

**Chapter 1481: Xinyu**

She looked up again and saw a large hand resting on top of Xiaoguang's little head. That hand was very big, almost bigger than Xiaoguang's little face.

And this hand belonged to a man.

She looked up again, but she could not see the man's face clearly. It was as if he was blocked by a layer of fog.

Suddenly, the scene in front of her changed again. This was a quiet bedroom. There was a bunch of pink roses on top of it. This was also her favorite flower.

There seemed to be a faint sound of breathing coming from the bedroom. She opened her eyes forcefully, but her eyes suddenly seemed to be pricked by something, she could not help but start to feel sore.

At this moment, the dark room did not feel gloomy. On the contrary, she could feel the kind of temperature that she should like. She liked this feeling, liked this color., she also liked the color of the quilt.

Suddenly, she felt her body suck forward, almost being sucked into the room.

Another gust of wind came from behind her, as if it was about to split her body into two.

Her body was almost torn into pieces by this gust of wind, and she was also torn into ashes.

She opened her eyes again, and what entered her eyes was a clean and white world. There was also a transparent window not far away from her. She raised her eyes and looked up again, only to see a man sitting there., there was nothing in his black eyes at the moment. There was only that kind of worry and some fear that she had never seen on him before.

"You're so ugly," she could not help but mutter. She wanted to raise her finger, but she realized that she could not use any of her strength. She could not even raise her finger.

Lu Yi bent down and pressed his face against hers. "Don't scare me like this again in the future, Okay?"

Yan Huan wanted to say something, but she felt a drop of water on her face. It was warm, but also cold.

Was it raining?

Yes, it was raining. It was raining her heart.

When she came to her senses, she used her face to gently rub against Lu Yi's wet cheek. She didn't know how many hearts she had broken.

Some people take one look at you and make you think about it for the rest of your life. Some people take one look and it affects your life.

Some people just give you a drop of tears, but they gave up their heart and gave it to you.

From then on, you were his pain, his suffering, and the end of everything for him.

Yan Huan placed his arm outside, while he Yibin had already prepared the syringe.

“Can you not prick it?” Lu Yi asked he yibin. He had to prick it every day. How much weight did Yan Huan have now? Did he have to prick it every day? was he going to drain all her blood?

“Then tell me, what if I don’t do it? Can I still do it to others? To You?” He Yibin took the needle and inserted it into Yan Huan’s arm. Yan Huan did not have much of a reaction, however, Lu Yi was like a cannibal. Did he drain his blood, drink it, or eat his flesh? Did he have to stare at him every day?

If he could, he didn’t want to. These two were too hard to please.

“She has a viral cold,” he yibin patiently explained. “This disease can only be detected from the blood. Only then can we know how she is. If we don’t take her blood, what do you think we should do? Think of a way for me?”

Lu Yi pursed his thin lips. He let Yan Huan lie down and carefully protected her arm. He took care of her like a baby. Yan Huan did not have much strength, so she fell asleep not long after she touched the pillow.

She was still not well. She was still very weak. Her resistance was too weak. It was all because of the blood loss.

This time, if there were no problems, she could go home. She had to be more careful in the future. He Yibin glanced at Yan Huan, who was sleeping soundly. Don’t catch a cold again. With her current body, you will suffer in the future.

Lu Yi carefully covered Yan Huan with the blanket. Even he yibin did not want to be bothered anymore.

He Yibin shrugged his shoulders. Alright, he did not say anything else. However, she felt that Lu Yi would be tortured by this woman for the rest of his life. He still had to be tortured to death.

He sent the blood that he drew to be tested. He really hoped that he would be fine after the test this time. He also wanted to send the two Buddhas away as soon as possible. Otherwise, he would not be able to eat or sleep well, he was afraid that Yan Huan’s condition would repeat itself. He felt that the pressure that Lu Yi gave him was unbearable.

He was a doctor, not a prisoner in his hands. He really did not need to give him a cold face every day.

After about half an hour, the results of the examination were out. Fortunately, the results were not bad. They were almost normal.

He Yibin wiped the sweat off his head. Sigh, this was great. He could finally send the two Buddhas back.

Lu Yi walked out with Yan Huan in his arms.

“Why don’t we continue to stay in the hospital?”

Yan Huan asked Lu Yi. He was wearing a lot of clothes, just like a big bear. However, it was fortunate that she was very thin, and Lu Yi was also very strong. Otherwise, he would have thrown her away.

"It's safe at home." Lu Yi stopped and rested his chin on her head. There were parents and a nanny at home. No matter what, the environment was much healthier than the hospital.

That was true. Yan Huan really liked home. She had everything she wanted to eat. The food at the hospital was really complicated.

Lu Yi carefully placed Yan Huan in the car and fastened her seatbelt.

"She seems to have lost weight again." Lu Yi caressed her face. She had really lost weight. Her face was smaller and her chin was sharper.

Yan Huan seemed to have thought of something as she stared at the coat on her body in a daze.

"Why? Are you worried?"

Lu Yi lowered his head, and a scorching hot breath sprayed into her ear. "Don't worry, your breasts aren't small."

Yan Huan hurriedly hugged the coat on her body and glared at Lu Yi. Was this still the calm and self-control, the cold and ruthless prosecutor Lu? So it turned out that at certain times, he couldn't keep his cool.

Lu Yi kissed her face, but his breathing became a little hurried. Every time he was with this woman, his self-control would break down as expected.

He took a deep breath and sat back down. He was ready to drive. He wanted to go home first.

When he returned home, Yan Huan stepped on the ground with both her feet. Actually, she wanted to let Lu Yi hug her, but she didn't want to do it until she reached home. It wasn't that she didn't want to show off her love.

But love too much, I am afraid to drive people to death.

### **Chapter 1482: I Want to have a baby**

"You're back. How are you now? Are You Alright?" Ye Shuyun hurriedly walked over when she saw Yan Huan return. She saw that Yan Huan's face had become much smaller, but it was still alright. Although his face was a little pale, it was considered normal, the color of her lips was a little pale, but it was also because she was too white that she always gave people the feeling that she was too pale. The color of her lips was indeed a little lighter compared to the average person, and they were also a little pink. Therefore, when she applied makeup..., she put on a lot more makeup than the average person.

And red lips and white teeth referred to women like Yan Chun.

Ye Shuyun placed her hand on Yan Huan's forehead. "Are you really alright? What did the Doctor Say?" This was her wife and her family. No matter what, she was still worried.

“En, alright. Thank you, mother. I’m fine.” Yan Huan smiled. At this moment, his smile did not contain any impurities.

When Ye Shuyun heard Yan Huan Say ‘Mom’, she felt a complicated sense of discomfort in her heart. In fact, she was still quite a pitiful child. She was an orphan. If they did not care about her, who could care about her?

“Mom, I’ll bring her in first.” Lu Yi held Yan Huan’s hand tightly and brought her into the room. Then, he helped her take off her coat and let her lie down.

“Sleep for a while.”

Lu Yi sat down and pulled the blanket under her chin.

“I’ll stay here with you.”

“Okay.” Yan Huan closed her eyes. Then, she suddenly thought of something.

“What’s Wrong?” Lu Yi stared into her eyes and saw that her eyes were very big and beautiful. Almost all of them were clear and transparent, and his shadow was reflected inside. Almost every second was him, other than him, there was nothing else.

“Lu Yi,” Yan Huan sat up and hugged his neck. “Shall we have a child?”

Lu Yi’s hand on her shoulder paused for a moment.

“You’ve only just recovered from your fame. If you’re going to have a child, you might not be able to act for two years. Are You Willing?”

“Yes, I’m willing.”

