

Chapter 1271: Blood Shadow Blade, Out!

The human race terrified Dream Demon Ancestor and the 12 universe masters! The humans were extremely powerful! Peng Gong Master, Darkness Master, all the other universe masters, and Milky Way Horde Leader Luo Feng! They made attacks one after another.

Dream Demon Ancestor thought that Peng Gong Master and Darkness Master were the most difficult ones to deal with, and she expected Luo Feng to be incredible after receiving the inheritance. Yet she also thought that Luo Feng needed to train himself step by step even after receiving the inheritance. However, when she was diving and saw Luo Feng draw Blood Shadow Blade, she realized she couldn't have been more wrong!

Darkness, Peng Gong, and Luo Feng! Out of the three, the most terrifying one wasn't the first two, but Luo Feng!

"Luo Feng!" Dream Demon Ancestor lashed her snake tail and neutralized the shock wave she had just endured. She tried to rush forward. However, Luo Feng's blade was already drawn!

This blade was the most important weapon of Duan Dong River inheritance, the embryo, and it could reach the maximum power with the inheritor. Even without using any godly power, the blade itself was already at top-tier fifth-level! Its power wasn't known to Universe Ocean, and this was the first time it was utilized.

"Nirvana Incarnation!" whispered Luo Feng.

When the blade was drawn, it gleamed brighter and brighter. The light was only dimming when it was first pulled out, and when it hit the universe masters, traces of light concentrated and formed a giant black oval. The oval was like a miniature universe, covering the 12 universe masters from the demon race.

Inside the black oval, the 12 universe masters were trapped in the terrific light.

"No!"

"No!"

"Let's stop—then we can go back to the original universe!"

However, the blade moved too fast.

The universe masters who feared the blade had naive thoughts in their heads. The blade's light in the black oval immediately changed in a mystical way. It transformed into a streak of seemingly ordinary, thin light.

Hua!

The black oval cracked, and the light disappeared after shining for just an instant.

It was as if a thin blade had slashed the universe! The black oval turned hollow. All that was left was the dimming golden light, which left a visible trace in the space in the dark universe. It remained there for a long time.

“Ah!”

“No!”

The universe masters from the demon race roared in agony. They all looked furious and horrified, glaring at Luo Feng in the distance. They couldn't believe what had just happened! The great beings outside couldn't see it, but they were all trapped in the black oval, so they all knew how horrifying that was.

The blade first hit Forbidden Master, who was the most powerful, annihilating more than 20 percent of his godly body. And then it slashed the weaker Jiu Bug Master. His top-tier true treasure armor cracked, and he died instantly. It then touched Sky Wolf Master, and the others, one by one. One attack killed one universe master, severely injured three universe masters, and mildly injured the others.

“If he attacks us several times again, more than half of us will die.”

“Even the supreme true treasure godly rod from Peng Gong isn't that powerful.”

“Too sharp. I can feel that blade slashing me, and the force penetrated my true treasure armor, taking 16 percent of my godly body. Unbelievable...”

“That blade light was too dense and sharp. Even the armor can't dissipate it.”

They all felt terrified. Normally, a true treasure armor could distribute the shock wave to the entire body. However, the attack from Luo Feng concentrated all the power at the tip, and it was dense. The blade technique was created by Luo Feng, and using Blood Shadow Blade to perform it made it all the more forceful!

“Original universe.”

“Go back to the original universe.”

“Quick!”

The universe masters from the demon race all stopped.

“Do you really think you can run away?” Luo Feng stopped abruptly.

Hu! Hu! Hu!

All of them disappeared.

Peng Gong Master, Darkness Master and the other masters all stopped. As for Dream Demon Ancestor, she immediately followed Luo Feng and stopped.

The team of the demon race and the team of the human race all showed up in the sky at the same time.

Weng!

Golden Country and the endless white sands were floating, spreading across the sky. Luo Feng was its master.

“Go!”

“Demon Ancestor!”

“Demon Ancestor!”

The universe masters were all upset. If they hadn't been affected, they would have been able to defend themselves against Luo Feng. However, they couldn't defend themselves when being besieged by all the 16 universe masters within the human race, especially under the domain and being suddenly attacked.

One of the universe masters died, and all of them were injured either severely or mildly. They couldn't fight Luo Feng anymore under the binding.

“Luo Feng!” Dream Demon Ancestor roared in the distance.

Luo Feng took a look, and he slashed with Blood Shadow Blade again!

Dream Demon Ancestor was blasted away in the dark universe. Perhaps it wasn't far from the universe masters from the demon race in the dark universe; in the original universe, it was tens of millions of times farther! Even with Dream Demon Ancestor's speed, it took her a long while. However, Luo Feng was close to the universe masters of the demon race all the time.

Other universe masters of his team, like Darkness Master were also close to each other. Those universe masters had been attacking the demon race in the dark universe. Darkness Master was only controlling Black Prison Tower, and he was with Huang Jian Master and Qing Dong Master. Only Peng Gong Master was a bit farther as he fought Dream Demon Ancestor.

In Demon Ancestor Secret Region, a giant, sawtooth-shelled strange beast remained in space. Its body was still, as if it were sleeping. Space and time were twisted around him.

“Huh? Dream Tea is calling for help?”

The sawtooth-shelled beast suddenly opened his eyes. His eyes were gleaming.

Hong!

He teleported to his god country, and through god country transportation, he headed toward the destination.

Luo Feng completely ignored Dream Demon Ancestor, who couldn't touch him in short time. He waved his Blood Shadow Blade again!

Hua!

It was breathtaking.

The blade of light shone, starting with a slight trace. It grew thicker, covering the sky and land, forming a giant, black miniature universe and covering all the universe masters completely. Then the black miniature universe cracked, and a thin yet shining golden light flashed. Thin space cracks appeared in the sky, and they cut the space fragments within them.

Luo Feng transmitted his voice. "Darkness, get them!"

Darkness Master looked up to the sky. "I've been waiting for this moment!"

Hong!

When the dark miniature universe dissipated, the universe masters started to prepare for a fight—especially with the two top-tier fifth-level universe masters resisting it. They all survived the disaster. Though they were injured severely, they all survived the terrific blade attacks. However, before they could feel a sense of relief, a giant black pyramid showed up above them!

"Get in!" Darkness Master controlled that floating Black Prison Tower.

Hong! Hong! Hong!

The 16 godly bodies of the 12 universe masters started to encircle the universe masters from the demon race. They all panicked, as the swallowing power of the supreme true treasure was too strong. A pinnacle true treasure was already enough to swallow Yuan Ao Master, forcing him to self-destruct.

However, the supreme true treasure was doing the job. The universe masters from the demon race were already severely injured, and under the pressure from Golden Country and Snow Sand Ocean, many of them didn't even have one-tenth of their power anymore. They only had 50 percent of their godly bodies left. More than three of them didn't even have half their godly bodies left.

"Get into the palace type true treasure."

"Hide."

"Resist."

"Let's go."

Under the soul attacks and illusion attacks, universe masters from the demon race whose power was weakened completely panicked; they were trapped in illusions and couldn't even break out of them.

Sou! Sou!

Three of the 11 demon-race universe masters entered the palace type true treasure brought by Forbidden Master. However, not everyone could do the same thing under such chaos. Two universe masters were sucked into Black Prison Tower.

“No!”

“Stop them.”

“Stop them!”

The universe masters who were stronger tried to stop it, but another blade of light shone at this time

“No!” roared some of the demon race’s universe masters.

Dream Demon Ancestor, who saw this scene, was also furious. She yelled. They had come for the humans, seeking to catch some universe masters and to force them to give up the inheritance, yet one of their universe masters had died while two were caught before they could capture any human universe masters.

“Human!” Dream Demon Ancestor cried.

“Sky Wolf Master, Mo Hu Master!” Luo Feng smiled as he whispered these two names. They were the two who had been sucked into Black Prison Tower.

Chapter 1272: Sixth-Tier As the Top

Within Black Prison Tower, amidst the quiet space that was filled with black haze, two figures were rapidly sucked in. One was a tumbling sky wolf, and the other was an Ink Scepter beast—a three-tailed beast that was covered in scales and had three horns on its head. One was Sky Wolf Master; the other was Ink Scepter Master. Both of them were truly ancestral figures among the demons, yet at that moment, both were imprisoned.

“Not good.” Sky Wolf Master blinked. Just a moment ago, it had awoken from its illusion to give a sudden shout of objection.

Ink Scepter Master, who was by its side, was also frantic. “Sky Wolf, what should we do? We—we have been imprisoned in that supreme true treasure Black Prison Tower!” Ink Scepter Master was panicking.

“Black Prison Tower...” Sky Wolf Master looked around anxiously.

The space ripples in here were totally cut off from the outside world. Teleportation? God country transportation? No. There was no way they could escape.

“I... I don’t have any other bodies,” Sky Wolf Master said, on edge.

Done! This was truly a nightmare. It was needless to mention that for a universe supreme master to be imprisoned in this supreme true treasure palace, there would be simply no chance for escape. If the two of them had other bodies, then there would be nothing much to fret over. Yet neither Sky Wolf Master nor Ink Scepter Master were highly ranked demon universe masters. Neither had any other bodies.

If they did, then their status would naturally have been different. Even if they were suppressed within a supreme true treasure palace, with other bodies elsewhere, they could have simply self-destructed right away! That way, even if they lost their precious true treasures in the process of self-destruction, at least they could have ensured their survival!

“Wait!” Sky Wolf Master shouted. “We will wait for our chance! Dream Demon Ancestor is still out there. We still have a chance. I believe that Shock Demon Ancestor will rush over soon. By that time, our Ancestors just have to snatch this Black Prison Tower away from the humans. Then we can get out of here.”

“Right, right.” Ink Scepter Master was at his wits’ end. There was only this way out now. “Dream Demon Ancestor and Shock Demon Ancestor will surely come to our rescue!”

“No!”

“Loathsome!”

Just as the demon universe masters were howling and Dream Demon Ancestor—who had rushed over at such a transcendent speed of flight—was roaring with rage, their enemy, the humans, were—on the contrary—exhilarated. Peng Gong Master, Darkness Master, Luo Feng, and a large group of universe masters were all smiles, and they were so happy that their heartfelt joy was second to none.

“The basic target has been achieved!” Peng Gong Master exclaimed excitedly when they were back within the virtual universe. “We have exterminated one universe master, caught two universe masters: Sky Wolf Master and Ink Scepter Master, who are mere nobodies among the demons, so they are unable to escape no matter how they try.”

“It takes such a long time for a rare occurrence of a universe master’s annihilation, yet today, the demons lost three to us in an instant. If news gets out, those minor groups whose powers do not match up to the demons will naturally be scared out of their wits. We are able to cause the demons to lose three universe masters before their most powerful great being, Dream Demon Ancestor, so when it comes to dealing with those minor groups, exterminating them in one swift move should be a piece of cake!”

“That’s right.”

“Our basic target has been achieved. Now, we can kill and capture as we please. The more we kill or capture, the more effectively it will work out for us.”

