

SWALLOWED 701

Chapter 701: Mad Explosions

Nurturing a plant life form was a very extravagant thing to do, like nurturing the cloud contact vine to sector lord level 9. Even if one scrimped on it, it would still require 10,000-20,000 mixed elements, and for one as high a level as Luo Feng's the cost could reach up to 100,000 mixed elements!

100,000 mixed elements, just how much was that?

An undying general's average wealth was only about 10,000 mixed elements, a human sector lord warrior's average wealth was only at 10 mixed elements!

It may seem like the Flame wind organization was huge, owning so many slave planets. However, one had to know that one galaxy was usually not even worth 1 mixed element. Even the entire Black Dragon Mountain star field was worth only about 300,000 to 1 million mixed elements Luo feng's expense on the cloud contact vine alone was worth the entire starfield!

One could only imagine the costs!

Without proper funding, it was best not to mess with the plant life forms. The more normal a plant life form was, like the metal vine with its limited capabilities as a universe level 9 metal vines was already rarely seen. For them to actually breakthrough to domain lord or sector lord, the costs would be even more than that of the cloud contact vine evolving!

Metal vine reaching sector lord level 9! The costs must have been extreme!

Sha Luo flower reaching sector lord level 9! Obviously this was also a high leveled Sha Luo flower.

Nurturing the two must have cost over 100,000 mixed elements!

Even a normal undying wouldn't be able to have such wealth.

"He is just the boss of the flame wind organization. For his wealth to reach tens of mixed elements alone should be considered not bad. How did he nurture two plant life forms?" Luo Feng was shocked. "And from the Virtual Universe Company's information back then, Pan Xi relied on the metal vine to take over the slave planet. However, back then, it was only at star traveller level 9, who'd expect it to be sector lord level 9 now."

...

"Sha Luo, capture him." Pan Xi communicated mentally while controlling the sector lord level 9 Sha Luo Flower.

He had acquired the metal vine by chance when he was young, it was the crutch that changed his fate.

The Sha Luo Flower was something he bought when he grew to power. He nurtured it from young and was his strongest trump card.

As he had remained low profile all this while, even though he had used it several times before, he always killed off all his enemies. Hence, the fact that he had a metal vine and Sha Luo flower both at sector lord level 9 had been a secret, even the Virtual Universe Company's information system couldn't know.

No matter what, the Virtual Universe Company couldn't reach the level of all knowing.

Just like how when Luo Feng chased down the 102 hundred million targets back then, with a few managing to hide in some desolate planets. Luo Feng was unable to locate them in the end.

The many bright colored flowers of the Sha Luo flower were as fast as lightning. In less than 0.001 seconds, they had passed over tens of km and were wrapping around Luo Feng.

Luo Feng dodged as quickly as he could, staring at the devil like flowers, simultaneously shouting mentally to Babata, "Babata! Quickly!"

"Coming!"

Rumble!

The Yun Mo planet ship that had been floating beside Dylan fiercely accelerated, the blood colored triangular ship, its sides alone were sharp enough to easily slice through a planet. Even against asteroids, it's speed would hardly be affected.

F9 grade metal engravings support by the Virtual Universe Company!

How powerful was that?

Hua!

Hua!

Almost like a blade cutting through grass, as the ship flew at the Sha Luo flowers, they instantly spread open. The fully bloomed flowers were incredibly huge, easily swallowing up the entire Yun Mo planet ship. It's dense sharp teeth bit down. However, after a while, it exploded open, as the ship had cut right through the flower while its speed was hardly even affected at all.

At 290,000 km per second, its terrifying speed pierced right through!

Slashing through the plants!

As it brushed past, the Sha Luo flowers were instantly sliced apart, it let out all sorts of howls and the powerful ripples of noise resounded within space. One could visibly see these noise ripples warping the space about. The Sha Luo flower tried to dodge...however with its huge size, and the cloud contact vine wrapping about it, how could it?

The metal vine wanted to dodge too, however it was deeply entangled by the cloud contact vine.

Hua! Hua!

The Yun mo planet ship arced and slashed through large amounts of vines, heading towards Pan Xi.

"How can this..." Pan Xi stared wide eyed, almost in disbelief at the powerful ship.

Hu!

The metal vine wrapped about him tightly and tugged him strongly, allowing him to dodge the slice of the ship.

"Babata, continue!" Luo Feng's eyes gleamed in space.

"Haha, understood."

Babata continued to control the entire ship to rush Pan Xi down, this triggered a feeling of nostalgia for him, almost like when he had followed Hu Yan Bo back then. However compared to then, the ship now was much more powerful. While its slicing abilities were already astounding back then, slashing through asteroids like tofu, it was even stronger now after the Virtual Universe Company had upgraded it.

Its defenses were so powerful even an emperor level undying would have to work really hard to break through.

Normal undyings wouldn't even dare get close to it.

Naturally...

Undyings had great dodging speeds. Actually, even sector lords could dodge very well, at least much faster than a ship's dodging ability.

"Big trouble, his cloud contact vine is actually stronger than my metal vine, and the cloud contact vine is huge and extremely sturdy. Even if it cannot win against my Sha Luo flower, it can still hold it in place. The moment it's restrained...both the metal vine and Sha Luo flower became targets." Pan Xi's expression changed.

Hua!

Hua!

The Yun Mo planet ship flashed past like lightning time and again. Its sides acted like a huge axe slashing through, as large amounts of vines were chopped off. Large amounts of flowers were chopped off, with the cloud contact vine restraining them, the two plants were completely demolished.

"Haha!"

"Gagaga."

Babata's piercing cackling laughter resounded throughout the control room of the Yun Mo planet ship.

After being sliced through many times, the two plant life forms were heavily damaged and their strengths greatly diminished. After all, they were both not reputable for their cell regeneration.

Rumble! Rumble! Rumble! Rumble! Rumble! Rumble!

The automaton ship was summoned out by Luo Feng too.

The two ships together fiercely attacked and fired off at the plants, finishing off the already weakened Sha Luo flower and metal vine. With Babata's precise calculations, the attacks mostly all landed on these two plants, hardly ever hitting the cloud contact vine.

Even if it was hit, while the cloud contact vine's offense wasn't as strong as the Sha Luo flower, its regeneration was much stronger.

...

After a flurry of attacks, especially with the automaton ship as the main force, with a force akin to a full undying's attack, the Sha Luo Flower and the metal vine were blasted into nothing, along with Pan Xi within!

Over!

"It's ended." Luo Feng stood in space and smiled at the scene, simultaneously closing off the synchronized broadcast with the virtual universe network.

Mission complete!

"Waa..." Babata and his subsidiary AI controlled both ships and flew towards Luo Feng.

"Luo Feng, that was too thrilling, I haven't felt like this in a very long time. This Yun Mo planet ship is seriously overpowered, its acceleration and instantaneous direction change is over 80% stronger than before. Along with the engravings on it, its slicing power is seriously absurd, slicing through the Sha Luo Flower and metal vine was too easy."

Luo Feng smiled, communicating mentally, "Upgrading the Yun Mo planet ship cost me 100s of thousands of mixed elements. And this is with my primal region member discount! Do you think their upgrade would be a joke?"

...

Luo Feng flew forward while communicating mentally with Babata.

After Pan Xi's death, his internal world crumbled and large amounts of items floated about. Scanning with his spirit energy, Luo Feng didn't discover any special items. However...he still kept everything within his world ring. Due to him having two sector lord level 9 plants, Luo Feng felt...that Pan Xi should have some secret.

"Dylan, mission complete, let's go." Luo Feng said.

"Using two ships and the cloud contact vine, your power was pretty strong." Dylan smiled, "When your cloud contact vine reaches sector lord level 9, with its regenerative abilities, and sturdiness...normal sector lords would find it hard to free themselves from it. First, you constrain them and then use the Yun Mo planet ship to slice through them, hehe..."

Luo Feng laughed too.

Sou!

The Yun Mo planet ship floated in space and opened its cabin doors.

"Luo Feng, please enter the ship." Babata's voice was passionate as it resounded within the entrance.

"Haha."

Luo Feng and Dylan laughed and flew in.

After entering the ship, Luo Feng finally checked his extravagant buy, the world ring with a diameter of over a hundred million km, the one he bought back then in Wu Long starfield.

The reason why a sector lord's internal world was small was because their main core couldn't withstand it.

And as one could use valuable materials to create the world rings, they weren't limited to the main core, hence they could create huge worlds.

...

Within the world ring.

A vast land over a hundred million km, with the continent as the main center piece, the endless continent had rocks, mud etc. Of which a piece of mud was the moshu clansman.

Shua!

The piece of mud became a black energy flow and with a warp, it became a black clothed Luo Feng.

When Luo Feng was attacked back then in Wu Long starfield, he had pondered hard, as he needed to take the main core with him, hence...he finally thought of a plan. Buying an extra large world ring and letting the moshu clansman take the main core, changing to a piece of mud and hiding within the endless space.

Whether it was the space ring or the world ring, both had to be scanned with spirit, undying or world energy.

And the scanning radius depended on the person's abilities.

For example!

In a world, a weak warrior could scan with his spirit energy several hundreds of km, while the strong could scan 100s of thousands of km. It all depended on their strength.

Only two places allowed for easy limitless scanning.

One was an internal world.

The second was the god country!

Scanning one's own internal world, with a thought, one could easily scan the entire area.

Scanning one's god country, it was similar to the internal world.

And the world ring was an independent world. Even if Luo Feng entered this world, he'd have to rely on his spirit energy to scan it well.

A world with a diameter of one hundred million km.

The bigger the world, the higher the gravity.

The higher the gravity, the smaller the scanning radius!

"If I encounter an enemy I cannot defeat, and the earth body is killed, I'll pretend like I was killed. Even if they acquire the world ring and scan it properly! With such terrifying gravity, and the same level of strength, they'd probably only be able to search 1/10,000 the area compared to the area on earth." Luo Feng thought, "One hundred million km in diameter, only a knight would be able to search through it all."

"And such a rough scan wouldn't be able to detect the mosha clansman's transformation. Only through deep scanning of every stone, every grain of sand...hehe, a world with a length and width of one hundred million km, to carefully scan through everything, it wouldn't be easy at all."

"As long as they didn't know my secret beforehand, who'd know I'd be hidden within?"

Changing into a piece of mud within such a large world.

Who'd expect it?

Who would be able to find him?

"Hm, let's see just what Pan Xi had. I feel that he should have some secret." Black clothed Luo Feng looked at the distant flat lands, large amount of items were placed messily over there, it was all the items he had just collected.

...

Black clothed Luo Feng stood on the land surrounded by a mess of items, some were rather valuable. However, how high was Luo Feng's perspective?

"All of these items added together wouldn't even be worth 20 mixed elements."

"Seriously!"

Luo Feng shook his head and scanned 3 items.

Two space rings and one world ring.

"There might be something in the rings?" Black clothed Luo Feng picked up a world ring and carefully scanned it, but was not able to discover anything.

"Could it be in the space ring, or did he really not have any secrets?" Luo Feng pondered. He carefully scanned the two space rings. The two rings were small within, one of them with only a diameter of several hundred meters while the other was even smaller with a diameter of only 100m.

After searching, he discovered nothing but small items within.

"Damn."

"I'll put everything in my internal world and scan them." Luo Feng thought, immediately retrieving all the items in the two space rings and one world ring."

