst the pitch-black space, there was a chaotic flow of countless rolling particles, and that endlessly dazzling blade storm swept everything in the surroundings. The area was so wide that one sweeping look around would be measured in light years! Within this vast space, the most dazzling sight was something far away—

It was gigantic...

It left Luo Feng completely at a loss for words...

Wings! Endlessly tall and trillions of times more dazzling than the sun!

The two outspread wings were infinitely huge. The dazzling rays of those white wings gave out a power that was so strong that even from high up, Luo Feng could feel the terrifying power bringing his consciousness to a standstill within a split-second. Shortly after—

Hong!

Mosha body was swept up and strangled to death by the blade storm.

\*\*\*\*\*

Deep within the dark, winding cave, outside the first layer of the bright screen, Luo Feng stood rooted to the same spot. His mind was filled with that soul-shaking scene...

It was an endless pair of wings trillions of times more dazzling than the sun. He felt like it was a pair of incomparably huge light wings. The sense of superiority they exuded gave Luo Feng the feeling of being subjugated.

“Wings? A pair of wings? This mysterious land is actually a pair of wings?” Luo Feng was dumbfounded. “Could it be that this terrifying pair of wings makes up a component of my Shi Wu Wings? Is that possible? This... Is this possible? You’ve got to be kidding me!”

Luo Feng had seen many kinds of true treasures. Even supreme true treasures were not novel sights to him. He himself owned a supreme true treasure, Star Tower. Star Tower was extremely powerful. Its swallowing capacity alone could form the nine whirlpool nebulas, which was considered very powerful. As for the true power of Star Tower, even Luo Feng was unclear; after all, Star Tower had always stayed in silence in the outer domain of space. He only knew that the four pinnacle races once fought and killed one another over it. Many universe supreme masters had come forth to vie for it, but none had succeeded.

“Those dazzling, huge light wings must be a supreme true treasure. It must be! With such strong powers, if it is not a supreme true treasure, then something must be wrong. And judging from that extremely crazy blade storm, this must belong to an attack-type supreme true treasure.”

Luo Feng was overflowing with excitement, which was understandable. Any super great being within the universe would be equally excited if he could lay hands on such a supreme true treasure.

Shortly after, endless confused thoughts started surging into Luo Feng’s mind. He could not help frowning.

Very strange. Through the endless storm, he thought he had vaguely seen or even concluded that the wings likely did not have a Master. Yet they did not fly over to him out of their own accord. The Shi Wu Wings he was wearing wanted to fly over instead...

“Is it really a component?” Luo Feng muttered under his breath. “Two of my wings put together would, at most, be at the top-tier true treasure level. That one pair of wings is already so strong on its own. Besides, how could a mere component of a supreme true treasure be so powerful?”

### **Chapter 1169: Alert**

The force emanating from the endless wings of light was powerful enough to give him pause. At the universe-master level, this was incredible

Is it because of the connection between the two wings and that pair of light wings? wondered Luo Feng. Just like Tower Pearl, Seal Star, and Star Tower? Are the wings on my back only small components of that light wing?

Just when Luo Feng was thinking, suddenly...

Hong!

The cave was filled with white sand, and the sand flew and filled everywhere. It could even pierce that hard rock. At the same time, the sand swept across the light screen, as if space and time were twisted. He couldn't figure out the mysteries behind that.

"Domain type true treasure, Ice Sand Ocean?" Luo Feng was shocked.

Ice Sand Ocean was a domain type true treasure used by An Yong Master, and he had experienced its power when he tried to rescue Firestone Master.

"Hahaha! Human Milky Way Horde Leader, Luo Feng?" A voice pierced through the sand ocean and entered Luo Feng's ears.

Hua!

The space ripples around him were clotted, and the space was sealed!

Why is he here...?

Luo Feng swore in his heart. Without a doubt, that pair of light wings were a supreme true treasure, extremely precious and powerful, and it had something to do with his Shi Wu Wings. Mosha body only got a glimpse of it, and it could tell that it was extremely good at making attacks.

If he had both Star Tower and the wing, two supreme true treasures... That would be incredible!