Luo Feng, Peng Gong, and Darkness were all very excited. The human race had Black Prison Tower and Yan Jun Rod. On top of these, they also had Luo Feng’s treasure! This enabled the entire race to have three sixth-tier universe masters. Even though they might lose out in terms of speed, in the overall battle—or at least when facing the demons one-to-one—they still had an edge over the demons. But Luo Feng and the rest were aware that the inheritance of the pulse of Duan Dong River was destined to attract various powers.

The human race would have to face not only the demons but many other groups, which was why they were under extreme pressure. If Dream Demon Ancestor alone could be so scary, what if there were three such figures approaching them? Or five universe supreme masters? Most likely, one joint attack would sweep them away. Who knew? Maybe even Peng Gong Master would be sealed and suppressed.

Regardless of the final outcome of this war, Luo Feng thought silently, From the very beginning, we will give our best in fighting the demons... Not only is this the first battle, but it is the battle of deterrence.

We must unleash our best to deter the other powers from attacking. We have to let them think that there is possible danger behind them.

If the humans seemed weak on the outside, the other groups would worry that the humans would be quickly defeated and would go under. Then it would be too late for them to reap any benefits, so they would all surge forward for the kill.

But if the humans appeared to be terrifying, those groups would, firstly, be unwilling to pay such a hefty price and, secondly, not be worried that the human race would be completely defeated by the demons, the automaton race, and the bug clan. Instinctively, they would just watch the show from the sidewalk. So long as the human race was given the chance for a breather... everything was possible! After all, as Luo Feng had explained to the other universe masters earlier on, this concerned all universe masters and universe supreme masters.

There was a possibility that at the critical moment, Darkness Master, Peng Gong Master, and Primal Chaos City Leader might just achieve a breakthrough. Once there was a breakthrough, the human race would have a greater chance.

“If I were to achieve a breakthrough from a universe master, the situation would be greatly different,” Luo Feng said silently to himself. “Now, only my original earthling body and golden horned beast body have extremely strong combat power. The moment I achieve a breakthrough from a universe master, Moshu body and Remote Ocean body will all possess the sixth-tiered combat power. By then, the situation for the human race will be greatly improved.”

Sixth-tier was the top. In the original universe, it was the strongest combat power possible! Reaching the level of sixth-tier was difficult. It usually required a fifth-tier top universe master with a supreme true treasure to achieve this top level! The human race only had a total of three fifth-tier top universe masters (Darkness, Peng Gong, and Primal Chaos City Leader), so even if there were two to three more supreme true treasures for the other universe masters like Ice Mountain Master and Long Yan Master, they would not be able to unleash the power that a sixth-tier top universe master could.

Luo Feng had been lacking in his law comprehension earlier on, so even though he had Star Tower, he could still only unleash an extremely small portion of its power.

Great being and true treasure had to come in a pair! This was the only way to achieve the sixth-tier combat power. Luo Feng was different, he had created “Nirvana Renaissance,” which was a secret technique at the level of a universe supreme master, so even without a supreme true treasure, he would still be able to unleash combat power that was at the level of a sixth-tier top universe master!

“Dream Demon Ancestor is charging this way.”

“That old fellow.”

The human race spotted Dream Demon Ancestor, who was charging toward them at an extremely crazy speed.

“I will stop him,” Luo Feng said. “Peng Gong and Darkness, both of you can continue dealing with that group of demons universe masters. Try hard to apprehend a few more.”

“All right.”

“All right.”

Peng Gong and Darkness had seen Luo Feng’s ability earlier on. They had the utmost confidence in him.

Hua!

Behind Luo Feng, the four silver wings suddenly expanded. Then, mightily, as though they could cover half of the entire starlit sky, they brought Luo Feng up into midair where he was suspended with Blood Ghost Blade in his grip. His eyes were fixated on Dream Demon Ancestor, who was charging over at an extremely fast rate with murderous intention. At that moment, Dream Demon Ancestor was behaving like a lunatic, letting out piercing screams of rage: “Luo Feng!”

“Go!”

With a move of his mind—

Hong!

A gigantic Boat of Mausoleum appeared in midair and collided head-on with Dream Demon Ancestor, who was charging over at top speed and had no intention of slowing down at all. Because the Boat of Mausoleum had just been taken out, its internal engine was just starting to churn and retreated a little upon the impact of the collision. Right away, Luo Feng waved and retrieved the Boat of Mausoleum.

“Loathsome humans!” Dream Demon Ancestor was still crazily in pursuit after the collision. It was simply too furious.

Hua!

Dream Demon Ancestor’s snakehead opened its mouth wide.

Xiu!

A cyan-colored shadow flashed past the length of the sky and skimmed toward Luo Feng.

Hu!

In an instant, Luo Feng waved Blood Ghost Blade firmly in his grip, and a thin blade ray was formed. It grew in size, and eventually, a large, black miniature universe was formed over that cyan shadow. The miniature universe split open. Streams of blade rays appeared in thin flashes to disappear the next moment. The cyan shadow, on the other hand, flew as fast as it could back into Dream Demon Ancestor’s widely opened mouth.

The two merely exchanged blows once. Dream Demon Ancestor kept his eyes on Luo Feng.

“What an impressive blade technique. A supreme true treasure I suppose?” Dream Demon Ancestor was deep in thought, devising a way to deal with Luo Feng. It realized that Luo Feng’s blade ray had an extremely terrifying penetrating power! If the defining characteristic of Yan Jun Rod’s power could be described as “massive,” then Luo Feng’s blade’s defining characteristic could be described as “sharp.” It was indescribably sharp!

The four wings at Luo Feng's back spread out as he looked at Dream Demon Ancestor. Sixth tier was the top. It was, indeed, the limit as to how much power could be released within this original universe.

"My execution of Nirvana Renaissance has started to vaguely feel some obstruction," Luo Feng said discreetly to himself. "I had not expected this so-called limit of the sixth-tier to not exert its influence not only over universe supreme masters, but also over universe knights and universe masters."

Prior to this, within the entire original universe, there was not a single sixth-tier universe master. Even if there was a supreme true treasure, it would be owned by a universe supreme master!

At that moment, Luo Feng, Darkness and Peng Gong were all of the sixth-tier standard, and even so, they could still feel that layer of obstruction.

"Yes."

"This imposed restriction is the suppression exerted by the willpower of the original universe over universe supreme masters, so that they were unable to achieve massive and mindless massacres," Luo Feng whispered to himself. "But it was not so strong as to be able to make these universe supreme masters weaker than universe masters! This is why, even for universe masters, the greatest power they could unleash was only to the limit of the sixth tier as the top."

Previously, there were many rumors but no truths to back them up. Luo Feng, Darkness, and Peng Gong had all become "sixth-tier as the top" universe masters, so they could clearly detect it. No way there could be a breakthrough, because once they got near, the obstruction they felt was far too great.

"Theoretically, for a true universe master, the sixth tier is the limit," Luo Feng said to himself. "This is the case in the original universe, which is, in fact, considered quite an achievement. But I... am different from them, which is why I am always at a loss."

Generations of reincarnation eras... Finally, there was a unique existence like Luo Feng, who had received the inheritance of the pulse of Duan Dong River! Because he had Blood Ghost Blade! With Blood Ghost Blade, his power was elevated by one level!

Extermination—created by three generations of ancestors. Once executed, his power would increase even more!

So, if there was no obstruction, Luo Feng would now have really given his all, used Extermination, and unleashed a seventh-tier combat power (within the Universe Ocean, it was the power of an ordinary universe supreme master). If he was able to reach the level of a universe master, then he would be able to unleash an eighth-tier combat power!

What a pity that the original universe might be able to suppress the universe supreme masters. But they were unable to suppress them to the extent that they would lose out against universe masters. After all, within Universe Ocean, Dream Demon Ancestor's combat power was close to the eighth-tier standard, whereas the maximum within the original universe was limited to sixth-tier combat power.

"Human, you loathsome fellow!" Dream Demon Ancestor roared. "If this was Universe Ocean, do you think you would be my match?"

With his hand grasping Blood Ghost Blade, Luo Feng gave a cold laugh and said, "That was what Virtual Real Devil God once said to Double-Face Ancestral God. What a pity, indeed, that this is the original universe we are in!"

Luo Feng and Dream Demon Ancestor had only just started to exchange blows when, far into the distance, where the demon universe masters were besieged, there was a sudden outburst of terrifying power. From within that palace supreme true treasure beside Prohibition Master, a beast with a serrated shell over its body was suddenly seen slowly crawling out of that palace true treasure.

Right away, the demon universe masters shouted in excitement, "Shock Demon Ancestor!"

Chapter 1273: Retreat

The universe masters were all thrilled to see Shock Demon Ancestor show up.

"Demon Ancestor! Demon Ancestor!" They all shouted and tried to resist the attacks from the human race. They were in agony. One of them had died because of Luo Feng's move, which drove them back to the original universe. Yet in the original universe, they were too far from Dream Demon Ancestor.

Hong!

Shock Demon Ancestor moved slowly and glanced at the humans, at the same time, its body started to show an enormous amount of godly power and formed small, strange beasts. These strange beasts roared and resisted the attacks from the humans. Tumbling waves showed up in the sky, which came from a pinnacle domain type true treasure "Mo Water River." However, they were immediately shattered by Golden Country and Snow Sand Ocean.

"Huh?" Shock Demon Ancestor looked into the distance.

In the distance, a giant silver wing covered half of the sky, and its owner was that young human man. The young man glanced at Shock Demon Ancestor.

"Shock Demon Ancestor," he said, "this is my place! If you don't have a domain type supreme true treasure, don't even bother!"

"Luo Feng!"

Shock Demon Ancestor stayed there while the universe masters who were severely injured fled into the palace type true treasures. They hadn't dared to flee before, as they feared that the pinnacle palace type true treasure would be sucked into Black Prison Tower. However, Shock Demon Ancestor had now appeared, so they could simply enter the palace and recover first! After all, they had all prepared some precious valuables to cope with the dangers for this war, and they could recover their bodies in a short time.

"I thought you lost your wing, Luo Feng." Shock Demon Ancestor gazed at Luo Feng.

Luo Feng smirked. "I got it back."

“Naturally. A human who got the inheritance of Duan Dong River must be incredible.” Shock Demon Ancestor looked relaxed, yet he was observing the situation. Regardless of the circumstances, the universe masters had hidden themselves, while he and Dream Demon Ancestor were safe. But suddenly, Shock Demon Ancestor was shocked. “Supreme true treasure, Black Prison Tower? And the manipulator is Darkness Master? Darkness Master is a human?”

Darkness Master, Peng Gong Master, and Luo Feng—all of them had powers at top-tier level six, which was the maximum power in the original universe.

“I have my wing, so I’m in control of the domain. Are you disappointed?” Luo Feng stood in space, and his voice was transmitted throughout the domain. “Peng Gong, Darkness, let’s fight together and let that old guy Shock Horn know our power.”

“Haha, okay.”

“Kill!”

Peng Gong rushed forward while Darkness Master controlled Black Prison Tower, whose power surged and turned into gleaming white light, striking at Shock Demon Ancestor.

“Kill.”

“Kill that old demon ancestor.”

“Crush his shell.”

The 12 universe masters attacked at the same time.

Dream Demon Ancestor was infuriated after seeing Shock Demon Ancestor being attacked by humans so relentlessly. Although it was easy for Shock Demon Ancestor to resist the attacks, he could only wield power at top-tier level six, so he was actually being bullied.

