

SWALLOWED 1311

Chapter 1311: Last-Ditch Struggle

“Get in, everyone.”

“Get in.”

Father God from the automaton race, Shock Demon Ancestor, Dream Demon Ancestor, Prison Race Devil Ancestor, Holy Master from the crystal race, Bug Empress, Northern Territory Alliance Master, Space Beast Ancestor, Black Universe Creator, E Zhou, Virtual-Real Devil Master, and Shi Hua Island Leader all gathered the universe masters under them back to their world rings or true treasure palaces.

For what it was worth, the united forces alliance team didn't count on winning anymore. They just wanted to get away while preserving as much power as possible! As long as they could escape Remote Ocean, the humans were still at a disadvantage. However, if the humans captured a group of universe masters, the united forces alliance would lose that group of universe masters, who could add to the humans' power. The effect was significant.

“Quick!”

Luo Feng transmitted his voice in Remote Ocean. “Uncle Darkness, we need to act now. The united forces alliance is making a last-ditch struggle.”

“Okay.” Darkness Master was nervous.

Mosha body, beside Star Tower, was holding Ancient God Eye, standing on top of the ocean. He turned around and looked at Star Tower, saying, “Teacher, the united forces alliance is making a last -struggle. We need to capture as many universe masters as possible. I'll go use Star Tower.”

“We have more than a100 universe masters here. We don't need Star Tower,” Primal Chaos City Leader urged. “Go and capture those universe masters.”

“Okay.”

Mosha Luo Feng waved his hand, and Star Tower shrank and fell into his hands.

“Go!”

Mosha body reached light speed and entered the dark universe, trying to capture the universe masters as quickly as possible.

...

“Larger! Larger! Larger!” A giant silver snake was swimming in the endless ocean, enlarging itself.

Dream Demon Ancestor controlled the true treasure palace. However, when the pinnacle true treasure tried to enlarge itself, it was suppressed by the godly power ocean and couldn't get larger! It put back his true treasure palace and showed its original body. Its godly body became larger. The ocean's binding

power couldn't match that of universe supreme master Dream Demon Ancestor. It couldn't enlarge itself infinitely.

Without restraint, it could enlarge itself like Star Tower. However, if it was confined to a small area, and area would decide how much it could bulge. If it was in a cave on an ordinary planet, it could easily become larger and crash through the resistance! However, in a room in Boat of Mausoleum, even a supreme true treasure couldn't break through it.

When Luo Feng was encircled by the universe supreme masters in Universe Ocean, of Mausoleum had been devoured by the eternal true god of Divine Eye clan, yet it could still bulge and crash through that eternal true treasure! Ordinary supreme true treasures couldn't do that.

"Damn godly power ocean."

Northern Territory Alliance Master, Father God, Shock Demon Ancestor, and Virtual-Real Devil Master were all furious yet helpless. They couldn't even control true treasure palaces, so they would rather control their own godly bodies. They all revealed their true bodies and started to grow larger.

Although the power of their bodies was stronger than Luo Feng's godly power ocean, the ocean was performing Duan Mie; the resistance was still strong, and it was only slightly weak than them! Their godly bodies couldn't be enlarged quickly enough. Generally, they could become ten billion kilometers long immediately, but at the moment, the rate was much slower—a million kilometers, ten million kilometers, 50 million kilometers, 100 million kilometers...

"Larger, larger, larger." Bug Empress's Empress Palace was becoming larger at a normal speed.

Empress Palace was a supreme true treasure, so it was strong enough. All the 12 giant objects were bulging, including Empress Palace and the original bodies of the 11 universe supreme masters. Those original bodies—whether they be a silver snake, a wicked giant, a beast, or a beauty—were all growing. 100 million kilometers, 500 million kilometers, a billion kilometers...

The ocean water tried to suppress the bodies, making them slower and slower. Empress Palace, however, was still fast and was already tens of billions of kilometers tall.

The human team watched the 12 giant objects becoming larger and larger in Remote Ocean water.

"They want to enlarge their godly bodies to draw closer to each other so that they can help the Freedom Alliance?" said Primal Chaos City Leader.

He watched the universe supreme masters from the united forces alliance growing. He waved his right hand, and an art valuable floated on the water, quickly becoming larger. A mountain, a lake, and a wooden house!

The mountain, the peaceful lake, and the wooden house floated on the tumbling godly power ocean, which confused all the universe masters from the other races. What was Primal Chaos City Leader doing?

One of Primal Chaos City Leader's bodies appeared and walked to the mountain while another body walked to the lake.

Weng!

A green sky covered the godly power ocean, and gray land stretched out under it.

Hong!

The wooden house was like the center of the universe, gleaming and covering an area of one square light year! The green sky and the gray land were like two lids, combining into a universe whose center was the wooden house.

“What is this...?” The universe masters of other races felt a strong pressure as the endless light covered the entire area.

The 11 universe supreme masters and Empress Palace all slowed down immediately and sharply. Palm Universe and Five-Color Aurora Lake combined were dissipating the Golden Country of Luo Feng. After all, Golden Country overlapped with Palm Universe.

Palm Universe and Five-Color Aurora Lake. The two of them combined were so powerful that Xi Qu Starlight Lake was annihilated as well.

“What is that?”

“How can the humans have another valuable?”

“It’s a valuable for controlling space and time. It seems to be more powerful and wields even more pressure.”

Father God, Prison Race Devil Ancestor, Shock Demon Ancestor, and the other supreme masters were all nervous. They were struggling and burning their godly bodies, trying to become larger.

Shi Hua Island Leader started to transmit his voice to all the universe masters from Freedom Alliance. “Separate! Each team from the Freedom Alliance immediately broke into three or four teams, with each team carrying around 20 universe masters. They tried to run away separately! The human team only has Star Tower and Black Prison Tower, so they can’t be that efficient. Separate now so that the humans can’t capture many universe masters.”

Shi Hua Island Leader was already three billion kilometers tall and still trying to grow larger. He was in the Freedom Alliance, so he was closer to true treasure palaces belonging to the Freedom Alliance.

“Separate. Separate. Separate!”

One team from the Freedom Alliance was just captured while Shi Hua Island Leader protected another team. There were still four teams left. Their members started to split up. Each team had around 20 universe masters; some of them had bodies, so there were a bit more than 20 bodies.

The combination of those 20 godly bodies was already more powerful than top-tier level six, and it had reached level seven. Attacks at level seven could at least blast away the godly power ocean around them so they could fly slowly. If there had been fewer of them, they wouldn’t have been able to even move in the godly power ocean.

“Capture!”

Luo Feng and Darkness Master stared at the four true treasure palaces flying in four different directions.

“Swallow,” Darkness Master said and waved his hand. Black Prison Tower flew out, bulging, and starting to swallow.

Luo Feng frowned. “They are starting to disperse. It’s going to be harder.”

Those separated true treasure palaces flew slowly and were not far from each other. But even though they were not far, it would take more time. And with time flying by, the teams from the Freedom Alliance would be farther from each other.

Hong!

Ancient God Eye and Black Prison Tower combined, swallowed the green, boat-sized true treasure palace. The universe masters inside could do nothing to resist it.

“Capture! Capture! Capture!”

With Ancient God Eye and Black Prison Tower combined, the human team tried to capture as many true treasure palaces as possible.

With time going by, Shi Hua Island Leader was already eight billion kilometers tall. He reached his hands and grabbed a true treasure palace. “Come here!”

The universe masters inside the true treasure palace didn’t struggle; instead, they cheered, “Alliance master!”

Shi Hua Island Leader took it back easily.

“No!” said Luo Feng. “One of the true treasure palaces was taken by Shi Hua Island Leader.”

He was getting nervous. Shi Hua Island Leader was the closest one to the palaces, so he was the first to act. There were other universe supreme masters in the united forces alliance, too. Empress Palace would enter the area soon.

“I’ll capture them as many as possible.”

Luo Feng stopped thinking.

On the human’s side, every possible asset was being utilized—the godly power ocean, Five-Color Aurora Lake, Palm Universe, Ancient God Eye, Star Tower, and Black Prison Tower. Luo Feng’s Remote Ocean was blocking those universe supreme masters and was also performing Duan Mie to maintain its maximum power. But it still took time to capture them.

Hong! Long! Long!

The largest object from the united forces alliance in Remote Ocean was Empress Palace, which was already 200 billion kilometers tall. Empress Palace was surrounded by godly power ocean winding around it, controlling the palace.

“That Luo Feng’s a handful!” Bug Empress said begrudgingly.

If Luo Feng’s godly power ocean hadn’t been winding around it, Empress Palace would have been ten times taller, and all the true treasure palaces from the Freedom Alliance would’ve been saved.

“Go!”

“Save us, Bug Empress!”

“Come in.”

“Come in.”

A long white arm extended out of the giant Empress Palace and grabbed the palace true treasures. The universe masters inside didn’t resist, making Bug Empress’s efforts much more effective.

Bug Empress and Shi Hua Island Leader were both trying to take as many true treasure palaces as possible.

As for Luo Feng, Darkness Master, and Moshu body, they were divided into two teams capturing the true treasure palaces.

Finally, other than the 11 giant godly bodies and the towering Empress Palace, there were no true treasure palaces from the united forces alliance left in Remote Ocean. Apparently, they had all been taken.

In the endless godly power ocean, Moshu body, Luo Feng’s original body, and Darkness Master stood side by side, checking on the universe masters they had captured. Darkness Master sighed. “We tried our best. Empress Palace is too large, and the universe masters from the Freedom Alliance cooperated with her. We’ve only captured 208 universe masters. Far fewer than I expected.”

He sighed again, but when he and Luo Feng exchanged eye contact, they couldn’t hold it back anymore.

“Hahaha...”

“Hahaha...!”

Luo Feng and Darkness Master started to guffaw, laughing recklessly with relief.

After this fight, nobody would be a threat to the humans anymore!

Chapter 1312: Settled

Luo Feng, Darkness Master, and Moshu body flew at high speed in the tumbling godly power ocean. They quickly reached light speed and entered the dark universe. They showed up 100 billion kilometers away, gathering with other universe masters from the human team.

“Luo Feng.”

“Darkness.”

The universe masters from the human team were all thrilled, especially the human universe masters. They weren’t sure how many universe masters had been captured, but Primal Chaos City Leader could infer from his Palm Universe; he knew how many true treasure palaces were captured, and he could infer the quantity. Primal Chaos City Leader said it was around 200!

“Milky Way Horde Leader, how many universe masters did you capture?”

“Yeah, how many?”

“How many universe masters?”

The universe masters of other races were also excited. This was a legendary event which might not have happened in other universe eras. After all, so much was required to capture over 100 universe masters.

“How many, Luo Feng, Darkness?” Ice Mountain Master and Remote Lord Master all asked, and even Primal Chaos City Leader was looking at them expectedly.

Luo Feng and Darkness Master exchanged a glance.

“208,” said Luo Feng.

“Ha!” Long Yan Master yelled.

Primal Chaos City Leader’s eyes gleamed, and he shouted, “Wonderful!”

“Impressive. 208... They captured more than 200 universe masters at one time. I’ve never heard of such a thing. It’s a miracle—a miracle in Universe Ocean.” Universe masters of other races were all exclaiming. The three ancestral gods, the eight beast gods, and Nine Remoteness Master were all amazed. Everyone was overjoyed.

Darkness Master was still shaking his head. “Shame. When we were capturing the true treasure palaces, those universe masters from the Freedom Alliance were all resisting us, which cost us time. Otherwise, we could’ve captured more.”

The resistance from the opposite side had indeed made Luo Feng and Darkness Master much less efficient.

For instance, when they were trying to swallow the palaces, the opposite side shrank their true treasure palaces! The true treasure palaces were generally normal-sized at several million kilometers long. When they were being sucked in, those true treasure palaces shrank to the size of a speck of dust, making them much farther away from Black Prison Tower. Even if they were flying at 100,000 kilometers a second, it still took them a long time to be sucked in.

Of course, Luo Feng and Darkness Master had their ways to cope with it.

All in all, the Freedom Alliance had been trying to resist being sucked in—or at least stall for time—which was why half the members from the Freedom Alliance had gotten away even though Luo Feng had Remote Ocean. However, capturing half was good enough for the humans.

Universe masters from the human team gathered while those from united forces alliance were trapped in Remote Ocean.

All 11 universe supreme masters were enlarging their bodies, trying to escape from Remote Ocean. However, they struggled against the ocean waters. Although Luo Feng was burning his godly power, he didn't care about that at all. After all, compared to the entire Remote Ocean, the godly power being burned was nothing.

"Get in," Bug Empress said through her mind. "Everyone, get in."

"Okay."

"Okay."

