

SWALLOWED 1391

Chapter 1391: Yuan

The entire human camp was astounded. The willpower shock that spread indiscriminately from Milky Way Horde Leader knocked 37 out of 39 universe masters unconscious, and only Void Gold Master and Bu Huan Master were still awake.

The entire Hong Alliance was dumbfounded! And the shock had been outspread. If it were to be concentrated, it would be horrific!

“Does that mean the willpower shock from Milky Way Horde Leader could finish off almost all universe masters?”

“Even universe supreme masters might suffer losses if they’re not careful enough.”

The seniors of Hong Alliance were all thrilled.

Primal Chaos City Leader gave a strict order: “Nobody in the Hong Alliance is allowed to leak this news. Only universe masters in the Hong Alliance can know about it, and if anyone dares to leak the news, he’ll be treated as a traitor!”

Milky Way Holy Land and the primal secret region were heavily guarded. Everything was concealed. Although many sector lords and undying fighters had lost consciousness, they didn’t know how terrific the willpower shock of Luo Feng was.

Primal Chaos City Leader stood on endless Remote Ocean, looked to afar and thought, Luo Feng, come back safely no matter what.

He understood that it was not easy to become so incredibly skilled. It could be inferred that Luo Feng might be in grave danger, as he was totally cut off from the outer world.

On the eighth floor of Wu Qi Tower in the World of Jin, purple light shone on Luo Feng’s godly body. Giant purple images were ingrained in each trace of his godly power.

Hong!

The willpower shock was spread everywhere.

“Phase three!”

“He has entered phase three! Only one creature in the World of Jin entered level eight, yet he failed instantly after the first try... I never expected such a miracle to happen in World of Jin. A law master entered phase three! He’s only one step away from the final success.”

“If he succeeds...”

“I’ve been waiting for this moment for an infinite amount of time.”

The being in the black couldn't help but be excited. However, he was also anxious.

"Don't fail."

"It's the last phase. Don't fail! A miracle has already happened. Will there be a second?"

He understood that the possibility of a creature in the World of Jin succeeding was almost zero! The so-called "sealing task" was only a dream. He was just there waiting for a miracle. But now, the miracle was happening.

Many talents had tried and failed. This was indeed a miracle!

Inside the picture world, the purple-horned strange beast looked at Luo Feng. It could tell that this law master was going through a nightmare.

"This is the bottom line. My master created this technique, and it's very demanding on souls. If you can't reach the bottom line, you'll die. Brat..." The purple-horned strange beast grew anxious. "Please, keep it up! Keep it up! If you can go through this, you'll be led to a new world."

Time flew, and during Luo Feng's practice of "Na Yin Technique"—especially at the third phase—he felt that his soul was being crushed. It was nearly annihilated. However, when he couldn't hold it anymore, his soul morphed a bit. During the third phase, his soul could quickly adapt every time it hit the limit.

Luo Feng couldn't help but wonder every time when he reached a limit, Am I naturally fit for this technique?

Maybe it was like Star Tower recognizing him as a master and resisting the willpower shock from the godly eye. However, learning Na Yin Technique didn't have much to do with willpower. After all, there were many supreme talents in the ancient civilization. Some of them had managed to attain the willpower level of eternal true gods, yet they had still failed. Willpower was only a part of Na Yin Technique; the soul itself was more important!

Luo Feng's soul was being crushed. Under Na Yin Technique, he quickly adapted and felt much more relaxed against the agony he had felt at the start.

Comfortable, thought Luo Feng. He started to enjoy practicing the third phase.

After 90 years of practice, everything was finished.

Hu!

Luo Feng opened his eyes with a smile. He felt incredibly comfortable.

The purple-horned strange beast lay directly in front of Luo Feng. Its giant face startled Luo Feng when he opened his eyes.

"Spirit of techniques, what are you...?" Luo Feng took two steps back.

The purple-horned strange beast stared at Luo Feng and whispered, "I'm just looking at where you come from. How did you succeed...? For what it's worth, congratulations that you're qualified to practice the technique created by my master." The purple-horned strange beast smirked.

"Who's your master?" Luo Feng couldn't help asking. Was it His Majesty the Godly King in the World of Jin? It didn't feel like it.

"Humph! Listen carefully," said the purple-horned strange beast. "Even though my master doesn't know who you are, he gave you the technique. Remember the name of my master! My master was called 'Yuan.' He was a real supreme being who wasn't bound by any powers."

"Yuan?" Luo Feng remembered the name.

"Okay. You finished Na Yin Technique, and you fit all the requirements. You're qualified to get the mighty technique created by my master." The purple-horned strange beast sighed. "I've lived for such a long time, and now, I can finally go back to the technique itself."

Hua!

The entire purple-horned strange beast disintegrated into light, flooding Luo Feng's mind. Mountains of information were injected into Luo Feng's brain.

In the space of the eighth floor of Wu Qi Tower, the being in black looked around anxiously. It had been almost 90 years, but he was finally relieved when the light around Luo Feng withered away and the star characters in the space rushed toward Luo Feng. He smiled in peace.

"I'm worth it now," said the being in black. Then he smiled and disappeared.

Luo Feng was the only one left on the floating island. He stood there, still.

After a long time, he opened his eyes. "The floor on the eighth level."

Luo Feng looked around. The characters had already disappeared from the space around him. After learning the information, Luo Feng now understood that those characters were scripted into his body.

"Yuan?" Luo Feng recalled the information about the technique he had just gotten, and he couldn't help but admire that being.

The technique was called "Lie Yuan Technique." It was an unremarkable name, yet it belonged to a supreme being in the ancient civilization. Lie Yuan Technique was also a willpower technique, but it was totally different from the Godly Eye Technique.

Godly Eye Technique required willpower at the level of a true god of void space, so Luo Feng was able to practice it now. Lie Yuan Technique required willpower at a consecrated level.

Godly Eye Technique was relatively inferior, and it was useful to true gods, true gods of void space, and eternal true gods. As for Lie Yuan Technique, it could drive even godly kings crazy. It was an exceptional technique. If His Majesty the Godly King in the World of Jin could practice Lie Yuan Technique and

achieve something, his power would surge, while Jin would suppress other powers. It was a technique that could change the power dynamic.

However, it had been created by Yuan, who was removed from power struggles. The technique had led to countless battles in the ancient civilization.

Even though Godly King of Jin couldn't practice it by himself, he had tried to let the talents under him practice it. They had all failed—until Luo Feng showed up.

Hong!

A pillar shot down and covered Luo Feng. Then he disappeared from the eighth floor of Wu Qi Tower.

Luo Feng arrived at the ninth level. This meant he had succeeded. He would gain Wu Qi God and be sealed.

“Huh?”

Luo Feng stood in a square palace. There were ancient sculptures on the wall, which were of a special style unique to the World of Jin.

“This is the ninth floor of Wu Qi Tower?” Luo Feng's eyes gleamed. Other than being sealed and gaining Wu Qi God, Luo Feng's other goal was to learn the secret hidden behind all this.

Suddenly, a voice came from the silent area in front of him.

“Come in.”

Chapter 1392: Luo Feng and the Godly King of Jin

Following the ancient and solemn passage, Luo Feng advanced along the secluded path. It was composed of numerous huge, squared stone slabs. Every slab had a different carving. No two sculptures were the same. Each was carved to so-called perfection. Even Luo Feng himself could not help but admire these sculptures every time he lowered his head toward the slabs. What might have looked like normal roads and courtyard walls were, in fact, rich with hidden luxuries.

Turning the corner, he saw a door that had been left open.

“Huh?”

With a single glance, Luo Feng looked beyond the door and saw that inside the room, there were some automaton components and weapon parts placed about casually and in a messy manner. Luo Feng walked to the door and saw a man wearing a beautiful robe. He was looking intently at several different automaton components placed beside him.

The man in the beautiful robe turned and looked toward Luo Feng. Then he smiled. “Since you are here, do take a seat first.”

Up ahead, was an exquisite black throne.

Luo Feng did not say a word. Obediently, he went to the throne and sat down. Since it was His Majesty the Godly King who had created Wu Qi Tower—and had designed so many difficult obstacles that had caused countless elite warriors of the World of Jin to perish one after the other—he must have had a goal in mind.

“This man...” Luo Feng took a careful look. “Strange. Even the virtual consciousness of the previous Duan Dong River carried an air of oppressive force. How could he not have even the slightest bit of oppressive force?”

It was as though Luo Feng was still a child and had run into an elderly old grandfather from his neighborhood. He looked at the man before him and could not help but feel a sort of amicable nature toward him. He had no fear. Instead, he felt very much at home.

“Impressive.” Luo Feng was secretly shocked. “Even with the strength of my willpower, I am still unable to control myself. I have already developed good-natured feelings for him.”

The man wearing the beautiful robe looked toward Luo Feng. “You must be very curious. Why did Godly King create this Wu Qi Tower? Why design so many difficult obstacles...? Now, let me tell you why. First, I have to tell you my identity... I am the Godly King of this World of Jin.”

Luo Feng was astonished.

His Majesty the Godly King!

He might have guessed as much, but he had not dared to believe it. This common-looking man, who bore the look of an ordinary grandfather from Earth, was His Majesty the Godly King?

“Technically, I am the virtual consciousness left behind by His Majesty the Godly King after he was gone,” said the man in the beautiful robe as he looked at Luo Feng.

Virtual consciousness? In his heart, Luo Feng was secretly shocked. But things were just as he had guessed; His Majesty the Godly King had truly died.

“You don’t seem to be overly surprised,” said the man, still looking at Luo Feng. “Seems like everything is within your expectations. I may have observed you from afar, but there is nothing else I can tell about you... But now I know, you are not a life form from my World of Jin.”

Luo Feng was inwardly shocked. He almost wanted to self-destruct right away. But on the outside, Luo Feng maintained a calm composure. “I am not exactly indifferent,” he said. “I do still feel shocked, but everything you just said was simply unbelievable. That is why I still maintain a dubious attitude. You say you are His Majesty the Godly King. Then you say you are the virtual consciousness left behind by the Godly King after he died... The noble Godly King is very far from me, and how could it be possible for him to die? Also, you mentioned that I am not a life form from the World of Jin. What do you mean?”

“Haha...” The man wearing the beautiful robe laughed joyfully. “No need to put up your guard against me. There is no need for worries.” He laughed again and said, “I will tell you everything in detail. Then you will understand.”

Luo Feng listened carefully.

“Back then...” A hint of recollection flashed in the eyes of the man in the robe. “It was a long, long time ago. I chose a hopeless road that seemed to lead to nowhere but doom, so before I set off, I created this Wu Qi Tower in my World of Jin and left the mission to receive a title. Even if I failed, then perhaps I would still have a shot at reversing the situation. Then I left. But only after I left a virtual consciousness here. One that had all my memories and thoughts. It was almost my essence in its entirety. The only difference was that it was not a true life form. Of course, even though I am this virtual consciousness, in my subconscious mind, I still think of myself as the Godly King.”

Luo Feng nodded to indicate his understanding.

After all, this virtual consciousness did possess all the memories and thoughts of that His Majesty the Godly King of Jin.

“After the Godly King left, I truly have no idea what kind of dangers he encountered,” continued the man in the robe. “After all, I was unable to establish contact with him.” He sighed. “Through my understanding of the World of Jin, I eventually found out, on a particular day, that the Godly King had been annihilated.”

