

SWALLOWED 1401

## Chapter 1401: Sector Beast

In the vast Universe Ocean, where the chaotic airflow was incredibly thick and dense, a nine-story tower suddenly appeared amidst the chaotic airflow.

Within the tower, the 100 universe masters from the Hong Alliance had gathered. Regardless of whether they were plant life forms with countless lush branches and leaves or rock life forms surrounded by flames all over, these universe masters from the various powerful races were all part of the Hong Alliance. At the moment, they were engaged in conversation with one another.

“Ahead is where that humanoid massive life form is. We will be there very soon!”

In the frontmost area of the tower, Luo Feng and Primal Chaos City Leader were standing side by side, the other universe masters from the Hong Alliance did not dare disturb.

“The World of Jin will be the greatest opportunity for the rise of the human race.” Primal Chaos City Leader looked far out into the outside world, beyond Universe Ocean, and let out a sigh he said, “Previously, when Huge Axe was annihilated, I thought my fellow humans would face a daunting future. Who would have thought to see a silver lining among the clouds...? After we achieve this feat, our humans will well be on the rise, and there will no longer be anyone to stop us.”

Luo Feng nodded.

Hua!

Star Tower quickly flew right through the middle of the lips of that massive creature.

\*\*\*\*\*

Outside the miniature universe of the World of Jin, numerous palace type true treasures were suspended, all of which were troops of various groups of top powers within the Universe Ocean. A nine-story tower also made its way over.

“It’s Star Tower.”

“Milky Way Horde Leader’s Star Tower. The humans are here, too.”

“Milky Way Horde Leader!”

Various powerful groups suddenly redirected their attention.

Luo Feng stood within the tower as his gaze swept over the crowd outside. He whispered, “This is a little more than the previous time. With the third era, the number of universe masters seeking to enter the World of Jin is far more, I guess.”

Luo Feng was surprised as he looked into the distance.

“That is...” Primal Chaos City Leader said, also looking over.

“The Ancestral God School?” Luo Feng was shocked to see that, amidst the void space in the outside world, where it was relatively nearer to the miniature universe of the World of Jin, there were three figures. These three were none other than the three ancestral gods from the Ancestral God School, and all three of them each exuded endlessly oppressive power that was strong enough to overpower any true god.

“Why are the three ancestral gods here?” Luo Feng asked with a frown.

Beside him, even Primal Chaos City Leader was solemn as he replied, “Previously, during the initial entry into the World of Jin, these three ancestral gods appeared to advise the various groups of powers on how to enter the World of Jin. Now, all three are here again, and judging by the oppressive force they are exuding... Apparently, they are still in the favor of the willpower of the primal universe origin. They must be here under the orders of the willpower of the origin!”

Luo Feng nodded slowly as he stared at the three ancestral gods in the distance.

\*\*\*\*\*

After that, numerous troops arrived to realize that the three ancestral gods from Ancestral God School had appeared.

“The three ancestral gods?”

“Why are they here?”

“Judging by the oppressive force they are exuding, they must be representing the willpower of the primal universe origin. The only thing we are unsure of... is what they intend to do!”

The various powerful groups were filled with doubts. No one was afraid of the willpower of the origin, but neither did anyone initiate any provocation. After all, they had never heard of the willpower of the origin killing anyone independently, as long as they avoided provoking it. However, none of them dared to take this situation lightly—nor any piece of information about the willpower of origin. After all, even the most senior of universe supreme masters found the Universe Ocean mysterious and unfathomable.

\*\*\*\*\*

Time passed, and during this third era, various groups of top powers naturally made their way over as soon as they could. As if of one mind, everyone had made it a point to arrive slightly early. Because the period of time when the membrane walls of the miniature universe of World of Jin remained white was not long, it was necessary for them to arrive as early as possible.

“Attention, all!” The three ancestral gods stood amidst the void space. The aged ancestral god slowly spoke, and his voice resonated in every corner of the void space. “At this moment, almost all the representatives of the three reincarnation eras and two holy lands from the Universe Ocean have made it here.”

Suddenly, from within the numerous palace true treasures far away, many figures flew out. They were all great beings varying in appearance and form; there were thousands of universe masters, and a portion of them were universe supreme masters. All of them were gathering into scattered groups, looking at the three ancestral gods from afar.

“What do the three ancestral gods want?”

Luo Feng and Primal Chaos City Leader stood beside one another, and behind them. There were over 100 universe masters from the Hong Alliance. The various powerful groups were filled with doubts.

The three ancestral gods' gazes swept through the surroundings as the aged ancestral god continued: “We are here on the orders of the willpower of the origin, and we have something very important to inform you all... Do you know why this miniature universe, the World of Jin, which lies within the body of this massive creature, suddenly appeared in Universe Ocean?”

Silence. Everyone was listening intently.

“This...” said the aged ancestral god. “This was orchestrated personally by the willpower of the primal universe origin. It led this massive creature here. All the way from deep within Universe Ocean, it was led here by the willpower of the primal universe origin.”

Suddenly, there was an uproar.

“What?”

“Led all the way here?”

Even Luo Feng and Primal Chaos City Leader wore shocked expressions. This massive creature had flown all the way here from deep within Universe Ocean, and it had, in fact, been led all the way here by the willpower of the primal universe origin! Was this for real? Or was it just a ploy? A deception? Those who were present were all top-notch existences from Universe Ocean. They would never trust such words so easily.

“Previously, while you all may have discovered this massive creature, you were all clueless about how you could enter,” said the aged ancestral god. “If the willpower of the primal universe origin had not led the way, who knows how much time would have been spent? Who knows how many great beings would have to be sacrificed in the body of this massive creature before the final destination could be found?”

Everyone nodded.

Luo Feng was also in agreement. After all, it was indeed a very vast area in the body of that massive creature. Without guidance, there would surely be a great deal of places they needed to explore. Even if they did discover the World of Jin, after hundreds and thousands of attempts, always resulting in failure and annihilation, there would come a time when they would have to stop trying, albeit temporarily. No one would have known that entry was only possible when the membrane of that miniature universe was white. If there was no guidance, the powerful groups would certainly suffer some degree of loss, and the time required would be much longer.

“The willpower of the origin followed the universe law,” said the aged ancestral god. “When a catastrophe occurs, it will take it upon itself to beseech any glimmer of hope of survival for all life forms. This World of Jin is the place where the vitality of every living soul of the various groups of top powers from Universe Ocean can be found.”

“‘Catastrophe’ occurs?”

“What catastrophe?”

“Catastrophe?”

That word alone was enough to rouse the attention of the various groups of powers. The first and second reincarnation eras and all the great beings from the primal universe era were looking intently at the three ancestral gods.

The youngest of the three ancestral gods added in a loud and clear voice, “The primal universe breeds all life forms and all living souls. In this vast world, there are two sides to everything. If there is a primal universe that breeds all life forms... then, on the contrary, there will also be an existence that destroys all life forms.” The young ancestral god’s gaze swept across the surroundings. “This existence is called... Sector Beast!”

All the great beings fell silent. Gradually, they began muttering to themselves as doubts ran through their minds.

“Sector Beast?”

“The primal universe breeds all life forms and living souls? And the Sector Beast destroys everything?”

Even Luo Feng was filled with doubts. “Sector Beast? Seriously? Why have I never heard of its existence before...?”

The three ancestral gods seemed to know that the various great beings were stumped by this piece of news. They paused for a moment to allow the numerous great beings some time to process this information.

\*\*\*\*\*

In one quiet corner, among the great beings from the various groups of top powers from the Universe Ocean, a lone figure appeared. This lofty elder was seated atop a cyan-colored mountain peak. He was none other than Sitting Mountain Guest.

Sitting Mountain Guest had never entered the World of Jin. Neither was he the least bit concerned. However, the three ancestral gods had come forth, so here he was, too.

“Sector Beast?” Sitting Mountain Guest flashed a strange expression as he vaguely recalled. “Sector Beast... Could it have been born soon? If it was born, then, indeed, this is a major catastrophe in the making.”

“Come to think of it,” Sitting Mountain Guest whispered softly, “this is quite ridiculous. Sector Beast... What a pity...” Sitting Mountain Guest shook his head.

\*\*\*\*\*

The three ancestral gods’ gazes swept across the surroundings, and Double-Faced Ancestral God spoke up.

“Sector Beast is known to be the most terrifying life form that could be bred by Universe Ocean— unquestionably, the most terrifying life form! It was an existence that contradicted the presence of the primal universe. After an immeasurably long period of time, a single Sector Beast would emerge, and

when this happened... there would be a great catastrophe... For countless eras, within the entire Universe Ocean, why were there only two holy land universes?"

Double-Faced Ancestral God looked toward the various powerful groups. Suddenly, every great being present started speculating about why this was.

Luo Feng's heart stirred. How true. Over the course of countless eras, there should have been births of extraordinary talents. Two holy land universes were simply too few to start with. Could it be...?

"All of you are right," Double-Faced Ancestral God said, nodding solemnly. "All the earlier holy land universes were destroyed by Sector Beasts. When a Sector Beast completely emerges, it will destroy all the universes it comes across, regardless of whether it is a holy land universe, a miniature universe, or even... the primal universe!"

"Ah!"

"What, all the miniature universes? Even the primal universe, too?"

Everyone was shocked.

"The universe itself is not resilient and can only withstand attacks passively," Double-Faced Ancestral God continued. "Every living soul will undergo extermination, so naturally, everything within the universe will eventually be exterminated. However, the extermination of the primal universe is only temporary... It will be transformed back to its origin. Then, in the future, everything will again undergo evolution to become the primal universe again."

\*\*\*\*\*

In the Purple Moon Holy Land universe, as the three ancestral gods were talking to the various powerful groups, Purple Moon Ancestor immediately jumped out of his throne upon hearing the news

"Sector Beast?" he said. "The three ancestral gods mentioned that a Sector Beast is about to be born? How could it...? How could it turn out like this...?"

"Ancestor!"

The dozen universe masters kneeling beneath Purple Moon Ancestor were all perturbed with trepidation.

"Get out, all of you!" Purple Moon Ancestor shouted.

Fearfully, everyone departed.

Purple Moon Ancestor could hardly hide his anxiety as he said, "How could it be? It should be tens of thousands of reincarnation eras—or even more—before a Sector Beast is bred. I just became a true god of void space not too long ago. How could...? How could I be so unlucky...? What a timely coincidence to meet with the birth of a Sector Beast! I—I must make good use of time and quickly cultivate to become an eternal true god. Once I become an eternal true god, I will be able to fight against the Sector Beast, so at least my miniature universe will not be destroyed."

Purple Moon Ancestor and East Emperor Ancestor were both very flustered.

\*\*\*\*\*

In the void space outside World of Jin, the three ancestral gods were still speaking.

“The Sector Beast is still very small and weak now. While it is still small and weak, we should strike and kill it. This is the best opportunity for us! Once it grows up, all life during the period when it reaches maturity will be exterminated. Not a single survivor will be left. Even the primal universe will be temporarily destroyed and transformed back into its origin.”

“The World of Jin will help you increase your powers and collect more powerful treasures. Then you can use these to exterminate the Sector Beast.”

“It must be within this reincarnation era. No delay can be allowed! You all see that Universe Boat? Why was it created? It was for the purpose of dealing with that Sector Beast!”

The ancestral gods’ voices resonated within the minds of thousands of great beings from the various top groups.

### **Chapter 1402: Incubation Period**

Sitting Mountain Guest sat in a corner in the distance. He was listening to the story of the three ancestral gods, but he couldn’t help shaking his head and sighing, “They’re mixing lies with the truth, and they’re trying to scare all those beings from Universe Ocean. They claimed that Universe Boat was built to defend against Sector Beasts. What a joke.”

\*\*\*\*\*

Luo Feng and the thousands of great beings from all the powers in Universe Ocean were indeed terrified. Universe Boat had been created to defend against Sector Beasts?

“Of course, as for matured Sector Beasts...” said the young ancestral god in a clear voice. “Sector Beasts have two periods. The first period is an incubation period, and the second is a growth period. During the incubation period, Universe Ocean will breed one billion Sector Beasts.”

“What?”

“One billion Sector Beasts?”

“Isn’t there only one Sector Beast?”

All the great beings were shocked. They had surmised that there must be only one Sector Beast.

