

SWALLOWED 491

Chapter 491: An Arrow to Save a Person

"Blood river world, was a place where the strong are like the clouds and it even had undyings." Luo Feng looked at the world closing in. "I have to be extremely prudent and definitely not reveal my identity!"

"However it's strange!"

"With the virtual universe's strength, clearing out the entire blood river world should be very simple. Since they easily have such power, why did they instead chose to build a heaven erosion palace to observe from space, and not dominate the world." Luo Feng was suspicious. This wasn't much like the attitude of a large power in the universe.

"This isn't up to me to bother about." Luo Feng shook his head.

.....

3 hours later.

The automaton ship with an appearance of that of a normal meteorite finally entered the atmosphere of blood river world.

"I cannot proceed further!" With a thought, he flew out of the ship's cabin door and had Babata keep the ship in his storage space.

"Blood river world, there are a total of 18 cloud layers." While looking at the mission's introduction, it had a general introduction of the entire world. Blood river world's atmosphere had a total of 18 cloud layers. The higher one headed, the greater the pressure would be. Only universe levels could use their bodies to pass through all 18 layers.

However, the aboriginals of blood river world at most fly up to the 18th level, not daring to go any further.

Because they know that the clan outside the heavens would kill all of the blood river aboriginals as soon as they left the world. There hadn't been anyone that had survived leaving the 18 layers and returning alive.

"I don't have to worry in space outside the cloud layers."

"However, in these cloud layers, I might meet some aboriginals." Luo Feng's full body of black armor and boots, with the blade and shield on his back, was very accurately similar to the looks of a normal blood river world warrior. From the 18th layer, he followed the terrifyingly strong gravity and madly plunged downwards.

"What strong gravity."

“With such strong gravity, only star levels would be able to fly in this.” Luo Feng calculated within. “The magnetic field within a star traveller’s body cannot combat this strong gravity pull at all.”

Sou!

Sou!

Sou!

Luo Feng became like a shooting star plunging down from the 18th layer. His speed was rising as he went lower. Finally, he controlled and maintained a normal speed of descend. After 15 minutes of descending, he finally broke through the 1st cloud layer.

Before him, the scenery of blood river world finally unfolded.

“Hua.” Luo Feng couldn’t help but exclaim with shock. Right below him was an endless vast mountain range and forest. With his gaze, he was able to determine that this ancient forest had an area of at least 10,000km. At its edges one could see little silhouettes, those were the cities.

The ancient forest and mountain range welcomed a guest from the heavens.

While descending into the forested mountain range, this black silhouette’s energy ripples immediately split apart the tree branches and leaves. He eventually slowed down and gradually landed, landing on the rotten leaves on the ground.

“What terrifying gravity. For the normal people of blood river world, to be able to withstand this pressure means that they should at least be at star traveller level.” Luo Feng stood there and calculated in his head. “The air here is produced by the universe energies, hence the air has shocking strengthening effects on the body.”

“No wonder this blood river world has so many strong warriors.”

“Living in a universe secret region has caused their bodies to be extremely strong, and also made training easier than outside. However, because they are within a secret region, their fate had already been sealed. Even if they became undying, they were unable to leave the secret region to explore the vast universe. Unless the undyings joined the Virtual Universe Company.” Luo Feng thought.

“However, the rotting smell and stench of this ancient forest is hard to bear.”

At this time...

About 2,000 meters away from Luo Feng, a thick bent tree that required 20 people to hug around was wrapped with a jade green snake that had a human face. This weird being’s face had no nose, only eyes and a mouth. She was staring through the trees vines at the silhouette 2,000 meters away.

“Sila!!!” A piercing sound seemed to pierce through Luo Feng’s ears. Simultaneously, a 60m long jade green snake person became a blur of light and appeared beside Luo Feng immediately. That mouth opened wide fiercely and a 3 to 4m diameter black hole opened, attempting to swallow Luo Feng.

Luo Feng turned, with his eyes like a blade, he looked at the ferocious snake person creature.

This creature was as tall as at least a 20 storey building. Luo Feng was nothing but a dot compared to it. However, when Luo Feng looked over, that snake person's expression turned to that of shock and fear.

"Hmph!" Luo Feng snorted coldly.

Rumble!

That being lost all its strength in mid air. Due to the initial inertia, it smashed into the trunk of the thick tree, before falling hard on the ground. Once it's huge body landed, from the human face seeped out dark green blood from its eyes, as it lay there motionless.

"These are what the aboriginals of blood river world call the wild beasts? This is nothing but a beast with a power level around star level 5 or 6." Luo Feng thought. "It must have been suicidal to look for me." Luo Feng had purely used his consciousness strength to pressure it, in an instant crushing it and causing it to faint immediately.

Luo Feng's consciousness was extremely strong, as it was comparable to that of a pinnacle domain lord.

Consciousness pressure, this was the most obvious difference amongst those with great power. If he had used it to pressure a universe level, the most he could do was make that person feel uncomfortable! However against a star level that was 2 levels below, with just one gaze, it caused it to immediately crumble from within.

"A random wild beast already has star level 5 or 6 strength. Living in a secret region...really must be blessed by heaven." Luo Feng looked in the distance. "I first have to leave the forest and head to the nearest city. Only once I head to a city will I be able to quickly look for the blood river crystal."

Blood river crystal, it was a special treasure product of this world.

Sou!

Luo Feng left a blurry image and immediately vanished into the distance.

At the edge of the mountain range forest, a team was heading forward.

"Young master, it's your first time venturing out to the wild beast forest. Don't get careless. Just exploring around the outer edges, killing the outside beasts and training will do." A strong and sturdy matured man about 1.8m tall said with his dialect. His armor revealed his thick arms and his face was covered in beard, while his brown eyes were filled with essence.

"Thunder uncle, with you around, what's there to worry about?" Within the team, a youth dressed in silver armor, with a purple engraving on his forehead, laughed happily and said.

This youth casually carried a black bow, and on his back was a quiver with arrows.

That strong and sturdy man couldn't help but smile. But with a sudden sniff, his expression changed and he said softly, "Everybody be careful, this should be the territory of the Mangu beast."

"Mangu beast?"

The expressions of the guards within the team became serious, however they were still relaxed. Against these wild beasts they couldn't be careless. This was a saying passed from long ago in blood river world.

However no matter how powerful, these guards were still clear about one thing, as long as their team was careful, killing these beasts was easy.

“Mangu beast? Leave it to me.” The youth was very excited.

“Young master!” Thunder uncle frowned.

“No problem.” The youth had already drawn an arrow from the quiver. He lifted his bow, and got ready to fire.

The team approached carefully.

After a while...

When the team moved past the plants and trees, they saw a black armored skinny youth with a shield on his back by the river. His hands held barbecued meat, which he was enjoying. At this time, a huge grey blur silhouette was heading over from the distance, this caused the entire team to jump with a shock.

And the skinny youth sitting by the river seemed to detect something. He turned his head to look at the dim-witted huge grey silhouette.

“Looking for death!”

The team witnessed the scene. All the guards all knew that this stupid youth that had stumbled into the wild beast forest was definitely a punk without any experience. Otherwise why would he stupidly look at the Mangu beast that was attacking? A true warrior would firstly prepare ahead of time and would have moved to a favorable terrain.

At least, not sitting idly by!

“Mangu beast is a Sky level wild beast.” Thunder uncle roared.

“Xiu!”

A black light immediately pierced through the air and hit the grey silhouette. That grey silhouette let out a cry of pain and immediately twisted and landed on the ground. It was a furry bastard, the only thing was that it only had one claw. However that claw was as huge as its entire body, an arrow was lodged in its body and red blood spurted out from the wound.

Sou! The moment it landed, it let out cries of pain and angrily rushed towards the team.

“Xiu!” That silver youth’s expression grew serious. The purple engraving on his forehead slightly glowed with light. His hand was like a phantom, as it swiftly drew another arrow and fired. However the Mangu beast which was prepared this time, twisted it’s body and waved its sharp claw, knocking that black light away.

“Roar!” that strong and sturdy man brandished two axes from his waist and his arms fiercely crossed.

Rumble!

It seemed as though 1 axe appeared in mid air, slashing past the body of the Mangu beast. After which, the single axe disappeared and that strong and sturdy man had already reached 10m behind the Mangu beast.

Pa! The Mangu beast immediately fell from mid air, splitting in two halves as fresh blood flowed from its organs.

“Thunder uncle sure is powerful, too powerful.” The silver armored youth clapped excitedly.

“Don’t get careless in the future. The Mangu beast has 2 trump cards. One is its claws, and the other is its poison breath. This Mangu beast has already reached sky level, if it gets close and releases its gas, that would be troublesome.” The strong and sturdy man lectured, simultaneously instructing his guards to extract the materials and essence of the beast.

“Yes.” The other guards immediately laughed happily and went to gather.

The silver armored youth walked towards the distant black armored youth and smiled and waved. With a tone that was proud of his own age and experience, “Brother, where are you from?” At this time the silver armored youth felt a sense of being a hero and savior. From his point of view, if it wasn’t for his arrow, that black armored youth would have died.

“Thanks.” Luo Feng looked at the silver armored youth, smiling and nodding.

That Mangu beast before only had a power of star level 1 or 2. Its sneak attack was long discovered by Luo Feng, and he was preparing to turn and destroy it. But who knew that the passionate silver armored youth would attempt to save him.

However...

Even though the people of blood river world worshipped strength, they still had these innocent youths. Looking at this excited silver armored youth before him, Luo Feng felt a great sense of anticipation towards blood river world.

Chapter 492: Swallow Mound

After a while.

Luo Feng left the ancient forest with this team.

“No trouble at all. I guess I’ve trained enough, we can return. We’ll go together, it’ll be safer that way.” The silver armored youth was very excited as he thought about it. This black armored skinny youth before him was obviously one with less experience, and if he went out to explore by himself he might die. Since he was returning to home, they might as well bring him along.

“The feeling of saving someone feels good.” The silver armored youth thought.

“Ah, I haven’t introduced myself. I’m Na Ke, and you?” The silver armored youth smiled and looked at Luo Feng.

“I’m called Feng!” Luo Feng replied.

“Feng?” The silver armored youth nodded, exclaiming, “Good name! Big brother Feng is obviously older, I’ll call you big brother then. When we return to our Swallow Mound city, if you have time, I’ll show you around. I grew up in the city after all.”

“Swallow Mound?” Luo Feng smiled and nodded.

According to the Virtual Universe Company’s information, even though it was pretty detailed, however Blood river world was after all too vast a world. There was no way for it to explain everything. It could only give a brief introduction of everything. At the same time, if they explained too much about many of the secrets, it wouldn’t have the same training effect on the core members.

According to the information.

In blood river world, the native’s strength was separated into, Ground level, Sky level, Clouds level, Domain Level, World level...undying spirit. It actually coincided with the universe’s star traveller level, star level, universe, domain lord, sector lord and undying level.

And the cities of blood river world were mainly separated into Territorial cities or world cities.

The territorial city was the core of a territory. Every leader of these territories were definitely a domain level (Domain lord).

The world cities were the core of the world, and the leaders of these were definitely sector lords.

In the vast blood river world...

Every world city had a diameter of hundreds of millions of km or even billions of km. The population ranged in the trillions or more. In blood river world...there were over 10 million world cities. Above these world cities there were even the undying palaces! The undying palaces are high in ranking and they normally didn’t interfere with the normal matters of blood river world.

“It looks like, the place that I descended belongs to the Swallow mound territory.” Luo Feng thought within, “Swallow mound territorial city should be a core city within the surrounding 10 million km and the city leader is most probably a domain lord warrior.”!

“I require blood river crystals!”

“However, the information given by the Virtual Universe Company never explained anything about the crystals. It only states that the crystals were treasures of the world. Any idiot would know they were treasures. The Virtual Universe Company already called this huge continent blood river, wouldn’t the blood river crystal be extremely important?” Luo Feng calculated within. “The blood river world had long had their own word system. Once I enter the city, there should be some books in the city that I can buy. I’ll find out the details of the crystals through these books.”

