

SWALLOWED 521

Chapter 521: Savage Beast Qi Niu

“Isn’t becoming a black warrior extremely hard?” Luo Feng was curious, asking, “From the books I’ve read, becoming a black warrior is almost simply a legend. However, to become a blood warrior, people still have some hope.”

“But of course.” The tall blood god guard laughed loudly, “Black warrior, that is the pride of our Blood River continent. Only after an immeasurable amount of time will one be born. And it’s been very very long since we’ve had a black warrior. Afterall, absorbing the blood river crystals, every one would have an increased requirement of ten times from before, and every person’s body has a limit. After a certain extent...the killing aura of the Ancient God ruins won’t have any use on the body. At that time, then that’d be no hope.”

Luo Feng was shocked.

Limit?

Right, he had only absorbed 2 crystals currently, and the killing aura was still benefitting his body. However one’s body would have a limit afterall. When that is reached, even staying in the Ancient God ruins wouldn’t be effective at all.

“Let’s hope that my body can take more.” Luo Feng thought.

“Come, 97. Let me introduce you.” The tall blood god guard walked towards the others. “I am the captain of the guards, number 1. You’ll call me captain from now on. This is number 2, the vice captain.”

“97.”

“How do you do 97.”

The many bronze armored warriors walked up to introduce themselves to Luo Feng, because they were all clear that the title of blood god guards were the closest guard team to the Blood God. They were like his right arms. In the future, their group would go through thick and thin together. Hence, they had to get close and be on good terms with each other. Afterall, they would become life and death brothers.

“97, you are the smallest.”

“Small and young.”

“Haha, 73, don’t look down on 97. This 97 is the only cloud level that has been allowed in.”

“You bunch of punks. 97, he even killed a blood demon. According to the levels of the outsiders, that is a domain lord level 1 blood demon.” The blood god captain Number 1 laughed loudly. “Their levels are ten times different, and that blood demon has even stepped through the laws gateway. However, 97 still won so simply. In terms of origin law comprehension, most of us don’t even compare to him.”

Immediately the group of guards all looked shocked at Luo Feng.

Luo Feng was shocked within.

One of the reason was because the captain knew of the term domain lord and the levels. The second reason was because he actually knew that Luo Feng had won easily against the blood demon, knowing that the demon had also stepped through the entrance of the origin laws.

And the lord before hadn't spoken much in detail before too.

"Looks like, my battle before had been completely monitored." Luo Feng thought. "Right, him and the vice captain, are the considered to be right hand and left hand of the blood god. Them and the blood god Baqi were all sector lord level. Sector lords could use their world energy...the wonder of the world energy. This was something his earth body had yet to discover, it was normal."

"97!"

The captain number 1 smiled at Luo Feng. "From now on, we are all life and death brothers, all blood god guards!"

"Hm." Luo Feng nodded.

"Haha...come, follow me." The captain looked at the others. "All of you return to your posts, go back to your training and whatever."

"Yes, captain."

"Understood, captain."

"Little thing, we'll chat next time."

A group of bronze silhouettes spoke and became beams of lights heading in all directions.

.....

The captain brought Luo Feng. They were walking along the bottom of the huge pit and talking along the way, "The Ancient God ruins is the most ancient and mysterious place of our Blood River continent. Back then, our ancient warriors of the continent defended against the outsiders here. The outsiders were extremely strong, you cannot even begin to imagine."

"Ah?" Luo Feng was shocked. "Just how strong are the outsiders?"

"I don't know either." Number 1 shook his head. "Anyway they are just terrifying. Just imagine, back then many undying spirits fell in this Ancient God ruins. From this, you should already know how intense and tragic that battle was."

"Enough about the outsiders, I need to warn you of...the Ancient God ruins! Don't wander about alone here." Number 1 emphasized. "The lord is training in his palace here. The duty of us blood god guards is to protect him, killing enemies around. As he is training here, naturally we are all training here in the ruins too."

"Hm." Luo Feng nodded.

Training in the Ancient God ruins was a good thing.

“However here in the ruins, there are many dangerous places. This huge pit is one of them.” Number 1 pointed into the sky. “Above, is the killing aura whirlpool. The aura at the whirlpool core is terrifying. The aura there will make one unable to resist, it’s terrifying.”

“Whirlpool?” Luo Feng pretended to be curious. In truth, he had already seen it before.

“Hm, this bottom and the top part of the pit, the aura is already thick enough.” Number 1 said shocked. “However the closer you get to the whirlpool core, the thickness grows even more. I’ve heard that in the core center, the thickness reaches close to 10 times!”

“Close to 10 times?” Luo Feng was truly shocked now.

Before, he had made it to a region of 8 times, he could already see with his naked eye the core center of the whirlpool, and did not dare to approach closer.

“Hm.” Number 1 emphasized. “It’s very dangerous there, even my willpower can at most take up to 5 times only. I’ve heard that our lord is able to reach a region of 7 times.”

“7 times?” Luo Feng thought, just weaker than himself.

However to be able to reach 7 times, this blood god Baqi was already named a genius from a trillion years on Blood River continent. In terms of pure willpower...Luo Feng was already much stronger than many sector lord pinnacles.

“Hence, you have to be careful.” Number 1 emphasized. “The moment you rush in and get invaded by the killing aura willpower...you will become like the blood demon you defeated before.”

“Hm.” Luo Feng nodded seriously.

This huge pit is one of the dangers of the Ancient God ruins. such a place, there are probably millions of these in the entire ruins. All are incomparably dangerous places where the aura gathers.” Number 1 exclaimed. “There are also many other dangerous places that haven’t been discovered over countless years. Anyway, recklessly wandering about will be tragic.”

Luo Feng was shocked

Millions of such places?

“Follow me to the palace.” The captain became a beam of light.

Luo Feng followed.

Luo Feng looked ahead at this palace that was erected amidst the red aura. It was about 2 km in length and width, and was a total of 7 storeys tall.

“Come in.” The captain entered and Luo Feng followed.

Very quickly arriving at the 2nd level.

“Ah?” Luo Feng’s ears moved. Looking in the distant room, that door was open, from within it, weak howls resounded.

The captain looked at Luo Feng's expression and explained. "That's where we tame the blood demons."

"Ah." Luo Feng nodded.

Blood demons, also the mad warriors.

"Our blood god guard living quarters are on the 3rd level." The captain arrived at the 3rd level and followed the pathway, simultaneously pointing at a 1m wide walkway, "Beside every room is a number, from 1 to 200. Right now, 96 of them are taken, yours will be 97!"

3rd level of the palace, room 97, the door automatically opened.

"Di!"

A green light shined on Luo feng who had just entered.

"This is?" Luo feng was shocked.

"Don't be shocked. This is a quantum computer that manages the entire palace." The captain smiled. "These quantum computers were acquired from the outsiders back from the Ancient God battles. However, creating these quantum computers was extremely hard. Even among the undying shrines, only the upper levels have it."

"Ah." Luo Feng gave a look of envy.

Quantum computers? There was plenty in the universe, one could buy as much as he wanted. And he had a living AI that was much better.

Room 97, it was 20m tall and 30m long and wide room.

"This is your genetic armor." The captain pointed at a bunch of stuff neatly organized on the ground. "These genetic armors will defend you according to how strong your genetic energy is. Simultaneously, it will change according to your will and is able to seal up all vital areas. Even if broken, it can quickly regenerate. It's a very advanced armor. Only very few in blood river continent have it."

"Hm." Luo feng stared at the bronze armor.

"This is a communication device!" The captain pointed at the bracelet beside. "Wear it, and through it, you can contact the other guards and the lord! Simultaneously...the lord will know where you are from it!"

Luo Feng hesitated a little.

Communication device?

Probably more of a surveillance device.

"The lord has ordered that no blood god guard, without the lord's orders, can leave him more than 100k km. If one does so, he would be deemed a traitor and killed." The captain stared at Luo Feng and emphasized. "You must always remember...the moment you betray the lord, with his future position in the undying shrine, there's nowhere for you to run in the entire Blood River continent."

"Understood." Luo Feng nodded.

Boom!

Luo Feng felt the ground of the palace slightly tremble. Boom! Boom! Trembles resounded all over. It was a heavy sound, it almost felt like the footsteps of a giant that was nearby.

“Hm?” The captain was shocked too, quickly leaving the room.

Luo Feng followed out of the room into the walkway. With one look, he could see ahead of the 10m wide walkway, there was a 12m tall, 20m long 4 hooved beast. From its appearance, it was similar to the bull like animals of earth. The muscles on its body solid and wrapped all about. There were also two curved horns protruding from the top of its head.

Those hooves were as thick as water jars, sturdy and forceful.

Its entire body was bronze in color, and the eyes were blood red. The most peculiar thing was its horns, they were so sharp that it made hearts tremble. Just from its walking along the pathway alone, its horns seemed to tear through the air and shake the space.

“Lord Qi Niu.” Number 1 bowed.

“Hm!” That 4 storey tall beast Qi Niu gazed down at Luo Feng. A fierce energy emanated from him, “He’s the new 97?”

“Yes, Lord Qi Niu.” Number 1 said, simultaneously communicating to Luo Feng, “97, this beast Qi Niu...is even stronger than our lord. His position in the undying shrine is very high too. He’s like brothers with our lord.”

Luo Feng was stunned.

Chapter 522: Ecstasy

Wild beast, their position in the Blood river continent was very low. There were those that were tamed and used as riding beasts, others were directly killed and their bodies were used for materials.

In all, the beasts had always been suppressed by humans.

“A wild beast Qi Niu was actually able to hold a high position within the undying shrine? Even if it was strong, it wasn’t an undying. Yet, for it to get a high position that is simply unbelievable! The undying shrine, that was the highest governing echelon of Blood River continent.” Luo feng was shocked, simultaneously bowing and looking at the wild beast ahead of him, “Lord Qi Niu!”

The wild beast Qi Niu stood in the walkway, lowering his gaze to look at the tiny dot.

“Hm!” A burning energy emitted from his nostrils, almost like two burning heatwaves, his red eyes stared hard at Luo Feng.

Rumble!

In an instant the world came crashing down. A formless pressure immediately acted on Luo Feng's soul, almost like a heavy hammer smashing on his soul, causing him to snort involuntarily, as heavy sweat was beading from his forehead. However, he still stood his ground, posture upright, as he was obviously not submitting.

"Lord Qi Niu!" The captain number 1 shouted. "97 is still only cloud level."

"Hm."

A low sound resounded from his nostrils, following which the pressure vanished.

"This 97 is not bad!" Qi Niu's voice rumbled. "I think he can take very strong killing aura as well. Here's two blood river crystals! Take it as a gift from Lord Qi Niu and absorb it well. After you've absorbed these two, come and look for me for the 3rd one."

Two prism shaped crystals suddenly appeared in mid air and floated towards Luo Feng.

While floating, the beauty of the blood red crystals made one's heart tremble.

"Blood river crystal?" Luo Feng's eyes gleamed and extended his hands to receive them.

"Quickly thank Lord Qi Niu." The captain said.

"Thank you Lord Qi Niu." Luo Feng bowed.

"Hm."

Another two hot waves of heat burst from his nostrils and with a snort, he gradually walked away. Each step from his thick hooves, the moment one landed, he was already far away, finally he vanished.

"This wild beast Qi Niu has such strong pressure and strength. Back when the captain said he was stronger than blood god Baqi, that was definitely the truth" Luo Feng watched Qi Niu vanish. Feeling happy within, he gripped the two crystals gleefully. "hehe" These were the easiest crystals he had acquired.

Back in Swallow Mound city, he had acquired 14 crystals, (Rockwind brothers a total of 3, Pure Feather Tao 1, undying shrine envoys 10).