Shi Hua Island Leader reached out his hands and grabbed the edge of Empress Palace. He shrank and clung to the surface of Empress Palace. Shock Demon Ancestor, Dream Demon Ancestor, Father God, E Zhou, Black Universe Creator, and the others all grabbed onto the surface of Empress Palace.

None of the universe supreme masters got into the palace. They didn't dare! If they went in, their lives would be in the hands of Bug Empress! They were all carrying universe masters. Bug Empress wasn't carrying many universe masters, so she wouldn't turn on them yet, but if they got in and she did turn on them, she would control great power and become the reigning being in the original universe.

All 11 universe supreme masters clung to the surface of Empress Palace.

"Larger, larger, larger!" Bug Empress said, controlling the palace.

Empress Palace was growing larger and larger.

With Empress Palace becoming larger, the universe supreme masters were also moving forward swiftly.

Luo Feng turned around and shook his head. It was easy for a supreme true treasure to be taller than several light years—like Star Tower, which could reach nine light years! With endless godly power, Empress Palace could be taller than more than ten light years. His Remote Ocean body was after a godly body, which couldn't bulge indefinitely.

Luo Feng stopped hindering them after a short while, as Empress Palace was already over a trillion kilometers.

"Back!"

That Remote Ocean that was already a trillion kilometers long started to retract. Empress Palace faced much less resistance and suddenly became larger. All 11 universe supreme masters fled out of Remote Ocean.

A being in human form, engulfed in flames, floated and exclaimed, "Finally, we got out!"

"Luo Feng's godly power ocean is indeed a handful. Without Empress Palace, it would've taken us a much longer time to get out..." Father God from the automaton race sighed. Facing the endless Remote Ocean, individuals couldn't flee immediately; the only way was to fly slowly!

The three ancestral gods couldn't control Five-Color Aurora Lake to continuously suppress them, and Primal Chaos City Leader couldn't control Palm Universe all the time, as it required too much godly power. Only Luo Feng dared to consume his godly power as much as he wanted. If he was the only one trying to slow them down, they could at least reach one-tenth light speed.

It was difficult to move Remote Ocean, so Luo Feng had to keep enlarging Remote Ocean to stop them. However, he couldn't enlarge it infinitely, and he certainly couldn't enlarge the ocean to ten light years long. The united forces alliance could fly for ten years or 100 years and leave the ocean.

"Fortunately," said Shock Demon Ancestor in a low voice. "It's almost impossible for him to move that ocean! No wonder Star Tower didn't move at all; it was hiding the endless godly power ocean the whole time... It's difficult to move, which means Luo Feng can't take the godly power ocean out for battle. Even if the supreme true treasure holds the godly power ocean, it can only stay in one spot."

Everyone nodded. It was true. After having the godly power ocean in it, even Star Tower couldn't enter the god country portal, as it would have shattered the portal!

"If Luo Feng stands still, or a Boat of Mausoleum or Star Tower stand still, we'll try to avoid them," said Northern Territory Alliance master. "If he can move easily, it means he doesn't carry his godly power ocean."

After that war, Luo Feng was at the top of the list for those universe supreme masters, and they were extremely careful. He was absolutely a risk who should be treated seriously.

"Although the godly power ocean is enormous, Luo Feng's soul is a human soul to its core!" Prison Race Devil Master said. "Once he becomes a universe supreme master, he'll return to the origin, and his bodies will be combined in one, turning back to a human! His godly power ocean is enormous, but it's bestowed by the original universe... Once he makes a breakthrough, his god country will become a miniature universe! His bodies will be combined as one, and his human godly body won't take that much power. Lots of godly power will be consumed when combining the bodies. Then his godly power won't be so incredible."

"That's right!" everyone exclaimed.

"Yes."

"When he becomes a universe supreme master and all the bodies return to his original body, he won't be such a handful in the original universe!"

Luo Feng now had four bodies. All of them could wield power at top-tier level six, yet universe supreme masters only had one body.

Besides, Luo Feng's endless ocean had limitless godly power, so he was more difficult to deal with than universe supreme masters. Of course, that was the case in the original universe. In Universe Ocean, universe supreme masters were still more terrifying.

"After becoming a universe supreme master, he'll be on his own. Bodies and inherited techniques will both be gone..." E Zhou sighed. "However, it's different for Nine Remoteness Master, as his original body is that godly power ocean. Even if he becomes a supreme master in the future, his godly body will still be the godly power ocean!"

E Zhou, Black Universe Creator, Northern Territory Alliance Master, and Shi Hua Island Leader were not worried, as they didn't have races to care for. However, Shock Demon Ancestor, Dream Demon Ancestor, and Prison Race Devil Master were all concerned about the fight

"Please stop talking about Luo Feng... We've lost the fight," Space Beast Ancestor said in his ancient voice. "What should we do now?"

"That's right, what should we do?" Father God from the automaton race was worried as well.

Northern Territory Alliance Master shook his head. "What can we do? The human team captured more than 200 universe masters. As long as Luo Feng, Primal Chaos City Leader, and the other leaders from the human team are suicidal, they won't kill those universe masters. Instead, they'll try to draw them to their side. Those captured universe masters will surrender to the humans very soon—for themselves and for their races as well. Lots of universe masters in the Freedom Alliance are close friends with them, and some of them even belong to the same race, so more will be drawn to the humans."

"Right now, the human team has more than 400 universe masters. As for us, we only have more than 600 even after counting those from the Freedom Alliance. Although we have quite a few universe supreme masters, Luo Feng has four bodies. Plus, we can't forget Primal Chaos City Leader, Darkness Master, Peng Gong Master, and the three ancestral gods... Combined, they are almost as powerful as us."

"Although we have more universe masters, they have two mind shock valuables, so they can easily sweep across two of our teams. Besides, the humans will definitely choose the two teams with most members! If we divide them into too many teams, we'll have weak defense and be conquered one by one."

"Which means the only advantage we have is neutralized by the two mind shock valuables."

"They also have a valuable that can control space and time, and the power seems to be stronger than domain supreme true treasures... We don't have any chance to win, and we can only remain locked in a stalemate. It's a lose-lose."

Chapter 1313: The Dark Flow Amidst Calmness

Although they were already aware of the situation, Dream Demon Ancestor, Shock Demon Ancestor, Father God of the automaton race, Empress of the bug clan, Demon Ancestor of the prison clan, and Holy Master of the crystal clan—who were all members of the united forces alliance—felt even more frustrated after hearing from the Northern Territory Alliance. There was already bad blood between the humans and themselves to begin with, and with such intense crossfire this time around, how would the humans not bear any grudges? In the future, when the humans grew stronger and more powerful, would they not seek vengeance?

Even so, the united forces camp no longer had the strength to suppress the humans. The advantage of having more universe masters was offset entirely by their opponents' two treasures with impactful willpower. If they were to really fight all the way, they would be fighting a life-and-death battle—a war of persistence, a war of attrition! Even if a few races were willing to go the distance, the Freedom Alliance, the Northern Territory Alliance, and the Space Beast Alliance would not be willing to do so. And if these alliances did not join in the fight, then depending on the few other races, they would not be fighting a war of attrition; rather, they would be trampled upon!

“This war!” Bug Empress’s voice was brimming with charm as she spoke. “We have already failed! The rise of the human race is unstoppable... When the humans get stronger in the future, the enmity we have formed this time around will be a solid justification to attack us.”

“Yes.”

“That’s right.”

One by one, they all nodded.

“This is why we need to help one another and form a longstanding but dispersed alliance,” said Bug Empress. “An alliance specially assigned to deal with any threats from the humans. This alliance will not ask for anything else—only that in the future, when the threat from the humans becomes overbearing, we help one another and allow our race to survive. What do you think of this suggestion?”

Father God of the automaton race, Devil Ancestor of the prison clan, and the rest all showed approving looks. Northern Territory Alliance Master, E Zhou, Virtual-Real Devil God, and the few other lone travelers were all very easy-going.

“They have retreated.”

“The united forces alliance has left.”

Numerous universe masters stood in the upper skies of the endless remote ocean and looked into the distance. They saw Empress Palace making a hasty departure, moving so quickly that they could detect the waves created within space. Obviously, it was teleporting away. The human camp rejoiced and celebrated. Without a doubt, they had started this war as the weaker party, but by relying on the strength of Remote Ocean, the tables had been turned in just a short period.

Then, mightily, a group of universe masters, including those from Ancestral God School, headed toward the core ground of the primal secret region where the clusters of palaces were. All guards and servants also boarded god country transportation and hastily returned to the primal secret region.

An extremely lavish celebration banquet commenced, and the universe masters from the human race were the most excited ones at the banquet. Universe masters from various other races were delighted, too, because the humans would be having good days ahead, and they, as vassal races of the humans, could look forward to leading better lives as well.

After the banquet, universe masters of the various other races left, but the universe masters from the human race gathered and sat down in various spots. Before them was a simple spread of precious wine and fine cuisine from various parts of the universe.

“Our race managed a definitive victory this time!” Primal Chaos City Leader was tearing up, but his voice was as powerful as ever. “It is fated that our race shall establish a deep and firm foundation within the primal universe. Even if the united forces alliance joins forces with other groups of powers within the primal universe, they will not be able to shake our foothold. Future power and prosperity are within our reach. Our race has lived through Teacher Origin’s era and Huge Axe’s era, and now, we are truly entering an era of power and prosperity.” He sighed. “Teacher Origin once led our race. We rose from a race of humble origins to be ranked as one of the pinnacle races. When Teacher was subsequently subjected to eternal suppression by the primal universe, we were lucky enough, for we had someone like Huge Axe to look out for us. Our position remained unshaken.”

Dead silence. Every universe master was either lost in his own imagination or reminiscing on past events.

“Huge Axe’s annihilation brought us all great pain,” Primal Chaos City Leader said in a low voice. “We had to worry about the safety of our race back then, so all this while, no one really bothered looking into the matter of his annihilation. The story of his sudden annihilation within the core of Tilted Peak Region, deep down in the Land of Darkness, is full of abnormal occurrences... One, the map is fake, so who was the mastermind behind these plots? Two, Huge Axe was undoubtedly aware of how horrifying the Land of Darkness is, so how could he have fallen into it? Three, given Huge Axe’s power, how is it possible that he could be annihilated so suddenly?”

“Of course,” he added in a solemn tone, “the Land of Darkness is the core region of Tilted Peak Sector, so it is extremely dangerous. All of us may know this, but none of us is confident enough, so no one dares to barge their way in.”

“Yes.”

“True, we cannot subject our race to such a heavy loss again.”

All of them nodded. They were all aware that Huge Axe’s annihilation had been a devastating loss for the humans. They could not afford yet another loss.

“This time around, our race scored big time,” said Primal Chaos City Leader. “Luo Feng has made a great contribution.” He looked at Luo Feng. “We should all toast to Luo Feng.”

“Yes, we really owe this victory to Luo Feng.”

“To Luo Feng!”

Everyone raised their glasses and looked at Luo Feng. They saw for themselves and knew that Luo Feng had made the greatest contribution—especially when he used his endless Remote Ocean to resist the soul attack from the entire united forces alliance. How terrifying it had been! But Luo Feng had actually managed to survive while taking it entirely upon himself to resist that attack. At that time, they were all filled with immeasurable gratitude and admiration.

Luo Feng quickly picked up his glass. “Honestly speaking, I kind of caused this disaster by receiving that ancient civilization’s voice transmission. I also made a mistake.”

“How is this considered a mistake?” someone called out. “Our race is so powerful now, all thanks to this ancient civilization.”

“Come, let’s have a toast.”

“Cheers!”

Luo Feng was left with no choice but to respond to every single toast.

Primal Chaos City Leader saw the situation and smiled. Without further ado, he said, “All right. Now, let’s discuss another matter. This time, we captured a total of 208 universe masters. First, we will need to rope them into joining our camp, that’s for sure. Their presence will strengthen us. Second, we still need to practice caution so as to prevent them from betraying us. Third, how are we going to prevent them from betraying us, and how are we going to win them over so that they feel a sense of belonging for our camp? How do we get them to join our side willingly? Everyone, share your thoughts...”

One by one, the universe masters proposed their suggestions.

Soon, a simple yet effect proposal was implemented.

Firstly, because the situation in the primal universe was still dangerous, the majority of the universe masters would definitely stay together. Since the original universe was so massive, sending almost all the universe masters to the original universe was a confirmed arrangement. After all, if they were all widely dispersed, it would be terrible if they all took off.

