

SWALLOWED 1421

Chapter 1421: Reappearance

The entire Universe Ocean was panic-stricken. All three bodies of Luo Feng, Golden Horned Beast body, Remote Ocean body, and Mosha body had left the original universe, and they were separated into two teams. Remote Ocean body and Mosha body were on the same team, carrying Star Tower, Shi Wu Wing, and other precious valuables. They were absolutely sturdy.

As for Golden Horned Beast, it was a single team. It was only carrying some machine-type valuables and soul-type supreme true treasures, which were not important to Luo Feng. These two teams were responsible for two areas in Universe Ocean!

Clearly, Luo Feng was fully prepared. Once the Sector Beast appeared in an area near the original universe, Golden Horned Beast body would immediately disintegrate, and endless Remote Ocean body would make one body again!

In the Milky Way dimension set up in the virtual universe, stars were twinkling, and palaces were floating. There were human great beings standing on the square in front of the palace with veneration, and Luo Feng stood directly in front of them.

“Teacher,” all the human great beings said respectfully.

Luo Feng took a look and said, “Sit down.”

All those peerless geniuses from different periods and different clans sat down. Luo Feng looked at those disciples of his and exclaimed. In the past trillion eras, many geniuses had emerged, as there were lots of different clans within the human race. Primal Chaos City Leader had over 20 disciples, and Luo Feng had 16 disciples. Luo Zhen Ni and Fire Dome were the first and second disciple.

Among the 16 disciples, there were 13 universe masters, two universe knights, and one true god!

Luo Feng looked up and said calmly, “Ask me anything you want.”

Luo Feng was instructing his disciples, but mostly, he allowed his disciples to learn by themselves. When his disciples were confused and couldn't make any improvements, Luo Feng would teach them. For every long period of time, Luo Feng would teach his disciples a bit. The so-called teaching meant Luo Feng would answer his disciples' questions when they were confused.

“Teacher, I use gold and fire as my foundation and space and time as my subsidiary,” said a disciple with wings and a pointy nose sitting down there. It was the ninth disciple of Luo Feng, Chen He. “I tried to create a level-six technique. However, no matter how hard I tried, I wasn't able to do it.”

Luo Feng nodded. “Show me all that you can perform, and tell me where you find it difficult to improve.”

“Yes,” answered ninth disciple Chen He respectfully.

Chen He then turned around and looked to the space in the distance. He waved his hand, and a giant shield appeared in his hands. He threw it out and—hua—the shield floating in space suddenly changed its shape and turned into a giant blade, tearing space apart, piercing toward the distance! Everywhere it passed by, there was a strange beast engulfed in golden flames roaring. The time and space were completely frozen, and everything it touched was burned to the ground. Even several stars in the distance were destroyed.

“Top-tier level five.” Luo Feng nodded.

“No matter how hard I try, I can’t improve it a little bit,” said ninth disciple Chen He respectfully.

Luo Feng nodded. “I have watched the techniques you just performed, and I already know what you’re trying to accomplish... It’s a fundamental change from top-tier level five to level six, and it’s extremely difficult. Gold law and fire law are the two basic laws that can help and amplify each other, and their power is beyond your imagination. I’ll perform one technique, and you can comprehend it by yourself.”

Luo Feng pointed randomly. All of a sudden, a giant golden dragon showed up in the space in the distance. It looked as if it were made of gold. It whizzed past, and suddenly, from tail to head, the dragon turned into a burning red fire. The previous golden dragon was transformed into a red dragon.

Chen He stood there, dazed, pondering the move Luo Feng had just demonstrated.

“Next.” Luo Feng looked to other disciples.

Although Luo Feng hadn’t succeeded on the godly power path over the past trillion eras, he hadn’t just wasted such a long time. He would study other basic laws at the same time because Luo Feng understood that if a true god wanted to become a true god of void space, he’d better use the ten basic laws, gold, wood, water, fire, mud, space, time, wind, thunder and light as the foundation, so he had created Light of Water and Fire a trillion eras prior.

However, in the past trillion eras, under the time acceleration in the training space of the space of inheritance, Luo Feng carefully read the inheritance left by some of the supreme beings from the World of Jin in the ancient civilization, carefully studying the connections among the ten basic laws.

And now, Luo Feng was already an overachiever in the ten basic laws. He had created 83 top-tier level-seven techniques like Light of Water and Fire! And he had also created two level-eight techniques. As for top-tier level eight? He wasn’t able to create them no matter how hard he tried. Actually, Luo Feng should feel proud.

After all, the two supreme beings from Duan Dong River, including the three ancestral teachers, had only created one level-eight technique.

He had to be fully prepared and do his best. When Luo Feng became a true god, he would certainly experience a huge breakthrough in his power! In terms of basic laws, there was a large threshold between top-tier level five to level six, and there was a large threshold to level seven. There was an incredible threshold to level eight. Those who were able to create level-eight techniques in the ancient civilization were at least consecrated, as long as they were alive.

All 16 disciples were thrilled to be instructed by Luo Feng. After all, their teacher had achieved so much. Even true gods weren't able to comprehend the basic laws so deeply and combine those basic laws however they wanted.

"Huh?"

Some of the conscious disciples noticed that.

"The Sector Beast showed up?"

"The Sector Beast showed up again?" The disciples sitting under there started to talk about it. Most of them were universe masters, so even if they couldn't fight the Sector Beasts, they still knew about their information and news. The news started to be spread within the race, and right after Luo Feng learned about it, they knew it also.

Luo Feng frowned and yelled, "The lesson is over. Go back and comprehend carefully."

They knew that Luo Feng wanted them to leave. The disciples all stood up, including those who were immersed in comprehension, woken up by their brother. They all saluted and thanked Luo Feng, after which they all left.

"It's coming."

Luo Feng stood on the square in front of the palace, looking at the stars in the distance. "It disappeared 30 years ago, and nobody was able to find it. It has now appeared again. However, you're lucky that you showed up in the area guarded by Jue He True God, which is far from mine."

Star Tower floated in the chaos space in Universe Ocean.

Other than Luo Feng, Hong and Fire Dome were also waiting in Star Tower. They were all waiting in silence.

"The Sector Beast has appeared."

"We'll go there now immediately," said Luo Feng.

Hong and Fire Dome were expectant as well.

"It disappeared for a long time, and now, it finally showed up," said Hong. "Where did it go during all this time?"

Fire Dome said worriedly, "I'm most afraid that there will be more than one Sector Beast."

"For what it's worth, we need to go first. Jue He True God will be there first, followed by Skeleton Master, and we'll be there after that. It'll take us three days to arrive." Luo Feng felt like a fire was burning in his chest, and he longed to kill that Sector Beast.

Everyone in Universe Ocean was intimidated because of Sector Beasts.

Wu!

With its giant body and ferocious tail, Sector Beast Morosa was standing in the space, and there was black mist permeating from its body, emanating traces of tortuous light, and those traces of light extended and penetrated the space in the distance. They covered a miniature universe in the distance, and the gleaming light kept entering its body through those the light.

“So satisfying. I can finally eat it. So delicious and satisfying.” Sector Beast Morosa was exhilarated.

“Hahaha, I only swallowed half of the miniature universe of that Firefly True Master last time, but it took me a while to completely absorb and transform that power. My power obviously improved swiftly. That goddamn Bei Di must be trying to eat other Sector Beasts. I must be improving my power faster than him.”

Sector Beast Morosa was eating the small universe at his leisure.

Time flew. Although a universe master had passed by and checked before, not one true god had come here.

“This is the miniature universe of someone called Rampaging Devil God.” Sector Beast Morosa looked into the distance at the contour of the miniature universe. “Rampaging Devil God is a relatively powerful true god in Universe Ocean. He’s stronger than Firefly True Master, and he can rival that Blood Orchid Ancestor. However, it’s still food to me.”

“He’s indeed a coward.”

“Perhaps they’re trying to gather other true gods, and those who are far away might spend ten days flying here. Those who are closer might take around two days, and after that, there will be a squad of true gods coming at me.” Sector Beast Morosa had learned about Universe Ocean from Zhen Jia Emperor and Dragon Rock Ancestral God. That was how they knew exactly how long it would take those true gods to arrive.

“Rampaging Devil God? You’re lucky today. Before finishing swallowing the origin of your miniature universe, I won’t kill you. It’s been a day since I swallowed the origin. It’s time for me to leave.”

Sector Beast Morosa smirked. Then...

Sou!

He teleported and disappeared.

Rampaging Devil God was staying outside the membrane of the miniature universe, looking anxious. No matter how puffed with pride and arrogance he was, he would still panic when facing Sector Beasts that were feared by the entire Universe Ocean.

“Sector Beasts, goddamn Sector Beasts. I can’t believe I’m the second one. I’m so unlucky. That Blood Orchid said I’d be the second Firefly True Master even after spending a long time with me in the black-

striped stone pillars?” Rampaging Devil God was worried. “Come on! Come on! Jue He and Milky Way! Where are you guys? I’ll fight the Sector Beast myself if I have to.”

The six universe masters behind Rampaging Devil God were all special life forms.

“Devil God, last time, Universe Ocean wasn’t alerted. But this time, we’re all well-prepared, and Jue He True God is close. He’ll arrive in no time.”

“We’ll be able to kill that Sector Beast this time.”

“Devil God, please don’t take the risk.”

The universe masters knew clearly that this Rampaging Devil God was adventurous, so they were afraid that Rampaging Devil God would fight the Sector Beast and get killed. Then all of them would die.

“Huh? Why did it disappear?” Rampaging Devil God was dazed.

Chapter 1422: Disaster

Amidst the void space of Universe Ocean, which was filled with chaotic airflow, a battleship was advancing. Inside it was “Jue He True God,” one of the eight great overlords. In another region of the same void space, a nine-story tower was also advancing. Both were heading toward the same destination: the miniature universe of Rampaging Devil God.

At the same time, many other great beings from Universe Ocean were also rushing over to the same destination.

Rampaging Devil God transmitted some information to the various true gods within Universe Ocean at the same time. “Jue He True God. Milky Way Horde Leader. Divine Eye True God. Nine-Headed Demon Master... Just a while ago, the devouring of my miniature universe origin ceased. I have also boarded my palace supreme true treasure and went out to take a look. The Sector Beast is nowhere to be found! It has disappeared!”

The news spread. True god great beings who had rushed over from various other places, as well as many other great beings who had yet to rush over, were shocked.

“Rampaging Devil God, you are saying that it vanished? How long has it been since it started devouring? It has only been a day, and yet, it has disappeared?”

(A “day,” in the context of the pulse of Earth, referred to a frequently used time unit; whereas, “day” in the context of Universe Ocean translated into Earth language would refer to a time conversion unit.)

Jue He True God was shocked. To devour an entire origin of a miniature universe would require eight to ten days. How much could it devour in just one day?

“Rampaging!” Nine-Headed Demon Master also transmitted his message with urgency. “After devouring for only one day, it disappeared? Could it be a true god is engaged in a war with it?”

“No!” Rampaging Devil God replied. “There isn’t a single great being at war with it.”

Divine Eye True Master was also trembling with unease. “It was not subjected to any attacks at all. It merely spent an entire day devouring the origin of a miniature universe. Then, without rhyme or reason, it vanished?”

“Yes,” Rampaging Devil God said confidently. “It disappeared just like that.”

Within the nine-story tower, Luo Feng originally still had a trace of a smile. When he received this piece of news, his expression instantly changed.

“Now... this spells big trouble,” Luo Feng said slowly.

By his side, Hong and Fire Dome also wore solemn expressions. There was no fooling around. Everyone could tell that this time around, the action plan of this Sector Beast contained an element of danger.

Hong said in a low voice, “After devouring the origin of the miniature universe for merely a day, it disappeared. Under a situation where there is no great being attacking it at all. From these facts, we can ascertain that it has disappeared voluntarily! If it is because of some special reason, for example, there are movements within the Sector Beasts’ nest that summoned it back. Thus, it needed to leave in a rush. If that is the case, we have nothing much to worry about... But if there isn’t any other factor and it just leaves, we can see that it has learned to be more prudent and more cautious.”

Luo Feng whispered in response, “True. If it devoured this miniature universe for one day—devoured the origin of this miniature universe for just one day—then in just a day’s time, how can we all make it over in time? There is simply no way we can lay siege around it to entrap it! This will make killing it an all the more challenging task.”

Fire Dome replied right away, “This time around, it devours for a day; next time, it may devour for another day. The same miniature universe, upon being devoured for up to seven or eight times... will most probably meet its end like that.”

Hong’s expression was awful. “This is even more terrifying than staring at a miniature universe being continuously eaten away.”

“No rush,” said Luo Feng with a frown. “Let’s wait and see. See what its next step will be! From the next step it takes, we can ascertain... that whether it was acting as such for unique reasons. That would mean it will only do this occasionally. If not, it perhaps has intentions to do this on a long-term basis.”