Later, in the Ancient God ruins, he encountered the 4 geniuses from the undying shrine. While ambushed, he killed 1 of them, and was able to acquire 1 more.

A total of 15 crystals! For every one of them, he had to kill to get them. Only these 2 in his hand...

"97, as long as you can absorb, Lord Qi Niu will supply you with blood river crystals." The tall and sturdy bronze armored warrior number 1 laughed carefree. "Right now amongst our blood god guards, only 5 of them are able to absorb 3 crystals and successfully become blood warriors! I have high hopes for you."

"Hm!" Luo Feng nodded, following which he asked curiously. "This blood river crystal, I can ask for as many as I want?"

"Of course not."

Captain number 1 smiled and shook his head. "The crystals are treasures of our Blood River continent! However, the number of crystals each person can absorb...is truly too little. Over countless years on this continent...it's been a long time since anyone has absorbed 10 crystals and become a black warrior. The number of crystals Lord Qi Niu provides is sufficient."

"Ah." Luo feng nodded.

Sounds like...

Within this blood god Baqi's place, the person in charge of giving crystals was actually Qi Niu.

"You should know everything now." Number 1 nodded. "Right now you can train within the training grounds of the palace or look for an isolated spot outside! You are here as a guard and not a prisoner. However the single requirement, you should know right?"

"100k km, I have to be within a 100k km from the lord at all times." Luo Feng smiled.

"Very good."

Number 1 nodded and left.

Palace level 3, training room 97.

Luo Feng wore the bronze armor and wore the communication device. Shaking his head, "This communication device sure is simple, a simple and fixed system. In terms of technology, it's about the same as earth's communication watch back then."

"Blood god BaQi, wild beast Qi Niu, 96 blood god guards." Luo feng 's mind was swiftly filled with thoughts. "According to the gathered data, Blood god Baqi should be a sector lord pinnacle who had absorbed 8 crystals and was known as a 1 in a trillion years absolute genius in the undying shrine. This was definitely a high ranking."

"Wild beast Qi Niu is stronger than BaQi. Like brothers with BaQi, he should be the 2nd most important figure in this power."

"96 blood god guards all have high talents. They have 2 sector lords and 94 domain lords."

"Right now in this Ancient God ruins...they are mainly here for blood god Baqi's training." Luo Feng instantly understood, why during his two years in his huge pit quarters, he never discovered any warriors below. This was because blood god Baqi was in training, and the guards couldn't leave too far.

"From the looks of it."

"Even though I've become a guard, later on it should be more relaxed." Luo Feng wore the bronze armor, and boots and was just about to leave when 5 silhouettes entered.

"97!"

"97!"

These 5 were all dressed in the same bronze armor, their physiques however were completely different. They all smiled and waved.

"12, 19, 33, 78, 83." Luo Feng shouted familiarly.

"When we were in our training rooms earlier, we discovered Lord Qi Niu had arrived." Number 12, who looked almost like a skinny teenager smiled, "According to the old rules, Lord Qi Niu should have given you 2 crystals right?"

"Hm." Luo Feng nodded.

"97, have you absorbed any crystals before?" Beside, the fat and bulky 19 asked.

"I've absorbed 1 before." Luo Feng said.

The 5 guards and Luo Feng thus began a casual chat. Luo Feng had already planned his background well, the group chatted for awhile and half an hour later, the 5 of them left. As they left, number 12 emphasized, "97, remember, whenever you meet Qi Niu, you have to respectfully call him Lord Qi Niu."

"Right, you cannot disrespect him at all. Whoever does, he will get extremely angry." The handsome 83 said.

"Ah?" Luo Feng was curious, "I actually don't know his strength, how can he be even stronger than Lord blood god?"

"Haha..."

"Wild beasts are separated into 4 categories. Category 1 reaches the ground level at maturity, 2 reaches the sky level, 3 the cloud level, 4 the domain level." 12 spoke cleanly and fast. "And the wild beast Qi Niu, is in the 4th category. He was born with a domain, a gold domain."

"The higher the category, it represents the stronger bloodline and the more exceptional body."

"You should know..."

"This blood river crystal can be used by any flesh and blood living creatures. Not just us humans, wild beasts...too can absorb the crystals." 12 smiled.

Luo Feng felt a clap of thunder in his mind.

Any flesh and blood living creatures can use?

"Haha, 97, you don't seem to know?"

"97." Blood god guard 83 exclaimed. "Compared to humans, the wild beasts' bodies are stronger and more exceptional. They can normally absorb more than us humans. According to the experience of the undying shrine, beasts that are proficient in metal type normally absorb the crystals even better and gain more benefits."

"Qi Niu, is a high level beast...category 4, who is also proficient in metals."

“Hence, every wild beast Qi Niu, can at least absorb 3 crystals. And the exceptional ones among them can even absorb 10.” 83 exclaimed. “This Lord Qi Niu, has already absorbed 12 crystals. Plus, he’s a sector lord pinnacle, hence he is terrifyingly strong.

Luo Feng stood there stunned.

Silence.

“97?”

“What’s wrong 97?” The other 5 shouted.

“Ah...”

Luo Feng awoke, exclaiming, “I was too shocked. From the books I’ve read...it’s already been countless years since the appearance of a black warrior. It’s already become a legend. I didn’t expect Lord Qi Niu to have already absorbed 12 blood river crystals!”

“Humans and beasts are different.”

“No point in being jealous.”

“Luckily, category 4 beasts are very rare.” The 5 exclaimed.

“Hm, right.” Luo Feng followed suit beside.

Finally the 5 left.

When they left, with only Luo Feng remaining in the training room, he shut the door and revealed a look of ecstasy.

“My god!”

“My god!”

“I’m such an idiot, really an idiot. I actually didn’t even think of it!” Luo Feng’s look was that of pure ecstasy. His fists gripped tight and madness roared within, “Any blood and flesh living being can absorb the crystals. Blood and flesh...right, the blood river crystal is absorbed through the blood and it changes the body’s cell structure.”

“Humans are blood and flesh life forms.”

“So is the golden horned beast!”

Luo Feng was extremely excited. “It’s extremely taxing for my human body to absorb the crystals. However, what about the golden horned beast?”

“They had said earlier that the higher the level of the body, the easier it is to absorb. Especially those proficient in metal types...”

“Even though, I don’t know why one has to be proficient in metal types to have better benefits for the absorption!”

“However!”

“The golden horned beast, that is the most pinnacle bloodline in the entire universe, reaching sector lord at maturity! It is born with 3 great natural talents. It is proficient in metal types, is also a favored child of the universe gold laws.” Luo Feng was extremely excited. “Compared to the golden horned beast, that wild beast Qi Niu is nothing!”

“If that wild beast Qi niu can absorb 12 blood river crystals!”

“Just how many can my golden horned beast absorb?”

“Haha...”

Luo Feng couldn't suppress his ecstasy within. He had a feeling that the golden horned beast was originally his strongest trump card. And absorbing the blood river crystals, may give a new change to the already intrepid and powerful golden horned beast!

Chapter 523: Golden Horned Beast's Change

Palace level 3.

Luo Feng who was dressed in the bronze armor, swiftly left the training room and exited the palace entrance.

“To the Huge Pit quarters!” Luo Feng looked up in the sky at the red killing aura that was revolving and he rushed into the sky.

Sou!

The huge pit was very deep, Luo Feng continued to fly upwards.

“97.”

“97.” Two voices resounded in his mind, causing him to stop and float in mid air. To be able to detect him without him even knowing, other than Baqu within the palace and Qi Niu, only the two captains of the blood god guards would be able to do it.

Luo Feng looked around and floated there, replying respectfully. “Captain, vice captain.”

“97, where are you heading to to train?” A thick voice resounded around him.

“Captains, for the past two years, I have been training in a cave along the mountain wall above.” Luo Feng explained. “Hence, I'm prepared to head there.”

“97, this high altitude region is mine and number 2's jurisdiction.” The voice continued. “You'll be safer training below! Of course...the lord has ordered that no one is to leave more than 100,000 km away. You can go to your cave quarters, however we cannot observe and guarantee your safety.”

The two captains of the blood god guards were sector lords.

The two of them released their world energy around to scan. While training they naturally maintained their surveillance, however their range was limited.

“The moment there’s danger, I will come down immediately.” Luo Feng said respectfully.

“Hm, since you insist, then go on.”

“Right.”

Luo Feng bowed respectfully and immediately rushed into the sky.

.....

Deep in the huge pit, within the platforms of uneven walls on the side of the mountains, there was a tall and sturdy bronze armored silhouette sat crossed legged. “This 97 is extremely gifted, and the lord favors him too. However...the most important thing to becoming a blood god guard is loyalty! Number 2, from what I see, this 97 hasn’t completely submitted to the lord yet.”

“Number 1!”

A noise resounded from 10,000km away on yet another platform. “Geniuses are all confident and proud. It won’t be easy to get him to submit completely. He also only submitted from being forced by the lord...let’s just see how it goes. The lord will be training for a while. In the meantime, we will observe him. If we find any other motives of his, it won’t be too late to kill him!”

“Hm, you are right. If and once we find enough evidence we’ll kill him.”

The two sector lords at a distance of 10,000km, communicated and made decisions.

.....

Even though the group of blood god guards treated him well, they were still ultimately most loyal to the blood god Ba Qi. Loyalty and strength couldn’t be lacking at all! And Luo Feng obviously hadn’t received the recognition of the group of guards yet, especially the two sector lords...who had special privileges.

They always observed the other guards, and had the right to punish them.

Ancient god ruins, huge pit, huge pit quarters.

A green light pierced through the cave, following which it condensed. It was the bronze armored Luo Feng. He sat on the stone chair excitedly.

“This purpose of this communication device is to keep track of me.” Luo Feng looked at his bracelet. “If I leave more than 100,000km away or destroy it, it would arouse the attention of the Blood God. However...since there’s no danger and instead, there are benefits, I have no need to leave. I’ll temporarily remain loyal here as a blood god guard.”

Luo Feng smiled, he flipped his hand.

In his palm a space ring and a black stone appeared. This black stone was the Moshu transformed body, the space ring held within it, the 15 blood river crystals!

He had acquired 14 in Swallow mound city, killing the undying shrine genius gave him one more and Qi Niu had given him another 2.

And his earth body had already absorbed 2, hence he had 15 left.

“Let’s begin!” Luo Feng muttered within.

Shua!

The black stone touched the space ring and immediately vanished into his palm, entering his internal world.

.....

Internal world.

The skies were engulfed in endless gold mist. This vast continent was completely gold, and only the edges were black, and this continuous mountain range was at least 10km long.

Shua!

The black stone appeared beside this black mountain range, following which it transformed into a black clothed Luo Feng. In his palm was a space ring...the ring which held the 15 crystals. Right now, the internal world could take in foreign items that he brought in and not destroy them.

Other living things that tried to enter would all be destroyed!

Whether it was swallowing some life form or materials, all of them would be digested. If he over ate and couldn’t digest everything, it would bloat the internal world and it would implode!

“15 blood river crystals, mysterious crystals. It’s a pity that only flesh and blood life forms can absorb it.” The Moshu Luo Feng held the space ring, “It’s too bad that the Moshu couldn’t absorb the crystals.”

Rumble!

The black mountain range beside suddenly began to move, completely standing upright. This was a beast whose body alone reached 60km. As for its 4 hoof claws...every one of them were thick. It’s thickest thigh portion was 6km thick, the thinnest parts were 3 to 4 km thick. It was simply like 4 heavenly pillars!

Any one claw alone was taller than the Himalayan mountains!