In the past, Yan Huan felt that nothing was more important than acting, and acting was all she had. However, she had forgotten why she wanted to act in the first place. It was not for anything else, but to live, now that she had already acted so many times, it was enough. She actually did not have much ambition. In fact, this was the life she wanted. A man who held her in his hands, he had done so much for her.., and what she could do for him was to help him give birth to a child and continue his bloodline.

Yes, she would stop filming and give birth to a baby.

Lu Yi gently stroked her hair. If she really wanted to give birth, he might have to ask he yibin again. was her body suitable now? Was it better for her to rest for a few more days, he was afraid that she would get sick.

Lu Yi waited for Yan Huan to fall asleep before walking out. Then, he took out his cell phone and leaned against the corner of the wall to make a call.

“Yibin, it’s me.”

“Lu Yi, what’s wrong? Is she having a fever again?” He Yibin’s head hurt whenever he mentioned Yan Huan’s name. Whenever he answered Lu Yi’s call, his heart would tremble. Why did other people marry wives who were as strong as cows, but Yan Huan was always sick. Of course, this was also related to Lu

Yi. who asked her to give Lu Yi so much blood in one go? There was too much blood transfusions and it was not well-adjusted.

But she had just been discharged from the hospital. Could it be that she was going to come in again?

No, he really wanted to howl in his heart. As long as Yan Huan came, the entire hospital would be in chaos. and he really hoped that that great-aunt would not come back again. Even if she did come back..., could she wait for a while.

She was a celebrity, causing the medical staff in the hospital to be on tenterhooks every day. They were afraid that Yan Huan's fans would find out and rush into the hospital., their hospital really could not afford such a huge Buddha.

"No." Lu Yi raised his head and looked at the night sky outside. He could not help but feel his heart fill up. Actually, he also knew when it started. It was as if he had finally caught her.

"I just want to ask you, with her current body, can she get pregnant?"

"Pregnant?" He Yibin picked up the cup and took a sip. He couldn't help but spit out the saliva.

"Lu Yi, you're not joking, right?"

He Yibin really thought that Lu Yi was joking. Pregnant? Really? What kind of international joke was that? In the past, their wives didn't have any children. The three of them were brothers in distress.

That was why he yibin was so surprised. Pregnant? Oh God.

"Lu Yi, do you want to have a child?"

"Yes." Lu Yi's lips lifted slightly. This should be a smile. "If she wants to have a child, then let's have one."

He Yibin pressed the cup on the table forcefully. "Lu Yi, didn't we agree that we won't talk about marriage or having children in the future?"

"Who agreed with you?" Lu Yi raised his eyes indifferently. "You and Lei Qingyi made an agreement. Don't look for me."

Bao Yibin used his claws to scratch the table.

There were really women without loyalty. If Lu Yi had given birth so early, he would have been beaten to death by his parents. These three old bachelors might be easy to deal with, but they were going to get married and have children alone.

They were still bachelors. What were they going to do in the future? Would they still be able to survive?

However, they couldn't stop Lu Yi from giving birth, right?

"Tell me, when can she get pregnant?" Lu Yi asked he yibin again. If she couldn't, he would use contraception. If it was possible, he wouldn't avoid it. Let nature take its course. The child would come whenever it wanted, they didn't stop him.

"Let me think about it..." he yibin touched his chin, "Actually, her body is just a little weak right now. It's not a big problem. If you want to have a child, you can do it yourself. Usually, you have to pay more

attention and there won't be any big problems. Also, he yibin is sincere. He's really sincere. Can you close the window in the future and not let her be exposed to the wind again? Do you know how much my head hurts every time she comes? I'm just afraid that others will know."

He had wanted to continue talking, but Lu Yi hung up on him. He Yibin stared at the phone in his hand. He put the phone on the table, then put one foot on the chair and pointed at the phone with the other. "I told you to hang up. I told you to anger me. When your son is born, I will bully your son. Every time I give him an injection, I will make him cry. I will make Your Heart Ache."

Yes, Lu Yi couldn't beat him. That man was too much. He didn't know pain at all. But he was a normal person. He was afraid of pain.

So, he could hit his son in the future.

He wanted to see if Lu Yi would dare to be arrogant in front of him again.

### **Chapter 1483: was about poverty**

He did not know that the door outside was opened and closed gently.

"Let me tell you..." a group of young nurses huddled together and talked about he yibin, "There might be a problem with doctor he. The nurse who spoke pointed at her head. I saw him alone in the office, cursing at his phone." As she spoke, she imitated he Yibin's behavior at that time, one of her feet was on the top of the chair, and the other was pointing at her phone. Her expression and actions were exactly the same as he Yibin's just now. She was almost 80-90% proficient in it.

"No wonder doctor he is considered tall, rich, and handsome, but he has always been single. It turns out that he has a problem with his brain."

"Then can he still be a doctor?" Another nurse asked in confusion. "If there's a problem, how can he still be a doctor?"

"He's not stupid when he's looking at patients," another nurse could answer this question. "I heard that some people look exactly like normal people on the surface. There are only certain aspects that are problematic."

They were discussing the problem of doctor he's mental illness word by word, but they did not know that the lunatic he that they were talking about just happened to be standing outside the door. His entire face was livid.

On the other side, Lu Yi hung up the phone and walked back to his room. He was ready to finish the unfinished work and accompany her here.

Ye Shuyun saw her son leave and hurriedly ran into her room. She held Lu Jin's hand and said excitedly, "Lu Jin, let me tell you. I heard my son Call Yi bin just now." "Guess what he said?"

"Why, is there something good?" Lu Jin knew it the moment he saw ye Shuyun's expression. There must be something good.

But what kind of good thing could make her so excited.

“Isn’t it a good thing?”

Ye Shuyun was so happy that she didn’t know what to say. She wanted to find someone to share the good news with her now. Otherwise, she would really suffocate.

“Lu Jin, let me tell you...”Ye Shuyun pulled Lu Jin’s arm and shook it vigorously. It was clear how excited she was.

“I heard Lu Yi asking Yi bin when he and Yanhuan can have a child. This child always has such thoughts. I’m just afraid that there’s something wrong with him that will prevent us from having grandchildren for the rest of our lives? “This is finally good. They really have such thoughts. Maybe by this time next year, we’ll have a grandchild to hug. Who knows, it might even be a granddaughter. Look at Yan Huan’s looks. If you give birth to a granddaughter like her, if you carry her out, everyone will be so envious of you.”

Lu Jin rubbed his hands. Wasn’t that right? His smile was so wide that it almost reached his face. Wasn’t he happy? He didn’t have any expectations at the moment. He was looking forward to having a grandson or granddaughter.

In the past, Lu Yi and that Fang Zhu did not seem like they were going to get married. In the end, they broke up. At that time, he was worried with Ye Shuyun. He was worried, would they be able to hold a grandson in the future.

And now, a grandson was right in front of them. Really. Maybe next year, he would be able to hold a grandson.

From this day onwards, Yan Huan discovered that her food had changed. Not only was the quality better, but the quantity had also increased. She had always only eaten a small bowl of rice. But now, she was going to eat a big bowl of rice., was she going to be stuffed to death?

“Eat more.”Lu Yi picked up some vegetables and placed them in her bowl. “You’re too thin. It’s not easy to conceive a child.”

Yan Huan could only endure it. In the end, even if she tried to stuff it into her stomach, she would still stuff it into her stomach. Therefore, in just a month’s time, she had gained weight. Most importantly, her complexion was now very good and her complexion was good, her spirit was also good.

At this moment, she realized that she had lived a new life. It was not like when she was by Lu Qin’s side, where she was covered in dust and dirt. She still did not have any expectations and future.