“Damn humans!” Dream Demon Ancestor roared and sped up.

Shua!

She wanted to get around Luo Feng, and she was too fast for Luo Feng to stop her.

Peng!

The giant silver wing suddenly shook and turned into a huge blade of light, sweeping across space and time and turned into a black miniature universe, covering Dream Demon Ancestor. Suddenly, the black miniature universe exploded.

A giant silver snake burst easily out of the miniature universe.

“Do you think you can stop me without a supreme true treasure?” Dream Demon Ancestor glared coldly at Luo Feng, then turned into a phantom and rushed toward Shock Demon Ancestor.

“I don’t have enough godly power.” Luo Feng shook his head. “I was using the blade technique of a universe supreme master. Shi Wu Wing is slightly weaker, so I can only use the power at top-tier level five.”

Shua!

Luo Feng shook his wing and flew toward the two ancestors.

Shock Demon Ancestor and Dream Demon Ancestor gathered. The giant silver snake and the sawtooth-shelled strange beast remained in the area. They could defend themselves against all the attacks from the humans.

“Their defense power is too strong.”

“Dream Demon Ancestor has a supreme true treasure armor. As for that Shock Demon Ancestor, although he doesn’t have a supreme true treasure armor, he’s naturally good at defense, especially in the original universe. He can defend himself easily without any supreme true treasures.”

The humans immediately realized the problem. No matter how they hit the two ancestors, they couldn’t injure them. However, if they wanted to escape, they could certainly achieve that, given their speed.

Inside the virtual universe, in front of Huge Axe Godly Palace.

“What should we do?”

“Both of those demon ancestors are universe supreme masters, so we can’t do anything to them.”

“I think we should retreat. We’ve already achieved our goal of killing a universe master and catching two universe masters. They suffered a great loss, and when the news spreads, those inferior powers will be intimidated. The prison race, the crystal race, and the lone universe supreme masters won’t rush to attack us again.”

“Retreat?”

The universe masters sat beside the bench and voiced their opinions.

“Boat of Mausoleum,” said Luo Feng suddenly.

Everyone turned silent.

“Are you sure you want to use that, Luo Feng?” Peng Gong Master asked.

Peng Gong Master was hesitant. So was Darkness Master.

The other universe masters were confused, as they didn’t know what Luo Feng meant by saying “Boat of Mausoleum.” They all knew that Boat of Mausoleum was a ship without any weapons to attack the outside. Only after the enemies entered Boat of Mausoleum would they know that the attack

techniques equipped. However, everyone in Universe Ocean knew how terrifying it was, so nobody would enter it.

“Luo Feng?” Ice Mountain Master asked.

“Luo Feng has a trump card,” said Darkness Master. “You’ll find out later, brother. Do you really think it’s time to perform it now, Luo Feng? Don’t you want to wait until next time?”

“I can perform it again next time,” said Luo Feng. “After all, the demon race will suffer a great loss. They won’t tell the automaton race or the bug race about this trump card. They will want others to suffer losses as well.”

“Okay.”

“Okay.”

Darkness Master and Peng Gong Master both nodded.

“What should we do?” asked Peng Gong Master. “The universe masters from the demon race are hiding in that pinnacle palace type true treasure.”

“We’ll lure them out,” said Luo Feng.

Darkness Master and Peng Gong Master exchanged eye contact.

“Listen,” said Darkness Master. “When we’re fighting...”

Just when the great beings had slight traces of their minds communicating with each other in the virtual universe, Dream Demon Ancestor and Shock Demon Ancestor started to make serious attacks after a short conversation.

“Go!”

Shock Demon Ancestor growled.

All of a sudden, a giant black cone showed up. It was the supreme true treasure of Shock Demon Ancestor! It looked like the tip of Shock Demon Ancestor! Normally, that cone was merged with the tip of the tail so that it could be used as armor for protection. Shock Demon Ancestor was skilled in close combat. Now, he used that cone as a spiritual force weapon for even quicker combat.

Ang!

Crush Domain Cone formed a storm made by crushed space fragments. It was extremely quick.

Crush Domain Cone hit Black Prison Tower.

Peng!

Black Prison Tower rolled back while Crush Domain Cone continued toward Peng Gong Master after neutralizing the shock wave.

Suddenly, Dream Demon Ancestor opened his mouth. “Damn human!”

Xiu!

A green phantom flew out and charged toward Peng Gong Master.

“Stop it.”

“Stop that Crush Domain Cone.”

The universe masters from the human race hit Crush Domain Cone at the same time. However, the cone and the green phantom still flew toward Peng Gong Master as if there were no resistance. Peng Gong Master bounced away regardless of his resistance.

“Annihilate!”

One green phantom and one black storm—they swept toward the 12 human universe masters and Darkness Master. Darkness Master drove Black Prison Tower and flew toward them.

Hong!

Black Prison Tower resisted the green phantom, but the black storm formed by Crush Domain Cone swept across the human universe masters.

“Stop them.”

“Farther.”

They were all trying to protect themselves. Fortunately, the 17 universe masters were all making attacks and resisted the power of the green phantom. Only Ice Mountain Master at the front was injured. The green phantom stopped. It was a green shuttle.

“Back!”

“Go!”

“Retreat!”

At the side of the black pyramid, the universe masters all flew into Black Prison Tower, as did Darkness Master.

Sou! Sou! Sou!

The black pyramid, Peng Gong Master, and Luo Feng started to flee like three streaks of light.

Chapter 1274: Loss of the Demon Race

Dream Demon Ancestor and Shock Demon Ancestor, who were the two supreme beings within the demon race, couldn't just let the human go! They had lost three universe masters, which was a tremendous loss! Ever since the demon race arose, they hadn't suffered from such a defeat—especially right in front of their faces.

“Do you really think you can run away?” Dream Demon Ancestor and Shock Demon Ancestor turned into phantoms at the same time and flew 100 times faster than light.

Dream Demon Ancestor became a silver snake and stopped the human. At that moment, universe masters showed up beside Shock Demon Ancestor. They were the nine universe masters who had been injured.

“Encircle the human!” Shock Demon Ancestor ordered.

“Yes!”

“Damn humans!”

Hou!

All the universe masters beside Shock Demon Ancestor started their attacks! Illusions, soul attacks, and spiritual force weapon attacks... Even Luo Feng, Darkness Master, and Peng Gong Master found it difficult to resist them. Even though three of the universe masters were gone, they were the weakest ones. Now, the demon universe masters cooperated and attacked, and it was horrifying.

Hong! Long! Long!

The space particles formed a black storm, and the tip was Crush Domain Cone.

Xiu!

The green phantom rushed forward.

“God damn it!” Dream Demon Ancestor turned into a phantom as well.

Hu!

An oval palace true treasure appeared above the humans. The crystal was floating and swallowing them.

The demon race had already tried everything. If any humans got careless, they would be sucked in and sealed!

“Haha! You can’t compare to us when it comes to seal type true treasures.” Darkness Master waved his hands, and a streak of black light appeared, flying toward the demon race. It got larger and larger and became an enormous black pyramid, while an abyss extended out from the bottom of the pyramid. Its substantial swallowing power hit the demon race.

“Be careful!” Shock Demon Ancestor transmitted his voice. “Don’t leave my protection area.”

“Yes.”

“Yes.”

“Sky Wolf and Mo Hu were sucked in because we were encircled.”

The demon universe masters weren’t scared at all. Even without Shock Demon Ancestor, they could resist the swallowing power as long as they cooperated, not to mention being protected by Shock Demon Ancestor.

Human universe masters appeared at the edge of the abyss at the bottom of Black Prison Tower.

“Demon race!”

“Die, demon race!” Ice Mountain Master, Long Yan Master, and the others rushed toward the abyss and attacked, including Darkness Master.

There were 13 of them, and there were 17 godly bodies. Nine godly bodies attacked the demon universe masters, and eight godly bodies attacked Shock Demon Ancestor.

“Humph!”

Shock Demon Ancestor’s godly power evaporated and turned into countless strange beasts, resisting the attacks. At the same time, he drove “Crush Domain Cone” to hit Black Prison Tower. Under the swallowing power of Black Prison Tower and the attacks from human universe masters, even he had difficulties.

Peng!

The black storm hit Black Prison Tower, causing Crush Domain Cone to roll in the particles. Black Prison Tower was blasted away too, and the human universe masters had to stop attacking.

Hong!

Hong!

Luo Feng and Peng Gong Master were holding Blood Shadow Blade and Yan Jun Rod as they fought Dream Demon Ancestor.

Luo Feng’s Blood Shadow Blade was incredibly sharp, while Yan Jun Rod was heavy. Even Dream Demon Ancestor, who used all his techniques, he was still suppressed.

Peng!

Luo Feng’s Blood Shadow Blade hit the tail of Dream Demon Ancestor again.

“Go!” Luo Feng waved his hands.

Boat of Mausoleum showed up in the sky, which raced toward Shock Demon Ancestor.

“Useless.” Shock Demon Ancestor led the nine universe masters and dodged that boat easily.

The disadvantage of Boat of Mausoleum was already well-known. Although it was unbreakable, it couldn’t attack!

Hong! Long! Long!

Black Prison Tower sank, and the 13 universe masters (totaling 17 godly bodies) started to make attacks as Black Prison Tower pressed down.

“Get away!” Shock Demon Ancestor controlled Crush Domain Cone and resisted it.

At that moment, a blast resounded.

Hua!

Shock Demon Ancestor didn't even care about that. Instead, it dodged the boat. Boat of Mausoleum swept across the demon universe masters, and the universe masters being attacked by seven bodies were all sucked into Boat of Mausoleum!

Sou!

Boat of Mausoleum flew away.

Shock Demon Ancestor and the remaining three demon universe masters were all dazed, then infuriated.

"No!" Shock Demon Ancestor roared.

"Human, human, human!"

Forbidden Master, Blood Chisel Master, and Scorched Catfish Master were also furious.

Hu!

Shock Demon Ancestor drew the remaining three universe masters back to the pinnacle palace, and it sped up, rushing toward Boat of Mausoleum. Shock Demon Ancestor had fully lost his mind. He even forgot that he couldn't break Boat of Mausoleum.

Dream Demon Ancestor realized what had happened. "No!"

"Human, human!" Dream Demon Ancestor cried and sped up, charging at Boat of Mausoleum.

Peng Gong Master, Luo Feng, and Darkness Master looked at each other and smiled.

"No! No! No!" Shock Demon Ancestor caught Boat of Mausoleum immediately. He drove Crush Domain Cone to hit Boat of Mausoleum, turning the space around him into particles. The shock even extended to the interlayers.

Shock Demon Ancestor and Crush Domain Cone kept hitting the boat.

"Break, break, break!"

Shock Demon Ancestor was furious and regretful. The mix of those two emotions made him attack Boat of Mausoleum again and again madly. Dream Demon Ancestor was also furiously hitting Boat of Mausoleum. However, neither of them could stop the boat.

Shock Demon Ancestor transmitted his voice to the three universe masters in the palace. "What happened? I only felt a mighty mind shock."