Through enchantment and several techniques, he could interrogate others.

However asking them wouldn’t be as detailed as reading the books. A territorial city with an area of ten million km would definitely be advanced and would have what he needed.

“In advanced places, currency is definitely important.”

“The materials I got from hunting the beasts should be worth quite a bit.” Luo Feng long had a plan of what he needed to do.

He was an outsider after all!

His identity had to be kept secret. Since he had just entered blood river world, it was better to remain low profile.

This was also why when he first landed in the forest, he didn't fly straight towards the city, as hunting and acquiring materials in the forest could get him some money. And that 10,000km area forest could only be considered a normal wild beast forest, the beasts were at most star level 8 or 9.

There wasn't a single universe level.

.....

The silver armored youth chatted with Luo Feng, as the tall and sturdy thunder uncle and the other guards all stared at them.

“This dumb little punk must be extremely lucky to have our group of brothers protect him.”

“The young master is too kind! If it were me, I couldn't be bothered.”

“Hehe, brothers, speaking about it, just now we saw this Feng turn stupidly around at the Mangu beast flying over at him. His face was filled with shock and fear, I can't help but laugh at that scene. Haha...I really don't know how this stupid punk dares to enter the wild beast forest. Luckily we were only on the outer regions and haven't met any powerful wild beasts, otherwise he would have become their sheet long ago.”

The guards chatted behind.

“Shut up!”

The tall and sturdy thunder uncle ordered. The group of guards immediately stopped.

“Be careful, even though we are already on the way back, there's still thousands of km to go. There's usually bandits about.”

“Captain, with you around, which small bandit would dare approach us?”

“Yea, that will be suicide.”

The tall and sturdy man glanced at Luo Feng. Towards this stranger that they saved along the way, he remained wary. The young master's kind heart...made him helpless. Because he was very clear that this was a world that favored the strong. All sorts of scheming, backstabbing and slaughter happened all the time. Having a kind heart was disadvantageous to the young master in such a world.

“The master spoils the young master too much. He wants to wait till the young master matures before letting him taste some hardship.” The tall and sturdy man shook his head.

In the vast flat land road ahead, a blur of people were cheering and swiftly progressing. It was Luo Feng and the silver armored youth's group, who were heading back as they were chatting and cheering.

As they maintained their speed at a thousand km per hour, to the Ground level fighters, it was very relaxing.

"Look, ahead it's our Swallow mound territorial city. We are only about 1 hour away from it." The silver armored youth gazed ahead at the large blurred silhouette of the city. He spoke with the native tongue and dialect. Although Luo Feng too used the same dialect, the accent however was not as precise.

Rumble...

Luo Feng's little team that was progressing felt ripples coming from the ground. As they looked back, they saw a vast black shadow swiftly rushing towards them. Everybody else couldn't see with their eyes, however Luo Feng could see with one glance it was a huge team chasing them.

They all rode different types of beasts. These tamed beasts, some were huge while others small, some had wings on their backs. Among the differences, the one thing they had in common was that their speeds were extremely fast.

"Tamed beasts?" Luo Feng could recognize in one glance some of the beasts were similar to those he had hunted in the forest before.

"Let's make way." The tall and sturdy man communicated to the others.

Immediately the team headed to the side of the road.

The large team with hundreds of beasts ran over swiftly. The beasts' hooves and sharp claws pierced into the ground, causing dust to fly all over and immediately settled back down again due to the strong gravity.

"Haha, isn't this Young Master Na Ke?" An ear piercing laugh resounded like a tornado about. The large team that rushed over suddenly stopped and simultaneously tens of them flew over to where Luo Feng's team was. In the blink of an eye, these fighters had already reached before them.

The leader of this team was a tall and handsome youth. He was riding what seemed like a tiger dressed fully in armor, however it was at least 10m long. The leader was looking at Na Ke, his face proud and satisfied.

"Yu Fang!" The silver armored youth's expression changed.

"Tsk ts...is the genius archer afraid?" The tall and handsome youth's expression slowly turned cold. With a snort, "You didn't expect me to catch you outside the city right!"

"Young master Yu Fang!"

A booming voice resounded. The tall and sturdy man took a step forward, gazing at the tall and handsome youth's group and saying seriously, "My family's master and the Yu family have some connections and relationships. I hope young master Yu won't do anything rash."

"I'm speaking right now!, Did I say it was your place to speak?" The tall and handsome youth angrily roared and his expression pained. "Get lost!"

"Yu Fang, you shut up." The silver armored youth roared.

"Haha, pure and kind Na Ke, haven't you grasped the situation yet? Outside the city, your father cannot come save you." The tall and handsome youth's expression was struggled. The muscles in his face twitched and his eyes resembled a venomous snake staring coldly, "I haven't forgotten how you humiliated me half a year ago."

Beside them, Luo Feng frowned.

The enemy's party was obviously superior.

The large group behind this Yu Fang was made up of just the 10 underlings alone. There was 1 star level 9 and 9 star level 7 or 8s.

And this side?

Na Ke's strongest warrior, that thunder uncle, was only a star level 6 or 7.

"We are in big trouble." The tall and sturdy thunder uncle was worried within. "The warriors in this team have about half of the Yu family's strongest. So many strong warriors following a little kid out seems strange."

"Captain, what do we do?"

"Captain, behind that young master Yu, there's that "Dripping Blood Blade" warrior, who is one of their 3 strongest in the family. He's a sky level pinnacle warrior. Just him alone would be enough to decimate us."

The team was flustered.

.....

The silver armored youth's eyes contracted. He stared angrily at the young master on the beast and roared, "Yu Fang, whatever you have, just bring it at me!"

"Ah, just like a true warrior. What a presence." The tall and handsome youth snorted and laughed, following which his expression changed and he roared, "Men, teach a good lesson to this group of people. However, don't kill them. I Yu Fang ain't that vicious. Also...grab the Na Ke and tie him up! I want to bond with him well..."

"Yes!" The group of warriors on the beasts replied together.

"Hua!"

The tall and sturdy thunder uncle along with the other guards all brandished their weapons together.

The young master on the beast laughed coldly. "Whoever resists, kill immediately! Of course...don't kill young master Na Ke. After all, he's my good brother that I grew up with! Go!"

Immediately the group of intrepid warriors flew from the backs of the beasts and headed towards Na Ke's little team.

Chapter 493: Armor

Luo Feng stood beside that silver armored youth and frowned. He had just landed in blood river world, he didn't wish to cause a commotion.

"Haha!"

"Kill anyone who resists!" That group of warriors all laughed madly and flew over. Especially the skinny man dressed in a blood red armor carrying two dark red blades. He gazed at the guard team of the silver armored youth, his gaze focusing on the tall and sturdy thunder uncle.

On this side, the tall and sturdy thunder uncle and the guards had ugly expressions. They wanted to retaliate but didn't dare to. The silver armored youth Na Ke could only grit his teeth with rage.

"Rumble!"

The group of warriors flying over along with skinny man suddenly all stopped.

"Get lost!"

Almost like thunder god's roar, the 10 before them felt it reverberate within their minds. Like a terrifying pressure descending on them, they all felt a sense of pressure they couldn't resist. It was the type of pressure that was about to destroy them. "Get lost! Get lost! Get lost!" That roar resounded within their minds.

The group of warriors immediately descended from mid air and didn't attack.

"Let's go!" The skinny man gazed at the silver armored youth's team and ordered.

"Let's go." The youth too shouted, staring at the silver armored youth Na Ke.

Looking at the previously arrogant and proud team suddenly turn and leave, Na Ke and his underlings, even thunder uncle were all left stunned and suspicious.

"Why have they left?"

"This, this..."

"They are just leaving?" The guards couldn't believe they had just escaped this crisis.

"Impossible." The silver armored youth stared wide eyed, "Yu Fang that bastard isn't that kind to just let me go."

"There's a strong warrior secretly helping us." The tall and sturdy thunder uncle said softly, and he was very sure of it.

"Strong warrior?"

The group of guards including Na Ke looked curiously at the tall and sturdy man, “Thunder uncle, you say there’s someone else?” The silver armored youth was suspicious.

“Hm.” Thunder uncle nodded, emphasizing, “There are 3 possibilities. The first one is the master, he’s always spoiled you. He may have arranged an absolute warrior to protect you secretly.” At this, the guards around all nodded. Even Na Ke who was suspicious initially started to believe him after awhile.

“The second is that a mysterious absolute warrior is helping us secretly.” Thunder uncle said, “The third one is that someone from the Yu Family’s team is helping us.”

“The 1st and 2nd made sense, but you said someone from the Yu Family is helping us?” Na Ke was shocked.

“Captain, that can’t be.” The group of guards couldn’t believe it.

“Haven’t you discovered? The 10 that headed over here before alone had Dripping blood blade and the 9 great guards.” The tall and sturdy thunder uncle emphasized. Looking at the distant large team, “The team had more than a hundred people, but just the 10 were that strong. Of the rest of them, there should still be many other powerful warriors.”

“If it weren’t something important, they definitely wouldn’t have sent out so many strong warriors. Who knows, within the team was the true leader of the group.” Thunder uncle said seriously. “They had urgent matters to do, having such altercations while they had matters to do was the worst thing they’d wish for. That leader may have been dissatisfied and ordered all of them to return.”

“Hm!”

“Makes sense.” The group of guards nodded.

“Thunder uncle is very impressive.” The silver armored youth Na Ke complimented while laughing.

“However I’m still curious as to the large number of strong warriors, and many of the warriors were from other powers! Such a strong team, what were they doing?” Thunder uncle frowned, “Even if the family leader came out, he wouldn’t bring so many warriors.”

“Right.”

“Must be something very important.”

.....

Yu Fang was swiftly taking his men to rejoin the large group.

“3rd uncle, just what warrior was secretly helping them before. Aren’t you a match for him?” Yu Fang looked at the skinny man beside him. That skinny man was one of the Yu Fang family’s top 3 warriors. With the name Dripping Blood Blade Yu Yan Ta, he was a star level 9 absolute warrior, strong even amongst those of the same level.

The skinny man Yu Yan Ta’s eyes twitched as they were filled with fear. He said, “Yu Fang, that secret warrior was extremely strong, if he didn’t control himself not to kill anyone, I’d already be dead.”

“What!” Yu Fang’s eyes stared wide.

My god.

He, Yu Fang was a Land Level, (star traveller) warrior. So, he could definitely feel the danger. However, his 3rd uncle was the sky level (Star level) pinnacle warrior. If even he felt that the enemy could easily kill him without even making a move, then that secret warrior must be terrifyingly strong.

“Just what level was that person, cloud level?” Yu Fang shook his head. “Even a cloud level wouldn’t be that strong.”

“Cloud levels aren’t that strong, a cloud level couldn’t simply just use his consciousness to pressure us and make us unable to resist.” The skinny man Yu Yan Ta nodded, saying, “I estimate...the secret warrior should be a domain level. Looking at how he could immediately pressure the group and not kill them, his control of his pressure is very precise and controlled...he must be pretty powerful even amongst the domain levels.”

“Domain level?” Yu Fang was stunned.

Swallow mound, had an area of ten million, with a population in the trillions.

Swallow mound’s leader was a domain level (Domain lord). At this level, he was already an absolute being within swallow mound territory. There wasn’t any family that could mess with him, he could simply make a move and destroy the families.

“That punk Na Ke, how did he find such a powerful being to protect him?” Yu Fang couldn’t believe it.

“Yu Fang! Your group hurry and return to the team, don’t waste time. Yan Ta, we are using our full force this time, don’t you know the importance of what we are doing? You even went to waste time with that little kid Yu Fang? Hmph!” An old voice resounded within their minds.

“Uncle, we have matters to report.” Yu Yan Ta communicated.

