

**Chapter 1371: was signed by someone**

After she returned from filming the advertisement, she fell ill again. She was so sick that she could hardly get up. She also did not like to go to the hospital, so the Doctor would come over every day. However, whenever he came over and saw Yan Huan like this, he would have a headache.

“Miss Yan, you have to eat properly. Don’t think too much. Everything will pass eventually.”

The doctor advised Yan Huan. Her body had not recovered and she had received a lot of injections, but there was still no improvement. Her face was still as pale as a ghost. It was obvious that it had nothing to do with the medication.

This was her own psychological problem.

Yan Huan lowered her head and tightened her grip on the phone on her lap. Then, she softly said something that no one knew what she was saying.

It was as if she was thanking him.

The doctor gave Yan Huan another bottle of medicine. However, he really could not continue beating her up. If he continued beating her up, his body would become weak. Furthermore, the back of her new hand was already bruised. There were almost no needles in it.

When the assistant came in, how could she not feel uncomfortable when she saw Yan Huan Like This?

“Recently, is there a company that wants to sign a contract with me?”

Yan Huan asked her assistant. She thought that it should be. In her previous company, she was the company’s cash cow. However, because she wanted to be with Lu Qin later on, she forcefully terminated the contract with the company, she also paid a lot of penalty fees and even got the company to sue her. At that time, her reputation could not be any worse. In addition, after she left, she took on a few bad movies and bad roles, in order to accentuate Lu Qin’s handsomeness, she had blackened her own character.

She had even wanted to go to Lu Qin’s company, which was Tian Yu. However, she was no longer the actress who could call the wind and summon the rain in the entertainment industry. She had become a second-rate or even third-rate actress, no matter how big the IP address was or how good the company was, it could not save her already terrible reputation. Even the small company that Lu Qin was in could not see her. At that time, even if she had paid for it, they would not have wanted her, so, she could only rely on her connections in private and find reasons to force her way to Lu Qin’s production team. She accepted those films that most people wouldn’t even bother with to tarnish her reputation. In the end, she was tarnished, no one wanted her to film anymore.

Now, she had finally cleared her name, right?

“Yes, Miss Yan.”The assistant was also happy to talk about this. I received a call from Yue Lun, “He said that he wants to sign a contract with you. Moreover, the conditions are very good and he has the freedom to work. Whatever film Miss Yan wants to shoot, it will be up to you.”

At this point, the assistant's face lit up. Not long ago, when she was with Yan Huan, she had been downcast. Now, she was lifting her head and puffing out her chest.

"Miss Yan, you don't know. I have already put a lot of pressure on my endorsements. There are also quite a number of domestic and foreign big name advertisements. They are all lined up for you. As long as you want to shoot, we will have many films to shoot immediately. There are also many big dramas waiting for you. I believe that as long as you continue to work hard, you will definitely become famous again."

Yan Huan gently propped up his face. When he raised his head, it was the smile of his assistant. His eyes, which had not been very confident all this while, also curved up. His face was filled with excitement, and he could not find his bearings.

Yan Huan recalled the time when Yi Ling was around. At that time, her matters had started very quickly. By the time she was 23 years old, she had already received the most endorsements and resources. The amount of money she earned every year was countless, at that time, Yi Ling also had the same expression.

However, she never thought that Yi Ling would use such a method to end her life,

from then on, Jiayi accompanied her. Jiayi was brought up by Yi Ling. Even when she was at her most down and hateful, she never left her. She thought that if Yi Ling was around, she would also be like this.

Who in the world would not abandon her?

Only her absent mother, Yi Ling, and Jiayi could do that.

"Where do you want me to sign?" Yan Huan asked his assistant. In his hazy vision, the mist seemed to rise and fall again.

"I want to..." the assistant thought for a moment, "Miss Yan, what do you think of Yue Lun? Yue Lun gave us the best conditions and gave us absolute freedom. The artists under Yue Lun also have sufficient resources to use."

"And..." the assistant lowered his voice again. "Apart from Yue Lun, there's another one. That is, Tian Yu entertainment seems to have the same meaning." and Tian Yu Entertainment was not any other place, it was the entertainment company that Lu Qin was currently in. It was the same company that Yan Huan had racked his brains and even shamelessly wanted to join.

At that time, they were afraid that Yan Huan's negative reputation would implicate the entire company, so they did not fancy her. However, no one had expected that one day, Yan Huan would actually be able to make a comeback with just an advertisement, moreover, there was a possibility of him becoming a big hit.

The thing that the current assistant was most worried about was that Yan Huan would once again abandon his future for Lu Qin. In the end, he would still sign with that Tian Yu Entertainment as a stepping stone for Lu Qin. This was something that she did not want to see at all, she absolutely did not want Yan Huan to be with Lu Qin again. In the end, the one who would be ruined would be Yan Huan himself.

However, Yan Huan was obsessed with Lu Qin. She was afraid.

The assistant saw that Yan Huan did not speak and was anxious. He would not really sign with Tian Yu, right.

“Miss Yan, which company are you going to sign?”

“I...”Yan Huan gently touched her red lips. “I don’t want to sign with any company right now.”

“No?”The assistant was a little disappointed, but it was better than signing with Tian Yu.

In any case, as long as she didn’t sign with Tian Yu, there was still a chance to drag Yan Huan onto the right path.

Of course, Yan Huan didn’t know what the assistant was thinking. She only gently touched her phone, but she hadn’t opened it for a long time. No one had called her, and few people knew her private number. At the very least., lu Qin knew, Qin Xiaoyue knew, but they had never called. It did not matter if she was alive or dead.

So look at her. She was living a failure.

And since her assistant knew that she was not going to sign anything with the company, she did not mention anything in front of her anymore.

Yan Huan listened to her assistant talk about her future arrangements. She did not have any objections. Whatever she did was good, and whatever she filmed was fine. In the end, she still needed to work, and she still needed to live in this world.

However, she had to admit that this advertisement had been filmed correctly, and her popularity seemed to have recovered a little. However, she did not see how happy she was.

She placed her hand on her forehead, and it still seemed to be a little hot.

When her assistant went out, she also repeatedly reminded her to stay here and not go out.

It was already winter in Haishi, and in winter, it was very cold

### **Chapter 1372: was about to get married**

And winter was a weather that made people somewhat fearful. In the winter of Hai City, there would always be a northern wind blowing. It was not the dry and cold weather in the north. The wind in hai city would always carry some moisture, and this moisture was added to the wind, in winter, it could be said that it was a kind of torture to people.

A door opened, and the heating inside also came in. A woman who had wrapped her entire body into a black brique walked in. In winter, there were many colors, and this black., in this bleak landscape, other than being able to withstand dirt, it seemed to be of no use.

Especially when her skin was a little darker yellow. She did not look like a westerner, but an old woman. To be honest, wearing this black looked like she had aged a few years.

“Fang Zhu, you’re here.”

“Take a seat.” A woman stood up and waved at the woman who had dressed herself up like a briquette. Black coal ball walked over slowly and took off her coat as well. What was left inside was a row of black clothes.

“Why are you wearing this coat again?”

The woman pursed her lips. She did not like her friend’s style of dressing,

“It’s not like Lu Yi doesn’t have money. He will buy you whatever you want. He gave you a car. Buying these clothes is nothing.”

“Look at your clothes. It looks like you’ve been wearing them for three years.”

