

SWALLOWED 711

Chapter 711: Unstable Situation

"You lot, go back now!" Shi Huo knight ordered the 5 emperors and 12 official level undyings.

"Yes knight."

"Yes teacher."

The many undyings bowed respectfully. After which, Bao Jin emperor released his undying energy to wrap everyone and instantly teleported 1 light year away before they all dispersed. Afterall, if they teleported via their god country before 9 blade knight's army, they would reveal their god country's locations.

"Yan Zhu, release all the earthlings." Shi Huo knight ordered.

"Yes." Yan Zhu didn't dare resist.

He became a beam of light flying above earth and releasing a large number of the humans back. Over a billion of them were placed randomly throughout, some chinese people appeared in North America, some white people appearing in Africa and so on, it was a mess.

For everyone to be sent back to their respective homes and for earth to regain its order, it would take at least 10 days to half a month, and this was also because of its advanced technology.

After a while!

Yan Zhu flew back.

Shi Huo knight looked at his crestfallen son and shook his head, ordering, "Let's go."

Rumble!

His black flames wrapped about his son and in an instant, the both of them had vanished.

Within the vast god country.

Shi Huo knight and Yan Zhu emperor appeared within on a mountain peak.

"Father!" Yan Zhu looked at Shi Huo knight, his eyes filled with rage. "Why have you sent me to the 9th jail hell, and for 1,000 eras? Don't say it's because of Luo Feng, I don't believe it. Even if I killed him, it wouldn't deserve such a severe punishment!" Yan Zhu was indeed enraged.

Even though he respected his father, this punishment was too heavy.

He could only bear with it and ask later.

He wanted to know the truth!

"Cha Luo." Shi Huo Knight rubbed his son's head and said softly. "This isn't something I wanted."

"Hm?" Yan Zhu's eyes gleamed.

"However, my teacher ordered me to do so in this matter, saying you are getting out of hand and have to be punished heavily." Shi Huo knight sighed. "Back then, my teacher said...to send you to the 9th starfield jail hell for 1,000 eras, that it was considered a small punishment."

"Father, your teacher?" Yan Zhu stared wide eyed.

Rumble!

Yan Zhu felt like his brain had exploded. His father was Shi Huo knight...his position alone plus his sect within the Huge Axe Dojo was already absolute. Even against Undying knight, it wasn't too big a difference. Even though undying knight's position was high and he was powerful, he was a lone wolf without a sect and help. Hence Shi Huo knight wouldn't be too afraid of him.

However...Shi Huo knight's teacher, that was something else.

All of Shi Huo knight's sects, the true leader of them was his teacher! Shi Huo knight...was but one of the great being's disciples. That great being was the true powerful dictator within the Huge Axe dojo, and probably only the founder of the Huge axe dojo could suppress him.

"Void gold master!" Yan Zhu said hoarsely.

Shi Huo knight's teacher...Void gold master!

A true dictator within humanity's ancient and endless history. He was a true power within one of the two great leviathans of humanity, the Huge Axe dojo. Even within, he was one of the pinnacle beings, with only the founder capable of making him bow!

"Void gold master wanted to punish me?" Yan Zhu was filled with fear. "The great Void gold master, why has he taken notice of me?"

Void gold master!

High above, even the universe country leaders bowed before him, Shi Huo knight and those level of beings all bowed before him. Even the entire gold horn race...they would all shudder before him! The most ancient and powerful beings of humanity, this was the level of being he was.

To be able to hear his name from Void gold master, Yan Zhu should already feel extremely honored.

And this was within the pinnacle race of humanity, like the gold horn race and many other races, they could never produce such a level of being like Void gold master. Even within humanity itself, it took countless calamities and trials for such a being to be produced.

"Father." Yan Zhu looked anxiously at his father, "Why has he noticed me?"

He was afraid.

Even his father was afraid of him. Yan Zhu belonged to the Void gold sect, if the master wanted to kill him, who could protect him?

"Teacher said to punish you, as for the specific details, I don't know. Since he didn't say it, I didn't dare ask." Shi Huo knight looked at his son. "However you can relax. At his level of being, how respected is it? It's not worthy of him to deal with a small punk like you."

"Hm hm." Yan Zhu nodded.

"Teacher's orders, made me suspect...whether Luo Feng has any connections with him." Shi Huo frowned.

"Ah." Yan Zhu was taken aback, "Father, so you treated him that well earlier, it was all because..."

"Hm, your matters on earth have drawn his attention, hence he wants to punish you." Shi Huo knight nodded slightly. "Teacher is very protective, yet he still wants you to enter the 9th jail hell for 1,000 eras. I can only guess...that he has some connections with Luo Feng."

"But Luo Feng is from the Virtual Universe Company and Void gold master is from the Huge Axe Dojo." Yan Zhu said.

"I'm not sure about the details." Shi Huo knight shook his head.

Yan Zhu could only sigh.

He anticipated the day his father could become a being like void gold master, that would be absurd. Whether it was the primal chaos city leader or void gold master, they all stood at the true pinnacle of humanity. These were beings that stood above the vast countless other races.

"Since it was teacher's orders, then you'll have to go serve your 1,000 eras. You've indeed caused much trouble these past few years, it's time you trained. When you can control that treasure, anything under a knight shouldn't be a threat. Even that True Yan, you'll be able to match him. After all strength is absolute...Father cannot always protect you." Shi Huo knight said.

"Hm." Yan Zhu nodded.

Solar system.

The vast undying army led by jade emperor all became a blurry light, teleporting via their god country away. It left only Bloodthirst emperor, Dylan and Luo Feng.

"They just teleported like that?" Luo Feng was shocked. "Aren't they afraid of their god country coordinates being revealed?"

"The one using the teleport should be an undying slave." Blood thirst emperor smiled causally. "And after using it, that slave would have to work hard to move his god country's position, that way, the coordinates would be useless."

"Move the god country coordinates?" Luo Feng was curious.

"God countries lie within the slips of space, and these slips are vast and endless. Naturally, the god countries can be moved within them, leaving the original position." Bloodthirst emperor said, "However, the movement of the god countries are extremely slow. If one searched for the coordinates immediately, that would be extremely dangerous."

Luo Feng nodded.

"Junior, do you know Shi Huo knight?" Blood thirst emperor looked at Luo Feng.

Luo Feng shook his head, "No, I've only lived for a few hundred years, how could I know him."

"Then why was he so courteous, so strange." Bloodthirst emperor frowned. "The knights are all powerful invincible beings of the universe. They usually can't be bothered with little punks like you."

"I don't know." Luo Feng was puzzled as well.

After which he smiled and said, "Senior, it's rare you come around here, let's head to earth for awhile."

"Alright." Bloodthirst emperor replied easily.

...

Earth, china, Yang zhou city, Luo residence.

After Luo Feng got back, he released his family.

"Dad."

"Master."

"Luo Feng." The residence got busy instantly.

Luo Hong Guo said, "Little Feng, when I was kept in the world earlier, I immediately connected to the virtual universe network...contacting many of my friends before finding out that many of them were kept in a world too. I heard over a billion of them were all kept together. However they all didn't know it was you who kept them, hence they were extremely terrified."

"Ha..." Luo Feng laughed.

The other people of earth weren't kept by him.

"What a mess." Luo Feng used his spirit energy to scan. He couldn't help but laugh as it swept past Yang Zhou city. It was a hot summer day, yet there were many white people in jackets in the city, even some nude with towels appearing in the streets. Some even appeared at the top of skyscrapers.

Virtual universe thunder island.

9 blade knight had mobilized such a huge undying army, and they had gathered at the primal region's 9th teleportation spot. Naturally, the upper echelon of the Virtual Universe Company would know of it. The incident on earth couldn't be hidden, many knights came over to question 9 blade.

"Haha, I've checked in with some good friends in the Huge Axe Dojo. It wasn't just Shi Huo knight and undying knight. There were many other knights there that sent their elites over to earth. However Shi Huo knight's people got there first.

"Luckily they didn't succeed."

"Right, if earth truly is a treasure land, it should be our Virtual Universe Company's. That leader of earth, that punk Luo Feng, he is a genius of ours."

"Hm."

"9 blade, this earth seems like a very normal life planet, we should have discovered something special long ago. Just what was it that made so many of the Huge Axe Dojo knights send their people down?"

"What is special about earth 9 blade, tell us?"

"I have no clue."

Thunder island, within 9 blade knight's palace, the few powerful knights and universe country leaders had all come. Yet they all left after, over 8 of them had come to question 9 blade.

The palace regained its calm.

Jade emperor who was dressed in her jade armor walked in, and in the throne a silhouette appeared. It was the green robed purple scaled man. Jade Emperor bowed respectfully, "Knight."

"Arrange it for me, I wish to see Luo Feng personally." 9 blade knight ordered.

Chapter 712: 9 Blade Knight

"Yes." Jade emperor complied and left.

The green robed purple scaled man frowned in the palace, muttering, "Earth? Just what's so special about this life planet, that even the Huge Axe Dojo people have gotten so crazy over it.?"

Virtual universe, Yu Xiang Mountain primal region, Luo Feng's villa.

In his study.

Luo Feng was talking to his teacher True Yan emperor on the screen.

"That sure is strange." True Yan rubbed his chin in the screen, as he was curious. "Even if that Shi Huo knight had gone to Laos world, home of the Gold horn race, he'd be barging in and not even caring about their doyens and so on! As an absolute genius, he's extremely arrogant. Yet, for him to show courtesy to a punk like you, how strange."

"I thought so too." Luo Feng was helpless.

"There must be a reason!" True Yan thought for awhile, shaking his head after and smiling. "There's no use pondering over it. Since he was courteous to you, at least the reason behind it must be good, it shouldn't be bad. Don't bother about it...train well and quickly step into the sector lord level. That's the level which is most critical to your training, it's also the level that will determine your fate."

"Hm."

Luo Feng nodded heavily.

After this incident, he clearly felt how little he was. If he had reached the sector lord pinnacle level, and combined with that soldier armor...as long as he raised his law comprehension by a few more levels, he

may not have a guarantee of killing an official level undying, but he was confident his strength could be comparable to one.

After all, the soldier armor's maximum strength already made him close to one.

After chatting with his teacher, suddenly...

Du.

"Luo Feng, Jade emperor has requested a call." Babata shouted on his shoulder.

Luo Feng was shocked, Jade emperor? This was the one of his teacher's close friends, and 9 blade knight's number 1 emperor level undying.

"Accept." Luo Feng got up as a sign of respect.

A silhouette appeared on the screen. It was a jade armored extremely beautiful lady Jade Emperor, she spoke coldly, "The knight wishes to meet you, just wait in your villa, I'll be there immediately. I will bring you to meet the knight."

"9 blade knight?"

Luo Feng was shocked, however he still replied respectfully, "Yes!"

In an instant.

Luo Feng stood patiently in his yard outside and gazed at a beam of light flashing towards him, it was Jade emperor.

"Lord, where will we go to meet the knight?" Luo Feng asked curiously.