The young ancestral god continued, “Universe Ocean will breed one billion Sector Beasts, and they’ll fight and kill each other, eating each other. The process will decrease the overall number of existing Sector Beasts... Eating other Sector Beasts will make the remaining Sector Beasts stronger and stronger. Finally, when all the other Sector Beasts are dead, one Sector Beast will survive the whole process.”

Everyone held their breath. Luo Feng was terrified. One billion Sector Beasts fought each other, and only one was left. That Sector Beast would be a catastrophe.

“The Sector Beast who survives in the end represents destruction. It’s a real nightmare,” said the aged ancestral god. “If that Sector Beast enters this phase, it’ll be in the growth period. None of you from the three universe eras and two holy lands will be able to stop him now.”

“Once a Sector Beast enters the growth period, it can still devour everything, but it has a sector inside its body, which can breed creatures. Once it’s entered growth period, it can breed one powerful warrior after another.” The aged ancestral god sighed. “It’ll be truly invincible.”

“We must kill them during their incubation period. Though there are many Sector Beasts at incubation period, they’re comparatively weak, and they can’t breed powerful warriors as well. This is the best time to kill them,” said the aged ancestral god solemnly. “Go kill as many Sector Beasts as possible so that they don’t have a chance to eat others, then they won’t become stronger.”

“According to the great original mind, when this universe era ends, there’ll be only one Sector Beast left, and it’s the Sector Beast at growth period, the invincible Sector Beast.”

“We must kill them all before this universe era ends.”

Everyone turned silent.

Thoughts flooded their minds.

“However...” said double-face ancestral god. “Sector Beasts are still terrific during the incubation period. Universe masters can’t go. Otherwise, you’re just being suicidal. Only universe supreme masters can go.”

“Universe supreme masters?”

“What?”

“Universe masters can’t go?”

Everyone was dazed.

Almost all of the thousands of great beings who gathered here were universe masters, however, according to the three ancestral gods, universe masters were qualified to fight the Sector Beasts.

“Besides,” Double-Faced Ancestral God continued. “Even if you are a universe supreme master, you need a supreme true treasure armor and a soul type supreme true treasure to fight the Sector Beasts. Otherwise, you’re being suicidal. Of course, the best-case scenario is that you can get some machine-type valuables from the World of Jin. Then your power will be significantly improved. Remember, soul type supreme true treasures and supreme true treasure armors—you must have both. Otherwise, even universe supreme masters can’t go.”

\*\*\*\*\*

Listening to the ancestral gods talk made all the powers panic, including the Hong Alliance. The universe masters conversed among themselves, and they were all scared.

“How powerful are these Sector Beasts? And they are this powerful during their ‘incubation period.’ Only true gods can go fight them, and even true gods have to have soul and armor supreme true treasures!”

“We’re not their match. We can’t do anything to help.”

“So terrifying! We didn’t plan to go in the first place, and since we’re not powerful enough, we won’t risk our lives.”

If even true gods needed soul and armor supreme true treasures to protect themselves, who would dare to go?

Luo Feng and Primal Chaos City Leader gave each other a look.

Someone had to go. If no one went, then it would be destined that when all the Sector Beasts destroyed each other and only one survived, that one would breed a great many powerful warriors. It would take all the warriors it had bred to roam Universe Ocean. Such an event would be truly apocalyptic for Universe Ocean. Even the holy lands would be annihilated, so even if they could transcend incarnations before this universe era ended, it would be of no use, as the holy lands would be destroyed anyway.

Someone had to stand up!

\*\*\*\*\*

Suddenly, a thick voice said, “Where are the Sector Beasts?”

The young ancestral god glanced around and answered, “They reside in the core area of Tilted Peak Sector, the ‘Land of Darkness.’”

“It’s there!”

“It’s in the core area. None of us universe masters would dare to go there.”

“No wonder nobody is ever able to get out of the Land of Darkness. It’s where those Sector Beasts reside.”

Everyone memorized the name, “Land of Darkness.”

As for the Hong Alliance, Luo Feng and Primal Chaos City Leader were stunned.

“Huge Axe!”

“Huge Axe died in Land of Darkness. It’s... It’s in the Land of Darkness! That’s where the Sector Beasts live!”

Luo Feng was terrified. He now understood why Huge Axe had died so quickly. After all, Huge Axe hadn’t had a supreme true treasure armor or a soul type supreme true treasure. He didn’t even have a palace type supreme true treasure. The only thing he had was his godly axe...

“Sector Beast!” Primal Chaos City Leader stood next to Luo Feng, his eyes gleaming with hostility and fury.

Huge Axe had been like a brother to him. He was enraged to realize that Huge Axe had been killed by Sector Beasts.

\*\*\*\*\*

“It’s in the Land of Darkness,” said the aged ancestral god. “You have to go through the areas around the Land of Darkness if you want to transcend incarnations, which means that if you go transcend incarnations, you’ll be stopped and attacked. Besides, even if one of you can successfully transcend incarnations, your holy lands will be destroyed by Sector Beasts in the future anyway. If they stay alive, none of you can transcend incarnations. All of you will die.”

“They have to die,” the aged ancestral god continued. “Now, go. Go to the World of Jin, improve your power, and get as many true treasures and machine type true treasures as you can. The more powerful you become, the greater the chance that you can survive fighting Sector Beasts—or maybe even kill them. The more Sector Beasts you kill, the more you contribute to the original mind. For that, the original mind will bestow you with powerful valuables from the ancient civilization and ancient inheritances. You can get as many as you desire, as long as you kill enough Sector Beasts.”

The three ancestral gods looked at each other. They then went into the true treasure palace and flew away.

\*\*\*\*\*

The three ancestral gods left. However, all the great beings from all the powers in Universe Ocean were in an uproar. The tidings brought by the three ancestral gods were just horrendous, and the news made them realize that there were truly horrifying beings living in Universe Ocean. One billion Sector Beasts? And only one of them could survive? Sector Beasts had sectors in their bodies that could breed powerful warriors?

“It’s not just a Sector Beast. It’s a world,” Luo Feng whispered. “Once it enters its growth period, it can breed many warriors, and those warriors could destroy everything. If it enters the later part of its growth period, it might take all of Universe Ocean to destroy them!”

\*\*\*\*\*

Python River Army camp of the East Army in the World of Jin.

The earthling original body of Luo Feng was still sitting on the island.

Hua!

Luo Feng used his military point ring. The time and space in the stone hall changed, and a golden being appeared.

“Lord Milky Way,” the golden being said with a bow.

Luo Feng nodded. “I need information about Sector Beasts.”

“Sector Beasts?” The golden being thought for a moment. Then lots of characters appeared.

Luo Feng turned around. He had no doubt that the World of Jin was the remains of the ancient civilization. It did have the information about Sector Beasts. However, it was brief.

“Sector Beasts are very cruel and horrendous creatures. The birth of Sector Beasts represents destruction and annihilation! They have a powerful, dark sector in their bodies, where their bodies can keep breeding powerful warriors. The warriors produced are good at speed, good at defense, good at attacks, and highly skilled at self-destruction. And there are countless powerful warriors. The more powerful a Sector Beast is, the more powerful the warriors bred in its body will be... When a Sector Beast truly matures, it is a real apocalypse. Even the entire Jin Country at its prime couldn’t defend against a mature Sector Beast and the army it leads.

“It’s born for destruction. Every time one is born, it is either annihilated during the early period, or it destroys many powers, forcing the remaining powers to cooperate to destroy it. It’s the enemy of all powers. It has to be killed as soon as it’s discovered. Otherwise, it’ll exact an even larger price as time goes by.”

The information was brief. Dating back to when the World of Jin was first established, it had never come across a Sector Beast at its true prime, so it didn’t know much about Sector Beasts. There were only some legends about them.

Luo Feng was petrified. So terrifying!

The World of Jin had His Majesty the Godly King, and there were lots of great beings, countless eternal true gods, and true gods of void space—an army of countless true gods. It even had a machine type valuable that needed ten million true gods at the same time to operate it. Yet it still couldn’t defend itself against a mature Sector Beast?

It only documents Sector Beasts at their growth period, rather than the incubation period, thought Luo Feng. The growth period ranges from weak to mature. However, even during the weak period, we can’t resist them. We have to kill them all during their incubation period.

\*\*\*\*\*

In the space outside the World of Jin, true treasure palaces were floating around. Whether they wanted to enter the World of Jin for transcending incarnations or to kill Sector Beasts for survival, they all needed to gain inheritance and valuables to strengthen themselves from the World of Jin.

Suddenly, the membrane of the miniature universe changed to white.

“The color has changed.”

“We can go in now.”

“Let’s go in.”

“Let’s go!”

All the true treasure palaces entered the miniature universe of the World of Jin from every direction.

**Chapter 1403: Temptation**

“Go!” said Primal Chaos City Leader. “You all have the map of the World of Jin. You don’t have Luo Feng’s guidance this time. Hopefully, you can all pass the screening of the army.”

All the universe masters were respectful and flew out of Star Tower. The group of universe masters from the Hong Alliance then went into their true palaces and flew toward the World of Jin, through the universe membrane, and into the World of Jin. Some even flew there by themselves.

As time went by, those who had sent the great beings from the same power into the World of Jin all came back, yet Luo Feng’s Star Tower still floated in space.

“Luo Feng?” Primal Chaos City Leader turned around and looked at Luo Feng at his side.

“No need to rush.” Luo Feng nodded and smiled.

Hua!

A silver spaceship flew out of the World of Jin, and it flew toward Star Tower. It shrank as it approached Star Tower and flew inside.

“What is...?” Primal Chaos City Leader looked at Luo Feng, confused.

“I said I gained quite a lot in the World of Jin.” Luo Feng turned around. Golden Horned Beast, bathed in black light, walked in. “I’ve taken the prizes back.”

“Prizes?”

Primal Chaos City Leader looked pleased. He knew that Luo Feng had high enough authority to kill all universe masters that entered that World of Jin, and he was capable of doing that all at once. This was true authority. So naturally, getting abundant valuables from the World of Jin was a piece of cake for him. However, Primal Chaos City Leader wasn’t sure how many valuables Luo Feng had acquired.

“Ten machine-type valuables!” said Luo Feng. “And 100 true god level true treasures.”

Luo Feng didn’t seek to conceal it, as it wasn’t worth concealing. Compared to the huge amount of military credits he had, it was a drop in the ocean.

“That many?” Primal Chaos City Leader was dazed. He knew that it had been a rewarding trip for Luo Feng, but this was outrageous. “True god level valuables are supreme true treasures in Universe Ocean. 100 supreme true treasures? This is incredible. That’s equivalent to all the supreme true treasures of all the powers of Universe Ocean combined!”

Luo Feng shook his head. “That was before. With all these great beings now entering the World of Jin, the valuables in Universe Ocean will greatly increase.”

“That’s right,” Primal Chaos City Leader said with a nod. “We can’t just give them away easily. We have rules in our race. Luo Feng, you got all these valuables, so you have every right to decide how to distribute them... Individuals must pay a price for them or make a huge contribution to get them.”

Luo Feng nodded. “I have my own plan as well. Certainly, they need to make contributions.”

They were at the highest status in the human race. It was up to them to decide the rules among the humans.

“It’s time to go back.” Luo Feng looked at the space outside, took control of Star Tower, and flew outside.

Ever since being sealed and bestowed with the “strength of a world” by the Godly King of Jin Country, other than the Godly King—who had never appeared—Luo Feng had the highest authority in the World of Jin. He could easily get anything he wanted in the World of Jin without any trouble. After all, he could suppress even an eternal true god with the strength of the World of Jin itself!

Luo Feng could now shift his focus back to Universe Ocean and the human race. However, he left his original body in the World of Jin. For one thing, he could stay there to get valuables anytime. Plus, he could only be MIA for a short period of time. If he vanished for too long, seniors such as the four generals in the World of Jin would be worried.

“Boat of Mausoleum is back! I can also take Wu Qi God out. After all, I’m invincible in the World of Jin, so there’s no need for Wu Qi God. Golden Horned Beast is also back because there are many dangers in Universe Ocean.”

The earthling original body was preparing in World of Jin. He was waiting for the great beings from Purple Moon Holy Land and the united force to come in, but that could take several months. He decided that the date of the massacre would be one year later!

\*\*\*\*\*

The bug race territory of the original universe.

“Sector beasts? Could there truly be beings so terrifying?” Bug Empress sat on the throne and contemplated. “We haven’t fully prepared ourselves yet, so there’s no need to rush. Even if we rush there now, when we arrive outside the miniature universe of the World of Jin, the universe membrane may no longer be white. We must prepare ourselves. We’ll enter in the fourth era. We need to get as many valuables as we can.”