“Who wears clothes for three years now? Women have always liked new clothes and hated the old. How is that like you?” The woman who spoke picked up the goblet on the table, her hands had been maintained and her nails had been done to look exquisite. The color of her nails was slightly eye-piercing. The clothes she was wearing were bright and youthful, in addition, she had dyed her hair a light gray color. Even in a fashionable city like Hai City, one could still smell the charm and beauty on her body.

On the other hand, Dust Ball, who was opposite her, had dressed herself up like an extermination mistress. Her looks and clothes could only be described as below average.

“No, I didn’t.” Fang Zhu tidied up her coat again. “I just bought this.”

“Just bought it?” The woman almost cried out in surprise. “You said...” she stretched out her well-maintained finger and pointed at the black clothes. “Did you just buy it?”

“Yes.” Fang Zhu did not feel that it was strange. “I just bought it last month.”

The woman rubbed her forehead. “Don’t tell me that in the past three years, you’ve been buying a uniform of the same style and color every year?”

“Yeah.” Fang Zhu nodded. “Isn’t that normal?” She pushed up her glasses, “Every year, our school gives out uniforms like this. We’re used to it, and everyone is used to it.”

Moreover, she didn’t feel that there was anything wrong with the clothes. In her opinion, the clothes were the most suitable. In school, it was natural to wear something solemn. However, with her solemn personality..., she was also a teacher. How could she let herself wear colorful clothes? Moreover, she liked the clothes very much. If it was something else, she might have to get used to it for a while.

“I really don’t know how your family’s Lu Yi tolerated you.”

The woman on the opposite side stroked her forehead again. This was truly an incomprehensible woman. Such a strange woman and an even more strange man. That man was already famous in Hai City, but in the end, he actually ended up with Fang Zhu. In her opinion, as long as that man was willing, he would be willing to be a small celebrity, a young model, a small Internet celebrity, a university student, or a high school student.

However, he ended up being eaten by a tasteless woman like Fang Zhu.

A good cabbage was finally eaten by a pig.

Although she said that she was Fang Zhu's good friend, some of these words were the truth.

No matter where Fang Zhu was, he wasn't good enough for that man. However, he was about to get married now.

"Oh right, when are you guys going to get married?"

The woman combed her hair and raised her cup to ask. Her mind was trying hard to imagine how the two of them would not match if they were to stand together.

One of them was so accomplished, tall, handsome, capable, and outstanding. He was a typical tall, rich, and handsome man.

As for Fang Zhu, Grand Master extinction.

Other than having a high education background, the two of them were not good enough for each other.

"Let's wait until he recovers." Fang Zhu's eyes flashed, but no one noticed it.

"But she's really good to you."

The woman across from him put down her cup. She had to admit that she was actually a little jealous. How could she not be jealous. How could she not be jealous? She was also well-off, so she could sacrifice her life to save her woman

Why had she never met such a man before? Instead, she let this Fang Zhu take such a huge advantage.

He was pretty good to me. Fang Zhu brought the cup to her lips, but of course, she didn't miss the envy and jealousy in her good friend's eyes.

She took out her phone from her bag.

"Sorry, I'm going to make a call."

"Sure." The woman smiled, but her eyes were on Fang Zhu the whole time. She wanted to hear who Fang Zhu was calling. If his guess was right, who else could it be but Lu Yi, yes, it must be Lu Yi.

Every time they were chatting, Fang Zhu would always receive a call from Lu Yi. Otherwise, she would really think that they were going to break up.

Fang Zhu walked to the side and brought the phone to her ear. However, there was still no expression on her face. Perhaps it was because she had taught for too long, so.., it was also because she had fixed this expression on her face, so even she was used to it. When facing anyone, she would use the same expression.

"Mm, I'm having tea with Qiowen."

"You say you want to take wedding photos. You decide. I'll listen to you."

"How do you want to write the wedding post? Leave it to me."

“Why are you in such a hurry?” She frowned again. “Didn’t you say that it would be a few more months? Aren’t you just injured? Let’s talk about it when your injuries are better.”

“Mm.” Fang Zhu seemed to be listening to the voice over there seriously.

Then, she sighed softly. “Alright, it’s up to you. If he Yibin says that your body is fine, then we’ll go take wedding photos first.”

“En, that’s it. When I go back, I’ll look for you again.”

Fang Zhu hung up the phone. When she turned around, she saw her good friend’s half-smile.

She walked over again and raised her cup with both hands.

### **Chapter 1373: the Scumbag Man and Scumbag woman**

“Why, is it Lu Yi’s phone?” The woman gently raised her red lips. “I’ve never seen the two of you have such a good relationship.”

Fang Zhu smiled. Why was this smile hanging on her face? It was a bit of a fake smile.

“After being together for a long time, there will always be feelings. We are a match made in heaven.”

“I also feel that we are a match made in heaven.”

The woman took the cup in her hand forward.

“Come, here’s to your match made in Heaven.”

“Thank you.” Fang Zhu took the cup and lightly clinked it with the woman.

The sound of clinking the cup was like a musical note that landed on a table. There was only one woman sitting at the table. She had very long straight hair that had not been dyed in any color, it was also very smooth. It also fell down gently and easily had a gentle arc.

There was also a red phone on the table. It was not the latest model, but an old model that had been available only last year. Last year, it was very difficult to buy. Of course, it was also very expensive, but it was also being replaced by new and old models, it was eliminated.

After Fang Zhu and her friend left, the long-haired woman sitting on the table reached out and took her mobile phone. Then, she clenched it tightly.

The light that came in from the window finally fell on her body, adding a bit of a hazy color. The woman raised her face. It was a very beautiful face, but at this moment, it was as pale as snow, dyed with frost, it was also soaked in snow.

As expected, she was going to get married, right?

He was still lying to her.

She stood up, but her head suddenly felt dizzy. She hurriedly placed her hand under the wall and waited for this dizziness to pass,

she wanted to vomit, but she was also very dizzy.

She could only sit down again. Both of her hands were holding the cup that had already been filled with ice bells. However, her expression did not change for the better in the end. It was still white, and there was still no color in it.

As her eyes fell, cold snow began to fall.

One by one, it was crystal clear.

She opened the door of her apartment and walked in. The moment the door closed, she hurriedly covered her chest and ran into the bathroom at the side. She began to vomit inside.

From time to time, she could hear her dry vomiting outside. She did not know if this pain was causing her heart to ache as well.

They had stayed here for a long time. Perhaps they were going back. There were still scenes that had yet to be finished, and there were still unfinished roads.

She and her assistant had already returned to the set the next day. In fact, she felt that she was still fine. In just a few days, she had grown into a Superwoman once again.

"I'm sorry. It's our fault this time." When the director saw Yan Huan, he apologized again. He really felt that he had let Yan Huan down. He really did not think that Yan Huan would fall off his horse?

"Director, it's too serious." Yan Huan smiled indifferently. "Don't you think I'm doing pretty well? I didn't fall down and get hurt. Who wouldn't get hurt during filming?" She didn't blame anyone. She didn't blame anyone, and now, she was still thinking about what she thought of in the end and what she didn't want to give up.

Lu Qin, he wasn't worthy.

Her own, maybe a little.

In fact, she knew very well in her heart.

It was Lu Yi. She just wanted to know if he would be sad if she died, if he would shed a tear for her, or if he would marry his woman and marry her.

And she was just an electronic woman that he could casually play with, right?

And now she realized.

She was actually somewhat stupid. It was no wonder that President Lu Qin always said she was stupid. What else could she be if not stupid.