After which he placed them in his internal world.

In his internal world, he was the dictator!

"There's really something special after all. I thought it was just large amounts of useless things, and this was just a very normal card. If it weren't in my internal world, it would be extremely hard to find anything special about it!"

Black clothed Luo Feng's eyes gleamed, immediately entering the internal world, allowing the main core to revolve about and float about in the world of the world ring.

Chapter 702: Luo Ke Holy Water

Internal world.

Black clothed Luo Feng stood amidst the large amount of items. In his hand, he held a well carved silver card. Even though he had checked through Pan Xi's items in the world ring before, it was impossible for him to detect anything special. However, in his own internal world, he was the king within. Hence, his sensing abilities were much stronger, he immediately detected something different about this silver card...

"This is actually a card that stores a world within, I didn't even feel it before, what exquisite craftsmanship." Black clothed Luo Feng exclaimed softly.

Chi!

A thread of his world energy forcefully invaded that silver card. Within it even held a part of Pan Xi's memories, however without Pan Xi himself to support it, it was but a memory. It was quickly broken through and Luo Feng left his imprint within.

Luo Feng's world energy entered the silver card's world.

This was a tiny world with an area of only about 100km, other than a flat land and a river in the center of the world with a diameter of about 10 km, there wasn't anything else. The water was ice cold and cold air filled the entire world.

"What's this?" Black clothed Luo Feng frowned.

The entire world, under careful examination seemed very normal, the continent was normal, but only the river seemed special.

However Luo Feng couldn't recognize it.

...

"Babata!"

"Babata!" Black clothed Luo Feng's consciousness connected to his own space ring and called out to Babata.

Other than the earth body itself which had Babata in him, the Yun Mo planet ship, black clothed Luo Feng, golden horned beast and the automaton ship all functioned with the AI that Babata had created. This subsidiary AI could be said to be Babata's clone, Babata could control it.

It had all of Babata's stored memories, only it lacked a living quality, it could only be considered the best of AIs.

Of course!

Normally when Luo Feng was in the Yun Mo planet ship, Babata's main body would enter the ship and take over the control of the ship.

"Master." The AI said very respectfully.

"Come scan this, have you seen a river like this before?" With a thought, black clothed Luo Feng's consciousness entered the world.

Cold!

Even though he was an energy life form, he still shuddered slightly. This 100km area world was extremely cold, and the cold air all emanated from the river.

"Hm?" Black clothed Luo Feng suddenly felt a lot more comfortable, his life crystal seemed to have been provided some warmth.

"Master, I've seen this before." The AI shouted excitedly.

"Ah?" Black clothed Luo Feng asked, "What is it?"

"This is Luo Ke Holy water." The AI said. "Back then, the master had taken part in an auction, of which 1 cubic km of Luo Ke holy water was auctioned. Back then it was stored in a small world bracelet, I even remember its selling price was 8.9 million mixed elements."

Black clothed Luo Feng stared wide eyed.

My god!

8.9 million mixed elements? 1 li km?

"Pan Xi!" Black clothed Luo Feng turned fiercely and stared hard at the river, carefully scanning the entire area.

It's shape wasn't exactly round, it's largest diameter was 16.2 km, and the smallest at 10.3km. Also, the depth of the river was 3.2km. With black clothed Luo Feng's scanning abilities, he instantly measured it's entirety accurately. It was also the entire amount of the Luo Ke Holy water...712 cubic km!

How much was that?

According to the auction price, how much was it worth?

6.337 billion!

"6.3 billion mixed elements?" Luo Feng was stunned, completely stunned.

Was this a treat from heaven?

A beggar had suddenly found a gold mountain?

A punk from earth was suddenly informed by the Ganwu universe county's leader...you are my long lost son, I'll give the entire universe country to you!

It was this exact feeling.

Stunned!

"6.3 billion mixed elements, my god, I've really struck it rich. This is truly a huge fortune." Black clothed Luo Feng roared within.

"Luo Fu Qi board?"

"Yun Mo planet ship?"

"Void flame gold?"

"Purple 100 net leaf?"

Black clothed Luo Feng shivered. The wealth from before all added together was only about 10 million mixed elements. This was akin to a normal official level undying's wealth. Even if the soldier armor he acquired was very expensive, it was not usable by others. The rest of humanity probably couldn't use it. However this Luo Ke holy water was different, it was something that went through auctions in humanity.

1 li km, that alone sold for 8.9 million mixed elements!

This river of his was worth over 6.3 billion mixed elements!

"Luo Ke Holy water, it's named after a legendary being of humanity Luo Ke from an extremely ancient time when the universe had just been born." The AI explained, "Back then he discovered this water unexpectedly. He found out that it had extraordinary life energy, it can be used to nurture plant life forms and heal the body. All in all, anything that can absorb life energy can use it, it has many uses, hence its price is also very high. The level of life energy it contains is extremely high, much more powerful than a life fruit. It has a very good effect of undying plant life forms, hence many undyings want to buy it."

Black clothed Luo Feng's eyes gleamed as he nodded, almost like a chicken pecking at rice.

Fortune.

He had struck it big.

A normal official level undying's wealth was only about 10 million mixed element, even an official pinnacle, probably only had 1 hundred million mixed elements max.

6.3 billion mixed elements, how much was that? That was probably all of an emperor level undying's wealth! Of course for a being like True Yan that was close to becoming a knight...he was much more wealthy than normal emperor level undyings. To True Yan and Sky feather emperor, they wouldn't even flinch when tossing out treasures worth over millions of mixed elements.

"Master." The AI said respectfully. "Your treasures from before are mostly items used by official level undyings. This Luo Ke holy water however...is already the depths of an emperor level undying."

"The depths of an emperor level undying?" Luo Feng laughed.

This was a good comparison.

At different levels of strength, the difference was stark. A powerful emperor level undying could easily decimate a group of official level undyings, and the wealth they could acquire was also shocking. Naturally, they had extreme amounts of wealth! However even so, many emperor level undyings would probably have to take everything they had to buy this river of Luo Ke holy water.

"Hahaha..." Black clothed Luo Feng laughed loudly, "Looks like we cannot underestimate normal people at all."

"Even though Pan Xi was a big slave trader, he seemed normal, and many official level undyings wouldn't even give him a second look. Who'd have thought, he had Luo Ke holy water?" Black clothed Luo Feng laughed loudly. "He sure was cautious, even the Virtual Universe Company didn't know he had such a thing!"

The vast universe was extremely mysterious.

It had countless life forms, those with such encounters were definitely plenty.

If Luo Feng could have such things, others naturally did too!

Pan Xi did have such a miracle. Actually, he himself didn't know that this was Luo Ke holy water, however as he used it to nurture his Metal vine, he was shocked to discover that it helped it evolve too easily. It evolved at an alarming rate, finally stopping only at sector lord level 9. And the amount of Luo Ke holy water he used on the Metal vine was but a small portion of it.

After which he used it to nurture the even more powerful Sha Luo flower, easily making it reach sector lord level 9!

He immediately understood...

This Luo Ke holy water was a treasure!

It took tens of thousands of mixed elements for a Sha Luo flower to reach sector lord level 9. However, he simply used a small bit of the Luo Ke Holy water and it did the trick. How much would the entire river be worth? Thinking of such a huge sum...he naturally felt fearful, he was clear that if he revealed just a little of it, the powerful undyings, even the maybe the Ganwu universe country leader may act on him.

He was fearful!

Hence he hid it well and remained low profile, he kept it as his true trump card when he evolved. He also occasionally sipping some as he trained, speeding his training up. Hence even without a teacher, he was still able to breakthrough to sector lord level. This was the miraculous use of the Luo Ke Holy water.

"There are many miraculous encounters in the universe!"

"And the treasures are different in levels too. When I acquired the Yun Mo planet ship, the Luo Fu Qi board, the Purple 100 net leaf etc, they were all official level undying treasures. And now this...is truly a top class emperor level undying treasure." Black clothed Luo Feng's eyes gleamed, "6.3 billion mixed elements, billions!"

He couldn't help but get more excited as he thought about it.

...

Within the Yun Mo planet ship.

Luo Feng sat in his resting room, he couldn't help but smile excitedly.

"I've struck it rich."

"When I got lucky before, it was mostly in training. Like getting the beast god statue etc, these were all treasures I worked hard to get. And this, is truly good luck...almost like a treat from the heavens. My god, I never expected to have such a day. Haha..." Luo Feng was extremely pleased and carefree.

How carefree?

"With this river of Luo Ke holy water, I will have deeper pockets. I've been spending so much, without earning anything. Sooner or later I'd be left with nothing." Luo Feng smiled. "Now however, with this river..."

"Hm."

"Cloud contact vine." With a thought, he immediately placed the cloud contact vine within the world ring.

After which he kept the vine within his internal world.

After that, he placed it within the little world's Luo Ke Holy water river.

World within another world...

"With this river, it'll be very easy for the cloud contact vine to reach sector lord level 9. Luo Feng thought. "Hm, however it won't be that easy to breakthrough to undying! Otherwise, after so many years, Pan Xi's metal vine and Sha Luo flower would long have broken through to undying. However with the help of this holy water, it'll probably help the cloud contact vine's chances a lot more in breaking through."

Luo Feng was extremely elated.

"Luo Feng, Luo Feng." Babata shouted, "There's mail."

"Mail?" Luo Feng was stunned.

Ah.

Looks like there was an outcome from the completion of the 1st level of the highest point mission.

Chapter 703: Knight's Visit

Luo Feng connected to the virtual universe network.

Virtual universe, Yu Xiang mountain's primal region, Luo Feng's villa.

"Teacher?" Luo Feng was shocked to see a silhouette within his living room, it was the golden armored ape man True Yan emperor. When True Yan saw Luo Feng, he smiled, "You've finally come."

"You are looking for me teacher?" Luo Feng asked curiously.

Babata who sat on Luo Feng's shoulder said with his piercing voice, "Luo Feng, the mail was sent by your teacher."

"I sent the mail to get you to come into the virtual universe as fast as possible." True Yan said.

Luo Feng smiled, "I have to say, I just killed Pan Xi, just completing the 1st level of the Highest points mission, I was shocked after receiving mail...I thought that the verdict of the mission was out that quickly, it'd probably have to take some time after all."

"You've finished the 1st level?" True Yan frowned.

"Hm." Luo Feng nodded.

"Tell me." True Yan ordered.

"Yes teacher." Luo Feng explained the entire mission to him, without withholding any information about his methods.

"You've killed quite a bit." True Yan smiled, "Very much like my style."

Luo Feng was stunned.

"Domain lord highest points missions are set to test the character." True Yan, as one of the upper level members of the virtual universe company, even though he wasn't the true top level, he was still clear on many things, he smiled casually and said, "After all, they can't spend their resources on nurturing just any genius, especially if one doesn't have any beliefs, are extremely selfish or will be a liability in the future in the outer region wars or secret regions."

Luo Feng nodded.

"The entire mission has to be synchronized online, they will judge your gaze, your every word, how you deal with the small members, how you punish the big figures, etc studying every bit of you." True Yan smiled, "They'll finally determine if you are fit to be nurtured, many absolute geniuses are judged from the 1st level completely."

"Teacher, do you think my 1st level will be able to pass 80% completion?" Luo Feng asked.

"It's hard to say." True Yan said.

"Hard to say?" Luo Feng was curious.

