

Chapter 1281: For the Race

In the human territory in the primal universe, Luo Feng sat cross-legged at an elevated height in the hall. With no walls in his surroundings to block his view, he could look far into the distance within that endless void space at the other magnificent palace buildings.

In preparation for the imminent battle, Luo Feng had been putting in his best as he trained hard and cultivated conscientiously. Yet he may have reached a point where there was a bottleneck that could not be rushed. To break through a critical bottleneck, there were many factors that could bring about sudden enlightenment, be it the changes within the universe or engaging in fights with other great beings midway or even during the process of teleportation. In short, there was a possibility of a breakthrough the moment one managed to gain comprehension.

The mighty Thousand Treasure River spread out to cover a region of a few light years as the voice resonated in Luo Feng's mind instantaneously. "Luo Feng, make your way to the main hall as quickly as you can!"

"Teacher!" Luo Feng opened his eyes right away. "War is here?"

Without hesitation, Luo Feng rose.

Shua!

With an instant teleportation, he vanished.

Within the quiet palaces resided numerous great beings from other races. They were entrenched in a certain area either in the form of mountain ranges or in a form that resembled meatballs that were totally green in color. Numerous pairs of eyes on these godly bodies could cause one's heart to tremble. These universe masters for the other races were not far from one another, and they were scattered all over the surroundings of Primal Chaos City Leader's Palace.

They were all waiting. Waiting for the war to arrive! They were aware of the danger of taking part in this war, but the dangers and benefits corresponded with one another! If the human alliance could become the third holy land universe, then by joining the alliance, at least their own races would be allocated a portion of the space for their own legacy. As the high-level universe masters of their race, they would be able to live longer lives.

Furthermore, the humans would give part of the experiences of how to become a universe supreme master from a universe master. They were aware that the humans might not tell them everything, but perhaps they would share a tenth of what they knew. Or possibly as little as one percent, which was better than not knowing anything at all. So long as they knew a small portion, it would be greatly beneficial to them.

"For our race!"

“For our race!”

The various universe masters were all of one mind. When it was time to fight, they had to fight. For this fight, they had charged their way in. There were many advantages to gain, but at the same time, this was a war, so there was also the risk of annihilation.

Shortly after, the mighty Thousand Treasure River spread out again, as Primal Chaos City Leader’s voice resonated by the ears of every single universe master. “Dear universe masters, please make your way to the main hall as quickly as you can.”

“It’s coming.”

“Finally, it’s here.”

“War.”

These universe masters from different races had waited for a long time, and every single one had feelings ranging from excitement to disquiet to insanity. However, they were all prepared! A short moment later, they had all teleported.

In the primal universe, within the main hall of Primal Chaos City Leader’s City Leader Palace, numerous figures started appearing out of nowhere. The number of great beings gathered in the hall continued to rise from 60 to 70 to 80 to 90. In a fleeting moment, everyone had arrived within the same hall. Then silence prevailed.

Primal Chaos City Leader stood on the steps of the stairway and looked down. Even up to that very moment, he himself had never sat on that throne before. “Dear all,” he began.

The great beings standing below included humans, some races that belonged to the Hong Alliance, and some races that did not belong to any main group or power. Of course, from the moment they joined the humans’ camp, all scattered races would naturally become a part of the Hong Alliance! Among the large crowd of super beings in that huge hall, the one standing at the forefront was—the silver-winged, armored form of Luo Feng, with his blade slung behind his back! Chubby Peng Gong Master with his big pot belly held on to Yan Jun Rod! And the black-robed Darkness Master exuded a silently, deadly aura!

“The demons, the bug clan, and the automaton race have started making their moves,” Primal Chaos City Leader said solemnly. “And the three races have joined one another this time. Apparently, after we taught them such a harsh lesson by causing them to lose six of their universe masters, not a single one of those three races dared to charge into our human territory alone. They are so scared that, now, they only dare to come forward after joining forces.”

Smiles started to form on the faces of the great beings beneath him right away.

Right! So what if there were three races? They were too scared of the human race all the same and could only make their moves after they joined forces.

“At this moment, they are already gathered. I suppose they will soon take action.” Primal Chaos City Leader looked at the numerous universe masters. “Now, let’s follow our original plan. This war... all the

universe masters who are taking part—other than Milky Way Horde Leader, Darkness Master, and Peng Gong Master, who have the autonomous right to take action—will all get into Black Prison Tower.”

Quite a handful of universe masters registered traces of relief. Black Prison Tower was a supreme true treasure. Inside, the level of security was naturally much higher. Of course, during the actual war, they would not be all hiding within the tower; otherwise, who would attack the enemy? They all had to be stationed at the exit points of Black Prison Tower where there were no obstructions. This was the only way they could attack the outside world! However, if they could attack the outside world, that meant the outside world could retaliate along the same route. But since they were at the exit points that were also the entrance points, they could certainly hide into the depth of Black Prison Tower anytime, which was much better than being out in the void space without any shield at all.

“Darkness Master.” Primal Chaos City looked toward his younger brother.

Darkness Master nodded slightly, outstretching his hand. A black pyramid appeared in the middle of his palm.

“Black Prison Tower?” The universe masters from the other races all looked over with shining eyes. This was a supreme true treasure! They, from their own scattered races, would never qualify to possess such a supreme true treasure.

“Go!”

Darkness Master manipulated it with his mind, and instantly, Black Prison Tower flew to the middle of the huge hall and expanded rapidly to become a towering pyramid. Around it, three side doors appeared concurrently. This supreme true treasure had side doors and one main door—just like how the first level of Star Tower had many side doors all around its border, while the bottom part could split open to form a deep abyss that would swallow everything up. Or like the Boat of Mausoleum, where the bottom part of the vessel could split open to form a gigantic entrance. But the Boat of Mausoleum did not have a suction ability, so the smaller cabin doors along its edge were more commonly used.

“Everyone, please enter,” Primal Chaos City Leader said.

Following his command, Long Yang Master, Ice Mountain Master, and Deserted Mirror Master from the human race walked in without hesitation. The other universe masters hesitated briefly and exchanged glances. Then, one by one, they walked in, too. A short moment later, within that huge hall, only a Black Prison tower remained with Primal Chaos City Leader, Luo Feng, Darkness, and Peng Gong.

“Darkness,” Primal Chaos City Leader said solemnly. “In here, there is a total of 21 members who are originally from our Hong Alliance and also, 70 new additions who have decided to join our force. Altogether, a total of 91! All will be under your command. This will be our most important source of power. With 91 of them joining forces, any universe supreme master can be blown away or knocked out of his wits. How the 91 of them should be grouped and how they are going to attack or defend is up to your discretion.”

“Noted.” Darkness Master nodded, and without another word, he stepped into Black Prison Tower.

He was the master of Black Prison Tower, which was why he could control those other races. The moment anyone tried to fool around, Darkness Master could send that member into eternal

imprisonment within Black Prison Tower. Even if someone tried to escape, there was no way he could escape from that strong suction force of the supreme true treasure. In this war, Darkness Master's main task was to manage this group of 91 universe masters.

In fact, the chances of these various races escaping during the critical moment were not high. This was because out of the 92 universe masters who joined the human camp, only 70 of them would be taking part in the war. The other 22 were to remain in the original universe. They were to play the roles of hostages. For example, if a certain race had three universe masters, two would step out onto the battlefield while the other one would stay behind in the original universe. The human race's excuse for such a strategy would certainly be for the lineage of these other races to have continuity. They had to divide the risk as much as possible! The other races knew the actual reason why the humans were doing so, but they would show no rejection. Actually, the demons, the automaton race, and the bug clan were all doing the same thing.

"Luo Feng, Peng Gong, the rest are up to the two of you." Primal Chaos City Leader looked toward Luo Feng and Peng Gong Master.

Luo Feng and Peng Gong Master nodded. Then Luo Feng waved, and instantly, a vessel landed within the main hall. It was the Boat of Mausoleum.

"Let's go," Luo Feng said.

Together with Peng Gong Master, the pair flew right into the Boat of Mausoleum.

"Set off for the headquarters of our virtual universe and wait there patiently!" Primal Chaos City Leader ordered.

Hong! Hong!

Black Prison Tower and the Boat of Mausoleum teleported and vanished at the same time

The headquarters of the virtual universe was originally the gathering ground for domain masters, sector lords, and undying fighters of the virtual universe company, while the primal secret region was more concealed. For these two places, one was openly known, and the other was secretly hidden. One handled various foundational matters, while the other handled higher-level matters like the cultivation of core talents.

The headquarters of the virtual universe and the primal secret region both had the universe passageways that led to the primal universe. It was also a place that the humans had to protect!

Based on speculations, if the enemy wanted to attack, they would likely attack either one of the two—either the headquarters of the virtual universe or the primal secret region. And these two places were now well-equipped with the establishment of a stable god country passageway. If the enemies were to attack the primal secret region, they could retreat right away.

A black pyramid and an aged vessel were both floating in the void space above the headquarters of the virtual universe.

“Luo Feng, are you nervous?” Peng Gong Master asked with a smile.

“Of course, I am.” Luo Feng let out a deep breath and looked toward Peng Gong by his side. “This is an alliance of the three other races, and based on the information we have, even though a number of scattered races came over to us, there were also others that went over to the other three races! And they have four supreme masters, w. When we truly fight them, these supreme masters all have an edge over us.”

Because supreme masters originally wielded seventh-tier combat powers or even eighth-tier combat power, under the suppression of the primal universe, the most they could execute was sixth-tier as the top.

This was why they could totally multi-task without issue, like manipulating far-range attacks while engaging in close-range battle, and at the same time, unleashing combat power at the level of sixth-tier as the top! One supreme master was easily capable of taking on two opponents at the same time! During the war with the demons earlier on, this had been made apparent to all.

“And Father God of the automaton race and the Bug Race Empress, when confronting them one-on-one, they are both much more powerful than Shock Demon Ancestor and Dream Demon Ancestor,” Luo Feng whispered. “This is a tough war we are facing.”

“We still have some hope of winning this war,” Peng Gong Master replied.

Luo Feng nodded. Although he still felt that heaviness in his heart. Because Father God of the automaton race and Bug Race Empress were both highly skilled in group battles, and they had strange techniques that were very unpredictable. One could already catch a glance or two from observing the battle between the automaton race and the bugs.

“Luo Feng, Peng Gong, Darkness, these are the coordinates. The united force of the three races has just arrived here via their god country transportation.” Primal Chaos City Leader was quick to inform Luo Feng, Darkness, and Peng Gong through the virtual universe.

“Understood.”

“Noted.”

“Setting off now.”

Luo Feng and the other two stayed very focused, as they could not afford to be distracted.

Shua! Shua!

The black pyramid and aged boat teleported successively one after the other toward the faraway coordinates! The coordinates were extremely close to the headquarters of the virtual universe, but Luo Feng and company only needed to teleport over a distance of around 300 light years to arrive there.

In the distance, there were some lonely and quiet desert planets. Beside these desert planets, there was a star level in its final stage where it was still radiating faint and dim red light rays. It was this place within the starlit sky.

A gigantic purple sphere, an aged vessel, and a black oval were all in the void space. They exuded an endless, oppressive force that caused time and space to become contorted. Even the star levels far away started to tremble under this oppression and began to undergo drastic changes.

Hong! Hong!

That aged vessel of the ancient civilization and the black pyramid appeared at the same time.

The united force of the three races! The human camp! All gathered within this space.

Chapter 1282: Machine Type

A beautiful figure flew out of the giant purple oval, and two giant beings flew out of the ancient ship, yet the black oval remained still. Those forces from the three universe supreme masters alone exerted incredible power, twisting the space and time around them. In the distance, the planets and the stars in the distance exploded like fireworks.

