

SWALLOWED 1171

## Chapter 1171: Toy

“Blood Cloud Palace Leader is human, and he’s been secretly protecting Luo Feng? Are you kidding?”

“Who knows? The news is spread among the universe masters, and chances are it’s genuine.”

“Haha... No wonder that Blood Cloud Palace Leader has never attacked humans. Now I know the reason. Goddamn human race! It secretly tells Blood Cloud Palace Leader to attack us Northern Territory Alliance.”

The news kept being spread. The Divine Eye clan and some powers in the original universe had information-sharing agreements. When An Yong Master spread the news, some of the powers that had suffered under Blood Cloud Palace Leader went to question the great beings in the human race.

“Is Blood Cloud Palace Leader human?”

“Why do you humans let Blood Cloud Palace Leader slaughter all those beings?”

“No? You’re not admitting it?”

“Okay, good for you.”

All those who went to question the human race got a similar response. Clearly, the human race wouldn’t admit that Blood Cloud Palace was human, and it didn’t care.

When some great beings of other races asked whether they knew human the Luo Feng was with Blood Cloud Palace Leader, the human race replied indifferently, “We don’t care who Luo Feng makes friends with. We don’t have any restrictions for who human universe masters to make friends with. If he’s really a friend of Blood Cloud Palace Leader, we won’t do anything about it. Sorry. We don’t need to tell you anything.”

The human race didn’t care about other powers. However, though Primal Chaos City Leader and Void Gold Master were tough to others, they were still surprised inside. They asked Luo Feng about it through the virtual universe.

Luo Feng’s answer was simple. “I met Blood Cloud Palace Leader in the water area of Tilted Peak Sector. We got along very well, so we decided to adventure through the area together.”

\*\*\*\*\*

Everything had been planned by An Yong Master, who had been beaten by Luo Feng and Blood Cloud Palace Leader. Thus far, his plan had failed, which upset An Yong Master. If he couldn’t kill Luo Feng, at least he could cause trouble for him! That was why he had started to spread the news.

“Blood Cloud Palace Leader has lots of enemies,” said An Yong Master. “His enemies will be hostile against you, Luo Feng. Humph! The more enemies you have, the more likely you’ll be kicked when you’re down. Just wait and see.” An Yong Master was patient. As a supreme being, he’d had a long life,

and he'd made himself an enemy of lots of other great beings. They had been hostile toward each other for an eternity.

"You dare to bully me?" muttered An Yong Master. "And as a nobody? I won't let you get away with that so easily. I won't..."

An Yong Master would take revenge for everything. When the great incarnation came, he would die as a great being from the first universe era. Also, he hadn't found any hope to survive the great incarnation. This was the true source of his anger.

\*\*\*\*\*

An Yong Master only made some more enemies of Luo Feng, but Luo Feng didn't care much about it.

"Normal great beings won't make enemies, as they're afraid of having too many of them."

"I have Star Tower, and it seems I can get another supreme true treasure, which means I'm destined to be exceptional. The more enemies I have, the more chances I have to sharpen myself."

Luo Feng was inside the cave between the first and the second light screen. He feared that it would be like last time. He went through the first light screen, and with the light screen, other great beings couldn't find him at all.

"The 100th time!"

Mosha body had tried to get to that mysterious wing space 100 times. However, it had died every time as soon as he barely even entered the space.

"100 times, and Mosha body only got to observe the surroundings twice." Luo Feng nodded.

Twice. Aside from that gigantic light wing, a storm surrounded it. Luo Feng made up his mind.

"I'll use Star Tower now."

He sat on the cold rock between the first light screen and the second light screen. He kept his eyes closed and tried to calm himself down. After all, it wasn't easy to get a supreme true treasure—not to mention, to make one recognize him as its owner. He couldn't be arrogant or careless.

He spent five minutes calming himself down and forgot about all the anxiety and excitement.

"Let's go." Luo Feng moved his mind.

Hua!

A man in bloody armor showed up. It was Blood Cloud Palace Leader.

Golden Horned Beast will stay here, and I'll go in, Luo Feng thought.

He let his original earthling body get in, as he was the one wearing the Shi Wu Wings; Luo Feng thought that might aid in getting those supreme true treasure light wings.

"Bigger! Bigger! Bigger!" Luo Feng held Star Tower.

Hua! Hua! Hua!

Star Tower bulged and grew into a tower 10,000 kilometers tall. Luo Feng stepped into the tower.

\*\*\*\*\*

Inside the control room of the tower, the metal ground was transparent. Luo Feng stood there.

“I can see everything outside.”

His mind was connected to Star Tower’s core mind. Star Tower had a certain level of intelligence, but it was highly limited. It might be able to do calculations incredibly fast, but emotionally, it was equivalent to a baby.

Everything out there showed up. It was like eternal simulation in which Luo Feng was able to see the rocks and the light screen on the outside.

“Move forward.”

Luo Feng controlled Star Tower, which started to fly.

Shua!

“Second light screen,” Luo Feng whispered and kept controlling Star Tower.

Star Tower flew slowly, but it went through one light screen after another. Before long, it reached the ninth light screen.

“I’ll now arrive in the mysterious space.”

Luo Feng gritted his teeth. He was bringing Star Tower, Shi Wu Wings, and Force Armor along with him. He couldn’t afford to lose.

“I have to succeed.”

Luo Feng clenched his teeth and entered the ninth light screen.

In the dark space, the blade formed a storm that swept across everything, and when Star Tower showed up, it was hit by the blade storm. It bounced away like a small boat in a tsunami.

“Damn it!” Luo Feng felt a terrific shock wave attacking Star Tower.

Hong! Long! Long!

One blade of light after another attacked Star Tower. Each time, it was like hundreds of blades striking at once, which blasted Star Tower away like a toy. Star Tower was completely defenseless.

Hit! Hit! The blades of light kept hitting Star Tower, which rolled like a soccer ball.

“Oh my god...!” said Luo Feng.

He stayed in the control room. Although Star Tower kept bouncing away, he didn’t feel anything in the control room. He couldn’t feel it, but he could see everything around it—including how Star Tower kept being blast away like a toy. He couldn’t resist such powerful shock waves.

“Powerful... Too powerful! The blade light is terrifically powerful.”

Luo Feng had his godly power infused everywhere in Star Tower, so he could clearly sense the shock wave. The blades of light were much stronger than the techniques from Star River Master! Hundreds of times more powerful!

The blades of light are incredibly powerful, Luo Feng thought. Possibly more powerful than attacks from universe supreme masters.

Although he had never fought a universe supreme master, even universe supreme masters were only stronger than Star River Master to a limited extent. Yet the blades of light... Each one made Luo Feng feel that it was much stronger than the ultimate technique of Star River Master.

Too powerful—if not for Star Tower, I would be killed instantly, Luo Feng thought.

When he'd fought Star River Master, he had been slightly injured using the shuttle of Star Tower, so it was unsurprising that he would have been killed instantly by these blades, which were hundreds of times stronger.

Luo Feng was right. Imperial Master had been in a top-tier palace type true treasure, which couldn't even be destroyed by a universe supreme master. However, he had been annihilated instantly. Apparently, the blade storm was stronger than attacks from universe supreme masters.

The blade storm was extremely powerful. Even Luo Feng, who was incredibly strong, couldn't control Star Tower. It bounced away time and time again.

"Smaller! Smaller! Smaller!"

Luo Feng kept controlling it.

Shua!

Star Tower shrank to the size of a grain of sand immediately. The original body of Star Tower was nine light years tall, and it could get larger! It could also become as small as a tiny particle... This was the ability of a supreme true treasure.

Star Tower had many interior spaces, but even when Star Tower shrank, and spaces weren't affected. Normal treasures could also shrink, but not to the size of tiny particles.

When it got smaller, Star Tower was only hit once in a while, as the blades of the storm were enormous.

"One blade alone won't affect Star Tower."

Luo Feng felt he could fully control Star Tower now. Before, it had been flung about like a toy and couldn't be controlled. Now, it wouldn't be affected. After all, it was a supreme type true treasure.

"The light wing!"

Luo Feng stayed in the particle-sized Star Tower. He looked at the endless storms outside and that glowing light wing. He flew Star Tower toward it immediately.

**Chapter 1172: Scram**

The speed of Star Tower kept surging while the space was filled with blade storms, each of which was enormous. There were so many that Star Tower was hit once in a while, and it couldn't fly on a straight line.

"So far." Luo Feng looked at the giant light wing in the distance. "This mysterious space might have a diameter of over ten light years, and the light wing is several light years away from me. However, space and time have been completely crushed so I can't do teleportation."

Teleportation needed space ripples—only a little bit. However, the blades were more terrifying than attacks from universe supreme masters, so they would annihilate space, which left no ripples at all. Luo Feng had to fly to the white wings.

Fortunately, I'm in Universe Ocean, where the speed limit is much higher than in the original universe, Luo Feng thought. The speed limit in Universe Ocean is 100 times faster than light speed, but because of the blade storm, Star Tower isn't able to hit the highest speed. Fortunately, it can still maintain an average speed of 50 times faster than light speed.

Flying! Star Tower swiftly flew through the blade storms.

\*\*\*\*\*

Time flew. After a month, Star Tower had already flown more than five light years, and it was very close to those giant white wings.

"All those blade storms come from that white pair of wings!" Luo Feng exclaimed, looking at the outside.

He saw the edge of the white wings emanating endless light, sweeping in the mysterious space. Some of the blade storms were absorbed by the white wings when they touched it. Erupting and absorbing!

Erupt and absorb? Conversation of energy? Luo Feng thought. It looks almighty, but it actually only consumes little energy. Incredible, how incredible! Much more powerful than Five-Color Aurora Lake.

Five-Color Aurora Lake was a supreme domain type true treasure, so it was weaker in attacking power. Besides, when Double-Face Ancestral God was fighting Virtual-Real Devil Master, Five-Color Aurora Lake hadn't been fully utilized. It wasn't deliberately conserved, but Double-Face hadn't fully comprehended that... After all, it wasn't an easy task to wield the maximum power of a supreme true treasure.

After another three days, Luo Feng was very close to the giant white wings.

"This..."

Luo Feng's facial expressions changed. He looked amazed before, but now, he was shocked.

"This—this—this is... It isn't a wing! No..."

From a distance, it had indeed appeared to be extremely breathtaking white wings more dazzling than billions of stars combined. However, when Luo Feng got close enough, he saw that it wasn't a wing at all, but a phantom formed by the overlapping of countless blade lights!

"Gosh!"

Luo Feng looked at everything with a thrill. In the distance, blade light overlapped with each other. On the edge, the blade light was thin, and the blade storms spread everywhere and enveloped the entire space. The closer it got to the center, the denser it was.

“A light wing formed by countless blades?” Luo Feng exclaimed. “Where did all the blade lights come from? There must be a terrific true treasure.”

Luo Feng was exhilarated. He kept flying.

\*\*\*\*\*

After another day of flying, Luo Feng finally saw it clearly. At the center of the huge light wing was a white wing, around which was a wing-shaped space. Outside the space around the white wing was the combination of all the blade light.

“The blade light formed a giant wing-shaped silhouette of light several light years tall, which formed blade storms. The origin seems to be that white wing.”

Luo Feng’s eyes gleamed. At the same time, the Shi Wu Wings on his back started to tremble as if they wanted to fly toward that white wings.

“I have to get it.” Luo Feng held his breath.

The closer it got, the slower Star Tower became. 100 million kilometers. Ten million kilometers. One million kilometers.