“Hmm.” Fire Dome and Hong both nodded.

Star Tower came to a halt. Then it remained suspended amid the chaotic airflow within the void space.

Within the entire Universe Ocean, all the true gods knew what it signified when a Sector Beast behaved as such. They were all worried. They were all hoping—hoping that it was merely because of a special reason that caused the Sector Beast to behave like that.

Time passed. One day. Two days. One month. Two months... The Sector Beast still had not reappeared.

“Sector Beast did not appear!”

“Previously, when it was devouring Firefly True Master’s miniature universe, the Sector Beast had devoured more than half of the universe. It is definitely capable of devouring much more. Yet this time around, it had only devoured for a day... Then it disappeared for such a long time. Maybe it had some important matters to see to and needed to be somewhere else.”

“Previously, it merely ate for a day before it disappeared. Perhaps it had some other matters to attend to.”

The true gods were earnestly praying that the actual situation was as they discussed.

Nine-Headed Demon Master, Luo Feng, Skeleton Master, and the rest were all of one mind. After all, in the face of the Sector Beast—who was never lacking for methods—they all earnestly wished that there would be more true gods around, which would be much better for them in terms of combining efforts to deal with the Sector Beast.

In the blink of an eye, half a year had passed since the Sector Beast had devoured the origin of Rampaging Devil God’s miniature universe.

In the chaotic void space—

Hu!

“Oh how comfortable.” The Sector Beast shook its tail leisurely. “Previously, I devoured a portion of the origin of that Rampaging Devil God’s miniature universe. Now, I have already completed transforming it into my- strength! And now my powers are even stronger... Hahaha! Oh, I am simply too intelligent. Within the nest, it would be too difficult to kill and eat another Sector Beast. I would need to wait a very, very long time to eat one. And also, ‘Beddy’ is there! As for here... these miniature universes are just sitting there, without any ability of means of resistance. I can devour them to my heart’s content. My power will continue to increase, and the rate of increase will be much faster than that of Beddy or any of the rest.

“By the time I return, I will become the final king. By then, I will have swept and destroyed all the miniature universes. That’s why I will move on to devour the primal universe. Hahaha...” The Sector Beast was overjoyed and quite satisfied with his plan. “Time for the next one. Who shall I choose?” It considered for a moment. “I shall have to give up on the few most highly skilled ones for the time being. For the next one, let’s make it Eye Devil God.”

Hua!

The sector beast immediately teleported and disappeared within this region of the chaotic void space where it spent slightly more than a day’s time. In terms of teleportation, it was much faster than the true gods of Universe Ocean. In hardly more than a day’s time, it had quickly advanced from a region far from the various miniature universes to the void space containing Eye Devil God’s miniature universe.

“The origin of the miniature universe.” Sector Beast looked at the rough silhouette from afar. “The most delicious food that can increase my power. Let’s begin.”

The Sector Beast stuck out its tongue, which was so long that it resembled the tongue of a frog. It licked its lips, and a black fog started to fill its surroundings. Waves of distorted light started to extend out toward the void space over a distance of light years beyond count, as they penetrated the void space. Then... it started devouring!

At that moment, Eye Devil God sat within one of the palaces atop the divine tree. This divine tree was the tallest and oldest divine tree in his miniature universe. Previously, he had used it as a core to establish the structural framework of his miniature universe.

“Not good!” Eye Devil God’s eyes flew open, his colorful face registered shock as he said, “The sector beast is here!”

The sector beast was here!

After spending only one day devouring the origin of Rampaging Devil God’s miniature universe, it had disappeared; half a year later, it was back! This made the entire Universe Ocean nervous.

Divine Eye True God was the first to transmit a message. “Eye Devil God, keep a close watch over it. Keep it under your watchful eye. We shall see how long that Sector Beast intends to spend devouring the origin of a miniature universe this time!”

Luo Feng also transmitted a message. “You need to get on board your palace supreme true treasure and make your way over to it. Keep a close watch over it.”

One after another, great beings were transmitting messages over to Eye Devil God.

Eye Devil God, on the other hand, was panicking. He quickly transmitted his message back to the various true gods: “Everyone, I wonder when you all will arrive. I am not a match for that Sector Beast.”

Previously, when he and Hong had gone to the Sector Beasts’ nest to probe for information, he had been seriously injured. He had still not fully recovered. How could he dare to challenge this Sector Beast? Of course, sitting inside his palace supreme treasure to search and investigate was still a manageable task for him.

He was aware that so long as he did not set foot outside the palace, nothing would happen to him.

Luo Feng transmitted his reply. “Don’t worry. We are rushing over now.”

“Milky Way will definitely be there,” Divine Eye True Master said via voice transmission. “Nearer to you will be Skeleton Master, who will also be rushing over.”

With the other great beings lending him confidence, Eye Devil God boarded a gray battleship and flew out of his own miniature universe, where he rushed toward the direction of the Sector Beast.

A short moment later...

“Sector beast!”

Eye Devil God took one look at the sector beast in the distance. It was big and sturdy and had a golden body in humanoid form, but Eye Devil Master knew that even universe masters could easily change forms. Undoubtedly, this Sector Beast was a terrifying life form that could transform its appearance easily.

“Sector Beast, get out of my territory!” Eye Devil Master hid within his battleship as he executed his domain type supreme true treasure. Through this domain, he attacked the Sector Beast as he transmitted his orders in angry shouts.

For the Sector Beast, the domain was like an itch. It was not the least bit bothered by it.

“Humph.” The sector beast cast an indifferent glance at Eye Devil God in the distance and said, “Foolish and timid Eye Devil God. The best you can do is to hide in that ship, yet you still think of getting me to leave this place? If you had dared to come out, I would have killed you easily.”

“You...” Eye Devil God was furious, but the sector beast was right. He was afraid to go out. “Loathsome Sector Beast, get lost!”

Eye Devil God burned his godly power to activate his domain type supreme true treasure. Condensing the power of the domain to form a gigantic ribbon, he carried out a long-range manipulation of his treasure to execute his secret technique, whereby he threw multiple attacks at the faraway Sector Beast.

However, this condensed domain—made to form a weapon—would be weaker than a normal attack type supreme true treasure. And it did not have the magnitude of an automaton-type treasure!

Eye Devil God was skilled in illusions and soul attacks, so he knew that the Sector Beast was highly skilled in soul attacks. This was why he had chosen to manipulate a domain attack instead. However, no matter how he attacked, without the magnitude of an automaton-type treasure, and dealing with attacks that were not within his field of expertise, the strength and might of his power were weak. To the Sector Beast, his attacks were like a gentle breeze caressing its cheeks.

“How weak, how weak,” said the Sector Beast, not bothered whatsoever. Eye Devil God’s attacks were not even enough to interrupt its devouring of the miniature universe.

A day later...

“You can hide in that battleship all you want. Your miniature universe will ultimately be eaten up by me. All of it.” Sector Beast laughed without inhibitions. Then, with a single teleportation, he vanished and departed.

Eye Devil God suddenly revealed an awful expression. “Sector Beast. It’s... it’s gone!”

“Again, he only devoured for a day!” Luo Feng’s expression was awful, too.

Hong shook his head. “Disaster. Disaster is here.”

All the great beings of Universe Ocean heard this news and were furious, but at the same time, they were utterly helpless. The Sector Beast had only devoured the origin of Eye Devil God's miniature universe for a day. Then it had disappeared once again.

Half a year later, the Sector Beast appeared again. This time around, it also spent a day devouring the origin of Luo Zhen True Master's miniature universe and disappeared after that.

Another half a year later, the Sector Beast appeared again. Every time it appeared, it would devour the origin of one true god's miniature universe for one day. Then it would disappear and reappear half a year later.

Why was it always at half-year intervals? There were three possibilities. One, its devouring skills needed a period of time between each execution before it could be displayed again; two, it might require time to digest what it absorbed; three, this was just a unique preference that it had.

11 years later, Luo Feng was so mad that he had to transmit his thoughts on the matter.

"Every time the Sector Beast returns, it appears outside the miniature universe of a weaker true god! I have mentioned this before... Earlier on, I suspected that Great Thunder Star Master, Zhen Jia Emperor, and Dragon Rock Ancestral God were likely from the Sector Beasts' side. Now, Great Thunder Star Master has died, but Zhen Jia Emperor and Dragon Rock Ancestral God are still alive. They know a vast amount about Universe Ocean. It's no cause for concern for you all, because all of you mainly remain in your own miniature universes. But as for me, I alone occupy two regions, which were respectively near two miniature universes. Why is it that this region I am at... is always unvisited by that Sector Beast? Could it be that my location is already known to Zhen Jia Emperor and Dragon Rock Ancestral God?"

Chapter 1423: Purple Moon Holy Land

Luo Feng was furious. The two areas he was responsible for were close to two miniature universes, both of which belonged to weak true gods. Theoretically, the Sector Beast should have arrived outside those two miniature universes, and once it arrived, Luo Feng would show up immediately and kill it. But it had been 11 years! And he still hadn't encountered a Sector Beast once!

"Milky Way!" said Divine Eye True Master. "We definitely didn't disclose any of your traces to Zhen Jia Emperor and Dragon Rock Ancestral God! You said that they're on the Sector Beasts' side. How could we reveal any information to them?"

Skeleton Master sent a message. "We didn't reveal anything. Only those true gods know clues of your whereabouts, and not even those universe masters are aware of your tracks. As for the two small universes of Dragon Rock Ancestral God and Zhen Jia Emperor, they were eliminated a long time ago, and we've given an order to every great being under us that they can't be in contact with those two miniature universes at all."

Luo Feng, Skeleton Master, Divine Eye True Master, Nine-Headed Devil Master, Bei Chi Star Master, and Primal Chaos City Leader... The eight great overlords in Universe Ocean were talking.

“It’s been 11 years, but I have never met that Sector Beast,” said Luo Feng furiously. “It has been to the miniature universes of those weak true gods. Why hasn’t it come to the two miniature universes closest to me?”

Twice or three times might be explainable. However, it had been 20 times in the past 11 years!

Generally, great beings from the original universe could get to their miniature universes from the original universe through a “universe portal,” so they could get there to help at the fastest speed possible. That was why the Sector Beast had never attacked the miniature universes of great beings from the original universe era. Instead, it exploited those from the first and the second universe eras.

There were originally only a limited number of true gods from the first and the second universe era, and after the screening in the World of Jin, the number had decreased. The number of weaker individuals was even smaller.

The Sector Beast had tried to swallow miniature universes 20 times, but it hadn’t been to the miniature universes Luo Feng was responsible for once. He knew that there was a problem. The eight great overlords discussed the matter.

“It can’t be coincidental! That Sector Beast must’ve known in advance.”

“How did it know our arrangements?”

“They are our mortal enemies, so the great beings under us would never tell them our arrangements.”

“There’s only one possibility,” said Luo Feng coldly. “That in Universe Ocean, another true god went to seek the patronage of the Sector Beasts other than Great Thunder Star Master, Zhen Jia Emperor, and Dragon Rock Ancestral God! Because some other true gods betrayed us, that Sector Beast knows about our arrangements, including where I am!”

All the other seven went quiet. They had already considered this possibility, but they were reluctant to believe it.

“That’s right.” Nine Remoteness True Master sent a message. “Since Zhen Jia Emperor and the other two betrayed us and sought refuge with the Sector Beasts, other true gods might do the same thing! Perhaps some of them turned their backs on us a long time ago, while others have done so more recently.”

“More recently?”

“In the past decade or so?”

Nine Remoteness True Master continued, “Sector Beasts are far too great a threat. They keep swallowing and swallowing, which can make true gods desperate. Some true gods think we can’t fight them. Even if we can, many weak true gods will be killed before then. Some true gods might have secretly turned their backs on us and sought refuge from Sector Beasts. Perhaps they claimed that Sector Beasts were swallowing the origins of their miniature universes, but actually, the Sector Beast was just pretending, deceiving us so that nobody knows who the spy is!”

“That’s right.”

“Makes sense.”

“Okay.” Luo Feng also agreed.

The Sector Beasts had many techniques, which indeed was a headache for all the great beings in Universe Ocean. However, it was only one Sector Beast. In the face of such despair, some true gods might follow Zhen Jia Emperor and Dragon Rock Emperor and turn to the Sector Beasts.

“Now that this is the case...” Luo Feng sent the message. “From now on, although we’ll publicize our arrangements, they will be fake! I’ll act independently. Nobody will know where I’m going to except me... I’ll make sure that the Sector Beast can’t get away.”

“Then do it, Milky Way.”

“You can do anything you want. Not even the seven of us will know your route. Nobody will leak anything then.”