"Supreme true treasures—how precious and rare they are!" Luo Feng whispered. "It won't be an easy task to get them. Star Tower made lots of universe supreme masters desperate. Even Sitting Mountain Guest left it to him. It took him lots of energy to get that."

These wings were no different. However, An Yong Master had suddenly shown up.

I can't let him find out the secrets in the cave. The Divine Eye clan is almighty—much more powerful than us humans. If he notifies others in Divine Eye clan, I won't be able to get the light wings.

Thoughts flooded Luo Feng's mind, and then he made up his mind to fly out.

\*\*\*\*\*

An Yong Master stood at the apex of a mountain and looked at the cave in the distance. He appeared excited.

For all these years, he had been searching in the reference area number 193293. He had been searching carefully, but he found it a slow process to search every cave, valley, and plant, so from time to time, he would sweep an area of 100 square light years using his domain type true treasure. He combined detailed inspection with brief, large-scale survey. Sometimes, he would find something surprising, and this time, he had found the human Luo Feng! Actually, he had run across two universe masters of other races, and Luo Feng was the third.

"I found the human Luo Feng. Hahaha...! How lucky I am. He's weak, so he doesn't dare enter the inner area, so he can only adventure the outer area. Unfortunately for him, he enters my domain, the number 193293 reference area, so I'm not to blame for what happens to him."

An Yong Master felt superior to Luo Feng, as he thought Luo Feng was only a new universe master at the second level. Luo Feng was just good at running.

“His domain is impressive. I won’t be able to kill him by myself.” The sole eye behind An Yong Master looked fierce.

\*\*\*\*\*

The Divine Eye clan had seven miniature universes in total. Inside the miniature universe of the Seventh True Master...

An Yong Master stood in front of a mirror. “I’ve found the human Luo Feng from the original universe, and I am at (329491, 100939), point of reference number 193293. Luo Feng was proficient in controlling domain. Anyone with a pinnacle domain type true treasure, please come to help. The true treasures will be divided equally. Who can come here first?”

Heads appeared in the mirror.

“Haha! How lucky you are, An Yong.”

“It’s the new universe supreme master from the original universe, Luo Feng. Everyone knows that he has a special true treasure to control space and time, and he’s a handful. One has to have a pinnacle domain type true treasure.”

“An Yong, it’ll take me 40 minutes to get there.”

“An Yong, I’m in Tilted Peak Sector also, but it might take me several days to get out of the inner area.”

“I’m in Universe Boat.”

“It’ll take me two hours to get there.”

More heads showed up on the mirror. The fastest one would be there in 40 minutes.

“Golden Surveyor Master, please come here as soon as possible.”

“I’ll be there as soon as possible. Please stall that Luo Feng.”

“Okay.”

“Golden Surveyor, An Yong, I wish you all the best. Don’t be beaten by the great beings of the human race.”

“The human race will definitely protect that human Luo Feng. If you don’t act fast enough, the great beings from the original universe will arrive, especially that Primal Chaos City Leader. He’s a handful.”

\*\*\*\*\*

Hua!

In the inner area of Tilted Peak Sector, lots of sand and rocks were flying a hundred times faster than light speed, and there were some transparent grains of sand and rocks that cracked space.

Bang! Bang! Bang!

A golden spaceship flew by, but it trembled as it was hit by the sand and rocks. Inside the spaceship, a human-shaped creature in golden armor stood there. He was glowing with a halo behind his head, and there was a single-eyed phantom in the halo.

“Human Luo Feng?” the great being of Divine Eye clan whispered. “A true treasure that can control space and time?”

\*\*\*\*\*

By the time the avatars of Golden Surveyor reached a pact, Luo Feng and An Yong Master had met in reference area 193293.

Luo Feng flew out of the cave and stood at the center of the water area. An Yong Master was standing there, looking down at him.

Hong!

Golden flames swept across everything, and the sand all dissipated. With the help of Golden Country, Flame Sand Cup covered an area of several square light years, and Luo Feng stood in the middle of the flames, looking at An Yong Master in the distance.