As for it’s cold dark golden eyes, every pupil was like a large lake, like two dark golden suns staring down.

“Terrifying.”

“Even looking at it myself, I find the golden horned beast terrifying.” Moshu Luo Feng looked up at the golden horned beast and muttered, “The universe has so many forms of life forms. Every one of them can be separated into countless divisions of races and clans. Of all the life forms, the golden horned beast stands above all.”

“Just its physical structure alone holds terrifying strength. This pure brute force could easily kill human warriors 2 to 3 levels above it.”

“Plus its natural talents!”

“Right now it is also training Deities of the World. Even if my mosha body meets the golden horned beast, it would have to flee too.” Mosha Luo Feng muttered. Compared to the golden horned beast, maybe the mosha clan body was better at assassination. However, when facing one head on...it was much weaker. The golden horned beast was naturally intrepid with its natural abilities, making it incomparably powerful!

“Howl!”

The tall black mountain like beast raised its head and howled. The howl shook the land and skies, following which it extended its right claw and Mosha Luo Feng took one blood river crystal and placed it on it.

The golden horned beast's two sun like eyes gazed at the crystal on its claw following which its claw opened and grabbed. The sharp blade like claws slashed its palm and cut through the black scales and skin, fresh blood seeped out.

The golden horned beast carefully used its spirit energy to control the crystal.

The crystal was gently placed on the wound, the wound was at least 10m long. The crystal simply dropped right in and a formless energy swiftly rushed through the golden horned beast's body.

“Rumble!”

“Kill!”

“Kill!”

The killing intent rushed into its body. The golden horned beast's willpower was Luo Feng's willpower, condensed and solid, like a blade, this little killing aura didn't even do anything.

“Chi chi...” Red threads of energy poured out from the crystal and followed the slash wound swiftly deep into the golden horned beast's bones and muscles. Immediately a special change began to occur in its right claw, the scales there and the claws began to change, the bones and muscles too began to change...

Everything was very familiar.

In an instant, it ended.

The absorption of the 1st crystal was a success!

“What's going on?”

“How can this be?” Using his spirit energy he scanned the golden horned beast's every part. He was very shocked, “How can, how can it be that only this right claw changed?”

The golden horned beast lowered its head and its golden eyes carefully examined its right claw. It had just absorbed the 1st crystal, however it was completely different from his human body absorbing the crystal. Even though that blood river crystal held within it a mysterious energy, that energy however only produced a special change in its right claw.

As for the rest of the beast itself.

Like its trunk and body, wings, the other 3 claws, tail, head...there wasn't any changes at all.

"Damn, it can't be?"

"Don't tell me..."

Standing beside the golden horned beast, Moshu Luo Feng looked at the huge mountain like golden horned beast. Immediately his eyes gleamed, "Is it because it's body is too huge?"

"A tub of water is enough for one man to bathe."

"However, it takes an entire river for the golden horned beast to shower."

"I think it's this theory."

"The golden horned beast's body is too huge. It's bones, muscles and cells etc are too numerous. To be able to make everything change, the amount of blood river crystal energy needed must be much more. Hence...one blood river crystal can only cover this right claw. Even the elbow couldn't be reached." Luo Feng had guessed it.

.....

Rumble!

The golden horned beast waved its right claw, triggering the blood river energy from within, a simple blood red engraving appeared on the surface, its control of the universe energy itself was clearer and cleaner.

"Chi!" It tore through the sky, causing a 10km long slash through the ground.

"It's indeed easier."

"Within this one claw, its power was raised by 20-30%."

"Since that's so, if I put the other crystals into the other claws, I am sure that the other claws and tail would only raise by 20-30%. Since that's so...why not make the strong stronger!" Luo Feng immediately decided, "Hm, I'll continue with the 2nd crystal."

Make the strong stronger!

Let its strength get even more exceptional!

.....

The black clothed Luo Feng placed another crystal into the right palm of the beast. The golden horned beast's incomparably huge golden eyes stared at the palm, after which it sliced another wound through the scales.

Chi!

The scales split apart, fresh blood seeped out, once again touching the blood river crystal.

Everything was as Luo Feng had predicted. After defending against the rush of killing intent, the blood threads of mysterious energy entered its right claw. Immediately the bones, muscles and scales began to change from deep within...the range of its change, was exactly the same as the 1st crystal.

Just the right claw, not even reaching close to the elbow.

Once everything had finished, the golden horned beast once again waved its right claw triggering the mysterious energy.

"Hm."

"This right claw, compared to before the absorption, its power has risen about 50%. It's exactly the same as the human body absorbing the crystals. The only difference is...the crystal completely engulfs the entire human body. As for the golden horned beast, it only changed the right claw."

"Continue!"

"On to the 3rd!" Absorbing 3 crystals would allow one to gain the title blood warrior, there should be something special." Luo Feng anticipated.

Chapter 524: Change

The 3rd crystal lay in the palm on the scales of the right claw. With a quick slash from another claw, the scales were slit through and fresh blood seeped out. Once again, the absorption began...

The golden horned beast's huge head looked down at its right claw. While observing, a huge painful change began to occur in its right claw...With the special control abilities of the golden horned beast, it could completely control and limit the area of pain on its body. At this time, the 3rd crystal had completely vanished and was absorbed into the right claw.

"Trigger!"

The golden horned beast triggered the mysterious energy from within, immediately on the scales a blood red engraving appeared.

After absorbing the 1st crystal, this engraving was very simple and small.

After the 2nd, it got more complex, it had even doubled in size.

At this point after the 3rd, the engraving had gotten much more complex, almost as though they formed one full perfect body.

“Rumble!”

It waved its right claw, triggering the universe golden origin law energies. With one slash, a formless wave shook the air. A terrifying shockwave immediately exploded the mountain ranges ahead, and large amounts of metal scattered around.

“Compared to before, the strength has totally doubled! The melding level with the universe laws has also doubled.” The golden horned beast couldn’t help but raise its head and howl.

Mosha Luo Feng had high comprehension ability, when it unleashed its strength, it was extremely strong.

The golden horned beast however didn’t have such an ability. Its attack was powerful mainly because of its natural talents and body along with deities of the world etc. And while it had proficiency in law comprehension, in battle, it couldn’t unleash the full potential of the origin law strength.

But now!

With its comprehension to gold and the other laws doubled, even its battle powers had been doubled!

“Even though compared to the Mosha clan’s comprehension ability of 10 times, this is nothing. But, it’s still very impressive.”

“Comprehension had doubled, and strength had doubled as well.” Luo Feng was excited.

Absorbing 3 crystals meant one would become a blood warrior.

A blood warrior had double the normal comprehension and twice the power during battle.

“I’ll continue with the 4th.”

.....

The blood river crystal’s abilities were simply too heavenly, raising both comprehension and power! Even though every one of them didn’t raise much by itself, however added together, it was still pretty impressive. One had to know that the Mosha Clansman and other special races in the universe were all races with special abilities.

The golden horned beast relied on brute force!

The mosha clans man was proficient in assassination!

And the blood river crystal...could raise one’s comprehension of all the laws, giving them the feeling of a fish in water.

.....

“I really don’t know how these blood river crystals are produced.”

The golden horned beast continued to absorb the 4th crystal. Similarly in its right claw, and this time while the right claw triggered the mysterious energy...the blood red engraving grew even more. The overall growth however this time in comprehension and power seem to be just a little.

The raise itself wasn't obvious, far from the previous 3!

"On to the 5th!"

After the 5th, the moment it triggered the mysterious energy, the engraving got more and more complex. Its melding with the universe origin laws and unleashing all rose by a level as well.

The 6th!

7th!

8th!

.....

"Luckily I have enough blood river crystals. The undying shrine envoy gave me 10, otherwise there would no way the golden horned beast would have 10 to absorb." The black clothed Luo Feng stood at the side, looking at the incomparably huge being the golden horned beast as it began to absorb its 10th crystal.

If it were a human, absorbing the 10th would make him a black warrior.

The black warrior in blood river continent was a legend, belonging to the pinnacle of humans who had absorbed the crystals.

"Who knows what will happen to the golden horned beast after absorbing the 10th crystal."

"Let's begin!"

chi!

The golden horned beast used its sharp claw to slash its right palm, slicing through the scales. The 10th beautiful blood river crystal fell into its palm and immediately, the beast used its spirit energy to control it to land on its palm. As it made contact, the absorption began, an even madder killing intent was produced.

"The killing intent attack from this 10th crystal is still very normal, it cannot affect me. It pales in comparison to the core of the whirlpool."

"The changes in the bones and muscles have already reached a very painful stage. However, I can still bear with it...ah!!!"

The golden horned beast let out an incomparably painful howl.

Howl!

Howl!

It shook the skies.

"Damn!" The pain made black clothed Luo feng kneel on one knee, and the earth body Luo Feng in the Huge pit quarters too grabbed the floor. The pain caused sweat to fall constantly from his forehead, yet he gritted his teeth hard.

“It’s too painful!”

“It’s simply, simply...”

The pain from the right claw directly affected its soul, the 3 bodies all shared one soul! As the golden horned beast howled in pain, the Moshu body and the earth body all were in extreme pain too. This pain far exceeded the physical level, even to the point where the soul’s will power couldn’t control it...

It entered deep into the soul.

“Howl!”

“Wail!!!” The golden horned beast, as the initial and direct point of pain had to endure the strongest pain. It couldn’t control its body as it flew madly into the skies of the metal continent, crashing about, large amounts of golden mountains crumbling as it smashed into them, the ground had huge 10km deep craters.

As the golden horned beast was in excruciating pain, the right claw had become a pale gold color. The scales seemingly thinner, the tips of the claw too had become a pale gold, as though the tips of those blade like claws had countless little engravings.

Chi chi...

The scales returned to black and the claws returned to its original state, the pain slowly dissipated.

“Hu!” Black clothed Luo Feng stood up.

Luo Feng who was in the huge pit quarters too let out a sigh of relief.

The golden horned beast stood on the ground for awhile before stirring.

“I had known earlier that absorbing the 10th crystal would be special. However, I didn’t expect the pain to be like that.” Luo Feng was speechless. People with weak consciousness, just from the pain...their souls would have long crumbled and died.

“Howl!”

The golden horned beast rumbled and stood up, waving its heavenly pillar like right limb, simultaneously triggering the mysterious energy within. As it was triggered...the surface scales of its right claws had a huge change. The scales, bones, muscles, claws, and its innermost essence were swiftly changing as well.

This was a change that occurred at its very core and essence!

Such a change was obvious even on the outside. The right claw scales were thinner and were a pale gold in color. The muscles seemed to have doubled in thickness, the veins and vessels within had all become a pale gold in color, and the tip of the claw itself...had become a pale gold blade like claw. It seemed like there were countless engravings that were impossible to see with the naked eye.

Simultaneously!

The entire right claw had an incomparably complex and perfect blood red engraving, it had formed one full body!

“This, this...”

Black clothed Luo Feng and the earth body were both completely shocked.

The golden horned beast looked at its right claw, seeing clearly the unbelievable power coursing through it, it waved fiercely...

“The comprehension and unleashing of the origin laws is 3 times from before absorption of any crystals!” Luo Feng’s consciousness could clearly feel the right claw’s huge change. “This, this was still within my calculations. However right now the right claw itself...it actually, had a change in its very core!”

Normal carbon was formed from carbon atoms.

Iron ore too was formed from carbon atoms.

A change in its essence, its physical appearance and strength too would go through change. And after absorbing the 10th crystal, that mysterious energy seemed to change the body itself, infusing a special effect, and actually directly changing the essence of the right claw. Not just its interior, but also the scales outside were changed to a pale gold in color.