However, during dinner, Qin Xiaoyue curled her lips. Was it because Ren Chuni did not bring any jewelry? She wanted one piece for every piece she brought. No one would be comfortable with that.

However, no matter how uncomfortable she was, she could not not bring anything. In a house like this, sometimes, the jewelry was just like face,

just like how she was back then, she used to earn money by herself and liked to buy it whenever she wanted. It was worth hundreds of millions a year. Sometimes, if she worked hard, it could be worth hundreds of millions. Therefore, no matter how much Qin Xiaoyue liked it back then., no matter how

greedy she was, she could still support her. However, it was obvious now that Meng Ni had no intention of supporting Qin Xiaoyue.

The Lu family was a wealthy family, but it had its own foundation. Everything in the Lu family was with old master Lu. Lu Jin and Lu Qin had their own income, so they would have their own jobs, they didn't need to rely on old master Lu at all. Moreover, each of them would have their own investments. After investing, they would earn a lot. Therefore, she believed that Lu Yi didn't lack money, but it was hard to say for Lu Qin.

After all, Qin Xiaoyue didn't have a job. The only things she could do in a day were to eat, wear, live, and spend.

Lu Qin's business was just beginning. He didn't have much money to earn. When they were together, she had always been the one to subsidize the mother and son. Now, it was changed to Mengni.

And now, she wanted to know exactly how much money this Mengni had now. Also, could she support Lu Qin and his mother?

It wasn't easy to support Lu Qin and his mother.

When they returned to their room, Yan Huan asked Lu Yi this question.

"Who do you think she is? How much money do you think she has in her hands?"

Lu Yi asked Yan Huan, then let her sit in his arms and let her change to a more comfortable position.

Yan Huan thought about the rumors about Mengni. In their circle, some of their family backgrounds were actually similar. There wasn't much transparency, and everyone was more or less hidden. However, she was more transparent, she was just an orphan without parents, so she wasn't afraid of others finding out.

However, the news that Mengni was a rich girl was the official news, but it turned out to be wrong in the end.

"I think she's still quite rich. After all, she's shot so many scenes." But why? She couldn't tell how Mengni was rich, but she was clearly very poor.

"She's not like you. She's very lucky. She became famous immediately. Her films are also very profitable." Lu Yi stroked her hair gently, as if he was smoothing the fur of a kitten.

#### **Chapter 1484: What's the use**

"Mengni doesn't have such a good family. In fact, she's from an ordinary family. However, this might be some packaging that his management team did for her, and it's the same path they took, so..." Lu Yi mocked, "Even Lu Qin believed it."

But in reality, Mengni's family background was average. The money she earned was actually a lot of noise and laughter. She did a good job on the surface, but the money she earned was also used to do this kind of publicity and packaging, in fact, she could have been penniless.

Mengni's family background had been soaked in too much water. Moreover, Lu Yi would not tell Yan Huan that there were some things that he was the instigator behind the scenes.

"Isn't Lu Qin at a loss?" It was no wonder. He did not want to go home anymore. Yan Huan thought about how Lu Qin had lost his wife and lost his army, Qin Xiaoyue could no longer be arrogant in front of a pair of upturned nostrils in the future. She was very happy in her heart.

Lu Yi's fingers had been stroking her hair. Her eyes were clear and she liked to smile more. Compared to her foolishness at that time, she was more beautiful and smart.

A good man and a true relationship would make a woman even more beautiful. And now, her pair of deer-like eyes were extremely clear, just like a child, she was completely defenseless against him. She even threw her few bank cards to him. And these were all things that Lu Qin would never give to him even if he sold himself in the past.

This was because Yan Huan had never trusted Lu Qin, but she had completely trusted Lu Yi. She had given everything she had to him.

Just as Yan Huan was about to say something, Lu Yi slowly reached his hand into her clothes.

The corner of his lips fell on her brows. "Baby, let's not bother about other people's matters. Let's continue giving birth."

Right now, the two of them were trying their best to give birth, but Qin Xiaoyue's recent life outside was terrible.

She was almost out of money to spend, and Mengni couldn't squeeze out any benefits. It just so happened that Lu Qin had returned.

"I need some money to buy things."

Qin Xiaoyue stretched out her hand to Lu Qin. "Give me some money."

"Didn't I give you 100,000 yuan?" Lu Qin glanced at Qin Xiaoyue, his eyebrows knitted tightly together.

"What's the use of 100,000 yuan?"

Qin Xiaoyue raised 100,000 yuan, almost scratching the back of her hand. "I can't even afford a bag. As long as Yan Huan gives me money, it's more than a million yuan each time. Now, it's only 100,000 yuan. What's enough to buy?"

Yes, Yan Huan had already taken care of Qin Xiaoyue's mouth. In the past, when she reached out for a million yuan, Yan Huan would also give it to her. Anyway, at that time, every time Yan Huan accepted an advertisement or an endorsement, it was money. Although, at that time, she no longer accepted any major dramas. However, the interest generated from her savings every year was enough for an ordinary family to live for several lifetimes without having to worry about it.

At that time, one million Qin Xiaoyue was not even enough to spend in a month. Now that she was given 100,000 yuan, what could 100,000 yuan do? Ye Shuyun never looked at the price when she bought things every year. A few days ago, she bought a jade bracelet that was worth more than 10 million yuan.

She did not want more than 10 million yuan. Could it be that she only wanted one million yuan?

“Mom, I don’t have any money recently.” Lu Qin was really annoyed by Qin Xiaoyue, “It’s not like you don’t know about our situation. Why do you have to compete with first aunt? First uncle earns money, Lu Yi earns money too. Now that he has a daughter-in-law who can earn money, what can they compete with?”

“Then go and ask for Mengni. Isn’t she rich? Didn’t she shoot so many scenes? Isn’t she also very famous? I don’t believe that she doesn’t have money in her hands.” Qin Xiaoyue had also become smart now, Yan Huan had held back back back then.

Mengni might have held back a few times.

But no matter how many hands she held back, she wouldn’t be able to get a single cent now. If she didn’t get it, wouldn’t she still have her son?

Qin Xiaoyue thought of her current life and was very frustrated.

Although they didn’t need money to eat and live here, it wasn’t like they didn’t need money to socialize outside. Old Master Lu was giving her living expenses, but what was the use of living expenses.

When Lu Qin heard this, he felt as if something was stuffed in his head. Asking money for Mengni, Heh... for her, she had to have it first. He had already checked Mengni’s family background, she was so poor... he couldn’t imagine it.

Yan Huan walked in from outside. She had just returned from shooting an advertisement. The endorsement fee was very high. Although there was no television or movie, she had started to have many endorsements and advertisements, of course, the remuneration was very high. She would even earn some extra money as a distraction.

“Knock, knock...” she knocked on Ye Shuyun’s room door.

Ye Shuyun opened the door and saw Yan Huan standing outside, smiling innocently and cutely.

Compared to the past, she loved to smile a lot. Of course, women who loved to love were always likable.

“Mom, this is for you.”

Yan Huan handed a bag to Ye Shuyun.

Ye Shuyun took it over and opened the bag. Inside was a passbook. On the Passbook was a million in cash, which was Yan Huan’s monthly allowance.

Ye Shuyun could not help but sigh. “Do you think there’s a daughter-in-law who spends money for her mother-in-law?”

Yan Huan pointed at herself. She was one of them.

“Originally, Lu Yi wanted to give it to you, but his current salary is used to support me, so I can only give it to you. I recently received a few advertisements and earned quite a lot. Mother will spend it,” she said to herself, then, she pointed at her own finger. “I wasn’t sensible in the past and caused a lot of trouble for you and father. I’ll be better in the future.” This was the first time she said such a deep reflection.