Second, they should not bring out the anger and dissatisfaction of these universe masters. That was why, for every ten eras, every single universe master would be given a period of one era during which they were allowed to roam about the primal universe and Universe Ocean to their heart’s content with absolute freedom! After all, great beings spent the majority of their time on cultivation. When they were cultivating in the original universe, they only had one-tenth of the time when they were absolutely free. This was a way of pleasing those universe masters. At the same time, as the universe masters would take turns having this “free time,” it was also a good way to guarantee that at least 80 percent of the universe masters would remain in the original universe at any given time!

Third, those universe masters would surely be concerned with the safety of their own races. This was why several universe knights would be deployed to the races in question, where they would remain as permanent residents! These universe knights were stationed there mainly for security purposes. When dangerous situations arose, these universe knights would be the ones handling them, but when there were extremely difficult situations, the headquarters of the human camp would immediately send a group of universe masters to render assistance.

Fourth, there would be gradual sharing of detailed information about the ancient civilization on how universe masters could achieve breakthroughs to become universe supreme masters. The longer these universe masters remained within the human camp, the more information they would be given. This was a way of instilling a sense of longing within these universe masters.

Fifth, while roaming within Universe Ocean, the help rendered to the universe masters had to be reinforced, so that the universe masters would be able to see how strong the humans were—and also realize the benefits of having such strong backing.

The human camp started planning. Those universe masters whose fates rested in the hands of the humans most certainly had no other opinions. They were glad to oblige! However, when the humans asked them to contact their close friends and universe masters from their clans in the Freedom Alliance, these universe masters hesitated and came up with a load of excuses.

But the humans were not anxious in the least. Everything was happening in accordance with their expectations.

Other than the Ancestral God School, the other universe masters of the human camp were quick to formally join the Hong Alliance; after all, they would eventually be permanent members! Given their capabilities, the human race would be able to lay a stronger foundation.

Meanwhile, in the faraway East Emperor Holy Land universe...

“The human race has won?” Apparently, East Emperor Ancestor was very dissatisfied when he learned the news. “Indeed, he has received the inheritance of the pulse of Duan Dong River. Up until now, he still had various means and techniques to use. It is just that, this inheritance... is still not mine to behold!”

East Emperor Ancestor was furious, yet helpless. He had intended for the humans to suffer a crushing defeat. When the humans fell into a predicament, he, East Emperor Ancestor, would take over leadership and negotiate with Luo Feng in handing over the inheritance as a part of the conditional exchange. That way, the success rate would be more likely.

But now, trouble was brewing.

Purple Moon Holy Land universe.

“Oh?” A faint purple-robed shadow asked from where he stood. “The united forces alliance has lost? Even with the help of the Freedom Alliance?”

“Yes, Ancestor,” Jue Hua True God replied with deference.

Ever since the breakthrough of a reincarnation era achieved by East Emperor Ancestor—and for countless generations of reincarnation eras thereafter—every reincarnation era saw the births of many

universe supreme masters. Yet all the while, no one had been able to transcend a reincarnation era as East Emperor Ancestor had. That is, until Purple Moon Ancestor made his appearance!

“Ancestor, that united forces alliance has lost...” said Jue Hua True God. “We had promised to give them the second half of the inheritance, so are we still giving it to them? Since they lost and disappointed you, they are in no place to ask for any reward. Even if we do not give it to them, there is nothing they can do.”

Apparently, Jue Hua True God was most unwilling to oblige.

“Of course, we must give it to them,” said Purple Moon Ancestor. “We made a promise, so we must fulfill it. We, Purple Moon, cannot stoop to the level of being unfaithful before the lesser races.”

“Ancestor is much too kind,” Jue Hua True God replied right away. “Those races from the primal universe are truly blessed.”

Purple Moon Ancestor continued to say, “Not only the Freedom Alliance. We must also give it to the bug clan, the demons, the automaton race, and all other races of the united forces alliance... We must give it to all of them! Impart the experience of the ancient civilization on how their universe masters can achieve breakthroughs to become universe supreme masters.”

“Ah...!” Jue Hua True God was taken aback.

Giving it to the Freedom Alliance was fine. After all, this had already been promised earlier. But giving it to the united forces camp? There had been no such promise.

“Ancestor?” Jue Hua True God could not resist the urge to ask.

“The rate at which the human that received the inheritance of the pulse of Duan Dong River rose was fast to begin with,” Purple Moon Ancestor said. “If we do not provide them with some help, where else can the united forces alliance find the power to resist? I still need to depend on their help in suppressing the humans. Besides, this little bit of inheritance—how much is it worth? At most, they could use it to create a few more true gods during their reincarnation era. But to transcend a reincarnation era? I think they are still hopeless.”

Jue Hua True God also nodded.

Indeed, without the help of Purple Moon Ancestor, this reincarnation era of the primal universe would, normally, only be able to breed 20 to 30 universe supreme masters! With Purple Moon Ancestor’s help, perhaps they might be able to bring this number up to around 100.

Yet throughout the course of history, there had been generations and generations of reincarnation eras, which amounted to tens of thousands of reincarnation eras. Every reincarnation era had a batch of universe supreme masters. How many universe supreme masters did that mean? Yet the number who could transcend their reincarnation era was just two!

“So long as we do not impart the inheritance on cultivating to the ultimate limit of a true god, there won’t be much to worry about,” Purple Moon Ancestor said. “Just remember to keep a close watch over Luo Feng’s every move.”

“Noted,” Jue Hua True God replied with much deference.

Very soon, the second half of the inheritance information was handed over to the Freedom Alliance as promised by Purple Moon Holy Land. Lightwalker Master personally visited the various races like the bug clan, the demons, the automaton race, and the prison clan and imparted the complete inheritance information to them one by one. The bug clan, the automaton race, and other races were all pleasantly surprised, but they were not without worry.

Chapter 1314: Hu Yan Bo

The war among the top beings from almost all the superpowers in the original universe was over, yet the ordinary life forms didn't know anything about it. Lower-tier wars would be catastrophic to them, yet the war among the top beings didn't affect them at all. Of course, if one side lost, the beings in their territories would be ruthlessly slaughtered.

The united forces didn't win. The human team didn't lose. This was how the war had ended!

It could have been foreseen that the two teams would keep fighting each other for a long time. Unless one side was absolutely confident that they could crush the other side, such a large-scale war wouldn't happen again.

Hu Yan Bo had died, and Yun Mo Star had been destroyed! However, since Babata had become undying, he had rebuilt Yun Mo Star quickly, taking back the power area that had previously belonged to Hu Yan Bo before (except for the area around Earth).

Purple stars shone their light upon Yun Mo Star through dark clouds. On Earth were warriors gathered from all kinds of planets; they were trained strictly on the planet, while warriors most loyal to the master of Yun Mo Star would be chosen from among these candidates.

"Come at me, idiots from A Luo Star!" a giant being roared at the camp opposite to him. "I'm right here waiting! Come if you can!"

The giant had a red horn on his forehead. He stood just outside the camp. The members of the opposite side were irritated. Someone tried to rush out, but they were pulled back.

"What a maniac! Are you suicidal?"

A voice came from the camp. "Don't worry about that maniac."

"Hahaha, wahaha..." The single-horned giant man was reckless. "Idiots from A Luo Star, you are cowards! You'll be cowards before me forever."

A being appeared in the sky. He wore a casual, silver-white cape as he floated in the sky. He looked down and whispered, "Is this how Yun Mo Star looked like before it was destroyed? Babata spent so much time rebuilding it. It seems Hu Yan Bo does have a strong impact on him." Then Luo Feng kept flying.

He flew relaxedly. Neither the security guards nor the other means of detection spotted him. Some warriors flew past in front of him, but they didn't notice him either. This was what true control over space and time meant.

He flew for a while as he wanted to observe Yun Mo Star, and it took him a while to arrive above a black castle.

Luo Feng looked down and shouted, "Babata!"

On the throne inside the palace sat a child in a black cape. He had two antennae on his forehead and red eyes. His face was chubby. He may have looked cute, but the female servants from other planets who were performing down there knew how terrifying he was.

"Babata!" said a voice.

"Huh?" The black-caped child raised his head.

Shua!

He teleported and disappeared.

In the sky above the black castle, the silver-caped form of Luo Feng stood in the sky, and a black-caped child appeared beside him.

The black-caped child looked at Luo Feng and shouted, "Master!"

"You seem pretty relaxed," Luo Feng chuckled. "But it seems you're still practicing hard. You can teleport now."

"The resources you provided, and the path you suggested..." said Babata. "Even the most mediocre can become undying, not to mention someone smart like me."

The ordinary class didn't know about that war, but Babata was undying and had been summoned to the primal universe before. The undying fighters had come back only after the war had ended. Besides, everyone in Primal Chaos City was talking about the war. Although they didn't know the details, they had heard that Luo Feng was one of the top performers.

"Let's go to the outer space of Yun Mo Star," said Luo Feng.

"Why?" Babata was confused.

"I'm going to resurrect Hu Yan Bo," said Luo Feng.

Babata's body shook, as he couldn't control his emotions.

Luo Feng sighed in his heart. Babata was, after all, closer to Hu Yan Bo. There was still some distance between him and Babata. For one thing, Babata had called Luo Feng by his name at first, but as Luo Feng grew stronger, Babata had started to revere him and call him "Master."

How could he not be in awe of Luo Feng? Luo Feng was one of the top beings in the human race—even in the entire original universe.

On the contrary, Babata and Hu Yan Bo had been through countless life-and-death battles, and they had spent an eternity going on adventures through the universe. Babata had been with Hu Yan Bo ever since becoming an intelligent life form. It was not difficult to imagine how close they had been.

“Okay,” said Babata with thrill. “Let’s go to outer space.”

Luo Feng nodded, took Babata, and disappeared.

In the outer space of Yun Mo Star, Luo Feng, wearing his silver cape, stood outside the atmosphere while Babata stood beside him, looking worried.

“Watch closely,” said Luo Feng. “Up!”

Luo Feng looked around the space in front of him. With a thought, time in the area started to turn back. The scenes were rewound, including the scene when Yun Mo Star had been rebuilt and the scene when Yun Mo Star had been attacked and destroyed—Luo Feng controlled time and accelerated the rewinding.

“Huh?” Luo Feng stopped.

The triangular Yun Mo Star spaceship appeared. There were beings inside it.

“Is it this one, Babata?” asked Luo Feng.

With a thought, the beings inside Yun Mo Star spaceship appeared. A handsome man showed up at the front of the control room in the spaceship, and beings were standing behind him, including Babata!

“Wu Za, Wu Xia...” Babata couldn’t stop trembling, and he shouted at Luo Feng, “Yes, it’s them! It’s them.”

Luo Feng was surprised. Babata was, indeed, closer to Hu Yan Bo and his servants. He decided to resurrect those soul slaves as well, to show his gratitude to Babata and Hu Yan Bo. Hu Yan Bo’s help seemed tiny now, but it was highly influential to him.

“Freeze!” Luo Feng moved his mind. It locked Yun Mo space, Hu Yan Bo, and his nine soul slaves! Everyone was frozen in place. “Turn back time!”

Luo Feng let the time go back to the original.

It was like a spring bouncing back! Luo Feng didn’t have to endure any burden if he decided not to save anyone, but there would be a price to pay if he wanted to bring back lives by taking them from the past to the present. The punishment was actually for Hu Yan Bo and his nine soul slaves, yet Luo Feng was the one who bore it, as they couldn’t. To Luo Feng, it was easy for him to revive universe knights, not to mention some undying fighters.

After a while, Yun Mo spaceship floated in the sky. Apparently, Luo Feng had even brought back Yun Mo Star spaceship from that time. If a being was still alive, he couldn’t bring it back. As for objects, however,

they could be brought back even if they still existed. For example, an existing true treasure could be duplicated by bringing one from the past when turning back time. The punishment for this, however, would be horrifying. It would cost more to bring back a single true treasure than to get ten new true treasures.

Of course, the punishment for bringing back Yun Mo Star spaceship was nothing to Luo Feng. After all, Yun Mo Star spaceship wasn't even a treasure.

Hua!

The door opened, and a handsome man in a black cape strolled excitedly through the doorway. He took a step and walked into the space. Undying fighters behind him walked out one by one as well. They all looked excited and nervous.

The handsome, black-caped man looked at Luo Feng, then noticed black-caped child beside him. "Babata!" he yelled.

"Big brother!" Babata couldn't help it anymore. He teleported to beside the handsome man, Hu Yan Bo, and hugged him. This man was both like a big brother and a father to him. "Big brother, big brother, big brother..." Babata kept shouting as he embraced Hu Yan Bo, and his voice showed how much he had missed Hu Yan Bo.

Luo Feng looked in the distance and sighed. Babata was indeed close with Hu Yan Bo.

Hu Yan Bo and his nine slaves were all dazed. They all had the memories from the past, so they all knew that they had died... Yet they had been brought back now!

