

SWALLOWED 501

Chapter 501: Night Investigation

Close to a 1,000 people with various attributes such as people with expensive clothes, or strong auras, or those who were cold and proud, and the cloud level guests of the flying cloud pavilion along with those suspected of being a mysterious powerful warrior were present there.

Luo Feng looked far ahead amongst the crowd.

The flying cloud pavilion owner was at the side discussing with a tall and sturdy intrepid looking general by the side. Luo Feng could feel from his aura that the general should be a universe level 9.

“Rock wind general, they are all here.” The owner said.

“Hm.” Rock Wind Zhan snorted through his nose, following which he gazed coldly at the crowd.

“Rock wind Zhan?” Amongst the crowd, Luo Feng was happy after he heard it. He was still prepared to figure out how this Rock wind Zhan looked like, so as not to attack the wrong person. And now, he could see him clearly.

“Last night, which one of you broke into the Pure feather family mansion?” Rock wind Zhan shouted coldly.

The group of close to 1,000 unknown people remained silent, not making any sound at all.

And Rock wind Zhan, who sat high above on his green armored snake gazed at everyone below. Suddenly he pointed at a black robed cold looking man in the distance, shouting, “That black robed bastard, bring him along later.”

“Yes!” the two deputy generals at the side complied.

“General!” The black robed cold looking man’s expression grew ugly, shouting, “General, I’m from the Luan Yang area...”

“Don’t give me rubbish.” Rock wind Zhan laughed coldly. “With your strength and your dressing, I have no choice but to suspect that you were the culprit who broke into the Pure feather family mansion. Hm...that tall punk with messy hair, bring him too, that skinny punk hiding at the side too.”

“You!”

“Him!”

“The one in the white robe.”

“That blue haired one.”

Rock wind Zhan continuously chose 10 people. These 10 were all very strong, as most of them were in the pinnacle sky level. There were even two universe levels.

“And that black haired youth, his strength is strong enough too. Bring him.” Rock wind Zhan pointed at Luo Feng. Luo Feng frowned, as there were no scanning devices in blood river world, they based their deductions purely on energies and auras. As for Luo Feng, he used his willpower and consciousness strength to control and hide his strength, deliberately releasing one that of a pinnacle star level.

He didn't expect to still get chosen.

“Alright. A total of 58 have been chosen. The culprit might very likely be within these 58. Take them all away back to the prison!” Rock wind Zhan waved his hand.

.....

Luo Feng didn't resist and followed the other 57 with the army. In terms of strength, Luo Feng knew that he could easily wipe out Rock wind Zhan and the others. Because of his confidence and this guarantee, he was very relaxed. Until the critical moment, there was no need to massacre so many of them publicly.

“What's up with this general Rock wind, is this how they catch a killer? Coming over to our flying cloud pavilion to find a group of guests and randomly picking from a crowd, that's called finding a killer?”

“You idiot, Rock wind general is from the Rock wind family. The Pure feather family was humiliated, hence the Rock wind family are all extremely happy. Why would they seriously look for the culprit? If they really wanted to look for him, they would have begun their search last night, why would they wait till now. It's purely just for show, just an act. However, the 58 sure are unlucky.”

Within flying cloud pavilion, many were discussing.

Swallow mound city, General's prison.

Luo Feng and the others were forced into groups of 5 or 6, and were separately crammed into cells. These cells were built by special stones from blood river world, and were able to exist under the universe energy flows and strong gravity here. Hence, these too were more sturdy than other stones. They were strong enough to block attacks from even a sky level (Star level) warrior.

“We sure are unlucky, I have to go meet my family leader tomorrow, how can this be good?” Luo Feng's cell had a total of 6 people, of which a fat one dressed in expensive clothes sighed and shouted loudly. The others from different cells all heard him clearly.

“Big trouble, big trouble.” The fatty didn't stop sighing.

“Shut up.”

“Smelly fatty, lower you voice.” The people from other cells all began to jeer and shout within.

The fatty looked outside at the soldiers approaching, raising his voice and sighing again, “If I don't see the Wang Family leader, my business would be ruined. I would incur huge losses! So unlucky, purely a disaster from above.” After shouting a couple more times, under the jeers from others, he finally stopped.

Luo Feng stood silently within the cell, watching things unfold.

.....

Several of the guards and soldiers within the prison began to mutter.

“Brothers, the general captured these 58 back for show. He didn’t even interrogate them. He even sent a bodyguard over to tell me, that after interrogating just a little, if there’s no problem, just let some of them go, and leave some in the prison. Everything is just for show!” A guard said softly, “Did you hear that fatty shouting. He seems to be some sort of businessman, and is in a rush to meet someone. We should get a hefty sum from him.”

“Hm, it’s an opportunity.”

“Afterall it’s all just for show, it’ll be fine with some of them gone.”

The group of guards watching the prison all began to laugh and mutter amongst themselves. After which they ordered, “Go and grab that fierce and shouting fatty and bring him over. We’ll interrogate him well.”

“Yes, lord.”

The group of soldiers immediately brought the fatty out.

.....

Within the prison.

The fatty that was leaning against the door looking outside revealed a smile as he saw the group of soldiers running over. One of the soldiers ordered, “The lord has ordered for us to interrogate you well, grab him!” Following which they opened the door and grabbed the fatty.

The fatty turned back to the other 5 in the cell and said, “Sirs, I’ll be leaving first, see you all!”

Following which, he followed the group of soldiers and left.

After a while.

A soldier ran over and shouted, “The lord has interrogated him and found him not suspicious at all, he’s been released. The rest of you 57 better answer properly. Those that don’t, be prepared to stay in this prison for awhile.” Following which he turned and left.

“The fatty has gone!”

“Answer properly? What answer properly, isn’t it simply bribing them well?”

“I know, that fatty purposely shouted that way before!”

“You know this only now? Stupid.”

Discussions and noise resounded within the cells. The guards who were hiding in the distance heard the discussions and all of them began to smile. They then ordered, “Bring them one by one, we’ll interrogate them properly!”

.....

Interrogate?

It was simply just forking over a sum of money, just seeing whether it was enough! When they interrogated Luo Feng, Luo Feng took out 1 purple blade currency, immediately making the guards' eyes gleam. Their attitudes immediately became friendly, and quickly released Luo Feng.

Broad daylight, Luo Feng strolled out of the general's prison carefree, and followed the pathways out of the mansion.

Evening, the sky had gone dark.

Luo Feng who was at a restaurant eating and drinking alone for a while, finally left and walked amongst a crowd in Swallow mound city's pathways.

"It's almost time!"

"Last night, I caught Pure feather Chong. Then tonight, I'll go catch Rock Wind zhan." Luo Feng's eyes gleamed. "I'm really looking forward... to the blood river crystal? Just what is it like? It is even mysterious enough to gain the attention of the Virtual Universe Company."

As he had been brought to the general's prison earlier in the day, Luo Feng was very familiar with the General's mansion.

It's no wonder the Rock wind family is considered a new upstart family. This general's mansion...in terms of security level, isn't even 1/10th of the Pure feather family's." Luo Feng walked within the mansion. Almost like walking in his own yard, his silhouette floated about, with a flash he went from side to side, shaking his head. "I can feel a total of 3 universe level warriors!"

With his familiarity of the universe space ripples, he could feel 3 strong auras.

And one of which Luo Feng was familiar with, because...he had met him during the day!

"It's Rock wind Zhan." Luo Feng smiled.

Shua!

His silhouette floated swiftly, as he passed the fake mountains and the walkways, finally landing within a 3 storey luxurious palace within the mansion.

"Breaking through to the domain level is so hard. I've done everything my big brother has told me to do in terms of training, and I've done them well. Why have I still not broken through. Hmph, big brother must definitely be afraid of me reaching the domain level, and turning into a threat for him." Rock rind Zhan was topless. He was wearing an open long robe, while walking along the stairs, he had many thoughts on his mind.

When he reached the 3rd level.

He casually looked up and prepared to enter his study, however suddenly his body shook. His eyes were filled with a sense of disbelief. In front of him, stood a simply dressed black haired youth's silhouette.

"You..." Rock wind Zhan immediately went into battle mode, simultaneously calling guards to help him. However, no matter how shocked he was, he was still confident. He thought that because he was a

cloud level pinnacle (Universe level 9) warrior, the person before him couldn't be much stronger than he was. Also, delaying a while would be enough for his big brother Rock wind xiong to rush over!

Hua!

Luo Feng who was initially standing at the distant window immediately appeared before Rock Wind Zhan in what seemed like teleportation. This was extremely fast, far exceeding that of a regular universe level 9's max speed.

"Chi!" his hand formed a blade, fast as lightning.

"No." Rock wind Zhan's hands had brandished a huge blade. He was prepared to use it as a shield to block.

However Luo Feng's palm blade was almost like an illusion, swiftly stabbing through his stomach, after which he pulled it out. Only after this did the shield slowly come. Everything was mysterious and like an illusion, there was just a simple flash!

Illusionary 7 blades...Dutchman's pipe!

With Luo Feng's strength in his domain and origin law comprehension...against such weak techniques with domain only level 1 or 2, no comprehension of any origin laws and only at universe level 9, it was simply a massacre.

"I, i..." Rock wind Zhan held onto his stomach. There was a blade wound there, and fresh blood flowed out. It was purely from Luo Feng's palm blade.

"You, you..." Rock wind Zhan looked with fear at Luo Feng.

His Dantian was destroyed!

And his spirit was under the powerful pressure of Luo Feng's spirit energy. Hence, he couldn't even use any spirit energy now.

"How do you do, Rock Wind General." Luo Feng smiled and looked at Rock wind Zhan.

Rock Wind Zhan's mind flashed back, back at flying cloud pavilion. That scene, right, this black haired youth, wasn't he from the 58 people he had picked?

Chapter 502: Beautiful Blood River Crystal

"It's you!" Rock Wind Zhan stared wide eyed. My god! he was only acting and pretending to catch a few punks to satisfy the Pure feather family. He didn't expect to actually catch such a terrifying character.

Rock wind Zhan's eyes gleamed, shouting, "Pure feather Chong, you abducted him too?"

"Right, he's already dead." Luo Feng smiled.

"Dead?"

Rock Wind Zhan's expression was ugly. Pure feather Chong is already dead. This man before him would most likely kill him too. What to do, now that his dantian was destroyed, he had no energy within. And on top of that, his soul was being suppressed by the enemy's powerful pressure. He wanted to resist and communicate with others to cry for help, but he had no way at all to do so, what could he do?

Rock Wind Zhan's expression was ugly, he was in a mess.

"What can I do for him not to kill me?" Rock wind zhan looked at the black haired youth before him. "Speak, whatever you want, I'll do it!"

"Give me 10 blood river crystals and I won't kill you." Luo Feng stood there and smiled, "Can you do that?"

Rock wind Zhan couldn't help but stare wide eyed. "10 crystals? Even my big brother cannot take out 10 crystals like that. However, I have 1 here, which I can give you. Please spare my life!" Even though his dantian was destroyed, he was still alive, since the most important part of a human was his soul.

As long as the soul was fine, the body could recover, and the lost energy could also be re-trained.

"No, 1 is not enough, it has to be 10 crystals." Luo Feng shook his head.

"You are playing with me!" Rock Wind zhan was anxious and angry.

"Right, I'm just playing around with you!" Luo Feng said indifferently, "Go and die."

Rock Wind Zhan immediately roared madly. "Save me!!!" His powerful body made his roar thunderous and booming. The sound waves rippled in all directions, however they were all blocked by a formless powerful spirit energy barrier. This spirit energy blocked off everything, not even a whisper could escape.

"What's the point of struggling." Luo Feng slapped Rock Wind Zhan's forehead. His genetic energy pierced into his head, causing his brain to become nothing but a mess.

Rock Wind Zhan was dead!

.....

"Just what is the blood river crystal like." Luo Feng scanned through his body, and immediately found the space item. With no banks on blood river continent, all of the warriors here mostly stored large amounts of their treasures in their space items and carried them on their bodies.