“Wu Qi Tower has a total of nine levels,” he continued. “The ninth level is where one can connect to the core of the universe origin of the entire World of Jin. I frequent the core of the origin of the World of Jin, and the annihilation of Godly King inevitably led to a major change to the core.” He looked at Luo Feng. “Besides, I have concluded that you are not a life form from my World of Jin, because the moment you entered the ninth level, the core of universe origin that the ninth level was connected to did not acknowledge your presence. If you were a life form from within the World of Jin, then you would be regarded as a child of the World of Jin. Being acknowledged as one is automatic. Furthermore, you would also be unquestionably loyal to His Majesty the Godly King—willing to die for him.”

Luo Feng understood. It was just like how the life forms Nine Remoteness Master created paid absolute loyalty to him.

The same theory applied here. Life forms within the World of Jin would be absolutely loyal to His Majesty the Godly King. The four great commanders were no exception; just one order from the Godly King asking for them to sacrifice themselves, and they would comply without hesitation.

“Oh... Well, since you are aware of this, how do you wish to proceed?”

Luo Feng was growing increasingly wary. Killing him would be far too easy, given his opponent’s ability. There was no questioning this. But for a high and mighty Godly King to spend so much time telling him all these details, he must have had an agenda.

“You only need to take an oath,” said the man in the beautiful robe, laughing lightheartedly as he spoke. “In the future, when you become a great being at the level of a godly king, you must do your utmost best to kill the other three pinnacle existences.”

“Huh?” Luo Feng was taken aback. An oath?

The ancient civilization certainly had many oaths that reached deep within the soul. If an oath was broken, total destruction of body and soul would be the only outcome. It was absolute annihilation.

“When I become a great being at the level of a godly king?” Luo Feng was shocked into a flustered state. “I... I am merely a law master now.”

“Which is why you have no cause for concern,” said the robed man, shaking his head. “At the moment, all this is still far beyond your reach. You are unable to render any help to my World of Jin. This will just be a promise you give to me. A promise to be realized when you become a godly king. Fret not... Once you have given your promise, there are only good things awaiting you. If you choose to reject it, and choose to self-destruct, the moment you do so, I will have to annihilate your soul. I know that most life forms from outside my World of Jin have the ability to divide bodies.”

Luo Feng was dumbstruck. It seemed His Majesty the Godly King here had a great understanding of many things.

“I know more than you might expect,” said the man as he gazed at Luo Feng. “Make your choice then. To promise or to reject?”

Luo Feng laughed in a resigned manner, then said, “Do I even have a choice?”

What a joke. This had been left behind by a godly king. Luo Feng had to believe it was true. Even if he chose to self-destruct, the moment it happened, his soul would probably be annihilated, and his various other bodies would be annihilated at the same time. That meant absolute death. Moreover, the promise in question would only have to be fulfilled after he became a godly king.

A godly king, indeed! How distant that was! It would mean rising above an eternal true god. Luo Feng himself was not even sure he could cultivate to that level. After all, based on all the bits of information he had gathered, he had hypothesized that a godly king was likely comparable to the three generations of ancestors.

“I must verify that you mean everything you promised,” said the man in the robe, “and that your oath is true. After all, I am only a virtual consciousness. If I am cheated by you...”

He laughed, then pointed to the surroundings far in the distance. Instantly, up in midair, many strands of law engravings started appearing. In a short moment, the surroundings were encapsulated by a giant cage composed of countless law engravings.

Hong!

Misty cyan-colored light moved over to enshroud Luo Feng.

“This way, I will be able to track any trace of change in your soul,” the robed man said with a smile. “If you are not truthful, I will also—ah!”

The man in the beautiful robe suddenly stood up wearing a look of surprise.

Luo Feng was taken aback.

The man appeared awestruck as looked at Luo Feng and said, “You, you...”

“What about me?” Luo Feng was filled with doubts.

“Hahaha... Haha! Haha...!”

The man in the beautiful robe laughed loudly and without any inhibitions. With an incomparable satisfaction, he laughed.

Luo Feng felt all the more uncertain. What was the matter?

“Disperse.” The man wearing the beautiful robe pointed in midair, and the countless law engravings that were originally suspended in the void space completely dispersed.

“Your Majesty, Godly King, didn’t you want me to swear an oath?” Luo Feng said, at a loss.

“There’s no need to,” said the man in the beautiful robe. He smiled at Luo Feng. “Since you have already finished the cultivation of the Nine Volume Manual, there is no need for you to take an oath.”

“The Nine Volume Manual?” Luo Feng was greatly taken aback—so stunned that he lost all composure.

The Nine Volume Manual?

This... This was the manual that had truly changed his destiny. It was all thanks to the Nine Volume Manual that he was able to make it this far along his path as a great being. If not for the Nine Volume Manual, perhaps he would still have become a great being, but not to the extent of his current achievement.

The Nine Volume Manual, according to Teacher Sitting Mountain Guest, was a creation he had created, and it could only be imparted to a single cultivator. This chosen one had to be a life form from the pulse of the earthlings in order to be able to cultivate it.

“What—what is the...?” Luo Feng’s mind seemed about to burst with an overwhelming surge of thoughts gushing in endlessly.

Only an earthling could cultivate the Nine Volume Manual. And only one cultivator was allowed to cultivate it. If Sitting Mountain Guest had created this Manual. How... did His Majesty the Godly King know about it?

Yes. Luo Feng had been suspicious, even long ago, that the Nine Volume Manual was simply too formidable. Its creation was something that other true gods could never have achieved. Even Purple Moon Ancestor and East Emperor Ancestor—as well-informed as they were—had never conceived of the creation of such a formidable manual. And yet, Sitting Mountain Guest had created it without ceremony.

“What is it about the Nine Volume Manual?” Luo Feng pressed on.

“Haha! This Nine Volume Manual...” the man in the beautiful robe said with a laugh, “was a set of lost knowledge from my World of Jin that should never have been revealed. Upon cultivating it, not only will one’s godly body undergo a rapid change, but it will also be a great deal of help to the soul. It is a super set of knowledge that will bring about an absolute change in one’s talent in the area of comprehension. So long as one has cultivated the Nine Volume Manual, he would be the true core of my Jin nation. You have cultivated the Nine Volume Manual, so naturally, you belong to the pulse of my Jin... When you rise in the future, if you do not kill the other three, they will come after your life instead. So, most certainly, there is no longer a need for you to take an oath.”

Chapter 1393: A Gift from Godly King

No wonder Teacher Sitting Mountain Guest hadn't contacted him since he entered the World of Jin. Neither had he asked him about the World of Jin. Sitting Mountain Guest hadn't even entered the World of Jin.

All great beings in Universe Ocean are curious about the World of Jin, and there are no exceptions. Primal Chaos City Leader and other great beings from the Hong Alliance are all curious about it, and lots of them ask me questions. Yet Teacher Sitting Mountain Guest has never asked me about anything. I've been confused about how teacher Sitting Mountain Guest was able to create the Nine Volume Manual and Star Tower as only a true god!

Luo Feng felt that he knew a bit more about Sitting Mountain Guest now. Even though he still hadn't figured out much about the mysterious Sitting Mountain Guest, he at least knew now that he was somehow related to the World of Jin!

As for the core of Jin? Jin Country was destroyed, and the Godly King was dead. Those supreme beings who followed His Majesty the Godly King might have already died. Without a doubt, Sitting Mountain Guest was a true god. However...

Did Sitting Mountain Guest obtain an inheritance like me? Did he get the inheritance from His Majesty the Godly King, or from a supreme being under the Godly King?

Thoughts flooded Luo Feng's mind, and he temporarily pushed back the confusion. At least he knew more about Sitting Mountain Guest now.

Luo Feng's mind raced, yet he was still able to talk with the Godly King normally. "Your Majesty, who are the three supreme beings you talked about? I need to know about them first."

"Of course," said the man in the luxurious cape. "They are the three country masters of another superpower, 'Shi Country.'"

"Masters of Shi Country?" Luo Feng nodded but was confused. "Where are they now? Could it be... Was Shi Country destroyed?"

The remains he had found about the ancient civilization all concluded that they were from a destroyed civilization. Only the World of Jin was still intact.

"Destroyed?" The man in the luxurious cape looked befuddled. Then he sighed. "Yes. It has been a very long time. Shi Country may have been destroyed."

Luo Feng couldn't help asking, "Your Majesty, if they're still alive, how am I supposed to find them?"

Universe Ocean was too mysterious. Nobody had ever inspected the edge of it. That giant object that looked like the body of His Majesty the Godly King could have flown from a remote area of Universe Ocean! Could there be other creatures in the remote area of Universe Ocean? Were there other powers? He didn't know.

To true gods, Universe Ocean was unfathomably large. If they wandered too far, chances were, they would get lost.

“There’s no rush.” The man in the luxurious cape smiled. “When you become stronger, you’ll know more secrets. As for whether Shi Country has been destroyed or not, even if it has been, it’s impossible for all the three country masters to have died.”

Luo Feng memorized his words.

“Look.” The man in the white cape pointed at a ground close to him, and a machine appeared.

“What...?” Luo Feng said, looking at the machine carefully. It had a smooth body shaped like a monkey with a flexible tail. It sat there in silence. The power made Luo Feng’s heart race.

The man in the luxurious cape said casually, “This is the true god machine ‘Wu Qi God.’ It’s one of the beast true god level machines, and it only allows one great being to use it. It’s definitely a top-tier true god machine that can fully utilize your power. The only downside is that it consumes a great deal of energy. You already have an enormous body, but you still need to be careful. Don’t use too much godly power at once. Otherwise, it’ll take you a long time to recover your body.”

Luo Feng nodded, looking at Wu Qi God with eyes gleaming. A long time to recover? What a joke! He had endless Remote Ocean!

“If you finish the sealing task and become a sealed great being, you’re qualified to get Wu Qi God. This Wu Qi God is yours now,” said the man in the cape.

“Mine? But the military credits...” Luo Feng said, looking at the man in the cape.

Wu Qi God required 30 million military credits.

“Haha! For every task finished, you receive military credits!” laughed the man in the cape. “This sealing task is strenuous, so the prize is 30 million military credits. Do you really want some other valuable instead of Wu Qi God? You can make your own decision if you want.”

“No, of course, of course I will,” said Luo Feng.

So, this was how it worked. The prize for the sealing task was 30 million military credits, which meant the final prize was to give the great being Wu Qi God.

Wu Qi God... Luo Feng looked at the machine in front of him. Universe Ocean is in chaos now, especially after the four Lands of Extremis. Besides, the original mind guided us to this land! Great Thunder Star Master performed a form of power completely different from godly power... There must be a secret behind all these events.

Luo Feng felt that a storm was coming.

The more powerful I become, the better I can cope with this situation. Besides, I’ve journeyed through Wu Qi Tower, and I got many machine-type valuables and true-god level armors on the third floor from

those soldiers. I can go back and exchange them for military credits, then exchange them back for some valuables fit for my human race.

He was only one man, so he only needed several valuables, especially after he became a true god; he would only have one body, so he only needed a few powerful valuables. As for the majority of the machine-type valuables he obtained, he did that because he needed to think about the future of the human race! Of course, he wouldn't just give them away for free. Nobody could get anything for free.

Hong!

Luo Feng strolled to Wu Qi God and sealed his life imprint in it.

Hua!

This machine-type valuable, which looked like a black monkey, merged with Luo Feng's body immediately, transforming him into a human-shaped monkey with a tail, but the face was still Luo Feng's face.

"So complicated."

Luo Feng studied it a bit and could tell that the engravings were intricate—much more so than "Bib Bird" and "Golden Claw God."

"This is a true god level machine, and it's one of the most top-tier machines," said the man in the cape. "If you want to maximize its power, your comprehension of laws needs to be top-tier at true god level. Of course, even though you're only a law master, you can still use it. The power of this machine is divided into three levels."

