

Chapter 1611: ye family's pot

The current Lu Qin was skinny and dry, and his eyes were a little green. Yan Huan was very familiar with Lu Qin's expression, because she used to wear this expression for a very long time

Lu Qin was probably addicted to drugs. Although he hid it well, Yan Huan could still tell.

However, these were other people's affairs, so what did it have to do with her

"Dad..." Qin Xiaoyue was still shouting and shouting outside.

"What are you shouting for?" Old Master Lu walked out directly. "I'm not dead yet. What are you shouting for? Are you running to the funeral for me?"

"Dad..." Qin Xiaoyue cried even harder when she saw Old Master Lu, but she didn't see many tears falling from her eyes. The most she could do was howl, but there weren't many tears.

"Speak quickly. If you have something to say, say it."

Old Master Lu's temper had been quite bad recently. He could throw a bomb at any time, and it was not a Wang bomb.

"Dad, the Ye family is going to kill our Lu family." Qin Xiaoyue's words shocked Lu Jin and old master Lu. Could it be that the matter had been found out by others? But how could this be.., they only got the news after making peace.

"What nonsense are you talking about?" Ye Shuyun felt uncomfortable when she heard this. "Qin Xiaoyue, don't talk nonsense for no reason."

"I'm talking nonsense?" Qin Xiaoyue's voice suddenly became sharp.

"Ye Shuyun, your ye family is going to kill the Lu family. Do you know that your good brother ate nearly eight billion yuan at the airport. Now that he has run away, Ji Yang is under your name."

"Eight billion yuan, ha..." Qin Xiaoyue sneered, "Do you think you can sell the Lu family and you for more than eight billion yuan?"

"Dad, you can't ignore this matter." Qin Xiaoyue turned to old master Lu again, "In the end, not only will you have to pay back the money, but you'll also have to go to jail. There's also the matter of their taxes."

"Dad, you know the truth the best. This matter is the boss'family's business. What does it have to do with us? You Can't compensate the entire Lu family, and you can't compensate Lu Qin, either."

Ye Shuyun listened to Qin Xiaoyue's wailing and felt her head ache. All she could hear was a buzzing sound.

"Mom, What's Wrong?" Before Yan Huan could react, she saw Ye Shuyun falling toward her. She quickly held Ye Shuyun and was shocked

“Shuyun, Shuyun...”

Lu Jin hugged ye Shuyun, pinched her and slapped her face. However, Ye Shuyun was unconscious at this moment, and Qin Xiaoyue’s mouth was still like a machine gun, not moving at all, she scolded the Ye family, Ye Jianguo, Ye Chuji, and the eight generations of the Ye family. She also scolded ye Shuyun, scolded Lu Jin’s family for not having good intentions, and caused the Lu family to suffer.

“Dad, hurry up and Chase Ye Shuyun out. That Airport is under her name. As long as she is no longer in the Lu family, we will be fine. As Qin Xiaoyue spoke, she would still be clutching her clothes in a while. Dad, we can’t just watch the Lu family be destroyed like this!”

Old Master Lu had been standing there the entire time, his entire face was completely black.

“Are you done?”

He was too lazy to listen to Qin Xiaoyue’s mournful voice.

Qin Xiaoyue was immediately shocked and didn’t dare to speak anymore.

Old Master Lu’s face darkened, and his face was pulled to the extreme. “The Lu family is like this now. Either they all go to jail, or you all get lost.”

Qin Xiaoyue mumbled for a long time. When she saw Old Master Lu again, she didn’t dare to say anything at first, but this matter had already come to this point. If she didn’t give Lu Qin something., how would they live their days in the future.

“Dad, no matter what, Lu Qin is still your grandson. Even if we want to leave, don’t you have to give us something? Otherwise, in the end, these things will be taken away by others. In any case, they will belong to others. Why Can’t you give them to your grandson?”

Old Master Lu stood up with a slight tremble. Only when one was in a difficult situation could one know who was good to one, who was bad to one, who was sincere and who was fake.

Qin Xiaoyue muttered to herself from time to time. In any case, she had already made up her mind. If she didn’t ask for some benefits, she would never leave.

Not long after, Old Master Lu came over again and threw a few things to Qin Xiaoyue.

Qin Xiaoyue picked them up and took a look. That smiling face made people feel greedy and disgusted.

“Dad, I knew it. You still have our Lu Qin in your heart. The roots of the Lu family can’t be broken here. In the end, you still have to leave some hope for the Lu family, right?”

Master Lu’s eyes were full of disdain. If the roots were broken, how could there be any roots?

The Lu family didn’t need such an evil root. He still had two great-grandsons and a great-granddaughter. The roots of the Lu family were righteous. Even if they died here in their lifetime, he believed that., only his great-grandsons had grown up. In the future, it was only a matter of time before the Lu family wanted to rise again.

Qin Xiaoyue dragged Lu Qin away and prepared to go back. She wanted to sever all ties with the Lu family. What was she doing? If she didn’t stop, how much could she keep in her hands, it was all used by

the Lu family to cover the hole in the Ye family. They didn't know how big the hole was. Even if they sold them all, they couldn't make up for it.

It was not one or two hundred million, but it was more than eight billion. The Lu family could not afford it, and the Ye family could not afford it either. In any case, it was not the mother and son who destroyed the Lu family. If they wanted to blame someone, they should blame ye Shuyun. If they wanted to blame someone, they should blame Lu Jin for marrying ye Shuyun. If they wanted to blame someone, they should blame the eldest brother's family.