A universe master turned back time and revived them? How?

What dazed them more was Babata, who had previously only been an intelligent life form, had teleported to them!

"Teleportation? Babata, you—you're undying now?" said an ape-shaped undying life form standing behind Hu Yan Bo.

"Yes." Babata nodded. "With the help of my master, Milky Way Horde Leader Luo Feng. I'm an undying emperor now, and I can teleport."

"Milky Way Horde Leader?"

Hu Yan Bo and his soul slaves were all bewildered. Of course, they knew Milky Way! Hu Yan Bo had a land in the Milky Way, yet they had never heard of any "horde leader." They hadn't expected a Milky Way Horde Leader to be here after being resurrected, and they couldn't imagine that Babata—who had previously been an intelligent life form—was an undying emperor stronger than all of them now. After all, Hu Yan Bo was only an official.

"How long have we been dead? Ten million years? 100 million years?" Hu Yan Bo couldn't help asking. "And who is this Milky Way Horde Leader Luo Feng?"

“Milky Way Horde Leader is one of the top beings in the human race, and he’s also one of the supreme beings in the original universe,” answered Babata. “It was Master Luo Feng who turned back time and resurrected you all. That is Master Luo Feng...”

He pointed at Luo Feng in the distance.

Hu Yan Bo and his slaves turned around to look at the silver-caped man standing in the distance. Their attention had been entirely on Babata. Until he pointed at Luo Feng, they hadn’t even realized he was standing there.

Hua!

The silver-caped man walked forward, which astounded Hu Yan Bo and his slaves. Amazing! This was a being who could turn back time! They were nothing in front of such a being.

“Teacher Hu Yan Bo,” said the silver-caped man.

Chapter 1315: Ancestor God Summons

After a while...

“I know the universe number of teacher Hu Yan Bo.” Luo Feng smiled. “As long as you connect to the virtual universe, you can see my number on your contact list. You can reach me anytime you want... Teacher Hu Yan Bo and Babata haven’t seen each other for a long time, so I’ll leave you two alone.”

He then turned around and disappeared.

Hu Yan Bo and his soul slaves were only relieved after seeing Luo Feng leave.

“Big brother, Master Luo Feng is grateful of you,” said Babata. “Even though you died a long time ago, you were his instructor and left your inheritance, which benefited him before. There’s no need to be so nervous. You can speak plainly... Big brother and the rest of you, why were you scared? He couldn’t even talk with you.”

“It sounds simple, and we all understand that,” said the ape-shaped undying fighter. “That’s a universe master, Babata! To us, Ganwu Universe Country Master is already an ancient and invincible being. As for universe masters? They are the pinnacle beings of the human race! Though big brother did that Milky Way Horde Leader a favor, we didn’t know him. Who wouldn’t be scared of a powerful being like him? He might be able to kill us with one look.”

Hu Yan Bo took a deep breath and stroked Babata’s head. “Babata, you fought with him before, and you’ve been with him since he was still weak. You grew with him, so you are comfortable with him. We didn’t know him directly, so we need to be well-behaved. Even if he owes me a favor, I can’t be reckless. Otherwise, I’ll be in trouble.”

Everyone around him nodded.

There was an ancient proverb on the Earth: “To be in the king’s company is tantamount to living with a tiger.” When facing a being with absolute power, one needed to be careful—even if that being owed a favor

Like a king on the earth, universe masters who could slaughter the beings on billions of planets and reserve time to save countless beings were held in awe by ordinary undying fighters. Most undying fighters couldn’t hope to even see a universe master in their lives.

“Okay.” Babata nodded. “I understand what you’re saying. Even though Master Luo Feng suppresses his power and treats me the same as before, I still feel nervous sometimes. I called him ‘Luo Feng’ before, but I don’t do that now.”

“That’s majesty.” Hu Yan Bo smiled. “Even if a supreme being doesn’t reveal his majesty directly, we still venerate him because of his status. Those without respect can’t live long. I just didn’t expect my broken inheritance to help cultivate such a great being.”

The yellow-skinned man behind Hu Yan Bo said, “Babata, you need to tell us the stories about this Milky Way Horde Leader.”

When they first met, Luo Feng had wanted to talk with them about his stories, and Babata briefed them, too. Hu Yan Bo and his slaves understood how they were connected to Luo Feng. However, after Babata finished briefing them, Hu Yan Bo and the others all looked incredibly nervous. Luo Feng had only talked with them for a short while, and he had left because they were too nervous to have a conversation.

As for Hu Yan Bo and his soul slaves, they were all curious about how an earthling had become one of the supreme beings in the entire human race after only 200,000 years. Hu Yan Bo and the others were all proud that they had helped him in the process, and they all understood that they had a bright future ahead of them as long as they were not foolish; they were now connected to a supreme being.

“I know everything about master Luo Feng before he became undying,” said Babata. “After becoming undying, he got more and more powerful, at which point I know less and less. Regardless, the stories I do know are fascinating enough. Master Luo Feng has a perfect mind and perfect willpower. He’s a truly peerless talent. I’ll tell you something about the catastrophes on Earth and the War of Talents...”

In the Milky Way, Luo Feng walked along in the quiet space.

The higher his status became, the lonelier he felt. His family—like his wife, his children, and his parents—would never be estranged from him. But the same could not be said of his friends. Even those friends he had fought with—like Rong Jun and even Hong and Thunder God—would be estranged from him. On the contrary, Wei Wen, who had grown up with him and didn’t know much about the seniors in the human race, still treated Luo Feng as he had before.

“Even if I suppress my power, they’re still awed by him. If I let it out, even universe knights don’t dare to look me right in the eyes.”

Luo Feng actually felt quite lonely. When he was resurrecting Hu Yan Bo and the slaves, he couldn’t help recalling all those friends he’d had before. Like Fire Hammer Squad, when he had first become a warrior!

Like his friends who had died during the fight against the swallowing beast (the Golden Horned Beast). He had transferred its soul to him, yet the others died.

Could he resurrect them? No, he couldn't. Although universe masters could reverse time, he wasn't able to revive his mates from the past. Those heroes who had died fighting the swallowing beast were only at the star traveler level, so they only had 1,000 years to live! If he tried to resurrect them, he could indeed locate them. The punishment of turning back time could be borne by Luo Feng, but the passage of that time had to be borne by them.

Undying fighters could easily bear the passage of time. As for his mates from the past, their bodies would immediately weaken and decay with the passage of time, and without multiple bodies, their souls would quickly be gone. Luo Feng couldn't help them at all, even if time was turned back.

This was one of the weaknesses of turning back time. It wasn't perfect, as there were several exceptions to its abilities.

Luo Feng sighed and flew to the palaces in the distance. It was the holy land of Milky Way, where Luo Feng's palaces were situated.

After arriving back at the Milky Way, Luo Feng reconstructed the time and space around his palace. Through his control over space and time, he isolated the space and time of the area from it. Even if ordinary spaceships went by, they couldn't enter this space and time. After that, Luo Feng began his first practice after becoming a universe master!

In Luo Feng's home in the Milky Way, he had garnered great fame thanks to the unprecedented war that had involved almost all the supreme beings in the original universe. Also, Luo Feng's home was called "Milky Way Holy Land" or "Milky Way Den" by the other races on the outside.

It was where Luo Feng lived. Even an army couldn't do anything to him, not to mention the others.

In Milky Way Holy Land, Boat of Mausoleum—which was ten billion kilometers long—slowly floated through space. Luo Feng was practicing in the space of inheritance inside it.

"Ever since I created the blade technique and got the inheritance, I haven't created any blade techniques." Star Tower started to float on Luo Feng's palm. "I have Star Tower, too, yet I can only utilize the third-level engravings, and it's already as complex as Nirvana Incarnation."

Normally, it was easier to utilize engravings than to create techniques! For example, universe masters like Peng Gong Master, Darkness Master, and Star River Master hadn't created universe-supreme-master-level techniques, yet they could utilize engravings at that level! And the fact that Luo Feng was able to create a blade technique at that level meant he could utilize engravings more advanced than that.

Star Tower is the most mysterious true treasure I have, Luo Feng thought. Both Boat of Mausoleum and Shi Wu Wing are of the machine type, and they both have apparent functions and power limits. As for

Blood Shadow Blade, it's only an embryo, and all the techniques need to be created by me. Only Star Tower is so mysterious!

Before the war, Luo Feng had been confused as to why Star Tower had such strict requirements for master recognition. However, he hadn't yet discovered the full extent of its unique capabilities, as he hadn't been strong enough.

After the war, Luo Feng learned the first special advantage of Star Tower: It was much more efficient in guarding souls than other supreme true treasures!

"I'll comprehend them carefully now."

Luo Feng immediately started to comprehend the engravings now.

The time in the space of inheritance was ten thousand times faster than that outside, making it more efficient... After becoming a universe master, Luo Feng could finally start to improve his power comprehensively, trying to maximize his power at this level.

Hundreds of years passed, which was much longer on the outside.

Luo Feng opened his eyes in the space of inheritance after a long time and frowned. "Ancestral God School is looking for me?"

He took out a token, which had been given to him by the Ancestral Gods after he became a sub-member of the Ancestral God School.

"I need to go see the Ancestral Gods?"

Luo Feng was confused. If he was still at a mediocre level, it would have been normal for the Ancestral God school to give commands, but he held a different status now. His power had manifested in the previous war. Only under special circumstances would the Ancestral God School look for him. Besides, even if they actually needed him, they could have sent a prophet instead of summoning him directly.

I talked with all three Ancestral Gods after the war, and none of them is arrogant, thought Luo Feng. There must be a reason why they're summoning me.

He was already a pinnacle being in the original universe, and there had to be mutual respect when great beings talked with each other!

Shua!

Luo Feng disappeared.

Ancestral God School, Bauhinia Island in the Ancestral God Secret Region.

The palace where Luo Feng lived was still there. A silver-caped being appeared, followed by a dimming light. It was Luo Feng.

"It's been a long time." Luo Feng looked around.

“Luo Feng!” came a voice. “Come here. There’s something important about the humans I need to tell you.”

Chapter 1316: The Conspirators

Luo Feng frowned as he whispered to himself, “Right beside me? Double-face Ancestral God?”

Following the ripples of godly power, and considering how the other party had taken the first move to reveal himself, Luo Feng came to realize that the one who sent the voice transmission was Double-Face Ancestral God, who had previously saved him when he was at war with Virtual-Real Devil God. All this while, just to protect Luo Feng, Double-Face Ancestral God had stayed beside him as his neighbor, albeit without him knowing. He had not expected Double-face Ancestral God to reappear before him now.

Shua!

With a single step, Luo Feng teleported right away to the neighboring residence.

It was a serene building that carried the diverse characteristics of various races. Behind the high, lofty walls of the courtyard, there was a pond, and within the pond, there were many sculptures of six-armed beings of a race that resembled the human form being erected. There was a total of 11 sculptures, and in the middle of the pond was a flat, smooth rock. On this rock was a set of a wooden table accompanied by two wooden chairs.

The two wooden chairs faced one another. Seated on one of them was the tall and sturdy Double-Face Ancestral God. The two faces of Double-Face Ancestral God were completely different from one another; one was extremely kind and amiable, while the other was simply ferocious and mean. At that time, the one facing Luo Feng was obviously the fair-skinned face that was kind and amiable.

“Have a seat,” Double-Face Ancestral God said with a smile.

Luo Feng appeared in the sky above the pond and started to walk over to the other wooden chair. Then he sat down.

“I have specially prepared these fine foods and fruit wine.” Double-Face Ancestral God was holding a dark green wine bottle in one hand as he introduced the fine spread. “This is ice-fired fruit wine. In the whole primal universe, it can only be found in the Ancestral God secret region. There is only one ice-fired fruit once every 10,000 eras. Every fruit can allow one sector lord to have a 50 percent chance of becoming undying. This bottle of Ice-Fired Fruit Wine is the refined essence of 128,000 ice-fired fruits. Its taste is simply divine.”

Luo Feng laughed in amazement and said, “Ice-fired fruit wine? Who else but the Ancestral God School? I had heard it said that a large number of ice-fired fruits was required to produce ice-fired fruit wine, but I’ve never had the chance to try it.”

Ice-fired fruit could only be bred in a most unique environment. Just eating one fruit would produce an effect similar to receiving the inheritance of a Beast God. The differences were that this inheritance adhered to the water law and fire law instead. Eating one fruit would indeed boost the chances of a

sector lord becoming an undying! This fruit was an incomparably precious piece of treasure in the universe. The only pity was that the Ancestral God School monopolized the field for producing it.