A liar had deceived her for two years of her youth, her reputation, her assets, and her future.

As for another liar, he had almost taken her life.

"You should rest well." The director saw that Yan Huan did not say much and thought that she was feeling unwell, so he did not dare to disturb her. As for filming, he first shot other scenes to let her have a good rest, and to be honest, Yan Huan really did not have many scenes left.

Although he really wanted to add more scenes for Yan Huan, it was not easy to add in.

Yan Huan gently exhaled and went back to lie down. She really did not want to see anyone. No one wanted to think about it.

She did not want others to come and visit her because every time, she was like a pitiful little girl, being pitied by others. It was as if she had heard others say that.

Look how poor she is. She has no fame to begin with, and now she has fallen like this.

Yes, she is also an orphan. I heard that her former assistant also jumped off a building to commit suicide.

I also heard that she doesn't even have a father. She grew up with her mother, but her mother also passed away a few years ago. She has no parents, so it's really sad.

Yes, Pitiful.

Yes, really pitiful.

Yes, really pitiful.

She was unloved, unloved, unprotected. She was all by herself, yet she still didn't treat herself well. She insisted on creating one scar after another on her body.

And these wounds, which one of them didn't go deep into her bones.

And these wounds were painful, and she was the only one who bore them.

As for Lu Qin, he had never come to visit her, and she didn't care either. Dou Qin was now carefully protecting his new love, so how could he let a washed-up actress like her cause any more trouble? Although her popularity had increased.., she still needed time to recover, and she didn't even know how long it would take. Lu Qin wouldn't gamble anymore.

He wished that he could spend every day with Mengni. The two of them were like conjoined twins, spending all their time together. Even at night, although they avoided others, they must have cooked a lot of phone porridge.

Yan Huan knew this because Lu Qin had treated her like this in the past.

And she had also jumped into the love tomb that he had dug up.

And the reason why Lu Qin could blatantly lie to her was because she was pitiful. It was because she had no backing. It was because she had no one to rely on. She was just an orphan without parents.

She closed her eyes and continued to sleep.

That night, she did not have any dreams..

The wind outside blew a few more leaves off the tree..

"Sir, here's Your Coffee."

A waiter walked over and placed a cup of coffee in front of Lu Qin. Lu Qin lowered his head and looked at the watch on his wrist. He seemed to be a little anxious from waiting. The light in the coffee shop was a little bright and dim, when it fell on his face, it was somewhat hazy and dreamy.

“Sorry, I’m late.” A woman walked over and also wrapped herself up neatly. She took off the mask and sunglasses on her face and put on exquisite makeup on her hibiscus face.

#### **Chapter 1374: dedicated to art**

“My assistant followed closely. It wasn’t easy to get rid of her.”

The woman said with a smile, and her eyes looked at the man from time to time.

“It’s okay. It’s good that you’re here.”

As she said that, the two of them began to enjoy their candlelight dinner. The romantic candlelight was intoxicating. After a glass of red wine that was already intoxicating, even their expressions became intoxicated.

The man walked over and sat beside the woman. Their lips were glued together, and they even made kissing sounds from time to time.

They thought that there was no one here, but they did not know that there was a woman sitting not far away from them. The woman looked at them coldly. In the darkness, only her face could be seen. It was extremely cold.

The two of them chatted for a while, then they put on their clothes and walked out. When they walked out, the woman sitting at the table still didn’t move. She held a glass of water with both hands and drank it one mouthful at a time.

When she finished the glass of water, she took out her wallet from her bag, then took out a piece and put it on the table. Then she walked out.

The wind outside blew on her face clearly, and she actually felt more and more lonely.

She hugged her arms tightly, almost hiding her entire face inside her coat.

She hugged herself, and she warmed herself up.

She didn’t know how long she walked before she took out her phone from her pocket and put it on her chest. In fact, her heart still hurt.

I should leave as soon as possible. She told herself that she should leave as soon as possible.

After leaving that troublesome place, she didn’t want anything else. She didn’t want anyone else. She couldn’t afford anyone else.

By the time she returned, it was already around ten o’clock.

“Miss Yan, you’re back.” The moment the assistant heard the sound of the door, she hurriedly ran over. She was really scared to death. Yan Huan went out alone, and he didn’t even bring her along. It was so dangerous.

I’m fine. I’m just going out for a walk. Yan Huan took off her scarf and placed it to the side. The hot air in the room smoked her, and it also added color to her pale face, it wasn’t as pale as it used to be.

“Miss Yan, I have something to tell you.”

The assistant's words had been bottled up in her heart for a long time.

"Okay, go ahead." Yan Huan had already changed her clothes and pulled the blanket away. She was sleepy and wanted to rest for a while.

"Um, Mr. Lu Qin..."

The assistant was still thinking about how to say it, but of course, it was even more difficult for her to say it. "Miss Yan, you have to pay attention to him. I saw, I saw..."

She still couldn't say it out loud. She pointed at her fingers.

"Tell me, in my current state, what else can hurt me?" Yan Huan rubbed her head. She was already much better, but the slightest touch was still painful. She had already been through a lot of training, really., there was nothing in this world that could make her feel sad anymore.

"I saw..." the assistant was still a little embarrassed to say it out loud, but she couldn't let Yan Huan remain in the dark. She couldn't let him continue being deceived like this.

"Miss Yan, I saw Mr. Lu and Mengni kissing."

"Weren't they kissing every day when they were filming?" Yan Huan laughed, but his smile did not reach his eyes, "We are actors. We have to sacrifice ourselves for the sake of art. Let alone kissing people, we have to kiss even pigs."

"They are in a place where there is no one around," the assistant said carefully, hoping to attract Yan Huan's attention.

"They are always remembering to sacrifice themselves for the sake of art."

Yan Huan pulled the blanket over her and closed her eyes to continue sleeping. However, her fingers were writing something on the pillow?

"A lot of people saw it." The assistant hurriedly chopped off her own feet. What kind of sacrifice was this? This was simply an affair. It was cheating.

"Oh, a lot of people saw them sacrificing their lives for art. They are very dedicated."

Yan Huan's finger drew another line. Her expression did not change, nor did her heart change. She had not changed at all.

Her heart was as still as water. There were no fluctuations. Her heart was also still water. There were no ripples. She did not even have the strength to love herself. How could she care about how long others had to sacrifice their lives for art

Yan Huan's assistant was so angry that she cried. She ran back to her room and continued to cry. Sometimes, Yan Huan could really infuriate people to death. She did not know what was going on in her head, why did she still not believe in such an obvious adultery? Could it be that she had to let the other party give birth to the child? was this the only way to admit that Lu Qin had cheated?

If Yan Huan knew that her assistant would think this way, then she thought that she would raise her hands to welcome him. Because if Lu Qin had a cheap child, she could ask him to get lost.

Unfortunately, she still understood Lu Qin. Before he got what she wanted, it was impossible for him to carelessly kill someone.

Moreover, Lu Qin's ambition was very big. He didn't just want money, he also wanted the Lu family.

He didn't know if Mengni could be his stepping stone to the sky. In the current situation, although Mengni had a good family background, she was still lacking compared to what Lu Qin wanted.

Moreover, Lu Qin had sacrificed so much lust for so long to accompany her, this idiot, in love. He still hadn't gotten her private property. Now, he had only stepped on her shoulder, but hadn't stepped on her head yet, he had not climbed to the top in one step, so he would not be so stupid as to kill someone else.