And she was waiting for the eldest brother's family to enter.

More than eight billion, it would be strange if they could return it.

Yan Huan had been standing there the whole time. After Lu Qin and his son left, she finally turned around.

"Grandfather, is what they said true?"

Yan Huan found it hard to believe that the ye family would do such a thing. No matter how they schemed against her or bullied her, it was all her own business. However, no matter what, they couldn't possibly make a move against the entire Lu family.

Although she did not hear too much and was not very clear, she could tell that this matter concerned the life and death of the entire Lu family. She recalled that Lu Yi wanted her to get a divorce.

Yes, it was this matter that Lu Yi could not resolve. Perhaps the people of the Lu family would have to go to jail. That was why Lu Yi had divorced her, placed the three children under her name, and gave her the garden, the garden was the foundation of the Ye and Lu family. This was also the greatest protection that Lu Yi could leave for the children. was he going to bear it himself?

Chapter 1612: Was Like This

And this matter wasn't simple. Where did Qin Xiaoyue find out about it? They didn't know yet, but Lu Qin had Lu Qin's information network. After all, he had been in this line of work for quite some time, so he naturally knew quite a few people, and if she didn't have absolute confidence, even if she died, it was impossible for Qin Xiaoyue to leave the Lu family. And the reason she left the Lu family wasn't because of anything else, but because she was already certain that the Lu family would collapse.

Old Master Lu raised his eyelids and glanced at Yan Huan.

"Don't worry about this matter. You just have to take care of my three precious grandsons. Especially Xun Xun, you have to let her grow up healthily for me. Don't find a man like Lu Qin for her in the future."

If this was in the past, Yan Huan might really laugh secretly. It was too early to think about these things now. Furthermore, Xun Xun was only three years old. She hadn't grown up yet, and she was still too young, when she got married, she would not be the only mother. Her grandparents, her father, and her great-grandfather would be there as well.

With Old Master Lu's current vigor, Yan Huan felt that he would have no problem living for another twenty years.

In her previous life, she did not know how old Old Old Master Lu was because she died earlier than them. However, she seemed to be in her nineties. Now that Xun Xun was here, no matter what.., old Master Lu could not bear to part with Little Xun Xun.

By saying these words, it was clear that he was going to throw his life away.

Old Master Lu stood up. It was obvious that his waist was not as straight as before. The old master who used to scold her every day was no longer around. After all, ten years had passed, and a decade.., it was enough to make a young woman mature into a middle-aged woman. It was also enough to make an old man fall into old age. It was also enough to make many people leave this world.

The old man was really old.

However, as juniors, how could they be unfilial? How could they have the face to let such an eighty-year-old old man risk his life for them.

Yan Huan walked towards ye Shuyun's room again. She was going to knock on the door and enter, but she heard ye Shuyun's crying. She was questioning why ye Jianguo treated her like this, why did he want to harm her.., why harm the Lu family.

Yan Huan's hand in the air was put down just like that. Ye Shuyun should be the one who was the most upset here, but she did not know how to comfort her. That's right, how to comfort her. In fact, no matter how she comforted her.., it was useless.

Being trapped in reality was the truth, because the result was the result.

If it was yours, you would not be able to escape, not yours. Even if you did not have to escape, you would still be far away.

Yan Huan sat on the sofa outside. The entire Lu family seemed to have been suppressed by something. The clouds were gloomy, and no one knew what they were going to face.

Would it be like the Ye family in their previous life? would their family really be destroyed?

Or could it be that the Lu family used three men to push their way in in exchange for the survival of these women.

The door outside opened and Lu Yi walked over with Xun Xun in his arms. Xiao Qi and Xiao Guang held each other's hands as they followed their father in.

When Lu Yi saw Yan Huan, his pupils constricted slightly. He lowered his head and put Xun Xun down again.

"Mommy..."Xun Xun saw Yan Huan the moment she entered. The moment her feet touched the ground, she ran towards her mother. The other two children were not like Xun Xun, but they also missed their mother.

Yan Huan reached out and hugged the three children in her arms. Then, she kissed their little faces.

“Be Good,” she said seriously to the three children. “Daddy and Mommy Have Something to say, so you can play with Auntie first. Later, mommy will come over to accompany you, okay?”

“Okay,” the three children agreed in unison. They were very obedient children and could understand adults’ words. Then, they were taken away by the two nannies.

Yan Huan looked at Lu Yi.

Lu Yi also looked at him. The two of them really stared at each other for a long time.

Yan Huan hooked his finger at Lu Yi.

Lu Yi could only walk over and stand in front of Yan Huan. Yan Huan felt that he was too tall and could not help but roll her eyes at him

The tacit understanding between the two of them was no longer a day or two, nor was it the first or second time. If Lu Yi did not even know about this, then his name would not be Lu Yi, and she would not be called Yan Huan.

Lu Yi could only squat down.

Yan Huan stretched out his hand and forcefully pulled up his face. Lu Yi’s facial features were clearly twisted to the point of being laughable, but no one would be able to laugh at him.

His brows were tightly knitted, and his black eyes were calm. It was almost to the point of not being able to recognize anyone.

In this world, the person who was least afraid of him was Yan Huan.

Even ye Shuyun would sometimes be afraid of his overly silent appearance. However, there was one person who would not be afraid. It was none other than Yan Huan.

Yan Huan wrung his hands for a long time before he finally felt that the anger in his heart had subsided a little.