"You are not an undying yet, hence we cannot go to thunder island. We'll instead go to a special place that he has created." Jade Emperor glanced at Luo Feng. "Follow me to the teleportation point."

"Yes." Luo Feng followed.

They first reached the teleportation point before being sent to 9 Blade knight's space.

The virtual universe was after all still virtual, hence it was easy to create a large space. Just like the genius competitions, they would normally be held in a created space! Even the Huge Axe Dojo's broadcast, they were within a large island that was fixed there just for that. Normal undyings didn't have the right to create their own space, knights however did.

9 Blade knight's space.

"Wow."

Luo Feng stood at the foot of the mountain, looking up at the 9 majestic mountains that pierced through the clouds, he was shocked. 9 blade like mountains, all of them reached hundreds of thousands of km high. Even with his vision, Luo Feng could barely make out the silhouette of the mountains, the middle tallest mountain was the hardest to see.

"The knight is in the 9 blade shrine." Jade emperor led Luo Feng straight around to the center most mountain's canyons. Within these canyons was a range of palaces, and all of them were extremely exquisite and beautiful. Of which, 9 blade shrine was the most majestic."

Sou!

Jade emperor and Luo Feng landed before the entrance of 9 blade shrine, 2 undyings standing guard there didn't even stop them.

"Follow me in." Jade emperor led the way and Luo Feng obediently followed.

...

The entire shrine was engulfed in pressure.

Jade emperor walked towards the steps of the shrine and bowed respectfully, "Knight."

"Knight." Luo Feng bowed respectfully too.

In terms of status, Luo Feng was akin to an official level undying. Hence, he didn't need to kneel when he saw a knight. Normal sector lords or absolute beginning region members and so on however, had to kneel as a sign of respect when they saw a knight.

"Jade, you may leave." A clear voice resounded.

"Yes." Jade emperor vanished.

Rumble...

The large door of the shrine closed, leaving only two people within...Luo Feng and 9 blade knight.

"Hm?" Luo Feng was shocked as he felt the door closing. He looked up and saw the green robed purple scaled man in the throne above, the aura that he emanated made people submit.

"Luo Feng." 9 blade knight gazed down below and spoke.

"Here." Luo Feng listened intently.

"Let me ask you." He gazed carefully at Luo Feng and said, "Is there anything you need to report about what happened on earth?"

Luo Feng shook his head, "I'm completely puzzled."

"From what I know, it wasn't just undying knight and Shi Huo knight from the Huge Axe Dojo, there were many other knights that sent their people to earth. Only thing was that earth was too far, hence they all didn't make it in time. With so many knights noticing earth and you as the leader, you should know the reason right." 9 blade knight observed Luo Feng.

"Sir Knight, both undying knight and Shi Huo knight came to buy earth from me, however they didn't tell me the secret." Luo Feng said respectfully. "If I knew the secret of earth, I would have reported it long ago and not allow myself to fall into such a dangerous situation."

9 blade knight carefully observed Luo Feng's gaze and expression as he spoke.

Finally, he determined...

Luo Feng did indeed not know any secret.

9 blade knight immediately exclaimed, thinking that the Huge Axe Dojo has well guarded all their secrets, to not even tell Luo Feng when they went to buy it. Seemed right too...if the Virtual Universe Company knew of earth's secret, and if it was very important, they would definitely hide it from the Huge Axe Dojo.

"Remember." 9 blade knight's voice got serious.

Luo Feng bowed.

"Other than the island you provided for undying knight, from now on, without the Virtual Universe Company's orders, without my order, you are forbidden from doing any deals regarding earth." 9 blade knight emphasized. "Especially with the knights of the Huge Axe Dojo. No matter how much benefits they give you, you are forbidden from selling earth. You just tell them...this is the order the company has give you and you cannot go against it."

"Yes." Luo feng replied respectfully.

"Go on!" 9 blade knight waved his hand.

Luo Feng vanished from the shrine, he had left the virtual universe.

9 blade knight frowned, muttering, "Secret? They actually kept the secret...then they can give up on acquiring earth."

After meeting 9 blade, especially hearing his final order, Luo Feng very easily understood the reason. Obviously the upper echelon of the Huge Axe Dojo knew of earth's secrets and the Virtual Universe Company didn't. Hence the two of them were in a deadlock. Without them telling the company about the secret, they couldn't even think about getting it.

"Luo Feng, Hong's message."

Not long after chatting with 9 blade knight, Luo Feng received a mail from Hong...scheduling a meeting in 9 star bay.

Virtual universe, black dragon mountain island 9 star bay.

In the quiet yard.

Luo Feng, Hong and the white robed Thunder god gathered.

"The earth sure is in a mess." Thunder god exclaimed. "The moment I'm not here things get so messed up."

"It'll still be messy with you here." Hong smiled. "This matter is very complex, it's involves the knights and so on."

"You know about it too big brother?" Luo Feng looked shocked at Hong.

Hong smiled and nodded, "When the billions of people were kept in the world, some friends contacted me via the virtual universe network and told me about it. I was greatly shocked, and after investigating a little, I knew of Shi Huo knight and how he sent his undyings to earth."

Thunder god didn't even get how special these words were.

Luo Feng however was shocked.

"You can check on such things?" Luo Feng stared in disbelief.

The Huge Axe Dojo was an elite organization like the Virtual Universe Company. The internal matters were governed extremely strictly. The positions and authority were separated very clearly, different levels had different amounts of authority! To be able to check up on how Shi Huo knight sent some undyings to earth, this was unbelievable.

"It's fine now right?" Hong smiled.

"It's fine, everybody's been returned back to earth." Luo Feng still looked curiously at Hong.

"I won't ask about this, but I'll ask about you and Shi Huo knight...they didn't trouble you too much right." Hong asked.

"No." Luo Feng shook his head.

"Hm, I guessed so." Hong exclaimed. "Having Void Gold master as support sure is a good thing. He barely said a few words to Shi Huo knight and he actually listened obediently."

"Void gold master?" Luo Feng stared, "Who is that?"

The white robed thunder god looked shocked at Hong.

Shi Huo knight...that was a being that opened a universe country. To obediently listen to the words of Void gold master, just what terrifying being was this guy.

"Void gold master, 3rd brother, you should know of him." Hong laughed. "We've both been to primal chaos city, you should know there are 52 primal chaos tablets."

"Hm." Luo Feng nodded.

"There's one particular one, called the Sky ruins tablet, and the creator of this tablet...is the great Void gold master." Hong laughed. "That's a true absolute being, even the universe country leaders have to kneel before him."

Luo Feng was shocked.

Sky ruins tablet was considered very powerful amongst the 52. According to the heavenly bridge's levels, this tablet had 26 levels, just 1 short of the 9 universe tablet Luo Feng studied. In the overall rankings, it was within the top 10!

The huge axe tablet was 1st, the universe tablet was 2nd...

52 tablets, every one of the creators of these tables were true pillars of humanity!

"Void gold master, this, this..." Luo Feng looked shocked at Hong, "Big brother, How do you know him?"

"Luck." Hong laughed.

Chapter 713: Hong's Encounters

Luo Feng was stunned, his encounters were already not bad, having received guidance from Tian Shi palace's leaders back then, and even speaking to undying knight. However, he didn't expect his big brother Hong to have connections with Void gold master.

That was a being that created a primal chaos tablet. In Luo Feng's imagination...the 52 creators of the tablets were the strongest 52 in the history of humanity. Even if his guess was wrong, it wouldn't be too far off. And the Sky ruins tablet was among the top 10!

How powerful was that?

Humanity was a pinnacle race, and one of the top 10 amongst the entire pinnacle race. Such a being...it made others shudder within.

"What luck?" Luo Feng asked.

"Big brother." Thunder god stared too. "I heard you talk about 52 tablets before. Those who are able to create those tablets are all absolute beings of countless eras, and you actually know such a being?"

In truth, Luo Feng, Hong and Thunder god were all ants in the universe. It was unbelievable that such ants knew such pinnacle beings.

"Let me explain that luck to you." Hong smiled and exclaimed. "Back then when I took part in the special elites training camp, I was finally recruited into the Huge Axe Dojo's core, also proceeding to primal chaos city to train. Didn't I tell you before that I came out from the city?"

"Hm." Luo Feng and Thunder god nodded.

"After leaving the city, I was placed to receive some nurturing from the Huge Axe Dojo." Hong sighed.

"And just yesterday, I felt the urge to go attempt the Fantasy island, after that attempt...everything happened."

Luo Feng and Thunder god held their breaths.

Fantasy island?

With their big brother's mental strength, how far could he go? However the consciousness pressure of Fantasy island was more terrifying as it got further, even their big brother shouldn't be able to get too far.

"I went through each island after island." Hong exclaimed. "It was very powerful, it got harder and harder as I got further, the consciousness pressure was terrifying...even for me. I was forced to my limits, finally making it to the 21st island with much difficulty. But, it's a pity that I failed there."

Luo Feng was stunned.

"Big brother, you actually failed?" Thunder god was curious.

"2nd brother, what do you know." Luo Feng cursed, looking at disbelief at Hong. "You...you made it to the 21st level? Just one more step and you'd have finished it?"

"Hm." Hong nodded.

"How's that possible, it's impossible." Luo Feng shook his head. "The consciousness pressure gets more terrifying. At the 10th level, it's already an undying's consciousness pressure, and the 21st is that of a knight. Big brother, you are only at universe level, how'd you withstand the 20th island pressure?"

Hong laughed.

"3rd brother, let me ask you." Hong asked. "Back then, when you were at universe level, how far did you make it?"

"I made it to the 10th island and failed." Luo feng said.

"A sector lord pinnacle may not even pass the 9th island, and yet you passed it at universe level, why?" Hong asked. "If we disregard the illusions behind it, how'd you withstand the consciousness pressure?"

Luo Feng replied, "My willpower was the general, consciousness is the soldiers. With willpower leading, my heart was like a blade, naturally my consciousness and willpower condensed into stone and forcefully withstood the pressure."

"Haha..."

Hong laughed, "Against a tsunami of consciousness pressure, you know how to condense your willpower and consciousness into a stone. This is considered the 1st level in the 3 levels of mental states. However, the reason why you failed is because you had reached the limit of it, too firm and unyielding!"

"If your mental state training is at your 2nd brother's level, who is able to adapt, then it would be different. With that level of mental state, against the tide of pressure, you'd be soft and gentle, hard when necessary, yet soft when it needs to be. Adapting to each situation, you'd naturally be able to pass the pressure."

"Of course, reaching this 2nd level man and nature as one, the perfect harmony, it would only take you to maybe the 14th and 15th islands. The pressure gets more terrifying after that."

"Even the 3rd level, limitless heart, encompassing all, the pressure was within my limits. Without a limit within, I naturally wouldn't crumble from the pressure." Hong shook his head and smiled. "However, it's a pity that I had just broken through to the 3rd level, without it being fully perfect yet. Hence I failed at the 21st island."

Luo Feng blinked hard.

Damn.

His big brother was absurd.