“So, this is what it looks like.”

Luo Feng kept observing the wings, as he was now able to see them clearly with his naked eyes. The pair of white wings was 100 meters tall and spread wide open. They looked white because they were covered with dimming white light and the material was white, but actually, it was covered with dust.

“Closer...”

The closer Luo Feng got, the clearer he saw it. It was a pair of white wings with bloodstains on it.

100,000 kilometers... 60,000 kilometers... 30,000 kilometers...

“Scram! Scram! Scram!”

A mental force suddenly hit Luo Feng, which stupefied him. The mind contacting him was extremely overbearing. It made him feel like an ant facing off against a tiger. Luckily, Luo Feng was able to stay conscious.

Something’s wrong, thought Luo Feng.

He found that the mind was hollow.

“Scram!”

The words of the mind kept attacking him, but he was able to stay calm.

Hollow, thought Luo Feng. Although it's got terrific power—more so than Huge Axe Founder—it's intangible.

Luo Feng concentrated his mind. "Kept going forward, but slow down."

20,000 kilometers. 15,000 kilometers. 10,000 kilometers... The mind kept roaring, but it wasn't difficult to resist it.

"Scram! Scram!"

Luo Feng dealt with it calmly and without fear. Star Tower had the power to guard the soul, so it could resist soul attacks as well as material attacks. As for crushing mental force, it was like a devilish force attacking him... It could, at most, crush one's mind, but as long as one kept his distance, his mind could quickly recover!

Star Tower continued slowing down. 5,000 kilometers. 4,000 kilometers. 3,000 kilometers... It kept getting closer.

That crushing mental force kept getting stronger, and it kept roaring, "Scram! Bastard! Scram! Otherwise, I'll kill you!"

"You would have done that already if you could," Luo Feng said with a smirk. "Besides, I'm in Star Tower. Even universe supreme masters can't do anything to me, let alone you, a simple and stupid mental force."

It was, indeed, simple and stupid. That crushing mental force did feel superior, but the only thing it was able to do was roar and swear. When Luo Feng tried to merge with blood river crystals, that devilish force knew how to form illusions—unlike this crushing mind, which only knew how to roar and swear.

"Rat bastard!"

"Rat bastard! Scram! Otherwise, I'll kill you! I'll rip your soul off your body! I'll make you regret for the rest of your life!"

The crushing mind grew increasingly angrier the closer Luo Feng got. Luo Feng didn't care. The mind wouldn't threaten him if it could really kill him. Even those beasts on the earth were more intelligent than the wing.

"Bastard, I'll kill you! I'll kill you! You'll regret it!"

2,000 kilometers... 1,000 kilometers... Luo Feng really felt the difficulty of the task now. He was thrilled, as his willpower was at the universe-master level; he wouldn't be affected if he was hit by other universe masters. Perhaps only a mental attack from universe supreme masters would affect him.

However, this "mind" was not that of any great being. Otherwise, it wouldn't have been so primitive. Yet the strength was still terrific.

So strange... Normally, distance doesn't matter when it comes to mental attacks, Luo Feng thought. Mental attacks from 10,000 kilometers would be no different from those from 100,000 kilometers.

"Is it converging?" Luo Feng moved his mind and turned Star Tower.

It had been drawing closer along a straight line. Now, it was following a curve.

“The several spots 800 kilometers away have the same level of attack. Low wisdom! And the mind attack can’t be concentrated.”

Although he was baffled, Luo Feng kept moving forward. 800 kilometers... 600 kilometers... 400 kilometers... 200 kilometers... The mental attack kept getting stronger.

Luo Feng started to sweat, and his eyes glinted fiercely and madly.

“So strong... 100 kilometers!”

Luo Feng kept moving forward slowly. The mind attack was much stronger. In such a short distance, the mind attack got denser and more oppressing, and it surged exponentially.

“80 kilometers.” Luo Feng appeared to be in agony.

“60 kilometers.” Luo Feng’s godly body started to shake.

“50 kilometers!” Luo Feng knelt down on one knee. His godly body was trembling. He clenched his teeth as if he were being attacked by a giant beast.

“Huh?”

Luo Feng had seen three bloodstains on the white wing before, but now that he was 50 kilometers away, he saw three scratches on those exquisite white wings! They looked like scratches made by a weapon, and the structures of the wings were a bit damaged.

A broken wing?

Luo Feng was dazed.

### **Chapter 1173: The Spirit of a Supreme True Treasure**

There were three scratches on the fine lines of the blood-stained white wings. Luo Feng was baffled. Any one of those blade-rays that spread all over space during the endless blade storm was even more frightening than the attack of any universe supreme master! This pair of white wings was undoubtedly a supreme true treasure.

Based on common knowledge, supreme true treasures could not be damaged! Even within the three most dangerous lands, the same theory applied.

“Damaged? How can it be damaged?” Luo Feng was confused. “Scratches? How did that happen? Which dreadfully scary fellow could have scratched it? Or was it caused by a certain uniquely dangerous environment within the core domain of the three most dangerous lands?”

Various thoughts flooded Luo Feng’s mind instantly. Something that could scratch these supreme true treasure wings—and even stain them with blood... There must have been a story behind this.

Although he was shocked and confused, Luo Feng managed to stay level-headed. Since setting foot in Universe Ocean, he had grown to understand the area better through the information he acquired and had gained an understanding about certain matters...

The Universe Ocean was simply too mysterious! The great beings of any reincarnation era could only live up to a maximum of three reincarnation eras (apart from the two holy grounds). Up to that very day, no one was able to explore beyond the boundaries of Universe Ocean.

A large quantity of miniature universes, including the countless ones that had been destroyed, were all limited in size. Except for the two holy grounds universes, they were extremely big! A miniature universe was the creation of a universe supreme master. As for the two existences that left behind the two holy grounds miniature universes... what level would their powers have reached? Until now, there was no relevant information.

“To be able to scratch this pair of supreme true treasure wings, I guess only the two existences who created the two holy grounds universes could achieve that,” Luo Feng hypothesized. “But there is no information about them at all.”

Of course, he was only speculating. The Universe Ocean was full of secrets. Even he was in a state of bewilderment.

He looked at the pair of white wings from afar—those dazzling wings!

“Something must have happened to them, but I cannot be bothered. What I need to do now is to get ahold of this supreme true treasure.”

Luo Feng knelt on one knee and placed both palms on the floor to endure the crazy waves of oppressive willpower. That self-contented and insane willpower was roaring.

“Get lost! You bastard, get lost, or I will kill you! Kill you! Advance!”

Luo Feng gritted his teeth as he manipulated Star Tower. The oppressive willpower was frightening. The intensity was only second to the time when Star Tower had gone through a life and death ordeal. Back then, the pain during the fusion with Tower Pearl had been excruciating. The pain now was quite tormenting, but it was nothing compared to the previous one.

45 kilometers... 40 kilometers... This oppressive willpower spread in all directions, and the closer it got to the white wings, the more intense the oppression was. This intensity did not increase by mere degrees. Instead, it was a surge in level.

36 kilometers... 34 kilometers... 32 kilometers... 30 kilometers... 28 kilometers...

“Ah!”

Luo Feng trembled all over. His eyes were bloodshot, and blood was pulsating through his veins. The surrounding space around him trembled as his muscles, viscera, and bones howled as though his life depended on it... Even Luo Feng found it so unbearable that he had to let out a small cry.

Pain! It was horrendous agony!

“I can tolerate it! This is not the limit yet!” Luo Feng said, telling himself to bear with the pain.

He was closing on the distance. 22 kilometers... 20 kilometers... 18 kilometers...

Luo Feng was starting to get attacks of syncope, intermittently blacking out. The oppressive willpower was making him fall into a deep slumber, yet it also seemed to be easing up on him while continuing to roar, "Bastard! Loathsome bastard, you think you can get close to me? Haha, far from it! Bastard, quickly take your leave, and I shall spare your life."

"Stop!" Luo Feng gritted his teeth but still was unable to stop them from chattering.

At 16 kilometers away, he finally stopped. This was only a hair's breadth away from the true limit between life and death, but it was already dangerously near. Luo Feng dared not intrude further.

The white wings were still unleashing endless blades, which gave form to those dazzling, gigantic light wings.

At 16 kilometers away from the white wings, Star Tower stopped.

In the main control room, Luo Feng was seated cross-legged with his eyes closed, silently fighting the impact by the oppressive willpower. Thereafter, he eased into gradual adaptation to the impact. The oppression was gradually reduced.

After half a year, Luo Feng opened his eyes.

"Under such suppression, my own willpower was able to undergo a honing process, allowing me to steel myself. This was my gain after all."

Luo Feng smiled. Then, he looked out at the white wings.

"I must lay hands on this pair of wings." Luo Feng said with an intention in mind.

Right away, a trace of godly power flew out of Star Tower. As the white wings released blade-rays on a two-dimensional plane level to its light wings, there were no blade-rays at the front or back of it for a full 10,000 kilometers.

Gigantic, dazzling light wings that spread out to give rise to a blade storm might have swept through space. Yet 10,000 kilometers from the closest two sides of these white wings, there was not a single trace of a blade-ray to be found.

"Godly power, get closer!"

Luo Feng manipulated his thread of godly power and directed it toward the white wings.

"Get lost!" The oppressive willpower charged at his godly power right away.

Peng!

Godly power dispersed. Every trace of godly power had its own life imprints and willpower and thus, naturally would be easily annihilated.

"Seems like this is not going to work. Star Tower, grow longer!" Luo Feng manipulated from within.

"Longer!"

"Longer!"

“Longer!”

Star Tower grew longer rapidly, and its tower peak got nearer to the white wings. However, the godly power from within Star Tower was still under the impact of that oppressive willpower, so even though the tower was growing bigger, the godly power it could exert was partial where the topmost region of the tower peak remaining void of godly power.

“Hook onto it!”

Star Tower was a nine-story tower, so naturally, its edges would be able to hook onto the wings. As Star Tower grew increasingly larger, gradually closing the distance to the white wings. Finally, the tower reached the white wings; the edge of the tower was a full 100 kilometers, and the white wings were only 100 meters, so, theoretically speaking, holding onto the white wings should be easy.

Peng!

The moment Star Tower’s peak touched the white wings, the feeling evoked felt as though an ant had rammed against a mighty mountain. The wings did not even budge!

“I’m ramming into them, yet they did not move at all?”

Luo Feng could not believe his eyes. First, he maneuvered Star Tower into moving back slightly, then he charged forward suddenly while accelerating.

Bang!

Hong!

Star Tower’s peak rammed into the white wings ruthlessly. Yet the white wings continued to unleash endless blade-rays that converged to form dazzling light wings. Star Tower’s attempt to crash into the white wings proved futile.

“Damn! This—this...!”

Luo Feng’s eyes widened. Back when Star Tower was involved in battles in the outer domain, it was a treasure without a master, so it could not move about on its own. But due to its massive size, other great beings were unable to move it either.

“This pair of white wings before me is small,” said Luo Feng. “The wings are only 100 meters in size, yet my Star Tower, after reaching a massive size of a few thousand kilometers, is unable to cause it to budge at all?”

Peng! Peng! Peng!

Star Tower was like a mallet banging the ancient, massive bell, ramming into the sides of the white wings from a horizontal angle repeatedly; it even retreated to accelerate to a dozen times the speed of light to continue ramming into the white wings.

“It really is not moving at all?” Luo Feng was a little stunned. “What should I do? If my godly power wanted to get closer but is unable to, then there is no way I can get hold of those white wings.”

