

## Chapter 1191: Purple Moon Holy Land

Luo Feng was preparing to take flight when he saw, from afar, a golden streak of light flying toward him at high speed. It was different from him. While he had shrunk himself to a mere ten meters in height, this towering figure maintained its size at 1,000 kilometers in height, which was why it was easily spotted at first glance.

“Four faces with 16 arms?” Luo Feng was secretly shocked. “It must be from the Purple Moon Holy Land universe!”

Purple Moon Holy Land was one of the universes of the two Holy Lands. Within Purple Moon Holy Land, the Purple Moon clan dominated over a few other vassal clans that formed the minority. The living spaces of these vassal clans were small, and the resources they received were little. In Purple Moon Holy Land, the vassal clans had little power where the full force of all their powers combined would still be a far cry from that of the Purple Moon clan.

Great beings of the Purple Moon clan had very unique looks. Purple Moon clansmen of the purest bloodline had eight faces with twenty-four arms. The second-purest group would have four faces with 16 arms, and the next would have three faces with eight arms. The most ordinary ones would just have one face with two arms. This also meant that, internally, the Purple Clan Moon was divided into four classes... The ones who had eight faces and twenty-four arms were a rare class, but their bloodline was the purest, and they had the greatest potential.

However, to the weaker ones of the Purple Moon clan, once anyone became a universe master, then there would no longer be a differentiation between high and low class. After all, everyone would be a super great being.

The two holy lands were extremely powerful, but because the holy land universe was a miniature universe, there was no way it could cultivate universe supreme masters. So, for countless years, the great beings of Purple Moon Holy Land who managed to cultivate up to the level of universe masters would have reached their limits. They would never be able to achieve a breakthrough.

“Universe masters from the two holy lands universes are all so extremely strong,” Luo Feng said, astounded. “It is said that every single universe master who ventured out always succeeded in comprehending supreme techniques. There are close to 100 groups of powers in Universe Ocean. Without a doubt, the two holy land universes are the strongest.”

Maybe it would be good to learn a little about the universe era.

For three reincarnation eras, anyone could easily suppress a holy land universe; yet not a single reincarnation era was able to absolutely unite! This was why, out of almost 100 groups of powers, the two holy land universes remained undoubtedly the strongest two powers. Furthermore, they were extremely detached because they did not have to worry about meeting “doomsday.” They could survive for generations of reincarnation eras... This made the great beings of the two holy land universes develop unique characters of their own.

Some were gentle and were willing to make friends with any universe master they saw. Some were ferocious and engaged in crazy and rampant killings. Some strange, with capricious moods that were always changing.

In conclusion, there was no absolute power pressurizing them. Their universe masters did things according to personal preferences, and they were all different. The only common point was—their innate arrogance! Being part of the two holy lands, they looked down on the three reincarnation eras, but more of the high-and-low comparisons were made between the two holy lands.

“It’s him, Sealed Huller Master,” Luo Feng identified quickly.

He was on alert right away. Sealed Huller Master was ranked middle among the few hundred universe masters of the Purple Moon clan. His power would be comparable to both Star River Master and Five Chaos Master.

Actually, it was very normal for him to have such strong powers. This was because any universe masters who emerged from Purple Moon Holy Land would at least be of a top-tier standard—Ice Mountain Master was of that standard! That meant if Ice Mountain Master was placed among the ranks of Purple Moon Holy Land universe, he would be at the bottom of the list. And Luo Feng knew that previously, if he had not had Shi Wu Wings, he would definitely have been at the absolute bottom of the list.

Ice Mountain Master was at the lower level. Primal Chaos City Leader was at the superior level. A universe master with a supreme true treasure would be ranked at the pinnacle level. This was how the holy land universe differentiated their great beings.

Yes, within the holy land universe, there was a handful of universe masters who had supreme true treasures! These were the three different categories of universe masters in a holy land universe. Apparently, in terms of quality, these groups were much stronger than those of the three reincarnation eras.

“That’s right,” Luo Feng said to himself. “After cultivating for umpteen reincarnation eras—after cultivating for tens, or hundreds of reincarnation eras—I think even the dozen universe masters of the human race would be able to attain Sealed Huller Master’s standard. They were not any stronger than us. All they had was the abundance of time to cultivate.”

“You are the human, Silver Wings Horde Leader from the primal universe?” asked a human figure flying over from afar.

“Sealed Huller Master.” Luo Feng suspended in mid-air, high above Blazing Flames lake and flashed a friendly smile.

Sealed Huller Master came to a stop and looked at Luo Feng. His eyes rested on the silver wings as he commented, “I heard your wings treasure was quite good.”

Luo Feng felt a knot in his chest.

He did not leave immediately, as he did not want to incur the wrath of a great being of Purple Moon Holy Land. Given their arrogant nature, a few who were on good terms would gather and attack him. This was a very common occurrence. Although Luo Feng was not afraid, he did not want to offend them,

either. After all, Purple Moon Holy Land was much stronger than the Divine Eye clan. In terms of quality and quantity, Purple Moon Holy Land had accumulated more!

“Haha! What is it? Worried that I will snatch your wings true treasure from you?” Sealed Huller Master looked at Luo Feng and let out a snort. “There are so many great beings from Universe Ocean, and many of them own superior true treasures. Would it be possible for me to snatch every one of them? Haha. You should leave. This Blazing Flames Lake is the territory of my Purple Moon Holy Land. You should hurry to leave this place.”

Inwardly, Luo Feng was delighted. “I was only passing by. I will leave at the fastest speed possible.” He smiled.

“That’s best!” Sealed Huller Master replied.

Luo Feng gave a brief smile, transformed into a streak of light, and took flight.

\*\*\*\*\*

“How rare to be lucky enough to run into Sealed Huller Master of Purple Moon Holy Land. Compared to Yin Tuo and Five Chaos Master, he was much easier to talk to. But that makes sense; since the great beings of the first reincarnation era had to eventually meet their doomsday, the majority of them were crazy.”

Luo Feng continued to fly higher into the sky while maintaining a speed of 100 times light speed. After a while, he started to sense the appearance of space ripples in his surroundings.

“Golden Kingdom!”

Luo Feng first executed Golden Kingdom. Endless hazy, golden light spread outward, enveloping a domain as big as ten light years.

“Finally, I can teleport. Let’s go!”

Shua!

Luo Feng teleported as far as a few light years right away. With Golden Kingdom, every teleportation could only take him as far as a couple of light years, which was why he had never made a one-time, long-distance teleportation with this true treasure before. Although there were many places that allowed teleportation within Blazing Flames Lake, there were still close to 100 dangerous areas. Some of these dangerous regions were frozen without any space ripples. So long as a region did not have any space ripple, and transmission of ripples was cut off on both sides. There would be no way to skip across this particular region and teleport away.

In a single teleportation, he had made it to a distance of over 300 light years away to reach a frozen, lightly-fogged void space. The thin fog was filled with countless streams of light icicles, which were comparable to a full-force strike by an ordinary universe master. Therefore, Luo Feng started flying again.

There was nothing he could do. Even for those as powerful as Huge Axe Creator, taking thousands and millions of years to reach the deepest region of a dangerous land was normal. Based on Luo Feng’s

estimation, to cross an area of Blazing Flames Lake for a width spreading over 10,000 light years would take him a month or two, as that was a relatively dangerous place.

\*\*\*\*\*

As Luo Feng was making progress, advancing within the space of Blazing Flames Lake, a piece of news had started spreading through the first reincarnation era. This piece of news alarmed the many super great beings of the first reincarnation era.

“How is that possible?”

“That Silver Wings Horde Leader, Luo Feng, is merely a young fellow, yet he is that powerful? Causing severe injuries to Yin Tuo and annihilating Five Chaos Master and Ultimate Arrow Master?”

“This news came from Yin Tuo personally, and he is now in hiding so he can recover his power. How can this be untrue? Besides, Five Chaos Master is not dead. He has several bodies.”

“The Silver Wings true treasure executed Golden Space, which was so strong that it could suppress Five Chaos Master’s Water Ripple Prison? The purity level of Luo Feng’s godly level was not as high as Five Chaos Master, so does this mean his wings are extremely powerful?”

“Yes.”

“Yin Tuo also said that the Silver Wings were comparable to Extermination Godly Armor and that it would most likely only be second to a supreme true treasure.”

“Let’s go ask Divine Eye clan, to see if Ultimate Arrow Master and Five Chaos Master were truly annihilated.”

\*\*\*\*\*

Because of the news Yin Tuo brought, and because it was within the first reincarnation era, which happened to be an era with various means of communication, the Divine Eye clan caught wind of the news soon enough too. However, this was already the third day since Five Chaos Master and Ultimate Arrow Master had entered Lava Ocean.

“What!”

“Saying that Five Chaos and Ultimate Arrow have been annihilated?”

“Quick.”

“Hurry up.”

The Divine Eye clan was anxious. Although they were extremely powerful, Five Chaos Master was the top great being among them all. His position was much higher than An Yong Master.

Soon, on the first miniature universe of Divine Eye clan...

12 figures teleported to the gates of Five Chaos Master’s Black Palace.

“Five Chaos.”

“Five Chaos.”

From the Black Palace, a figure flashed by. It was Five Chaos Master.

“Has your master body for battles been annihilated?”

“Annihilated by that Silver Wings Horde Leader?”

The twelve figures, all of which were either other bodies or avatars of universe masters of the Divine Eye Clan, were all highly anxious. Wearing a white, full-length robe, bald, and with a complexion like rocks, Five Chaos Master shouted, “Don’t annoy me. Leave! All of you, go away!”

“Five Chaos...”

They were all in shock. Why was Five Chaos Master so agitated? Could it be that his master body for battles had really been annihilated?

Five Chaos Master got even more furious. He shouted, “My master body for battles has yet to be annihilated but is in a life-and-death situation amidst Lava Ocean, struggling to stay alive. Now my life is hanging by a thread. All my consciousness is focused on that body. Don’t bother me. You will cause me to lose focus.”

“Oh.”

Realization dawned upon them, and they quickly retreated. They did not dare bother him again.

However, simply talking had taken up quite a fair bit of his consciousness. What made the Divine Eye clan angry was... merely half a day after these universe masters went looking for Five Chaos Master for answers in the sixth miniature universe, the avatar of Ultimate Arrow Master was annihilated and vanished into thin air. Before vanishing, he only left one line of utterance: “Kill Silver Wings Horde Leader Luo Feng and avenge me! Kill him!”

Then he was annihilated.

The annihilation of Ultimate Arrow Master and his last words were evidence that Ultimate Arrow Master and Five Chaos Master being in jeopardy was certainly caused by the doings of Silver Wings Horde Leader.

“What should we do? Ultimate Arrow was annihilated! What about Five Chaos?”

“Let’s not ask Five Chaos. Five Chaos needs to go full-force now. He cannot be distracted. If his master body for battles is really annihilated, we will know soon enough. If he is not annihilated yet, then he must be in an extremely dangerous environment now. Let him do his best.”

\*\*\*\*\*

Within Lava Ocean.

Forbidden Temple was swaying haphazardly while flying at high speed. It was in a ruinous state. There were many scars, the most conspicuous of which were the four holes that bore through the entire Forbidden Temple.

“I must survive. I must make it out of here alive. I must.”

Five Chaos Master was within the badly wrecked Forbidden Temple. He gritted his teeth hard, going crazy beyond help.

“Silver Wings Horde Leader, Luo Feng! Luo Feng! Luo Feng!”

## **Chapter 1192: Killing**

The news spread relatively slowly through Universe Ocean. Comparatively, the news spread most quickly within the races from the first universe era. The information systems of the two holy lands were both extremely powerful, as lots of powers were related to the Purple Moon Holy Land.

On the second day after the Divine Eye clan got the news—which was also the fourth day after Five Chaos Master got out of Lava Ocean—the news spread by Yin Tuo was passed to Purple Moon Holy Land.

Purple Moon Holy Land was extremely prosperous, and there were many great beings. Purple Moon Cliff was a legendary place of the Purple Moon clan, and lots of universe masters from the Purple Moon clan gathered there. The cloud under the purple moon made the entire Purple Moon Cliff look cold. Over 100 beings were there, talking. Their endless lives gave them plenty of leisure time, and it was commonplace for them to just gather and talk for 10,000 years.

“I just learned some news! Big news! Big news!” shouted a silver-clothed woman with three heads and eight arms.

“What sort of big news?”

“Tell us!”

“That Silver Wing Horde Leader Luo Feng from the original universe made Yin Tuo, Five Chaos Master, and Ultimate Arrow Master suffer in God-Destroying Valley when Molten Lava Devil God showed up! Yin Tuo was severely injured while Five Chaos Master and Ultimate Arrow Master were trapped in Lava Ocean. Rumor has it that they died already!”

“What?”

“That Five Chaos Master is extremely powerful! He died?”

Everyone was surprised. Some universe masters who were connected to the first universe era immediately started to inquire of others, and they quickly got some information. With all the information gathered, the story became more complete.

