

Chapter 1251: was stolen again

She walked over and stood at the door of the kitchen. As expected, the man was wearing an apron and cooking noodles. Her stomach let out a useless cry. How could he be so obedient, he greeted her on time as soon as she arrived, and in such an embarrassing way. Also, could she not be so embarrassed? She walked back with a red face and sat on the sofa. Then, she put her feet up and hugged her legs, waiting for the work inside to be done. She thought that he would not be so kind as to give her another bowl to eat, maybe that bowl was because he did not want to eat it, or it really fell into some kind of rat feces, so he generously rewarded her with food. Otherwise, it would be thrown away. Since it was all thrown away, it was better to pour it for her. So she waited here, waiting for the people in the kitchen to finish their work, and then the kitchen would be hers. However, it had been a long time since she had cooked anything by herself. The superior life had already begun to make her limbs tired, the five grains could not be separated. She did not know if she really could not cook anymore. Even the food she cooked was terrible. While her thoughts were running wild here, a bowl was placed in front of her. She wasn't exaggerating. She was so shocked that she was dumbfounded. She stared at him with her eyes wide open. At this moment, she was like a pitiful puppy that didn't want it. Then, she opened her big aggrieved eyes, it was as if she was being bullied. The more she looked at him, the more pitiful she felt. Lu Yi put down the bowl and went to the kitchen to bring out another bowl. Then, he placed it on the side and began to knock on the notebook. Yan Huan hurriedly picked up the bowl and took the chopsticks before wolfing down the food. MMM, it was still the same as yesterday. It was really delicious. Also, this man's cooking skills were not bad. At the very least, the food he made could be considered delicious, it was not as hard as him to not be able to chew. She was really starving. A bowl of noodles had made her finish the noodle soup, but she was still hungry. She put down the bowl and stared at the other person's bowl of noodles. Meanwhile, Lu Yi was concentrating on his computer. The noodles had been sitting at the side for a long time. Was he not going to eat? He shouldn't be eating. Looking at him, he shouldn't be eating. She took her bowl to the kitchen and washed it before walking out. Lu Yi still maintained his posture. He stroked his forehead with one hand while his other hand tapped on the keyboard from time to time, the bowl of noodles was still sitting there, as though it was about to get cold. Yan Huan didn't leave either. She just stared at the bowl of noodles. Lu Yi lifted his face and saw Yan Huan's slanderous expression. He looked at the bowl he placed at the side and took a bite out of it. However, he noticed a flash of disappointment on her face. As for this noodles, he would eat it himself and not leave any for her. It wasn't that he was stingy, but if he ate too much, he would get bloated. Yan Huan hugged a pillow and stared at Lu Yi. Could he give her a sip of soup? Just one sip, just one sip. Really, just one SIP was enough. However, Lu Yi didn't leave a single mouthful of soup for her. Suddenly, she stood up and wiped her tears as she ran away. What kind of man was this? He was too despicable. He did not even give her a bowl of soup., what she did not know was that at this moment, Lu Yi's lips were overflowing with an indescribable sigh. Yan Huan laid on the bed and made up her mind to ignore Lu Yi in the future. However, she regained her senses after a while. It was as though from the moment she entered the Lu family, she did not bother with him anymore. He kindly gave her a bowl of noodles to eat., however, what did she think of herself as? She thought of herself as Lu Yi's great-aunt and his girlfriend. Also, it was impossible for her to fancy him. He was a man who was as hard as a rock. Of course, it was impossible for Lu Yi to fancy her as well. He only liked Fang Zhu, who was ugly and could not be bitten. Her taste was not that bad. However, after eating that bowl of noodles, her

stomach felt much more comfortable. She touched her stomach and rubbed her face against the blanket in satisfaction. Soon, she fell asleep. She still remembered that the next morning.., she still had to go out and think of a way to earn some money. Recently, the vacancy was getting bigger and bigger. If she did not think of a way to earn money, she would lose all her savings. Early in the morning, she didn't actually feel that she had slept for long. The alarm clock that she had set on her phone had already rung. She took her phone over. It was about six o'clock, so it was about time to set off. When she went out, her assistant had already arrived. It was as if the stars were shining and the moon was shining. The two of them went out together and then went out to take a car. Yan Huan really felt that she had returned to the initial days when she was a minor character with Yi Ling. Back then, she was the same as well. She didn't go out at dawn every day and sometimes, she didn't even come back at night. It was also the same way that she walked out step by step. No matter what, it couldn't be worse than the past. In the past, she was a minor character and no one would recognize her no matter where she went, but now, no matter how outdated she was, she was still a person with her own reputation. Even if her reputation had slipped underground, she still had a familiar face. Today, she was going to answer a washing machine advertisement. Her assistant had just contacted her a few days ago, but she did not know if the shoot would go smoothly. It should go smoothly. The assistant thought about the conversation back then and it had always been very good. She had also repeatedly confirmed whether she would shoot today, whether she could shoot it, and not just once, she asked three times in a row, and only when she received the same answer did she bring Yan Huan over. However, after arriving, the assistant had a very bad feeling, because she had met that Miss Yang Keke again. When Yang Keke saw them, she smiled at them again. That smile was obviously a mockery and also a satire. This time, before the assistant went to look for the staff, the staff had already found them. "I'm sorry, I'm really sorry this time." The staff who received them had a good attitude. "This is our negligence. We didn't expect that the marketing department had already hired another model. Moreover, the divisional manager here has also taken a fancy to her, so you guys came here for nothing." The assistant's face fell. They seemed to have been cut off by someone again. However, she did not understand how this Miss Yang came about. Why was she always trying to poach their corner, stealing their business. wasn't she very popular now? Didn't she queue up for a lot of TV dramas and movies? Didn't she queue up for endorsements? But why was she always trying to steal their business. They finally got it. This is the second time they've gotten it

Chapter 1252: I will return it to you

"Let's go." Yan Huan did not say anything else, because it was useless to say anything. She had already been confirmed. This was the tragedy of a washed-up female star. So what if she found an advertisement to shoot, in the end, it would still be snatched away by others. And in the entertainment industry, people liked to flatter the higher ones and trample on the lower ones. There was no true love here. Even the people who were close to her in the past, when they heard that she was going to make a comeback, they would go as far as they could, who would learn to care about her life and death. Those sisters who were like plastic flowers, brothers who were bad. To put it bluntly, they were cheap goods from a street stall. And now, it seemed that they could only be replaced with one sentence. It was all in vain at that time. Yes, it was all in vain. This time, they had come out for nothing again. They had done nothing and done nothing. And the biggest problem was not that they had not been chosen or that someone had taken advantage of them. These effects were nothing. The biggest problem was that Yan Huan began to deny himself. Sometimes, she wondered if she wanted to return to this circle. If she wanted to return now, if she could return, if she could return to her old self. If she was really this