Luo Feng was getting frustrated. It was a piece of supreme true treasure that was only 16 kilometers away in midair, but it was unleashing endless power, demonstrating its capability. Luo Feng was at his wit's end.

Time passed with Luo Feng thinking of new ways to try every day, yet every trial resulted in failure. However, Luo Feng was reluctant to give up. After all, this was a supreme true treasure. Luo Feng could now empathize with the helplessness the four pinnacle races felt when they had all fought hard for Star Tower, but none had been able to get the Tower to recognize a master.

With a twinkling of an eye, nine days passed.

“Bastard, get lost! There is no way you can lay hands on the wings. Get lost! Don't court your doom.”

The oppressive willpower had never stopped for a breather, but Luo Feng had grown accustomed to the impact of this oppressive willpower.

Suddenly—

An intangible wave transmitted by the white wings in a split-second reached deep within Star Tower and into Luo Feng's mind.

“Human,” an ancient voice said.

Sitting cross-legged, Luo Feng's eyes lit up. He clearly felt a willpower that was different from the first one. “Who are you?”

“I am the spirit of the wings true treasure,” the ancient voice said.

Luo Feng was a little taken aback but not completely shocked. It was just like how his supreme true treasure, Star Tower, had a spirit of its own, albeit with a low intelligence level. It was like a child—easily coaxed. This pair of wings seemed to be much more mature.

“I did not expect this,” the ancient voice said. “That I would actually have a component in the outside world.”

“You did not expect to...?” Luo Feng was shocked.

“I once joined my master in a major battle where he was annihilated,” the ancient voice explained. “His wings were damaged, and the original spirit of the wings was also destroyed. I am a newly born spirit, so I can only recall snippets of the battle. I vaguely recall one blow from our enemy, but the rest is entirely forgotten. Since birth, I have been here. I thought I was a sole existence, but it seems like there are another two pairs of wings. Judging from their powers, though, I must be the core, while the other two pairs constitute parts of me.”

Luo Feng was secretly awestruck. A major battle? Damaged wings with the original spirit destroyed...?

“How did you know that your master had been annihilated?” Luo Feng could not help asking.

“I am an object without a master, so naturally my master must have been annihilated,” the spirit of the wings said. “Human, I have been trapped here for countless ages. I want to leave. But... I am unable to. I need your help.”

“Help?” Luo Feng asked persistently. “How can I help you?”

“There are four bloodstains on my wings,” the spirit of the wings began. “Within each bloodstain, there is a terrifying power and willpower. For time beyond measure, I have been suppressing it, wanting to destroy it. In all that time, I only managed to expel one. There are three remaining... Only if I can suppress and expel them all can my full potential be unleashed. Do you see the injury on my wings?”

“Yes,” Luo Feng replied.

“I’m injured. Expelling the three bloodstains is difficult. I need some precious true treasures. I will have to swallow these true treasures to facilitate my self-restoration. Now, I need your help. If you can provide me with enough true treasures to help my self-restoration, I am willing to recognize you as my master. But do bear in mind that I have very stringent requirements when it comes to recognizing a master.

“One, you must have the perfect life genes. Two, your willpower must be strong enough. If you are an undying fighter, your willpower must be comparable to a universe knight. If you are a universe knight, your willpower must be comparable to a universe master. If you are a universe master, your willpower must be comparable to a universe supreme master. What a pity. I see that your willpower is only on the level of a universe master. You still need to improve and increase further.”

Listening to the voice of this spirit of the wings, Luo Feng was extremely calm. But suddenly, his heart gave a sudden throb.

Something is not right! A sudden realization dawned upon Luo Feng. It is lying to me!

#### **Chapter 1174: Spirit**

The universe perceived that it was not dangerous to make true treasures recognize someone as their master. Luo Feng had a different experience as he tried to make Star Tower recognize him as its master. He knew exactly how dangerous it was. If he got killed and some great being tried to make Star Tower recognize him as its master! Tower Pearl was strong enough to kill that great being!

When the spirit of the wing true treasure conveyed a message to Luo Feng’s mind, he was extremely careful, as he didn’t want to lose his life trying to make a supreme true treasure recognize it as its master. Which was why he kept pondering what the spirit said.

The conditions for recognizing someone as a master? Perfect gene level and powerful willpower? He fit them both.

He had a perfect gene level, and he had the willpower of a universe master as a universe knight!

I’ll see what sort of games you’re playing, Luo Feng thought.

The feeble ripples permeated and penetrated Luo Feng’s mind. They kept talking to each other.

“The two conditions you just mentioned?” Luo Feng was overjoyed as he said, “I fit them both. My life gene level is perfect, and I’m a universe knight!”

“You fit them both? You’re a universe knight? Aren’t you a universe master?”

"I am a universe knight," said Luo Feng.

"Don't lie," said the spirit. "You won't be able to make me recognize you as a master if you don't fit the conditions."

Weng! Weng! Weng!

The wing on Luo Feng's back kept shaking. Actually, the Shi Wu Wings had been shaking intensely in the cave outside. It had been several months since Luo Feng had arrived at the mysterious space, and the Shi Wu Wings kept shaking. The closer it got, the more intense it shook. Luo Feng was only able to make sure that his Shi Wu Wings didn't fly out.

"I'm not lying. I am a universe knight and have perfect life gene level," said Luo Feng. "I've fulfilled both the criteria, but I can't make you recognize me as your owner. My godly power can't even be near you."

"You mean the mind that hit you?" the spirit said. "The mind came from those three bloodstains, and it's suppressed by me. I'm trying to get it off me, so it's been struggling. It doesn't want any other life forms to approach me. Once I recognize someone else as my owner, I'll recover more quickly if I have an owner to help me, which is why it tried everything to stop you."

"I see," said Luo Feng.

"If you want me to recognize you as my master, it's pretty simple. Though you can't get close to me, I can fly a part of my core out. As long as you grab that component and make it recognize you as its master, I will, too."

Luo Feng was thrilled, "That's right. I can't get close, but if a part of your core leaves your body, I can surely grab it."

"But why should I trust you, human?" said the spirit.

"What?" Luo Feng was dazed.

"I am broken, and I need to be repaired—repaired with some true treasure material—and I wish for my master to help me," said the spirit. "I've told you that I'll recognize someone who can help me repair myself. I need you to show your sincerity and give me some material of a true treasure to help me recover."

"The precious material of a true treasure?"

"At least enough material to make a pinnacle true treasure," said the spirit.

"You expect me to have that sort of material?" said Luo Feng.

"Or a pinnacle true treasure," said the spirit. "I know you have lots of pinnacle true treasures on you. Like the blade you're carrying."

Luo Feng looked hesitant.

"I need to repair myself!" the spirit said, sounding a bit irritated. "You won't need that blade anymore when you have me. I'll be much stronger. It's time to show your sincerity. Give me the material. I'll absorb some, and I'll give you the core."

“You can lose one pinnacle true treasure now. The more you invest in me, the more you’ll value me in the future,” said the spirit. “I need to make sure you’re determined to repair me. Otherwise, I won’t be able to change anything once I recognize you as my master. If you can’t even do this, I won’t be able to trust you. Then I’ll wait until the next great being come.”

“Am I the first one here?” asked Luo Feng.

“No, two came before,” said the spirit. “A universe master came not long before. He was flying a top-tier palace true treasure, but I killed him instantly. There was another one a long time ago, right after I was born. He came here in a pinnacle palace true treasure, and he talked with me for a long time. He told me a lot about the outer world. He let me know about universe masters and universe knights. He’s the first life form I saw. I wasn’t intelligent back then, and I was willing to recognize him as my master. Unfortunately! He didn’t have a powerful mind. He often came here to sharpen it quickly and helped me look for the material. However, I lost track of him after some time. He hasn’t been here for an eternity. He may have died.” The spirit sighed.

Luo Feng listened carefully. That superior mind kept hitting Luo Feng.

“It’s the wing! The wing! It’s terrifying! It’ll kill you if you don’t go!” It kept roaring. “It’ll kill you! It’ll kill you!”

Luo Feng stayed calm.

“Give me the material of a pinnacle true treasure, or a pinnacle true treasure,” said the spirit. “I don’t think you’ll care about one pinnacle true treasure, given your power. Are you not willing to trade one pinnacle true treasure? The mind from the bloodstains scared you? It fears that I’ll eliminate it, which is why it keeps telling you to leave. I’m not going to urge you anymore. Make your own decision.” The spirit went quiet.

Luo Feng started to contact the spirit of his Star Tower. “Star Tower, that pair of white wings just told me the conditions for me to become its master...”

Luo Feng told the spirit of Star Tower everything. Star Tower wasn’t intelligent enough, but its operational speed might be quicker than that of a universe supreme master.

“Is it a trap?” asked Luo Feng.

A mental wave emanated from the spirit of Star Tower. “Master, lots of sector lords, undying fighters, and even universe supreme masters have ventured inside me. I’ve gathered lots of information. However, I don’t know much about other supreme true treasures. I can’t find anything deceiving about what the spirit of the wings just said.”

“Okay.” Luo Feng nodded.

Silence.

Star Tower shrank to 100 meters and floated beside the white wings.

It was natural for Luo Feng to be hesitant. After all, everyone knew that it was difficult to make a supreme true treasure recognize someone as its master. When a great being wasn’t sure, he wouldn’t just give away a pinnacle true treasure.

Was he willing to take such a gamble? Normally, great beings would be willing to risk it. After all, only those great beings with at least a pinnacle palace true treasure could make it to the spirit of the wing. Hence, for those great beings, they would be willing to trade a pinnacle true treasure for a supreme true treasure. After all, there was only one chance, which was why the spirit of the wing wasn't rushing anything.

I'm not going to rush anything, either, thought Luo Feng. I'll spend the time sharpening my willpower. It's set me up, and it won't be able to wait for too long. I'll see what it's going to play next. It won't be able to do anything to me as long as I stay in Star Tower.

Luo Feng was pretty sure that the spirit of the wing was lying to him.

It thinks it's smart, but it doesn't realize that its story is flawed, Luo Feng thought. I'll wait and see.

Luo Feng started to wait.

Time flew by, and Luo Feng got closer and closer to the white wing. That willpower kept hitting him, but it was a fantastic chance for Luo Feng to sharpen his own willpower. He kept moving forward while challenging the limit of his willpower.

After six years, Star Tower was only 15 kilometers away from the white wings.

The Shi Wu Wings on Luo Feng trembled more intensely.

"I, I..."

A ripple came from Shi Wu Wing.

Luo Feng was startled. The terrifying mind hit him, forcing him to drive Star Tower back to 20 kilometers away from the white wing. Only at that point was he able to resist that pressure and stabilize himself.

"That ripple?" Luo Feng was startled.

"I... I..."

A feeble ripple came from Shi Wu Wing.

"Shi Wu Wings? Shi Wu Wings?" Luo Feng was shocked.

Those ripples... were coming from his Shi Wu Wings?

A spirit had been born in Shi Wu Wing? A top-tier true treasure? No, it must have been a component of a supreme true treasure! That pair of white wings was also a component, but it was much stronger. A spirit had been born in those white wings, but that didn't mean his Shi Wu Wings couldn't have a spirit.

However, why had the spirit only shown up now? He'd been waiting for the next step from those white wings, but a spirit had been born in his Shi Wu Wings.

"I... I..."

The ripples were feeble. At first, they couldn't even convey a message. After six days, it managed to send the first message.

“I... Mas... ter...”