“I just asked a friend of mine from the Divine Eye clan, but he doesn’t know about it. However, the seniors in the Divine Eye clan didn’t refute it.”

“They didn’t refute it?”

“It seems that’s real, then. The news also says the wing true treasure Luo Feng has is more powerful than Water Ripple Prison of Five Chaos Master. Luo Feng’s godly power is weaker than Five Chaos

Master's, yet he can suppress Water Ripple Prison with that wing true treasure, so it seems that the wing true treasure can rival Extermination God Armor of Five Chaos Master and is only inferior to supreme true treasures."

"That sort of true treasure is special, rare, and powerful."

"Impressive."

"Haha! It'll be a waste for such a true treasure to be kept by that one. Where is Silver Wing Horde Leader? I'll go get the true treasure now."

"Count me in. I'll go with you."

"That kind of true treasure belongs to someone more powerful."

The great beings from Purple Moon Holy Land had a variety of temperaments; some of them were peaceful while some were extremely aggressive. After living an eternity without having to worry about death, some universe masters became extreme, wicked, and crazy because they couldn't become universe supreme masters.

A golden-haired man at a corner of Purple Moon Cliff frowned and whispered, "Luo Feng..."

Shua!

He teleported and left.

\*\*\*\*\*

All-God Sector of Purple Moon Holy Land.

There were three levels of worlds in Purple Moon Holy Land. The first level was where all the undying fighters lived, and universe knights lived on the second level. Universe masters lived on the third level.

"Seal Huller, Seal Huller!" a golden-haired man shouted in front of a white godly palace with a dome.

There were countless servants outside the godly palace, but none of them dared disturb Seal Huller Master. They knew that it was Pan Ke Master, a friend of their master.

"Why are you here, Pan Ke?" Seal Huller Master asked as he walked out with a smile.

"Let's talk inside," said Pan Ke Master.

"Oh?" Seal Huller Master looked confused.

Inside the palace, Seal Huller asked, "What happened?"

"You told me before that you found a human named Luo Feng in the place you're stationed in, right?" asked Pan Ke Master.

"Yeah. What's the matter?" asked Seal Huller Master, confused.

"This is what happened. I heard some news in Purple Moon Cliff just now..." After Pan Ke Master told the entire story, his eyes gleamed as he added excitedly, "Seal Huller, Blazing Water Lake belongs to Purple Moon Holy Land, and it's a small gathering place of our inner domain. There are three universe

masters including you and me. It's a great opportunity. A special true treasure second only to supreme true treasures. It's invaluable. Once we get that, we can control the space, and with a pinnacle domain type true treasure, we can be invincible in controlling the domain."

Seal Huller Master was excited.

"Ask anyone," said Pan Ke Master. "It's a widely spread news, now. There will be some other universe masters coming to tell you later. We need to hurry. It's said that Molten Lava Devil God and Luo Feng showed up in Blazing Water Lake. That sounds about right!"

"Okay." Seal Huller Master nodded.

"It's a very rare valuable!" Pan Ke Master exclaimed.

"Let's do it!" said Seal Huller Master. "It's a once-in-a-lifetime opportunity. We need to do it now!"

"Where is Luo Feng?" asked Pan Ke Master.

"It's only been a few days," said Seal Huller Master. "He's still in Blazing Water Lake. Based on where I met him last time and the direction he went, I can venture a guess as to where he is. Tell You Ya to stop him at a set of coordinates! We can encircle him."

When Luo Feng had gained fame in Tilted Peak Sector, lots of great beings learned about his wing true treasure that could both control space and time and suppress top-tier domain type true treasures. Although that sounded precious, it still couldn't attract Seal Huller Master.

But things were different now. Even Five Chaos Master, who used a pinnacle domain type true treasure, had been suppressed! And Luo Feng's godly power was obviously weaker... Which meant that wing true treasure was only second to supreme true treasures! Supreme true treasures were extremely scarce even in Purple Moon Holy Land, and true treasures like Extermination God Armor and that silver wing true treasure were also rare. At least Seal Huller Master didn't have one.

How could he miss a chance like that?

\*\*\*\*\*

Inside the first miniature universe of the Divine Eye clan.

Tens of beings were waiting.

"Ultimate Arrow's already dead. Don't know what happened to Five Chaos. We're really anxious that Five Chaos still hasn't come out of the godly palace."

"Perhaps the original body of Five Chaos has died, or perhaps he's still fighting for a chance to live. No one dares to bother him."

"Just wait and see."

That Ultimate Arrow Master was only a mediocre universe master, yet Five Chaos Master was one of the leaders of the Divine Eye clan, and his Extermination Godly Armor was renowned. If he died, both the reputation of the race and his valuables would be lost.

\*\*\*\*\*

There was a space at the crossover of Lava Ocean and Blazing Water Lake. The space was twisted, and extreme cold and heat were combined here.

Hong! Long! Long!

A fierce, strange beast was torn the Lava Ocean and flew out into the space. It had four hoofs, three pairs of wings, and nine tails. At the same time, it had five heads and vines around them. A single-horned lizard. A dragon head surrounded in flames...

Five heads, a lion body, four hoofs, six wings, and nine tails. And there was burning lava on his body.

Hou!

The strange beast made five sounds, deep, high, or hoarse. There was madness and joy in his voice. His body trembled, lava flew out, and the beast immediately shrank. It transformed into strange godly armor, which fell onto a human-shaped being. It was the great being of the Divine Eye clan, Five Chaos Master.

The eyes of Five Chaos Master glinted with madness. There were some scars on the black armor.

"Aaah!" Five Chaos Master yelled with his head raised.

The space and the lake trembled. That roar contained five days' worth of his craziness, anger, and suppression.

"I came out alive... I came out alive! I survived it!" Five Chaos Master gritted his teeth and clenched his fist. His body trembled. "I haven't been through something like this for a long time. Silver Wing Horde Leader Luo Feng, you're indeed impressive. My Forbidden Palace is destroyed. Fortunately, my Extermination Godly Armor can become five beast gods, and five beast gods can rival pinnacle palace type true treasures. Even my Extermination Godly Armor is damaged, though it doesn't have a huge effect. After all, it is Extermination Godly Armor."

Five Chaos Master felt anguished. All his power depended on his Extermination Godly Armor, and he performed lots of his techniques through his Extermination Godly Armor to amplify the power.

"I regret it! I regret it so much! I should've performed Five Beast Extermination the second I met that Luo Feng!" Five Chaos Master was furious, yet he forgot that he had been very close to Luo Feng, so he wouldn't have been able to perform that. He was only able to do attacks using Water Ripple Prison.

"I'm still alive!" he said. "I survived it! Luo Feng, I'll teach you the meaning of regret!"

Five Chaos Master raged. He couldn't just let something like this go. Otherwise, everyone outside would think he was afraid of Luo Feng. He had to kill Luo Feng himself to brush off this shame.

"Die!" Five Chaos Master waved his hands and took out a spaceship left by Ultimate Arrow Master. It was a top-tier palace type true treasure. Five Chaos Master went into it.

Sou!

The spaceship went into the cold Blazing Water Lake.

\*\*\*\*\*

A beautiful body with three faces appeared. The three faces were wicked, holy, and blurry, respectively. She wore a black fighting suit. A shining green light followed, and it was a domain type true treasure.

“Seal Huller, Pan Ke, I’ve arrived at the second coordinate, and I hope that Luo Feng is here. I’ve used my domain type true treasure to inspect the area, and it’s him! Seal Huller, you are right! Luo Feng is indeed here.”

Inside the All-God Sector, three of their avatars gathered there.

### **Chapter 1193: Soaring into the Sky**

Hou! Hou! Hou!

The wind howled as though it was insane, and the wind seemed like blades.

“Silver Wings Horde Leader, there is no escape for you no matter how you struggle. It is just a waste of time. I am willing to take some valuables to exchange with you for your wings treasure. Three pinnacle true treasures in exchange for your wings true treasure. Do we have a deal?”

“Sealed Huller Master, don’t you think you are too confident?” said Luo Feng. “Here I am hovering about this cold air region while escaping, and there you are still a distance of at least one light year away from me. Within this cold air region where space is frozen, teleportation is impossible. We can only fly slowly. Just flying here would take you a few days. You want to get me? In your dreams!” Luo Feng sneered.

It had been three days. Three full days of being pursued and hunted down by the universe masters of Purple Moon Holy Land universe. Three days since You Ya Master had turned up and started sabotaging him. He had already anticipated that the situation would get worse.

True enough, it was only a day after You Ya Master started sabotaging him that Pan Ke Master also showed up. A short while ago, Sealed Huller Master also turned up within the area under the influence of his Golden Kingdom, and Sealed Huller Master even attempted to use his pinnacle domain type true treasure to put up a resistance. At least before Golden Kingdom, he could maintain his hold over the domain.

You Ya Master and Pan Ke Master were slightly weaker than Sealed Huller Master in terms of power, thought Luo Feng. The level of their powers is similar to Third Uncle’s. Sealed Huller Master, on the other hand, is comparable to Five Chaos Master. Besides, Sealed Huller Master’s domain true treasure, “Nebula Lamp,” when compared to Five Chaos Master’s Water Ripple Prison, is slightly more powerful.

Luo Feng felt mildly troubled. Now, the situation was terrible.

The three universe masters from Purple Moon Holy Land were surrounding him in three directions; when the most powerful one, Sealed Huller Master, got close to him, they could execute a technique similar to Miniature Universe to obstruct him!

Valuables really tempt the human's heart! People die for wealth—birds die for food! I knew that once Shi Wu Wings were allowed to execute their full powers, they were bound to invite trouble. But news spread way too fast...

Luo Feng's eyes flashed a hint of insanity. However, Sealed Huller Master and company are too confident. They think they are capable of stopping me? Save it!

\*\*\*\*\*

You Ya Master, Pan Ke Master, and Sealed Huller Master all knew trouble was brewing.

"Sealed Huller, Pan Ke... Luo Feng has been within that cold air region where space is frozen," said You Ya Master. "Teleporting is not possible. Although I am the nearest to him, that area of space is under suppression. There is no way I can suppress him back. Pan Ke's power is weaker. Sealed Huller, your power may be enough... but you are still a full light year away from him! He has Golden Kingdom and can control the distance between the two of you anytime. You advance, he retreats; you take a detour, he follows suit. In the end, you, Sealed Huller, will still be unable to get close to him. The two of us are also at our wits' end."

You Ya Master was anxious. The chase had already persisted for three days.

"Sealed Huller, do you have any way of destroying his Golden Space?" Pan Ke Master asked. "He himself is not very strong as an individual, but with the help of Golden Space, You Ya and I are, at times, at a disadvantage."

"The Golden Space that his wings true treasure gave rise to is very strong," said Sealed Huller Master. "I can barely resist it... If it was guaranteed to be within my surrounding area, I could; you all are too far from me. Almost one light year away. I cannot spread my influence that far. Furthermore, I am unable to destroy that Golden Space." Sealed Huller Master was also very helpless. "Now, we just have to hope that he escapes from that cold air region. The moment he makes it out of the cold air region and teleports somewhere else, we can catch up with him speedily."

"He is not so foolish. He has been within that cold air region for some time. Does it mean we have to continue wasting time and effort here like that?"

"Let's wait and see."

Sealed Huller was gritting his teeth while trying his best to contain his anxiety.

\*\*\*\*\*

Cold air region was a very ordinary area amongst the 100-plus dangerous places within the space of Blazing Flames Lake. To universe masters, it was not even considered dangerous; thus, naming it was on a more casual basis. Only the truly extremely dangerous places were given more unique names.

Cold air region... Its largest diameter was approximately three light years while its smallest diameter was 1.8 light years. At that moment, Luo Feng was encircling this particular cold air region.

"Sealed Huller, I just need to maintain a distance of one light year all the time—there will then be nothing you can do to me," Luo Feng shouted. His voice was transmitted via the Golden Space over to

Sealed Huller Master and company. “I am not a fool. I will not charge out so unwittingly. Even if more of you great beings turn up, no one can do anything to me!”

“Human form Luo Feng, your wings true treasure is not what someone of your level of power should own, even if it did help you to escape from us today,” said Sealed Huller Master. “There will be other adversities that you have yet to learn of now... News about what happened between you, Yin Tuo, Five Chaos Master, and Ultimate Arrow Master has spread. Soon, nearly 100 groups of powers from the entire Universe Ocean will learn of how unique your wings are and the powers they possess. If you are very powerful, all these will mean nothing. No one will dare to try and snatch it from you. But the time that you have become a universe master is still short. Obviously, your power is still weak, so many will come forth to try to snatch them away from you. Now, I am willing to offer three pinnacle true treasures to trade with you. Given the other groups of powers, I’m afraid annihilation is your only path.” Sealed Huller Master persuaded in a gentle tone.