"When I failed at the 21st island, the upper echelons of the Huge Axe Dojo immediately knew of it. This included Void gold master and the founder of the Huge Axe Dojo." Hong exclaimed. "The great founder gave the order to lockdown this news. Hence even the knights didn't know of this.'

Luo Feng nodded.

Passing the 20 islands at universe level, this was indeed a terrifying thing, it had attracted the attention of the great beings.

"The founder immediately accepted me as a disciple." Hong smiled. "However, the great founder is still one of the greatest beings of humanity. He wouldn't have the time to guide me, hence he arranged for Void gold master to teach me first and when I become an emperor level undying, only then would I have the right to go listen to his teachings. Only then would I be considered a true disciple of his. Right now I'm not considered his disciple at all."

Luo Feng was completely stunned.

Miraculous encounter!

Miraculous encounter!

Back then during the genius competitions, even Bolan didn't have the right to learn from the knights. Only Rong Jun managed to get a knight teacher, and he himself was under True Yan emperor. It could be seen that the knights were proud and were lazy to accept geniuses as disciples. He didn't expect his big brother Hong to actually exceed everything.

He became a disciple of humanity's strongest Huge Axe Dojo founder!

Even though it was just in name, it was already impressive.

At least now with Hong receiving guidance from Void gold master, and later on after he became an emperor level undying, he could move on to be taught by the founder himself.

"Big brother, Huge Axe Dojo founder. His tablet ranks top amongst the 52 tablets." Luo Feng looked at him.

"It was simply because of my attempt at the Fantasy island." Hong shook his head and smiled. "Even though the mental state training does nothing to your training, it's afterall void and intangible. During a true battle, one relies on his spirit energy and genetic energy etc, the true tangible strength."

"Even if my mental state is powerful, a sector lord can still kill me in just one move."

"It acts as a support, only true strength is absolute." Hong exclaimed.

Luo feng smiled.

Thunder god laughed.

"Stop acting." Thunder god laughed.

"Seriously." Luo Feng laughed too, "If Silver snow official's Ji Shi's family gets news of you becoming the founder's disciple, receiving guidance from Void gold master, they'd go mad from regret!"

Hong laughed indifferently.

Hong had exceeded everything, his backing now was shocking.

"Void gold master had told me before." Hong shook his head, "Comprehending the laws has great requirements on blending with them...some may comprehend hundreds to thousands of times faster than others, as their comprehension is deeper and clearer. It's a pity my comprehension is only considered not bad. However it's still hundreds to thousands of times lousier than absolute geniuses like you 3rd brother."

"And with good mental state training supporting, I can at most raise it 2 to 3 times. However it still pales in comparison to geniuses." Hong laughed. "Void gold master even said that my training time will be very long."

Luo Feng and Thunder god listened intently.

"My mental state training is high, and almost all of the illusions have no effect on me. Hence...he designed a path for me to go towards, as an illusionist fighter." Hong laughed. "Attacking physically along with illusions. This is the best route for me."

"Illusionist fighter?" Luo Feng and thunder god were both stunned.

"Big brother." Thunder god was shocked. "With your mental state at that level, if you use illusions, who'd be able to withstand it?"

Hong laughed, "Even though my position is high now, in order to protect me, everything has been confidential. I'm still an outermost member, even the knights don't know about this."

Luo Feng nodded, feeling happy for his big brother.

His two brothers' talents were far from his own. They were most proficient in mental states, and his big brother used it to jump far ahead. However, a teacher is still but a teacher, for the disciple to get strong, he'd have to train one step at a time.

"2nd brother." Hong looked at Thunder god.

"Hm?" Thunder god was stunned.

"I also recommended you to Void gold master, saying you've reached a high level in mental state training." Hong laughed. "He's already arranged for one of his disciples to accept you, he will be contacting you soon."

Thunder god stared wide eyed.

...

Luo Feng couldn't help but feel happy as he looked at his brothers.

Back then on earth, the 3 of them had very close levels in strength. However, after reaching universe level, his own improvements have been absurd. He was even capable of killing an undying now! However his two brothers fell behind by a lot...and yet, they all had their own encounters now.

"Come on."

"My two brothers, it's not just you. There are the other geniuses of humanity, and even the absolute geniuses of the other countless races, some have strong teachers, and others with their own miraculous encounters, others talents simply heavenly."

"I Luo Feng too will definitely exceed the countless humans and stand at the top."

"Definitely!"

Luo Feng was burning with fighting spirit.

There was only meaning with competition. After being attacked by the bug clan, his perspectives had grown, and so have his ambitions!

Ke Di?

Shi Huo knight?

Geniuses with absolute beings teaching them?

"I want to be stronger than all of them!" Luo Feng muttered.

...

The 3 brothers chatted within the yard.

"Big brother." Luo Feng asked. "Why did the knights of the Huge Axe Dojo send all their undyings to buy earth, just what is that about? What is earth's secret? What about earth has made all of the knights act so madly, you should know it right?"

"Hm." Hong nodded, "This I do know."

Chapter 714: Earth's Secret

"When I passed 20 of the Fantasy islands consecutively, it was a miraculous thing. A universe level passing 20 islands was an unbelievable event. It made the founder and Void gold master take notice, and they quickly learnt that you and 3rd brother, are both from earth." Hong looked at Luo Feng. "3rd brother, you've been regarded as a genius of ten thousand eras, and my passing of the 20 islands...that was even rarer."

"Two geniuses from the same life planet, same generation."

"This was unbelievable to them!" Hong said.

Luo Feng nodded.

During the genius competitions back then, 1,000 of them were picked from 1,008 universe countries. On average, it was about 1 per country. The chances were already low enough. And with Luo Feng's absurd

improvement speed, he became a rare genius of ten thousand eras. That was 1 genius from 1,008 universe countries, over ten thousand eras! And that genius was from earth, how low were the chances?

And Hong, such an unbelievable human, was even rarer, and he too was from earth, and he was in the same generation as Luo Feng.

"Hence!"

"The founder of the Huge axe Dojo thought there may be something special about earth, otherwise what are the chances? He immediately headed to earth to check it out, and with that...he discovered earth's secret." Hong said.

Luo Feng and thunder god held their breaths.

The absolute being, founder of the Huge Axe Dojo actually came to check out earth.

"What secret?" Thunder couldn't help but ask.

"What did he find?" Luo Feng was anxious too.

"The true secret, it's terrifying." Hong emphasized.

Thunder god quickly said, "Can we say this secret in the virtual universe. Whatever we say here may be discovered by the virtual universe system."

"Relax."

Hong laughed, "Back then when I met the founder of the Huge Axe Dojo, we had a chat about it. And also when I met and chatted with void gold master, I asked him about the safety of this issue. He replied...that it's absolutely safe, even if the upper echelon of the Virtual Universe Company wanted to find out some information. Different levels of management had different levels authority. Hence nothing will be revealed. Unless you are a traitor of humanity or danger to the company, otherwise there's no need to worry."

Luo Feng nodded.

The Virtual Universe Company was terrifying. Whether one was in an internal world, god country, actual universe, dark universe or primal universe...one could enter the virtual universe at anytime and communicate with others.

This ability was heavenly.

"Don't bother about the system, what is earth's secret, big brother? Stop keeping us in suspense." Luo Feng asked.

Hong put down his teacup and emphasized. "When the founder came to check out earth, he discovered...that earth had long been remodeled."

"Remodeled?" Thunder god was curious.

"What remodeling?" Luo Feng asked.

"The founder told me...that a trillion years ago, earth was remodeled by an absolute being. Normal life planets usually only had resources for people to survive. Earth however is very special. As long as one was born here, especially affected by earth's formless influence during pregnancy period, their souls will have special evolutions."

"Hm?" Luo Feng and thunder god stared wide eyed.

Evolution?

"One of the evolution effects of the humans of earth, is in the mental state side...it's easier for them to comprehend and raise their mental states." Hong emphasized. "Hence, in the history of earth, within just china alone, there are many sacred beings with extremely high levels of mental states."

"What?" the two stared in disbelief.

"I didn't believe it too." Hong shook his head and exclaimed. "However the great founder found marks of the remodeling and deduced...the identity of that being."

"Who was it?" Luo Feng asked.

"The founder didn't say. However, when he chatted with Void gold master, I heard the gist of it." Hong shook his head. "That great being had unbelievable power, and even Void gold master said he was weaker than him. Only the founder of the Huge Axe Dojo could stand on par with him."

Luo Feng felt it was unbelievable.

The founder of the Huge Axe Dojo, he was a true absolute being of humanity. And that great being could actually stand on par with him?

"The founder had exclaimed before...that that great being was impressive. He had once created an entire race, creating body evolution in strength, resulting in an evolved powerful race. The only weakness was...in terms of mental states, they were weaker. I think they were called the Flame god race." Hong said.

"Flame god race?" Thunder god was suspicious.

Luo Feng however was completely stunned.

The secret Hong had revealed was simply too heavenly. That great being which actually created the entire race was the Flame god race! He himself had acquired the black metal board on earth and within it were the words of the flame god race, it was a manual used to evolve one's body...now that he had heard it, he sort of guessed.

"According to the founder and Void gold master's exchange." Hong exclaimed, "That great being, had once taken a group of humans to evolve them, finally creating an entire new race called the flame god race!"

"Flame god race, it centered about body evolution, but it's weakness was in mental states."

"Maybe because of that, the great being remodeled earth. It was like a basket to him, he would catch a group of humans and place them on earth, wanting to let the many generations of humans evolve and

produce beings that were extremely adept at mental states." Hong said. "In an ancient time long ago, earth wasn't even a human territory. Hence the great being could naturally nurture his humans that way. However later on, the territory earth was in was taken over by humans. Hence that being had to leave."

Luo Feng and Thunder god stared wide eyed.

Luo Feng however believed it.

A great being of a race...

Like the being that left behind the demon note inheritance. He too had to leave when humanity took over the region! Demon mountain was separated into Ice mountain and demon note mountain, of which the demon note inheritance was in demon note mountain. Luo Feng naturally suspected there was another inheritance left in the ice mountain.

One had to know that the universe was vast and mysterious, producing trillions of races. Humanity was but one of them.

Naturally, there would be some other great beings from other races!

There would be the strong and also the weak, the strong were comparable to humanity's strongest!

"They are too powerful. They were able to create an entire race, Flame god race...so it was created by that great being." Luo Feng was extremely shocked. "Earth was used as a nurturing ground to nurture other races. Only later on it was taken over by humanity. Hence, that being had to leave."

"Unbelievable." Thunder god stared and said.

"There are many unbelievable things." Hong smiled. "Even though humans are a pinnacle race, there are many others in the vast universe, who are even stronger and more powerful, along with countless other middle and weak races. Maybe if they are alone, they are weaker than humans, however with the trillions of races added together, who knows how many absolute beings there are."

Luo Feng nodded.

There were many super powers around, like the beast god in Blood River world, like the founder of demon mountain, the creator of the flame god race...and other pinnacle beings such as the creator of the 52 primal chaos tablets in primal chaos city. Those beings couldn't be too far off.

...

Luo Feng and Thunder god were obviously still reeling from the shock.