Actually, for all the powers in Universe Ocean, although many universe masters had entered the World of Jin, only a few true gods had entered. Each true god was the pillar of a race, and once a true god died, its miniature universe would crumble, and all the creatures inside would die. So when true gods thought about going to the World of Jin, they needed to exercise extra caution.

They also had their own desires, and the message from the original mind helped them make up their minds. Some entered the World of Jin. Some planned to wait and enter the World of Jin in the fourth era.

\*\*\*\*\*

In the original universe, at the center of the human territory, in the primal secret region.

“This machine-type valuable is so powerful.” Primal Chaos City Leader stood there. His entire body was engulfed in golden light. There were three pairs of golden wings on his back, permeating powerful forces. It was indeed a wondrous-looking machine type valuable. It was also a top-tier machine type

valuable Luo Feng obtained. "I can be two levels more powerful with this valuable." He shook his head. "No wonder the original mind asked all the great beings to enter the World of Jin."

"It has to," said Luo Feng. "Without the threat of the Sector Beasts, we wouldn't have even been allowed to find the World of Jin."

"That's right." Primal Chaos City Leader nodded.

While traveling back to the original universe from Universe Ocean, he tested the power of the machine-type valuable and was amazed. It might have been difficult for other human universe masters to acquire the valuables, but Primal Chaos City Leader had easily gotten a machine-type valuable, a soul-type supreme true treasure, a palace-type supreme true treasure, and a domain-type supreme true treasure from Luo Feng—all for free.

Primal Chaos City Leader knew that a storm was coming, so he didn't reject them.

"Luo Feng, you have made as many contributions to the human race as Teacher Origin," said Primal Chaos City Leader as he traveled back to the original universe.

"Teacher, you've been guarding the humans from within," said Luo Feng, "guarding and managing our race. You make our race prosper. This is the most important contribution."

When Primal Chaos City Leader was back in the original universe, he could only wield power at top-tier level six even with a machine-type valuable. But he was still thrilled about the valuables he had obtained.

"If Huge Axe had these valuables, he could have..." Primal Chaos City Leader sighed.

"Teacher—" But just as Luo Feng opened his mouth, he frowned.

Primal Chaos City Leader looked to the outside. "It's the three ancestral gods."

"Let's go."

Sou! Sou!

They both disappeared.

The three ancestral gods from the Ancestral God School stood above the endless Remote Ocean. Remote Ocean Luo Feng and Primal Chaos City Leader appeared together.

"Why are you here, ancestral gods?" said Primal Chaos City Leader.

The aged ancestral god said, "Chaos, we're here for Milky Way Horde Leader."

"For me?" Luo Feng frowned.

"That's right," said the youngest of the ancestral gods. "According to the original mind, even though Milky Way Horde Leader is only a universe master, he's the strongest great being in Universe Ocean."

"The strongest great being in Universe Ocean?" Primal Chaos City Leader was shocked.

This was coming from the original mind, so it carried great weight.

“With great power comes great responsibility,” said the young ancestral god. “The danger is coming, so we need great beings to deal with it. When we were sharing the information about Sector Beasts with all the powers from Universe Ocean, we told them that universe masters weren’t able to fight Sector Beasts. However, we were only talking about universe masters in general. That doesn’t include you, Milky Way Horde Leader.”

Double-faced ancestral god added, “Milky Way Horde Leader is the strongest great being in Universe Ocean. If you can’t defeat Sector Beasts, nobody can.”

“Even though you are only a universe master, you have multiple bodies,” said the aged ancestral god. “Even if one of them dies, this endless Remote Ocean can quickly make one. The only things lost would be some valuables. This is the crucial moment that decides the fate of all creatures in Universe Ocean. Milky Way Horde Leader, you have multiple bodies, and you’re the strongest. You’re the most suitable one to fight Sector Beasts.”

“No need to flatter me.” Luo Feng smirked. “This is only temporary. Those universe supreme masters haven’t got machine type valuables. Once they acquire some, their power will surge, then I won’t be the strongest. As for the Sector Beasts?” He shook his head. “I’ll decide whether I’m going or not.”

“Killing Sector Beasts is a huge contribution,” said the aged ancestral god. “You will be able to ask the original mind to repay you. If you make enough contributions, even ‘Teacher Origin,’ suppressed by the original universe, could be released.”

“What?” yelled Primal Chaos City Leader.

“Teacher Origin? Released?” Luo Feng was thrilled as well.

“That’s right,” said the young ancestral god. “The more contributions you make, the more you can ask from the original universe. It’s more difficult to ask the original universe to release Teacher Origin than asking for some machine-type valuables. The original mind says that once Teacher Origin is released, he can immediately make a breakthrough and reach a new level. Presently, he won’t be released and will be destroyed when this universe era is over; however, since the Sector Beasts are a threat to all the races, so if you kill them, you can release Teacher Origin.”

Luo Feng and Primal Chaos City Leader gave each other a look.

“Milky Way Horde Leader,” said the young ancestral god, “if you have any doubts, you can come to the ancestral god secret region and ask us. We can talk to the original mind directly and give you an answer. We won’t stay here for long.”

Then the three ancestral gods smiled and flew away.

#### **Chapter 1404: A Helping Hand from the Generals**

“This is a major crisis that could exterminate all races within the Universe Ocean and bring the human race to its end!” Primal Chaos City Leader told Luo Feng after watching the three ancestral gods disappear. “It may be important to help Teacher Origin regain his freedom, but compared to this major crisis, Teacher Origin’s situation seems mild. You must never, ever be influenced.”

“Also!” he added. “Now, you are merely a universe master, but your combat power is already quite powerful.” His brows furrowed as he frowned. “Once you become a true god, your power will definitely increase by a few more levels. By then, it will be much easier for you to deal with the Sector Beast, you will also be more confident! And now, the willpower of the primal universe origin is guiding you, encouraging you to go to war. Is it truly because... it earnestly wanted the Sector Beast dead? Or because it wanted to borrow the efforts of the Sector Beast to kill and destroy you? After all, other than Huge Axe, none of us really exchanged blows with a Sector Beast before. Known to be the existence that represents destruction, its attack methods should be absolutely terrorizing.

“Even if you have multiple bodies, if your soul is exterminated, then the various other bodies would perish altogether. If the willpower of the primal universe origin truly wants you to kill the Sector Beast, then you have no cause for worry. But if it intended to borrow aid from the Sector Beast to kill you, then you need to exercise extreme vigilance.

“This is where you can never let your guard down. After all, for countless years, even if the Sector Beast was truly unstoppable, at the very most, the primal universe would self-destruct and transform back into the origin; when the worst was over, it could still evolve back into the primal universe. The power of the primal universe... For anyone to truly be able to destroy it from the fundamental level, it is simply unheard of. If that was so, then why would it want to kill the Sector Beast? Is it for real? Or is everything merely part of a larger plot?”

Luo Feng nodded repeatedly as he listened. It was true. A Sector Beast represented destruction, but the primal universe represented life. A Sector Beast would take an extremely long time to be born, but the primal universe was continuously undergoing destruction and rebirth. In fact, it had never truly been destroyed before. This was because even a Sector Beast had never been truly able to destroy the primal universe.

“I understand,” said Luo Feng, nodding solemnly.

“After all, Teacher Origin is already suppressed,” Primal Chaos City Leader lamented. “If even you are being led to annihilation by the willpower of that origin, no matter how confident I am, I am still very much aware that in certain aspects, I will never be as good as you and Teacher Origin.”

\*\*\*\*\*

Luo Feng did not rush his way to the Land of Darkness. After all, according to what the willpower of the origin had openly said, it had to be destroyed before this reincarnation era.

What a lengthy unit of time a reincarnation era was; after all, Luo Feng had not even lived past ten million years. Compared to a reincarnation era, that was such a short period that it carried little significance. This was why Luo Feng had more than ample time to prepare.

At the same time, Luo Feng was also preparing for the upcoming “Big Sweep.”

\*\*\*\*\*

Another couple of days passed.

In the Milky Way Galaxy, within the Milky Way Holy Land, Remote Ocean Luo Feng sat in the nine-story tower floating before his eyes. Earlier, he had completed the comprehension of the third stage of Shi

Wu Wings. But, following the increase in the level of secret technique, even Luo Feng—who was on Star Tower—could roughly comprehend how much more profound the secret techniques were at the higher levels. He would likely stay here to study and comprehend. Luo Feng also hoped that, through his understanding and his grasp of the various other secret techniques, he could also boost his progress on the godly body path.

On the godly body path, all comprehension of life genes had, in fact, something common to the secret techniques, the Rhinoceros Emperor Game, and several others. They all had some degree of connection to one another.

“Teacher?” Remote Ocean Luo Feng suddenly stopped what he was doing. With a flip of his hand, he retrieved a communication token.

“Luo Feng.” There was incoming news, and it was sent by Sitting Mountain Guest.

Immediately, Remote Ocean Luo Feng grew serious. Ever since the fourth most dangerous land had emerged, Teacher Sitting Mountain Guest seemed to have disappeared and did not seem bothered about any of these anymore.

“Teacher,” Luo Feng responded.

“Those three ancestral gods must have already looked you up,” Sitting Mountain Guest said.

Luo Feng was taken aback, but still, he replied, “Yes.”

“Humph. Other than you, there is no one else they can look for,” Sitting Mountain Guest replied. “But you have to bear this in mind. Do not hasten into going over to the Land of Darkness. After all, that place is the nest of the Sector Beasts. There will be many Sector Beasts inside... If you are ready and have decided on when to go over to deal with them, come look for me before you go.”

Luo Feng was filled with uncertainty. “Teacher, over to your place?”

“You just need to remember to do so!” Sitting Mountain Guest cut off the communication line curtly.

Luo Feng was dumbfounded. “What is going on?” He frowned as he tried to make sense of his doubts.

Previously, Teacher Sitting Mountain Guest was usually considered someone with an even temper. He had always been very concerned about Luo Feng, too. But since the emergence of the fourth most dangerous land, Sitting Mountain Guest had changed. Even in the midst of such massive events, he had not bothered looking for Luo Feng at all. This time around, Teacher Sitting Mountain Guest made a sudden call to Luo Feng, and although it was merely a curt conversation with a single instruction, Luo Feng could feel that Teacher was, most likely, still deeply concerned about him.

“There seem to be some changes in Teacher’s temperament...” Luo Feng whispered. “Could it be due to the World of Jin? The Nine Volume Manual! It is a set of lost knowledge of the Jin Dynasty that was not supposed to be imparted to outsiders. Star Tower is a true treasure that was most likely created by a true god. I had my suspicions earlier on that Teacher was related to the Jin Dynasty. Plus, Teacher has ordered me to look for him before I go ahead to deal with the Sector Beasts...”

Luo Feng's brows furrowed as he sank deep into thought. He was no fool. Of course he could feel how mysterious Teacher was being, and he felt that the secret that Sitting Mountain Guest was keeping would be quite a big deal.

\*\*\*\*\*

Luo Feng cast everything aside. The most important thing that he had to prepare for at the moment was... the Big Sweep!

In a blink of the eye, one year had passed. In the World of Jin, at the military camp of East Army, at the base camp of Python River Army, Luo Feng was in the hall of his stone house.

"Ring of military point..." Luo Feng wore the ring of the military point on his wrist. Activating his godly power, there was a sudden change in the surrounding time and space, and a figure bathed in golden light appeared out of nowhere.

"Lord Milky Way," the figure bathed in golden light greeted.

"Show me simulations of all the law masters and true gods who passed the selections for the four major armies that I have investigated on so far," Luo Feng commanded.

Within the year, he had carried out as many as six rounds of investigations to ensure that he was constantly kept abreast of the overall number and any information about the great beings from the united forces alliance and Purple Moon Holy Land that had entered the World of Jin.

"Yes," the figure with golden light responded with reverence.

Hua!

Within the vast surroundings of the space originally only occupied by Luo Feng and the figure bathed in golden light. Numerous figures were rapidly appearing. These figures followed a very systematic way of queuing up. They all stood unmoving on the same spots, looking like fools while exuding their life auras. In the world of military arms, it was relatively easy to simulate life auras.

"Hmm..." Luo Feng looked around while carefully sensing with his godly power.