It's because I don't know who is in charge of judging you." True Yan shook his head, "There are many amongst the top echelon of the virtual universe company, everyone has different characters, if it were your senior Bloodthirsty emperor, he would probably give you a high score. However some of them dislike geniuses who massacre so much, they might give you a lower score, after all, you did kill quite an absurd number of people this time. Over 1 million, and your methods were vicious, it's obvious there's blood thirst in your bones...some upper echelon members may dislike that."

Luo Feng was speechless.

So what if they disliked it, it was him!

"Teacher." Luo Feng didn't want to think anymore about the mission, he smiled and asked, "Is there something you need from me?"

"An extremely important matter." True Yan's expression grew serious.

"Hm?" Luo Feng was stunned.

"Let me know, other than Yan Zhu, have you messed with any important people in the Huge Axe dojo?" True Yan carefully analyzed Luo Feng's gaze.

Luo Feng was stunned.

"No." Luo Feng shook his head, "I've had some trouble with Yan Zhu, you know that well. As for others...I really cannot think of anyone else big that I've had issues with."

"Then that's strange." True Yan frowned.

"Why?" Luo Feng asked, feeling nervous.

True Yan said seriously, "An absolute being of the Huge Axe dojo...a being even more terrifying than Yan Zhu's father Shi Huo knight...Undying knight! He went through me to get your contact, and personally wishes to contact you."

"Undying knight?" Luo Feng was stunned, "Who is he?"

Undying?

This title sure was intimidating.

"Undying Knight is a true member of the upper echelon of the Huge axe dojo, he's lived a much longer time than Shi Huo emperor. The title undying, means his ability to survive is incredibly strong, over long periods of time he's experienced many life or death situations and yet he's still alive. As for his strength and position, it's definitely comparable to the Tian Shi palace leader of our virtual universe company." True Yan emphasized.

Luo Feng took a deep breath.

Undying knight?

Meeting him personally, he hadn't even heard of this person before, why would he want to meet? And he was the upper echelon of the huge axe dojo, if it were the virtual universe company, it could be one

that liked geniuses...however the other leviathans, they wouldn't do this. Even if they wanted disciples, they'd have to go through the virtual universe company's internal upper management to do so.

"Undying Knight's teacher is the pinnacle of humanity." True Yan emphasized, "The creator of the Huge Axe dojo!"

Luo Feng opened his mouth but no words came out.

The creator of the Huge Axe dojo?

"The creator of the Huge Axe primal chaos tablet?" Luo Feng asked even though he knew.

True Yan nodded.

One of Humanity's treasures, the 52 chaos tablets, of which the Huge Axe tablet was ranked 1st, it had a total of 32 levels on the heavenly bridge, and the 2nd Universe tablet had 30 levels. Luo Feng trained in the 9 universe tablet that only had 27 levels! One could see the power just from the tablets and their levels.

To leave behind a tablet, one had to be an absolute pinnacle being.

The Huge axe tablet was ranked 1st!

And the huge axe dojo and the virtual universe company were both the 2 most powerful existences in humanity, the creator of the Huge Axe dojo...that level of power, one could only imagine. For True Yan to call him a true pinnacle being of humanity, it wasn't hard to understand.

"Damn." Luo Feng's heart raced, his mind was in a flurry, "Power akin to Tian Shi palace leader, one of the top of the Huge Axe dojo, his teacher is an even more terrifying being. Why would such a powerful being even want to meet me, such a small figure?"

Luo Feng was very clear on his position.

There were many geniuses, the absolute geniuses from the past 10,000 eras, during that same amount of time, another 10,000 such geniuses could be born. And the universe had been around for an extremely long time, who knows how many absolute geniuses have been born, with miraculous encounters and all. Those that were able to survive to become a knight were extremely few.

Undying knight probably didn't even care about True Yan, much less himself.

"Meet me?" Luo Feng was even more puzzled.

"Since you haven't messed with anyone, and have no connection to him, I can relax." True Yan laughed carefree, "Go on with your life and await his call."

"Hm." Luo Feng nodded.

His teacher left, leaving him alone in his study waiting patiently.

Fear?

Curiosity?

It was like if a normal person on earth was informed...by the president of America or china that they'd both come specially to meet him.

...

Every second felt like a year, Luo Feng didn't know whether he'd have to wait for a day, a month or a year before Undying Knight would call him.

...

3 seconds after his teacher left, he got a call request.

"Anonymous number." Babata said.

"Connect."

Luo feng quickly stood up and pointed in mid air, a huge screen appeared and ripples and blurry waves filled the screen, powerful pressure emanated over from the screen, engulfing the entire study, Luo Feng couldn't even resist it as he quickly bowed over, unable to lift his head.

Suddenly, an ear piercing strange laughter resounded, almost like glass scratching against a black board.

The pressure finally diminished.

Only then did Luo Feng lift his head and look at the silhouette on the screen, he seemed dressed in a weird armor, one couldn't even say it was armor, it was like a blur of vines that formed it, countless vines that wrapped about him, his eyes glowed green. Luo Feng had only just met eyes with him before he fell into an endless nightmare illusion.

Countless demons howling making him unable to resist, in an instant, they devoured him.

"Ah." Only then did Luo Feng awake.

"Wawawa..." The strange laughter resounded from the silhouette behind the countless vines, shaking the space about.

"Even through a screen, he easily shook the virtual universe space, able to trap me in an illusion." Luo Feng finally felt the power of this absolute being, even though his willpower was sturdy, it was still like a blade against an endless swamp.

"Little punk, your willpower is not bad." The strange laughter resounded.

"You are?" Luo Feng asked respectfully.

"Me?" The strange sound rose fiercely, "I am the great Undying Knight, you can call me Undying Knight, remember, it's Undying Knight. Not just Knight!"

Luo Feng was shocked within.

Is this undying knight mad?

"Greetings Undying Knight." Luo feng bowed respectfully.

"Hm."

His green eyes gleamed in the screen, scanning Luo Feng, suddenly he madly waved his armor, countless vines shook before he said satisfied, "Little punk, you are the leader of the milky way galaxy, earth's leader right?"

"Ah... yes!" Luo Feng reacted.

"That's good."

The weird temperamental undying knight laughed strangely, "I want to buy the milky way! Sell it to me, you can say any conditions, as long as I can, I will agree to it."

"Milky way?" Luo Feng was stunned.

A small galaxy...this was a true upper echelon member of the huge axe dojo, something that wouldn't appeal to this undying knight. Afterall, with his ability, building a universe country wasn't exactly a hard thing to do.

"With undying knight's ability, you can acquire the milky way galaxy, anytime." Luo Feng said.

"The 1,008 universe countries have their authorities, put in place by the 5 leviathans together, I cannot mess with that." The countless vines on the screen shook, undying knight laughed strangely, "Hence I will buy it very normally, you are the leader, as long as you sell it to me, it'll be over. Quickly, will you sell or not! My time is precious, I don't have any to waste on you."

Chapter 704: Delivery

Luo Feng felt a formless pressure. The one talking to him was a true absolute being of the universe, an undying knight, and he had a weird temperament. The moment he was angered, calamities would occur. Luo Feng was but a small little ant compared to him. Simply relying on his connections alone, this undying knight could easily kill off Luo Feng without a trace.

"Undying knight." Luo Feng stood before the screen and bowed respectfully. "Great sir, would I dare to not sell you the milky way? I'm willing to give you all the planets in the milky way for free, however I wish to retain my home planet earth."

On the screen, undying knight was stunned. He blinked for a while, as his green eyes were filled with a sense of helplessness. He rubbed the greenish black vine by his ear before his piercing voice resounded again, "You are interesting. However, honestly, I wish to buy only the planet earth in this milky way, I'm not interested in any other planets."

Luo Feng who stood there respectfully was taken aback.

Wanting to buy earth?

"Why?" Luo Feng asked, "This small little earth is but a normal life planet, why do you want to buy it?"

"I naturally have my reasons." Undying knight seemed restless. The surrounding vines wrapped together as he roared, "Will you sell or not!"

Luo Feng took a deep breath.

He bowed respectfully before emphasizing, "Undying knight, there are a trillion races within humanity itself, and the humans of earth belong to one of them. Just like the home of the Manka people is Manka planet, earth is the home to our earth humans. For my home, my comrades are all willing to die. Please forgive my disrespect, great undying knight...I cannot sell my home to you!"

After which, Luo Feng bowed again, awaiting undying knight's answer.

Silence!

In the screen, undying knight's green eyes gleamed, staring hard at Luo Feng. His formless pressure getting stronger and stronger, passing through the screen and pushing down Luo Feng's body. It caused his body to begin to crack, with loud pops, Luo Feng's leg broke apart and he was forced to kneel.

Still, he remained silent and waited for an answer.

"Wawawa..."

"Cackle..."

A weird enraged laughter resounded from undying knight's throat.

Among those that were familiar with him, how many dared to go against him? Amongst the knights in the Huge Axe Dojo, even though many had weird temperaments, they couldn't compare to undying knight's strangeness. He was proud and moody, and he enjoyed exploring dangerous universe secret regions, the more dangerous they were, the more he enjoyed them.

Even the great knights, in some universe secret regions, had to prepare for quite awhile, inviting some help before carefully exploring the areas.

Undying knight was completely different.

He took these dangerous places as a game. Frequently visiting the dangerous spots, exploring the terrifying regions, even the knights, at their level, if they explored these areas unprepared, sooner or later, they would fall. Undying knight however just didn't die.

His survival ability was very strong. Even the bug and automaton clans along with other powerful races knew, that there was a weirdo undying amongst the humans. Even within the many secret regions...he would find a way to survive.

He didn't open a universe country!

Not building his own sect and army! He didn't fight for power or status!

He believed those were beneath him!

As proud and arrogant as he was, he would even scold other knights, and was extremely arrogant. He enjoyed taking risks...no matter how powerful his opponent was, he would still challenge them! Hence after knowing that this undying knight wished to speak to Luo Feng directly, True Yan was so scared he had to talk to him first, asking if Luo Feng had offended anyone close to undying knight.

"What guts, you actually dare to go against me." Undying knight's voice pierced through Luo Feng's ears, his eyes like 2 cold blades, piercing straight into his soul.

In the screen.

Luo Feng knelt there and said respectfully, "Selling my home, selling my earth comrades and land, I simply cannot do, please forgive me."

Undying knight stared at Luo Feng.

Luo Feng patiently awaited.

Deadlock...

1 second, 2, 3...10 seconds...

A total of half a minute.

"Ha, hahahaha..." Undying knight's laughter changed yet again. It made one's hair stand on end. "Punk, you sure got guts. Don't you know that by angering me, I can easily kill you, getting rid of little geniuses like you is too simple for me."

"I know." Luo Feng said respectfully.

As he chatted with undying knight, Luo Feng had already thought of all sorts of methods to deal with the situation. Unless he was forced on a path with no return, he would definitely not sell earth!

The moment it became undying knight's territory.

Whatever he did on earth, Luo Feng would have no power to intervene. Earth was the home of the earth humans...selling his home and leaving his comrades no place to return to, this was something he couldn't do.

Hence!

Luo Feng had thought it through, no matter what, he was an absolute genius of the Virtual Universe Company. And even though that undying knight had an extremely high position and strength, he was still from the Huge axe dojo.