“What power.”

“The strength of this right claw can match up to the entire strength of its whole body from before.” The golden horned beast gently waved its right claw, creating shockwaves every time.

Just how huge was its body?

Its strength was mostly derived from its huge size, and the tail which was almost as long as the entire body, along with the huge wings and the 4 claws!

And right now, just the strength within the right claw alone was comparable to its entire body, what idea was that?

“Natural ability strength, doubles my strength.”

“And the right claw now has the strength of the entire body from before. If I can completely control the full strength, with one slash...wouldn’t that be 2 times the full body power from before?”

“The change in the right claw, in terms of strength is akin to the natural ability strengthen.” Luo Feng was shocked.

Blood river crystal!

The peculiar and terrifying crystal was not only changing the beast in terms of universe origin laws, but also the essence in its body itself.

Actually during the first absorption, Luo Feng felt that the crystal itself was able to change the essence of the body, able to instantly transform one into a beast man, scaled man, and so on. However, that was simply during the absorption process alone. The moment it ended, everything would return to normal. Even though Luo Feng had always suspected that the crystal had other abilities.

However he hadn't discovered them yet!

After absorbing 3 crystals, he hadn't discovered it.

After absorbing 10 crystals, only then did he realize it's terrifying ability!

"The golden horned beast's right claw itself has to be strengthened at least 10 times, before it is comparable to its full body strength." Luo Feng was shocked. This mission of blood river world, was indeed the right choice.

Absorbing 10 blood river crystals.

The golden horned beast's most proficient body strength had doubled.

As for the law comprehension and law unleashing, they had increased by 3 times from before! Its entire strength...had indeed leapt quite a lot.

"Continue absorbing!"

"Even that Qi Niu could absorb 12 crystals, my golden horned beast should be able to take more." Luo Feng was extremely excited.

.....

The golden horned beast raised its head and let out an excited roar, once again beginning to absorb another crystal.

The 11th...the pain was indeed strong, however it was obviously weaker than the absorption of the 10th, not as excruciating as before.

After successfully absorbing the 11th, indeed, its law comprehension and unleashing all had risen.

the 12th...

13th...

14th...

15th...

Ah, no more.

"No more, I have no more crystals. They've all been absorbed!"

"I need more crystals!"

"I need more, the more the merrier!"

The golden horned beast raised its head and howled. The black clothed Luo Feng too clenched his fists, and the Luo feng outside in the huge pit quarters frowned, "Blood river crystals, I need large amounts of it. But, where do I get them?"

Chapter 525: Hunting Plan

Huge Pit quarters, Luo Feng who was dressed in the bronze armor sat on the stone chair and pondered.

“Qi Niu has blood river crystals. Even though I can get as many as I want, normal warriors can only absorb so many. Hence, the number of crystals he has definitely has a limit, and I am afraid I can at most get 1 or 2 more from him.” Luo Feng shook his head. That’s definitely not enough.

“Then...” He squinted, “There’s only one way.”

Sou!

A blur rushed into the cloud levels, rushing straight into the 18th level. It was Moshu Luo Feng, and beside him a silver white pyramid appeared. He followed the cabin door into the ship.

Control room.

“Luo Feng, what are you doing?” Babata’s voice resounded in the control room, “Why are you using the Moshu clansmen?”

A black armored Moshu Luo Feng sat in the wide comfortable sofa, revealing a smile. “Babata, don’t worry, I’m using the Moshu for the crystals...” He swiftly repeated the story of the golden horned beast and the crystals, also telling him the aim of all this.

“So absorbing 15 alone isn’t enough? Absorbing 10 alone is that heavenly, so what would happen if you continued on?” Babata was extremely excited.

“Hm.” Moshu Luo Feng nodded, “Hence, I’ll be placing you, the cloud contact vine and all important treasures on the Moshu body, including the life core...within this body. Right now the only thing left in that huge pit quarters is my earth human body. Even if it meets a tragedy and dies, its nothing.”

As long as the core was undamaged, even after the 3 bodies are destroyed, they could be regenerated.

“What you are doing makes sense, leaving the core in the Moshu body. In terms of survival...the Moshu body with this automaton ship is indeed much safer.” Babata admitted, “What are you preparing to do now?”

“Hunt!”

Moshu Luo Feng revealed a smile, “Blood river continent is endless, with many different worlds, every one of them controlled by sector lords. And the world cities here go up to the tens of millions...the number of sector lords too should be that many. As for the number of domain lords, it’s a hundred times that of the sector lords, even more shocking.”

Blood river continent favors the strong, and all these worlds within, all contest each other.”

“Everyday large amounts of humans die, every year many domain lords die.”

“What I need to do is to secretly hunt a few domain lords.”

“I won’t kill too many either. Since there are tens of millions of worlds in this continent...with thousands of places controlled in each world, I just have to kill 1 domain lord each! Hunting close to ten thousand

domain lords all over the entire continent wouldn't even be anything." Mosha Luo Feng's eyes gleamed with excitement. "From one domain lord, I can on average get one crystal. This way, I can get close to ten thousand blood river crystals!"

"I believe that this is possible!"

"This close to 10,000 crystals will be enough." Mosha Luo feng said softly.

"Haha...vicious! Close to 10,000? Haha, then do it. This is too thrilling. Hurry and leave...use your universe's strongest assassination clan power." Babata too had been infected by the excitement from Luo Feng's explanation.

Hunt! With the entire Blood River continent's countless worlds as his target...

Secretly hunting, undetectable!

"Let's go!" Mosha Luo Feng ordered.

Sou!

The automaton ship resembled a meteorite and swiftly flew in the space outside the world.

Blood River continent, Tianyu city, this was an ancient city more than 1 billion km away from the edges of the ancient god ruins.

Tianyu city leader's mansion, walkway outside the entrance.

"You dare to challenge me within my own territory? You are looking for death! Even if you regret it now, it's too late!" The green skinned man with cold eyes, dressed in armor sat high on a 10m tall grasshopper beast. He gazed down and ordered, "Give the order, bring that Mozhi family leader here!"

"City leader, that little Mozhi punk is very arrogant. He keeps butting heads with you my lord, he should die! However the Mozhi family is huge. Hence, it's hard not to have a proud disciple, there's no need..." Beside, a cloud level general in armor said respectfully.

Pa!

A blur crashed straight into that general knocking him backwards into a large hotel construct behind, making the entire building explode and crumble with rubble flying far into the distance and hitting heads of passerbys. Some were simply killed on the spot. Immediately there was chaos in the streets.

Sou! From the crumbled building a silhouette flew out. It was the pale general who was spitting out blood. He knelt down respectfully, "City leader, I'm wrong, I know my mistake."

"Remember!"

"Tianyu territory is my territory!" The cold gaze of the man swept below. "Whoever I say should die, should die! If you dare question me again...it won't simply be this whip."

"Understood, understood." The general was extremely terrified.

"Go, and destroy the entire Mozhi family. If he has to blame someone, then he can blame that punk. My mood was good today, but it was completely destroyed by that little punk. He should take a look at

himself first. Something so insignificant, yet he dares to provoke me...I'll destroy their entire family. It is as simple as killing a little bug." The man sat on his grasshopper, ordering the group below him before entering his city leader's mansion.

And that general had just stood up.

"General." The rest looked at him.

"What are you staring at, hurry and gather the army. We'll go raze the Mozhi family to the ground!" The general shouted.

"Yes!"

"The Mozhi family in this Tianyu city ranks at least in the top 10 families. Just because of that one little punk offending the city leader, they are finished. What a pity."

"How did that Mo Chong youth offend the city leader?"

"I don't know."

"I heard the city leader dressed up as a normal person and brought two guards along the west Jiuya tower. I don't know what went on with him and master Mo Chong, they just clashed. And the young master has always been arrogant...today, it was his bad luck that he met the city leader. With his order, the entire Mozhi family is over."

"Pity, pity."

"Pity my ass, the city leader isn't a good person. That Mo Chong is also a bastard. It's better that more of them die."

A large group of people gathered in the distance were discussing. Amongst them, Luo Feng who was dressed in a casual black long robe, stood and listened. While revealing a smile, he muttered "I didn't expect to see such a good show here in Tianyu city. Hm...city leader? That brutality, I hope I get more crystals from you."

Hu!

The black clothed Luo Feng disappeared without a trace amongst the crowd, invading the city leader's mansion.

.....

Within the city leader's mansion, this was a 7 storey luxurious palace.

A cold looking man was lying in a 10m long huge bed. Two beautiful scaled woman with scales on their foreheads were massaging him

"Lighter, lighter. Right, like that."

The man had his eyes closed, ordering them.

"City leader, my sister and I spotted a piece of clothing at the Colored clothes pavilion."

“Buy whatever you see, just buy them. Just settle whatever the amount is with the management in the mansion.” The cold eyed man said casually.

“Thank you city leader.” The two young ladies said excitedly.

The man’s lips however curled into a smile. Holding such power, such control over people’s lives, the feeling of making countless people beg before him...it was simply too wonderful a feeling. “My senior sure was stupid, training so hard just to become a world city leader. Is there even a need? I’m living it up...haha, city world leader? Is it so easy to reach there?”

“Life.”

“Should be this way!”

Pu Chi!

Three blood colored flashes, the cold eyed man stared in shock. Beside his luxurious huge bed stood a black clothed man, in his hands he wielded a blade and stared coldly at him.

“I’m, I’m dead? How, how can this...” The man felt his life core shatter within. Even though he was shocked, he was still staring, simultaneously his consciousness dissipated.

His life of extravagance had ended.

“How rotten.” The black clothed Luo Feng stood beside the bed. He was looking at the three bare naked bodies, his eyes cold, “Leading such a rotten life and he managed to become a domain lord, that’s simply pure luck. Or should I say...it’s because of his background? The bigger the background, the more I like. The bigger they are, the more crystal they may potentially have.”

He swiftly acquired the space ring from that city leader.

“Hm?”

“Two crystals?” Luo Feng smiled, “Not bad, it’s a good start.”

After which, he waved his hand and the three bodies, including that huge bed were all kept in his space ring. He was prepared to destroy all evidence.

Shua!

Black clothed Luo Feng was like a mirage, immediately leaving the mansion and rushing into the skies straight through to the 18th cloud level. After which, he sat in the automaton ship, flying in the space above Blood River continent.

.....

Kill one person and change the location immediately.

He was absolutely cautious!

With the competition and killing between each sides of the worlds, wars often erupted. And in these messy situations, a domain lord dying occasionally was a normal thing! And sometimes when the

domain lords are killed, their underlings don't even know...thinking they might have gone somewhere to train.

.....

In space, in a side chamber of the palace, the one in charge of surveillance over the entire Blood River continent.

"Ah?"

"What is his majesty Luo Feng doing. Why is he always in that automaton ship, flying all over. Entering for a while and coming out again."

"How is that a while, it's normally a couple of days each."

"However this frequency is too high."

"Just what is he doing?"

The group of sector lords in charge of surveillance were all curious, because they didn't understand just what Luo Feng was doing.

As Mosha Luo Feng was hunting, within the huge pit quarters of the ancient god ruins.

Luo Feng dressed in the bronze armor sat there eyes closed.

"This speed is quite fast. On average I get one crystal everyday."

"The hunting plan till now, has already lasted for half a year."

"Including last night's haul, that should be 98 crystals." Luo Feng smiled and opened his eyes. "Hm, another two more, that makes it a hundred."

Chapter 526: Absorption

Even though he was in the ancient god ruins, Luo Feng was very relaxed.

As his core was within the Mosha body, along with the living AI Babata and the other important things, his earth human body here had nothing to worry about.