Luo Feng smiled. There were three ways to use it, yet even the first way was more complicated than Bib Bird or Golden Claw God, let alone the third way. Perhaps he could only utilize the third way after becoming a true god.

"Put your Wu Qi God away," said the man in the cape. "I don't want those soldiers to know the secret behind this sealing task. That was why I used Wu Qi God as a shield to tempt those law masters and true gods. Actually, it's no valuable."

Luo Feng didn't argue. It was true. To the great Godly King, a true-god level machine was nothing, even if it was a top-tier one. However, he was a law master, so while he was a law master or a true god, Wu Qi God would be his best valuable. It might still be handy even after he became a true god of void space.

"Since I hope you'll become a godly king, I'll give you the practicing methods." The man in the luxurious cape shook his head. "However, I'm proficient in valuables making, but apparently, you are not. As for those fighting-type techniques, I'm not good at it. I've prepared an inheritance for you."

Luo Feng's eyes gleamed. An inheritance? The more, the better.

"Start comprehending it yourself." The man in the cape threw out a crystal glowing with black light. "I'm the only Godly King in Jin Country, so I can't give you the best inheritance in fighting. This is a combination of all the techniques obtained by me and the great beings working for me by killing others. It'll help you become a Godly King."

Luo Feng nodded and strolled to the crystal. It would take him a long time to receive the inheritance, though, so he would have to study it after leaving Wu Qi Tower.

“You need time to study the inheritance,” said the man in the cape. “Though Wu Qi God is very helpful, you could die if you come across a true god of void space. Which is why I shall grant you the strength of a world in the World of Jin.”

“Strength of a world?” said Luo Feng, dazed.

“You’ve finished the sealing task,” said the man. “You’re at the same status as the four generals, but only on the surface. The generals know that you are now the most important individual in the World of Jin. You have absolute authority in the World of Jin. If anyone dares to cross you, you can use the strength of a world to deal with him.”

Luo Feng looked pleased. “How powerful is this ‘strength of a world’?”

“You can suppress eternal true gods and kill any true god of void space,” said the man in the luxurious cape. “But don’t slaughter.”

Luo Feng nodded. “I understand.”

The Godly King of Jin treated him so kindly, all because he had gotten Lie Yuan Technique and he counted on him to kill the three country masters of Shi Country. After all, the Godly King of Jin had already died. He gave Luo Feng such authority because he had placed his hopes in Luo Feng—at least in the World of Jin.

“So I can use the strength of a world in the World of Jin?” Luo Feng was pleased. “Then the lives of all those great beings in Universe Ocean who entered the World of Jin are in my hands.”

The Godly King had only told him not to slaughter. That meant he could kill a reasonable number of beings.

“I’ve already given you everything I can,” said the man in the cape. “I am already dead. All this is everything I can offer you. You’re on your own from now on. It’s time for you to leave Wu Qi Tower.”

Luo Feng bowed to show his gratefulness. After all, the Godly King had helped him a lot.

Hong!

A light pillar arrived and hit Luo Feng. Luo Feng disappeared from Wu Qi Tower and was transported out.

Chapter 1394: Four Leaders and Four Generals

They had been waiting for this moment for a long time. Ever since His Majesty the Godly King left Wu Qi Tower, their sole purpose had been to find that peerless talent, which was more important than their own lives.

“It disappeared!”

“The sealing task disappeared!”

“The sealing task of law masters have disappeared! He succeeded! That soldier Milky Way must have reached the top of Wu Qi Tower!”

The four leaders in the palace were watching carefully at every moment. They could see the tasks in the four armies and Godly King Valley, but after Luo Feng entered the eighth floor of Wu Qi Tower, they didn't know what had happened. However, Luo Feng had been in there for a long time without coming out.

Their expectations were aflame. They were all staring at the task list, and they all cried out at once.

Shua! Shua! Shua! Shua!

The four beings disappeared from the palace and arrived at the ground floor of Wu Qi Tower.

Some of the true god guards around Wu Qi Tower were startled. It was quite rare for all the leaders to come out altogether.

“The leaders!”

“It's the leaders! All four leaders are here!”

The four leaders were looking at the front door of Wu Qi Tower.

“Why he hasn't come out?”

“He should've come out now.”

The four leaders were transmitting their voices and waiting eagerly. Little did they know was that the task had been rescinded when Luo Feng finished the eighth floor, and Luo Feng was talking with His Majesty the Godly King on the ninth floor.

After a long time—

Hong! Long!

The towering door was opened, and a soldier walked out.

“He has walked out?”

“In the endless time after Wu Qi Tower was created, the soldiers who survived were all transported out, and no one walked out of the front door. Besides, all the other soldiers were transported out a long time ago, yet this one stayed inside for a long time. Did he actually make it to the top?”

“The four leaders are greeting him. He must have succeeded.”

The true god guards had seen many soldiers go inside before, so they also knew something about Wu Qi Tower. They were indeed shocked.

Luo Feng saw four beings when he came out. A cloud of black mist, a towering male being, a silver-armored female being, and a strange beast great being. Four of them stood shoulder to shoulder and looked at him, elated.

“Um...” Luo Feng looked at those four, but he didn’t know what to say. He didn’t know any of them.

“We are the four leaders of Godly King Valley. We’ve been guarding Godly King Valley under the order of His Majesty the Godly King,” the voice of the towering leader rumbled. “Also, we’ve been waiting for a peerless talent who can make it to the top of Wu Qi Tower. Milky Way ‘Jin,’ we’re really glad that you were able to succeed.”

“Milky Way Jin, please come inside the palace.”

Luo Feng nodded. Then he followed the four leaders and walked toward the silver palace. The true god guards couldn’t hear their conversations.

The towering leader glanced at those guards. “Say nothing about today.”

“Yes, leader,” all the soldiers answered respectfully.

On the first floor of the silver palace, Luo Feng spoke with the leaders. He was surprised at how excited and enthusiastic they were.

They’re way too excited, he thought.

The cloud of black mist condensed into a blurry human shape. “We’ve been hoping for someone to reach the top of Wu Qi Tower for a long time,” it said. “We’ve waited for this moment for an eternity. It has been a great burden on us, and it has been pressuring us for such a long time. Every time we think about this, we just feel so sorry for His Majesty the Godly King. Now that you’ve succeeded, Milky Way, we can finally enjoy a sense of relief.”

The silver-armored female leader was sitting there, and there was a tear in her eye. “It’s been too long,” she said.

“Just wait here a bit, Milky Way. We’ve informed the four generals that you just made it to the top of Wu Qi Tower,” the towering leader explained. “The four generals are mighty, so they will be able to arrive here in a very short period of time. Just like us, for an eternity, the four generals have been wondering about the best way to screen and cultivate a peerless genius who could make it to the top of Wu Qi Tower. The four generals will also be excited and happy when they know that you have succeeded. They’ll want to meet you.”

Luo Feng nodded and smiled. “I’ve known about the four generals for a long time. I’ve always wanted to meet them, but I’ve never gotten a chance.”

As a sealed great being, especially someone who got sealed by reaching the top of Wu Qi Tower, he was at the same level as the generals—at least on the surface. Actually, he was superior to the generals and leaders.

Just as Luo Feng was talking with the four leaders...

Hong! Hong! Hong! Hong!

Four beings entered the palace.

Luo Feng saw two tribal great beings and two strange beast great beings. They were all suppressing their powers, yet Luo Feng still felt pressured by the invisible forces.

“Milky Way, this is the general ‘Harmonious Snow’ from the east army!” The towering leader said, introducing him.

Harmonious Snow was the gentlest one out of the four generals. He had snowy skin, and there were green patterns beside his ears. He looked elegant in that white armor, and there was a pupil between his eyebrows. He looked elevated and gazed at Luo Feng with all his eyes gleaming. “We’ve been waiting for this moment for too long. We’ve finally lived up to His Majesty the Godly King.”

“Introduce me now!” roared a giant strange beast with six faces. All six ugly and ferocious faces then smiled at Luo Feng. “I’m North—”

“No need to rush. I’ll introduce you all one by one.”

Luo Feng finally realized how keen the generals were. The four generals and leaders had been waiting for this moment for an eternity, and their sole purpose was to find a peerless genius that could reach the top of Wu Qi Tower. That purpose trumped their own practicing—even their own lives. They were all excited to find out that Luo Feng had arrived.

“Milky Way, you can go train yourself, but the World of Jin is enormous... And your power... You might not be entirely safe. I’ll arrange some true gods of void space to protect you in secret.”

“Milky Way...”

The four generals kept talking.

They literally treated Luo Feng as if he were an invaluable treasure; they feared something bad might happen to this precious commodity.

After half a day, Luo Feng left Godly King Valley.

“The leaders and generals...” Luo Feng said. “They even wanted to escort me back to the east army. They treat me like their children, and they’re willing to give me anything I want.”

Luo Feng could feel from the conversation that the generals and leaders were treating him like the inheritor of the Godly King.

“Back to the east army.”

Luo Feng sat in the silver boat and flew away.

When Luo Feng finished the Na Yin Technique of “Lie Yuan Technique,” both Remote Ocean body and Mosha body stopped spreading the willpower shock and became conscious. Primal Chaos City Leader, True Yan Knight, and others who were concerned about Luo Feng all contacted him. Luo Feng then briefed them on what had happened and made them understand the issue behind that. But of course, Luo Feng couldn’t share the big secret.

Teacher True Yan has the training guide from the ancient civilization, thought Luo Feng, and he’s already reached the level of a limit universe knight. He’s only one step away from becoming a universe master. I’ll have to give him a huge present after he becomes a universe master.

True Yan Knight was Luo Feng’s teacher, which was why he gave him many resources, so True Yan could improve himself fast.

Luo Feng was closest to True Yan out of all his teachers, followed by Primal Chaos City Leader, followed by Sitting Mountain Guest. True Yan Knight treated his disciple like family, while Chaos valued Luo Feng because he was a great treasure to humans. As for Sitting Mountain, he had other plans. Of course, all of them were teachers for whom Luo Feng was genuinely grateful. He wanted to pay them back, but Sitting Mountain Guest had never told him anything he needed.

True Yan, big brother Hong, and second brother Thunder God are all still undying, Luo Feng thought. For all these years, I’ve been fighting for the human race, but I need to care for the earthlings and my family now.

Luo Feng left Godly King Valley and raced toward the east army. It was a long way to go, and all the while, Luo Feng was studying Wu Qi God.

There were three levels of Wu Qi God. The first level was superior to Golden Claw God and Bib Bird. As for the third level, it was stronger than many machine-type valuables of true gods of void space, which was why it was the ultimate true god machine.

“It has taken me almost a day to fully understand how to use this Wu Qi God.”

A day was almost ten years in the space of inheritance. Luo Feng wore Wu Qi God, and his entire body looked like a monkey clad in armor, though it still had Luo Feng’s face. It turned black, and its tail was slashing.

“Burn! Burn!”

Luo Feng immediately burned his body and performed the second volume of Duan Mie at the same time. His energies surged and extended to the entire Wu Qi God. 16 cores of Wu Qi God were transformed at once, and each of the four formed an engraving picture. All the engraving pictures combined to form a virtual core inside Wu Qi God.

Hong!

Gleaming golden light filled Wu Qi God.

Sou! Sou! Sou!

Millions of phantoms of Luo Feng were left in the palace of Boat of Mausoleum. Then they disappeared.

“It’s too powerful.” Luo Feng was amazed. “With this Wu Qi God, I can give away both Golden Claw God and Bib Bird. With this valuable, those universe supreme masters in Universe Ocean won’t be my match even if they can get a machine type valuable.”