After the meeting among the eight great overlords, they confirmed that other than Zhen Jia Emperor and Dragon Rock Ancestral God, some other true gods in Universe Ocean had turned to the Sector Beasts! Of course, Luo Feng and the others started to think of some new plans.

Luo Feng’s Remote Ocean body and Moshu body were on the same team while the Golden Horned Beast represented a team of its own. They both started to act. They immediately left their original locations and arrived at the new targeted areas, waiting for the Sector Beast to come!

In the chaos space of Universe Ocean, Sector Beast Morosa floated in the air.

“I’m so smart.”

“Every time, I only swallow the origin of a miniature universe for one day so that they won’t be able to arrive in time to surround me. Haha! I’ve swallowed universe origins so many times! Altogether, I’ve swallowed almost three origins of miniature universes.” Sector Beast Morosa was smug. “My power is far stronger than when I left the nest. Hmm... Where should I go this time?”

The Sector Beast considered. What about the miniature universes of the original universe era? The original universe era was the most powerful era and had the largest number of true gods. Besides, they could get to their miniature universes through universe portals immediately, and also, those miniature universes were close to the original universe. If it went after one of those, it would be immediately encircled by a large group of true gods once it got there.

As for the second universe era? The first universe era? Sector Beast Morosa had been to all the universe eras it could get to. It avoided those that stuck together—like the miniature universes of the several true gods from the Divine Eye clan or those who were extremely powerful, like Jue He True God, or the miniature universes guarded by Luo Feng.

Although I’m much more powerful than I was before, thought Sector Beast Morosa. I’m still only as powerful as Nine-Headed Devil Master. Last time, I was obviously weaker than him. As for that Milky

Way Horde Leader Luo Feng, he is said to be the strongest great being in Universe Ocean. It's not the time to fight him now.

The Sector Beast made a decision. "I'll go to the holy land! Holy lands are superior. Although it has stronger resistance and I'll swallow it more slowly, I can at least try the taste first. I'll try the holy land origin and see how much tastier it is than the origin of a miniature universe."

Hua!

The Sector Beast immediately rushed to the miniature universe of Purple Moon Holy Land, and in less than two days, the Sector Beast had arrived at the space outside the miniature universe of Purple Moon Holy Land.

"Purple Moon Holy Land." The Sector Beast looked into the distance and could see the blurry, giant contour. "Comparatively, it's smaller than East Emperor Holy Land! But it's easier to deal with!"

Black mist permeated from its entire body, and at the same time, traces of light extended toward Purple Moon Holy Land in the distance, the Sector Beast at the center. They extended 100 million light years along and permeated the space. Soon, gleaming light was transferred into its body.

"Oh! Ah!" Sector Beast Morosa couldn't help shaking its body. It closed its eyes, enjoying the moment. "This... This—this is exquisite... It's heaven," Sector Beast Morosa whispered, its voice trembling. "This... This is much tastier than the origins of miniature universes! Besides, I can swallow the origin of the miniature universe of this Purple Moon Holy Land just as fast as I swallowed the origins of the other miniature universes."

After just an instant, Sector Beast Morosa felt that the origin of Purple Moon Holy Land suddenly had much stronger resistance. It could swallow the origin much slower. When it came to speed, it dropped to only 1/100th the speed at which it swallowed the origins of other miniature universes.

Inside Purple Moon Holy Land.

"Come now!"

A rumbling voice echoed in the ears of all the universe masters and true gods in Purple Moon Holy Land at the same time. All the top-tier great beings from Purple Moon Holy Land immediately followed the voice.

In the palace, Purple Moon Ancestor stood there. He had lost his previous chills. He looked ashen, anxious, and furious. These were emotions he had never displayed before. Even if he failed at killing Luo Feng—even if all the elite universe masters from Purple Moon Holy Land were killed in the World of Jin—he hadn't been so angry, worried, and unsettled. Worried! He, Purple Moon Ancestor, was worried sick!

"What can we do? What can we do?" fretted Purple Moon Ancestor. "It has come. It has finally come. I knew the Sector Beast would come out someday. All this time, it's been swallowing the miniature universes of all those true gods, but now, it's finally my turn. Although I've tried my best, I can only slow

it down to 1/100th its original speed, but that's not enough! No matter how slow it is, it will still be able to swallow my entire miniature universe if it has enough time. In time, my universe will crumble. Then I'll be screwed!"

All of Purple Moon Holy Land was anxious.

"Ancestor."

Beings flew in from the outside, and soon, over 100 universe masters and two true gods showed up. They were all respectful.

Purple Moon Ancestor looked down and said furiously, "At this moment, that Sector Beast has arrived right outside Purple Moon Holy Land universe."

"Sector Beasts have come!"

"Right outside our holy land?"

"The Sector Beast has finally arrived."

Everyone down there panicked. Even though there were over 100 universe masters and two true gods, nobody could say for sure that they could fight a Sector Beast.

"Go now!" yelled Purple Moon Ancestor. "Whoever has a soul supreme true treasure, go! Get in your supreme true treasure palace, leave Purple Moon Holy Land, and go deal with that Sector Beast!"

"Ancestor, we... We're not that Sector Beast's match."

"We can't deal with it."

Everyone responded negatively, but Purple Moon Ancestor kept yelling, "Of course! I know you can't rival it! That is why I tell you to hide in a supreme true treasure palace. I only want you to slow the Sector Beast down! Besides, tell everyone in Universe Ocean and let them know the Sector Beast is here!"

"Ancestor!" said a universe master in red armor. "We have a bad relationship with the humans, who are the first power in Universe Ocean, and Milky Way Horde Leader is the strongest great being. Will Luo Feng come?"

Chapter 1424: Luo Feng and Purple Moon

"And besides, the eight great beings from Universe Ocean regard Luo Feng as their leader! If Luo Feng tried to stop them, would those true gods actually come?" said that universe master in fiery armor.

All the other great beings from Purple Moon Holy Land standing around were worried about the same thing.

Purple Moon Ancestor, standing in the palace, looked ashen. He glanced around those before him, and nobody in the palace dared to say anything. Instead, they remained quiet. It was silent. Dead silent.

Purple Moon Ancestor stayed silent for a long time before saying, "Just go and halt that Sector Beast, and send that message. You don't need to worry about other issues."

"Yes," answered everyone down there.

Six great beings, including the two true gods, flew out. Some of them had soul-type supreme true treasures, and some were from the subsidiary races of Purple Moon Holy Land. They weren't afraid of soul attacks, as they had no souls.

"Humph." Purple Moon Ancestor's face turned pale with rage, seeing that only six great beings had left. Since the battle in the World of Jin, all the elites working under him were dead, and the true treasures carried by all those universe masters were lost. Now, Purple Moon Holy Land was destitute. The Divine Eye clan and the skeleton race may have been richer than they were!

"Luo Feng." Purple Moon Ancestor was hesitant.

He had suppressed the human race and sought to kill Luo Feng before. That made him the enemy of the human race. In the World of Jin, Luo Feng had killed a large group of universe masters from Purple Moon Holy Land. All the valuables carried by those universe masters had been lost in the World of Jin! They had suffered a great loss! And the grudge between the two powers only grew! Now, humans were the first power in Universe Ocean. Luo Feng was the strongest great being in Universe Ocean. The Sector Beast crisis required Luo Feng.

"Luo Feng..." Purple Moon Ancestor was terribly upset.

A nine-level tower floated in the chaos air space in Universe Ocean.

Inside the tower, Luo Feng stood gazing into the space outside. As for Hong and Fire Dome, they both sat with their legs crossed beside him, immersed in their training.

"Huh?" Luo Feng moved his eyebrows. He waves his hands, and a communications token showed up.

"Divine Eye True God? Jue He True God? Why did they both send me a message at the same time?" Luo Feng was confused.

"Milky Way, Jue He True Master also sent you a message? It seems that he got the message from Purple Moon Holy Land as well." Divine Eye True Master sent the message. "Both Jue He and I have some connections with Purple Moon Holy Land. Just now, Purple Moon Holy Land sent us a message that the Sector Beast showed up right outside Purple Moon Holy Land."

Luo Feng said, "Oh? Outside Purple Moon Holy Land?"

"The two beings from Purple Moon Holy Land who can resist it are the two true gods," said Jue He True God. "A large group of universe masters from Purple Moon Holy Land died in the World of Jin, and their valuables are lost there. After that, they don't even dare to go to the World of Jin... Without machine-type valuables, those two true gods are just mediocre. They're not the Sector Beast's match."

Luo Feng sneered. They were as crazy and reckless they could be. Now what?

"What do they want?" Luo Feng sent a message back.

“The message is very simple. They want us to deal with that Sector Beast,” said Divine Eye True Master. “Milky Way, should we go or not?”

“Milky Way?” asked Jue He True God.

The other seven great overlords regarded Luo Feng as their leader, and besides, humans were the number one power in Universe Ocean. As for the two holy lands? East Emperor Holy Land wasn't an enemy of the humans, so they were doing fine. As for Purple Moon Holy Land, they didn't even have a machine-type valuable, so they couldn't even rival the Divine Eye race or the skeleton race, let alone the humans.

Besides, Neither Jue He True God nor Divine Eye True Master cared about Purple Moon Holy Land. The only thing they were worried about was the Sector Beast crisis. After all, they were the enemies of everyone in Universe Ocean.

“Tell Purple Moon Ancestor,” said Luo Feng indifferently. “Give me the component of a true treasure, and I'll help him. Otherwise... Humph!”

“A component of a true treasure?”

“What component of a true treasure?”

Jue He True God and Divine Eye True Master were both confused.

“Just send the message,” said Luo Feng. “Purple Moon Ancestor will know what I'm talking about.”

“Okay,” Divine Eye True Master and Jue He True God answered.

Luo Feng's eyes appeared cold. He was hostile toward Purple Moon Holy Land, but after all, the Purple Moon Holy Land had a component of his Shi Wu Wings, and up until now, Luo Feng hadn't thought of any other way to get it. Sector Beasts were the only thing he could rely on.

The palace of Purple Moon Holy Land.

“Milky Way Horde Leader named his price. We need to give him the component of the true treasure he needs. After that, he'll help us.”

Purple Moon Ancestor looked down and snorted. “I knew he was going to bring that up.”

Luo Feng could feel the summoning power of the Shi Wu Wings component even if he was a billion light years away from Purple Moon Holy Land. Ordinary true gods couldn't understand what such a deal meant to the humans, but Purple Moon Ancestor did! That was why, in the past trillion eras, the humans had offered deals several times... If the humans agreed, Purple Moon Holy Land was willing to give up that component of the true treasure. Then they can get into the World of Jin without any obstacles, yet Purple Moon Ancestor didn't agree to it.

“What did Divine Eye and the other say?” asked Purple Moon coldly.

“Divine Eye and the others don’t oppose Milky Way Horde Leader!” All the universe masters standing down there felt hopeless. The Purple Moon Holy Land was no longer as it had been, and nobody cared about it.

Purple Moon Ancestor kept thinking. Everyone looked anxious. They hoped their ancestor would say yes, as it was only a component. If Purple Moon Holy Land was destroyed, all of them would die. They were a race that could live forever, yet they might be annihilated instantly.

“Ancestor, even without that component, Milky Way Horde Leader is the strongest great being. Even if he gets the component, it won’t make any difference,” said other great beings. “That Milky Way Horde Leader made us—”

“What do you know?” snapped Purple Moon Ancestor. He glanced around coldly, and everyone went silent.

Purple Moon Ancestor was silent for a long time. It made sense. He couldn’t do anything to Luo Feng, and when he became a true god, he would be invincible. However, the miniature universe was tied to his own destiny!

“I agree!” said Purple Moon Ancestor, clenching his teeth. “If he helps us, I’ll give him the component.”

“Yes!”

Everyone was happy.

This was good. If Purple Moon Holy Land could erase the grudge with the humans, the great beings there would have a much easier time.

Divine Eye True Master and Jue He True Master knew about the call for help from Purple Moon Holy land at first. Soon, Primal Chaos City Leader and the others all learned of it.

“They agreed! Purple Moon Holy Land has agreed!” Primal Chaos City Leader was exhilarated to find out that Purple Moon Holy Land has agreed. He went to the dimension in the virtual universe that belonged to Luo Feng. He stepped across the space. “Luo Feng, Purple Moon Ancestor finally acquiesced!”

Luo Feng sitting on the square also stood up and smiled. “Haha! That old guy always tried to suppress us humans. Now that he’s anxious... I’ve been waiting for that component for such a long time, and I’m finally going to get it now. I’m going to Purple Moon Holy Land now.”

“Okay.” Primal Chaos City Leader nodded. “One more thing. After getting that component, how are you going to treat Purple Moon Holy Land?”

“I’ll suppress them less harshly.” Luo Feng smiled.