There were countless treasures in the Ancestral God secret region, but no external races could ever dream of laying hands on any of them. They were all under the Ancestral God School's sole dominion. Furthermore, the willpower of the primal universe origin favored the Ancestral God School, so when there were unique treasures appearing—even before the other races caught wind of news—the Ancestral God School would already have learned about them.

Precious, fine wine and delectable cuisine lay spread out before them. Every one of these costs as much as a normal true treasure, but, of course, to the ancestral gods, it was not much. To the three great ancestral gods, Luo Feng was definitely qualified enough for them to go to such great lengths to show their hospitality.

"I've enjoyed the food and wine thoroughly," Luo Feng teased with a smile. "Double-Face Ancestral God, your purpose in summoning me here—it's time to get down to business. I have been so curious... This is something so important to us humans, but even we do not know about it. Yet Double-Face Ancestral God knows. I really wonder... What is this all about?"

"I just received this piece of news." Double-face Ancestral God said softly, "And I got to know it from the willpower of the primal universe origin."

"Willpower of the primal universe origin?"

Luo Feng was taken aback. Just a moment ago, he had still been in a slight daze with some lingering effects of the alcohol yet to wear off. Upon hearing this, his conscious mind, which was kept functioning by his godly power, was jerked into a speedy recovery.

"The willpower of the primal universe origin?" Luo Feng could not hold back his question. "Could it still be able to transmit information?"

The willpower of the primal universe origin, from what Luo Feng understood, was an instinctive willpower naturally formed by universe laws. Its tendency toward kindness or evil was instinctive. Like the strange object. It was instinctively revolting, which was why the Ancestral God School had sent subordinates to deal with it.

"Double-Face Ancestral God, you are saying that the willpower of the primal universe origin told you... something important related to us humans?" Luo Feng found it hard to believe.

Double-Face Ancestral God nodded. "Yes. It shouldn't be surprising. Perhaps you feel that being able to communicate with the willpower of the primal universe origin is unbelievable, but in fact... as ancestral gods, we are the spokespeople for the willpower of the primal universe origin. And this time around, the news is related to Huge Axe Creator of your human race, who has already been annihilated."

"Huge Axe?" Luo Feng's eyes gleamed faintly. "What news?"

"Huge Axe's annihilation was actually because he was ambushed by other great beings within the Universe Ocean," Double-face Ancestral God said. "Or, to say it more accurately, it was all a conspiracy."

Immediately, Luo Feng began to bombard Double-Face Ancestral God with questions. “Conspiracy? Who?”

Among the human race, they were aware that the map from Yuan Ao Master had been a fake. Previously, Huge Axe had warned them about it, yet he had not mentioned the names of the conspirators. Maybe Huge Axe had thought that since he was not with the human race, expecting them to take revenge for him was just impractical. The damage would definitely outweigh the benefits, so he probably had not seen the need to mention names.

“A total of three conspirators were behind this ambush,” Double-Face Ancestral God said. “They are all from the first reincarnation era. The first of them is Great Thunder Star Master! The second one is Zhen Jia Emperor! The third one is Dragon Rock Ancestral God!”

Turbulent waves heaved and crashed within Luo Feng’s chest, and his eyes flashed with an uncontrollable desire for murder.

The first reincarnation era! Yes. That first reincarnation era was about to face its doomsday, so almost everyone was behaving like lunatics. What were they not capable of?

Great Thunder Star Master. Zhen Jia Emperor. Dragon Rock Ancestral God.

“The three of them...” Detailed information of these three started to flood Luo Feng’s mind.

Great Thunder Star Master, Zhen Jia Emperor, and Dragon Rock Ancestral God were not considered to be from pinnacle races during the first reincarnation era, but every one of them was still troublesome, frightening opponents.

Great Thunder Star Master belonged to a kind of special life form called the thunderstorm star life form. Back when the first reincarnation era was within the primal universe, thunderstorm stars as big as stars had appeared at the star traveler level. Every one of these thunderstorm stars had a willpower of their own. After countless years, some of these thunderstorm stars started to evolve. So long as they were able to undergo evolution, they could become undying. Then they would continue to become more powerful.

The thunderstorm star race was extremely tyrannical. Although its population was quite small, the race was very strong. Great Thunder Star Master was the supreme master of the entire Thunderstorm Star race.

Zhen Jia Emperor was also a special life form. He was a fire source race life form. Life forms from this race were born within the stars, but, out of a trillion stars, there might not necessarily be one that could breed a member of the fire source race. Every great being of the fire source race would become a sector lord upon reaching adulthood. Then they could refine metals to form bodies of steel, and their origin would evolve into the “eyes of the fire source.” So long as the eyes of the fire source remained ignited, these great beings would not die. Zhen Jia Emperor was the greatest leader of the fire source race. He was the emperor of the entire fire source race!

Dragon Rock Ancestral God was one of the three ancestral gods from the first reincarnation eras. However, back when the primal universe of that era was destroyed, they had all been banished from

their homeland. The cohesiveness of the Ancestral God School had been destroyed. Dragon Rock Ancestral God might have been a special life form, but he also had a race under his leadership.

Some special life forms existed within the universe in the hundreds or the thousands. And, of course, the fewer they were in number, the more formidable their talents were. The dragon rock race had an estimated population size of a few thousand. Although they were not formidable, they were still special life forms to begin with, and their most unique characteristics were their massive godly bodies!

“Those three...” Luo Feng frowned.

What a difficult situation. He would have rather faced enmity with the five true masters of the Divine Eye clan than be caught in a scuffle with these three. The power of one alone was not to be underestimated, let alone the three of them combined. If these ancient freaks of nature, who were awaiting their doomsday, really were to combine forces, even Huge Axe Creator might find it hard to fight them.

“It was those three!” Double-Face Ancestral God looked at Luo Feng and asked, “Are you feeling the pressure now?”

“The three of them are all aloof and tyrannical supreme masters from the first reincarnation era,” said Luo Feng. “The supreme masters from my primal universe...” He shook his head. “They would be inferior to them in comparison. Three of them, and all with supreme true treasures. I am eager to kill them, but I must admit that I indeed feel the stress!”

Although he said this out loud, his heart was another matter. Was Luo Feng truly one who would bow his head and concede defeat so easily? In less than 200,000 years, he had matured into adulthood. Together with the inheritance of the pulse of Duan Dong River, why would he lack confidence whatsoever? Throughout the entire Universe Ocean, he feared no one. For these three who had brought about the annihilation of Huge Axe, Luo Feng would go all out and try every way possible to seek vengeance.

But, before Double-face Ancestral God, Luo Feng still had to put on a show because he was unclear about the actual intention of the willpower of the primal universe origin! Theoretically, this was purely a feud between universe supreme masters, and considering how detached the willpower of the primal universe origin was, by right, it would not be interfering. Yet, this time around, it had chosen to inform the humans through an ancestral god of the Ancestral God School.

To think there was no goa in this action... He would have to be a fool to believe that!

“No supreme masters is to be trifled with, not to mention these three universe supreme masters.” Luo Feng shook his head.

Double-face Ancestral God smiled. “It would be hard for others, but Milky Way Horde Leader, you have the Boat of Mausoleum... and you have charged your way through various dangerous lands. You have multiple bodies, so even if one of them were to be annihilated, it wouldn’t be a big deal. If you are unable to kill them, perhaps you could make use of the dangerous environment of the three most dangerous lands. Use them to your advantage, and also, make use of the uniqueness of your Boat of Mausoleum. Make them fall into a state of desperation or even to the brink of death. Wouldn’t that solve everything?”

“Such an opportunity is hard to come by,” Luo Feng said.

“So long as there is enough time, there will always be opportunities,” said Double-Face Ancestral God.

Luo Feng frowned as he stared at Double-Face Ancestral God, whose kind and amiable face was smiling back at him. Both of them looked into each other’s eyes. Then Luo Feng finally spoke very slowly.

“Double-Face Ancestral God, the willpower of the primal universe origin... Why would it go through you to tell us, the human race, about this matter? I am no fool. There must be a reason behind all this. Tell me, what is the goal to be achieved? Or else my heart cannot be at ease!”

Double-Face Ancestral God smiled. “The goal is simple. The noble willpower of the primal universe origin... wants those three dead! Throughout Universe Ocean, you humans are the ones who have a reason for a feud with them. Secondly, other races may face difficulties trying to kill them. Only you, with that inheritance of the pulse of Duan Dong River, have the greatest hope of achieving this goal. Even if you are unable to achieve it now, when you have become a universe supreme master, you will be able to do it.”

Luo Feng gave small nods. Yes. He had never doubted his own strength and ability, and he was especially confident since he had been comprehending Star Tower for several hundred eras. Perhaps it would not be realistic for him to be able to annihilate a universe supreme master now, but once he had become a supreme master, coupled with the inheritance of the pulse of Duan Dong River, he could easily realize the goal of becoming more powerful than Teacher Origin had been.

“The willpower of the primal universe origin wants the three of them dead?” Luo Feng mumbled to himself.

At that moment, various thoughts surfaced in his mind. He was starting to grasp a faint understanding of the willpower of the universe origin.

Chapter 1317: Luo Feng’s Path to Universe Supreme Master

Luo Feng speculated that even though the mind of the original universe was beyond all the conflicts, it would still be angered if a great being did something wrong! And it wanted to kill those great beings!

However, even if it wanted to kill someone, it couldn’t do it by itself. It was obvious that it needed great beings’ help to kill Yuan Ao Master and the three conniving universe supreme masters. It meant that even the original mind, which was invincible and superior, needed to follow some rules!

Even Teacher Origin, who went against the original mind, was only eternally suppressed by the original mind, Luo Feng thought. Other than that, I haven’t heard that the original mind wanted anyone dead. It runs on pure instinct.

After contemplation, Luo Feng was far less intimidated by the original mind.

“My job is to tell you what happened!” said Double-Face Ancestral God with a smile. “I’m just here to tell you who conspired and led to the death of Huge Axe Creator. You humans can decide what to do. We can’t force you to do anything.”

Secretly, Luo Feng sneered. It wasn't because the ancestral gods couldn't force them, as even the original mind couldn't force the humans! However, the humans couldn't overlook such hostility—even if they couldn't quickly avenge Huge Axe Creator.

"Thank you, Double-Face Ancestral God," said Luo Feng. "It's indeed important to us humans. I'll show myself out."

Luo Feng got up, intending to leave. Double-Face Ancestral God stood up and showed Luo Feng out. Luo Feng then went back to his place and left through god country transportation.

In the primal secret region of the human territory.

Hong! Long! Long!

The tumbling waves of Remote Ocean surged. Some of the waves were a million kilometers tall.

After the fight hundreds of years ago, Luo Feng had left his Remote Ocean here. There was a pinnacle soul true treasure hidden in Remote Ocean. Its godly power with Duan Mie and the pinnacle soul true treasure could resist any attacks under level ten.

The humans had captured more than 200 universe masters last time, significantly weakening the united forces alliance.

Even if the united forces used all their power to attack again, it could barely reach level nine. Besides, after getting the inheritance from Purple Moon Ancestor, the Freedom Alliance didn't have any motivation anymore, and they had lost half their universe masters. They wouldn't have any benefits, and it would be dangerous for them to get in a fight. How could they agree to fight their friends?

That was why the united forces alliance could only use around 400 universe masters. It wasn't a threat!

"Teacher!" Luo Feng stepped on the space and flew to the highest level of the towering main palace. Primal Chaos City Leader was leaning against the handrail and looking to Luo Feng.

"Are you practicing? Why are you here?" Primal Chaos City Leader smiled.

"Double-Face Ancestral God just talked to me," said Luo Feng. "The original mind told him to give me some important information, so I had to come here and see you."

"The original mind told the ancestral gods to give you information? That original mind..." Primal Chaos City Leader was shocked. "What kind of information?"

"Double-Face Ancestral God told me that three beings conspired to kill Huge Axe Creator," said Luo Feng.

Primal Chaos City Leader was shocked. His godly body shook. "Who?"

"From the first universe era," said Luo Feng. "Great Thunder Star Master, Zhen Jia Emperor, and Dragon Rock Ancestral God!"

Primal Chaos City Leader's lips quivered. He was whispering the names. He clenched his fist, twisting the space and time around him, and his eyes glinted fiercely. Belligerence, hatred, and an urge to kill all rushed through his mind. Compared to Luo Feng, he had been far much more devastated by Huge Axe's death.

Luo Feng was grateful that Huge Axe had helped him before, but they were not close, as they hadn't talked with each other much. As for Primal Chaos City Leader, it was different... Both he and Huge Axe had followed Teacher Origin, and Huge Axe was like a brother to him. After Teacher Origin was suppressed, the burden of the humans had fallen on Huge Axe and Primal Chaos City Leader. They were closer than brothers! Teacher Origin and Huge Axe had been closer to Primal Chaos City Leader than anyone else in the human race; Teacher Origin had been like a father, while Huge Axe had been like a big brother!