Luo Feng was confident, but he added in a whisper, “Wu Qi God indeed consumes godly power very fast.”

He was flying swiftly under the second volume of Duan Mie, and combined with driving Wu Qi God, it devoured his godly power. If he was still the same Luo Feng who only had a godly body of 100,000 kilometers, it might have been gone instantly. Fortunately, he had a large enough godly body now, but he still didn’t dare to fight for too long.

“No wonder His Majesty the Godly King told me it consumes lots of power even when he knew I had a giant godly body.” Luo Feng sighed.

Finally, after three months, Luo Feng arrived back at the east army.

Chapter 1395: The Killer Trap of Purple Moon Holy Land

Within the military camp of the East Army, where Python River Army was stationed, Luo Feng was leisurely flying in the sky above the lake as he passed by it to head toward his own island.

On an island beneath Luo Feng, two warriors were in the midst of a conversation when they raised their heads and saw him flew by.

“Look, it’s Milky Way.”

“He is Milky Way? I heard the captains of the six troops are all afraid of that Milky Way.”

Warrior Milky Way had made his way back to the military camp, and news spread rapidly within the sixth troop under the first main team of Python River Army.

“Warrior Milky Way from your sixth troop is back? My friend has heard of his name from way back then and would like to get acquainted with him.”

“He just got back to his own island.”

A red-faced warrior from the third troop of the first main team of Python River Army made a brief tour and soon caught wind of the news that Warrior Milky Way had returned. It was common knowledge that it was impossible for warriors within the military camp to spend all their time only on cultivation. Making friends and sparring with others were also extremely important, especially for warriors from special army troops who were highly reputable. Many great beings would be more than willing to befriend such warriors because warriors of this caliber had high chances of becoming true gods of void space.

The red-faced warrior quickly left the military camp of Python River Army and headed for the military grounds of another special army troop.

“Cheng Mu! Cheng Mu!”

The red-faced warrior looked down as he sent out a voice transmission that swept through the vast expanse of forest beneath him.

From a huge wooden house constructed entirely of numerous large, sturdy trees, a double-faced, four-armed man flew out. He was clad in a suit of cyan armor and raised his head to look. The moment he saw his visitor, he smiled and said, “Qu Hua, I was just about to go look for you, and here you are. I just cooked something delicious. Come and try it.”

“Cheng Mu.” The red-faced warrior dashed down from where he was. “Haven’t you been looking for that warrior Milky Way from our Python River Army?”

“Yes,” the green-armored man replied right away. Then he excitedly asked, “Is he back in camp?”

“Yes, he just got back not long ago,” the red-faced warrior replied with a smile.

The green-armored man revealed his delight. “I have long wanted to meet him, but whatever it is, nothing matters more than eating.”

“Good, good, good.” The red-faced warrior was suddenly filled with anticipation.

Universe Ocean, within Purple Moon Holy Land Universe.

In the palace hall, Purple Moon Ancestor sat in silence with his eyes closed as though he could just sit there for endless eras.

Beneath him, also in cross-legged positions, were various figures that took the form of either other bodies of gods or avatars sustained by godly powers. All of them were universe masters who had entered the World of Jin. Suddenly, from amongst them, a double-faced, four-armed man opened his eyes and shot to his feet.

“Ancestor!” the cyan-clothed man reported with great reverence, “I have received news that warrior Milky Way just returned to the military camp of the East Army. Right now, he is at Python River Army’s military grounds.”

The moment this was said, the other universe masters around him opened their eyes in shock.

“Huh?” Seated above them all, Purple Moon Ancestor opened his eyes. A trace of coldness flashed in his gaze as he looked down at the crowd beneath him. “If that is the case, then we shall all need to start preparing to act together.”

“Yes, Ancestor.”

The numerous universe masters beneath all responded positively to his orders.

Within the military camp of the East Army in the World of Jin, the universe masters of Purple Moon Holy Land who had joined the East Army were preparing for action.

Within Purple Moon Holy Land Universe.

A number of universe masters below started to speak up.

“Ancestor, it is confirmed. Luo Feng is indeed in the military grounds of the Python River Army.”

“Ancestor, we are already standing guard by the wormhole transportation point outside the military camp. The moment he comes out, we will all know right away.”

“Ancestor...”

“Very well.” Purple Moon Ancestor looked down and nodded with satisfaction. “Since this Luo Feng has already entered the military camp of the East Army, if we are to strike, we must make sure this one move will exterminate him. Cheng Mu... it’s up to you now.”

“Rest assured, Ancestor,” Cheng Mu Master replied deferentially.

Purple Moon Ancestor nodded in silence, but in his heart, he was silently saying, Luo Feng... even if you have the legendary inheritance of the pulse of Duan Dong River, so what? East Emperor, that old fellow! He is not qualified to vie with me, and you do not stand a chance in a fight against me either! Regardless of how impressive a talent you are, if dead, you are nothing more than useless.

World of Jin, military camp of the East Army.

In the vast forest found within the land where the special army troop “Swan Queen Army” was stationed.

The red-faced warrior was incredibly carefree as he swayed about in the form of flowing light. “This is so delicious. I have never eaten anything so delicious before when I was in the tribe. If I could frequently enjoy such delicious fare, I would prefer to spend half the time I spend on cultivation on eating instead. Cheng Mu, the next time you create such a marvelous dish, do remember to call me.”

“That’s for sure.” Cheng Mu Master tilted his head and laughed.

After the red-faced warrior left, Cheng Mu Master’s expression suddenly became quite stern. “Are we going to activate the killer trap?”

Cheng Mu Master was feeling an intangible pressure. As a universe master who had made it into a special army troop, Purple Moon Ancestor had handed a heavy responsibility over to him.

“I have given up every hope for a future in the World of Jin just to see to your death, Luo Feng. And you... You should be proud of that.”

Cheng Mu Master's heart was filled with resentment. He had long been familiar with the three most dangerous lands of Universe Ocean, but this World of Jin... Since the moment he first entered, he had been completely mesmerized. He truly did not want to leave.

However, the moment the deadly trap was activated, he, Cheng Mu, would no longer be able to come to the World of Jin again.

"Let's begin." Cheng Mu Master hesitated no further. Transforming into flowing light, he flew out.

The vast piece of forest was the military ground of the Swan Queen Army.

The Swan Queen Army was divided into two major groups. One consisted of law masters, and the other consisted of true gods. Both sides were completely isolated from one another. Right in the center of the military camp was a towering godly palace. Before the godly palace were a few guards. This godly palace was where the commander of the Swan Queen Army resided! Within the army, those who could assume commander positions of special army troops were all true gods of void space. Outside of the army, they would all have been overlords.

There were six guards before the godly palace. Two were true gods, and the other four were law masters.

"Stop."

"Stop. This is the commander's residence. Trespassing is prohibited."

The moment Cheng Mu Master descended, he said, "I seek an audience with the commander regarding an important matter."

"Warrior!" a true god guard shouted out. "You think our commander is someone you can meet so easily? Quickly take your leave."

"I have something very urgent that needs to be brought to the commander's attention," Cheng Mu Master said with great urgency.

Seeing how persistent he was, the two true god guards could not help but look at one another as they hesitated. After all, this warrior who had come forth was also a fellow warrior of their Swan Queen Army.

"Let him in," a cold voice resounded.

"Yes, Commander," replied the two true gods standing guard outside the palace. The guards looked toward Cheng Mu Master. "Enter."

Cheng Mu Master heaved a sigh of relief and entered the godly palace.

The palace seemed to be like a maze. The corridors were full of twists and turns, and there were chambers everywhere. Cheng Mu Master could only follow the path as he made his way forward.

After a short moment, Cheng Mu Master saw a garden. There were countless lovely flowers within the garden, and there was a beautiful lady with nine feathery tails that were green with a tinge of gold.

There were exquisite feathers all over her head, but her face was so striking that it stole Cheng Mu Master's breath away instantly.

"Is she the legendary Swan Queen?" Cheng Mu Master said to himself.

The Swan Queen Army had been created by this Swan Queen. To be able to establish a special army troop, one had to be a true god of void space. Over a long period of time, some true gods of void space might break through to become eternal true gods. So naturally, the true god of void space who was next in line would take over their place. However, a breakthrough was too difficult, so the majority of the true gods of void space would usually continue in their positions as commanders.

This was how it was like for this Swan Queen.

"Cheng Mu pays his respect to Commander," Cheng Mu Master said, bowing deferentially.

"What matter could be pressing enough for you to come here to see me?" Swan Queen's eyes were radiating green light as they gave Cheng Mu Master a once-over. "If you cannot tell me something that is really pressing, then you shall be dealt with the military way. You will be fed to my children."

Cheng Mu Master showed no hint of fear. He replied right away, "Commander, I have chanced upon a big secret."

"A big secret?" Swan Queen was still speaking in a casual manner.

"That warrior, Milky Way, from the sixth troop of Python River Army's main team," Cheng Mu Master said in a highly anxious manner. "He... He is actually from another powerful group from the outside world. He has snuck his way into our World of Jin. After I caught wind of this news, I was afraid that I would be annihilated. Thus, I did not dare to expose the truth. It was only after I returned to camp that I dared to report to Commander about what I found out."

"The outside world, entering my World of Jin?" Suddenly, there was a surge of murderous intent bursting out from Swan Queen's eyes. Any life form from the World of Jin would show absolute loyalty to the World of Jin and pure hostility to life forms from the outside world. Swan Queen stared at Cheng Mu Master. "Are you sure you are not lying to me? My World of Jin has not had life forms from the outside world visiting here for a long, long time."

"I would never dare to lie to Commander. How could I dare to lie about something like that?"

Swan Queen stared hard at him. "You must have evidence."

"I..." Cheng Mu Master started to get flustered. "I saw it with my own eyes, but evidence...? What evidence could I possibly have?"

"Based on nothing but a casual comment from you, I am supposed to investigate that warrior, Milky Way?" Swan Queen retorted coldly.

Despite her words, deep in her heart, Swan Queen had her suspicions. Even if this warrior under her command dared to lie to her, he would not tell such a preposterous tale. Who knew? There might have been truth to what he had said. Regardless, she needed to find some time to investigate and verify.

"I, I..." Cheng Mu Master was very anxious. "Commander, I truly saw it with my own eyes."

“Humph!” Swan Queen snorted coldly. “I shall spare you of your sin this time around. Take your leave.”

Cheng Mu Master was going crazy as he said through gritted teeth, “I saw him with my own eyes. He is a warrior from the outside world. Commander, you just have to execute your hypnotizing methods and make him fall into an illusion. Then naturally, he will tell you everything willingly. If there is anything untrue to what I saw, or he does not admit that he comes from the outside world even when he has fallen into an illusion, then I am willing to die!”

“Illusion?” Swan Queen was growing impatient as she said, “I don’t think I need you to teach me what to do. You may take your leave!”

“Commander! Everything I say is the truth. Nothing but the naked truth! If you are kind enough to spare him, you will put our World of Jin at a great disadvantage.” Cheng Mu Master was so frantic with anxiety that he started to glare. “Whatever I say, I am willing to die to prove the credibility of my words!”

Hong!

Suddenly, Cheng Mu Master exploded in his entirety. His godly power was annihilated completely, and thereafter, he was reduced to nothingness.

Swan Queen was shocked to have witnessed the entire scene. “Self-destruction? Using his death to prove his loyalty... I simply can’t believe this warrior could be loyal to such a degree.”

Through the years, there were many such warriors who were incomparably upright. She herself had come across quite a few. There were also quite a few who chose death to prove themselves, but this was the very first time she had witnessed a scene of self-destruction unfolding right before her very eyes.