“Qin Xiaoyue came over.” She released her hands and leaned her body back. The long period of nervousness had already made her a little sleepy. She curled up her body like a shrimp, it also made Lu Yi very uncomfortable.

She just knew how to make him uncomfortable, didn’t she?

Lu Yi stood up and walked over. Then, he sat down and pulled her into his arms. Yan Huan rested on his arm, and his voice continued, “Qin Xiaoyue and her son are here. They are here to ask for property.”

Lu Yi’s thick eyebrows were tightly knitted

“They said that the ye family has lost eight billion yuan from the airport. There are also a lot of goods and taxes. The Ye family has thrown all this onto mom and pushed it onto the Lu family.”

Eight billion. Even if they sold the Lu family, it was impossible for them to sell eight billion yuan.

“They want to cut off relations with us. I don’t know what the old man gave them. They left, but mom can’t bear the fact. Dad is trying to persuade her.”

She sighed. "Is that so?"

She felt that it was almost certain that they had left, right?

"Yes," Lu Yi nodded. Someone gave me this information anonymously, but I don't know where Lu Qin got it from. However, he naturally had his own connections, so it wasn't difficult to find out.

"I also don't know why the airport is under Mom's name?" "The ye family used this hole to sweep away more than eight billion from the airport. As long as there's an airport, it wouldn't be difficult to defeat these eight billion. However, now that the matter has been revealed, no one can take out these eight billion. Within seven days at most, everyone will know about this."

"So that's why you want to divorce me and exclude me?" Yan Huan knew that was the case. In fact, it was very easy to know what Lu Yi was thinking. They wanted to leave a trace of hope for the Lu family, and these hopes.., were her and her three children.

Chapter 1613: could not be recited

He was a prosecutor, and he could do this flawlessly. Even if the entire Lu family was finished, she and the three children would be fine. They would live well and stay in the garden.

But what about themselves?

"You are all our hope, and also the future of the Lu family." For the first time, Lu Yi was so helpless. It was just like how they were in the flood at that time. It was difficult for them to take even a single step. If anything went wrong, they would be crushed into pieces and their bodies would be strewn across the ground.

And they had no other choice, and no one could save them

And these were all his choices. He wanted her and her three children to live well.

Yan Huan suddenly felt a lump in her throat. This kind of situation, which was like giving her last words, made her unable to accept it. The destruction of the Lu family was only one aspect, but the Lu father and son, Lu Jin, and Lu Yi.., the position of the three generations in the political arena, the faith that they had held for their entire lives, was about to disappear. Even she could not accept it, let alone them.

"Is there any other way?" Yan Huan asked in a distressed voice. "Didn't you say that there are seven days left? There must be another way, right?"

Lu Yi shook his head. "Huanhuan, you should know me very well. If there's still a glimmer of hope, I won't divorce you."

"Isn't it just money?"

Yan Huan took out his phone. "I still have Linlang's. I'll sell it."

"There's no time." Lu Yi cupped Yan Huan's face, "Huanhuan, tell me, where did you get eight billion in one go? Within these few days, it's impossible for us to fix this hole. We have to pay the price. Such a

price is not something the Lu family can afford. So, promise me that you'll take good care of yourself and your three children."

"No." Yan Huan shook her head. "There's a way."

"I won't agree." Yan Huan pushed Lu Yi away. "I'll go look for the money. I'll go look for the money for you."

However, Lu Yi hugged her from behind.

"Huanhuan, I know how much money we have. Everything doesn't exceed one billion. That's why we can't gather so much money in such a short period of time. Don't be afraid. I Won't die. At most, I'll be punished by the law."

He said it was very easy. Yes, it was really easy. He was the prosecutor. He had sent many people in. This time, he would send his own father and grandfather in as well.

The men of the Lu family had to protect the women of the Lu family.

No matter what, they would not let anything happen to them. Ye Shuyun, Yan Huan, and the three children had to be fine.

Yan Huan's eyes were red. No, she did not believe it. She absolutely did not believe it. They were the ones who were fine. Everything was clearly over, but why did they not let them go.

"Huanhuan, don't be afraid." Lu Yi gently stroked her hair. "And Qingyi, he Yibin and the others are here. No matter what, you and the children will be safe."

Yan Huan still shook her head. She did not want to hear this. She wanted to find money.

She forcefully pushed away Lu Yi's hand and wiped her tears away. When Lu Yi stepped forward again, Yan Huan turned around. She could no longer remain calm.

"Lu Yi, I will think of a way." Yan Huan would not give up any hope. "As long as there is a glimmer of hope, I will not sit still and wait for death. It's just money. I will go and find it. Wait for me."

She turned around and ran out. Lu Yi did not stop her because he understood Yan Huan, just like himself. He had tried all sorts of methods and channels, but in the end., it made him understand that he had no other way. That was why he made such a decision in the end.

Yan Huan was already driving. She did not know where to go. She had to find the money in the next few days, but where was she going to find the money? Even if she wanted to sell Linlang, it would not be sold in a short period of time.

She returned to the detention center and took out her cell phone. She called all the people she could. She wanted to borrow money. She wanted to borrow a lot of money.

In the afternoon, Zhu Meina came over.

She stuffed a card into Yan Huan's hand. "The SU family already knows the news. I heard it from Zhu Xianglan." Zhu Meina didn't expect such a thing to happen, this ye family was really too vicious. They

were too arrogant. The Lu family did not owe them anything. How could they do such a thing? wasn't it obvious that they did not want them to live?