If he wanted to kill Luo Feng, that would be a disrespect to the Virtual Universe Company, and it would invite trouble for himself.

The chances of Undying knight killing Luo Feng was very low.

Of course...

With such a weird temperament as his, Luo Feng couldn't fully guess what would happen. Undying Knight could actually make a move to kill him, that was extremely simple for someone like him.

"If I don't sell him my home, he would want to kill me. Then...I would have to let Dylan immediately take me and teleport through his god country to earth." Luo Feng thought. Earth was his home, to rush home to earth as quick as possible, Luo Feng had let Dylan place an item as a marker there.

"After returning, I'll immediately keep earth in my internal world." Luo Feng thought.

There were indeed instances when a planet was placed in another world.

Luo Feng's internal world was big enough, it could withstand it. Just like the Manka planet was kept in a god country.

"Anyway, a few hundred years ago, earth still hadn't melded with the universe, they can still lead a happy life there. It's actually even safer within my internal world."

"Also!"

"My earth body will immediately head towards the Virtual Universe Company's primal region. The mosha clansman will take the main core and becoming a normal human, hiding in a distant universe country's life planet. With its cloning abilities, it wouldn't be discovered if it hid in those planets with mostly only star levels."

"When that happens, if undying knight wishes to kill me, he'd have to head to the primal region. I'd really like to see if he'd dare rush into the primal region and attack. If he succeeds, the powerful members of the Virtual Universe Company would be better off dead. It is the primal region after all! If they are killed by undying knight, I can totally give up on the Virtual Universe Company too." Luo Feng thought. "Even if he kills the earth body, my true strength is not affected at all."

This was Luo Feng's plan.

No big deal.

Either the fish dies or the net breaks!

If such a situation were to arise, and the Virtual Universe Company couldn't protect him, then there was no need for him to work for them anymore. It would be better to hide off in a desolate planet, even exploring other mysterious places in the universe and training.

If he didn't have such methods to hide himself, for the humans of earth's safety, he may submit.

But since he had such trump cards, why should he?

No matter what happened later, Luo Feng maintained his respectful position and awaited undying knight's answer.

"You know and yet you still defy me? Guts, you sure got guts." The Undying Knights laughter sounded satisfied. "I like people with guts. Unlike those knights who have so little guts that they are filled with such fear about exploring the secret regions. Haha, not bad at all. I like you, hence I'll spare your little life, you can simply give me any island on earth and this matter is resolved, there shouldn't be a problem with that right."

Luo Feng relaxed within, saying, "No problem, I will definitely prepare an island well for undying knight."

"Hm."

Undying knight nodded as his green eyes carefully examined Luo Feng, letting out a bone chilling laughter. "You little punk before me, from start to end I've never seen you lose your composure, sturdy! Strong! Interesting, really interesting..." He vanished amidst the laughter.

The pressure within Luo Feng's study vanished too.

"Phew."

Luo Feng let out a long sigh of relief, sitting back on his chair.

"My god, this undying sure has a weird temperament. He's really strange." Luo Feng's forehead was beading with perspiration. "I was almost forced to abandon everything and wander the universe."

If undying knight had truly wanted to forcefully get earth, Luo Feng was already prepared to put earth in his internal world and wander.

On the same day he had the conversation with undying knight in the virtual universe, in the distant milky way, earth.

Earth, amazon forest.

The forest was extremely humid, the many thick trees had occasional beasts running through them. It was very rare to have beasts nowadays on earth, they had already become protected beings for viewing and study. And since the earth humans didn't wish to destroy the natural habitats of the huge amazon forest, there was nobody about.

Weng...

A blurry red light engulfed the area, causing the surrounding space to ripple, after which 10 powerful beings appeared. All of them were dressed in either exquisite long robes or armors. They appeared together, with all sorts of appearances, however their energies were all terrifying. Of which, one of them...was the demonically beautiful Yan Zhu emperor.

"The last time I had someone place one of my undying crystals here, I didn't expect to have to use it so quickly and teleport through my god country over. Amongst the many knights, my father's underlings should be the earliest here on earth." Yan Zhu smiled satisfied, "I've done good work for my father this time."

Beside him, the other emperor level undyings smiled and nodded.

Chapter 705: Earth! Earth!

Yan Zhu emperor smiled satisfied.

How could he not?

Back when he arranged for someone to leave one of his undying crystals there, it was to prepare for when he could come and deal with Luo Feng someday. This petty action actually allowed him to help his father now!

"This earth is located in a remote location. No other undyings under the other knights would have left their markers here." A jade haired old man with a single horn laughed. "Without a marker, they have no way to teleport via god country over! Hence, we are definitely the fastest."

"Haha..." Yan Zhu's smile grew even wider.

A black armored lady with scales on her face nodded. "If the other knights sent their people here, they'd still have to teleport via their god countries to the closest nearby spot before flying slowly over in a ship. Black Dragon Mountain starfield...it's a very normal star field, with only 2 undyings. How many of the knight's underlings would have even left markers about."

They had to have markers left somewhere.

Only through that could they teleport via their god countries. Back when Dylan brought Luo Feng before, he had to teleport to a certain point in the universe country before taking a ship and flying for awhile before reaching Jade Dome planet.

"The others would probably take at least 3 to 5 days to get here." A hoarse voice resounded from a skinny intrepid lizard like man.

"Senior Yan Zhu, you give the order on what we should do here on earth. The 5 of us will be sure to complete your orders." The black armored lady said.

"Since you all agree on this, then I'll give the order." Yan Zhu smiled.

A total of 6 emperor level undyings under Shi Huo knight had come, along with 12 official level undyings. Even though Yan Zhu was considered the weakest amongst the other emperors, he held seniority as his father had him before he even became undying. And the other emperor level undyings...almost all of them were accepted after Shi Huo knight had become a knight.

Hence!

Yan Zhu was considered amongst the disciples under Shi Huo knight, the 2nd senior.

"Bu Na!"

Yan Zhu suddenly shouted.

"Lord."

A tall and sturdy silver armored bald man instantly appeared and bowed.

"With so many emperor level undyings here, Luo Feng may not dare show himself, and he's had some trouble with me before too. This time...father's orders are absolute, we need to buy earth easily without any complicated methods. You go and find a way to draw out Luo Feng to meet you." Yan Zhu ordered, mocking. "That Luo Feng is an aboriginal at birth, he probably doesn't even know of earth being special."

Even my father and the other universe knights had just found out, how would he know. Buying it from him should be easy."

"For example, you can just tell him you want to buy the milky way galaxy. This way we can avoid hinting to him about earth being special." Yan Zhu laughed.

"Understood." The bald man replied.

"Go on." Yan Zhu ordered, "The moment there's any news, inform me."

"Yes." The bald man became a beam of light and swiftly vanished.

"My juniors, we need to not let Luo Feng discover us when he's returning to earth. There may be some trouble when Bu Na draws him out, let's all head to space for now." Yan Zhu looked at the surrounding undyings, his gaze landing on the jade haired single horned old man, "9th junior, we'll rely on you."

"Haha."

The old man laughed. Even though there were 6 emperor level undyings about, only he was able to use teleportation. His undying energy immediately engulfed the group of undyings.

"Let's go!"

Shua!

The group of undyings instantly vanished from earth and appeared 1 light year away in an unknown space.

"No matter what sort of detection abilities he has, he won't be able to discover us 1 light year away." The old man said confidently.

"Haha..." Yan Zhu and the other emperor level undyings all laughed, the other 11 official level undyings just stood there obediently.

The group of undyings chatted within the vast space, awaiting Bu Na to send a message. The moment they received it, they could instantly teleport over back to earth.

...

Earth, Eurasia continent, China, Yang Zhou city.

There were close to 10,000 people living in Luo residence. The members of his family didn't even reach 30,000, most of them were in charge of managing the milky way galaxy and doing business with other powerful families etc. With Luo Feng's supervisor envoy position, it was too easy for them to do business.

Even though their family was small, their status was extremely high.

Firstly, Xu Xin stayed on earth, along with Luo Feng's parents, his brother Luo Hua and his two children. The children frequently explored the universe but still stay within their home for long periods of time.

"Mum."

"Mum."

In a vast grassland in Luo residence, with a glance, hundreds of infants were crawling about, some crying out for their mothers.

Xu Xin stood in the distance smiling at them.

These hundreds of infants were a small portion of newborn in the Luo family. After all, with hundreds of years of growth, his bloodline alone had descendants in hundreds of thousands. Every year, the number of newborns was a huge number. These hundreds...were the infants of the elites, otherwise how would they have the right to live in the actual residence.

There was no way.

After a family grows huge, especially over thousands of years. China had 5000 years of history and culture, if a family expands over a thousand years, with enough land, food, resources and being able to marry many, then the numbers would far exceed that of the entire population of earth. The reason why the population of earth was so small was mainly because there was a limit to land and food etc.

The large population meant there would be stricter rules, differentiation in levels and status within the family etc.

Rumble!

A formless pressure engulfed the entire Luo Residence.

"Who?"

11 silhouettes rose into the sky, it was the 11 sector lords stationed there, they looked about angrily. There stood in the sky and looked at the tall and sturdy bald silver armored man. He smiled at them, giving off a formless pressure, his presence was like a glaring sun.

God!

Luckily he controlled his pressure and only used it as a warning. Otherwise the infants would probably have died.

"Undying." One of the sector lord guards roared. "This is the residence of the Ganwu Department supervisor envoy Luo Feng. We are under orders from the Virtual Universe Company and are members of his guard team. Why have you...come over here?"

"I want to meet Luo Feng." The bald sun like man smiled, gazing down, focusing on Xu Xin, with a wave of his hand...

Shua!

Xu Xin rose into the sky and flew towards him, unable to break free. The bald man's pressure engulfed the entire residence as he smiled, "I only wish to meet Luo Feng, that simple. Don't make me angry, or else...the consequences will be dire."

Virtual universe, Yu Xiang mountain primal region, Luo Feng's villa.

Luo Feng was within his study, his conversation with undying knight before had left him disturbed.

"Earth?"

"Undying knight is already one of the true upper echelons of the Huge Axe Dojo. His position is extremely high. He actually personally looked for me to buy earth." Luo Feng frowned and pondered.

"Just what is so special about my home earth. The mysterious black metal board I found before already shows that...earth is indeed special, however my teacher Hu Yan Bo controlled earth for so long. Yet, I've never heard anything about it being special from Babata. And within our humanity's history on earth, there haven't been any shocking places."

Luo Feng was suspicious.

Suddenly...

Du!

Du!

Du!

Consecutive call requests appeared on the screen beside him, Babata shouted out, "Your son Luo Ping, along with Bai Kalo, Di Fan and your sector lord guards, and your father Luo Hong Guo...they are all calling you..."

"Put them all through." Luo Feng's expression changed.

Shua!

10 screens appeared in the study, many silhouettes appeared before him, all of them from earth.

"Dad, hurry back, mum's been captured. An undying came here."

"Master, an undying has come, this is the footage."

"Your majesty Luo Feng..."

All sorts of hurried and anxious voices resounded, Luo Feng focused on all 10 at a time, instantly picking out the gist of what they all said, all while watching the footage.

His expression immediately changed, calling Dylan in.

"Your majesty." Dylan looked curiously at Luo Feng.

"Look." Luo Feng pointed at the 10 screens before him, many of it replaying the footage Luo Ping and Di Fan sent him.