You Ya Master, on the contrary, was shouting angrily. “Human! You are driving us insane with anxiety. If we were to summon a dozen universe masters from our Holy Land Universe, you would have no chance of escape at all. Even if Huge Axe Creator were to make it here before our dozen universe masters, I doubt he would be able to protect you.”

“Exchanging true treasures with us, everyone stands to gain,” Pan Ke Master added.

They were unwilling to summon more universe masters because the moment a group of Purple Moon Holy Land’s universe masters came over, they would have to give them a share to show their gratitude.

“One coaxes while the other coerces,” said Luo Feng. “Haha! You are all so useless! No matter who it is, so long as you want my wings true treasure, let your fist do the talking.” Luo Feng was still not bowing his head to them.

Peng! Peng! Peng!

An endless, hazy golden light and golden, blazing flames superimposed to suppress that beautiful, ever-expanding nebula in a most insane manner. Rings of nebulas expanded outward... This was Sealed Huller Master’s domain type true treasure “Nebula Lamp,” and it was much more precious than Five Chaos Master’s Water Ripple Prison.

These two great domains collided repeatedly, and the collisions affected a range measured in light years, giving rise to a shocking energy wave.

And in turn, this energy wave brought another great being—who was also within the space of Blazing Flames Lake—into the picture.

\*\*\*\*\*

It had been eight days since Luo Feng had become trapped in the cold air region.

“What patience.” Luo Feng raised his head to look up into the sky. He was waiting for a chance. “If I continue to waste time like this, I may have to wait for fire to start razing this frozen lake... Huh?”

Luo Feng's face changed. His Golden Kingdom had spread its influence beyond the area occupied by the cold air region, so when Five Chaos Master appeared near the boundary of cold air region, Luo Feng would naturally be aware of it.

"Five Chaos Master!" Luo Feng's eyes shot a murderous look. With a sneering voice, he transmitted his message: "Five Chaos Master, I can't believe you are still alive. How fortunate you are. You really earn my admiration!"

His voice was transmitted through Golden Kingdom and reached Five Chaos Master's ears with a boom.

"Admiration? I admire you, too!" Five Chaos Master growled deeply. "I had not expected you to be able to charge through and survive Lava Ocean. I even thought that this body of yours would have been annihilated."

"If even you are not annihilated, how can I be? My life is much longer than yours." Luo Feng snorted.

"Oh, I have lived for nearly three reincarnation eras," Five Chaos Master snorted in reply. "The way I see it, you will not be able to survive through this reincarnation era. How can your life possibly be longer than mine?"

The short exchange of words between the two was dripping with murderous intentions. They both knew that they wished for one another's death!

"Just a little bastard." Five Chaos Master was gritting his teeth inwardly. He had never placed Luo Feng on the same level as himself. He merely thought of him as an upstart.

"Just you alone, and you think of killing me?" said Luo Feng.

Luo Feng did not have a trace of fear. What was there to be afraid of when he had Shi Wu wings and Star Tower in his possession...? Even if it was a universe supreme master before him, he would have no fear.

Hong!

Five Chaos Master transformed into a streak of light and charged toward Luo Feng at high speed. At the same time, countless blade-rays charged toward Golden Kingdom in a frenzy. At this moment, Five Chaos Master was executing Core of Blade Sector, a technique that belonged to the already-annihilated Ultimate Arrow Master, who would have thought that it could sustain and exist until that point in time.

Blade of Core Sector was the only pinnacle domain true treasure that Ultimate Arrow Master was able to take out.

When Ultimate Arrow Master executed this true treasure, the force was not as great compared to Five Chaos Master's execution of Water Ripple Prison! But that was mainly because Ultimate Arrow Master was personally not as strong... When Five Chaos Master activated Blade of Core Sector to fight against Golden Kingdom and Blazing Flames Ocean, it was still merely at a disadvantageous position.

"Nebula Lamp? It's Sealed Huller Master," Five Chaos Master said.

"You are... Ultimate Arrow Master?" Sealed Huller Master asked from the other end.

The two were one light year away from one another. With only Core of Blade Sector and Nebula Lamp in contact, the two could recognize each other's domain true treasure but were unable to determine one another's identity.

"I am Five Chaos," Five Chaos Master replied directly.

"Haha! Five Chaos Master, it seems like you have not been annihilated."

Sealed Hulled Master was delighted and worried at the same time. He was delighted because by joining forces with Five Chaos Master, he was confident of dealing with Luo Feng; he was angry because when it came to fighting for the wings true treasure, he would have one more opponent to fight.

"I'm not that easily annihilated," Five Chaos Master coldly retorted. "Even with you all here, I don't think you will be able to badger him for long. What can you all do to this Luo Feng? If you and I join hands, we surround and block him from two directions. Be it you or me... if one of us can block him, then it is game over for him."

"Hmm," Sealed Huller Master said.

"As for the distribution of true treasures, we will talk about it after we finish him off," Five Chaos Master said

"All right." Sealed Huller Master said nothing further.

Hong!

Hong!

From two different directions, the two closed in on Luo Feng at lightning speed.

"Haha!" laughed Luo Feng. "Being able to bring two great beings to join forces against me—one from Divine Eye clan of the first reincarnation era and the other from Purple Moon Holy Land universe—is something I should be proud of. But trying to take my wings true treasure? Not enough!"

Luo Feng was laughing out loud, but he wasted no time and soared into the sky right away, screaming past the two great beings and making his way high up.

He understood that if it was only a single great being. He would be able to maintain a far enough distance, but once the two of them joined forces against him, one party would definitely be able to catch up with him.

The longer time dragged on, the smaller leeway he was leaving himself. That was why he needed to execute his plan while it was still early.

"He flew upward."

"He flew upward."

He was completely surrounded.

\*\*\*\*\*

In the vast Universe Ocean, the three reincarnation eras and two Holy Land universes, news spread slowly. News from Yin Tuo reached the two Holy Land universes before it could finally start to gradually spread to the second reincarnation era and the primal universe...

Just when Luo Feng was being hunted down by the four universe masters—including Sealed Huller Master and Five Chaos Master—the news spread to the human race.

Void Gold Master's eyes widened in shock and disbelief. "What! Where did this news come from? Isn't Luo Feng at the outer domain of Universe Boat?"

### **Chapter 1194: Go to Road to Desperation Together**

In Hong Alliance City of the virtual universe, inside the main palace, many universe masters were gathered.

"I just heard it from the second universe incarnation era, but I don't know whether it's real or not." Firestone master looked around. "Luo Feng helped me once. If he's in danger..."

"It must be false," said Void Gold Master, shaking his head. "Chaos and I went into Universe Boat together, and Chaos told Luo Feng not to get into the inner area. Besides, Luo Feng is relatively weak, and he shouldn't be able to get into the inner area, not to mention God-Destroying Valley! And he's certainly not powerful enough to fight Five Chaos Master."

"Makes sense."

"Yes." The universe masters present all nodded.

Five Chaos Master from the first incarnation era was at the same level as Primal Chaos City Leader.

"Don't panic first," said Peng Gong Master. "I am related to some universe masters from Purple Moon Holy Land. Let me ask them first." Peng Gong Master smiled, and all of a sudden, all the universe masters looked to Peng Gong Master. Peng Gong Master was very low-key, yet he had a very high status.

Peng Gong Master gradually turned solemn. "I've confirmed it." Peng Gong Master glanced around. "Luo Feng indeed got into the God-Destroying Valley of Universe Boat, and he fought Yin Tuo, Five Chaos Master, and Ultimate Arrow Master. And then Molten Lava Devil God showed up, which injured Yin Tuo like never before, and it forced Ultimate Arrow Master and Five Chaos Master to flee into Lava Ocean. Ultimate Arrow Master died while Five Chaos Master survived. However, he suffered a lot."

"This..."

"Is this true?"

All the universe masters in the main palace were amazed. Ultimate Arrow died? Yin Tuo was severely injured? And Five Chaos was forced into Lava Ocean?

"Are you sure, Peng Gong?" Void Gold Master couldn't help asking, as Ultimate Arrow Master was at his level.

"I am." Peng Gong Master nodded. "I'll call Chaos here."

Primal Chaos City Leader was also thrilled when he learned the news. The first thing he did was summon Luo Feng.

"Come here, Luo Feng."

Luo Feng showed up in the palace and looked around. "Teacher, Peng Gong Master, Void Gold Master, everyone..."

"Milky Way Horde Leader."

"Milky Way Horde Leader," everyone said with respect.

They kind of looked down on Luo Feng, as he was a new universe master. Yet after learning that he had caused Ultimate Arrow Master to die, had severely injured Yin Tuo, and had made Five Chaos Master go through Lava Ocean, they had nothing but respect for Luo Feng.

"Is it true?" said Primal Chaos City Leader.

"Yes." Luo Feng nodded. "Yin Tuo was kicked twice by Molten Lava Devil God, and his Golden Sulphone Armor might have been broken. As for Yin Tuo himself, he might not have much of his godly body left."

"As for Ultimate Arrow Master, his Core of Blade Sector fell in the hands of Five Chaos Master. He's dead now."

"As for Five Chaos Master, he might have lost dearly going through Lava Ocean."

Luo Feng told the story directly, yet the universe masters present were all thrilled.

"How about you?" asked Primal Chaos City Leader.

"I can only go through Lava Ocean as well," said Luo Feng.

Immediately, the universe masters were all worried. Going through Lava Ocean? Does he still want to live?

"I arrived at Blazing Water Lake, yet I'm being chased by Sealed Huller Master, Pan Ke Master, You Ya Master, and that Five Chaos Master..." said Luo Feng. "I'm running for my life, yet teacher summoned me."

"Four? Sealed Huller Master? Five Chaos Master?" Primal Chaos City Leader held his breath.

Luo Feng nodded.

"What can you do now?" Primal Chaos City Leader frowned. "You're in Blazing Water Lake, and it'll take me decades to get there. Huge Axe Creator is in Tilted Peak Sector. Who will go there to rescue you?"

Void Gold Master shook his head. "There's no time."

Peng Gong Master frowned.

Luo Feng said directly, "Relax, teacher. That Five Chaos Master won't stop until he kills me... I might just sacrifice my original body, and I won't hold back. They're chasing me, so I can't be distracted. I'll go first."

Luo Feng bowed and disappeared.

"Won't stop?" Primal Chaos City Leader and Peng Gong Master were quite concerned, yet they couldn't do anything.

"Impressive."

As for other universe masters—especially the universe masters from the races other than the human race—were all thrilled. It was already impressive enough for him to indirectly kill Ultimate Arrow Master, and now, he was fighting Five Chaos Master? Even Sealed Huller Master from Purple Moon Holy Land? It was crazy. They normally didn't dare to mess with Sealed Huller Master and Five Chaos Master.

\*\*\*\*\*

"Just run, Luo Feng!" Five Chaos Master roared. "Let's see how far you can run. How am I supposed to adventure in Universe Ocean if I don't kill you? You're dead! Dead!"

"Dead!" said Luo Feng. "Stop talking and do something!"

Luo Feng was charging—flying the highest. Pan Ke Master and You Ya Master were closest to him, less than 100 million kilometers beneath him, and with their speed 100 times faster than light speed, they could reach him in several seconds.

Five Chaos Master and Sealed Huller Master were dashing toward him from another direction. They were relatively far away from Luo Feng. Five Chaos Master was 100 billion kilometers away, and Sealed Huller Master was even farther away.

Hua!

The higher it was, the colder it got. Frozen Lake Fire was on the top.

There were flames in the deep of the sky, where Frozen Lake Fire had existed for an eternity. Sometimes, there would be ripples, and they would sometimes hit Blazing Water Lake, which froze the entire Blazing Water Lake.

"It's Frozen Lake Fire at the top!"

"It's been several days, and it's Frozen Lake Fire up there. Why does that Luo Feng keep flying higher? Frozen Lake Fire is extremely cold, and even top-tier palace type true treasures will crack. It seems that he has a pinnacle palace type true treasure."

Shua!

Luo Feng went into his Crimson Pyramid, and he went into the Frozen Lake Fire in that Crimson Pyramid.

"Come in, You Ya." Pan Ke Master took out a silver ball where there were complex engravings, and they went into it.

The silver ball went into that Frozen Lake Fire as well.

After a while...

“Went into Frozen Lake Fire? You won’t be able to run away!” The eyes of Five Chaos Master glinted with madness. Then his Extermination Godly Armor was dismantled, and Five Beast God was formed. He was inside Five Beast God and controlling it, and he went into Frozen Lake Fire as well.

After a while, Sealed Huller Master also entered Frozen Lake Fire in a pinnacle palace type true treasure.

Pan Ke Master and You Ya Master were both confused.

“So weird.”

“Luo Feng is slowing down.”

“Indeed, he is. So weird.”

“Sealed Huller, Luo Feng slowed down.”

“Just follow him,” answered Sealed Huller Master. “It’s the Road to Desperation in the front, so he won’t be able to make it.”