"Even if I'm killed, I'd just have to waste some energy from the internal world to regenerate." Luo Feng closed his eyes. His consciousness was connected to the virtual universe via the quantum computer within his space ring. "In a while, there'll be a space origin law class. I can't miss that."

In a quiet and vast city more than a trillion km away.

Within the city leader's three story mansion, a man lay in his armor in the training room, and the black clothed Luo Feng stood beside him.

“With these two blood river crystals, it’ll make my total haul since I left the ancient god ruins 100 already.” Black clothed Luo Feng immediately waved his hand and destroyed all the evidence. After which, he left without a trace and rushed into the sky, sitting in his automaton ship and flying in space above.

.....

Within the control room of the automaton ship.

Black clothed Luo Feng sat in his sofa and laughed lightly, “External simulation 100%.”

Immediately the scenery about changed. A wild and incredibly beautiful dream like space image, below were the cloud levels of Blood River continent.

“Luo Feng, the previous two times you absorbed 30 crystals each. How many are you prepared for this time?” The lights beside had formed an image of Babata, the little demon smiled happily as he looked at Luo Feng.

“I have prepare 25 for absorption!” The black clothed Luo Feng said.

“Ah...” In the ancient god ruins, the golden horned beast absorbed 15. Plus the 30 crystals it had absorbed twice before. Right now it has absorbed a total of 75 crystals. Plus the 25 today, it’ll make a perfect 100.” The little demon Babata laughed weirdly, “That intense pain, can you take it?”

Black clothed Luo Feng frowned.

Pain?

Right.

Back then during the 10th crystal, it was so painful, even the golden horned beast couldn’t help but crash about. At that same time, the other two bodies too suffered intense pain, enough to make one’s soul leap out.

The 11th crystal however, didn’t hurt as much and was in fact much weaker than the 10th.

However, as more crystals were absorbed, the pain continued to rise gradually, until when he hit the 72nd. The level of pain was comparable to the absorption of the 10th crystal back then. Luo Feng fought with all his might before, getting past until the 75th, however his entire being was in a complete daze.

“Today, will be number 76 to 100. I guess the pain will exceed the previous few times.” The little demon warned, “If you cannot take it, we can split them into a few days.”

“No problem!”

Black clothed Luo Feng’s eyes were focused, “This little pain, if I can’t even take this, how can I even think of becoming undying?”

“This isn’t just a little pain. If your willpower wasn’t strong, your soul would have long crumbled.” Babata warned.

"I've never heard of one's soul crumbling from absorbing blood river crystals." Black clothed Luo Feng said softly, "If I can't take it, I will probably end up fainting. At that point, the absorption will stop, and there will no longer be any danger. And Babata, I have a feeling that when I absorb the 100th crystal...a miracle will happen."

Black clothed Luo Feng's eyes had a hint of anticipation. "Let's begin!"

Shua!

Within the ship, only a core was left. At this point, black clothed Luo Feng had entered his internal world.

.....

Internal world.

The golden horned beast which was like a black mountain range slowly got up. Beside it, the black clothed Luo Feng suddenly appeared.

Hu! A heavenly pillar like right claw was extended and placed before Luo Feng.

"Number 76!" Black clothed Luo Feng took out a triangular blood red crystal and placed it on the scaled palm. It used its claw to slice through and the absorption began...

"Ah!"

Black clothed Luo Feng gripped his fists and gritted his teeth. He stood there and trembled slightly.

"How!!!" The golden horned beast rushed into the sky in pain. The two huge cloudlike scaled wings flapped madly, dancing about in the vast metal continent. It occasionally crashed into metal mountains, venting out as it suffered intense pain. After this went on for awhile, it finally stopped.

"Hu."

"Still ok, it felt a bit better than absorbing 30 consecutively before. Looks like my willpower has been trained and developed more." Black clothed Luo Feng let out a sigh of relief and released his grip.

The golden horned beast landed and lifted its right claw, triggering the mysterious energy. Immediately the claw changed from a pure black to a pale gold color. The fully armored black golden horned beast was mostly black in color, even its 4 horns only looked gold because of the many golden engravings that lit up.

In truth it was a mix of black and gold.

Only this right claw was completely pale gold, and it held within endless power! And on this right claw was an incomparably beautiful engraving. It's complexity, compared to the entire body's gold engravings...it didn't have too much of a difference.

However even normal people, they would still feel that the complexity and overall look of this blood red engraving was somewhat lacking.

It had yet to be completed.

“Looking at how complete this engraving is, I feel that only after absorbing the 100th will it be complete.” Black clothed Luo Feng stared at the blood red engraving on the right claw.

After absorbing three crystals, the blood red engraving was simple, yet complete.

After the 10th, it was a lot more complex, once again forming a complete picture.

And right now after 76 crystals...

“On to the 77th!” Black clothed Luo Feng placed another crystal into the right palm.

.....

78, 79, 80...

The further he got, the change in the right claw caused such pain that it made the golden horned beast feel like it was dying. However in its bones was a powerful and solid rock like willpower, allowing Luo Feng to bear with it over and over.

Pain!

Intense pain!

.....

86, 87, 88...

Ancient god ruins, training room of the huge pit quarters.

Luo Feng’s entire body was kneeling in the room. Dressed in his bronze armor, his 10 fingers were like hooks fiercely gripping the stone ground, gripping and reducing the stone to dust. He grit his teeth, crackles could be heard from his teeth, his face was flushed, veins popping out, perspiring profusely from all over, the whole ground was wet.

“Ke chi, ke chi, Pa! Pa! Pa! Spit!” Luo Feng spit fiercely. Two broken teeth flew out of his mouth.

“I...Damn!!!”

“Pain.”

“So much pain.”

Luo Feng’s entire body was trembling. Sweat flowed out from the seams of the armor, and his skin felt like almost as though it had been steamed. That intense pain that boiled down to even his soul had affected his entire body.

“Hu!”

“Hu!” Luo Feng violently lay on the ground. His entire being almost paralyzed, breathing and gasping hard, breath after breath.

“My god, I finally made it.”

"I feel like I've died over tens of thousands of times. With the virtual universe 100% simulation, the pain too can be simulated. However the pain of death, isn't even a fraction of this pain." Luo Feng was completely sprawled on the floor. His earth body alone was in such pain, and as the primary body of the right claw absorption, just how much pain did the golden horned beast have to endure?

One had to know that this level of pain entered into its soul via the golden horned beast's body.

The pain the golden horned beast felt was the most intense...

"This is only the 90th, how will I continue?" Luo Feng couldn't imagine, the pain he endured before was already the most terrifying pain he had ever endured in his entire life. So much so that his consciousness was about to crumble, almost triggering his auto defense mechanisms.

Fainting was a form of natural self preservation.

However Luo Feng was very clear about the fact that the moment he fainted, it would mean the failure of the absorption of the crystal.

.....

More than a trillion km away in space, within the automaton control room, the crystal core was floating and revolving.

Internal world.

"91st!" Black clothed Luo Feng took a deep breath and placed another crystal in the palm of the golden horned beast's right claw. The huge beast, which was larger than even rivers, looked down at the crystal with its dark golden eyes. There was a sense of fear in them, it...was simply too painful.

Chi!

After slashing a wound, fresh blood seeped out and the absorption of the 91st crystal began.

"Kill!"

"Kill, kill!"

The incomparably mad killing aura completely swarmed over Luo Feng's willpower. Every crystal absorption's killing intent willpower was stronger than the previous, and at this 91st crystal...the killing aura seemed comparable even to the aura whirlpool where it was 8 times the normal aura.

Maybe even stronger than that!

"My heart is like a mirror, don't think of affecting me, get out!" Luo Feng's willpower raged, madly defending time and again against the effects. He was finally able to get the killing aura willpower to back off.

"I've finally made it past the killing aura willpower."

Actually at this point, it wasn't simply just the pain from evolving the right claw that was unbearable, even the killing aura willpower...that alone was very hard for Luo Feng to fight and defend against.

However.

Defending against the killing aura willpower compared to the pain of evolution was different.

Against the killing aura willpower, defending was simply defending. Hence, the failure was simply a failure. No pain, no consequence!

However that pain continued on, wave after wave...until the entire right claw had evolved. Only then would the terrifying pain cease.

“Damn, it’s here again!”

Black clothed Luo Feng’s body was trembling. He was kneeling on the ground, with his hands on the metal ground, gritting his teeth hard.

“Howl!!!” The golden horned beast madly howled to vent.

.....

The 91st was like wave after wave of killer nightmares, it finally got past it.

“92nd!”

If one wished to succeed, he had to be hard on himself!

Luo Feng continued to allow the golden horned beast to absorb the 92nd crystal, the killing aura willpower from this crystal...was simply too much. Luo Feng fought hard to control his willpower, making it incomparably solid and sturdy. He was struggling against it even though it felt like it was about to crumble.

Finally, the terrifying willpower backed off.

However what followed closely was the even more terrifying intense pain...

.....

“Why do I feel.” Black clothed Luo Feng picked up the 93rd crystal and said softly, “That it would be extremely hard to reach the 100th crystal.”

“Continue!”

When the 93rd crystal made contact with the wound in its right palm, an even more intense torrent of killing aura willpower rushed against Luo Feng’s willpower. It was vast and endless, every wave was stronger than before. Luo Feng barely defended against it wave after wave.

“Rumble!” Luo Feng felt his consciousness drift, after which, the three bodies all fainted.

The killing aura willpower had broken past his defense, swiftly returning back into the crystal.

Absorption of the 93rd blood river crystal was a failure!

Chapter 527: 30 years later

While in a daze, the killing aura willpower finally backed out, and Luo Feng quickly regained his consciousness.

"I failed, I actually failed." Black clothed Luo Feng frowned. "I knew that getting to the 100th would be extremely difficult, but I didn't expect to fail at the 93rd."

"That killing aura willpower was simply too powerful, and the pain was so intense. All of this shows one thing...my willpower is still not strong enough."

Luo Feng was extremely wrong.

Willpower not strong enough?

Even an absolute genius of a trillion years from the undying shrine, blood god Baqi, who could become undying in a short time if he wanted to, his willpower paled in comparison to Luo Feng's! Many sector lord pinnacles were far behind him as well. Hence...in terms of willpower, Luo Feng was indeed very strong.

The true reason was...

Just how many people had even absorbed up to 93 blood river crystals? Absorbing 10 on blood river continent alone would make one the legendary black warrior. Every extra absorption had 10 times more the requirements on the body in many different aspects. To absorb 93 crystals? That was simply unrealistic.

93 blood river crystals would have an ever increasing killing aura willpower. It was absurdly insane!

"The right claw cannot absorb anymore. But, what about the other parts of the golden horned beast?" The golden horned beast grabbed the crystal, placing it in its left claw, slashing through the scales, fresh blood seeped out.

Rumble!

The formless energy rushed into its body, simultaneously gathering the rest of the killing aura willpower from before within and swiftly coursed through. The energy clashed immediately into Luo Feng's willpower within the golden horned beast.

"Rumble!"

"How can this be? It actually melded with the willpower from before to be even stronger?" Luo Feng was shocked.

"Kill!"

"Kill!" The mad killing aura willpower once again rushed in. Luo Feng fought hard against it, condensing his willpower like a stone, struggling to defend against it. However, even though it was rock solid...under the rush of the endless aura, it was still reduced to ashes.

Once again he lost consciousness.

That formless energy returned into the crystal and Luo Feng regained consciousness.

Within the control room of the automaton ship.

The crystal ball was revolving. On its surface gold engravings glimmered with gold light. Suddenly in place of the crystal, black clothed Luo Feng appeared!