"This is 500 million. I can only gather so much." Zhu Meina was also pacing back and forth. The high heels under her feet made all kinds of clicking sounds from time to time

"Don't be anxious first. We will think of another way." After Zhu Meina finished speaking, she took her bag and did not stop for too long. Right now, she could not stop for any longer. What they lacked the most right now was time, if there was enough time, it was actually not a big deal. Yan Huan had given up on Linlang and could also patch up the hole. However, the problem now was that they had to patch up the hole within a day or two. Otherwise., if the higher-ups found out, then no one would be able to save the Lu family.

Not to mention the money, Lu Jin's military rank and Lu Yi's identity were almost destroyed.

Eight billion was not a small amount. In a short period of time, who could find the money and who could borrow it.

The most she could take out was 500 million. It was also the most money she had gotten from Su Qingdong. The Su family was no longer the same as before. This 500 million was all because of Su Qingdong's body. If she wanted it again., su Taidong would definitely not give it to her. It was not because he was stingy, nor was it because he did not want to give it to her. It was because if he wanted too much, he might have to empty out the SU family. Su Qingdong would not do such a thing.

In that case, what about Yanhuan? What about Lu Yi? What about her three children? What about her little light? Her little light would no longer have a father in the future. No, Zhu Meina would never allow such a thing to happen,

little Guang's eyes were the best. She could not let little guang lose his father.

She rushed back. No matter what, she could not sit here and wait for death.

Yan Huan clenched the card in her hand tightly and placed it on the table. There was only 500 million here. To many people, this 500 million was enough to support every family. However, it was not enough to support the entire Lu family.

She had also called the Ye family, but there was not a single person in the Ye family. They were collectively causing a ruckus and had gone missing. were they going to let the Lu family take the blame for them until the end?

But by doing so, they were going to destroy the entire Lu family.

Lu Yi did not come back, and she did not want Lu Yi to come back either. She had to wake up, she had to wake up. That night, she had not slept for another night. Her face was tired, her eyes were green, and in her eyes., there were also red blood vessels, but her head was still spinning at high speed

Chapter 1614: didn't remember the password

She had to find a way to get eight billion in one go. Even if she didn't have eight billion, she could still get seven billion.

Seven billion, seven billion..

She had to go somewhere. If she could be worth seven billion, she would be willing to sell herself. She had to keep Lu Yi, the garden, and Lu Jin and Old Master Lu. They were all family, she could lose one, but if she lost one, their home would not be a home anymore.

She lay on the big bed, her eyes still stubbornly wide open. She did not dare to sleep, nor could she sleep.

If she wanted to think of a way, she had to think of a way.

However, she fell asleep in the end. In her daze, something seemed to flash through her mind. She seemed to have forgotten something.

What was it? What was it exactly?

It wasn't until the light outside started to brighten up bit by bit. The sunlight also followed the window and fell on the soft bed. Yan Huan slept late, so most of the time.., she had to fight against the sunlight for a very long time.

She would sleep with the sunlight behind her back, but the sunlight was always like a naughty child. It liked to crawl into her bed and also fell on her face. It wasn't clear that she didn't want her to continue sleeping.

Suddenly, Yan Huan opened her eyes and sat up as well

She knelt on the ground and began to rummage through the cabinets.

Where was it? Where exactly was it? Where did she put that thing. She had almost turned the entire room into a mess, but she still could not find that thing. She remembered that she had brought it back to the room and did not take it out. So what was here must be here.., but where was it? who could tell her where it was?

With a bang, her head hit the top of the cabinet and knocked the door open. This was a cabinet that she had never opened before. It was filled with old things that were not commonly used, sometimes, she was most used to being forgotten.

She gently touched her head. Soon, a big bump appeared on her head. At this moment, she was staring blankly at it. At this moment, it was on top of a small white box in the innermost part of the cabinet.

The appearance of this small box was very inconspicuous. Moreover, it was extremely inconspicuous. There seemed to be a lot of dust on it. It was placed randomly. It was likely that.., it shouldn't be anything heavy.

She carefully hugged the small box from the inside, and her furrowed brows also relaxed. However, she was crying.

When Lu Yi entered, he discovered that Yan Huan was sitting on the ground with something in his arms. The ground was littered with things. Yan Huan was still wearing yesterday's clothes, and even his feet were bare.

He walked over and knelt down beside her. Then, he placed his chin on top of her head. 'Don't be afraid, I'm still here. I'll always be here. As long as you don't mind, I might come out a little later...' 'I'll always be here, I'll always be alive. It's just that I might become a criminal.'

He smiled bitterly. He was a prosecutor himself. How could he not know what he would become in the end, and what kind of path he would take.

He did not care, but it was hard on his father, grandfather, and Yan Huan.

If this was possible, he would bear all the responsibility for the Lu family.

Yan Huan was still hugging the small box in his arms and crying so hard that he could not even cry. At this moment, no one knew that the pain that Lu Yi hid in his eyes was almost unbearable.

There was a pain that was connected to breathing.

They were all in pain.

It was because there were too many helpless situations in this world.

And this kind of pain, no matter how painful it was, they still had to endure it. They had to endure it forever.

Yan Huan wiped her tears. She turned around and sat on the ground as well. Suddenly, she smiled at Lu Yi. Her beautiful face always had that clear and clean look, just like her skin.., up until now, it was so clean that there was not a single flaw.

Lu Yi also smiled and used his hand to wipe the tears off her face bit by bit.

"Look."Yan Huan placed the small white box in front of Lu Yi.