On the human side, the door of Boat of Mausoleum opened, and two beings flew out, standing on top of Boat of Mausoleum and gazing out.

Weng!

Golden light mixed with cold sand appeared at each area of the battlefield, covering an area of ten square light years. It was the combination of Golden Country and Snow Sand Ocean. Although the alliance of three races was incredible, without a domain type supreme true treasure, they couldn't do anything about it.

"We meet again, Shock Demon Ancestor and Dream Demon Ancestor." Peng Gong Master looked at the opposite side. With Luo Feng's help, his voice spread everywhere. "This must be the bug race Empress! I heard that the Empress always hides in the so-called Empress Hive when she fights in Universe Ocean, so lots of great beings say Bug Empress is a coward who always hides in the supreme true treasure palace. Yet you came out today. It seems Bug Empress is not afraid of death, and everyone is wrong."

Bug Empress had a supreme true treasure palace called "Empress Hive" or "Empress Palace."

"You're wrong, Peng Gong. The Empress is indeed scared of death," said Luo Feng jokingly. "However, in the original universe, the power of attacks can only reach top-tier level six, so Bug Empress won't be in danger. Of course, she won't be worried about her life."

"I see," shouted Peng Gong Master.

The human team kept laughing and shouting while the united forces alliance was angry. They dared to make fun of Bug Empress! However, nothing could be done about it because the domain was controlled by Luo Feng, so their voices couldn't be spread even if they shouted loudly.

"Father God, why do you keep hiding in that black oval? You don't even have a supreme true treasure palace?" Peng Gong Master shouted. "Show yourself. Me, Luo Feng, Darkness Master, and other universe masters haven't seen what you look like."

“I bet he’s too ugly to show himself,” said Luo Feng confidently.

Furious. The united forces alliance was furious! Shock Demon Ancestor, Dream Demon Ancestor, Bug Empress, and Father God knew that the humans were provoking them deliberately, but they were still furious. However, their voices couldn’t be spread, as they were blocked by Luo Feng’s domain.

On the human team, Luo Feng and Peng Gong Master were chatting and trashing the opposite team, and their voices resounded through the space and time around both teams, yet the swearing from the united forces alliance was completely blocked.

“Kill!”

This was just great. The united forces alliance didn’t even have a chance to argue back.

Father God was the angriest. He was noble and royal, and all the great beings in the automaton race respected him wholeheartedly. Those universe masters were even willing to die if Father God gave the order. Pride filled Father God’s heart. He was in awe of all those universe masters! Yet he was being ridiculed and getting called ugly, so of course, he was enraged. If he couldn’t refute things verbally, he would use his strength.

Hong! Hong! Hong! Hong! Hong! Hong!

Rickety-looking figures rushed out of the oval. There were 10,081 of them, and they charged at Boat of Mausoleum. All of them were around 10,000 kilometers tall, had eight arms and two legs, and were made of metal. They all had braids on their heads.

“Father God is infuriated.” Peng Gong Master was shocked and transmitted his voice to Luo Feng. “He has 10,081 puppets in his puppet army. Based on our information, he only uses 9,000 puppets, at most, when he’s adventuring in Universe Ocean.”

Luo Feng transmitted his voice. “Simple. It’s very dangerous in Universe Ocean, and other universe supreme masters are difficult to deal with. He might lose some of his puppets if he gets caught in a fight! Every one of them is at least as valuable as an ordinary true treasure, so Father God would never use them all like this. However, in the original universe, top-tier level-six power is the maximum power allowed, so he doesn’t need to worry about losing puppets. Of course, he will use them all.”

Luo Feng gazed at the puppets flying toward them. The two teams were far away from each other, so even if they flew at near light speed, it would take them a long time to arrive.

“The puppets...”

Father God must be following the group technique of the machine type from the ancient civilization, Luo Feng thought.

He had gotten the inheritance from Duan Dong River, and he had read lots of information about it. He knew a lot about machine types. Compared to the machine type from the ancient civilization, Father God’s skills were primitive.

Father God couldn't make powerful machines, so he could only use massive quantities to make up for it. Machine types had the characteristics of replicability, so they could follow the group technique. However, real supreme beings could create a machine type valuable like Boat of Mausoleum or even Universe Boat! These were valuables that were sole entities but were incredibly powerful!

It's primitive, and the supreme beings from the ancient civilization can easily annihilate them, thought Luo Feng. In Universe Ocean—especially in the original universe—I can't do anything to it. Father God is an intelligent life form and can fully utilize a group technique.

He could tell instantly that the 10,081 puppets used precious materials—at least materials used for pinnacle true treasures! None of the puppets cost much. They were small but could grow or shrink under godly power like Boat of Mausoleum and other true treasures. All of them combined, however, were equal to a supreme true treasure. They couldn't be broken.

As for swallowing them using Star Tower or Black Prison Tower, that wouldn't work either. Under the power of Father God, those 10,081 puppets would act as one; they could easily shrug off the swallowing power. If they could be easily swallowed, Father God would have lost many puppets while adventuring in Universe Ocean.

"Let's enter the dark universe." Luo Feng transmitted his voice.

"Okay," Peng Gong Master answered, and Darkness Master received the information.

Hong! Hong! Hong!

Boat of Mausoleum and Black Prison Tower reached light speed and entered the dark universe.

"I know they're going in the dark universe!" Shock Demon Ancestor roared. "Go into the dark universe!"

Finally, the voice could be spread.

The dark universe.

Universe supreme masters could all be ten times or even a hundred times faster than light speed, so it would be at a disadvantage to fight them in the original universe. The human team didn't have any universe supreme masters, so they chose to enter the dark universe, and after entering the dark universe, they could choose to return to the original universe.

Hong! Hong! Hong! Hong! Hong! Hong!

The puppet team showed up less than one second after Luo Feng and Peng Gong Master entered the dark universe.

Hou! Hou!

Every puppet roared, and burning godly power drove them in the same way Luo Feng would drive spiritual force weapons. Father God utilized his artificial features, as he was the only supreme master able to do that. His multi-tasking abilities were the best in Universe Ocean.

Artificial lives—such as Babata—had peak calculation abilities even when they were weak. After becoming undying, his calculation abilities well surpassed all undying fighters. As for Father God, even 1/100th of his controlling ability was better than other universe supreme masters.

The 10,081 puppets were quickly divided into two teams and charged at Luo Feng and Peng Gong Master.

Hong!

The 5,000 puppets hit Luo Feng at almost the same time. All were accurate, and the power was perfectly combined. Even Luo Feng didn't dare to attempt resisting it directly. Although he was wearing Crazy Demon Extermination Godly Armor, his godly body was 100 times weaker than top-tier universe masters.

"Defend!" Luo Feng used his Blood Shadow Blade to block it, and the blade became enormous, blocking the attacks.

"Break!" Peng Gong Master roared and waved Yan Jun Rod.

Hong! Hong!

They were hit at the same time, and Boat of Mausoleum was pushed slightly back. Peng Gong Master's Yan Jun Rod extended and formed armor that was as powerful as Crazy Demon Extermination Godly Armor. Peng Gong Master was also a universe master with 10,000 times life gene level, so he was better at defense than Luo Feng!

"Although it's powerful, this is not unexpected." Peng Gong Master transmitted his voice to Luo Feng.

Luo Feng and Peng Gong Master should have bounced back if the attack had been at top-tier level six.

Luo Feng transmitted his voice in reply. "It's not that powerful. Perhaps only when all the puppets attack altogether can they reach top-tier level six. That's the suppression from the original universe! If he can fully utilize every puppet, the suppression from the original universe will be rendered useless."

"The group technique has a limited amount of power," Peng Gong Master said, relieved.

Chapter 1283: Irresistible

The power from the puppets upset Father God. "If this were Universe Ocean, even ordinary universe supreme masters wouldn't dare to take that attack directly. Damn mind of the original universe! It suppresses the power of every puppet I have. I'll try to pin them down."

Based on the original plan, Father God had already known the maximum power he could reach, so he would deal with Darkness Master and Peng Gong Master first. However, Darkness Master was hiding in Black Prison Tower, so he resorted to fighting Luo Feng and Peng Gong Master first.

"Although I can't suppress them, I can still trap them." Father God looked to the distance.

Hua! Hua!

The puppet army swept across Luo Feng and Peng Gong Master. The puppets started to wind around Luo Feng and Peng Gong Master like a spider web.

“Damn puppets!” Peng Gong Master roared. He slashed at the area around him with Yan Jun Rod.

“Get away!” Luo Feng waved his Blood Shadow Blade, and all the puppets bounced away. However, only a small number of them bounced away compared to the entirety of them.

They kept charging Luo Feng and Peng Gong Master, who were trapped by the puppets and couldn’t make their way out. It was time to kill them!

“Shock Horn, Dream Demon, and Empress—beware of that Black Prison Tower!” said Father God. “Tell the other universe masters to attack Luo Feng and Peng Gong Master.”

“Okay.”

“If we can kill either Luo Feng or Peng Gong, we’ll have a much higher chance to win.”

All of a sudden, a huge abyss showed up from Empress Palace, and many universe masters from the bug race and other races stood at the opening. The black oval also cracked, and universe masters appeared.

“Attack!”

“Attack!”

“Attack!”

All the 112 universe masters started to show their power. Some of them brought multiple bodies, so there were more than 120 of them. True treasures, illusion attacks, soul attacks, and material attacks were all used.

Universe masters from the bug race and the automaton race also summoned a large group of puppets. Both races also used a group technique.

Hong! Hong! Hong! Hong! Hong! Hong!

The power was so strong that everyone was thrilled—even Shock Demon Ancestor, Dream Demon Ancestor, Father God, and Bug Empress. The original universe had never seen so many universe masters attacked at the same time.

“No!” Luo Feng yelled.

“We’re in trouble!” Peng Gong Master also shouted.

Luo Feng transmitted his voice to Darkness Master. “Quick! Help!”

Black Prison Tower was floating, and a giant abyss appeared under it, and great beings showed up as well. There were 91 universe masters and more than 100 godly bodies. They’d already sensed that

something was wrong when they saw Luo Feng and Peng Gong Master trapped, but they hadn't expected the enemies to attack at the same time.

"Attack! Attack the universe masters from Empress Palace!" said Darkness Master, transmitting his voice.

The universe masters all raced toward Empress Palace.

The two groups were far away from each other in the original universe. However, they were close in the dark universe. The universe masters from the united forces alliance attacked them all at once, and they arrived at Luo Feng's location. Luo Feng and Peng Gong Master were horrified.

Peng Gong Master transmitted his voice. "Luo Feng, we can't resist it."

"Then don't do it." Luo Feng waved his hands.

Hong!

Boat of Mausoleum showed up in front of Luo Feng and Peng Gong Master, blocking all the attacks.

Peng! Peng! Peng! Peng! Peng! Peng!

The attacks kept hitting the boat, yet some soul attacks and illusion attacks still went around the boat and hit Luo Feng and Peng Gong Master.

"Crazy Demon Extermination Godly Armor can weaken the attack, and I have a pinnacle soul true treasure to protect my soul, yet I still feel burdened even with my willpower. It's terrific, and it's only a part of the combined attack. Most of the attacks were blocked by Boat of Mausoleum. If they hit me directly..."

The more Luo Feng thought about it, the more scared he got. Ten universe masters combined could form power at top-tier level six. One plus one was greater than two! A top-tier level-six universe master was ten times more powerful than a top-tier level-five universe master. However, when some powerful universe masters fought together, the power would reach top-tier level six. And when more than 100 universe masters fought together, it would be far more powerful than level seven—close to level eight!

Luo Feng and Peng Gong Master didn't dare to resist it, even with Blood Shadow Blade and Yan Jun Rod.