"It's an undying, ah, official level undying Burning Heart official Bu Na." Dylan recognized him immediately. Even though there were many undyings within the universe, undyings had amazing memory, they were normally able to recognize large amounts of others.

"He's captured my family member." Luo Feng's expression changed. "Let's head to earth now!"

"Yes." Dylan didn't even try to stop him.

...

The Yun Mo planet ship which was flying within the dark universe swiftly went through universe travel back to the actual universe. After which, through the god country teleportation, it entered Dylan's god country and finally teleported to the solar system.

...

Solar system, mars.

A blur of lights rippled in the space and a blood colored triangular ship appeared, it was the Yun Mo planet ship.

As earth was Luo Feng's home, in order to rush back in times of crisis, Dylan had placed a marker on earth. Along with 12 other places about the solar system to be prudent. After all, they may not necessarily be able to teleport to earth all the time.

Like now, with the undying Bu Na on earth, he could easily scan the entire earth.

The moment Dylan teleported through his god country onto earth, Bu Na would easily find his marker and Dylan's god country would be revealed. That was extremely dangerous.

"Your majesty, we'll immediately head towards earth." The Yun Mo planet ship accelerated.

Sou!

It became a beam of light and quickly entered universe travel, entering the dark universe and quickly returning, only 10 seconds had passed before they reached earth's space.

Chapter 706: Discussion

Luo Feng and Dylan became beams of light and instantly tore through the atmosphere and arriving in the air above his residence.

"Hm?" Luo Feng easily saw in the distant skies the tall and sturdy undying. Beside him was his wife Xu Xin and she was obviously bound without any way to break free.

"Dad."

"Your majesty."

"Master."

The group of undyings looked at Luo Feng and Dylan as they appeared, their faces filled were with joy. Even Xu Xin who was bound, her eyes lit with excitement and worry as she saw Luo Feng.

"Hahaha... Your majesty Luo Feng sure is fast." The sun like undying Bu Na turned and smiled.

"Burning heart official." Luo Feng frowned, "You are an official level undying, to do such a thing without a care for your status, it's truly shocking, please release my wife."

Bu Na smiled, "I didn't expect your majesty Luo Feng to know my name too, it sure is an honor. I'm controlling your wife...only to bring you here, without any ill intentions. Since your majesty has asked me to do so...I naturally will!"

As he said so, Xu Xin realized she was free to move, without saying anything, she swiftly flew back to the ground.

Luo Feng looked on suspiciously at Burning heart official, "Burning heart official, why have you come looking for me?"

"Let's find a quiet spot to sit and chat." He replied.

"Simple."

Luo Feng nodded.

Simultaneously the mosha body within the world ring held the main core...as Luo Feng had refined this world ring so that he could easily exit from it, if others entered it, they had no way to get out.

The mosha clansman with the main core released his world energy and easily found its way out of the world ring!

It spread all over the Luo residence.

Keep!

Including Luo Feng's parents Luo Hong Guo and Gong Xin Lan along with all the members of the family, with Di Fan etc, they all entered the gold continent. Di Fan along with the 10 sector lords etc, they didn't know that this world ring they entered was actually his internal world.

Afterall, whether it was an internal world or another world, the only difference was the objects within that sustained it.

The internal world was held by his main core and life core.

The other world was held by valuable materials.

"Bu Na, let's go down to chat." Luo feng smiled.

"Your majesty sure is cautious." The bald Bu Na glanced down. The Luo Residence was completely empty, he didn't mind, smiling as he followed Luo Feng and Dylan into one of the yards below.

...

Within the yard.

The 3 sat down.

"Speak." Luo Feng looked at Bu Na and smiled indifferently. "Burning Heart official, you came all the way to earth, not caring about your status and using such methods to draw me out, just what is it about."

"Haha, I truly am regretful to do such a thing." Bu Na smiled. His face glowed with light as he emanated light law energies. "I happened to chance by the milky way galaxy and have wandered about it, I'm very

intrigued by this galaxy and I cannot help it. Hence I came personally to your majesty's home earth to want to buy the milky way galaxy."

Luo Feng was stunned.

Buy the milky way galaxy?

Didn't Undying knight from before also want to buy the galaxy, and now this official level undying Bu Na wanted the same thing.

"A normal price of a galaxy is usually not even 1 mixed element. However I don't wish to have you make a loss, I'm willing to fork out 100 mixed elements to buy the milky way galaxy. Are you willing?" Bu Na smiled at Luo Feng.

"100 mixed elements, what a high price." Luo Feng exclaimed.

What a joke.

This was something the undying knight of the Huge Axe dojo was willing to personally appear for. Back then, he was even willing to agree to anything Luo Feng asked. To such a being, even if Luo Feng had quoted a price akin to the worth of True Yan emperor, billions of mixed elements, undying knight would have agreed anyway.

Even in the end, all he wanted was an island of earth.

"Even undying knight, that level of being only got an island of earth, 100 mixed elements? He must be dreaming, he must think I don't know how special earth is." Luo Feng mocked coldly within.

"It's not high at all, I like the galaxy, hence it should have such a price." Bu Na said.

"Seems right."

Luo Feng nodded, "I'm willing to sell all the other planets in the milky way galaxy to you. However, earth is my home, I definitely cannot sell it."

Bu Na was stunned.

Luo Feng mocked coldly within, he enjoyed watching this official level undying's expression. Go on and act, let's see how much you can act.

"I really like the galaxy, the most exquisite part of it is this galaxy however is earth." Bu Na said, "Your majesty Luo Feng, speak your price. As long as it's reasonable, I'm willing to pay."

"Hmph!"

Luo Feng stood up fiercely and roared, "Mr Bu Na, you know very well earth is my home, who would sell their home."

"No hope at all?" Bu Na looked at him.

"Nope." Luo Feng shook his head.

"Then there's no way about it." Bu Na shook his head and swiftly sent a message to Yan Zhu emperor and the others via the virtual universe network.

Weng...

The south regions of earth had a sudden appearance of a group of undyings. After which, they all quickly teleported over to the yard in Luo Feng's residence.

Within the yard.

"There's undying energy searching." Dylan communicated to Luo Feng.

"Hm?" Luo Feng was shocked.

In the yard, a large group of 17 appeared, all with terrifying god presence, the formless pressure made Luo Feng go pale.

"Yan Zhu emperor." Luo Feng looked at the group that suddenly appeared. Yan Zhu emperor was dressed in an exquisite robe. He was accompanied by the powerful single horned old man, and the bone chilling black armored lady with fish scales on her face, along with another man who seemed dressed in a torn up robe but still giving off a special energy, and finally the lizard like man.

The 5 of them that stood beside Yan Zhu emperor all had terrifying energies. Behind them were another 11 undyings with pressure that was even stronger than Dylan's.

"Luo Feng, we meet again." Yan Zhu emperor smiled.

"Yan Zhu emperor." Luo Feng got up to welcome them. Beside him Dylan's expression changed as he communicated, "Your majesty, including that Bu Na from before, among these 18 undyings...6 of them are emperor level and 12 are official level. This is a very terrifying force, and they are all from the Huge Axe dojo. Your majesty should be extremely cautious."

"I understand." Luo Feng replied.

He pondered suspiciously within.

18 powerful undyings, one had to know that under the universe country leaders, there wasn't even 1 emperor level undying. Normally, only the knights of the 5 leviathans had such beings! A total of 6 emperor levels ...this was definitely a force that could decimate half of a universe country.

Ah?

These 18 were all from the huge axe dojo. That undying knight before was from the huge axe dojo too. Why were they all from there?

Luo Feng was suspicious within, yet he still spoke calmly, "Why has your majesty come personally to earth?"

"Don't be nervous, sit." Yan Zhu emperor sat first, the other 5 emperor level undyings sat too.

"Yes." Luo Feng sat, Yan Zhu emperor had torn into him before, and yet now he was smiling.

"As to why I'm here, Bu Na has said it, I want to buy your earth." Yan Zhu sat there. His crystal like fingers that were more beautiful than a lady's gently tapped on the stone table, he smiled at Luo Feng, "Cut the crap, speak your price, we will buy it."

Luo Feng frowned, "Earth is my home..."

"Speak a price!" Yan Zhu interrupted Luo Feng's words, gently lifting his finger, "1 hundred million mixed elements."

Dylan who stood beside Luo Feng was stunned too.

1 hundred million mixed elements?

"I said before, I cannot sell my home." Luo Feng shook his head, "Even if it's 1 hundred million mixed elements, I still can't."

"Hahaha, ok, ok, ok." Yan Zhu smiled, "Bold indeed, I'll show you some respect, I'll give you a heavenly price...1 billion mixed elements! Many low level emperor level undyings have only accumulated that much wealth. With that amount of wealth, even nurturing your cloud contact vine to undying wouldn't be a hard thing."

Luo Feng still shook his head.

Yan Zhu's expression grew heavy.

"Hmph!"

He stood up fiercely, raging as he slammed the stone table, it immediately exploded apart with fragments flying in all directions, Dylan used his undying energy to control the fragments as the entire yard became a wasteland while his area was fine.

"I show you respect and yet you still refuse." Yan Zhu smiled coldly at Luo Feng, "Then we'll do it the hard way!"

Rumble!

His powerful undying energy instantly wrapped about Dylan and Luo Feng, after which a world energy spread in all directions, engulfing the entire earth.

"Keep!" Yan Zhu's expression was cold.

The entire earth, whether it was the chinese, americans, Africans etc, or even the slaves from other planets, every living human was kept into his world ring. As for earth itself, since his father Shi Huo knight wanted it, he didn't dare keep it.

In an instant...

All humanity on earth was gone, only the ones in this yard were left.

"Other than the people here in this yard, there's no other humans." Yan Zhu emperor released his undying energy binding.

Luo Feng's expression changed, and he quickly released his spirit energy to scan. Every city in China was empty, the dishes were still steaming, tea still boiling, yet there wasn't a single soul. Other than these people in the yard, no one was left.

Amidst the ruined yard, Yan Zhu looked coldly at Luo Feng and roared "I'll give you 2 choices, the 1st, agree to sell earth to us and you'll get 1 billion mixed elements and the humans of earth back. The 2nd, reject us and all of the humans kept in my world will die!"

Chapter 707: A Letter

Luo Residence, ruined yard.

Yan Zhu stood there and stared coldly at Luo Feng.

Beside him were the 5 emperor level undyings and 12 official level undyings. Compared to Yan Zhu, Luo Feng was indeed weak, even Dylan barely had the power of an official. In truth, he wasn't a match against one true official.

"I get bullied if I'm weak! The strong prey on the weak, it's indeed survival of the fittest." Luo Feng was forced into a corner. Even though he was raging within, he had to carefully calculate his next move. "Yan Zhu emperor probably doesn't even think of me as anything. From his point of view, I'm just another aboriginal genius."

"Only he doesn't wish to kill me, because he's guessed that...both Dylan and I have opened a synchronized broadcast with the virtual universe network. The moment he makes a move, the Virtual Universe Company would have full evidence. Even if he didn't die, he would be in big trouble."

"However the bottom line is still strength!"

"He has a powerful father. Even if he kills me, he'll at most be heavily punished! Those that are weak are destined to be bullied, this is the strong preying on the weak!" Luo Feng's will to get stronger grew more and more.

If he was at the sector lord pinnacle level, he would be able to kill the official level undyings and fight against the emperors.