The basic appearances of certain universe masters remained the same. After all, the natives of the World of Jin had not seen them before, so whether or not their appearances were different did not matter much to them. This was why, by just searching with his naked eye, he could already discover a few targets.

"Keep these 61 and clear away the rest," Luo Feng ordered while speedily using his godly power to lock down 61 universe masters amidst the crowd.

"Yes," the figure bathed in golden light replied in reverence.

Suddenly, a large number of warrior figures started vanishing one by one, leaving behind 61 warriors who were law masters.

"Show me the list that recorded the time they entered the army," Luo Feng ordered.

He had just given his order when, instantly, above these 61 law masters, their accurate times of entry into the respective armies appeared in order of precedence.

“These 61 law masters arrived in batches.” Luo Feng looked and nodded his head in silence. “In total, they were divided into five batches, and the final batch entered two months ago. So, from two months ago until now, there isn’t a single one that entered the army...”

Based on what he had investigated over the course of the past year, during the first month of the third era, he had only set the average number of soldiers joining the army at twelve. From the second to eighth month, an outbreak was considered to have occurred. The number of soldiers joining the army was at its peak.

With the passage of time, at the later stage, the number was obviously reduced. Then, in the final two months, there was no longer anyone joining the army.

“Hmm. I suppose the numbers of universe masters from Purple Moon Holy Land and the united forces alliance are almost reaching their limits,” Luo Feng said to himself. “Throughout the year, Purple Moon Holy Land had a total of 110 universe masters joining the army. On the other hand, the united forces camp sent 166 law masters. This can be considered one batch. In total, Purple Moon Holy Land must have a total of 205 warriors still alive! And the united forces camp must have a total of 238!”

Luo Feng nodded as he thought it over.

“I suppose the majority of universe masters from Purple Moon Holy Land have charged their way in, and it is likewise for the united forces alliance, where as many as half of its forces may have barged their way here.”

It was undeniable that the two groups of powers attached great importance to this. Or, rather, every universe master harbored an intense yearning. If the number that was eliminated during the selections was also taken into consideration, then the number of universe master who came in was evidently much, much higher.

“Judging from the number of warriors, it’s quite obvious that the number being disqualified during the selections is not big.” Luo Feng nodded discreetly. “Seems like, during selections for the universe masters from my Universe Ocean, their death rates were much lower than those of the natives of the World of Jin.”

Luo Feng speculated that the various powerful groups would act in batches. Every batch would most likely bring along some treasures, and there might even be supreme true treasures among these treasures.

After all, some of the universe masters from the various groups who entered the World of Jin during the first and second eras had carried out exchanges with their races’ supreme true treasures at military points to ensure that they had maximized their benefits. It went without saying that many of the supreme true treasures within Universe Ocean were treasures at the level of true gods of void space. Even for those that at true god level, some of these were very unique.

By seizing the World of Jin, he would be able to exchange quite a fair number of treasures of a true god level.

“It’s time for action.” Luo Feng took in a deep breath as a glimmer of murderous intent flashed momentarily in his eyes. “The four generals.”

Luo Feng established direct contact with the four generals of the four major armies through the world of military arms. Merely a short moment later, four simulated figures appeared not far from Luo Feng.

“Milky Way.”

“Milky Way, why have you summoned us? That’s quite rare.”

Harmonious Snow and the other three generals had already acknowledged Luo Feng as the heir of Godly King, as they were aware that Luo Feng could make use of the strength of the World of Jin. They were also aware that His Majesty the Godly King greatly favored Luo Feng, so the moment he summoned them, they would naturally turn up without further ado.

“I want to kill a batch of law masters,” Luo Feng said in a straightforward manner.

The four generals were flustered.

“Kill a batch?”

“Kill how many? How many millions?”

The four generals were very worried, as they were reluctant to kill too many warriors so brutally. Such an event would bring about chaos.

Luo Feng laughed. “Fret not. Not even 500 of them.”

“Not more than five hundred!” The four generals could now laugh along with him.

Such an insignificant number of law masters! It would be equivalent to a normal fight within a random tribe, where the number of law masters who died was unknown. Fewer than 500—this was not substantial enough to trouble them into rendering their service.

“The reason why I am requesting that you four generals lend me a helping hand is because all these warriors, close to 500 of them in total, are scattered among the four armies,” Luo Feng explained. “My plan is to attack and kill them all in one move, and... my requirement is that these must be soul attacks. They are scattered all over the four military camps. Killing them all in one go is very difficult, so I can only consider it if I enlist the help of all four generals. If you all could execute your miniature universes together to enshroud the entire military camp, I would be able to eliminate all those souls directly in one go, and none shall survive.”

#### **Chapter 1405: You Deserve to Die**

Soul annihilation occurred at the same time, and none of them could survive. Luo Feng was indeed demanding, but this was the first time that he asked the generals for help. It was like the blink of an eye to the generals, so they wouldn’t say no.

“This is really a very easy task.”

“I don’t anticipate any problem with me finishing that.”

“Milky Way, please tell me all the life auras of those nearly 500 soldiers, and that is all that I need.”

The generals didn’t care at all. The World of Jin was enormous. 500 law masters were like a drop of water in the ocean.

Luo Feng nodded. He turned his head around and looked at the golden being beside him. “I have inspected those soldiers many times, and I have already located all those law master soldiers. Please simulate all of them. Based on the distribution of them in the four armies, send them to the four generals.

“Yes, lord Milky Way,” said the golden being.

The military point world in the military point rings used by the four generals showed figures of soldiers. They all had different auras, but they were all law masters.

“Fewer than 500 in total, but I have 201,” said Harmonious Snow from the East Army, smiling.

“I only have 60 in my North Army.”

The generals were conversing casually. Based on the locations, the East Army territory had the most great beings from Universe Ocean.

“443 in total.” Luo Feng looked at the generals. “Generals, please perform your miniature universe techniques at the same time. Once all of you locate the targets, notify me immediately. I have a communications token. I’ll send a message to all of you at once. When you get my message, you can perform soul annihilation on all the targets at the same time...”

“Okay.” The generals nodded. “Are you saying that we can start to locate them now?”

“Yes, now.”

Luo Feng nodded.

\*\*\*\*\*

At the East Army camp, Harmonious Snow stood above the camp, overlooking the army.

“Up!”

With one thought, a dimming and transparent membrane was formed around the army. The giant universe membrane seemed borderless, enveloping the entire army camp. None of the soldiers realized what was happening except for the true gods of void space commanders.

“It’s a miniature universe.”

“It’s our general.”

One true god of void space after another in the entire East Army was baffled. They weren’t afraid, actually. Eternal true gods were able to form miniature universes with a single thought, and they were able to wield enormous power inside those miniature universes. However, with just the force permeating from the universe itself, it was very difficult to kill a true god of void space.

“Be quiet,” the cold voice echoed in the ears of all the commanders. “Everything will go back to normal instantly.”

“Yes, general.” All the true gods of void space were respectful.

None of the law master soldiers or true god soldiers knew what was happening.

“I’ve found the targets,” Harmonious Snow notified Luo Feng. Soon after, the generals sent messages to Luo Feng.

“I’ve found the targets in the West Army.”

“I’ve found the targets in the North Army.”

“I’ve found the targets in the South Army.”

On the quiet island, the water in the lake kept splashing the shore. After all, the lake was larger than all the oceans on Earth.

At the center of the island, Luo Feng sat on top of the stone house. There was a desk beside him. On the desk were a wine cup and a token. Luo Feng poured himself a cup of wine and held it. Then he sent the message: “Do it!”

“Do it! Do it! Do it! Do it!”

The generals received the message at the same time.

Those four generals who were performing miniature universes wouldn’t have any mercy for those law master soldiers. They were already at an extraordinary level, so they had been through countless killings.

“Kill! Kill! Kill! Kill!”

All four generals condensed into a streak of godly power one after another, and those traces of godly power landed on the targeted soldiers while attacking them. If they were required to kill 100 million law masters or more, even the four generals were unable to do it at the same time. However, some of them were only required to kill around 50 of them, while the maximum that they were required to kill was only barely over 200. It was like a walk in the park for them.

\*\*\*\*\*

In the East Army camp.

“The order of Father God is that we must get more machine-type inheritances. Then the automaton race will become stronger.”

“But we need to adapt first. We need to get some military credits.”

The two great beings of automaton race were transmitting their voices with expectations in their eyes. Suddenly, their bodies stiffened.

Hong! Hong!

They fell down.

\*\*\*\*\*

On a gray planet in a remote territory of the original universe, the holy land “Ancestral Star” of the Pattern Shell race.

“Ancestor.”

“Ancestor.”

“Ancestor.”

Undying fighters, sector lords, and six universe knights were groveling, listening to their ancestor talk.

“All of you sitting here represent the core of my Pattern Shell race, and you are the hope of our race. I have found the mysterious inheritance from a faraway and dangerous place. With this mysterious inheritance, our race will become much stronger. I’ll leave it to you first.” The voice came from a seated elder being. It had black wrinkles everywhere on its body two firm antennae on its forehead. “Consider this carefully.”

He immediately separated part of his godly power and gave it to the elites in his race.

This was a powerful race in the original universe, but it was nothing compared to pinnacle races. He immediately passed the precious inheritance to the great beings within the race in case the top being died and weakened the entire race.

Just as he was sharing his knowledge, Pattern Shell Ancestor suddenly looked terrified. Then he went silent, and his life force quickly withered away.

The core great beings who were mesmerized in the midst of the inheritance all opened their eyes. However, they could tell that the life force of their ancestor was no more, and the valuables their ancestor had given them became ownerless.

“Ancestor!”

The entire Pattern Shell race was in a panic. Without their ancestor, their status would be quickly reduced, and they wouldn’t be qualified to occupy such an enormous territory anymore. However, in their opinion, their ancestor was quite powerful and had multiple bodies; how could he die so easily?

\*\*\*\*\*

In a space in the original universe.

A strange beast with three beautiful heads and a hoarse voice floated in space, and the area around it rippled.

“They dare to defy me? We’ve joined the united forces alliance. Those weak races are nothing! How dare they defy me? Disciple, go and destroy that Hua Tong race!”

Another strange beast with three heads was groveling. “Yes, teacher...” It raised its head and saw that the great being floating in space had instantly lost its life force. Its heads all fell down.

“Teacher, teacher...!”

\*\*\*\*\*

Some of the universe masters died silently; some died in front of others; some of their bodies disappeared; some of their bodies fell. Some were the leaders of their races, and some of them were the seniors of races.

\*\*\*\*\*

In the World of Jin, Luo Feng held the wine cup, sipping. He saw scenes flashing in front of him. Some races were yelling as they were being slaughtered. Others were moving.

One universe master after another died. Some of the races only had one universe master, and with their universe master dead, their fate would become very miserable. They wouldn't be able to stay in the territories where they resided for long, because they didn't have that power to maintain the territory anymore. The fate facing them was grim.

Luo Feng then saw other scenes. In the human territory, trillions of life forms were crying. Mothers were carrying children. However, they were immediately annihilated.

Many planets in the human territory were conquered, and the humans living on those planets fled.

“Too many... This is how it works among races.” Luo Feng muttered, holding his cup of wine. “When I was still weak, I saw that spies from other races would just self-destruct and destroy entire planets, killing all the humans after they were found. The four pinnacle races treated the outer-domain territories like warzones. They slaughtered all the races living in outer-domain territories. Fight! Survival!”

Luo Feng would do whatever it took, no matter how cruel, to survive.

This was already the ideal outcome. He had killed all those universe masters at once, rendering the entire united forces alliance weaker than ever, forcing those races to move away after finding that their leaders were all dead. They would have been the ones best suited to save their races.

If they kept fighting the humans, the humans would become stronger. And when the humans were able to trump them all, they would start slaughtering all the races instead of just killing some universe masters. Of course, this result was destined to render those races pathetic. They needed to run, and they might be attacked by their enemies.

\*\*\*\*\*

“Milky Way, all the targets have died.”

“Milky Way, all the targets have died. Some of them didn't have souls, but they were killed anyway.”

“Milky Way, no one survived.”

Luo Feng received the message from all the generals. He trembled. Finally, finally... He didn't appear happy about the ending he'd been waiting so long for. There was a trace of cruelty glinting in his eyes.

He then poured himself another cup of wine, swirled it, and poured the wine out... He looked at the wine and muttered, "You deserve to die for the humans!"