She sat up again and opened a drawer. Then, she took out a pen and paper and started drawing on it

Until she put down the pen in her hand. On the paper was a very abstract drawing that she had drawn. However, it could still be seen what kind of drawing it was. She had drawn two pigs kissing each other.

She suddenly smiled, but this smile was quite sudden.

"Can you really shoot it?" The director was still worried about Yan Huan. "Your head is already injured so badly. Can you still shoot it?" He was really worried about Yan Huan. If something really happened, what would he do, he could not afford to lose another person's life. If he had his life on him, he would probably be doomed for the rest of his life.

"Director, I don't Ride Horses."

Yan Huan did not know whether to laugh or cry. She was only acting on flat ground, and she was only a supporting role. She was neither the female lead nor the second female lead. She was already a third female lead and fourth female lead, so she did not have many scenes to begin with, moreover, the entire movie revolved around the female lead and second female lead. What did it have to do with her?

The most she could do was to follow the lines for a while, and then she could rest. As long as she was not allowed to ride a horse, it would be fine.

The director was also embarrassed. This was also true. This horse-riding scene was all Meng Ni's, and it really had nothing to do with Yan Huan. They were acting in a romance drama of the Republic of China, not a xianxia drama, so there was no need for them to jump up and down, they just needed to follow the script and talk about love.

### **Chapter 1375: can be understood as**

In fact, to put it bluntly, this was also a romantic drama.

It had nothing to do with the interests of the nation, nor did it have much to do with patriotism. It was a romantic drama under such a background.

Yueran played with Yan Huan's head and watched for a long time.

"What's Wrong?" Yan Huan wanted to pull Yueran's hand away. "You almost knocked me out."

"It's good that you're unconscious. I was afraid that I wouldn't be able to wake you up." As she spoke, Yueran stretched out her hand and poked Yan Huan's forehead, "Tell me, where did you throw away your pride in the past, your imposing manner in the past, and your temper in the past? Why are you so embarrassed now, Huh?"

"In the past, I was dead."

Yan Huan looked at herself in the mirror, and her smile was still as if she had suddenly realized something.

In fact, she couldn't even remember what she looked like in the past. She had killed herself in the past, which was why she had become such a timid and timid person. She was also useless, and she had been cheated of money and sex, she had cheated her life again.

Even if she woke up now, it was still too late.

Because she had long lost the right to like others. She, Yan Huan, was a complete loser, and from the beginning to the end, she had never won anything

You're so stupid. Almost all of Yueran hated the fact that she had failed to live up to her expectations. But in the end, she still put on makeup properly for her.

"Although you're stupid," he said as he put on makeup. "No matter what, I still want to turn you into a beautiful fool. At the very least, you'll look pleasing to the eye."

"Thank you." Yan Huan put her hand on her head again. The wound on her head still hurt a little, but as long as she didn't move too much, it wouldn't hurt anymore. It was just that sometimes, she still wanted to feel the pain. She didn't know if this was self-abuse, sometimes, only when it hurt would one be able to clear one's mind.

And when it hurt, only then would one be able to remember something, and only then would one be able to forget something.

"Alright." Yueran moved her hand away. "No matter what, your face is really the most malleable face I've ever seen. However, it's best that you don't bury this face of yours."

Yan Huan moved closer to the mirror and saw herself in the mirror. Because of Yueran's makeup, her lips were red and her teeth were white. There wasn't a single part of her that wasn't beautiful, and there wasn't a single part that wasn't good,

of course, this was publicly acknowledged,

Yan Huan's face was good-looking. This was something that couldn't be blamed.

She walked to the set and found a place for herself to sit down. At this moment, the woman was by her side. She was wearing makeup, but it made her look a little foreign.

At this moment, she moved her clothes and wore a necklace around her neck.

Yan Huan's eyes turned slightly cold, and the curve of his lips was a little ridiculous.

"Miss Yan is in a good mood?"

Meng ni adjusted her collar again, as if she was deliberately trying to let others see the necklace around her neck. Otherwise, why would she pull her collar so frequently.

Was it because her neck was too white, or was it because her face was too dark?

“Fortunately, Huo Yanhuan propped himself on his forehead again. She doesn’t want to talk, or else she might laugh herself to death. And she isn’t too willing to die of self-harm.”.

Mengni might never know that the necklace that she was showing off was actually a birthday present that Yan Huan bought for her last year. At that time, she didn’t know where it was, but she thought that Qin Xiaoyue had taken it away, after all, it wasn’t the first time that Qin Xiaoyue had taken something from her. She had accepted her fate and had forgotten about it. She had never thought that one day, she would be able to see her own necklace, it was on someone else’s neck. Now, that person was showing off in front of her. Wasn’t this a little too ridiculous.

That was why she had now experienced it. There was no such thing as the most shameless, only the most shameless.

Such a shameless man, she had only seen Lu Qin in her entire life, and it was even so ridiculous that it made her want to stab herself to death with her shamelessness. And every time she thought about how she had once shared a bed with such a man., she really felt disgusted.

And that kind of nausea, she did not even want to remember that face for the rest of her life.

“Miss Yan, are you on good terms with Lu Qin?”

Meng Ni moved her collar again and fanned herself with her hands as if it was very hot.

Yan Huan was too lazy to even roll his eyes at her actions. could he be more professional in showing off? It was winter and he was Fanning himself like this. What kind of wind was he fanning, could it be that he had a stroke.

Yan Huan raised his eyelids, while Mengni’s gaze had been wandering around her face the entire time. It was a pity that Yan Huan seemed to be tired and didn’t seem too willing to speak.

“Miss Yan?”Mengni was still unwilling to give up. Although Lu Qin had said it, she still didn’t quite believe it. Women were naturally sensitive and hostile towards the women who frequently appeared around their men, there was always a natural sensitivity and hostility.

And this Yan Huan was one of them.

Although she was outdated now and wasn’t famous anymore, this wasn’t the era of Yan Huan. So what if she filmed an advertisement? She was still not as famous as her.

As for Yan Huan, she seemed to have stayed by Lu Qin’s side for too long.

It seemed that ever since she started to become outdated, she had already appeared by Lu Qin’s side frequently

So, wasn’t this very strange? Why did people who were clearly unrelated always appear together? Although there weren’t any rumors about them, it was obvious that something was wrong.

And she didn't like the feeling of being kept in the dark. She didn't like the feeling of being kept in the dark by others. That would make her very uncomfortable, especially when it was someone she couldn't predict. It was something that she couldn't ask.

Yan Huan was still propping up his forehead on the table and chair. Her long eyelashes fluttered a little. Two extremely fragile shadows were sticking to her skin.

"Miss Yan." Meng ni had decided to get to the bottom of it. It was as if if Yan Huan did not give her an answer, she would not leave.

"I'm an old friend of his cousin. Do you understand?"

Yan Huan yawned. "You can understand that I am his cousin's mistress, but..." Yan Huan leaned his body against the chair, his body so soft that it was almost boneless.

"Remember, there are some things you can not say carelessly, otherwise, it will not do you any good."

After Yan Huan warned her, he realized that Meng Ni's expression had changed. Yes, how could she not know? Everyone living in Hai City knew that grand prosecutor Lu could not be offended, so they could only keep a distance from him. It would not do any good to offend him.

Especially now that it was related to Lu Yi's private life, he naturally could not say anything.