“Speak!”

“Uncle, when we went over to teach that Na family young master a lesson, we discovered one thing, there was a terrifying domain level warrior behind that Na Ke!”

“Do, domain level?” That firm old voice suddenly stuttered.

“Yes.”

“How much guarantee do you have it’s a domain level?” That old voice couldn’t believe it. “Have you made a mistake?”

“99% sure, to be able to use only consciousness pressure to make us all crumble and unable to resist, only domain levels could do that.” Yu Yan Ta reported respectfully.

“Who is it?” The old voice asked nervously. A domain level can completely change the power hierarchy within a territory. If it’s a powerful domain level (domain lord), then he would be able to even get rid of the current leader, and acquire the god palace’s recognition. At that point, he can immediately become the new city leader.

“Not clear, maybe he was hiding within his team, or he was somewhere we couldn’t see. He was way stronger than us. Hence, I couldn’t be sure.” Yu Yan Ta said.

“Hm! We have to sort this out clearly when we return. But, first let’s return to the city.”

“Yes!”

The vast team from the Yu family swiftly progressed. A possible domain level warrior alone had made the upper echelons all flustered as messing with a domain level was simply suicide.

.....

About 800km outside of Swallow mound city, the vast road pierced right through the large mountain. This mountain was split in half, forming a canyon. It seemed like a normal enough canyon. At this time, there were silhouettes walking at the peak of the mountain that was split apart by a strong warrior.

There were a total of 13 people!

All of them were dressed in armor wearing helmets, revealing only their eyes. On their backs they carried 1 or 2 axes, or single huge axes. Their armors were made up of black, blood red and gold colors.

“Big brother, they’ve come.”

“The Yu family team is here.”

The one leading was huge in stature. Dressed in gold armor, his blood red eyes gazing through the helmet, filled with cold, roaring, “Brothers, go, grab the goods!

Rumble! Rumble! Rumble! Rumble! Rumble!

13 silhouettes rushed from the peaks like bullets fiercely shooting downwards. When the 13 silhouettes swiftly descended, they immediately aroused the attention of the vast team flying over. The leader of the team was a old man with a black beard, he raised his right hand roared, Stop!”

The vast path ahead had only the 13 silhouettes.

13, like 13 devils standing there.

“10, 13...” The black bearded old man’s face went pale.

“13 Axe!” At the forefront of the team, the skinny man beside the black bearded old man Yu Yan Ta’s expression went pale too, “Why have they come, it can’t be...”

Within Swallow mound territory, there were a few strong heroes who were extremely powerful!

Much stronger than these business families. For example, this 13 axe was made up of 13 powerful warriors with similar interests that formed the group. There were no underlings in the group, just these 13. However just which family actually dared to mess with Swallow mound’s 13 axe? What was it based on? Within these 13 axes, there were 3 cloud levels! And 10 pinnacle sky levels!

Domain level (Domain lord), that was the dominating strength in the entire swallow territory!
Controlling the entire territory.

Cloud level (Universe level), these were considered the pinnacle fighting strength within the territory, as they were very powerful.

“What do we do?”

“What do we do?”

“We cannot lose these goods.”

The large Yu family was shocked.

“Lords of the 13 axe, whatever orders you have please speak.” The black bearded old man was apprehensive within. His appearance however was still strong and proud as he shouted.

“Yu Family?” A soft voice resounded from the 13 demons standing before them. The leader said, “Hand over the armor from the ancient ruins, we’ll spare your lives.”

The black bearded old man stared.

“Run!” The black bearded old man’s expression was struggling as he communicated to his team.

Rumble!

The entire team seemed like they were prepared, immediately the group of sky levels (Star level) madly rushed in all directions. Large amounts of the ground level swiftly flew and fled too, be it climbing the mountains or following along the path backwards. The skinny man Yu Yan Ta too followed the pack backwards.

“Yan Ta, quickly go to where that Na family punk is. If that domain level being is there, our Yu Family still has some hope!” The black bearded old man roared and communicated to them.

“Yes, uncle.” The skinny man replied.

Chapter 494: Kill Them

When the hundred man team of the Yu Family madly fled, the leader of the 13 axe, his blood red eyes flashed with violence and he shouted, “Kill all of them, don’t spare even a single one!”

“Haha, understood!”

“They can’t get away!”

“9th and 13th brother, it’s up to you two.”

Including their leader, the 13 Axes swiftly became a blur and chased down the stronger fleeing members of the family. The two black armored men laughed manically as they extended their arms. Immediately, sou! Sou! Sou! Sou! Sou! Blurry beams of light shot in all directions!

When Luo Feng was a student level 9, he could already control 10 flying blades. As for now, if he didn't require strength, he could control thousands of little golden blades easily. Of course, if he required strength, he could only control about 10.

These 2 star level pinnacle warriors both immediately shot out 100 little thin flying axe like assassination weapons. Each of them were about half the size of a palm and 1mm in thickness.

A blur of flying axe assassination weapons covered the skies and shot in all directions.

"Ah! No! Quick!"

The large number of warriors fleeing all immediately went mad, as their surrounding comrades were being sliced through their heads by the flying axes. As they pierced right through, fresh blood spewed everywhere with brain matter and heads falling all over. In an instant, the entire canyon was stained red, almost like a nightmare scene. The large group of Ground level (star traveller) were simply massacred!

In a few seconds!

The entire Yu family in the canyon had less than 20 people left.

"My god!" The black bearded old man was paralyzed on the ground. His face was stained with the blood of others, and his eyes were staring wide eyed.

"Chi!"

A little flying axe weapon as thin as a cicada's wing left a dazzling silhouette in mid air and later pierced through the old bearded man's head, almost like slicing tofu.

"There's nothing."

"It isn't here."

"This old bastard's has a space wristband. However, it doesn't have the armor we want." From the 13 axe, the two who controlled the attacks swiftly checked the important bodies. Among them, they found only 1 space item, however it didn't have the item they wanted.

"The ones who fled are the most important, those 10 have fled from the canyon."

"No worries, big brother is chasing them."

"Hm, he's caught up."

Chi! Chi!

The two became a beam of light and swiftly caught up with crowd!

On the wide road, about 10 people were fleeing as hard as they could.

"Quickly!"

"Quickly!"

Their faces were filled with fear, especially the center tall and handsome young master Yu Fang. His face was ashen. He was extremely nervous and communicated worriedly, "3rd uncle, 3rd uncle, carry me and flee, bring me along with you!" However the strongest among the group, 3rd uncle Yu Yan Ta had long fled far away, not caring about him.

"Haha, you think you can run!"

In the distance a gold armored demon god tore through the skies and caught up. His laughter resounded loudly within the ears of the 10 of them who were fleeing. Behind this gold armored silhouette there was one more who was swiftly flying over.

"Go and die!"

The gold armored demon god's silhouette dived down and simultaneously the genetic energy of the cloud level (universe level) smashed into the ground fiercely. A ripple started to spread in all directions, exploding within the 100m area. A universe level's genetic energy with its terrifying strength had reduced the surroundings to nothing but waste. Screams of pain and shrieks sounds could be heard in the air.

"No, no no!!!" Yu Fang howled in fear. However, his body seemed to be hit by countless assassination weapons, immediately becoming like a sieve. Even his head had rubble piercing through, after which it exploded and left nothing but a mess.

Young master Yu Fang...

Was dead!

"Na Ke!" Before dying, Yu Fang stared wide eyed. He had hoped so badly, that he would be able to reach Na Ke's team. At least with that being there he stood a chance of survival. However it was a pity that his speed was too slow.

.....

At this time, there was only 1 person left in the fleeing Yu Fang Family. It was one of the 3 strongest in the family, reaching the pinnacle of sky level... Dripping blood Yu Yan Ta. Even within the 13 axe, he would be ranked about 4th or 5th in strength. He had fled along the road from the beginning with the highest speed he could muster!

He didn't care about Yu Fang.

Because he knew...if he lost that armor, the Yu Family in the city would be done for too.

"Back then I shouldn't have agreed, the treasure within the ancient god ruins isn't something our Yu Family can take. I hate the fact that we were too greedy, simply too greedy!" While flying as fast as he could he cursed within. Back then, when the Yu Family saw the benefits from success, their greed exceeded their fear. Hence, they decided to gamble this time!

Yes, this was a gamble.

"Haha, Dripping blood, you still wish to flee?" A voice immediately reached Yu Yan Ta's ears.

Yu Yan Ta looked back. In the distance a gold silhouette was rushing over, causing Yu Yan Ta's expression to grow even uglier. Amongst the 13 axe, the head, number 3 and 7 were the three he least wanted to meet. This was because these 3 were cloud level (Universe level), the other 7 he still had enough confidence he could beat.

"Na Ke!"

"Na Ke!" Yu Yan Ta fought hard to increase his speed, staring into the distance. Suddenly there stood a 10 man team, of which there was the familiar silver armored youth Na Ke. This caused Yu Yan Ta's eyes to immediately glow with hope. As his face flushed red, he roared loudly, "Young Master Na Ke, save me!"

Luo Feng and that team had distanced themselves close to 200km from the Yu Fang family team, and Yu Yan Ta was after all just a pinnacle star level. Even though Blood river world's gravity was so strong that a star traveller couldn't fly, however Yu Yan Ta's speed could still reach up to 8km a second. If it were in space without gravity, a star level pinnacle could reach up to 150km per second.

The gravity of blood river world was shocking, and because of that Yu Yan Ta's speed could only reach 8km per second.

Close to 200km in distance, he had flown for 10 seconds.

In just 10 seconds...

The large Yu Family team was decimated.

"Young Master Na Ke, save me!" A roar filled with genetic energy immediately resounded in the surrounding land and skies, causing the team that was rushing back, Luo Feng and Na Ke and his group to be stunned. They turned their head to look over.

In the distance, two silhouettes were approaching.

One ahead of the other, they were swiftly heading towards their team. Especially the golden silhouette behind, had long released his large aura all about.

"It's Yu Yan Ta, and behind him is the leader of the 13 axe." The tall and sturdy Thunder uncle deduced from a look. Revealing fear, he communicated, "Everybody listen up, do not ever mess with the leader of the 13 axe. Young Master Na Ke, don't ever go help Yu Yan Ta. We cannot help him. Rather, it would be suicide to help him at this point!"

"Hm." Na Ke's face too was pale.

Leader of the 13 axe? Within Swallow mound's 10 million km area, this was definitely a person that was highly reputable and deserving of respect.

.....

"Save me!" The skinny man Yu Yan Ta's face was filled with fear as he rushed towards Na Ke's team. However Na Ke's team stood there not even moving. Obviously they didn't wish to intervene.

"Rumble!" From behind a terrifying energy wave ripple over.

“Not good.”

Yu Yan Ta looked behind, that gold armored demon god wielding an axe had already waved it and was slashing towards him. The huge axe swing had formed a high pressure ripple, a slash ripple visible to the naked eye was rushing towards him, causing Yu Yan Ta’s eyes to flush red as he waved his blade hard to stop it.

“Dang!” Yu Yan Ta was knocked onto the ground from the ripple. His entire body was shaken so hard his bones were broken.

“I, i...” Yu Yan Ta’s stared wide eyed, blood leaking from his mouth, following which his head fell and there was no more sense of life.

Rumble! Rumble!

In the distance two silhouettes landed.

“Big brother, did you find the item?” The two tall and sturdy man shouted.

“It should be on him.” The leader looked at Yu Yan Ta’s corpse on the ground, and immediately grabbed his arm. He turned back to look at his brothers, “3rd and 7th brother, it’s a space wristband.” The two who had just massacred everybody else looked, as their eyes gleamed.

Luo Feng and Na Ke’s little team stood there, not daring to move or flee.

“It’s exactly like what the information depicted. Blood river world favors the strong. Massacres can be seen everywhere, even punks with high statuses are killed just like that.” Luo Feng glanced at the distant Yu Yan Ta’s corpse, shaking his head quietly.