Hong! Hong! Hong! Hong! Hong! Hong!

All the attacks were concentrated and hit Boat of Mausoleum. The shock waves alone were more powerful than top-tier level six.

Luo Feng transmitted his voice. "Come in."

The door opened to their side. Luo Feng thought about it when he released Boat of Mausoleum.

Sou! Sou!

Luo Feng and Peng Gong entered.

Inside Boat of Mausoleum, Luo Feng and Peng Gong Master stayed in the palace. Their view wasn't blocked by Boat of Mausoleum. They saw the universe masters from the alliance attacked again and again. However, the universe masters coming out of Black Prison Tower were also making attacks at the same level.

Hong!

The destructive attacks swept across Empress Palace and the universe masters. Although Empress Palace was a supreme true treasure palace, universe masters stood outside the door every time they fought. Otherwise, they might be attacked.

Father God transmitted his voice. "Resist it!"

"Leave it to me!"

A silver snake immediately grew ten billion kilometers tall. The universe masters from the united forces alliance were fairly close to each other in the original universe and were nearly touching each other in the dark universe. Dream Demon Ancestor completely covered Empress Palace, Father God, and Shock Demon Ancestor; the silver snake covered everything.

The true treasure weapons and energy attacks all hit the silver snake.

Hong!

Dream Demon Ancestor rolled over and hit Empress Palace and Father God. They all bounced away and completely disappeared.

"Terrific!" Peng Gong Master exclaimed in Boat of Mausoleum.

"She's brave," Luo Feng praised Dream Demon Ancestor.

The human team had over 100 universe masters attack at the same time. Even Father God, Bug Empress, and Shock Demon Ancestor didn't dare to resist. Only Dream Demon Ancestor, with her supreme true treasure armor, dared to resist it! However, Dream Demon Ancestor was only able to show the power of top-tier level six, so she didn't have much defense power and bounced away. However, Luo Feng and Peng Gong Master understood that although she was repelled back, with that supreme true treasure armor and godly body, even universe supreme masters in Universe Ocean couldn't harm her, let alone those attacks from universe masters.

"Attack!"

"Attack!"

"Attack!"

The universe masters from the united forces alliance all attacked Black Prison Tower with Dream Demon Ancestor protecting them. The universe masters from the human team also started to attack.

Hong! Hong! Hong! Hong! Hong! Hong!

The universe masters from both teams started fighting each other.

“Swallow!”

Empress Palace exerted swallowing power, attempting to suck in the universe masters from the human race as well as Black Prison Tower! Fortunately, all 100-plus universe masters combined were able to resist it. However, they were still careful, as they also needed to resist the attacks from universe masters from the united forces alliance. If they couldn't resist the attacks, they might be sucked in.

“Swallowing!” Darkness Master was controlling Black Prison Tower also.

The abyss exerted incomparable swallowing power, trying to suck in the universe masters around Empress Palace—and Empress Palace itself.

There were two supreme true treasure palaces: Black Prison Tower versus Empress Palace! And they were both trying to swallow the other!

However, unless the disparity in power between two supreme true treasure palaces was huge, it would be almost impossible for one to swallow another! Even if there was a significant difference between two supreme true treasures, the users needed to display that difference. Black Prison Tower was controlled by Darkness Master, and Empress Palace was controlled by Bug Empress; both were at the first level, so neither could do anything to the other.

Chapter 1284: Brutality

The outburst of the two great palace type supreme true treasures, Black Prison Tower and Empress Palace, unleashed terrifying gravitational force. The two camps of universe masters went completely wild with violence.

Hong! Hong! Hong! Hong! Hong!

Both sides had fallen into an intense fight. The united force of the three races had a total of 112 universe masters. Adding on the other bodies of certain universe masters, the total number of godly bodies in that force exceeded 120!

As for the human camp, with a starting count of 92 universe masters (including Darkness Master), after adding on the other bodies of certain universe masters, their total count exceeded 100!

With so many universe masters gathered in the same place and countless attacks occurring at the same time, the level of energy was continuously changing and expanding! The attack powers from both sides were almost at the eighth tier, and the universe supreme masters could only execute theirs at sixth-tier as the top, which meant that the moment they were hit by an attack, they might be thrown far away into the distance by the impact.

“Kill!”

“Kill the group of demons, bugs, and automaton race!”

“I have never exchanged blows with the universe masters of the bug clan before, yet now, so many universe masters are attacking together. This... This is simply satisfying.”

The numerous universe masters were highly excited. All burned with passion.

When over 100 godly bodies executed their techniques at the same time, the outburst of energy formed an “energy domain” of an area of a million kilometers around them. It was like when universe supreme masters burned their godly powers to get their godly powers to rise up; the energy generated could expel Golden Kingdom and Snow Sand Ocean within a small surrounding area. Not to mention the combined power of over 100 universe masters.

Hong! Hong!

Their opponents were attacking like crazy. But when they charged into this energy domain, their energies were vigorously consumed. Regardless of what kind of technique—godly power attack, soul attack, or illusion attack—all of the attacks were collectively worn out the moment they reached the energy domain, even before anything could reach these universe masters.

“Too powerful! When so many of us universe masters join forces, we become overwhelmingly powerful. Even universe supreme beings will mean nothing to us.”

“Even a top-tier true treasure, when confronted by our combined attack, will most likely be shattered to pieces.”

“Of course, it will shatter. Previously, some silly fool from the united force of the three races sent a blow across the void space with his blade, and that top-tier true treasure blade was reduced to powder and dust right away!”

Satisfaction! Universe masters from both camps were killing to their hearts’ content. They were universe masters, after all. When would they get the chance to experience such an outburst of power that was so overwhelmingly strong? Even universe supreme masters could not beat them. This was an execution of an attack with formidable power, and, indeed, it brought them the utmost satisfaction.

Both sides were executing their attack techniques. The power of certain attacks, upon execution, was worn out by the surrounding energy domain as the universe masters fought their way through while resisting their enemy’s attack. Some others were able to charge through the surrounding energy domain to reach their enemy’s camp, yet their powers were eventually worn out upon entering the enemy’s energy domain.

The number of godly bodies within the human camp might have been more than 100, but this number was still smaller than that of the united force of the three races. They had to focus more on defense and less on attacks! If they could at least put up a strong defense, they could block off the attacks. Then everything should work out fine.

“The combined force of our attack,” Father God of the automaton race said via voice transmission, “must have scared Luo Feng and Peng Gong Master into hiding in the Boat of Mausoleum. Since they are

not coming out, we shall change course and target our attacks at that group of universe masters! Shock Horn, Dream Tea, Empress, we shall join in the attacks to help the universe masters on our force.”

“All right.”

“With us joining forces, our attack power will surely be able to surpass the eighth tier and go beyond this level.”

“We shall wait for the chance to kill those universe masters. This war... We are going to fight a winning battle.”

The four universe supreme masters made up their minds instantly.

Amidst the void space in the dark universe, there were thousands of automaton puppets. They had been encircling the Boat of Mausoleum but were unable to do anything against it. Exasperated, the entire puppet troop simply could not be bothered anymore. They roared loudly with their mouths wide open. That was when the first streak of light in the shape of an arc was spat into the air. Shortly after, thousands of arc-shaped streaks of light started to appear and combine with one another. Finally, the convergence was completed to form a sharp arc of light.

Hua!

The arc of light swept toward Black Prison Tower.

“Go!” roared Shock Demon Ancestor, a beast with a serrated shell.

A cone-shaped image appeared and transformed into a dark storm. Then it dashed toward Black Prison Tower right away.

“Humans!” Dream Demon Ancestor let out a hoarse shout and shot out a cyan-colored shadow from the mouth of its gigantic snake’s head.

“Humph!” Beneath the attack of a large crowd of universe masters, a large quantity of dazzling, golden light was suddenly seen from Empress Palace.

At that moment, all four universe supreme masters were attacking at the same time.

Every universe supreme master was equivalent to 10 universe masters, so with the four universe supreme masters attacking at the same time, the power that could be executed by 120 godly bodies instantly soared to that of 160 godly bodies. After combining the attacks by the four supreme masters, the energy level once again underwent a change to completely surpass that of the eighth-tier energy level.

Hong! Long! Long!

Endless attacks were on the way. The energy domain of the human camp was instantly suppressed to only one-tenth of its previous area of influence. The violent attacks from the united forces of the three races could even prevent the attacks by universe masters of the human camp from surging out of their energy domain! All that the universe masters from the human camp could manage to do was rush about, resisting attacks and defending themselves.

“Too strong!”

“Unable to block!”

“If this goes on, there will definitely be problems. Once the energy domain that we are defending has a flaw, that single weak point will cause the entire storm of violent attacks to sweep its way in. Then we are bound to see our universe masters being annihilated.”

“This cannot go on.”

The entire human camp was in a state of panic, bustling about helter-skelter. In the face of such overwhelming attacks, 100 godly bodies were forced to resist powerful attacks equivalent to 160 godly bodies. The more great beings there were, the more the power would go on increasing progressively, so the difference in power between both sides could now be estimated as two to three times. The human camp was bracing itself to last for as long as it could.

“Under such pressure, even if there isn’t a weak point, the consumption of our godly bodies alone will be our undoing. If we lose 50 percent of our godly bodies, our power will only be left with 10 percent! Following the consumption of our godly bodies, our combat power will be reduced progressively, too... On the other hand, the united force of the three races has the help of four supreme masters. In terms of consumption, no matter how long this war takes, the four supreme masters can easily maintain at least the sixth tier as the top level of combat power.”

The humans were no fools. They could, after all, become universe masters. They all knew they were in a dangerous situation.

Within the Boat of Mausoleum, Luo Feng and Peng Gong Master had just witnessed the crossfire between the universe masters from both camps. They were lamenting over their observations when they saw the four supreme masters joining the battle.

“Luo Feng! Peng Gong! If the both of you are still not going to enter the field, things are going to go awry very soon.” Darkness Master transmitted a voice message with a tone of harshness.

Peng Gong transmitted his reply to Darkness Master. “The crossfire has only just begun. We are not needed there yet. Up until now, the battle has only gone on for a while. The godly bodies of our universe masters should be barely consumed at all.”

“Don’t spout nonsense.” Darkness Master was highly anxious. “Why don’t you come here and try it for yourself? The power of their attacks is much too strong! The moment we lose our defense, I’m afraid we will start to see the annihilation of our universe masters. If we drag on for too long, following the continued consumption of godly bodies, our ability to resist will gradually weaken. Luo Feng, when do you intend to counterattack?”

Luo Feng frowned and shouted his decision right away. “Peng Gong, let’s take the field together!”

“All right,” Peng Gong said. He squinted, but through the pair of slits, his eyes were flashing with insanity.

Hong!

]The speed of the Boat of Mausoleum skyrocketed suddenly and sharply. Then, without further ado, it dashed into the distance, moving toward the camp of the united force of the three races. The Boat of Mausoleum was so mighty that those automaton puppets did not even dare to stand in its way. The moment it came charging toward them, even Father God of the automaton race, who had previously been so arrogant, immediately ceased the attacks of his puppet troop.

Father God of the automaton race transmitted his orders. "Shock Horn, Dream Tea, Empress, you all will continue to attack the human universe masters of the human camp. This Luo Feng and Peng, leave them to me."

"All right."

"Automaton, you must block them both."

"Beware of Luo Feng. He has received the inheritance of the pulse of Duan Dong River. Who knows? He might have some other strange treasures."

Father God of automaton race transmitted his reply. "Don't worry. I have never let my guard down before."