Shi Wu Wing only had one last pair of wings left, and Luo Feng had been longing for it for a long time. He was certainly thrilled now. He drove Star Tower and headed toward Purple Moon Holy Land as quickly as possible.

Outside Purple Moon Holy Land.

“Almost.”

Sector Beast Moroa looked at the contour of Purple Moon Holy Land in the distance and looked smug. “So satisfying. No wonder this Purple Moon Holy Land is a miniature universe at a higher level. It tastes much better than the universe origins of ordinary miniature universes! However, I could only eat it slowly... Hmm... It’s been a day. I can’t stay here any longer. Otherwise, I’ll be trapped. Time to go.”

Shua!

The Sector Beast teleported and disappeared. From beginning to the end, he didn’t care about the two true gods hiding in the palace who tried to slow him down at all.

“It’s gone?” The four true gods and four universe masters in the supreme true treasure palace who were trying to slow down the Sector Beast were all overjoyed. “Quick, go back and tell our ancestor.” They all went back.

Inside Purple Moon Holy Land, Purple Moon Ancestor couldn’t help looking happy. He could sense that the Sector Beast had stopped swallowing the origin, and after only a short while, six beings flew inside the palace from outside.

“Ancestor, the Sector Beast has left.”

“It teleported and left.”

The two true gods stood under there, reporting the news gladly.

Purple Moon Ancestor nodded his head and said, “That Sector Beast has been trying to swallow other miniature universes, and it’s always disappeared after only one day of trying. This time, it also disappeared after a day. It’s normal! If Milky Way Horde Leader Luo Feng comes and asks for that component, just tell him I don’t have it!

“Ah!”

“No?”

Everyone was scared.

“We can’t do that, Ancestor. What about next time?”

“We’ve already had a deal.”

To the universe masters, the component was useless. They would rather give it to Luo Feng and mitigate the tensions with the humans.

Purple Moon Ancestor said coldly, “No need to worry. It won’t make any difference. If we give it to him but Luo Feng turns his back on us, then what could we do? I was just thinking, the Sector Beast has been eating the origins of miniature universes, but it leaves every time after it swallows some of it. It must be very beneficial if it keeps eating the origin. The origin is a magical force, and it can maintain a miniature

universe. It can even breed life forms. If Sector Beasts keep eating miniature universes, their power will be enhanced.”

Purple Moon Ancestor continued coldly. “The more powerful the Sector Beasts are, the more difficult it is for Luo Feng to deal with them. Then the humans will die out... He won’t just let the Sector Beast keep eating the origin. They’ll panic if the Sector Beast keeps eating. They won’t take the risk. Even if he would take the risk, his teacher, Divine Eye, and others wouldn’t bet on it.”

Purple Moon Ancestor had calculated as much. The origin of his miniature universe was 10,000 times stronger than those of true gods, yet the Sector Beast ate it very slowly. Purple Moon Ancestor calculated that it might have taken tens of thousands of years for it to finish it. Besides, that Sector Beast wouldn’t just stay in one place.

Chapter 1425: Sworn Enemy

Luo Feng was filled with expectation as he maneuvered Star Tower. He was on his way to Purple Moon Holy Land universe when Divine Eye True Master sent a message.

“Milky Way Horde Leader. That Sector Beast was at the peripheral region of Purple Moon Holy Land, where, likewise, it devoured the origin for a day and then left. At the same time, Purple Moon Holy Land wanted me to inform you, Milky Way Horde Leader, that you... are no longer required to go there.”

Luo Feng’s greatly enthusiastic heart instantly cooled down. Luo Feng’s expression darkened as he transmitted his response. “What do you mean... no longer required to go there?”

“What Purple Moon Holy Land meant was, the deal agreed upon previously is called off,” Divine Eye True Master said helplessly.

“Then what about the promise they made previously?” Luo Feng continued to ask in an indifferent tone.

Divine Eye True Master said, “The other part of the news means... The promise made earlier on was based on the condition that Milky Way Horde Leader would help them deal with the Sector Beast. But now, the Sector Beast has left of its own accord. There is no need for Milky Way Horde Leader’s help in dealing with it, so, unquestionably, there is no need for them to give you a true treasure in exchange.

“Milky Way... honestly speaking, when they transmitted this piece of information, even I felt angry just listening to it! But, you should know. The Sector Beast is not only an enemy of Purple Moon Holy Land but a common enemy for all the races within Universe Ocean! I know you are filled with anger now, and you will most likely want to let the Sector Beast devour Purple Moon Holy Land to its heart’s content... While swallowing for eight to ten days is no big deal, if the time it spends on devouring grows too lengthy, we cannot stand idly by any longer.”

“I know,” replied Luo Feng. “I will place importance on the big picture. But spread my word... From this point on, Purple Moon Holy Land will be my, Luo Feng’s, sworn enemy.”

Someplace far away, Divine Eye True Master was taken aback. He could also feel the intensity of that endless anger raging in Luo Feng.

“Milky Way...” Divine Eye True Master could not help but feel worried. To deal with the Sector Beast, they had to depend mainly on Luo Feng.

“I will look at the big picture!” Luo Feng said. His response sounded reasonable enough, but all the more, Divine Eye True Master felt that his words contained limitless fury.

Within Star Tower, Luo Feng’s expression was hideous as he held onto his transmission token. His anger was so great that his veins were threatening to pop out and burst.

“Purple Moon Holy Land, Purple Moon Holy Land...” His eyes flashed coldly. “I wanted to give you all chance, but since you all are not appreciative, my Shi Wu Wings would rather make do with their imperfections and make you all regret that you have done!”

Toward Purple Moon Holy Land, Luo Feng no longer held on to any feelings of pity. However, he was also aware that he could not allow the Sector Beast to continue devouring the origin of Purple Moon Holy Land as it pleased. After all, every time it devoured an origin, it would disappear for half a year. Various races of Universe Ocean had long suspected that the Sector Beast spent that time “digesting and absorbing” whatever it had swallowed to increase its power! A human grew when it consumed food. A golden horned beast grew when it ate metals. All operated on the same theory. The Sector Beast might, unfortunately, feed on the universe origin to become stronger. It seemed highly possible.

Purple Moon Holy Land was, after all, a holy land universe of a true god of void space. That origin would likely be the equivalent of hundreds and thousands of origins of true god level miniature universes combined! If Luo Feng allowed the Sector Beast to continue devouring like that, who knew what would be the result would be?

If the Sector Beast became incomparably powerful, to the extent that no one could fight against it, then Purple Moon Holy Land could be faced with its doomsday. But if this continued, the entire human race—including Luo Feng and his family—would have to face the fate of annihilation... This was what Luo Feng could not accept. He did not dare to use the lives of family and friends, and the lives of the entire pulse of Earth, as bargaining chips. He was reluctant to gamble with them!

“Purple Moon Ancestor, you are indeed ruthless!” said Luo Feng. “You have already guessed that I would not dare to take such a gamble and that I would not risk it all just for a single piece of a true treasure... Perhaps you are not concerned about the universe masters under your command, or perhaps your Purple Moon Holy Land would prefer to continue withdrawing into passive defense.” Luo Feng’s gaze turned icy. “But your Purple Moon Holy Land shall be my, Luo Feng’s, sworn enemy, and I shall remember this! Before I achieve my breakthrough to become a true god of void space, I will definitely try to destroy your Purple Moon Holy Land.” Luo Feng was bellowing the words in his heart as he spoke them. “I will think of every way possible to ensure that you live to regret this.”

To destroy a miniature universe of a true god of void space—usually only an eternal true god executing some superior methods could achieve such a feat. This was a piece of information that Luo Feng had learned in the past. However, Purple Moon Ancestor’s miniature universe was not considered large.

The smallest miniature universes at the level of a true god of void space had diameters around one billion light years, and the biggest could have diameters as long as ten billion light years! The Purple

Moon Holy Land miniature universe had a diameter of 2.1 billion light years, while East Emperor Holy Land miniature universe was 3.2 billion light years in diameter.

The size of a miniature universe was related to many different factors, including the erection of the internal structural framework when a miniature universe was established, or whether the godly power route or the law route had been chosen to become a true god. The bigger the miniature universe, the more power was provided, and the more stable it would be.

For instance, the legends of true gods of void spaces had mentions of a “miniature universe with a diameter of 10 billion light years” that was comparable to the lowest level miniature universe of eternal true gods! Of course, that was merely a legend. Even for an extraordinary talent who had once attained 90,000 times life genes—or even for the three generations of ancestors at the true god of void space stage—none of their miniature universes had ever reached 10 billion light years. This perfect, ultimate limit was only a legend!

When one was a true god of void space, it was usually unlikely for the miniature universe to be of a diameter that was merely one billion light years. Normally, the size would not be so ridiculously small. Weaker true gods of void space would have miniature universes with diameters around two billion light years, while stronger ones would have miniature universes with diameters around three billion light years. The elites’ miniature universes could reach diameters of four billion light years, while those of extraordinary talents could reach around five billion light years. In short, the higher-level one attained on the social scale, the more difficult it was to maintain the miniature universe.

As for a talent that achieved 90,000 times life genes via the godly power route? And the three generations of ancestors? A true god of void space with a miniature universe that had a diameter of ten billion light years, this was just a legend of the ancient civilization.

Purple Moon’s miniature universe is not big, thought Luo Feng. It’s even smaller than East Emperor’s. If I become a true god of void space, by relying on an automaton type treasure and various secret techniques, I can certainly achieve an outburst to unleash the power of an eternal true god. Perhaps then I might be able to destroy Purple Moon Holy Land universe!

Luo Feng made a mental note.

Luo Feng’s expression grew increasingly awful as he tried to contain his anger.

“Teacher...”

“Luo Feng?”

Fire Dome and Hong were looking at Luo Feng. They felt a little worried, as they did not know what might happen next.

“I’m all right,” Luo Feng replied. “Let’s go back and continue to guard against the Sector Beast.”

“We’re no longer going to Purple Moon Holy Land?” Fire Dome was shocked.

“Not going.” Luo Feng shook his head. He walked straight to the steering wheel and sat down, making no further comments.

Fire Dome and Hong looked at one another as they both speculated what was going on. However, both of them soon heard the news from Primal City Chaos Leader. What they learned greatly angered them. This was outright bullying. The promise made previously had been broken in the blink of an eye. How shameless could they get? It seemed Purple Moon Ancestor was not the least bit interested in appeasing the wrath incurred by the humans and Luo Feng—not even the slightest trace of it.

If that was the case, then they would be their sworn enemies!

Time passed.

This time, less than a month after it devoured the origin of Purple Moon Holy Land miniature universe, the Sector Beast reappeared in Universe Ocean. The timing defied the expectations of every powerful group. This time, it moved on to devouring the origin of Rampaging Devil God's miniature universe.

Upon devouring the origin of one miniature universe, it disappeared for half a year. Upon devouring the origin of another miniature universe, it disappeared for another half a year.

Sector Beast had resumed its attacks on miniature universes, and this worried the various races of Universe Ocean. If it went on, many miniature universes would collapse.

It had been three years since the incident with Purple Moon Holy Land.

Within the void space surrounding Sea Badger True Master's miniature universe, a silver-white vessel hung suspended in space. Luo Feng's Golden Horned Beast body was inside the vessel. Although it was known as Golden Horned Beast body, Luo Feng had already transformed it so that it took human form.

Perhaps for common universe masters, size and form would have an impact on their power. As for Luo Feng, who had achieved 89,999 times life gene level on his godly power route, he could easily change his life structure to take on the form he would require, according to the circumstances he was in. And he could also unleash his power to perfection.

A piece of information was transmitted over to Luo Feng. "Milky Way Horde Leader, Milky Way Horde Leader! Sector Beast has appeared outside my miniature universe now!"

Golden Horned Beast Luo Feng was momentarily shocked, but shortly after, he showed his delight. "A message from Sea Badger True Master?"

"Milky Way..."

Suddenly, Divine Eye True Master and several other true gods were sending messages over as well.

"Hahaha..." laughed Golden Horned Luo Feng. "After such a long wait! See, what did I say? So long as no one knows my whereabouts, I will secretly stay hidden. Then surely, there will be at least a chance of encountering this Sector Beast while it is out to devour miniature universes." Luo Feng was thrilled.

"What a pity it did not cross paths with the other team I deployed."

Luo Feng had divided his other bodies into two teams this time around. One route was taken by his Remote Ocean body and his Mosha body, who traveled with a series of powerful treasures like Shi Wu Wings, Wu Qi God, Star Tower, and Blood Ghost Blade.

The other route was taken by his Golden Horned Beast body alone. Although equipped with several automaton-type treasures, in terms of the ability to unleash power, it was inferior to the other team.

“Even so, the automaton-type treasures that my Golden Horned Beast body possess far surpass Divine Eye True Master and Jue He True Master’s treasures.” Golden Horned Luo Feng was very confident. “This Golden Horned Beast body has combat power that is stronger than any of them.”