### **Chapter 1406: Screech**

In the original universe, in the sky above the endless Remote Ocean, in the primal secret region—which was the center of the human territory—water pillars condensed to form a being. It was Luo Feng, wearing a fiery cape. Another being stood in the space beside Luo Feng. It was Primal Chaos City Leader.

"How did it go?" Primal City Leader asked.

"All 443 universe masters in the army," said Luo Feng, "are dead."

Primal City Leader's eyes gleamed, and he yelled, "Fantastic!"

\*\*\*\*\*

In the virtual world of Dream Ancestor's secret region in the demon race territory.

There was a dimension in the virtual world, and a vast mountain was surrounded by clouds and mist. A giant silver snake swirled and flowed, living inside the mountain. Aside from that giant silver snake, many universe masters from the demon race lived in the endless mountain. There were also some universe masters from the subsidiary races of the demon race living alongside them. Although more than half of the universe masters had entered the World of Jin, all of them had left a body or a godly power avatar in the original universe. With those bodies and godly power avatars, they could easily connect to the virtual world, and through the virtual world, they were able to communicate with Dream Demon Ancestor anytime they wanted.

"No need to worry, the tasks are not..."

Three universe masters from the demon race alliance had gathered together, and a flying beast with gray bones was talking. The other two universe masters were not from the demon race. Suddenly, that strange flying beast looked terrified. Then it disappeared from the virtual world.

"Why did it leave the virtual world without finishing its story?" A colorful and breathtaking universe master from another race whispered. He then turned his head to the other side abruptly. Originally, there had been two universe masters listening to the universe master from the demon race, but now, the other universe master who had been listening had also disappeared.

"Why did they both disappear at the same time?"

The universe master realized that something was wrong. If only one of them had disappeared, it could have been explained by something urgent, which the individual couldn't explain immediately. However, two of them vanished at once without saying anything, so something strange must have happened.

"Demon Ancestor!" the universe master yelled.

Hua!

A giant silver snake showed up out of the mist. It had its head raised and looked at the universe master as it said, “Meng Ta Li, why are you calling me?”

“Demon Ancestor, just now, Meng Wan Master and another universe master were talking. Meng Wan Master was sharing some information about the World of Jin. I have never entered it, so I was curious and was listening to him talk also. But Meng Wan Master and another universe master suddenly both disappeared from the virtual world without any signs. And they disappeared at the same time.” It was clear by Meng Ta Li’s eyes that he was worried.

“Disappeared at the same time? Without any signs?” Dream Demon Ancestor bellowed as it realized something was wrong.

Hong!

Dream Demon Ancestor immediately started to inspect the entire mountain. However, after the inspection, Dream Demon Ancestor felt a horrifying coldness envelop its entire body. It was coldness that could freeze its soul. Not since Dream Demon Ancestor had first become a universe supreme master had it been this frightened. There was no comparison; even when it had lost the battle between the two teams, it hadn’t been so scared.

“Disappeared... All of them disappeared.” Dream Demon Ancestor concluded.

All the universe masters from the demon race alliance had their consciousnesses connected to this mountain. But now, they were all gone. All of them! Only Dream Demon Ancestor and other five universe masters remained—none of whom had gone to the World of Jin.

Hong!

A giant being appeared on the mountain. It was Shock Demon Ancestor.

“Dream Demon.” Shock Demon Ancestor looked down and yelled, “All the universe masters under me who entered the World of Jin have disappeared!”

“Same here!” Dream Demon Ancestor couldn’t have been more anxious.

Shock Demon Ancestor was anxious as well. “All the universe masters who went to the World of Jin disappeared, and they all disappeared suddenly, without leaving a message! Those who didn’t go to the World of Jin are safe.”

Incredible! The united forces alliance was at a disadvantage; so many universe masters had gone to the World of Jin, and most universe masters from the demon race alliance had entered the World of Jin. If all of them died, it would be a huge blow to the entire demon race alliance. Such an event would be a real nightmare.

“Check. Let’s check,” Shock Demon Ancestor said.

Dream Demon Ancestor immediately sent messages to the universe knights through the virtual world and asked them to check their teachers. After all, universe knights usually carried the keepsakes given by their teachers.

“Demon Ancestor, the keepsake I have has no owner now. My teacher died!”

“Demon Ancestor, my teacher died!”

“Demon Ancestor!”

Even before Dream Demon Ancestor had given an order, some universe knights had begun to contact him. They were losing their minds, realizing that all those universe masters had died. Without exception, all the universe masters who had disappeared from the virtual world had died.

Dream Demon Ancestor and Shock Demon Ancestor felt as if great hammers were smashing their souls. They were upset, terrified, and incredulous. They looked at each other with eyes that were no longer peaceful. Instead, they were filled with trepidation.

“How? How come...?” Dream Demon Ancestor had lost its mind.

“How...?” Shock Demon Ancestor was also dazed.

It was a huge blow—a shock like never before. Previously, the demon race had definitely been a pinnacle race in the original universe. They had originally boasted more than 20 universe masters from the demon race, as well as many universe masters of their subsidiary races. However, they now had only four universe masters from the demon race and five universe masters from their subsidiary races! They would have been considered prosperous before. But now...

“I, I—!” Shock Demon Ancestor raised his head and yelled. “How!”

It was filled with anger and agony. The demon race had been building itself up for such a long time. Yet it lost all those universe masters at once.

“We shouldn’t have let them enter the World of Jin! We shouldn’t have!”

\*\*\*\*\*

Dream Demon Ancestor and Shock Demon Ancestor weren’t the only ones who had gone mad. Father God from the automaton race, Bug Empress, Devil Ancestor from the prison race, Holy Master from the crystal race, all the races in the Northern Territory Alliance, and the powers who had joined the united forces alliance—all of them, whether large or small, were trapped in the same nightmare. A nightmare they had never before experienced.

Some of the powers had had ten universe masters before. Now, they only had one. Some had lost all of their universe masters. It was indeed a nightmare!

“The same thing happened to the bug race alliance? Only six universe masters are left in the bug race alliance?”

“In the Northern Territory Alliance, more than 90 universe masters are dead? Even Star River Master?”

“The same?”

“The same for the crystal race and the prison race?”

As the races in the united forces alliance contacted each other, they found that all the powers had suffered the same fate.

Dream Demon Ancestor and Shock Demon Ancestor felt a bit better now. In their opinion, all their universe masters who had entered the World of Jin had died instantly, so there was no way that other powers had managed to stay safe. As they expected, many other powers had suffered from the same event. They were all from the united forces alliance, so it was very easy for them to communicate with each other internally.

And then... they began to contact other powers in Universe Ocean.

“No.”

“You mean lots of universe masters died? Nothing happened to us, the skeleton race. All our universe masters in the World of Jin are safe. None of them died after entering the World of Jin...”

“Of course not. The World of Jin is a fantastic world, and it’s beyond our imagination. It’s full of opportunities and valuables. Almost all the great beings in our race went in, and all those who entered the army are still alive. They’ll soon start the tasks from the army, though...”

“Haha! Many universe masters from East Emperor Holy Land entered the World of Jin. Only a few of them died, and they died during selection for the army. What happened to you, prison race?”

\*\*\*\*\*

As news spread, the united forces alliance was stunned. They had all suffered from a large loss, so they had assumed that it was universal. If it had, indeed, been universal, and all the powers from Universe Ocean had suffered comparable losses, then comparatively, their status wouldn’t be affected; the comparative power of their alliance would remain unchanged. They had been expecting the exact same thing to happen to all the other powers. However, those other powers in Universe Ocean were all safe.

No... To be more exact, they found one other power who had suffered the same fate.

“The same thing happened to you? Purple Moon Holy Land suffered a catastrophic attack in the World of Jin. All of a sudden, all the universe masters from my holy land who had entered the World of Jin died.”

“Ah? Your Purple Moon Holy Land, too? The same happened to the races in our united forces alliance—demon race, bug race, automaton race, prison race, and crystal race. We are in despair. Everyone who entered the World of Jin died.”

“Everyone died.”

“No one survived.”

Purple Moon Holy Land was close with the united forces alliance. After contacting others, they found that all the powers were still intact other than Purple Moon Holy Land and the united forces alliance. They all realized that there must be a secret behind this.

If the World of Jin had decided to annihilate all the outsiders, why had it let all the other powers go? Why did the World of Jin only attack the great beings from the united forces alliance? After all, all the universe masters they had let in the army were fairly scattered. How had the World of Jin located them?

“Nothing happened to the humans!”

“None of the universe masters from the human alliance died!”

Purple Moon Holy Land and the united forces alliance quickly got the news, and they were infuriated. None of the supreme beings were fools; Purple Moon Holy Land and the united forces alliance had a common enemy, and it was human alliance! The humans stood to benefit the most from the united forces alliance and Purple Moon Holy Land being weakened! Plus, Purple Moon Holy Land had unsuccessfully tried to kill Luo Feng in the World of Jin before. Why would a true god of void space let Luo Feng go easily?

Everything pointed to the humans.

“Only the powers from Universe Ocean can accurately locate our universe masters among all those soldiers.”

“It must have been the humans who schemed against us.”

### **Chapter 1407: Hatred Deep within the Soul**

“Get lost!” Purple Moon Ancestor’s face seemed to be clouded by a layer of frost as he bellowed furiously at the crowd beneath him.

The group of universe masters beneath him were all on their knees, shuddering in fear and overwhelmed by uneasiness. Purple Moon Alliance’s loss this time around was massive. As many as half the entire force of universe masters had entered the World of Jin, and all had perished. The number of universe masters left within the Purple Moon Holy Land still alive was down to less than 100. Even if the universe-masters-to-be all achieved breakthroughs successively, the number of universe masters would barely break 100. But, speaking of universe-masters-to-be, there truly was not a single one.

“Ancestor, we... Are we still going to the World of Jin?” Of all the numerous universe masters who were still on their knees beneath him, none had left, but there were still some who had to ask him this question, as they were filled with great dissatisfaction.

Purple Moon Ancestor looked down at them. His expression was increasingly awful, and he was silent for a long while before saying, “The newly promoted universe masters will go to the World of Jin! And you all shall not reveal your identities as members of the Purple Moon Holy Land!”

The newly promoted universe masters, feeling somewhat delighted at the decision, responded, “Understood.”

They had never set foot out of Purple Moon Holy Land, but this time, because a great number of universe masters had lost their lives, they, as universe-masters-to-be, had been able to achieve breakthroughs. So long as they could change their appearances and not take up symbolic forms—like “three heads and eight arms” or “double faces with four arms”—the other groups of powers within Universe Ocean would definitely not be able to guess their true identities.

Once they had infiltrated the World of Jin, if great beings from the other powerful groups within Universe Ocean saw them, they would probably think of them as natives of the World of Jin.

“Take your leave.” Purple Moon Ancestor’s voice was getting more and more hostile.

Hua!

A group of universe masters finally disappeared and left. Only Purple Moon Ancestor was left in the hall. As arrogant as he was, he had been forced to tell them not to reveal their identities as members of the Purple Moon Holy Land. He must have felt extremely ashamed and insulted.

“Milky Way Horde Leader Luo Feng!” Purple Moon Ancestor gritted his teeth.

He was furious. He was unwilling. But so what? This was an act of destructive revenge, and he was aware that, other than the humans, he simply could not think of any other top power that would do such a thing!

“I may not be able to do anything to you, but with the birth of the Sector Beast this time around, I don’t think you will not be able to make it out alive.” Purple Moon Ancestor gritted his teeth. Every time the thought of a Sector Beast came to mind, he grew more agitated because a Sector Beast was a major threat to him.

Purple Moon Ancestor tilted his head back and roared.

“Ah! Ah! Ah...!”

How long had it been? Just how long had it been since he had felt so helpless?

Yet no matter how angry Purple Moon Ancestor was, there was nothing he could do. There was no way he could kill Luo Feng. Even if he wanted to make use of the World of Jin to kill him, the moment he failed, all the universe masters under his command that had been brought into the World of Jin would perish. Without all those universe masters, he was unable to do anything to Luo Feng.

\*\*\*\*\*

If Purple Moon Ancestor was merely furious and unwilling, then the various races from the united forces alliance from the primal universe were filled with endless enmity and hatred!

“Sister!”

“Sister!”

An extraordinarily beautiful young girl, with butterfly wings that were partially transparent, stood amidst the void space. She wore a pained expression as though she was suffering, and the eyes beneath her delicate brows seemed to contain great agony and sadness. Various scenes were replaying in her mind as she recalled growing up with her sister. Her sister had been guiding and protecting her all this while. Her sister was an extraordinary talent and had become a noble universe master of the bug clan. Under her sister’s help and guidance, after many long years, she had finally become a universe knight.