outdated. In the past, she did not feel anything, and perhaps she did not care too much. But recently, when this outdated phrase appeared in front of her from time to time, she felt really uncomfortable. After all, she had once been famous and famous, after all, she was once the best actress that everyone had ever known. But now, even when she was filming an advertisement, she had started to beg people in a humble manner. Even so, in the end, she was snatched away by others. To her, this was not a small blow. "Miss Yan, in the future, don't accept such roles anymore." The assistant was telling Yan Huan the truth. She really could not accept such a character that destroyed her image. If she continued to accept it, there was no need to say whether they still had a chance.., if they continued to accept it, they might not even have a chance to take the test. In the future, even if others mentioned Yan Huan's name, they might not even know who Yan Huan was. "I got it." Yan Huan also knew that she couldn't continue to shoot such films in the future. If she continued to shoot, she would really be like what the assistant had said. She wasn't outdated, but had completely disappeared, just like many movie stars, when they walked on the streets, no one would recognize them anymore. And everything in their past would be buried with time. It was not easy for a woman to be young. Perhaps in the blink of an eye, she would already be old and yellow, like a cauliflower. This time, she failed again. "Oh right, have you sold the house?" Yan Huan asked her assistant. She did not have much money in her bank account. The money was enough for her to eat and drink for the rest of her life. However, in the past two years.., she had invested in Lu Qin's mother and son, so there was no profit for the time being. There was indeed not much left for her, and there was not much left. She could only sell some things to fill the gap. "Ah, Miss Yan, look at me. If you hadn't told me, I would have forgotten about it." The assistant suddenly thought of something. "I was about to tell you. Aren't the few houses you bought in the past connected together?" "Yes." Yan Huan knew that there were a few houses. This was an investment made by Yi Ling in the past. She said that the location of that place was quite wrong and that it might be demolished in the future, so she bought more at that time. And the assistant was most likely referring to that place. After helping to bury the body, she continued, "Your place is going to be demolished soon, so the people over there have already contacted me. There will be a large amount of demolition fees going into your account. As for how much, we don't know yet, but it's definitely possible to have at least 100 million." When Yan Huan heard this, he finally heaved a sigh of relief. The reason why she was working so hard to accept endorsements was not because of anything else, but because she was running out of money. If she had a certain amount of money, she would be able to make a quick buck. She would not be in such a hurry. As long as she worked hard in the future, her popularity should be able to rise, the most important point was that she could not follow Lu Qin anymore, and she could not accept roles that would ruin her reputation. She definitely could not accept such roles, and even if she did, she could not care about Lu Qin, the screen was filled with awkward acting skills for others. When she came back today, she was not that tired. It might be because she was about to have some money in her account, so she fell asleep not long after she laid down. When she woke up.., it was still midnight. What was going on? Why did she wake up at this time every day? Why was she hungry at this time every day. She wanted to sleep again, but she couldn't sleep. She was so hungry that her stomach was very uncomfortable. She was so hungry that she wanted to cry. No matter what, she would not starve herself. This was the biggest principle in her life, she was not hungry. Even if she became fat in the future, she would not starve herself. She sat up from the bed and put on her slippers. She thought that she would soon learn that it was better to be independent and take care of oneself. Although she also knew that it was not good to eat at night.., but she did not eat much during the day, so there was nothing wrong with wanting to eat now. When she ran out, Lu Yi pushed open the door and walked in.

He put his clothes aside and then took out the notebook in his hand. Yan Huan stood there in a daze, as if he could not speak or ask anything. Lu Yi glanced at her. His eyes were abnormally black. Perhaps it was because of the color of his eyes that Yan Huan did not know what he was thinking. This man's thoughts were extremely hard to guess. Compared to Lu Qin., he was a piece of ice that would not melt for a thousand years, a bottomless abyss that could not be touched for ten thousand years. Lu Yi rolled up his sleeves and walked into the kitchen. In just a short while, the sound of tinkling could be heard from the kitchen. Yan Huan raised her feet. She had originally wanted to leave. She really didn't want to eat the food that she had rubbed together. However, she couldn't help but find it delicious. Although it was just a bowl of noodles, it still had the taste of her mother. Therefore, she had no choice but to stay. I owe you. If I have the chance, I will return it to you. She bit her red lips and hardened her heart. She sat there and didn't want to leave. She wanted to eat noodles. In a short while, Lu Yi had already brought out two bowls of noodles. He placed one of the bowls in front of Yan Huan, and he also had one bowl. Yan Huan actually wanted to say thank you, but she couldn't say it out loud, when she finally mustered up her courage, she realized that the other party seemed to be busy. His fingers were typing something on the computer, and he seemed to be ignorant of the situation outside as well, this included her, the extra person, and the extra bowl of noodles.

Chapter 1253: Strange Things

Yan Huan moved her face in front of her and picked up her chopsticks to eat. She carefully picked up the noodles and also found the poached eggs inside. This time, she was surprised because she had two poached eggs. If she had these two poached eggs, then she would have two bowls of noodles. Moreover, one bowl could make the fragrance of the broth stronger. This feeling was really too good, if she could have one bowl of noodles every day in the future, how good would that be? Of course, she didn't make it herself. She couldn't make it herself, and of course, she wouldn't be able to make it taste like this. She carefully picked up the poached eggs and ate happily. By the time she finished drinking the noodles, her stomach was full, and she wouldn't think about anything else, of course, this included the bowl of noodles that she had saved for Lu Yi. She carried the bowl to the kitchen and washed it clean. When she came out, he was still busy. She wanted to say a few words, such as, "Thank you, I'll go first, I'll go to bed first." She clearly still wanted to say these things, but in the end, her mouth seemed to react faster than her brain. "Are there any more tomorrow?" Just these five words, she blurted them out. And after she finished speaking, she really wanted to slap herself. Yan Huan, do you even know how to speak? Do you even have any sense of shame? For the sake of eating, do you really have no bottom line? However, if she said it out loud, it would be like pouring out water. It was impossible to take it back. No matter how much she tried, it was impossible for her to turn back time and allow those words to be swallowed back by her, chewed and crushed. Lu Yi raised his face. His eyes were dark and gloomy. She could not explain anything in the end. She only felt that this man's eyes were too powerful. She was afraid. She lowered her head and tugged at the corner of her clothes. She was as coy as a little wife, where had the valiant her from before, the one who could say sarcastic things in front of him, and the one who could mock others, gone to. And now, she finally understood what it meant to be short-handed and soft-mouthed. Even though she was short now, in every aspect, she was still extremely short. She did not even dare to say a word. "Mm," the man suddenly said softly. It was as if you were the voice of nature, as wonderful as it could be. Yan Huan also instantly felt the warmth of spring blooming. All the cold winter was over, and the warmth had also come., the Sky was bright, and the sky was bright. It was because of that sentence. There would be a bowl of noodles for her to eat tomorrow. She happily