Speaking of power, his other team was, of course, much stronger—great enough to surpass the power of all the other seven true masters put together.

As for his Golden Horned Beast body, compared to the other seven true masters, it might have been slightly stronger, but the advantageous position it had over them was not obvious. Of course, given Luo Feng’s comprehension and cultivation for the past trillion eras, even this ordinary Golden Horned Beast body could prove to be an extremely difficult opponent.

“Maybe this time around, I will be able to kill that Sector Beast.”

Golden Horned Luo Feng smiled.

Sou!

This silver vessel teleported over right away. At the same time, Luo Feng transmitted a message to Sea Badger True Master: “Sea Badger, I’ve arrived.”

“Arrived?” Sea Badger True Master was shocked. It had only sent out the call for help a moment ago. Nonetheless, it was overjoyed. Milky Way Horde Leader was the first to arrive. At least he would be able to prevent that Sector Beast from devouring too much. “These are the coordinates of where the Sector Beast is.”

Sea Badger True Master sent the coordinates right away.

Within the peripheral area of Sea Badger True Master’s miniature universe, a chaotic airflow was filling up the void space. A certain area within this endless chaotic airflow was filled with black fog. In the midst of it was a lofty figure. It was Sector Beast Morosa, and it stood upright, right in the middle of the black fog, waving its tail as it delightfully devoured the origin of that miniature universe.

Streams of distorted light rays extended and penetrated the void space.

“Wu!” Sector Beast Morosa was quite pleased. It felt that the whole Universe Ocean was its plaything.

Weng!

The surrounding space suddenly froze.

“Sealing of space!” Sector Beast Morosa was shocked. “So fast!”

Based on its experience, anytime it was devouring a miniature universe, the master of that miniature universe—a true god—was likely to drive his palace supreme true treasure over to harass him. But the sealing of space was highly unusual because those true gods were usually quite eager to chase him away. Why would they seal space? Only when top-tier true gods like Nine-Headed Demon Master arrived, or if a big group of true gods arrived together, would they dare to seal the space.

Hua!

A silver-white vessel arrived. When the cabin doors opened, a man wearing a suit of golden armor strolled out.

Sector Beast Morosa took one look and was instantly taken aback. “A universe master?”

Chapter 1426: Luo Feng Fights the Sector Beast

It wasn't that Sector Beast Morosa hadn't met a universe master. Many true gods would send universe masters to inspect first, but nobody performed space seal, and nobody had a force so terrific or powerful.

“You are...” Sector Beast Morosa stared at the man in golden armor stepping through space, coming at him. “Human Milky Way Horde Leader Luo Feng?”

“Yes.” Luo Feng took back the spaceship and stared at the Sector Beast Morosa.

“I heard you are the strongest great being in the entire Universe Ocean. You're only a universe master, but you're the strongest great being?” Sector Beast Morosa stared at Luo Feng. He sneered. “It seems that the other true gods in Universe Ocean are so weak that you, as only a universe master, can become the strongest great being.”

Though he said as much, Sector Beast Morosa had already stopped eating the origin, and those traces of light started to spin around him. Apparently, he was being very careful and vigilant. After all, Luo Feng's reputation preceded him. He wouldn't underestimate this human before him.

“You'll know after we fight.” Luo Feng's godly body had already performed Duan Mie.

Hong! Hong! Hong!

He immediately performed the first three volumes, and after burning his godly power, his power became incredible—stronger than the previous true gods. Generally, true gods only had one level of godly power technique. Few of them had two levels.

Hua! Hua!

Luo Feng was in golden armor. He waved his right hand, and out of nowhere, a chain with glowing green light appeared. The giant chain wound around Luo Feng's body.

“Just a universe master...” Sector Beast was smirking, but it kept gazing at Luo Feng carefully with its bloody eyes.

They were facing each other, observing each other. Suddenly, Sector Beast Morosa opened its mouth without making any sound. The soundless scream echoed in Luo Feng's soul.

Luo Feng had stronger willpower than Nine-Headed Devil God! As for energies, he had the most in Universe Ocean under three levels of godly power burning! And when it came to techniques, Luo Feng had two inheritances from the World of Jin and Duan Dong River! This so-called soul attack was like a breeze to Luo Feng. He didn't feel anything.

Luo Feng wasn't affected at all. He whipped out the giant chain surrounding him. "Go!"

Hua! La!

A giant chain that looked like a python flew out. The chain twisted, slashed through the sky, and endless snow flowed in the space around the chain. The snow was fluttering, covering an area of ten square light years. Time and space were forbidden.

At this moment, Luo Feng had already utilized two valuables. One of them was the chain—a machine-type attacking weapon, "Bi Yan Chain." The other was a domain machine-type valuable named "Snow World." It had the ability to control space and time was as powerful as Golden Country, perhaps stronger.

In the past trillion eras, he had obtained many valuables from the World of Jin, so this time, he was well-prepared. Even though this team didn't have as many valuables as the other team, the valuables Golden Horned Beast Luo Feng had were still awed by true gods like Divine Eye.

The snowy world arrived as if the chaos space had been replaced by a world of white. The snow was falling.

Sector Beast Morosa stood there, but it was surrounded by black mist. There were thickly dotted black threads around its body. A giant chain slashed the sky, and just as it flew across the sky, it became a large flow of water! The giant stream of water cut through the sky. Everywhere it touched, the space turned green, and there was green grass growing in space. The giant water flow splashed Sector Beast Morosa.

Pa!

It was extremely fast. The whip appeared to be soft, but actually, it was rapid and fierce. The giant flow of water turned from the chain and whipped Sector Beast Morosa. The parts of its body whipped by the chain sank—even its head—molded like gold bullion.

Pa! Pa! Pa! Pa! Pa! Pa!

The giant water pillar kept whipping the Sector Beast relentlessly, turning into a phantom. Luo Feng was staring into the distance, burning his godly power to its maximum degree. He triggered the engravings on that machine type valuable, and he was performing a technique he had created, "Bud of Water and Wood." The core of that technique was relentless. The water pillar kept whipping the Sector Beast, yet there was grass growing throughout the snowy world, and the liveliness permeated the space, suppressing Sector Beast Morosa. It kept whipping Morosa, turning it into chunks. However, it still hadn't crumbled.

Hou!

There followed a furious roar. Sector Beast Morosa was furious, completely suppressed under the constant whipping. It was continually losing strength.

“Go!” Sector Beast Morosa glared at Luo Feng in the distance.

Hua! Hua! Hua!

All of a sudden, the black threads surrounding Sector Beast Morosa all flew toward Luo Feng in the distance, trying to cover him. They flew very fast, unhindered by the speed limit of Universe Ocean. Instantly, they reached Luo Feng, surrounding him like a black mist cocoon!

Inside the cocoon, Luo Feng was completely enveloped. The size of the cocoon was variable, and it was stuck to Luo Feng. It started to swallow his godly power.

“He’s indeed quick.” Luo Feng nodded. “Once it was performed, I was immediately surrounded... Firefly True Master was attacked by this move, and he couldn’t dodge it.”

Luo Feng immediately shrank his godly body, but the black mist cocoon followed suit, shrinking along with him.

“Bigger, bigger, bigger!” Luo Feng burned his power madly, trying to oppose the black mist cocoon around him. Even if it was Sector Beast Morosa, it was difficult for him to swallow godly power while it was burning like this.

As soon as Luo Feng grew large, the black mist cocoon became 100 million kilometers tall.

Sector Beast Morosa was controlling the black mist cocoon, but it felt like the cocoon couldn’t swallow much of the godly power. Morosa became anxious. When it saw the cocoon became 100 million kilometers tall, it realized something wrong.

“He’s trying to get out! I won’t let that happen! I’m much stronger than before. Want to get out...?”

“Break!” yelled Luo Feng, trapped in the cocoon. “Break!”

The giant chain in space suddenly became straight as a spear. Then the gleaming spear slashed the cocoon like a dazzling streak of white light. The space the white light passed through wasn’t shattered, but there were circles of strange, swirling ripples. At that moment, Luo Feng, inside the black mist cocoon, also used his claw. The claw was like a blade. It slashed without a sound, but all the space it through passed crumbled.

One from the outside and one from the inside—the chain-spear was outside, while the claw was inside. Both of them were machine-type valuables.

Hong! Hong!

The black mist cocoon suddenly shook. A tiny crack appeared on it, but it immediately recovered while Luo Feng was still trapped inside.

“I can’t get out?” Luo Feng looked surprised. “That shouldn’t be. I used two machine type valuables at the same time, from both the outside and the inside. I was also burning my godly power to support it, so I should’ve broken the cocoon. It seems I need to burn more godly power.

The resilience of the black mist cocoon made all the great beings from Universe Ocean realize how difficult it was to break it with a weapon-based attack. However, Luo Feng deemed that it was possible for him to do so. He had successfully produced a crack on the cocoon just now, so that meant he needed to improve his attacking power.

Normally, the best way to break out was to use his own godly power to consume the power from the Sector Beast! He would just consume the power from the black mist cocoon so that the Sector Beast couldn’t supply that much power anymore. Then it would crumble, as it didn’t have that defense power.

“Do you really think you can get out that easily?” Sector Beast Morosa saw Luo Feng fail, and it smirked. However, the smile froze immediately.

Hong!

Luo Feng, who was trapped in the giant black mist cocoon that was 100 million kilometers tall, burned his godly power. Before being converted by machine type valuables, it spread around like wildfire.

Chi! Chi! Chi!

The energies contained in the black mist cocoon were being quickly annihilated. They were consuming each other!

“Break!” Luo Feng reached out with his hands. His claws extended outward at the same time. After a faint roar from the beast, two strange beasts landed on his hands, grabbing the black mist cocoon at the front. He tore the black mist apart.

Hua!

The black mist cocoon was trying to consume the godly power of Luo Feng, and it was 100 million kilometers tall. At such a size, the energies consumed were so extravagant that even Sector Beast Morosa felt a huge burden. When the cocoon was consuming too much power, the binding strength naturally got weaker.

Luo Feng tore at it again. It was unnecessary for him to use his techniques, as he could just tear it apart with his bare hands. He tore the black mist cocoon apart, then walked out into space.

“Is that all you’ve got, Sector Beast?” Luo Feng dashed toward the Sector Beast in the distance like a streak of light.

Sector Beast Morosa was intimidated. After all, he wasn’t the ultimate king yet. When a Sector Beast became a king, its greatest function was to breed—to breed many super warriors. Sector Beasts rarely

engaged others in combat, which meant the Sector Beasts were weaker in fighting but stronger at survival.

“I’ve already improved my power, but he still got out that easily. He’s only a universe master, but he has such great power. The godly power I just used might be that of a true god several hundred thousand kilometers tall.” Sector Beast Morosa immediately decided to run away. “I’m not strong enough. I need to get stronger by eating more miniature universes. I’ll go!”

Sector Beast Morosa roared. An engraving with a black edge and a golden surface appeared. There were 99 engravings, and—hong! Its body cracked and transformed into 99 traces of light.

Luo Feng frowned. “It immediately ran away after only a few comebacks. It’s a coward.”

“Universe chain!” yelled Luo Feng.

Hua!

That giant chain immediately started to spin, morphing into many thick, long chains, all well-dispersed.

Hua! Hua! Hua!

10,000 chains flew outward like snakes diving at their target. It was like an umbrella being opened.

Even the body of a Sector Beast couldn’t be as fast as a machine-type valuable. All 99 bodies of Morosa felt as if everything had turned dark. It was like it had entered a miniature universe made of chains.

Chapter 1427: Divine Eye Secret Technique

Peng! Peng! Peng!

All 99 bodies of Sector Beast Morosa flew toward different directions quickly. Their speed surged, and it completely surpassed the limit of Universe Ocean. However, the endless chains formed a miniature universe, sealing off the area around the Sector Beast! All of a sudden, those bodies kept hitting the membrane of the chain universe. The membrane was formed by the intertwining of levels of chains, and the clash made a sound like clashing metal.

“Howl!”

98 of the 99 bodies disappeared, concentrating and forming the golden Sector Beast Morosa.

Morosa looked around and saw the miniature universe formed by chains, suddenly realizing it couldn’t get out of it.

Luo Feng saw that he had trapped Sector Beast Morosa with this move, and he felt relieved. He had separated his three bodies into two teams, and this team wasn’t as well-prepared as the other one. The Sector Beast had performed the same escape technique as it had back when it had killed Firefly True Master, so Luo Feng had prepared for it.