Like a baby, the spirit of Shi Wu Wing was weak. However, Luo Feng remained patient. Time went by, and the spirit grew more mature. After almost a year, it was finally able to converse with Luo Feng.

A mental ripple was sent: “Master, I want to get out.”

“Out?” asked Luo Feng. “To where?”

“I want to... I want to eat the light outside!” said the weak ripple. “Light... The light of the origin. That’s the origin.”

“What’s the origin?” asked Luo Feng.

“The origin is there...” said the feeble ripple. “Broken memories. There are six pairs of wings in my memories. The origin is there. I need the light—the light from the origin.”

Luo Feng was completely bewildered.

These wings...?

### **Chapter 1175: Recognizing its Master**

As the spirit of Shi Wu Wings was newly born and was not very clear in expressing itself. Luo Feng was naturally extremely patient with it, spending almost half a days’ time before he finally gained some understanding.

Although this spirit had just been born, it did have some snippets of memories. It did not remember scenes of battle and fighting; rather, it remembered the looks of its previous owners...

Its previous owner, based on what the spirit of Shi Wu Wings said, was a giant with two horns and a towering godly body that had six pairs of wings. Shi Wu Wings made up two out of those six pairs of wings.

And... the spirit of Shi Wu Wings was absolutely certain that its six pairs of wings were comparable to one another. Every pair was equally important. Within the structure of the entire true treasure, every pair had its own unique function. A missing pair would deprive the true treasure of true perfection.

“Then why is it so powerful?” Luo Feng asked.

The spirit of Shi Wu Wings explained that it was because of its origin!

“Origin” referred to the core of all six pairs of wings. Based on the communication with Shi Wu Wings and the understanding he gained from it, its origin worked in a way similar to a car engine! And it had “storage” efficiency. Its previous owner was very powerful, and much of his godly power had needed to undergo conversion by the origin before it could be stored. That was the significance of the origin’s existence, and that was why this pair of wings was so powerful.

“I have to obtain it, but how do I do it?” Luo Feng asked.

“Get it to recognize you as its master,” Shi Wu said.

“How do I get it to recognize me as its master?” Luo Feng continued to press for answers.

“When a master imprints his godly power on the wings, the moment life imprints are in place, the wings will recognize its master,” Shi Wu said, then anxiously added, “but Master, I am a newborn spirit, and that pair of wings has a spirit, too. Toward the end, when fusion is completed, we two spirits will have to attack and fight each other to the death. One will swallow the other, until finally, there is only one spirit left. Master, if there comes a time to recognize our masters, you must help me. Only you can help me... Then I will be able to devour it.”

Luo Feng sighed to himself, it was only half a day of interaction, but the more the spirit of Shi Wu Wings spoke, the stronger its ability in exchanging information grew.

“All right, I will help you.” Luo Feng nodded.

Shi Wu had been with him the moment it was born. On the other hand, the spirit of the pair of white wings harbored ill intentions. If he had to choose, it would obviously be better to choose Shi Wu.

“But Shi Wu, with my godly power, I am unable to get close to that pair of wings. What should I do?” Luo Feng asked.

Shi Wu was the spirit of a true treasure. When it was first born, it would naturally be clear on its requirements for recognizing its master.

“Recognizing a master is difficult,” said Shi Wu. “Because that pair of white wings has an origin within it, and that origin is its core, the spirit born within that pair of wings was actually a spirit born with the origin as its main body. For us other kinds of wings, we can recognize someone as our masters easily, but it is different for the white pair of wings... The difficulty level for it to recognize someone as its master matches that of a complete wing true treasure.”

“What are the requirements?” Luo Feng questioned further.

“The requirements for willpower are high,” Shi Wu explained. “For a sector lord, the willpower must match that of a universe knight. For an undying fighter, the willpower must match that of a universe master. For a universe knight, the willpower must match that of a universe supreme master. For a universe supreme master, the willpower must exceed that of one beyond a universe supreme master.”

Luo Feng was astounded. He continued to bombard Shi Wu with more questions: “Beyond a universe supreme master? That really exists?”

“Yes, I vaguely remember so from the snippets of my memories,” Shi Wu said. “There is a much stronger existence than the universe supreme master that Master knows of. My previous master was one of them!”

Luo Feng took a deep breath. Really? It was indeed true!

Countless great beings within Universe Ocean had speculated about this—especially the universe masters from the two holy grounds. Those universe masters were especially arrogant and regarded their “universe ancestors” as far superior to the ancestors of the various other universe supreme masters. They even considered their ancestors to be more powerful than Teacher Origin, who was said to be

invincible! They shouted aloud that their universe ancestors were extremely powerful, that their universe ancestors were invincible! Yet no one had met those two before.

However, it did not matter whether it was Teacher Origin or the other universe supreme beings. To the largely damaged miniature universe, they were all considered to be only slightly bigger; the two holy grounds that had two universes were the ones that were massive. The two holy grounds had undergone umpteen rounds of reincarnation, which had caused the other 100-plus powers to be wary of the legendary universe masters of these two holy grounds. In their hearts, they had identified with the fact that these two universe ancestors were possibly terrifying. It was just that no one had met them before.

Countless eras... No one had met them before. Therefore, everyone took them to be non-existent.

Shi Wu Wings' previous master was a being that was more powerful than a universe supreme master. Luo Feng was stunned. Really! It turns out to be true! There really is an existence that is more powerful than a universe supreme master... Seems like the universe ancestors of the two holy grounds may have surpassed that level. Could it be... for my miniature universe to achieve eternal existence, I have to surpass a universe supreme master?

Luo Feng came to a conclusion. Eternity was a difficult objective to achieve. Countless miniature universes had been destroyed. Only those of the two holy grounds had managed to survive, clearly showing the difficulty level.

Seems like this has implicated some of the secrets of Universe Ocean, Luo Feng thought.

Luo Feng buried all these thoughts deep within him. After all, in the vast Universe Ocean, where great beings gathered in great numbers, with that modest amount of power he had, he was still far from having a pristine understanding of those secrets of Universe Ocean.

"Shi Wu, you mentioned recognizing someone as its master?" Luo Feng could not contain his questions. "The requirements are so high?"

"Master, you are a universe knight, so your willpower must match that of a universe supreme master," Shi Wu said. "I am not so sure about the other extremely powerful true treasures, But I know that it is the case for that pair of white wings."

After all, they were both wings born from the same origin, so naturally, Shi Wu would understand the white wings well.

"What if I cannot reach that level of willpower?" Luo Feng pressed.

"Then you cannot succeed," Shi Wu replied without hesitation. "At most, you fail to get it to recognize you as its master. Your life will not be in any form of danger."

"Recognizing someone as its master does not have any relation to life gene level?" asked Luo Feng.

"Not at all," Shi Wu answered with certainty.

Luo Feng's pupils contracted as he squinted. He had found the white wings suspicious earlier on. Now that Shi Wu had been born, from the various information he had acquired from Shi Wu, there was clearly no relation between recognizing a master and life gene level. Actually, thinking back to when he'd gotten Star Tower to recognize him as its owner, his life genes had not been involved at all.

And the spirit of that pair of white wings had lied to him... lied by saying that a universe knight would need the willpower of a universe master. The truth was otherwise. A universe knight would require the willpower of a universe supreme master!

“Shi Wu,” Luo Feng said. “Previously, when I was interacting with that pair of white wings...”

Luo Feng told Shi Wu every detail about the previous conversation he had with the pair of white wings.

“It is lying to you, Master, it is lying to you!” Shi Wu said quickly. “Your current willpower, Master, is not enough at all. It will be too dangerous. I suspect that it is tricking you into believing that it will recognize you as its master. It is highly possible that it wants to kill you, Master. Just one of the rays from its wings could annihilate you.”

“I am already aware of that, Shi Wu. Tell me, what should I do to get hold of it?”

“When Master’s willpower has reached an appropriate level, there are two ways. One is to imprint your godly power on that pair of wings. Once imprinted, your godly power will naturally spread to every inch of the wings.” Shi Wu elaborated further: “The other way is to get the pair of white wings to hand over its core origin. Once its origin makes its way to Master, Master can imprint his godly power onto its origin. Then it would have to recognize you as its master. But it has to be the origin. Any other individual component would be useless.”

Luo Feng nodded. He understood. Just like how Star Tower recognized him as its master, it had to be Tower Pearl fusing with the soul; if any other component within Star Tower—for instance, a sealed star—attempted to recognize someone as its master, it would not be of any help to Star Tower at all.

“Master, you should wait,” Shi Wu continued. “Wait patiently. If that pair of white wings starts to panic, then there might be a chance. So long as it gets its origin to fly out, I can clearly judge whether that is its origin or not. By then, Master can trap its origin within Star Tower. Star Tower is extremely powerful. If the origin is trapped within one of its space, it would definitely be able to escape. Master, you may as well loosen up for a long, slow wait. Go hone your willpower until your willpower reaches the threshold. Then you can obtain the origin to make it recognize you as its master.”

Luo Feng nodded. “All right. I will wait!”

\*\*\*\*\*

With the passing of time, the spirit of Shi Wu grew rapidly and at a visible range. Its intelligence level was not high, but its operational speed was extremely high, so when it came to the dissemination of information, it was naturally even clearer and more lucid. Shi Wu was rearranging the snippets of its memories, then combining them with the various materials gathered from the present-day Universe Ocean to churn out a large number of deductions.

Another three years passed.

Finally, the pair of white wings transmitted a communication wave to Luo Feng.

“Human,” the spirit of the white wings said.

Luo Feng laughed to himself. Indeed, it had come looking for him.

“Are you stalling for time on purpose?” began the spirit of the white wings. “You know that I want to self-restore; you have unlimited life. You have come to know that this place is a good place for honing your willpower and that it is hard to come by, so you are not in any hurry, right?”

“Right,” Luo Feng replied honestly.

“You are very straightforward, but you are not willing to take out a single pinnacle true treasure,” the spirit of the white wings said. “That is very disappointing.”

“I’m not willing to take the gamble,” said Luo Feng. “If I failed, wouldn’t I be losing a pinnacle true treasure? A pinnacle true treasure is very important to me.”

“I am much stronger than a pinnacle true treasure,” the spirit of the white wings said.

“But you have yet to recognize anyone as your master,” Luo Feng replied. “Why should you be so insistent about my giving you a pinnacle true treasure first? If you recognize me as your master, I will own you, an extremely powerful true treasure. Naturally, I will find ways to make you even more powerful. A super great being only needs a few true treasures that suit himself. No one great being, after owning a true treasure such as yourself, would let your potential go to waste by not finding ways to boost your ability.”

Silence.

Soon after, the spirit of the white wings retreated. Luo Feng closed his eyes and continued to train his willpower. He was in no rush at all.

\*\*\*\*\*

In the blink of an eye, another three years went by.

The communication wave came along again.

“All right, I concede defeat,” the spirit of the white wings admitted.

“Hahaha, don’t worry,” said Luo Feng. “So long as you recognize me as your master, I will definitely find ways to restore you and allow your power to grow tremendously. You are my trump card. Wings, this process about recognizing your master—it requires your core component, doesn’t it?”

“Yes,” the pair of white wings said. “I am now going to release a core component. Grab it and imprint your godly power. Then I will have to recognize you as my master. I hope you won’t disappoint me.”

“I will not disappoint you,” Luo Feng said.

Hua!