At this time, silhouettes continued to appear from mid air.

“The 13 axe have arrived.” The tall and sturdy Thunder uncle’s eyes were filled with shock.

“13 axe, the legendary 13 axe.” The silver armored Na Ke’s eyes had a sense of both excitement and nervousness. These were legendary figures, killing the powerful team from the Yu Fang Family was simply like killing chicken. These were the true strong warriors! Absolute warriors!

The not too distant leader of the 13 axe frowned, “Why isn’t it here?”

“What, it’s not there?”

“Big brother, the space wrist band doesn’t have the armor?”

“Have you all checked everybody else?” The leader looked at his brothers. The other 12 all replied, “They don’t have it, we’ve all checked. Only 1 person had a space item and it didn’t have the armor we want.”

“Just now that dripping blood was calling for them to save him.” The leader in the gold armor said as his blood red eyes looked at the distant group, causing Na Ke and his group to immediately feel fear. The leader frowned, “They may be the same group with the Yu Family, only separated into the early and later groups.”

“Big Brother, we’ll kill and then look! Why think so much about it.”

“Hm!”

The leader nodded, “Kill them!”

To the 13 axe, killing a bunch of rich family teams in Swallow mound was simply like stepping on ants, that simple. In the continent of blood river...it didn’t matter where you stood or what you had, if one had a big fist, that was the law!

“We have no relationship with the Yu Family, don’t kill us.”

“Spare us.”

Including that tall and sturdy thunder uncle, the group of guards all looked fearful. Even the simple and full of fighting spirit youth Na Ke looked fearful and shocked.

“So troublesome.” Luo Feng shook his head. “There’s 3 universe levels in this group, I cannot simply just pressure them with consciousness. I will have to personally make a move. The information was right, there are many times in blood river world where one cannot help but have to kill others.”

Rumble!

The 13 axe group were initially just staring coldly at Na Ke’s group. However one of them was just about to unleash his assassination weapons. When all of a sudden, the 13 of them revealed a look of fear, because in an instant, before the 13 of them, 1 silhouette appeared...a black haired youth in black armor!

13 images simultaneously appeared before the 13 of them!

Chapter 495: Blood Warrior

“How’s that possible?” Including the powerful leader of the 13 axe, the 13 of them stared with fear, because the opponent’s appearance was simply too strange. It was fast to the point of teleportation! However even in fear, they all struggled hard to use their weapons!

13 images, 13 Luo Feng.

Luo Feng’s eyes grew cold, his gaze was like a blade, 13 images all looking at the 13 members.

His blade flashed! 13 extremely beautiful flashes, infused with immense hatred. Na Ke and his group who were witnessing this scene, including the 13 axe who were being attacked, couldn’t help but get affected by the blade work. Their consciousness was getting enticed into the bladework itself!

Chi! Chi! Chi! Chi! Chi! Chi! Chi! Chi! Chi! Chi! Chi!

13 flashes of the blade like surgical blades followed the outline of their helmets immediately entering within and retracting. The continuous floating 13 flashes flashed and vanished. The images vanished too and Luo Feng placed his blood red illusionary blade back in its sheath which was on his back.

Silence!

The 13 warriors stood there, motionless.

The pure and innocent Na Ke, Thunder Uncle, along with the group of guards were all still immersed within the blade work. Luo Feng couldn't help but shoot them a glance with a slight pressure from his consciousness, causing the completely immersed punks to awaken from the shock. All of them took a while to comprehend what just happened.

"Why are the 13 axe all standing there motionless? My eyes weren't deceiving me before right, I saw..." A Guard said, clearly still stunned.

"Shut up." The tall and sturdy thunder uncle communicated angrily.

The guard immediately awoken.

"Dead, the 13 axe are dead." The tall and sturdy thunder uncle communicated. "Can't you see from the 13 armors and helmets traces of blood dripping down? Since you all still have some bit of strength, can't you sense that there's no energy coming from them at all?"

"It's true, there are blood stains."

"No energy at all."

"My god, I, didn't see wrongly did I?. That stupid one called Feng...no that powerful black armored guy casually made a move and simultaneously killed 13 people, and the 13 axe actually couldn't even retaliate?"

"I just saw 13 black armored warriors simultaneously slashing, the blade work was simply captivating."

The group of guards were completely subdued.

Blood river world favored strength! And the blade work that captivated them made them tremor within!

"I was really stupid, so stupid!" The tall and sturdy thunder uncle's body was trembling slightly. "The 1st time I saw this absolute warrior, he wasn't standing there stupidly looking at the Mangu beast. He didn't even think of the beast as an opponent. Even the 13 axe with 3 cloud levels, they couldn't even retaliate and were all killed! Much less the Mangu beast? That group of bastards still said he was stupid...obviously it's purely us who are stupid! Right, before when the Yu Family and troops wanted to humiliate our young master, they were all scared away. It was definitely him who helped us. Without revealing a trace, he scared away people like Dripping blood until they all fled. That's a true warrior, absolute warrior!"

The silver armored Na Ke's gaze at Luo Feng was filled with burning madness.

"Absolute warrior! A true warrior! Absolute warrior!" Na Ke muttered. "The 13 axe easily killed someone like Yu Yan Ta. And he was a legendary warrior...however big brother Feng actually killed the 13 axe with them unable to even make a move. And they are still standing there motionless, like they didn't even do anything. This, what kind of strength is this?"

“Young master, this is a true absolute warrior. The training hermit!” Thunder uncle’s face was excited, communicating, “His impression is not bad. You go hurry and get close to him, to be on good terms with such an absolute warrior, is most important for our Na Family.”

“Don’t bother me.” Na Ke didn’t care about anything about the Na Family at the moment. All he felt at this time was excitement!

The excitement from meeting a legendary idol!

Na Ke was nervous within, however he grit his teeth and walked towards Luo Feng.

.....

After killing the 13 axe, Luo feng couldn’t be bothered with the stunned guards. He was using his spirit energy to scan over the bodies of the 13 axe along with Yu Yan Ta.

“These 13 axe are wealthy, everyone of them has a space item.” Luo Feng’s scan had confirmed. Controlling his spirit energy by it space bracelets to wrist bands, arm guards, space belts, he took all the items from their bodies and kept them within his space ring.

“Let’s see what’s in them.”

Luo Feng flipped his hand and retrieved a bracelet, using his spirit energy to pry it and check.

“Feng, big brother Feng.” An excited and nervous voice resounded.

Luo Feng turned, looking at the flushed red faced nervous and excited silver armored youth Na Ke. At this time the youth took a deep breath, his eyes barely containing his excitement and worship, “Big brother Feng, are you the legendary warrior who remains low profile and constantly roaming about the continent, hermit?”

“Hermit?” Luo Feng was stunned, following which he nodded and smiled, “I guess so.”

“Ah!”

Na Ke was extremely excited, “I heard that the hermits are low profile and powerful. They travel from world to world, constantly roaming, and their sights are extremely broad, having been to many mysterious places. Like the Blood demon ocean, Forbidden mountains, Ancient god ruins etc, have you been there?”

Luo Feng realized.

The youth before him was worshipping him, asking if he had been to these places. However...

Just what were these places he was speaking of.

He’s been to the dark universe, primal universe primal chaos city, world within a world, absolute beginning secret region, and even to the Virtual Universe Company’s headquarters. However! The Blood demon ocean, Forbidden mountains, Ancient god ruins within Blood river world, he had never even heard of them.

“I haven’t been there.” Luo Feng smiled and shook his head. “Maybe there’ll be a chance in the future.”

“Hm.” Na Ke was extremely excited. “I heard that the Blood demon ocean is 800 worlds away from us! Even the leader of a world city would take very long to get there.”

Luo Feng was shocked within.

The distance wasn't far, however there was no flying ship technology in Blood river world. One could only fly himself. With the high gravity, how long would it take to fly 800 worlds away?

The world distance of the aboriginals of blood river continent, referred to the area territory of a world. Every world territory had a diameter of hundreds of millions of km up to billions of km! With such an area, even if one travelled 100,000km a day, it would still take 10,000 days to pass through 1 world.

800 worlds...

How many years would that take?

Luo Feng and Na Ke's team walked towards the distant and vast swallow mound city. He walked while checking the items left behind by the 13 axe.

From the check, Luo Feng had some unexpected surprises.

“There's actually so much currency, the 13 axe are indeed wealthy. Hm, with these, it will be much more convenient.” Luo Feng wasn't too excited about the money. What he was truly excited for was, “There's actually so many books. Most of them were training methods and so on, but there was a large amount of books with common knowledge and information about exploring the continent, similar to encyclopedias.”

The techniques and skills, Luo Feng couldn't even be bothered with.

Having seen the Time space scribbles' thousands of techniques, Luo Feng could easily create skills that were better than these.

It couldn't even compare!

The training of Blood river world, couldn't even compare in any way with humanity's sacred training land primal chaos city.

“Common knowledge, encyclopedias.” Luo Feng randomly picked one and this book used a soft but sturdy material. On it were 3 words... “Blood river crystal.”

“Before, I was still worried about not knowing any information on the crystals. Yet, right now I have a book that explains in detail.” Luo Feng was very happy. The money didn't mean much to him, he walked while using his spirit energy to scan the book and swiftly read through it and understanding the detailed information on the crystals.

Blood river crystals, the gems of the entire continent.

It had incomparable mysterious energy.

It was a treasure given to the continent by gods.

Only the high and mighty undying shrines would occasionally give the world's a blood river crystal. Other than these shrines! No other power or person could create the crystals, even to the point of where they came from or how they are created.

Blood river crystals can be absorbed into the body, producing an incomparably mysterious effect! (As to its mystery? These books could only guess, not publicly explaining its effects.)

However not everyone could absorb the crystals into their bodies, as it had high requirements on the warrior. Under normal circumstances, warriors who had massacred more would find it easier to absorb one crystal.

The blood river crystal was something every warrior from the vast continent sought.

However...

It was simply too valuable and rarely seen!

In the vast continent, the undying shrines had set a rule: Domain level (Domain lord) warriors, only after absorbing one blood river crystal will he have the right to dominate a territory. Normal Domain level's have no right to become city leader.

World level (Sector lord) Warriors, they too have to absorb one crystal to have the right to dominate a world city!

.....

Blood river crystals were rare and valuable! And absorbing them was even harder.

Just one alone was difficult, absorbing two would have 10 times the requirements on the body, 3 crystals would have a 1,000 times the requirements! The further one goes, the harsher the requirements!

There was a saying on the continent...

A warrior who has absorbed 3 blood river crystals would have incomparable mysterious powers. Such a warrior would be named a blood warrior. And the blood warrior can go acquire the Blood river medal from the world city, they were the pride of the continent.

A warrior who has absorbed 10 blood river crystals would be called a Black warrior. He can go to the undying shrine to acquire the valuable black river medal.

The legendary blood warrior, it took countless years to produce one.

Black warrior?

It was purely a saying. No one even knew if there ever was a black warrior. In the last trillion years, maybe there wasn't even one.

"So it's like that." Luo Feng closed the book and filled with glee within. "No wonder acquiring the blood warrior title gives 100,000 points. And acquiring one blood river crystal alone only gives 10,000 points. These two are obviously different in difficulty."

He looked up.

Ahead was the entrance of the ancient city that was 100 zhang tall.

He had finally arrived at Swallow Mound city!

Chapter 496: Pure Feather Family

As the center of a ten million km area, Swallow mound city's walls were about 300m high. It was so long, that one couldn't even see the end in sight. It was almost like an endless black mountain range. And the door of the city was close to 100m wide and 200m tall. A group of scaled armored fierce looking soldiers stood there to collecting the entrance fee.

"Quick, pay up."

"You wish to enter without money? You must be looking to die!" The group of intimidating soldiers carried either a large blade each, or huge axe, were yelling and shouting occasionally.