Yan Huan was still smiling, but his smile was a little cold. Didn't Lu Qin say that she had a relationship with Lu Yi? Then, she had a relationship with Lu Yi. She was the beauty of adulthood, and she wanted to fulfill their wish. She just hoped that he could grasp this hard-won happiness.

As expected, Mengni left with satisfaction and went to flaunt their love with Lu Kieran. Of course, when they were filming, they also showed their love without stinginess.

### **Chapter 1376:**

"Yan Huan, it's your turn."

The director called out to Yan Huan.

Alright, Yan Huan stood up, adjusted her clothes, and walked over. She hadn't filmed for a few days, and she didn't know if she was in the right frame of mind.

When the camera faced her, her heart suddenly calmed down.

The lines that were originally memorized in her mind were also spoken out. Everything seemed to be done in one go, like flowing water. Even the lines were memorized perfectly.

Perhaps it could really be said.

She was a natural actress.

Then could it also be said that she was a natural actress.

She was born to like lying, and then she was lied to.

However, she really had never lied to anyone. She had been very well-behaved all her life..

Just as she was about to leave, Mengni called out to her.

“Miss Yan, can we look for you to match our lines?”

Yan Huan stopped and turned around to look at them. She recognized Lu Qin’s warning. He did not like her to go, perhaps he was afraid that she would accidentally give herself away.

“I’m sorry, I’m a little tired.” Yan Huan turned around and sat back in his chair. He then closed his eyes to rest.

“She’s really a big shot.” Mengni pursed her lips, “She’s already so outdated. Does she really think that she was the best actress in the past? The era that belonged to Yan Huan is over. So what if she shot a big commercial? It’s still the same. She’s not even in the A-list yet.”

“The two of us can do it.” Lu Qin really didn’t like Mengni mentioning Yan Huan’s name. He was afraid that Mengni would think about something else in a while.

Of course, to put it bluntly, Lu Qin didn’t think about letting go of Yan Huan. As for Mengni, he wouldn’t let go of her for this movie. It was just that it was hard to say when the next movie would be.

When the same movie started, Yan Huan felt that his head was hurting.

“I’ll go and inform the director.”

When the assistant saw that Yan Huan was suffering, she could not help but go over. She told the director about Yan Huan’s current situation and it was true that she was not doing too well.

The director nodded. She would not be filming today and would have to make up for it tomorrow.

However, Mengni was not willing.

“Director, I’ve just found some feelings. If I don’t film, what will I do if I lose my feelings? I’m not feeling well here today and I won’t be feeling well tomorrow. which day will I feel better?”

Lu Qin also narrowed his eyes at Yan Huan. His gaze was almost like a needle. If it was the previous Yan Huan, it would probably hurt his heart.

But now, she didn’t feel anything at all.

It was just that with so many people watching and waiting for her, she knew that she couldn’t hide anymore.

Right, Meng Ni was right. She was no longer the Yan Huan of the past. She hadn’t even risen to fame yet, and she was just a minor supporting role. A supporting role wasn’t worthy of making others wait. To put it bluntly, she was just a beggar in the production team, it was already good enough to give her a bowl of rice.

Yan Huan stood up. Her hand was still on the top of the chair, and her stomach couldn’t help but turn upwards. It wasn’t easy for her to suppress those uncomfortable feelings. Only then did she walk onto the stage and finish filming these scenes.

When she reached her room, she vomited. She leaned on the toilet bowl and even vomited acid. She hadn't eaten anything for a whole day, but when she vomited, she felt as if she was dead.

It was not until she had almost vomited out all the food in her stomach that she rinsed her mouth at the faucet. However, when she saw herself in the mirror, she thought that she was a ghost.

She lay down and did not even want to eat. Her eyelashes were still slightly moist. She only had the cell phone in her hand. She lay down and fell asleep as if she was waiting for death.

At night, her cell phone rang again,

in fact, she did not need to guess who it was. The only person who could call her cell phone at this time was that person. She had no relatives or friends.

She had nothing.

Therefore, the only person who could call her on her private phone was Lu Qin.

She put on her clothes and wrapped her collar tightly. When she came out, the wind outside blew against her, almost blowing her all over the place,

it was not easy to make a living outside.

She was an orphan without a father or mother. It was even harder for her to go from a minor role to a movie queen in the future. However, she had ruined everything for herself, she had also ruined everything for a man who had never loved her.

"You're looking for me?" She walked to the place where they often met at night. There was not even a ghost here. Only they would be here, not to talk about love, instead, it was Lu Qin's repeated warnings and requests to her.

"What kind of temper have you been throwing recently?" Lu Qin walked over from the shadows. No matter how he looked at it, he felt that Yan Huan had been acting strangely recently. Even the way he looked at him was the same. Although it wasn't to the extent that it affected him., however, it still made him feel a little uncomfortable. There was also an indescribable emotion that didn't seem to be too likable.

"What emotion do you think I can create?" Yan Huan leaned her body against the wall.

"Lu Qin, what temper do you think I can create?" She pointed at her head, "My Head is already in such a state, but you actually didn't even spare me a glance. Tell me, what do you think I am? Do you think you can tie me up like this to create hype? Do you think you can abandon your wife like this and fall in love with another woman?"

Yan Huan might have said that, but don't think that she didn't realize that when she mentioned the word 'wife', Lu Qin's face flashed with sarcasm and disdain.

And why didn't she realize it before?

Or was she really blind?

"I've said it before, this is the company's arrangement." Lu Qin thought that Yan Huan was about to say something else, so he immediately opened his mouth to interrupt her. He didn't want to listen to her right now, and he was very annoyed.

Yan Huan pursed her lips, which didn't have much color. Fine, if he didn't want her to say it, then she wouldn't say it.

"How much money do you have now? Give me some," Lu Yi walked over and said as if he wanted money from Yan Huan, just like in the past. When he asked Yan Huan for money, it was just as expected.

In fact, he felt that he had been a little too excessive recently. However, he really didn't have the time to care about Yan Huan Now. No matter what he did now, he didn't have to listen to the company's arrangements.

However, it was inevitable that he would ignore Yan Huan. He had never thrown Yan Huan aside like this before. However, it was only because Yan Huan was a little too infuriating. He wanted to properly kill off her prestige, otherwise, he would really be afraid of her in the future.

He wanted to control everything and not have any rebellious thoughts. If he did not kill off her arrogance now, when would he kill her.

#### **Chapter 1377: was deleted**

However, he did not know if he had gone too far. In the past, Yan Huan had always taken the initiative to give all the resources to him, including the ones she earned. He did not need to tell her, but she should know, he should be short of money now. It had been a long time since he had received any. Not to mention him, even Qin Xiaoyue did not have any.

Usually, he had to socialize. He only bought a car and had expenses every day. His mother had the Lu family's allowance in her hands. She had not given him any pocket money in the past few months because Yan Huan did not give him any, therefore, Qin Xiaoyue valued the money more than her life. She did not give her son a single cent. Since her son did not have any money, she could just give it to Yan Huan.

Yan Huan did not like her mother-in-law, but her husband had to give it to her.

The money was now in Yan Huan's hands, but sooner or later, it would all belong to his family. If he gave it to her sooner or later, it would still be the same.

Only then did Yan Huan understand. So it turned out that he had asked her to come over, and he had said so much nonsense. He had also spent a lot of effort to explain and push all the blame onto the company. That was the end of it, this was the end of it. This was the end of her mouth.

Oh right, he even wanted to ask her for money. She owed him, didn't she?