“What a loyal and upright warrior. Such a pity.” Swan Queen shook her head with a sigh. Then her green eyes started to sparkle. “Could it be that there are truly life forms from the outside world in my World of Jin?”

Sou!

Swan Queen vanished into thin air.

Chapter 1396: Arrive

Outside Python River Army were two soldiers talking with each other beside the lake. They seemed to be at ease. One had three faces and eight arms, while the other had one face and two arms.

Hong!

A gleaming trace of green light suddenly slashed the sky. There was a trace of dim, golden light hidden in that green light. It sparkled like a rainbow in the sky.

“It’s Commander Swan Queen.”

The two soldiers gave each other a look. Both appeared pleased as they transmitted their voices to talk.

“Cheng Mu did it. Swan Queen came to Python River Army.”

“Tell our ancestor now.”

In Purple Moon Holy Land in Universe Ocean.

Purple Moon Ancestor looked down and gave an order. “Keep waiting. Once Luo Feng dies, tell me immediately.”

“Okay,” answered both universe masters.

Purple Moon Ancestor smiled and thought, The true gods of void space who can be the leaders of special armies, especially those true gods of void space who were capable of creating brand new special armies, are all exceptional. It’s been a long time since Swan Queen created her special army, and all the precious inheritance in the army was provided to her. Among the true gods of void space, she is definitely one of the top-tier beings. Besides, she is also known for her proficiency in illusions in the army. With her power, even I can’t rival her.

True gods of void space like these, who are skilled at illusions, must have had their willpower reach the level of eternal true gods—maybe even consecrated. No matter how powerful a law master is, he’ll be trapped in the illusions. Luo Feng indeed came from the outer world, so it’s easy to determine his true identity. Once this is revealed, his soul will be annihilated, which means he’ll be dead forever. Luo Feng, if you were less powerful, or if you were a true god, I wouldn’t care. Unfortunately, you have the inheritance from Duan Dong River, which poses a great threat to me. You can only blame yourself for that.

Purple Moon Ancestor smiled. Those universe masters realized that the ancestor was joyful because he knew Luo Feng was about to die.

In the World of Jin, the rainbow light was breathtaking. It was the symbol of Swan Queen.

“It’s commander Swan Queen.”

“It’s commander Swan Queen.”

Outside the palaces of “law master team” and “true god team,” two true god guards and four law master guards were on patrol, and they immediately identified the light. After all, the commanders in the special armies had lived for a long time.

In the World of Jin, those commanders weren’t afraid of anyone but the generals, so their temperaments changed. Some were low-key like ordinary soldiers, some were reckless and aggressive, some were brutal, and some just loved attention. True gods who had been in the special armies long enough all knew the temperaments of their commanders, so they didn’t dare to mess with them. After all, the commanders were far superior; they could just kill the true gods.

Hong!

A rainbow arrived. It was commander Swan Queen. She had a mesmerizing face, and her tail was exquisite. The two true god guards greeted her.

“Commander.”

“Commander.”

“Fire-Polishing Wu!” Commander Swan Queen raised her head, glanced at the guards, and stopped caring. After all, she always abused the soldiers working for her. She would punish them according to military regulations if they crossed her.

“Why are you here, Swan Queen?” A voice came out.

Swan Queen heard the voice. Then she walked toward a palace close to her. She had notified the commander first as a means of showing respect. Even though she, as Swan Queen, was aloof and looked down upon true gods and law masters, she treated other true gods of void space belong to the special armies with respect unless they were foes.

“Swan Queen,” said a being wearing fiery armor. All six of his eyes bore fiery patterns, and his eyes looked like scorpions. “You’ve only been here twice since I became a commander. The first time was to congratulate me for becoming a commander, and the second time was when you punished my soldiers. Why are you here again? Did one of my soldiers cross you again, so you want to punish him? It’s only a soldier. If you wish to punish him, you don’t need to come here personally.”

“That’s not the case,” said Swan Queen.

“Oh?” said Fire-Polishing Wu. “What kind of issue are you referring to?”

They both held extremely high status. Even true gods of void space masters of North True Ocean and Nine Smoke Marsh had to respect them. After all, this was the military, and they were commanders in special armies. No ordinary true gods of void space could reach that level. They roamed the World of Jin without fear, so almost nothing was a major issue to them.

“Listen to me. A soldier under my command, Cheng Mu, came to me and...” Swan Queen then described what had happened in a casual way, which got Fire-Polishing Wu thinking.

“A creature from the outside?” Fire-Polishing Wu was shocked. “Some creatures did enter here a long time ago, but I wasn’t even born yet, and nobody has set foot in here from the outer world since then. Could it be...? Are you sure?”

“I found it ridiculous at first.” Swan Queen sighed. “However, the same soldier killed himself to prove he was serious. He was so worried about the World of Jin that he committed suicide. Although I’m also not certain yet, I reckon we need to inspect it carefully.”

Fire-Polishing Wu nodded. It was indeed a serious issue. If a soldier had killed himself over it, how could they just let it go?

“I have the soldier Milky Way under me.” Fire-Polishing Wu nodded and closed his eyes. “I’ll check where he is. Follow me.” Fire-Polishing Wu went out, followed by Swan Queen.

There were islands in Python River Army, and each island only allowed one owner. Fire-Polishing Wu was the commander of the Python River Army, so he could easily check on which soldier corresponded to each specific island. He quickly found the island Luo Feng had selected.

On the island, Luo Feng sat on the rooftop of the stone house, and there was grape wine beside him. He appeared quite relaxed as he sipped at it.

Although he looked relaxed, his mind was focused entirely on Mosha body. Mosha body was currently studying Shi Wu Wing. Back when Luo Feng was fighting that white-caped man during the task he took in Wu Qi Tower, Luo Feng had created the blade technique at top-tier level seven, "Nine Days Path." Luo Feng thought that he could fully comprehend the third level of Shi Wu Wing now.

The first level is time and space in chaos, and the second level is Golden Country. How about the third level? Luo Feng thought.

Wu Qi God was different from Shi Wu Wing. Shi Wu Wing was for assistive use! It didn't make attacks directly. Besides, Wu Qi God and Shi Wu Wing could be used simultaneously as long as he wore a pair of wings! When wearing Wu Qi God, he only needed to wear a pair of wings!

Wu Qi God and Golden Claw God were exclusive with the armor. Anyone wearing Wu Qi God and Golden Claw God couldn't wear true god armors. However, Shi Wu Wing and those machine-type valuables were mutually exclusive. Luo Feng wore Force Armor and Shi Wu Wing at the same time.

"Huh?" Just when Luo Feng was studying Shi Wu Wing, with the "strength of a world" bestowed by His Majesty the Godly King, he suddenly felt two powerful ripples coming from the sky

Luo Feng looked up.

Hong! Hong!

Two beings appeared in the sky. One of them was elegant and colorful, and the other was wicked and fiery. Luo Feng looked up and saw two pairs of eyes. One pair looked high and mighty with even trying, and the other pair was green and seducing, glinting with hostility.

Hong! Long!

A power force arrived. The area was blocked, and the space around the island was surrounded by void.

Luo Feng frowned and thought, One thought created a void space? Are these two true gods of void space? Two true gods of void space showed up in the army. They might be commanders. Are they from the ordinary army or the special army?

All soldiers wore uniforms, so it was easy to tell which army they belonged to. However, commanders wielded a much higher status, so they wore casual garb. Luo Feng hadn't been qualified to meet commanders from the Python River Army before.

Hong! Long!

The powerful forces irritated Luo Feng. Fortunately, he had strong willpower. Otherwise, he would have been kneeling already.

What do these two commanders want? Luo Feng wondered.

He was in a different status with different power now, so he had a different attitude. If a normal soldier from the special army saw two commanders, they would have revered, not even daring to breathe loudly. After all, the commanders could kill soldiers recklessly and at will.

Hong! Hong!

Two of them landed on the island and glanced at Luo Feng. He jumped off the stone house.

“Humph!” Swan Queen said coldly. “Fire-Polishing Wu, look at this soldier of yours. A law master doesn’t show any respect to us—two commanders.”

Swan Queen was upset by Luo Feng’s attitude. Normally, soldiers greeted them with utmost veneration. However, Luo Feng was indeed a superior being in the World of Jin. Even the four eternal true god generals treated him as the center of the universe. Other than His Majesty the Godly King, he had the highest authority. With such high authority, Luo Feng wouldn’t just greet these two commanders with respect.

“That soldier is impetuous.” Fire-Polishing Wu felt upset as well, and he yelled, “Milky Way, we’re commanders! Have you forgotten what you’re supposed to do?” His voice rumbled in Luo Feng’s ears.

Chapter 1397: Between Palms

Swan Queen and Fire-Polishing Wu were on their high horse. Luo Feng frowned, but he understood why they were so overbearing.

They didn’t do anything wrong. The hierarchy was pretty strict in the army, and the gap between a law master soldier and a true god of void space commander was considerable. The commander could easily get away with killing a law master just because the law master offended him.

Ah, I brought this upon myself, Luo Feng thought.

After Luo Feng completed the sealing task, he had been automatically sealed, which was strictly confidential. Even the four leaders from Godly King Valley had only confirmed that Luo Feng had succeeded after seeing the sealing task disappear from the list. Apparently, they couldn’t find any news that Luo Feng had been sealed. His Majesty the Godly King didn’t want everyone to know about it.

While Luo Feng was still in Godly King Valley, the general of the East Army, Harmonious Snow, asked, “Milky Way, you were sealed now. Do you want to publicize it? If you do so, all four armies will know about it, and everyone will venerate you.”

“No need.” Luo Feng rejected the offer without a second thought.

In Luo Feng’s opinion, he was only a guest in the World of Jin, and he would leave this world silently without coming back. There was no need to inform all four armies about him being sealed. Besides, his enemies were those in Universe Ocean, whom he could easily deal with on his own.

Thus, Swan Queen and Fire-Polishing Wu had no idea who Luo Feng was. They had already been hostile toward him before coming here, and they were further upset by his attitude.

“There is no need to talk with him,” said Swan Queen, transmitting her voice. “He seems to be a creature from the outside world. If we hesitate, we might not be able to catch him. I’ll perform illusions and lure him out... If he is not a life form from the outside but actually a life from our World of Jin, we only need to punish him for being disrespectful. But if he’s a creature from the outside world, the consequences will be catastrophic.”

“Okay,” Fire-Polishing Wu said, transmitting his voice. “Do it, Swan Queen.”

The two commanders soon decided what to do.

“Commanders—” said Luo Feng. But as soon as he opened his mouth...

Hong!

Invisible yet mighty godly power immediately surrounded Luo Feng, trying to drag him into an illusion. It was a top-tier skill of true gods of void space, so no matter how impressive Luo Feng was, he wasn’t able to resist it. Fortunately, he held a different status in the World of Jin now.

Weng!

The strength of the World of Jin could be easily manipulated by Luo Feng. With control over this strength, he instantly sensed the godly power coming right at him. Luo Feng was shocked that the commanders had attacked him without any pretext. Luo Feng was infuriated.

“Break!” he yelled.

Hong!

The “strength of a world” of the World of Jin around him trembled, annihilating the incoming godly power instantly. Luo Feng was furious that the two commanders had attacked him without warning. He had originally desired to talk with them in a calm and reasonable way, but now, he aborted that plan. Instead, he waved his hands furiously.

Suddenly, a giant palm formed entirely by the “strength of a world” appeared directly above the two true gods of void space. Gray air flowed around that palm, and the patterns were visible.

Fire-Polishing Wu and Swan Queen were dumbfounded at the sight. “How...?”

Just as the commanders attempted to dodge it—

Peng!