Such a level of genius...

Even Yan Zhu emperor wouldn't dare mess around, because these absolute geniuses would definitely be treasured individuals of the Virtual Universe Company.

"There are only two paths, pick one!" Yan Zhu roared.

Luo Feng roared, "Yan Zhu emperor, using the earth humans as hostages, isn't that too degrading even for you?"

"I'm asking you to choose!" Yan Zhu's pressure rippled throughout, pressing down on Luo Feng, he was obviously raging.

"Then I'll speak honestly." Luo Feng looked at Yan Zhu. "Just today not long ago, your Huge Axe Dojo's Undying Knight contacted me via the virtual universe network to buy the milky way galaxy. Against him, even though I refused initially, his pressure was too terrifying...hence I finally submitted."

"What?" Yan Zhu's handsome face was filled with shock.

"Undying Knight?" The jade haired old man beside him was shocked too.

"Undying knight?"

Everybody around including the 6 emperor level undyings were all shocked by the name.

"Don't lie to me." Yan Zhu smiled coldly at Luo Feng. "If you did sell the milky way galaxy to undying knight, the records would all show that he is the leader. However in all the records...I've been monitoring, there hasn't been any change."

Luo Feng said indifferently, "As he's on the way over to earth, when we meet face to face, he'll hand over the treasures to me. Only then would the transaction be fully complete. Even though it hasn't been transferred yet, I already have an agreement with him. I definitely would not go against it. Yan Zhu emperor, you can go look for him and if he agrees, I naturally would have no objection."

"Liar, you are lying!" Yan Zhu's eyes flashed.

Within however, he was filled with many thoughts.

It was very possible.

Undying knight's position in the huge axe dojo was even higher than his father's, it was normal for him to have received the news on earth. And with his weird temperament...he might really personally send the treasures in exchange for the deeds.

"Who cares, I'll first obtain the rights to earth. Even if I'm asked again later...I'll just say that Luo Feng was lying." Yan Zhu said. "And undying knight is a lone wolf, he doesn't have a sect. Even though he's an upper echelon member of the Huge axe dojo, he doesn't have much help. My father's influence within the Huge axe dojo however is huge. With the rights of earth in his hands, as long as it's lawfully done, that undying knight wouldn't be able to do anything."

...

Luo Feng's residence, only the stone benches were fine.

Luo Feng suddenly sat down.

He could see that Yan Zhu was worried.

"Punk." Yan Zhu saw Luo Feng sitting down. His eyes twitching slightly as he communicated, "I know you are not fearful because of your backing, and I know that you are doing a synchronized broadcast with the virtual universe. However, I'm not stupid either, I won't make a move directly at you. However, in all honesty, even if I don't do it personally, I can let others do it. I have 3 other undying slaves in space above earth, and they are my soul slaves. I just have to get one of them to kill you. So what if the virtual

universe network picks up the broadcast? They'll at most record an undying killing you and not me personally!"

"Without proof that he's my slave."

"As for your guard Dylan, I'll get others to forcefully bind him. He won't even be able to help you."

"And when that happens, boom!"

"You'll be dead! All of the rights to the milky way will go to your son, and I naturally have my ways to make your son hand them over to me." Yan Zhu communicated to Luo Feng. "As long as you are dead, without the Virtual Universe Company primal region member status as protection, would your sons dare defy me? As for undying knight...it'll still take him at least 3 to 5 days to rush over. When that time comes, everything here would have been settled."

Luo Feng's expression changed, staring at Yan Zhu emperor.

Yan Zhu smiled at him, continuing, "Haha, I'm communicating mentally to you now. The virtual universe broadcast cannot pick up our conversation. What can you possibly do now?"

"Punk."

"Don't resist, I'm trying to avoid more trouble. If I know I'm going to be sent to the starfield jail, I'd have killed you long ago. At most I'd be punished." He looked at Luo Feng's with a hint of pity. "If you submit, everything will be good right?"

Luo Feng sat on the stone bench, however he had long sent a thread of consciousness to the virtual universe network.

Virtual universe Yu Xiang Mountain primal region, Luo Feng's villa.

While the broadcast was live, he had swiftly written a letter.

"Knight:

For a reason I do not know, the Huge axe dojo's Undying Knight contacted me wanting to buy the milky way galaxy, especially earth. I refused to submit and was finally lucky that he didn't forcefully take it, only wanting an island of earth.

However, as I'm writing this letter, in my home earth, the Huge axe dojo's Yan Zhu emperor and 6 other emperor level undyings along with 12 official level undyings have reached earth and are holding my countless comrades as hostage, forcing me to sell earth to them. Otherwise they'd use their undying slaves to kill me and acquire the deeds to earth via my son.

I have no way to resist this.

I'm powerless!

I hope sir knight can right this wrong."

Luo Feng had swiftly written the letter via his thoughts and sent it to 9 blade knight.

His genius competition was hosted by 9 blade, he was naturally one of his underlings. If he had sent it to Tian Shi palace's leader, it would be overstepping, as he had only given him some little guidance back then. Also, he only knew the contact number of one of his undying underlings.

He didn't know Tian Shi palace's leader's number.

"Send it 9 times." Luo Feng sat before his desk and looked at the laptop, he had already sent the mail to 9 blade knight.

"I cannot spam it too much, only just a little for him to notice. That the Huge Axe Dojo has obviously discovered something special about earth. When the time comes, the Virtual Universe Company will come not only for my sake, but also for earth's secret. They naturally wouldn't let this matter rest." Luo Feng nodded.

He believed...

That the moment this letter was sent, it would carve a huge hole and make the Virtual Universe Company clash with the Huge axe dojo!

...

Earth.

Luo Residence, ruined yard.

Even though he had sent the mail, Luo Feng's expression was still ugly, as he was trying to stall for time while communicating back to Yan Zhu. "Yan Zhu emperor, it's not that I cannot see the situation clearly. The only thing is...since I've already agreed to undying knight, that's the undying knight. You, Yan Zhu emperor have Shi Huo knight to protect you, but what about me? Against Shi Huo knight's rage, I will be finished."

Yan Zhu revealed a smile as he heard this.

He was happy within.

It seemed that the deal was going to happen.

"Relax." Yan Zhu replied. "When you return to the primal region or primal chaos city, these two places...are extremely safe."

"I cannot stay in those two places forever." Luo Feng replied.

Yan Zhu seemed impatient, "Cut the crap, hand over the rights to the milky way right now, and at least you'll be left alive. Even if it's hard in the future, when your position rises, it'll be fine. If you don't agree...then you'll die now and the entire human population of earth will die with you, hurry up and choose!"

Right at that moment...

Rumble!

A powerful undying energy swept the entire planet.

"Hm?" Yan Zhu and the other emperor level undyings and 12 official level undyings were all shocked.

"Undying energy." The lizard man said coldly.

"An undying has actually come, how could he be so fast? The armies of the other knights will take at least another 3 - 5 days." Yan Zhu's expression changed.

"It may be the armies of the other knights, that happened to have left markers close to earth's coordinates." The black armored lady said.

Weng!

Teleportation.

A silhouette appeared within the yard, just his teleportation alone had left the 6 emperor level undyings in shock. Those with teleportation were definitely not the normal undyings. Of the 6 emperors there, only 1 of them could do it, it was obvious how rare it was.

Luo Feng too was shocked at the appearance of this person.

This was a huge man that could really be said to be tall and sturdy. He was over 3m tall and he had 2 blood red horns on his forehead. He also had some silver scales there, and his armor revealed his 2 arms that had silver scales about. He was covered in a black and blood colored armor, obviously an absolute being of the Nakameng race.

He stood there like a majestic god mountain.

His formless bloodthirst engulfed the entire area, his energy pressuring Yan Zhu and the others.

"Greetings teacher." Dylan bowed respectfully.

"Bloodthirst emperor!"

"Tie Jun!"

Yan Zhu and the other emperor level undyings changed their expressions, all shouting out the name.

Chapter 708: Mobilization

The Nakameng clan was one of the powerful races of humanity. Even though they were few in numbers, they were well adept in battle. And Bloodthirst emperor was one of the top 3 absolute beings of the entire clan. In terms of reputation, he was even more renowned than his teacher True Yan emperor, he had massacred heavily for his name!

Under his formless pressure, Bloodthirst emperor's golden eyes swept past Yan Zhu emperor and the other emperor level undyings, he instantly shocked all 6 of them.

"Junior." He looked at Luo Feng and smiled.

"3rd senior?" Luo Feng was surprised and happy.

His 3rd senior actually came at the critical moment, how did he?

Beside, Dylan communicated, "Your majesty, when the grandmaster asked me to protect you, he actually had a trump card...for when you ever meet a great danger that even I cannot deal with, I could call my teacher over. As his disciple, I naturally carry one of his markers. Back then when I left some of my markers about the solar system, I also placed 3 of my teacher's markers there. When Yan Zhu emperor faced you earlier, I immediately contacted him via the virtual universe network."

"Ah." Luo Feng was elated.

"Surprised?" Bloodthirst emperor looked at his junior, his voice powerful, "Relax, with me here, the Huge axe dojo cannot do anything to you!"

He also said, "I've already arranged for another friend of mine, Iron wall emperor to wait at the 9th teleportation point in the primal region. I carry his marker around, you should let 9 blade knight know. You are after all under him, he will definitely see to this matter."

"I've already reported." Luo Feng replied.

"Hm, if 9 blade sends his army, you can tell him to send them to the 9th teleportation point and come over with Iron wall emperor." Bloodthirst emperor said.

His mental conversation with Luo Feng ended instantly, after which he turned over to the 6 emperors with ugly expressions.

Yan Zhu and the others!

"I didn't expect Tie Jun to come." Yan Zhu mocked.

"Yan Zhu." Bloodthirst emperor gazed coldly at them. "This is my junior's home, why have you and the Huge Axe Dojo people come? No matter what, this is still the home of a core member of our Virtual Universe Company. Naturally it is protected by the Virtual Universe Company, it's better for you lot not to make a mess."

The jade haired old man suddenly shouted out, "Bloodthirst emperor, there's 6 of us here, don't you dare get arrogant!"

"Ah, Bao Jin emperor." Bloodthirst emperor glanced over. "You mean to say, that with the 6 of you emperors together, you can beat me?"

"Hmph."

The lizard man beside snorted coldly, saying hoarsely, "With me around, Bloodthirst emperor, you can dream about teleporting."

Bloodthirst emperor looked at him, "So it's the Piercing heart emperor who is proficient in space lockdown. With you using that, indeed there's no way for me to teleport. However that means that Bao Jin emperor cannot do so either. With everybody unable to so, and 1 against 6, who do you think will die when we truly engage?"

It was said very casually.

However, the words, who do you think will die made the 6 change their expressions. The difference between emperor level undyings was huge. If the legendary True Yan emperor appeared, Yan Zhu and the others probably wouldn't even dare resist. As for Bloodthirst emperor...

Even though his reputation was higher than his teacher's, his strength was still slightly weaker. However, he was still a high level emperor level undying, who was intrepid and strong...amongst the undyings of humanity. Who wouldn't have heard of him?

1 against 6!

Even though it was very hard for an emperor level undying to die, even if the fight dragged on, Bloodthirst emperor would definitely survive while Yan Zhu's side may very likely lose a couple of them.

...

Within the ruined yard.