“I just keep running into you, An Yong Master!” Luo Feng growled.

“Hahaha...” An Yong Master laughed. “I didn’t look for you on purpose. I’ve been inspecting this place for a long time, and you’re the one who came here for treasures. You chose your own death. Who else can you blame?”

“Death?” Luo Feng smirked.

“Lives are limited, and eternity is almost impossible.” An Yong Master stared at Luo Feng. “Killing is the only way!”

An Yong Master didn’t rush to attack Luo Feng. Although he was confident enough to defeat Luo Feng in one-on-one combat, he knew for sure that it was impossible for him to kill Luo Feng.

Luo Feng stayed alert.

Why has he been inspecting this area for a long time? wondered Luo Feng. Did he get some information?

The light wing was almighty. Luo Feng feared that something might go wrong, so he needed to eliminate all unexpected factors.

Okay. It seems that he didn’t know about it yet. Instead, he’s busy searching everywhere—all the caves, rocks, valleys, and mountains. It might take him 10,000 eras to get to my cave.

Luo Feng nodded. An Yong Master didn’t suspect anything when he emerged from the cave. It was normal for An Yong Master not to be suspicious; there were countless caves in the water area, and many who looked for valuables entered the caves. When An Yong Master found Luo Feng, he thought Luo Feng was only looking for valuables, so he didn’t realize how special the cave was.

“Killing is the only way?” Luo Feng grinned. “You don’t know who’ll die!”

Hong!

Luo Feng held Absolute Guest and dashed at An Yong Master like a beam of light.

“You dare to fight me?” An Yong Master found it surprising that Luo Feng didn’t run away. “Little one, I might kill more great beings than you have ever seen! You dare to fight me? Die!”

The scepter started to glow. A trace of light showed up in the space. Fast!

“Dang!”

The blade of light hit the scepter, and Luo Feng bounced away.

“So fast, and I can barely resist it. No wonder even Firestone Master could resist that.”

“Indeed powerful.” An Yong Master glanced at Luo Feng and gave an compliment. “Your blade is fine, but your godly power seems to be weak, and your blade technique is only an ultimate technique.”

Just as he was giving the compliment, he rushed at Luo Feng.

Luo Feng felt his body trembling. So strong! He had Shi Wu Wings and Flame Sand Cup to help him, but he was still at an absolute disadvantage.

I might need to perform “I Am the Universe” to rival him, Luo Feng thought.

“Haha...”

An Yong Master walked slowly, but he had passed by the flames and arrived beside Luo Feng wielding the giant scepter. It hit Luo Feng.

It was heavy! Fast and heavy!

Chi!

A bright light erupted.

“Damn it!” An Yong Master roared. He tried to redirect his scepter, but it all happened too suddenly—a shuttle pierced through An Yong Master’s hand!

A deep growling: “Die!”

A red being showed up in the distance, and its tail was sweeping with a giant shuttle in his hands. It was Blood Cloud Palace.

Hong! Long!

Star Tower became a long shuttle, and at the second level, it hit An Yong Master. An Yong Master howled, and his godly body was significantly weakened.

Quickly, Luo Feng performed the supreme technique.

“I Am the Universe!”

**Chapter 1170 Mauled by the Crowd!**

Earlier on, the pierce of that long shuttle caused the golden flames in the surroundings to form a winding whirlpool; likewise, the heavy water flow in the surroundings also became a gigantic whirlpool. With just one stab!

Powerful! Swift! An Yong Master was just about to execute his greatest technique with a wave of his scepter, so he was not in time to concurrently ward off the sudden attack. He reacted quickly by using his left palm to execute a stance from his greatest technique, "Sealing the Sky." However, the power of this stance was weakened because it was executed with his left palm, where it should originally be executed through his scepter. Furthermore, An Yong Master did not have any attack type true treasures in his hand for self-defense.

The tip of the long shuttle pierced right through his palm.

"Ah!"

An Yong Master's godly body trembled. A large quantity of godly power was consumed, and his breathing weakened rapidly. In a split second, it had weakened to 50 percent and below. But in the blink of an eye, his avatar's godly body, which was housed within his internalized world ring, speedily transmitted endless godly power to him, allowing him to recover right away.