"Great Thunder Star Master! Zhen Jia Emperor! Dragon Rock Ancestral God! They all deserve to die!" Primal Chaos City Leader spat the words out of his mouth.

"Teacher..." Luo Feng realized his teacher's mood was out of control.

"I'm okay." Primal Chaos City Leader suppressed his desire to kill. "Relax. I know these three universe supreme masters are more difficult to deal with than those in the original universe. Huge Axe Creator chose not to name them because he didn't want us to suffer losses. However, we'll avenge Huge Axe one way or another! Just not now."

Luo Feng nodded.

Primal Chaos City Leader closed his eyes. It seemed that he had successfully suppressed his emotions. He then opened his eyes and started another topic. "Luo Feng, you've been practicing for hundreds of years, so I didn't bother you, but I need to tell you what happened in the past few hundred years."

"Please do, Teacher," said Luo Feng.

"The Hong Alliance has better policies now," said Primal Chaos City Leader. "There are greater benefits from joining the Hong Alliance, and those who betray the Hong Alliance will be heavily punished. The unity of the Hong Alliance is growing stronger, and even 12 universe masters from the Freedom Alliance joined the Hong Alliance."

Luo Feng looked pleased.

It was true. Anyone with eyes could see that the unity on the human team was better, yet the united forces formed only a loose alliance. The humans had greater potential, and with the attraction of more benefits, it was natural that universe masters opted to join.

"Besides, Purple Moon Holy Land offered the inheritance to the Freedom Alliance and the united forces alliance," said Primal Chaos City Leader. "It's widely spread! Some of the universe masters in the Hong Alliance are from the race with those in Freedom Alliance. Some universe masters from the Freedom Alliance share the inheritance with those from the same race, and they share it with us."

Luo Feng's eyes gleamed.

“Which means we get the inheritance from the Purple Moon Holy Land, too,” said Primal Chaos City Leader. “Actually, Purple Moon Holy Land was already prepared for us to know the inheritance.”

“How is the inheritance?” asked Luo Feng.

“It’s very detailed and comprehensive,” said Primal Chaos City Leader. “It’s indeed ten times better than the information we prepared for the other races. Of course, it’s nothing compared to yours.”

Luo Feng nodded. The inheritance he had obtained was incredibly detailed—from machine type to valuable-making stream to other streams. The memory stones from Duan Dong River contained incredible information, yet Luo Feng had only extracted a little bit providing the other races with a simplified version. It was nothing compared to what the humans had.

“Based on what Purple Moon Holy Land provided, we can give a bit more to lure the other races,” said Primal Chaos City Leader. “It’s very unlikely for someone to become a universe supreme master from a universe master, so it’s okay to give them the information. Besides, with time going by, and with the systematic training provided to humans, there will be a great number of universe knights and even universe masters. Humans will soon grow stronger and stronger, and there will be more beings as powerful as Teacher Origin, or beings who can transcend incarnation! Our status will be very stable.”

Luo Feng nodded. If the humans were advancing quickly, they needed to help out their subsidiaries as well. Otherwise, they wouldn’t be loyal to the humans.

“By the way, how was the practicing in the past several centuries?” asked Primal Chaos City Leader.

“It’s going great.” Luo Feng couldn’t help expressing his joy.

Primal Chaos City Leader nodded with satisfaction. He knew that this disciple of his was always sensational when he truly showed his power, although he normally remained low-key. If he said it was “going great,” it meant he had gained a lot.

“Do you have a plan to become a universe supreme master?” asked Primal Chaos City Leader.

“Yes, but it’s very difficult!” Luo Feng exclaimed.

Of course, he had a plan. Regarding law comprehension and techniques, he was already at the pinnacle of universe masters. After all, it was already incredible for universe masters to be able to create merged supreme techniques, yet Luo Feng created a universe-supreme-master-level technique, “Nirvana Incarnation,” and he had perfect godly power... He was able to break into a universe supreme master!

However, this was beyond difficult! In the past few hundred years (hundreds of eras in the space of inheritance), his greatest accomplishment had been understanding Star Tower better!

Luo Feng was full of joy every time he thought of Star Tower. It was, after all, the most mysterious true treasure he possessed and had proven incredible beyond his expectations! When he was still weak, he hadn’t found it to be special. But after getting stronger—especially after the war hundreds of years ago—he had found a highlight of Star Tower. After hundreds of eras of comprehension, he had discovered that the highlight was only a small part of Star Tower! It was an exceptional and extraordinary true treasure. The stronger his power grew, the more he learned of its functions.

“It’s remarkable. It’s much more precious than Shi Wu Wing. Based on the broken memories, Shi Wu Wing was used by a being much mightier than true gods! As for Star Tower, it was already enough to beings at that level. How did teacher Sitting Mountain Guest create a true treasure at that level?”

Luo Feng found it hard to believe. In his opinion, universe supreme masters (true gods) wouldn’t be able to create Star Tower.

Teacher once said something unexpected happened when he was making it, Luo Feng thought. Is it because of that? Besides... Teacher created the Flame God race, but they failed him, so he later created the earthlings... What does teacher Sitting Mountain Guest want?”

Luo Feng felt that everything about Teacher Sitting Mountain Guest was mysterious! Nine Volume Manual was exceptional, and Sitting Mountain Guest was the only one known to be able to create a manual like that.

For what it’s worth, I owe teacher Sitting Mountain Guest big time. If he needs my help, I’ll do everything I can to help him! Luo Feng thought. I’m already powerful enough, and there’s nothing to be afraid of. I’ll wait until the day Teacher Sitting Mountain Guest comes to ask me for help.

After several eras of practicing, he understood much more about Star Tower, and he was also pondering how to become a universe supreme master!

He had four bodies now. If he followed the normal route of law evolution, his god country would become a miniature universe while all the bodies would be combined into one. After combining into the original earthling body, 99 percent of the godly power in Remote Ocean would return back to the original universe. Luo Feng couldn’t allow that to happen. Fortunately, he had the inheritance from Duan Dong River, so he knew exactly what he should do to avoid it!

I can only follow another path—a more difficult path, and a path to be more powerful, thought Luo Feng. I will start with my godly body and break the laws with my strength, after which I’ll become a true god! Only by doing that can my godly body absorb all the godly power, holding it in my endless Remote Ocean.

Chapter 1318: Three Levels of Godly Bodies

My Remote Ocean is too enormous! thought Luo Feng.

It’s already huge like this now, and with time going by, it’ll be measured in light years in the future. It’s incredible to have such an enormous godly power even in the inheritance of the ancient civilization. If I want to merge it into a sole godly body, I need to attain at least a gene level of 90,000 times.

Starting from godly power, using strength to break through the laws, and becoming a true god in the end—there were different levels, certainly!

The perfect life gene level in the original universe was 10,081 times! Once someone broke this limit—such as by reaching a life gene level of 11,000 times—they could change their god country into a miniature universe in the blink of an eye. Of course, the improvement in power was negligible when making a breakthrough like this.

Based on the documents about inheritance from Duan Dong River, those who became true gods with a life gene level under 30,000 times and followed the law path couldn't experience a substantial change in their power.

30,000 to 60,000 times was the first level. 60,000 to 90,000 times was the second level. 90,000 to almost 100,000 times was the third level. These were the three levels of godly power path.

At the first level, godly bodies would be ten times larger! For example, those with godly bodies 100,000 kilometers tall would become a million kilometers tall, which meant the godly power would be 1,000 times more. Besides, this advantage would stay forever, even after surpassing true gods. At the second level, godly bodies would become 1,000 times taller! For example, humans could become 100,000 kilometers tall!

It was most difficult to reach the third level. After all, in the documents of Duan Dong River inheritance, nobody had ever reached a life gene level of 100,000 times. The best they could do was to get close to it! 90,000 times was already an incredible threshold. When someone reached this level, they could have flexible sizes of bodies and unlimited godly bodies. It was true. Unlimited godly bodies and limitless volumes.

Godly power decided volumes. The more godly power one had, the larger one's volume would be! Of course, after becoming a true god, one's godly power storage would be fixed. There was only a limited amount of godly power; even the origin of the original universe couldn't give all its power to one being. When becoming a universe supreme master from a universe master, the original universe could only help turn a god country into a small universe.

As for godly bodies, for ordinary universe masters, they followed the law path, and after making their breakthrough and becoming a universe supreme master, they would use miniature universes and turn chaos energies into godly power to supply themselves. Then they would become universe supreme masters with life gene levels of 10,000 times.

The limit of the first level is one million kilometers tall; the limit of the second level is a hundred million kilometers tall, and the third level has limitless volume, Luo Feng thought. However, it's only a theoretical limit. One needs to swallow godly power for its godly body to become larger. Those at the first two levels might be able to swallow the godly power from the universe origin, but at the third level...

Luo Feng shook his head. The original universe could only supply a limited amount of godly power, and after a while, it would stop. Otherwise, Nine Remoteness Ocean would have grown larger.

In the ancient civilization, if an inheritor could reach the life gene level of 90,000 times, the previous inheritors would prepare an enormous amount of valuables to store the godly power for the juniors to absorb so they could form godly bodies with great godly power storage. However, we can't get those kinds of valuables in this civilization anymore. Fortunately, I have Remote Ocean for me to absorb. I need to reach a life gene level of 90,000 times so I can have all the power in Remote Ocean.

There were three levels of the godly power path. And it was almost impossible to attain the third level.

It was already a miracle for one out of 10,000 universe masters to succeed on the godly power path, and it was a greater miracle that one out of 10,000 true gods who succeeded on the godly power path

reached the third level. The inheritors of Duan Dong River could all succeed on the godly power path with the inheritance they had. However, only two had reached the third level, and luck was required in both cases.

Though it's very difficult for me to reach the third level, I still have a chance, Luo Feng thought. For one thing, I have the inheritance from Duan Dong River. For another, I have the space of inheritance. I can practice there, where time passes by 10,000 times faster.

It was a luxury to be able to practice in a place where time passed 10,000 times faster than the outside, as it was against the rules of space and time. The longer a great being practiced under accelerated time, the higher the price he needed to pay! When Luo Feng was practicing in Beast God Sector, Space Beast Ancestor had only agreed because he was still weak.

When the great beings were fighting for the inheritance from Duan Dong River, the powers had only allowed them to be trained there for a short period of time, because the inheritance from Duan Dong River was at stake.

This acceleration was a robbery of the origin of the miniature universe! It already placed great pressure on universe masters to do so, and if a universe supreme master did so, it would consume much more power. Nobody dared to do it for a long time!

I practice in my space of inheritance while I can maintain in the accelerated time. Besides, my Remote Ocean body also has an inherited technique, Creation!

Remote Ocean had two inherited techniques: "Ocean Transformation" and "Creation." And once if performed the second technique, it could analyze the fundamental characteristics of many life forms and eventually even create life forms. Nine Remoteness Master had been able to create an entire race, and he was only a universe master. Even universe supreme masters weren't able to create an entire race, yet Nine Remoteness Master had managed to do that.

Luo Feng was able to do that as well. It was based on his inherited technique, Creation.

Based on the inheritance from the ancient civilization, inherited techniques that can analyze the foundation of life forms and create life forms are the best for studying life genes... With this technique, I have higher hopes of reaching a life gene level of 90,000 times. I've already had plenty of help, so I need to make my own efforts now.

All the previous inheritors had help from inheritors before them. However, only two of them had attained a life gene level of 90,000 times.

Luo Feng needed to study all the life forms in the original universe: plant life forms, flesh and blood life forms, metal life forms, rock life forms, energy life forms, and so on. Other than those living beings, he also needed to study lifeless objects in the universe like materials, rocks, fruits, and strange objects.

He needed to study billions of life forms and objects. It was a path where he needed to devote endless time and energy and study countless lives and material. He needed to find a way to enhance his godly power. He even needed to find the corpses of many great beings. Difficult! Difficult! Difficult!

Luo Feng was certain he could become a true god following the godly power path, but he couldn't guarantee he could reach a life gene level of 90,000 times. There was only a chance.

I'll strive for it, as there is a chance, thought Luo Feng. If I can't reach a life gene level of 90,000 times before this universe era ends, I'll immediately make the breakthrough and become a true god no matter what.

For what it was worth, it was easy for him to have a life gene level over 10,000 times before this universe era ended.

I need to go to Universe Ocean and gather many strange objects and life forms now, Luo Feng thought.

Only by looking into the foundations of life forms from varying angles could he advance on the godly power path.