In the palace, Forbidden Master and the other two were sitting on the plain, as they hadn't recovered from what just happened. They heard the voice of Shock Demon Ancestor resound on the plain.

"We were attacked by the human universe masters. We put all our efforts and we didn't have any other defense," said Forbidden Master as he lowered his head. His eyes were gleaming with a furious golden light. "Boat of Mausoleum flew toward us, and suddenly, a terrific mind shock hit us! Blood Chisel

Master, Scorches Catfish Master, and I had powerful minds, so we could stay conscious and resisted that swallowing power!”

“I also saw it.”

A strange beast with bloody scales on it said, “The gate of Boat of Mausoleum was open when it flew toward us, giving out an incomparably powerful mind shock. Besides, we were attacked by the human universe masters, and beneath that shock, even I could just barely stay conscious. As for the others, they instantly lost control and got sucked in.”

“Mind shock? Did the human race bring the black-striped stone pillar in?”

Shock Demon Ancestor and Dream Demon Ancestor stopped attacking, as they couldn’t do anything to Boat of Mausoleum.

“Damn it.” Dream Demon Ancestor couldn’t have been angrier. “We brought 12 universe masters this time. The most powerful two—Forbidden and Blood Chisel—resisted it. Scorched Catfish had a powerful mind. Five of the universe masters have multiple bodies, so they’ll self-destruct soon to save their lives.”

“We lost six universe masters this time! And lots of true treasures.”

Dream Demon Ancestor and Shocked Demon Ancestor were furious. There were 12 of them, one of whom was killed, and eight were captured! Fortunately, three of them could self-destruct and flee!

Hong! Long! Long!

Boat of Mausoleum flew into the distance, followed by Black Prison Tower.

“The humans are all hiding in Black Prison Tower.”

“What should we do?”

Dream Demon Ancestor and Shock Demon Ancestor couldn’t do anything about it. It would be a waste of time to hit Black Prison Tower! They could only see the gate open again while they didn’t dare to fly in. Black Prison Tower flew into the gate.

Chapter 1275: Luo Feng To End It All

Within the main hall of the Boat of Mausoleum.

“Hahaha...”

“Satisfaction! Such satisfaction!”

“The demons may not even have the chance to lament now, and to think they can take advantage of us when we are weak. They must be gritting their teeth out of abhorrence for us now, and they must be filled with unwillingness. Haha, the more they abhor us, the better it is, let them hate us all they want. Haha...”

In the main hall were Luo Feng, Peng Gong Master, Darkness Master, Long Yan Master, Ice Mountain Master, Qing Dong Master... All 15 universe masters were gathered, and all of them were incredibly exhilarated and excited!

“Look! Look at those two demon ancestors!” Remote Lord Master pointed outside.

There were no obstructions hindering their view from the internal walls of the hall inside or the cabin walls of the Boat of Mausoleum, so Luo Feng and his company of universe masters could easily look out at the starlit sky outside. From where they were, they could see far into the distance, where a gigantic silver snake and a beast with a serrated shell were entrenched in a spot amidst the starlit sky. Apparently, these two demon ancestors were looking over at the same time, and their eyes were filled with the flames of endless, burning rage.

Hatred! Anger!

“Haha...” Luo Feng and his group of humans, who were all higher-ups of the race, laughed even more heartily than before. This war was turning out to be better than expected!

“Luo Feng, how many did we catch? I vaguely saw that beside Shock Demon Ancestor, only three remained, and you have caught six of them... Are they still alive?” Qing Dong Master asked.

“Out of the six universe masters I caught, three had other bodies,” Luo Feng said with a smile. “The other three self-destructed right away after regaining consciousness. There are three remaining!”

“There are three with you,” Darkness Master said. “In my Black Prison Tower, there are two, adding on the one you killed! This time around, the demons lost a whopping total of six universe masters and also quite a sizable number of true treasures.”

“Six!”

“Tsk tsk. What pinnacle race has lost six universe masters in one go before? This is something that has no precedence.”

“Before Shock Demon Ancestor and Dream Demon Ancestor, we have caused them a loss of six universe masters... The other groups of powers who are a notch less capable will certainly not dare to make any rash moves now.”

This was a matter of course. Like the Thorn Ring Alliance, Nine Territories Alliance, and some other alliances, they probably only had a total of 20 to 30 universe masters! Even when all the powers of the higher-ups within the alliance were put together, they might not even be comparable to the demons. Merely two universe supreme masters from the demons would be powerful enough to wipe out the entire group of universe masters.

Even the demons had to lose six universe masters. What if the Thorn Ring Alliance were to fight the humans? In just one confrontation alone, would they not lose as many as 10 to 20 universe masters?

The other races were shaken by the news they heard and did not dare to intervene in this war. So a large batch of mediocre groups would not intervene recklessly; in fact, throughout the entire original universe, the total groups—including mediocre powers, scattered powers, and some others—was the

majority of the original universe's total! They might not be so powerful when they stood alone, but collectively, they did add to the overwhelming number.

"Luo Feng, how did you manage to do it?"

"What happened?"

"Yes, yes, Luo Feng! How could the Boat of Mausoleum catch hold of six universe masters at one go?"

Long Yan Master, Deserted Mirror Master, Void Gold Master and the rest were all filled with curiosity and questions.

"You all want to know?" Luo Feng's gaze swept over every single one of the universe masters there. They all nodded.

Of course, they wanted to know. How vicious this method was, to catch hold of so many universe masters at one go! Of course, they wanted a glimpse of that effective method that Luo Feng had used, and since Luo Feng could tell Darkness Master and Peng Gong Master about his strategy earlier on... this must not have been some despicable, underhanded method.

"Don't regret it," Luo Feng said teasingly.

"What is there to regret?" Long Yan Master looked dubious.

"You all will know in a while."

Darkness Master, Peng Gong Master, and Luo Feng looked at one another, then laughed.

With a wave, Luo Feng said, "Look carefully!"

Hong!

The doors of the main hall opened automatically, and a group of universe masters turned to look toward the door. A short moment later, a bout of incomparably strong willpower suddenly enshrouded the group. At that moment, some were forced to their knees with their bodies trembling—such as Remote Lord Master—while the majority of the other universe masters all wore terrible expressions. Only Ice Mountain Master and a few others were able to resist the impact. As quickly as it came, the willpower vanished into thin air, and these universe masters were able to recover completely.

"An impact of willpower?"

"Such a strong impact of willpower!"

"What treasure is this?"

The universe masters were still in shock, yet they could not help asking questions.

Darkness Master who was standing to the side, said, "For most of you, your willpower is not strong enough, so you are unable to get near that treasure at all."

Luo Feng nodded. "That treasure is in another place along the corridor of the Boat of Mausoleum, a distance of tens of thousands of kilometers away from here. I have removed the protective cover over it just now, so you all felt the impact of its willpower. If that treasure were to be placed before you all,

those whose willpower is able to meet the limit of a universe master would be fine. Others, I'm afraid, might not be able to shoulder the impact. The even weaker ones might lose consciousness."

"It's really that impressive?"

"Meeting the limit of a universe master in order to safely arrive before this treasure?"

Long Yan Master, Ice Mountain Master, Deserted Mirror Master, and all the others were aghast. The impact of this willpower was simply overbearing.

Luo Feng laughed. The impact of the willpower of that drop of godly blood might be spread out in all directions, but even so, one's willpower had to meet the limit of a universe master's willpower in order to stand safely before it! If one could restrain and restrict the entire impact of its willpower in one direction... it could sweep up all the great beings below the willpower of a universe supreme being. This was definitely an extremely terrifying weapon.

It was not easy to find a vessel that carried pure godly blood. True treasures like Shi Wu Wings and Star Tower could! And the Boat of Mausoleum could do the same. Furthermore, it could seal off the impact of willpower.

"I know, Luo Feng. Once the cabin doors of your Boat of Mausoleum open, there will be a sudden impact of willpower surging out for sure!" Remote Lord Master stood up and lamented with a sigh, "That group of universe masters is originally under our joint attack, be it illusionary or otherwise. For them to suddenly experience the impact of such strong willpower, I'm afraid those with weaker willpower will be knocked senseless, and even those with willpower meeting the limit of a universe master... because they are also under attack, they too will probably be affected. Only those whose willpower has met the level of a universe supreme master can be fully confident. With the supplementary help of a pinnacle palace true treasure's suction power, there is really not much resistance they can put up. In a moment, they can be sucked in."

"Yes, that is why only Prohibition Master, Blood Chisel Master, and Scorched Catfish Master managed to escape." Luo Feng sighed.

When there was war, those destined to be caught were those who were weaker. The powerful ones were more difficult to apprehend.

After they relished in the moment of celebration, it was soon time to part.

"Let's go back to the primal secret region."

"You all go ahead," Luo Feng said. "I will stay behind to control this Boat of Mausoleum and end this once and for all."

"Mm."

Everyone nodded, including Darkness Master.

At the same time—

Buzz!

Hazy black light rays appeared within the main hall, just like how Luo Feng could make use of god country transportation to get within Star Tower. This was the same concept; if Luo Feng, as the master of this Boat of Mausoleum, was not obstructed by anything, he could certainly make use of god country transportation. And this was the safest transportation ground. If he was somewhere outside, the two demon ancestors filled with endless rage would probably attack him.

Amidst the hazy black light rays, Darkness Master, Peng Gong Master, Long Yan Master, Void Gold Master, and the rest in the group all looked at Luo Feng. All were nodding or smiling! Faintly, on the other end of god country transportation, they could see that vast god country world.

Shua!

Then everyone disappeared.

In the virtual universe, at the apex of Thunder Island, Luo Feng went to meet his teacher.

“Great victory.” Primal Chaos City Leader closely followed the situation of the war and how it progressed. The moment he saw Luo Feng, his emotions ran high. “Well done. This turned out much better than we planned. This way, the situation the human race is in will improve.”

“Yes.” Luo Feng nodded. “Teacher, shall I then follow our original plan and start negotiating with the demons?”

“Yes, go ahead.” Primal Chaos City Leader nodded. “I hope the demons know when to back off. They better not let greed get the better of them!”

“All right.” Luo Feng nodded.

Inside the Boat of Mausoleum, Luo Feng sat on his throne in the main hall as he sighed with relief.

“First step. Not bad at all.” Luo Feng said to himself. “At least we humans are no longer in such a desperate situation.”

Initially, what he was most afraid of was that when the humans were defeated, other races who feared losing out because they were a bit slower would all rush over to attack them. Then almost all the groups in the entire original universe would be rampaging their way toward the humans... That would have been a truly desperate situation. The humans would have had to give up all of their territory and retreat fully into the primal universe. What would their future be like then?

Great beings would rise after they had gone through the grueling life and death honing processes. And if they became public enemies of the original universe, then all the powers in Universe Ocean would certainly lay siege on them! Then the human force would not be able to make any advances and would be stuck in an even worse predicament.

“They are all gone. It’s only me here.”

Luo Feng rose to his feet. Staying behind alone was because, firstly, with everyone else gone, there had to be someone left behind to control the Boat of Mausoleum; secondly, there had to be a final closing negotiation!

With one deliberate movement...

Hong!

The Boat of Mausoleum vanished into thin air while Luo Feng appeared amid the quiet, starlit sky.