It seemed that if she didn't give him the money, it meant that she was insensible. If she didn't cooperate, it meant that she didn't know what was good for her.

Yan Huan, why are you only here now? Lu Qin frowned. There was clearly too much unhappiness on his face. He had been waiting here for half a day. It was extremely cold here. If he gave him the money, he

could go back and rest. He still had to film the next day. Could it be that she wanted him to accompany her here?

“How much do you want?”

Yan Huan raised his face, but there was nothing strange about it.

It was the same as before. He would give as much as he wanted. Even if he didn't want it, he would take the initiative to give it.

Lu Qin heaved a sigh of relief. “It's not much. Give me 10 million. I'm doing this for the sake of our future.”

Yan Huan gripped his phone tightly and had the urge to kick Lu Qin to death.

Just how thick-skinned was he to say such disgusting words?

Also, 10 million, that was 10 million. To think that he could ask for it. What kind of concept was 10 million? An ordinary family wouldn't even be able to earn 10 million in their entire lifetime. Yet, he actually asked for it.., just to ask for 10 million for her? He really thought that this 10 million came from the sky when the wind blew.

She recalled how she looked like when she was filming back then. That money was all earned with her life.

And now, she actually couldn't remember how much money she had given to Lu Qin back then.

It was more than 100 million, right? Moreover, what the mother and Son wanted was the last of her wealth. It was also the wealth that they didn't know about.

“Just call me directly.” After Lu Qin said that, he turned around and left. It was as if he had predicted that Yan Huan would transfer the money to his bank card.

He turned around and left, leaving Yan Huan in this desolate place to blow on the wind.

If only he could turn his head.

Perhaps he would realize that Yan Huan was no longer the Yan Huan of the past. She had long jumped out of his palm, and she was no longer under his control. She had long stopped loving him.

No matter how stupid a person was, they would eventually become smart one day.

No matter how stupid a person was, they would eventually come to their senses one day.

Yan Huan tightened her coat. She lifted her face and walked in the wind. From time to time, fallen leaves would fall from the trees. She picked one up from the ground.

Then, she carefully placed it in her hands.

“I think you're lonely too. You're here alone.”

She walked to the bottom of a large tree and placed this leaf with the other trees. Then, she stood up and walked forward step by step. At this moment.., perhaps the only person who didn't sleep was her.

Perhaps she couldn't sleep today either.

She took out her phone from her body and gently stroked it with her fingers, as if she wanted to find the feeling of the past, but this wasn't the past, she knew.

She turned on the phone and placed her fingers on the chat app. With just a gentle touch, her fingertips were already in pain

In fact, there was no point in keeping it.

She was still foolishly looking forward to something, thinking about something, recalling something?

What was she waiting for again?

She placed her phone on her chest. Forget it. Didn't he say that he wanted her to face reality? The reality was that some things would never come back. So, she didn't want it anymore.

She opened the chat app. There was only her lit profile picture on it, while his was dark and dark.

She endured the sourness in her nose and the tears that welled up in her eyes. She placed her finger on it again and pressed delete..

At night, she did not sleep well. She kept coughing until she suddenly sat up and ran to the bathroom. Now that she had vomited, there was nothing left for her to vomit, however, she still felt uncomfortable and let her stomach turn up from time to time

She had no choice. She could not stop it..

As for Lu Qin, he had returned to his place. Of course, he could sleep peacefully and dream about other women. Moreover, he slept until dawn. When dawn broke., he took his phone, but he found that there was no transfer information in his phone. There was always a transfer information. did his phone stop working.

He tried to make a call, but the phone was fine. Then why was there no transfer information? Was it a mistake by the bank? Or was it a system card.

He took the phone and called the bank in a familiar manner.

"Did I make a transfer today?"

A sweet voice came from the other side of the phone, but he didn't want to hear it.

"I'm sorry, Mr. Lu. Did your account receive the transfer information?"

"That's impossible. Did you make a mistake?" Lu Qin's voice changed as well. Even now, he still firmly believed that Yan Huan wouldn't stop transferring money to him. He was more willing to believe that the bank made a mistake.

The bank staff had repeatedly guaranteed that they could not make a mistake.

The transfer of funds was a direct connection between the card and the card. It had nothing to do with the bank.

Lu Qin put down his phone. His heart felt as if it was being scratched by a hand. He dialed Yan Huan's phone again. The moment he dialed it, Yan Huan's phone was turned off.

He slammed his phone down hard, grabbed his clothes and put them on. He opened the door and went to look for Yan Huan. However, when the wind blew on his face, he shivered.

He couldn't go.

Maybe he had forgotten?

Yes, maybe he had really forgotten.

After all, it was really late yesterday. Maybe she hadn't slept yet.

### **Chapter 1378: She had no family**

He was looking for an excuse for Yan Huan, and at the same time, he was looking for a way out.

He took out his phone and checked how much money he had in his account. He only had a few hundred thousand left.

Recently, he had been going out with Mengni, so he was naturally generous. and behind the generosity was the money that he had spent like water. Now, he had finally taken Lu ni down, however, he wanted to know how far Mengni could help him in the future.

It was said that the power behind Mengni was very powerful. Otherwise, she would not have been able to quickly become famous the moment she debuted. However, Mengni's personality was much more cautious than Yan Huan's, of course, she was also smarter than Yan Huan.

Yan Huan had only said a few sweet words and already had her in his hands. When she found out about his situation in the Lu family, she immediately used all her resources to help him, this also included money.

However, Mengni was different. Up until now, he still didn't know what kind of family Mengni came from. No matter how he tried to beat around the bush, it was clear that Lu Ni's police nature was very high. It had been so long., he still didn't find out anything?

Therefore, he still needed to continue to coax her.

He just hoped that all the time and money he spent on her would be repaid. Otherwise, this move of his would be the worst and most wrong move he had ever made in this world.

As for the money, he wasn't in a hurry. He waited for Yan Huan to send it to him. When Yan Huan remembered, she would transfer the money to him.

On this day, he went to film as usual, as if nothing had happened. He even made an appointment with Mengni to have French food that night. Mengni naturally gladly accepted it.

As for Yan Huan, Lu Qin had never had the chance to be alone with Yan Huan. Then, he went to ask about the money. Putting aside the matter of filming for the whole day, everyone was busy., yan Huan still had to go to the hospital for a check-up. She might not be back for the whole night because she had vomited again today. It might also be because of a concussion. It could not be a pregnancy. If it was a

pregnancy.., it was because she had fallen off her horse the last time. She had already lost her child. Moreover, it was only a few days away from that fall?

Lu Qin made another call to Yan Huan. He wanted to ask what was going on with Yan Huan. It had already been a day, and the money had not been transferred to his account. It was just that his phone had been switched off.

After that night, he did not know how many calls he had made, but his phone had been switched on.

He made another call to the Undying Bull's heart, but his phone was still switched off.

He gripped the phone in his hand tightly and almost dropped it on the ground. In the end, he endured it.

She should be able to remember it tomorrow.

He gave Yan Huan all kinds of excuses and excuses.

That woman might have a concussion now and fell like a fool, so she had lost her memory. Fine, he would forgive her this time. If she didn't send the money over again, don't blame him for being rude to her.

When the time comes, get out of the Lu family. Since he had never been married before, he was still single under Lu Qin's protection book.