Thousands of automaton puppets were seen to have flocked around the Boat of Mausoleum. When the Boat of Mausoleum's speed soared from 100 times light speed to several hundred times light speed, those puppets did likewise. When the entire Boat of Mausoleum was about to collide with that black sphere—

Hua!

The Boat of Mausoleum vanished into thin air. Luo Feng and Peng Gong appeared in midair.

"Kill!"

"Kill!"

The moment they appeared, both executed their attacks at the same time.

"Break!"

Luo Feng wielded Blood Ghost Blade, and the blade became insanely huge. From tens of thousands of kilometers of length, the blade speedily expanded to a length of at least 100 million kilometers. The sharp edges grew especially big while the handle remained the same size as before. This gigantic Blood Ghost Blade could not be bothered with the automaton puppets at all. Instead, it hacked murderously at the duo made up of Shock Demon Ancestor and Dream Demon Ancestor!

"Empress of the bug clan, you should accept one rod, too!" Yan Jun Rod also expanded tremendously in Peng Gong Master's grip, who viciously thrust it far into the distance at Empress Palace!

With a hack and a thrust, the two paid no attention to the automaton puppets and instead directed all their attacks at Shock Demon Ancestor, Dream Demon Ancestor, and Empress Palace.

Shock Demon Ancestor, Dream Demon Ancestor, and the Empress of the bug clan were exceptionally great beings. Of course, given their status, they would be clearly aware that the critical factor determining the victorious party in this war was none other than the group of universe masters of each force! So they paid no heed to Luo Feng and Peng Gong Master's attacks and continued to pour out their individual powers, directing repeated attacks at the human universe masters within Black Prison Tower.

But as for Blood Ghost Blade hacking onto the bodies of Shock Demon Ancestor and Dream Demon Ancestor...

The idea of a sixth-tier top-level kind of attack injuring a universe supreme master was a joke. Such an attack could, at most, knock these two universe supreme masters back a short distance.

"Let's not bother with those two humans," Shock Demon Master said, transmitting a voice message. "Automaton, they have the Boat of Mausoleum. That's why they can barge their way through. There is no way you can try to obstruct them... Since that is the case, you might as well ignore them both. A sixth-tier attack? Humph! It won't be able to hurt us at all. We just need to focus on attacking that group of universe masters."

The Empress of the bug clan also transmitted her voice message. "Right, universe masters of the human camp are already starting to get flustered. The moment a loophole appears, their universe masters are bound to face annihilation... Thereafter, the number of deaths on their side will increase. We must win this war."

"All right." Father God of Automaton clan also decided that he should no longer be bothered with Luo Feng and Peng Gong.

This instantly caused Luo Feng and Peng Gong Master to get anxious and angry, but there was nothing they could do. After all, the primal universe might be able to suppress the attack power of these supreme masters. It was not able to suppress their defensive ability.

Darkness Master transmitted another voice message out of anxiety. "Luo Feng, Peng Gong, right now, the majority of our universe masters' godly bodies are basically over 95 percent. But if this situation persists, the consumption of their godly bodies will increase beyond control. And now, just putting up defense alone, is exhausting them!"

Peng Gong Master transmitted a voice message too. "Luo Feng and I are getting anxious, too! But the four supreme masters are too vigilant. Even when they have such a great advantage over us, there isn't the slightest intention of leaving our universe masters alone. Now, we need to counterattack... It is almost impossible if we are intending to apprehend all the universe masters from both sides in one move. It is already very tough trying to apprehend the universe masters from one side, not to mention two sides."

Luo Feng was worried sick. Universe masters within the camp of the united force of the three races were divided into three places. Empress Palace had 80, the vessel belonging to the demons had 16, and the black sphere of Father God of the automaton race had 16! Although Luo Feng and company were unable to determine an accurate number, those great beings were standing in easily observable spots like the

edge of the hole's opening or the edge of cabin doors, so it would be possible to come up with a rough estimate of their numbers.

Luo Feng had initially intended to wipe out all the universe masters of the opposing force that the two demon ancestors and Father God of automaton race were protecting. But now...

Through gritted teeth, Luo Feng transmitted his voice message. "I don't care anymore. If this goes on, not only will we not win, but we might even suffer a crushing defeat. Counterattack!"

Chapter 1285: Ancient God Eye

In the space of the dark universe.

While the human team and the united forces alliance fought, great beings watched from a distance.

A purple-caped being stood in the space, and he saw the battlefield through the space and time in front of him. "I can't believe there are more than 100 universe masters, and they're this powerful. It seems that I need to learn from you, Northern Territory Alliance Master, and be an alliance master. At least I'll have a group of universe masters to command."

Ten billion kilometers away from the purple-caped being, an elder with a white beard said, "Do you want to be the alliance master, Shi Hua? Then I'll give you the Northern Territory Alliance."

Shi Hua Island Leader transmitted his voice to all the great beings around him. "You're so generous, aren't you? But I won't seize what you have. Everyone, what do you think the result is?"

"I think the united forces alliance will win."

"Even Ancestral God thinks the alliance will win? Then I'll side with the united forces alliance as well."

"It's hard to say. Luo Feng got the inheritance from Duan Dong River, and the human team has two supreme true treasures. Who knows whether they have more true treasures or not? What do you think, old beast god?"

"I think the united forces alliance will win."

"I thought you had a good relationship with the human race, old beast god!" someone screamed. A giant creature was flowing. "That human race can't resist it anymore, yet you're not doing anything to help. You're so sneaky! I hate that."

"What do you want to do? Fight me?"

"Do you think I'm scared of you?"

"Old beast god, E Zhou, why are you two fighting?"

"It has nothing to do with you, Virtual-Real. I just hate this old beast god!"

"Just keep quiet and watch first."

"Sitting Mountain Guest is right. Just watch."

“This is a very important war.”

The inheritance from Duan Dong River was very attractive. The universe supreme masters had all come here either by their original bodies or their avatars. They were all able to sense the space and time, and they could sense a very broad area. When the united forces alliance showed up in the human territory, they immediately sensed it. However, they all watched it from a distance, as they didn't want to meddle.

Aside from those supreme masters, some universe masters had also come, like Prison King. However, they were relatively inferior and weren't entitled to joining in the conversations among universe supreme masters.

“Something happened!”

“Wait!”

“The human race is turning the tables!”

The supreme masters and universe masters watching the fight were all thrilled.

The dark universe, the battlefield for the two teams.

“Counterattack!” Luo Feng ordered.

“Counterattack! Counterattack! Counterattack!” resounded the voice of Darkness Master in the ears of all the universe masters under Black Prison Tower.

They were all excited. They only knew there were three plans for counterattacks. However, they didn't know the details. For what it was worth, they knew that the human race had a trump card, and it was time for them to show it now! Their will to fight was suddenly alight! Even those who had a hard time defending themselves were trying to look stable.

“Time to counterattack.”

“Time to counterattack.”

They were all trying their best to defend themselves. At the same time, they were also watching how the situation was changing.

In the area in front of Luo Feng and Peng Gong Master stood Dream Demon Ancestor, Shock Demon Ancestor, and Father God. They couldn't have cared less about Luo Feng.

“Boat of Mausoleum.”

Luo Feng waved his hands, and Boat of Mausoleum appeared. It immediately bulged and stood in front of the united forces alliance. However, the united forces alliance ignored the boat, as they knew that it couldn't do them any harm.

Suddenly, the crystal ball floating at the door bulged. It reached a diameter of 10 million kilometers, bracing the entire door. The halos on the crystal ball concentrated at a single point like a narrowing pupil! The pupil aimed right at Empress Palace. The crystal ball had a diameter of ten million kilometers, yet the pupil only had a diameter of 100,000 kilometers.

Hong!

The powerful mental force traveled in a straight line, slashing the sky and rocketing toward the universe masters beside the abyss of Empress Palace. The mental force traveled like a pillar of light, so it could only affect about ten universe masters.

Luo Feng didn't want to attack those 80 universe masters all at once because the pupil could maintain its maximum power within the diameter of 100,000 kilometers. However, if it kept bulging, the area covered would be large, and the power would be weaker. 100,000 kilometers was the best area.

"Ah!" A towering universe master from automation race growled and groveled, trembling.

"No!"

Some universe masters groveled. Some lay down, and some fell, losing consciousness. The "mind shock" from Ancient God Eye was too strong, and within the dark universe, they weren't far from each other in terms of proximity. Besides, Luo Feng had put Ancient God Eye near Empress Palace on purpose so that it could wield its maximum power.

Weng!

Ancient God Eye spun slowly and swept in various directions. Every time it pivoted, it was able to affect about ten universe masters. It turned a little bit, and it affected another ten universe masters.

It was a simple twist! The mental force storm circled around and affected all the universe masters under Empress Palace! Although the "mind shock" was directed away from the universe masters for a short period of time, it would take them a long while to recover.

It was a fatal circle! A portion of great beings from the bug race, the demon race, and the automaton race were among those 80 universe masters. However, most of them were subsidiary races. Besides, they had learned from their previous experience and had left behind some universe masters who had the best chance to become universe supreme masters at their miniature universes.

If it were a top-tier level-five being like Forbidden Master, they could have resisted it, as their minds had already reached universe-supreme-master level. However, only three out of the 80 universe masters had minds that were at the universe-supreme-master level. As for the others, they were either groveling or knocked unconscious.

This was catastrophic to the united races alliance. Suddenly, they had lost 77 universe masters, and there were only 35 universe masters attacking the human team... Even all of them combined couldn't reach level seven.

The united races alliance had four universe supreme masters, so they had 40 universe masters in total. Which meant Ancient God Eye had eliminated half the fighting power of the entire alliance—from more

than 160 universe masters to just around 80 universe masters! And the human race had more than 100 universe masters!

Hong! Hong!

Luo Feng and Peng Gong Master both performed their techniques.

The blade of light and the rod shadow swept across Empress Palace. The human team could have the power of the combination of 120 universe-master godly bodies—including Luo Feng and Peng Gong Master, whose power was at top-tier level six. Finally, the human team's universe masters broke the energy domain and started the real counterattack.

Hong! Hong! Hong! Hong!

The universe masters from the human race started to attack Empress Palace!

“Swallowing!”

Darkness Master had been driving Black Prison Tower after the use of Ancient God Eye, and it finally started to work! 77 of the 80 universe masters fell, and all 80 universe masters—including those three who remained conscious—flew toward Black Prison Tower.

But just as they were being swallowed by Black Prison Tower, the human team started to attack them relentlessly!

“No!”

“How...?”

“Empress!”

The three top-tier beings of the subsidiary races were horrified. Those three alone weren't able to escape the swallowing power of the supreme true treasure palace, and they weren't able to resist the attacks from Luo Feng, Peng Gong Master, or the other human universe masters. The colorful forces, the thin blade of light, and the rod shadow all hit them.

Father God transmitted his voice. “Empress!”

“Empress! Protect them!” Shock Demon Ancestor roared, also transmitting his voice.

“Protect them!” Dream Demon Ancestor shouted, growing anxious as well.

The attack was so sudden that they didn't have time to use their techniques to stop it. They could only place their hopes on Bug Empress—the last hope of the united forces alliance!

If dozens of universe masters were killed or swallowed, it would be a nightmare for them!

Chapter 1286: Nightmare

Shock Demon Ancestor and Dream Demon Ancestor were horrified by how the tables had turned!

“How is it possible? It shouldn't be this strong!”

Neither Shock Demon Ancestor nor Dream Demon Ancestor could understand it. Although they had suffered a huge loss in the first battle against the humans, they hadn't told the automaton race or the bug race about the valuable that had the "mind shock" power, as they had wanted to weaken the two races.

However, the bug race and the automaton race weren't stupid! When they were distributing the universe masters, they firmly demanded that the great beings from the three races should be equally distributed at three places!