With a glance, Luo Feng was able to determine that the aboriginals of Blood river world were indeed very strong. Even these soldiers were all star traveller 5 and up. If they were placed on earth, any one of them would be considered to have a presence of a demon god. Of course, on blood river world, they were only normal soldiers.

"Young master Na Ke is here."

"Hurry and make way, let Master Na Ke enter the city." The intrepid soldiers were incredibly passionate, not even collecting the entrance fee from Na Ke and his team. However, that thunder uncle still smiled happily and brandished a black currency, "For you and the brothers to have a drink." The leading soldier took it normally, becoming extra friendly.

Wine, whether it was made through fruits or grains, consisted of millions of different types of drinks, all under the same name.

"I wonder what the wine of blood river world tastes like." Luo Feng revealed a smile.

After entering the city.

Na Ke said passionately, "Big brother Feng, I'm very familiar with this city. Why not stay at my house for a bit? After a bit of rest, I'll bring you around the city to take a look. Even though this city is huge, there isn't a place I don't know."

"Yes, Lord Feng." Beside, Thunder uncle too was all smiles, and behind him the guards all looked on at Luo Feng, not making a sound.

To be able to instantly kill the 13 axe...

What kind of person was he?

In Swallow mound, there were indeed quite a few powers capable of such a feat. However, for one to single handedly kill all them, such an absolute warrior was countable by one hand.

“No need, we’ll part here.” Luo Feng said.

He had already finished reading the details of the blood river crystal.

Hence, he had already formulated a plan on how to complete the mission. At the same time, Luo Feng didn’t want to get too close to the Na Family. Afterall, if he ended up staying with them...there would be trouble after.

“Part?” Na Ke was stunned. Thunder uncle’s expression too was nervous, thinking, “This absolute warrior is just leaving?”

Na Ke nodded, looking at Luo Feng, “Big brother Feng, if I wish to see you in the city, will I be able to?”

Luo Feng looked at the silver armored youth before him, smiling, “Where’s the best hotel in swallow mound?”

“Flying cloud pavilion.” The silver armored youth said.

“Hm, if you wish to find me, then go there.” Luo Feng smiled.

“Hm.” Na Ke nodded.

Following which Luo Feng turned and walked into the long path that seemed to stretch on forever, his silhouette became a blur and in an instant he had gone far away. Na Ke, thunder uncle and the guards all watched the distant black armored mysterious warrior who was carrying a blade and shield. Thunder uncle said excitedly, “ In my entire lifetime, this was probably the strongest warrior I’ve ever gotten close to.”

“Hm.” Na Ke nodded.

“Let’s go young master, we’ll go home.” The tall and sturdy thunder uncle said. “The matters of this Lord Feng, it’s best that we tell the old master. Especially about the Yu Family matters, we have to tell him too. I feel that it’s probably no small matter.”

“Go, return home.”

Na Ke brought his guards and swiftly rushed home. Swallow mound was simply too huge, a city with an area of 1,000km. Na Ke and his group took close to an hour to get home.

Na Family, they were considered one of the higher merchant families in Swallow mound. As Swallow mound territory expanded over 10 million km in area, compared to the diameter of earth which was only about 10,000km. Such a huge city, naturally resulted in the population being huge as well. Also, the number of family powers too was vast like the fish and shrimp in the ocean.

Na Family, Yu Family, they were considered the middle level families. Organizations like the 13 axe were the upper powers.

Na Family mansion.

Dressed in a beautiful black robe, the silver haired man's expression was stunned. He was shocked as he listened to his son Na Ke and thunder uncle's story.

"Extremely powerful, dad. You didn't see...the leader of the 13 axe killed that Yu Yan Ta like killing livestock, just one axe strike and he died. However the 13 axe against Big brother Feng, didn't even have any resistance. I only saw 13 silhouettes and 13 blade flashes, the 13 axe couldn't even react before they died."

"Yes old master, young master is speaking the truth."

"How, how can that be?"

The silver haired middle aged man Nabu calmed down after a while.

To accomplish so much for the Na Family business, he was careful and meticulous.

"This warrior, absolute warrior." Nabu looked on at his own son, "Where is he?"

"We split after we entered the city. I invited him to stay here with us but he didn't accept it. However, he said if we wished to see him we can go to Flying cloud pavilion." Na Ke said, his eyes gleamed, "Dad, let's go there now."

"No!"

Nabu frowned and said softly, "This absolute warrior chose to separated after entering the city. Obviously he doesn't want to get too close to us! You...you tell me the entire story of how you met him in detail again once more to me."

"Yes." Na Ke immediately began his story.

The more he listened, the more Nabu's expression relaxed, finally he smiled.

"Father?" Na Ke looked at his father.

"Haha, keke, you are lucky." Nabu smiled. "From what you've said, it seems this mysterious warrior Feng doesn't like to slaughter. If he can avoid it, he wouldn't kill others. And he doesn't like to get too close to anyone, however he has a good impression of you. Otherwise he wouldn't agree to let you go see him."

Na Ke replied excitedly, "Then we should go now..."

"No." Nabu shook his head, "You just split and now you want to rush over already? If you meet him right away, he wouldn't appreciate it. No rush, we'll wait till tomorrow. Tomorrow we'll pay a visit to the warrior Feng. Alright, Lei Dong, accompany the young master back."

"Yes."

The tall and sturdy thunder uncle brought Na Ke and left, leaving only Nabu in the room. The silver haired Nabu's eyes gleamed like that of an old fox. He said softly, "Feng? Yu Family? What exactly did the Yu Family do to even arouse the 13 axe to rob and kill them..."

Swallow mound city.

Luo Feng wasn't in a rush to head to the hotel. He first took a good walk about the city, finding a random place to eat and drink, and to listen to the customers and their conversations. This way, he was able to understand more about the affairs within the city.

Blood river continent didn't have a sun or moon.

However because of the movement of the 18 levels of clouds above, it made the continent shine and dim at different times, that became their day. One day on blood river continent was about earth's 7 days.

.....

In Swallow mound city, Flying cloud pavilion was the most luxurious hotel. It had a diameter of 10km. This was bigger than some of earth's county cities. Its interior was beautiful, and it could hold up to 500,000 guests. The crowd flowed in and out daily. With a large amount of people entering and leaving the country everyday, the business here was very good.

In the lobby of flying cloud pavilion, there were 100 staff members stationed.

"Room." Luo Feng looked at the little young lady dressed in a black fur dress.

"We have the ground level, Sky level, cloud level, which do you wish to stay in? As for price, the wall there shows it all." The lady smiled and replied.

"Cloud level." Luo Feng muttered.

"Cloud level room 2, daily rate of 3 large currency." The lady within smiled.

Luo Feng reached and took out a purple currency and threw it on the table, the lady immediately grabbed it and began to work on Luo feng's reservation. The currency of Blood river world was shaped like little blades. The currency denominations were split into little blade (Red, called little currency), middle blade (Black, middle currency), large blade (Green, large currency), and above that the most expensive purple blade (Called treasure currency).

1 middle currency was worth 1,000 little currency.

1 large currency was worth 1,000 middle currency.

1 treasure currency was worth 1,000 large currency.

In the luxurious flying cloud pavilion, the most luxurious room was the cloud level, it required 3 large currencies a night, akin to 3 million little currencies. This was not a place normal people could live in. And Luo Feng, having killed the 13 axe...had acquired all of their wealth. This amount of wealth was much more than the Na family's and Yu Family's fortune combined. This little bit of money didn't bother him at all.

"Lord, this way."

A handsome youth dressed in staff attire respectfully led the way. Located in front of Luo Feng was a 3 storey building with a flower garden and pond, outside its yard were the words cloud level.

“Not bad.” Luo Feng looked through it properly. After a satisfying nod, he sat in the living room chair and looked at the waiter before him.

“Whatever orders Lord has and whenever you wish to order them, please go ahead and call us. I’ll be serving you for the days you stay in our flying cloud pavilion.” The young waiter said respectfully.

“This is the first time I’m entering Swallow mound city. I want you to tell me which places here are special, what big figures and powers there are.” Luo Feng took out a jade green crystal blade currency. “The more detailed your information is, and if I’m satisfied, the better your reward will be.”

The waiter looked at the jade green currency and his eyes gleamed, saying, “I’ve lived in Swallow mound city for over 200 years, and stayed in flying cloud pavilion close to 100 years. I have heard much.” The waiter immediately began to tell an endless depiction of everything. He was extremely excited, revealing all the big figures and important people there are in the city.

He spoke for two whole hours before ending. He did not even take a breath in between.

“Hm.” Luo Feng listened and nodded.

“Very well, you’ve spoken well.” Luo Feng’s voice seemed to have some magic, causing the waiter’s eyes to seem lifeless and dazed. “Here’s some reward for you, leave now.”

The jade green currency landed in his hand. Only at this point did he awake from the daze. In his mind however, he couldn’t remember anything about Luo Feng’s questioning from before. One had to know, Luo Feng could already use the slave imprint skill. Hence, against this star traveller punk, it was as easy as sleeping.

“Thank you lord, thank you lord.” The waiter grabbed the currency excitedly and left.

“Hm.”

Luo Feng closed his eyes. In his mind everything the waiter had said before flashed through. His understanding of Swallow mound city was much clearer now.

Pure Feather family? Looks like...if anything, this pure feather family would have the highest possibility of having a blood river crystal.” Luo Feng muttered.

Chapter 497: Ancient God Ruins

The waiter’s explanation was very detailed about the many families within Swallow mound territory, the various organizations, sects and so on. These powers were split into different levels, Super, High, Mid, lower etc.

Na Family and Yu Family, these were mid level powers. The 13 axe was considered a High level power.

In the entire Swallow mound territory, there were three super powers!

They were the Rockwind family, the Pure feather family and the Hulei family.

The Hulei family was a certain savage group, the Rockwind family was the city leader's family and the Pure feather family was the number 1 business family.

"Blood river crystals, they are extremely valuable. These three super powers have the highest possibility of having them." Luo Feng sat there, tapping on the armrest. "As for the highest possibility among these three, that would undoubtedly be the Rockwind family. The 2nd would be the Pure feather family. As for the Hulei family, they are simply too far away, there's no need to go there."

A Domain level (domain lord), needed to fuse with 1 blood river crystal to acquire the recognition of the undying shrine, gaining the right to become a city leader.

Hence...

The city leader would definitely have already fused with 1 crystal. And as the most powerful in the territory, he'd have the highest possibility of having another. If one was the city leader, having already fused with 1 crystal, one would definitely try and get another crystal to fuse with once again.

"However, he is a domain lord!"

"And I'm only universe level 9. Of course...my domain is itself at level 9 and I am proficient in space and gold origin laws. I have confidence in killing a normal domain lord at level 2 or 3... What I'm afraid of is that he's domain lord level 7 or 8." Luo Feng shook his head. Before finding out the exact details of his enemy, he thought it best not to mess with the city leader first.

To be able to control Swallow mound territory, that city leader wasn't good to mess with.

"The target then should be Pure feather family leader!" Luo Feng squinted his eyes, gleaming coldly.

Although the plan has been set, the Pure feather family was still one of the strongest families in the Swallow mound territory. Within this family, there were many cloud levels (Universe level), and even one Domain level (domain lord) old man training. However, that was only from what the waiter had heard, whether it was true was still unknown.

.....

The 2nd day, early in the morning.

Luo Feng's spirit energy spread out through the space ripples. Through these ripples, he could feel the energy levels within 10km.

"Hm? Na Ke is here?" Luo Feng opened his eyes.

"Na Ke, cloud level room 2." Luo Feng communicated.

.....

The Na father and son, after arriving at flying cloud pavilion were prepared to ask around as to where that mysterious Lord Feng was staying. Within Na Ke's mind, a voice resounded, "Na Ke, cloud level room 2."

"Father, Cloud level room 2." Na Ke said softly.

“How do you know?” Nabu looked shocked at his son.