This was because it was safest there.

As long as they don't die, they wouldn't lose their treasures.

And if they did die, the treasures wouldn't mean anything to them!

"This space ring isn't bad." Luo Feng grabbed the space ring and his spirit energy immediately rushed in, prying it open and checking the contents inside.

"So wealthy."

“He had about 10 times more than the 13 axe.” Luo Feng was still smiling initially. However the more he searched, the more he began to frown. There were large amounts of currency within, along with some valuable weapons and treasures in many boxes. However, his initial scan didn’t pick up any blood river crystal.

The appearance of the crystal was something he had seen before in the common knowledge books.

“There’s no way he doesn’t have it. What if it’s not on his body, no way.” Luo Feng searched again carefully, especially within a box of gems, there were many crystals within. Luo Feng split his spirit energy into 1,000 threads and individually inspected each of them. Immediately, a smile appeared on his face.

With a flip of his hand!

A round black crystal appeared in his palm. Looking at this crystal before him, Luo Feng shook his head, “This Rock wind zhan, he even disguised the blood river crystal and threw it in with the rest of the gems. Anyone who doesn’t search properly with spirit energy would have missed it.”

“Chi chi...” The black round crystal in his palm was attacked by needle like spirit energy. It immediately began to split open. Very quickly, the layer of black broke and it finally revealed the blood river crystal within!

Blood red!

Blood red in color, the color of life.

It was a long triangular crystal, transparent and blood red, glowing slightly, with a formless ripple about it, it gave off a faint feeling of a heart beating, ripples that beat after another.

“Blood river crystal!” Luo Feng looked at the triangular transparent crystal in his palm. He couldn’t help but exclaim, “Beautiful!”

Hu!

He waved his hand and Rock wind zhan’s body on the floor vanished, followed by the blood stains and smell of blood in the air all vanished as well.

“Very good, within a short time, no one will ever know that Rock Wind zhan is already dead.” Luo Feng smiled, “I think that they would have thought Rock wind zhan must have headed to somewhere else.” Warriors secluding themselves or disappearing for 1 or 2 years was a very normal thing. Even though he was a general, disappearing for 3 to 5 days wasn’t a thing to be suspicious of.

Sou!

Luo Feng became a blur and rushed out from the window, disappearing hundreds of km away in an instant.

The entire palace was silent.

The large amounts of soldiers, staff and guards within the general’s mansion all didn’t know that their general was already dead.

At the same time that Luo Feng had killed Rock wind Zhan and acquired the blood river crystal.

Within Swallow mound city leader's mansion.

"Come, drink!"

"Haha, Rock wind junior. We haven't seen each other in so long, and you've already become a city leader. Your seniors are really happy, drink, drink." Within the living room, a group of beautiful women were dancing. Three men were laughing loudly and drinking their wine, one of which was Swallow mound city's person with the most authority, city leader Rock Wind Xiong.

The other two were dressed in grey standard armor.

"Senior, I've only become a city leader. How can I compare to you? You've become a special envoy of the undying shrine. No matter where in our continent, who would dare disrespect you?" Rock Wind Zhan laughed loudly.

"It's nothing." The handsome middle aged man laughed.

"Senior, you and Special Envoy Mo, for what reason have you two rushed over from the undying shrine for?" Rock Wind Zhan asked curiously.

The handsome middle aged man and special envoy Mo beside glanced at each other. Envoy Mo spoke, "Brother Rock Wind, it's not that we don't want to tell you, it's just the undying shrine's rules. Hence, we cannot disobey. Actually we rushed over this time is mainly because of your master, also the leader of the world city. We cannot say anything else."

"As it is something regarding your master, I arranged for old Mo to come along as well. Since we passed by your place, naturally we had to come pay you a visit." The handsome middle aged man smiled.

"I've missed you too." Rock Wind Zhan exclaimed, "Speaking of which..."

.....

When Rock Wind Zhan was accompanying his 2 friends and chatting, he didn't even know that his younger brother had already died.

.....

300,000 km away from Swallow mound city, in the wilderness, Luo Feng sat.

"1 blood river crystal!"

Luo Feng grabbed the blood river crystal and stared at the incomparably mysterious crystal. "One of the dangerous level missions was to acquire this 1 crystal to get 10,000 points. I can use it to exchange for points or I can absorb it."

"What should I do?"

"Without a doubt!" Luo Feng began to grin as his finger became like a blade, slicing his left palm.

Chi!

A slash wound opened and fresh blood flowed out. Luo Feng took a deep breath and placed this triangular blood river crystal within that wound. This was the absorption technique from the books he had read, and during his time in the city he had heard others discuss. Almost everyone in the entire blood river continent knew this.

Although the method was simple, doing it was hard!

"Is it going to be difficult?" Luo Feng looked at his palm.

The beautiful and glaring crystal touched and began to fuse with the wound. Especially when it first touched the wound, immediately a formless peculiar energy burst forth from the crystal. Almost like a wild beast that had been suppressed for too long raging and rushing into Luo Feng's body. The originally confident Luo Feng's expression changed, he began to struggle.

"Damn!" Luo Feng grit his teeth.

"Rumble!"

A formless incredibly brutal and powerful willpower descended on him, fusing with his consciousness.

"Kill!"

"Kill!"

An endless stream of wild shouts to kill roared within his mind. That formless brutal and powerful willpower was clashing time and again with his own. It was purely a test of willpower. Willpower differed from each other. Consciousness was something that was linked to the strength of one's spirit energy, willpower however was reliant completely on one's belief and strength.

A student level's willpower could potentially be as terrifying as that of a sector lord!

"Just this level of willpower and you want to attack me?" Within his mind Luo Feng thought, "Return to ashes!"

Rumble!

Luo Feng's incredibly strong willpower was like a huge mountain, immediately smashing down on the roaring outside willpower influence. At the same time, Luo Feng thought curiously, "Consciousness pressure, consciousness pressure...use consciousness to attack. How can pure willpower invade my body like that? How strange? Ah, not good!"

"Rumble..." As its willpower was smashed by Luo Feng's, the blood river crystal's true peculiar energy was unleashed. That red crystal's threads began to madly invade Luo Feng.

Luo Feng's body couldn't help but begin to shake and tremble.

Luo Feng's facial muscles were spasming uncontrollably. The layers of skin contracted and condensed at times while splitting open and bleeding at another. His arms expanded even more violently, and his veins were more visible than ever. It looked almost like transparent crystal pathways, and occasionally purely gold, his muscles kept changing.

Pain!

Extreme pain!

“What’s going on, just what is this blood river crystal doing?” Luo Feng roared within. He could feel the temperature in his body reach unbelievable heights, almost like it was about to be burnt to ashes. However, in an instant it would drop to shocking lows. It became so cold, that he couldn’t even feel his body.

Chi chi...Luo Feng’s 10 fingernails extended, almost like metal fingernail blades! After which it swiftly retracted back and his 10 fingers began to change. Even the bones were changing within. His entire hand began to resemble claws, and fur started sprouting out around them.

Not just his fingers, even on his arms, legs, feet, and face, the black fur grew all over. At that moment, Luo Feng looked like a sasquatch.

However a few minutes later the fur quickly retracted and vanished.

Chi chi...

Black scales began to pop out from his arms, fingers, legs, feet and even his face, his entire body became huge and powerful.

“Just what is this blood river crystal? My god!” No matter how strong his imagination was, Luo Feng would never have expected anything like this to happen. And the process of absorption was still going on...

Chapter 503: The Mystery of the Blood River Crystal

Night time, the wind was like blades blowing strong in the vast wilderness, and hiding in the wild grass was a faint silhouette.

The robes on his body were already torn into shreds, however below the shreds was a strong body with skin that was emitting white energy. “Inhale!” Luo Feng took a deep breath while sitting crossed legged. His chest sank in and the stomach expanded, almost as though there was a large balloon within his stomach. This balloon then shifted upwards and his stomach contracted and his chest expanded.

After which, the huge bulge separated into 4 portions, heading towards Luo Feng’s two arms and two legs.

Bulges appeared through his skin, it was incredibly peculiar!

“Exhale!” Luo Feng let out a long breath before opening his eyes.

“I’ve finally made it through.” Luo Feng was shocked within.

Pain?

Under immense pain, Luo Feng could endure almost anything easily. However the absorption feeling earlier...it was something he really didn't like! Because, besides the extreme pain, the most uncomfortable thing was that Luo Feng's own soul and consciousness couldn't control his own body!

Losing the ability to control his body, this was a feeling he had never felt before.

"No matter what, this type of feeling is finally over." Luo Feng tore off the shredded clothes and carefully examined his body. No matter what angle he looked at, at least from the exterior, there didn't seem to be any difference at all, compared to before the absorption of the crystal. During the absorption itself, his body constantly morphed into things he had never seen before.

"It shouldn't be." Luo Feng frowned.

"I'll test it!"

Luo Feng gazed into the distance, "Spirit energy!"

Rumble...the distant wilderness' big piece of land that was at least 10 million tons immediately floated up. Also, with the spirit energy wrapped about the entire piece, there was no leakage at all. Under Luo Feng's control, this mountain of mud flew in mid air and in a round arc about.

"No difference."

"When it come to invasiveness, emptiness, flexibility, toughness, my spirit energy has no difference from before, my consciousness and willpower has no difference either." Luo Feng shook his head. The piece of land revolving in the dead of night immediately fell from the air and smashed back into the crater from before.

"My soul wasn't affected, how about the body?" Luo Feng frowned, suddenly throwing out a punch.

Rumble! With that punch, a high pressured shockwave was formed, causing an explosion in air. The terrifying ripple cut through the grass, completely clearing out a few km in area around him.

"No difference?" Luo Feng squinted his eyes. Ripples of energy vibrated all over his skin, all the strength in his muscles was immediately sent to his right hand which was formed into a fist! Luo Feng had transferred all his strength into that instantaneous explosion, resulting in that ear piercing explosion as he punched!

"I felt it, I felt it!"

"Within the depths of my cells, there's a change!" Luo Feng's eyes were filled with a sense of glee, "This, this is an evolution of life?"

Every time a flesh and blood life form breaks through, there would be an evolution.

Breaking through to star traveller, to star level, to universe level...the rest of the leveling was simply quantity based training.

"My body is still universe level 9! I haven't broken through. However, my bones, muscles, and every cell within has had some change." Luo Feng was excited and anxious within, because every evolution from each breakthrough from star traveller to sector lord level, none of the 5 breakthroughs were normal.

The books had said the evolution was mysterious, and this wasn't exaggerated at all.

However...

The changes deep within his cells, even with Luo Feng's spirit energy, he couldn't fully deduce them clearly.

"There's no other way, I can only gradually get used to it. I will have to learn to feel it, and slowly understand its changes." Luo Feng thought, following which he looked at the night sky. Sou! He rushed up and immediately broke through the cloud levels until the 12th level.

"I'll investigate the mysteries of my body's changes here in the clouds.

Luo Feng brandished a blood shadow blade and practiced in the clouds.

Swallow mound flying cloud pavilion, Luo Feng's quarters.

Even though he had continuously killed 2 prominent figures in Swallow mound city, Luo Feng was still carefree and training in his quarters. As he was worried he might destroy the pavilion, hence he purposely used spirit energy to create a barrier around, and he trained within. Any ripples his fists caused were completely blocked by this barrier. He could train both his spirit energy and train recklessly within.

"Mysterious."

"Mysterious indeed." He could already feel the initial changes of the blood river crystal's mysteries. He was very excited.

Suddenly, he stopped and looked through the window outside. There were two people walking over, Nabu and Na Ke, father and son duo.

"I'll take a break now."

The gleeful Luo Feng walked to the 1st level. At the same time, Nabu and Na Ke had just walked into the yard, "Lord Feng."

"Come in." Luo Feng smiled and sat down. He lifted a wine glass and poured a glass of blood river world's wine for himself and was sipping. A chill permeated through his entire body, he smiled comfortably, "Why have you rushed over here so early?"