Actually, she knew what was going on, she just wanted to say it. If she didn't say it, others would never know. If she admitted her mistake, she also wanted to forgive.

Ye Shuyun only smiled. Actually, she couldn't say anything. She already somewhat forgave Yan Huan, but it would take some time for her to change her mind. After all, it wasn't easy to change her mind.

Although the process of Yan Huan marrying her son wasn't good, the ending was still pretty good. Although she didn't say anything on the surface, in her heart, she treated Yan Huan better than before.

Moreover, Lu Yi's character was cold and hard. He didn't know how to be romantic, had no affinity with women, and no women liked him. After so many years, there was only one Fang Zhu, and Fang Zhu still had the same character as him, she used to think that the two of them were a perfect match, but now, she felt that it was nonsense.

How could these two people live together? When she thought about it now, she was a little scared. If these two people really got married in the future and did not sleep together, how could she still have grandchildren,

#### **Chapter 1485: financial problems**

As for Yan Huan, she was too beautiful and bold. She was not afraid of Lu Yi at all. Lu Yi could not do anything to her. The two of them did not quarrel either. The main reason was that they could not quarrel. Yan Huan was throwing a tantrum, Lu Yi coaxed her. Moreover, Yan Huan was so sensible now. There was no one who did not love him. Yes, there was no one who did not love him. The reason why Lu Yi was so tolerant and protective of Yan Huan was not because of anything else, it was because he loved her.

Yan Huan came out of Ye Shuyun's room. She had just entered her bedroom when she saw that Lu Yi had already returned.

"You're back." Yan Huan pounced over. Lu Yi had already reached out and picked her up,

"What if you fall?" Lu Yi's face darkened. "You're really bold. How did you fall last time?"

"I fell myself." Yan Huan was really a burden. She didn't remember to hit him. She just wanted to give Lu Yi a surprise, but in the end, she fell herself. She fell so hard that a big bump appeared on her head.

"Where did you go?" Lu Yi sat down and let Yan Huan sit on his lap. "Why? Did you forget that you were the one who recovered? Why didn't you come back earlier?"

He knew that Yan Huan was filming the advertisement. When she came back, she was rushing home. On the way back, he was stuck in traffic for a while. If there were no accidents, Yan Huan should have come back first, why was it that he was the first one to arrive this time? He had waited for her for half a day and only now did he arrive.

"Did I send mom some pocket money?" Yan Huan leaned on Lu Yi's shoulder.

"Are you willing to?"

Lu Yi asked Yan Huan. Yan Huan had given Ye Shuyun quite a lot of money. Not to mention the gemstones she had sold, the money she earned from her commercials was all given to Ye Shuyun. She didn't even keep much for herself.

"I'm willing to." Yan Huan hugged Lu Yi's neck tightly. "I have a husband to support me. I spend my husband's money."

Lu Yi rubbed her head and hugged her a little tighter. He spoiled her too much. He spoiled her so much that she was smaller. She also liked to smile more than before. Of course, she was also sensible. Yan Huan didn't care about anyone in the past, she treated everyone in the Lu family as her enemies. Every time she spoke, she would always be prickly. Now, she had recovered and was much gentler. She also liked to interact with the elders. Even Old Master Lu's opinion of her had changed, furthermore, Ye Shuyun, who was originally surnamed Zi Hao.

Lu Yi held her face and pulled her a little closer. "It's time to give birth."

Yan Huan's heart slightly wavered. It was that kind of numbness all over her body again. She was still talking about having a child. She was clearly still using contraception.

"Let's Wait a little longer." Lu Yi pressed her under his body. Having a child had become a kind of code between them. Of course, Lu Yi had never thought of letting Yan Huan have a child this year, so they were both using contraception, firstly, Yan Huan's health was still not very good, and they had to take care of her for another year. Moreover, they had just gotten together, and if they were really pregnant, they wouldn't be able to do certain things. However, Lu Yi realized that if he didn't do something every day., his body was empty, so he let him indulge for another year.

"Lu..."

Yan Huan still wanted to speak, but in the end, Lu Yi covered her red lips. What entered her mouth was his breath, that kind of sexy, almost irresistible male charm.

So, she didn't say anything..

Yan Huan's endorsements had increased a little more recently. Initially, she didn't want to accept them, but when she saw the pitiful look on her assistant's face, she could only accept them in the end. Because many of them were pre-arranged, this couldn't be changed, moreover, she didn't want her popularity to suffer any more damage.

She had shot quite a number of commercials, and she had also shot a few big international brands. Recently, she seemed to be particularly friendly with these big brands, and her net worth had also started to rise by quite a bit. However, she wasn't too keen on accepting them now., because she was now focusing on her family, she wasn't very enthusiastic about acting anymore. Of course, after her popularity rose, other than earning fame for her, the money she earned was also increasing, and she threw all this money to Lu Yi to manage. Lu Yi would find someone to invest it.

On this day, Yan Huan directly gave Ye Shuyun 10 million yuan.

Ye Shuyun looked at the 10 million yuan passbook and was in a daze for a long time.

"Just be happy." Lu Jin took the passbook from his wife and placed it on the table.

“Am I Happy? I was clearly in a daze.”Ye Shuyun didn’t admit that she was happy. She clearly didn’t have any expression.

Yan Huan had no choice now, but there was still something wrong with her.

“You and I can’t understand.”Lu Jin put his arm around ye Shuyun’s shoulder. “You actually can’t bear to part with your son. This mother-in-law and daughter-in-law can’t possibly become friends because her son was snatched away.”

“But I’ve never thought of that?”Ye Shuyun denied, “It’s already good enough for that Kid to marry a wife. It’s better than him being single. Qingyi hasn’t married yet, and my sister complains to me every day. She says that no one wants her son, and she’s not capable enough to give lei qingyi a good face. She doesn’t need to be good-looking, as long as she’s a woman.”

Lu Jin did not argue with Ye Shuyun. This woman was a hypocrite. She did not see that ye Shuyun’s mood had improved a lot recently. It was all because of second brother’s family. They were courting death again.

Because second brother’s family had financial problems, her pocket money was starting to run out. The billions were still under Lu’s name. After the investment, each of them had a share of the dividends, even Old Master Lu had some.

And even now, Lu Qin was still a second-rate star. In the past, his fame rose very quickly because of Tongyan Huan’s acting. At that time, Yan Huan didn’t know why, but he was always trying to make himself look bad, so her roles made Lu Qin live, but they made herself look bad. If she didn’t make a comeback this time, maybe she wasn’t waiting to die, and the grass on the grave grass would grow taller.

As for a profession like acting, it was a profession that fed on youth. If there was no drama for them to act in, and there was no good drama for them, how would they be able to eat.

On Lu Qin’s side, he had always been filming, but he still did not have much money to earn.

Meng ni did not have any drama at all, and Qin Xiaoyue had all that money in her hands. Even so, she still wanted money from her. She was getting married, not raising a gigolo for her own.

Lu Qin and his mother were liars.

As for Qin Xiaoyue, Meng Ni was the real liar.

Now, the mother-in-law and daughter-in-law were tearing their faces apart. They would quarrel with each other at any time. Every day, they could be seen moving their lips and fighting. The more they fought, the more disgraceful they were.

Ye Shuyun did not go home. She followed Yan Huan to get a beauty treatment. They went shopping, spent money, and took photos everywhere. The relationship between the two became better. Of course, when she looked better..., she also appeared to be a lot younger.

**Chapter 1486: The 1401st visit**

“Can you control your wife?” Lu Jin pushed the door open with a bang and walked into his son’s study, “What’s Wrong?” Lu Yi raised his face and put his notebook aside. “What’s wrong with my wife? She’s fine.”