"This great being had used countless amounts of energy to remodel earth, how much do you think earth is worth?"

"Limitless." Thunder god said.

"At least more than a universe country." Luo Feng nodded too.

As a member of one of the pinnacle beings of the universe, the remodeled earth naturally was a true treasure.

"With earth as the center of remodeling, the surrounding 1,000 light years and countless planets have been remodeled slightly too. The entire remodeling had earth as its core." Hong said, "Hence, earth has to remain in this specific solar system, it cannot be moved away. The moment it's moved, it will lose its special attributes."

"The remodeled earth is very special."

"Even if it's damaged, and left with remains, as time flows, it will naturally reform itself." Hong laughed. "The founder of the Huge Axe Dojo also discovered over the long passages of time, that after the great being left, earth has been almost destroyed 12 times. Yet, time and again it reformed itself."

"Ah."

Luo Feng and Thunder god could only listen.

Even though mental state was important, it was as intangible as anything else.

To become strong, there were a few requirements such as talent, willpower and resources.

Resource referred to training techniques, teachers and other treasures to get strong. If one didn't have training techniques, just like earth during the great nirvana period, even the sacred people of the time wouldn't be able to last. The past earth lacked just that.

Talent, one without talent may become strong, but it was hard for them to become an absolute warrior. Others train for a day while that person may take 10 years, how could they compare?

Willpower, even with talent and resources, if one didn't have willpower, unable to take the solitude...they wouldn't make it far. Becoming an absolute power required extreme willpower.

The three of them were all important.

People with strong mental states naturally had strong willpower! And sufficient patience!

Strong mental state, it could also be used to defend against illusions etc.

Hence to the entire humanity...placing a few strong bloodlines on earth to be influenced by it, when their children were born, they only needed to train and teach it well for their mental states to easily rise. The moment that happened...including the bloodline and talent, with large amount of resources, the number of absolute warriors would greatly rise.

"Mental state is but an assistant to becoming an absolute warrior." Hong said. "My appearance has shocked the upper echelon of the Huge Axe Dojo, but earth's appearance was what truly gave them a surprise. Afterall, when one reaches the level of Void gold master or the founder of the Huge Axe Dojo, they all had absurd levels of power. They could all create their own race while others may not be able to do so. Naturally they realized the importance of earth."

Luo Feng sighed.

Everything was clear now.

Earth's background, it involved a great being.

"I'm the leader of earth, with such a treasure, I will face a lot of trouble next time." Luo Feng thought.
"Who cares, I'll let the Virtual Universe Company deal with the Huge Axe Dojo."

Chapter 715: Luo Feng's Choice

After knowing earth's secret, Luo Feng was clear that earth was a nurturing basket for which a great being had spent countless amounts of energy in remodeling. It's worth was immeasurable and wasn't something he could control alone.

It was like a treasure wanted by two gods, however a child had gotten it instead. It wasn't a windfall but instead a disaster! The gods wouldn't care about the child's death. To the Huge Axe Dojo and Virtual Universe Company, Luo Feng wasn't even an ant.

"Just wait." Luo Feng thought so.

...

However the Virtual Universe Company and the Huge Axe Dojo's upper echelon were moving very swiftly, just 3 hours after Luo Feng's conversation with his brothers...

Virtual universe, Yu Xiang Mountain primal region. Luo Feng's villa welcomed two guests.

"Luo Feng!"

A clear voice resounded within his villa, and within everyone's ears. Luo Feng quickly flew out and landed in the yard.

"Hm?" Luo Feng looked up and got a shock, "9 blade knight!"

Two silhouettes were chatting and walking over. One of them was the green armored man with purple scales on his head, 9 blade knight. Beside him was a lady in ancient red armor, she wore a veil on her face, revealing only her jade green eyes.

They walked in mid air and instantly landed in the villa.

"This lady is walking beside 9 blade knight, she must be a knight too." Luo Feng thought.

"Greetings knight."

Luo Feng bowed respectfully.

9 blade knight and the jade eyed lady glanced at Luo Feng. The lady smiled and said, "This must be Luo Feng. His luck is really good, to actually own a territory with such a special place like earth."

"Haha..." 9 blade laughed too, his gaze landing on Luo Feng, "Luo Feng, let's talk in the living room."

"Yes knight."

Luo Feng respectfully led the two knights into the living room.

The doors closed behind them.

Even though his living room was far from a god shrine, it was still very spacious. 9 blade knight and the lady sat casually about, while Luo Feng stood beside them.

"No need to be nervous." The lady's voice was like a 100 bird calls. It made one feel comfortable, "I represent the virtual universe company and I'm here to discuss matters about earth."

"It's here." Luo Feng thought.

He didn't dare speak as he thought, as he was very clear about the fact that he was just a piece of meat and the Virtual Universe Company was the knife!

"The Ganwu universe country is within the control of our Virtual Universe Company. The entire universe country belongs to the company. Technically, as long as the company orders it, we can take away your rights to earth." The lady said indifferently.

Luo Feng listened obediently.

"However, the company has decided to act according to the rules." She flipped her hand and a file appeared. "Take a look, these are the deals the company has arranged for you regarding earth. There are two transactions, it's up to you to choose."

"Yes." Luo Feng received it respectfully.

He exclaimed within...

For the Virtual Universe Company to come up with these transactions, it represented them giving him two choices. However, about the underlying message, he was clear about what they meant...he only had two choices, nothing else!

This was tyranny!

However everybody would understand that this was natural. It was something done by one of the two great leviathans of humanity, naturally this was how it was going to be. And they even gave Luo Feng two choices...this was already kindness on their part.

"There are two files, but the 1st has more benefits for you. Pick whichever you want." The lady said.

Luo Feng looked at the files.

The contents weren't complex at all, it was mainly explaining the two deals.

The 1st was Luo Feng selling earth to the Virtual Universe Company, everything in regards to earth from then on would be handled by the company! Of course, with regards to the promise Luo Feng had given, about giving undying knight an island...the company would handle that.

By selling earth, Luo Feng would get 200 billion mixed elements.

Even though the number was huge, any knight would be able to easily fork it out. Compared to the worth of earth...200 billion was extremely little. However, for the company to be willing to give Luo Feng this much, it was already not bad.

For the sake of his safety however, they wouldn't give it all at once to him.

As the huge wealth would make many undyings go mad for, there would be those willing to take risks to deal with Luo Feng and steal his wealth.

Hence...

The file stated the following.

At Domain lord level, Luo Feng would get 20 million mixed elements.

At Sector lord level, Luo Feng would get 2 hundred million mixed elements.

At Undying level, Luo Feng would get the remaining 199.78 billion mixed elements.

The 1st deal concluded that way. This was all in consideration for Luo Feng, Two hundred million mixed elements may not be much for a primal region sector lord member, but it was still ok.

The 2nd deal, considered the fact that Luo Feng maintained his position of earth being his home even against the Huge Axe Dojo, unwilling to sell it. Hence it came up with a plan.

The details were, The humans of earth could remain there. However, the entire earth's surface area was close to 1.5 hundred million km. It's sea surface area was 3.6 hundred million km, its sea surface area was much bigger. With the humans living on land, all of the air above the sea would belong to the Virtual Universe Company, and the company would build a floating city etc over it.

Also it promised...

That there would be nothing over the land areas.

It was obvious the company was giving way to Luo Feng in this, allowing the humans of earth to remain on earth, and only building floating cities over the sea areas. With the promise that it wouldn't disrupt the lives of the humans of earth, also...giving large amount of resources to nurture the people of earth.

This deal had much lower benefits. Luo Feng could at most receive 50 billion mixed elements, this was only ? of the 1st option.

These were how he would be paid.

At Domain lord level, he would get 5 million mixed elements.

At Sector lord level, he would get 50 million mixed elements.

At Undying level, he would get the remaining 49.95 billion mixed elements.

...

There was silence in the living room.

9 blade knight and the lady waited patiently, Luo Feng looked at the files and finally looked up.

"Have you finished?" The lady asked Luo Feng.

"Hm." Luo Feng nodded.

The two deals may seem like he was being bullied, with the first giving 200 billion mixed elements and the 2nd only giving 50 billion. Also, the payments were divided into 3 payouts! Luo Feng however was very clear...his right of earth, was something the Virtual Universe Company could easily take from him, without leaving him a single cent. Even the deal Yan Zhu emperor had tried to deal with him before had the highest price of only 1 billion mixed elements.

It was obvious that in the upper echelon's eyes...

Luo Feng was a lucky punk.

To actually give him these benefits was already an act of kindness from them. Their little action alone naturally was a huge amount.

Two deals.

Especially the 2nd one, Luo Feng was very satisfied with. At least the humans of earth needn't change their lifestyles. The Virtual Universe Company would at most build their floating cities above the sea regions and promised not to disrupt the earth humans lives. Without any other circumstance, this was already a good deal.

"Which will you pick?" The lady looked at Luo Feng, "You have to pick one."

"The 2nd." Luo Feng said.

"The 2nd?"

Both knights revealed a look of shock as they exchanged glances.

She laughed, her voice resounding in his ears. "You must think carefully. The 1st is a reward of 200 billion, but the 2nd only gives 50 billion...the differences is 150 billion mixed elements. Even a knight would feel the pinch from such an amount, can you give it up? If your comrades leave earth, can't they still lead their lives?"

"Do you want to change your choice?" The lady looked at Luo Feng.

Luo Feng shook his head and said softly, "It's my home, I have no other choice. I cannot let my countless comrades leave their homes."

The lady and 9 blade knight both had a sense of appreciation within their eyes. There were many powerful warriors in the universe, over the long dangerous journeys, they would risk everything for treasures. 150 billion was such a treasure, and was able to buy many items and important treasures, and it was enough to make countless undyings go crazy for it.

For home, he was willing to give it up?

Many warriors would respect Luo Feng's choice.

Respect was respect...however there would still be many that would simply pick the 1st choice. Afterall, only few recognized the importance of home that much.

"This is the contract."

"With the acknowledgement of the virtual universe system, signing this contract means it's settled." The lady flipped her hand and another folder appeared, it was the contract.

The lady first signed and passed it along to Luo Feng.

Luo Feng signed his name as well.

...

Within the living room.

Luo Feng sat alone, 9 blade knight and the jade eyed lady had already left.

"Luo Feng." Babata shouted happily. "The universe galaxy bank has sent a mail, your total has increased by 5 million mixed elements. The 1st amount from the agreement has already been deposited. That was fast."

"Ah." Luo Feng sat in his sofa. Leaning back, he lifted a cup of amber colored wine.

"Why?" Babata asked curiously on Luo Feng's shoulder. He felt that Luo Feng was somewhat fatigued.

"Nothing."

Luo Feng said softly, "I feel weak!"

"Weak?" Babata blinked.

"Against the Huge Axe Dojo and Virtual Universe Company, even against Shi Huo knight, 9 blade knight and Yan Zhu emperor...I have no way to withstand them at all." Luo Feng said softly, after which he downed the amber colored wine.