Those years had given rise to a relationship between the sisters that transcended all else—including her life. Her sister was the most important person in her life.

The extraordinarily beautiful young girl raised her head and let out a piercing scream. “No!”

Then her face became contorted. Fiery hatred blazed in her eyes as she said in a hoarse voice laden with endless hatred, “Humans! Humans, I want you all dead! Dead! Dead!”

A faint blue light suddenly appeared around the space surrounding the beautiful girl, enveloping her. In an instant, she was being transported away.

Three minutes later, in the human territory, the towering bug clan mother nest hung suspended in space. Around it, many bugs soldiers appeared.

A wave of anger was transmitted from the mother nest.

“Go out there and kill. Kill all the humans.”

Various bizarre noises were heard as numerous bug soldiers roared and yelled while speeding across the vast void space.

“Oh!”

“Roar!”

They were charging toward the faraway life planet while the mother nest had already vanished with a single teleportation. It teleported like a flash of lightning to reach as far as 10,000 light years away.

“Go and kill, kill all the humans!”

The bug clan mother nest was still giving out the order. Great batches of bugs soldiers continued to roar as they charged out.

This bug clan mother nest was teleporting like crazy. With every 10,000 light years span it teleported across, it released a large batch of bug soldiers. They were largely from the universe level. A small number were from the domain level, and a few were sector lords! There was not a single undying being.

“Kill all the humans! My children, go out there and kill!”

The mother nest moved erratically while releasing countless bugs warriors. To a mother queen who was a universe knight herself, creating billions of universe level bug soldiers was nothing difficult. All of them were at the universe level and more than enough to massacre countless planets.

\*\*\*\*\*

At the sixth minute after the bug clan’s mother queen had started the rampage in the human territory, the hideous mother nest came to a halt and remained unmoving in the middle of space. Everything quietened down, and around it, the numerous bug soldiers suspended in the air also stopped.

Hua!

A lone figure walked over from afar.

A piercing, hysterical voice was heard from the bug clan mother nest. “Milky Way Horde Leader!”

Luo Feng walked over leisurely, shaking his head. He whispered with a sigh, “Why go to such lengths?”

He pointed into the distance.

Peng!

Far away, a part of void space suddenly shrank, then expanded. Right away, that part of space was annihilated. The lofty mother nest and the countless bug warriors previously occupying that part of space were all reduced to nothingness.

Luo Feng shook his head and sighed. The bug soldiers' universe knight mother queen had entered a region that was within Ganwu Universe. Once Luo Feng had received information transmitted over from the virtual universe, he had immediately made use of God Country Transportation and a couple of teleportations to rush over. As that bug clan mother nest was constantly teleporting and changing direction, Luo Feng only managed to catch up with it at the sixth minute after the start of the rampage upon entering the human territory.

"Just one revenge. A universe knight annihilated. Is this what we call hatred?" Luo Feng sighed gently. Then, with a single stride, he vanished into the shadows of the starry sky.

All was silent, and everything was shrouded in darkness. It was as though nothing had happened.

\*\*\*\*\*

Milky Way Holy Land.

Luo Feng returned to a cluster of undulating palaces.

"Horde Leader." The three universe knights at the forefront bowed and greeted with unparalleled reverence. Out of the three, a tall and sturdy universe knight with green tentacles said, "We have teleported repeatedly and killed all the bugs warriors we found in various places who were in the midst of their rampage. Many of these bug soldiers did not even make it in time to descend on the planet before we killed them. It's just that... there were still 369 life planets where all the humans were killed. Of these 369, there were 102 where the very planets themselves were completely shattered."

Luo Feng nodded.

In his heart, he could not help sighing. The total population of humans on over 300 life planets most likely numbered in the billions. Yet, in a moment as fleeting as the blink of the eye, all of them were dead. From the perspective of the entire human race, ordinary humans were able to multiply in numbers generation after generation. Overall, even if many were killed, this was nothing much at all. But they were, after all, still life forms that were full of vitality. Among them, there might have been potential talents that could have risen to be the cream of the crop—perhaps even people like Rong Jun, or even an existence like Luo Feng could have been born, although that was highly unlikely. But now, all of these people were merely lifeless corpses.

"Revenge for much too many," Luo Feng said to himself. "Those who bear hatred for my human race... There are simply too many of them."

In recent months, the various groups of top powers within the united forces alliance had lost a great many universe masters. Some of them had been from the pinnacle races, but most were from the common pool of races at large. The more powerful races would normally have, at most, one or two universe masters, and these universe masters would be the leaders of their races. To the universe knights of those races, these universe masters were like their parents and mentors!

Some could no longer contain the hatred in their hearts; right away, they had charged forth to take their revenge for the loss of their mentors. There were also others who had decided to put up with the burning hatred. They bore it as best they could, for the sake of their race.

\*\*\*\*\*

“Fighting the humans? How can we fight them? Our Northern Territory Alliance is already so weak, and our Alliance Master has long abandoned us. Now, the various races within our alliance are so weak. After adding up all the universe masters... we are still not a match for that one single Milky Way Horde Leader. You still want to fight?”

On an ordinary, desolate planet, various godly-powered avatars had gathered for a discussion. They did not dare to come in their original bodies, as they were afraid that they would be killed by the humans all at once.

“This great hatred—how can we not take revenge?”

“The hatred is certainly great. Two of my brothers were killed. They had been my company for an eternity, and together, we led our race in establishing our footing in this vast universe. Now, they are both dead! They were my most important family member. My most valued companions. And how I wish I could charge in to where the humans are and massacre them all...! But what would be the outcome? If we were to enter important grounds like the primal secret region or Milky Way Holy Land, then not only will there be nothing we can kill, but we will only go there to die! If all I can do is kill ordinary humans, after a couple of decades, another generation will emerge once again. They will not be affected at all. If we go now... it will only serve the purpose of venting our moment of hatred. We need to live, and we must live for our race!”

“But—but I am not willing to! I am overflowing with resentment!”

“You are resentful—just like the Qu Nong race, who had all their universe masters wiped out. They are all rushing to escape for dear lives now. They needed to ensure that their race could survive, but their resentment was far greater! What could they have possibly done? Back when we were still strong, the humans were already exerting their influence over us. What about now? The various minor races were already so afraid that they had left the united forces alliance. How many universe masters left behind would dare to persevere in their desire to fight the humans? For those supreme masters who were lone travelers, the moment they saw how the situation could be played to their disadvantage, one after the other, they left our united forces alliance. As for the few universe masters who were resolute enough to stay behind... the moment the humans sent over an army large enough, the impact of that willpower was strong enough to cast down a great number of them. How many could stand strong in a fight against the humans?”

The godly-powered avatars of the surviving universe masters of the Northern Territory Alliance all fell silent.

How miserable and dreary their situation had become! Various minor races had left the united forces alliance because they simply could not go through another devastating loss. Universe masters who were lone travelers had also left because, to them, the future was bleak and hopeless.

Who remained? The bug clan, the demons, and the automaton race. Yet who would dare to fight the humans again? Who would dare?

“Even if our hatred was larger than life, what more could we do?”

“I don’t know how many other races bear hatred for the humans, but it is fated... that within the entire primal universe, the humans will be the race that truly dominates. No one will be able to stand in their path. No one at all!”

## **Chapter 1408: Human Era**

Nobody could stop the humans from dominating the original universe.

The human race was destined to reach its peak, and all the other races—the bug race, the automaton race, the demon race, the prison race, the crystal race, and all the other powers—would have to reverse the humans from now on. It was widely acknowledged, and nobody would deny it!

“Ah!” A huge black wolf with three heads showed up in the space. It was looking at the planet in front of it, where many life forms from the demon race lived.

Hua!

A ripple swept across the entire planet, and any demons who were hunting, fornicating, or sleeping all disappeared and were transported into a world ring.

“It is the last life planet that I am responsible for.”

Black light surrounded the giant black wolf. He then disappeared after god country transportation.

After a while, he showed up in a space nearby. A giant flying beast giving out endless fire floated there, emanating endless power, causing the stars in the distance to tremble.

“Knight, I’m responsible for a large star sector. And I have already brought here all the life forms of the demon race living on those life planets,” said the black wolf emperor. It then took out the world ring on its claw and threw it toward the flying beast wreathed in fire.

“Okay,” answered the flying beast wreathed in fire. “Go to the Demon Ancestor secret region.”

“Yes,” answered the giant black wolf respectfully, and it left.

Soon, many undying emperors arrived and gave their world rings to that flying beast wreathed in fire. After a long time...

“I’m responsible for all the creatures in this star sector.” The flying beast wreathed in fire sighed.

“Migration. The great migration! I can’t believe we demon race also need to migrate... This area breeds us demons, yet we have to leave now.”

Hua!

It performed god country transportation and disappeared.

\*\*\*\*\*

The entire demon race was migrating—everyone from the two demon ancestors to the ordinary demons on all those inhabited planets. They were all taken away. Demons bred fast, so if one-tenth of them were taken away, it would only take a short while before they had the same population again. After all, they were all from the same race, so they had to take away as many as possible.

“We’ll have to leave and go to our new home now,” said the giant, sawtoothed strange beast. “Dream Tea, have you checked that large star sector?”

“Those other races all ran away when they saw me,” said the giant, silver snake. “But do we really need to stay in that remote area?”

“We should be happy if the humans don’t try to hunt us down in the remote area,” said the sawtoothed strange beast.

“If they don’t even leave us the last piece of territory, we’ll keep fighting them,” the silver snake yelled. “We won’t let them off the hook that easily!”

Top-tier level six was the maximum power allowed in the original universe. If a lone universe supreme master went mad, it would be a nightmare to any pinnacle race.

“We have two universe supreme masters, which is why we can still live in the original universe,” said the sawtoothed strange beast. “I believe the humans will stop pushing us. After all, we’ve given up the most precious core territory. Let’s go.” The beast looked forlorn. “Let’s go to our new home.”

The silver snake took a look back. Then They both disappeared and left the territory.

\*\*\*\*\*

The demon race was migrating. So were the bug race, the automaton race, the prison race, and the crystal race. There were six pinnacle races in the original universe, and they were pinnacle races because they could occupy precious areas in the original universe. Comparatively, the territories the crystal race and the prison race occupied were inferior, though they were still much better than other random races.

The fact that the five pinnacle races had started the migration themselves meant that they had admitted defeat and didn’t want to fight the humans anymore. As for some of the races that didn’t even have a universe supreme master, like the Northern Territory Alliance, they had started the process of migration and retreat a long time ago. The power of a race determined the territory the race could occupy. Most of the races in the original universe were wise enough to realize that.

\*\*\*\*\*

At the apex of Thunder Island in the virtual universe, thrones surrounded the round table. Luo Feng and Primal Chaos City Leader sat shoulder to shoulder with each other. As was to be expected, their thrones were larger, while the others were standard sizes. The status was self-explanatory and evident to all.

Luo Feng had killed a true god by himself before! And not just one true god! Even the original mind had admitted that Luo Feng was the most powerful great being in Universe Ocean! And Luo Feng had caused the deaths of those hundreds of universe masters. Everything that had happened had made Luo Feng who he was today.

“Everyone.” Primal Chaos City Leader looked around, beaming. “The demon race, the automaton race, the crystal race, the prison race, and the bug race, they have all left their territories. As for those idle races, none dare to enter their original territories.”

“Those five races are smart to do such a thing.” Ice Mountain Master, who normally was apathetic, was also smiling. “If they still don’t know what to do, we’ll march toward them.”

“The united forces alliance nowadays...” Void Gold Master smiled. “Even if they unite, without lone universe supreme masters, they’ll be easily crushed.”

All the human universe masters were conversing. They knew about what had happened a long time ago, and they were all exhilarated when they heard the news! They were very calm now, but they were still full of joy.

“Many universe masters of theirs died this time, so they hold lots of grudges against us humans,” said Darkness Master. “There are still some undying fighters and universe knights coming here to avenge them. Even though it is utterly insignificant, it proves how greatly they resent us. I think we need to get rid of the threats!”

“There are universe supreme masters in other pinnacle races. If we push it too far, those universe supreme masters will fight us till the end.”

They continued debating, but they reached a consensus very soon.