“Fine?” Lu Jin really wanted to slap this kid now, but he had grown up and couldn’t hit him anymore.

“Your wife kidnapped my wife, and you’re saying it’s still okay?”

Lu Jin put his hand on the table with force, his voice almost biting. “You’re wearing fancy clothes every day. What are you doing?”

“Nothing?”? “Lu Yi took his notebook over again. “Huanhuan took mom to do some maintenance. Women get better after doing it. Haven’t you noticed?” Lu Yi raised his head and looked at Lu Jin again. “Dad, could it be that you’re already old, so you don’t have such thoughts anymore?”

Lu Jin suddenly felt his old face burn. He stretched out his fingers to touch Lu Yi. Then, he slammed his hands on the table and asked awkwardly, “Is it really that magical?”

“You didn’t experience it?”

Lu Yi asked Lu Jin in return. This was what Yan Huan told him. She felt that ye Shuyun was not old, but at this age, a woman really did not have as much interest in that aspect as she did, but a man was different, men would still have such thoughts.

Therefore, Yan Huan brought ye Shuyun to the clubhouse that nursed women’s bodies. The membership fee was very expensive, but they did not care anymore. They nursed them for about a month, ye Shuyun was surprised to find that her menstrual period, which had been gone for a few years, had returned. Moreover, she seemed to have some impulses in that aspect.

This was already a woman in her fifties, but she actually came again. This also surprised ye Shuyun. Of course, it was impossible for Lu Jin not to have tasted the sweetness.

Women understood women, so naturally, men also understood men.

“Then get Yan Huan to bring your mother a few more times.”.

Lu Jin stood up and coughed a little. It was a little awkward to talk about this with his son. No one wanted to admit that they were old. Of course, it was the same for him. In fact, he was not in his fifties. In fact, he was still very young., as long as he wanted to, he was still young. Moreover, his body had always been better than those of the same age. Of course, there was also a need for that. It was just that ye Shuyun was getting older, since menopause, he was not too enthusiastic about it, so he slowly faded away. However, this was an accident. The two of them were young again, so he could be considered to be in high spirits recently, this feeling was quite good.

At this time, Yan Huan was doing female care with Ye Shuyun.

“Miss Yan is a little cold. After these treatments are done, it will be easy for her to get pregnant in the future.”The beautician carefully massaged Yan Huan’s lower abdomen with her fingers. This time, it was nothing much, but after a long time., yan Huan could feel it on his own. Especially in the past, her

menstrual cramps had always been so painful that she was dying of pain. After this treatment, it was much more comfortable.

Ye Shuyun was also very comfortable. Of course, there was nothing that could make a woman feel happy when she was young, especially when her period, which had been gone for almost ten years, was here again. Not only did this make her body younger, but even her body also became younger.

She sighed, and her entire body relaxed. She was also drowsy and was about to fall asleep.

It was the same for Yan Huan,

but for some unknown reason, she had actually come to that place again.

Was this the Liuyuan Garden?

But why was it different from the Liuyuan garden that she had gone to? He could not tell what was different. She continued to walk forward, and then directly walked towards the closed door..

He didn't know what was inside the door, but there seemed to be some kind of gravity pulling her toward it. She walked forward step by step, but she found that the closer she got, the more difficult it was for her to move forward, it was as if there was a rope wrapped around her waist. It was easy for her to retreat, but if she moved forward, each step became more and more difficult, and each step became more and more tense.

When the rope reached this point, it was almost as if the string had been tightened.

She stopped walking and then took a step back. There was almost no yin energy, but if she were to move forward, it would be as if her body was being torn apart. Every step was painful., every step was as if it wanted to split her in two from the middle.

The more she walked, the more painful it was, and the more unbearable it was.

She was afraid of pain, she was also afraid of the cold, but she did not know why, even if it hurt now, she still wanted to go there. She did not know why, she did not know anything. She only knew that she wanted to go over, she wanted to know, what was there, why she could not reach the end every time, why did she have to stop here every time, why she always wanted to know what was there.

What was attracting her? She wanted to know. She really wanted to know. She really wanted to know.

She walked forward step by step. She was also covered in cold sweat from the pain. It was as if the road ahead was no longer a road, but a sharp knife. It was the kind of sharp knife that would pierce through the soles of her feet after a few stops.

One step, two steps, three steps..

There were still a few more steps. She did not know. She just walked forward numbly. She could only use this breath of her own, her own perseverance. This kind of perseverance was almost enough to press her down.

She still wanted to know.

When she finally reached the door, she could no longer muster any strength. All she could feel was that her entire body was covered in sweat. She reached out her hand and placed it on the door handle.

Her palms were wet, her fingers were trembling, and the back of her hand was in pain.

She gently twisted the door. The moment the door opened, she suddenly opened her eyes before she could enter.

“Huanhuan, what happened to you?” Ye Shuyun asked Yan Huan worriedly. How could she have a nightmare when she was sleeping so well? She was still covered in sweat. If the beautician at the side had more experience, after pinching Yan Huan..., she also woke up. She was so anxious that she wanted to cry.

At this moment, Yan Huan’s clothes were almost drenched in sweat. Even her hair stuck to her face.

“Mom, I’m fine.” Yan Huan forced a smile, but she really could not smile. The service brought her a new set of clothes. Yan Huan took it over and went to the changing room to change, in the mirror was her pale face. She touched her face. She had never told anyone about such a strange dream, including Lu Yi. Yes, this was a dream, it was a dream, it was a dream, right.

Since it was a dream, what was the difference between saying it and not saying it?

#### **Chapter 1487: Don’t Forget**

She let out a sigh of relief and placed her hand on the doorknob. She twisted it gently, and for some reason, a strange feeling rose in her heart.

She turned around and looked at herself in the mirror again.

There was really a moment when she felt that she did not exist, that she did not exist in this world.

How could she have such a terrifying thought? She hurriedly ran out, her heart thumping non-stop. She was afraid, but also afraid.

When Lu Yi returned, he saw Yan Huan hugging his knees. He didn’t know what was going on.

“What’s Wrong?” Lu Yi took off his shoes and sat down. The moment Yan Huan saw him, he pulled his body into his embrace.

“Lu Yi, I’m scared...”

“What’s wrong? Did you have a nightmare?” Lu Yi hugged her tightly and gently caressed her hair. His voice was very deep, very similar to the sound of a cello playing. It was not stirring the hearts of people, but it was calming them down, it was calming them down.

Yan Huan hugged his waist tightly and buried her face in his embrace.

How was she going to tell him that she was just afraid, afraid that she might not exist in this world and that she didn’t even know where she came from.

Why was this thought so crazy, even crazy.

“I’m afraid.”

She sniffled and her hands hugged his waist tightly.

“Don’t be afraid, I’m here.” Lu Yi kissed her hair and hugged her a little tighter. Then, he pulled the blanket over her and wrapped her up like he was hugging a child, that night, Yan Huan seemed to be really frightened. She did not sleep well the entire night. Even Lu Yi did not sleep well.

It was not until the next day that she fell asleep in a daze

“Mom, did something happen when you guys went out?” Lu Yi did not go to work today. He could not rest assured about Yan Huan. Yan Huan’s condition was not good right now. How did she end up like this, he couldn’t sleep the whole night, and he was talking in his sleep.

“Nothing happened.” Ye Shuyun couldn’t think of anything. They first went to buy clothes, but Yan Huan didn’t buy them for himself. He bought them for Lu Yi, and he also bought some lingerie to stick to his body, Yan Huan always liked to buy expensive clothes, the kind that was comfortable and clean.