"Being weak is not wrong, accepting and letting yourself stay weak is the problem!" Babata shouted.

"Even the great founder of the Huge Axe Dojo, or the founder of the Virtual Universe Company, those pinnacle beings, which one of them didn't start from a weak little thing, only slowly growing until they could stand at the pinnacle of trillions of races?"

Luo Feng's eyes gleamed with anticipation. That burning passion was enough to melt a glacier. "Only through growth and my own strength, would I be able to truly get strong. Babata, you are right, I need to keep on moving one step at a time, until I become an absolute being."

Chapter 716: Hong Alliance?

After the contract was signed, things were naturally carried out according to the contract.

The Huge Axe Dojo wouldn't dare come find Luo Feng again. Also, the Virtual Universe Company's efficiency was extremely high, as it immediately sent large amounts of people via god country teleportation to earth, and began to build their floating city. They also started building a shrine in the outer regions of the solar system, its size was almost comparable to the sun.

In this shrine, absolute beings were stationed. Afterall, earth was simply too important.

"The Virtual Universe Company did promise not to disrupt the lives of the people." Luo Feng saw everything happen himself.

...

Luo Feng, who had been patiently staying on earth, was also waiting for the results of the highest point mission. Afterall, he massacred at an extreme level during the 1st level's Flame god organization mission...as for the completion rate, he didn't know the results yet.

5 days later.

"Luo Feng, mail, mail." Babata's voice resounded in his mind.

Luo Feng who was in the yard sipping tea with his brother Luo Hua sent a thread of consciousness into the virtual universe network.

Virtual universe Yu Xiang Mountain primal region, Luo Feng's villa.

Within his study.

The moment he sat down, Babata, who was on his shoulder said with a glee, "It's from the Virtual Universe Company, and the subject is related to the highest point mission."

"Hm."

Luo feng gently tapped the screen and opened the mail.

The details were...

"You've already completed the 1st level of the highest point mission. The members have judged that your final completion rate is 82%, hence you will get 82,000 points. This also means that you have the right to move on to the 2nd level."

"Evaluation: The mission was for you Luo Feng to judge the 18 executives of the Flame wind organization, it didn't ask for you to judge their guards along with their corrupted guests and clients. You however massacred everybody, killing over a million of them. Obviously, you are blood thirsty by nature, and you even used claws and close combat, not even feeling any disdain from killing over a million of them. Also, your gaze hardly even changed...you enjoy killing from within, you love the thrill from close combat, this is a bit dangerous. Humans are innately not a bloodthirsty race, even though the population is extremely huge, there are very few with bloodthirst in their bones."

"Even the races in the universe that are bloodthirsty, they are extremely few."

"However!"

"When you kill, you are cold and collected, as to who to kill and who not to, you are distinct. To kill over a million and not let the blood affect you...still clearly making distinct decisions on who to kill and who to spare, it's obvious you are not controlled by the bloodthirst, it hasn't affected your core."

"In summary, despite your blood thirsty nature, we still gave you 82% completion!"

Luo Feng immediately laughed when he saw the mail.

82% completion? That was risky, he almost ended the highest point mission immediately.

The evaluation did make sense.

Right.

The mission had told him to judge the 18 executives, yet he killed everybody within the organization, and even the corrupted clients and their underlings.

"According to the evaluation, they let me pass because they could see I was calm and collected, and was not affected by the massacre." Luo Feng laughed. Even though it made sense, however if they had let him do the mission again, the result would still be the same. Luo Feng would never change the way he did things just from some evaluation.

That scums, they were the vermin of humanity.

They were completely corrupt!

If he didn't see it, it would be fine. But since he saw everything and knew the truth, he naturally had to kill them!

"I'll just do things my way, who cares how many points I get." Luo Feng thought. "I don't wish to change the way I do things because of their words."

"Di!"

A new mail appeared on the screen. Babata shouted out, "It's the 2nd level."

Luo Feng smiled and opened the mail. The subject read 'Highest Point mission 2nd level.'

Details...

"This mission is the 2nd level of the highest point mission."

"Mission background: In the Gu Lun universe country region, there's a powerful emperor level undying Blood demon emperor. He is a lone wolf and antisocial in nature, he's also not a member of the 5 leviathans. Within the universe country he controls the Du Tuo star field. That is his sole territory, and it's completely under his control. As he is an important member of the Hong Alliance, he has absolute control over this area and the Gu Lun universe country itself has no power over it."

Luo Feng was interested in the words background.

Hong Alliance!

"Hong alliance?" Luo Feng frowned and muttered, "And it says that Blood demon emperor is a lone wolf, anti social in nature. Yet he is an important member of the Hong alliance."

"It's simple, it shows that the alliance is a lax one, and that it doesn't have many requirements from its members. Only a lax alliance would let lone wolf members join." Babata exclaimed on his shoulder.

"However, the requirements to join this alliance must be a harsh one. After following your teacher for so many years, we've never even heard of it. This shows that he didn't have the rights to even join them."

Luo Feng nodded.

He recalled back then in demon note mountain in the demon note inheritance palace, there were two undyings that spoke when they reached the core. Luo Feng clearly remembered their conversation.

"Ah, how come there are only 8 palaces without people, the rest are all filled?"

"Hm? That's weird, the report from Hong Alliance stated that there were 9 empty. Hm, who cares, we are just two people. Whether it's 8 or 9, we have our spaces."

The simple conversation between the two undyings back then was enough to perk Luo Feng's curiosity.

The demon note inheritance was obviously very valuable. After chatting with his teacher True Yan, it also showed him...that he had taken the slot of Drizzle mist emperor! A slot so valuable even to an emperor level undying...yet it was decided by the Virtual Universe Company or Huge Axe Dojo, it was from a Hong alliance he had never heard of.

Luo Feng had a feeling.

The Hong alliance's influence must be huge!

"It is indeed powerful."

"A lone wolf, just because he's an important member of the alliance, he controls a starfield and can operate it independent of the universe country. It's his own country." Luo Feng exclaimed. Even though there were countries like the Black Dragon Mountain empire etc within the Ganwu universe country along with other undying lands.

The Ganwu universe country still had control over them.

He was shocked by this mysterious Hong alliance. He quickly connected to the virtual network and started searching for it, gently tapping the screen.

"Di."

Search complete.

It was completely blank.

"Damn, my authority is already really high, yet I cannot find anything about them. Just how high in power are they...where are they from?" Luo Feng thought, immediately searching up on Blood demon emperor.

Di!

One piece of information popped up.

Luo Feng opened it to read.

"Blood demon emperor, name Du Tuo, he is arrogant and has incredible strength and power. He was extremely powerful even amongst the emperor level undyings. He's been stationed for a long time in Du Tuo starfield, and has 36 undyings under him. He's a big independent power from the Gu Lun universe country."

This information didn't mention the Hong alliance, however it mentioned his undying underlings etc.

Luo Feng sat at his desk and pondered about the information regarding Blood demon emperor and the Hong alliance. Even though it was little, he could only deduce...that this arrogant Blood demon emperor, being a part of the Hong alliance, only showed that the alliance was...extremely powerful. Even the slots for the demon note inheritance were decided by them.

Luo Feng shook his head and continued reading the mission details.

"Mission details: Within the Du Tuo Starfield that Blood demon emperor controls, there's a very brutal test called the Blood demon trials. This has later been called the Blood demon hell by the people of the Du Tuo starfield. This trial would be organized over tens of thousands of galaxies in the star field, however the period of time over which it stretched was very long. However in a month, the Meng Ya galaxy and the Wei Li galaxy will begin its trials simultaneously.

The Meng Ya galaxy will hold a High level demon trial. The trial details state that capturing and placing 1 million star level humans onto a mineral planet, making them fight it out and slaughter until only 10 are left. Only then will the trial stop. The remaining 10 will be absorbed into Blood demon planet.

The Wei Li galaxy will hold a low level blood demon trail. The trial details states that capturing 10 billion star traveller level humans, fighting until only 100 are left. The final 100 will be absorbed into Blood demon planet.

The death rate is too high.

10 billion being reduced to 100, 1 million star levels down to 10...this high death rate has made the people of the star field incredibly terrified of the trials. However, the entire starfield is suppressed by the government, as they've gotten rid of any advanced technology. Many planets don't even have universe ships, or even basic technological tools.

Du Tuo starfield is a huge cage.

However, Blood Demon emperor, outside of the trials, has been very kind towards his countless life planets. As he doesn't kill too much and has never breached the limit, we cannot punish him.

Mission request:

Both trials will be held simultaneously in Meng Ya and Wei Li galaxy. As they are separated...Luo Feng, even with your undying guard's god country teleportation, you'll only be able to save one galaxy.

Your mission is...

Stop the Blood demon trail, and save the members by keeping them in a world ring.

As for which galaxy to save, it's your choice! Please remember, that the moment the mission begins, your synchronized broadcast will be turned on. All details of the mission will be sent to the virtual universe.

The billions of lives are in your hands...

Luo Feng, you decide!

If your final completion rate reaches 80%, you can move on to the 3rd level. If it's below 80%, the highest point mission ends."

The details weren't long, Luo Feng's expression however changed as he read.

Two blood demon trials were going on simultaneously, but he could only pick one to save, which would it be?

Chapter 717: Struggle

"Luo Feng." The fist sized Babata on his shoulder muttered, "The Meng Ya and Wei Li galaxies are extremely far apart. Even with the Yun Mo planet Ship, it'd take at least 8 days to travel. Also, we still have to get over from the Ganwu universe country...from here to the Gu Lun universe country, it's too far, you'd have to ask Dylan for help and teleport via his god country. Otherwise we'd waste at least half a year. The Blood demon trials start in a month."

"Hm." Luo Feng nodded.

He was still pondering which galaxy to go to.

"Have you picked yet?" Babata asked. "The Virtual Universe Company let you choose, one side is 1 million star levels and the other is 10 billion star travellers. From what I see, picking the star travellers shows you are kind, naturally picking the side with more people. However if you pick the 1 million star levels, it shows you have the thought process of the strong, there are many powerful warriors in the universe...they all think that the strong have more right to live."

Luo Feng nodded.

Under Blood demon emperor's government suppressing the star field, they must have gone through a lot to even reach star level.

As for the star traveller level, any galaxy could easily produce over 10 billion star travellers. It was obvious that due to Blood demon emperor, even the general public had reached star travellers level already.

Would it be the normal 10 billion people.

Or the 1 million star levels that have gone through trials and torture.

"I pick Wei Li galaxy." Luo Feng emphasized.

Luo Feng didn't dare waste time. Within the same day, he sat in the Yun Mo planet ship and left earth, letting Dylan teleport them via his god country and going straight to the Gu Lun universe country's Yu Fu star field. After which, they flew straight towards Wei Li galaxy, that alone would take about 26 days.

In the dark universe, the Yun Mo planet ship flew.

In the control room, Luo Feng was chatting with Dylan.

"What a coincidence. Dylan, your god country marker was left in the Yu Fu starfield, which is the closest one to Du Tuo starfield. It'll take 26 days to get there, heading to Meng Ya would take 25 days." Luo Feng looked at Dylan, smiling, "Did the Virtual Universe Company ask you before sending this mission?"