"We heard that Lord Feng was taken into General Rock wind's prison. This kid was so nervous that he jumped up and down after. So I accompanied him to visit you in the prison, only to find out that you had already left." The silver haired Nabu smiled, "Hence, today we thought we'd come pay you a visit early. Lord Feng, if you have any troubles or matters in the future, please call us. Even though I may not be able to solve some big issues, however, when it comes to most trivial matters in Swallow mound city, I'm able to help you settle them."

"Thanks."

Luo Feng smiled, "However there's nothing much now. Ah? Na Ke."

"Hm." Na Ke replied, his expression wasn't too happy.

“What’s the matter?” Luo Feng smiled.

Nabu could see this mysterious warrior was in a good mood today, he smiled and explained, “This kid, he’s having some trouble in the relationship department, hence he’s sulking today.”

“Relationship troubles?” Luo Feng laughed loudly, “Na Ke, you’ve fallen out of love?”

“What’s falling out of love?” Na Ke looked up at Luo Feng.

“It means you like someone but she doesn’t like you back.” Luo Feng lifted the glass and sipped happily.

“Right.” Nabu smiled beside, rubbing his son’s head. His son however dodged unhappily. Nabu laughed, “The other party doesn’t like him. Actually speaking of which, Na Ke did give a new lease of life to that girl...just thinking about the matter makes me want to laugh.”

New lease of life?” Luo Feng was shocked.

“Father!” Na Ke was unhappy.

Nabu just smiled and explained, “My son has had a kind heart from young. He likes to bring his guards to bars and other places, to listen to stories of other strong warriors. He worships these heroes, hence he acts like these heroes sometimes. Almost like robbing the rich for the poor, he would give his family’s money secretly to the poor. One of the poor families only has a mother and a daughter. My son has been secretly helping them since she was young. After that, she grew up and got older. I don’t know how...but my son actually fell for that poor family’s daughter.”

“Ah?” Luo Feng starred.

Helping the poor, helping till he actually falls for the poor family’s girl.

Na Ke was blushing.

“Not just that! My son has always been secretly giving money to the mother of that girl. Funding the girl...” Nabu shook his head, “When that girl actually tried to enter one of the sects in our city, my son immediately gave a large amount of money secretly to that mother. And just like that...that poor family’s daughter, from a poor little girl, she became a genius warrior of that sect! Secretly, my son had been supporting her for 12 years!”

“What happened after that?” Luo Feng was curious.

“My son secretly liked that girl, hence he too joined that sect.” Nabu shook his head, “It’s a pity, just yesterday, he went to confess and was rejected.”

“Ah?” Luo Feng laughed happily.

Na Ke looked angrily at his father.

“Your father cannot speak a few words with Lord Feng?” Nabu stared at his son.

Na Ke could only look down, his ears all red.

“And not just that!” Nabu said, “If things still aren’t interesting enough, just as my son got rejected and walked towards the exit, his spirit dejected. That girl’s mother actually came to the sect to visit her

daughter, seeing my son...this gets exciting, that mother actually hugged my son and expressed her gratitude.”

“Ah?” Luo Feng’s eyes gleamed.

“That girl ran over. Seeing the situation, she was extremely curious and asked her mother about this benefactor. Her mother told her the truth, saying how my son had been helping them all this while.” Nabu laughed loudly, “At this, the girl was stunned, and she couldn’t even believe it initially, saying Na Ke wasn’t even 20 years old, and it doesn’t make sense, because the support started over 10 years ago.”

“Her mother said, back then, a little rich kid under the protection of guards secretly gave them money, and she had watched as the little rich kid slowly grew up.” Nabu exclaimed, “Who would’ve thought a little kid’s playful attitude actually produced such a scene.”

“What happened after?” Luo Feng laughed and asked curiously, “How did that girl react to Na Ke?”

“That girl had backbone, she was very grateful.” Nabu said, “She told my son directly...I’m willing to repay my debt to you for my family as your slave, even if you wish, I’ll marry you.”

“Ah? That’s a pleasant surprise.” Luo Feng laughed.

“It’s not over.”

Nabu laughed loudly, “My son asked her modestly, do you like me?”

“That girl said, my mind is set on the martial arts, and there’s no one I fancy. However, the debt I owe to you, I have no other way to repay.” Nabu said, “After the girl finished, my son said directly...I, Na Ke, will never force anyone. If you don’t like me, then I won’t force you. After which, this son of mine, he turned and brought his guards away with him. Haha...” As Nabu finished, he couldn’t help but laugh loudly once again.

“Interesting, interesting.” Luo Feng laughed too.

“Father!” The youth Na Ke was blushing red, angry and embarrassed.

“Not bad, Na Ke, not bad.” Luo Feng laughed and complimented.

Na Ke gripped his fists and said seriously, “I won’t force anyone. However, there will come a day that I will make her like me!” He said that as he looked up, filled with resolve.

“Good resolve!” Luo Feng couldn’t hold back his laughter anymore, and laughed with Nabu once again.

Chapter 504: Longing for Blood River Crystal

Luo Feng continuously studied the effects of the absorption of the blood river crystal for half a month, (only 2 days had passed on blood river continent) before finally getting a good grasp on its overall benefits.

It's mysterious energy permeated deep into one's cells, creating a change that occurred from the very essence within to trigger evolution. It caused every cell to be infused with a mysterious special energy, this wasn't genetic energy, wasn't spirit energy, it was something unknown.

He only needed to drive this energy...

"Hmph!" Standing topless in his pavilion's 2nd floor, with a snort, he controlled his body's every cell. As he did that, the countless connections from before, immediately triggered that unknown energy.

Suddenly!

A blood red engraving that seemed simple yet incomparably magical appeared on his chest, when it appeared on his skin, Luo Feng's perception of the world was completely different from before.

"How wonderful!" Luo Feng closed his eyes.

Gold, wood, water, fire, ground, wind, thunder, light, time, space...

Before his absorption of the crystal, many of the universe origin laws, along with the 2 laws space and gold with which he had some achievements in still felt like a blur. This was completely unlike the golden horned beast or the Mosha clan body whose comprehension was still higher. However...when he triggered the unknown energy and the engraving appeared on his chest, everything cleared up!

Even his control of the laws became somewhat easier.

Nightmare, Luo Feng waved his blade, chilly flash of the blade made hearts tremble.

World's end, countless and endless flashes, it could stop 10 million enemies.

Hatred, a brutal and incredibly savage flash, it could cut through anything obstructing it.

Illusion, almost like a drunken warrior randomly waving his blade, yet it also resembled countless blades waving about.

Pensive, a blur silhouette accompanied the blurry flashes of the blade.

Burial, the final and most savage attack, it made hearts tremble in fear!

Dutchman's pipe, a dance in the face of life and death, hoping it to bloom before death.

Luo Feng didn't use his genetic energy, to unleash his bladework in the pavilion. His spirit energy formed a protective barrier, at least it guaranteed that his attacks wouldn't damage the construct.

"This wonderful feeling." Luo Feng opened his eyes, "Blood river crystal, it's heavenly."

The blood river crystal's uses were similar to the Mosha body.

Even if the Mosha body's comprehension was lower, it could still unleash a shocking amount of power! Also...it made his comprehension of the space laws easier.

After absorbing the blood river crystal, it wasn't just space laws, his feeling for the laws of the gold, wood, water, fire, ground, wind, thunder, light, space and time all felt quite a bit clearer, or it could also

be said that after the absorption, his relationship with the universe laws was much closer, and easier to feel.

Since it was easier to feel, it resulted in the earth body's comprehension speed to rise!

As his relationship with the laws gets closer, when he unleashes an attack, the power would be amplified one fold! (If the earth human body can only use the 100 thread movement, with the same amount of comprehension, the mosha clan could unleash the 10,000 thread movement.)

"It's a pity!"

"The Mosha clan unleashing space techniques has ten times the power! However with the absorption of the crystal...it only increased by 20 to 30%." Luo Feng laughed, "I can't be too greedy. The Mosha Clansman is after all the strongest assassins in the universe, they couldn't be joking about that?"

As heavenly as the blood river crystal was, it raised his comprehension for all the laws! And when unleashing these laws, his powers all rose greatly as well!

By absorbing one blood river crystal, his power grew by 20-30%.

"Blood warrior? Black warrior?" Luo Feng pondered. "Since there's such a saying of the blood warrior and black warriors. I think, after absorbing three crystals, there'll be a special change. Absorbing 10 will have an even more shocking change!"

"Hm!"

"Blood river crystals. I have to acquire them now, the more the better!" Luo Feng's eyes gleamed. The Mosha clansman's were born with certain skills, and absorbing more blood river crystals could help him get to a point like a Mosha clansman being. Of course, the more blood river crystals he absorbed, the harder it got. Otherwise, the black warrior saying wouldn't just be a saying anymore.

"Tonight!"

"I'll go take care of the city leader." Luo Feng's eyes were cold. "He's the one in Swallow mound city with the most crystals."

Swallow mound city, General's mansion.

City leader Rock Wind Xiong, stood looking gloomy on his balcony. Behind him were 8 high level officers.

"Speak, where's the general?" Rock wind Xiong said softly. "I've ordered for him, yet he didn't even reply? I've even come looking for him and he's not here, just where did he go? His scoundrel friend Pure feather Chong is already dead, where is he?" Back then, Rock wind Zhan and Pure feather Chong were indeed the two that played about madly.

They did all sorts of crooked activities, they were too numerous to count. Among the two, one was the Pure feather family leader while the other was Swallow mound city's general, who in Swallow mound city would dare mess with them?

"City leader, we don't know either."

"When it comes to the general's disappearance, we all don't know."

“Right, I think the general snuck out to play, hence he didn’t tell us.” The 8 high ranking officers all replied.

“That bastard!”

Rock wind Xiong was enraged. “Give the order. The moment anyone finds the general, tell him to get over here to me!”

“Yes!”

The 8 officers replied respectfully, after which Rock wind xiong vanished. Only at this time did the 8 relax. Muttering and discussing amongst themselves, “What’s going on? Previously, when the general went out to play, I’ve never seen the city leader that furious before. It’s only been 2 to 3 days so far, he’s even disappeared for half a month before, and that’s considered normal.”

“No idea. However, from the looks of it, the city leader is extremely angry. The general is in trouble this time.”

.....

The general was in tragic trouble indeed, because he was already dead.

.....

Late night.

Luo Feng stood in his own study of the pavilion. He was dressed in black armor and boots, even bringing a helmet and mask! He carried behind him a shield and blood red blade.

“City leader Rock wind Xiong, he is close to domain lord level 2, and someone who has absorbed a crystal before.” Luo Feng thought. “Even though in domain and origin laws, I far exceed him, he is still after all a domain lord. I cannot be careless.” Against Pure feather Chong, Luo Feng wore only a black robe. Against Rock wind general, he wore a simple normal robe and was very casual.

Only this time!

He was fully prepared. He even donned a mask!

Because Luo Feng was very clear that unless he used the Mosha clan, by simply relying on his human body alone, this would be a tough battle.

“There’s no meaning if the battle isn’t tough. The more I fight higher levels, the more interesting it will be.” Luo Feng smiled. With a flash, he vanished without a trace from the pavilion.

Swallow mound city leader’s mansion, the security was tight.

A blurry silhouette was moving through and it was very hard to detect. Swiftly heading towards the city leader Rock wind Xiong’s mansion. Considering that Rock Wind Xiong was the strongest within the city leader’s mansion, naturally he didn’t use cloud levels (Universe level) and sky level (star levels) as bodyguards.

“Illusionary manual, it’s more proficient in assassinations!”

“And I’m after all only a universe level 9. If I use force against him, I will be at a disadvantage. If I can assassinate him, it would be beautiful.” Luo Feng gazed at the distant palace. Through the universe space, he could feel that there was a familiar energy within. It was Rock Wind Xiong’s energy.

Sou!

Luo Feng wielded the blood shadow blade and instantly vanished.

.....

Within the palace.