returned to her room and lay down to sleep. Having a full stomach was a very happy thing to begin with. She really felt that no matter how much money she earned and how good the television was, there were some things.., that she would never be able to get back. Her mother's life, Yi Ling's life. She only wanted a little bit of happiness. She wanted family and care, but she seemed to have forgotten all of these. Had she ever experienced what Lu Qin had given her, she had forgotten all of it. All of her energy was focused on fighting with Qin Xiaoyue. Right now, she was like an ordinary woman. In her life, there was nothing but trivial things. She was married to love, but she seemed to have lost to a mother-in-law. "Huanhuan, Huanhuan..." "Who is it?" She opened her eyes, but there was only a thick white fog in front of her. She couldn't see anyone else, nor could she see herself. "Huanhuan..." "Who is it?" She shouted again, then groped her way forward. Suddenly, her hand touched something. It seemed to be a door. She pushed the door open. The door was tightly shut, and it was impossible to open. She placed her hand on the door handle and gently twisted it, and the door opened. The person who appeared in front of her could not help but stroke her forehead. It was her uncle, and he was taking a bath. However, how did she end up in his place? Furthermore, she was watching him take a bath.., what was there to see about that old man? Even if she wanted to see, she should at least take a look at the young lad. Bi Qiang said that it was Lu Yi. Lu Yi's figure was not bad, and he was also a former soldier, he was also a descendant of an ancient martial arts sect, so he definitely had an extremely good figure. From the lines on his arms, it could be seen that he was not a chicken beheaded for nothing. His body had the masculine and resolute beauty unique to men, it was a pity that he was completely different from a woman. A good cabbage had been eaten by a pig. How ugly would the child that he would give birth to in the future be. The Man in the bathroom was still showering. Actually, she could not see anything because the steam inside had already started to rise, so she could only vaguely see a figure. Yan Huan covered her eyes with her hands. However, she didn't understand why she would appear here. She clearly heard someone calling her name, and that voice seemed to be very familiar. Where had she heard it before, however, she couldn't figure out who it was at that moment? She held the handle of the door again and looked forward. Lu Jin was about to put on his clothes, and this didn't seem to be the Lu residence. So where could it be. At this moment, Lu Jin had wet hair. He was holding the phone and smiling foolishly. "Don't worry. After this business trip, I'll go back. It's going to be your 50th birthday soon. I'll go back before your birthday. Time Flies. I remember you at that time. "You were only 17 or 18 years old, but I liked you the moment I saw you. You were originally your father's child bride to your brother, but I married you just like that. It's been more than 30 years. We're both old..." "I know, I'll definitely go back. There's nothing I can do. I have to go on a business trip." Lu Jin sat there again, and it was like they were talking on the phone. After a long while, Yan Huan leaned on the side. She thought that Lu Jin and Ye Shuyun's lives had not been in vain since they were young, the two of them had never blushed or quarreled. Their lives had been peaceful and smooth. There were a few couples in the world who could truly grow old together. It should be very rare. Her gaze stopped on the huge electronic clock on the opposite side. The time on it did not seem to be right. Suddenly, her eyes seemed to shake. "Little..." Before she could say the word 'heart', she saw the entire room shake. Lu Jin's expression changed as well. He stood up and was about to run out when a cement board fell from the middle, it directly hit his head and turned into a bloody mess. However, his eyes were still open. When another piece fell, it almost flattened his head.

Chapter 1254: pregnant

Suddenly, Yan Huan sat up, covered her mouth and ran to the washroom. She lay on the toilet and almost vomited her own bile. When she thought of the scene she had just seen, she felt nauseous again and retched for a long time. When she came out of the washroom, it was as if she had been fished out of the water, even her legs were dragged forward without any strength. Finally, she moved to the side of the bed and panted heavily. She did not dare to sleep anymore. During the day, she peeked at Lu Jin from time to time. Although Lu Jin did not like to smile, he always gave all the smiles to Ye Shuyun. As for people like them..., they were extra members of the family to begin with. Why would he still smile? She wanted to see if he would give her an extra face. She lowered her head and continued to eat. However, when she recalled the scenes she saw in her dream, she could not help but cover her mouth and run over to the Memorial Hall. Ye Shuyun looked at Yan Huan strangely. "It can't be that she's pregnant, right?" Qin Xiaoyue's face turned black. Pregnant? What was there to be pregnant about? Her son had been away for more than five months. The last time he came back, he didn't touch her. How could he be pregnant? Where did he find this wild man? How many green hats did this woman give her son. Qin Xiaoyue threw her chopsticks on the ground. Her face turned extremely black. "Dad, Mom, I'm back." Lu Yi happened to come back from the outside. He changed his shoes and walked over to sit down. "Sit down and eat," Ye Shuyun quickly greeted her son and asked him to sit down. Then, she personally scooped up a bowl of rice for him. "Thank you, Mom." Lu Yi took the chopsticks and started eating. He didn't touch much of the food on the table. Even the chicken, duck, and fish were all placed there. He didn't touch those things too much, Ye Shuyun and Lu Jin didn't like it too much either. They felt that it was too greasy, so they ate less. And these things usually went into Qin Xiaoyue's stomach. As a result, Qin Xiaoyue had developed laterally in the past few years. But today was strange. Why didn't that person come back to eat? Or did he change his temper and change from eating meat to eating vegetarian. "Mom, aren't they at home?" Lu Yi asked unintentionally. He knew how to eat his own food if he continued eating. No matter who it was, it had nothing to do with him "They were just here." Ye Shuyun looked at the place where the second room was. "Yan Huan seems to be pregnant. Your second aunt went over." "Oh, is that so?" Lu Yi's chopsticks paused slightly. No matter how nonchalant he was eating, it was no wonder. He had eaten so much recently and he even had to eat at night. So he was pregnant. He picked up some vegetables and placed them in his bowl. Somehow, he felt that the rice was a little bitter and tasteless. "Mom, I'm full. I'll go back to work first." Lu Yi put down the bowl, took his things, and returned to his room. Ye Shuyun looked at her son's background and wanted to cry. She did not have the mood to eat anymore, "Lu Qin is still two years younger than Lu Yi. Look, his child is about to be born, but why is there no sign of our Lu Yi?" "What did Fang Zhu Say?" Lu Jin asked Ye Shuyun. Yes, what did he say? They were already dating for two years. Wasn't that enough? "He doesn't seem to be in a rush." Ye Shuyun had a headache about this, "If the man isn't in a hurry, then he'll move. But the woman isn't in a hurry. Both of them are almost 30 years old." "It wasn't a big deal for a man to be over 30 years old. A woman in her 80s could still have children, but a woman was already an old woman in her 30s. Not only would she have children, but even adults would be in danger. Why was she so disobedient? What if she couldn't have children in the future, wouldn't this cause their family line to be cut off. "Let's Wait a little longer." Lu Jin had no other choice, "Young people nowadays are no longer the same as we were back then. They think too much. Moreover, there are many who marry late. As for giving birth, don't you see that the second child is already open? There are still some families in their forties that can give birth. There are still a few years left. There's no rush." "I know." Ye Shuyun actually knew that there were some things that could not be forced, but now she was suffering. If Yan Huan did not suddenly act like this, how could she think so much, wasn't this an imbalance? Wasn't this envy?

Wasn't this just jealousy? It wasn't just a little bit of jealousy, but she was still extremely jealous. But even if she was really jealous, it didn't matter. His son was still not getting married or having children. What was the difference between having a girlfriend and not having one? And at this time, Yan Huan hadn't eaten much and had vomited again. She had vomited since yesterday until now. She didn't even have the strength to vomit anymore. She stood up and rinsed her mouth with cold water. When she came out, she heard that Qin Xiaoyue was on the phone outside. She didn't need to eavesdrop on anything, Qin Xiaoyue's voice was so loud that it seemed like she wanted everyone to know. "Lu Qin, tell me, have you slept with that Yan Huan recently?" This question was very vulgar. Even Lu Qin on the other side was a little difficult to answer. "Mom, why are you asking these questions?" Why would a mother ask these questions? Why did she have to interfere with the bedroom affairs of her son and daughter-in-law? "Can I not ask?" Qin Xiaoyue was furious. Her son had been away for five months, and Yan Huan was still pregnant. It was obvious that he had not been pregnant for two months. She would not believe it if she said that her son had planted the seed. No wonder he had been out a lot recently. He must have gone out to steal a man. If she dared to steal a man for her, she would beat this fickle woman to death. "Tell me, have you slept with her or not?" Qin Xiaoyue's voice was even louder. Even the entire Lu family knew about it. Yan Huan clenched his hands tightly. It was the humiliation of being held in his heart. "Mom, I haven't gone back in five months." Lu Qin said indifferently, "It's because I messed up with her last time. I've always slept in the study. Don't you know that?" "You really didn't?" Qin Xiaoyue asked again. "Yes, no. What Happened?" Lu Qin didn't know what happened either. Why did Qin Xiaoyue suddenly ask about this? "What else could it be?" Qin Xiaoyue was so angry that her face turned green. "Your kind words have given you such a big cuckold. Your belly has been knocked up by others. You are going to be someone else's cheap father!" "What did you say?" Lu Qin obviously did not believe what he had heard.