\*\*\*\*\*

Luo Feng slowed down. Pan Ke Master and You Ya Master knew they weren’t able to do anything to Luo Feng, so they slowed down as well. On the contrary, Five Chaos Master and Sealed Huller Master were moving forward at their fastest speed.

Slow and fast. Five Chaos Master got closer and closer to Luo Feng. 60 billion kilometers, 50 billion kilometers, 40 billion kilometers... 10 billion kilometers, 5 billion, 1 billion, 100 million...

“You’re asking for death, Luo Feng. If I don’t kill you, it’ll be a waste.”

Luo Feng slowed down and transmitted his voice through Golden Country. “Five Chaos, how persistent of you to chase me for so long,” said Luo Feng. “Do you know where it is in the front?”

“It’s the Road to Desperation,” answered Five Chaos Master.

“It is,” said Luo Feng. “It’s the Twelve Abysses in front.”

There was Frozen Lake Fire at the top of Blazing Water Lake, and it came from the Twelve Abysses. The Twelve Abysses were twelve endless spaces, six of which were bursting out endless Frozen Lake Fire. As for the other six, they kept swallowing the fire. Hence, they formed a circle. Once the explosive power was stronger than the gravitational power, the Frozen Lake Fire would touch Blazing Water Lake.

The abyss was the Road to Desperation!

For one thing, there weren’t other exits but the abyss. Also, only universe supreme masters could survive it, and even universe masters with supreme true treasures didn’t dare enter.

“Abyss...” said Luo Feng.

He flew to the top, and Frozen Lake Fire formed a huge whirlpool. There was a massive black hole, and Luo Feng was only able to defend against its gravitational power using Star Tower and Golden Country.

“Are you trying to scare me?” said Five Beast God. “Humph! The closer it gets to the abyss, the more powerful the gravitational power will be. And the gravitational power you’re able to withstand is weaker than what I can withstand. You’re dead!” Five Beast God dashed at Luo Feng like a beam of light.

Luo Feng looked up at the abyss, which was a place more terrifying than Lava Ocean. He wouldn’t be able to get out.

“Don’t regret it if you keep following me,” said Luo Feng.

“Haha, you’ll be the one who’ll regret it,” Five Beast God roared, and the claws already hit the Crimson Pyramid.

“I’m not your match, so...” whispered Luo Feng.

Hong! Long!

Miniature Universe was formed. It enveloped Five Chaos Master and Luo Feng. The Miniature Universe wasn’t able to resist that gravitational power whatsoever, and it didn’t even try. It was sucked into that abyss. Miniature Universe crumbled under that swallowing power. Five Chaos Master was struggling, but it was already too late.

“No!” Five Chaos Master was terrified and tried to fly back.

Luo Feng’s voice resounded around Five Chaos Master: “It’s my honor to go to the Road to Desperation with Five Chaos Master.”

\*\*\*\*\*

Silence.

A silver ball appeared outside the abyss, and after a short while, a palace appeared as well.

“Maniac, maniac!” Pan Ke Master and You Ya Master were both shocked.

That was the Road to Desperation. Even universe masters with supreme true treasures didn’t dare enter it.

“That Silver Wing Horde Leader is so crazy,” said Sealed Huller Master. “He’s crazy with others and also with himself.”

Sealed Huller Master stared at that abyss, and he knew that Five Chaos Master was doomed! He suddenly realized how wrong it was for him to try to seize Luo Feng’s valuables.

“Luckily, he went to Five Chaos instead of me.” Sealed Huller Master felt lucky.

## **Chapter 1195: Of Course, I Must Go**

Deep Abyss and Lava Ocean were different.

Deep Abyss was also known by universe masters as the “road to desperation”! What they meant was, the moment one broke into this region, it would be a road to destruction with no chance of survival. On the contrary, in Lava Ocean, there would still be a glimmer of hope if one was willing to try to fight for a chance for survival!

“Hahaha, hahaha...”

Both Five Beasts God and Crimson Pyramid were sucked into that gloomy and bottomless Deep Abyss.

Five Chaos Master, who had been trying his best to charge his way out just a while ago, broke into crazy laughter. That laughter sounded frightening.

“Good, good, good,” he said. “You have my admiration. I would never have expected this from you, since you have only lived this long! With such precious true treasures, that wings true treasure and palace true treasure... After surviving the ordeal in Lava Ocean, you are now going to charge into Deep Abyss out of your own accord? You are truly determined! Determined to give up everything. But you and I are different. I have lived for close to three reincarnation eras, and my end is nearing. Doomsday is inevitable. At least for great beings like myself. We no longer stand a chance. Only universe supreme masters have a shot for that last chance for survival.”

“This is the reason universe masters of the first reincarnation era were all so insane,” Five Chaos Master continued. “It is because... in the face of doomsday, we are so helpless! All hopes were pinned on the universe supreme masters of the race, for at least one to be able to make it past this reincarnation era. The helplessness that came along with an imminent doomsday drove us all insane. I dared to fight you. I did not expect you to dare to fight me and to drag me—a universe master whose doomsday is drawing so near—together with you into the Deep Abyss!”

Five Chaos Master laughed out loud. “This time, we will certainly die; while you and I both have several bodies, we both have lost our strongest bodies that we send for battles through this round. In the future, we may still have a chance to exchange blows, but no matter how we fight each other in life-and-death battles, after this round, Luo Feng, no matter how much I want to kill you or how much I hate you, do know that I also admire you. You are truly a worthy opponent! I will never, ever, even the slightest bit, underestimate you again...”

A voice was transmitted out from within Crimson Pyramid: “I’m honored. Five Chaos Master has always paid no heed of me. Now, you are finally treating me as a worthy opponent.” Luo Feng seemed quite at ease.

“Haha... Even if I have lost my true treasures like Extermination Godly Armor, my other bodies still have various other pinnacle true treasures,” said Five Chaos Master. “My power will still be on the level of a fifth-grade universe master. It will just be weakened by a mere fraction.” Five Chaos Master snorted. “But if you were to lose that wings true treasure, without this Crimson Palace true treasure, the next time you bump into me, will you be able to defend yourself at all?”

Without the power to resist... Five Chaos Master was already prepared to die a martyr’s death. As a super great being, if there was a chance of survival, no matter how slight, he would naturally fight for survival. But when there was zero chance of survival, he would accept his fate most graciously.

“You do not have to worry yourself about this, Five Chaos Master,” said Luo Feng. “How much time have I spent on cultivation so far? Maybe the next time we meet, my power will have surpassed yours. Even without my wings true treasure, I can defeat you all the same, attacking you until you are forced to beat a hasty retreat.”

“Haha! Confident. You are so confident.”

\*\*\*\*\*

Deep Abyss was truly frightening.

Be it Crimson Pyramid or Five Beasts God, none had the slightest ability to put up a resistance against Deep Abyss.

“Roar!”

The force sucked at them crazily, pulling Crimson Pyramid and Five Beasts God into the depths at high speed. This was different from the strangulation power of the lava whirlpool of Lava Ocean. This gravitational force was more like a black hole... But this black hole was a zillion times stronger, and the deeper one advanced within it, the stronger the suction force would get.

“Ah, ah, ah!” cried Five Chaos Master. “I cannot sustain Five Beasts God any longer. Haha! Silver Wings Horde Leader Luo Feng, I shall make a move first. We will battle again the next time we meet!”

Five Chaos Master bade his farewell amidst laughter.

Pa! Pa!

The whole of that hideous Five Beasts God was trembling under the suction force as though it would collapse and fall apart any moment. Two pieces of scales were torn off within an instant and sucked into the depths of Deep Abyss. After all, Five Beasts God was just a set of battle techniques that had been pieced together. In terms of defense and attack, it might be comparable to a pinnacle palace true treasure, but in terms of stability, it was slightly inferior to that of a real pinnacle palace true treasure. That was why, as the suction force increased, it would be impossible to maintain the form of Five Beasts God.

Pa, pa, pa, pa, pa!

Following the detachment of the two scales, a large number of scales started falling apart. Countless scales of the Extermination Godly Armor were sucked into the depths of the Deep Abyss.

Five Beasts God had fallen apart, naturally revealing Five Chaos Master inside it.

“Haha!” Five Chaos Master started laughing without inhibitions.

With a great ripping sound, the frightening gravitational force tore apart his entire godly body and sent him straight toward annihilation. He disappeared soundlessly and without a trace; his world ring, space ring and all were completely shattered under the terrifying strength of this force. A plethora of items, materials, true treasures, and other belongings appeared out of nowhere. But the moment they appeared, banging sounds erupted.

Peng! Peng! Peng!

One by one, the true treasures were shattered—annihilated! Ordinary true treasures, senior true treasures, and top-tier true treasures were all torn asunder! Countless materials were wrung and shattered!

The gravitational force at this point was not enough to take apart a pinnacle palace type true treasure, but it was enough to take apart a top-tier palace true treasure; it could also take apart many pinnacle true treasure weapons... Within a moment, some of the important gains of Five Chaos Master that he carried about with him wherever he went were all annihilated. Only Core of the Blade Sector, Water Ripple Prison, Black Pendant, and Extermination Godly Armor were unscathed.

Extermination Godly Armor, in the form of countless scales, was sucked deep within. Core of the Blade Sector, Water Ripple Prison and Black Pendant were all swept into Deep Abyss.

“Five Chaos Master, rest in peace!” said Luo Feng.

Luo Feng was inside Crimson Pyramid, executing Golden Kingdom. Hazy golden light enshrouded his surroundings. He could clearly see the wholly intact Core of the Blade Sector, Water Ripple Prison, and Black Pendant.

“Those that could survive the terrifying gravitational force of Deep Abyss and still stay intact must be precious true treasures.”

Luo Feng tried using Golden Kingdom to bind those valuables to him, but the gravity of Deep Abyss was far stronger than the binding force of Golden Kingdom. The two were on totally different levels; it was impossible for him to control those three items at all.

Hong! Long! Long!

The speed at which Crimson Pyramid, Core of the Blade Sector, Water Ripple Prison, and Black Pendant were traveling at got faster and faster. The countless scales of Extermination Godly Armor were also moving at an unbelievably fast speed.

“That is...!” Luo Feng could vaguely see a huge black object moving in a criss-cross manner beneath him.

Boom! Boom! Boom!

Countless scales, Core of the Blade Sector, Water Ripple Prison, and Black Pendant were all ramming into that gigantic black object. The impact could cause a complete change in direction. One by one, the treasures went off in different directions and were all sucked into Deep Abyss.

“Black pendant.” Luo Feng hesitated for a while, then immediately manipulated Star Tower and did his best to move closer to the black pendant.

Peng!

Star Tower also crashed into that black object. Then it rolled and went after the Black Pendant.

\*\*\*\*\*

In the first miniature universe of the Divine Eye Clan.

“Hahaha... Hahahaha...” Five Chaos Master let out bouts of laughter—such wild laughter. He stood by the railings of his godly palace, looking far ahead, laughing hysterically.

Shua!

Endless light rays gathered in the space before Five Chaos Master to form an old man with a similar single-eyed shadow at his back. The old man strolled over, looked at Five Chaos Master, and with a slow, gentle voice, greeted him. “Five Chaos.”

“First True Master.” Five Chaos gave a slight bow as he greeted him back.

The Divine Eye Clan had seven true masters. Every single one was a universe supreme master! And First True Master... was at the highest position and was most admired.

“My master body for battles has just been annihilated,” Five Chaos Master said. “It was annihilated in the Deep Abyss high up in the sky above Blazing Flames Lake within the ninth level of Deep Abyss.”

“Hmm?” First True Master continued to look at Five Chaos Master.

“Hahaha, I have underestimated Luo Feng,” said Five Chaos Master. “He is a new, strong great being who has a long life ahead of him but narrowly escaped death while trying to break through Lava Ocean. Thereafter, he dared to drag me with him as he charged into Deep Abyss. Ha...! After a hair’s breadth escape from death, normally we would cherish our lives even more. He should value his more than I valued mine. I have failed.” Five Chaos Master smiled.

“What about the true treasures you have lost?” First True Master inquired.

“In Deep Abyss, many of them have definitely been shattered to pieces. The only surviving ones are Black Pendant, Core of the Blade Sector, Water Ripple Prison, and Extermination Godly Armor. Among them, Core of the Blade Sector, and Water Ripple Prison could be expected to be shattered in some other dangerous lands within Deep Abyss. Only Black Pendant—which came from the Universe Boat and possessed power that was second only to Extermination Godly Armor, a supreme true treasure—could be preserved.”

“Hmm. Black Pendant and two great unique true treasures...” First True Master nodded slightly.

“Worthy enough for the Divine Eye Clan’s First True Master to take action this time.”

Deep Abyss was the road to desperation. It was only possible for Universe supreme masters to break through.

A short moment later...

Two universe supreme masters, the Divine Eye Clan’s Third True Master and Sixth True Master, took off at the same time and headed for Universe Boat! The target this time was the Black Pendant and two great unique true treasures: Extermination Godly Armor and Silver Wings.

\*\*\*\*\*

Primal Chaos City Leader sent three consecutive messages to Luo Feng.