“Big brother Feng sent the message to me mentally.” Na Ke said. Nabu, who listened to this was utterly shocked. This mysterious Lord Feng was terrifying. Even without meeting them personally and from such a distance, he already came to know that they were there.

“Let’s go!”

Nabu and Na Ke entered the flying cloud pavilion. Even though the cloud level forbid others from entering, the Na family was a regional tyrant family, others would easily help them. When the two of them arrived at Luo Feng’s room, they saw the black armored man standing in the yard.

“Big brother Feng.” Na Ke shouted.

“Nabu greets Lord Feng. Thank you for saving my son’s life.” A silver haired Nabu bowed respectfully.

“Come in.” Luo Feng smiled.

In the living room.

Luo Feng and Nabu both sat, Na Ke stood by his father’s side.

“Lord Feng, if it weren’t for you yesterday, my son would have lost his life.” Nabu exclaimed. “Last night, the entire Yu family was uprooted. Yu family, they too are a family that’s deeply rooted here, yet because of that one mistake their entire family business was destroyed. Yesterday, my son was almost dragged into it. Just thinking about it makes me afraid.”

“Uprooted?” Luo Feng frowned.

“Hm, I just got the most accurate news.” Nabu exclaimed and shook his head. “The Yu family actually had borrowed a huge sum of money, to get a set of armor from an ancient god ruin. They found the information about this by means of a secret channel... However, It was a pity that their team was destroyed yesterday. According to them, the armor was taken away too. The Yu family has no way to return such a huge sum, much less the interest. Hence...those that lent the money raged and killed the family and stole all their fortune. Even then, they were not satisfied.”

“The ancient god ruins, what kind of place is that? Also, is a piece of armor that important?” Luo Feng asked.

“Lord Feng doesn’t know?” Nabu was surprised.

“Big brother Feng, even I’ve heard of the ancient god ruins.” Na Ke smiled.

“I only know that’s an ancient battlefield, a vast and huge battlefield.” Luo Feng said, “I’m only curious as to why an armor from that battlefield is so valuable.”

From the common knowledge books from the 13 axe space rings, Luo Feng came to understand several special places within blood river world.

One of which was the ancient god ruins, it however had very little information.

Ancient god ruins: Diameter 100 billion km, vast and endless, ancient battlefield.

The book didn't explain more.

Nabu smiled, "The ancient god ruins, most people only know that it's an ancient battlefield. However, me being a business man, through my special channels, I have come to know of several secret pieces of information. I believe that Lord Feng knows about the Outsiders?"

"I do." Luo Feng nodded.

"The outsiders are extremely strong and powerful." Nabu exclaimed. "In theory, any cloud level warrior can fly out of the 18 levels of clouds, to outer space. However, any warrior that flies out through space would be killed by the outsiders living in the space!"

"We have no way to enter space. However that's good too, as the outsiders find it hard to descend." Nabu smiled. "I heard that every time they descend, they have to pay a huge price too."

Luo Feng was shocked.

A huge price?

"This happened very very long ago, in an ancient period." Nabu exclaimed, "At that time, the strong in Blood river continent were like the clouds, much more than now! And at the time...the outsiders descended. The powerful warriors from the outsiders clashed with the undying army from our side and the gods battled there!"

"God battle?" Luo Feng blinked.

"Our blood river continent had heavy losses, as the ancient undyings all fell. However, even though the sacrifice was huge, we managed to chase the outsiders out!" Nabu's eyes gleamed. "After that battle, the outsiders never launched another huge invasion like before. And that huge battleground for the undyings back then...became known as the ancient god ruins. Although it's extremely vast, it was indeed a broken piece of ruins."

The youth Na ke beside stood, his eyes gleaming. "Large amounts of undyings forming an army, and god armies fighting each other. This is incredibly shocking."

Luo Feng smiled.

Ancient god ruins?

Maybe large amounts of undyings had indeed battled there. However, to say that the outsiders were defeated, that was a joke. Not including the other powers...just the Virtual Universe Company's knights or universe country leaders, any one of them would be able to easily destroy the entire blood river world.

"The ancient god ruins have a large amount of the special weapons and armors from the outsiders. Also, some of the armors from the fallen undyings, even if broken, are still very valuable." Nabu said. "And the Killing aura in the ruins is extremely heavy. A few warriors who have weaker consciousness that entered would get taken over by the killing aura, and be driven completely mad."

"However, there are still many that enter the ancient god ruins looking for the treasures left behind by the undying."

“Also, people with strong killing auras absorb the blood river crystals easier. Hence, a lot of warriors do not care about the dangers within the ruins.” Nabu exclaimed, “Anyway, the ancient god ruins is a terrifying place. It’s a the place that entices the most, and a lot of the strong warriors from our continent flock there.”

“Ah?” Luo Feng frowned.

Killing aura?

Blood river crystal?

From the book he read before, the more one slaughtered, the easier it was to absorb the crystals. And Nabu said so too, the stronger one’s killing aura was, the easier it was to absorb the crystals. Hence, countless warriors flock there.

“So, slaughtering is to raise one’s killing aura.” Luo Feng thought. “This blood river crystal, just what kind of treasure is it? Why is it so that the strong one’s killing aura is, the easier it is to absorb?”

“Ancient god ruins!”

“If I acquire a few crystals and I am not able to absorb them, I can go there to try it out.” Luo Feng thought.

The Na father and son’s arrival made Luo Feng happy, because he came to know more information about the ancient god ruins. This was linked to whether or not he could become a blood warrior.

.....

Flying cloud pavilion, Luo Feng’s place.

Luo Feng entered the virtual universe. Even though he was currently on a mission, the training mission didn’t conflict with his own study of the laws.

.....

Yu Xiang Mountain, Absolute beginning region, Wuka’s villa.

“Rong Jun, Luo Feng, I heard that you two have begun the training missions.” Wuka looked at Luo Feng and Rong Jun. “What level did you two choose?”

“Difficult.” Rong Jun said.

“Luo Feng you?” Wuka looked at him, Rong Jun too looked over.

“Dangerous level.” Luo Feng said.

At that moment, both of them were shocked. Wuka stared wide eyed: “Luo Feng, it’s your first mission and you chose dangerous? That’s too risky!”

“It is dangerous indeed. In fact, I have a small problem right now.” Luo Feng was helpless.

“Although I’m doing the difficult level, I don’t even dare to be careless. Madman, you really are crazy.”
Rong Jun smiled and shook his head.

Even though a thread of his consciousness was in the virtual universe network, his actual self was in blood river world’s Swallow mound city planning his mission against the Pure feather family. Firstly, he had to know what the leader looked like. This way, he can confirm his target. Next, he had to be clear about the mansion in which they stayed in.

“No problem.” Luo Feng shook his head. “Hm, I have to go. I’m doing something big today, I cannot be distracted.”

“Good luck.” Wuka said.

“Don’t go losing your life to the mission.” Rong Jun warned.

“Relax.” Luo Feng shook his head and smiled, following which he vanished and left the virtual universe network.

Blood river world, Swallow mound city, night.

After 6 days of serious study and preparation, Luo Feng became a gust of wind and without a sound or trace left flying cloud pavilion. In an instant, he arrived at a luxurious mansion that took up 10km in area. This was a mansion which was second only to the city leader’s.

“Pure feather family!”

The air shook, a silhouette appeared in mid air outside the walls of the mansion. Of course it was Luo Feng.

Chapter 498: Late Night Carnage

Luo Feng didn’t wear his black armor today. Instead, he was dressed in a long black robe and stood empty handed by the wall.

“Pure feather family?” Luo Feng smiled. Hu! His entire being vanished into the wind, without a trace or sound, entering deep into the luxurious mansion.

.....

Pure Feather mansion took up 10km in area. It was split into the outer mansion and inner mansion. The outer mansion were for lower or more ordinary members of the family, hence the security around there was more lax. However, it was obvious that the security around the inner mansion was tighter.

Shua!

Shua!

Shua!

A black robed man took 3 simple steps, within the dark vegetation, walls, walkways 3 images appeared, and he had already reached near the inner mansion.

“The blood river crystal mission is one of the dangerous missions. It won’t be that easy to acquire it.”

Luo Feng half squatted below a huge rock. His gaze swept the area and his spirit energy connected with the universe space, feeling the surrounding life energies. “The energies within the inner mansion is obviously much stronger. Just the universe levels alone, there are quite a few!”

To wander in casually was impossible.

Sou! Luo Feng was incomparably serious. As he unleashed his illusionary movement, his entire being became a silhouette in the dark night, almost like a tiger with wings, and he swiftly entered the inner mansion.

“Be serious, don’t look like you are falling asleep.”

“Captain, who would dare invade the Pure feather family mansion? There’s no need to be that serious.”

“Not being serious is fine, however you still have to at least put up an act. Otherwise it’ll be bad if you are discovered. I am saying this for your own good.”

A guard team was patrolling the inner mansion, the guards were walking and communicating.

Hu!

From behind them, a blurry silhouette swiftly flashed past them, reaching deeper into the inner mansion. When Luo Feng used the Illusionary movement, he was even harder to detect. Plus, he was following the flow of the universe space and dodged all the dark sentries. However, this had shocked Luo Feng, as the security was extremely tight. The 2nd most powerful family next to the city leader’s family, was definitely no joke.

“Ahead is that useless advisor’s living quarters.” Luo Feng stuck to the stone pillar in the walkway. Almost like a shadow, his eyes were gazing coldly at the distant quiet quarters.

Shua!

Luo Feng resonated with the ripples of the universe space, forming 3 peculiar arcs and entered the quiet pavilion.

Pavilion 2nd level.

Dressed in a white robe, a pale skinny man sat at his study desk, thinking about something.

There was definitely a large group of tacticians in these large families, as such business families favored these tacticians more. As for this white robed man, he was the Pure feather family’s highest ranking tactician, the most favored Yu Ke Qi. He held an extremely high position in the family.

Just from his quarters being in the inner mansion and having such a big and quiet pavilion, one could see his status.

“Yu Ke Qi.” A voice resounded.

“Hm?” The white robed man trembled. He turned to look behind him, where stood a black robed black haired man.

“Master!”

The white robed man bowed respectfully, his eyes filled with a burning loyalty.

“Hm.” Luo Feng nodded. These past 6 days, in order to get every detail on the Pure feather family, he planned carefully and studied from many angles, and did not just rely on the general information he got from the city’s systems. He had also used soul control techniques on a few important people within the family to do a proper check.

As for these soul techniques, his teacher, the master of the Yun Mo Planet Hu Yan Bo who specialized in the soul aspect, had great accomplishments in them. He could even do slave imprints, naturally there were many other lesser techniques. And the Time Space scribbles 1st book too had many soul techniques.

Against this white robed man, he had only used a technique akin to hypnosis.

“I want to see your family leader now, are you ready?” Luo Feng asked.

“Please relax master, I am the trusted aide of the family leader, he has complete trust in me. Even if I wanted to see him late at night, it won’t be a problem.” The white robed Yu Ke Qi was extremely confident.

“You lead the way.” Luo Feng said.

“Yes.”

The white robed Yu Ke Qi said respectfully, “Master only has to follow behind me.” Following which, he immediately went downstairs with Luo Feng following him.

“Creak!” After opening the door, Yu Ke Qi brought Luo Feng about publicly.

Walking along the walkways, they were extremely silent.

“Hm?” Luo Feng could see a guard team in the distance walking over. The leader of the team looked at the white robed man and smiled, “Mr Yu.”

“Hm.” Yu Ke Qi nodded indifferently.

The guard team didn’t even question who was the black robed man and left. Yu Ke Qi communicated mentally, “Master please relax, because of the occasional important matters, I would have talks with the family leader late at night. I would also occasionally bring people to meet him. Even though I am usually instructed to bring these people, the guards don’t know anything. Hence, there’s absolutely no problem in me bringing someone along.”

“Hm.” Luo Feng nodded.