Luo Feng and Primal Chaos City Leader stood in front of the handrail.

"Teacher," said Luo Feng. "I'm going to Universe Ocean."

"Universe Ocean?" Primal Chaos City Leader looked at Luo Feng.

"Yes. I want to become a universe supreme master, so I need to gather lots of strange objects," said Luo Feng.

Primal Chaos City Leader was astounded. "Why do you need strange objects to be a universe supreme master? Strange objects are only under supreme true treasures, and they are rare."

"Teacher, I don't mean that kind of strange object." Luo Feng smiled. "I mean things that are special, not necessarily true treasure weapons. I just need them to be special. Even a special rock will suffice."

"You..." Primal Chaos City Leader had been told lots of information about the inheritance before, and he was surprised. "Are you following the godly power path?"

"Yes." Luo Feng nodded.

"Based on the inheritance from the ancient civilization, it's very difficult to follow the godly power path." Primal Chaos City Leader couldn't help asking, "Do you want your Remote Ocean...?"

"That's right. I don't want to give it up." Luo Feng nodded. "From now on, my original body and golden horned beast body will stay in Universe Ocean. My Moshu body and Remote Ocean body will stay in the original universe, and I'll leave two Ancient God Eyes here. They are enough to cover everything."

Primal Chaos City Leader nodded. Staying in Universe Ocean for a long time... This disciple of his was indeed determined. However, it required great perseverance to follow the godly power path!

My ultimate goal is a life gene level of 90,000 times, thought Luo Feng. Only two inheritors succeeded from Duan Dong River inheritance, one of the best inheritances from the ancient civilization. I can't succeed without putting forth all my efforts.

"Okay, you may go." Primal Chaos City Leader nodded. "Adventure through Universe Ocean all you want. You have Star Tower and Boat of Mausoleum, so you have a better chance to survive extreme dangers. You also need to keep an eye on those three conspirators who led to Huge Axe's death. Please

figure out why they wanted him dead. After all, there was no benefit from Huge Axe's dying. On the contrary, they might be in danger. I think there's something else going on behind this."

"Okay." Luo Feng nodded. "It also has to do with the original mind, which told us through the Ancestral God School. They seem to want us to kill those three. Even the original mind is involved, now. I think there's a huge scheme behind this."

Primal Chaos City Leader nodded and said, "Even though you're on it, you should be more cautious with your own well-being."

"Don't worry." Luo Feng smiled. "Teacher, I'll go to Universe Ocean now."

Primal Chaos City Leader nodded. He then watched Luo Feng fly away and disappear.

Chapter 1319: Luo Feng's Arrival

Within the vast void space outside the Universe Boat...

Hong!

A nine-story tower was advancing very quickly, and its extremely high speed left a dazzling tail of light in its trail.

Within the tower, Luo Feng had Blood Ghost Blade slung across his back as he looked far ahead into the distance at the towering yet damaged Universe Boat.

"Starting today," he whispered, "I shall spend the majority of the next couple years roaming about the three most dangerous lands of the Universe Ocean! I am no longer the Luo Feng of yesterday. Now, I have become a universe master. After countless eras of submerging myself in cultivation, albeit discreetly, my strength has greatly increased! There is no need for me to act in secret anymore!"

Many universe masters had stayed around the peripheral region of Universe Boat for a long time, but most of them were only at the third- to fourth-tier standard.

"Look, the supreme true treasure, Star Tower!"

"It's Star Tower from the primal universe. I heard that internally, the primal universe is divided into two big factions. The united forces camp and human camp are engaged in an unprecedented, ultimate war... One from the human camp is Milky Way Horde Leader, who has taken out Star Tower. Now that the situation within the primal universe has stabilized, Milky Way Horde Leader actually drove Star Tower here to Universe Boat!"

"Star Tower has stood in the primal universe for such a long time, but no one has managed to get it to recognize a master. Who would have expected it to finally fall into the hands of Milky Way Horde Leader? Besides, this Milky Way Horde Leader was also the one who had received the inheritance of the pulse of Duan Dong River. Milky Way Horde Leader... is simply too lucky! Why don't I have such good luck?"

Luo Feng had no intentions of hiding at all. Onboard Star Tower, he had charged his way into Universe Boat. Of course, he would have gathered a sizable crowd of onlookers.

“Reporting to our race ancestors! The human, Milky Way Horde Leader, ‘Luo Feng,’ from the primal universe era has just entered the Universe Boat onboard Star Tower.”

“True Masters! Luo Feng has entered Universe Boat.”

“Ancestor, Milky Way Horde Leader has just entered the Universe Boat onboard his Star Tower. Just only.”

How fast did news spread in Universe Ocean? In just one day, the news had spread to all three reincarnation eras and the two holy lands! After all, since Luo Feng had received the inheritance of the pulse of Duan Dong River, he had become a “moving treasure” in the eyes of various groups of top powers within the entire Universe Ocean. Who would not covet Luo Feng’s inheritance?

The only thing was, they did not have the ability to obtain it!

Once where Luo Feng had been besieged by a group of universe supreme masters, every single one of them had released an outburst of combat power at the seventh- to eighth-tier level. There were even some who had released an outburst of ninth-tier combat power. When all of these were combined, the force was so powerful that even Teacher Origin might not have been able to resist it. But at the time, it was not even enough to make Boat of Mausoleum to budge. That was when they all knew that by using brute force alone, there was no way they could get that inheritance from Luo Feng. But this time around, he had chosen to bring Star Tower into Universe Boat instead. This made them all doubtful of his intentions.

The human camp had just stabilized, and Star Tower—an important combat power—was actually brought out into the Universe Ocean? And so openly, at that?

“Seems like Luo Feng is very confident about the strength of the human camp.”

“All universe masters of my race shall obey this command. Do not provoke Luo Feng. Keep your distance, and if you see him from a distance, be sure to steer clear of his path.”

“Transmit my command. No universe masters shall provoke Luo Feng.”

Luo Feng, who was on board Star Tower, entered Universe Boat. As he made his way into the deeper region of Universe Boast, not a single great being dared to provoke him! After all, those who did were normally universe supreme masters, and universe supreme masters were mostly gathered in the core or at least at the peripheral area of the core.

As for universe masters? For now, all the groups of top powers within the Universe Ocean knew that Luo Feng had a palace type supreme true treasure: Star Tower. When Star Tower executed its “swallowing” technique, only those who were at least at the sixth-tier as the top level power could resist. Normal universe masters who hid a good distance away would be spared, but the moment they were near, they would be swallowed by Star Tower right away.

Secondly, Luo Feng had a soul-impact treasure. There were sayings that only those with willpower at the level of a universe supreme master would be able to resist. Otherwise, anyone else would not be able to put up any resistance before Luo Feng.

These two factors alone made all the universe masters from the groups of top powers extremely fearful of Luo Feng!

Time passed.

In the blink of an eye, Luo Feng had been in Universe Boat for 300 years. He might have been strong, but his speed was still unable to exceed the limit of 100 times light speed! So if he wanted to make it to the secret chamber within the space of the cyan token, he would still need close to 700 years to arrive at his destination.

While many universe masters of the various groups of top powers had been on tenterhooks when Luo Feng first appeared within the Universe Ocean, now, they were no longer so worried.

In the beginning, they had been afraid that Luo Feng would initiate an orgy of killing. After all, the Ancestral God Eye was only capable of facing one direction at any one time; it was limited in terms of distance affected, but it was still considerably far! The combination of the Ancestral God Eye and Star Tower was an absolute nightmare for the universe masters. If they were to accidentally encounter Luo Feng, there was no way they would have time to escape. When some universe masters accidentally bumped into the approaching Star Tower, they were all scared out of their wits. Without second thoughts, they took off in another direction.

However, when Star Tower passed them, it did not attack. Initially, they felt relieved. With the passing of time—especially after more than 300 years had passed—even when Luo Feng crossed paths with any of the universe masters, he still made no move to attack. This had put the majority of the universe masters at ease.

“I am no fool!” Standing in the hall of Star Tower, looking out at the endless blazing flames, Luo Feng smiled to himself. “I may have the ability to kill and capture these universe masters. I may even be more skillful than most of the universe supreme masters... but, if I were to kill mindlessly, I would make enemies all over the place.”

Making enemies everywhere, thought Luo Feng. That, I am not scared of. But it would subsequently bring harm to my human race and the Hong Alliance.

The various groups of top powers of the universe had once joined forces to attack the Boat of Mausoleum, but at that time, everyone had attacked one another, so there had been no loss on any side. Therefore, it had not resulted in a feud! Some great beings could still continue to maintain close

friendships with Luo Feng. But if he were to go on a rampage, killing universe masters of other races, and there were universe masters who were annihilated as a result, then hatred and enmity would arise.

When he had fought against the other races, so long as there were no injuries, he could still join forces with these other races to fight others if the need arose. But if the opposing side annihilated Ice Mountain Master or Primal Chaos City Leader... Luo Feng would be red-eyed with anger. The same theory applied. If he had gone on a rampage, killing mercilessly, he would have made enemies everywhere he went! By then, the universe masters whose abilities were a notch weaker—like Long Yan Master and Remote Lord Master—would have trouble making their way about Universe Ocean.

Of course, Luo Feng would never allow himself to take such a foolish course of action.

“I have been in the outside world for over 300 years and in the space of cultivation for more than 300 eras,” Luo Feng said to himself. “Comprehending Star Tower has brought me to my current ultimate limit. The second volume of Extermination, one of three sets of lost knowledge, is too difficult. I have yet to master it. But I have gained a lot from Star Tower, which is more than enough.”

Before the battle, he was only able to comprehend the first three layers of secret engravings of Star Tower.

For an ordinary supreme true treasure, the third layer would normally reach the sixth tier as the top level of combat power! The fourth layer of secret engravings would reach the seventh tier as the top level of combat power! The fifth layer of secret engravings would reach the eighth tier as the top level of combat power! The sixth layer of secret engravings would reach the ninth tier as the top level of combat power! (This was Huge Axe’s level.) The seventh layer of secret engravings would reach the tenth tier as the top level of combat power! (This was Teacher Origin’s level. However, some supreme true treasures might not have a seventh layer of secret engravings on them).

The classification of an ability could usually be determined this way. But Star Tower was different.

The first three layers of Star Tower were still considered normal, where the third layer was at the sixth tier as the top level of combat power.

The fourth layer: the seventh tier as the top level of combat power!

The fifth layer: the eighth tier as the top level of combat power!

The sixth layer: the eighth tier as the top level of combat power!

The seventh layer: the ninth tier as the top level of combat power!

The eighth layer: the ninth tier as the top level of combat power!

The ninth layer: the tenth tier as the top level of combat power!

For now, Luo Feng could only faintly detect its power up to the ninth layer. After that, everything was blurred, and he simply could not detect further. As for its strength, he could vaguely make a judgment based on its secret engravings. Of course, for now, Star Tower was fully capable of executing combat power at the fifth layer, which was the level at which Luo Feng managed to gain a complete comprehension of—after spending more than 600 eras comprehending it! From its strength, one could tell the difference between Star Tower and the other supreme true treasures. Star Tower’s fourth layer

was no different from the fourth layer of other supreme true treasures. However, its sixth layer was matched to the fifth later of other supreme true treasures.

Other supreme true treasures followed the sequence of the seventh tier as the top level of combat power—eighth tier as the top level of combat power—ninth tier as the top level of combat power! But for Star Tower, the sequence was the seventh tier as the top level of combat power—eighth tier as the top level of combat power—eighth tier as the top level of combat power—ninth tier as the top level of combat power.

Firstly, its power could be fully maximized. Secondly, every layer of secret engravings would represent one type of combat technique.

The fourth layer and fifth layer meant that Luo Feng had mastered two more different techniques.

For normal supreme true treasures like Black Prison Tower, I'm afraid they could only execute up to the fourth layer, Luo Feng thought. But for Star Tower, I can execute techniques up to the fourth and fifth layers.

The two techniques that he was able to execute upon increasing his level made Luo Feng even more eager and interested in Star Tower.

"When my strength improves by another notch, I will be able to create a higher level blade technique," Luo Feng said to himself. "By that time, I will be able to comprehend the sixth and seventh layers."

While other universe supreme masters improved their strength by comprehending the next layer of secret engravings, Luo Feng improved his by comprehending two layers.

In the blink of an eye, Luo Feng had been in Universe Boat for more than 400 years.

Within Whirling Swamp Ocean in the internal region of Universe Boat...

Hua! Hua!

The greenish Whirling Swamp Ocean was forming numerous gigantic whirlpools that were tearing everything apart. Within the Whirling Swamp Ocean was a huge red reef with its largest diameter being around 900 million kilometers. On this red reef were 12 universe masters. All of them were staring hard into the distance.