“Luo Feng, you are being hunted down by four universe masters including Sealed Huller Master and Five Chaos Master. What is the situation?”

When Luo Feng had fallen into Deep Abyss, he had finally replied to one of the messages.

“Teacher, I have dragged Five Chaos Leader with me into the ninth level of Deep Abyss.”

That was all Luo Feng replied. He did not wish to say that he was still alive because, firstly, he was unable to explain why he was still alive. And secondly, the moment they knew he was alive, the human race would come rushing over to rescue him. He was worried that implicating his human race would bring about more trouble.

Because everything was within his speculations, the moment the news spread about him and Five Chaos Master falling into Deep Abyss, it would attract the attention of many universe supreme masters who would desire to vie for true treasures. If the human race was thinking of saving him... more trouble was bound to arise.

“It’s better for me to settle everything,” Luo Feng said to himself. “To the outside world, just let them think that my original body has been annihilated.”

The moment Primal Chaos City Leader learned the news, he stood outside his palace and observed a moment of silence.

“I hope you will have acquired more resilience through your failure this time. You have the ability to divide your body, and you have just started cultivation. You are bound to make it further and higher in the future.”

That was all Primal Chaos City Leader said. He did not go on further. Actually, from Primal Chaos City Leader’s point of view, if one wanted a unique true treasure like the wings true treasure, the only way was to meet with the right opportunity and luck. Once lost, recovering it would be close to impossible.

One word to describe this situation: arduous!

He was also aware that the growth of a super great being was a self-governing process. It was unaided by nature and was something outsiders would not be able to help with.

“Able to drag Five Chaos to death with him... This disciple of mine is really something. And to think that Five Chaos is actually someone of my caliber.”

Primal Chaos City Leader shook his head, then wasted no time in heading over to where Huge Axe Creator was.

“Huge Axe!”

Primal Chaos City Leader approached, and Huge Axe Creator walked out of the godly palace. He was barefooted, and his hair was a mess. He walked out in this state.

“Primal Chaos City Leader? Why have you come? For Luo Feng? I heard about it, too. It seems he is being hunted down by four universe masters including Sealed Huller Master and Five Chaos Master.”

“He has already entered the ninth level of Deep Abyss with Five Chaos Master,” Primal Chaos City Leader said. “There is no way they can survive. Luo Feng’s true treasure and Five Chaos’s true treasures are all in the ninth level of Deep Abyss. It is a rare opportunity. Huge Axe, are you going to make a trip there?”

“Go? Of course I must go,” Huge Axe Creator said.

### **Chapter 1196: Calm Down**

News of the fight between Luo Feng and Five Chaos Master and Ultimate Arrow Master and Yin Tuo had already spread to all three incarnation eras and the two holy lands. However, news now came that Five Chaos Master, who had survived Lava Ocean, had fought Luo Feng again, and they had both died in the abyss above Blazing Water Lake. The news shocked everyone.

“That Silver Wing Horde Leader is so stupid! Why did he fight Five Chaos Master like that? Five Chaos Master is from the first universe era! Those universe masters are all crazy! They’re facing ultimate death. Even if they can survive this time, they’ll still die in the future! How long has he been practicing? He’s that lucky to get the silver wing true treasure, and he’s willing to give it up? Humph! It’ll be extremely difficult for him to get another true treasure like that!”

“That Luo Feng died with Five Chaos, at least.”

“Five Chaos is a moron! If he were a great being from the second incarnation era, he wouldn’t have behaved like that. He should’ve given up after surviving Lava Ocean. He still chased Luo Feng? No wonder he’s from the first incarnation era. He died.”

“Interesting. Both of them have bodies, so they’ll show up again. What else will happen?”

“How will Luo Feng fight Five Chaos Master without that silver wings true treasure?”

“Both of them are dead, which means Extermination Godly Armor and the silver wing are both in the abyss. Haha. I’ll definitely go there.”

“There are twelve abysses in total. Do you even know which one they’re in? If it weren’t for universe supreme masters, they wouldn’t dare go.”

\*\*\*\*\*

After that fight, Luo Feng was known to the entire Universe Ocean. At least, the three incarnation eras and the two holy lands all knew about Luo Feng, and they didn’t dare look down upon him. After all, Ultimate Arrow Master and Five Chaos Master had been defeated because of him.

“Do you want to go to the abyss, Scorpion? I heard that both Extermination Godly Armor and the wing true treasure are there.”

“I have a supreme true treasure, so I don’t need those. Besides, do you even know which abyss it is? I believe that some universe supreme masters from the Divine Eye clan are rushing there now. Compared to us—lone universe supreme masters—those universe supreme masters backed by their races value the true treasures more! But I don’t give a damn about that Extermination Godly Armor. I am, however,

interested in that silver wing true treasure. That should be the first true treasure that can control the space and time aside from supreme true treasures.”

“That’s right.”

“A true treasure that can control space and time. Haha! How special. However, it’s useless to us, universe supreme masters. We make the orders, and once given, they’re strictly enforced. That’s much more powerful than a silver wing true treasure.”

“Okay, then I’ll stay in the core area with you.”

\*\*\*\*\*

Extermination Godly Armor and the silver wings true treasure indeed attracted lots of universe supreme masters. After all, it was very difficult to get a supreme true treasure in the three Lands of Extremis! Even for Huge Axe Founder, it took him an eternity to get one. As for Extermination Godly Armor and the silver wings true treasure, they were only second to supreme true treasures and were extremely precious.

They were attractive to universe supreme masters.

\*\*\*\*\*

Milky Way Horde Leader Luo Feng’s godly palace.

A mind slashed the space and time and arrived at the space and time.

There were countless undying servants and guards in the godly palace. There were also several universe knights like Ganwu Country Master, yet those universe masters didn’t even sense that mind.

“Huh?”

Inside a quiet training room, nine undying servants were guarding it outside.

Inside the quiet training room, Luo Feng’s Remote Ocean body sat with his legs crossed, and a pool was right behind him. The pool was the god country transportation portal, and it was connected to his god country. For all these years, Remote Ocean body would sometimes travel to the Ancestral God School and receive the beast god path inheritance.

Hua!

A powerful inheritance arrived, and a blurry being was formed in front of Luo Feng. It was an elder with two horns: Sitting Mountain Guest.

“Teacher.” Remote Ocean body stood up and gave a salutation.

“Luo Feng.” Sitting Mountain Guest looked at Luo Feng. “I heard something about you, but is it true?”

Luo Feng answered respectfully. “It is true, and I bet it came from Purple Moon Holy Land. I was in Blazing Water Land, and I was hunted by three universe masters from Purple Moon Holy Land and Five Chaos Master... I dragged Five Chaos Master into the Ninth Abyss to awe others.”

“You did the right thing!” Sitting Mountain Guest exclaimed. “You have a silver wing true treasure, which attracts other great beings. If they believe you’re weak, they’ll try to seize it. And after this time, some great beings will be intimidated by you.”

Luo Feng nodded.

“You can pretend that your original body has died,” said Sitting Mountain Guest. “Just hide yourself and train for a time. How’s the path of beast god?”

“I almost completed the sixth level,” said Luo Feng.

“Keep practicing and reach the seventh level as soon as possible,” said Sitting Mountain Guest. And then he whispered with concern, “Remember, you should definitely take risks on the path to great beings, but sometimes, you need to remain low-key. I think the Divine Eye clan might send some universe supreme masters there. Be safe.”

“Sure.” Luo Feng nodded.

Hua!

Sitting Mountain Guest disappeared.

Luo Feng nodded. Sitting Mountain Guest was right. He couldn’t be too crazy, as he might end up killing himself. And it was also important for him to improve his power... Although he was able to create secret techniques, he was still too weak on laws, as he hadn’t even completed the seventh level of the beast god path.

And then Luo Feng smiled.

Although Sitting Mountain Guest was only there to talk, he could sense that Sitting Mountain Guest was concerned. After all, when Luo Feng was still weak, Sitting Mountain Guest could be in control of everything. However, it was Five Chaos Master that Luo Feng was dealing with, and even universe supreme masters from the Divine Eye clan might interfere. Even Sitting Mountain Guest wouldn’t be able to handle it.

\*\*\*\*\*

Sitting Mountain Guest went to talk to Luo Feng, yet Primal Chaos City Leader never went to him.

At the apex of the Thunder Island in the virtual universe, Long Yan Master held a cup of wine.

“Why don’t you go to see Luo Feng?” asked Long Yan Master.

“No need. He’s not stupid.” Primal Chaos City Leader frowned and poured wine in his cup. “Besides, I can’t help him. He has Remote Ocean body, so his earthling original body can be recovered quickly. However, I haven’t heard from him in a while.”

Long Yan Master held the wine cup and laughed in his heart.

Chaos, he thought, you do care about him, but you just don’t want to say it.

\*\*\*\*\*

The Ninth Abyss.

Hong! Long! Long!

The black pendant and the small bloody pyramid were flying in the endless abyss.

“It’s been six days since I entered this abyss, but I kept being swallowed by that power,” said Luo Feng. “Some universe supreme masters might come here after learning about it, but it might take years for them to arrive.”

Luo Feng remained calm. He was controlling Crimson Pyramid. It was the same size as the black pendant, so normally, they followed the same gravitational power. Luo Feng was able to control Crimson Pyramid so that he could closely follow the black pendant.

As for grabbing it, his godly power was crushed the moment it went out. The power of Golden Country was nothing compared to that gravitational power, so it couldn’t get the black pendant at all.

“Following that swallowing power, I’ve been through lands of darkness and hit unknown objects. And then I went into the killing area, and both my Star Tower and the black pendant survived. Then I entered the extremely hot place.”

The abyss was extremely dangerous. Even Jie Fanzi didn’t have much recorded about it. Although Jie Fanzi had entered here before, he had only adventured here for a short while, without inspecting it carefully.

For one thing, it was much more difficult to leave the abyss than to enter, and it was extremely dangerous. Also, there weren’t many true treasures born here.

Dangerous without true treasures... It would be a waste of time to inspect it.

“The swallowing power is getting weaker. It’s getting weaker!”

Luo Feng was exhilarated. The gravitational power was the strongest on the fourth day, and then it fluctuated after that. Luo Feng concluded that the gravitational power wouldn’t this strong all the time.

Hua! Hua! Hua!

The gravitational power tumbled, and after only a short while, Golden Country was able to resist it.

“Hahaha.”

Luo Feng was overjoyed, and he initiated Golden Country.

The blurry Golden Country enveloped the black object flying in the distance and kept suppressing it to slow it down. It got closer and closer to Star Tower. A hand reached out from Star Tower, grabbed the black object, and put it back in the tower.

“Done.” Luo Feng was joyful.

**Chapter 1197: Go to Universe Boat**

Luo Feng was holding the black pendant in the bloody pyramid. The material of the black pendant was almost the same as that of the cyan keepsake. There were strange beast sculptures he had never seen before on the keepsake, and there were nine fangs on the strange beast. Its eyes emitted fire as if it were the king of darkness.

“The black pendant represented the black secret space.” Luo Feng nodded as he played with it. “The objects in Universe Boat are indeed mysterious. The gravitational power is able to tear apart pinnacle true treasures, yet this one remains intact.”

Are there valuables in the black space? Luo Feng wondered.

Actually, it was highly likely that there were valuables in the black space, especially valuables from the great beings from the first universe era. They didn’t want their valuables to fall into the hands of those from the second universe era or those from the original universe, so they’d rather keep them in the secret space and hide the keepsakes.

Of course, some great beings would destroy the valuables outright. Different great beings had different ideas.

I wish that Five Chaos Master left some valuables in the secret space, Luo Feng thought. However, that secret space is a land of valuables.

Black keepsakes, cyan keepsakes, and silver keepsakes—each of them represented three individual spaces. The secret space itself was very special. Luo Feng’s original plan was to go to the Black-Striped Stone Pillar to sharpen his willpower, which was why he closely followed that black keepsake.

“After such a long time being hit by gravitational power without being protected by godly power, the life imprints in the black keepsake are already very weak.”

Luo Feng tried to make it recognize him as its master. The godly power went in, and it found that the life imprint inside was already very weak. After trying several times, the life imprint left by Five Chaos Master was gone.

The black keepsake would belong to Luo Feng once his life imprint was infused.

Hong!

The bloody pyramid landed on the green water layer. The green water was extremely cold and could rival Frozen Lake Fire.

“If I got trapped in the abyss, it would be very difficult for me to get out. I need to carefully inspect this abyss first. The map left by Jie Fanzi only has a very brief record of this abyss.”

Dimming golden light started to permeate on the green water.

It was deep, enormous, and complex. Jie Fanzi had only been here for a while, so perhaps he didn’t even record one-millionth of this abyss.

“I need to depend on myself in this abyss.” Luo Feng started to inspect his area carefully. After all, he would reside here for a while.

\*\*\*\*\*

Chaos airflow permeated everywhere in Universe Ocean.