Chapter 1255: Who's pregnant

"What's wrong with her? What did she do?" "What else can she do?" Qin Xiaoyue said in a bad mood, "She cheated on you. I don't know who's pregnant in her belly." With a bang, the door was pushed open forcefully Yan Huan walked out and stared at Qin Xiaoyue coldly. For some reason, Qin Xiaoyue was frightened by her eyes and couldn't speak anymore. "Who told you that I was pregnant?" Yan Huan asked Qin Xiaoyue calmly. When she was being charged with a crime, could she use her brain more? The medical science in this world was very advanced. All she did was throw up. Could it be that she was pregnant? As for whether she was pregnant or not, he asked her if she was pregnant, did she have a checkup, and whether she was pregnant, she did not even know. How did others find out? And she still had to let them slander her innocence. What did she owe Lu Qin, and what did she owe Qin Xiaoyue. Did she owe them anything? Why did she have to humiliate her like this? Qin Xiaoyue pursed her lips. "You've already vomited so much. Aren't you still swollen? You've done such a disgusting thing, yet you still don't admit it. You're Shameless. Are you still afraid of being slapped in the face?" "Does vomiting mean you're pregnant?" Yan Huan asked Qin Xiaoyue coldly again. Qin Xiaoyue snorted coldly. "This is still not pregnant. Don't deny it just because you're pregnant. What? Do you still want to blame my son for this?" Yan Huan put his hand on his stomach and suddenly smashed it down hard. The phone in Qin Xiaoyue's hand fell to the ground "Sure, didn't you say you have children? I'll beat them out for you." She smashed her stomach hard again. "You can do it too. Let's see if you can beat some children out of them." Qin Xiaoyue stood there with her mouth agape. She was not stupid, but stupid. "Do you have children?" Yan Huan asked her again. "Tell me, do you have children? Where are the children you're

talking about? Where are the Bastards You're talking about?" At this moment, her voice was very loud, and the noise here was not small to begin with. Her voice was so loud that even the eldest brother's family walked over. "What are you doing?" Yan Huan's actions had also frightened Ye Shuyun. How could she hit her stomach? What if she suffered a miscarriage? "First aunt is also wondering if I'm pregnant, right?" Yan Huan asked Ye Shuyun. "Not necessarily. Ye Shuyun is of course very sensible. "It's possible that she ate something bad. When she has a cold or a fever, she sometimes vomits. It doesn't necessarily mean that she's pregnant. Whether it's true or not, she doesn't say it with her mouth. Instead, she needs to go to the hospital for a check-up." "First aunt also knows that she needs to go to the hospital for a check-up before she can confirm it." Yan Huan's smile was very evil as he approached Qin Xiaoyue. However, Qin Xiaoyue was so frightened that she took a step back. It was because Yan Huan's expression was too scary and her gaze was as though she wanted to eat someone up. "However, my mother-in-law couldn't wait to tell her son that I've cuckolded her son. I don't know who's bastard child is in my belly." "Didn't you say that there's a child here?" She hit her belly again and again, "If I can really beat a dead child here, I'll use this child to make soup for you, Mom. Then I'll leave everything behind and get out of here. But what if there's No Child? HMM, Mom..." This sentence of "Mom" was unusually sarcastic. It was so cold and sharp that it made Qin Xiaoyue run out directly as if she had seen a ghost. "Sorry for making a fool of myself, aunt." Yan Huan tidied his hair, picked up Qin Xiaoyue's phone from the ground, and threw it to the side. Ye Shuyun was truly dumbfounded. Her temper was so fierce. When she returned, Lu Jin and Lu Yi were sitting together. She hurriedly walked over and reported the current situation on the front line to the father and son. "You guys don't know, but that Yan Huan's temper is really fierce. Qin Xiaoyue called Lu Qin to say that Yan Huan had a child, and Yan Huan smashed his stomach in front of Qin Xiaoyue. He even said that if he really beat up a dead child, she would cook soup for Qin Xiaoyue. At that time, Qin Xiaoyue looked like she had seen a ghost, and her face was pale." "What's going on? How can you say such things without knowing what's going on?" Lu Jin didn't feel good hearing this. He was a disgrace to the Lu family. He had been righteous all his life, and he couldn't bear to see such unreasonable things. They were here to help the family. Besides, the second brother's family wasn't good. Who didn't know their morals. "That's right." Ye Shuyun said with some anger, "You're spouting nonsense before you've even checked. Your words are harsh and mean. This is because I don't have a daughter. If I really do have a daughter, I'll definitely fight to the death with anyone who dares to do this to my daughter." This second brother's family had indeed gone too far this time. However, this was the first time she knew that Yan Huan wasn't that soft. He could be pinched whenever he wanted. This rabbit would bite if it was anxious, let alone a living person. She could say whatever she wanted. If she were to insult an innocent person, it would be wrong. Yes, she was innocent. Perhaps everyone thought that the people in this circle were very messy. Moreover, Yan Huan was born in a movie, so naturally, her private life would not be clean, in fact, it was not. She was innocent too. Lu Qin was his first man, but now, he was pinned with such a big crime on her. He had cheated on her and even stole a child. This had practically smashed her bottom line. From the beginning to the end, Lu Yi sat at the side and did not say anything. Only his dark eyes seemed to have become even deeper. Yan Huan took the phone. Inside the phone was Lu Qin's number. What was going on? Was he here to make trouble? She placed the phone to her ear. The moment the call was connected, the voice could not be any heavier. It was so cold that it could not be any colder. "Yan Huan, are you pregnant?" "Do you think it's possible?" Yan Huan asked Lu Qin. "How can I be pregnant? You know very well what I was like when I was with you." Was it important for Lu Qin to not speak? Wasn't there still any repair surgery in this world? There was no first time for how many times he wanted it. "I just want

to know if you're pregnant or not." "You can ask your mother. She knows best." Yan Huan hung up the phone and threw the phone to the side. Then, she hugged a pillow and hugged herself tightly. She did not cry. She could not cry either. Moreover, why did she have to cry? She had to laugh. This time, she had to let Qin Xiaoyue remember some things so that she wouldn't push her luck in the future. She wanted to pin everything on her. The next time she did something, the best thing was to use her brain properly.