Hong! Long! Long!

Darkness fell upon the water domain, and it fell into a chaotic world. Chaotic airflow spread all over.

"Shi Wu Wings, empower!"

"Flame Sand Cup, empower!"

"Miniature Universe, empower!"

Luo Feng was unstoppable. After executing Miniature Universe, without lifting a finger, he could rely on the terrifying oppression he had exerted earlier to gain an advantage over his opponent.

Not far away, by his side, the towering Blood Cloud Palace Master exuded endless ferocity. Holding onto his long shuttle, which was tens of thousands of kilometers long, he was also charging toward An Yong Master with a murderous intention.

Luo Feng and Blood Cloud Palace Master were joining efforts!

Everything was happening according to Luo Feng's plan. Previously, with his Golden County and Flame Domain, he had defeated Ice Sand Ocean, thereafter everything fell within Luo Feng's control. An Yong Master was unable to explore his surroundings, so naturally, he did not know that Luo Feng had secretly released his Golden Horned Beast body in the guise of Blood Cloud Palace Master.

"Blood Cloud Palace Master!" An Yong Master saw him and was furious. He transmitted a roar of rage. "Blood Cloud Palace Master, although you have disappeared for a long time, you remain a figure of repute; in the primal universe, you did not bother to get acquainted with anyone. Yet today, you dare to lay an ambush on me without considering your position! And to help this human form Luo Feng sneak an attack on me?"

“Haha! I shall get acquainted with whoever I please,” said Blood Cloud Palace Master, full of insolence. “Who are you to control me? I find Luo Feng pleasing to the eye, and both of us come from the same primal universe. Even if I don’t help him, do you think I will help you, someone from the first universe era?”

“Blood Cloud, the two of us shall act in concert to deal with him!” Luo Feng shouted.

“Yes!” Blood Cloud Palace Master shouted back in response.

An Yong Master was forced to retreat with mixed feelings of anxiety and rage. Everything was supposed to be happening in his favor, but he hadn’t expected Blood Cloud Palace Master to turn up and attack him so suddenly. As a side note, it would be useful to know that the various top forces were always gathering information on certain high-end great beings.

Even Luo Feng’s information was sought after most thoroughly... The Divine Eye clan would naturally have searched for information on Blood Cloud Palace Master and learned that Blood Cloud Palace Master fought against Star River Master in the original star and might have been on the losing end, but he did not lose much or even any of his godly power. Star River King had given his best but could only give up and leave in the end.

This battle raised the overall evaluation of Blood Cloud Palace Master. Over 100 different powers of Universe Ocean changed their evaluation right away.

The news is accurate, An Yong Master thought. I was originally extremely strong in defense, and I believed in the principle of “an eye for an eye,” thus I dared to give “an injury for an injury.” I did not expect that one pierce from my long shuttle... would cost me 50 percent of my Divine Eye clan body.

An Yong Master was speedily retreating to buy himself more time as he anxiously scoured for countermeasures to deal with his situation.

Even if it were one-to-one against Blood Cloud Palace Master, it would be difficult to gain the upper hand. With these two joining forces, Blood Cloud Palace Master now has Luo Feng’s help, who will put his domain and miniature chaotic universe into play, I will be completely suppressed... Between Blood Cloud Palace Master and myself, I am afraid the result will always be failure without victory!

The thought flashed passed him within an instant. The speed of a great being was extremely fast.

How satisfying, thought Luo Feng. To be able to execute Miniature Universe within the Universe Ocean is truly a delight.

Luo Feng was high on emotions and let out an excited howl. Universe Ocean was filled with chaotic airflow all over, and the purity level of this chaotic airflow was extremely high. The surroundings of Tilted Peak Sector might have thinned down the chaotic airflow, but it was, nonetheless, incomparably pure.

After executing his Miniature Universe, Luo Feng was delighted to discover that... the chaotic airflow he could control, when mixed together with those chaotic airflows of high purity level, could undergo a heightened boost in power in an instant.