A speck of light came flying out of the edge of the pair of white wings. The very next moment, the densely gathered blade-rays were sent flying away in random directions due to the impact of the collision. They were sent tens of thousands of kilometers away. At times, a random blade-ray would happen to hit this speck of light right in its middle.

Far away, amidst the endless blade storm, that speck of light was flying about haphazardly.

“Shi Wu, is that the origin?” Luo Feng asked quickly.

“No, Master,” said Shi Wu. “The origin is the source of those lights. If it flies out, then countless blade-rays will be following it around as it flies. It is the true core of the endless rays. That is fake. I am sure of it. There is a blade-ray concealed within it. If you try to get it to recognize you as your master, the blade will attack you right away... Then Master will die.”

### **Chapter 1176: Fight**

Luo Feng was shocked. If it weren't for the spirit of Shi Wu Wing, he wouldn't have been able to tell that it was a trap.

“Human.” A ripple came. “Grab my core.”

Hua!

A light spot was attracted and flew toward the white wing. Star Tower was close to the white wings and the light spot.

“Grab it, and I'll tell you how to make me recognize you and seal your godly power in it.”

“I've grabbed it.” Luo Feng let out his godly body, and he grabbed the light spot. It was a strange white bead. ‘I've grabbed it with my godly power, but I can't seal my life imprint on it.”

“Don't rush it,” the ripple said. “The more powerful a true treasure is, the more complex the process it. Grab the core and put it in your godly body...”

Luo Feng couldn't help but laugh inside. If he put that core component inside Star Tower, the light would be let out instantly.

“In my body? I don't dare to do that. I've decided to let my soul slave try first,” said Luo Feng.

“Soul slave? Your soul slave won't succeed,” said the spirit. “One needs to have a perfect life gene level and great willpower. Do you have such a soul slave?”

“I can at least try,” said Luo Feng.

“Then try,” said the spirit.

It kept waiting. Once it went into Star Tower, it would be able to kill Luo Feng.

Star Tower took a step back.

Shua!

A black being flew out of Star Tower and went up in the sky, it was Mosha body.

“I come here and make you recognize me as your master.” Mosha body flew toward that bead.

The space around the white wing was quiet, and Mosha body could exist in that space.

“You let your soul slave do it outside?” The white wing was startled, as it couldn't kill Luo Feng outside.

“Why not?” Luo Feng asked.

Mosha tried, and nothing happened.

“Only those who can fulfill the conditions can succeed,” said the spirit. “Your soul slave won’t be able to do it.”

“Why didn’t you say so before?” asked Luo Feng. “Even if it’s a powerful true treasure, it won’t have any reactions. However, nothing happened when my soul slave tried just now. I can say for sure that it’s a fake core. Give me the real one.”

“It’s different for supreme true treasures.”

“You’re lying,” said Luo Feng. “Give me the real core.”

The ripple stayed silent for a while.

“You’ll never be able to get out,” said Luo Feng. “You have to have a master. Give me your real core. I’ll do it once you give me the real core.”

“Damn it! Damn human! How did you find out?”

“You have finally stop pretending?” Luo Feng jeered. “You’re not as smart as you think. You started to set me up the first time I talked to you. You started with your broken memories and the fight, which shocked me. Indeed, it shocked me as I couldn’t imagine that such a true treasure could be damaged! And then you told me that the conditions are hard. Perfect life gene and willpower. And then, you wanted a pinnacle true treasure. Hahaha... One claim after another, you were just trying to lower my guard down. After all, you’ve been trying to stop me by giving all those conditions.”

Luo Feng smirked and continued. “Lots of great beings aren’t sharp enough. They might be hesitant if they could easily get valuables. However, if the conditions are high, they would be thrilled to know that they matched the criteria. Then they wouldn’t be suspicious anymore.”

“How did you start to suspect me?” asked the white wings.

“You told me you needed my help for material to repair yourself,” said Luo Feng. “And then, you kept telling me how harsh the conditions were and that I needed to sharpen my willpower. These two statements are totally contradictory to each other.”

“Contradictory? Contradictory how?” The white wing still hadn’t figured out the problem.

“If I’m really a universe master,” said Luo Feng. “My godly power will be 100 times life gene. Yet you want a perfect life gene level, which alone is already almost impossible. How can I reach the perfect gene? A real universe master might just give up and not help you anymore. You need my help, so you pretended that I was a universe master. However, the conditions you have can make a real universe master give up. Don’t you think it’s contradictory?”

Luo Feng smirked. “You also know that I have a supreme true treasure,” he went on. “If I can really get a supreme true treasure, do you really think I am a universe master with a life gene level of 100 times? Haha...! It’s contradictory. You tried to set me up. You thought if I was excited about matching all the

conditions, I wouldn't notice. However, from your perspective, your narrative is full of problems." Luo Feng sneered.

It was difficult to realize that it was a trap. Fortunately, Luo Feng was cautious from the very beginning, which was why he had been able to realize it was a trap.

"The trap is too complex," said Luo Feng. "I spotted its flaws. Stop fighting and give me the core. You need to have a master anyway."

"You? My master?" said the white wings. "You're not even close. Only the top-tier beings in Universe Ocean can be my master. You might not be able to utilize my power after an eternity. It'll be to my shame and to my previous owner's shame."

"How upsetting." Luo Feng shook his head and sighed. Then he gave an order: "Absorb."

"Yes, master." Shi Wu had waited for a long time.

Hong! Long! Long!

Suddenly, four wings extended from the four portals of Star Tower, and they started to bulge from the size of specks to larger than a star—as if Star Tower had grown four wings.

"Light, light from the origin!" Shi Wu was excited.

Hong!

Inside this mysterious place, the giant white wings started to shake. So did the blade of light, as if a towering skyscraper was able to collapse.

"No!" The white wings were terrified. "Spirit? Your wing has a spirit too? How is it possible?"

The blade of light started to fly toward that silver wings like moths flying toward a flame, and the giant white wings started to tremble as well, as if the blades were about to move.

"No! No!" The spirit of the white wing tried to control it. Ripples were transmitted to Shi Wu. "You, stop!"

"Why?" Shi Wu asked in a mild-mannered voice.

"Those energies are mine—mine!" said the spirit of the white wings.

"We are one; they're yours and mine," said Shi Wu. "Though you were more severely injured, I was, too. I need energies to recover. Don't worry. I won't take them all, just enough to recover."

Shi Wu Wing kept sucking the light. One tried to control it. One tried to absorb it. However, there was too much light for the spirit of the white wings to control.

Hua! Hua! Hua!

The blade of light flew toward the four silver wings, and when it touched them, it was completely absorbed, like water touching dry land. Light started to flow on the wings, and the force began to change. Of course, that was only what was happening on the outside. The changes inside were sharper.

Luo Feng could feel those changes as the owner of Shi Wu Wings. Shi Wu was delicate, and it could grow to several light years high. Those small components in Shi Wu Wing changed sharply after absorbing the light, like a rotten log turning back into fresh, new wood.

“So satisfying!” Shi Wu was exhilarated. “Master, my broken memories are further recovered.”

“Huh?” Luo Feng was curious.

“I can remember how terrifying that fight was,” said Shi Wu. “The wing true treasure was completely dismantled. The white wings are the ones on the top, and they were damaged. The other five pairs of wings were damaged inside. After a long time, the surface was still intact, but the inner parts were severely damaged. I need energies to recover. Master, you don’t have enough godly power to revive me. The light from the origin is turned from my former master, and that’s what can repair me. Only that severely damaged white wing needs other material for repair.”

The Shi Wu Wings kept bulging. Hundreds of millions of kilometers... Billions of kilometers... Tens of billions of kilometers...

One light year, two light years...

It kept getting larger and absorbing more light, making the Shi Wu Wings more powerful.

“No, no! It’s mine! It’s mine!” The white wing was infuriated. “Stop!”

### **Chapter 1177: A Thousand Years**

“Bigger! Bigger! Bigger, Master, bigger!” Shi Wu sent Luo Feng message after message.

Luo Feng was trying his best. Having spent endless time on the battlefields, there was one particularly outstanding battle in which the original Shi Wu Wings had split into six pairs of wings. From that, every pair had been inflicted with major damage. The sixth pair, in the topmost position, the “white wings,” had the empowerment of its origin, so even if it had been drifting about, at least some of the damage could be restored, leaving behind the three most severe injuries that could only be remedied by swallowing various precious materials. It was most fortunate it had the origin, which allowed it to wield overwhelming power.

The other five pairs of wings were not so fortunate. After splitting up, they had drifted off to unknown places. Every single was severely damaged. Thus, their power levels had dropped very low. Furthermore, they did not have the origin as their core, so when they ran into dangerous situations while drifting—for instance, dangerous places that could annihilate universe supreme masters and destroy pinnacle true treasures, like the three major dangerous lands—these wings might pull through every ordeal but would become more severely damaged every time.

Until today, the two pairs of wings that Luo Feng had obtained were able to swallow the energy from the origin to their hearts’ content, thereby enabling their self-restoration to happen.

“Wait a while, wait a while!” The pair of white wings was shouting frantically.

On the other hand, Shi Wu was pushing Luo Feng to go on. “Bigger, bigger, bigger!”

The more complete Shi Wu Wings got, the easier it was to become bigger.

The larger its size, the more blade-rays could be absorbed within the same period. Four wings... unbelievably towering and endless! Being scattered over an area of numerous light years, the Shi Wu Wings was now comparable in size to the gigantic pair of white wings. The pair of white wings had started trembling as though about to collapse, and a large quantity of its blade-rays were flying towards the Shi Wu Wings to fuse with them.

“Master, for endless years, countless components within me have been damaged. Now, 10 percent has recovered!” Shi Wu was apparently very excited.

“Only 10 percent? After almost half a day.”

Luo Feng was secretly taken aback. The requirements for recovery for this grade of supreme true treasure was indeed stringent. Luckily, he had that origin. If he had solely depended on himself, at least within a short period of time, his godly power would never be enough.

“You are a robber! You are a bandit! This is my energy! Mine!”

The white wings had started by opposing, but now had abandoned all restraint and was shouting and cursing.

“Come, come. You can come over and kill me if you are capable of it. You think I am scared of you?” Shi Wu taunted. “Moreover, the energy belonged to all six pairs of wings. I am not wrong in using part of it for self-restoration now. You want it all for yourself?”

“I am the wing and also the origin!” the white pair of wings shouted furiously.

“Haha... You are merely a spirit without an ounce of attack ability,” Shi Wu gloated. “As for me, I have a master. Just you wait and see, I know you inside and out. In the future, you will surely be taken by my master.”

“Yeah, yeah, yeah, dream on, dream on!” retorted the white wings, full of hatred. “Your master is still thinking of collecting me as his. That’s impossible. I will find another master before that happens; I will help my new master annihilate that human master of yours, and then I will swallow you.”

Two spirits were transmitting ripples to one another. Both were intelligent, but they were not considered life forms. They could not, for instance, go to battlefields and such. They were both spirits born from different components of a supreme true treasure. Should there be the day when Shi Wu Wings and the white wings had to fuse, then of these two spirits... only one was destined to survive. Out of the two, one would face annihilation.

This was the reason why the spirits of Shi Wu and the white wings were going all out. Shi Wu was thinking of ways to help Luo Feng subdue the white wings; on the other hand, the white wings had found Luo Feng lacking in many aspects right from the beginning, so all it wanted to was to send Luo Feng to meet his doom. Then it could swallow his various true treasures to aid in its self-restoration.

Now that the spirit of Shi Wu was born, it was simply impossible for white wings to help Luo Feng. It was well aware that he would trust the newborn spirit more than itself.