Dylan smiled and nodded.

"Damn." Luo Feng couldn't help but curse.

It was true!

The Virtual Universe Company had indeed planned everything out perfectly. It had probably already ordered Dylan to leave markers around the Gu Lun universe country, but not use them yet.

"The Virtual Universe Company, has planned everything for their training." Dylan smiled. "Don't be angry."

"I understand." Luo Feng nodded.

Luo Feng didn't have any grievances against the Virtual Universe Company.

As one of the two greatest powers of humanity, naturally when they do things, it was all with the thought of protection and strengthening humanity in mind! Ever since he had joined the Virtual Universe Company, Luo Feng had always been fairly satisfied with them, even with regards to the deal about earth was considered fair.

If a normal person on earth discovered a treasure and it's worth was over 1 million mixed elements, Luo Feng, with his position on earth...would probably buy it also.

Giving just 18 billion earth dollars would suffice.

From Luo Feng's perspective...that much money was enough for a normal person to live without any worries for the rest of their life.

1 theory!

To the Virtual Universe Company, earth was a nurturing basket that a great being had spent countless energy on remodeling, and its price was limitless. Even a great knight's wealth wouldn't be able to purchase a fraction of it. However, they couldn't simply give Luo Feng such an amount of wealth.

"Your majesty, why'd you pick the 10 billion star travellers and not the 1 million star levels?" Dylan asked curiously. "Without any technology and the blood demon government suppressing them, 99% of them wouldn't find it easy at all to break through to star level. And from what I've found, the overall

evolution of Du Tuo star field is pretty high. Any life planet would easily have tens to hundreds of thousands of star travellers, it's not hard for a galaxy to have 10 billion star travellers, these are all normal warriors."

"Everyone is an independent life form." Luo Feng said softly. "My home had been through countless calamities before, I know the tragedy of death."

"Just like my relatives, they were all normal people back then too, are they not worth anything? At least to me, my relatives are worth more than 1 million sector lords! And for those normal people, they all have that one life each, and it's worth more than 1 million star levels."

"10 billion normal people should die so 1 million star levels can live?"

Luo Feng shook his head.

There is no such thing!

If it involved a race and its survival, such sacrifices may have to be made. For example...Tens of millions of people in a race may die just to protect a powerful warrior, because he was the only hope for their race's survival.

And since Luo Feng's choice this time didn't involve the survival of a race.

He naturally picked the normal people.

26 days later.

In the air above a yellow planet, the Yun Mo planet ship floated.

"This is not a life planet, it's almost round and has a diameter of 18,023 km." Babata's sharp voice resounded. "According to the Virtual Universe Company, this is where the Blood demon trail will be held. Look...there are already a lot of people stationed here. However relax! They cannot detect us."

"Hm."

Luo Feng gazed below, this mineral planet did have over a 100 people stationed, half of them universe level.

"Let's wait for when the 10 billion star travellers are sent over." Luo Feng said softly.

At that moment, the 10 billion star travellers from the hundreds of thousands of planets were being transported over in 10,000 universe ships. They were all travelling in the dark universe and heading over.

...

Within one particular ship, all 3 levels were jammed full with cages. Every one of them had 10 star travellers within. With one glance...every level had countless star travellers within, some even had hundreds of thousands.

"Mom."

"Liz..."

Faint crying and muttering resounded from the tens of thousands of cages, this...was simply hell.

Within one cage.

A youth dressed in torn animal skin was hugging a girl tightly. Because of blood demon's government...the evolution of the Du Tuo starfield humans were high. Hence, it was normal to see star travellers, and they would normally pick these youths to undergo the trials.

"Wuwa." The youth hugged the girl, his eyes gleaming beneath his dirty face. It had hope, hope of life, he gently said confidently, "Brother will definitely help you survive, definitely."

The girl suddenly shook.

She was a pretty looking girl, even though she was dirty and unwashed too, one could see she was pretty. However in Du Tuo starfield...strength was already the absolute, if strength wasn't enough, appearances didn't mean a thing.

"Big brother." She said, "Will we die? I heard only a 100 will survive the Blood demon trials from 10 billion. Many of these 10 billion come from various sects, they have spirit weapons, genetic weapons, and others have techniques. As for us, we don't have any weapons and only know some basic techniques, how will we survive?"

The youth began to tear up the moment he heard this.

He had a tragic fate since young.

His parents had died young and he had to take his younger sister to wander and learn as much as they could, finally reaching star traveller level and was able to lead a safe peaceful life. However, it hadn't even been 2 years of peace...and those without background were all captured and forced to participate. Every planet had to hit a quota of people to send.

If the normal people weren't enough, the star travellers with backgrounds were captured too!

The Blood demon trials took place under the order of Blood demon emperor. Hence, no one dared go against it.

"We will survive, definitely, big brother swears it." The youth said softly.

"Hm." The girl replied softly, burying her head once again in his chest.

Maybe...

These final few days lying in her brother's chest before the nightmare began, was the most happiness she could enjoy.

"Definitely." The youth gripped his right fist hard. His nail pierced his palm, and his eyes were somewhat hysterical, as he shouted within, "I must let my sister survive, definitely."

100 out of 10 billion.

What was that?

It was plainly a mass massacre. Even those with techniques, genetic armor and weapons, these geniuses would be surrounded and killed if they weren't careful. After all, the density of 10 billion on a normal mineral planet was too much. The moment the battles and killing began...no one had a guarantee to survive?

And to be able to live to the end, one had to have power! Brains! Guts! And also luck!

...

As for the lower level struggles, all the star travellers who were about to begin the trials were all afraid of it. Even if they had strength...against countless people fighting, they too would feel despair.

...

"Ship 0229, stop at position 0293!"

"Ship 3619, stop at position 0123!"

The yellow planet had long been remodeled, and at this time, this dead silent planet had a dark purple flat ship floating in the air. It was giving orders to the many ships delivering the star travellers, and these many ships opened their cabin doors as they landed.

Large amounts of cages were opened and a blur of dirty unwashed men and women filled with fear on their faces walked out, the blur of people walked within the planet.

The temperature of the planet was very low, roughly below 80, and as it was a mineral planet, there was no way to breathe. However star travellers no longer needed to breathe.

"Hmm..."

"So, so many people."

The large amount of star travellers that were dropped off flew away the moment they landed. They could all see extremely far away. There was a blur of silhouettes...there were already over 5 billion now. When have they ever seen so many star travellers?

At this time...

A camouflaged blood colored triangular ship was floating tens of thousands of km above the planet, observing all the star travellers on the planet.

Chapter 718: La Peter

Within the ship's control room.

"5,729 ships have already arrived, 5.729 billion star travellers have arrived." Babata's child like voice resounded within the control room. "Another ship has arrived, 5730...5733...5734..."

Luo Feng and Dylan just gazed on.

All of the star travellers forced to participate in this blood demon trial all had looks of fear and unrest. Hence, they were carefully glancing at each other. Only those close to each other truly trusted and helped each other, this sort of pressure and fear...

Even Luo Feng could feel it, despite being high up in the sky.

"10 billion of them." Luo Feng thought.

"Being controlled by Blood demon emperor, that's their bad luck." Dylan shook his head.

"Doesn't the virtual universe care about it?" Luo Feng shook his head and frowned. "Even though they are considered universe citizens, these are after all star travellers too,, this is akin to a huge massacre. And this sort of thing was happening in every galaxy. There are over tens of thousands of galaxies in the Du Tuo starfield that he controls...and the blood trials happen over a long period of time. Considering the massacre of so many universe citizens, does the company not even say anything?"

Dylan looked at Luo Feng and shook his head, "Unless it reaches a critical amount, the company and Huge Axe Aojio cannot do anything."

"Critical amount"

Luo Feng thought.

He remembered the details of the mission mentioning that if the number of people killed didn't hit the restricted amount, they couldn't be punished.

"This isn't even the limit yet? Just what is it then?" Luo Feng couldn't help but ask.

"Luo Feng, the limit is calculated per planet." Dylan explained. "If every year, every life planet has a limit of 200 star travellers that could be killed, and every galaxy has 200,000 life planets. Then in 1 year, the number of star travellers that could be killed in a single galaxy would be one hundred million. And the number for this blood demon trial that occurs every 100 years would be...10 billion! Of course at different levels of power and position, the limit is different too. An emperor level undying or knight naturally has different standards. A knight can kill in the trillions without any repercussions, of course...they too have a limit to uphold."

Luo Feng understood.

Privilege!

Just like Void gold master, that level of being, he could probably kill off half of a universe country with countless deaths and still have no repercussions at all. At most, he would get a slight punishment from the upper echelons of humanity.

"They cannot ban killing from those managing the planet territories." Dylan said, "Blood demon emperor controls the entire Du Tuo star field with billions of planets. Since it's citizens were countless...his blood demon trials only took so many people, and this amount doesn't even get close to the limit. After all, other than the trials...he doesn't randomly massacre citizens on the planets. He knows the importance of steadiness too, the better the billions of planets advance, continuously producing warriors, the stronger and more solid his power grows."

"Hmph."

Luo Feng frowned, "This method of picking elites, doesn't he fear that the elites would eventually hate him?"

"So what if they do, they would be constantly nurtured, and when they become sector lords...only then would they have the right to have their souls invaded to become blood demon soldiers." Dylan shook his head.

"Blood demon soldiers?" Luo Feng was stunned.

"Blood demon emperor has created a technique, through which he's currently capable of controlling 999 undying slaves." Dylan said indifferently. "And his undying disciples and slaves, along with the sector lord disciples, they all train in this technique as well. Hence, they too can control a few slaves, however those that were all controlled were elites."

"Blood demon emperor controls undying slaves and nurtures his disciples, the undying slaves then control another new group, and those elites and exceptional worthy ones will train in the technique too..." Dylan smiled coldly, "As long as one is controlled, he becomes a blood demon soldier."

Luo Feng's expression changed.

"And the blood demon trial was created precisely for picking the blood demon soldiers." Dylan smiled coldly. "The never ending supply of elite geniuses from the entire starfield, they would all end up in Blood demon emperor's hands! His governance is incredibly sturdy and matchless...he is definitely a terrifying being amongst the emperor level undyings."

...

As Luo Feng and Dylan were high in their ship patiently awaiting the gathering, the dark purple flat ship that was giving orders opened its doors, a 100m diameter disc shaped ship entered.

"Lord La Peter is here."

"Quick, go welcome Lord La Peter, quickly."

Within the dark purple ship.

A group of well dressed silhouettes were present. Among them, the weakest being universe level 3, swiftly ran to the entrance, leading the way was a domain lord and behind him were over 100 universe level upper management.

Hua...

The door of the disc shaped ship opened. A snowy crystal skinned man with snow white short hair and black armor walked out with a piercing gaze. The group of upper management all bowed respectfully, not daring to look up.

Two guards followed behind him, both of them were sector lord level 9!

"Greetings Lord La Peter!" Over 100 people bowed respectfully.