Lu Yi remembered this small box. This was the item that you brought back from the trade fair last time. At that time, Yan Huan did not bring many things back. In fact, there were only five items.

There were two banners and fifteen fish. They were still well-fed and ye Shuyun loved them the most. At first, when she slept at night, she would go and take a look at the fish. She was afraid that the fish would die, she thought about how to serve the fish every day. Later on, she might have realized that she was worrying too much.

Even if she did not care about the fish, they would be fine. She did not need to feed them for a month or two. They were still alive and had never seen a dead fish. Later on, Ye Shuyun did not care about them, of course, not a single fish had died. They were still alive and kicking.

There was also his laptop. He had been using it all this while and carried it with him all the time. The laptop was very light. It was as light as a piece of paper and could easily be placed on Bao Chen, this was also his favorite thing. Yan Huan had always given him things that could be sent to his heart. He treasured these things very much.

Of course, there was one last thing. It was the little white box that Yan Huan had brought back. However, Yan Huan did not seem to value the little white box very much. He had just casually thrown it away. After so long, not to mention Yan Huan himself., even he had forgotten about it.

“Why are you thinking about this? Didn’t you just randomly throw it away in the past?” Lu Yi could still smile at Yan Huan. Now, he had to have a strong mental fortitude and self-control. They might be separated soon, or they might just be separated.

But he still smiled. No matter what, he had to spend the last few days with her. Although the time was really short, it was also very little.

Yan Huan still sat on the ground. She put the little white box on her lap. The box had a password lock. At that time, she had set the password herself, but she wasn’t Lu Yi. She didn’t have such a good sensitivity towards numbers, she also did not have a good memory.

Sometimes, she could not even remember her own phone number clearly, let alone remember other things.

Therefore, her password was not like Lu Yi’s. Lu Yi’s password had always been set in a terrifying way. He could remember a very long string of passwords, but Yan Huan could not remember it no matter what. Instead, she could remember the password.

One, her birthday.

Two, Lu Yi’s birthday

Three, the children’s birthdays.

As for the password for this small box, she could not remember it.

“I can’t remember it,” Yan Huan thought for a long time, but still could not figure out which one it was?

Chapter 1615: National Treasure

“Let me do it.” Lu Yi took the little white box. He naturally knew Yan Huan’s habits. Yan Huan’s password was quite simple to begin with. He first tried it. It was the children’s birthday. No, the password lock could not be opened.

At this moment, Yan Huan’s fingers were tightly clutching onto someone’s sleeve. He seemed to be very anxious and extremely nervous.

“Don’t be anxious. It will open.”

Lu Yi comforted Yan Huan. Even if the passcode lock couldn’t be opened, he would still help her open the box. At most, he could just open the passcode lock. All they wanted was to open it, not the box outside, right?

Lu Yi tried Yan Huan’s birthday again.

When it reached the last number, the lock still didn't move, so it wasn't that. He shook Yan Huan's hand to comfort her current nervousness. His big hand was still clean and warm.

Yan Huan also held his big hand tightly. This hand would protect her for the rest of her life. No matter how old he was, no matter how old she was, they would definitely live a long life and be together for the rest of their lives, right?

Lu Yi patted the back of her hand again and brought the box closer. Don't worry, it's fine. Even if I can't find the password, I will help you open it. He had more than one way to open such a box.

He lowered his head again and keyed in his birthday on it.

This was the sum of all of Yan Huan's passwords. If this didn't work, then the box would have to be opened with external force.

When the last number was pressed, they all heard a ding sound from inside. It meant that it was open.

Lu Yi placed his hand on the box. Look, it was opened. As expected, it was one of the three numbers. There wouldn't be any more, and there wouldn't be any less.

This was Yan Huan's habit, and this was also Yan Huan's personality.

She had never changed, and it was impossible for her to change in this lifetime.

Just like how she treated Lu Yi. It wouldn't change, it just wouldn't change.

Yan Huan's eyes had always been fixed on the small box. Lu Yi was really afraid that he wouldn't be able to see her in the future, so he left behind three children. What was she going to do? However, he had to protect her even more.

He smiled, and his eyes were filled with slight injuries.

With a click, he opened the small white box. Inside the box, there was an even smaller box. It was an extremely small box, about the size of an adult's palm. It was also placed inside the entire box, it was no wonder that this box was very light. However, no sound could be heard from inside. It turned out that the things inside were all fixed.

Yan Huan took out the box from within and placed it in front of Lu Yi, indicating for him to open it.

Lu Yi took the box and glanced at Yan Huan. He then placed the small box in his hand and opened it. When the thing inside fell into his eyes, his pupils constricted.

"This is..."

He took out the item from the box. It was a very large sky-blue gemstone, about the size of his child's hand. He held the sapphire in his hand. It was the same as before. He held it in his hand.., whether it was in his dream or in his past life, these familiar feelings had never changed.

Which piece was this?

"We're saved, aren't we?" Yan Huan raised his head and asked him carefully.

“That’s a country, a very rich country. When they bought this, they gave US 700 million in one go. It’s US dollars. If converted to our currency, it would be close to five billion. We’ll think of another way and we can come up with eight billion.”

A person’s ability was limited, but a country was still a very rich country. They could definitely take out so much money. She didn’t have to sell her husband, her father-in-law., and her grandfather. She didn’t have to let them shoulder such an embarrassing fate for them. She also didn’t need them to sacrifice everything they had now and ruin their reputation. Wasn’t that right?

Lu Yi clenched the sapphire in his hand tightly.