There were many women in the world who wanted to protect his protection book. Yan Huan wasn't the only one,

at this moment, the woman whose memory wasn't good from the brain fall was indeed in the hospital. She was asleep, and there were needles hanging on the back of her hand. Recently, the back of her hand hadn't been feeling well. It wasn't easy.., the needle holes were slightly better, but in the end, new needle holes were added. This time, the old ones were not healed, and new ones came in. The entire back of her hand was bruised.

If the bruise continued like this, it was likely that she would have a complete body.

And Fang Huan was indeed suffering from a concussion soup. He still needed to stay in the hospital for a few more days. Back then, he had directly been discharged from the hospital. He did not listen to anyone. He really did not take his life as a joke. In the end, he was scalded again, she was filming a commercial again, and she was back to film again. She was going to ruin her own body.

"Why is no one here to take care of her?"The nurse asked Yan Huan's assistant carefully. No matter how famous a celebrity was, they still had to have family members. They were already so sick, and they were almost in a daze for the entire day, she could not even eat. Could it be that her family members were not worried and did not feel sorry for her?

"She doesn't have any relatives,"the assistant said sadly. Even he felt sorry for Yan Huangong.

"She hasn't had a father since she was young. Her mother died when she was 18 years old. She also has an older sister who isn't related to her by blood. She died a few years ago. Now, she doesn't have any relatives. She's the only one left."

“How Pitiful.”The nurse felt very sad when she heard this. One should not look at celebrities who were glamorous on the outside. In fact, only they knew how hard it was on the inside. Their hospital was close to the film studio complex, therefore, all year round, they only accepted a few actors. Some were lightly injured, some were seriously injured, and there were even quite a few who died. All of these were accidents that happened frequently during filming.

Therefore, they might have seen more behind-the-scenes things about the artistes than other people. Of course, they were also more profound than other people. They also saw more of their true side than other people.

However, the young nurse originally wanted to ask if there was no lover or anything like that. She then thought about Yan Huan’s reputation, but it didn’t seem to be the case. Yan Huan was actually just an actress who had already gone through some bad times. No., not long ago, she had shot a commercial, but she had only become famous for a short while. Recently, she didn’t seem to have any news. It was really hard to say whether she would really become famous or not.

Moreover, after so long, no one had come to visit her. Hence, it was useless whether she was famous or not. After living like this, no matter how famous she was, she would still be miserable. If she was not famous, she would be even more miserable.

There was also Yan Huan’s identity. In fact, Yan Huan’s personality had always been very straightforward. She did not seem like some celebrities who insisted on hiding her identity, she had to pretend to be the daughter of a rich family.

Yan Huan did not. She had never hidden it from the start, so everyone knew about her family background.

The nurse took another look at the person inside and could not help but cast a few sympathy votes. If Yan Huan was here, then there would probably be quite a number of sympathy votes.

There was only the assistant here. Actually, not only did the nurse feel that Yan Huan was pitiful, even the assistant felt that Yan Huan was quite pitiful. In the past, he did not have such a big feeling. It was just that recently, Yan Huan had been continuously injured, however, no one cared, no one asked, and no one cared about her. Their hearts ached for her.

Lu Qin, Ah, Lu Qin.,

Lu Qin was really too smart. What he did was flawless. No one had ever known that he was already together with Yan Huan. and the decline in Yan Huan’s popularity was not due to any other reason, it was because of what Lu Qin did.

### **Chapter 1379: How Did she die**

And now that Yan Huan was injured, where was Lu Qin? Who knew what kind of good deed he was doing with that Mengni?

Lu Qin once again asked Mengni out. This time around, he still spent a lot of money and gave her an extremely expensive bag. This also made Mengni feel flattered.

“Recently, your news has been dug out. Aren’t you going to explain?”

Lu Qin asked Mengni, his eyes shining with a light that couldn't be seen clearly. This news came just in time, giving him an excuse to understand more.

"What News?" How could Mengni not know that there was news about him? Could it be... her heart tightened. It was about that matter, but it was impossible. The company had already handled this matter for her, it was impossible for it to be so easily discovered by others.

Lu Qin took out his phone and gave it to Mengni.

Mengni took it. When she took the phone, she was actually a little worried. Even her palms were covered in cold sweat.

However, when she took the phone, she was stunned.

The news that Lu Qin was talking about wasn't what she was afraid of, but...

"The real identity and background of the popular little flower, Meng Ni, is so strong that no one can match her."

And what was said above was simply reasonable. Her father was the CEO of a certain group in China. Although he didn't mention his name, almost everyone could guess it, her mother was a famous artist or something, and her grandfather was actually a founding father, so this was the most important thing. Otherwise, why would meng ni be able to become famous so quickly? Yan Huan had just been demoted, and he was already on the scene., moreover, the actors who acted with her were all old actors and famous celebrities. Once they appeared, they would all act in high-profile roles, and they would also quickly become famous.

Just like this time, even the previous best actress Yan could only act as a supporting role for her. Of course, this was written online. As for whether Yan Huan was really outdated and only acted as a supporting role for others, or., there were some other reasons. Thinking about it, only some people knew about it.

"These are all nonsense," she only said this one sentence. She did not admit it, nor did she deny it.

Meng Ni returned the phone to Lu Qin and continued eating. In her heart, she was thinking about who wrote this. It was simply god-like assistance.

Lu Qin took back his phone, and the determination in his eyes grew even more. But now that he thought about his bank card, he was furious. There was not much money left in his bank, and now, Yan Huan did not send him any money either.

Spending money to get along with Mengni was very expensive. And he was originally a spendthrift. He had never been able to make ends meet. In the past, he did not save much money for the Lu family's monthly living expenses. Later, when he took on the role of acting director., however, he did not save much. He did not have much fame now, so he did not have much of a salary. There were also necessary social engagements to use people's face. He was also used to being a big spender.

He was not Lu Yi. Lu Yi ate the imperial food and had a friend who was good at investing. Perhaps Lu Yi himself did not know how much wealth he had, but he was different. He was the bastard son that no

one in the Lu family looked up to, the Old Master had never liked him much, and he did not plan for himself. Heaven and Earth would destroy him.

Later on, with Yan Huan's money, he did not have to worry about money because Yan Huan's pay was very high. Of course, he did not want to use Yan Huan for his entire life. He wanted to push himself to the top, this was what he wanted too.

However, he did not expect to meet Mengni at the most crucial moment.

If Mengni could also help him.

That would be even easier. At the very least, he would get some decent resources. Otherwise, after chasing after her for the past few months, he did not know how much money he had spent on her. Wouldn't it be a waste.

He took out his phone again. His expression was not too good.

"I'm going to make a call." He smiled at Mengni and walked out. He found a place where no one was around and called Yan Huan.

Was he dead or did he really have a brain injury? It had already been two days, why wasn't the money transferred to his card.

In the end, the phone was still switched off. He gritted his teeth and almost smashed his phone in anger.

He could only find Qin Xiaoyue's phone number again.

"Mom, give me some of the money that Grandpa gave you."

"Why?"

Qin Xiaoyue was unhappy when she heard Lu Qin asking for money. If Lu Qin was here, she would be able to see her mother's face. Now, her face was like that of a donkey.

She could ask for anything, but she couldn't ask for money.

"You haven't given me the living expenses for this month. Why do you still want money for me?"

"The living expenses for you?" Lu Qin wondered when he had given Qin Xiaoyue the living expenses? He himself didn't have enough to spend, so how could he give it to Qin Xiaoyue? Moreover, what old master Lu gave her every month was enough for her to spend. What living expenses did she need?