The ship under the protection of Shock Demon Ancestor and Dream Demon Ancestor, the black oval of Father God, and the Empress Palace all had universe masters from three races, so every power would suffer roughly the same, which could ensure the unity among the three races.

And then Dream Demon Ancestor and Shock Demon Ancestor found an excuse to mention the "mind shock." The bug race Empress and Father God asked universe masters like Forbidden Master—who had survived the mind shock—and they had confirmed that only limit universe-master minds could resist it.

"There are 80 universe masters in Empress Palace. Although those who have the best chance to become universe supreme masters didn't participate, three of them have the minds of universe supreme masters, and 11 of them have limit-universe-master minds. There are 16 godly bodies like that in total. Combined, they are able to rival two universe supreme masters, and the energy domain they form can easily resist the swallowing power from Black Prison Tower. Plus, they have the capacity to protect other universe masters as well! No matter how powerful the enemies are, Empress can still put them in the palace."

This was the plan of the three races. However, the mind-shocking valuable was more powerful than last time, which was totally unexpected!

"I've never heard of mind-shocking valuables that can threaten universe masters. The human race got two of them? And the second one is more powerful than the first one?" Shock Demon Ancestor and Dream Demon Ancestor were shocked.

Bug Empress was anxious as well.

Bug Empress transmitted her voice. "Top-tier true treasure palaces! Pinnacle true treasure palaces! You three, get in the true treasure palaces first and get as many universe masters around you in there as possible. Quick!"

In the distance, Luo Feng was controlling Ancient God eye on Boat of Mausoleum. Ancient God Eye was close to Empress Palace, and it attacked the universe masters again and again, rendering them powerless.

"Palace."

"Palace!"

The top three beings from the subsidiary race knew that even if they hid in the palaces, the palaces would be swallowed by Black Prison Tower. They immediately followed Bug Empress's orders.

Hong! Hong! Hong!

Three palaces showed up. Two of them were pinnacle palaces, and one was a top-tier palace.

"Quick, protect the other universe masters!" Bug Empress urged them.

"Come in!"

"Come in!"

The three powerful universe masters all enlarged their palace true treasures, and they tried to put all the universe masters in their palaces.

Bug Empress also acted. "Swallow!"

Bug Empress tried to swallow the universe masters from the human team before. Now, she changed her target and tried to swallow the 80 universe masters from the united forces alliance. The swallowing power worked on the three palaces and the universe masters floating around them.

Empress Palace and Black Prison Tower! It tried to swallow the 80 universe masters at the same time! The power immediately slowed the universe masters, while the three universe masters of other races also tried to fight. However, Luo Feng, Peng Gong Master, and other universe masters from the human team started to attack.

They were so close, and the human team had attacked too fast. Even if the three universe masters all took out their palace true treasures and put the floating universe masters in, they only managed to put in most of them. Some universe masters were still floating in the distance.

Hong! Long! Long!

The blade of light and the rod-shaped shadow swept across them.

The mental force of Ancient God Eye was still working. The universe masters who were floating in the sky didn't even know that any danger was coming.

"No!" Shock Demon Ancestor and Dream Demon Ancestor roared.

"No!" Father God was also in agony, as one of the universe masters who died was from automaton race.

Hong!

A top-tier level-six universe master was able to kill a top-tier level-three universe master with one attack! And that was even when the top-tier level-three universe master used everything he could to resist the attacks. Now, when those universe masters were unconscious and unable to resist, even level-four great beings would be killed. The storm of attacks over level seven could kill even level-five great beings if they didn't resist it.

22 godly bodies were annihilated immediately.

“22 godly bodies, 18 universe masters! Six of them have multiple bodies. Some of them lost one body, and some of them have two bodies. However, the other 12 universe masters lost their lives forever. 12 universe masters!”

The four universe supreme masters were all in agony.

Bug Empress and the other three conscious universe masters avoided being swallowed because they had the palaces to protect them.

The united forces alliance was furious. However, they were also relieved, as their worst nightmare was that all the universe masters would be swallowed.

“Plan number three!” Luo Feng transmitted his voice.

“Plan number three!” Darkness Master also gave an order in Black Prison Tower.

The human universe masters and the universe masters of other races on the human team were all excited. What had just happened was amazing! They had killed 22 universe master bodies in total, and they presumed that at least ten were dead, even if some had multiple bodies.

But this was only the first step of the counterattack.

“Plan number three, attack!”

“Attack!”

“Attack!”

The universe masters started to attack Father God and the two demon ancestors. Half of the attacks were aimed at Father God! The other half was aimed at the two demon ancestors!

“Humans are so arrogant!” Shock Demon Ancestor roared.

“Humans should die!”

Universe masters from the united forces alliance were standing at the door of the spaceship and the black oval. They were all enraged and were counterattacking the humans as well. However, they were careful, remaining close by universe supreme masters.

Ancient God Eye kept sweeping across the three palaces flying toward Empress Palace so that the 62 universe masters weren't able to wield their real power! After all, the 62 universe masters were the central power of the united forces alliance. If Ancient God Eye left, the power would be fully utilized again! That was why they had to be suppressed!

The human team kept attacking the automaton race and the demon race. Ancient God Eye suppressed the 62 universe masters. At the same time, Luo Feng and Peng Gong Master started to move.

“Capture!”

Luo Feng stood in space, and a giant being appeared beside him. It was a golden horned beast with scaled black wings! There were two blood stains on the black wings. (The white wing was an exceptionally advanced supreme true treasure, so it can change its color easily).

Luo Feng, Golden Horned Beast, and Peng Gong Master attacked at the same time!

“Duan Mie!” Golden Horned Beast roared.

This was the first time that he had performed Duan Mie, one of the core techniques from Duan Dong River. Although he had created Nirvana Incarnation, the power of the white wing was still inferior to Blood Shadow Blade, even if it was better than ordinary supreme true treasures.

Golden Horned Beast could barely reach level six without Duan Mie. However, after performing it, it could reach top-tier level six instantly!

The blade of light was thin at the beginning, and it became thicker and thicker, sweeping across the sky and land. The other streak of bloody light followed almost the same trajectory.

It was a combination of three top-tier level-six powers! Together with the attacks from the other 50 universe masters, they all fell on Shock Demon Ancestor and Dream Demon Ancestor.

“You can’t even harm me.”

“Humans!”

Shock Demon Ancestor and Dream Demon Ancestor weren’t scared, despite being surprised by the power of this golden horned beast.

Shock Demon Ancestor became very cautious; he had learned a lesson before. He immediately transmitted his voice to the universe masters between him and Dream Demon Ancestor, saying, “Get into the ship.”

At the same time...

Hong! Long!

An enormous object showed up.

A tall tower showed up. There were nine levels. It was more than 100 billion kilometers tall, and it kept surging. There was an abyss under the tower, and a drop of godly blood was stuck to the abyss.

“Star Tower!”

“The humans have Star Tower!”

Shock Demon Ancestor and Dream Demon Ancestor were both dazed. Under the combined attacks from the 50 universe masters and three top-tier level-six power, even Shock Demon Ancestor and Dream Demon Ancestor bounced away. Under this situation, Star Tower’s appearance was catastrophic for them.

“No!” Shock Demon Ancestor and Dream Demon Ancestor both roared. “Star Tower!”

“No!” Father God and Bug Empress were also anxious.

Luo Feng and Golden Horned Beast, who were making attacks, both said, “Swallow!”

Their godly power and minds were driving Star Tower!

This was the first time that Star Tower had appeared.

Hong!

The pinnacle true treasure ship immediately flew toward the abyss under Star Tower. Some universe masters tried to fly out, but they were swallowed immediately after flying out.

Chapter 1287: The Three Races Were Defeated

To the united force of the three races, there was a sudden twist of events on the battlefield.

Indeed, it was disastrous for them. The humans’ counterattack consisted of a series of repeated attacks, putting their force at an advantageous position. The united forces of the three races were about to suffer a crushing defeat!

Ancient God Eye appeared suddenly to suppress the most powerful troop within the united force of the three races—the combined troop of 80 universe masters.

The combined attack by over 50 godly bodies, all of whom had powers at a universe master level, was enough to send the entire force on Father God’s side flying back. They were driven to immediate retreat without being able to render help to the two demon ancestors at all!

Golden horned beast body suddenly appeared! Shortly after, it joined Luo Feng’s original body, Peng Gong, and more than 50 godly bodies. The resulting attack sent Shock Demon Ancestor and Dream Demon Ancestor flying into the distance right away.

At the most critical moment, Star Tower finally appeared! It was executing its ability to “swallow and suppress.” Originally, the 16 universe masters—who, in fact, had a total of 18 godly bodies—had been hiding within the vessel. With their powers combined, they could resist the suction force of Star Tower. However, at the deepest area of the black hole of the deep abyss within Star Tower, there was still a drop of godly blood!

For this war, the most important troop within the united force of the three races was the one consisting of 80 universe masters in Empress Palace. To prevent accidents from happening, almost all of those with the willpower of top-tier universe masters and universe supreme masters were included in this troop of 80 universe masters. This was the reason why, out of the 16 universe masters within the vessel that Shock Demon Ancestor and Dream Demon Ancestor were protecting, only one had the willpower at the ultimate limit of a universe master. The rest were not up to this standard.

So, in the face of an impact by that “godly blood,” as many as half the members of their troop were knocked unconscious on the spot. Three went weak at the knees. Only one managed to resist the impact of that willpower and continued to stay awake! But only one managed to unleash an outburst of his normal combat power. How was he able to resist the suction of Star Tower at the same time?

Even if this vessel, which belonged to Shock Demon Ancestor, was manipulated by him from afar, there was no way he could put up a resistance concurrently. After all, even if Shock Demon Ancestor had control over one palace supreme true treasure, when pitted against Luo Feng's Star Tower, it would, at most, be equivalent to Star Tower. He was merely able to control this pinnacle true treasure palace, so there was naturally no way he could put up any resistance.

“No.”

“No, Demon Ancestor.” The cabin doors opened, and two figures flew out. They wanted to escape, yet they felt like a small wooden boat that had fallen into a vast ocean whirlpool. No matter how they struggled, they could not resist the gravitational force at all.

Hong!

Everything was sucked into the Star Tower, including the vessel that was a pinnacle true treasure palace—and the two universe masters who had flown out.

Silence returned.

Far away, in the void space of the dark universe, there were numerous universe supreme masters either in their original bodies or their avatars. There were also universe masters deployed by various groups, some of whom were acquaintances who were familiar with one another and were chatting or exchanging their views when they met up. However, the moment they saw that the tables were turned and the situation was worsening, they were completely shocked.

The situation had been reversed. And it was a major reversal!

The united force of the three races was banished to the bottomless deep abyss! They had lost! A crushing defeat!

“They actually lost!” Out of the numerous universe supreme masters who were scattered all over, Sitting Mountain Guest, who sat cross-legged on the cyan mountain peak, registered a shocked expression on his face as he sighed and lamented, “How surprising. So surprising.”

“Lost? The united force of the three races actually lost?” The purple-robed figure also lamented with a sigh. “The situation is going to become troublesome. The united force of the three races has suffered a great loss this time. They have lost too many universe masters. Indeed, this is a disaster. And the human force owns a true treasure possessing impactful willpower. This will deprive the group of universe masters of the united force of any possible grounds of unleashing their power. Without the help of that group of universe masters, the four universe supreme masters alone will definitely not be enough to fight the entire human force.”

The old beast god shook his head with a sigh. “Hopeless. The united force of the three races has been defeated. It is impossible for them to even try to struggle.”

What a devastating defeat.

The huge, winding black monster let out a piercing voice. "Many have died. Haha! Shock Horn and Dream Tea, that pair of bastards. The demons should have known that working with them would eventually lead to their downfall."