As for the other team, they had Shi Wu Wing, so they could perform techniques like “one thought void space” and other combinations; they were more powerful. As for this team, it was relatively weaker. Luo Feng only had one spiritual weapon machine-type valuable, “Bi Yan Chain” to perform the technique “Universe Chain.” This was the evolved move of the inherited technique “I Am the Universe” he’d had before. Plus, it was performed through a machine-type valuable, making it even more powerful. He also had a domain machine-type valuable, “Snowy World,” to suppress the Sector Beast.

Even if true gods like Nine-Headed Devil Master were trapped by me, they couldn’t get out of this chain universe, Luo Feng thought.

Inside the chain universe, Sector Beast Morosa took a look around. The membrane in the distance was formed by countless chains, and there was a snowy world out there, empowering the whole thing. It was solid.

“Haha... Milky Way Horde Leader!” Sector Beast Morosa, who was trapped inside, guffawed. “Do you really think you can trap me?”

“You are already trapped by me right now, Sector Beast!” rumbled a voice through the entire chain universe. “If you really have the power to escape, then perform it. I can take it. Unfortunately, you can’t!”

Sector Beast Morosa suddenly roared ferociously, and its entire body turned into dark light.

Hong!

Its speed surged, and gleaming, dark light slashed through space, hitting the chain universe membrane in the distance. The countless intertwining chains were hit, and the entire chain universe started to tremble. The snowy world outside the chain universe was trying to solidify the chain world.

Sector Beast Morosa was shocked and had to step back. It looked at the chain universe membrane, dazed. It had used 99 bodies to hit the membrane before, so the power wasn’t strong enough. Just now, it had gathered all of its body to hit it, which could rival the supreme attacks of great beings like Nine-Headed Devil Master.

I failed?

“You won’t be able to run away!” the rumbling voice echoed through the entire chain universe.

“Impossible!” Sector Beast Morosa roared. It then turned into a black streak of light and hit the membrane again.

Hong! Hong! Hong!

It kept hitting the membrane universe. Sector Beast Morosa had already gone insane. It kept crashing into the chain universe, making the entire miniature universe shake, and the snowy world outside kept giving power to the chain universe.

“The crashing is so powerful.” Outside, Luo Feng was intimidated as well. “That Sector Beast Morosa is just like inborn beast gods. Every one of their moves has mysteries in it. The crashing seems to be simple, but it is actually more intricate than my techniques.”

Luo Feng knew that his techniques were elegant and complicated, and they could awe many great beings. But they were at a lower level. The strongest technique he had created was level eight.

As for true gods, those who were above average were able to create techniques at level eight. As for those like Divine Eye True Master, they were able to create techniques at top-tier level nine! That was the fundamental difference between universe masters and true gods. And perhaps it was the same thing for Sector Beasts. It might have never studied any techniques, but it could naturally wield mysterious techniques.

“However, with the combination of chain universe and the snowy world outside, it won’t be able to escape the double suppression.” Luo Feng kept burning his godly power at level three, controlling Bi Yan Chain and the snowy world, the two machine type valuables.

“Smaller! Smaller! Smaller!”

The entire chain universe was getting smaller under the control of Luo Feng. At the same time, a silver spaceship appeared beside him. It immediately bulged. “As long as my supreme true treasure palace is large enough and swallows the entire chain universe, then that Sector Beast won’t be able to escape it.”

Just as Luo Feng outside the chain universe was taking out the silver spaceship, Sector Beast Morosa inside the chain universe started to roar, “Milky Way Horde Leader! Are you trying to trap me into that spaceship?”

“You can tell?” Luo Feng said. He couldn’t help being surprised. The Sector Beast was trapped inside the chain universe, and the space and time around it were enveloped by his snowy world. The Sector Beast shouldn’t have been able to see it.

“Haha! You’re using godly power, but my power is exactly the opposite of your power. Don’t think that I am you! You want to trap me? Hahaha...!” Sector Beast Morosa had failed at crashing through the chain universe, but instead of giving up, it guffawed. “You should be proud because you’re forcing me to reveal my original body.”

All of a sudden, a black mist permeated around sector Morosa. Then its appearance quickly changed from the golden giant being to an ugly monster that was dark and black. It had a pair of hands and feet and was naked. It had two heads at the front and back, and there was a single eye on each of its heads, along with a nose and a mouth, but there were no ears or eyebrows. It stood in space, emitting an evil aura.

“Break!”

Sector Beast Morosa suddenly turned both of its heads to the same side. Originally, one of the heads was facing the front while the other faced the back, but now, the head facing the back turned to face the front. There was gleaming, dark light bursting out of the Sector Beast’s ugly body. The black light

immediately concentrated and turned into a streak of bloody light. That gleaming, bloody light entered the eyes of the two heads of that Sector Beast.

Xiu! Xiu!

Both of the sole eyes produced a beam of red light. The light was so fast that it was as if it were teleporting. It immediately reached the membrane of the chain universe.

Hong!

There was a rumbling sound.

Hong!

The countless chains intertwining with each other suddenly crumbled, and the entire chain universe disappeared. Bi Yan Chain also bounced away, then turned around and floated above Luo Feng.

Sou!

The Sector Beast Morosa had already traveled far.

“Want to get away?” Luo Feng couldn’t help but feel shocked by the move that the Sector Beast had used to break the chain universe, but he stopped thinking about it. “Freeze!”

Luo Feng’s eyes were like lightning, and they gazed at the Sector Beast Morosa.

Weng!

Sector Beast Morosa had immediately started to flee after escape the chain universe, but suddenly, a giant godly eye showed up in front of it, in the space in the distance. An invisible but terrific shock of willpower arrived and enveloped it, striking relentlessly.

“Ah!” Sector Beast Morosa howled in pain.

It had been a long time... It hadn’t felt such pain for a long time, and it was just as painful as the last time it had been injured by Bei Di. Last time, it had been severely injured, and Illusion Heart True God and Eye Devil God had reached the nest of Sector Beasts. That had been when Morosa had decided to leave the nest of the Sector Beasts. It hadn’t expected to suffer from such pain again, let alone in Universe Ocean.

“You’ve infuriated me!” Sector Beast Morosa yelled furiously. “Howl!”

After roaring, it shot a trace of black light out of his mouth, striking Luo Feng directly. It hit Luo Feng’s body.

Chi Chi Chi!

The two energies were consuming each other! It had used the same move when it had killed Firefly True Master. The leftover body would be quickly swallowed and would die. However, Luo Feng’s godly body was 100 million kilometers tall, so he had abundant godly power.

Luo Feng didn’t care much about godly power being mutually consumed, but he was indeed surprised by the attack from Sector Beast Morosa.

What? It can still make attacks at full strength?

Divine Eye Secret Technique was one of Luo Feng's trump cards! If he had Wu Qi God, Shi Wu Wing, Star Tower, and others with him, he would have some other trump cards. However, with Golden Horned Beast, which only carried some machine-type valuables, Divine Eye Secret Technique was the only trump card he had! And with that secret technique, Luo Feng was invincible in Universe Ocean!

Ever since his willpower had reached the level of an eternal true god, he had already finished the sixth volume of Divine Eye Secret Technique! Against that technique, even those at the true god of void space level would faint! Only those who had reached the level of pinnacle true gods of void space could stay conscious, but their power could be significantly reduced as well, which was why Divine Eye True Master and the others all treated Luo Feng as their leader. He hadn't expected this Sector Beast to be able to attack at full strength even under the attack of his Divine Eye Technique.

Its willpower resistance is stronger than that of Divine Eye True Master, Luo Feng thought.

"His... His godly body is still intact?"

Sector Beast Morosa kept yelling in agony. It kept putting out the black light, trying to consume Luo Feng's body, but he found out that Luo Feng's body wasn't reduced at all. It knew for sure that its opponent's body must have been reduced, but it didn't realize that if the godly body was reduced, it only meant one thing.

The percentage of the godly body was so small that it couldn't even recognize it. This shocked Morosa. His opponent had only lost such a small amount of godly power? The body of Firefly True Master would have been consumed completely by now, yet Luo Feng's godly body didn't seem to be reduced at all!

Impressive. But he can't do anything about me, Sector Beast Morosa thought.

"Hahaha...! Milky Way Horde Leader, is that all you've got?" Sector Beast Morosa guffawed. "I'm the most powerful creature in Universe Ocean, and that willpower shock doesn't work on me! I won't fight you anymore. Come at me!"

Hong!

It separated into 99 pieces again and flew in 99 different directions.

Luo Feng didn't chase them. He couldn't catch them. He saw Morosa disappear in the space, thinking as he watched it go.

Chapter 1428: After the Battle

Luo Feng stood in the void space with furrowed brows, deep in thought.

"Unexpectedly, it still managed to escape." Luo Feng wore a heavy expression. "And its power was much stronger than what Nine-Headed Demon Master and Blood Orchid Ancestor told me previously! Seems like, over these past dozen years, it has become much stronger. The worst prediction speculated earlier

on has now become reality—by devouring the origins of various miniature universes, it is growing and becoming stronger.”

Luo Feng felt the pressure. This Sector Beast only needed to devour the origins of miniature universes to become stronger. If this situation was allowed to go on, the longer the delay, the scarier this Sector Beast would become.

In regards to this battle, Luo Feng hadn't been fully confident of winning right from the very start. After all, his Golden Horned Beast body was the one fighting the Sector Beast while only equipped with a few common machine-type treasures. His most precious treasures—like Shi Wu Wings, Wu Qi God, and Star Tower—were all with his Remote Ocean body and his Mosha body.

“Even the combination of Universe Chain and Snowy World wasn't enough to trap it. My Divine Eye secret technique was also unable to weaken its power... However, it finally showed its true self when it was unable to find an escape route. That was before it dashed out of Chain Universe.”

Luo Feng nodded silently. From this, he could deduce that the Sector Beast had been forced into a corner. Previously, when it had engaged in battle with Nine-Headed Demon Master, even when it needed to escape, it hadn't shown its true self. Any move that required it to reveal its true self in order to execute it must have been an ultimate move! However, Luo Feng was unsure of whether this was the ultimate move of the Sector Beast—or if there were others he did not know of! After all, he had been unable to apprehend it, and it had managed to get away unscathed.

There might have been some escape tactics that had not been executed. According to the derivation, once the Sector Beast surpassed its gestation period and entered its growth period, a threshold within its body would be crossed. Its main purpose was to breed a large number of powerful warriors for battling purposes. Its role was to breed warriors to carry out destruction, similar to how the primal universe bred billions and trillions of living souls! Thus, Sector Beasts certainly had many survival-focused talents.

“Will it pull any other strange moves?” Luo Feng was worried.

After pondering for a long time, Luo Feng shook his head.

“No matter what, this time around, I managed to force it to reveal its true self, which might mean it is nearing its ultimate limit! And my Golden Horned Beast body's combat power is not enough. When Remote Ocean body and Mosha body arrive with the various treasures they carry with them, they will be able to display much stronger combat power. Just with Wu Qi God and Blood Ghost Blade, my combat power soars up two levels right away.

“The other team is really much stronger than Golden Horned Beast body alone. Absolute dominance. This time, I was able to force it nearer to its ultimate limit. Even if it does have some other weird tactics, the moment my other team makes a move, the various methods it executes progressively should allow me to suppress its weird tactics. I have 90 percent confidence of being able to apprehend it.”

Taking one look at the vessel beside him, he flew in right away, while the chain trailing behind him also followed suit.

Hua!

Immediately, the vessel tore through space and sped away.

In another area amidst the void space, Sector Beast, Morosa, was on the run. It was escaping with a troubled mind.

A universe master had unexpectedly executed a stronger “willpower attack” than it could! One of the types of moves Sector Beast was highly skilled in was the category of soul attacks. Previously, when the nine true gods, including Firefly True Master, had laid siege to it, with a single soundless scream, everyone—even Nine-Headed Demon Master—had been affected. In regards of willpower, Sector Beast Morosa had been born with the skill to execute soul attacks, and it was certainly much stronger than Nine-Headed Demon Master; when it came to the execution of such attacks, it had already attained the level of an eternal true god.

But in regards to willpower, Luo Feng was on par with it! Its ability to execute soul attacks, however, was purely a gift of its innate talent. Luo Feng, on the other hand had undergone the cultivation of one of the strongest secret techniques of the World of Jin, Divine Eye Secret Technique, which enabled him to get his willpower—which was at the level of an eternal true god—to unleash extremely strong power. This was the role of a secret technique! All these secret techniques could enable powers of similar levels to unleash extremely strong power.

Like the secret technique of blazing godly power! Like the secret technique of willpower!

Also, for those who could create profound secret techniques, they were definitely beings from the ancient civilization who stood at the peak of their times, like the three generations of ancestors and the Godly King of Jin. That Sector Beast might have been talented, but its talent was not as sensational as the Divine Eye Secret Technique, which Luo Feng had successfully cultivated to six scrolls.