Chapter 1256 eating and sleeping

There were some things that could be said, but there were some things that could not be said. Although Yan Huan was living under someone else's roof, she did not have what she wanted. Moreover, she did not owe anyone, and she would not be short of food and clothing. She did not have to marry into a wealthy family. She would create a broad path for herself, she did not lack food, clothing, and accommodation. She could totally raise a pretty boy for herself. There was no need for her to suffer such anger and humiliation. Lu Qin called Yan Huan a few times, but Yan Huan's phone was always switched off. He had no choice but to call Qin Xiaoyue. "Mom, tell me, is Yan Huan Pregnant?" When Qin Xiaoyue heard the word 'pregnant', she couldn't help but shiver. Then, her scalp went numb. "Lu Qin, that woman of yours is too scary. You have to be careful in the future. You Don't know..." Qin Xiaoyue told Lu Qin what had happened while crying. She had never seen such a scary woman. If one day she knew that they were using her, they only wanted her money and her things.., but they didn't want her. She didn't know if she would directly chop them to death with a kitchen knife. "Lu Qin, you must be careful in the future. This woman is not to be trifled with." "Mom, I told you not to provoke her too much. Why didn't You Listen?" When Lu Qin heard this, he knew that it was Qin Xiaoyue's doing. He had worked so hard to set up a trap and it was not easy to lure her in. But why did he find such a stupid teammate for himself? If he had known.., he would not have told her anything. Perhaps it would have been better this way. Qin Xiaoyue also did not know. In the past, no matter how much she tormented Yan Huan, Yan Huan would not say anything. But why was it this time? She was so scared that she did not even have the courage to say anything. She hung up the phone. Recently, she did not dare to provoke Yan Huan anymore. It was too scary, really too scary. Yan Huan slept until midnight and woke up again. She touched her stomach. It was not a stomachache, but a stomachache. She was hungry. Her body had always been very healthy, and her resistance was also good, therefore, the thing that she was most satisfied with about herself was her health. In the early years, because she had to earn money, she had mistreated her body. After she became famous, she had always paid great attention to her health, it was only after she had adjusted her body to its current state that she had expended a lot of effort. Recently, she had felt that her body was not as good as before because she had not eaten properly. Especially in the past few days, it had been even worse. Furthermore, ever since she had that kind of terrifying nightmare.., she had thrown up everything she ate. Not only had she not eaten anything in a day, even drinking water made her want to throw up. She was very hungry now, and her stomach was still burning from hunger. She just wanted to eat something sour and spicy, just like the bowl of noodles she ate. It would be best if she could eat two poached eggs. However, how could there be such a good thing in this world that she could eat just because she said so. She was so hungry that her stomach hurt, and she was also sweating all over. She stood up with difficulty and walked out. The lights in the living room were all switched off. She knew that there was no noodles to eat today. She wanted to cook noodles herself, but now she could not even stand up, she could only take a cup and drink the water one mouthful at a time. The more she drank, the more uncomfortable she felt. The cold sweat on her head

also dripped down from time to time. When the door outside opened, a man walked in. When he saw Yan Huan, his brows furrowed slightly. Yan Huan still held the cup and drank the water, but the sweat on his forehead continued to drip down. Lu Yi put down his things and walked over. He was standing in front of her. "I'll send you to the hospital," he said indifferently. He didn't seem to care about her, but the most he cared about was whether she would infect others if she fell sick. or, if she died., it might damage the feng shui here. "No need." Yan Huan hugged the cup and took another sip of water. "I'm not sick." Yes, she wasn't sick. She was very healthy. "Then you?" Lu Yi stared at the sweat on Yan Huan's forehead. Even a fool could see that it was all fake. How could she be fine. "Try not eating for a day. What will you become?" Yan Huan raised her head. Even her words were powerless. A person was like iron, and rice was like steel. If she did not eat for a meal, she would be so hungry that she would panic. Moreover, she had not eaten for a day. This was fine, but the problem was that she was still vomiting. She was not eating, and she was vomiting. How could her expression be good? How could she not be fake? How could she not be sweating? Lu Yi stood there for a while, then turned around and walked into the kitchen. In a short while, he had already brought two bowls of noodles. Yan Huan put down the cup in her arms, climbed over, and picked up her chopsticks to eat, her hands that were holding the chopsticks were practically trembling. She clumsily picked up a bowl of noodles and stuffed it into her mouth. She was really too hungry. Just like that, she finished a bowl of noodles, only then did she feel a little better. She didn't even want to wash the bowls anymore. She lay on the sofa. Her eyelashes flickered and she closed them weakly. She was also asleep, and her forehead was still dripping with cold sweat. Lu Yi took a blanket and covered her with it. Then, he picked up the bowls from the table and washed both bowls before walking out. At this moment, the woman outside was still sleeping on the sofa, however, her complexion was a little better. It seemed that she was no longer sweating. He took his notebook from the side and sat to the side before starting to deal with his work. He only stood up when it was almost dawn outside. The nanny would wake up in a while, and with the nanny around, she would probably., she would be fine. The nanny rubbed her eyes and walked out. When she saw Yan Huan sleeping on the sofa, she was shocked. "Miss Yan, Miss Yan..." The nanny carefully pushed her shoulder. Why was she sleeping here. "Mm." Yan Huan was also woken up. She looked around in a daze. When she saw the nanny's face, she was a little more awake. It turned out that she had fallen asleep here after eating noodles yesterday. She touched the blanket on her body. This blanket was soft and warm. It was fortunate that the temperature here was not too low. Otherwise, she would have really caught a cold. Yan Huan sat up and looked at the table again. There was no longer that bowl. It looked like the bowl had been washed by Lu Yi. And now, she was really a little embarrassed. The dishes were cooked by others, but the bowls were washed by others., then, what was she supposed to do. Only know how to eat and sleep?

Chapter 1257:

She stretched herself and prepared to go back to her room to continue sleeping. Qin Xiaoyue had learned her lesson this time and probably wouldn't dare to provoke her for a few days. Of course, she wouldn't take the initiative to pay attention to her. In the past, it was because she paid too much attention to her that she was always careful and fawning over her. This made her bolder. Did she really think that she was easy to bully, she could bully her however she wanted. She took another nap. Because she ate a meal in the middle of the night, she didn't have to eat that meal in the morning. By noon, she was finally better. Of course, she didn't throw up again. In fact, she was very clear in her heart that she wasn't sick at all. It was a psychological problem. When she walked out again, she was still in