Two beings were teleporting time and time again. The forces from them were both pretty ordinary; however, every universe master in Universe Ocean would be able to identify them. After all, all the universe masters adventuring Universe Ocean would be notified that some beings must not be messed with.

These two could definitely not be messed with. They were the third true master and the sixth true master from Divine Eye clan. The sole-eye phantoms behind them had already disappeared, which made them look like ordinary human beings.

“Five Chaos suffered a great loss this time, and those other races laughed at us of the Divine Eye clan. Humph! This time, we’ll show the power of our Divine Eye clan together. Even the two holy lands don’t dare to mess with us, yet that human from the original universe dared to.”

Indeed. The two holy universes didn’t want to mess with the Divine Eye clan. The Divine Eye clan was indeed extremely powerful, as there were lots of universe masters. Of course, it was nothing compared to the two holy lands. However, there were seven universe supreme masters topping the two holy lands. Universe supreme masters wouldn’t be bred in the holy universes.

Besides, the small universes of the surviving universe supreme masters from the holy lands were already annihilated. Even though they were still alive, their power was significantly weaker after the miniature universes were annihilated.

Which meant the two holy lands were indeed intimidated by the Divine Eye clan.

“The end is coming,” a green-eyed man said. “We have to take our last chance, and anyone who dares to mess with us will be punished. Luo Feng fell into the abyss with that Five Chaos, so the silver-winged true treasure and Extermination Godly Armor are in the abyss. Some universe supreme masters will go—even that Huge Axe from the human race.”

“Yeah, it’s possible.”

“Huge Axe is young. Although he’s powerful, he doesn’t have a supreme true treasure, so he isn’t our match. We have seven universe supreme masters, and we obtained ancient techniques from the three Lands of Extremis. Perhaps only Teacher Origin can suppress us. As for the others, we don’t need to be afraid. We will punish any universe supreme master who comes this time, especially Huge Axe.”

“Yes.”

“We’ve arrived.”

Sou! Sou!

The seemingly ordinary beings arrived at Universe Boat.

\*\*\*\*\*

Universe Ocean, the inner area of Titled Peak Sector.

The waterfall covered everything, and there were giant rocks flying in it.

Hong!

A shining axe appeared.

The giant axe was more than 90,000 kilometers long, and the head was enormous. There were ancient engraving sculptures on the haft. The engravings were mysterious, which made the huge axe gleam... It tore the space around it apart. The waterfall bounced back, and the huge rocks were cracked. All the laws retreated!

“Break!”

Hong!

The space in front of it was clotted, and, hence teleportation was impossible. However, the huge axe resisted all the laws, and it kept getting faster and faster. 100 times faster than light speed, 10,000 times faster than light speed... The speed kept surging, and after only several minutes, it made its way through this clotted area.

Then it teleported and disappeared.

\*\*\*\*\*

Huge Axe Creator finally made his way out of Tilted Peak Sector after lots of godly power, teleportation, and rapid movement.

“Finally.”

A huge, barefoot man was standing in the space right outside Tilted Peak Sector, watching the endless space in front of him. “The Divine Eye clan is from the first universe era, so they’ll act crazily, as they’re facing the life limit. Besides, they’re very proud of themselves and even look down upon the two holy lands. They’ll seize this chance to show their power. Haha, Teacher Origin roamed Universe Ocean, and no universe supreme masters dare to be reckless in front of him. I’ll take Teacher Origin as an example. With this huge axe, I’ll be able to show my power. Divine Eye clan, I’ll start with you.”

The barefoot huge man was furious and confident.

Hong!

With one teleportation after another, he soon left Tilted Peak Sector and started to head off to Universe Boat.

\*\*\*\*\*

In the depths of the ninth abyss.

The bloody pyramid was flying slowly, and it inspected the area around it using Golden Country. There were quite a few special areas in the abyss, and 99 percent of the areas could not be inspected by Luo Feng.

“No wonder the map left by Jie Fanzi is so brief. I can only use my eyes for inspection.”

Luo Feng looked out from the bloody pyramid. Star Tower was a supreme true treasure, so it couldn't block Luo Feng's sight. He used the most primitive way to inspect the surroundings.

One day passed.

"The abyss is indeed very dangerous," said Luo Feng. "Top-tier palace type true treasures won't be able to survive more than five minutes, and even pinnacle palace type true treasures won't survive more than a day. Luckily, I have Star Tower."

Luo Feng was terrified by how dangerous the abyss was. He could run into places as dangerous as Lava Ocean, and the only difference from God-Destroying Stream was that there weren't being like Molten Lava Devil God who would attack people.

"It's so dangerous, but there isn't a single true treasure born. This doesn't make sense. Normally, the more dangerous a place is, the more likely that powerful true treasures will be born, yet it's completely the opposite here."

Luo Feng was confused. There were great beings from universe eras who came here for inspection. Yet they all proved that there weren't true treasures born in the abyss. Even if there were, they were left by dead great beings.

Hu!

Star Tower kept flying. It found different dangerous areas, yet it failed to find any valuables.

"Huh?" Luo Feng frowned. He wasn't blocked by Star Tower, and he saw a black object.

"Go there." Luo Feng controlled Star Tower and flew there. It kept getting closer and closer. That black object looked like a black scale—a black scale from Extermination Godly Armor.

"Is it...?" Luo Feng looked excited.

Star Tower flew into the windy area.

Endless golden light permeated. Even though it was disturbed, it could still attack or bound, and it grabbed the black scale immediately. After a while, it took the black scale back in Star Tower.

Luo Feng's eyes gleamed. "It's a scale from Extermination Godly Armor! I've found one! So the others are close!"

### **Chapter 1198: Extermination Godly Armor**

Luo Feng held onto the black scale, which was around the size of a wash basin. He felt a slight coldness while holding onto it, and even though he was looking at the physical object, he felt that that black scale had an intimidating aura.

"Extermination Godly Armor's name rings far and wide. However, it had always been in Five Chaos Master's possession and has never been owned by any other great beings. So, all the said true uniqueness of Extermination Godly Armor spreading within the Universe Ocean are merely rumors. But

the unanimous fact agreed upon by all, including the various universe supreme masters, is that its powers are only second to that of a supreme true treasure.”

Luo Feng could still remember the scene where Five Chaos Master transformed into Five Beasts God. Extermination Godly Armor was certainly the best fit for him.

“A true treasure of this grade is more precious and rarer than a strange object. Strange objects may be formidable, but they do not have any secret engravings to stimulate them. No one knows the actual powers of Extermination Godly Armor, nor do they know its true name.” Luo Feng looked at the black scale before him. His heart was on fire! “I must get hold of Extermination Godly Armor!”

Hong!

Luo Feng’s godly power penetrated the black scale right away. This particular black scale had drifted all the way and had undergone the various impacts within Deep Abyss without the protection of any godly power. Just like his Shi Wu wings, which had suffered from various ups and downs to be heavily damaged, this black scale might not be so unfortunate as to incur damages, but it had lost almost all of its life imprints, with only a faint trace left. With merely two impacts, Luo Feng was able to penetrate it to leave a life imprint.

“Huh?” Luo Feng frowned. “There isn’t any information?”

This black scale had already recognized him as its master, but he could not detect anything special.

“Could it be because this black scale is only a small part of the countless scales on Extermination Godly Armor? So it was powerless?” Luo Feng said to himself.

It was possible, as there was something called an “incomplete true treasure.” A true treasure had to be able to function normally before a portion of information could appear.

“Start searching.”

Sou!

Star Tower started moving right away.

\*\*\*\*\*

Luo Feng started searching as though he had cast his net at random. He merely had a piece of scale that recognized its master. But it did not have the ability to summon, nor did it contain any information, so Luo Feng could only search around slowly. However, he had already discovered his first piece, so he assumed that there would be others in the surroundings.

Hua! Hua!

With his control over Golden Kingdom, Luo Feng transformed into a large golden hand and grasped handfuls of dangerous lands as he scanned and swept through them carefully.

“Second piece!” Luo Feng was pleasantly surprised. “Eh, third piece!”

The truth was, there were, indeed, many Extermination Godly Armor scales in the surroundings. One by one, these scales were quickly being discovered, allowing the number of scales that Luo Feng found to

increase continuously. The only pity was... even though the number of scales found was increasing, there was still no information regarding Extermination Godly Armor being transmitted to Luo Feng's consciousness.

\*\*\*\*\*

Universe Ocean was the Divine Eye Clan's first universe.

"Huh?"

Five Chaos Master frowned and quickly walked out of the silent room to stand before the high railings of the towering godly palace. He looked far into the sky.

"First True Master."

Before him, in midair, a fuzzy figure appeared.

"Five Chaos." First True Master looked at him.

"First True Master," Five Chaos Master said anxiously. "Previously, when my black token lost its sensitivity while it was within Universe Ocean, I could detect its location and direction, but at least I could detect its presence. When my black token first lost its sensitivity... I thought it was the extremely scary impact of the Deep Abyss that repeatedly attacked with such impact, thus causing my life imprints to shatter. However, just now—"

First True Master frowned and said, "Continue talking."

"Just a moment ago, when it came to the countless pieces of scales of Extermination Godly Armor, by right, I should be able to vaguely detect them. But just now, I realized that the scales were disappearing quickly, one after the other. Apparently, my life imprints were continuously being shattered. However, when Extermination Godly Armor was being torn apart into countless scale pieces and being swept into Deep Abyss, even if it was a unique situation, it should still be a large-scale amount of life imprints being shattered at one go as a result of a portion of scales being swept up. Yet I felt that this repeated shattering was more likely scattered pieces of my Extermination Godly Armor being found by great beings and thereafter, recognizing these great beings as their masters." Five Chaos Master said this all in a serious tone.

"Being found by great beings?" First True Master was a little confused. "There are other great beings in the ninth level of Deep Abyss?"

"There aren't many who know of Deep Abyss," Five Chaos Master replied seriously. "Just three powers: us, the human race from the primal universe, and the Purple Moon Holy Land. Those who dare to venture into Deep Abyss are definitely universe supreme masters, almost certainly they would be humans from the primal universe and a certain few universe supreme masters from Purple Moon Holy Land. Or a few other universe supreme masters who were nearby and heard the news and were quick in reaching Deep Abyss to explore. That may be how a certain few universe supreme masters somehow ventured into the ninth level of Deep Abyss."

First True Master nodded slightly. Then the situation was a little troublesome. There were great beings who were a step ahead of him.

“The chances of great beings finding the scattered scales were extremely high,” said Five Chaos Master, “while the chances of the environment of Deep Abyss causing the life imprints to shatter one by one were extremely low, unless there were cases of sheer coincidences.”

“I know,” First True Master replied slowly.

Five Chaos Master bowed and immediately retreated. He understood that now, all he could do was pass on the information he had. There was really nothing else he could do.

\*\*\*\*\*

The internal domain of Universe Boat.

Third True Master and Sixth True Master had made a majestic entry into the internal region.

“What? Yes, yes, Teacher!” Sixth True Master’s divided body was in a conversation with First True Master via its consciousness. Then he quickly turned his head to look at Third True Master beside him. In a serious tone, he said, “Teacher has just given me some news. We have met with a little trouble.”

“Oh?” Third True Master looked over. “What did Divine Eye say?”

Divine Eye Clan had seven true masters. First True Master was the first in the entire history of the Divine Eye Clan to become a universe supreme master; at that time, he went by the title of “Divine Eye.” He took the path of becoming a universe supreme master with his title of Divine Eye; therefore, within Universe Ocean, he had earned the title of “Divine Eye True Master.”

Among the other six true masters, three were disciples of Divine Eye True Master.

“Teacher said that in the ninth level of Deep Abyss, there are great beings, and these great beings are also searching for the scattered pieces of scales of Extermination Godly Armor,” Sixth True Master said in a serious tone. “We have merely entered this internal domain, so we are still very far away. There is no way we can stop them.”

“Great beings have actually ventured into Deep Abyss too?” Third True Master instantly became a little flustered.

No matter how formidable they were, there was no way they could get there directly.

“I don’t care anymore.” Third True Master gritted his teeth as he shouted, “Let’s just burn with our godly power. We will tear apart time and space to get there in the shortest time possible.”

“Yes.” Sixth True Master nodded.

Hong! Hong!

The two went utterly mad. Although they each owned a supreme true treasure, those were not attacking weapon type true treasures. So when it came to the speed of tearing apart time and space, they were far from catching up with Huge Axe Creator! The only advantage they had was that Huge Axe Creator was already a beat slower than they were from the beginning, so at that point in time, Huge Axe Creator was merely at the entrance of Universe Boat.

\*\*\*\*\*

Searching like crazy—one by one, the pieces of scales were being hunted down.

Luo Feng had transformed into a golden beast which controlled Golden Kingdom within Deep Abyss. Golden Beast was rampantly grabbing, kicking, and trying all sorts of ways to comb through every inch possible. Soon, he managed to search and gather more and more pieces of scattered scales.