Contrary to what the humans were feeling, the two demon ancestors—watching the Boat of Mausoleum from afar—were filled with rage, reluctance, and shame. They were going mad. Their shame morphed into anger, with various feelings becoming entangled in a complex mix of emotions. This loss was unprecedented for the demons, and the two ancestors felt guilty in the eyes of the other demon universe masters.

“The impact of that willpower... just what treasure is that?” Dream Demon Ancestor said via voice transmission. “Within the universe, there may be some items that carry evil air or impact of willpower, but those impacts are usually very weak. Most are not even worthy of an undying level! Treasures that could impact those at the level of universe knights are even fewer in number. But that human race actually owned a treasure with willpower that can exert an impact strong enough to bring our universe masters to the verge of breaking point...!”

“Never heard of it,” Shock Demon Ancestor said in a low voice. “Maybe it is inside that Boat of Mausoleum. After all, that Boat of Mausoleum was left behind by Duan Dong River!”

“The loss by our clan this time around...” Dream Demon Ancestor’s eyes were filled with dissatisfaction.

“Loss? Of course, we must remedy our loss.” Shock Demon Ancestor stared hard at the Boat of Mausoleum in the distance.

Hua!

The Boat of Mausoleum vanished into thin air. In its place was a man of the human race who stood amid the starlit sky. With a pair of silver wings and a stone blade slung across his back, he walked over while saying, “Shock Demon Ancestor, Dream Demon Ancestor, do you want your five demon universe masters back alive?”

Chapter 1276: No Deal

Shock Demon Ancestor and Dream Demon Ancestor occupied the sky and gazed at the humans coming for them in the distance.

“Luo Feng!” Shock Demon Ancestor said in a low voice.

Dream Demon Ancestor kept glaring at Luo Feng as if she wanted to kill him. They both knew that Luo Feng had the power of a top-tier level-six universe master, and he could get into Boat of Mausoleum

instantly. Even ten more universe supreme masters couldn't kill him, and their original plan had been to capture a group of human universe masters to blackmail humans!

"Tell us. What conditions?" said Shock Demon Ancestor.

Luo Feng chuckled. "Simple. Exit this war now. I can give you a time limit. The universe masters and universe supreme masters of the demon race won't be allowed in human territory. After one era, you can do whatever you want."

This war would be quick. The first battle with the demon race had felt long, yet it had ended in no time, so Luo Feng speculated that it would take 100 years max. One era was long enough.

"If we agree, you'll release the five universe masters?" asked Shock Demon Ancestor.

"Of course." Luo Feng nodded.

Shock Demon Ancestor and Dream Demon Ancestor transmitted their voices.

Luo Feng smiled. "However, we'll return them one era in the future."

"One era in the future?" said Shock Demon Ancestor. "You're not being sincere."

"A promise means nothing." Luo Feng shook his head and smirked. "Everything relies on promises, which can be insincere in the face of immediate benefits, so I can only return them one era later. As long as you don't meddle in the next era, the five universe masters can go back safely, and we'll return those true treasures as well."

Shock Demon Ancestor and Dream Demon Ancestor kept transmitting their voices.

"What should we do?" asked Dream Demon Ancestor.

"Their deaths will be worth it," answered Shock Demon Ancestor.

"Give up?" Dream Demon Ancestor understood.

Shock Demon Ancestor transmitted his voice. "We have more than 20 universe masters! Even if we lose six of them, 'Forbidden' and 'Blood Chisel'—who have the best chance to become universe supreme masters—are still alive. Just let those six masters go! The chance to transcend incarnation is vital, and when it comes to power, even the combination of the two of us can top everyone else in the original universe. How can we let this chance slip away?"

"Okay." Dream Demon Ancestor made up her mind.

They would just let the five universe masters die! They gave up!

Luo Feng stood in space. "Are you sure? If you keep fighting, the repercussions might be worse."

Shock Demon Ancestor glanced at Luo Feng. "Their deaths will be a contribution to our entire race. Luo Feng, I'll see how far you can go! Humph...! Teacher Origin is eternally suppressed while Huge Axe is dead. Even if you become a universe supreme master, this won't end well for you."

“I’ll make sure it doesn’t end well for you before me.” Luo Feng chuckled.

“Go!” Shock Demon Ancestor bellowed.

“I’ll avenge us!” Dream Demon Ancestor wailed.

Hong! Hong!

They accelerated and disappeared in the sky.

Luo Feng shook his head. “Those two old guys are ruthless. Five universe masters... However...”

Luo Feng looked solemn. Based on that negotiation, the demon race was determined. They clearly had strong motivations! He could extrapolate that the bug race, the automaton race, the prison race, and the others all had similarly powerful motivations.

Everyone craved the chance to transcend incarnation. No power would believe Luo Feng if he said he didn’t.

The Ancestral God School and the Space Beast Alliance are close to me, Luo Feng thought. However, when it comes to a chance to transcend incarnation, that relationship means nothing.

Personal relationships were nothing compared to the fate of an entire race.

Teacher Sitting Mountain Guest has always been kind to me, Luo Feng thought. Besides, his power is incredible and unpredictable... If he needs it, I can give some information to my teacher, and in return, he can assist my race.

Luo Feng was, after all, the one who had gotten the inheritance from Duan Dong River. He had the right to decide. However, he would only share the systematic ancient inheritance from undying fighters to universe supreme masters with his own race! This guideline would greatly increase the opportunity of great beings being born in the human race. As for Teacher Sitting Mountain Guest, he would give him the experiences of the universe supreme masters.

After all, for one thing, Teacher Sitting Mountain Guest helped him a great deal. For another, the earthlings had been created by Sitting Mountain Guest.

“I’ll get back first.”

Sou!

Boat of Mausoleum teleported and went back to the primal secret region through god country transportation.

Demon Ancestor Secret Region.

“Demon Ancestor, save us!”

“Demon Ancestor.”

“Please save us.”

Five demon universe masters were groveling and growling, asking the two demon ancestors for help. None of them wanted to die like this. This was only the original universe era, so they could live for at least two universe eras! They wouldn't mind if they were killed in combat, but being sealed and killed would be devastating.

"You fell in the hands of the human race. There's nothing we can do about it," said the avatar of Shock Demon Ancestor. "They'll definitely bring you to the primal universe and use the power there to kill you all. It's not that we don't want to save you, but we can't do anything."

"Demon Ancestor."

"No."

They were all in agony.

They weren't afraid of their minds being controlled. After all, they were universe masters with great godly power and souls. Even though some universe masters had their minds controlled, that had been done by universe supreme masters, and no universe masters had ever been controlled by other universe masters. With Teacher Origin being suppressed and Huge Axe dead, no universe supreme masters would do that to them. The humans would only use the primal universe origin to kill them, and they could self-destruct before their minds were controlled!

Inside Chaos City.

"The demon race is so greedy that they don't even care about five universe masters!" Primal Chaos City Leader ordered: "Spread the news of this war! Only the automaton race, the demon race, and the bug race know about the death of Huge Axe. As for the other powers, they have no idea what happened! We'll let them know what will happen if they gang up against us humans."

"Okay."

"Spread the news."

The humans were all furious about how greedy the demon race was!

"Spreading the news through the information network of the virtual universe... We'll deal with these universe masters first." Primal Chaos City Leader looked around at the universe masters. "I'll use the primal universe origin to suppress them, and you can try controlling their minds."

"Okay."

"Okay."

"Darkness, you're great at this. You can try first."

The human great beings were all belligerent. The greed displayed by the demon race made them realize that war would be unprecedentedly cruel, and the war was just beginning. This invisible pressure filled them with hostility.

To control the minds of demon universe masters? To kill the demon universe masters? Of course, they would love to do that.

Just when the human race was spreading the news on purpose, the bug race, the demon race, and the automaton race met.

In the silent sky, three minds gathered and became three blurry phantoms—one oval, one silver, and one beauty, respectively.

“What happened, Dream Tea?”

“What happened?” The oval phantom and the beautiful figure asked at the same time.

The silver snake said, “Even if I don’t tell you, you’ll know from the humans very soon. We demons took off just now, but we met the human universe masters.”

“You met the humans?”

“What happened?”

The others hadn’t been through any ultimate wars with the humans, so they didn’t know what trump card the human race had. The human race had Teacher Origin, who roamed Universe Ocean, and Luo Feng, who had received the inheritance from Duan Dong River, so none of them dared to look down upon the humans.

“We lost six universe masters,” said the silver snake.

“What?”

“Six?”

Both Father God and Bug Empress were shocked.

“Are the humans really that powerful?” asked Father God.

The silver snake said, “Yes, the humans are very powerful. If we act alone, any one of us will suffer.”

“How?” Both Father God and Bug Empress wanted to know what trump card the humans had.

“It’s because of that Luo Feng,” said the silver snake. “He had power at top-tier level six! We lost five universe masters, five of them were sealed, and one was killed by Luo Feng. His blade technique is incredible. Besides, the human race has two supreme true treasures, which might also be brought by the humans.”

Dream Demon Ancestor didn’t mention the “mind shock.” The automaton race and the bug race would be able to discover Luo Feng’s power and the two supreme true treasures once they joined the fight. However, that valuable exerting terrific mental force was what had cost the demon race a great deal this time. The demon race wanted the automaton race and the bug race to suffer from a great loss as well!

After the demon race, the automaton race, and the bug race began sharing information, the news of Huge Axe's death was spread. At the same time, the news that Dream Demon Ancestor and Shock Demon Ancestor had led universe masters in an attack against the humans—but had ended up losing six universe masters—also spread.

Chapter 1277: Reactions

Prison race territory, Ancestral Mountain.

Great beings stood in the palace. Some were rock creatures with burning fire, and some were covered with hair while without mouths on their faces. Some were flesh and blood types, some were rock type, and some were metal type. This was, after all, the prison race, which was a very diverse race. However, all of them harbored evil intent—a trait shared by all the creatures from the prison race.

Two universe masters opened their mouths.

“Devil Ancestor!”

“Devil Ancestor, there's a piece of news.”

An evil being sat in the throne. Under his silver helmet, a pair of red eyes looked down. “Tell me, Canthus Devil Ancestor.”

“Yes. I just got the news. The humans just fought the demon race, and Dream Demon Ancestor and Shock Demon Ancestor led a team of universe masters. The human race is also made of universe masters! The demon race lost six universe masters while the human race didn't lose anything!”

“What?”

“Humans didn't lose anything?”

The great beings were all shocked.

Devil Ancestor said slowly, “We can't look down upon humans, can we? Even with Dream Demon Ancestor and Shock Demon Ancestor, the demon race still lost six universe masters.”

“Devil Ancestor, I have disciples on Bauhinia Island who overheard conversations among humans. They said that Milky Way Horde Leader Luo Feng killed a universe master with one attack and was able to resist Dream Demon Ancestor and Shock Demon Ancestor.”

Discussions rose up within the palace.

“Luo Feng is really that powerful?”

“He got the inheritance from Duan Dong River, after all.”

The prison race's Devil Ancestor muttered, “Luo Feng? Perhaps Teacher Origin left some valuables and Luo Feng inherited some from him.”

Suddenly, a powerful force permeated the palace that made everyone silent. Everyone turned around and looked toward the outside, including Devil Ancestor.