The giant palm slapped down! Fire-Polishing Wu and Swan Queen felt like the entire world was pressing against them, rendering them defenseless.

“He’s only a law master... How...?”

The two true gods of void space were smashed into the ground, creating two holes.

“Get out!” Luo Feng yelled.

Hong! Hong!

The two beings flew out from beneath the palm. Commander Swan Queen, who had been mesmerizing, now had her feathers ruffled. She was tied by the ropes formed by flowing air. Fire-Polishing Wu was also in a sorry state, similarly tied up by ropes formed of air. The two of them felt utterly restrained. They couldn't even struggle.

"How...?" Commander Swan Queen and Fire-Polishing Wu fell to the ground and shared a terrified glance. Luo Feng had been able to defeat them instantly. He must have been Luo Feng an eternal true god—at least! Perhaps a top-tier eternal true god!

"That soldier Milky Way seems to be a law master, but can it be that he is actually an eternal true god? That's right. Only generals are able to tell a real eternal true god from others. A noble eternal true god is willing to disguise as a law master. He must be on to something. Chances are, he's a creature from the outer world!" Swan Queen and Fire-Polishing Wu concluded.

There were only a certain number of eternal true gods in the World of Jin. Even if someone had just become an eternal true god, they had to become so from a true god of void space. They, as commanders, should have known them. As for this soldier Milky Way? They didn't know who he was, yet he was able to defeat them instantly!

"Why are you here?" Luo Feng looked at Swan Queen and Fire-Polishing Wu coldly. "And why did you attack me? Why did you try to kill me just because I wasn't respectful enough?"

When that blurry godly power rushed toward him, Luo Feng didn't know whether they wanted to attack him with illusions or annihilate his soul. He didn't want to gamble.

"Who are you?" Swan Queen said. "A law master can't be this powerful."

"Is there really a great being this powerful in Python River Army? I had no idea!" said Fire-Polishing Wu.

They were both trying to stall time. As soon as they were defeated, they had sent a message to the general of the East Army, Harmonious Snow, at the same time. They thought that since they were in the East Army camp, and general Harmonious Snow was also in the camp, he could arrive here instantly. They only needed to stall for time until Harmonious Snow arrived. Then they could capture this spy.

"Huh?" Luo Feng frowned, looking at the void space in the distance.

Even though the two commanders were captured—and thus, the void spaces were broken—Luo Feng still blocked the surroundings around them with his strength of a world so that the soldiers outside couldn't see anything happening inside.

Hua!

A door appeared in the void space, and a being flew inside.

He wore silver armor and looked elegant. He had white skin, and he was flying toward the island. The aura of power around him was far stronger than that of the two commanders.

Swan Queen and Fire-Polishing Wu, who were tied up and kneeling on the ground, were exhilarated to see the general.

“General!” they both yelled.

“General Harmonious Snow.” Luo Feng turned around and smiled.

“Milky Way.” Harmonious Snow smiled and landed. He saw the two commanders tied up on the ground and yelled, “Swan Queen, Fire-Polishing Wu, why are you here?”

Swan Queen and Fire-Polishing Wu were stunned. They thought that General Harmonious Snow would surely fight this spy from the outside world once he arrived, but they seemed to talk with each other like friends.

“General Harmonious Snow!” yelled Swan Queen. “This soldier, Milky Way, might be a spy from the outside world. Be careful!”

“Be careful, General. Don’t be fooled by him,” said Fire-Polishing Wu. “He has the power of an eternal true god. No matter how good his story sounds, don’t trust him. Please, we have to check on his past, from when his birth, to him becoming a law master, up until now. We can only identify him after that. Don’t trust him so easily.”

General Harmonious Snow glanced at Swan Queen and Fire-Polishing Wu, instantly shutting them up. “I don’t need you to tell me what to do,” he said coldly. “Do you think you’re qualified to know who Lord Milky Way is? You have dared to cross Lord Milky Way... Let’s just hope he doesn’t kill you.”

Swan Queen and Fire-Polishing Wu were baffled. Lord Milky Way?

Of course, they immediately understood that Lord Milky Way held a high status and could kill them easily. However, they thought that generals were the noblest beings in the World of Jin. What kind of being was so revered by the generals that they called him “Lord”?

Suddenly, both Swan Queen and Fire-Polishing Wu realized that they had encountered some fundamental secrets.

“This, this...” Swan Queen and Fire-Polishing were terrified.

They could tell that General Harmonious Snow and Milky Way were chatting with each other, but they couldn’t hear a word they said, which made them even more terrified. They were afraid that Lord Milky Way might kill them.

“Milky Way,” said General Harmonious Snow. “You should’ve listened to me and publicized your true identity. As a sealed great being, no one will dare to disrespect you.”

“No need.” Luo Feng shook his head.

The World of Jin’s Godly King had high expectations for him, so he needed to be careful.

“What’re you going to do with them?” asked General Harmonious Snow.

To the World of Jin, two true gods of void space were nothing. Nobody could stop Luo Feng if he really wanted to kill them both.

“Ask them why they came after me first,” said Luo Feng.

“Okay.” Harmonious Snow nodded. He then transmitted his voice to the two commanders, who quickly explained how it had happened.

General Harmonious Snow turned around and looked at Luo Feng. “A law master soldier from in Swan Queen’s army, Cheng Mu, said that you’re a creature from the outside world. He went so far as to kill himself to prove it.”

General Harmonious Snow didn’t suspect Luo Feng whatsoever. He knew that this soldier had been affirmed by His Majesty the Godly King after a string of procedures. The Godly King was certainly intelligent enough not to let a spy be an heir.

Cheng Mu? thought Luo Feng.

Cheng Mu... Cheng Mu Master was a universe master from Purple Moon Holy Land. Purple Moon Holy Land must have thought that Luo Feng was a nobody in the World of Jin. They hadn’t even changed their names.

Beings from Purple Moon Holy Land? Luo Feng became aggressive. You want to kill me? Then I’ll kill everyone from Purple Moon Holy Land in World of Jin.

Chapter 1398: Cast One Net, Catch Them All

Purple Moon Holy Land had been treating him with such hostility time and again. Previously, they had intervened in the “primal universe internal war,” seeking to uproot and destroy the humans’ foundation once and for all. And now, they wanted to destroy him in the World of Jin.

“Luckily... Luckily I have received a title. If not, I would be caught unprepared. Being able to self-destruct to destroy my other bodies to ensure my survival is already more than what I can ask for.”

Luo Feng was a little intimidated during the aftermath of his situation.

If he did not receive a title, there could be two possible outcomes. One was to be directly killed by Swan Queen, which would be a true death without any second chance for revival.

The other outcome was that with his own willpower, he would have to grasp the few seconds he had to self-destruct before he fell into the illusion! If he could self-destruct, at least he could protect himself from death even if his two other bodies were destroyed. However, the treasures that he had brought along, such as Blood Ghost Blade and Boat of Mausoleum, would be gone—especially the Boat of Mausoleum, since there was a space of inheritance inside.

Of course, only an heir would be able to enter the space of inheritance! The space of inheritance was under the control of his other energy body, so even if it was seized by his opponent, that other party would still be unable to enter. However, while the other party was denied entry, his own earthling original body would also have no chance of entering; only his other energy body could continue to remain within this space of inheritance. And this space of inheritance was lost on the outside.

Harmonious Snow looked toward Luo Feng. “Milky Way, those two commanders, Swan Queen and Fire-Polishing Wu. How do you intend to deal with them?”

“Swan Queen and Fire-Polishing Wu?” Luo Feng frowned. It was clear that he was feeling some anger.

Harmonious Snow responded right away. “The two of them were not aware of your true identity beforehand. They took you to be an ordinary warrior, which was why they were that... Milky Way, would you, slightly—”

“Harmonious Snow,” Luo Feng interrupted him. “You may rest assured that I am not so extreme as to go after their lives. However, for pressing their luck and trying to go over my head, there is no way I can let them off easily. He nodded. “The punishment for them is very simple...”

Luo Feng had gone through the punishment once, but what he said made Harmonious Snow blink in disbelief. It was almost unimaginable for someone like Milky Way, who was a godly king, to come up with such a handling method.

“Do you get it?” Luo Feng asked.

Fire-Polishing Wu and Swan Queen were in a sorry state. They were both bound by ropes composed of condensed airflow, so there was no way they could move whatsoever. Both lay on the ground. On the surface, they were already a sorry sight, but in their hearts, they felt all the more anxious and flustered. The two could see Luo Feng and Harmonious Snow, who were not far away. Even if they could see the two in conversation, they could not hear a single word that was being discussed.

“Swan Queen, you really got me into deep trouble this time around,” said Fire-Polishing Wu, raging and furious.

“I am also in bitter trouble, too,” said Swan Queen, also unable to hold back her emotions. “How would I have known? From what I know, the four generals were the highest and most powerful of our World of Jin. Now, this Lord Milky Way has appeared out of nowhere! Our World of Jin is obviously not like what it appears to be the surface. It is much more mysterious. I just did not expect us to have to be the ones to chance upon this mysterious side.”

Fire-Polishing Wu shook his head in agony.

The Jin Dynasty might have fallen, but out of those formidable great beings who had followed His Majesty the Godly King out to battle back then, there were quite a few who were much stronger than the four great generals. Perhaps this Milky Way was one of the super great beings who had followed His Majesty the Godly King out to war and managed to survive...

“Let’s wait.”

“And pray we are spared.”

Fire-Polishing Wu and Swan Queen lay down, feeling hopeful. At that moment, General Harmonious Snow approached them from afar.

“General.”

“General.”

Both pairs of eyes lit up. They had been under his command for a long time, so they believed they should have a chance of surviving.

General Harmonious Snow walked over. Looking at Fire-Polishing Wu and Swan Queen, who were both lying on the floor, he said without further ado, "The two of you are lucky. Lord Milky Way does not want to take your lives."

Swan Queen and Fire-Polishing Wu let out sighs of relief. So long as they were spared, how good it would be to stay alive! If this had been a war with other powerful groups, losing their lives would not have been a big deal, but to die in their own territories would be a grievance too great to bear.

"Both of you might be exempt from the death penalty—but certainly not spared the rod." General Harmonious Snow looked them both in the eyes. "You both have accumulated a tremendous amount of military credits over countless years and have quite a number of treasures in your possession. Now... you shall be stripped of all your military credits and treasures as a form of punishment."

"Ah!" Both pairs of eyes widened in shock.

Heavens! How could this be? This... This—this was simply...

"Did you not hear me?" General Harmonious Snow frowned as he ordered, "Leave your treasures behind. Why aren't you both leaving?"

The ropes composed of condensed airflow on Fire-Polishing Wu and Swan Queen automatically broke down and dispersed.

"If you are not going to leave your treasures and depart, does it mean you intend to give your lives instead?" There was a hint of coldness in his eyes as General Harmonious Snow spoke.

How different Milky Way's status was! He was an heir highly regarded by His Majesty the Godly King. For His Majesty, sacrificing a warrior was not a loss worth lamenting, but the situation would be different for an heir. Two miserable true gods of void space, still hoping to bargain for more than their worth?

"Yes, yes, yes!" Fire-Polishing Wu said, first to respond. "Thank you, Lord Milky Way, for your benevolence. Thank you, General, for your help."

Hua!

All of a sudden, a pile of treasures appeared beside him. Within an instant, all of Fire-Polishing Wu's automaton type treasures, soul treasures, armors, weapons, and all other materials appeared before them. He kept none at all. Even the so-called suit of armor on his body, which was, at that moment, merely godly power in its condensed form.

"Mm?" Harmonious Snow looked at Swan Queen.