The two sides faced off, as the Bloodthirst emperor's energy pressured Yan Zhu and the others.

This scene made Luo Feng incredibly excited. This was a true face off between the strong, one person threatening a group of other undyings. If he could reach this level, it would be awesome.

"You all should just leave." Bloodthirst emperor said casually.

"I'm under orders from my father here, how can I just go?" Yan Zhu's expression was ugly. "Tie Jun, don't force me. Even if I can't bear to, I may use my trump card. Even if it can't kill you, it'll definitely leave your undying body heavily damaged."

"Oh really?" Bloodthirst emperor glanced coldly at him.

In terms of wealth and trump cards.

Bloodthirst emperor definitely couldn't compare to Yan Zhu. After all, Yan Zhu had absorbed that treasure into his soul, it was one that even knights would fight for. If he unleashed that treasure...even though the cost wouldn't be small, but for a short amount of time, Yan Zhu would have the emperor pinnacle level of strength.

What's more, Yan Zhu had other life preserving trump cards. There was just no other way around it. His family had that powerful father...Shi Huo knight!

As for Bloodthirst emperor, it was the opposite. His treasures couldn't compare to Yan Zhu's, however his body was incredibly strong.

Weng...

Bloodthirst emperor suddenly triggered one of the world rings on his body, spreading the world energy at Luo Feng, wanting to place him within.

"Bloodthirst Emperor!" An ear piercing voice resounded. The intrepid lizard man suddenly howled out, causing the surrounding million km of space to lock down. The initial normal ripples all condensed and the world energy crumbled.

"We are here, don't even think about placing him within your world." Yan Zhu smiled coldly.

"Luo Feng will be your bargain." The jade haired old man mocked at Bloodthirst emperor.

The 6 emperors seemed confident.

Bloodthirst emperor's expression however was ugly.

If it weren't for Luo Feng and Dylan, he could care less about anything and fight it out with the 6 emperors. However, now with them staring hard at him, he couldn't keep Luo Feng in his world.

"Bastard!"

Bloodthirst emperor roared. With a wave of his hand, a huge gold disc appeared with a diameter of about 1,000 meters. Simultaneously, this gold disc extended two large arms that grabbed Luo Feng and Dylan with one, the other acting as a shield against attacks.

"Grab Luo Feng!" Yan Zhu roared.

"Yes!"

The group of undyings complied.

Rumble!

6 emperor level undyings all simultaneously attacked Bloodthirst emperor. The other 12 official level undyings rushed at Luo Feng and Dylan.

Hua...Luo Feng and Dylan watched as the big gold hand blocked them!

The other hand grabbed them and dragged them into the ship.

Ka!

The two golden hands vanished and the gold disc ship locked down, letting out a voice, "Master, the two are within my body." The voice resounded in the space above earth, the gold disc ship rumbled and rushed into the skies instantly tearing through to space.

"Chase."

The 12 official level undyings rushed after them.

"Use soul techniques to pierce through the defense of the ship, control Luo Feng." Yan Zhu communicated urgently.

"Hahaha..." Bloodthirst emperor laughed loudly, rushing upwards into space too.

Rumble! Rumble! Rumble! Rumble! Rumble! Rumble!

Yan Zhu and the other emperors all followed into space.

At this time, virtual universe Yu Xiang mountain primal region, Luo Feng's villa.

Luo Feng sat in his study awaiting 9 blade's reply, at this time...

"Luo Feng, a call request, it's 9 blade knight's number." Babata shouted excitedly.

"Quickly answer." Luo Feng's eyes gleamed.

"Yes."

A screen immediately appeared and on it a silhouette, it was a handsome purple scaled man in an ancient green robe, his formless pressure was strong but controlled, it was 9 blade knight.

"Knight." Luo Feng bowed respectfully.

"I already know, however the people I've sent will take awhile to get to earth." 9 blade said.

"Knight, right now at the primal region's 9th teleportation point, Iron wall emperor awaits." Luo Feng said respectfully, "As long as you send your people there, they can teleport via his god country together and arrive at earth."

"Got it." 9 blade knight said.

Pa.

The call disconnected.

...

Virtual universe, thunder island, within 9 blade knight's palace.

Below him was a black blur of undyings, this vast group of undyings, even the weakest was an official level.

"Greetings knight." The group all bowed respectfully.

In the throne above.

9 blade knight gazed down below and ordered, "The Huge Axe Dojo has sent people to invade my underling Luo Feng's home, earth. Right now, all of you head over to the 9th teleportation point immediately and meet with Iron wall emperor. After that you will teleport to earth. Remember...protect Luo Feng's life."

"Yes." The large group of undyings rumbled as they bowed, they were shocked within.

Protect Luo Feng?

He was but a little genius, was it enough for 9 blade to send such an army?

This was an army of 50 emperor level undyings along with close to 1,000 official level undyings. These were almost all of the elites of 9 blade knight. Other than the few that were away or in dangerous regions, these 50 emperors was almost all of the emperor level undyings he could mobilize.

"Go!" 9 blade knight ordered.

"Yes!"

The blur of undyings bowed respectfully and vanished, leaving the virtual universe network.

...

In reality, the beings scattered across the universe all swiftly teleported via their god countries, heading over to the 9th teleportation point as swiftly as possible.

The emperors and officials under 9 blade knight all gathered!

Their goal...

Earth!

Chapter 709: Arrival

Solar system, about 1 hundred million km in space away from earth.

12 official level undyings were surrounding a huge gold disc ship, attacking Luo Feng and Dylan who were hiding within.

"Use soul attacks straight through the ship against Luo Feng. Don't care about anything else, get rid of him." Yan Zhu communicated to them. "Don't ever let that Dylan keep Luo Feng in his world. The moment he enters the world, there'd be no meaning in this battle."

"Yes lord."

The 12 undyings all used their soul attacks, even those not proficient in such techniques did so, as long as their undying energy became voids, they could use it as a soul attack.

Whether it was a fighter or spirit reader.

They simply used undying energy.

...

Within the ship.

"Relax, you are both in my body, they cannot get in. However, you'll have to block their spirit attacks." A huge face appeared on the wall in the resting room of the ship. He looked at Luo Feng and Dylan and smiled. "Soul attacks are useless against me, however I have no way to block them. The material used to build this resting room has a definite effect on blocking undying energy. It can also weaken the soul attacks, it's the best I can do."

"Leave the blocking of soul attacks to me." Dylan emphasized.

A formless undying energy wrapped about Luo Feng, blocking him against the 12 official level undyings' attacks.

"Rumble!"

Rumble!

Even though it wasn't visible, Luo Feng could feel the undying energies attacking over and over.

"These bastards keep dispersing my world energy. Your majesty, I have no way to keep you in my world." Dylan's face was panicked. "They are aiming straight at you, and from the looks of it, they want to kill you."

"Kill me?" Luo Feng was shocked, "Dylan, can you withstand it?"

"It takes up a lot of energy." Dylan replied, his expression heavy. "Luckily, I'm proficient in the soul offense and defense. Plus, the walls of this room have a weakening effect on their attacks, I can hold it for awhile. However amongst the 12 official level undyings, 3 of them are proficient in soul attacks. If time drags long, I may not be able to hold it."

Rumble!

Rumble!

The many undying attacks clashed over and over. Dylan controlled his undying energy into a complex web like protection against them, blocking them from attacking Luo Feng.

"Dylan, hold on for awhile. 9 blade knight's people will be here soon." Luo Feng communicated.

"Hm." Dylan's expression was serious, he fought hard to withhold them.

"Ah!" A painful scream.

Rumble!

An explosion from outside the ship.

...

In the space, even though the 12 official level undyings already knew this ship had melded with a metal life form, they had kept their guards up and maintained their distance. However as they flew about and unleashed their soul attacks to no avail over and over, they got more desperate.

The further they were, the weaker their soul attacks. Hence the 12 slowly got closer in desperation.

And just before, very suddenly...

The dark gold disc ship that seemed solid and sturdy suddenly extended a large metal arm, fast as lightning, faster than an emperor level undying's attacking speed. It waved...grabbing one of the official level undyings proficient in soul attacks and used its strength!

With a rumble, the undying exploded!

"Be careful of the ship."

"Stay further away from it."

The other 11 undyings were shocked.

"Huhu..." Large amounts of green light dispersed in all directions, instantly reforming into a black robed purple haired lady. It was obvious that she had reached the undying body level, she communicated

anxiously, "Everybody be careful, this metal life form has good comprehension of the space laws. When it exploded my undying body, my dispersed undying energy was actually unable to escape for awhile. That hand locked me in with space laws and destroyed my undying energy, I lost a great amount of it..."

"What!" The other 11 were shocked.

With an undying body, being destroyed once had almost no effect on their energies.

Of course, it depended on who used it. Like in primal chaos city, back when the city leader's palm smashed down casually on the two undyings, they were smashed so hard they were very close to dying, but of course they were spared. This level of control, was much harder than simply killing those two undyings.

And like True Yan Emperor, he could easily kill an official level with just one move.

"Hahaha...see if you dare underestimate me. Haha, 3 proficient in soul attacks, 1 heavily injured. The other can give up on attacking with their full strength." A huge human face appeared on the ship. He laughed loudly and became a blur as it extended 2 huge hands and grabbed about.

He even aimed at the other two specialized in soul attacks!

It forced the 12 official level undyings to dodge over and over while attacking. This naturally lowered their attacking power by a lot.

...

Through the external simulator, Luo Feng and Dylan clearly saw everything.

"It's much easier." Dylan was happy.

"What a strong ship." Luo Feng complimented the sturdiness of the ship.

This ship was an F9 grade ship that had melded with a metal life form. In terms of defense, it was extremely strong, and the metal life form made it even more special. Just like if a metal mountain suddenly became a life form, its life construct would definitely have huge differences from a flesh and blood life form.

In the universe, there were many life forms without souls. Many of them, and the mosha clansman was one. Those without souls would naturally have their life cores.

When Luo Feng and Dylan along with the metal life form ship were facing off against the 12 official level undyings.

Yan Zhu and the other 5 emperor level undyings were worried.

"Useless, useless." Yan Zhu roared within.

"Haha...Yan Zhu, they can't even harm Luo Feng, you should just give up." Bloodthirsty emperor laughed and waved a peculiar shaped blade, fighting it out with the 6.

Rumble...

The surrounding space was torn apart. Every time it was recovering, it was sliced through again, a million km in diameter area about was completely torn apart. The space flowed madly about, with the 7 emperors fighting it out madly. However, the mad space flow couldn't even hurt them.

Boom!

Yan Zhu blocked a blade and was instantly knocked back hundreds of thousands of km, spitting out gold blood.

"Senior, what do we do?" The other emperors were anxious too, of which the black armored lady communicated, "It's 6 of us against Bloodthirst emperor and yet we are at a disadvantage. These 12 useless things cannot kill Luo Feng, we are purely wasting time. If bloodthirst emperor could get here so fast, the other people from the Virtual Universe Company will be here soon."

"I know." Yan Zhu was incredibly worried.

At this time...

The distant gold disc ship suddenly had a blur of gold light about it. With the gold blur, an incredibly huge pressure spread throughout. The strength of this wave...instantly covered the surrounding ten million km, even the battling Yan Zhu and the others all stopped.

"God country teleportation!" Yan zhu's expression was ashen.