"I actually failed." Black clothed Luo Feng sat in the sofa and looked ahead into the vast space.

"How did it go Luo Feng?" Beside, the energy image of the demon, Babata asked.

Black clothed Luo Feng explained what happened during the process.

"Ah, that's expected. There probably hasn't been anything in the history of Blood River continent about absorbing 93 crystals. Even the highest level 4 Qi Niu beast only managed a little over 10." Demon Babata smiled. "Luo Feng, don't worry too much. As your will power gets stronger, you'll be able to absorb them in the future."

"I don't care about this." Luo Feng frowned. "The only thing is the rest of the golden horned beast is unable to absorb the crystals."

"It's because you are unable to withstand the kill aura willpower." Demon Babata too sat on the sofa beside him, crossing his legs and looking at the vast space ahead. "The energy within the crystal is capable of altering one's body, its range is limited. However the killing aura willpower is different...it's a willpower that is able to spread to any part of the entire body."

"When you wanted to let its left claw absorb the crystal, that willpower would directly connect throughout its body and attack you."

Black clothed Luo Feng nodded.

He understood the theory.

Every absorption had an increase in the killing aura willpower. Even if used at different parts of the body...the willpower would still increase.

"Luckily, all the blood river crystals I had before, I decided to place all of them in the right claw." Luo Feng thought. The golden horned beast's right claw was now his trump card, since it was extremely terrifying. If he had dispersed the crystals all over the body from the start, then every body part would have been altered about 7 or 8 times.

However that way...

The amount of power raised was limited. It was better to simply make one very terrifying right claw.

"I cannot be too greedy, as this has already been such a windfall for me. Since, I am still constantly training my willpower, I believe there'll be a day I can absorb the 100th crystal. I have a feeling that once I absorb that 100th crystal, the incomparably complex blood red engraving will be perfected by then. It should have some special properties as well by then." Luo Feng thought.

"Continue!"

"Three great bodies, and all of them are training in their own ways." Luo Feng quickly recollected his thoughts.

.....

There were two missions for this Blood River world. The 1st was to acquire one blood river crystal, and completing that would give him a reward of 10k points. The 2nd was to become a blood warrior and acquire the blood river medal. The reward for this was 100k points. Even though this was the case...acquiring large amounts of crystals wouldn't get more points.

However, these crystals were unique only to Blood River world, as it was a special product of this Blood River world!

And even though there were plenty of it in this world, almost all the domain lords had most of them. Some universe level elites had a few of them too, however...they were still extremely valuable.

“Since I can, I will get as many as possible. These Blood River crystals, should be worth a lot.”

.....

Mosha Luo Feng continued on his hunting trip.

Of course he spent most of his time rushing around to find these crystals, and the true hunting time itself was very short. Hence, other than hunting...the Mosha Luo feng would be in the automaton ship in the internal world, studying and training in the floating blood manual, time space scribbles and studying the 9 universe tablet, the drizzle picture.

.....

The golden horned beast was training Tearing Sky and Land with the three ancient pictures.

It's right claw's power was shocking, since it connected directly to the universe origin laws, causing its power to amplify about 9 times. This meant that, when using the right claw versus not using it, the golden horned beast's strength had a difference of almost 10 times! Its body alone was already incomparably intrepid and powerful, but 10 times the strength on top of that? This was however a miracle Afterall, absorbing 92 crystals was an extremely absurd thing to do.

The power of the right claw was shocking, hence the it was training with the three ancient pictures...

Luo Feng emphasized on the three pictures!

The 1st was the beast's flight, waving its tail and dispersing the huge hand in the sky.

The 2nd was it lowering its head and looking ahead, piercing forward while flying.

The 3rd was it waving its claws, attacking brutally.

“The golden horned beast's right claw was originally very strong. After combined with this attack...and it studying Tearing Sky and land, 80% of its attention was spent to study the 1st claw of Tearing sky!” Luo Feng had long prepared to use this 1st claw technique as his true killing technique.

Since the right claw was extremely strong, naturally he had to focus on claw attacks.

Strong combinations, that meant more power!

The 1st claw of Tearing Sky...the golden horned beast began its tedious and mad training. It was studying the techniques left behind by its ancestors, and searching for the grace of that ancient beast's claw technique, while constantly increasing the strength of Tearing Sky's 1st claw.

.....

The earth body would frequent the undying lessons, occasionally studying gold and space combination, simultaneously spending long periods of time in the killing aura to alter his body.

.....

Of course, all three bodies were in training!

The golden horned beast would occasionally try to absorb the blood river crystal, so that it could feel the rush of the killing aura willpower and withstanding it to train itself further!

The Mosha was training via slaughter!

The earth body was training his mind and heart from teachings of his two brothers Hong and Thunder god, while occasionally meeting them in the virtual universe and chatting. With the both of them reaching the pinnacle of chinese martial arts and indian yoga, Luo feng would get some inspiration occasionally.

.....

Studying the origin laws, wonders, training his mind and heart.

In the long passages of time, Luo Feng constantly improved himself.

In a flash, 30 years had gone by.

In the vast Blood River continent, in a particular territory city leader's mansion, it was day time.

"You actually dare attack me, you must be looking to die!" A fierce roar like the rage of a god resounded throughout the skies of the city. A black silhouette rushed into the skies straight into the cloud levels, it was the black clothed Luo Feng.

"Damn, there actually was a sector lord here."

Black clothed Luo Feng's speed was shocking.

"You dare to attack me and wish to flee!" The voice rumbled straight into his ears, simultaneously a formless world energy pressure immediately poured over.

Sou!

A white pyramid appeared before Luo Feng and he flew straight in.

The golden robed middle aged man chasing behind saw the silver white pyramid, staring wide eyed, "It's the outsiders!" He quickly chased and simultaneously used his world energy to pressure the automaton ship. However, the ship's speed was simply too fast, it rushed straight through the 18 cloud levels.

The golden robed middle aged man stood at the 18th level and looked up through the clouds, not daring to follow.

"It's actually an outsider!" The man's face was perplexed, "I have to inform the undying shrine, another outsider has descended into our Blood River continent."

.....

The automaton ship was in space.

Control room.

"That was too risky." Black clothed Luo feng sat in the sofa and let out a sigh of relief. "I didn't expect a sector lord to be hiding in the city. Since he didn't release his energy at all and I had no way to detect him...however his movement and use of the universe space made me feel his presence."

"Lucky I fled quickly."

The mosha clansman could unleash over 10,000 images, making his instantaneous speed terrifying. This was even faster than many sector lords.

Fast, but this speed was mostly used just at the start for a quick burst.

The moment a sector lord's speed truly took off, he would quickly catch up. Hence he used that outburst to create some distance and after which enter the automaton ship to escape.

"Walking along the river for so long, how can one's shoes not get wet." Luo Feng softly muttered. "After this incident, that sector lord would definitely inform the undying shrine...the shrine would probably begin to discover small patterns and traces, maybe even my entire plan! Hm, anyway, I've acquired enough over these 30 years, it's time to stop."

During these 30 years, Mosha Luo Feng's hunt had given him a total of 9,816 blood river crystals!

Luo Feng felt...

It was savage enough, it was time to stop.

Chapter 528: Three Levels of Mental States

Virtual universe, Black Dragon mountain island, close to the river by 9 star bay, three people sat there.

A tall and sturdy youth with short hair was dressed in casual clothing, yet his energy felt like a pike ready to pierce forward at anytime. On his left was a clean white robed bald youth who was smiling. His smile was so pure, it made one's soul get drawn in.

Beside these two sat a skinnier youth. His killing aura was heavy, his entire being seemed to have been drenched in a bloody river of cold massacre, that aura was terrifying.

"Thirdie, your mental state is really hitting the limit." The bald youth shook his head and smiled.

“Second brother, in terms of mental state, I cannot compare to you. I cannot breakthrough for now. The only thing I can do is push my limits, that way at least I’ll improve.” Luo Feng smiled. He could feel it himself. In reality, as he was spending long periods of time in the ancient god ruins of Blood River world, he was influenced for tens of years by the killing aura.

He was originally ice cold within his bones. But now with the invasion of the killing aura, and with the golden horned beast absorbing so many blood river crystals, even within the virtual universe Luo Feng emitted a powerful killing aura.

“Pushing your limits is after all still a small path.” Thunder god shook his head.

“Second brother.” Hong sat and smiled, “You don’t have to force third brother. In terms of mental state training...he’s also exceptional! To be able to train his mental state to such a level, where he is not affected by dust or poison is great. Absolute purity, absolute rejection, and absolute coagulation...this form of absoluteness is also a growth in mental state.”

Thunder god was shocked, nodding, he asked curiously, “Big brother, but this is still after all...”

“Hm.” Hong looked at Luo Feng, “Third brother.”

“Big brother.” Luo Feng smiled at Hong.

“Your second brother and I have been giving you many pointers on mental training. However this...is different from other training. It’s a form of release in spirit.” Hong looked at Luo Feng. Many mysteries before may have been explained, today I’ll depict it for you from the highest levels.”

“Hm?” Luo Feng’s eyes gleamed.

“Heart? What is heart?”

“Mental state, just what is that?” Hong smiled. From a warrior’s training point of view, the heart is actually willpower!”

“Your willpower strength is already exceptional.” Hong said. “However...overall, from an overall look, you are still only on the 1st level of the three great mental states.”

“1st level?” Luo Feng was shocked, “Three great mental states?”

“This is my summary.” Hong smiled, “In our chinese ancient culture, we’ve always emphasized on the training of ones mental state. There are all sorts of tests for the heart, by training in them, these will all be directed at one’s heart, and will be able to see one’s heart clearly. The body is the wisdom tree. Your heart is the stand of the bright mirror. You must frequently wipe it. Don't let it become dusty. It actually refers to looking at oneself and understanding.”

Luo Feng frowned.

“Right now, your heart is like a mirror, not affected by dust. Your heart is like a blade, slicing through obstacles. It’s already considered having seen yourself and understood it, reaching a very high level.” Hong exclaimed. Now, you continue to train your heart, making your willpower stronger! However, no matter how much you train, you are still only on the 1st level.”

“What’s the 2nd level?” Luo Feng asked.

“Simply put...man and nature as one!” Hong pointed at Thunder god beside, “Your second brother is considered to be at the 2nd level.”

“What’s man and nature as one?” Luo Feng asked.

“Man and nature as one refers to the perfect mental state.” Hong smiled, “What do I mean by perfect? When one’s Yin and Yang are fully melded and are complementing each other. As for how? Your current path...chasing limits, that’s simply pushing it! Simply pushing your limits may strengthen yourself. However only when the Yin and Yang are working together will it be perfect.”

Just like a man in this world, when he feels harmony, he’ll be sturdy and flexible depending on whichever the situation requires!”

“This mental state is as such too. When it’s time to be like a blade, or when it’s time to train. And when it’s time to be gentle like water, the water always flows around the blade! In terms of defense, the water is even more solid than a shield, hence it’s more powerful.” Hong smiled. “The harmony of Yin and Yang, man and nature, mental state harmony. Of course this is a very high level of perfection...and is that of a pure and innocent heart! In theory it’s already the pinnacle. Your brother is as such.”

Luo Feng held his breath as he listened, asking, “Heart like a blade, I understand. But how do I make my heart like water?”

“I’ll explain the theory but the state itself is hard to explain.” Hong smiled and shook his head.

That...1st level refers to one’s heart and understanding it, and to be able to see through the rubble. The 2nd is the harmony of Yin and Yang, man and nature, heart of pureness, perfect mental state.” Luo Feng asked, “In theory the 2nd state is the pinnacle already, then what about the 3rd?”