Although she was most reluctant, Swan Queen was unwilling to die. "I will leave mine, too."

Within a short moment, Swan Queen and Fire-Polishing Wu had left a pile of treasures. Then, now in a sorry state, they flew off. Their manner as they flew was no longer mighty, as it had been before. Swan Queen no longer left that compulsory streak of flowing, rainbow light she always had while flying;

instead, she flew off wordlessly in a most forlorn manner. No other warriors were around to witness such a scene.

“They are gone.” General Harmonious Snow said.

“Mm.” Luo Feng walked over and looked at all the treasures on the ground. He nodded and with a single wave, putting away everything before him.

“As for the military credits that they both accumulated, I will arrange for those to be transferred over to you.” General Harmonious Snow lamented with a sigh. “What a ruthless hand you dealt. For law masters and true gods, they are still able to earn military credits through the missions assigned by the army. But the moment they become true gods of void space, there are no such army missions anymore. If they want to earn military credits, it is incomparably difficult. Yet you took everything that they had painstakingly earned over the countless years away so swiftly and quickly.”

Luo Feng merely smiled. Of course, he knew. This was the reality in the World of Jin. Law masters and true gods were all assigned army missions, but to assign true gods of void space, who were commanders, with missions... For what? Could they possibly be assigned to kill other true gods of void space of the World of Jin?

This was why they were not assigned any army missions—unless there was some foolish true god of void space who dared to provoke the army. Then a few true gods of void space would be deployed to settle the situation. This was when a certain amount of military credits would be given out. But to provoke the army? How many of these true gods of void space would be foolish enough to dare to provoke the army? This was why, generally, the only way for true gods of void space to earn military credits was to command, lead, teach, and guide troops. Commanding itself was a contribution of service. Naturally, every different level of command would bestow these true gods of void space with different amounts of military credits.

However, accumulating military credits in this way was far too slow.

General Harmonious Snow left, too.

Luo Feng headed toward the military point. Just as he entered the hall, the world suddenly changed.

Hua!

A figure accompanied by a beam of golden light appeared before Luo Feng, and most deferentially, he greeted, “My greetings to Lord Milky Way.”

Luo Feng smiled. Every warrior coming in here would have met this figure with golden light. In the past, this figure bathed in golden light was completely hard-hearted, yet now, it was incomparably reverent.

“There isn’t a single warrior around.” Luo Feng looked around. The surroundings were void of everything. Apparently, Luo Feng had been led to an isolated domain.

“Lord Milky Way, this is the ‘ring of the military point.’” The figure bathed in golden light flipped his hand, and in the middle of his palm, an exquisite ring appeared. “Lord Milky Way may make use of this ring of the military point to enter the World of Military Arms anytime you wish. So long as you are within

the World of Jin, you may enter the World of Military Arms. There is no need for you to personally come down here to the military point.”

Luo Feng’s eyes lit up.

“The authority of Lord Milky Way begins the moment you receive this ring of the military point.” The ring flew from the figure over to Luo Feng.

With arm outstretched, Luo Feng received the ring. “I would like to look at information on all the warriors who are law masters and those who have joined the four major armies in the recent three eras,” he said. “Also, would you be able to simulate the auras of these warriors?”

“Of course,” said the figure bathed in golden light. “The life form’s aura is indeed the most accurate identification method to determine their identity. Of course, we can do a simulation. Lord Milky Way has enough authority for such a request.”

Suddenly—

Hua! Hua! Hua!

In the empty space beside him, figures started appearing one by one. All these were simulations of the warrior figures who had joined the four major armies over the recent three eras. At first glance, all of them made a mighty sight.

“That’s quite a big number,” Luo Feng muttered to himself. “Luckily, it is only three eras.”

Luo Feng was considered to be from one of the earliest batches. Since he had entered the World of Jin, only slightly more than two eras had passed. Warriors sent by Purple Moon Holy Land could certainly still be found within this time span.

“Let’s begin.”

Luo Feng quickly started checking through. How fast could the speeds of conscious calculation and godly power response of a great being be? Merely a moment had passed. He had very quickly made his selection.

“A total of 96 from Purple Moon Holy Land joined the four major armies,” Luo Feng said quietly.

In fact, Purple Moon Holy Land had sent more than what he had calculated. However, to be accepted into the army, the universe masters needed to first join the selections. No matter how amply prepared Purple Moon Holy Land was, there was no way it could ensure a 100-percent entry rate.

“These 96 of them,” Luo Feng contemplated. “If I want to kill them all... I must do it in one swift move. I cannot afford to take my time. The moment they are alerted, they will escape very quickly.”

“Mm? That’s not right!” Just as Luo Feng was deliberating on how he should kill these 96 universe masters from Purple Moon Holy Land, his expression registered a slight change. “If I kill them all this time around, won’t I be alerting Purple Moon Holy Land? Then, when the next era comes, will Purple Moon Holy Land still send universe masters in here?”

Primal universe, primal secret region, in the endless Remote Ocean.

“Teacher.” Amidst the mighty waves, a lone figure appeared. It was none other than Luo Feng.

“Luo Feng,” said Primal Chaos City Leader, looking at him. “You mentioned you have the authority to kill all the universe masters of Purple Moon Holy Land who are within the World of Jin?”

“Uh-huh.” Luo Feng nodded.

The Wu Qi Tower mission. The deal between the Godly King and himself. It was highly unlikely that Luo Feng would tell anyone else about these or several other factors.

“This Purple Moon Holy Land has always pitted itself against us humans,” Luo Feng said in a low voice. “If not for the fact that I am of a different status and authority level within the World of Jin, I’m afraid I would nearly have been played nearly to death by them. This time, I must take my revenge well. Let them, Purple Moon Holy Land, be unable to regain their strength and vitality within the next few reincarnation eras. But I was thinking, the second era has yet to end. Only a part of it has passed, so I’m guessing they will likely send in another big group during the third era. Now that the third era is nearing, when the time is right, I will cast the net and wipe them out once and for all!”

Primal Chaos City Leader’s eyes lit up as he nodded repeatedly. “Great! They used the first era to find out more about the place. The second era, they only sent in a portion of their universe masters. When the third era comes, they will send in another batch. By then, within our Universe Ocean, almost half of every group will be considered as having entered the World of Jin. To make a move, we do indeed have to wait until the third era!

“Also! Not only do we have to make a move against Purple Moon Holy Land, but we also need to make a move against the united forces alliance, which always seem to be fighting the human alliance. We may have the upper hand now, but to truly gain the absolute advantage, who knows how long that will take? Now that you are in the World of Jin, let’s finish off those in the World of Jin with one blow... The power of the demons, the bug soldiers, the automaton race, and several other races will definitely weaken. Eventually, they will no longer have the ability to resist.”

Primal Chaos City Leader’s eyes were sparkling with madness and anticipation.

Chapter 1399: The Third Level of Shi Wu Wing

“That’s right.” Luo Feng’s eyes gleamed. “Then we humans will have many more eras to develop ourselves.”

If the human team and the united forces alliance kept fighting each other, the humans wouldn’t have any advantage for billions of eras!

“Which is why, Luo Feng, a great responsibility now falls on your shoulders,” said Primal Chaos City Leader, “and this time, we have to make sure that we succeed in one shot.” He nodded. “The original universe period is the most important period for a race. After all, only the original universe can breed universe supreme masters. Once this universe era is over, no universe supreme masters can be born.”

Luo Feng was excited by what Primal Chaos City Leader had just described. If they could succeed, the bug race, the automaton race, the demon race, the prison race, and the crystal race would have to give up lots of territories. Then the humans would become the number-one race in the original universe!

At the Python River Army, in the East Army of the World of Jin, Luo Feng left the military point and went back to his stone house.

“Military point ring.” Luo Feng took out the delicate ring that had been bestowed to him at the military point. “Start!”

Luo Feng infused his godly power.

Hua!

The surroundings in the stone house changed, and a vast world showed up. A golden being arrived.

“Lord Milky Way,” said the golden being respectfully. “I am here at your service, Lord Milky Way. You can contact the core of the World of Jin. Lord Milky Way, I need to tell you first that I don’t have any valuables, but this military point ring can form a military point world. I only have some information inheritance. If you want weapons or machine-type valuables, it will take some time for the valuables to be transported here through space transportation.”

Luo Feng nodded. Space transportation was akin to god country transportation. However, it was impossible to enter a god country while in the World of Jin, so god country transportation was impossible.

“Let me check my military credits first,” said Luo Feng.

“Lord Milky Way, your military points are 661,500,” said the golden being. “Also, you have high authority, so you can get the maximum military credits. For example, if you receive 100,000 military credits in exchange for a weapon, you can also get the weapon back for 100,000 military credits.”

Luo Feng smiled. Ordinarily, the military point was unfair in its rates. A weapon that granted the contributor 80,000 military credits might cost 120,000 military credits to buy back. However, Luo Feng held superior authority, so the military point wouldn’t pocket the difference.

As for the six million military credits? Those were left by Swan Queen and Fire-Polishing Wu.

“They’re true gods of void space, and this is all they’ve got?” Luo Feng shook his head. “Let’s see how much these valuables are worth.”

Luo Feng threw out a large number of valuables: armors, weapons, machine-type valuables, valuables used to recover godly power, and so on... They were all valuables left by Swan Queen and Fire-Polishing Wu.

Hua!

The golden produced a trace of light that shone upon the weapons and armors.

“You can get 56,208,000 military credits in total,” said the golden being.

“Oh!” Luo Feng smiled. “More than 50 million military credits. Just as I expected, those commanders exchanged their military credits for valuables. However, all they have combined is only slightly more than the value of Wu Qi God. Not impressive.”

Luo Feng’s comment, which he uttered so haphazardly, would have infuriated any true god of void space. After all, only law masters and true gods could earn massive military credits. Once someone became a true god of void space, it would take them a long time to accumulate military credits; they could only gain military credits periodically as commanders. While they were still law masters or true gods, they could gain military credits quickly through catastrophe-level or incarnation-level tasks. Ordinary tasks only gave them valuables enough to recover their godly bodies.

Swan Queen and Fire-Polishing Wu had accumulated over ten million military credits after all those tasks. They had become true gods of void space, and they had accumulated these military credits, subsequently exchanging them for valuables. Yet everything had been seized all at once.

“Lord Milky Way,” said the golden being. “With your authority, you can read all the information you want. As for valuables, you need military credits to get them.”

Luo Feng nodded. “Give me the list.”

He had more than 60 million military credits! He could get lots of valuables. He immediately ordered many true god level valuables.

“20 true god level palaces! 20 true god level armors! 20 true god level weapons! 20 true god level domain type valuables! 20 true god level soul type valuables!”

“Wait!” Luo Feng was irritated.

Valuables? There were only a limited number of supreme true treasures in Universe Ocean? Was it because there were no supreme true treasures? No! Many great beings from the ancient civilization had died, and there were countless warriors in Universe Boat. That meant there should have been many valuables and weapons left by the deceased great beings. It was to be expected that over 1,000 supreme true treasures had made it out of the World of Jin. However, there were always only a very limited number of valuables in Universe Ocean.

Always a limited number? Luo Feng thought. Does the original mind keep it under control...? If this is the case, the original mind might do something if I bring too many valuables back...

Luo Feng then shook his head. Wait... This can’t be the case. The original mind guided us to the World of Jin. Apparently, it wanted us there. We are great beings from Universe Ocean, so naturally, we came here for the inheritance and the incredible valuables. Which means... the original mind wants us to get the inheritance and the valuables.

Luo Feng was baffled. The original mind kept the balance before, so there were only a limited number of valuables and inheritance. Why?

Why does it want us to be stronger? Is there a common enemy?