Then, he gently caressed Yan Huan’s face. “Bring Me My Notebook.”

“Okay.”Yan Huan hurriedly got up and went to the table to bring Lu Yi’s notebook over. Lu Yi’s new notebook was very light. It was so light that it could be lifted with one hand. Moreover, it had sufficient battery time, it could be used for a day and a night. This was the biggest characteristic of this notebook. It was very light and had a very rich battery.

Lu Yi took his notebook and placed it on the ground before opening it again. In his previous life, this gemstone had been traded out from his hands.

Therefore, he still remembered the series of processes clearly. Although he did not know how this gemstone had returned to Yan Huan’s hands, this was the Lu family’s only hope. If the deal was completed, they would be able to make up for eight billion., then, everything would be fine. He would take back the airport on his own and wouldn’t let anyone else make a move on the airport.

This airport had almost become the transportation hub of the entire hai city. No accidents were allowed. When Ye Chuji returned, they would talk about this matter again.

Lu Yi would never believe that his uncle deliberately framed the Lu family and let the Lu family fall. Therefore, he needed an explanation for this matter. His uncle had watched him grow up, and he had brought up ye Xinyu.

He understood ye Chuji’s character very well. He also believed in ye Chuji’s character. He believed that ye Chuji would not plot against the Lu family and would destroy all of them, including Ye Shuyun.

His fingers quickly tapped on the keyboard. He did not know what he was tapping on, but he typed in a long string of words. Yan Huan did not understand this. Her current understanding of computers.

One, it could be used to grow vegetables. It could be played by others.

Two, it could be used to chat.

Three, it could be used as a light bulb.

Although she had a husband who was a computer genius, she had only learned how to chat with him using chat software. She did not know anything else.

Lu Yi placed the GEM on the HD camera in his laptop. His fingers pressed on an unknown spot. With a click, the thing wrapped around the Gem was opened, this was what the people on the other side had said when they first made the transaction. It was specially made to protect this gemstone. The

gemstone would appear a little old, but when this was opened.., one would discover that the color of the gemstone inside was like the sea. This was a real, natural blue gemstone.

If one wanted to sell such a large piece of gemstone, it could be sold for a lot of money, let alone a country's reputation.

Lu Yi handed the gemstone to Yan Huan, who carefully held it with both hands.

"So Beautiful!"

Chapter 1616: was sold

Actually, this was also the first time Yan Huan looked at the gem in her hand so seriously. At that time, they all said that this gem was a national treasure, but why did she feel that it didn't look like it? It was because the outer layer of the gem had been knocked off, only then did she discover the original color. With such a color, no matter how many years it was, it was impossible for the color to fade away.

However, no matter how beautiful it was, she could only admire it. This kind of thing was only suitable for collection. If she wore it on her neck, she felt that her head could be cut off at any time.

Moreover, she originally liked exquisite things, not such huge gemstones that could be used to smash people.

The jewelry that she liked could be worn on her body, not hidden in the jewelry box.

Lu Yi's fingers continued to tap on the top of the notebook until he moved his fingers away and put down the notebook.

"How is it?" Yan Huan hurriedly asked Lu Yi. Did they want it? Would they come? This was their last lifeline. It could save his family. And now, even if it was just a little bit of hope.., yan Huan was still holding onto it. No matter what, this lifeline could not be thrown away. It had to be successful.

Lu Yi took out the gemstone from Yan Huan's hand and placed it in the box.

Then, he raised his face and gently stroked Yan Huan's face with his big palm. "They will arrive early tomorrow morning."

Yan Huan was stunned at first, then he excitedly hugged his large hand tightly. "Then, how much will they pay? Is it still 700 million?"

Lu Yi shook his head. "No."

No, Yan Huan was a little disappointed, but it didn't matter. As long as the other side offered a little less, it didn't matter. They could gather the rest themselves. She could borrow some from Linlang, she had found a black market to sell her jewelry, so she should be able to gather some. As for the Old Master's favorite antiques, they were also sold at a low price, so it should be possible.

"I'll go pack up my jewelry in a while. It can be sold for a lot of money." Yan Huan had always liked to buy these and had saved a lot over the past few years. Not only did she buy them for herself, but she also

bought them for Ye Shuyun. When she first bought them.., it was a little expensive, but if she sold them, even if they were sold at a low price, she could still sell them for a lot of money.

“You don’t have to sell those. We don’t have to sell anything.”Lu Yi tidied up Yan Huan’s messy hair.

“Then, how much did they offer?”Yan Huan was still kneeling on the ground. Her nervous heart was still beating wildly.

“They offered 1.5 billion.”Lu Yi smiled. His bloodshot eyes could not hide his joy.

“1.5 billion? is that US dollars?”Yan Huan was stunned. That was close to 10 billion.

In that case, not only would they be able to make up for the vacancy at the airport, they would also have 2 billion left. That would make them billionaires.

“Yes, we don’t need to sell anything. We can even save up for the three children.”

Yan Huan had always been saving up for the children. Now, she had split her earnings into three portions and opened an account for the three children. All this money was saved for them, but she would not let them know.., only when they had reached adulthood would she tell them that the children of the Lu family, even if it was Xun Xun, had to have a skill in the future. They had to know how to support themselves.

When would they come? Even Yan Huan had seen billions of them before. Now, they were all frightened. It was not because of a pie that fell from the sky and fell on their heads, but because of the crisis at home, was it really going to be resolved like this?

They were originally prepared to give up everything and had prepared for the worst. Just like that, they were all fine.