“We will occupy the territories that previously belonged to the five races: the bug race, the demon race, the automaton race, the prison race, and the crystal race. Let us, the humans, prosper in as many places as possible. There are also other powerful races, and some of them are subsidiaries of the pinnacle races while some of them are alliances. They are in recess now, so they aren’t qualified to occupy the original territories. Occupy them.”

“Take those territories.” The voice of Primal Chaos City Leader was filled with passion. “Let us, the humans, grow and prosper everywhere!”

\*\*\*\*\*

The humans started to act. They moved group after group of humans—originally living in the universe secret region lands or in god countries—to the new territories. It was indeed a mass migration. They were moved to territories that had belonged to the five pinnacle races like the demon race and the bug race, and also the territories that used to belong to the powerful races.

Although none of the powerful races had huge territories, all the territories they had combined were much larger than those of the five pinnacle races, which could be inferred based on the number of universe masters. Those five pinnacle races had around 100 universe masters in total, yet those powerful races combined had hundreds of universe masters.

The territories of the powerful races were remote, so there was a smaller chance for talents to be born. However, the territories were enormous. The overall chances of elites and talents being born in the human race would surge.

\*\*\*\*\*

The powers in Universe Ocean all paid attention to what was happening in the original universe. When they learned that a large number of universe masters from the united forces alliance died at the same time, all the powers from Universe Ocean were shocked and terrified. They all speculated that the humans were responsible.

If the humans could do that to the united forces alliance and Purple Moon Holy Land, they could do that to other powers in Universe Ocean as well!

“The demon race, the automaton race, and other powers all retreated. Their power was greatly weakened. They either migrated or narrowed their territories... As for the humans, they are quickly expanding and taking over lots of territories. Half the precious territories in the original universe belong to humans now, and the other half belongs to subsidiary races of humans, idle races, and the other five races.

“The humans will be absolutely invincible in the original universe.”

“This has never happened before, not in any universe era I know of. Even the Divine Eye clan isn’t at such a dominant place as the humans.”

“Fortunately, the humans aren’t hostile toward the powers in Universe Ocean.”

“Fortunately...”

“We can’t mess with the humans.”

All the powers in Universe Ocean were intimidated.

“The original universe will enter a new era. The human era.”

\*\*\*\*\*

The original universe had indeed entered the human era. Nobody dared to go to the Land of Darkness at the moment, so Universe Ocean entered a peaceful period. The focus of the powerful groups was the World of Jin. There, they worked hard trying to gain inheritances and valuables.

Meanwhile, the humans were also breeding and prospering.

\*\*\*\*\*

In a vast star region where many peculiar creatures lived on a certain planet, Luo Feng appeared wearing a white cape. He walked across a plain.

“Father God.”

“Father God.”

Six beings appeared in the distance. Luo Feng looked at them with a smile. None of those beings were tall; they were like children engulfed in flickering fire. These children had been created when endless Remote Ocean was performing the technique “Creation.” After many trials, many creatures had been created.

The humans owned a large amount of territory now, and Luo Feng had chosen a star sector formerly owned by a powerful group. He had arranged it as the dwelling place for the life forms he created. These life forms were innately close to Luo Feng, and they were willing to die for him without any doubts.

The six children surrounded Luo Feng, cheerful.

“Father God.”

“Father God, how long are we going to stay here?”

Luo Feng smiled. “A couple of years.” He genuinely loved these creatures in his heart. After all, they were technically his children. They reminded him of Red Child from Earth, so he had created six children that could control fire. He had created them without much thought, but they were living beings, after all.

“Oh! Oh! Oh!” cheered all six children.

Luo Feng smiled and stroked the heads of the children. Although the creatures he created were powerful—these six children could reach universe level quickly—they couldn’t interbreed like the races created by Nine Remoteness Master.

Luo Feng turned around. Xu Xin, who was also in a white cape, showed up.

“Mother God!” The six children ran toward Xu Xin.

#### **Chapter 1409: Billions of Eras (Part 1)**

All the six children surrounded Xu Xin, cheering, and Xu Xin was also happily playing with them.

Luo Feng smiled and watched. With his help, his wife had gotten out of the eternal body and transferred her soul to another body. And in a long period of time, Xu Xin had become undying. However, after becoming undying, Xu Xin didn’t want to practice anymore. In fact, with the valuables provided by Luo Feng, Xu Xin could easily become a universe knight if she put forth some effort. She was not, however, into practicing.

“I knew you were coming to this star sector, and you’re indeed here,” Xu Xin said. She then walked toward Luo Feng. The children knew that their Father God and Mother God were talking, so they left them alone.

Luo Feng nodded. “I created them, so they’re technically my children. I’m here to check on them.”

“You have a lot of children. Flesh and blood type, energy type, and plant type,” said Xu Xin jokingly.

“Unfortunately,” Luo Feng said with a sigh, “they can’t breed.”

“You created those creatures randomly, and they can reach universe level easily,” said Xu Xin. “If you actually put in some effort, those creatures could become sector lords easily... If they could breed, how could the other races hope to live? The territories would all be occupied by the creatures you created.”

Luo Feng nodded. He knew that the creatures he could easily create couldn’t reproduce.

“Huh?” A thought struck Luo Feng.

Xu Xin noticed Luo Feng’s facial expression and could tell that Luo Feng had found inspiration. He appeared looked pleased.

“What happened?” asked Xu Xin.

“I have an idea! I have an idea!” Luo Feng was exhilarated.

“What idea?” asked Xu Xin.

Luo Feng’s eyes gleamed. “Both Nine Remoteness Master and I have the gift of Creation, so both of us are able to create one life after another. Although the creatures we create are powerful, none of them are able to procreate. It is much different to grant life forms the ability to procreate. All this time, my godly body has stopped improving and can’t progress. I haven’t even known how to improve myself! Now, I have an idea. Life forms! Reproduction!”

Luo Feng was thrilled. He continued, “It’s very difficult for me to create life forms that can propagate. I need to have a more thorough understanding of life structures... Once I do that, it’ll help me to better improve my godly body.”

\*\*\*\*\*

Even in the ancient civilization, there were only a few who had become true gods after having their life gene level reach 90,000 times. Although there were methods documented in Duan Dong River about the godly power path, Luo Feng’s life gene level had already reached 60,000 times, so most of the methods were useless, and the helpful ones couldn’t be implemented.

Luo Feng was kind of stuck. He could only study the life structure pictures of true gods. But now, he had found a different way. He would study the life structure pictures and create life forms at the same time. Following two methods at the same time could help him greatly improve himself.

\*\*\*\*\*

Reaching 90,000 times on the godly power path was more difficult than becoming a true god of void space, and it would take a long time. Billions of eras were only the blink of an eye.

\*\*\*\*\*

From the third era since the World of Jin appeared, the great beings from the united forces alliance and Purple Moon Holy Land were slaughtered in the World of Jin. All the powers in Universe Ocean were intimidated, and the united forces alliance disintegrated automatically. They all migrated and retreated. Purple Moon Holy Land also kept a low profile and ceased messing with the humans. The humans immediately expanded, occupying half of the original universe. It was the start of a human boom.

The sixth era, the First True Master from the Divine Eye clan obtained a machine-type valuable, and after the news spread, all the powers in Universe Ocean were jealous. They all worked harder in the World of Jin, seeking to acquire machine type valuables.

Those who obtained machine type valuables were all from the special army, and there were no exceptions. This prerequisite alone was already a hurdle to many powers. Otherwise, those great beings

certainly could have exchanged their valuables for military credits, and together with the military credits they earned themselves, they could have gotten machine type valuables already.

In the seventh era, Luo Feng met the First True Master in Universe Ocean. The First True Master challenged him because he knew from the three ancestral gods that Luo Feng was deemed the most powerful great being in Universe Ocean, but the First True Master couldn't believe it.

Nobody watched the fight. Luo Feng fought the First True Master, who had been the most powerful great being in Universe Ocean before the rise of Luo Feng (except Teacher Origin, who was suppressed). Now that he had obtained a burning power technique and a machine-type valuable, he was mighty.

Nobody knew the result of that fight, but they all knew that the battle had happened. After that fight, Divine Eye clan immediately became an ally of the humans, and the First True Master became friends with Luo Feng.

The outer world had no idea what had happened, but Luo Feng knew very clearly that the fight had resulted in a tie in the end! When it came to attacking power, the First True Master of the Divine Eye clan, "Divine Eye True Master," was at an advantage. However, when it came to godly bodies, Luo Feng had the advantage. And besides, Luo Feng was better at close combat and defense, so it was indeed a nail-biter, but it had ended in a tie.

Of course, if they had fought long enough, Luo Feng could have won by burning his godly body, but the First True Master surely could have left by riding his supreme true treasure. It was indeed a tie, and there was no winner in that fight. Besides, the Sector Beasts were a threat to all the great beings, so Luo Feng treated the fight against the First True Master as a trial. They both understood that they were indispensable in dealing with Sector Beasts.

I can easily kill true gods, thought Luo Feng, but when facing beings like First True Master, who have godly power burning techniques and machine-type valuables, it's a hard time for me. Even if I perform "one thought void space," I can only suppress him instead of defeating him.

He hadn't used his Shi Wu Wings during that fight. "One thought void space" was used to bind enemies. Divine Eye True Master was great at direct attacks, so even if he was bound, he would still be better than Luo Feng. Divine Eye True Master didn't need to dodge, even if he were bound.

\*\*\*\*\*

In the 12th era, Bei Chi Star Master obtained a machine-type valuable.

In the time following by that era, one true god after another from Universe Ocean entered the World of Jin, and they all worked hard. Some of them died, but some were very impressive. Gradually, they obtained machine-type valuables. Under the harsh training of the military, the great beings from Universe Ocean started to manifest their true potential. The potential and comprehension of the great beings from Universe Ocean were apparently higher.

\*\*\*\*\*

In the 91st era, Luo Feng was exhilarated to learn that his teacher True Yan Knight had become a universe master. He was the third human universe master born after Luo Feng obtaining the inheritance of Duan Dong River.

\*\*\*\*\*

From the 91st era to the 1,003rd era, some universe masters were born in the human race, but no universe supreme masters were born. In the 1,003rd era, the second universe supreme master was born: Peng Gong True God! Even among the human great beings, it was surprising that Peng Gong had become a true god!

Under the will of the original mind, the three ancestral gods did not take care to keep the secret that Luo Feng was the most powerful great being in Universe Ocean. As a result, the word began to spread. No one knew the result of the fight between the First True Master and Luo Feng, but the First True Master did not deny that Luo Feng was the strongest great being, which verified the original mind's claim.

All the races expected Luo Feng to be the second true god born—or at least the brother of Primal Chaos City Leader, “Darkness Master.” Instead, it was Peng Gong Master, who had kept a low profile the whole time.

\*\*\*\*\*

In the 3,402nd era, after studying life structure pictures for a long time, Luo Feng finally created a life form that could procreate. The creatures looked like humans, but they were weak. Although they were weaker than the earthlings, they could at least propagate.

Luo Feng had finally made a breakthrough. Three eras after that, his godly body was improved from 60,000 times to 69,000 times. Then it reached 72,000 times.

\*\*\*\*\*

In the 13,000th era, a new universe master was born from the earthlings: Hong!

Hong, who had always been modest, finally became a universe master after 10,000 eras with the guidance of the ancient civilization. He was a peerless genius, but he was constantly outshone by Luo Feng. If not for Luo Feng, he would have certainly been one of the top-tier beings in the human race. There were 32 universe masters in the human race now.

From then on, there were two universe masters among the earthlings, and there were nine universe knights, including Thunder God.

\*\*\*\*\*

In the 39,000th era, Hu Yan Bo was admitted into the virtual universe company, and he became a universe knight with the guidance of the ancient civilization.

In fact, those who were able to become emperors and officials without the ancient civilization's guidance were all highly gifted. Loners like Hu Yan Bo, who had no one to guide them, created their techniques by themselves, so they were talents. Now that they had guidance from great beings and the ancient civilization, it was commonplace for them to make breakthroughs, and many universe knights were born in the human race in this period of time.

Many great beings who were stuck at pinnacle emperors also became universe knights with the help of the ancient civilization. Numerous great beings had achieved breakthroughs over the past tens of thousands of eras, and there were already over 50,000 universe knights in the human race.