Hong!

A powerful force so wicked that it terrified the universe masters turned into a streak of light and arrived at the palace. It was a huge black throne, and at the top of the chair's back were 18 golden heads of other races. When the black throne landed in the palace, it immediately turned into a great being with black skin wearing simple armor. It extended its arms, legs, and feet. Its head was a skull with a crest on its forehead like a scimitar. Two balls of fire burned in its eyes. It stood at the middle of the palace, and its evil force was even stronger than Devil Ancestor.

"Prison King!" the universe masters yelled with respect.

Devil Ancestor looked down and said, "Prison King."

"Devil Ancestor," the evil being said and bowed down a little bit.

Prison King had a special status in the prison race. When the original universe had been first formed, countless life forms had been born in the wicked region known as "Prison." However, a black throne had been born in Ancestral Mountain, and it emanated endless evil energy.

The creatures of the prison race were weak, so they all thought only a universe supreme master was qualified to sit on the throne. Little did they suspect that the black throne was a living being. And after it became undying, it could change its shape!

What was odd was that the black throne had the natural characteristics of a true treasure, as it could form an illusion and a true treasure domain! It became a universe master in no time, eventually becoming the most powerful creature in the prison race. However, it couldn't improve itself further.

Great beings from the prison race were born one after another—such as Devil Ancestor, who became the old ancestor of the entire prison race! However, Devil Ancestor still respected Prison King. Prison King had power at the top-tier fifth level. It was invincible, and it had the characteristics of a true treasure. It was so complex that it had become a universe master without any obstacles, yet it couldn't break through any further.

"Have you also heard the news, Prison King?" asked Devil Ancestor.

"Yes." Prison King nodded. "This is the greatest chance our race may ever have. Besides, the Duan Dong River inheritance is a powerful inheritance from an ancient civilization, so it definitely has lots of detailed information. I want to learn more about myself from that inheritance so I can discover how I am supposed to move forward."

"Okay." Devil Ancestor nodded.

"Just tell me what I need to do," Prison King said with a bow.

"Okay," said Devil Master. "You'll lead a team and go to the human territory. I bet the demon race, the bug race, and the automaton race will form an alliance! It's hard to say whether the humans can resist them. You shall go and watch the fight, and if the humans can't resist them, tell me immediately, and I'll lead a team there."

"Sure." Prison King nodded.

It rarely left the prison race's territory because of its characteristics. Perhaps the three Lands of Extremis could threaten its life, but it was completely safe for him to stay in the original universe.

Inside the godly palace of the crystal race territory...

The palace was round, and there were glistening thrones in the palace. There were 16 thrones in total.

The crystal race's great beings all sat in the thrones. They all had perfect faces, no matter whether they were male or female! They looked like beings made of the essence of the universe, and they had golden eyes between their eyebrows. All of them were powerful, and they were the most royal beings of the crystal race. There were 15 universe masters and 1 universe supreme master.

"What do you think about these two pieces of news?"

"Holy Master, this is the opportunity our race has been looking for. The humans were able to resist the demon race and took out six universe masters... Clearly, the benefits from the Duan Dong River inheritance were enormous. We need that inheritance!"

"Let's go!"

"Fight them! After the demon race, automaton race, and bug race annihilate most of the humans' power, we'll join."

"This is our best chance."

The universe masters of the crystal race were all voicing their opinions. All of them wanted the inheritance.

"Okay. If all of you think this way, we'll start preparing for our glory and future! We'll watch the battle between the three races and the human race, and we'll join at any time suitable!" Holy Master gave the order.

"Yes!"

All the universe masters were excited.

All the superpowers in the original universe wanted to fight the humans. For one thing, the humans had acquired the inheritance of Duan Dong River, so if they let them grow, they would be a great threat. For another, all the races wanted to transcend incarnations, so they would force the humans to give out the inheritance. Also, they were afraid that the humans became more powerful, as they had miniature universes as their backup bases. Besides, even if the human race had the power of Purple Moon Holy Land and Eastern Emperor Holy Land, all the powers would attack the human race. Which meant the superpowers didn't have anything to worry about.

They would just fight the humans!

However, there was an argument among the seniors in Nine Territory Alliance.

“This is an opportunity!”

“Our alliance doesn’t have a universe supreme master!” Flame Emperor roared. “If we get the inheritance of Duan Dong River, we’ll have better chance to become universe supreme masters and even transcend incarnations. Are you really willing to just die after three universe eras? The only end will be death if we don’t fight!”

“Flame Emperor!” said Jue Feng Master. “Though you’re my friend, I’m not going to side with you this time. I can’t just watch my race go extinct! I am aware of your grudges against the humans, we all know that. However, it’s no reason to put the entire Nine Territory Alliance at risk... You know the power of the human race. Even with Shock Demon Ancestor and Dream Demon Ancestor, six universe masters were killed. If we go there, the human race might attack us, and only a few of us will be left alive. We don’t have the power to do that!”

“Why are you such a chicken, Jue Feng Master?” said Flame Emperor angrily. “If you’re such a coward, you won’t be able to accomplish anything. Besides, the humans will be attacked by multiple powers, and they’ll have a hard time dealing with that.”

Misty Peak Alliance was also a second-tier alliance. It had 19 universe masters in total, but they had, for the most part, reached a consensus.

“It’s useless to go to the human race when it’s thriving! The human race is going through a hard time now. If we go and offer our help, the human race will be grateful... Even if they don’t give us the core inheritance, once someone from the human race transcends incarnation and creates a third holy land, he’ll give us some space to live.”

“If we follow the other powers to attack humans, we won’t be able to get the inheritance. Even if the humans give out the inheritance, we won’t get it.”

“That’s right.”

“If we follow the other powers, we can’t get the inheritance even if we win. We might just follow humans!”

The superpowers in the original universe all wanted to fight the humans for the inheritance, but the inferior powers had second thoughts after the battle between humans and demon race. Some of them wanted to wait and see, and some wanted to join the humans.

Chapter 1278: Peace Before the War

In the territory of automaton race.

“Originally, we planned for the three races to join hands and capture the troop of human universe masters in one swift move. Then we will use them to force the human race to... but now, it seems like with the power of the three races combined, even if eventually we may achieve our goal, we will suffer great losses while trying to achieve what we planned. Seems like we have to depend on those vassal races.”

“Humph! Vassal races! Those vassal races will never put their lives on the line if there is nothing for them to gain. It is simply impossible.”

“No choice... The vassal races certainly do not match us in strength. By giving them some incentives now, in the future, we will be able to keep them within our realm of control. If the inheritance is further scattered into smaller portions... other groups of powers like the prison clan, the crystal clan, and the space beasts will all surge forward for a part of it. Then our race will not have much to gain.”

“Mm.”

The prison clan, the automaton race, and the bug clan were all vassal races—just like the humans, who also formed a vassal race. Thus, they established the Hong Alliance!

In fact, before the war started, the four pinnacle races did not have any vassal groups. Because when deploying a vassal race to war, the universe masters within the vassal race would be the ones taking the field. And these universe masters were no fools. They would not allow themselves to become ashes and dust willingly. Without anything to gain, there was no way they would pledge themselves to death.

The demons and the three races were all convinced that once they got hold of the inheritance, there would be no need to share any of it with the vassal races. Yet this war... The results of this war had instilled fear in them all, which caused them to start trying their best to rope in other groups of powers.

“Dream Demon Ancestor, Shock Demon Ancestor. News of the outcome of the war has spread. It is said that the humans were extremely powerful... We universe masters from the vassal races—perhaps only one to two, or two to three of us from each race—regardless of who will face annihilation, it will be a disaster for our race. We have to exercise prudence. Therefore, we have four conditions.”

“Speak,” Shock Demon Ancestor said.

“One, if we are to go to war with you, you must let us stay and fight together, you cannot split us apart. Two, if any of us are annihilated, the demons must treat the respective race with kindness. No shrinking of territory allowed. The territory of his race must not be compromised, and great beings from external races cannot interfere with the development of our any of our races. Three, after the war, if the demons do manage to gain that inheritance of the pulse of Duan Dong River, we do not ask for much. We only need information on the experiences of great beings on how they cultivated to become universe supreme masters. Four, if the demons were able to create a holy land universe, you must leave 10 percent of the space for us vassal races.”

Obviously, the vassal races already had a round of discussions. It was apparent through the conditions they listed that they had conducted thorough discussions and did not dare to ask for too much. Like the experiences within the inheritance, they merely required experiences on how great beings cultivated to

become universe supreme masters, because to them, so long as they had a universe supreme master emerging from their very own race, their race would have a true foundation!

Shock Demon Ancestor considered for a mere moment and promised right away, "All right! You have my word."

The demons, the bug clan, and the automaton race started a series of discussions with vassal races, using conditions to rope them in. They needed the universe masters of these vassal races to participate and help them pull through this terrifying and impending war!

The human territory was a very normal planet, but life on that planet was immeasurably prosperous, and it was the home of hundreds of millions of humans. Technology was very advanced, and skyscrapers were so high they seemed to shoot up into the sky.

On the sky deck of one of these skyscrapers...

Hua!

A blurry figure gradually condensed to take a solid form. There he stood, cloaked in an elegant, long, purple robe, with a head of long, silver hair. His appearance seemed gender-neuter, and his beauty was second to none. He had eyes that sparkled like stars, and every star's light was like the universe revolving.

With a single wave, three figures suddenly appeared behind him: a rock life form that seemed as sturdy as a mountain, an adorable beast with yellow fur, and a being that was glimmered as though glistening water had converged to give form to it.

"Island Leader!" these three great beings shouted at the same time.

"Choose one spot, then stay there for the time being." This purple-robed figure looked afar as his gaze penetrated through the atmosphere, through layers of time and space, to rest on an immeasurably vast piece of land suspended amidst the starlit sky: the headquarters of the Virtual Universe.

"After seeing the demons' loss this time around, the demons, the bug clan, and the automaton race will surely put in their utmost effort without daring to slack off... However, deep within their hearts, I'm afraid all those good friends of mine are all unwilling to be kept out of the limelight. I suppose the majority of them have already made their way into the human territory. Huge Axe is dead. Now, the human race's greatest foundation is—the original universe!"

The purple-robed figure laughed lightly and continued, "Getting from the primal universe to the original universe, one must depend on the universe passageway! This universe passageway was built when Teacher Origin was still around. Now that Teacher Origin has been eternally suppressed, no one is able to build another universe passageway, which is why this passageway that connects the primal universe and the original universe is extremely important. If this passageway is destroyed, for the human race to get from the original universe back to the primal universe, they would have to depend on the universe masters as their means of transportation. From what I know, there are two passageways between the

original universe and the primal universe. One is within the headquarters of the virtual universe, and the other is in the primal secret region.”

“According to the degree of defense,” whispered the purple-robed figure, “the first major war will be in the headquarters of the virtual universe. The second major war—which will be the final war—will be in that primal secret region.”

Within the entire primal universe, the combined forces of the nine top powers of the universe were not necessarily much stronger than the group of universe supreme masters who traveled alone. And before the imminent storm, this group of loners certainly had plans of their own. Apparently, the shocking results of the first war the humans fought had prompted them to put more thorough thoughts into their course of actions.