They continued.

1 level after another.

Luo Feng simply walked about openly from sentry to sentry. They didn't even have any reaction. No matter what, the two of them continued deeper into the mansion.

"The deeper we go, the tighter the security is. Even if I wish to enter here without anyone noticing me, it would be impossible." Luo Feng looked ahead at the vast surroundings. With just a glance, he was able to determine that there were at least 1,000 people patrolling. Obviously, they had already reached the family's core.

"Open the door!" Yu Ke Qi shouted.

"Yes Mr Yu, please wait a moment." Immediately the guards opened the door.

Under the surveillance of 1,000 guards, Yu Ke Qi brought Luo Feng into the core of the mansion.

"Master, this is already the core area of the family. The family leader, the important disciples and a few absolute powers, treasure troves, dojo etc are all here." Yu Ke Qi communicated. "The family leader's living quarters isn't far from here. Hm, at last, we've arrived to the front of the palace."

Luo Feng carefully examined it.

Ahead was a 500m long and wide ancient wall, and within it was a 9 storey high palace. Outside the palace, stood two guards.

"Open the door." Yu Ke Qi said.

"Who is he?" Of the two guards, the one on the left frowned and pointed at Luo Feng.

"He's someone the leader wants to meet." Yu Ke Qi frowned. "Hurry and open the door."

"The leader didn't inform us of meeting anyone late at night today." The left guard continued to carefully analyze Luo Feng. He coldly said "And at this time, the leader has already begun to rest."

"The leader has long wanted to meet him, however there hasn't been a chance. Today I've managed to bring this lord over, of course I brought him here immediately." The white robed Yu Ke Qi's expression was serious, ordering, "Are you willing to bear the consequences? Hurry and open the door!"

Luo Feng frowned, communicated, "What's the matter?"

"Master, normally these two don't even bother to stop me. However, they are acting a bit strange today." Yu Ke Qi replied mentally, he was suspicious too.

"Why aren't you opening the door?" Yu Ke Qi's expression was ugly Roaring, "What's up with you two?"

The two guards' expressions changed.

One of them smiled embarrassedly and said, "Mr Yu, we two brothers don't actually wish to stop you. Only today, the leader just got his hands on...anyway, it's not convenient for guests. If he was disturbed, he would very unhappy. If he really wishes to meet this man...we brothers will pass the message?"

"Ah." The white robed Yu Ke Qi frowned and communicated to Luo Feng, "Master, the leader is currently with a woman, what do we do?"

"Enter!" Luo Feng communicated.

Under the effects of the soul technique, Yu Ke Qi couldn't reject Luo Feng's order. Looking at the guard, "Go pass the word! The leader meeting this lord is more important than screwing some woman."

"Ok." The two guards immediately opened the door and one of them headed in.

.....

Luo Feng stood outside and was looking through the open door.

"Leader, leader." The guard that went in shouted seriously within the palace.

"What's the matter?" An enraged voice resounded.

"What's the matter." A sweet voice resounded.

"Family leader, Mr Yu has brought someone over. He's saying that he's someone you've been wanting to meet. Leader, will you meet him?" The guard asked.

"Mr Yu has brought someone?" Suddenly the large door on the 1st level of the palace rumbled open. A casually dressed bare footed tall and sturdy man in a luxurious night gown looked out, his gaze landing on the black robed Luo Feng. He immediately began to grow suspicious.

"Anymore and the plot will be revealed." Luo Feng became a blur and rushed into the yard.

Shua! Shua! Shua! Shua! Shua! Shua! Shua! Shua! Shua!

9 black silhouettes immediately rushed down from the upper levels of the palace. Simultaneously, silhouettes covered the skies and lands, rushing from all sides of the yard inwards.

The Pure feather family leader, his position was incredibly high and mighty. How could he not have personal bodyguards?

300 bodyguards!

9 great shadow guards!

"There's actually 9 universe levels, a super power is indeed a super power." A black robed Luo Feng had a cold expression on. His eyes were ice cold as his arms extended.

The 300 guards and 9 shadow guards that rushed out, were all originally holding battle blades or knives, or their own personal weapons, and were prepared to control them to assassinate Luo Feng. However, under Luo Feng's powerful spirit energy control, the 300 guards used their own weapons to pierce their own heads!

"No!" The 300 guards and 9 shadow guards, along with the 2 guards at the door stared with fear. However, their strengths weren't enough to control their own weapons!

Shua!

With flashes of blades, knives, weapons!

311 heads were sliced off. Fresh blood floated in the darkness of the night. Only 3 people remained alive in the yard.

The white robed Yu Ke Qi stood there stupidly and the family leader of the Pure feather family had fear in his eyes. Only Luo Feng's black robe swished, expressionless.

Shua!

In one step, Luo Feng had already reached beside the leader and grabbed him by the neck, like grabbing a little chicken. Following that, with just one step, his entire being vanished.

Chapter 499: Pure Feather Tao

Pure Feather family was far more ancient than the recent Rock Wind family. The strongest warrior in Swallow mound territory was coincidentally from the Pure feather family!

Pure feather Tao!

Domain lord level 6, he was the oldest in the family currently. He was also the strongest and the true person controlling the family from the shadows. He was the true man with power! Just like how the Black Dragon Mountain empire had an emperor, with many generations of successive emperors. In truth however, the person with the true power was the god leader of the Sacred land Black Dragon Mountain.

Pure feather Tao was the man that was truly in control!

.....

A Pavilion that was completely purple with 3 levels, and the entire staircase was built with wood that was dyed purple. Just the cost of this construct alone was more expensive than the entire Pure feather family's other territories.

3rd level.

A black bearded middle aged man dressed in a loose robe sat quietly on his bed with his eyes shut. Suddenly, a powerful energy ripple rushed from the north east direction (Blood river world had other directions. East, south, west, and north were uniform. However, the absolute directions were different from earth's.)

"Hm?" Pure feather Tao's expression grew serious, immediately spreading out his spirit energy to sweep the area.

Because he was a fighter, when compared to a spirit reader, his spirit energy was much weaker. However, when one reaches the domain lord level, sweeping with spirit energy was still an easy thing to do.

Rumble!

With the pavilion as the center, the torrent of spirit energy rippled in all directions, immediately sweeping the entire mansion and that particular palace. As he checked, his expression changed immediately. Sou, he rushed out from the bed and vanished.

Within the palace that the family leader resided in, the smell of blood filled the air, as over 300 bodies were on the ground. Red and white stains the ground, it was disgusting to look at. And about the same time these 300 over people just fell, a bearded middle aged man in a loose grey robe floated in the air above the palace. His eyes were raging as he looked down below.

The palace's 2nd level window was open and through it a beautiful woman was peaking through. "Ah!" After spotting the blood that flowed like a river, the scene caused her to shriek.

"Hmph!"

In mid air Pure feather Tao's expression changed.

Rumble!

Mud yellow energy waves immediately engulfed the palace. Simultaneously, the waves wrapped itself around the white robed Yu Ke Qi and the lady that was hiding in the palace, dragging them into mid air.

"Speak, what happened?" Pure feather Tao looked at the two, filled with rage.

"This, this, this..." That beautiful lady's face was pale. However, Yu Ke Qi only shook his head. "I don't know. I just know that a black silhouette appeared suddenly, and after that I saw these over 300 people use their own weapons to kill themselves. And the family leader was taken away."

Pure Feather Tao looked at the lady.

"Yes, yes, it was Yu Ke Qi. He brought someone to meet the leader, the leader only went out because of that. I don't know anything else." The beautiful lady shook her head.

"Hm?" Pure feather Tao looked at Yu Ke Qi. Yu Ke Qi however had a peculiar smile.

Peng!

His body violently exploded, the bones and other stuff that flew from the explosion pierced through the lady beside him. She stared wide eyed at the three large holes in her chest. Shouting, "Save me!" Almost all people on Blood river world were at least star traveller level, this woman too, hence even with holes in her chest, she hadn't died yet.

Sou! Sou! Sou!...

From the distance, many silhouettes floated over. It was the family's strongest warriors and important figures.

"Elder."

"Elder, what's going on?"

"Grandfather, what, what is this?" The nurtured upper echelon of the family were all stunned as they looked at the large group of bodies in the palace. My god, amongst them there were the 9 shadow guards...those were the 9 great shadow guards, a formidable force in the Pure feather family. 9 cloud levels!

“Go and look, look for me and bring back the family leader!” Pure feather Tao raged. Simultaneously, his energy waved exploded about, almost like a formless blade piercing straight through that lady, leaving nothing but a mess.

“Yes!”

“Yes!”

The group complied. Actually from seeing the over 300 guards who were all dead, they had already guessed that the outcome of the family leader was not good. From hearing the story...he should have been taken away.

“Bastard!” With mud yellow energy waves surrounding him, like a god in the night floating in mid air, Pure feather Tao was madly scanning the area with his spirit energy. He was a fighter, hence his spirit energy was more condensed and gentle. Its control and magnitude paled far in comparison to that of a spirit reader.

However!

To simply scan was not a problem at all. As the gravity of blood river world was extremely huge, Pure feather tao’s scan could only be spread up to about 80km.

Where?”

“Where is he?”

Wrapped in the energy, he flew over for around 100km. In the dark night above Swallow mound city, a mud yellow light was swiftly flashing about, suddenly flashing to another region here and there, obviously searching the entire swallow mound city!

.....

Swallow mound city, city leader’s mansion.

A tall and sturdy middle aged man with a dark green engraving on his forehead walked along the palace’s railings. He was dressed in a blood red scaled armor. With his cold eyes, he was looking up at the sky, at Pure Feather Tao who was searching all over swallow mound city, as he said softly, “This old punk, what is he raging about?”

“Hmph.”

“To enrage this old punk this much, the Pure feather family must have suffered a huge loss.” His lips curled into a cold smile.

He was the one with the most authority within Swallow mound city, the city leader...Rock Wind Xiong!

However in terms of power, he was still slightly weaker than Pure feather Tao. As for why he was able to become the city leader of swallow mound city, there were two reasons. One of them was because he had absorbed a blood river crystal. The second reason was, because he had special connections with the world city leader in that territory.

Pure feather tao however, even though he was stronger, he couldn't absorb the blood river crystal. Hence, he didn't have the right to become leader.

"Go crazy until you die. That would be the best." Rock wind laughed coldly, following which he gave an order to his underlings, "Go and check to see what exactly happened with the Pure feather family."

"Yes!"

A soft voice resounded.

The Pure feather family had roots that extended extremely deep into the city. As for this massacre and abduction of their family leader, what level of stupidity was this? To enrage the elder Pure feather tao to such a state that he was searching the whole city personally, and also to activate the entire family and all its departments to madly search about.

At the same time, the city leader's Rock wind family, along with some other powers, all began to join in. The entire swallow mound city's undercurrent began to flow.

.....

The Yu Family's Yu Yan Ta was a star level 9, his fleeing max speed had reached 8km per second.

And Luo Feng, who was a universe level 9, with domain level 9, along with high comprehensions of the space origin law could instantly accelerate and reach top speed. His instantaneous acceleration, even with the gravity of blood river world, could reach up to 300km per second.

When Luo Feng had grabbed the family leader back then, he wrapped him in spirit energy and immediately rushed into the skies, flying straight into the cloud levels.

.....

In the 15th level 30,000km away from Swallow mound city.

Luo Feng grabbed the family leader and finally stopped.

"What do you want?" Pure feather Chong's expression was pale. Having had his Dantian destroyed the moment he was grabbed, his soul was now under heavy pressure from Luo Feng's powerful spirit energy.

"Why are you asking me?" Luo Feng immediately grabbed the space bracelet from Pure feather Chong. Naturally that space bracelet had his spirit imprint. However, Luo Feng's spirit energy became like a long pike and forcefully broke through the spirit imprint seal, causing Pure feather Chong's face to go even more pale.