A blur of silhouettes, every one giving off terrifying pressure, gathered together, it reached an unbelievable level. Even though he was over a million km away, Yan Zhu still shuddered within.

Silence!

Space was silent, the 12 official level undyings along with Yan Zhu and the other emperors all gathered. Bloodthirst emperor flew towards the gold disc and it naturally opened a door at its side, Luo Feng and Dylan flew out into space.

"My god." Luo Feng watched the blur of silhouettes appear, completely stunned.

With just a glance, it was at least a thousand!

Everyone of them had energies that exceeded Dylan, even with others that were comparable to Bloodthirst emperor.

A god country teleportation of over 1,000 undyings in the silent space. The amount of power was even bigger than the undying mother nest before. These weren't 1,000 normal undyings, this was the true elite of a knight, capable of easily stomping on an undying mother nest.

This 1,000, was led by a jade armored lady wielding two blades, as her cold energy spread throughout.

"Luo Feng." She looked at Luo Feng, "I'm here on the knight's orders to protect you."

"Thank you knight, thank you all." Luo Feng bowed respectfully in space.

The jade armored god, along with the entire army's pressure all looked at Yan Zhu. She roared coldly, "Yan Zhu emperor, Luo Feng is a member of our Virtual Universe Company, what right does you Huge Axe Dojo have to make a move on our member?"

"Hmph."

Yan Zhu's expression was ugly, he rubbed the blood on his lips and snorted coldly.

"Capture Yan Zhu emperor." The lady ordered.

"Yes!"

Immediately, 26 emperor level undyings flashed over like lightning. This made Yan Zhu and his other emperors all change their expressions. The Virtual Universe Company and the Huge Axe Dojo were both leviathans of humanity, they frequently had little squabbles. However, his actions today had made it so that if he were truly to be captured, even the Huge Axe Dojo would find it hard to save him.

And once he was captured, it would be a true humiliation.

"Get lost!!!" Yan Zhu's eyes gleamed with madness. He howled fiercely and the ancient engraving on his forehead lit up, a terrifying energy emanated in all directions. Like a fierce beast that was awakening, his forehead seemed to begin to tear apart, revealing a single purple vertical eye.

The purple vertical eye shot out a purple gaze, sweeping past the surrounding space and condensing the area about. He'd rather fight it out before being captured.

Rumble...

There were ripples in space and a terrifying pressure descended, almost like a dragon descending on countless ants. The energy made the surrounding people all submit immediately, as it spread over the surrounding starfield. The powerful undying army's power was instantly squashed, and even the uprising Yan Zhu was suddenly pushed back down, forcefully stopped halfway through his move.

A blur silhouette gradually appeared.

"Father!!!" Yan Zhu turned and shouted with glee.

Chapter 710: Knight's Punishment

Standing beside the vast undying army, Luo Feng could clearly feel the powerful energy from this army beside him. Babata shouted loudly within Luo Feng's mind, "Undying army! These undying are all stronger than your teacher Hu Yan Bo. This is definitely an elite army there's actually no normal one within."

Luo Feng had never felt such a terrifying wave of power before.

26 emperor level undyings immediately surrounded Yan Zhu emperor, Yan Zhu grew mad and began to unleash his trump card!

Rumble!

The purple vertical eye that split open on his forehead condensed the surrounding million km of space, that ancient energy instantly made the weakest person in the area Luo Feng fall into a nightmare illusion. He felt like the entire vast universe had vanished before him, leaving only the purple eye floating in space.

"Yan Zhu emperor is terrifying." Luo Feng was just shaken out of it.

However...

A force hundreds to thousands of times even stronger descended and caused Luo Feng's soul to instantly go black. He had lost consciousness immediately, before awakening later as he heard the despicable voice of Yan Zhu emperor shouting, "Father!"

"Shi Huo knight?" Luo Feng blinked his eyes and looked over.

In the distant space.

A majestic being stood there, his body was a blur, surrounded by black flames that spread over a million km about. If earth was to touch these flames, it would instantly be reduced to ash. Even the space around was burning into particle streams. The large amounts of space flow between became nothing but particles. At this instant, everything within the solar system was under his power.

Universe space, with him as the dictator!

He was the ruler of space itself!

Luo Feng could clearly feel this feeling. The blurry being within the core of the black flames that burned hotter than the sun, he was invincible.

"This was the being that at sector lord level could kill an official level undying, becoming an emperor straight after breaking through to undying. In 100,000 years he became a knight...Shi Huo knight?" Luo Feng muttered. "Over a trillion years, this being has been invincible and terrifying. Those black flames, it reminds me of the 9 black planets that burned with black flames, the ones Tian Shi palace's leader demonstrated for me back then."

Comparing Tian Shi palace's leader to Shi Huo knight.

Tian Shi palace's leader was more controlled, he probably didn't want to bully little Luo Feng. Hence he controlled his power more

Shi Huo knight however burnt with black flames over the million km in area, he unleashed his strength.

"Greetings Shi Huo knight!"

The jade armored lady bowed respectfully, following which the vast undying army all bowed respectfully too. "Greetings Knight."

Luo Feng and Dylan bowed too.

"Greetings teacher."

"Greetings knight."

The 12 official level undyings and 5 emperor level undyings all bowed respectfully. Only Yan Zhu emperor was glowing with the purple light as the eye on his forehead began to close, shouted out excitedly to his father, after which he roared angrily at the undying army, "Father, 9 blade knight's undyings actually want to capture me!"

"Hmph."

With a snort, Luo Feng felt his consciousness shake, it resounded amongst all the undyings about.

"You'd rather use the forbidden skill than look for me?" The majestic being within the black flames said, with a sense of rage. "If you'd have trained well, you'd long have reached the level of controlling that treasure. Then you'd have no fear of these emperor level undyings."

"Yes." Yan Zhu bowed respectfully, not daring to say anymore.

The majestic being looked at the army, his voice rumbling through their minds, "Jade!"

"Jade greets Shi Huo Knight." The jade armored lady, leader of the undying army replied respectfully.

Jade emperor was 9 blade knight's strongest undying.

Jade, Tong Nan, True Yan, they were life or death friends. They frequently explored the secret regions together, and through the many experiences, they naturally became good friends. And it was obvious that they were all extremely powerful, belonging to the pinnacle of emperors.

Of course...True Yan Emperor, he was amongst the countless races in the universe, trillions of undyings, the closest to becoming a knight. Even against a knight, he would survive.

Jade and Tong Nan were slightly weaker.

"Jade!" Shi Huo knight roared amidst the black flames, "Did you order the capture of my son?"

"Shi Huo knight." Jade's appearance was beautiful the jade armor had gems that were translucent. As she was standing there, it was almost like she wasn't there, obviously she could withstand the pressure as she smiled respectfully. "I'm here on the orders of the knight to protect Luo Feng. And Yan Zhu brought people to even kill him, no matter what, Luo Feng is still a core member of our Virtual Universe Company. Any punishment should be dealt by the company. Yan Zhu's actions...he has overstepped. Hence, I want to capture him and bring him to the knight!"

"Yan Zhu is my son, any punishment will be done by me and not 9 blade!" Shi Huo knight's voice boomed like thunder.

It made all the undyings in the army grimace in pain.

Luo Feng however didn't feel anything.

"That's strange?" Luo Feng looked at the over 1,000 undyings along with Dylan and Bloodthirst emperor all grimace in pain, only he wasn't affected.

"It's probably cause I'm too weak. The moment it hits me, I'd probably die instantly, hence he didn't target me." Luo Feng thought.

...

Looking at the army all grimace in pain, Yan Zhu and his group were satisfied.

"Take this as a punishment!" Shi Huo knight said coldly, "Remember, don't ever disrespect any knight."

Jade could only lower her head and bow respectfully, "Yes!"

Afterall...

In terms of strength, Shi Huo knight was even stronger than 9 blade.

He floated amidst the black flames, after which his gaze fell on Luo Feng. His voice becoming more affectionate, "You are Luo Feng?"

"So powerful, forcing even Jade emperor to lower her head, the entire undying army submitting under the pressure." Luo Feng was still exclaiming when he discovered the being's gaze on him. He was stunned as he heard the gentle voice, "That's Luo Feng?"

All the undyings there could only stare in shock.

This, this, this...

Is this the same tyrannical Shi Huo knight?

A genius amongst the absolute geniuses. He didn't need to bother himself with such little beings, yet he spoke with such a gentle tone to Luo Feng.

"I am." Luo Feng was stunned as he quickly reacted. Bowing respectfully, he said "Greetings knight."

"Hm."

Shi Huo knight's voice didn't seem to have any rage, all it had was affection. "I had asked my son to come talk to you about selling the rights of earth. I didn't expect this useless son of mine to make such a mess of it."

Luo Feng blinked his eyes.

Jade emperor and the other undyings were all speechless.

"I..." Yan Zhu stared even wider, "Father..."

"Shut up!"

Shi Huo knight's roar caused Yan Zhu to get even more angry and nervous.

The entire atmosphere within that space was awkward.

Shi Huo knight's pampering of his son was well reputed throughout. However today, he was that courteous to a little domain lord punk and fierce towards his son. This was unbelievable, Luo Feng may

be a rare genius of a ten thousand eras. However even a rare genius of ten million years wouldn't be treated that way.

Geniuses were ultimately just that.

The strong were the strong.

Before truly becoming one of the strong, none of them deserved to be treated that well by Shi Huo knight.

"Luo Feng, I'll talk to you personally, are you willing to sell earth to me." Shi Huo knight smiled at Luo Feng. "Whatever conditions there are, just speak."

"Knight." Luo Feng said respectfully. "Earth is my home and all the humans of earth, no matter what, I won't be willing to sell it."

Luo Feng had seen through the situation.

No matter what...

9 blade knight had already intervened, meaning this matter was already a clash between the 2 leviathans. Shi Huo knight wouldn't make a move against him.

"Ah, the birthplace of a race?" Shi Huo knight nodded, "As a birth place, earth is indeed special to you, I won't force you."

"Yan Zhu." Shi Huo knight turned to his son.

Yan Zhu emperor was shocked.

Even though he was called Yan Zhu emperor, this was just a name for respect and formalities. Those that were higher in power...may simply call him Yan Zhu. Taking away the emperor position. However his true name was Meng Cha Luo.

As his father, Shi Huo knight would normally call him by his true name, as it was more affectionate.

Only when he was unhappy would he call him Yan Zhu.

"Father." Yan Zhu felt the tone of his father's voice, shouting out respectfully.

"I only gave you the right to buy earth. I'd never expect you to go to such lengths. If Dylan didn't protect Luo Feng, would you have killed him?" Shi Huo's serious voice was filled with rage.

"Father?" Yan Zhu looked at his father suspiciously.

"You don't know when to stop. If this goes on, who knows what huge trouble you will bring." Shi Huo knight said coldly. "I now punish you...to be imprisoned in the 9th starfield jail hell for 1,000 eras."

"Father!"

Yan Zhu stared wide eyed.

Luo Feng, Bloodthirst emperor, jade emperor, Dylan etc, all the undyings there were stunned.

My god.

Back then, Shi Huo knight had thrown his son into the 9th jail hell, however that was only for 1,000 years. This time it was 1,000 eras, that was over ten million years, and in the 9th jail hell...that was a long lasting nightmare!

All the undyings were stunned and speechless. Even if Yan Zhu had killed Luo Feng, it didn't deserve such a severe punishment.