Thunder god beside him smiled, “The 3rd level, your big brother has begun to barely perceive it.”

“The 3rd.”

Hong said softly, “Is what I’ve just begun to touch. Heart is void and vast, heart is endless. Heart, encompassing everything.”

“What do you mean?” Luo Feng asked.

“It’s hard to explain.” Hong smiled, “How about this. If the 2nd is the harmony of yin and Yang, man and nature as one, melding perfectly with everything around. Then the 3rd...is the heart being endless and vast, encompassing everything, including the endless universe, everything. Anything with a will can be encompassed, whether its slaughter, material wealth and goals, appreciation of beauty, lust for power, everything.”

Luo Feng was shocked.

Everything could be encompassed.

“If one can achieve this state, even facing against an incredibly powerful opponent, life form, all willpower...cannot affect me.” Hong smiled.

“Damn, that’s sick.” Luo Feng stared.

“Sick right?” The white baldy Thunder god smiled. “Man and nature as one, heart of pureness. Whether it’s yoga or chinese ancient culture, these are all the pinnacle. However your brother’s level...in ancient chinese culture it has be mentioned before but never reached. Hence, no one really knows.”

Luo Feng looked at Hong, filled with even more admiration.

Three great mental states.

1st level, Seeing through and understanding yourself. In many Buddhist teachings and paths, this was already progress.

The 2nd level, man and nature as one, heart of pureness. This was in theory the pinnacle.

3rd level, heart vast and endless, encompassing everything. This was unbelievable.

“Big brother, how do you reach this 3rd level?” Luo Feng couldn’t help but ask. “The 2nd state, I can barely touch it, however I can’t fully comprehend it.”

Mental state training all relied on the heart.

Luo Feng’s understanding of his self had reached a limit. Indeed he only had a small understanding of the harmony between Yin and Yang.

“Its hard to explain, I’ve only managed to get some ideas from looking at some books.” Hong smiled, “There’s a saying...Emptiness is the strongest. Another one also says that only when one doesn’t contest will he be able to contest everything. Actually, I’ve studied many theories from the ancient chinese culture. These 2 sayings...are considered to have sparked my reaching of this level.”

“Emptiness is the strongest. Only when one doesn’t contest will he be able to contest everything?” Luo Feng frowned. “The logic is simple and I understand it. But what you mean is...”

“The chinese culture is bright, with countless exceptional people in history being able to reach man and nature as one, with hearts of pureness, these are all ancient history. Reach the 2nd level first.” Hong smiled, “Ah, let me see. These should be helpful for you. Read these few chinese culture books, it may help.”

“Hm.” Luo Feng nodded, suddenly he felt something stir within, “Mosha clansman is here!”

The Mosha clansman sat in the automaton ship. It had been flying close to light speed in the space above Blood River world for a few months already, and finally arrived.

Blood River cloud levels, a faint silhouette immediately passed through 1,000km and landed beside the huge pit quarters, with a flash it went in.

.....

Huge Pit quarters.

Luo Feng who was dressed in the bronze armor got up on his hind legs. Looking at the entrance of the cave, a black silhouette appeared, it was Mosha Luo Feng.

“10 blood river crystals.” Mosha Luo Feng casually placed the 10 crystals and left again, passing through the 18 cloud levels and into the automaton ship which was floating in the space above. For safety reasons...he let the Mosha body take the internal core into space, at least it was very safe.

Within the huge pit quarters.

“I finally have blood river crystals.” Luo Feng collected the 10 crystals and revealed a helpless smile. “The last time I let the golden horned beast absorb everything until there was none left for my earth body.”

30 years.

A total of 30 years had passed, during which he was constantly absorbing the killing aura and changing his body, yet he hadn't tried absorbing the crystals.

“Let's try and see if I can absorb the 3rd one.” Luo Feng took out a crystal. It had been long since he absorbed the 2nd...30 years later, now he was trying the 3rd.

Chi!

He cut his palm and placed the crystal on the wound, the killing aura willpower clashed against his willpower.

“Compared to the golden horned beast's absorption, this little willpower is simply pathetic.” Luo Feng couldn't help but exclaim, following which he felt intense pain. His body began to evolve...however compared to the successful absorption of the 91st and 92nd crystals, this 3rd one couldn't be considered anything.

The blood energy continued to pour through his body...

The blood river crystal became more and more transparent.

“Pa!”

The sound of bones breaking occurred from his chest.

“I actually failed.” Luo Feng looked at the close to transparent blood river crystal. Large amounts of blood energy was returning back, making it revert to its original state, he was helpless.

“Indeed the more I absorb the harder it gets. I only stayed in the ancient god ruins for 2 years before and I managed to absorb the 2nd. However now after 30 years, I am still unable to absorb the 3rd.” Luo Feng shook his head, “The golden horned beast's body, looks like the body structure and composition is indeed much more perfect than a human body, at least in certain aspects, it's much superior.”

Even though he failed, Luo Feng wasn't troubled at all. In fact, he was anticipating, “From the looks of it, there's still hope for me to absorb the 3rd crystal. I have to become a blood warrior, acquire the blood river medal and return to receive my 100k points reward.”

Chapter 529: Killing Aura Whirlpool

Even though his earth body failed to absorb the 3rd crystal, he wasn't affected by it at all, instead he continued his training.

Under the killing aura environment of the ancient god ruins, even though it was for the sake of absorbing the crystals...Luo Feng's main attention was still spent on studying the 9 universe tablet Drizzle picture. He had completely comprehended the first 9 wonders. As for the middle 27, every one of them was much more profound.

It had been over 32 years since he arrived in Blood River continent. Even though his improvement was huge, his true comprehension of the wonders was still very little.

"The blood river crystals are but supplementary assistance."

"As for my mental state, I can't see or even touch it. The origin laws are the most important."

"These 30 years, the golden horned beast had combined the 3 ancient pictures and studied Tearing Sky and Land. Its improvement in the gold origin laws far exceeded the moshu clan's improvement. Luo Feng sat crossed legged in his stone bed. "Hm, I'll focus my attention of studying the drizzle picture too."

Time and Space, these were the hardest to comprehend.

His earth body's weapon the Nan Shen Armament was a combination of gold and space. His improvement in gold was very fast, so much so that space couldn't keep up, resulting in him using both the moshu body and himself to study space together.

.....

The universe was vast and endless, and in it, tens of years was simply nothing.

For some ancient beings, just a blink of their eyes and it would have been trillions of years.

In the blink of an eye, Luo Feng had been in the Blood River continent for over 80 years.

Virtual universe, Thunder island.

A graceful lady in jade green armor stood at the edges of the island along a 10 li reef. Ahead of it were large amounts of revolving lightning snakes. Suddenly a silhouette shot over from the distance, landing on the huge reef, it was the golden armored apeman True Yan Emperor.

"Jade, you are looking for me?" True Yan smiled.

The Jade green armored lady turned to look, she was Jade emperor.

"Hm." Jade nodded.

"What's the matter?" True Yan smiled and asked.

"It's regarding your disciple Luo Feng." Jade said, her voice clean and clear.

“Ah?” True Yan was shocked, “Why are you concerned with my disciple. My disciple is only at universe level. He hasn’t truly headed out to explore...his condition now, you should know it the best.”

Jade shook her head, “It seems clear, yet at the same time, it’s not clear at all.”

“Speak directly.” True Yan said.

“To be honest,” Jade smiled, “This Luo Feng’s improvement has been noticed by all of the management level within the Virtual Universe company. Especially right after he exited primal chaos city, he actually consecutively passed 9 levels of the fantasy ocean, only failing at the 10th. His willpower and consciousness is at a terrifying level.”

“Haha...” True Yan smiled proudly, “This disciple of mine, even though he’s only at universe level, his soul is far from evolving into an undying. However just in terms of willpower, I am afraid he exceeds that of an undying, many don’t even compare to him.”

“I know this of course, otherwise it wouldn’t have aroused the upper echelons.” Jade emperor emphasized. “And also within the last 80 years, he actually passed the heavenly bridge’s 6th level! He’s caught up with Bolan’s comprehension speed...”

“Bolan that punk, he’s making his own life difficult.” True Yan said.

“Doesn’t matter, Luo Feng’s improvement speed is shocking.” Jade’s expression was serious. “And his genius competition was organized by 9 blade knight. Hence, once he becomes undying, he would naturally be under him. The knight favors him a lot...however, he actually took on the Blood River world mission and hasn’t returned in 80 years, remaining there!”

True Yan nodded.

“80 years!”

“During these 80 years, he hasn’t attempted the heavenly bridge! Fantasy ocean!” Jade frowned hard. “He had only occasionally contacted you, and listened to some undying classes. These 80 years, the other geniuses have all improved quite a lot, all have taken on many missions, many finishing all 10. Only this Luo Feng...still remains on blood river world. And according to the report, his automaton ship has been in space for a long time, the location is the ancient god ruins of blood river world.”

“The dangers of the ancient god ruins, you should be clear.”

Jade frowned, “That place is the most dangerous place on the entire blood river continent. How many of our undyings fell there before? Especially the killing aura of that place is unique only to that place within the entire universe. If Luo Feng isn’t careful, and he enters a region with extremely high amounts of aura, he would be taken over and lost to the madness, that’s akin to death!”

“The knight’s viewing of him is even higher than that of Bolan!”

“And these 80 years, he’s been in contact with you.”

“Hence I hope you can tell me his situation on blood river continent, every bit of it.” Jade emphasized.

“True Yan, honestly speaking, taking risks are important. However one cannot madly take risks, you cannot take your disciple’s life as a joke. He is afterall just a universe level punk.”

“He hasn’t been doing much these 80 years, just studying the origin laws.” True Yan smiled.

“How’s his studying?” Jade asked.

As Luo Feng hadn’t attempted the heavenly bridge, no one knew about his speed and level of study.

“Average.” True Yan said casually, “Of the 1st 36 wonders, he’s comprehended 35 of them.” Even though he said it very casually, his expression was that of pride.

“Comprehended 35?” Jade was shocked.

The 1st 9, middle 27 and final 72.

Luo Feng comprehended 35 wonders...

“How can it be so quick?” Jade stared at True Yan. “That’s impossible. During the 30 years in primal chaos city, he only comprehended the most basic 9! And his study speed outside primal chaos city should be 10 times slower. But from the looks of it, he comprehended 1 every 3 years outside, which are even more profound than the first 9.”

“1, he has me for pointers.”

“2, he has Time Space Scribbles to aid in his study.”

“3, he’s absorbed blood river crystals. Hence, his study speed has increased.” True Yan looked at jade. “Also, he is indeed a genius, his comprehension speed rises with his strength.”

Blood River continent, ancient god ruins, huge pit.

Huge pit quarters.

Luo Feng opened his eyes. He sat cross legged in his bronze armor. 80 years, it had been 80 years since he came to Blood River continent. The effects of the killing aura shaping his body was getting lesser and lesser, however at least it was still improving. However he was still a little shy of absorbing the 3rd crystal.

“These 80 years, my comprehension of the space laws has improved a lot.” Luo Feng exclaimed.

Comprehending 35 wonders.

He would never have expected to have done something so absurd!

Primal chaos city’s 30 years was 100 years in the actual universe.

In those 30 years in primal chaos city, he only comprehended 9 wonders.

However 80 years or so in the actual universe, he actually comprehended the more profound 26 wonders. This level and speed of improvement...was indeed unbelievable! This was only possible because of the time space scribbles, and True Yan’s pointers, with the golden horned beast’s triggering of the mysterious energy, increasing his fusion with the space laws by 9 times.

Yes.

Towards the end, even the golden horned beast began to study the space laws.