Until he remembered that this was indeed living expenses, but it wasn't given by him, but by Yan Huan. Of course, it wasn't Yan Huan who took the initiative to give it. It was Qin Xiaoyue who asked for it herself, and then asked for it., she was used to asking for it. Just like Lu Qin, asking for other people's things was like a matter of course

However, this time, Yan Huan didn't give it to her. He didn't even answer Qin Xiaoyue's call, and Qin Xiaoyue immediately remembered it. Now, she probably didn't even want to mention Yan Huan's name anymore.

"Mom, transfer the money to you. I need it urgently now."

Lu Qin didn't want to waste time with Qin Xiaoyue.

"Why don't you go and ask for it for her?"

Qin Xiaoyue said it as a matter of course. She still had hundreds of millions in her hands. She wouldn't dare to refuse if you put some pressure on her.

She was in a coma in the hospital now. How could I ask for it?

Lu Qin was getting impatient.

"Then why don't You Go Die?" Qin Xiaoyue's liver was hurting from anger the moment she mentioned the money. She didn't hold back when she said, "How great would it be if she really died? Everything would be yours."

Lu Qin didn't reply and urged Qin Xiaoyue again.

In the end, Qin Xiaoyue was still unwilling. However, the money was sent to Lu Qin. However, after the money was sent over, it caused her heart to hurt. Later on, Qin Xiaoyue had no choice but to.., she could only go to Yan Huan's room to look for some valuable things. However, where did Yan Huan hide that thing? Didn't he say that she still had a very large sapphire, it was on the crown of a certain country. If she sold it, wouldn't she have an endless amount of money? Therefore, she did not give up and searched again. However, in the end, she still could not find a single hair, there was only a huge fish tank at the side with dozens of big-eyed fish. It seemed that they were the only ones who saw everything.

### **Chapter 1380: she doesn't have the money to give you**

Qin Xiaoyue walked to Yan Huan's private safe.

She squatted down, not knowing how to move the safe. This was Yan Huan's, and it was the most high-end one. It was an electronic lock, and if the password was wrong, it would activate the alarm.

She had to find a way to open this.

And at this time, in another hospital..,

Lu Yi narrowed his eyes slightly, and there was not much expression on his face. He had been like this since he woke up. He did not speak, and he was still pretending to be silent.

He Yibin opened the door and came in to help him change the medicine. He heard his voice as cold as ice.

"When can I be discharged?"

When he yibin saw him like this, he immediately rolled his eyes at him. You? It's not that he looked down on Lu Yi, it's that he looked down on you. He looked down on you very much.

"Don't even think about being discharged. You didn't just wipe your skin and walk away. Do you think that such a heavy thoracotomy is as simple as removing an appendix? If you want to be discharged, you have to stay in the hospital for two months first."

"And..."he yibin really didn't understand how a person like Lu Yi got his body structure.

“Don’t you feel pain? With your injury, even breathing hurts. How can you be so ignorant? I wonder if there’s something wrong with your nerves and you can’t feel pain?”

Lu Yi was still lying on the ground. There were still tubes of various sizes on his body that hadn’t been removed. He closed his eyes again as if he didn’t want to hear anymore

He Yibin had no choice but to stand up and take out another syringe. Then, he took out a bottle of medicine and sucked it in with the syringe. Then, he added it into Lu Yi’s bottle of medicine. It didn’t matter if you really didn’t know pain.., i still have to add this painkiller to you so that you can sleep a little longer.

When he yibin stood up and was about to leave, he heard Lu Yi’s voice. It had been a long time since he had said so much.

“Yibin...”

“Yes?” He Yibin stopped. “Is there anything else?”

Lu Yi opened his eyes and looked ahead calmly. He did not know what he was looking at. Perhaps he was looking at everything, or perhaps he was not looking at anything. What was alive was his body, but what was in his eyes were memories.

“What about her? Is she injured?”

He Yibin was stunned. He knew what Lu Yi was asking? He was asking Yan Huan, but he was sorry. He really couldn’t say it now. With Lu Yi’s current body condition, it was best not to get excited. For some people, it was better to give up, because there would be no result.

“Fang Zhu came once, but you didn’t wake up, so she left again. Then she never came again.” He Yibin raised his face and felt that he was a bit of a bastard, “However, even if she did come, I don’t want her to see you. She was the main culprit for your injury.”

“As for the other one?” He Yibin sighed in his heart. He didn’t know why, but he actually felt a bit cruel.

“That’s a public figure. You should know that she can’t appear in such an incident, and she can’t let anyone take photos of her, so she left early.”

He Yibin turned around again and faced the half-dead man on the bed. give up on that person. There won’t be any results. It’s already been five years. Is that enough?

After he finished speaking, he walked to the door and closed it.

At this moment, the man on the bed was breathing from time to time. Every time he breathed, he could feel his pain, as well as the pain on his face that had never appeared before. He moved his fingers and opened his eyes. In those black eyes, there was a pain that seemed to have drowned his entire life.

He placed his hand on his chest.

Who said that it did not hurt?

How could it not hurt? It was a heart-wrenching pain.

In his entire life, the most painful moment for his body was now.

Suddenly, the corners of his lips curled up. At that moment, his smile was a little pale, but it also became colder and colder. It was so cold that there was almost no trace of warmth.

As for Yan Huan, she had been sleeping in a daze. The Doctor said that it was a sequela from her concussion. She shouldn't have acted in the first place. No, she shouldn't have been able to do anything, in the end, she had ended up in this state again. Now, she couldn't even get up, let alone act.

She took out her phone from under the blanket. It had been many days since she had turned it on. Of course, it was also for Lu Qin's ten million.

It had been so long. He should have raised his 10 million.

Otherwise, how could he pursue a woman? How could he pretend to be generous?

A man reaching out to a woman to ask for money was so reasonable. What kind of shamelessness was this? Her worldview had been destroyed.

She turned her phone on and her fingers gently swiped across the chat app, but she did not turn it on. There was no need to turn it on again. There was no one left..

She threw her phone to the side. She had fallen asleep just now, but it was that kind of wailing again.

She took the phone and looked at it. It really was him. He really knew how to pick the time.

"Yan Huan, did you transfer my money?"

"Money?" Yan Huan pretended to be surprised. "Didn't I transfer it to you? When I went back, I already did it for you."

"You called?" Lu Qin almost twisted his eyebrows into a knot.

"When did you give it to me?"

"I asked my assistant to call you. I have a headache. You can ask my assistant." Before Yan Huan could finish her sentence, Lu Qin hung up.

She was from a rich family. How could she be so shameless just to take other people's Money? How thick was her skin? could a bullet pierce through it?

She snorted and pulled the blanket to sleep. However, waves of pain came from her head from time to time. Why did she feel that her head was really damaged? Why was it still not healing after so long? Or was she treating herself too badly? Even her body was protesting.

What she did not know was that her assistant was outside, holding her phone and looking like she was crying.

"Mr. Lu, Miss Yan told me about it, but she doesn't have any money. How Do you want me to transfer the money to you?" She paused for a moment before continuing.

"Of course she doesn't have any money. What money does Miss Yan have now? Everything under her name is under my control. In the past two years, you and Miss Qin have been talking about millions and

millions. Even if she is a mountain of gold and silver, she has been hollowed out by you guys. Otherwise, why do you think I have been looking for a job for her? Her popularity is like this now. She doesn't have a job to accept for her. Where did she get the money? She really doesn't have the money to give you."