“Miniature Universe and chaotic airflow, gather!” Luo Feng gave a sudden shout of command.

Hua! Hua!

Miniature Universe gave form to two gigantic tornado whirlpools, and each moved to encircle Luo Feng's blade and Blood Cloud Palace Master's Star Tower long shuttle, respectively.

Hua!

Star Tower long shuttle moved to pierce An Yong Master again.

Xiu!

A dazzling golden blade sliced toward An Yong Master.

"Bastard...!"

An Yong Master was anxious and furious. With his scepter in his hand, he transformed into a hazy shadow to execute his greatest technique, Sealing the Sky. Then a loud, rumbling bang was heard, and An Yong Master felt a great tremor throughout his godly body. The dazzling golden blade had hit him from behind, causing his godly body to tremble and immediately weaken by 10 percent.

"Damn, damn!" An Yong Master was infuriated.

"Hahahaha! An Yong, today shall be your day of annihilation." Luo Feng was overflowing with arrogance.

Blood Cloud Palace Master revealed a sardonic smile. "You are dead meat."

Hong! Hong!

The two attacked in concerted efforts. Where An Yong Master could ward off Blood Cloud Palace Master, he would not be able to defend against Luo Feng. On the other hand, blocking Luo Feng would mean that he was not able to ward off Blood Cloud Palace Master.

After all, Blood Cloud Palace Master was able to activate the second-level power of Star Tower long shuttle, which was extremely fast.

Luo Feng's blade technique, Golden Light, was also known for its speed. With the triple empowerment of Miniature Universe, Flame Ocean, and Golden Country, it was even faster, causing the speed of An Yong Master's weapon to slow down. No matter how strong a technique he had, he could barely ward off Luo Feng or Blood Cloud Palace Master. Undoubtedly, his choice would be to ward off Blood Cloud Palace Master.

Blood Cloud Palace Master is certainly fourth-tier! thought An Yong Master. And with the empowerment of his surrounding domain, he would most probably be comparable to fifth-tier. That human form may only be on second-tier, but with the empowerment of his surrounding domain, he could be comparable to fourth-tier.

An Yong Master's heart was in his throat. His anxiety was at its peak.

The power level was soaring; the increase was doubled.

Golden Horned Beast body had a supreme true treasure, barely making it a fourth-tier combat power. Usually, universe masters with supreme true treasures would wield combat power up to the sixth tier.

However, Luo Feng was unable to bring the power of this supreme true treasure to full force for two reasons. One, he was only able to comprehend Star Tower up till its second form; two, the strength of his godly power was still too weak.

Combined with the triple empowerment, it was certainly comparable to fifth-tier combat power. However, true fifth-tier beings like Primal Chaos City Leader and Star River Master usually had pinnacle domain true treasures with them when they roamed Universe Ocean. With their capabilities, they could activate pinnacle domain true treasures to higher forms, and these activated forms were much stronger than those of Sky Wolf Master.

“I may be weaker than Star River Master and Teacher, Primal Chaos City Leader, but I think I still have the confidence to trample An Yong Master with the two of us working together.”

Hong! Hong! Hong! Hong! Hong! Hong!

Blood Cloud Palace Master and Luo Feng’s original body attacked without inhibitions. They surrounded An Yong Master and subjected him to a crazy round of attacks!

“Still dare to be so arrogant! Still thinking of killing me! Dream on!” Luo Feng ranted as he trampled on An Yong Master.

An Yong Master was so furious that his entire face glowered. The single-eyed shadow in the circular light behind him became distorted. He was angry beyond sanity. He was a universe master of top-tier existence (the fourth tier) with extremely strong defensive ability. If tackling an opponent one-to-one, even a universe supreme master might not have been able to force him to give in. But now, it was two against one, and every time there was an exchange of blows, he was on the defensive.

Godly body is weakening! Recover!

“What great tolerance!” muttered Luo Feng.

Luo Feng was cursing and swearing at An Yong Master in his heart. An Yong Master only maintained his defense against attacks by Blood Cloud Palace Master, regardless of how Luo Feng rained his attacks on An Yong Master. Every time his godly body started to weaken, it would speedily recover.