“9,310, 9,311...” Luo Feng went on without a moment’s rest.

The thing was, even if he had gathered many of them, the scales were still in a mess; there was no single composition that looked like a decent component.

Time passed by. In a blink of the eye, the search had gone on for more than a month. Luo Feng had taken complete reference to the distribution of these scales. In areas where the scales were densely gathered, he would search even more thoroughly... Naturally, he had sketched a diagram in his mind, which easily allowed him to speculate the place that would most likely to have a large number of scales. Going by such a method, Luo Feng was highly efficient.

“182,900.” Luo Feng had lost the zest he had when he first started. Now, he only looked forward to the moment where all these scattered pieces of scales would start to show changes.

Hua!

The large amount of scattered black scales accumulated in a pile in the core control room of Star Tower suddenly flew toward and gathered around this 182,900th piece of scale Luo Feng had just collected. The 182,900th piece became a core, every other piece was connecting, embedding, and composing about it in a frenzy; at the same time, bouts of aura were spreading out.

There was an immeasurably insane aura, to the extent of reminding Luo Feng of memories within the space of the wings where he was subjected to the insanely suppressive willpower of the bloodstains on the pair of white wings.

In a short moment, a gigantic, black wrist guard with a simple structure was suspended above the large number of scattered scales. The moment Luo Feng stretched out his left hand, the black wrist guard flew over instantly to cover his wrist. Quickly, it blended into its surroundings. At the same time, a piece of information was transmitted from the wrist guard into his consciousness rapidly.

“Huh?” Luo Feng whispered softly. “So Extermination Godly Armor’s original name is Crazy Demon Extermination Godly Armor.”

Crazy Demon Extermination Godly Armor was its actual name. Or rather, it was the name the creator of this armor had given it. As for Extermination Godly Armor... it was a name Five Chaos Master had given the armor. Upon transmission, all of Universe Ocean got to know of its name.

“A mere wrist guard is of no use at all.”

The information transmitted was a piteous amount, containing only the actual name and some uses of the wrist guard. The simple engravings on the wrist guard could be facilitated to include attachment, but apparently, this level of attachment would not be comparable to the ultimate technique of a universe master Luo Feng had created.

“Yet this name seems to suggest that there is something extraordinary about this Extermination Godly Armor.”

Luo Feng was looking more and more forward to learning more about the armor. The name it was given was quite well-deserved, actually. After all, it was only second to a supreme true treasure. Naturally, it would be ridiculous to think of it as ordinary!

Judging from normal practice, for the weaker ones, using strange objects and using supreme true treasures that were unable to unleash their full potential... the strength of the power unleashed by both was not much different! Supreme true treasures could unleash their true powers only if they were in the hands of a great being was capable of executing its powers well. For example, to most universe supreme masters, strange objects and supreme true treasures were vastly different... For some universe masters who were very powerful, they might still be able to unleash a sizable amount of power from these supreme true treasures.

However, to Luo Feng, who had only activated Star Tower to its second form, he did not unleash the full potential of Star Tower’s true strength. Star Tower could only be treated as equivalent to a strange object. Meaning to say that Extermination Godly Armor and Silver Wings—when placed in Luo Feng’s hands—would be equal to Star Tower in power level. At least for now!

With Silver Wings, Luo Feng was not the least bothered about the fourth-tier life forms. With his Star Tower Long Shuttle, he could suppress the fourth-tier life forms, but his power level would not be enough to fight Star River Master.

“I wonder what the true efficiency of Extermination Godly Armor is,” Luo Feng said.

Continue seeking!

“Sense of summoning...”

Upon obtaining the first component—the wrist guard of Extermination Godly Armor—Luo Feng could already feel a faint summoning from, for instance, the other pieces of scales around him and the pieces of scales dispersed in the outside world but still nearby.

“Haha...” Following the sense of summoning, Luo Feng’s speed of search increased tremendously and with an extremely high rate of efficiency.

\*\*\*\*\*

One by one, scales were being gathered continuously. He had even started to discover golden scales! The entire right arm of Extermination Godly Armor was golden, while the other parts were black.

In the blink of an eye, another 32 days passed.

The number of scales from Extermination Godly Armor that Luo Feng had gathered reached 6,920,021 pieces. Based on an approximate assemblage, he estimated that he must have gathered around 80 percent of the entire Extermination Godly Armor; although the quantity was high, he still lacked many connecting parts, so the entire armor seemed scattered with many of its secret engravings remaining incomplete.

Hong!

Just as the 6,920,021st piece of scale was recognizing its Master, a drastic change occurred again.

Wrist guard, battle boots, and dress armor... all started assembling in a frenzy. Bouts of intimidating aura were gushing forth continuously, impacting Luo Feng's willpower. However, having steeled his willpower during his time in the space of the white wings, Luo Feng was able to ward off the impacts. Soon, a half-completed Extermination Godly Armor was seen suspended in midair.

### **Chapter 1199: Supreme Masters Arrived**

The half-finished Extermination Godly Armor was floating in the control room of Star Tower, and it was giving out a dark light. The armor was black, and only the right claw was golden.

A plethora of ancient information flooded Luo Feng's mind. Although he wasn't able to read the characters, he knew what they meant.

"This is Crazy Demon Extermination Godly Armor." Luo Feng looked happy. "No wonder it's a valuable second only to supreme true treasures. Incredible. This is exactly what I need right now."

The message transferred already contained most of the information of Crazy Demon Extermination Godly Armor. It had several functions. It had excellent defending power as an armor. It was able to affect the soul and willpower, and it was able to weaken the soul attack to 1/100th. It was much more effective against material attacks, as it was able to weaken material attack to 1/100,000th! It was more precious than Force Armor!

Also! It was made up of 8,999,999 scales, and those scales could form all sorts of shapes. It could be used as a spiritual force weapon like how that Five Chaos Master formed Five Beast God. It was used for distant attacks. Plus, the right claw was the most powerful attacking part.

Aside from defense, distant attacks, and close combat, Crazy Demon Extermination Godly Armor also had a special ability, which gave it the name Crazy Demon. When the mind and willpower of the user became more and more similar to the armor, the user would grow crazier—and sometimes, the user would forget everything and fight madly. This madness would create a strong mental impact. Of course, the "mind hitting" power wasn't strong enough to be useful.

"Such wicked armor." Luo Feng raised his head and looked at Crazy Demon Extermination Godly Armor.

Sou!

The armor flew to Luo Feng's body like a streak of black light. Black scales showed up on his godly body. As for Force Armor, Luo Feng had put it away.

"Crazy demon? Crazy demon?" Luo Feng frowned.

Wicked and dangerous! It wasn't a good thing to be trapped in the state of a crazed demon. Based on the information on hand, once he was trapped in that state, he would forget everything and only know fighting. This was dangerous, as he needed to be able to judge the situation.

"No wonder I've never heard of Five Chaos Master using mind attacks." Luo Feng thought. "It's indeed not useful."

The good thing is, it's excellent in close combat, distant attacks, and defense, especially that right claw! Luo Feng thought.

There were different types of engraving sculptures on Crazy Demon Extermination Godly Armor. There were engravings for material defense, there was a combination of engravings, and there were even three levels of engraving sculptures on the golden right claw. Apparently, the engravings were not complete.

"The engravings of defense and combination are not difficult." Luo Feng was extremely high-achieving in engraving pictures. "The most difficult ones are those on the golden right claw. They can rival Shi Wu Wing but are inferior to Star Tower. I'll keep searching."

Luo Feng didn't have time to study the engravings. "I might not be able to completely understand these engravings. Besides, the universe supreme masters are coming here, and I think it might take them a short while to arrive. I need to gather all the scales before they arrive."

\*\*\*\*\*

Half a month passed.

It took Luo Feng a long time to get into the abyss from Universe Boat. However, the third true master and the sixth true master advanced extremely quickly.

"It's Frozen Lake Fire in the front, and the abyss is right above. Based on the coordinate, we can race up there and go to the ninth abyss. Even there's someone looking for valuables, they won't be able to make it out in such a short time. They're not able to use domain to inspect the abyss, so they can only use their eyes and senses. With the sensing skills we universe supreme masters have, he won't be able to get away."

"Let's go."

Sou! Sou!

They were both sitting in pinnacle palace type true treasures. They tore space and time like two beams of light, and the laws all receded. Their speed surged, 500 times faster than light speed, 1,000 times faster than light speed... They immediately went through Frozen Lake Fire, and they saw the abyss on top.

Their speed plummeted! Even universe supreme masters didn't dare to rush into the abyss at high speed. After all, the gravitational power was already very strong, and with that breakneck speed, the pinnacle palaces might not be able to withstand it.

Their speed plummeted, and they followed the swallowing power. Universe masters would not be able to survive in pinnacle palace type true treasures, yet it was different for universe supreme masters! They were able to wield more power of pinnacle palace type true treasures...

"Get into the abyss."

"I'll see which one is trying to seize the true treasures of Divine Eye clan. Humph! Extermination Godly Armor, wing true treasures—they belong to us Divine Eye clan!"

“Our final death is coming. No matter which universe supreme master you are, you’re just unlucky.”

The two universe supreme masters were ferocious, and they flew into the abyss. They were prepared to fight even universe supreme masters! The Divine Eye clan obtained ancient engraving sculptures in the three Lands of Extremis, and after careful research, the seven true masters fully comprehended lots of mysteries.

They weren’t afraid of anyone but Teacher Origin in Universe Ocean.

\*\*\*\*\*

In the depth of the ninth abyss.

“Where is it?” Luo Feng sat in his bloody pyramid. He was flying in the inner area of the abyss. “Where are the last scales?”

Extermination Godly Armor had 8,999,999 scales in total. He was afraid before that some scales would fall in some unknown areas! Yet now, he had 8,999,993 scales, and he had the final six left.

“I need them all.” Luo Feng grew anxious. He wasn’t able to find them with his sensing. “It means that the scales are far away.”

Luo Feng closed his eyes, and a map came into his mind. It was the distribution map of the scales, and he was able to extrapolate from the map.

“I can infer that there are nine possible areas where the final six scales are, and they’re all on the edge...”

Luo Feng immediately selected his route.

Sou!

The bloody pyramid flew along the route and started to look for the final six scales. Extermination Godly Armor couldn’t even compare with Shi Wu Wing. Luo Feng was able to sense Shi Wu Wing when he was several light years away, yet he was only able to sense Extermination Godly Armor half a light year away. It could be concluded that there were differences between the two true treasures.

Shi Wu Wing is that powerful with only two pairs of wings. If I have all six of them, how incredible it will be?

\*\*\*\*\*

The third true master and the sixth true master had been looking in the abyss for eight days. They followed the gravitational power, and they arrived at the area they intended to go. They found some fragments of true treasures, which made them realize that the other fragments and scales of Extermination Godly Armor must be close.

“I’ve found a fragment of a true treasure. It might be from a true treasure from Luo Feng or Five Chaos.”

“Look carefully.”

\*\*\*\*\*

Luo Feng flew along the edge, but he didn't dare use Golden Country. He speculated that the universe supreme masters would've entered the ninth abyss now. If he used Golden Country, he would be found very soon.

The bloody pyramid was flying fast, and Luo Feng was wearing the black Crazy Demon Extermination Godly Armor.

"Two more! It's been nine days. I found four scales in the past nine days, and I only have two left."

Luo Feng felt a sense of danger. He could sense that universe supreme masters could show up anytime.

"The last two scales. There are still three areas that I haven't searched for. The abyss is enormous, so in all the areas where domain inspection is impossible, they can only use their eyes. I think they won't be able to find me in a short time. The last three areas are all very remote. It might take me half a month to inspect them all."

Luo Feng was looking forward to it.

"Half a month. I've got to find the last two scales and complete Crazy Demon Extermination Godly Armor."

\*\*\*\*\*

The third true master and the sixth true master kept searching.

\*\*\*\*\*

After three days...

Luo Feng kept being patient, following the original path.

"I was in the center of Lava Ocean, and the speed exceeds the law control. Universe supreme masters might have the same skills."

Luo Feng forced himself to be calm, and he would immediately hide if special ripples showed up.

"Huh?" Luo Feng frowned and took out a token. That was a token given by his teacher, Sitting Mountain Guest, and he could contact each other using the token.

Sitting Mountain Guest contacted Luo Feng. "Luo Feng."

"Teacher," answered Luo Feng.

"Where are you?" said Sitting Mountain Guest.

"I'm in the ninth abyss," answered Luo Feng.

"No. I'm asking, which part of the ninth abyss are you in? I'm already in the ninth abyss, and I've followed the gravitational power and reached the depth of the abyss. I found the third true master and the sixth master, yet they didn't find me. Tell me exactly where you are..."

The message from Sitting Mountain Guest dazed Luo Feng.

Teacher? Teacher is here?

“Teacher, you...” Luo Feng was indeed dazed.

“Even if you become a universe master,” said Sitting Mountain Guest, “you won’t be able to make it out with Star Tower without me. Do you want to spend forever in the abyss?”