Shi Wu continued gloating. “You still hoping to find a master? A universe knight who possesses the willpower of a universe supreme master, going to you? Or perhaps a universe master who has even more terrifying willpower, finding its way to you? Haha! You are destined for annihilation. You are already clear about that. Yet you have no idea how you can help yourself. You want to escape, but you cannot move.”

Being a spirit could be such a tragedy—unable to control and move the true treasure by itself.

“You, you... I will find a new master. Then I will swallow you. You will die! Will die!”

The spirit of the white wings was going crazy. It did not really hate the human. On the contrary, it hated Shi Wu much more. It was destined that only one of the two would be able to survive.

\*\*\*\*\*

Time passed.

“I have already restored 30 percent... I have restored 40 percent... Master, I am halfway through restoration.”

In short intervals, Shi Wu would inform Luo Feng about its restoration progress in great excitement. In the blink of an eye, almost 30 hours had passed. This time around, Shi Wu Wings had restored up to 90 percent.

Luo Feng was in awe. “Nearly 30 hours. This is enough energy to swallow a large quantity of blade-rays anytime, and also energy that an existence such as one beyond the level of universe supreme master would have stored after conversion through the origin.”

This sort of energy—beyond the level of a universe supreme master—was rarely seen. Those towering, gigantic white wings and four silver wings, scattered over an area of numerous light years, were facing each other across a distance. Countless blade-rays from the gigantic white wings flew toward the silver wings.

At first glance, the gigantic white wings were unaffected. However, upon a comparison of its current state compared to 30 hours ago, the gigantic white wings had actually shrunk by quite a bit! Their diameter was reduced by half a light year, which went to show how many blade-rays it had lost.

“Damn! Damn you, I will eat you! For sure.” The white wings were at a loss for words. It could only resort to cursing and swearing at this point.

“Come on, come on!” Shi Wu Wings continued to gloat.

Shi Wu transmitted a piece of news suddenly: “Master, I have completed the self-restoration process.”

Luo Feng was momentarily shocked but soon grew ecstatic. After a day and a half... After spending a day and a half absorbing those high-level blade-rays, where every blade-ray had an attack force stronger than any universe supreme master, the two pairs of wings could finally be fully restored.

“Completed? Your powers have been restored?” Luo Feng was filled with anticipation.

“Yes, yes, yes. I’m in perfect condition.” Shi Wu Wings replied right away. “However, as I only make up two pairs out of the six pairs of wings, Master will at most only be able to execute two kinds of techniques. Of course, these two pairs of wings had already reached a pinnacle state, so even if one owned the complete six pairs of wings but was only able to activate the first and second form of the wings, it would make no difference from what Master is capable of with your two pairs of wings.”

Luo Feng was shocked. “Shi Wu, do you mean I am still only able to activate only two techniques? It’s just that the power levels will be greatly increased?”

“That’s right, Master. Previously, I was severely damaged, so even when godly power activated the secret engravings that flowed past every part of me, the work done was half the amount of effort put in, as I could only wield a small part of my power. And now, I am able to unleash my power to its full potential.”

Luo Feng understood the moment he heard what Shi Wu had to say. It was just like machines; a worn-out machine’s performance might only be left with 10 to 20 percent, while at its peak, it was always performing at its best.

“Are you still swallowing the blade-rays?” Luo Feng asked.

“I am no longer able to,” Shi Wu said helplessly. “Previously, when I still had some damaged parts, I would swallow those blade rays. After swallowing them, they would be automatically absorbed and used up to restore my original form. Now that I am fully restored, even if I were able to swallow them, there would be no way I could use them, so they would fly out from within me. It is also because, within my body, there is no place for me to store those blade-rays. The origin is where the blade-rays can be stored. Only through the origin could one control these blade-rays.”

Luo Feng sighed.

“It is a pity that previously, Master was unable to get the pair of white wings to summon the origin out,” said Shi Wu. “If the origin came out alone, Master would be able to trap it within Star Tower. Without the origin, the pair of white wings would not be able to put up any form of resistance, and Master would be able to keep it inside Star Tower. And then Master could slowly hone and build up his willpower. When the time is right, Master could facilitate the recognizing of its master.” Shi Wu added on in a helpless tone, “Now, there is nothing Master can do anymore.”

Luo Feng nodded. It was true. He had wasted too much time with those white wings, putting in a lot of effort, and although he was aware that the white wings had lain traps all over, he still tolerated it all... Yet the white wings maintained due vigilance and did not let the true core origin step out into the open.

“What should we do?” Luo Feng was frustrated.

“There is nothing we can do, we can only leave it here,” Shi Wu said. “With the origin here, no one would be able to move that pair of white wings. The situation would be like Star Tower in the battlefields of the outer domain back when no one could get it to move.”

Luo Feng nodded. He had used Star Tower to ram into the pair of white wings, but even that had not caused the pair of white wings to move at all.

“It is a spirit, so it does not have the ability to manipulate the white wings into sneaking away,” Shi Wu said. “In addition, it has such stringent requirements when it comes to recognizing someone as its master... I do not believe that within such a short period of time, a universe knight with the willpower of a universe supreme master would appear, chance upon this pair of white wings, and make it to them alive. As for a universe master, to achieve the willpower of one beyond a universe supreme master, that is even more unrealistic.” Shi Wu was very confident in his beliefs.

“Well, I guess we can only do that. For now, we will leave it there.” Luo Feng nodded. “However, I am in no hurry to leave.”

Luo Feng was within Star Tower, smilingly looking at the pair of white wings that was not too far away. The endless, crazy oppressive willpower was still attacking him, never stopping for even an instant.

“This holy ground for honing my willpower is more than I could ever ask for. Although there are such places in Universe Ocean, to be able to get to those places, the paths would be fraught with danger.”

The four silver wings that were extended out from Star Tower via four passageways speedily shrank to naught. Even Star Tower shrank to such a small size until it was no more than a speck of dust.

Within this quiet space, the white wings and Star Tower faced each other across a distance. The distance between them was slowly closing.

“Human, you are going to regret this.”

The white wings were going a little crazy. Yet it was, after all, just a spirit. It could only helplessly watch everything happening before its very eyes.

Years went by. Luo Feng was doing his best to hone his willpower. There were times when he would occasionally stop midway to study the diagrams of secret engravings, beast god path... especially when his Remote Ocean body was wandering about Earth and various other planets. The many experiences and feelings that he had gained from life had made Luo Feng even more steadfast when fighting against the impact of that oppressive willpower.

In the blink of an eye, 1,200 years had passed. The pair of white wings and Star Tower, which had been gradually advancing toward one another, finally met for the first time. Star Tower attached itself to the white wings like fine dust. To be more exact, this speck of fine dust, Star Tower, had found a spot on one of the bloodstains on the white wings. That bloodstain had a diameter of half a meter and exuded a crazy and terrifying aura.

Luo Feng, who was sitting cross-legged, opened his eyes, as he saw the bloodstain that was right outside Star Tower. “Finally touched it. To think that just the willpower and aura of a bloodstain could be so terrifying!”

### **Chapter 1178: Another Portal**

“Is this the most powerful attack from the bloodstains on the wing?” Luo Feng talked to Shi Wu on his back. “Shi Wu, can I make that wing recognize me as its master?”

Shi Wu knew it better than anyone else. After all, Shi Wu was a part of that true treasure.

“Not even close!” said Shi Wu. “Master, you have indeed improved your willpower over the past 1,200 years, and it’s top-tier level among universe masters now. However, turning from a universe master to a universe supreme master is a fundamental change! And the willpower will be changed fundamentally as well. You’re still very far.”

Luo Feng was still calm. After all, he’d gained a lot. The past 1,200 years had sharpened his mind better than the 100 million years in Beast God Sector. He had to admit that the high pressure was a good way to sharpen his willpower. However, if he stayed under such high pressure for too long, his willpower would be damaged as well. It was a double-edged sword.

Willpower wasn’t like law comprehension. Law comprehension required certain steps, while willpower needed the strength from the inside.

“It’s been 1,000 years,” said Luo Feng. “Time to go.”

Luo Feng took a look at the white wing and started to drive Star Tower! There were too many dangerous places in Universe Ocean. There were already all sorts of powers and hazards in the three Lands of Extremis. There were many places in the Lands of Extremis to sharpen his willpower.

A ripple came at him. “Human! I’ll make you and your wing regret it.”

“Next time when I come here, I’ll take you,” Luo Feng replied through his mind ripple.

“Impossible! Don’t count on it!”

Hua!

Star Tower left, and Luo Feng stopped worrying about the white wing; just as the great beings in the original universe weren’t able to deal with Star Tower, Luo Feng wasn’t able to deal with the white wing! It could happen to any universe supreme master.

Next time, Luo Feng thought. Shi Wu Wing has changed sharply. Let me test its power now.

The force of Shi Wu Wing could rival that of a top-tier pinnacle true treasure, and it might be able to match a “strange object.”

“I’ll try now! Golden Country!”

Luo Feng burned his godly power.

Quietly... A thin veil of golden light showed up and covered the entire mysterious space. It had a radius of 80 light years, much larger than that wing space. However, there were still blade storms around the white wing, so even Golden Country wasn’t able to control the space and time there. It was only able to control the stable space and the space between the rocks.

“Too... Too powerful...”

Luo Feng was thrilled. He felt that Golden Country—performed with the pinnacle status of his Shi Wu Wings—could rival the combination of Miniature Universe, the previous Golden Country, and Flame Ocean.

“This...!” Luo Feng was exhilarated.

He had a weaker godly power than other universe masters. Golden Country might actually be able to rival the strange object godly wood.

“Huh? What’s that?”

Luo Feng was dazed. He didn’t have time to exclaim but was a bit shocked. Golden Country enveloped the entire mysterious space, and it penetrated the rocks on the edge. As a result, he discovered another cave portal.

Another cave portal? Where does it lead? That’s right—the white wing wouldn’t have come out of nowhere! It must have flown from someplace.

Thoughts flooded Luo Feng’s mind.

“I’ll go check.”

Luo Feng made up his mind instantly. He was afraid that the new portal would be discovered by other great beings, and he was curious as well.

\*\*\*\*\*

Luo Feng flew to the cave portal using Star Tower, but it still took him more than a month to get there.

“There’s light screen here also.”

It was a red cave portal, and Star Tower went through the light screen and entered a dark portal. Star Tower kept flying.

It went through nine light screens, after which there were no more light screens. Star Tower kept flying carefully.

“Cardinal portal...”

Luo Feng stayed in Star Tower, driving along the 100-kilometer cardinal portal. He didn’t dare venture the outside. Instead, he sent out his Moshu body first.

Sou!

Moshu body flew out of Star Tower and flew in front of it.

Moshu body and Star Tower moved along the cardinal portal as Luo Feng kept Golden Country on an area of ten billion square kilometers and tried to watch out for anything dangerous.

“So hot.” Moshu body flew along the portal, and the heated air made him feel extremely uncomfortable.

“Cardinal crag.”

Moshu body flew to the crag and touched it with his hands.

Chi!

A strange heat was transferred through the palm of Moshu body, and his arm came off like a melted candle. The heat immediately circulated in his body, and his body trembled. Half of his body bounced away. After that, life core showed up and made up the godly body.

“I have the godly body of a universe knight,” said Mosha body, staring at the crag in surprise. “This strange heat is able to burn me? I must move forward.”

Luo Feng got more curious.

Mosha body and Star Tower kept going forward at high speed. At times, they teleported themselves a billion kilometers away.