good spirits. Of course, other than being a little hungry, this time it was an accident. Lu Yi had returned, and his master extinction had also come. When master extinction saw her, he had a cold smile on his face. Yan Huan did not understand how she had provoked this woman. Her assistant had analyzed it for her. It was a woman's innate hatred for another woman. It was not because of anything else, it was because she was too beautiful. Now, there were only two young women. They naturally had to compare themselves to each other. Fang Zhu was better than Yan Huan in everything. She was a high-level intellectual, but there was only one thing that she could not compare to Yan Huan. Yan Huan had a good face, however, Fang Zhu's own face was a little too miserable to look at. That was why the assistant said that this was called jealousy. Yan Huan absolutely believed this. This was because more than once, Fang Zhu had clearly said that an inner beauty like her was much better than an idiot with a face but no brain. Yes, Yan Huan did not object to this statement. Not only was her face small, but her waist was also thin. Although she was a bit of an idiot, she was not that stupid. And today, Yan Huan did not have much energy to argue with others. She was too hungry and wanted to eat. After she finished eating, she would go back to sleep. That way, she should be able to recover. Moreover, she had been eating ever since she sat down. No one looked at her, and no one was willing to look at her. Especially Lu Jin. She was afraid that she would see the Lu Jin in her dream, the Lu Jin whose head had been smashed into a bloody mess. She clearly knew that this was a dream, but she could not sit here for long even if she felt uncomfortable. "You're going on a business trip again." Ye Shuyun could not eat anymore. It was all because Lu Jin was going on a business trip again. Every time he went out, he would be gone for a few days. When he returned.., she didn't know when it would be? "Don't worry." Lu Jin smiled at Ye Shuyun and coaxed her. "I'll rush back when it's your birthday." "Ah..." Fang Zhu was also a little surprised. How could she have forgotten about this? "Auntie, your birthday is coming soon?" It seemed that the time was right. Although Fang Zhu wasn't very keen on celebrating birthdays.., however, she had an impression of Ye Shuyun's birthday, but she had forgotten the exact date. Of course, she was smart enough not to ask too much. "Yes." Ye Shuyun thought about the past few years and sighed. "I'm already going to celebrate my 50th birthday." Fifty years old. In fact, she was already getting older. However, Ye Shuyun was a little too young. Moreover, she took good care of herself. She was not like Qin Xiaoyue who only wanted to eat chicken, duck, and fish every day, she always ate lightly and took care of herself. Therefore, she did not change much from a few years ago. She also appeared very young. Although she was said to be fifty years old, in fact, at a glance.., she looked like she was only forty years old. Of course, it was the same for Lu Jin. When a pair like them walked out, they were indeed very pleasing to the eye. They looked beautiful and young, and then elegant and old. "By the way, where is uncle going on a business trip?" Fang Zhu asked Lu Jin again. "It's not far. There's a meeting in Ning city for a few days." Lu Jin smiled and said tiredly, "Yes, it's just a few days. I'll leave the day after tomorrow. I'll be back in about five days." They were still chatting there. They were indeed a family. Yan Huan just listened. She only listened but would not ask, and she would not interrupt. To put it bluntly, she was actually an outsider. If she was an outsider.., she could not care less about her family's matters. After she finished eating, she stood up and went back to rest. Qin Xiaoyue probably did not want to see her face, so she went out to play cards with her friends. This was also good. It also made her ears quieter. "Miss Yan, we are going out the day after tomorrow. We are going to He Yang's place. There are a few sets of photos to be taken." The moment the assistant received the notification, she came over to inform Yan Huan. "He Yang, I got it." Yan Huan hung up the phone. In fact, she was still thinking about the dream. In fact, she was very clear that the things in the dream were ultimately unreal. However, she did not know where the feeling came from. However, she was really uneasy from time to time. If it was in the past, it

had nothing to do with her. However, this time, it could be considered as repaying the favor of that man for every bowl of noodles he cooked for her. Whether it was true or not, whether it would happen or not, no matter what, she had to give it a try. At most, people would say that she was meddling or pretentious. In any case, in the past two years, she had already done many more things, she had been pretentious too many times. It would not be one more time, and of course, it would not be one less time. At worst, she would be hated again. She did not care. That night, she did not go out, nor did she go out to eat noodles. She bit on the blanket. Her stomach was clearly hurting from hunger, but she did not go out again. She could not have such a habit. If it really became a habit, something bad would happen, she could fall for anything, but she could not fall for such a fall, and she could not afford it either. She also began to pack up her luggage. There was not much luggage, only a few pieces. She had to go there for about three days, which was about the same time as Lu Jin's. In her mind, there was a row of numbers. It was that day. Perhaps she couldn't explain anything to others, but it was true. This was how she felt. This was a feeling that she deeply believed in. If one were to ask her the reason, she could only say, "I'm sorry, I don't know..." And she really didn't know. When they boarded the plane, they had already arrived at He Yang's side ahead of schedule. "Miss Yan, do you think we'll meet that Miss Yang again?" The assistant was scared. They had two consecutive advertisements, but in the end, they were all snatched away by that Miss Yang Keke. There were also quite a number of people who might have had a hard time choosing their words, but in the end, they were all in the hands of that Miss Yang. Where did they get into a conflict with that Miss Yang?

Chapter 1258: she had sacrificed so much

She could be seen everywhere, and seeing her meant that nothing good was going to happen. "It can't be that coincidental, right?" Yan Huan propped up her face on the chair and closed her eyes to rest. "My Luck has always been good. It's impossible for me to be unlucky wherever I go." "That's true." The assistant nodded and agreed with Yan Huan's words. Yan Huan's luck was indeed very good. Otherwise, she wouldn't have become famous so early and become famous so quickly, even the best actress had been snatched away by her. If it weren't for the fact that she didn't manage her business well in the past two years, who knew what her future would be like and how high she would reach. Therefore, such a person would definitely not continue to be unlucky. However, when it came to luck, the assistant was worried again. Perhaps Yan Huan had become famous too quickly because he had been too successful in the past few years, and she had used up all her good luck, that was why she was being ostracized by others everywhere. It was also because everything was not going well. Of course, she wanted the first one, not the second one. When they arrived at the airport, the assistant's heart had always been uneasy and unsafe. She was afraid that she would really run into that Demon God again. At that time, she would take away their hard-earned opportunity. The two of them first found a hotel to stay in. At night, they had a good meal and then had a good sleep. By the next day, their spirits were almost fully recovered. This time, they were going to shoot the cover of the magazine. Yan Huan had always shot such side-covers in the past, so it wasn't difficult for her. They got up early. However, perhaps the heavens had deliberately gone against them. What they feared the most would come. When they arrived, they met Miss Yang again. When Miss Yang saw them, she still had a standard smile on her face. The smiling assistant was filled with anger. How could they be so unlucky to meet her again. Yan Huan could only smile at this. Otherwise, what else could she do? If it was in the past, she would have already left. But now, she was under the roof and had no choice but to lower her head. Fortunately, this time was not like the previous two times. With Miss Yang, they would want her. She was still around and she could