When they arrived early the next morning, Lu Yi gently stroked Yan Huan’s hair. Very soon, they took a private plane and would stop at the airport in Hai City. They would also do all of this without anyone knowing. After all, the loss of the national treasure.., to a country, it was a very shameful thing. It was fine if they secretly searched for it, but they would also make it known to everyone. They would come back before dawn to look for it, then, they would go back and retrieve their national treasure.

Yan Huan was still a little worried.

Although she knew that they would definitely come over, there were also many possibilities. For example, if something happened to the plane, they didn’t want it anymore, and they ran out of money, so all of these possibilities made her very uneasy, her heart also seemed to be suppressing something, and she felt very uncomfortable.

Money was not with them. The Hole in the Ye family’s airport was not blocked, and they were still very dangerous. Therefore, the sooner this matter was resolved, the better.

“Are you hungry? I’ll go and Cook Something for you to eat?”Lu Yi asked Yan Huan. They had not eaten recently, but in just a few days, Yan Huan seemed to have lost weight again. She had originally looked very well, now, she had turned a little pale. This was the perfect condition for her body. She really could not withstand so much suffering

"I'm a little hungry." Yan Huan rubbed her stomach. She had only eaten a little in the morning, and up until now, she had not eaten. She was so hungry that she wanted to cry.

"I'll cook some noodles for you." Lu Yi stood up and was about to cook a bowl for Yan Huan. They might not be able to sleep the entire night.

"Okay." Yan Huan held the gem in his arms. "I'll look at it."

Lu Yi actually wanted to say that there was no need to look at it. That thing would not be lost here. Besides, other than the people over there and them, no one else knew that this thing was in their hands, he had interacted with the people over there, so he naturally knew what they were thinking. Even now, the people over there had placed a fake gem in the imperial palace. That was their country's sacred object, therefore, they had always been trying to deceive the people of the entire country. Therefore, they were also anxious to find the real sacred object,

as for how this had ended up in Yan Huan's hands, perhaps this was fate's arrangement. It should have been in Yan Yi's hands. Yan Huan had been reborn, and her fate had changed. It was the same for this gemstone, even if it ended up in a pile of rocks, it still ended up in Yan Huan's hands, protecting the Lu family.

Very quickly, Lu Yi had already brought in two bowls of noodles.

Yan Huan also picked up her chopsticks and wolfed down the noodles. She was really too hungry and had not eaten for a whole day. Hence, eating this bowl of noodles was really very fragrant.

She only felt much better after she had eaten the entire bowl of noodles.

That night, they did not sleep. They just tossed and turned the room and did not want to clean it up. They were all waiting for the people over there to come over. They were also waiting for the money that could save the Lu family to arrive.

They really did not have the time.

Chapter 1617: was settled

Before anyone else noticed, everything had to be done perfectly. As long as the gaps were filled, everything would no longer be a problem.

She believed that everything would be fine, everything would definitely be fine. She didn't know when, but Yan Huan had already fallen asleep on Lu Yi's lap. Lu Yi didn't move her away and let her sleep on the ground while he sat on the ground, he didn't move an inch either.

He took his notebook and was already investigating the incident at the airport. He wanted to know. Who was behind this matter? Also, when the money was in place, how was he going to inject all this money into that gap without anyone noticing.

And he realized that as long as the money was in place, everything would be solved easily. There wouldn't be any problems at all.

The Lu family was still the Lu family, and the airport was the same. In Hai City, large groups of people and large quantities of goods were entering and leaving every day.

He was still typing on the keyboard, and his phone, which was placed at the side, also rang. Yan Huan was also startled and sat up. The blanket covering her body also slid down a little.

Lu Yi pulled up the blanket and wrapped it around her body.

“Are they here?” Yan Huan asked hurriedly. She wanted to take a look at Lu Yi’s phone.

“Yes.” Lu Yi nodded. “They’ll be here soon. I’ll handle it later.” Lu Yi gently stroked Yan Huan’s hair, “Don’t worry, it’s fine. As soon as the money arrives, I’ll immediately return it to the airport. I’ll get the ownership of the airport first. Also, I’ll find out who did this.”

If they dared to scheme against him and the entire Lu family, they would be waiting for their entire family to go to jail.

Yan Huan’s heart was actually still hanging in the air. It wasn’t until there was a knock on the door that Lu Yi stood up. He took his notebook and followed them out. Although he looked a little tired now.., in terms of spirit and bearing, he was still the grand prosecutor Lu.

In fact, Yan Huan had no idea how Lu Yi had done business with those people in his previous life. Now that he had encountered the same situation, he believed that Lu Yi would be able to handle it more smoothly than in his previous life, he also needed to have a lot of experience.

At this moment, in Lu Yi’s study, Lu Yi had already taken out the sapphire. Just like what Yan Huan had said, this transaction was very secretive. He did not want anyone to know that his national treasure had been stolen, of course, Lu Yi did not want anyone to know that the Lu family had received tens of billions of dollars in one go.

During the entire process of the transaction, they did not communicate with each other at all. After those people had inspected the goods, they confirmed that this was a treasure that their country had lost. They also directly transferred the money into Lu Yi’s account, of course, it was a special account. Only Lu Yi knew about it.

“Mr. Lu, I’ve never seen you before,” the man said to Lu Yi in English. This was the condition that they had agreed on in advance. No one wanted this matter to spread.

This was the same for the country that lost its national treasure and Lu Yi.

And this was the result that they all wanted.