The tall and sturdy Rock wind Xiong sat in his study desk, and on it were many reports.

“Hmph!” He couldn’t help but smack the table and stand up. He was walking about in the study, frowning, “My senior and envoy Mo, it’s rare that they pay me a visit. I originally wanted to introduce them to my little brother. I didn’t expect this bastard to disappear, and I can’t even find him. My senior and Mo have been here for three days and are about to leave. If I can’t find him soon, the next time my brother gets to meet envoys from the Undying shrine would be a very long time from now!”

“Bastard, what a bastard!” Rock wind Xiong got angrier as he thought about it.

Entertaining the envoys for the past few days, has it been easy?

Everything was top notch and best.

“Hm?” Rock wind Xiong’s feelings for the skies and ground were very sensitive. He was able to feel an energy about, immediately roaring, “Who is it!!!”

Rumble!

With Rock Wind Xiong as the center, countless lightning bolts shot in all directions. It strangely shot through the palace without any hint of harming anything within, forming a huge spherical shaped lightning barrier around a 1km area. A few soldiers and staff were all extremely afraid, however after discovering the lightning ball didn’t harm them, they still ran out with fear out of the area.

“Xiu!”

A flash of a blade immediately lit up within the palace, almost like a huge sickle slicing straight at Rock wind Xiong. Only at this time could he barely make out a warrior dancing with his blades, completely covered in black armor.

“Get lost!” Rock wind xiong roared. A large purple sledge hammer appeared in his hand, it rumbled as he swung it.

Pa!

The attack infused with lightning and thunder swung forward, causing the black armored person to dodge it. This mad energy was like countless arrows shooting in all directions, causing rumbles and explosions to erupt all about the palace. At this time Rock Wind xiong’s eyes were gleaming with lightning. Holding a huge sledge hammer in each hand, he rushed forward within the palace!

“Indeed a domain lord level 2, with a level 9 domain and one who has entered the gateway of the thunder laws.” Luo Feng spit out some blood as he dodged. However, in the blink of an eye his body recovered, his gaze fixed and was once again as cold and collected as before.

“I’ll use speed! Kill him!”

Shua!

A roar had just erupted from Rock Wind Xiong’s mouth: “You...”

However in an instant, a incredibly condensed golden domain was unleashed. Space and gold laws combined, melding with the terrifying domain formed in the universe space. This gold domain was a golden wave with gold properties, which fused with the universe space and immediately pressuring and destroying that thunder domain.

Simultaneously around Rock wind Xiong’s body, 100 black armored warriors appeared. Every one of them wielded a 6 edged shield and blood shadow blade.

“Absolute domain, Time Space scribbles number 2891 technique...Messy Void kill!” Luo Feng roared within.

“Space origin laws!” Wielding the two purple sledgehammers, Rock wind Xiong was shocked at the scene.

Chapter 505: Dishonorable

Rock Wind Xiong, his teacher was a world level (Sector lord) who controlled the surrounding 1 billion km area, Si Yong.

Even though the strong were like the clouds here in blood river world, a sector lord was still a very terrifying existence. Rock Wind Xiong being under Si Yong, had very high perspectives and vision. With just one look, he understood that this mysterious warrior was a genius person with high achievements in space origin laws, able to produce up to 100 images!

“Just a universe level 9 and so powerful. It’s simply too...” Rock wind Xiong understood that if such a genius were to be discovered by the undying shrine, he would definitely be treated as an absolute elite and nurtured.

“It’s a pity that he’s the enemy!”

“The more terrifying the enemy, the better it is to eliminate him earlier.” Rock wind Xiong stood on the ground with the sledgehammers in his hand motionless.

And Luo Feng who had unleashed his close combat Messy Void technique was suspicious, “He is after all a domain lord 2. Just based on his pure genetic energy and explosive speed, he could very likely survive my attack, why isn’t he moving?” While suspicious, Luo Feng began to grow wary within.

Hua! Hua! Hua! Hua! Hua! Hua!

Over a hundred peculiar blade techniques melded with the spread out gold domain, causing the space around to follow the blade work. In an instant, there was nothing but flashes of blades, almost like the entire space was a dance floor. It was completely pressuring that Rock Wind Xiong. While pressuring him, it shrank more, the blade work condensed on him too.

Rock Wind Xiong was trapped within!

It was almost like he was trapped in a little house, and was being slashed at by large amounts of blade flashes!

This technique from Time scribbles didn't have a name, Messy Void was a name he gave it himself.

"Hahaha..." A loud laugh resounded. Rock Wind Xiong stood his ground, almost as though he was admiring Luo Feng's performance.

"Rise!"

Rock Wind Xiong's lips curled into a smile, simultaneously assassination weapons rose from all around him. At least 1,000 of them completely covering Rock Wind Xiong. Every one of them under the flashes of lightning gleamed like dazzling metals, the arc blade edge was terrifying.

"What!" Luo Feng's expression changed greatly. He had initially wanted to rely on speed to kill him, however how could he compete with the speed of spirit weapons? That was suicide!

"Go!"

Rock Wind Xiong waved, immediately the blur of countless weapons covered the skies and shot in all directions. Even though the hundred thread movement was very shocking, making one unable to accurately deduce the person's position, however with countless weapons shooting in all directions, it definitely spelled trouble. Although, using such quantity would diminish the power.

However, the enemy was domain lord level 2. Any one of those weapons could easily kill a normal universe level 9.

"Dang! Dang!" Luo Feng's movement was unpredictable, however the number of weapons shot at him was simply too many. Wielding the 6 edged shield, he continuously blocked 10 of them. Even though he managed to deflect them away, they still affected his movement.

"Haha..." Rock Wind Xiong's laugh continued. The rest of his dancing weapons all curved and simultaneously headed towards Luo Feng. The air trembled and split apart, as up to a 1,000 assassination weapons shot at him. Luo Feng's expression grew heavy, his eyes were staring coldly at Rock Wind Xiong!

A formless consciousness pressure fiercely smashed into Rock wind Xiong's consciousness.

"Hm?" Rock Wind Xiong felt a pain in his head. The 1,000 assassination weapons controlled by his consciousness were immediately affected. Without the help of his spirit energy, the weapons swiftly slowed down due to the high air resistance and gravity. They still followed their course and shot towards Luo Feng, he however easily dodged them.

Weapons capable of twisting and turning, compared to dumb straight shooting weapons, naturally were much easier to dodge!

Shua! Luo Feng dodged the weapons.

Shua! Luo Feng rushed at Rock Wind Xiong.

“Go and die!” Luo Feng had already reached him. The blood shadow blade in his hand had already become an incomparably resplendent flash, cutting straight at Rock Wind Xiong’s chest.

Killing a universe level and killing a domain lord were two completely different things.

From student level to universe level, the soul was definitely within the consciousness. Hence the control chip could at most control up to a universe level. The highest slaves a slave trader could sell was a universe level.

When it came to domain lord however, the soul was in the Qi Dian, this was also named the life core!

Like Luo Feng, his Qi Dian and Internal core had fused into one. Hence, his core was incredibly sturdy. This also meant that eventually breaking through from this internal core would thus be very hard!

To kill a domain lord, one had to destroy the life core. However, this life core could be stored in any part of the body, it could be within the head area, consciousness, at the Dantian, or even in the arms, chest etc anywhere. Hence, to kill a domain lord...the first thing was to determine where the life core was located!

Due to the consciousness attack earlier, Luo Feng had determined the position already.

“Dang!” a gold light hit Luo Feng’s blade.

“Trouble.” Luo Feng’s expression changed, he could see the gloomy and mad Rock Wind Xiong. Luo Feng’s consciousness was considered domain lord pinnacle, and Rock Wind Xiong too was domain lord level. Even though it was weaker than his own, it was still at domain lord level. That one attack only managed to shock him temporarily.

Consciousness pressure, only when the level difference was huge, would the effect be obvious.

“Hmph!” Rock wind Xiong looked angrily at Luo Feng. Simultaneously around him were 3 gold lights that surrounded his body and then shot at Luo Feng together.

“So troublesome. A fighter against a spirit reader would naturally be at a disadvantage. But to meet a spirit reader a few levels above me.” Luo Feng knew that he couldn’t win anymore. No matter how strong his comprehension of the origin laws were, and how powerful his movement was, as long as there was an army of different types of spirit weapons that attacked, there may still be a chance.

However if the opponent was a few levels above, how could he battle?

Even the golden horned beast, before training techniques like Deities of the World, just using its natural talents, it could at most fight it out with an opponent 3 levels higher, and destroy humans that were 2 level higher than itself.

Xiu! Xiu! Xiu!

3 golden lights as fast as lightning were shot out. Luo Feng's speed, no matter how fast it was, he still couldn't dodge them in time. One beam shot through Luo Feng's throat, piercing right through and simultaneously the pressure from the shot caused his head to become a mess.

Pu Tong!

Luo Feng fell.

"What terrifying consciousness, just who is he. His consciousness is even stronger than mine, and his comprehension of the laws are so high." Rock Wind xiong walked towards the body. He looked at it and was shocked. "What a pity, a universe level 9 actually dared to come assassinate me. Such an attempt is just suicide. Let me see just who it is!"

With a thought, he ripped apart the mask and lifted the mask to reveal the youth's face.

"How are you!" The youth suddenly opened his eyes, his gaze somewhat apologetic.

"Eh!"

Rock wind Xiong's eyes looked down. His chest had already been stabbed by a blade. It had pierced straight into his life core, it was a pity that his life core was but a normal human race's core and was no where as perverted as that of a golden horned beast. Actually countless human races' cores were weak and fragile. How could they possibly compare to the golden horned beast which was born with an internal world.

When the golden horned beast reaches domain lord level, its internal world spanned over 100,000 km in area! This was much larger than earth.

And a normal human domain lord had just begun to nurture an internal world. To truly expand the world, one had to wait until sector lord level.

To be able to support such a vast internal world, how could the internal core not be sturdy?

A domain lord level 6 golden horned beast, even a powerful domain lord level 6 would have trouble breaking its core! Just like back then when Hong and thunder god entered the golden horned beast's body, immolating their souls using the pike and blade to attack its core, yet they couldn't break it.

A pinnacle sector lord golden horned beast was invincible amongst the sector lords. After all, it had 3 powerful natural abilities, along with its inherited memories. However, even with all these heaven sent benefits, there would be a downside. This is also why many generations of golden horned beasts were all getting stuck at the pinnacle of sector lords, unable to break through.

"You..." Rock Wind Xiong stared wide eyed. At the same time, his body knelt down as fresh blood was flowing from his chest.

"You stand right in front of me without the slightest amount of vigilance. The moment I attacked you, you couldn't even react." Luo Feng stood up. His throat was already without a trace of the previous injury. He placed his mask back on, as revealing his identity may affect Nabu and his son Na Ke. Through his revealed eyes, he looked at Rock Wind xiong's body. "I don't blame you, I don't think many people would have thought that a universe level, even with his consciousness destroyed completely, would still be alive!"

Luo Feng looked at the body before him, shaking his head.

At first, he didn't want to use special abilities to kill his opponent, and wanted to rely only on his universe level 9 abilities to fight it out. However, he didn't expect Rock Wind Xiong to be a spirit reader, his final assassination felt a little dishonorable.

"It's a pity that I didn't bring the Nan Shen Armament!"

"If I had the Nan Shen Armament, my strength would have been multiplied, and I would have a guarantee in killing him." Luo Feng shook his head. "My earth body really isn't suited for close combat!"

Following which Luo Feng swiftly scanned the body and found his target, the space item.

"That's it!"

Luo Feng quickly discovered an inlaid decorative plate on his waist, and immediately took it down. This metal plate...was the storage item.

"I hope there's blood river crystals in here. The more the merrier!" Luo Feng immediately used his spirit energy to pierce into it and began searching.

At this time...

1 km area around the palace was in a complete mess. The palace was destroyed, the balcony was broken, stairways were reduced to nothing, especially in the most center...there was even Rock Wind Xiong's body, along with the black armored warrior standing there coldly with the plate in his hand!