A ball of flame let out a voice. "Lost. They have lost to the impactful willpower of that true treasure within the human force."

"Right, that true treasure with its impactful willpower."

"That true treasure was the reason the situation was reversed. The troop consisted of universe masters with the strongest powers, and yet, they were all rendered useless by that true treasure."

The numerous universe supreme masters were all sighing.

"Just what kind of a true treasure is that?"

"We are too far away, and the power within the battlefield is under too much fluctuation. There is no way we can get a clear view. And the impact of willpower is intangible. There is no way to judge what kind of true treasure is causing it. But... judging from the reaction of the group of universe masters of the united force of the three races, they must have met with the impact of that willpower."

"Hasn't anyone noticed Star Tower?"

"Star Tower!"

"Of course, I see it. It's just that I had not expected it to be in the hands of the human race. And it seems like Luo Feng is the one controlling it!"

"Oh, Star Tower. Previously, we all have tried our best, but no one was able to control it. Who would have expected that it would fall into Luo Feng's hands?"

The numerous universe supreme masters started lamenting and shaking their heads amidst sighs. The power of Star Tower was undoubtedly extremely strong. The only problem was, in the past, no one was able to get it to recognize them as its master.

Such a supreme true treasure. A palace type, indeed. Such palace type true treasures were extremely rare, to start with! In the entire primal universe, with all the universe supreme masters put together, those who owned a palace supreme true treasure might add up to only two! Yet, in this war, the humans first presented Black Prison Tower, which had originally belonged to East Emperor Holy Land. Then, they revealed that they had Star Tower, a true treasure that had previously recognized no master.

"The human force is so powerful. They have such a big group of universe masters! And... they have a rod type attack supreme true treasure and two palace supreme true treasures! Especially that Luo Feng. That Luo Feng in his original human body, together with his golden horned beast body! Both with combat power at sixth tier as the top level! I have long heard of him having a beast body, and he also has that Mosha body that previously made an appearance. Come to think of it, it may be because he seized his golden horned beast body from his winnings. Thus, he was able to subsequently divide himself into three different bodies! Both the original body and the other body are able to unleash an outburst of combat power at the sixth-tier level."

“True, that Luo Feng’s human original body and that other golden horned beast body are both capable of unleashing combat powers at the sixth-tier as the top level. Could it be that his blade and that pair of wings are both supreme true treasures, too? This is... too many treasures.

“This Luo Feng has actually received the inheritance of the pulse of Duan Dong River. He has met with such a great opportunity that you can never envy enough. It might not necessarily be a supreme true treasure. He has previously broken through the basic inheritance of the blade and seized the inheritance of the pulse of Duan Dong River! Based on the information I know... previously, when he broke through the basic inheritance, he was already able to create a secret technique at the level of a universe supreme master. Judging by his blade technique, I supposed his blade technique is also already at the level of a universe supreme master.”

For ordinary universe masters to show power at the sixth tier, they would need to rely on their godly power. A godly power of 10,000 times of life genes would activate the secret engravings on their supreme true treasures, which would allow them to execute the secret technique at the level of a universe supreme master.

And Luo Feng... Even without the help of a supreme true treasure, he could already execute a secret technique at the level of a universe supreme master, which was his own creation! If he really was a universe master with 10,000 times life genes... even without a supreme true treasure, so long as he executed Nirvana Renaissance, he could still achieve an outburst of combat power at the level of the sixth tier as the top. His only disadvantage was that his godly power was a notch weaker.

Theoretically, his ability was only at a fifth-tier top level. Relying on Blood Ghost Blade, he managed to make it to the sixth tier as the top level. Relying on the white pair of wings, he barely made it to the sixth tier, so he needed to execute Extermination to achieve an outburst of power at a sixth tier as the top level.

“Old Beast God... That Luo Feng has a golden horned beast body. Why aren’t you showing any reaction to it?”

“Since this golden horned beast that he won could allow him to cultivate another body, it also means that this golden horned beast has yet to become undying. My Space Beast Alliance... those space beasts who are weaker are destined to live their lives wandering about the universe. Be it life or death, their fate lies within their control.” The old Beast God said this in a leisure tone.

“I’m leaving!”

“This war is over!”

“Let’s go.”

“I had initially pinned my hopes on the united force of the three races to save us some effort. It seems like they are still not up to it. Now, it’s time for me to start preparing well.”

The numerous universe supreme masters went still for a moment. Shortly after, they all left the dark universe. Those universe masters who were secretly observing the situation from afar also started to leave one by one.

After Shock Demon Ancestor and Dream Demon Ancestor were blown off in the air, they were fast in returning without delay, but they were still too late.

“Humans!” Shock Demon Ancestor and Dream Demon Ancestor yelled and roared. They were extremely angry.

“They all deserve to die!” Father God of the automaton race was also extremely angry.

“Loathsome, detestable humans! Revolting.” Empress appeared outside her palace that in the distance. Her face also registered rage.

The four universe supreme masters of the three races were indeed at the apex of their anger.

Buzz!

Hovering in a horizontal manner amidst the void space by the cabin doors of the Boat of Mausoleum was none other than Ancient God Eye. It was still sweeping the surroundings repeatedly, as it consistently maintained a sharp eye that was directed at Empress Palace. The moment that group of 62 universe masters dared to step foot out of Empress Palace, they would be in danger of being swept under the impact of the willpower of this Ancient God Eye.

“Hahaha...” Luo Feng laughed heartily.

In midair, the huge, lofty Star Tower rapidly shrunk and directly landed on the golden horned beast’s back. Golden horned beast carried Star Tower on its back. Beside it was Luo Feng with his silver wings widespread. Further down the row was Peng Gong Master, who was holding onto Yan Jun Rod, and from afar, Black Prison Tower was making its way over. Behind them all was the massive Boat of Mausoleum whose length spanned a distance of ten billion kilometers.

“Do you all still want to go on with another round of battle?” Luo Feng shouted.

“Demons, bug clan, automaton race!” Peng Gong Master also shouted out. “If you three races still want to go on for another round, we are most willing to oblige.”

The united forces of the three races were so angry that they were on the verge of going crazy. But looking at Black Prison Tower, then looking over to Star Tower being carried on the back of that golden horned beast, these were two palace type true treasures they were talking about! Besides—those who had some prior bits of information could easily deduce that that golden horned beast body was likely Luo Feng’s other body.

Luo Feng’s original body and other bodies were all equipped with combat power at a sixth tier as the top level! This was the same as Peng Gong’s combat power! In terms of the sixth tier as the top level combat power, the human race fared pretty well.

Besides, it also had a large troop of universe masters. And a treasure with impactful willpower that could suppress the power of the opposing united force of three races, so that they could not unleash their full potential. And the human race also had two palace type supreme true treasures!

“Humans, you won only because you had supreme true treasures!” Shock Demon Ancestor bellowed. “That’s about it!” He was, certainly, at the apex of his rage.

“Hahaha! What a great joke.”

Luo Feng held out his left hand, and Star Tower, which was beside him, flew right to the middle of his palm where it remained suspended in the air. Luo Feng laughed with gaiety as he said, “Being able to seize supreme true treasures is also an ability! Just like the inheritance of the pulse of Duan Dong River, within the entire Universe Ocean, who would not have heard about it... Everyone obviously came for it, but I, Luo Feng, was the one who won it. This is what we call an ability. Don’t be such a bad sport! If not for Father God of the automaton race who hid himself in that black sphere and refused to come out. It must have been afraid that the group of universe masters under its protection would be sucked over by us humans once and for all.”

Chapter 1288: Practice

The human team had come up with many plans before the war regarding how powerful the humans were, relative to the united forces alliance. When they were fighting, the human team immediately realized how powerful the united forces alliance was, and the human team was at a disadvantage. The human race tried to keep showing their weakness so that the real body of Father God would come out.

However, universe masters led by Darkness Master couldn’t resist the attacks for long. If they kept displaying their weaknesses, they might be crushed. That was why Luo Feng decided to counterattack!

“That’s their plan!”

The united forces alliance was terrified. Father God was also scared. They had been at an absolute advantage at first. He did, indeed, want to emerge and fight the human team in close quarters, as that way, he could wield more power. As for Luo Feng, he was afraid that the universe masters of his own team wouldn’t be able to resist the attacks much longer, which was why they had enacted the backup plan so soon.

“Humph! Why are you so smug?” Father God shouted. “You just got the strange valuable by luck. Without that strange valuable, you would definitely have lost!”

Luo Feng held Star Tower, standing in the space of the dark universe and shaking his head.

Peng Gong Master shouted, “How big of a loser are you to search for excuses for losing the war? You don’t have the demeanor of a universe supreme master, Father God. I despise you.”

The two teams stood in the area, yet neither team was willing to back down from the dispute. However, neither of them was fighting. The human race realized that only universe supreme masters were outside the palaces, so they couldn’t kill them. As for the united forces alliance, they knew that they would be totally crushed if they kept fighting!

“Shock Demon Ancestor, Dream Demon Ancestor, Father God, and Bug Empress,” shouted Luo Feng. He glanced at the three powers in the distance. “Some universe masters of your races are kept in my Star Tower. Do you want them back?”

“Of course, we do,” said the black oval.

Both the silver snake and the sawtooth-shelled strange beast looked at Luo Feng, and so did Bug Empress.

The voice of Bug Empress sounded seductive, despite the fact that she did not intend it to; she had been born that way. “Name your price,” she said.

“It’s simple,” Luo Feng said. “For the next era, the universe masters and universe supreme masters can’t enter the human territory. If you can do that, I’ll give you back all the universe masters detained, as well as their true treasures.”

“This is the only requirement,” said Peng Gong Master. “Do you agree?”

Luo Feng gazed at the supreme masters from the three-race alliance. He was well aware that winning the fight against the united forces alliance greatly improved the humans’ circumstances. However, if those neutral powers and lone universe supreme masters attacked them, it would be a nightmare for the humans.

If they could keep the united forces alliance out of the war by holding some universe masters hostage, their situation would be much more advantageous.

The four supreme masters transmitted their voices to converse with each other.

“We’ve already risked everything for this war!” said Father God. “After this fight, I now realize we alone will not be enough. Those powers who wanted us and the human team to suffer great losses will definitely pick a side in the future. We should wait until those powers act. After that, we’ll join again. With our combined powers, it’ll be easy to get some inheritances!”

“That’s right. We’ve come so far, so there’s no way for us to back down!” said Dream Demon Ancestor.

“Those who have the best chance to become universe supreme masters are all living in the miniature universes,” said Shock Demon Ancestor. “Even though there will be a loss of universe masters, most of them are of other races.”

“I agree,” said Bug Empress.

They reached a consensus immediately. Compared to the inheritance, the losses they would suffer were bearable! After all, they had come prepared for losses.

Golden Horned Beast, Luo Feng, and Peng Gong Master stood side by side in space, waiting for a response.

“Do you really expect us to compromise after you have killed so many great beings of ours?” said Father God angrily. “We’ll let you win this time, but you’ll regret it soon enough!”

“It seems they’ve rejected the deal.” Luo Feng strolled along with Star Tower in his hand. “You’re sending these universe masters to their death. Shock Demon Ancestor and Dream Demon Ancestor, I told you last time that you would suffer greater losses. Next time, you won’t be able to negotiate.”

“Negotiate? Next time, you humans will be annihilated.”

“Go!”

“Go!”

The united forces alliance disappeared from the dark universe without saying more.

Darkness Master stepped out of Black Prison Tower.

Peng Gong Master clenched his teeth. “Those bastards.”

“The united forces alliance will return again!” Darkness Master also looked anxious. “Besides, many more will come next time. The united forces alliance is not giving up.”