“What strong willpower. What a massive godly body. Already able to force me to show my true body.” Sector Beast Morosa’s eyes flashed with killing intent. “That human Luo Feng is definitely the most powerful human I’ve ever met. He was even more powerful than that Nine-Headed Demon Master! However, even though he might be more powerful than me, he is unable to handle me. I was still able to escape from his clutches. If I have no reason to fear this Milky Way Horde Leader, who should I fear?”

Sector Beast Morosa gave a hideous laugh. It might have feared Luo Feng, but Luo Feng was unable to do anything to it!

Just one battle with this Milky Way Horde Leader, and I incurred such a loss, thought Sector Beast Morosa. Next time I see him, I should escape immediately... Within such a short period of time, even if my powers can get any stronger, I will still be at the same level as him. Forget being on par—even if I am a little more powerful than he is, he will still be able to escape from me. So fighting him would be a total waste of energy. Not worth it!

“This time, the amount of power I used up through one battle with him was equivalent to the amount of power I can gain from devouring two origins of miniature universes,” Sector Beast Morosa muttered to himself. “If I ever meet him, I should quickly move away.”

Not only him, but the other powerful eight figures of the Universe Ocean, he thought. Whenever I encounter them, I should steer clear. Even if I come face-to-face with them, I will give way. For now, I shall do my best to devour as many origins of miniature universes as possible to increase my power as quickly as I can. Haha... No matter what, at least when it comes to this Universe Ocean Number One Master, I will be able to face him without fear.

Sou!

With a direct teleportation, Sector Beast Morosa disappeared amidst the chaotic airflow of the void space. This battle had chased away the last trace of worry in Sector Beast Morosa's mind. Although it dreaded having to face Luo Feng, it no longer feared him. It was already convinced that within Universe Ocean, no one was able to kill it!

Virtual universe, in a particular plane of space that solely belonged to Luo Feng.

In the public square before the palace that was suspended in the starry sky, a group of true gods had gathered. At first glance, there were more than 50 of them! Apparently, other than the human true gods, those who had turned up included the true gods from the Ancestral God School, the Space Beast Alliance, and the various races of the Hong Alliance.

Everyone maintained silence. Before them all, Luo Feng sat cross-legged with eyes shut, unmoving.

Not a single true god dared to disturb him because they all knew that at that very moment, Luo Feng was engaged in a battle with that Sector Beast and was giving it his all. Naturally, they did not want to distract him. This battle with the Sector Beast concerned the survival of countless races within the entire Universe Ocean.

"Will Milky Way be able to kill that Sector Beast?"

"He is sure to succeed."

"Milky Way Horde Leader is the Universe Ocean Number One Master."

They were all transmitting messages to one another. Since that first message transmitted by Sea Badger True Master had informed them all that Milky Way Horde Leader was already at its miniature universe and was fighting the Sector Beast, the tension had built up across the entire Universe Ocean! As for the numerous true gods within the primal universe, the majority had rushed over via the virtual universe, including Divine Eye True God and Skeleton Master. They were all using their transmission tokens, waiting to learn the outcome.

Hu!

Sitting cross-legged before the crowd, the white-robed figure of Luo Feng opened his eyes and gently exhaled. Instantly, the large group of true gods looked toward Luo Feng expectantly. Standing at the forefront of the crowd was Primal Chaos City Leader.

"How was it?" Primal Chaos City Leader was quick to ask.

The numerous true gods in the surroundings, including the Old Beast God, were all holding their breath as they waited expectantly.

Gently, Luo Feng shook his head. "It managed to escape."

"Escaped!"

"What? The Sector Beast has escaped?"

"Even Milky Way Horde Leader was unable to kill the Sector Beast! Then who else can be able to kill Sector Beast?"

At merely a single sentence reply from Luo Feng, and various true gods present instantly collapsed. They were all on edge. If the Sector Beast did not die now, then in the future, it would be their turn to die. All their races would be wiped out.

"Everyone!" Luo Feng looked up. His eyes swept through the crowd as he spoke.

Amidst the anxiety and chaos, the numerous true gods quietened down. They did their best to hold back their anxiety and frustrations to hear Luo Feng out.

"Previously, Nine-Headed Demon Master and others fought the Sector Beast in a battle." Luo Feng remained seated in his spot as he looked at the numerous true gods before him. "This time around, it was my turn to fight the Sector Beast in a battle. I have discovered some information about this Sector Beast."

Immediately, every single true god present was all ears, listening intently.

"On top of the various information we discovered previously," Luo Feng said, "we can first confirm one point. The Sector Beast relies on devouring the origins of miniature universes to increase its power. Currently, its power is comparable to Nine-Headed Demon Master and company. Obviously, it is much stronger than before."

"Ah!"

"Even stronger?"

"It has become stronger?"

The numerous true gods felt their hearts sink. This was a disastrous piece of news. This proved that the Sector Beast would continue to become more powerful as it fed on more origins of miniature universes. And such an increase would happen at an extremely fast rate!

Luo Feng continued. "The second piece of bad news: Previously, when the Sector Beast was fighting Nine-Headed Demon Master and company, its golden giant form was merely a disguise... While I was fighting it, I forced it to reveal its true form. The look of its actual self should be something like this."

Luo Feng pointed in midair beside him. Immediately, an image took form showing the appearance of the ugly Sector Beast body, all black in color.

"Upon showing its actual body, its two eyes—one on each of its two heads—emitted red light," Luo Feng said. "These two beams of red light were extremely powerful! This power can be estimated to surpass

the normal combat power it usually displays when fighting by around two notches. This was the move that it deployed to escape from me. These are the two main points. The good news is, since we have forced it to show its original form, I suppose it must have reached its ultimate limit.”

Still, the numerous true gods felt heavy-hearted as they listened on. God, this was truly a nightmare.

Through his transmission token, Luo Feng was also transmitting the news over to Divine Eye True Master, Skeleton Master, Jue He Master, Bei Chi Star Master, and many other great beings. Clearly, all of them felt anxious and unsettled upon hearing his report. This was because both were disastrous pieces of information. One meant that the Sector Beast could grow rapidly. The other specified that whenever the Sector Beast took the form of its original body, it would emit red light and then, its combat power would increase by two notches.

“However, there is no cause for worry, everyone,” Luo Feng said. “I can sense that we have our godly power and Sector Beast has its strength. Its strength is not inexhaustible... It was in a battle of strength with me. As we used up more and more of our powers, it finally felt the pinch of exhausting its powers in this manner, so it fled. I even sensed that, towards the end, it was slightly weakened. From this point alone, we can deduce that with a great number of true gods combining their efforts—or with those who possess a great deal of godly power, such as Nine Remoteness True Master—we will be able to deal with it just by using up our godly power alone. Also, I have several other bodies. The battle with the Sector Beast this time was fought by just one of my other bodies, which had not even brought along enough strong treasures. Meaning to say, I have not even revealed my strongest power.”

Chapter 1429: I'll Try My Best

Luo Feng looked at all the true gods from different races in Universe Ocean. He could tell that they were worried, unsettled, and anxious. He couldn't help but sigh. He couldn't do anything about it.

He could tell the weaknesses of Sector Beasts, and he could say that he hadn't shown his maximum power yet. However, the true gods were still unsettled. Luo Feng understood that those true gods weren't scared for their own lives; anyone who became a true god wasn't scared of death. However, they still wanted to protect those they cared about. Now, Sector Beasts were trying to destroy everything! Everyone would naturally panic!

“Ah.” Luo Feng shook his head, then stood up and said, “Everyone, I, Luo Feng, will do my best to kill that Sector Beast.” Then he turned around and entered his palace.

Those true gods were all worried, but upon seeing Luo Feng enter the palace, they left as well.

Luo Feng had a great reputation, as he was the strongest great being in Universe Ocean! However, the fight between him and the Sector Beast also spoke volumes. It was only one Sector Beast that had come out of the nest, yet Luo Feng failed to kill it. When that news was spread, all the races in Universe Ocean would be anxious. Fortunately, Luo Feng had several bodies, and he hadn't even used all his power.

“Milky Way Horde Leader is only a universe master. When he becomes a true god, his power will surge again, and he can totally kill that Sector Beast!”

“It’s only one Sector Beast, but it’s already so powerful. There is a large group of Sector Beasts in that nest! How are we supposed to fight against them? No wonder the original mind pointed out that Milky Way Horde Leader is the strongest great being in Universe Ocean. Perhaps the only chance for us to survive is Milky Way Horde Leader.”

“Other than Milky Way Horde Leader, we true gods need to cooperate to fight that Sector Beast.”

While Universe Ocean was in chaos, in Milky Way Holy Land of the human territory in the original universe, the endless Remote Ocean was tumbling.

Hua! Hua! Hua!

After over a trillion eras, the Remote Ocean had expanded to a diameter of 12 light years. When it had reached this limit, no matter how much power Luo Feng swallowed from the original universe, he wasn’t able to expand his Remote Ocean further. Of course, if he consumed his godly power, he could still expand it. For what it was worth, the volume of the Remote Ocean had already reached its limit!

A being stood above the endless Remote Ocean—a white-caped being looking into the vast space in the distance.

“Earth!”

Luo Feng looked at the space in the distance. Through his control over space and time, scenes kept being transferred to his sight through space and time until he could see the polar system near Milky Way Holy Land. He also saw the blue planet that was his birthplace, Earth.

Luo Feng was able to see everything happening on Earth. Children were growing. Teenagers were practicing hard in dojos. Travelers were admiring the dead heroes from the “swallowing beast battle” in front of their sculptures. His eyes took in all these scenes.

“Are you looking at your hometown?” said an ancient voice.

Luo Feng took back his sight, and everything became space again. He looked to the side and saw Sitting Mountain Guest with two antennae on his head.

“Teacher.” Luo Feng lowered his head for a second to show respect.

“Why are you looking at your hometown?” Sitting Mountain Guest chuckled and smiled. The teacher and the disciple stood on top of the endless Remote Ocean, conversing.

“I’m anxious,” said Luo Feng. “That is why I am looking at my hometown, watching the people there. I feel like if I were back home, then I could be calm.”

“Anxious? You get anxious?” Sitting Mountain Guest smiled. “This third disciple of mine is always tranquil, peaceful, and persistent, and you see through everything delusional. It’s not easy to make you anxious.”

Luo Feng said, “If it affects those whom I protect, I’ll be anxious. Sector Beasts are a catastrophe for the entire Universe Ocean. If we can’t get through this, all the races will die out. My home planet and my

people will all die, from the great beings to the ordinary people. But I'm not confident that I can defeat them, so I'm anxious."

"Not confident?" Sitting Mountain Guest was shocked.

"Yes." Luo Feng nodded. "I've fought a Sector Beast. Although I forced it to reveal its true body, I reckon that it still has some techniques it hasn't shown... I'm somewhat confident, but I can't say for sure. Besides, that was only one Sector Beast out of the entire nest. Thinking about that makes me more worried."

Sitting Mountain Guest nodded. He could understand Luo Feng's feelings.

"You don't need to worry." Sitting Mountain Guest shook his head. "The mind of the original universe tried to guide you several times, and it tells you to deal with Sector Beasts through the three ancestral gods... Apparently, it places its hopes in you, and that's why it did that. As for the current Sector Beast problem, other true gods can't change a thing. You're the only living chance for the original universe."

Luo Feng was stunned.

"Sector Beasts are not easy to deal with." Sitting Mountain Guest shook his head. "The original universe represents life and reproduction in Universe Ocean. As for Sector Beasts, they represent destruction. They are opposites! The Sector Beasts are at the same level as the original universe, so it's not that easy to kill them. Usually, in each era, Sector Beasts are able to roam the entire Universe Ocean and destroy all the races. The original universe would be completely destroyed and become an origin. Only after the Sector Beasts leave will the original universe origin become an original universe again.

"However, this time, you're here for the Sector Beasts' arrival. There's no need for you to deny it. Although I tried to guide you, and you indeed are lucky, you have great potential on your own! No matter what kind of inheritance it is, it's very demanding when it comes to selection. Without that sort of inborn potential, you can't get an inheritance in the first place. You have great potential, and you're lucky, so you became very powerful. This time, the original universe has an opportunity to live because of you!"

Luo Feng was dazed. That was right. The inheritance from Duan Dong and the inheritance from the World of Jin—neither had been easy to obtain.

"With luck, a great being was born." Sitting Mountain Guest chuckled and smiled. "And now, when the true gods in Universe Ocean cooperate, they can deal with one or two Sector Beasts. However, after a while, the Sector Beasts will keep eating each other, and there would be fewer and fewer of them. Those that survive will be much stronger, and when that moment comes, the true gods won't be able to resist them. That will be the beginning of a real apocalypse. I... Although I can..."