"Quite wealthy." Luo Feng held onto the bracelet, carefully examining the items within.

"You want money? No problem. However much you want, you will get. Just don't kill me." Pure feather chong said. "You are a spirit reader, you can make me forget everything here and I won't even remember your appearance."

Luo Feng frowned.

Within the space bracelet...there were no blood river crystals!

"Pure feather Chong." Luo Feng looked at him.

"Hm?" The family leader Pure feather chong at that point didn't even behave at all like the Na Family leader. He suddenly felt enticed and hypnotized by the gaze of that black robed youth before him. One second later, his gaze grew dark, and he looked at Luo Feng with passionate respect, "Master!"

"Hm." Luo Feng stood in the clouds. Looking at Pure feather Chong before him, he said "Let me ask you, do you know who has blood river crystals? Does your Pure feather family have any?"

"Yes!" Pure feather chong said without hesitation.

"Where are they?" Luo Feng's eyes gleamed.

"With my family's elder." Pure feather chong replied respectfully.

"Elder?" Luo Feng frowned. He had heard of a powerful domain lord within the family, however he hadn't really confirmed that before.

"Yes, the strongest in the Pure feather family, also the strongest in Swallow mound city." Pure feather chong said, "The blood river crystal is with him. However, even though he acquired that one, no matter how he tried, he couldn't absorb it. Hence the city leader position landed in the Rock Wind family's hands instead."

"Your family elder is stronger than the city leader?" Luo Feng had heard from him.

"Yes." Pure feather Chong said respectfully. "The city leader just became a domain level over a hundred years ago. According to the elder, he can only be considered to be within the early stages of the domain level! However my family elder is in the later stages already."

Luo Feng's heart skipped a beat.

From the looks of it, the city leader was about domain lord level 2 or 3. Afterall, he had only broken through over a hundred years ago. Normal people breaking through required them to slowly absorb the energy. To go from level 1 to 9 required a very long time. Even in the universe, only the most elite of geniuses could receive nurture like Luo Feng's, as there was no need to waste time in such quantity related training.

"Other than your family's elder, who else has the crystals?" Luo Feng asked.

"The ones I can confirm are the elder. Another is the general of the Swallow mound army Rock Wind Zan." Pure feather chong said. "Rock wind Zan, he is the younger brother of city leader rock wind Xiong, he's on good terms with me. Back then he even took out a crystal to show off to me, saying it was something his older brother gave him to absorb."

"Ah? One is with your family elder, another is with Rock wind Zan?" Luo Feng smiled and nodded.

Chapter 500: Investigation

Under the influence of the soul technique, the Pure Feather family leader answered everything honestly, there wasn't any hint of concealing anything.

"Very good." Luo Feng stood within the clouds and asked, "Do you know if anyone else has the crystals?"

The process of becoming a blood warrior, required one to first acquire 3 blood river crystals and absorb them successful. Only then would they truly be considered to have become a blood warrior! Once Luo Feng knew of the blood warrior and even the legendary black warrior, he naturally had some anticipation within. He wanted to first become a blood warrior and maybe later a black warrior.

Even though in blood river world, the black warrior was but a legend, since such a legend existed, there was a possibility of it happening.

And obviously, with Luo Feng's personality, he wouldn't give up without trying.

Everyone all regarded themselves as special and different! Luo Feng was the same, only that he knew himself better than anyone!

"Master, I can confirm that the family elder and the general of the Rock Wind army have the crystals. The rest, I'm unable to guarantee. Although, there are some rumors." Pure Feather Chong replied respectfully.

"Rumors?" Luo Feng frowned.

"Yes, It is about our city leader Rock wind Xiong. Even though I am unable to confirm if he has the crystals and how many he might have." Pure feather Chong said, "I can say with high possibility...that the city leader Rock wind Xiong definitely has at least 1 that he hasn't absorbed."

"Ah?" Luo Feng looked at Pure feather Chong.

"Rock wind Xiong has an illustrious background, his teacher is the world city leader of this side of the world." Pure feather Chong explained. "He succeeded in absorbing one crystal a long time ago. He had to wait till he broke through to domain level, after which he quickly became the city leader. And after that, he secretly gave his younger brother 1 crystal."

"To warriors, having more crystals is a good thing. After absorbing one, they would want to absorb another!"

"Since he could give his younger brother 1 crystal, that means that it wasn't too hard for him to acquire more, at least there's a way for him." Pure feather Chong said confidently, "And with Rock Wind Xiong's selfish personality, to be able to give his younger brother just one means he would at least have 1 more prepared for himself. I suspect he probably even has more!"

Luo Feng nodded.

It made sense.

.....

After which, Luo Feng immediately killed Pure feather Chong and took care of his body. In the dark night, he returned to Swallow mound city's flying cloud pavilion.

Pure feather family was deeply rooted within Swallow mound city. It's roots went far deeper than the Rock wind family. If they were to be angered, the entire Swallow mound city would definitely feel their wrath.

Pure feather family mansion, in the 1st level of that 3 level purple wood pavilion, Pure feather elder Tao squinted his eyes in his seat. The rest of the upper echelon of the family along with his grandchildren stood obediently at his sides. Within the large hall knelt 10 people, and outside of the hall knelt a 100.

"Grandfather, these are all the sentries and guard leaders from Yu Ke Qi's mansion. They all personally saw Yu Ke Qi bring a black robed man." An old man with white hair, one that looked even older than Pure Feather Tao said respectfully.

"Speak, what did that black robed man look like?" Pure feather Tao closed his eyes and said indifferently.

"No idea." The old man shook his head.

"Hm?" Pure feather tao revealed a look of rage. He stared hard, his gaze was shooting out visible light beams at the old man.

"They, the 100 of them all saw the black robed man, however none of them can recall his appearance." The old man continued, "Back then, they didn't feel anything special about it. Just that this black robed man was very normal and there was nothing special about him. However now when they try and recall, his face appears blurred out in their memories, other than him wearing a black robe, they can't recall anything else."

Pure feather Tao turned to look at the group kneeling.

"Elder, we cannot recall, we really cannot recall."

"We truly saw his face back then, however now no matter how hard we try, we cannot recall."

"I even stared hard at him then, however now..."

.....

The group of sentries all said fearfully.

Pure feather Tao was shocked.

These sentries and guard leaders were all pinnacle sky levels, (Star level 9). To be unknowingly influenced by a warrior, even a universe level spirit level would find it hard to do. One had to have a much stronger spirit energy and consciousness level and control, to reach such a level.

"When did such a warrior appear in Swallow mound city?" Pure feather Tao pondered. "However the fact that he was so careful in entering here means he isn't a match for me. If he was stronger than me, he wouldn't have needed to be so careful. Just barging in would have done it."

"Listen well!"

Pure Feather tao looked coldly at the family's upper echelon in the hall, "Our Pure feather family's family leader has been taken away under our surveillance and from under our noses. We don't even know if he's alive or dead. This is a humiliation to our family! We have to find this person, otherwise our Pure feather family will be mocked at by countless people in Swallow mound city!"

"Go look!"

"Check every suspicious person properly. The culprit's strength is at least at pinnacle cloud level, it might very likely be in the domain level! Check from all pathways, see which mysterious warriors have appeared! Remember, even if you've found him, don't make a move. Immediately come inform me instead." Pure feather Tao looked at the group. "Even if Chong hasn't been killed, he's not fit to be the leader anymore. This search for the culprit...is the test I am giving you all. Once this matter is concluded, I will pick the new family leader, go now."

"Yes!"

The group of upper echelons' eyes gleamed brightly, they all replied simultaneously and swiftly left.

Time to do their best.

To become the new family leader, these upper echelons would all unleash all their hidden strengths to quickly check all the secret information about the mysterious warriors, or suspected mysterious beings. This way, all the information and news was quickly being gathered.

2nd day, daybreak.

Rumble...10,000 black scaled armored soldiers rose to the sky. It was almost like a black cloud flying over, with a huge tall and sturdy dark red scaled armored leader. His appearance was very similar to the city leader Rock wind Xiong, only with more madness and violence in his aura, his entire being seemed wild and savage.

"Pui!" Rock wind Zhan sat on a Green armored snake, spitting unhappily to the side, "That no good Pure feather Chong, getting abducted away and still asking us for help. Big brother is too much too, asking me to help out!"

"Hehe, however that Pure feather Chong. I wonder who he actually messed with, to actually get taken away from his own mansion. Hearing this makes me happy." Rock Wind Zhan mocked softly. The two deputy generals beside twitched their faces as they heard this. This general of theirs controlled the Swallow mound army, yet he did whatever he pleased. Him and that Pure feather Chong were good friends, at the same time, they were a couple of scoundrels who wreaked havoc as they pleased.

Scoundrels indeed, Pure feather chong's death made this Rock wind Zhan happy instead.

And he wasn't rushed or slow, as he waited for day break to bring the army in to search.

"General, ahead is flying cloud pavilion." One of the deputy generals said respectfully.

"Hm."

Rock wind zhan glanced and said indifferently, "Flying cloud pavilion is the best hotel in Swallow mound city. With the culprit's level of strength and status, there's a high possibility he would stay there."

“General, if that person truly wanted to make a move on Pure feather Chong, he probably wouldn’t stay in such a place, but rather somewhere more secure and secluded.” The other deputy general said softly.

“PA!”

Rock wind Zhan slapped the face of that deputy general, causing fresh blood to fly. His entire body and the wild beast below him were both shocked.

“Idiot.” Rock wind Zhan glanced coldly at him, “If I say Flying cloud pavilion, then it is flying cloud pavilion. Don’t you know how to put on a show, do you think we’ll really find the culprit for the Pure feather family?”

That deputy general nodded, not daring to make a sound.

“What an idiot, if you say such stupid things again, I’ll have to change my deputies. Usually you seem pretty smart, has your brain knocked into a wall today?” Rock wind rubbed his chin and looked up. Looking at the distant flying cloud pavilion, “Go, I’ll give you a chance to redeem yourself. Get all of the cloud level guests and the warriors you think are strong within to all come out. I want to take a look at all of them.”

“Yes!” That deputy general who was slapped complied loudly.

.....

Immediately, he brought his underlings, a 10,000 strong army to rush into flying cloud pavilion. Flying cloud pavilion’s area had a diameter of 10km, the sudden entrance of such a big army caused a huge ruckus.

“Owner, it’s not that I’m not giving you any face, but you too should know what happened! The general has given the order to get all of your cloud level guests and any guest you think may be powerful warriors to all come out.” That deputy general sat high above on the wild beast and said, the large group of soldiers stood behind him.

“Understood.”

“We’ll comply.” That fat small eyed owner gave the order and his large group of helpers led the way.

Cloud level room 2, in a quiet pavilion.

Luo Feng was dressed in a simple robe and was reading a book. It had been half a night since the incident, but according to earth’s time, it had been 2 to 3 days.

“That Pure feather Chong was just killed by me. Right now the entire city is in an uproar, however, it doesn’t affect me. I’ll wait till tonight to make a move on Rock wind Zhan.” Luo Feng made his plans while reading the book, multitasking was very simple for him. Suddenly noise resounded from outside, roars and shouts.

“Quickly!”

“Come out!”

“Lord, it’s an order by the Rock wind general. Lord, please do me a favor and come out.”

“Quickly.”

“That way, quickly.”

The outside was getting noisier.

Luo Feng frowned when he heard this. He had long guessed that Pure feather Chong’s death would stir a huge commotion, however he didn’t expect them to come to flying cloud pavilion so early in the morning.

The footsteps outside swiftly got louder and louder. Suddenly the yard door was heavily pushed open and 10 soldiers immediately rushed in. Led by a waiter, they walked into the pavilion, the waiter saw Luo Feng within and said apologetically, “Lord, the Rock wind general has given the order to look for the culprit. Lord you should help out.”

“Quickly, come out.”

“Quickly.” The group of soldiers rushed straight in, shouting at Luo Feng.