In the blink of an eye, nine seconds passed. Luo Feng stopped his sustenance of Miniature Universe, and the next moment, the vast Miniature Universe dissipated. The chaotic airflow in the surroundings also dispersed. The suppression over An Yong Master was immediately reduced. An Yong Master saw his chance and quickly transformed into a stream of light and fled the scene.

“Want to escape?” Blood Cloud Palace Master roared.

“Don’t give chase!” Luo Feng shouted. “This An Yong Master is a hardcore fellow who is almost impossible to exterminate.”

Luo Feng also recovered the sealed space.

An Yong Master released the sealed space while he was being mauled by Luo Feng and Blood Cloud Palace Master. The moment he felt the space ripples, he made his escape by teleporting far away immediately. He did not want to be surrounded and attacked. Using up his godly power was not a big

deal. The sense of helplessness when subjected to attacks in such a manner was overbearing. It was a great insult.

Deep in the water domain, Luo Feng and Blood Cloud Palace Master stood side-by-side.

“He has teleported away.”

Luo Feng sneered. With a single thought, he summoned Blood Cloud Palace Master (which was actually Golden Horned Beast body in disguise) back into his world ring.

“Even if news of Blood Cloud Palace Master and I joining forces against An Yong Master spreads, nothing much will happen,” Luo Feng said to himself. “After all, Blood Cloud Palace Master has no enmity toward the human race. Furthermore, An Yong Master would not wish to lose face, so he will not be spreading news so detrimental to his reputation.”

Whether the news spread or not really did not matter. Luo Feng had already offended the three major alliances (namely, the demons, automaton race, and the bugs soldiers). Those that he had established good ties with were the Ancestral God School, the Space Beast Alliance, and his own kind, the human race. They would not make much out of him forming an alliance with Blood Cloud Palace Master.

Shua!

Luo Feng flew straight out of the cave.

In the vast Universe Ocean, there were the seven Miniature Universes of the Divine Eye Clan. In the palace hall, An Yong Master sat on his throne, his face contorted into a fearsome look. His anger was insuppressible.

“Damn, damn, damn!” An Yong Master roared. Suddenly, he frowned, and with a flip of his hand, a mirror appeared in front of him. In the middle, a figure clad in golden armor appeared.

“An Yong,” said the figure.

“Golden Surveyor,” said An Yong.

“An Yong, I was just rushing out from the internal domain of Tilted Peak Sector. Why are you contacting me all of a sudden?”

“Golden Surveyor Master, I have disappointed you.” An Yong Master lowered his head a slight degree to express his apology, then raised his head and said, “I was dealing with the human Luo Feng from the primal universe, but I had not expected him to have Blood Cloud Palace Master’s help. With Blood Cloud Palace Master and Luo Feng joining forces, even I will be at the losing end... This operation has failed.”

“Failed?” Golden Surveyor Master was a trifle annoyed. “If you did not have full confidence, you should have enlisted my help right away. I have already penetrated layers of danger, and now you are asking me to turn back? Such an event had better not happen a second time!”

Hong!

The figure in the mirror vanished instantly.

An Yong Master could only let out a low grunt. There was nothing he could do. In terms of power and status, Golden Surveyor Master was always a notch above him. Owning a pinnacle domain type true treasure already, to a certain extent, reflected Golden Surveyor Master's ability.

"Blood Cloud Palace Master... Human Luo Feng... The moment I discovered Luo Feng, I wasted no time in sealing space. There was no way Blood Cloud Palace Master could possibly have rushed over from the outside world. He must have been in Luo Feng's world ring. But no matter how close they were, it was unlikely that Blood Cloud Palace Master would have followed him so closely, unless-"

An Yong Master's eyes flashed with realization as he gritted his teeth.

"I knew it! The humans want to protect Luo Feng, and Blood Cloud Palace Master's help is all part of their arrangement. No wonder... No wonder Blood Cloud Palace Master has never taken any action against the human race and is always wearing a mask. Blood Cloud Palace Master must be human!"