This was because, in training Tearing sky and land and the 3 ancient pictures...during the 39th year, the golden horned beast had comprehended...that the ancient beast's claw attack wasn't simply infused with gold laws, simultaneously it had space laws within.

To truly figure out the powerful attack of Tearing Sky's 1st claw, the golden horned beast's main study was the ancient pictures, Tearing sky and land became secondary.

As every one of the 3 ancient pictures were incredibly profound.

And one of the claws was infused with space laws, hence the golden horned beast began to study the space laws too!

.....

With the 3 bodies studying simultaneously, reflecting each other's comprehension, especially on the ancient pictures, the rewards were bountiful.

It allowed Luo Feng's comprehension to progress extremely fast!

Also...

He realized too, the training of his mental state and soul had cleared his mind, allowing him to understand and grasp onto whatever he was studying much faster. From a certain degree, his comprehension level had risen too.

"I think after a few more years, I'll have comprehended the 36th wonder." Luo Feng's face was filled with anticipation.

"Tearing sky's 1st claw!"

"Accurately speaking, my fast improvement speed is mostly because of the ancient pictures." Luo Feng was curious within. "That simple wave of the claw was already so profound and unbelievable."

Using his human body to study that claw was useless.

However its effects on the golden horned beast's tearing sky and land, while studying that claw, especially looking at the ancient pictures...it almost felt as though that claw encompassed everything. it was so deep and profound, that his own comprehension was still superficial.

"Just how strong was that beast?" Luo Feng thought within, after which he didn't think anymore and headed out of the cave entrance.

.....

Following the pathway, he quickly reached side of the mountain and looked at the endless red aura revolving.

"Half a year ago I tried heading to the killing aura whirlpool and was able to reach the point of 9.5 times, it was less than 100m from the center of the whirlpool. I had to stop there." Luo Feng was filled with anticipation, "I feel that I've had improvement over this half a year, who knows whether I'll be able to enter the whirlpool core."

Sou!

He rushed straight down and headed towards the depths of the aura.

Whirlpool aura...these years, besides studying, Luo Feng often went to try the depths of the whirlpool. However every time he did go, he didn't dare risk it. Because he was very clear that the price of the risk was losing himself to madness. This was akin to death.

After a while, Luo Feng had already reached within that huge whirlpool.

"Rumble..."

The huge whirlpool that was almost like fresh blood was revolving continuously, dragging the auras beside along with it, the core itself looked like a red sun. The bronze armored Luo Feng drew closer to the center step by step, going closer and closer to the eye of the storm.

"I'm really curious, just what is in the core of this whirlpool." Luo Feng withstood the killing aura willpower that was constantly growing strong and invading his mind, getting closer and closer to the glaring red sun.

Chapter 530: Whirlpool core

Hua hua...the aura there was as thick as fresh blood. The large whirlpool even emitted an ancient eternal energy, it made one's very soul tremble.

"Come on child."

"Come!"

"Come here!"

"Enjoy killing and slaughter, what a beautiful and endless feeling..." A formless enticement accompanied the killing aura willpower. That strong willpower was like tanks clashing against Luo Feng's willpower, as he was affected, the enticement began

A bronze armored Luo Feng drew closer and closer towards the center which was completely engulfed in the aura, gritting his teeth to endure.

"Mine, its mine!"

"I want to kill, I know how to kill, all external willpower, break!"

"Break!"

Luo Feng's willpower was extremely solid, as it was defending against these attacks and enticement, not allowing any of them to seep in. As he gradually drew closer to the core, the willpower and enticement got stronger and stronger. The closer he flew to the sun like red ball, the more cautious he got.

Distance of 50m, 40m, 30m, 20m, 10m...

The red ball was right ahead.

It, was the core of the huge aura whirlpool.

“Rumble...” A formless ancient energy radiated, causing Luo Feng to feel as though he was an ant against a godly dragon.

“Even if I am an ant, I’m an ant that can defeat a godly dragon.”

Luo Feng immediately abandoned the natural sense of fear within, simultaneously stepping into the glaring red light that formed the aura whirlpool that was bigger even than earth. The entire whirlpool core returned to its original calm state, and the bronze silhouette disappeared.

Aura Whirlpool core...within the Red light ball.

Luo Feng slowly progressed, however he felt the killing aura willpower actually diminish, “It’s almost as though as I get closer to the ball, the willpower is strongest. After entering the ball...it gets weaker instead.”

He flew at a speed that was even slower than a normal person’s walk, after about 30m, before him was still the thick red ball.

Chi!

Luo Feng’s entire being pierced through the outer layer of the red light ball, looking at the scene before him.

“Ang, Mo, Da...”

A sound that pierced through his soul, resounding deep in his consciousness. An ancient phonogram without any rules, every note infused with high endless amount of ancient energy. Simultaneously, Luo Feng was shocked at the scene before him...it was empty within the red light ball.

There wasn’t any red energy within.

There were however huge, golden engravings as thick as one’s arms. Every one of them was incredibly complex. There were a total of 12, 100 to 1,000m long golden engravings, inter weaving and revolving in the space. Each one made one’s heart tremble, making one submit. Such energy was being emitted from the 12 thick engravings.

Simultaneously, the 12 huge golden engravings emitted golden light threads, engulfing the entire region.

The gold light revolved about, making the space around them like a sacred land.

The revolving gold light continued to produce 3 images, a picture of the huge lizard beast, raising its horn towards the skies, a huge hand smashing down towards it, causing the beast to fly, waving its long tail until it almost vanished and dispersing the huge palm.

3 ancient pictures...

These were the 3 ancient pictures he often saw. However, at this point, at the core of the whirlpool, the 12 huge golden engravings emitted the naturally formed pictures much clearer than before!

Every picture, occasionally appeared and then dispersed.

These 3 ancient pictures, were floating just like a piece of paper on water, continuously revolving, occasionally sinking to the bottom of the water before resurfacing. Repeating over and over...

“Li!”

“Ang!”

The ancient phonogram, almost like a beast without intelligence speaking, seemed to pass through trillions of years of time and space, resounding in Luo Feng’s ears.

“My god.” Luo Feng stared wide.

“Origin laws engravings, these are origin law engravings.”

Never had he ever seen the origin laws that clearly before him. Whether it was primal chaos city or the engravings on the spirit weapons, they were all extremely small and simple! And the 12 incomparably huge engravings before him, that were as thick as one’s arms, seemed like 12 simple engravings. However every one of them was interweaved with countless needle like engravings through them.

“These are space origin law engravings!”

“At least, they are a part of it.” Luo Feng’s eyes gleamed, following which he landed where the 3 ancient pictures disappeared. This time, it was different from the blurry images that he spotted before, he saw them extremely clear this time. This was even to the point where as the beast attacked, he could feel every bit of it clearly.

“I’ll first remember these pictures and then study the origin law engravings.”

Luo Feng began to stare hard at the 3 pictures of Tearing Sky 1st claw. With his quantum computer like brain, he could remember vividly each of them like a video recording, this was very simple. However he needed to remember the feeling and situation too...that energy infused with profoundness and mystery, to allow him to study it in the future.

Studying Tearing sky 1st claw for close to 80 years, he clearly remembered the picture of that move from long ago.

And at this time, whether it was studying the original tearing sky 1st claw or altering it according to the memories he had of it before, Luo Feng was very clear that before he became undying, his level of the 1st claw paled in comparison to that ancient beast’s. Hence it wasn’t the time for him to be proud, but to lower his ego and study that ancient beast well.

.....

As he used his entire being to remember the ancient picture of the 1st claw, Luo Feng didn’t realize, as his body was there, the gold lights shot right through him. Even though there wasn’t any killing aura that invaded him, his every cell within began to change and evolve greatly.

If one said that under the killing aura’s attack, the body’s cells would change gently and slowly.

At this time, it was accelerated 100 to 1,000 times!

The only thing was because Luo Feng was completely immersed in remembering the 1st claw. As for the changes in his body? Even if his body was destroyed it would be a small matter. Hence he couldn't allow himself to be distracted.

.....

After remembering the 1st claw for some time, as he closed his eyes, the image of that 1st claw clearly replayed in his mind. He finally exclaimed, "My comprehension still isn't high enough. This should be my memory's limit, I'm unable to remember the situation and feeling and energy any deeper."

Following which he looked at the other 2 pictures.

Compared to the 1st claw, spending 80% of his attention on it, for the other 2 techniques...Luo Feng had spent little time on them. As his comprehension was weak, even after trying hard to remember them, not long after, he couldn't remember them any better already.

Within his memory...

The 3 ancient pictures were deeply recorded. The 1st claw's situation and feeling was the most vast and ancient. As for the other two, those two faintly had the ancient energies, but obviously weaker than the 1st. The main thing was that Luo Feng was unable to remember them deeply as well.

"Hm, I've finally remembered them." Luo Feng revealed a look of excitement. "These ancient pictures, humans are unable to study. However it's extremely beneficial to the golden horned beast. Studying it raises its understanding and comprehension of the laws, that in turn helps my human body's comprehension as well."

The 3 great bodies were working together, naturally the improvement was huge.

"Ah, my body?" As his attention returned, Luo Feng quickly realized the changes to his body.

His body's every cell seemed to have evolved.

Change occurred continuously.

"This change, it's the same change as the killing aura." Luo Feng was shocked, revealing a look of glee after. "However the change seems to be 1,000 times faster!"

"One day here is akin to a few years outside."

Luo Feng was ecstatic.

He stood up in mid air, looking at the 12 huge golden engravings. These 12 engravings seemed simple, however they were still much more profound than the engravings that True Yan Emperor demonstrated in his classes in primal chaos city. Luo Feng looked for a while, feeling dizzy within.

"It feels like space? With some bits of gold origin laws. However upon careful examination, it's neither." Luo Feng was very curious.

The origin law engravings his teacher True Yan demonstrated occasionally had hundreds to 1,000 engravings. Luo Feng knew quite a bit of them.

However at this time...

He didn't understand this at all.

"The level of complexity is simply beyond me." Luo Feng spent two days looking at the huge golden engravings. Suddenly he had some inspiration, "Looks like, my comprehension of the laws...compared to the profoundness of these huge golden engravings is simply too huge. Just like when I first looked at the 9 universe tablet's 7th to 9th pictures, I didn't understand them at all. These golden engravings I can't understand these either."

No matter how expensive a book is, before a blind person, it was still useless.

Infused with endless wonders, the engravings within weren't useful at all to Luo Feng. He couldn't even remember the energies emitted from it, simply relying on his quantum computer like brain and consciousness, forcing out a simple picture within. (Just like taking a picture).

.....

Days passed.

Even within this aura whirlpool core, with the gold light shining on him, Luo Feng's body evolution speed slowed as the days passed. This was something he anticipated as it was reaching his body's limit.

"My earth body, if only it could be as sick as the golden horned beast's body. Even without any aura invasion, immediately absorbing 97 crystals." Luo Feng thought.

97 crystals...

That was the achievement of close to 80 years.

These 80 years, the origin laws comprehension, and mental state training had risen shockingly, hence allowing him to make it deep into the whirlpool core. As for the golden horned beast's right claw, these 80 years had occasionally evolved further, currently having absorbed 97 blood river crystals.

After a while, the changes that occurred deep in Luo Feng's body finally completely stopped.

"I'm already at my limit." Luo Feng thought. "I've been in this whirlpool core for close to 30 days. If it were outside, it would at least be a hundred years before my body is fully saturated."

"Who knows if I can absorb the 3rd crystal now."

"Hm, I'll return to the cave to try."

Looking at the 12 huge golden engravings floating in mid air, he turned and rushed through the red light layer, swiftly heading back towards the outer layer of the whirlpool.