“Teacher!” Luo Feng felt warm. Teacher Sitting Mountain Guest had said that he wouldn’t help Luo Feng before, yet he arrived directly, which made Luo Feng grateful. “Teacher, I’m at...”

Luo Feng described the reference points around him to let the teacher know where he was.

“I’m coming now,” said Sitting Mountain Guest.

### **Chapter 1200: Crazy Demon**

“Luo Feng, the two true masters in Deep Abyss,” said Sitting Mountain Guest. “They are very sharp and sensitive. To avoid being discovered by them, my speed cannot exceed 100 times light speed. So, to reach to where you are, I need around five days.”

Luo Feng’s heart skipped a beat. He still had three more domains that he had yet to venture to, but Teacher seemed to be quite far from him, which would give him more than enough time to explore one more domain.

“Teacher, let’s meet somewhere else, then.” Luo Feng immediately chose another location out of the remaining three domains that was nearest to where he was as the new meeting location.

“Okay, I will still need close to six days to reach there,” Sitting Mountain Guest replied.

After that, the line of communication was cut.

Holding his token, Luo Feng was no longer worried or anxious. He was filled with excitement, and his eyes shone brightly.

“The moment Sitting Mountain Guest Teacher arrives, all dangers will dispel! The moment Teacher knew I had fallen into Deep Abyss, he rushed here right away...”

In his heart, he had always been cautious towards Sitting Mountain Guest. But this time, because Sitting Mountain Guest had rushed over so quickly, Luo Feng felt a warmth within his heart.

\*\*\*\*\*

Six days later.

Amidst the rolling, icy cold mountain range, winding about the hard, icy surface of the mountains was Frozen Lake Fire. The crimson Star Tower had stopped within this Frozen Lake Fire, which could not be seen by the naked eye.

“In the last three domains I have searched, I have found nothing! That means I have two left.”

Luo Feng was desperate for the last two pieces of scales of the Extermination Godly Armor; he was just short of the final two pieces. Then the Crazy Demon Extermination Godly Armor would be complete.

“Luo Feng!” Suddenly, a piece of information was transmitted to him.

Luo Feng revealed his delight. Holding onto the token for transmission, he replied, “Teacher, I am here.”

“You can come over now,” Sitting Mountain Guest said. “I have arrived on the apex of the triangular mountain.”

“Triangular mountain?” Luo Feng understood right away.

There were many mountain peaks in the mountain range. These peaks were strange. Some resembled magic cubes; among them, there was a peak that looked like a triangle from its side profile, as though it had been slashed by a blade to become so smooth and shiny.

Sou!

The Crimson Pyramid raced out of Frozen Lake Fire and flew toward the triangular mountain. He flew over many mountain peaks, and soon, he saw the triangular peak. It was so smooth and shiny all over, to the point that it looked more like a sculpture than a mountain. Luo Feng flew over to the apex of that mountain peak without delay. At the summit, he could see scattered pieces of icy mountain rocks all over, yet there was no sign of Sitting Mountain Guest.

“Teacher, I’m here, where are you?” Luo Feng asked again.

Hua!

One of the rocks on the mountain peak started to change into a shade of dark green and began to float up and remain suspended in mid-air. Simultaneously, a cave appeared on the rock that was so tiny that only an ant might have been able to crawl through.

“Come in.”

“Yes, Teacher.”

As big as a speck of dust, Star Tower flew into the cave.

Inside the rock was a world of immeasurable beauty. It was as though the whole internal world was composed of glass. Numerous miniature worlds within it were scattered and dispersed, and upon entering, Luo Feng was immediately led into the core world. It was a vast core world where all living things grew and lived; there were countless animals and plants, as well as humans and other races.

“Teacher.” Luo Feng could see Sitting Mountain Guest standing on one of the faraway mountain peaks at first glance.

“Hmm?” Sitting Mountain Guest turned around, and his eyes were quick to focus on the black armor Luo Feng wore. He frowned upon taking a thorough look, then asked, “Is that... Extermination Godly Armor?”

Luo Feng smiled and nodded. “Yes.”

Luo Feng wore the armor in the hope of getting Teacher to realize and ask about it without him having to say anything. Otherwise, it would naturally be difficult for him to distinguish any slight change in expression or form.

“It was quite rewarding for you, to be able to obtain this Extermination Godly Armor,” Sitting Mountain Guest said. “I have heard of its great name before but never had the chance to see it. Let me have a closer look.”

“Yes.”

Luo Feng knew that Teacher was a top-tier existence extremely skilled in making true treasures. With a move of his mind, the half-completed Extermination Godly Armor flew over to where Teacher was.

From where he stood, Sitting Mountain Guest stretched out both arms to receive the Extermination Godly Armor. He looked it over meticulously and even studied the small portion of secret engravings found on the surface. The more he looked, the more furrowed his brows got. His frown deepened.

“It’s called...” Sitting Mountain Guest turned towards Luo Feng and asked, “Crazy Demon Extermination Godly Armor?”

“Teacher, how did you know?” Luo Feng was shocked.

This Extermination Godly Armor had always followed Five Chaos Master wherever he went and had never been passed around before. Its original name, “Crazy Demon Extermination Godly Armor,” would not have been known by other great beings.

Sitting Mountain Guest laughed lightly and replied, “Naturally, I have met with some unique opportunities, too, so I learned about the existence of Crazy Demon Extermination Godly Armor long before now. It’s just that, this is my first time looking at it so closely. That is why I only now realized that... Five Chaos Master’s Extermination Godly Armor is in fact, Crazy Demon Extermination Godly Armor. This is an absolute true treasure, but there is one thing you have to bear in mind.”

Luo Feng listened intently.

“By using this Crazy Demon Extermination Godly Armor, once you enter the Crazy Demon state, the crazier the demon you get, the higher power of this battle armor will increase, albeit gradually. However—the moment you lose your autonomous consciousness and enter an absolute Crazy Demon state, you will not be able to maintain consciousness at will. There must be another great being around to wake you up within the shortest time possible! If no great being is around to break the Crazy Demon state and wake you up... you will lose your autonomous consciousness forever.”

Luo Feng’s expression changed drastically. He replied, “Your disciple will remember this well.”

Luckily for him, Teacher was around to give him guidance.

“Hmm.” Sitting Mountain Guest gave a light hum and looked up as though his gaze could bore holes in the endless space high above. “Universe Ocean is unfathomable. Some of the knowledge I have acquired was through pure coincidence. You need not worry. When using Crazy Demon Extermination Godly Armor, just control your internal peace well. Do not let the Crazy Demon control you, and nothing will go wrong. Once you have attained a willpower that is comparable to a universe supreme master, then no matter how crazy it is, the Crazy Demon Extermination Godly Armor will never be able to cause you to lose your autonomous consciousness.” Sitting Mountain Guest looked at Luo Feng. “Also, I see that this battle armor seems to be incomplete?”

“Yes, it is.” Luo Feng nodded. “I still have some other pieces of scales with me. It is just that I am lacking the final two pieces. Therefore, quite a few other scales are unable to fuse. I am left with two domains to look into. I believe that the two pieces I am lacking should be in those two domains.”

“Where? Let me accompany you.” Sitting Mountain Guest smiled. “Being able to obtain that Crazy Demon Extermination Godly Armor will be a great help to you too.”

\*\*\*\*\*

Without further ado, Luo Feng, together with Sitting Mountain Guest Teacher, headed toward the last two domains.

On the third day...

“I can feel it, I can feel the summoning! In that direction.”

Luo Feng pointed far off into the distance. The mountain rock that was traveling with them immediately took a turn and headed in that direction at high speed.

This mountain rock was a true treasure personally made by Sitting Mountain Guest. After he had paid an exorbitant price and put in extremely strenuous efforts. It was usually in the form of a mountain... Sitting Mountain Guest would normally sit on the peak of this mountain. Within Universe Ocean, this “Sitting Mountain Peak” was acclaimed as a supreme true treasure, but previously, during a conversation with his teacher, Luo Feng got to know that while Sitting Mountain Peak had many functions, it still had not progressed to the level of a supreme true treasure.

Just as Sitting Mountain Guest had said: “I myself am a special life-form. I am one of a kind. This true treasure that I have refined is best suited to my life... and I made it myself and have even fused strange objects within it. It is indestructible. It is not a supreme true treasure, but in my hands, it is not much different from a supreme true treasure.”

“If the treasure suits you, that would be the best,” Sitting Mountain Guest continued. “Of course, in the vast Universe Ocean, when it comes to refining and making true treasures, there is no one who can beat me. Other great beings even have to go looking for true treasures.”

Luo Feng was speechless. Who could be so capable?

Making Star Tower for his disciple, then making Sitting Mountain Peak for himself... Sitting Mountain Guest had always been someone difficult to guard against, as he was well-equipped with so many different methods and means. Until that day, within the vast Universe Ocean, there was no one who really knew Sitting Mountain Guest’s true power. It was also because Sitting Mountain Guest never really fought head-on with anyone! He always relied on various other means, forcing the other universe supreme masters to a sorry state, which was why the various groups of powers were unwilling to offend this lone, wandering supreme master, Sitting Mountain Guest.

“Over there,” Luo Feng guided. “Over in that direction.”

Hong!

The flying mountain rock broke through numerous obstacles only to end up colliding against the endless, icy land.

“There is no way in,” Sitting Mountain Guest said.

“But I can feel it just below us,” Luo Feng replied.

Sitting Mountain Guest was also frowning. Beneath them was an endless, icy layer of vast land. The ground was immeasurably thick. There was not a single crack to be found.

“I have been to Deep Abyss before,” said Sitting Mountain Guest. “This endless frozen Earth is indestructible and is completely frozen. By right, it is impossible for those two pieces of scales to make it down there.”

“But I can sense that they are just below us.” Luo Feng was confused, too.

“I have yet to hear of anyone who can break through that immeasurable layer of frozen earth.” Sitting Mountain Guest was at his wit’s end. “Let me think.”

“Teacher, let me out to take a look,” Luo Feng said.

“All right.” Sitting Mountain Guest nodded. At the moment, he could not come up with any solution. Maybe Luo Feng could get lucky.

Without further delay, Luo Feng boarded Crimson Pyramid, and Sitting Mountain Guest sat on Sitting Mountain Peak. They set off together to start their exploration of the endless, icy layer of earth.

\*\*\*\*\*

In the uppermost level of Blazing Flames Lake, within the spreading Frozen Lake Fire...

Hong! Long! Long!

A huge axe tore through space at an alarming speed and charged into Frozen Lake Fire. At an extremely high rate of speed, it soared up into the sky and flew toward the highest point. When the black hole of that endless Deep Abyss appeared, Huge Axe immediately started to reduce his speed.

“We’ve reached it!”

“I rushed over here from Tilted Peak Sector. Thus, I have spent a little more time. If the universe supreme masters of the Divine Eye clan had also advanced at full speed, they would have reached it, too.”

After it slowed down, it started to suck in energy. Then it flew straight into the dark Deep Abyss.

\*\*\*\*\*

In the deep region of the ninth level of Deep Abyss, there was an endless layer of frozen earth.

Crimson Pyramid and the deep green mountain rock both were flying above the endless, icy earth, exploring and searching for a way in. They had been doing so for the past two days but were completely clueless about how they could find their way in.

Luo Feng was frustrated. “Theoretically speaking, if the two pieces of scales are below, then by right, I should be able to get in.”

“Hahaha! Luo Feng, I found it. I found the way to get in!” Sitting Mountain Guest’s voice transmitted over to Luo Feng. “Come over here to where I am.”

“Found it? Right, I’m coming!” Luo Feng felt his excitement building instantaneously.

Crimson Pyramid flew into the dark green mountain rock right away.

Sitting Mountain Guest smiled and said with confidence, “The twelfth level of Deep Abyss is well-known for being barren without treasures. Not many great beings are willing to come in here. I did not expect this endless, frozen earth to be so mysterious. This endless layer of frozen earth... is unique. As far as the Universe Ocean, the three reincarnation eras, and the two holy land universes are concerned, the number of great beings who can discover the secrets of this layer of frozen earth may not even exceed three. As your teacher, if I were to say I am only second best in making and refining true treasures, no one would dare say he was the best—especially when even someone like myself had to take such a long time to discover the secret of this place. If it is you... cultivating to become a universe master here, I think you might not even be able to enter the layer of endless iced earth.”

Luo Feng could not help interrupting his teacher’s boasting session. “Teacher, Teacher, I think we should go in.”

“I am also very curious,” said Sitting Mountain Guest. “You can see the technique I will use!”

Hong!

The entire deep green mountain peak expanded tremendously all of a sudden and immediately fell onto the layer of frozen earth. The next moment, the whole green mountain peak radiated countless light rays. These light rays were distorted to give rise to countless secret engravings, which started to worm their way into this layer of frozen earth. At this point, the vast layer of endless, frozen earth presented a gigantic diagram of secret engravings that spread over an area of ten billion kilometers.