Luo Feng wondered about this. After all, the original mind couldn't make any attacks on its own. Nobody had ever seen the original mind make any attacks personally. Apparently, the original mind followed a specific operation law.

Luo Feng decided to only get 100 true god level valuables. He was intimidated by the original mind, so he decided that he wouldn't give those valuables away easily.

I'll keep some of them in storage, and I'll give some to the top beings in the human race, thought Luo Feng. Besides, I need to leave some for the earthlings, and I also need to prepare a small number for my family.

Not only was Luo Feng a member of the human race, but he was also the leader of the earthlings, which was a more important role for him! With the potential the earthlings had, it would easily account for 1/50th of the power of the human race. If Luo Feng helped them enough, it was likely that the earthlings could count for one-tenth, one-eighth, or even one-seventh of the total power of the human race.

Luo Feng was happy to see that. Of course, the earthlings needed to fight for themselves, and every accomplishment they would achieve would depend on them. He could only give them opportunities and inheritances.

It only took Luo Feng around three million military credits to get 100 true god valuables. As for the remaining military credits, he was in no rush to spend them.

Luo Feng could sense that the original mind had deliberately guided them into World of Jin, and if there was really a danger coming, he would get valuables based on how dangerous the situation would be. After all, he only had a certain amount of military credits, and once he used them all, he couldn't just threaten another true god of void space or ask the Godly King for help.

Milky Way Holy Land in the original universe.

"This Shi Wu Wing..." Remote Ocean Luo Feng was sitting there, and the ten wings were floating in front of him.

Remote Ocean Luo Feng infused his godly power into Shi Wu Wing, and he was studying carefully.

"Haha! I've finally understood it. The third level is indeed complicated. Normal great beings might only be able to utilize the third level after becoming true gods." Luo Feng sighed. Not every law master was as powerful as him. "The third level of Shi Wu Wing..."

Two traces of red light shot out of his eyes, shining upon the ten wings.

"Drive!"

White mist permeated from the ten pairs of wings and centered around Remote Ocean body and around the dimming black mist. An area of 120 square light years was covered by the mist. The white mist permeated, blocking the area from the outer world.

“This is...” Remote Ocean Luo Feng looked dazed. “Is this ‘one thought void space’? Burn! Burn!”

Remote Ocean Luo Feng was exhilarated. He tried to maximize the power.

Hong! Hong!

He kept burning godly power by using the second volume of Duan Mie so that the void space around Shi Wu Wing surged. Under Luo Feng’s control, the area could be enlarged and narrowed.

“This is ‘one thought void space.’ A simplified version of void space with a single thought.” Luo Feng was overjoyed.

Even though it was a simplified version, it was still much more powerful than a domain supreme true treasure, which made Luo Feng incomparably excited. A support-based valuable could be very helpful. After all, it was a new level of power added to his own power. Besides, domain type valuables were better at group attacks. Golden Country was only slightly weaker than domain supreme true treasures. But the third level of Shi Wu Wing was much stronger than domain supreme true treasures.

“What name should I give it?” Luo Feng wondered aloud.

Just as Luo Feng was trying to comprehend the third level of Shi Wu Wing...

On the shore of the vast lake of Python River Army camp in the East Army of the World of Jin, two soldiers lay on the grass, looking frustrated. They stared at the sky without blinking.

“Where is Swan Queen? We can’t find any trace of him. We’ve waited here for six days. It is said that Swan Queen always leaves a rainbow behind if she flies by.”

“There’s also no news that Milky Way has died.”

“What should we do? Our ancestor is waiting for the news.”

Chapter 1400: The Third Era

Purple Moon Holy Land.

“Go and check whether Luo Feng is alive or not!” Purple Moon Ancestor looked down and yelled.

“Ancestor,” said a white-caped universe master, groveling. “No soldiers from Purple Moon Holy Land are in Python River Army. Other soldiers aren’t allowed to be in Python River Army camp. Although we’re friends with two soldiers from Python River Army, we can’t just ask them to go to Luo Feng’s place.”

“Ancestor, Cheng Mu self-destructed, so there are no soldiers in Swan Queen army anymore. Nobody can check whether Swan Queen is back or not.”

“Ancestor...”

The universe masters were all telling the Ancestor how difficult it would be to find out the answer to his inquiry. After all, it was the World of Jin; even though there were almost 100 universe masters in the army, they were like drops of water in the ocean. It was impossible to find out anything.

“Humph!” Purple Moon Ancestor snorted.

Suddenly, a female with three eyes and eight arms opened her eyes and said, “Ancestor, a piece of news just came from the original universe.”

“Tell me!” Purple Moon Ancestor yelled.

The female answered respectfully. “It’s confirmed that the endless Remote Ocean is still lively. Apparently, that Luo Feng is still alive.”

“Still alive?” Purple Moon Ancestor looked irritated. In his opinion, it should have been easy to kill a universe master. He hadn’t expected any failures. He turned to look at Cheng Mu Master nearby. “How?”

Cheng Mu Master replied, “Ancestor, we don’t have a solid foundation in the World of Jin. Besides, all of us are law masters, so we have a low status. It’s difficult for us to check news or set someone up... We can’t find out why Luo Feng is still alive. After all, none of us are qualified to talk to Swan Queen.”

Purple Moon Ancestor nodded. He understood that although Purple Moon Holy Land was a holy land, the number of universe masters sent to the World of Jin was smaller than that in a tribe in the World of Jin.

“How can we kill him?” Purple Moon Ancestor considered. “Luo Feng entered from the outside. How did he earn the trust of the locals?” Purple Moon Ancestor was perplexed. “There must be a reason behind this.”

Time flew by. Luo Feng had originally thought that Purple Moon Holy Land would strike again, yet they didn’t do anything. Eventually, the third era arrived.

“Finally,” said Luo Feng, standing atop endless Remote Ocean.

“The third era has come,” said Primal Chaos City Leader in a low voice, but his voice was trembling. “Luo Feng, can you really kill that many universe masters in the World of Jin in only one shot? Those universe masters might be in different places, and if some of them die, other universe masters might panic, which means they’ll try to get away, or even self-destruct.”

Self-destruction was a method for universe masters who had multiple bodies to escape. Primal Chaos City Leader rarely questioned Luo Feng, but it was indeed a big deal this time.

“Have faith in me, teacher,” said Luo Feng.

“Okay.” Primal Chaos City Leader felt relieved. “Other than the humans, many other races have also joined the Hong Alliance. Some of them joined voluntarily, but others were forced by us... Besides, the

inheritance from the ancient civilization we offer is nothing compared to what is offered in the World of Jin. 36 universe masters from the Hong Alliance went in last time, and after those universe masters bring back news from the World of Jin, many more want to go, and there's no way we can stop them. Perhaps over 100 universe masters will go in this time."

Luo Feng nodded. Subsidiary races were after all other races. Although they followed the humans, they would also seize any chance to improve themselves. The World of Jin was a great opportunity.

"The united forces alliance..." Primal Chaos City Leader smiled. "Many from the united forces alliance have entered the World of Jin. And many more will go in this time."

"I understand, teacher." Luo Feng nodded, and his eyes glinted wildly.

This issue determined race territories. He couldn't be soft.

The bug race territory.

"Empress."

"Empress."

Twenty beings were standing in the palace, while the noble empress was seated.

"Even the humans can't control the races under them." Bug Empress looked down and smiled. "The great beings from other races in the Hong Alliance also long for this, so many of them will enter the World of Jin. We of the united forces alliance can also get in without any trouble." Then she added slowly, "This is the opportunity of a lifetime. There are many supreme true treasures in the World of Jin, and there are also wonderful machine-type valuables. Once we have those, we'll be much stronger. The competition in the World of Jin will determine which team in the original universe wins. Which means you must get as many inheritances and valuables as possible in the World of Jin."

"Yes."

"Yes."

"Yes."

All the twenty universe masters of bug race were enthusiastic. It was a tempting realm, this World of Jin—a world that belonged to them.

Demon race territory.

Shock Demon Ancestor's voice rumbled and echoed in the space. "Our united forces alliance is always being one-upped by the human team. We will eventually fail if nothing changes. The World of Jin is our only chance to turn things around! Compared to the World of Jin, the valuables we have now are a joke! In the World of Jin, there exist valuables thousands of times more precious."

There were towering beings in the surrounding area. Some were from the demon race, and some belonged to other races in the demon race alliance.

“Howl!”

“World of Jin!”

“Machine-type true treasures!”

Everyone was howling.

“Go,” said Shock Demon Ancestor. “Go get those valuables and inheritances!”

The entire united forces alliance had reached a consensus that the World of Jin was their only chance to turn things around. And besides that, the World of Jin was tempting to begin with. All the powers in the united forces alliance—the bug race, the demon race, the automaton race, the prison race, the crystal race, the Northern Territory Alliance, and the remaining members of the Freedom Alliance—all entered Universe Ocean, marching toward the World of Jin.

“This is our chance.”

“The World of Jin is the chance for Space Beast Alliance to have more universe supreme masters.” The old beast god looked down. “No matter how the united forces alliance fights the humans, we shall help neither. All we need to do is utilize the World of Jin to make us stronger.”

“Ooh!”

“Ah!”

“Stronger!”

All the space beasts were filled with expectation. Although they had chosen to stand with the united forces alliance when the human race was fighting them, they didn’t have any territorial conflicts against the humans. The old beast god had negotiated with the humans several times, and he had even leveraged his past relationship with Luo Feng, hoping to gain forgiveness.

The Space Beast Alliance had compensated the human race. Luo Feng had thought back to his past relationship and considered the fact that he had a golden horned beast body. The humans and the Space Beast Alliance were at peace now.

The Space Beast Alliance decided not to interfere anymore, opting to compensate humans. To the humans, they had fought alongside the united forces alliance mainly for territories! After all, the human race had long been at an advantage, so their opposition had no chance to occupy their territory. They were fighting because they wanted more territories, particularly some core territories.

The Space Beast Alliance, however, didn’t need territories at all. There was no reason to keep up the fight. As for the demon race and the automaton race, the only means of negotiation were for the demon race and the automaton race to give up all their territories and be left with only a small area in the

remote region of the original universe. After all, the demon race, the automaton race, the bug race, and the humans occupied the best territories in the original universe.

Just as the great beings in the original universe were all rushing toward Universe Ocean, three ancestral gods sat on thrones in Ancestral God Palace in the ancestral god secret region.

Weng!

A dim light filled Ancestral God Palace, and a giant whirlpool rotated above it. Three light pillars enveloped the three ancestral gods. All the guards outside kneeled down as they realized that it was the great original mind sharing a piece of information.

“This is the time... Go... Live or die... Only war! Destined... Incarnation...”

Messages kept being sent to the three ancestral gods beneath the whirlpool.

Eventually, everything faded away. The three ancestral gods, who had their eyes closed, gradually opened their eyes. They looked at each other, terrified.

“So... So this is what’s going to happen,” the youngest ancestral god said, shaking.

“Last time, I was confused as to why the great original mind had allowed that giant object to show up and why it guided them! Without the great original mind, countless great beings will die before they even find a way to enter the World of Jin. This... This is the reason behind all these.”

“It shows up in our incarnation era.” The double-faced ancestral god was also shaking. “This is a disaster. I’ve known for a long time that Universe Ocean was mysterious, and it’s difficult to inspect it. There’s too much we don’t know. I can’t believe it’s this catastrophic.”

“Even Huge Axe Founder was killed instantly. Let’s hope they got much stronger in the World of Jin and got more valuables to face this apocalypse.”

“Let’s go.”

“Let’s go tell all the powers in Universe Ocean.”