“So far, I’ve been moving along the portal for several light years.”

Luo Feng was amazed. Throughout the portal, he sometimes ran into branching paths, so he naturally chose the largest path. The brains of great beings worked extremely quickly, so it was easy for them to remember maps. He kept moving forward.

The wing space should be at the edge of the main mountain of Tilted Mountain Sector, thought Luo Feng. Now that I’ve moved several light years inside, I’ve entered the mountainside, haven’t I?

The main mountain was towering and mysterious in Tilted Sector Sector, and there were caves leading to the outer world. Sometimes, there were true treasures flowing into the water area... Usually, lots of great beings didn’t dare go into the mountainside because it was too dangerous. Luo Feng dared to do so, as he had Star Tower and was curious about the origin of the white wings.

After a long time...

There were lots of forks in the road, and Luo Feng kept choosing the largest branch to move forward. The farther he went, the higher the temperature became. Luo Feng even put back his Mosha body as the heat outside was high enough to burn Mosha body to ashes.

“Rumor has it that the inner area of Tilted Peak Sector is extremely dangerous; even Primal Chaos City Leader might die here. As for the core area, even universe supreme masters might die.” Luo Feng was intimidated. “The heat is able to burn a universe knight. How terrifying the mountainside is!”

Star Tower was able to resist material attacks and guard souls, which was why Luo Feng dared to venture forward.

What’s at the end of these caves...? Luo Feng wondered.

\*\*\*\*\*

After 30 light years of flying, he finally saw the end. Star Tower arrived at a place that looked like a karst cave—an eroded section of cave with crevices and towers of stone.

Hong! Long! Long!

The white flames were flowing, and hundreds of flaming branches were intersecting each other, forming this enormous karst cave, extending to an unknown destination.

There were red, cyan, and gray halos on the magma, and endless flames emanated from deep within the cave. The space was quite intact; there were no space ripples. Teleportation was impossible here.

Chi!

Luo Feng tried to extend a trace of godly power out, but it was immediately annihilated.

“Even universe masters would die here without armor to protect them,” Luo Feng whispered. “I came here through the cave. Is this an inner area or the core?”

Luo Feng moved his mind. Star Tower moved forward and touched the flames.

Chi!

The fire burned Star Tower, but nothing changed in Star Tower.

“No wonder it’s a supreme true treasure!” Luo Feng exclaimed.

It was as he’d expected. After all, supreme true treasures wouldn’t be damaged even in the Lands of Extremis! Although he had seen the broken white wing, that was the result of an unknown war.

“Such an enormous cave.”

Luo Feng didn’t dare go along the branches as he feared that he might not be able to make it back. Luo Feng kept flying Star Tower through the cave. Star Tower didn’t even enter the flames.

“The stone pillars stay intact under those flames,” Luo Feng observed. “How bizarre.”

He found that although those stone pillars appeared ordinary, the sand on the stone pillars could reflect light. It was as if there were many distinct spaces here.

Shua!

Star Tower disappeared in front of a stone pillar and showed up outside.

“There is a separate space within each of the sand?”

Luo Feng was bewildered. Star Tower entered a separate space after only touching the sand. It was an arid space. Luo Feng got out immediately as he had completely comprehended the law of space.

“Those stone pillars might be made of lots of grains of sand, and there is a space in each grain of the sand,” realized Luo Feng. “What are those stone pillars? I’ve never heard of such a thing! Is it an extremely dangerous place in Tilted Peak Sector, so maybe no great beings of the human race have ever entered it.”

Luo Feng was baffled, as there were no records of these stone pillars.

“Huh?” One pillar in particular immediately Luo Feng’s attention. “What is that...?”

## **Chapter 1179: Breaking through Reincarnation**

Not too far away, there was another stone pillar. At first glance, it was not any different from the other stone pillars; however, taking a closer look, one could see that on the surface of that stone pillar, there was a faint claw mark. The size of it was similar to that of an average earthling’s palm, but it only had four fingers. The print was deeply etched onto that stone pillar.

“A claw mark?” said Luo Feng. “Who would leave a claw mark? Given this flurry of flames, even ordinary universe masters with their true treasure armors would be completely burned to death. Who would come here?”

Luo Feng was inwardly puzzled. The entrance of Tilted Peak Sector’s main mountain peak could be found within the crack within that cross-section... and Luo Feng had made it inside the mountain by traveling against the current flow of the mysterious space of the water domain. Based on his position, he calculated that he ought to be located at the lower region of Tilted Peak Sector’s main mountain peak.

From top to bottom... deeper within Tilted Peak Sector. This was definitely not an ordinary region. There was no information about this stone pillar in the human race’s records, which confirmed that this place was not an ordinary region.

“One must be an extraordinary great being in order to make it here, so this was probably left by a universe supreme being,” Luo Feng speculated.

Star Tower flew over to the stone pillar. As tiny as a sesame seed, Star Tower observed the claw mark most meticulously.

“The gravel in the middle of the claw mark!”

Luo Feng’s eyes lit up. The claw mark was composed of countless pieces of gravel, and the area that the claw mark was etched on was hence heavily spotted with it. The countless pieces of gravel looked incredibly beautiful in the faintly refracted space, but in the middle, it exuded traces of a particular aura—an aura that was quite uncommon.

“Go in and take a look.”

The peak of Star Tower grazed the gravel lightly.

Shua!

The entirety of Star Tower was immediately sucked into one of the spaces contained within the gravel.

\*\*\*\*\*

Within the space found inside the gravel, the surrounding temperature was much lower. It was almost as low as the temperature within the core of a star. Comparing this temperature to the temperature of the outside world, which was enough to completely burn up the godly power of a universe master, this was much more bearable.

Shua!

Mosha body appeared out of thin air, and Star Tower landed on the shoulders of Mosha body.

“This space...”

Mosha body looked around its surroundings. With one glance, the vast space was filled with a deathly stillness; other than the numerous mountains composed of endless mountain rocks and the vast land, there was nothing special about it. Previously, Luo Feng had entered a space within one of the grains of sand, and it had also contained this state of deathly stillness—nothing special at all.

“This piece of gravel is obviously something different. I don’t believe there is nothing special here. Golden Country!”

Luo Feng made a move in his mind. An endless, hazy golden light fell upon the space in an instant. Within the space, the rocky earth and mountains did not show anything special.

The mountain rocks in Tilted Peak Sector were very special. Firstly, they were incomparably hard and sturdy. Even if one were to exert full force to destroy some of those rocks, the damaged area would coagulate and recover its original state. Secondly, godly power, territories—against nearly everything, they were almost impenetrable.

“The rocks and mountains within this gravel space do not seem special at all. They are only ordinary mountain rocks. This gravel space itself, indeed, has a unique spot.”

Mosha body revealed a trace of delight.

Shua!

With one step, it crossed over a distance of thousands of kilometers to arrive at a mountain peak. On that mountain peak, there was a smooth slab of a rock wall where a strange bout of waves could be found. On the floor before this rock wall, there were two items. One was a green pendant that had strange beast carvings decorating its surface. The other was a silk remnant of incomparable beauty. The silk remnant was an intricate mix of black and gold, and it exuded an aura that made Mosha body feel incredibly comfortable

“These two items...”

Mosha body was extremely delighted. After all, he could rely on the human race’s information vault to identify quite a sizable number of items that he did not recognize. At least, he had no trouble identifying the two items before him.

“These are items from Universe Boat, one of the three most dangerous lands.” Luo Feng looked at that green beast carvings pendant. “It’s been said that, with this item in possession, one holds special authority within Universe Boat. The risk of danger is lower, and there is a cultivation space exclusive to anyone with this pendant.”

The Universe Boat is an immeasurably massive yet damaged planet ship.

How could a damaged planet ship be listed as one of the three most dangerous lands? Firstly, Universe Boat was ridiculously massive; the entire planet ship was hundreds of millions of light years in size, and it could swallow endless amounts of chaotic energy, which would cause the surroundings of the entire ship to be enveloped by a dangerous and severe atmosphere. Internally, Universe Boat was fraught with danger.

Universe Boat had appeared endless eras ago... Even before the birth of the two holy lands, Universe Boat had been there! No one knew its origins.

Also, Universe Boat liked to swallow miniature universes. Damaged miniature universes were often attracted to it... only to be sucked in and swallowed. Because of this occurrence, it had gained its

appropriate name “Universe Boat.” This damaged, super planet ship had endless power, yet it also had endless dangers and hidden treasures!

The dangers within it were enough to annihilate universe supreme masters. And the hidden treasures within it were enough to make any great being from Universe Ocean go crazy with longing for them.

Tokens were a peculiar kind of item within the Universe Boat. So long as one carried a token wherever he went, some of the dangerous lands might no longer be dangerous to him, although this was not applicable to all the dangerous lands. Every token had a gigantic secret chamber that corresponded to it. Every secret chamber had an isolated space all its own.

Luo Feng looked at the other item. “Pulling Traces Diagram.”

The first item was a token from Universe Boat. The other was a Pulling Traces Diagram.

Previously, Yuan Ao Master had driven various parties into a frenzied battle for the Pulling Traces Diagram.

“Pulling traces” were a very precious kind of material. It was an important material used to produce illusion type true treasures, as it had a natural calming effect on one’s mood.

The pieces Luo Feng had gained previously were merely remnants that were much too small. This Pulling Traces Diagram before him... Compared to the complete one that Yuan Ao Master had taken out previously, this seemed to be slightly bigger, and the aura it exuded made Moshu body feel extremely comfortable.

“What extravagance in the use of threads of pulling traces to be able to make such a big piece,” Luo Feng mused. “So extravagant that perhaps only a universe supreme master could afford to do this.”

Moshu body stretched out to grab the Pulling Traces Diagram.

A thread of godly power penetrated the cloth, his consciousness also entered the Pulling Traces Diagram. Instantly, he seemed to enter a virtual space.

Within this virtual space... was a virtual, gigantic Universe Boat. A strand of red thread strung together certain regions within the Universe Boat. In this virtual space, the dangers within each region were simulated as though they were real, and descriptions of how to avoid these dangers and the ways to traverse these dangerous lands were shown.

“This... this is part of the map of the Universe Boat?”

Moshu body immediately retracted his godly power. He gained an understanding almost instantly. He became delirious with joy.

The three most dangerous lands were on par with one another. Tilted Peak Sector, Universe Boat, and Flowing Countless Mountains were places that could give birth to numerous supreme true treasures, where pinnacle treasures were more commonly seen. Of course, precious treasures always went hand-in-hand with terrifying environments... Therefore, the more detailed and comprehensive a map was, the more precious it would be.

This map... was as good as the one that Yuan Ao Master had previously taken out. In terms of value, it was no less than a strange godly wood. And it belonged solely to Luo Feng!

Hong!

A bout of waves suddenly burst out from the rock wall before him. Luo Feng, who had just picked up the green token, could not help looking up.

A scene was unfolding on the rock wall before him. Two vague figures began to appear. One was an immeasurable beauty whose entire body was covered with countless green leaves. Looking at her was like looking at the most exuberant existence of the universe. Luo Feng felt immeasurable comfort.

The other figure was wearing a long, gray robe. At first glance, he looked like a piece of dead wood, and his head bore some resemblance to crystal. He was bald and did not have ears or a nose—only three eyes and a mouth.

“I am Jie Fanzi,” the gray-robed figure said.

“I am Zhen Lin,” said the beautiful lady wrapped in countless green leaves, also introducing herself.