"Hm." The snow skinned black armored man nodded coldly. "Have all the participants for the trial gathered?"

"It's already reached 7 billion, they should all be gathered in about half a day." The leading domain lord said respectfully.

"Hm."

This La Peter nodded indifferently.

He, sector lord level 9 was a part of the blood demon core. He was trained in the blood demon techniques and the two behind him were two blood demon soldiers that he controlled.

"I'm in charge of supervising the trials this time." His eyes gleamed coldly as his gaze swept past the group of management. Immediately, they all felt uneasy. "The control of the entire trial must be done well. Make sure that the final 100 are those that have survived after killing and surviving the battle, and not those lucky ones that hide and survive, understood?"

"Yes!"

The management all complied.

"To the control room." La Peter brought his two guards and walked towards the control room, the group followed behind.

The many ships arrived one by one. As the doors opened, large amounts of star travellers trapped in cages walked out, a blur of humans swiftly filled every corner of the mineral planet.

With their energy sensing abilities and the ship's flying speeds, 10 billion star travellers gathered on this mineral planet...the density was simply too high.

"Wu Wa."

The youth standing on some stones had a blade on his waist. He held onto the weak girl beside him, carefully gazing about. The blur of star travellers felt the formless pressure all over, "In a moment, we will do as we had planned. You help me and we'll work together to survive the 1st battle and later find a desolate place to hide."

"Hm." The girl looked about cautiously too, spreading her formless spirit energy around.

Anxiousness!

An occasional ship flew by above, sending another million star travellers, it made the pressure increase constantly.

"Ah, ah ah...Mommy, mommy!" There were some that collapsed mentally, crying like infants for their mothers.

No one laughed at them.

Almost 99% of the them felt like they were about to collapse at anytime. They had heard of the legends of the blood demon trials ever since they were young. After flying in cages for days plus being cramped with so many others, the killing intent, the fear, the pressure...it was enough to make a person collapse.

...

Within the dark purple flat ship.

The snow skinned snow white hair La Peter was looking over everything. As he saw their fear, their collapsed states, his eyes filled with excitement and they twitched slightly. His entire being appeared to have entered a state of madness.

"Lord La Peter, 9,992 ships have already arrived, the final 8 will arrive soon. The blood demon trial will begin soon...please announce the commencement of the trial." The leading domain lord said respectfully.

"Hurry."

La Peter's eyes were filled with madness, "I cannot wait any more."

The final 8 ships arrived and when the final 8 million arrived on the mineral planet, the ships left and a cold voice filled the air above the entire planet.

"Children!"

"Only 100 of you from the 10 billion will survive. Through the great blood demon trial, you'll become the most loyal and exceptional soldiers. Right now...let the killing begin! Kill everyone around you, kill them all!"

His voice resounded.

However at that time...

Two silhouettes swiftly descended from the skies.

"Babata, open the synchronized broadcast to the virtual universe network."

"Yes."

Two silhouettes, one was a green armored black haired youth, and on his forehead was a gold engraving. His entire being was almost like a terrifying gold blade piercing forward. Beside him was a black robed normal looking bald man.

From Ten thousand km away, the two of them instantly reached the surface of the planet.

"Using the world ring, keep!" Luo Feng triggered the world energy within the ring and swiftly spread it over the entire planet.

Hu!

The 10 billion star travellers that were just about to begin killing vanished and the mineral planet was left completely empty. They all appeared within the spacious grasslands of his world ring.

"Pu chi!"

"Go and die!"

"Kill!"

The 10 billion that had entered a state of madness didn't notice their surroundings change. As Luo Feng kept them, part of them had already begin their battles. However, after being tossed into the grasslands, they were all stunned. Even the siblings stained in blood looked about in shock.

...

The moment he collected all the star travellers into his ring, he ordered, "Close synchronized broadcast."

"Yes." Babata complied.

"The 2nd mission sure is simple, it's over just like that." Luo Feng shook his head.

At that time...

"Those that dare disrupt the blood demon trials, you will die!" An enraged howl filled the entire planet. Simultaneously a terrifying blade flash tore through the universe space, slashing over 10,000 km and headed straight towards Luo Feng.

Chapter 719: Mission Completion Rate

This was an arc blade spirit energy weapon, with the control of a sector lord level 9's world energy, it slashed through the space over 10,000 km, heading straight towards Luo Feng.

"Hu La!"

10 flexible vines instantly shot out from Luo feng's shoulder, swiftly growing and becoming a 1,000 km long vine. The ten of them intertwined in space, wrapping around the spirit energy weapon.

"Ang..." The spirit energy weapon slashed hard at it tore through the vines. However, the regeneration speed of the vines was too fast, it completely exceeded the spirit energy's destruction speed, wrapping it so that it couldn't break free.

"You dare stop my weapon!"

A furious roar could be heard.

A white beam of light tore through space and flew over. 8 more beams of lights followed behind him, and all of them were sector lord level 9.

"Your majesty, that white haired punk is called La Peter. When he left the ship, he only had two sector lord guards. Now however, there's suddenly 8 of them. I think...these 8 are all blood demon soldiers he controls, and this guy is obviously one of blood demon emperor's elites." Dylan smiled and

communicated. He was an undying proficient in spirit and soul techniques, every action from the ship was completely visible to him.

La Peter and the 8 beams of light shot over.

9 sector lord level 9s!

"Domain lord level punk, you dare disrupt the blood demon trials, you must be seeking death! He roared, eyes burning with rage. Blood demon emperor was a force unmatched within the Gu Lun universe country. Other than the universe country leader himself, who else could control him?

Trillions of years of tyranny, they'd long gotten used to it.

Right now there was someone actually disrupting the trials, wasn't it suicide?

"Rumble!"

Dylan who had been standing beside Luo Feng smiled, he had been hiding his power all this while. Suddenly he let out his powerful energy and a gleaming gold light instantly covered the 9 sector lords, almost like a sturdy rope that bound them immediately.

"Ah!" The 9 sector lords were completely bound by the undying energy. La Peter gritted his teeth and struggled hard, however he couldn't get free.

"Undying!" He stared hard at Dylan.

"Master."

The 8 sector lords were struggling too, shouting out.

"You really hid yourself well." La Peter stared angrily at Dylan. Howling, "When I scanned earlier, you hid your strength and now you suddenly let it out. Why, does bullying a sector lord like myself satisfy you?"

La Peter's mad gaze swept past Luo Feng and Dylan.

"Who are you!"

"Just who are you? To actually dare mess with Blood demon emperor's matters! Have you been living for too long." La Peter stared at Dylan.

"You sure got guts." Dylan smiled, glancing at him and saying softly, his voice resounded within La Peter's mind. "Even though your master Blood demon emperor is powerful, compared to our Virtual Universe Company, he's nothing. However, he is still my elder and for that I will spare your little life."

Dylan's smile broadened.

Rumble...

La Peter's 8 sector lord guards immediately exploded from the powerful undying energy, their flesh and blood spewing everywhere.

"Ah!!!" La Peter gritted his teeth and shouted madly.

His 8 blood demon soldiers!

He could at most control 9 slaves now, and these were 8 of them! With them being killed...he could at most have one slave for awhile.

"Your majesty, let's go." Dylan looked at Luo Feng.

"Hm." Luo Feng nodded.

Sou! Sou!

Two beams of light tore through space, leaving La Peter behind to howl in rage.

Luo Feng and Dylan sat in the Yun Mo planet ship and travelled in the dark universe, heading towards a mineral planet in the Gu Lun's universe country's Du Tuo starfield to gather with the members of the Virtual Universe Company.

"That La Peter sure was arrogant, even before an undying he behaved that way. Undyings normally wouldn't want to offend Blood demon emperor, hence they usually won't kill him. But handing out punishment is still normal. For his 8 soul slaves to be destroyed like that, whether he's pitiful or not, he can probably control no more than 10 slaves." Luo Feng muttered and laughed.

Each soul slave was incredibly important.

Everyone took up an irreplaceable spot. Even Luo Feng who had trained in the 10,000 soul control, he could at most control 10 soul slaves now.

"He's used to being a tyrant." Dylan smiled.

"He is entitled to his tyranny. After all, he did have 8 sector lord slaves." Luo Feng mocked.

Sector lord slaves?

Luo Feng was indeed not affected by it at all, with his mother nest constantly producing his bug army now, in 2 to 3 years, she had already produced about 10,000 sector lord pinnacle bug soldiers! This 10,000 bug army, with the queen Alina's control, could completely match up to an official level undying.

Naturally, whether it was Luo Feng or Dylan, they couldn't be bothered with that La Peter.

...

After 3 more days of flying.

In the space above a nameless mineral planet, the space rippled and the blood colored triangular ship appeared. Once the doors opened, two silhouettes flew towards the planet.

In a crater of the nameless planet, a black universe ship was stopped there, three silhouettes flew out from within.

The three of them met with Luo Feng and Dylan.

"Your majesty Luo Feng."

The three that flew out were led by a winged old man. He smiled and said, "Your majesty can release the 10 billion star travellers here."

"Hm." Luo Feng nodded.

He triggered the world ring and immediately a sea of star travellers were released from within. The desolate planet was suddenly filled with people, the blur of star travellers all seemed shocked as they looked about.

Rumble...the old man suddenly released endless green winds that wrapped the entire planet and all the star travellers on it.

He stood high in the air.

Behind him was a huge over 100km tall projection that spread throughout. Everybody could clearly see this majestic projection.

"From today on, you close to 10 billion people will be free from the Du Tuo star field. You no longer have to participate in the blood demon trials. Our Virtual Universe Company will give you a peaceful life." The winged old man's voice resounded within their minds, as they were all completely stunned.

After which they all cheered madly! Howls! Crying!

"Wu Wa, we no longer need to die, no more."

"Big brother!"

The siblings hugged each other tightly.

As close to the 10 billion people had filled up half of the planet, the two siblings happened to be close to Luo Feng and Dylan. With their star traveller energy, they clearly saw Luo Feng and the group.

"It's the black clothed god." The girl said.

"Ah. It's him." The youth's eyes gleamed, saying, "It's the same black clothed god that stopped us from fighting in the grasslands. Only his armor has changed."

Before...

When Luo Feng had placed them within his world ring, he was worried they would continue killing within. Hence, moshu Luo Feng appeared before them and shocked the 10 billion people.

...

After the winged old man had finished, he placed all of them within his world ring and the planet regained its original desolate state.

"Your majesty Luo Feng." The winged old man flashed and landed beside Luo Feng. "Your 2nd mission is now complete. You should have gotten your completion rate too. They'll tell you what your 3rd level mission is."

"Ah?" Luo Feng was stunned.

Simultaneously...

"Luo Feng, there's mail." Babata's voice resounded within his mind.

"Haha." The winged old man laughed when he saw Luo Feng's expression. "Your majesty should have received the mail, please take a look and in awhile, I'll have to take you to carry the mission out."

Luo Feng sent a thread of consciousness into the virtual universe network.

Virtual universe network Yu Xiang mountain primal region, Luo Feng's villa.