“Of course, they won’t give up!” said Luo Feng coldly. “The opportunity to transcend incarnations is invaluable. Besides, most of the universe masters we captured are from other races. Even though they’ll be upset by the losses, it’s acceptable to them.”

“For what it’s worth, we’ve won big time,” said Darkness Master. “Let’s go back first.”

“Okay.”

“Okay.”

Luo Feng, Peng Gong Master, and Golden Horned Beast flew back to Boat of Mausoleum, and Darkness Master flew back to Black Prison Tower.

Boat of Mausoleum and Black Prison Tower left the dark universe and went back to the original universe, rushing to the primal secret region.

Inside Star Tower, the 16 universe masters from the united forces alliance were separated. Two were from demon race, one was from the automaton race, and one was from the bug race. As for the others, they were all from other races! Only 20 universe masters were actually from the three races of the united forces alliance, while a total of 112 universe masters had participated. The others were all from the subsidiary races and other races.

Only a small portion of them were actually from the three races. As for the 16 universe masters detained, four were from the three races, so the percentage was already relatively high. Those four were detained in a sealed space, while the other 12 were detained together in a different area.

A voice was transmitted into Star Tower. “Do you really expect us to compromise after you have killed so many great beings of ours?”

“It seems they’ve rejected the deal.”

The negotiation was transmitted in.

“Damn it! Bastards.”

“Those goddamn bastards!”

“They’re willing to let us die just for their own ambitions!”

The four great beings from the three races were calm, yet the other 12 universe masters of other races cried with outrage. They were all from weak races. Some of them were actually the only universe master in their races. What would happen to their races if they died?

Although the united forces alliance had made a promise to them as to what they would do if the universe masters died it was very easy for a race to be bullied if it had no universe masters. Even if the demon race, the automaton race, and the bug race could help them, the three races couldn’t do anything once other pinnacle races, like the prison race, decided to annihilate them. The most they could do was save some lives to allow the race to continue breeding.

The 12 universe masters of other races swore in anger. As for the other four, they were angry, but they had to obey the universe supreme masters.

Only three of the universe masters had multiple bodies, but they were not ready to self-destruct yet, as they were still waiting for a chance to get out. After all, they didn’t want to give up their bodies and true treasures so easily.

It was pure rapture in the main palace of Primal Chaos City.

Primal Chaos City Leader stood on the stage of the main palace and looked down at the universe masters, excited. “Universe masters, congratulations. Thank you for all your contributions. Thank you all! The three-race alliance was indeed formidable, but they were still defeated! To the glory of the humans, the glory of the Hong Alliance, and the glory of every one of you! Let’s drink up!”

Everyone was cheerful. Those universe masters who had been anxious before were all exhilarated. Even Primal Chaos City Leader was elated. As for Luo Feng, Darkness Master, and Peng Gong Master, they temporarily forgot about the united forces alliance’s unwillingness to compromise and celebrated the victory.

Soon, the universe masters started to talk with each other, and Luo Feng was the one who received the most attention.

After a long while, Luo Feng and Primal Chaos City Leader walked out of the main palace.

“They didn’t agree?” asked Primal Chaos City Leader.

Luo Feng shook his head. “It not unexpected. Those four old fellows have great ambitions. However, we need to enact another plan.”

“Okay.” Primal Chaos City Leader nodded. “It may be less ideal than their compromise, but it can still empower us.”

Another plan was to drive a wedge between them!

Most universe masters in the united forces alliance were from other races. They didn't hold absolute loyalty to the three races, and they certainly weren't about to die for them. That was why Luo Feng had purposefully allowed the conversation during the negotiations to be transmitted into Star Tower.

"They all have avatars in their own races and avatars in the central region of the united races alliance," said Primal Chaos City Leader slowly. "They originally came from lesser powers, especially those with only two or three universe masters. You can certainly draw them to our side."

Luo Feng nodded. "Yes. We can at least draw some of them to our side so the united forces alliance will be weaker, and we'll be stronger. I'll go to Star Tower now. I'll persuade them to surrender and try to draw some lesser powers to our side."

"How about the universe masters from the three races?" asked Primal Chaos City Leader?

"I'll kill them, of course." Luo Feng smirked. "It's protocol."

After all, only when Luo Feng killed a universe master would Sitting Mountain Guest made him a true treasure.

Chapter 1289: Meeting

"Rest assured, Milky Way Horde Leader. After this battle, some of the idle races will definitely change their minds," resounded the voice of a universe master who had an upper body reminiscent of a human with tentacles as legs. "The unity within the united forces alliance isn't strong, and now that the alliance has lost, some will choose to leave. The alliance won't stop them from leaving unless they want all the other races to rebel. When our race leaves the alliance, we'll join the Hong Alliance."

"Wonderful!" Luo Feng smiled and nodded. "If you join the Hong Alliance, we'll give you some experience from the ancient civilization on how to train yourselves to become universe supreme masters, no matter how the war ends. However, I can't let you go yet. I need Qu Dark Master from your race to come to use first before we let you go." Luo Feng made a promise.

"I understand," answered the universe master with a lower body like an octopus.

Of course, he had to say yes. He was kept in Star Tower, and his life was in the hands of Milky Way Horde Leader.

Luo Feng leaned against the railing and looked down at Thousand Treasures River. Although many universe masters had agreed to help the humans during his conversations, he realized that it couldn't actually help much with the situation the human race was facing. However, the human race had to get all the help it could.

"This war was only a rehearsal. The real war hasn't begun yet."

Luo Feng felt the pressure, and he looked out into the endless space. The storm was coming—a storm that would sweep across the entire original universe!

The alliance's loss carried strong implications.

To the humans, it was both good and bad. The bad side was that the enemies now realized how dangerous and threatening the humans were! However, the good side trumped the bad side. After all, those neutral powers would come to humans!

Demon race territory, an ordinary planet Blood Tooth Star.

This had been where an undying fighter from the demon race lived, but now, it was where the six powers of the united forces alliance talked about business.

On the beautiful plain, six minds condensed into avatars. They were Dream Demon Ancestor, Shock Demon Ancestor, Bug Empress, Father God, Devil Ancestor, and Holy Master. These six universe supreme masters represented five superpowers of the original universe.

"Why isn't the Northern Territory Alliance here yet?" Devil Ancestor's tail surrounded all the supreme masters, and his red eyes were glaring.

"Our minds travel faster," said Shock Demon Ancestor. "Those from the Northern Territory Alliance need good country transportation and teleportation. We need to wait."

"After all, that alliance master doesn't make the decision, but the universe masters do," said Holy Master from Crystal race. "Here they come."

They could feel great beings teleporting themselves to this planet.

Weng! Weng! Weng!

Three beings arrived.

"The other five forces have already arrived? We're a bit late." The leader of the three beings looked like a crystal. He was Star River Master.

Star River Master was the most powerful being in the Northern Territory Alliance, and he usually appeared as a dark shadow usually. However, since he was currently meeting the six supreme masters, he showed his true body.

"Star River Master, Black Lotus Master, and Liu Lan Star Master," said Father God. "This is the first time I have seen you all appear together."

"Lots of powers are involved already. How can we not show up?" said Black Lotus Master, a being with a flower-like head.

All three universe masters were out of the ordinary. The Northern Territory Alliance was a super alliance comprised of many various races, and there were around 100 universe masters in the alliance. After all, even an elite alliance like the Hong Alliance had around 40 universe masters, so one could imagine how many universe masters a giant alliance like the Northern Territory had.

As for the alliance master, he was just there for mutual help. Star River Master, Black Lotus Master, and Liu Lan Star Master were the truly influential ones!

Black Lotus Master represented the six plant life forms within Northern Territory Alliance. As for Liu Lan Star Master, he represented the most powerful clan in the Northern Territory Alliance, the Liu Lan clan. Star River Master, although he was a special life form, was good at turning back time to save lives, and he had saved lots of universe knights using his power. He was to Northern Territory Alliance what Primal Chaos City Leader was to the human race. He was just and respected by many lesser races, and he represented the alliance of special life forms and lesser races.

They represented the three major streams in the Northern Territory Alliance, so if they agreed, it meant 95 percent of the members in the Northern Territory Alliance agreed. This was how a loose alliance operated; the unity wasn't as strong as that within the human race or the demon race...

"Now that everyone has arrived, let's begin," said Shock Demon Ancestor. "Everyone knows that we lost the previous fight against the humans. Luo Feng gained a lot from Duan Dong River, and we can already see how much it contributes to the human race. That mind-shock valuable and Black Prison Tower... The human race didn't have either of those before!"

"That's right. Nobody had a mind-shock valuable before. As for black-striped stone pillars, they're strange objects that can't be moved."

"The human race is indeed much more powerful."

"The human race received a lot from the Duan Dong River inheritance."

While they were chatting, Father God suddenly said, "Those don't matter!"

The other five universe supreme masters and three universe masters looked at him.

"Inheritance! The important thing is the experience!" said Father God slowly. "With the experience, there might be more universe supreme masters born from the human race! The Divine Eye clan had seven, and with that inheritance, there might be more than ten born from the human race! The Divine Eye clan roamed the original universe during the first universe era and occupied lots of territories. When the human race flourishes, they will occupy more territories, and there will be more life forms, geniuses, and great beings born. It's a cycle. The power of the human race will keep surging. Imagine the Divine Eye clan being three times as strong!"

Three times as strong? Everyone went quiet.

The seven supreme masters from the Divine Eye clan occupied a large territory in the first universe era. Three times stronger? 21 universe supreme masters? Three times the territory?

"Then all the territories of the five pinnacle races combined aren't enough." Devil Master was wicked and angry. "No! I can't allow it to happen."

"There are only a certain number of lives that can be born in the original universe! If the humans become stronger, the other races will get weaker," said Father God. "I didn't think the humans were such a great threat before. However, the humans defeated the united forces alliance shortly after gaining the inheritance. If we allow them to prosper like that, all the powers in the original universe

combined won't be enough to defeat the humans! After that, the human race will be the only superpower in the universe."

"That's right."

"They're too powerful."

Even Star River Master said, "We can't let that happen."

The six powers reached a consensus. Their territories were their foundation, and if the humans kept getting stronger, their territories would keep getting weaker.

"The six powers..." said Bug Empress. "It's easy for us to form an alliance, as we all occupy the most important and broadest territories in the original universe, but it's different for the other powers. The Ancestral God School, for instance, is an alliance of lots of special life forms, and their only domain is that Ancestral God Secret Region, so they don't have any conflicts with the humans. As for the Space Beast Alliance, they don't need a large territory, as the small space beasts all go vagabonding through the universe before they become undying. Those lone universe supreme masters don't need territories, either."

"That's right."

"Territories are what bring us together. As for the lone universe supreme masters, The Space Beast Alliance, and the Ancestral God School, they don't care about it. They care more about the inheritance regarding incarnation transcendence! If the humans try to persuade them to join them, they might agree."

"We must align with all the powers we possibly can—even the lone universe supreme masters, the Ancestral God School, and the Space Best Alliance. I don't think the humans will actually tell them how to transcend incarnations."

"Besides... The biggest power in the original universe isn't any of the nine superpowers. It's not the lone universe supreme masters; rather, it's the combination of those idle races distributed throughout the original universe. Some powerful ones have one or two universe masters, and all of them combined make up hundreds of universe masters. We need to get as many of them on our side as possible."

Although Ancient God Eye was a real threat, a trump card worked best only when it was not exposed. Now that everyone knew about it, however, they were coming up with methods to minimize its harm.

"The billions of races are all weak. However, all of them combined represent a very large territory in total. If the humans expand their territory in the future, they'll be annihilated as well. We can draw lots of idle races to our side."