still film. However, in the end, she still had to compete with Yang Keke. Whoever won, this cover would belong to whoever, however, whoever lost would only be able to appear at the corners of those pits. Makeup and styling. No matter which step she took, it was as if she was competing in beauty. Yang Keke was naturally very confident in her appearance. Of course, she also knew Yan Huan. He could be considered her senior, but no matter how senior he was., now, he was outdated. She, Yang Keke, was now a popular movie star. Although many people thought of her as Yan Huan's next successor, she did not want such a successor, it was only because Yan Huan was not qualified. What she wanted to do was to surpass her, and then develop to the next level. Of course, she also thought that she was much prettier than Yan Huan. Otherwise, she would not have been able to snatch away so many opportunities. and the war between the two of them was naturally won by her, Yang Keke. On the other hand, Yan Huan was only seriously taking pictures of himself. Regardless of whether or not he could choose her in the future, at the very least, she had to have her own professional ethics. She would take good photos every time and follow the photographer's requirements. As for her performance, judging from the photographer's expression, she should be quite satisfied. She took about two shots here and was almost done with them. However, she felt that Yang Keke was more popular than she was because Yang Keke wanted to take more photos than her, and she also had a lot of clothes. It would be a lie to say that Yan Huan did not suffer a blow. She was not so indifferent to it. It could only be said that her first wave had indeed been killed by the shots. At night, Yan Huan deliberately hid his things. Originally, they were going to take a plane to leave, but they could not find their things. There was a wallet, a bank card, and some very expensive jewelry, these weren't small things, so when they couldn't find them, they immediately called the police. But after searching for a long time, they still couldn't find them. "Ask my uncle to come over. He's close." Yan Huan directly told her assistant, when her assistant saw Yan Huan like this, she actually wanted to cry. She thought that Miss Yan had changed, but now, what exactly had changed? There was no change at all. They could settle these matters by themselves. Why did they have to let Lu Jin in? Indeed, it would be better if Lu Jin came in, because it would be much easier. But Lu Jin was on a business trip, he wasn't here for fun., couldn't they just have a proper meeting? Why did they have to let him come over. "You go and settle it. Anyway, let me come backstage. I'm going to sleep for a while." Yan Huan waved her hand and went into the hotel to sleep. When she went in, she immediately took out a bottle of medicine. One bottle was vitamin C, and the other bottle was sleeping pills. Sometimes, when she was filming, if she was overly nervous, she would suffer from severe insomnia, therefore, she would take a few sleeping pills. However, she had not taken these pills for a long time. Look at how much I have sacrificed for you. This is worth it. You must have paid for a month's worth of noodles. She poured out some pills from it. All of them were stuffed into her mouth. The amount was quite safe. It would not kill her. The assistant had already called Lu Jin, but Lu Jin wanted to prepare for a meeting. He could not come to he yang at all, so he refused. "Miss Yan, Mr. Lu isn't coming over."The assistant knocked on Yan Huan's door. Since he wasn't coming, they couldn't possibly capture him. Even if they wanted to capture him, they had to do it locally. How far away was that. "Miss Yan,"the assistant knocked on the door again. But Yan Huan still didn't open the door, and there was no movement inside. "Miss Yan..."the assistant knocked on the door again. "Could she have fallen asleep?" The assistant thought for a moment. She was going to leave anyway, but she felt that the lost item was indeed quite valuable. She had to discuss it with Yan Huan again. Otherwise, they would not even be able to buy a plane ticket, if they could not buy a plane ticket, they would not be able to go home. Miss Yan, she knocked on the door again, but there was still no reply from inside. Could it be that she was not there? But it couldn't be. She had clearly seen Yan Huan enter. She couldn't have jumped

off the building, right. She patted her forehead, dispelling these strange thoughts. She waited for a long time, but Yan Huan was still unwilling to open the door. Moreover, there wasn't even any movement inside. She could only find someone from the hotel to open the door. When the door opened, she felt that something was strange. Yan Huan was clearly asleep, but why was she knocking on the door so loudly, she could not hear it no matter what.

Chapter 1259: My Miss Yan committed suicide

"Miss Yan?" The assistant walked over and gently shook Yan Huan, Yan Huan did not move. "Miss Yan, wake up." The assistant shook Yan Huan again. Suddenly, she noticed that there was a bottle of medicine on the table. Why was this medicine so familiar? She grabbed the bottle in one go, she almost burst into tears. "What should we do? Miss Yan has committed suicide." What should we do? What should we do? Oh right, look for Mr. Lu. Yan Huan had said that if there was anything, she would look for Mr. Lu. The assistant quickly called Lu Jin to come over. Lu Jin was getting impatient. "Didn't I already say that I have a meeting right now? If there's anything, let her solve it herself. Also, since she has already called the police, the police will naturally take care of it." Even if he went, he had to follow the procedure, "Could it be that if he went, he would be able to find her immediately?" The assistant didn't finish his sentence at first and then started crying. This made Lu Jin's head hurt. What was she crying for? He didn't scold her. What was she crying for? He was the one who wanted to cry, Alright? He couldn't even find peace when he was on a business trip. One moment, he was busy, and the next moment, she was busy., and the next moment, she was crying again. "Mr. Lu," the assistant cried again. "Come quickly. If you don't come, My Miss Yan will take sleeping pills and commit suicide. We don't have documents and we don't have money." The phone in Lu Jin's hand slipped out of his hand and fell to the ground. What was going on? He had nothing to do with that Yan Huan. Should he go or not? Why would she commit suicide? Was there something wrong with her? Regardless of whether there was something wrong with Yan Huan or not, it seemed that he really had to go. Otherwise, he might not even be able to stay in the hospital. In the end, he really had no choice but to pack up his luggage and return home to his family. He Yang was still quite some time away from here, which meant that he was in another province. He arrived early the next morning and was worn out from the journey. Of course, he did not look too good either. If it was his family, he would have come no matter what. But what kind of family was Yan Huan? Did Second Brother's family have anything to do with him? But he still came in the end. Why. Second Brother's family. No matter what, they were still his younger brother's family. Now that Lu Jin was no longer around, as his eldest brother, he had to take care of them, so that Qin Xiaoyue would not say anything in front of him again. Orphans and widowed mothers. What orphans and widowed mothers. They ate better than the people in their family every day, and spent more than the people in their family. They served the fish and meat, lived in the house, and were served by the servants. How could they live a bad life. Why were they all so troublesome? They all complained that their family was living too well, right. Even when he went on a business trip, he could not find peace. "How is it?" He asked his assistant. The assistant only sobbed, and his eyes looked at Lu Jin as if he wanted Lu Jin to scold him. What did this have to do with him? It was just that he had lost something. If he did not come over, he would make Lu Jin commit suicide. Wasn't this life a little too worthless. Since the assistant could not find out, he could only ask the doctor. The Doctor said that it was fine and that he did not eat too much. Now that his stomach had been pumped, he would be fine after resting for a few days. As for when he would wake up, he did not know yet, however, it should be soon. Since he was here, it was impossible for Lu Jin to leave. He could only apply for leave first to see if he could still make it in time for the

ceremony. Of course, he still had to help Yan Huan look for things. When he went to the police station, his identity was naturally there. Not mentioning anything else, he had to find these things. However, just as they were preparing to look for these things, there was news from the hotel. It said that when they were tidying up the room, they found a bag, there was Yan Huan's ID card and some other things inside. Lu Jin was so angry that he had no choice. If it was anyone else, he would have turned around and left. But now that Yan Huan was half-dead, he really wanted to strangle her to death. He didn't want this woman to harm his family again. Yan Huan woke up in the afternoon. The moment she opened her eyes, she saw Lu Jin standing there. His eyes were almost piercing through her. Only then did Yan Huan heave a sigh of relief. This was the most dangerous move she had made, and also the safest one. She knew her assistant well, and she was even younger than her by one year. She was usually very steady, and of course, she was thick-skinned enough, however, the only bad thing was that her mental endurance was a little bad. It was fine when she was fine, but if something happened, she would be at a loss and throw herself at the doctor. At that time, Lu Jin was her only hope. Therefore, she would find Lu Jin. There was a 100% chance that she would find him. Moreover, she had already said it many times, and it was unconsciously instilled in her. As long as her uncle was here, she could find anything that was lost. As long as her uncle was here, what was there to be afraid of? As long as her uncle was here, she could do whatever she wanted. To her, they could do whatever they wanted, or they could even carry her in. "Miss Yan, how are you?" When the assistant saw that Yan Huan had woken up, she hurriedly ran over. She was afraid that there was nothing wrong with Yan Huan. Although the Doctor had already said many times that she was fine, she was definitely fine, however, the assistant was still worried. If something really happened to Yan Huan, what would she do? "Nothing." Yan Huan blinked her eyes. "Also, how did I Get Here?" She pretended to be confused. "Didn't I sleep in the hotel?" "What sleep?" The assistant raised her face, tears and snot flowing down her face. "Miss Yan, why did you commit suicide?" "Suicide?" Yan Huan frowned. "Why did I commit suicide?" "Yeah, why did you kill yourself?" The assistant asked her again. "Even if Mr. Lu didn't help you, you didn't have to kill yourself." "I didn't kill myself," Yan Huan was really innocent. "If you didn't kill yourself, then why did you take so many sleeping pills?" The assistant's voice became shrill. "When did I take sleeping pills?" Yan Huan pressed her forehead. "I clearly took a vitamin pill. Recently, I was a little angry, so I thought of taking a few more..." "But you took the sleeping pills!" The assistant buried her head in the hospital bed and cried again. She had seen stupid people before, but how could they be so stupid? These vitamins and sleeping pills clearly did not taste the same, okay. One tasted like fruit, and the other tasted bitter. Fortunately, she had discovered it early. If she had discovered it later, they might really have to collect Yan Huan's body. Yan Huan raised his head and looked at the electronic clock hanging on the wall. In her heart, she was also counting the seconds. Ever since she woke up, she had been paying attention to the time. It seemed like it was about to arrive. The number that she remembered the most was this one. Almost all of them were accurate to the second.