Within the primal secret region, in the human territory, Luo Feng, Darkness Master, and Peng Gong Master were enjoying their wine while seated in a circle.

“The demons, the bug clan, and the automaton race are not making any moves for now!” Darkness Master suddenly put down his wine glass and said in a low voice, “Previously, when war was just declared, the three races participated. We have gone through a round with the demons... Who would have expected all three races to retreat? Besides, it has been half a month since their retreat, and there is still no movement from anyone.”

Peng Gong Master shook his head and laughed. “After the outcome of our first war, the three other clans must have felt the pressure...! Once news of this preparation spreads, all the other races will know. Even if that’s the case, the bug clan, the demon clan, and the automaton race will surely have no need to vie for time.”

Luo Feng nodded. “True. Previously, the war was a fast one. The three races wanted to crush us easily, expecting to achieve success in one swift move. Now, they do not dare hold such hopes, so naturally, they will be steadier in their advances. No one is willing to present the chance of winning to the other party.”

“That’s right, the other races!” Darkness Master frowned.

“But it is not just the other races. There are also those universe supreme masters who traveled alone.” Luo Feng put his wine glass down too. “Teacher Origin told us that, based on what he has observed... within our human race’s territory, there should now be a few universe supreme masters. It is just that they are not making any moves, so he has guessed that these must be universe supreme masters who traveled alone.”

“Universe supreme masters who traveled alone!” Peng Gong Master and Darkness Master were both frowning.

What terrifying existences! Monitoring the virtual universe and being able to force other races to retreat—only universe supreme masters were capable of these things. Since he was able to monitor certain information so easily in the past, Teacher Origin usually could not be bothered to monitor

anything. But at that moment, the situation concerned the fate of his human race. Of course he would be keeping a close watch, just so he could keep abreast of the moves made by various groups and powers in the entire primal universe.

“Fortunately, the outcome of the previous war was encouraging for us, turning the tables for the situation of our race,” Luo Feng said softly. “Now that we are in a much better position, we have several other powers wanting to join our force.”

“Yes.” Peng Gong Master smiled too. “Misty Peak Alliance and the Thorn Ring Alliance are the two stronger powers. There are a few other groups that are weaker... various scattered races. All of them dared step forward to seek refuge with us; at the very least, these races do have universe masters. Now, the total number of universe masters who have come to join our force has reached 92!”

“The situation is looking up for us.” Darkness Master nodded, too.

Before the first war, even for the vassal races of the Hong Alliance, those universe masters were extremely sly and would never give up their lives easily for the humans. They were worried that the humans had no power of resistance, and so, even if they were to charge forward with all they had, they would still be sending themselves to their doom! This was why, before the first war, humans did not even consider enlisting the help of the universe masters of the vassal races.

But now, the situation was different. The outcome of the first war had set their minds at ease. The vassal races of the Hong Alliance were willing to put in the effort to fight for the humans upon seeing that the humans did wield enough power to put up a fight! In addition to Hong Alliance, there was now a total of 92 universe masters joining the human camp.

“Although we are still weak compared to the incoming United Forces, we do still have a shot with the power we have!” Luo Feng said solemnly. “Based on speculations, all five—including the demons, the automaton race, the bug clan, the prison clan, and the crystal clan—will be attacking us. For this current war, the most important task at hand will be to rope in the Northern Territory Alliance, the Ancestral God School, the Space Beast Alliance, and the supreme masters who travel alone. Out of these groups, if we could get any of them to take our side, our chances of victory will increase by leaps and bounds!”

“The Northern Territory Alliance Master is a supreme master who travels alone,” said Darkness Master. He thought to himself for a moment. “Without his help, I think the Northern Territory Alliance will probably lack the clout to participate in the war. So the Northern Territory Alliance Master is the key. The Ancestral God School and the Space Beast Alliance... Their attitudes toward the situation are hard to fathom. These two powers are always considered to be more detached.”

“Detached? When faced with the temptation of transcending a reincarnation era, how could they remain detached?” Peng Gong Master said with scorn. “The Ancestral God School may seem impressive now because it has the support of the universe origin. But once this reincarnation era comes to an end... all of them must leave the primal universe! By then, without the support of the primal universe, the power of the Ancestral God School will be greatly reduced. Then won’t the group of universe masters of the Ancestral God School and those three ancestral gods be required to consider the matter of transcending reincarnation? As for the Space Beast Alliance, that old beast god is always so vicious! You must be careful and not let your guard down. If there is anyone who is sincerely willing to help us, then there should be some attempt to contact us, but there is nothing at all.”

Luo Feng also had to frown. True. By relying on the first battle, they could encourage some of the less powerful groups of powers and some scattered races to take a gamble and side with the human camp. After all, when it came to the true super groups, not one of them was willing to help the humans—not even one universe supreme master was willing to come to the humans’ aid. The humans were still in a grave situation.

While Luo Feng, Darkness Master, and Peng Gong Master were in mid-discussion, Luo Feng suddenly flipped his hand, and a transmission token appeared.

“Mm?”

Darkness Master and Peng Gong Master looked toward Luo Feng.

“Ah.” Luo Feng revealed a trace of joy as he lifted his head to look at Darkness Master and Peng Gong Master. “Darkness, Peng Gong, I have something to settle. If this is settled well, it will be of great help in this battle. If there are urgent matters, find me directly through the virtual universe.”

“All right, go ahead,” Darkness Master said.

“Great help? Hurry up and go!” Peng Gong Master rushed him along.

Luo Feng rose to his feet without further ado. His heart was filled with joy. After Huge Axe was annihilated, he had contacted Teacher Sitting Mountain Guest right away. Now, Teacher Sitting Mountain Guest was finally coming to the human territory to meet him.

Chapter 1279 Limit of Universe Supreme Masters

Human territory, Earth.

Luo Feng arrived at Earth through god country transportation. Although Sitting Mountain Guest arrived at the human territory, he didn’t go to the primal secret region. After all, it was heavily guarded, and there was a large group of universe masters... Even Sitting Mountain Guest couldn’t get in without being noticed.

Luo Feng arrived at his palace in Yangzhou City. His palace only had a few guards. As for the Luos, they were in the primal universe already.

“Teacher?” Luo Feng turned his head around and looked to the northeast. He could feel the force emanating from that direction.

Although there were guards, they couldn’t see Luo Feng walking past them. Nor did they notice his presence. After a short while, he entered a giant garden where the Luos appreciated beautiful scenery. There were all kinds of plants of different colors and shapes. They were all breathtaking. There was also a variety of animals, and Sitting Mountain Guest stood, playing with a blue-feathered bird.

“Teacher!” shouted Luo Feng.

“This garden looks nice,” Sitting Mountain Guest said, playing with the bird. “You clearly invited a master to design this. It’s indeed different to have power; you don’t even need to give an order, and countless

talented creatures will serve you. However, I'm a loner without any power... It seems I need to find a group in order to be an alliance master."

Luo Feng smiled. "If you join the Hong Alliance..."

"Then what? I'll be the leader of the Hong Alliance?" Sitting Mountain Guest looked to Luo Feng. "Do the humans want me to be their leader?"

Luo Feng smiled awkwardly. It was impossible. The human race was a pinnacle race, and no pinnacle races would recognize a supreme master from another race as their leader. The pride ingrained in humans forbade them from doing that! They could regard Sitting Mountain Guest at the most senior being, but they wouldn't give Sitting Mountain Guest very much power.

"Even if you did give that position to me, I wouldn't do that." Sitting Mountain Guest shook his head. "The human race is in danger now, and countless powers want to fight you. I'm not stupid enough to enter Hong Alliance now."

"Teacher," said Luo Feng. "You're right. The human race is indeed in danger, and it needs lots of help. Can Teacher join our team?"

Sitting Mountain Guest sat down in a green chair and said, "Luo Feng, I've told you before that you're on your own on the path to becoming a great being, so I can't help you much. The time you were trapped in the ninth abyss was an exception, as I didn't know how long you would be trapped there. As for the human race, it has nothing to do with me. I couldn't care less about the humans. With your power, you're 100 percent safe in the original universe now—not to mention, you have Star Tower and Boat of Mausoleum. I don't see any reason I should meddle."

Luo Feng was dazed. It was a firm no. Luo Feng had thought there was at least some hope. "Teacher..." he said.

"Stop asking," said Sitting Mountain Guest. "I won't join the humans. Say no more. I came here..." He looked at Luo Feng. "Because last time you sent a message to me, you mentioned that you acquired a drop of blood from a great being of an ancient civilization. The godly blood has enormous mental force, and you want me to make a true treasure using that?"

Luo Feng nodded. "Yes, that drop of godly blood can spread its mental force in all directions. However, I want to concentrate it in a single direction, which will make its shock much more powerful! Can you achieve that, Teacher?"

"I've promised you that every time you kill a universe master, I'll make a true treasure for you." Sitting Mountain Guest smiled. "I heard that you killed Demon Universe Master, so I'm here."

Luo Feng had mixed feelings. Wow...! he thought.

His teacher was so fixated on the promise. It seemed that his teacher had been back in the original universe for a long time, but he only came after he knew his disciple had killed a universe master.

"Give me the godly blood first," said Sitting Mountain Guest.

"Okay, but we should enter space interlayers first," said Luo Feng. "This 'mind shock' is too powerful, and I don't want to harm the earthlings."

That drop of godly blood might annihilate all the humans on Earth. After all, the mental force could put universe masters in agony, let alone ordinary humans.

“Okay.” Sitting Mountain Guest shook his body, and a space crack showed up.

Both Sitting Mountain Guest and Luo Feng entered the crack.

Inside the space interlayers were countless space fragments. There, Luo Feng and Sitting Mountain Guest appeared.

“Please take a look, Teacher,” said Luo Feng.

He turned his hands, and Boat of Mausoleum showed up. It grew bigger and turned into a boat 10 meters long. The drop of blood emerged from Boat of Mausoleum and showed up on the top of the boat. It was surrounded by a black halo.

Hong! Hong! Hong!

The “mind shock” spread, striking Luo Feng and Sitting Mountain Guest. However, even Luo Feng could withstand it—let alone Sitting Mountain Guest.

“Godly blood?” Sitting Mountain Guest nodded. “I rarely see this kind of strange object. How did you get it?”

“By luck,” said Luo Feng.

“You need power, too,” said Sitting Mountain Guest. “Otherwise, if you don’t have strong enough willpower, you couldn’t even be near it. Besides, ordinary valuables couldn’t hold that drop of godly power, and ordinary godly power can’t be near it.” He smiled. “Lots of great beings wouldn’t be able to even extract that godly blood.”

Luo Feng was amazed that Sitting Mountain Guest could already tell so much before even studying it.

“Do you have a plan, Teacher?” asked Luo Feng.

“You want to make a true treasure out of this drop of godly blood and concentrate the mind shock, don’t you?” Sitting Mountain Guest nodded. “If I consume enough material and spend enough time, I can make a supreme true treasure out of it. However, it’ll take a long time, and chances are, I’ll fail.”

“A supreme true treasure?” said Luo Feng. “I only need a true treasure for its ‘mind shock’ ability.”