In the study.

"Open." Luo Feng sat before his desk and looked at his laptop, opening the mail.

"Hua."

The mail opened, the details were...

"You've completed the 2nd level of the highest point mission. The members have made their decision. Luo Feng, your completion rate is 90%, you get 180,000 points. Also, you now have the right to begin the 3rd level."

"Evaluation: Despite the blood thirst in your bones you still pick the weak and more 10 billion star levels. Obviously you care more for the pitiful, or you see an equal importance between star levels and star travellers. Massacring millions yet calm as still water, at the same time, picking the weaker people to save, we were definitely shocked by your choice. We give you 90% completion for this level, hopefully you'll continue to surprise us for the 3rd and 4th level."

Luo Feng laughed, Babata who sat on his shoulder laughed too.

"Babata, I bet that among the members judging me for the highest point mission, the one with the actual power is one that prefers kindness and less killing." Luo Feng laughed. "Because of my blood thirst in the 1st level, luckily I remained calm and collected throughout, they gave me 82%. After seeing how I picked the weaker people to save...they actually gave me 90% completion."

Reading between the lines.

Luo Feng could feel that the upper echelon writing the letter was kind within.

"Don't get proud." Babata shook his head, "The 1st and 2nd level seem easy, but this is after all still the highest point mission. It tests a core member's character and ability in judgement. It not only represents the points superficially...but whether you'll be of use to the company in the future."

Luo Feng nodded.

His chat with his teacher before had let him know.

This was the Virtual Universe Company truly trying to get to know its core members, and to find out if a core member had no limits to his blood thirst and was incredibly mad. They may still become absolute warriors in the future! But they would at most become generals that fought the inter race wars and could never truly become the huge authority figures in the company, their nurture would be less too.

"3rd level." Luo Feng opened the mail.

He smiled and looked at the details.

After which...his smile froze, he stared wide eyed, not budging at all.

"Damn! The virtual universe sure is absurd." Luo Feng was completely shocked from the 3rd level of the mission.

Chapter 720: 3rd Level

"Wow..." The fist sized Babata on Luo Feng's shoulder stared wide eyed, shocked, "The Virtual Universe Company sure is the Virtual Universe Company, this is like a slap to the face."

Luo Feng shook his head and forced a smile. "They are not forcing Blood demon emperor, they are forcing me."

The details of the mail were...

"3rd level mission: Blood Demon emperor controls the entire Du Tuo starfield, with hundreds of undyings under him. Even though he hasn't done anything over the limit, there are a few of his underlings that have. Currently, we have confirmed 21 of them.

There are 21 undyings and 19 sector lords.

They are...

Abdullah: Undying, given the Chi Tie galaxy as territory. He had once massacred all life on a few hundred planets in the galaxy, even keeping a large amount of them in his god country...

Yi Suo: Undying...

Ai Di: Sector lord...

Ao Ke Fei: Sector lord, he had once gathered over 10 billion young ladies and organized the craziest blood demon ceremony, over ten billion of them becoming a sea of blood. He also..."

"Mission: The Virtual Universe Company has already sent the order to blood demon emperor to capture these 21 alive, and he has already locked them up within blood demon planet. Luo Feng, you are to swiftly head over there...and judge the 21 of them. The choices are...Death, jail for a million years, jail for a hundred years, innocent.

The fates of these 21 are in your hands, you can judge them in whatever way you want.

You control whether they live or die."

"Reminder: When you reach blood demon planet, you have to open the synchronized broadcast, and close it only after the judgments are complete."

Within the study.

Luo Feng couldn't help but force a smile. He had known that the highest point mission wouldn't be that simple. The 1st and 2nd levels didn't pose any difficulty at all to him, and no danger was present. However this 3rd level...

The Virtual Universe Company was absurd, ordering Blood demon emperor to capture the 21 people.

Even though he was a member of the Hong alliance, the power of the Virtual Universe Company was on another level altogether. How could the little Blood demon emperor go against them? Naturally, he could only obediently capture the 21. However the judgment and the fate of these 21, they actually let Luo Feng do it, having to personally head over to blood demon planet!

Blood demon planet!

That was Blood demon emperor's nest!

He would naturally meet Blood demon emperor himself, and execute his judgment before him. Wasn't this a blatant slap in the face?

"The heavier the sentence, the more it would invoke Blood demon emperor's hate!" Luo Feng shook his head. "After all everything is decided by me, and if I give a light sentence, it would go against my character."

"They are really forcing me."

"The Virtual Universe Company has ordered Blood demon emperor to do so, he must be enraged and yet at the same time, he cannot disobey the direct orders." Luo Feng forced a smile. From the way he did things, it was obvious that the Blood demon emperor wasn't a kind person. Now for no reason whatsoever, he had to go offend a great emperor level undying?

On that mineral planet.

In mid air, Luo Feng and Dylan along with the winged old man stood in space and chatted.

The old man smiled, "Your majesty Luo Feng, have you seen the 3rd level mission?"

"Hm." Luo Feng nodded and revealed a sense of helplessness.

"Haha..." The old man laughed at the scene. "Relax, even though that blood demon planet is his nest, he would never ever dare touch you, unless he's looking to die."

"Even if he doesn't dare now, what about the future?" Luo Feng shook his head.

"Then that'll depend on your choice, a lighter punishment will make it so that he will remember your mercy." The old man muttered. "Alright, we won't say anymore. Please follow me towards blood demon planet."

"Hm."

Luo Feng wasn't in a good mood, he nodded and kept the Yun Mo planet ship. He flew with Dylan into the black ship from the Virtual Universe Company and headed to blood demon planet.

Blood demon planet, it was the core of the entire Du Tuo star field.

Over 10,000 galaxies holding their blood demon trials to absorb more elites that would be sent here, large amounts of blood demon soldiers, be it sector lords or undying, they were all here. Also...the powerful Blood demon emperor himself stayed here, it was truly a demon hole.

"They are going overboard! The Virtual Universe Company is simply bullying me!!!"

His voice resounded throughout the entire blood demon palace, every one within shuddered.

Within the palace.

The god dressed in red armor with a helmet was raging. Beside him, 18 undyings all acted respectfully.

"If they want to catch my underlings, just do it. Yet they force me to do it myself, capturing Abdullah and the other 20!" His eyes burned with flames of rage. "They want to sentence my people and still force me to do it personally. They even sent people to disrupt my blood demon trial earlier! They seriously do not even bother showing me any respect!"

The 18 undyings had expressions of righteousness, within however they were thinking...

Disrespecting Blood demon emperor?

What a joke.

Why would the Virtual Universe Company even bother with him. It was such a huge power, Blood demon emperor was but a little thing compared to them!

"Seriously overboard!!!!" He raged even more.

"I've told you all before, when I give you territories and galaxies to handle, it's up to you how you do it, but always remember the limit." He turned to look at the 18 undyings beside him, "Now you see, Abdullah and Yi Suo have got it coming to them, you all better remember this."

"We will remember." The 18 undyings bowed respectfully.

"Lord." One of the shorted undyings said respectfully. "Didn't the order of the Virtual Universe Company also say that it will send a primal region member Luo Feng over to do the judgments, and that all the sentences will be dealt by him. A small domain lord, at least with your pressure...he wouldn't dare offend you. When the time comes, he may even let them go off scot free."

"Hm."

Blood demon emperor said solemnly, "Sounds right, that little punk wouldn't dare offend me! No matter what, since Abdullah and the others are all my underlings, I must do my best to keep their lives."

For this lone warrior, his underlings were all precious to him.

When others came to seek shelter, he naturally had to take up the responsibility of a boss. The two undyings had come to him earlier to seek help. the least he could do was to protect their lives. Even though the undyings about him didn't dare say it, they weren't that blind to the situation, if they fell, Blood demon emperor's interior cohesiveness would naturally fall.

6 days later.

A black ship appeared in the galaxy outside blood demon planet.

"Your majesty Luo Feng, look, that's blood demon planet." The winged old man pointed and said.

Luo Feng glanced over, there floated a completely blood red planet, just seeing it up close was enough to make one shudder.

Hu!

The ship swiftly flew towards the planet. As it drew closer, one could see the huge mountain sized constructs. The entire surface of the planet was void of any technology. These constructs were all made like mountains, and the interior was where the network was.

"Sou!" Tearing past the atmosphere, the ship headed straight towards the most majestic palace.

"Your majesty Luo Feng, that is blood demon palace." The winged old man pointed far ahead at the most majestic palace. Surrounding it were many little palaces, even the small ones were a few km in area, many of them were surrounding the huge one.

In front of the huge palace was a huge plaza measuring tens of km, and large amounts of warriors gathered there. With just a glance, there were at least a thousand people here, and the weakest being sector lord. They were led by a red armored god, his brutal bloodthirst energy was felt by Luo Feng even through the ship.

Hu!

The ship descended and landed in the plaza, the cabin door opened.

The winged old man, Luo Feng and Dylan along with two others came out.

"Greetings Blood demon emperor." The white winged man bowed slightly, after which he introduced, "This is our Virtual Universe Company primal region genius, His majesty Luo Feng.

Luo Feng bowed too, showing respect to his elder while observing his actions. Even though Blood demon emperor had controlled his aura enough not to let Luo Feng feel the pressure, his blood red armor body itself gave off a weak aura, almost like an endless blood ocean.

He wore his helmet, hence making it hard to see his expressions.

"You are Luo Feng?" Blood demon emperor laughed. "True Yan emperor has indeed taught an exceptional student. I heard not long ago you disrupted my blood demon trial in the Wei Li galaxy?"

Luo Feng was stunned, saying, "Yes..."

"Haha, no need to explain."

Blood demon emperor waved his hand, "One galaxy's blood demon trail means nothing. Over a span of trillion years, we've held it in over 10,000 galaxies over and over, losing 1 to even 10 times means nothing." At different levels, one's perspective was different. To Blood demon emperor, 1 to 10 times of the trails was indeed nothing. However to his underlings, every one of them was an extremely important matter, how could they be careless?

"This Blood demon emperor seems straightforward." Luo Feng noticed as he thought, "However, he was forced to capture 21 of his underlings personally, with 2 of them being undying. Anyone with any temper wouldn't be happy about that, he may not care about the blood demon trials, but my disruption of the trial was a slap to his face. If he said he didn't care about my disruption, that would be a lie."

He thought so within.

On the surface, he showed gratitude, "Thank you Blood demon emperor for your understanding."

"Understood, of course I do. You are just working for the Virtual Universe Company, business is business, there are still many things of which you have the power to decide." Blood demon emperor laughed loudly, "Am I right?"

The winged old man interrupted. "His majesty Luo Feng definitely has the power to decide, whether the 21 are sentenced to death or imprisoned, or innocent. It's all up to Luo Feng to decide."

"This old man..."

Luo Feng was getting anxious.

"Luo Feng's power sure isn't small, haha..." Blood demon emperor smiled even wider, looking at Luo Feng.

Over a hundred of the undying that had gathered there looked at Luo Feng, along with the thousands of sector lords.