Sitting Mountain Guest paused for a bit, then said, "But I can't resist the Sector Beasts either. You're the only chance the original universe has. Of course, you're not strong enough to defeat Sector Beasts now." He shook his head. "When you become a true god, you will be the greatest true god ever born in the original universe! Only after you become a true god will you stand a chance of defeating Sector Beasts. Of course, although I have said you're the only chance, it doesn't mean you can definitely succeed. If you fail, all the races in Universe Ocean, not to mention the original universe, including the earthlings... All of them will be annihilated, and none of them will live."

Luo Feng nodded mildly. He understood.

Even though he could tell that teacher Sitting Mountain Guest was being mysterious, anytime Sitting Mountain Guest talked to him, Luo Feng could sense that he was constantly being admonished by the mind of the original universe. Luo Feng could infer that Sitting Mountain Guest didn't have a good relationship with the original mind. If Sitting Mountain Guest could have actually saved Universe Ocean, the original universe would've asked him for help already.

"I'll try my best," said Luo Feng.

"Of course, there's no need for you to be worried," said Sitting Mountain Guest. "This is only one Sector Beast, and there's still a long time before the final Sector Beast king is born. The power of the Sector Beasts is far from the pinnacle level. The Sector Beast that came out this time isn't the most powerful one in the nest. If it was, it wouldn't have left the nest. Your power is enough to deal with the Sector Beasts at the current level."

Luo Feng nodded. "For what it's worth, I'll try my best to kill that Sector Beast, and I'll succeed next time!"

Sector Beast Morosa became more cautious after his fight against Luo Feng.

It kept eating the origins of miniature universes time and time again, but every time a powerful true god approached it, it would immediately run away. Divine Eye Master and the others also encountered the Sector Beast. They used space seal against it, but each time that Sector Beast would try its best to run away, and they couldn't stop it.

Three years after Sector Beast Morosa fought Luo Feng, Nine Remoteness Master fought the Sector Beast!

The fight attracted the attention of the entire Universe Ocean, and Luo Feng was excited as well.

Nine Remoteness Master was a lot like Luo Feng. Both were from the original universe, although they were in different areas of Universe Ocean. This time, when the Sector Beast was swallowing the origin, it happened to be close to Nine Remoteness Master.

Nine Remoteness Master was different from other great beings, as he feared from the start that the Sector Beast would disintegrate and run away. Nine Remoteness Master sealed the space first, and then his body became an endless ocean—an ocean with a diameter of over a light year!

It was godly power that was endless! It immediately immersed the Sector Beast, who became anxious. It had learned from its slaves that Nine Remoteness Master had the most godly power in Universe Ocean! He could literally consume all the power of Sector Beasts and only lose a small part of his godly power.

Sector Beast Morosa immediately broke its body in two parts—yes, two instead of 99. They flew in different directions so fast that they still surpassed the speed limit of Universe Ocean even being blocked by the godly power ocean. With that terrific speed, they flew out of the endless ocean in less than half a day.

Nine Remoteness Master was indeed fast, but he could only move slowly after turning into an ocean. He could certainly turn back into a humanoid shape and show up anywhere in the ocean, but the Sector Beast had divided in two, flying in different directions, so Nine Remoteness True Master didn't know which one to chase. Thus, the Sector Beast ran away.

However, even though it ran away, its strength was still greatly consumed by the godly power ocean. The Sector Beast made it out, but it was severely damaged by the time it got out. It was quite scared. Nine Remoteness Master was more frightening than Luo Feng! He could literally consume him to death!

Chapter 1430: Me Again!

On the square in front of the Ancestral God Palace in the ancestral god secret region, two beings walked side by side.

"Last time, Milky Way Horde Leader failed, but Nine Remoteness True Master failed as well," whispered the youngest ancestral god, garbed in red armor. "I know it's difficult to kill the Sector Beasts, but I didn't expect even a Sector Beast from the nest to be so..."

Walking beside him was a female surrounded by a coat of pink flowers. She was the newest true god of Ancestral God School, "Froth Flower True God."

Froth Flower True God said, "That was only a temporary failure. Milky Way Horde Leader said that he only used one of his bodies while he was fighting the Sector Beast last time. He also didn't bring any impressive valuables, so he didn't use all his power. If Milky Way Horde Leader had used all his power, he would've killed that Sector Beast."

"Yes. Milky Way separated his bodies into two different teams," said the young ancestral god. "One of them was in a spaceship, and the other one is in Star Tower. The team in Star Tower is the most powerful."

"That's right," said Froth Flower True God. "He forced that Sector Beast to reveal its true body. The stronger team must be able to kill that Sector Beast."

The young ancestral god couldn't help but turn his head to look at Froth Flower True God.

"What happened?" Froth Flower True God asked.

"You're not like before, under the pressure of Sector Beasts. Mo Hua was so tranquil, and I've never seen you so eager and anxious."

Froth Flower True God was stunned. She then sighed and said, "I'll go first." And she took a step and disappeared.

There were many universe portals inside the ancestral god secret region, and one led to a miniature universe in Universe Ocean. It was the miniature universe of Froth Flower True God.

"Ha! Haha..."

“Come!”

“You’re not my match!”

At the center of the miniature universe of Froth Flower True God was an area where the view was breathtaking. There were many creatures living there, yet the creatures were only things that had been gathered by the Froth Flower Spirit race.

“Sister!”

“Sister!”

When Froth Flower True God appeared in the canyon, all the beautiful creatures from the Froth Flower Spirit race flew toward her. The Froth Flower Spirit race was a race made up of special life forms in the original universe. There were 999 creatures from Froth Flower Spirit race born in the original universe in total. 82 of them had died, but the others were still alive. They all looked identical, and they were very close to each other, like family members. They were energy life forms, but they also had the characteristics of plants. They harbored a natural love for peace.

“What is this? A body?” Froth Flower True God gazed at a body lying in the distance.

A beautiful girl of Froth Flower Spirit race squatting before her. “Yes. Sister, you obtained many life forms from the original universe, and they’re breeding here. They have formed different kingdoms and races, and they fight each other. I disguised myself and went to the battlefield. I met a young man named ‘Wu Ni.’ He was very young, only twelve years old. I really like him. I left the battlefield and went somewhere else, but by the time I got back, he was already killed.”

Froth Flower True God felt sad. He had been killed? If they couldn’t survive this catastrophe, the sisters who had lived with her for a trillion eras might all die.

“Milky Way Horde Leader, you must kill that Sector Beast.” Froth Flower True God was expectant.

Universe Ocean, in the space outside Universe Boat, in one of the three Lands of Extremis.

Because of the World of Jin, there were few who were still in the three Lands of Extremis. In this space, Sitting Mountain Guest stood, staring at Universe Boat in the distance.

“Universe Boat...” Sitting Mountain Guest said. “Duan Dong River was almost destroyed by Sector Beasts, but my disciple inherited it. I sank to this level because of Sector Beasts!”

Sitting Mountain Guest looked up. There was an invisible force up there exerting pressure on him. Other true gods might not have been able to sense it, but Sitting Mountain Guest could.

“You don’t need to concentrate on me all the time,” whispered Sitting Mountain Guest. “I know the rules, so I won’t go against them. You can’t do anything about me.”

The force was still there, which made Sitting Mountain Guest shake his head and smile.

“You’re afraid of the Sector Beast, right?” He raised his head and said, “I know you’re scared of it! Do you really think Sector Beasts will only swallow part of your origin? Not necessarily! It might be able to

annihilate your mind, and when the original universe is transformed and reborn, there might be a new original mind. You'll be totally annihilated. Right?"

The force was still up there. It didn't disappear, but it didn't strengthen. No matter what Sitting Mountain Guest said, it remained steady.

"Haha... You're looking forward to my disciple," said Sitting Mountain Guest. "You need to thank me. You let out both the inheritance from Duan Dong River and the World of Jin... You want to cultivate a peerless genius in the original universe to find a chance to survive. Luo Feng's success is my success and yours."

Still, nothing changed up there. No matter what Sitting Mountain Guest said, it didn't react at all.

Sitting Mountain Guest shook his head and whispered, "Sector Beasts... They represent destruction. Because of them, countless powers have been annihilated and countless inheritances destroyed... Everyone depends on my disciple now. If he can kill the Sector Beasts, we'll enter a whole new era. But if Sector Beasts prevail, everything will be in vain."

All the races in Universe Ocean were expectant. They all thought that Luo Feng was their only hope. After all, other than that particular Sector Beast, there existed the terrifying Sector Beast nest, and nobody knew how many Sector Beasts were in the nest.

In the fourth year after Luo Feng fought the Sector Beast, Rampaging Devil God sent an anxious message to Milky Way Horde Leader, Divine Eye True Master, Nine-Headed Devil Master, and the others. "Everyone, the Sector Beast showed up in front of my miniature universe, and if it keeps eating my origin. The origin of my miniature universe will be finished soon."

Luo Feng sent a message. "Rampaging Devil God! I've arrived."

Rampaging Devil Master was exhilarated. He hadn't expected Milky Way Horde Leader to be right beside his miniature universe. Ever since Luo Feng had voiced his suspicions of a spy in Universe Ocean, nobody knew Luo Feng's whereabouts.

"Which team is it, Milky Way Horde Leader?" Rampaging Devil God couldn't help asking.

Of course, Rampaging Devil God knew he could escape the disaster no matter which team it was. However, Luo Feng had told everyone before that he had two teams, one of which was stronger while the other was weaker.

"The spaceship," answered Luo Feng.

Sector Beast Morosa stood in the space, and there was black mist permeating. Traces of tortuous light extended toward the space in the distance, swallowing the origin of that miniature universe.

"I was injured by Milky Way Horde Leader, and I lost a great amount of my power after the fight against Nine Remoteness True Master! I was severely weakened! I've been eating origins for years, and my power has finally recovered."

Sector Beast Morosa was furious, but it also wanted to get back to the nest, kill the other Sector Beasts, and become the ultimate king. If he kept being weakened, it would take it forever.

When I become stronger, I'll definitely kill them both, Sector Beast Morosa thought.

Hua!

The space suddenly froze.

"No!" Sector Beast Morosa was shocked. It sensed its surroundings, and a silver spaceship in the distance showed up. "It's Milky Way Horde Leader again!" Sector Beast Morosa was furious. It raised its head and yelled. "Howl!"

All of a sudden, a multitude of engravings appeared on its entire body. Its body immediately cracked, turning into 99 bodies that tried to flee in different directions.

"Universe Chain! Snowy World!"

The snow kept began falling, immediately suppressing the speed of all those 99 bodies. At the same time, the giant chain was floating in the sky, and many thin, long chains extended in different directions like an opening umbrella, forming a chain universe.

"Damn Milky Way Horde Leader!" Sector Beast Morosa yelled furiously.

Last time, when it was trapped, it had consumed lots of power to get out. After that, he had eaten some miniature universes to become stronger, but his power had then been greatly consumed by Nine Remoteness Master. Now, it had almost recovered, only to encounter Luo Feng again. It was a nightmare!

Even though this Golden Horned Beast of mine can't kill you, it will weaken your power, Luo Feng thought.

This was the strategy of Universe Ocean.

Blood Mountain True God, Blood Orchid Ancestor, and other true gods who had great godly power all led true gods. Many from the original universe also went out, and each true god in those teams had a great amount of godly power, like plant life form true gods and mountain true gods.

Many had godly bodies 100 million kilometers tall, and some of them were ten billion kilometers tall. After the Sector Beast's battles against Luo Feng and Nine Remoteness, everyone realized that consuming godly power was an efficient way to deal with a Sector Beast. Universe Ocean had reorganized their tactics and started to mutually consume godly power. Other true gods couldn't trap the Sector Beast, so the Sector Beast got away again and again, but it greatly slowed down its consumption of the origins of miniature universes.

"Damn it." The Sector Beast flew through space, looking into the distance. It could see the contours of a miniature universe. "They're all trying to consume my godly power. Fortunately, only Luo Feng and Nine Remoteness can greatly consume my strength. As for the others, they can only slightly affect me. That Luo Feng will change directions if he meets me. Last time, he met me right outside the miniature

universe of Rampaging Devil God. He must have left. But now, after three years, he's back! I'll start to eat!"

The Sector Beast clenched his teeth.

Rampaging Devil God could sense that his miniature universe was being swallowed. It had only been three years, but the Sector Beast was back again! There were 20 to 30 lone true gods in Universe Ocean. Why was he fated to suffer yet again?

"Everyone! The Sector Beast is outside my miniature universe!" Rampaging Devil God could only send a message to the outside.

"Rampaging Devil God, I've arrived. Tell me its coordinates."

"Ah! Milky Way Horde Leader!" Rampaging Devil Master was happy.

"Okay."

A nine-story tower was floating out there. Inside it were Hong, Fire Dome, and Luo Feng. Luo Feng's eyes gleamed. "Finally, the team of Star Tower meets the Sector Beast."