"Not bad." Luo Feng revealed a smile, "There's 2 crystals!"

Rock wind Xiong had previously absorbed 1 crystal. Through various methods, he had acquired 2 more to probably increase his chance of becoming a blood warrior someday. Later he got one more, and gave that one to his little brother Rock Wind Zhan.

"Killing and robbing, vicious indeed!"

A cold voice resounded around the space.

Luo Feng turned to look.

In mid air...there stood 2 grey armored silhouettes and their expressions were ugly.

Chapter 506: Envoys of the Undying Shrine

Late night, within the purple 3 story pavilion of the Pure feather family.

Pure feather Tao was sitting crossed legged with his eyelids drooping. However, he was pondering, "My information cannot be wrong. Two special envoys from the undying shrine are in Swallow mound city. However Rock Wind Xiong, that bastard definitely wouldn't let me meet them...hm. This is troublesome, how can I contact the envoys..."

Rumble!

A mad energy wave fiercely travelled from the North East, causing Pure feather Tao to immediately raise his head. His eyes were peering in the north east direction, his gaze becoming two beams of light that shot through the pavilions' closed windows destroying them in the process, revealing the beautiful scenery outside towards the east.

A 1km tall thunder ball was floating within the city leader's mansion. Lightning flashed about and lightning snakes danced about, this scene caused Pure feather tao to be in shock.

It wasn't just Pure feather Tao...

Everyone in swallow mound city was stunned, as there wasn't any construct 1km tall in the entire city. Hence when the thunder ball appeared...especially in the dark night, it was extremely visible. Without any obstruction in the 100km area, almost everyone could see it.

"What's going on, for that bastard Rock Wind Xiong to unleash his domain? Did he meet a powerful warrior?" Pure feather Tao was shocked, and fiercely rushed out of the house.

Standing in mid air and looking at the North East direction, his expression changed constantly. "Just who in Swallow mound could make Rock Wind Xiong go all out like this? There are no other domain level warriors, and with the presence of the two envoys from the undying shrine, who would be so deranged as to attack at this time. Don't tell me...he's even battling the envoys?"

As for the strength of the envoys, even Pure feather tao didn't know much about it.

To become an envoy of the undying shrine, one had to at least be a domain level. As for if they were at domain level early stage? Mid Stage? Late Stage? Or at the pinnacle? He wasn't clear.

"Better be careful, I don't want to be dragged in." Pure feather Tao carefully flew over, not daring to release any energy or aura, in case the enemy detected him and thought of him as an enemy too.

He had to be careful!

As Pure Feather Tao didn't have a backing, the moment he died, the Pure feather family would be finished.

Being old and not dying was important, and Pure feather Tao was very clear on the importance of him being alive.

Actually, the battle between Luo Feng and Rock Wind Xiong, at their level, it was usually settled within 1 or 2 seconds with tens of exchanges. During the entire battle including Luo Feng's final stabbing, the thing that took the longest was his final blade attack, because he needed to wait for Rock Wind Xiong to walk over...

The entire battle only took about 10 seconds.

.....

The air split, lightning shot in all directions, energies flew madly, golden energy waves glaring.

The luxurious pavilions, flowerbeds, etc were all immediately destroyed and scattered all over. The entire city leader's mansion was thrown into madness and fear. Pure Feather Tao however sneakily approached, as he wanted to be cautious. When he hid behind the collapsed palace and watched from far, Luo Feng had just taken the storage item.

"Storage item?" Pure feather tao's eyes immediately went red. "Rock Wind xiong's countless treasures are within. Since he is the favorite disciple of that world city leader, he definitely had quite a bit when he became city leader. All his treasures are inside! And that black armored man...his energy doesn't seem that strong."

"Do I kill him?" Pure feather Tao gritted his teeth, staring hard at the distant black armored man.

Hesitation!

Second guessing!

"I will kill!" Pure feather Tao's eyes were red. If he didn't make a move now, when would he do it?

"Hm?" Just as he was about to rush out...in mid air two grey silhouettes appeared. The grey armor they wore was the proof of their identity as special envoys of the undying shrine. Also, the energy they emitted was terrifying.

"How powerful! These two are definitely stronger than me!" Pure feather Tao's expression immediately changed. "These two are probably both at pinnacle domain level!"

His ambition and greed from before were immediately reduced to nothing.

"I'll keep watching and see if there's any chance to get anything." Pure feather Tao hid his aura and hid.

When one reached the domain level (Domain lord), and one's core becomes that life core (Qi Dian), one could completely hide their aura within. The outside world couldn't detect it at all. Just like how several scanning devices could scan power levels, they could at most accurately detect from student to universe levels. As for domain lord and sector lord levels, they couldn't fully detect.

Unless the opponent releases his aura!

"How powerful." Pure feather Tao's eye muscles twitched.

.....

Dressed in black armor and boots, along with a helmet and mask, Luo Feng was fully dressed!

"These two..." Luo Feng looked up at the two in grey armors floating in mid air. These two were obviously enraged, since they willingly released their terrifying auras. "At least domain lord level 7 or 8, or even a domain lord level 9. How troublesome."

Yes!

Simply just troublesome. Luo Feng had not wished to ever use the Moshu clansman, mostly as a means to train himself. However the moment his life was in danger, would he stupidly wait for his death? With the Moshu clansman's strength, especially with its ridiculous space law's strength unleashed...if he wanted to flee, these two had no way to stop him!

“Two sirs, must you make a move?” Luo Feng looked at the two in mid air.

“Haha, you’ve killed my junior. Are you implying I should simply let you go?” The handsome middle aged man roared angrily in the night.

.....

The auras of the two special envoys from the undying shrine were terrifying.

“I didn’t expect this.” The other man communicated mentally. “Brother Yu, my apologies, I didn’t expect this to happen too.”

“Old Mo, it’s not your fault, I was careless.” The handsome man was bitter.

During these two or three days these two had been entertained extremely well by Rock Wind xiong. Especially tonight, because he had invited the legendary mermaid from the Demon Ocean to sing for them and entertain them. This mermaid...belonged to the highest of women in blood river continent. They could remove their tail and take on human form, the moment they touched water they could regain their tail again.

All of them could sing extremely well, it was the most absolute pleasure.

However these mermaids could only be found in the demon ocean. Demon ocean belonged to a terrifying region of blood river continent. To actually catch a mermaid alive was incredibly hard. Hence, one single mermaid in the continent alone would result in many powerful figures fighting and chasing after her.

They were envoys of the undying shrine, normally they wouldn’t have much free time in their hands. Yet, this time they actually managed to see a mermaid, naturally they didn’t mind getting comfortable.

When these two were extremely comfortable, they suddenly felt a large energy exploding in the distance. At that time, they were simply too lazy to move, because they believed that within this area, there wasn’t anyone who would dare mess with the world city leader Si Yong’s disciple Rock Wind Xiong. They believed that Rock Wind Xiong could settle it by himself.

Later they felt that the energies were too strong and overpowering. Due to the rumbles and explosions, the two of them left their beds unhappily to take a look.

By the time they reached their destination, Rock wind Xiong was already dead!

Within the city leader’s mansion, the atmosphere immediately changed.

“You are not my targets. I’m too lazy to kill, so don’t force me!” Luo feng looked at the two in mid air, and immediately rushed into the sky.

“Trying to flee?”

In mid air, the handsome man roared. He simultaneously communicated to the envoy beside, “Old Mo, he killed my junior. So leave this matter to me. Help me by keeping any eye on him, I’m worried that this punk will suddenly find a way to flee. Please don’t let him escape.”

“Brother Yu, leave it to me. Relax.” Envoy Mo nodded.

Having been treated well and entertained by Rock wind Xiong the past few days, now that he's dead, Envoy Mo definitely wanted to avenge him as well.

.....

Luo Feng rose into the skies, simultaneously the handsome man's killing intent rushed over. Luo Feng frowned. "You are really forcing me. Since you wish to die, then I'll send you to hell!"

The Moshu clansman within his internal world had already fully resembled Luo Feng. He was also wielding a blood shadow blade and dressed in black armor, shield. These were not considered high level weapons at all in the Virtual Universe Company, they were all custom made for his stay here in Blood river world.

As they were cheap, he had ordered 10 at the time. Should there be any breakage or faults, he could use another.

"Switch!" Luo Feng thought.

Shua!

The earth body Luo Feng swapped instantly with the Moshu Clansman within. The earth body entered the internal world while the Moshu Clansman remained outside. During the switch...Luo Feng was flying swiftly. So, it was impossible to see clearly what had happened.

"Hm, he hid his energy?" Chasing him swiftly, Yu Envoy could feel the black armored warrior's aura go from a universe level 9 to suddenly nothing.

"I'm at a pinnacle domain level. Unless he is world level, he will die without a doubt!" A blade appeared suddenly in Envoy Yu's hands. He swiftly caught up with the black armored Luo Feng. He shouted with rage, "You sure got guts. In this side of the world, only me and my brothers kill others. There's never been a time where we've been bullied! Go and die!"

Rumble!

The Moshu Luo Feng's lips curled into a smile. That incredible feeling within the universe space, it was like a fish in water, an infant in a mother's embrace, it was very comfortable. That feeling of almost being one with space made Luo Feng clearly sense the mad and powerful aura rushing from behind him.

"I guess he's really domain level 9!" The Moshu Luo Feng smiled coldly. "Strongest assassins in the universe, along with my study of the 9 universe primal chaos tablet. I'll let you see my power."

Moshu Luo Feng closed his eyes.

That mad energy rushed straight at him, and just as it was about to reach him...

Shua!

The envoy's eyes were filled with rage and killing intent. His lightning fast and powerful slash sliced the black warrior before him in half. However, after the slash, his expression changed greatly. "Something is not right!" There was no blood or any feeling at all from the black armored warrior he had just slashed. He simply dispersed.

“Where is he? Is he so fast that I can’t even feel him?” Envoy Yu was extremely terrified.

“Brother Yu, behind you!!!” A fearful voice entered into Envoy Yu’s mind.

Envoy Yu spun around quickly.

Behind him the black armored warrior was looking at him. Simultaneously, he saw the flash of a blade.

Chapter 507: Mosha Clansman Takes Flight

Attacking in close range, with the Mosha clansman’s speed, this special envoy had no way to defend at all.

“No!” Envoy Yu’s handsome face was struggling. Simultaneously, his domain level 9 genetic energy was fiercely permeating through the grey uniform he wore. That extremely fast and sharp blood shadow blade slashed his body, but that grey uniform slightly shook and dispersed the attack throughout his body, leaving behind a slash mark on the uniform before quickly regenerating.

Sou!

Envoy Yu quickly retreated, beads of perspiration were dripping from his forehead, as he was terrified.

“Luckily, luckily I have this armor from the undying shrine.” Envoy Yu felt as though he had just escaped death itself as he looked with disbelief and fear at the black armored warrior in the night sky. “How can he be that fast? He, his speed is impossible. I can’t even feel it.”

Yes, the Mosha clansman was indeed fast.

If measured against the Absolute Space level, it had reached the 2nd level’s Countless Changes. According to that level, it was the highest level in 10,000 thread flow. Unleashing it fully could produce 10,000 images in space! And Luo Feng’s earth body could only produce up to several 100, (As the 100 thread flow had a special effect, hence he usually only used 100).

During battle, more images weren’t necessarily better.

Like teleportation, once one reaches that level, there wouldn’t be any images at all!

And Absolute Space 1st level Arc Light, 2nd level Countless Changes, even though it seemed like many images were formed when unleashed, the true goal was instantaneous explosive acceleration!

Right now, the Mosha clansman’s instantaneous acceleration had already reached a terrifying level. Another level and it’d be teleportation! Of course this was the hardest step. One could only imagine, its current acceleration was already that terrifying, much less this Envoy Yu.

Even a sector lord warrior, his max speed could maybe exceed that of the Mosha Clansman! However that instantaneous explosion would still pale in comparison.