The gray-robed figure continued, “Because you picked up the two items I left behind, you are able to see these images taken as a memento! What we cannot know... is, by the time you see this, which reincarnation era it will be.”

As the gray-robed figure’s mouth moved, strange waves formed. It spoke in a language Luo Feng was not familiar with, but when the waves were transmitted to his brain, he seemed to naturally understand everything the figure was saying.

To a certain extent, there was no need for language. The waves of one another’s willpower enabled them to establish mutual understanding.

“Which reincarnation era...” Luo Feng was secretly in shock.

These two fellows... The human databank had already provided Luo Feng with information on some terrifying figures from the three major universe eras and two holy lands, yet apparently, there was no information about these two—Jie Fanzi and Zhen Lin. He had never heard of them before. Clearly, they were not life forms from any of the three major universe reincarnation eras.

“I am a lone supreme master,” the gray-robed figure continued. “Before my last fight, my inheritance, my countless efforts—I do not wish for them to go to waste. So, on my way to try for that breakthrough in reincarnation, I left a token and a map of the Universe Ocean here. That token represents an isolated space within the Universe Boat. Other than my supreme true treasure that I brought along with me, I have left the rest of what I own there. I only hope that... successors shall bring glory to my legacy. And, if possible, hand down the various techniques and knowledge I have created to later generations, thus providing them with meaning to live on.”

“This is not a demand,” the grey-robed figure clarified. “I am in no position to ask too much of a great being from numerous reincarnation eras in the future.”

Luo Feng’s heart started to beat faster.

Damn!

Pulling Traces Diagram and the green token from Universe Boat were actually just keys. A lone universe supreme master only took his supreme true treasure with him and left the rest of his belongings there. The riches of a universe supreme master could be incomparably intimidating—like how much Huge Axe Creator had contributed to the human race.

The lone wanderer Sitting Mountain Guest, for instance, did not bother himself with pinnacle true treasures at all. And Dark Universe Creator had immediately said he wanted the strange object godly wood and was willing to use his pinnacle true treasures to compensate the various parties in exchange for it.

To the lone universe supreme masters... some of these pinnacle true treasures were worthless.

Another wave that sounded full of vitality was transmitted to Luo Feng. “Junior.” The beautiful lady had spoken up, too. “I, Zhen Lin, left behind my inheritance, too. As for the token and the map, they are kept at a distance of around 300 light years away from here. If you are capable enough, there is no harm looking around. Whether you are able to find it or not depends on your luck.”

“Don’t listen to her,” said the gray-robed figure. “This is already the core of Tilted Peak Sector, where danger lurks all over. Where even universe supreme masters are highly likely to be annihilated. It is said that some universe supreme masters who succeeded in breaking through reincarnations left tokens within their surroundings, but to be able to obtain those tokens, one would need luck, as scouring around for these tokens would be far too dangerous. We have lived for almost three reincarnation eras. Our limits are nearing. We only have one last gamble to make to breakthrough this round of reincarnation. If we achieve a breakthrough... then we can become eternal existences and even establish a sacred universe.”

“The Universe Ocean of today only has one sacred universe,” said the lady wrapped in green leaves. “I am going to see to it that Universe Ocean has two sacred universes.”

“Haha! Zhen Lin, let’s go.”

“Let’s go.”

The gray-robed figure and lady covered with green leaves vanished in a flash and were closely followed by the images that were kept as mementos. These gradually dispersed from sight too.

Luo Feng stood before the rock wall but was motionless for quite some time.

## **Chapter 1180: Huge Axe**

“If I survive the incarnation, I can live forever?” Luo Feng whispered.

This so-called incarnation might be a huge secret in Universe Ocean.

“However, it’s too far from me. There are three incarnation eras in total, and I’ve only lived a short while.”

Luo Feng then put everything away, but he didn't find anything using Golden Country. Then Luo Feng left the space on Star Tower.

\*\*\*\*\*

He inspected the karst cave for a long time, but he couldn't find anything else. Besides, based on the message left by Jie Fanzi and Zhen Lin, the karst cave was already the core area of Tilted Peak Sector, where even universe supreme masters could be killed.

"I found some stuff left by Jie Fanzi by luck. I can't adventure in the core area. I'll regret it forever if Star Tower gets trapped somewhere."

Luo Feng turned Star Tower around and went back.

It had been an easy trip. He had recorded the path before, so he arrived back to the wing space quickly. After another two months, he arrived back in the cave where he had been.

Luo Feng didn't search for valuables. Instead, he went back to the original universe.

\*\*\*\*\*

One month later, in the original universe: human territory, Earth.

In a city in Asia, in the corner of a restaurant, a black-haired man in casual clothing sat with a teapot and a teacup. There were all sorts of conversations in the restaurant.

"The investment in the Mo Ya system this time is a huge mistake! We cooperated with the emperor of that system because we want to make things smoother, which is why we gave him 10 percent of the shares! That emperor is too greedy and tried to gain from the investment... Humph! He thinks we can't do anything to him just because it's far from our Ganwu Universe Country... Humph! It's all too easy for us to crush him!"

"I almost became a domain lord."

"Easy. I gave three life planets to have a baby on Earth."

Luo Feng couldn't help laughing. Those who could live on Earth were the big families and elites of the earthling bloodline.

"Ah, Feng," said a voice.

Luo Feng raised his head. A seemingly humble man walked toward Luo Feng and smiled at him. He sat down across from Luo Feng.

Luo Feng smiled. "Wei Weng."

"They can't hear us?" Wei Weng looked around.

"They won't remember anything," said Luo Feng.

"Impressive." Wei Weng gave a thumbs up.

"Who do you think I am?" Luo Feng asked with a smile.

“You’re good,” said Wei Weng. “Everyone knows you’re incredible. Why did you pick this place?”

“To listen and observe more,” said Luo Feng. “Those who live on Earth are the elites of the earthlings. I can find out more about the earthlings by listening to their conversations.”

Wei Weng nodded.

“Why’re you still at the ninth level of domain lord?” asked Luo Feng. “With the resources I gave you, it should be very easy for you to become undying.”

Wei Weng had been friends with Luo Feng forever, and Luo Feng was as close to Wei Weng as to Luo Hua. When he was the envoy of Ganwu, Wei Weng was already at star level, and he had turned universe level soon after that. Luo Feng had provided as many resources as possible to his parents, his wife, his brother Luo Hua, and Wei Weng; he needed to make sure that they became undying. As for his sons Luo Ping and Luo Hai, he was stricter.

And as for his grandchildren and other descendants, they needed to take care of themselves. He wasn’t able to supply endless resources to them, just like those other friends on Earth.

“I still have a long time to go,” said Wei Weng. “I can live as a domain lord for another several million years. Fine. I’ll practice and become a sector lord.”

“That’s more like it.”

Although his status was surging, Luo Feng had never shown any superiority in front of his brother Wei Weng, which was why Wei Weng still treated Luo Feng as an ordinary person.

They talked until dark, and thoughts flooded Luo Feng’s mind.

I have three things on hand that I need to deal with, thought Luo Feng. I need to take the white wing, but I need to sharpen my willpower and get it to reach the universe supreme master level. There are plenty of places in the Lands of Extremis for me to do that.

Second, the object left by Jie Fanzi. Jie Fanzi, I know you’re powerful, but you left your valuables in Universe Boat. Aren’t you torturing me?

And third, Teacher Sitting Mountain Guest... I can tell from the white wing, Jie Fanzi, and Zhen Lin that even universe supreme masters have things to worry about. Teacher Sitting Mountain Guest still devoted so much energy cultivating disciples, and he even gives a supreme true treasure to his disciples. I don’t believe there aren’t any other plans behind this.

Luo Feng remembered Sitting Mountain Guest’s plan. Although he respected and trusted Sitting Mountain Guest, he still needed to be careful.

I don’t have time to think about teacher Sitting Mountain Guest. The more powerful I get, the more ways I have to deal with those difficulties. I’ll improve my power now. As far as getting the white wing back, it is broken and needs lots of precious materials. The valuables left by Jie Fanzi are enough to recover the white wing.

Luo Feng had a good plan, but neither the white wing nor the valuables were easy to acquire. He had located the valuables in Tilted Peak Sector by luck. However, it wasn't that easy to get the valuables in Universe Boat. He had the map, but he needed to venture in personally!

Hmm... I'll choose Universe Boat as the place to sharpen my willpower, Luo Feng thought. I need more information about Universe Boat. After all, that's one of the three Lands of Extremis. Even Teacher Primal Chaos City Leader could die there. I must be cautious.

The valuables left by Jie Fanzi were clearly not for his disciples. Even those at the same level as Primal Chaos City Leader couldn't guarantee they could get such valuables.

Incarnation... It seems there's an incarnation in Tilted Peak Sector. There might be lots of valuables left by universe supreme masters.

Luo Feng could extrapolate that there might be lots of valuables left by generations of universe supreme masters, but he didn't dare look for them without a careful plan.

\*\*\*\*\*

Luo Feng started to gather information about Universe Boat.

There were two beings in the space of the inner area of Tilted Peak Sector.

A being with three faces, eight arms, and hammers in each of its hands triggered a technique, and a huge phantom of a giant hammer showed up.

"Primal Chaos City Leader, you'll have to fight me today," it said.

"Phantom?" Primal Chaos City Leader looked at it. "You're from Purple Moon Holy Land. I've never heard of you. This must be the first time you have come out. Do you want me as your competitor?"

There were two holy land universes. The smaller one was called Purple Moon Holy Land.

"Yes, you're my competitor, Primal Chaos City Leader." The golden-armored being had three faces—fierce, gentle, and indifferent. The fierce one was facing City Chaos City Leader. "I pick the stronger ones."

"Do it," said Primal Chaos City Leader.

"Okay, I'll see how powerful this Primal Chaos City Leader is."

The golden-armored being started to make attacks.

Hong! Long! Long!

The hammers became blurry and merged with the phantom. They became a giant godly hammer! The space around the hammer was annihilated.

"A supreme technique." Primal Chaos City Leader shook his head. "Chaos, move."

Primal Chaos City Leader slapped at it. His palm became larger, turning golden. A universe was formed in the palm, and all sorts of energies were born.

Peng!

The giant golden palm hit the godly hammer.

Hong! Long!

The hammer crumbled, and the golden-armored great being bounced back. The wind in the distance froze him. And then, the ice broke, and the great being went out.

“No wonder you’re Primal Chaos City Leader!” he roared. “Ancestor said you have the highest chance of becoming a universe supreme master. One palm and you defeated me. I’m being too arrogant!”

Hong!

The great being disappeared.

“The highest chance to become a universe supreme master?” Primal Chaos City Leader whispered. “The ancestors of the two holy lands are never seen by anyone. That ancestor from Purple Moon Holy Land said something like that about me so lots of universe masters from that holy land would come to fight me.”

It was all too common that Primal Chaos City Leader ran into beings from the holy land who wanted to fight him. His godly power was far inferior to Star River Master. However, he was known for being powerful!

Huge Axe Founder sent Primal Chaos City Leader a message: “Chaos, Chaos. Haha! I got extremely lucky and acquired a ‘huge axe’ supreme true treasure. Tell the other universe masters of us humans that it’s something to celebrate...”

“A supreme true treasure? Huge Axe got a supreme true treasure?”

Primal Chaos City Leader was exhilarated. This was something for the entire human race to celebrate. He immediately told the other universe masters of the human race.

Soon, Luo Feng, Darkness Master, and Void Gold Master all knew about it.