“Okay,” said Sitting Mountain Guest. “For you humans, I suppose a strange valuable that can attack all great beings with minds inferior to universe supreme masters is more useful than a supreme true treasure. The core of this true treasure is godly blood! All I need to do is concentrate that mind, so it’s much easier than making pinnacle true treasures. It’s not difficult to make them. It’ll only take three days to make it. As for the material? It’s not precious. I have a lot, so I’ll use what I have.”

Luo Feng was exhilarated and said, “Teacher, I have two drops of godly blood. Can you make two...?”

“Two drops?” Sitting Mountain Guest was amazed.

Luo Feng smirked. Ever since acquiring the white wing, he had used his contribution points to exchange for lots of precious materials for the white wing to swallow! Some of the damage to it had been healed, and a puddle of blood had been repelled, forming a drop of godly blood.

He had two drops of godly blood in total now. While he had been fighting the demon race, there had been one drop in Boat of Mausoleum and another drop in Star Tower.

“Don’t count on it.” Sitting Mountain Guest shook his head. “I told you that for every universe master you kill, I can make you a true treasure. This is your first time, and the materials are not expensive, so I’ll use my own. However, you’ll need to kill another universe master if you want me to make the second one.”

“Teacher,” said Luo Feng. “I killed a universe master during the fight, and I used Boat of Mausoleum to capture three! Those three are dead now, so I can say I killed them.”

“Dead? Were they killed in the primal universe?” Sitting Mountain Guest shook his head. “That doesn’t count. You used the primal universe origin to kill them, not your own power.”

Luo Feng was rendered speechless.

“Okay,” decided Sitting Mountain Guest. “I’ll only make one true treasure for you. Say no more. Otherwise, I won’t even make this one.”

Luo Feng could only lower his head and agree.

Sitting Mountain Guest took out his green mountain, and the drop of godly blood fell on it, which easily contained it.

“I’ll give you the true treasure three days from now,” said Sitting Mountain Guest.

“Teacher,” said Luo Feng. “I obtained the inheritance of Duan Dong River...”

“Huh? The inheritance of Duan Dong River?” Sitting Mountain Guest turned around and glanced at Luo Feng. “Do you think you can read about how you transcend incarnations under the original mind?”

Luo Feng was dazed. “I can’t.”

“Then it’s useless!” Sitting Mountain Guest shook his head. “I’m the best at making true treasures in Universe Ocean. Unless it’s information about incarnation transcendence, it’s useless to me! I’m just one step away...”

Luo Feng blinked. Damn it, he thought.

He had planned to tell Sitting Mountain Guest something about the information about universe supreme masters in Duan Dong River inheritance, but Sitting Mountain Guest didn’t give a damn about it.

“You’ll understand after you reach my level. The information is useless,” said Sitting Mountain Guest.

“Like your teacher, Primal Chaos City Leader. He might also be stuck at the last step, and he can only become a universe supreme master after making that breakthrough. The training experience you have

on hand is also useless to him. Training experience is useful to those who haven't reached the limit, but it's useless to those who have.

"However, although it's useless to me, none of the other beings in the original universe have reached the limit of a universe supreme master yet—even the late Huge Axe Creator. Only Teacher Origin reached the limit. If he hadn't been suppressed, he might have transcended incarnations already." Sitting Mountain Guest stared at Luo Feng. "All those lone universe supreme masters want to transcend incarnations, so you must be wary of them. Even the old beast god and the three ancestral gods."

"Okay."

"As for me, I'm just an audience." Sitting Mountain Guest laughed and disappeared in the space storms.

Luo Feng stood in the distance.

Luo Feng stayed on Earth and waited, and after three days, Sitting Mountain Guest came back with the true treasure he had made.

Chapter 1280 The Alliance of Three Races

Luo Feng sat in the garden, holding a colorful crystal ball. There were halos on the ball, and these halos converged at a single point that looked like an eyeball. The crystal ball was the true treasure left by Sitting Mountain Guest.

"Teacher Sitting Mountain Guest indeed doesn't want to meddle. He left right after giving me this true treasure." Luo Feng shook his head. Sitting Mountain Guest gave Luo Feng the crystal ball and said, "Seal your life imprint on it, and then it'll recognize you as its master! Don't think about getting me into the human race. Remember, you need to kill another universe master if you want me to make you a true treasure. Of course, this is only the promise when you're still a universe knight. When you become a universe master, the requirement will be higher."

He then teleported and left.

"This crystal ball..." Luo Feng looked at the crystal ball in his hand, and his trace of godly power touched it. His life imprint was sealed on the crystal ball. "No wonder it was made by Teacher. There's no information at all." Luo Feng smiled. "The valuables born in the original star often contain detailed information. As for valuables made by his teacher, it depends on Sitting Mountain Guest's mood. If he thinks it's necessary, there will be some information in it."

Otherwise, there would be no information.

"However, it's easy to use."

Luo Feng immediately knew how to use the crystal ball. There was only one level of engravings to control the crystal ball, and the godly blood's mental force would shout right out of the eye of the crystal ball. Even a universe knight would be able to drive it.

“It’s a very simple true treasure!” Luo Feng exclaimed. “If it weren’t for the godly blood, it would only be an ordinary true treasure. It looks like an eyeball, and the core is a drop of blood from a great being from an ancient civilization, so I’ll call it Ancient God Eye.”

True treasure: Ancient God Eye! A true treasure whose level was difficult to measure but had destructive power against universe masters was more important than supreme true treasures in a race war.

Sou!

Luo Feng obtained Ancient God Eye and went back to the primal secret region.

“Horde Leader.”

“Horde Leader.”

Luo Feng walked among the palaces, and all the universe knights, undying fighters, and sector lords saluted him.

“A war.” Luo Feng could feel the universe masters around him. Lots of universe masters gathered in the palace where Primal Chaos City Leader lived. They were all preparing for the coming war.

“Luo Feng.” A being walked out of the main palace. It was Primal Chaos City Leader’s original body.

“Teacher.” Luo Feng greeted him.

“Have you come here for me?” Primal Chaos City Leader looked at Luo Feng.

The human race was facing a danger it had never faced before, and the main palace of Primal Chaos City Leader was the core. He was controlling the entire situation and receiving the powers who came to help humans. Normally, nobody would visit Primal Chaos City Leader if there weren’t serious business.

“Yes.” Luo Feng nodded. “The godly blood has been transformed into a true treasure.”

“That drop of godly blood? Transformed into a true treasure?” Primal Chaos City Leader was shocked and exhilarated. He, along with Luo Feng, Darkness Maser, and Peng Gong Master had known about the godly blood for a long time. As for the other universe masters, they had no idea. “Was it Craftsmen Master or Sitting Mountain Guest?” Primal Chaos City Leader couldn’t help asking.

“Sitting Mountain Guest.” Luo Feng said.

He didn’t try to hide it. Some secrets needed to be covered when he was weak. However, he was much more powerful now, and he had nothing to worry about. No one would dare try to encircle him and seize his valuables.

“Your home planet, Earth, was created by that great being. I should’ve figured that you had some connections with him,” said Primal Chaos City Leader. “Did you ask him to help us?”

“I did, but he said no.” Luo Feng shook his head.

“No surprise.” Primal Chaos City Leader shook his head. “We don’t have any universe supreme masters on our side, so we’re at an absolute disadvantage... Sitting Mountain Guest is very shrewd, so he won’t join. How about the true treasure?”

Luo Feng smirked. “Those whose minds are under universe supreme masters can’t resist it.” Before, the power of godly blood was spread, so limit-level minds of universe masters were able to withstand it. Now, only the minds of universe supreme masters could resist it.”

“Wonderful!” Primal Chaos City Leader was overjoyed. “With this true treasure, 90 percent of the universe masters will be rendered useless, and we might be able to capture some universe masters. This true treasure is more useful than supreme true treasures.”

“It is,” Luo Feng said with a nod. “This valuable can change the world, which is why I came here to tell you about it.”

“I’ll think about how to prepare for the war.” Primal Chaos City Leader nodded. “You should go train yourself as well. When you become a universe master, the pressure on us will be greatly reduced.”

“I understand.” Luo Feng went away.

As a matter of fact, the avatar of his godly power had been staying in the space of inheritance the whole time, and he’d been comprehending the laws in a place where time passed 10,000 times faster than on the outside. He had reached the limit of gold and space law, and all he needed was the final inspiration to become a universe master.

Once he became a universe master, his Moshu body and Remote Ocean body would have powers at top-tier level six as well. And then Luo Feng would have four bodies at top-tier level six! However, universe supreme masters didn’t have multiple bodies; they could only have the power at top-tier level six in the original universe, which was why Primal Chaos City Leader expected Luo Feng to become a universe master.

“One day in the space of inheritance is 30 years outside,” said Luo Feng. “It might take me dozens of eras to get the breakthrough—or just dozens of years, if I get lucky.”

Luo Feng was anxious, too, but he knew anxiety wouldn’t help him. Only inspiration could do the trick.

The demon race territory was dark and silent.

Hong! Long!

A giant purple god country appeared, and a trace of green light shone, followed by a giant ship. A black oval appeared in the white light.

“Dream Tea, Shock Horn!”

“Empress!”

“Automaton!”

Four minds communicated with each other. And then traces of light flew out from the purple oval, the ancient ship, and the black oval. Beings with powerful forces stood in the sky.

Hua!

The largest ones were the four supreme masters: a giant silver snake, a strange beast with a serrated, sawtooth shell, the beautiful bug race Empress, and all the bug clan queens surrounding her. In the distance, the giant oval showed nine eyes. He was Father God of the automaton race! There were automaton universe masters around him.

“According to our plan,” said Shock Demon Ancestor, “Empress, you have a supreme true treasure palace, and 80 universe masters will stay in the palace. You’ll attack at the same time to form the greatest power. As for the demon race and the automaton race, we’ll protect 16 universe masters respectively!”

“Okay.”

“We’ll distribute the task now.”

The war would be the largest war, involving the most powers in the history of the original universe. Some powers had joined the human race, yet more powers deemed that the humans would lose. Some powers stayed neutral.

As for the prison race, the crystal race, the Space Beast Alliance, the Ancestral God School, and the Northern Territory Alliance, they didn’t go to them because they hadn’t voiced their stances yet.

There were more than 80 universe masters from the three races, and almost 80 universe masters went to offer their help. Some universe masters couldn’t be lost, and some universe masters from other powers were held hostage, so they stayed in the miniature universe. There were 4 universe supreme masters and 112 universe masters in total.

“This time, we’ll act together,” said the black oval. “Besides, more races will join us. Only Darkness Master, Milky Way Horde Leader, and Peng Gong Master have the top-tier power. I alone can deal with Darkness Master and Peng Gong Master. As for Luo Feng, he’s indeed incredible, but Empress is strong enough to deal with him.”

The bug race Empress nodded in the distance.

“Shock Demon Ancestor and Dream Demon Ancestor will lead the 112 universe masters to fight the human race,” said Father God. “We have the absolute advantage, and we must—and will—succeed!”

“Kill!” roared the great beings from the three races.

“Kill!” the subsidiary races also roared.

“Kill!” roared all the creatures in the sky, including flesh and blood type, rock type, and metal type.

This was a war that would determine their fates.

“To the human territory!” Father God roared.