Unless that sector lord was close to the level of Countless Changes. Or he had reached a high level of comprehension in wind or light origin laws.

.....

“Interesting.” Moshu Luo Feng stood in mid air looking at the distant envoy Yu and was staring at his grey armor. “That...is a genetic armor? Genetic armor from the universe?”

Yes!

It was Genetic armor!

“To actually be able to disperse my attack throughout his body, and after I slit it, it recovered immediately. And with that bastard pouring genetic energy in...it obviously has raised the armor’s defense.” Even though Luo Feng was an outsider, he was naturally clear on the armor’s properties. He had the cloud contact vine armor which was even better than the genetic armor!

Only thing was, he didn’t dare use it. Otherwise, he would be recognized as an outsider and ganged up on by everybody.

“Na Ke’s father was right. Those ancient god ruins really have items from when the Virtual Universe Company battled against the Blood river continent, having left its traces behind. And these should have been studied by the Undyings of Blood river continent, and they found out how to make a genetic armor. Obviously, their production amount is still very very low.” Luo Feng’s mind thought of many things in an instant.

.....

As the thoughts crossed his mind, he immediately charged forward and once again reached that fleeing envoy Yu’s face.

“Too fast.” Envoy Yu communicated to his partner and shouted, “Old Mo, Hurry and help me!”

“Understood!” From the distance, envoy Mo swiftly flew over.

However, Moshu Luo Feng had already begun his 2nd attack. This time it wasn’t casual like the first time. He was truly moving the universe space around the blade, hence on the edge of the blade the space even warped. Moshu Luo Feng stared coldly at envoy Yu who couldn’t defend in time and was relying solely on the genetic armor to defend.

“Stupid!” Luo Feng thought.

Pu chi!

Like a kitchen knife slicing open a fish, the blood shadow blade was incredibly sharp this time. It immediately sliced open envoy Yu’s chest and piercing in. The blood shadow blade released energy within in all directions and Luo Feng immediately discovered his life core within.

Chi!

The tip of the blade immediately pierced through the life core of the terrified and trying to flee envoy Yu. The moment it touched it, the core broke and envoy Yu stared wide eyed. His eyes were filled with fear and disbelief. He couldn’t believe that the man before him was actually able to pierce through his armor and kill him, even more so that he’d actually dare to kill a special envoy of the undying shrine!

“This blade of mine has the feeling of slicing space.” Moshu Luo Feng’s eyes gleamed with satisfaction. His earth body relied on the Nan Shen Armament, and was unable to pass the heavenly bridge’s 6th level.

However if the Moshu clansman was the one doing it, it could easily unleash 10,000 thread flow. It’s blade resonated with the universe space, this was enough to produce the Nan Shen Armament’s 5th level Space Slicer effect. In fact, its power was even stronger. Passing the heavenly bridge’s...6 and even 7 was fully guaranteed!

Afterall...

This was the strongest assassin race in the universe.

“What!” Envoy Yu who was flying over preparing to help his friend changed his expression. “How...how can he cut through that armor with just one blade?”

Flee!

Envoy Yu didn’t even hesitate.

“How can that black armored warrior be that strong?” In the distant city Pure feather Tao hid himself and his aura. While looking up, his eyes were filled with fear. “The envoy he killed was pinnacle domain level. Even with the special envoy armor, he was still killed with just one slash.”

Pure feather Tao stared, “He’s caught up, the black armored warrior has caught up.”

.....

Right, Envoy Mo was fleeing in the night, and Moshu Luo Feng who had just killed envoy Yu placed him in his space ring and simultaneously exploded towards the fleeing man...

“Trying to flee?” A voice entered envoy Mo’s ears.

“No, you cannot kill me. I’m a special envoy of the undying shrine. I’m a special envoy of the undying shrine!” Envoy Mo shouted back.

“Undying shrine envoy?” Moshu Luo Feng was shocked.

“Yes, I’m a special envoy of the undying shrine, you...” Envoy Mo stared wide eyed, because that terrifying slash appeared again. The edge of the blade that warped even space around it...almost as though before this blade, even space could be sliced through, immediately killing envoy Mo and breaking his life core!

Moshu Luo Feng waved his hand and placed his body in his storage ring, after which he looked down. Pure feather tao who was secretly watching this scene, was discovered by the black armored warrior. He was immediately shocked and terrified.

“How did he discover me, how?” Pure feather tao was absolutely terrified.

He didn’t know...

The Mosha clansman had no soul or spirit energy. Hence the way it sensed other's energies and aura was different from flesh and blood life forms.

Normal flesh and blood life forms rely on spirit energy to sense things, according to how strong the energies were, they would determine the location.

The Mosha however was a favored child of space, it could meld with space itself...just like how a spider could feel even the tiniest vibration within its webs.

Mosha Luo Feng was just that!

Even though that Pure feather tao was a domain lord who was hiding his energy, theoretically speaking no one should be able to detect him. However, Luo Feng felt the ripples in space that Tao had made when he flew. Hence, he knew that the target had hidden himself after flying fast for awhile.

"I have no ill intent." Pure feather Tao's face went pale.

"You should be the elder of the Pure feather family." Mosha Luo Feng smiled in mid air. "It's unfortunate, but I require blood river crystals now."

"No!" Pure feather Tao's expression changed. He immediately became a flash, his shocking speed even caused the air around to explode, the constructs about him crumbling.

Mosha Luo Feng shook his head.

Hua!

Immediately closing 10km in distance, leaving a trail of images behind and brandishing that blade, flashing once again! Just as pure feather Tao was trying to react fearfully, it had already pierced through his body and killed him. Following which he placed Pure feather Tao's body in his storage ring and with a step, immediately disappeared 1,000km away.

His earth body's speed in Blood river world's conditions could travel 3,000km in a second. The Mosha Luo Feng was more than 10 times faster.

The commotion that happened in Swallow mound city late at night was even noisier than broad daylight.

Especially as many people squeezed in the vast walkways outside the city leader's mansion, countless eyes were looking at the mansion, where the army stood surrounding it.

"What happened?"

"Who knows, I even saw a tall and terrifying lightning ball before."

"I saw it too."

"Look, the originally tallest city leader palace has been reduced to waste. We can't even see it anymore."

A group of excited people in Swallow mound city were discussing.

They didn't even know...

Within that night, two special envoys from the undying shrine, Swallow mound's city leader, and the elder of the Pure feather family, were all dead! It could be said that there weren't anymore domain level warriors in Swallow mound city.

.....

Mosha Luo Feng tore through the air and pierced through the cloud levels.

"Its wonderful, this feeling of melding with the universe space. When can my earth body reach such a level." Luo Feng was addicted to this. This feeling, where the universe space felt extremely clear, to be able to move through the universe space ripples and feel the living beings all about.

Shua!

Mosha Luo Feng stopped. At this time he was already close to a million km away from Swallow mound city, with just that bit of work.

"Swap." Even though he couldn't bear to do it, using the Mosha body was after all a very dangerous thing to do, as there were large amounts of sector lords and undyings in this world! The moment he was too high profile and got noticed, everything would be over.

"It's better to stay low profile, and use only my universe level strength."

He swapped back to his human body.

Luo Feng suddenly smiled, "Time to see what those envoys from the undying shrine and even Pure feather Tao had on them, just what surprise can they give me."

Chapter 508: Unexpected Surprise

Within the clouds.

After swapping his bodies, he began to look through the four bodies in his space ring.

"Pure Feather Tao, Rock Wind Xiong, these two have the highest status in Swallow Mound city." Luo Feng separately took out these two's space items and examined them carefully. Unlike Rock Wind Zhan who purposely hid his, Pure Feather Tao and Rock Wind xiong's storage items both had blood river crystals. He had actually examined Rock Wind Xiong's earlier.

"1, 2!"

Luo Feng flipped his hand and there lay a triangular blood red crystal, the beauty was mesmerizing, it was the blood river crystal.

"I got three of them at one go!" Luo Feng smiled. "If I successfully absorb another 2, I will become a blood warrior immediately. And I'd still have one more, this will be just enough to complete the 1st mission."

The dangerous level mission had a total of two missions.

1 was for 10,000 points and another was for 100,000 points.

From the looks of it, as long as everything went well and his absorption was successful, he would be able to get 110,000 at one go.

“The 1st thing is to absorb the crystals successfully.” Luo Feng recalled his 1st absorption, and was not fully confident.

Acquiring everything seemed pretty easy enough. However, for the virtual universe to deem them both as dangerous level missions...of course, these were aimed at the universe level core members. If Luo Feng was truly a universe level 9 without the Moshu clansman, then acquiring the crystals would have been extremely dangerous.

“Right.”

“I still have the two envoys from the undying shrine.” Luo Feng’s eyes gleamed. “I wonder if they have any blood river crystals, it’s hard to say!”

Luo Feng had already known earlier about Pure feather Tao and Rock Wind Xiong’s possession of the crystals.

As for the envoys, he had no clue.

“This space bracelet of Envoy Yu, it’s pretty big inside.” Luo Feng carefully examined it as he was filled with anticipation. He suddenly revealed a look of shock and disbelief. It seemed impossible, “No. It can’t be. Have I, really gotten so lucky?”

Shua!

Luo Feng flipped his hand, in it a black special wooden box appeared. Luo Feng held his breath and carefully opened it.

Pa, the box was opened.

Within it blood river crystals were carefully organized and placed neatly. The box was almost filled to brim with crystals. Luo Feng’s eyes gleamed from the sight, carefully counting them,

“10?”

“10 blood river crystals?” Luo Feng couldn’t believe it. “Even if this envoy wanted to absorb the crystals to become the legendary black warrior, he would only require 10. Also, people with such ambition couldn’t have not attempted to absorb one yet, and he’s already a domain lord level 9 warrior.”

That envoy Yu had indeed absorbed a crystal before.

“He actually carries 10 crystals with him, what a fortune for me.” Luo Feng suddenly thought, “My spirit energy scan earlier found a piece of paper at the bottom of the box below the crystals.

Within the box, beneath the neatly placed crystals, there was indeed a paper. The material was of dark gold in color.

On it were complex words. The words seemed complex, the details however were very simple...

“Si Yong, these are the 10 crystals you require. It’s enough for the short term, use it accordingly. Remember what you promised me, I believe you are a smart person and won’t deceive me.”

Just a short letter.

Immediately Luo Feng who was reading the letter realized and laughed, “So these 10 crystals weren’t the envoys. But this Si Yong’s. Si Yong, isn’t he the world city leader? With a sector lord status, acquiring these 10 crystals should be an extremely easy thing to do.”

Even the domain lords could get their hands on a few crystals. Hence, for a sector lord to get 10 at one go, that seemed normal.

“Si Yong, Si Yong, your blood river crystals belong to me now.” With a thought, Luo Feng kept the crystals into his ring.

“I already have 13 now. I wonder if the other envoy will give me another surprise.” Luo Feng flipped his hand, a translucent ring appeared in his hand. This was Envoy Mo’s storage item. Immediately, his spirit energy pierced in and began searching.

With this search!

“My god!” Luo Feng was startled.

“It can’t be! It’s like seeing a ghost!” Luo Feng was shocked.

“Babata, Babata!” Luo Feng’s thought went into his storage ring to contact Babata.

Babata asked lazily, “What’s going on Luo Feng. In this blood river world without any technology, what do you need me for?”

“Wait a moment!” Luo Feng thought, immediately taking out that unbelievable item from Envoy Mo’s space ring. Hu, a 100m diameter large item appeared within the clouds...a dark grey universe ship!

Yes, universe ship!

“Babata, keep this ship within your storage space and study it for me. Just how long has this ship existed.” Luo Feng asked.

“Universe ship?” Babata was shocked too and kept the ship within his space, “Wait a moment, I’ll scan it.”

Night.

Luo Feng stood along in the clouds, still very shocked.

As the details from the Virtual Universe Company had stated very clearly to never ever take out any technological items. The moment one is discovered, it would mean certain death. However having discovered a universe ship from an envoy from the undying shrine’s space ring, this was too...