After that, she would go to a SPA to recuperate her female body. It wasn’t the first or second time that she had gone there. Recently, she had been going there frequently. Furthermore, every time she went there, she would come back in good spirits, just like her.., in the past, she had suffered from insomnia, but now, not only had she recovered from it, her taste had also improved a lot. Of course, the most important thing was that her skin was clear and she looked young, in addition to that, she had recently found her youthful tail. Naturally, she ate well and slept well.

This was what they did in a day. There was nothing different from usual. In the past month, she and Yan Huan had gone out like this five or six times. There really wasn’t anything different.

“Oh right,” Ye Shuyun suddenly thought of something, “I fell asleep while we were doing the nursing. When I woke up, I saw that she wasn’t doing too well. Her entire body was covered in cold sweat and she couldn’t wake up even if she screamed. “This really scared me.” She patted her chest. “Fortunately, it was nothing serious. A staff member came over later and said that it was because the air circulation here wasn’t good. It might have caused Yan Huan to have an uncomfortable nightmare. Later, when she woke up, she didn’t feel anything.”

“I understand.” Lu Yi didn’t ask any more questions. Instead, he walked out. At this moment, no one knew what was hidden in his black eyes. That kind of thing could even be said to be pain.

However, why would there be pain?

What could make him feel pain now? He was at the peak of his life. His career was successful. His family and eyes were also prominent. He was also married to the woman he loved the most. As long as he was willing.., he would soon be able to have his own child.

And with their looks, the child they gave birth to would definitely be an extremely beautiful child in the future.

However, he was still in pain, inexplicably in pain.

And this was a pain that no one knew about, and a pain that no one could understand.

Lu Yi walked into his room again and saw Yan Huan still hiding under the blanket like a helpless child. He took off his shoes and lay down as well, then, he picked her up from behind.

“Don’t be afraid. No matter what happens, I’m still here.”

“Mm, I’m not afraid.” Yan Huan rolled over and smiled at her again. Her eyes were as exquisite as a deer’s. They were as clean and pure as a 25-year-old woman’s eyes, she had experienced too much and had no family. She had always walked alone. She had suffered, she had suffered, she had suffered, she had been in pain, she had been deceived.., but even now, she still protected her original heart.

In fact, no matter where she was, no matter what had happened to her, her heart had never changed.

As long as she was Yan Huan.

“I’m going abroad to shoot an advertisement the day after tomorrow,” Yan Huan said while playing with Lu Yi’s finger. “These schedules are fixed. It’s an advertisement for a big brand.”

“Okay, go ahead.” Lu Yi rested his chin on her forehead, “I’m not afraid of you being outstanding. You can choose the life you want because no matter what your choice is, I will support you. Also...” he hugged the woman in his arms tightly, so tightly that it almost hurt her.

“Don’t forget...” his thin lips moved slightly, but his voice was very low. It was probably only him. It was his mumbling,

don’t forget. Yes, don’t forget.

Don’t forget what?

No one knew.

Yan Huan left on the next day by plane. This time, it would be around half a month. Her popularity was extremely high, so she had received a lot of endorsements. Even if she were to finish filming these scattered endorsements.., it would probably take about two to three months. Of course, the money she earned would also be a lot more.

Although she was talking about flying overseas to shoot an advertisement, she did not forget about her family. When she was free, she would buy some things to send home by air. Some were expensive, and some were cheap. However, most of them were local specialties, they were also things that were not available in China.

The shooting of the advertisement was smoother than they had expected because Yan Huan’s performance was very good. Almost all of them were successful in one go. In other words, it took one day from the shoot to the end of the shoot. The time saved by shooting the advertisement.., she only stayed in this small foreign town for a few days. The scenery here was very good, but no matter how good it was, Yan Yan felt that she did not really want to appreciate it. She was just waiting for the advertisement to confirm that there were no problems, originally, they had said that it would take about a month to complete the journey. In just half a month’s time, she already wanted to go back.

**Chapter 1488: murder**

She had also checked all the things she had bought back with her. She had specially bought all these things for Lu Yi. Of course, she had not told anyone when she came back, she just wanted to give Lu Yi a surprise.

However, just as she walked into the Lu family's door, she heard the sounds of chaos in the house.

Qin Xiaoyue and Mengni were fighting again.

Yan Huan had seen Qin Xiaoyue acting irrationally and shamelessly, but he had never seen such a fierce and undignified fighting style. At this moment, Qin Xiaoyue was already half-old, because she was too lazy to eat, she was raised by the Lu family until she was white and chubby. At this moment, she was piled up like a white-furred pig, and this pig still raised its hoof. It slapped Meng Ni, who was beaten so badly that she could not retaliate, on the ground.

"You Little B \* TCH, how did you get such good things? Don't you know how to be filial to your mother-in-law? "What You Wear, what you bring, what you live in, and what you eat. Tell me, which of these things on you don't belong to my son? The few things on you that can be seen are all bought by my son for you. Of course, I'm the only mother of my son. How can it be given to a little B \* Tch like you?"

As she spoke, the Pig Trotter went forward and slapped Mengni. Mengni wasn't an easy target either. She was slapped twice and her brain was in a daze. She had grown up., no one had ever slapped her before. Mengni used to be the darling of the entertainment industry. Even Yan Huan was a supporting role for her. But now, she was being slapped like this?

As she touched her hand, she felt her high heels. She raised her hand and without thinking, she gave Qin Xiaoyue a high heel. Qin Xiaoyue's head hurt and before she could react., meng ni knocked her heel out again. The sharp heel hit the back of Qin Xiaoyue's head every time. Qin Xiaoyue cried out in pain and fell to the ground. Then, Meng Ni turned over and rode on top of Qin Xiaoyue.

At this moment, she was riding on Qin Xiaoyue's stomach. Qin Xiaoyue's fat was much softer than her dry bones. Of course, if she sat up, it would not cushion her butt, meng ni picked up her high-heeled shoes again, and the shoes randomly hit Qin Xiaoyue's body. Of course, although she was angry, she had not lost her rationality. She knew that the shoes could not be poked into her eyes, or else., if she poked Qin Xiaoyue blind, she would not be able to escape either.

Therefore, the heels of the high-heeled shoes in her hands poked Qin Xiaoyue's forehead again and again..

"Little Slut, slut, how Dare You Hit Me?"

Qin Xiaoyue's head was hurting from Yu Ni's hit, and her head was also dizzy. It was also because she was fat, so she could not pick it up for a long time. However, her mouth continued to curse that little slut slut.

With a slap, Mengni really had enough of Qin Xiaoyue. She wasn't Yan Huan, and she didn't Love Lu Qin much. Of course, she didn't have to endure Qin Xiaoyue.

With another slap, she ruthlessly slapped the other half of Qin Xiaoyue's face.

“Old Slut, who are you calling a little slut?” “You’re the B \* Tch, your whole family is a B \* TCH. Tell me, when have I ever spent your son’s money? Does your son have money? What does a man’s son have? I said I lied to you, but you still lied to me and tricked me into entering your house. The house is Uncle’s, the car is uncle’s, and I don’t even have the ability to do anything. It turns out that everything is an act, and I only rely on women. And you, who don’t want to test me, not only want my money, you also want my jewelry. I, Chu Ni, have seen so many people, but I have never seen you so Shameless. Your son is so Shameless, and you are a eunuch yourself, yet you still want to harm me?”

When Qin Xiaoyue heard this, she immediately flipped over. The two women pulled at their hair and scratched their faces, almost tearing off their clothes.

She immediately grabbed the high heels that had fallen to the ground. Just now, no matter how Qin ni smashed her, she would smash Meng Ni. She smashed her so fiercely that Meng Ni’s forehead was bleeding.

Yan Huan was stunned for a long time. This was really valiant. Also, what Mengni had said just now was that Lu Qin had become a eunuch. This was true. What her assistant had said that day was true. Lu Qin had been injured.., in the future, that thing could not be used anymore.