There were numerous whirlpools created by the Whirling Swamp Ocean, and they all converged to give rise to an extremely large whirlpool. Far in the distance was the core of that extremely large whirlpool.

"Every time a treasure is born within the Whirling Swamp Ocean, it will be a pinnacle true treasure at least. It might even be a pinnacle domain type, palace type, or many other kinds of precious true treasures."

The 12 universe masters who all came from different groups of top powers were staring intensely as they waited in silence. The endless whirlpools of the Whirling Swamp Ocean produced a gale that could sweep through everything in time and space. Comparatively, the whirlwind around the reef was weaker, yet it was more than enough to cause the universe masters on the reef to face difficulty in standing.

Suddenly—

Hong!

A streak of light flew over at high speed from afar.

The universe masters of various races on the reef were taken aback.

“It is the most dangerous moment of the Whirling Swamp Ocean right now. Who would dare to hover in the skies above? Are they not worried about being swept down into it?”

“It’s Star Tower.”

“The nine-story tower! It’s Milky Way Horde Leader’s Star Tower!”

“No wonder he dared to barge his way in so directly. It’s because he has a palace supreme true treasure. If I had one, I, too, would dare to charge my way straight into the deep region of the Whirling Swamp Ocean.”

These universe masters all watched from afar in astonishment. Not a single one of them had the intention of escaping or hiding. When Luo Feng had just entered Universe Boat, the moment they saw him, they would most likely have scattered to escape for their dear lives. But now, everyone knew... Luo Feng indeed had the demeanor of a great being; he would never ever bully the weak. All this while, no one had ever heard of Luo Feng killing anyone.

“Eh? Star Tower is taking a turn.”

“It is flying toward us.”

“It is coming over!”

All the universe masters on the reef—who were either plant life forms, energy life forms, or flesh and blood life forms—were instantly shocked. The next moment, they all started to panic! If this Milky Way Horde Leader had no designs on them, why would he deliberately make a turn and head in their direction? But now, even if they wanted to, it was too late to escape.

Because he was already too close, the gale of Whirling Swamp Ocean had reached an extremely high level. They did not even dare to fly in the skies above.

A life form with three black spikes on its back yelled, “Milky Way Horde Leader, the true treasure that will be born from this Whirling Swamp Ocean—we are willing to let you, Milky Way Horde Leader, have it.”

Every universe master there—all of whom were from different races—watched expectantly.

Star Tower gradually reduced its speed and hovered at a particular spot above the reef.

Hua!

From one of the side doors at the base of Star Tower, a lone figure slowly flew out. Garbed in silver armor and with four silver wings outspread, the figure swept its gaze across the surroundings as he looked down.

“The other 11 universe masters here have no cause for worry. I am here... only because of him—!”

Luo Feng’s finger pointed down at one of the 12 universe masters.

Instantly, the other 11 universe masters turned around to see who the unlucky fellow was. Their eyes fell upon the tall and lofty thunder giant who carried lightning balls on his chest. His expression betrayed his fear as he looked around, then looked up at Luo Feng. His face was filled with panic and terror.

Chapter 1320: Capture and Wait

“I, I...” Thunder giant looked around. The 11 universe masters around him tried to stay away. They would have loved to see this thunder giant suffer. These universe masters of other races could tell that Luo Feng was seeking the thunder giant for personal issues!

Milky Way Horde Leader Luo Feng had been in Universe Boat for a long time, and he’d never made reckless killings before. However, he was suddenly targeting one of the universe masters. Apparently, there were some personal issues between them.

“Thunderstorm star race!” Luo Feng looked down at the thunder giant. “Thunder Shuttle Master!”

“I, I...” Thunder Shuttle Master said, horrified. “Milky Way Horde Leader, I have never seen you before, and there’s no grudge between us. Why are you targeting me?”

He was brave, but he was still terrified by a being who could easily kill him.

“No grudge?” Luo Feng sneered. “Of course, there is. Otherwise, why would I target you?”

The other universe masters were watching them fight. They were barely acquaintances with Thunder Shuttle Master. Besides, they were competitors with each other for the true treasures about to be born. They were happy that Luo Feng was targeting Thunder Shuttle Master. They all knew how powerful Luo Feng was, so none of them dared to meddle. Otherwise, they would bring trouble upon themselves.

“Milky Way Horde Leader, I...” said Thunder Shuttle Master.

“No need to say anything,” said Luo Feng. Then he yelled, “Get in!”

Suddenly, a black hole appeared at the bottom of Star Tower, and it started to swallow the thunder giant.

“No!” Thunder giant yelled and struggled to get out. “I’m from Thunderstorm Star! My ancestor is Great Thunder Star Master! Luo Feng, if you kill me, you’ll make yourself an enemy of Thunderstorm Star and Great Thunder Star Master.”

The space trembled under the roar. Apparently, that thunder giant was hysterical.

“I am making myself his enemy!” said Luo Feng.

Hua!

Although the thunder giant struggled against the swallowing power, he was still flying toward the base of Star Tower. Finally, he was completely sucked in. This turn of events terrified all the 11 universe

masters of other races in the area. They were all silent as the powerful Thunder Shuttle Master was sucked into Star Tower.

Everyone was terrified. They knew Luo Feng was powerful, but they were still frightened to witness it with their own eyes.

“That Luo Feng is mad.”

“He has no respect for Great Thunder Star Master, who is one of the most powerful universe supreme masters from the first universe era. Even races like the Divine Eye clan don’t want to be enemies of the Thunderstorm race, which has a small population but great power.”

Luo Feng held Star Tower and landed slowly. The sight horrified all the universe masters. What did he want? He had already captured Thunder Shuttle Master. Why wasn’t he leaving?

Luo Feng stepped on the ground and looked around at the powerful universe masters around him. Most of these universe masters were at level five, and the weakest were at top-tier level four. He said, “I captured Thunder Shuttle Master because of Great Thunder Star Master! You can spread the news and tell everyone that I’ll stay at the center of Whirling Swamp Ocean and wait for him for ten years! If he doesn’t show up within ten years, I’ll kill Thunder Shuttle Master! Did you hear me?” Luo Feng glanced around.

“Don’t worry, Milky Way Horde Leader, we’ll spread the news for sure.”

None of the universe masters dared to disobey him. He was too powerful and had just made himself an enemy of Great Thunder Star Master. Of course, they didn’t want to go against him. It was only spreading the news; they would have done that even Luo Feng hadn’t asked them to.

“Then you can just wait here until the valuables are born. No need to worry about me.” Luo Feng waved his hands, and Star Tower landed on the ground. It immediately became larger and reached 100 million kilometers tall, standing at the center of the huge reef. Luo Feng entered Star Tower and started to wait.

“Thunder Shuttle Master,” Luo Feng said, transmitting his voice. “If your Great Thunder Star Master doesn’t come, don’t blame me for your death.”

Thunder Shuttle Master didn’t say a word.

Luo Feng was under the spotlight of the three universe eras and the two holy lands in Universe Ocean. Everything he did attracted attention. He hadn’t targeted anyone after entering Universe Ocean. However, he had suddenly captured Thunder Shuttle Master from Thunderstorm Star and was now waiting for Great Thunder Star Master! And he had set a deadline of ten years!

“Universe supreme masters can easily break the speed limit, and they can arrive at Whirling Swamp Ocean no matter where they take off from. Luo Feng gave a deadline of ten years—clearly enough time.”

“Why does Luo Feng want to make himself an enemy of Great Thunder Star Master?”

“Who knows?”

Core ground of Tilted Peak Sector, in 10,000 Waves Waters, an area close to the Land of Darkness.

That same day, the news was spread. 10,000 Waves Water was an area in the core ground of Tilted Peak Sector, and it was famous for its illusions. Even with a supreme true treasure palace, it was difficult to get out if one was lost. Of course, it was still much safer than the Land of Darkness. After all, nobody had ever managed to survive the Land of Darkness.

Hong! Long!

An ancient ship floated on the waves. On the ship sat a giant mountain creature, an iron creature, and a thunder giant. They were the three eminent creatures from the first universe era: Dragon Rock Ancestral God, Zhen Jia Emperor, and Great Thunder Star Master.

Dragon Rock Ancestral God sat there, and his voice rumbled. "Great Thunder, that human brat captured a universe master of your race, and he has now spread the news that he's going to wait for you in Whirling Swamp Ocean for ten years! Ten years is already enough for any supreme masters to get to Whirling Swamp Ocean from anywhere in Universe Ocean. Besides, if you don't go, you'll be the laughing stock of all the powers in Universe Ocean."

"Are you going, Great Thunder?" Zhen Jia Emperor asked, eyes gleaming.

The thunder giant sat there and said, "I am!"

"Great Thunder, if you don't go, you'll be a joke," said Dragon Rock Ancestral God. However, the issue we're dealing with is of the utmost importance."

Zhen Jia Emperor added, "That's right. If another universe supreme master comes, the two of us alone might not be able to deal with it. Last time, when we were fighting Huge Axe, we almost failed."

"Humph!" Thunder giant snorted. "Only a couple of decades, and chances are, there won't be any supreme masters. Besides, that Luo Feng is provoking me. How can I not go? He's only a universe master, and he's looking down on universe supreme masters just because of his valuables. He's being suicidal. If I can have this chance to kill him, it'll help us transcend incarnation."

"Kill that brat?"

Both Dragon Rock Ancestral God and Zhen Jia Emperor shook their heads. What a joke. Even a large group of universe supreme masters combined couldn't hurt Luo Feng.

"Great Thunder... Does Luo Feng know that we had something to do with Huge Axe's death?" Dragon Rock Ancestral God asked. "Is that why Luo Feng is targeting you?"

"Perhaps Huge Axe told the humans before he died," said Zhen Jia Emperor. "Then it's natural that Luo Feng's targeting you. If so, universe masters of my race will be in danger as well."

"It doesn't matter whether Huge Axe told the human race before he died or not. How does that impact us?" said Great Thunder Star Master coldly. "They don't even have a supreme master. What can they do to us? Besides, we're close to our true death, and we're from the first universe era. We have to seize this one last chance."

Zhen Jia Emperor and Dragon Rock Ancestral God both agreed.

“I’m going to deal with that Luo Feng. I’ll come back soon.” Great Thunder Star Master took a true treasure palace and flew away like a streak of light.

Zhen Jia Master and Dragon Rock Ancestral God exchanged a glance, then gave an order to the universe masters of their races.

Zhen Jia Emperor immediately gave an order using the godly power avatar in his small universe, and so did Dragon Rock Ancestral God.

“Those in Universe Boat, leave Universe Boat as soon as possible.”

“If you can’t leave Universe Boat, hide in some secret places in Universe Boat. Try everything to avoid Luo Feng.”

Time passed.

Star Tower stood at the center of Whirling Swamp Ocean on the reef, yet there were already 13 universe masters already. Apparently, some pinnacle true treasures would soon be born in Whirling Swamp Ocean. Many great beings knew about this.

Luo Feng didn’t kill beings recklessly, and with the temptation of valuables, two more universe masters had come here.

Purple Moon Holy Land.

“Pei Xing, you’ve already reached level five!” said a universe master from Purple Moon Holy Land with three faces and eight arms. “You can leave the holy land. Congratulations.”

“You can finally go to Universe Ocean,” said a male being with four faces and 16 arms. All his four faces looked exhilarated. “I’ve heard so much about Universe Ocean, yet I couldn’t go before. Fantastic, fantastic.”

Sou!

With great excitement, he started to fly out like a streak of light. He sometimes teleported, sometimes flew at a fast speed. Before long, he had flown out of Purple Moon Holy Land.

“Universe Ocean!” He looked at the endless chaos airflow and looked back at the giant holy land. The four-faced, 16-armed being was exhilarated. “I’ve been in the holy universe for 18 universe eras, and finally, I enter Universe Ocean. This is Universe Ocean! And there are three Lands of Extremis!”

This new universe master, “Pei Xing Master,” was excited.

“During the fight for the Duan Dong River inheritance, Deer Bug Master and the others died, so I had a chance to become a universe master.”

Pei Xing Master was exhilarated. A holy land could only withstand a limited number of universe master, rendering him and the others at the universe-knight level; they couldn't make a breakthrough.

But during the fight for the Duan Dong River inheritance, Deer Bug Master and a group of other universe masters died. That meant the "universe-masters-to-be" finally had a chance. And based on their power, Purple Moon Ancestor had allowed some of them to become universe masters.

"Finally, I can enter Universe Ocean." Pei Xing Master opened his black wings, and a suit of black armor covered his body as he gazed out at the endless space. "I, Pei Xing Master, will become something!"

Pei Xing Master was ambitious!