The six powers kept discussing with each other. They were trying everything to strengthen their power and weaken the humans' power.

Chapter 1290: Turbulent Dark Flow

Light rays from the glowing Gemini Star far in the distance penetrated the clouds to shine upon Earth. This gave a beautiful orange hue to the layer of clouds.

The land beneath was occupied by many green-skinned life forms of the Yan Ya race. The Yan Ya race was composed of blood and flesh life-forms. They had the lower bodies of wild, four-hoofed beasts, but their upper bodies resembled humans, other than the fact that they had four arms instead of two. They were born to be lovers of peace, but the moment they got angry, they would become crazed warriors.

Peace! Tranquility! Happiness! These were the main tones of life on the planet occupied by the Yan Ya race.

In a little, elegant, wooden building, a Yan Ya lady kneeled on her four-hoofed legs, looking around in a leisurely manner.

Hong!

A streak of light suddenly fell from the sky above and landed right before her. A burly figure took form. His entire body seemed to be made of metal, and he wore purple armor. With his icy eyes, he looked at the Yan Ya lady who was kneeling and said, "Yan Ya Master!"

The Yan Ya lady revealed a hint of a smile and replied, "Balance String of the automaton race. My friend, what brings you here? Such a rare sight."

"The fate of your Yan Ya race is implicated, too. This involves the rise and fall of your Yan Ya race. You and I have pulled each other through life-and-death experiences in Universe Ocean before. How could I not notify you the moment I hear of this?" Balance String Master made himself at home.

"The fate of my race?" The Yan Ya lady looked at Balance String Master.

"My automaton race, the bug clan, and the demons have jointly formed a united force of the three races," Balance String Master said. "We were involved in crossfire with the human camp. You must have heard about it."

The Yan Ya lady smiled and said, "Of course, I have heard about it. The news spread extensively throughout the entire primal universe. For any universe master to not know anything about it would be a rare sight. Crossfire between the united force of the three races and the human camp, and ultimately, the three races were defeated... This was such shocking news that many other races were in disbelief when they caught wind of it. Come, try some of this green fruit wine that is brewed by my people."

With a wave, a wine glass appeared and floated before the two of them. The wine glass had both height and depth. The wine it contained was faintly green and emanated a flurry of aromas. A dark gray, exquisitely sculptured flagon appeared on the ground beside them.

Balance String Master got hold of the wine glass and, in a solemn tone, said, "The humans have the inheritance of an ancient civilization. They just obtained it, but they are already so powerful. If we allow them more time... they will develop into a race that is more terrifying than the Divine Eye clan of the first reincarnation era. That's for sure. If they can already defeat the united force of the three races, what will happen in the future? I'm afraid that even if the major groups of powers within the primal universe combine forces, they will still not be a match for the humans. Once the humans become that strong, how could they not try to expand? As you know, the human race is quite invasive."

The Yan Ya lady gave small nods. True. In fact, all six pinnacle races—the bug clan, the demons, the automaton race, the human race, the prison clan, and the crystal clan—were extremely invasive and aggressive! The laws of reproduction for these races were related to their strength and the amount of territory they could possess. The stronger a race, the more territory it could occupy.

“In the primal universe, who occupies the greatest territory?” Balance String Master continued. “Not any of us, the various pinnacle races, but you: the billions of scattered races. Individually, you are all weak, and your lands are small, but when everything is totaled up, you all own a vast chunk of territory. If the humans truly become powerful and invincible, do you think they will let you all off? This war is not only a battle for the inheritance of an ancient civilization; it is also a battle of survival for you and us, the countless other races!”

The Yan Ya lady stared at Balance String Master. “The humans have their original universe. No matter what, there is no way we can exterminate them all.”

“Yes, we are unable to exterminate them,” Balance String Master said. “A race with universe supreme masters is blessed with a fate freed from extermination, but... even if we cannot exterminate them all, we can still suppress them. We can hold their universe masters captive as though they are our reward. Or, even if we are unable to capture them, we can at least take over their territories and force them to retreat into that original universe of theirs.

“Hiding in a small universe and being suppressed by the major groups of powers in the primal universe... The other major powers in the Universe Ocean will be coveting the same thing. They will also be threatening the humans to hand over the inheritance! In this way, the human race will not be able to advance a single step. They will not dare to let the weaker ones out into the field to hone their skills via life-and-death situations because they are no longer training or honing their skills through life and death experiences... If the weaker ones are sent into the field, they are going to die—without a doubt! The moment humans appear in the primal universe, or within Universe Ocean, they will be besieged and captured! They will then be treated as the bargaining chips of the various top powers during their negotiations with the humans.

“If that is the case, then no one human can truly rise up and beyond. It will only be the same select few of them: Luo Feng, Primal Chaos City Leader, and a few others, who can wander around and escape for survival whenever they need to. But just the few of them. Even if there are a few more supreme masters added, what good does it do for the various top powers? If they are trapped in one place without being able to breed more people and talents, then the human race will be destined to wield limited power... They will no longer be a threat to us!”

Balance String Master looked at Yan Ya Master. “This is why some of us—races who own territory—must fight the humans in this war or make them hand over the inheritance or even suppress them so they cannot execute their power! As for the supreme masters who travel alone, in the future, even if the humans get more powerful, there is nothing for them to fear. But this might mean that in the future, they may have no chance to threaten the humans into handing over the inheritance, which is why, if they want to transcend reincarnation, they need to grab hold of this opportunity!”

“In short,” Balance String Master said solemnly, “be it supreme masters who travel alone or the various races like us who have territories, everyone will be laying siege on the humans. Our automaton race, the

bug clan, the demons, the prison clan, the crystal clan, and the Northern Territory Alliance—even the various scattered groups of powers—have all started to join alliances. I believe, if you probe around, you will learn more. If you do not join anyone, you will be ostracized! This time around, if you join a camp, then surely, it will form a highly beneficial interest... You should know. You should know what to do.”

Yan Ya Master frowned and said, “Actually, the human race has already sent an envoy to speak with me.”

“An envoy from the human race?” Balance String King was shocked. So fast!

“They said, so long as we do not get involved, they promise never to invade our lands,” Yan Ya Master said.

Actually, she had refrained from saying something: If the Yan Ya race joined the human camp, the humans would share information on the experiences of the ancient civilization about how universe masters could cultivate to become universe supreme masters.

“And you believe them?” Balance String Master snorted. “This time around, the war has swept across the whole primal universe. You are my friend, so I shall tell you outright. If you do not take any side at all... when this war is over, your race will come to a most tragic end. And unquestionably, the united force camp consisting of major groups of powers is bound for victory.” Balance String Master held the wine glass in his hand. “To join the victorious party or the losing one—the decision lies with you, Yan Ya Master.”

Then he tilted his head backward and downed the glass of green fruit wine.

Gurgle. Gurgle.

“This green fruit wine is indeed worthy to be the famous brew of the Yan Ya race.” Balance String Master lowered his eyes to look at the wine glass. “But if the wrong choice is made this time around, I’m afraid, in the future, there won’t be such delectable wine for anyone anymore.”

Hong!

Balance String Master immediately transformed into a streak of light and disappeared in the clouds high in the sky.

Yan Ya Master was a very influential universe master within the Three Mountains Alliance, which was a secondary group of power. That was why Balance String Master was specially sent over to Yan Ya race to persuade her. If he succeeded in persuading Yan Ya Master, then the possibility of influencing the entire Three Mountains Alliance was much higher.

“For this war, the possibility of the various races of the united force winning is indeed, very high,” Yan Ya Master whispered with a sigh. “But the number joining the united force is getting too many. Even if great beings from the numerous races within Three Mountains Alliance, as well as myself, join the united force, we would just be like icing on the cake. There is not much purpose for us there. Just how much benefit do we stand to gain? I’m afraid we will be totally neglected!”

Even if they managed to get some little part of that inheritance from the humans, after much difficulty, with those pinnacle races and supreme masters in the picture, would the united force give all that inheritance to them, the inconspicuous groups?

“If we were to join the human camp, we would get some guidance. That is for sure. It’s just that the human camp seems destined to fail and be eventually sent to the original universe... Then the races who stood with the humans will find themselves in trouble. By that time, we must combine forces—that is, the many scattered races within the human camp must form an alliance to deal with the attacks... This situation would be equally terrible.”

The universe masters were no fools. All of them were aware of the advantages and disadvantages of joining either of the two camps. The united forces camp was almost a sure-fire win! But there were no benefits to reap, and they had to risk their lives for them. After all, there were already quite a few universe masters being annihilated.

The human camp represented almost certain death! But there were also the benefits of gaining the guidance of an ancient civilization. The problem was, after the war, there would be troublesome repercussions.

How should they choose?

When the united forces camp was persuading the various scattered races, supreme masters who traveled alone, the Ancestral God School, and the Space Beast Alliance within the primal universe... the human camp was doing likewise, brainstorming ways to rope in other groups of races and forces. However, the humans’ approach sought to conciliate and placate rather than persuade. Both parties would neither help nor harm one another. The human camp also promised never to invade any other territory that did not belong to them.

This condition, as reasoned by the united forces camp, was meant to exercise some restraint over the humans just in case the expansion of the human race, and them gaining more power, caused them to infringe on the territories and domains of other races.

The two camps were thinking of all sorts of ways and methods. However, the decision of the countless great beings of these scattered races would implicate the fate of their entire race. How could they not think it through carefully?

This was why, regardless of choosing the human camp or the united forces camp, there was not much to gain initially. Obviously, those scattered races had already started to interact and discuss among themselves just how should they address the question of joining the two great camps. There was even a new viewpoint being voiced: they would not join either of the two camps!

In short, everything was in a mess! Be it underhanded or aboveboard, the two camps were deploying all sorts of methods—for instance, buying over a universe master with a multitude of benefits and thereafter making use of that universe master to lead its group to one’s own camp. In short, no one had the intention to scrimp on the various methods they could come up with. They were desperately roping in powers to their side!

If one side gained ten universe masters, it would mean the opponent would have ten less. To and from. Every exchange would be equivalent to the combat power of 20 universe masters put together. In such a situation, how could they not give it their all?

Amidst the endless, deserted starfield, no life form could possibly proliferate. Yet this starfield was where Sitting Mountain Guest laid his territorial rights.

“Teacher, Teacher.”

Right away, Luo Feng went over to Sitting Mountain Guest to pay him a formal visit.

“Here at my humble abode, personally?” said Sitting Mountain Guest. “The human camp must be in a crazy hustle and bustle now. Such an important figure like yourself! What brings you here in person? Seems like you have a favor to ask of me.” Sitting Mountain Guest was holding a crystal stone as he made his way down step by step along the stairs. “You never come to visit unless you need something from me.”

Luo Feng broke into a sweat out of guilt and was quick to apologize. “I am guilty as charged. In the future, I will make an effort to visit you more, Teacher.”

Sitting Mountain Guest sat down in a relaxed manner. “Let me guess. Your purpose in coming here must be to ask me to make another true treasure with willpower that can exert an impact. And my guess is that you have personally killed a universe master and have video documentation as proof, right?”

Luo Feng merely nodded obediently. “Teacher is indeed impressive.”

“In the future, whether you annihilate a universe master or not, there is no need for you to document it. You just need to inform me. That will do. I trust that you will not lie to me.” Sitting Mountain Guest gave a casual nod. “Refining one more is simple. Give me three days, and yes, that Old Beast God from the Space Beast Alliance has asked me for a favor in getting in touch with you. Since you are here, I shall let him know. He will be here shortly. You can meet up with him and discuss matters. Whether the negotiations go through or not, do not worry about me. In this so-called battle of camps and such, I have no intentions of getting involved at all.”

“Old Beast God?” Luo Feng was shocked.