\*\*\*\*\*

In the 39,800th era, Luo Feng got the news from Babata revealing where Devil Hand Emperor Suo Luo Pu was. This revelation stunned Luo Feng. Devil Hand Emperor had killed Hu Yan Bo, and Luo Feng had killed him after he had become stronger—or so he had thought. He hadn't expected to learn that Devil Hand Emperor was still alive.

However, Hu Yan Bo who had become a universe knight had gone on to hunt Suo Luo Pu down. Devil Hand Master was exposed because the humans were too powerful. The humans themselves occupied half the core territory of the original universe, and the subsidiaries of Luo Feng—as in the other races in the Hong Alliance—occupied most of the leftover territories. The influence of the human race was invisible but indeed enveloped the entire original universe.

Although Suo Luo Pu hid in a remote location, many great beings knew him, and a human great being who had gone on an adventure found him.

Devil Hand Master should have been long dead. Why was he still alive? That news caught Luo Feng's attention.

However, Hu Yan Bo went after Suo Luo Pu, and after some twists, Hu Yan Bo killed Suo Luo Pu after a hunt that lasted three eras.

### **Chapter 1410: The Trillionth Era (Part II)**

In the 53,000th era, Luo Feng's son, Luo Hai, finally became a universe knight. He was the third universe knight of the Luo Family.

Although Luo Feng had two sons, Luo Ping had always lacked interest and focus in various aspects during cultivation, relying on external help like treasures to barely become an undying fighter. As for Luo Hai, he may have given his best, but he had not encountered many setbacks along the way. After all, his father, Luo Feng, had unknowingly given him a lot of help, even if he had not purposely intended to. There were always some great beings who would try hard to please or flatter Luo Feng. Thus, Luo Hai had not been forced to struggle through enough setbacks; even if he was an impressive talent, he would never be as dazzling as Luo Feng and Hong.

“Even with the help from various parties, cultivating to become a universe knight might be his peak,” commented Luo Feng. “If he ever wanted to become a universe master, it would take a miracle.”

An extraordinary talent was truly not that easy to come by.

\*\*\*\*\*

For a long time, the population of the pulse of the Luo Family grew at an extremely shocking rate. Naturally, the birth of talents was also plentiful. Even before Luo Hai, two others had already become universe knights.

However, out of these numerous so-called “talents,” none caught Luo Feng’s eyes. By his reckoning, even in ideal conditions, reaching the level of a universe knight would be their peak. If such conditions were not provided, and without the ancient inheritance, these first three to become universe knights—including his son Luo Hai—would stop at the level of undying fighters.

Finally...

In the 91,000th era, an extraordinary talent finally emerged within the pulse of the Luo family named Luo Zhen Ni! He was a truly stunning talent who originally had not enjoyed any status in the Luo Family. He was merely a young fellow who lived on an “exiled star,” yet he had quickly risen. Then, finally, he managed to attract Luo Feng’s attraction.

Luo Feng briefly conducted a test and was delighted with the result.

The total area of Luo Feng’s territory and some other deserted grounds on the universe was comparable to a Ganwu Universe. Within this vast land, there had finally been the birth of a talent who met his expectations. Luo Feng took this Luo Zhen Ni as his disciple right away.

This was Luo Feng’s first formal disciple. Many other universe masters who were higher-ups from the human race, even Primal Chaos City Leader himself, had been trying to persuade Luo Feng to take in his own disciples. He was, after all, a number-one master in Universe Ocean. Many groups of powers within the human race were very eager to send the talents from their own camps to Luo Feng, but Luo Feng was never eager to become a teacher. Besides, the birth of an extraordinary talent was not easy to come by. This was why Luo Feng had let the matter drag on endlessly.

This time, Luo Feng was formally ready to take in a disciple. The only thing was, Luo Feng had very stringent requirements for his disciples, which was not secondary to what Primal Chaos City Leader expected of his disciples.

Even for someone as close to him as his own son, Luo Hai, Luo Feng made no exceptions. This went to show how demanding and stringent he was.

\*\*\*\*\*

In the 91,200th era, Luo Zhen Ni finally became a universe knight. Luo Feng was especially strict with his principles, which delayed the entire progress. Otherwise, Luo Zhen Ni would have achieved his breakthrough long ago.

\*\*\*\*\*

In the 330,000th era, within the human race in the territory of the primal prison clan, another extraordinary human talent, “Fire Dome,” was born. In the wild, he arose. Incomparably dazzling, he attracted many human universe masters to vie for him as their disciple. When Luo Feng finally stepped onto the scene, these two extraordinary talents unquestionably became his disciples.

When Luo Feng showed up, the other universe masters no longer put up any objection. Even Fire Dome was very excited to have Luo Feng as his Teacher.

In fact, on the peak where Luo Feng, Primal Chaos City Leader, and Peng Gong True God stood, there was no need for them to take in disciples to establish their footing and power, given their status. Luo

Feng's decision to take in disciples was because he had taken a fancy for Fire Dome's talent. He felt that this Fire Dome was a good candidate as heir to the legacy of his senior, Jie Fanzi, which was not easy to come by.

Fire Dome was also extremely skilled in Water Law and Fire Law. The set of lost knowledge that Jie Fanzi had created, in Luo Feng's perspective, was superior. If he personally imparted Jie Fanzi's knowledge, too—further combined with Fire Dome's innate talent—Fire Dome was bound for great achievements.

\*\*\*\*\*

The 1,910,000th century, the human race saw the birth of its third true god—Darkness True God!

Darkness Master had finally achieved his breakthrough to become a true god. This was something that the great beings of the human race had expected. The various groups of top powers within Universe Ocean had expected this, too. It was just that they were filled with doubts as to why Luo Feng had yet to achieve his breakthrough!

\*\*\*\*\*

In the 9,200,000th era, Luo Feng created another race. This race was capable of multiplying in number and could likewise be considered as part of the human race (Luo Feng had created a human-like, flesh-and-blood life form intentionally. After all, he was himself, a human, which had naturally led him to study a race that bore a similarity to the human race.) When this race reached maturity, it could reach star traveler level right away, which was considered highly outstanding.

To be able to create life forms that could reproduce—this was a breakthrough that brought tremendous progress to Luo Feng's life structure diagram. Thereafter, he underwent multiple breakthroughs. His life gene level skyrocketed from 72,000 times to 79,000 times, then went up to break through to 83,000 times before finally reaching a bottleneck of 85,000 times, where it came to a halt.

\*\*\*\*\*

Time passed.

Previously, there were undying godly souls who remained at the status quo for a long period of time, and the total accumulated to a large number. With the help of the inheritance of the ancient civilization, many became universe knights. Simultaneously, many universe knights also broke through to become universe masters. This enabled the number of human universe masters to continuously increase. However, the number of true gods increased at a greatly reduced rate.

\*\*\*\*\*

In the 100 millionth era, the human race saw the birth of the fourth true god: Deserted Mirror True God.

In the 700 millionth era, the human race saw the birth of the fifth true god: Qing Dong True God. In the millionth era after Qing Dong Master broke through to become a true god, Luo Feng's second disciple, Fire Dome' unexpectedly achieved a breakthrough to become the sixth true god of the human era.

What a miracle! Fire Dome had gone under Luo Feng's tutelage after Luo Zhen Ni, who was the first disciple.

Luo Zhen Ni was the first to become a universe master, with Fire Dome following closely to become a universe master, too. No one would have expected Fire Dome to become a true god within a time span close to 700 million eras after becoming a universe master!

This sparked a heated discussion within Universe Ocean. The topic was all about how Luo Feng's disciple had already become a true god, yet he, the teacher, had yet to become one.

\*\*\*\*\*

In the twelfth era, the human race saw the birth of the seventh true god: Ice Mountain True God.

Ice Mountain Master had finally become a true god.

\*\*\*\*\*

The nineteenth era, the human race saw the birth of the eighth true god: Long Yan True God.

Long Yan Master was an aged universe master who had previously been a follower of Teacher Origin. He, too, had finally achieved a breakthrough. In fact, the group of aged universe masters like him had all become universe masters without the help of the inheritance of the ancient civilization. Now, with all kinds of available help, an 80 to 90 percent success rate of becoming a true god was simply a matter of course.

On the contrary, for their descendants—especially those who had depended on the guidance of the ancient civilization to become universe masters—they were certainly a notch lower in terms of potential.

\*\*\*\*\*

The 10 billionth era was considered to be the breakout period for the humans. The accumulation over endlessly long years had an unprecedented explosion during this century.

This caused the number of human universe masters to soar up to 239, while the number of universe supreme masters soared up to 21!

\*\*\*\*\*

The skyrocketing within these 10 billion eras was mainly because there was such a rich accumulation to work with in the first place, thus allowing the breakout within such a short period of time.

The humans were not the only ones who had entered a breakout period. The other groups within the primal universe and groups within Universe Ocean were also experiencing breakouts. After all, the inheritance of the ancient civilization was indeed a great help to them. It was just that they did not receive an inheritance as great as the humans, and the information they had was not as detailed. Furthermore, they did not own as many treasures as compared to the humans. After all, Luo Feng was only second to the Godly King in the World of Jin. Many of the treasures he had acquired from there were all sent back to his race.

Even if this was so, for the demons, the number of universe masters soared to 52, and the number of true gods reached four! (Originally, there had only been two.)

For the bug clan, the number of universe masters also reached 32, and the number of true gods reached two. For the automaton race, the number of universe masters reached 39, and the number of true gods was three. For the prison clan, the number of universe masters reached 78, and the number of true gods was four. For the crystal clan, the number of universe masters reached 49, and the number of true gods was five.

As for the Hong Alliance, those races, which had originally been vassal races of the humans, underwent another round of great expansion. Although the humans had intentionally kept them under suppression and deliberately slowed down the development of the vassal races, these vassal races of the humans already had a few hundred universe masters to start with. At that moment, the number of universe masters from these vassal races reached 1,220 while the number of true gods was seven.

In fact, the different races within the Hong Alliance could only have 1,220 universe masters in the first place. This was due to the suppression by the humans and the selections by the World of Jin.

\*\*\*\*\*

Thanks to the ancient civilization, in the first hundred eras, the whole of Universe Ocean underwent an explosive growth spurt.

The first and second reincarnation eras were no longer able to give rise to true gods, but there was a large batch of universe masters rising within them. These newly appointed universe masters naturally followed in the stead of their preceding fellow universe masters as they charged toward the World of Jin with murderous intentions.

Luo Feng held supreme power in the World of Jin, so although there were past instances when a handful of races had provoked and challenged the humans' authority due to matters related to territory, Luo Feng was quick to mete out severe punishment within the World of Jin, so no one dared to provoke or challenge the human authority.

\*\*\*\*\*

In the following years, the development of all the powerful groups in Universe Ocean slowed down noticeably. After all, the accumulation from the previous eras had completely erupted in the past 10 billion eras.

As with the humans, great beings were able to emerge, all thanks to the births of talents. Luckily, the human territory was large enough to accommodate these numerous births.

\*\*\*\*\*

The first 10 billion eras was a period of explosive growth. The population of the entire Universe Ocean grew tremendously. But as the trillionth era approached, the rate of growth slowed down.

In the 1.6 trillionth era, the human race saw the birth of the 23rd true god: Hong.

Hong, an extraordinary figure from the pulse of Earth, was only secondary to Luo Feng. He had finally crossed over to join the ranks of the true gods. This also raised great concern from the various groups of powers within Universe Ocean. What they were concerned about was the fact that Hong's brother, Luo

Feng—who had the greatest influence over the entire human race and was a Number One Master within Universe Ocean—was still merely a universe master. Why?

“The race that I created, once it matures, can reach star level right away. My life gene level had already reached 89,999 times! Just a little bit more... This is really a fraction of a difference!”

Luo Feng knew that this was an extremely tough step to take.

One could not underestimate the subtle difference between 89,999 times and 90,000 times. In terms of skills, there appeared to be little difference. Yet there was a fundamental leap in the level of life genes. Leading up to the trillionth era, Luo Feng was stuck at this level and just could not seem to achieve a breakthrough. And within the trillionth era, the three shots made by Luo Feng made it evidently clear that he wielded a terrifying power that placed him at the absolute superior position in Universe Ocean.

It was enough to instill fear and send shudders through the various powerful groups. As a universe master, he was already top of the pile in Universe Ocean! If he became a true god, how incredible would that be?

\*\*\*\*\*

It was the 1,630 billionth era. Within Universe Ocean, two true gods finally joined forces. And for the first time, they set off for the nest of the Sector Beast: the “Land of Darkness”!