The ancient god ruins, that was from how many trillions of years ago. A universe ship from back then couldn’t be undamaged for that long, unless it was an E or F grade ship. However, that level of ship wouldn’t land in a domain lord envoy’s hands, and Luo Feng felt that this ship was very normal.

“Luo Feng, I’ve scanned it.” Babata shouted.

Luo Feng maintained his mental connection with Babata and asked, “What’re the result?”

“I can confirm that this Blood river continent has had some advancement in the technological side. This universe ship should have been built less than 500,000 years ago, and it’s very lousy. When it’s compared to other ships in the universe, it would be considered an A grade. It would take extremely long to accelerate to light speed.” Babata explained.

“Ah?” Luo Feng frowned.

“Where did you discover it?” Babata asked.

“Within an envoy’s space ring.” Luo Feng said. Right, the armor that the envoys wore...they are genetic armor.”

“Envoys of the undying shrine? Seems right, Luo Feng...you should know then when a sector lord breaks through to undying, their soul will evolve. An undying soul’s brain and mental calculation speed doesn’t lose to a quantum computer! The aboriginal undyings of Blood river continent, if they acquire any remains from the warriors of the Virtual Universe Company, like some quantum computers, universe ships, or others etc...they could very well study them.” Babata explained.

Luo Feng was shocked.

Right, his own consciousness calculations was terrifying already. Hence, an undying soul’s calculations would definitely not be below a quantum computer. Maybe because of a lack of many materials on Blood river world, they are unable to make special machinery. Otherwise, these Undyings, with their analytical prowess, wouldn’t find it hard to create and revolutionize the technology here.

Or maybe, the Undying Shrine didn’t wish for the continent’s masses to get in on the technology.

Or maybe, the Virtual Universe Company was intercepting them secretly.

Anyway, Luo Feng was too lazy to figure out everything.

“I’ve earned a fortune this time.” Luo Feng immediately left the four bodies for Babata to dispose of and handed the 4 storage items to Babata. “Babata, there’s a whole mess of treasures and items in their storage items. I have no comprehension of the treasures of Blood river continent. Help me sort them and see if there’s any other surprise.”

“No problem, leave it to me.”

Babata was a living AI, his calculation speed far exceeded a normal AI. Even the undying beings...they didn’t necessarily compare to his problem solving speed.

“Thanks. In a moment I will contact you. How long do you think you will need to organize everything?” Luo Feng asked.

“5 minutes is enough.” Babata answered.

“Very well.” Luo Feng immediately rushed down from mid air.

Late night, within the vast wilderness, Luo Feng was within it practicing, simultaneously feeling the effects of the Blood river crystal.

Back when he had absorbed the 1st one, it was indeed very shocking. The mysteries of the crystal...especially its fusion with the universe energies, along with its increase in power with origin infused attacks were very enticing. Also the moment it's used, a blood red engraving would appear on one's chest, similar to the one of the golden horned beast's scales.

Only, this was simpler and weaker.

"Why do I feel that the mystery of the blood river crystal doesn't stop at just melding better with the universe energies?"

The blood river crystal should still have one more point!

That was...

Physical change!

"When I was absorbing it, I became an apeman, then a scaled beast, and even like a robot after. The changes were violent, yet, when they ended...I couldn't do it anymore." Luo Feng frowned. "However I still feel that the crystal should still have more special properties."

"Hm, I'll probably know after absorbing the 2nd and 3rd crystal." Luo Feng connected mentally to Babata, ready to absorb the next crystal after communicating.

"Babata, how's the sorting of the items from the four storage items. Were there any treasures?" Luo Feng communicated mentally.

"No treasures. However, there's something you should see." Babata emphasized.

"What item?" Luo Feng was curious.

Pa!

Babata threw out an item, it was a gem like item.

"This is a simple quantum computer communication tool." Babata said, "Just like the wrist communicator you use on earth."

"Communicator? On a large continent like Blood river continent, even if the signal travels at light speed, which was 300,000km per second, from one end to the other side of the world alone is a trillion km, how will it reach the other place instantly?" Luo Feng shook his head, "They don't have the virtual universe network."

This communication tool isn't an instant messenger, but made for distance communication. Even if the speed is slow, it's still faster than a person flying." Babata said, "And the tragic thing is...Luo Feng, when you killed that handsome envoy earlier, the other envoy had recorded it and sent it to a person called Si Yong."

Luo Feng's expression changed greatly.

Damn!

This was the disadvantage of technology.

Chapter 509: Decision

Si Yong was the world city leader of this side of the world. According to the universe levels, he was a sector lord!

The golden horned beast and Mosha clansman were only at domain lord level 6, and the domain lord and sector lord's biggest difference was the ability to unleash the strength of a world. They were able to control the world within them to allow their strengths to reach a shocking level...making the difference between a domain lord level 1 and sector lord level 1 extremely huge.

"Meeting Si Yong right now would really be suicide." Luo Feng understood. Communicating to Babata, "Babata, that Si Yong is the world city leader of this side, what do you think I should do next?"

Even though he had a plan already, asking Babata was still good.

After all Babata's experience in solving problems was much more vast!

"Flee, hurry and flee, the further the better." Babata said. "Since he's the world city leader of this side, then the distance from the World city to Swallow mound city should be about a hundred million km. At light speed, 300,000km per second, the message would have taken about half an hour for him to receive. However if he uses his top speed to rush over!"

"Top speed?" Luo Feng frowned.

1 hundred million km would still take a sector lord pretty long.

"Even the 2 domain lords had a ship, that sector lord would most definitely have 1 too. A universe ship barely reaching light speed in Blood river continent would allow him 3 hours to reach here!" Babata said.

"However when I killed the envoy, I was always wearing a mask." Luo Feng said.

"Don't rely on luck. Swallow mound is after all only that big. How would you know if within this time someone else has already noticed you? Remember, as long as there's a hint of danger, do not risk it. Also, don't look down on any sector lords." Babata said. "I have said what I needed to say, you can decide for yourself."

"You are saying that I may have been exposed?" Luo Feng frowned.

Leave?

After finding out about envoy Mo sending the footage of him killing the other envoy to Si Yong, Luo Feng immediately decided to leave! If he flew out of the 18 levels of clouds and sat in his automaton ship, who would be able to find him?

Only thing was...

Even though he was safe himself, what about Nabu and Na Ke? If he was truly exposed, then these two would definitely be affected. The small Na Family...against a raging sector lord, would instantly be razed into the ground.

“What about the Na family?” Luo Feng asked.

“What Na family?” Babata asked curiously.

Luo Feng swiftly gave a brief summary of what happened earlier.

“Hm, that is troublesome indeed. The Na family’s relationship with you, even though very few people know about it and it isn’t noticeable, with the sector lord’s ability, and this being his territory, checking and finding out wouldn’t be hard. How about this way, Luo Feng, you can rush over to Swallow mound city now and meet the father of the Na family! Let them decide for themselves if they want to leave with you or remain in Swallow mound city. If they come with you...you can bring them both to a different side of the world! This continent’s different sides of the world are just like your countries. They are competitive and at war. If they flee to another side, even Si Yong would not be able to find them in the vast sea of people.”

“Hm.” Luo Feng nodded, “Then let’s do that.”

He couldn’t care about absorbing the blood river crystal at the moment. Taking care of it after the matters were resolved wouldn’t be too late.

Sou!

Luo Feng tore through the skies into the clouds, swiftly reaching Swallow mound city at a shocking speed.

Swallow mound city, the night was bustling with activity.

Na Mansion.

“What’s going these few days? First the elder of the Pure feather family was dead, now even the city leader’s mansion has become a battlefield.” Nabu stood against the railing in the 3rd storey of his mansion, leaning and gazing at the distant city leader’s mansion.

“Nabu, come in.” A voice suddenly resounded.

“Hm?” Nabu was shocked. Though he was shocked, he turned and walked in and saw a black armored black haired youth sitting there. Nabu was suspicious, “This late at night, just what has brought this mysterious warrior to my house?”

“Lord Feng.” Nabu bowed.

“Wait a moment.” Luo Feng sat there.

Ji Ya!

The door below creaked open and footsteps could be heard climbing the stairs. Very quickly, Nake appeared too and rushed into the house. Seeing Luo Feng, he said excitedly, "Big brother Feng, you've come. Why have you called me to come over."

"Hm?" Nabu was even more suspicious, why has this mysterious warrior gathered them both.

"Time is of the essence now. I won't go through formalities with you too, I'll give you a quick summary of the situation." Luo Feng emphasized.

Nabu was shocked, saying, "Lord Feng, please speak."

Luo Feng swiftly explained to them about the situation. Nabu's face grew paler as he listened, completely shocked, my god, the family leader of the Pure feather family, elder, Rockwind family's general, city leader, even 2 special envoys, they were all killed by this mysterious warrior before them.

This, this, this...

Envoys of the undying shrine!

This mysterious warrior was too terrifying!

Nabu's face was pale, and little Na Ke was completely stunned too...these were all legendary figures.

"That's how things are, Na Ke, Nabu, you choose." Luo Feng emphasized. "To remain in Swallow mound city or allow me to bring both of you away! If you stay here, there's a high possibility of being exposed."

Nabu frowned, within his mind he calculated.

Na Ke's mind was in a mess too.

Luo Feng sat in the chair looking at the father and son, and felt rather guilty towards them. If it weren't for him, these two would probably be able to lead a very normal life. However, because of his arrival, the Na family was thus dragged into danger itself.

"Hm." Nabu gritted his teeth.

"Have you decided?" Luo Feng looked at Nabu.

"Right." Nabu nodded. "I'm prepared to remain here in Swallow mound city, living my normal life. However, I wish for Lord Feng to take my son and leave swallow mound city!"

"Father!" Little Na Ke's eyes were red. He shouted, "I don't want to leave you!"

"Don't make a fuss!" Nabu roared.

"Father!" Little Na Ke was about to cry.

Luo Feng quietly watched the scene, he could only remain silent.

"Lord Feng, it has to be this way. I believe it because my contact with you has been very minimal. Also, so what if we recognize each other, we've only met 2 or 3 times. It cannot be considered a deep relationship. That and the city world leader wouldn't necessarily be able to find out who the killer is." Nabu smiled, "The most important thing is...I can't bear..."

Nabu's eyes were filled with sorrow, "I can't bear to leave my family business!"

"Hm." Luo Feng nodded. "Nabu, for your safety, before I go, I will use my soul techniques to wipe your memory of tonight! Then even when others use soul techniques to interrogate you, they won't be able to find anything."

"That's good, that's good." Nabu nodded, following which a look of longing appeared on his face. "Lord Feng, can you leave me and Ke Ke for awhile?"

"No problem." Luo Feng walked out of the house to the study beside and waited patiently.

.....

Luo Feng felt a bitter feeling within.

.....

Within the house, Nabu and Na Ke were saying their goodbyes.

"Don't cry." Nabu smiled and looked at his son.

"Father, father." Little Na Ke was crying madly. He had grown up being pampered by his father, however when it was really time to separate, he couldn't bear to leave.

"We must always look at things from different perspectives." Nabu looked seriously at his son. "Ke Ke, there's always a good and bad side to everything. For us to meet Lord Feng this time...it may seem like a disaster since we have to separate, but you must understand, this Lord Feng could have easily left by himself. But he purposely came to look for us, what does it mean? It means he favors us, and he is apologetic about this."

"Fortune and misfortune are linked!"

"This may be a disaster for the Na family, it is also a chance for our family to greatly rise up!"

Nabu's eyes gleamed, "Blood river continent, everyday tens of millions of people die and countless more risk their lives just to simply find a strong teacher! This Lord Feng is an absolute warrior. Didn't you hear, even the elder of the pure feather family, our city leader, and the 2 special envoys from the undying shrine were all killed by him. What terrifying level of power is this?"

"On this continent, wealth is nothing. Only strength is real!" Nabu looked at Na Ke, "Ke Ke, you have hopes of becoming an absolute warrior of this large continent! In the future, you may even become the leader of an entire territory, controlling the lives of trillions of people.