“I told you to hit me. I told you to dare to hit me.” Qin Xiaoyue was so angry that her face had turned ashen. Where did she get her rationality from? She would pretend that she had not heard anything. However, she could not say anything about her son.., he dared to ruin her son’s reputation. He didn’t want to live anymore.

She glanced around and took a fruit knife from the table.

Meng Ni was scared now. The knife and the sword had no eyes. Qin Xiaoyue’s hair was disheveled and her eyes were red with anger. There was a big bump on her forehead. What she hated the most was nothing else.., it was exactly what Mengni said just now. Her son had become a eunuch. How could her son become a eunuch? Her son was fine. Her son was the best in the entire Lu family. In the future, the entire Lu family.., it would definitely belong to her son, it would definitely belong to him, it would definitely belong to her and her son..,

she gritted her teeth so hard that they made cracking sounds. Her ferocious face was like that of an evil ghost.

When Mengni saw Qin Xiaoyue running toward her, she was also stunned.

Coincidentally, her sharp eyes noticed ye Shuyun who had just walked out, and she hurriedly ran toward ye Shuyun

“Aunt, save me!”

Ye Shuyun finally fell asleep. She was originally sleeping well, but she was woken up by the noise outside. She knew that it was Qin Xiaoyue’s mother-in-law.

However, when she heard Mengni’s voice, she was stunned for a moment and did not react.

Mengni had already rushed towards her and pulled her forward to block in front of her.

Ye Shuguo’s pupils constricted as she saw an obvious fruit knife stabbing towards her.

With a sizzling sound, it was as if the knife had entered her flesh.

Ye Shuyun's body spasmed for a moment, and then there was a sizzling sound. The knife was pulled out again, and blood splattered all over ye Shuyun's face.

"Ah, ah..."

This scream almost pierced through everyone's eardrums, but it was not from Chun Ye Shuyun, but from Mengni.

"Murder, Murder..."

Mengni raised her hands, blood still splattered on her face. She ran out as if she had gone mad, and her mouth was also shouting murder.

When she ran out, Lu Jin and Lu Yi had just returned. When they saw Mengni running out with blood all over her face, they were shocked as well. Lu Jin directly slashed at Mengni's neck, throwing her to the side, the two of them ran in as well.

When Lu Yi saw the scene inside, he was so shocked that his heart stopped beating. At that moment, he actually felt a suffocating pain.

#### **Chapter 1489: I promise**

The living room was filled with a thick stench of blood. Qin Xiaoyue was still standing there in a daze with a knife stained with blood in her hand. Ye Shuyun was hugging Yan Huan, who was almost covered in blood, in a daze.

Lu Yi quickly ran over. As he ran, he took off his clothes and pressed them on the wound on Yan Huan's shoulder. The wound on her body was also bleeding non-stop, just like a small river, it was almost draining her life force.

He had never seen Yan Huan like this before. He was afraid to see her blood, afraid to see her lifeless body.

That kind of despair, that kind of fear, that kind of fear, that kind of coldness. How could he bear it? How could he bear to let her feel pain? How could he bear to let her feel cold.

"Don't be afraid, it's fine." Lu Yi hurriedly carried Yan Huan and prepared to send her to the hospital. The ambulances nowadays were not as fast as him. He wanted to go by himself. He wanted to go by himself.

Yan Huan was actually awake the whole time. In fact, she was more awake than ever.

"Don't be afraid. Breathe slower." Lu Yi taught Yan Huan, but the heart in his chest almost stopped beating.

"Yes, I'm not afraid." Yan Huan's wound was very painful, but she was not afraid because he was there.

"You don't have to be afraid either." She leaned her head on Lu Yi's shoulder. "I feel that I'm fine. I didn't hurt any vital parts, so I'm not afraid."

Yan Huan lowered her long eyelashes weakly,

“Lu Yi, I’m cold...”

“You won’t be cold in a while.” Lu Yi hugged her, but he didn’t dare to touch her too much.

“I want to sleep for a while, okay?”

“Don’t sleep.” Lu Yi opened the car door and carefully placed her on it. Then, he kissed her colorless lips.

“Huanhuan, promise me that we won’t sleep. Can you chat with me?”

“Okay.” Yan Huan also knew that she couldn’t sleep. She had to stay awake all the time so that he wouldn’t worry and she could live.

“Good girl.” Lu Yi suppressed the worry and fear in his eyes. He quickly got into the car and drove straight to the hospital

He even forgot to fasten his seatbelt.

Yan Huan breathed slowly and stretched out her hand. In fact, she was still very scared. Her hands were covered in blood and her fingers were trembling and numbing. What should she do? She couldn’t feel her body temperature anymore.

“Yi bin, get ready immediately.” Lu Yi hurriedly called he Yi bin. “Huanhuan is injured. Her shoulder is injured, and she has lost a lot of blood.”

“Okay, I’ll bring her over right away.”

He glanced at Yan Huan again. Yan Huan’s eyes were still open. She was not asleep, but there was no trace of the past in her eyes.

She stretched out her hands, and both of them were covered in blood. Then, she gently placed them on Lu Yi’s legs.

“I’m not in pain, don’t worry. Don’t run the red light, and don’t go over the speed limit.”

Lu Yi tightened his grip on the steering wheel.

“Okay.”

Your pants were about to get dirty. Yan Huan placed her fingers on his legs. She could feel his body temperature, and he also shared his body temperature with her, so that she could wake up and live.

“Lei Qingyi said that you’ve been helping me this whole time, right?”

Yan Huan’s fingers grabbed his clothes again. She had to hold on to these things tightly. Otherwise, she would be afraid. She would be afraid that she would really leave him.

“It’s me.” Lu Yi drove the car very quickly and took the shortcut. There were fewer people here and the road was easier to walk on. However, he still exceeded the speed limit in the end and he still ran a red light. How could he bear it.., it made her so afraid and it hurt her so much.

“Why are you helping me?” Yan Huan couldn’t even speak at this moment. She was too weak and she grabbed Lu Yi’s clothes with all her strength. Her forehead was covered in fine sweat, however, she had to endure the pain no matter how much it hurt.

“I’ll tell you when you’re better, okay? This is a very long story.” Lu Yi stopped the car. At this moment, his clothes were covered in blood. It was Yan Huan’s blood.

He hurriedly carried Yan Huan out of the car, but when he saw Yan Huan’s current appearance, he was very afraid.

“Baby, I’m proud of you. You’ve done well.”

He kissed Yan Huan’s forehead. “So Promise me that we’ll do better. When you’re better, I’ll tell you many, many things.”

“Okay,” Yan Huan agreed, but she really couldn’t smile because she could no longer control her facial expression.

Lu Yi hurriedly carried Yan Huan and ran into the hospital. At that moment, he Yibin had already arrived.

“Why is there so much blood?” He removed the clothes that were covering Yan Huan’s body. He did not feel too good. There was too much blood.

“It’s okay. I’m here.” Lu Yi knew that he had the same blood type. Fortunately, he had the same blood type. He could still save his wife. He could also save his beloved wife.

“There’s no need. There’s a blood reserve today.”

He Yibin also let out a sigh of relief. When Lu Yi called, the first thing he thought of was to prepare blood. Today was an accident. It could be that Yan Huan’s luck was too good. There was a lot of blood reserve today, it was enough for her to use.

Soon, Yan Huan was pushed into the operating theater.

Lu Yi was standing outside. His hand was on the door of the operating theater. He did not let go, and the door could not be closed.

“You can’t go in.” He Yibin blocked him. You will affect us. “Don’t worry.” He comforted Lu Yi. “She will be fine. She did not hurt her vitals.”