Chapter 1260: he was fine

She could still hear her assistant crying in her ear, but she didn't know what she was crying about. Wasn't she alive and well? There was no need for her to go to the funeral. The Way Lu Jin looked at her was never very friendly. She didn't care. There was no such thing as friendship for no reason in this world. She wasn't someone who belonged to Lu Jin. She wasn't his daughter, nor was she his daughter-in-law. She was nothing, so it was understandable that he would treat her like this, otherwise, what else could she do? He was in a good meeting, and she had dragged him into it. She had helped her

investigate things, and she had made him stare at her. Presumably, no one was willing, and no one would be happy. And Lu Jin was already quite a tolerant person. He did not curse at her, nor did he directly leave with a flick of his sleeve. The electronic watch hanging on the wall was still walking, minute by minute. Ten, nine, eight, seven.. She counted in her heart bit by bit. Just as her last second fell, she closed her eyes, and then she felt a violent tremor. Even though they were so far away, it was still the same. All of them were stunned, they were also stunned. Not Good, an earthquake. Lu Jin was the first to wake up. He hurriedly ran over and carried Yan Huan on his back. He turned around and shouted at his assistant, "What are you still standing there for? Hurry up and leave." Only then did his assistant react. They were practically rolling and crawling as they ran. However, none of them noticed that the thing that Yan Huan was holding was her lost bag. The assistant had been holding it in her hand the whole time, in the end, when the earthquake struck, she threw everything away. She only wanted to run away, but Yan Huan wasn't. There were quite a lot of good things inside. She had to take them with her. What if she lost them? A few people hurriedly ran out. At this moment, there were also quite a number of people running outside. There were doctors, patients, family members, and those who had lost an arm or a leg, now, each of them was more ruthless than the last. Each of them was stronger than the last, and each of them could run better than the last. At this moment, there was a little doll sitting on the rest, crying loudly. Lu Jin stopped. which parent did this? were they all afraid of death and didn't want a child? The assistant bit him and finally ran back to pick up the crying child. Only then did Lu Jin start to run outside with Yan Huan on his back. At this moment, the ground seemed to be shaking. Even the road was shaking. They could not stand still. When they ran out, there were already many people standing outside. Everyone looked panicked and uneasy, they were also worried about their families. Many people wanted to use their phones to call their families, but they realized that their phones suddenly had no signal. Lu Jin put Yan Huan down as soon as he saw the thing in Yan Huan's hand, the corners of his eyes couldn't help but Twitch. Just how greedy was he? He couldn't even save his life, yet he still wanted to take these things. Yan Huan hugged the bag in her arms. In fact, she was also worried. She only knew that there was an earthquake there. It was so serious that it was the epicenter of the earthquake. That was why she found this place. Could it be that this place was also the epicenter of the earthquake? It seemed like the ground was still shaking. She hugged the bag in her arms tightly.., why was she shaking until she wanted to throw up. After a while, everything seemed to have quieted down. However, no one dared to move, because they did not know what would happen in a while. They did not know if it was going to shake or shake again. However, after she stopped shaking, Yan Huan heaved a sigh of relief. It should have been in the past, and now that the information was very advanced, they should be able to find out where the epicenter was very soon, right? She opened her bag and took out her phone. "You..."Lu Jin coughed. It seemed like he couldn't say it out loud. Yan Huan placed her phone in front of Lu Jin. If it wasn't for the phone inside, she wouldn't have brought it out. With the phone, she could know a lot of things. "Thank you."Lu Jin took the phone, but there was still no signal. Meanwhile, at the Lu family home, Ye Shuyun looked at the scene on the TV in a daze. She was scared silly. "Lu Yi, your father is in that Hotel?"She pointed at the TV and almost went hysterical, "Your father called me yesterday and told me that he was staying in that hotel. The hotel was in the epicenter of the earthquake. A few floors of the hotel collapsed just like that. Then, what about the people living in it? Is it possible for them to escape?" "I think they are dead,"Qin Xiaoyue said sarcastically. It would be clean even if they were dead. It would be better if everyone killed their husbands. "Get lost!"Ye Shuyun took a cup from the table and threw it at her. "Qin Xiaoyue, if I Hear You Curse My Lu Jin again, I will not let you go." The cup fell right next to Qin Xiaoyue's feet, giving her a big fright. But her mouth was still full of

dirty words. So what if she was dead? was she not allowed to speak. Ye Shuyun was on the verge of breaking down. At this moment, the phone on the side rang. Lu Yi took the phone and placed it by his ear. His brows were tightly knitted. When he heard the voice, his throat moved. "Mom," Lu Yi placed the phone beside ye Shuyun's ear. "My Dad's... phone. He's fine." Ye Shuyun quickly took the phone. Qin Xiaoyue pursed her lips and her expression turned extremely ugly. "Lu Jin, Lu Jin, is it you? Is it you? You're still alive, aren't you? The hotel you stayed in collapsed. Where do you think you are? Are you hurt? Did you say where you're hurt..." Lu Jin hung up the phone, and his forehead was covered in cold sweat. At this moment, Yan Huan was still holding the little doll in her arms, teasing him. The Little Doll opened its Big Black Eyes and pouted at first, but soon, it broke into a smile. Lu Jin walked over, squatted down, and returned the phone to Yan Huan. "Thank you." He said this with a straight face, yan Huan looked at him strangely. "It's alright." She took her phone back. "It's just a few cents. It's not worth much." Lu Jin did not say anything either. However, when he looked at Yan Huan Now, there was actually a more pleasant expression on his face. Although it could be said that he came unwillingly because he was forced to, it had to be said that Yan Huan had saved his life. As for the few people who had gone with him, almost all of them had met with misfortune. If he had been there, he would definitely have died. At that time, he would only be able to leave his old wife alone. How could he bear to do so, he had even said that he would accompany her on her birthday.