Na Ke was shocked.

"Remember!"

"This is a great opportunity, grab it!" Nabu looked at his son. "After I die, I'll have the face to meet our Na family ancestors! Understood?"

"Hm. Hm." Na Ke's eyes were watery, yet he nodded fiercely.

“Very good.” Nabu revealed a smile. He rubbed his son’s head and gently hugged him, saying softly, “Your father’s biggest worry is his son. Our Na family doesn’t have enough military strength. Just like the Yu Family, without any strength, they had to be uprooted within a night. I was worried about you. Your personality is different from mine, I was able to establish the business, but your personality...now it’s ok, I don’t need to worry anymore.”

Na Ke could only cry within his father’s embrace.

.....

After a while.

Within the building Luo Feng stood before Nabu, emphasizing, “I will wipe your memory of this night. After which, you won’t even know where your son went.”

“Go ahead, if I don’t know...there’s no way for others to know.” Nabu smiled and nodded.

“Hm.” Luo Feng nodded.

Immediately a thread of spirit energy invaded Nabu’s soul. Wanting to analyze and swallow one’s memory was difficult. Normal soul searching techniques was more troublesome, destroying however was easy. Simply wiping a part of a memory was extremely easy. This can even be achieved simply through hypnosis, that alone was enough to leave an imprint and seal the memory.

As the disciple of the Soul master Hu Yan Bo, this level of surgery didn’t have any difficulty for Luo Feng.

After a while.

“Hm, what’s going on?” Nabu’s head was in a blur. Looking around the empty house and finding himself sitting in his study, “Did I just fall asleep?”

Nabu had completely forgotten what happened before.

He didn’t even know that his son had already left Swallow mound city with Luo Feng.

Chapter 510: Leaving

Night.

Luo Feng brought little Na Ke and rushed into the sky. Na Ke couldn’t help but look back down at Swallow mound city, as tears were flowing from his eyes.

“Na Ke, sleep, sleep, once you awake it’ll be ok.” Luo Feng gently said. His voice had an unbelievable amount of power, Na Ke could only feel his entire being drift into a blur as his eyes closed and he fell asleep.

“Now that he’s asleep, there’s less trouble.” Luo Feng rushed into the skies breaking through the many levels of clouds.

In one breath he rushed to the 18th level. Any higher and he would leave Blood river world.

With a thought, a silver pyramid appeared beside and Luo Feng carried little Na Ke into the universe ship.

Within the control room.

He placed Na Ke into a resting room for him to sleep in, Luo Feng then came to the control room.

“This is Blood river continent’s map. Babata, help me take a look and tell me where the coordinates of the ancient god ruins are.” Luo Feng’s consciousness connected to Babatas. Babata quickly calculated, returning to Luo Feng the area of coordinates, that territory belonged to the ancient god ruins region.

Even with any errors, it wouldn’t be too far away.

“Let’s head out towards the ancient god ruins! We’ll proceed 16 billion km and stop.” Luo Feng gave the order to the automaton ship. Actually the AI of the automaton ship...was a subsidiary AI that Babata had created. Under normal circumstances, it could perfectly control the ship.

However when it was times of crisis, Babata would take over and control the automaton ship with the optimum control.

“Yes, master.” The ships AI responded.

Sou!

The ship soared through the clouds and swiftly flew in space.

“External simulation 100%.” Luo Feng ordered.

Immediately before him a simulation of the space outside showed. One side was space while the other was the outermost layer of clouds from Blood river world.

“The vast blood river continent.” Luo Feng looked at the continent from space. “Yet no one dares to leave the cloud levels, the strength of the Virtual Universe Company is... too strong!”

“Babata, help me prepare a file for nurturing Na Ke. I cannot accompany him, I can only arrange for the best for him.” Luo Feng sighed. Babata’s voice resounded in the control room, “This little matter, you have quite a few treasures on you, plus the many others the dead domain lords gave you. Nurturing a little punk is very easy.”

After a while.

Luo Feng acquired a detailed nurturing plan for Na Ke.

As Luo Feng sat in the automaton ship, it was swiftly flying in the space above blood river world.

A silver black marked disc shaped universe ship with a diameter of 180 m appeared in the 16th cloud level above Swallow mound city.

Hua!

The leader of the group was dressed in black armor. His blue hair was floating about and his eyes seemed vast and boundless. Behind him were four purple armored men and women. They all hid their strength, revealing only domain lord level power. "I wish to know, just who has such guts! To kill my disciple in my territory!" The blue long haired black armored man's eyes were like lightning, shooting down below. Even the cloud layers below split apart from his gaze, allowing him to easily see the tiny Swallow mound city below.

"Let's go down!" The blue haired man said coldly.

"Yes." Behind him the four purple armored domain lords followed respectfully. These 5 shot down like lightning, and the floating universe ship behind them vanished.

.....

After a short period of time.

Within the city leader's mansion, even though a part of it was already destroyed, the city leader's mansion was even larger than the Pure feather family mansion. Hence, a large portion of it was still perfectly undamaged. In one of the palaces...whether it was Swallow Mound's families, sect, army, information system and so on, all the department heads and brains had all arrived.

Silence!

The palace was completely silent. That formless pressure caused the group of prominent figures to perspire from their foreheads, and kneel respectfully on the ground, because they knew the man before them was...

The world city leader!

The leader of this side of the world!

"Your city leader Rock Wind Xiong is dead!" The blue haired black armored man sat above and said coldly. The group below him were stunned. "The two envoys from the undying shrine passing by Swallow mound city are dead too!"

The group below was even more shocked.

They really didn't know!

"The murderer is him!" The blue haired man waved his hand and immediately a bunch of paper floated onto the ground. On every piece was a picture of a black fully armored silhouette with boots and helmet, that was using a 6 edged shield and blood shadow blade. Actually, this picture...was simply a screenshot from the footage that was sent.

"Murderer?" A group of people looked at the paper.

"The face has been blocked? Wearing black armor, everyone wears black armor around. How do we look for him?" The group were suspicious and helpless. "If he changes his look after killing them, how will we look for him?"

“We can confirm that he is a pinnacle domain level warrior.” The blue haired man said coldly. “Activate all your resources. Go look and check if any suspicious domain level warrior appeared in Swallow mound city within this past period.”

“Yes!”

The group knelt down.

“I want to get a report before daylight tomorrow.”

“Yes.”

The group left after. The blue haired man stood in the palace and was looking outside through the window as though he was looking at space. “To have the guts to kill my, Si Yong’s disciple, and to steal my blood river crystals. Hmph!” A cold snort resounded within the silent palace.

The Automaton ship was flying in the space above Blood river world. It began to slow down after about 22 hours.

“Master, we’ve already reached 16 billion km away.” The voice resounded within the control room.

“Hm.” Luo Feng nodded.

He went into the resting room and carried the sleeping Na Ke. He swiftly followed the pathway within to the cabin door of the ship. He then kept the ship and headed down towards through the blood river atmosphere.

Rumble!

Rushing through the 18th, 17th, 16th levels...

“Na Ke.” Luo Feng shouted.

“Hm.” Only then did Na Ke wake up. He looked at where he was floating in mid air, as he was carried by a formless energy, and before him stood Luo Feng.

“Big brother feng.” He was fully awake only now.

“Follow me down.” Luo Feng brought Na Ke, swiftly breaking through the 1st level of clouds, causing Na Ke to be shocked as it was still late night. Blood river world’s night was 6 to 7 times longer than a night of earth, and the distance of 16 billion km, caused the region below to look close to the time they left Swallow mound city.

Luo Feng brought Na Ke into the closest city. This city was called Meng Na city. It had an area of 10 million km, the side of the world they were in was called Yu Rong World.

.....

“This Meng Na city is actually in Yu Rong world and is about 10 worlds apart from the Si Rong world before.” Na Ke was very shocked. “Big brother Feng, how long have I been asleep?”

“Relax, not even 30 days.” Luo Feng said.

Blood river world's 30 days was about half a year earth's time.

In truth, Na Ke had only slept for over 20 hours. However he would never know. With blood river continent's different world's attacking each other, plus it being simply too vast, there was no uniform timeline.

"Not even 30 days? That's good." Na Ke nodded. "I heard from many warriors that travelling 10 worlds would require a long amount of time."

.....

After settling down for a day in Meng Na city, Luo Feng placed Na Ke in that city's Rain Blade sect. The leader of the sect personally welcomed the both of them.

"This is the punk I told you about, I'm leaving him here in your sect. When I finish my training, I will return to take him. When that time comes, I will naturally thank you." Luo Feng looked at the Rain Blade sect leader before him. The leader nodded, "Relax, this little matter won't be a problem!"

The leader of the sect was a skinny yet intrepid old man. As a cloud level (universe level) warrior, he was a prominent figure in Meng Na city.

However Luo Feng's arrival last night had indeed shocked this old man. "This black haired youth, his power is beyond my comprehension, and I have no resistance before him. He should be a domain level warrior, and he's really generous. To be on good terms with such an absolute warrior, that's extremely lucky!"

At this time.

Na Ke began to stay in the Yu Rong world's Meng Na city, Rain blade sect.

"Na Ke!"

"Your study of the bow and arrow before shows that your spirit energy is indeed strong. These are the spirit reader training techniques I have prepared for you." Luo Feng took out a thick book, it was something Babata had printed using this world's paper. Using this world's words, a training manual for a spirit reader, from basic to deep had been created.

Actually, this was something only the elite disciples of the Yun Mo Planet could study.

"This training manuals, as long as you can study it, you can use it until you become an undying spirit." Luo Feng said.

"Big brother Feng." Na Ke looked surprised at the book before him. My god, the many worlds of Blood river continent were all fighting for valuable things. This manual that worked from star traveller level to undying, just how valuable was it.

"These are several suggestions I've prepared for you." Luo Feng took out a thin book. "In it I've put down on how to use the treasures to enhance your training efficiency."

"These are some treasures." Luo Feng handed over a space ring.

“Using these treasures, as long as you train seriously, you can definitely become cloud level without any problem. As long as you work extra hard, you have the possibility of becoming domain level (domain lord). As for proceeding further, that’ll depend on yourself.” Luo Feng smiled at Na Ke.

Na Ke was shocked.

It was a gift from the heavens...

As long as he seriously trained, he could become cloud level (universe level)? Looking at the leader of the Rain blade sect, to be able to open a sect in a city, cloud level...this was definitely an absolute warrior in this city.

“Thanks, thanks.” Na Ke was so excited his eyes were red.

Luo Feng smiled.

What was this?

Back then, his teacher, the master of the Yun Mo Planet had prepared treasures for him to rush to the domain lord and even sector lord level! As long as he didn’t worry about the price, he could completely nurture a universe, domain lord and sector lord. Of course the price worth was simply too low. For example, the cost of creating a universe level alone could actually be used to buy an army of slave universe levels!

This Na Ke, was an aboriginal of Blood river world. He was born as a star traveller, plus with this world’s environment...his innate ability was much stronger than Luo Feng back then.

Luo Feng had only prepared some treasures enough to nurture him to cloud level!

“I know you really wish to return!”

“But remember!”

“Before cloud level, I definitely won’t allow you to return.” Luo Feng emphasized. “Travelling 10 worlds is simply too dangerous. Without the strength of a cloud level, that will simply be suicide.”

“Hm!” Na Ke nodded.

Luo Feng smiled, “Alright, whatever I’ve given you, don’t tell another soul.”

“That I know.” Na Ke was from a business family. Naturally he knew the outcome of revealing the treasures.

“Haha, I’m leaving.”

Luo Feng smiled and turned, vanishing from sight, leaving only Na Ke there.

Na Ke grabbed the thick book in his hands, flipping it open, the words on every page were very small, and the amount of information within was shocking.

“Father, you were right, this opportunity is a big one!” Na Ke kept the book in his space ring and his eyes were filled with resolve. “I will definitely train until I get strong, definitely!”