“You Promise?” Lu Yi’s hand gripped the door of the operating theater tightly.

“Yes, I Promise.” He Yibin nodded. “I promise you that she will be fine. I will definitely return you a lively wife. We grew up together. When have I ever lied to you, right?”

Only then did Lu Yi slowly let go of his hand. The door closed in front of him.

At this moment, in the operating theater, he Yibin had already put on his clothes. He was going to perform the surgery himself. He could not trust anyone else.

“Prepare the anesthetic,” he said to the anesthetist. The anesthetic quickly took effect. Yan Huan had already fainted, and blood dripped into her body. But even so., even though she was so disheveled and pale, she was still extremely beautiful. And he yibin now understood why so many people liked her.

Even Lu Yi had kept his feelings for her for five years. He could not let go of her for more than five years. He might not be able to let go of her for the rest of his life. She had such charisma, didn't she?

He Yibin gently exhaled. Then, he lowered his head and began to focus on the surgery.

When the surgery began, he yibin heaved a sigh of relief. In fact, when he saw Yan Huan's injuries, he knew that they were not too deep. Coincidentally, they had entered through the gaps between the bones, at most, they had reached some of the lungs, and this was not a serious injury. At the very least, it was much lighter than when Lu Yi was sent in.

### **Chapter 1490: the evil woman**

When this operation was performed, he really felt relieved.

“Doctor he, you didn't hurt your lung.”

The doctor on the side said to he yibin in surprise, “This injury is much lighter than we thought. If we calculate it, it could be considered as a relatively serious superficial injury.”

Yes, he yibin was suturing the muscles and blood vessels inside.

She only injured some of the blood vessels, so the biggest problem was that she had lost too much blood. When the knife was inserted, it happened to be along the top, so it avoided her lungs. If it was a little lower., it could be the lungs. If it was a little more off, it could be the heart. If it was a little more to the left, it would be the carotid artery.

He Yibin could not help but break out in a cold sweat.

It was indeed very dangerous. It could be ten times more dangerous.

Outside, Lu Yi was still standing at the door of the operating theater. He was waiting there. Ever since the door to the operating theater was closed, he had been waiting there. He did not even change his movements.

He raised his hands and looked at the blood on his hands. It was hers. It had been five years. Five years. He had loved her for five years. But in the end, what was his use? What kind of husband was he, he could not even protect his wife.

It made her hurt. It made her afraid. It made her bleed.

He knew better than anyone else how timid she was. At night, it was so dark that she did not even dare to go to the toilet.

She was also afraid of pain. She peeled an apple and peeled a little skin off her fingers. She cried until her eyes were full of tears. He had to coax her for a long time before she would be happy.

But now, she had such a big wound on her body, and she was bleeding so much.

She did not even have 90 pounds of blood to bleed. It was because of his injury that she had given him so much blood, but he still had not recovered.

He clenched his fingers tightly, almost trying to resist the urge to rush in.

Yes, the surgery was still going on inside. He could not move, and he could not be impulsive.

Suddenly, the door of the operating theater opened. He Yibin walked out. He took off his mask, put his hand on his shoulder, and pressed hard.

“Don’t worry. It’s okay. Her injuries are lighter than we thought. She did not hurt her internal organs. It can be said that she only suffered some serious external injuries.”

“Will she hurt?”

Lu Yi spoke with difficulty for a long time before he finally said this.

He Yibin was stunned. He then grabbed Lu Yi’s shoulder. “You might not know this, but when you were shot, she asked me the same question. She asked, will you hurt?”

“Tell me, will it hurt?”

He Yibin wanted to cry at this moment. This was too f \* cking eye-watering. If two people like this were not suitable to be together, he really didn’t know who else was suitable to be together.

“Lu Yi, why are you like this?” He Yibin really cried this time.

“How am I going to find a wife in the future? Tell me, why isn’t there a woman in this world who would die for me?”

“Doctor he, why should I Die For You? Only then would I love you. A nurse doesn’t understand. Even if I live for you, I still love you.”

He Yibin suddenly turned his head and glared at the nurse. It was not easy for him to be sentimental for once. Was It Easy?

The nurse was also frightened by he Yibin’s expression at this moment. She quickly ran away with her tail between her legs.

At this moment, Yan Huan had already been pushed out of the operating theater. She still had an oxygen mask on her face. She was so weak that she looked like she was going to disappear at any moment. Her small face, which had just turned blood-red, was now deathly pale, there was not even a hint of color left in her face

However, she was still alive. Her chest was still heaving up and down. Her wound had also been treated, so she could stop bleeding. On top of that, the bottle of medicine dripped into her body one drop at a time, it was also protecting her life bit by bit, allowing her to survive.

Yan Huan was indeed just as he yibin had said. Her injury was really not too serious. He Yibin did not say it on purpose, nor was he trying to comfort Lu Yi. He did not even enter the intensive care unit, it should

be known that Lu Yi's injuries were only in the intensive care unit for a few days. He only came out of the intensive care unit on the tenth day.

Yan Huan went straight to the ordinary ward. Sometimes, it had to be said that Yan Huan was really fated to be in this hospital, especially in this ward. She had been in and out of this ward three times.

He Yibin really did not wish for this great-aunt to stop coming over, but why did this great-aunt not let him off?

This ward was very quiet. There were specialized nurses taking care of it. The doctor was he yibin himself. Under normal circumstances, no one would come over, and there was no need to worry about privacy, the doctor now paid special attention to Yan Huan, this patient. Of course, it was also in response to the request of the patient's family. It was also a ward that was sealed off. Other than the specific people who could enter, no one else was allowed to set foot in this place.

Lu Yi carefully placed Yan Huan's hand under the blanket. She had fallen asleep. It was also because the anesthetic had not been applied, so she was very deep asleep now. It did not matter even if she woke up.

He would ask he Yibin to give her the best medicine to try not to hurt her.

Not long after, the phone in his pocket rang. He took it out and realized that his fingers were trembling. He could barely hold the phone in his hand.

It was Lu Jin's.

Lu Yi placed the phone by his ear. His eyes did not leave Yan Huan for even a second. He wanted to look at her and guard her like this. He was afraid that she would suddenly leave and leave him alone, how was he supposed to live in this lonely world? How was he supposed to endure this cruelty and pain that he could not bear.

"Dad," Lu Yi called out.

"Lu Yi, how's it going?" When Lu Jin asked this question, his heart was also in turmoil. He was worried about Yan Huan and ye Shuyun. At this moment, Ye Shuyun was also frightened, until now, it was Mu Mu who was in a daze.

He could care about ye Shuyun, but he could not care about Yan Huan and Qin Xiaoyue. Therefore, he could only let Old Master Lu, who was so old, take charge.

"It's okay." Lu Yi carefully brushed away Yan Huan's hair that was stuck to his face. "She has already undergone surgery, and her internal organs were not hurt. The knife went in through her bones, and it didn't hurt her arteries."

"That's good." Lu Yi finally heaved a sigh of relief, "What do you want? I'll get someone to send it to you later. When your mother is better, we'll go there again. This time, Qin Xiaoyue has really gone too far. If I can let her go, I'm Not Lu Jin," Lu Jin said, he was so angry that his heart ached. Of course, he felt even more sorry for ye Shuyun.

Qin Xiaoyue was a wicked woman. He had raised the mother and son for so many years, but she actually wanted to kill his shuyun. If Yan Huan hadn't saved her, that fruit knife might have pierced his wife's

body, yan Huan's injury was on his shoulder. Perhaps, if he turned into Ye Shuyun, the injury might be on her heart. She wasn't killing Ye Shuyun, she was trying to kill him.