“Don’t worry, I understand. I don’t want anyone to know either.”

The man nodded at Lu Yi and brought his bodyguards along. They came without anyone knowing and left without anyone knowing.

When Lu Yi returned, Yan Huan was pacing around the room anxiously.

Why didn't she come back after so long? There were a few times when she almost couldn't help but go over to take a look. If Lu Yi hadn't warned her repeatedly not to let her out when he left, she wouldn't have been able to endure such a wait.

And this kind of waiting almost caused her heart to become irritable and uneasy.

It wasn't until the door was opened from the outside that Lu Yi walked in.

Yan Huan's mouth was wide open, but she didn't know how to make a sound.

After Lu Yi entered, he first placed his notebook on the table, then stood in front of Yan Huan and carried her into his embrace.

"Huanhuan, thank you."

Yan Huan's body also relaxed.

"They left?"

Yes, Lu Yi replied. His line of sight looking out the window finally became clear.

"Hand over the money, hand over the goods. In a while, I'll fill up the gap in the Ye family's airport, then go over and take over the airport. And I want to see who was the one who tampered with it?"

Eight billion, it was possible for a person to die dozens of times.

Yan Huan finally heaved a sigh of relief, and she did not dare to say anything more to Lu Yi. Instead, she hurriedly urged him.

"Hurry up and settle the matter." Time could not wait now. If time could wait, the Lu family would not have made such a decision in the first place. It was because time was too short, and it was because time was too short.., they did not give them time to prepare. This in itself meant that they wanted to destroy the Lu family, so they did not even have the strength to react.

"Okay." Lu Yi patted her face. "I'll do it. You Go and sleep for a while."

Yan Huan stubbornly shook her head. I'll wait for you to finish these things before I sleep. If you don't finish them, she won't sleep. If things are not settled, she won't sleep, and she won't be able to sleep either.

Alright. Lu Yi put his computer away. When he sat down, he had already filled up the money that had been transferred into his account and used it to deduct taxes from the Ye family's account, in an instant, billions of dollars had been injected into the account, and the billions of dollars related to the sale of those items were also in place.

Lu Yi took his phone again and placed it by his ear.

"En, our Lu family will take care of everything after the airport. You should investigate who took the money away. No matter how it is done, there is no wall in this world that is impenetrable. There are also traces that can be found."

Such a large sum of money, with a capital of eight billion, was not something that anyone could afford. He wanted to see who was so capable and had such a big mouth, to be able to stuff so much money in one go, even if the money was burnt to ashes, it would still be enough to fill him to death.

En, I got it. Everything at the airport will remain the same. As for the supervision of the funds, you have to be careful. I will get someone to go over.

When Lu Yi hung up the phone, he found Yan Huan lying on the table with his eyes sparkling.

“It’s over,” Yan Huan hurriedly asked him. From his tone, did this mean that they were done? Did this mean that they were fine.

“En, it’s over, it’s over.” Lu Yi’s eyes were a little red. In just two days, he had almost suffered a mental breakdown from the torture, and he was prepared for the worst, even if he had to risk his life and the Lu family, he had to take good care of her and her three children.

Chapter 1618: told him to kill me

Yan Huan finally smiled, but she also cried

En, it’s good that she’s fine. It’s good that she’s fine. She really didn’t dare to do it again. If she did it again, she felt that she might die.

“Don’t be afraid, it’s fine.”

Lu Yi gently patted her shoulder. Finally, they had survived the biggest disaster of their lives.

The Lu family was fine, and so were they.

“What do you want to eat?” Lu Yi looked at the time and realized that it was already this time. Auntie Gu was not around, so they had yet to find breakfast.

“I’ll take you out to eat.”

Lu Yi pushed Yan Huan into the bathroom. First, tidy yourself up and we’ll go out to eat

“Okay.” Yan Huan wiped her tears. mm, don’t cry. There was actually nothing to cry about. It would be fine as long as the matter was settled. They were all fine, so they had to laugh. Yes, they had to laugh.

She ran into the bathroom and came out in a short while. She also changed into a simple home outfit. Even though her face was bare, her facial features were still very exquisite and beautiful. Her natural, unadorned complexion.., no matter where she went, she was very pleasing to the eye.

Yan Huan’s beauty had never had anything to do with makeup.

She was really blessed with natural beauty.

Lu Yi warmed his hands a little and placed them on Yan Huan’s pale face.

Yan Huan instantly felt her face warm up.

Lu Yi smiled and took the scarf to cover her face. “It’s cold outside. Don’t freeze.”

Yan Huan only had her eyes exposed outside. Even so, she could still make people feel what kind of face she had hidden under the scarf.

Lu Yi took his clothes and put them on. They hadn't had a good meal or a good night's sleep for the past two days. Now, they could finally have a peaceful breakfast.

Lu Yi brought Yan Huan outside. He asked what Yan Huan wanted to eat, but Yan Huan didn't know either

Until she saw a roadside stall selling steamed buns and Youtiao.

"That..." Yan Huan pointed. That was the stall. She wanted to eat steamed buns, youtiao, and tofu pudding. The stall was set up by an old couple. The couple had been set up here for months and years, no matter the weather, when Yan Huan remembered, they had been here. How many years had passed, and they were still here. In the past, it was her mother who brought her here to eat, but now it was Lu Yi.

Mom, did you see that? Yan Huan clenched Lu Yi's hand. You have an especially good son-in-law. He treats me very well. You also have three cute grandsons, and of course, a very demonic granddaughter.

'mother, don't worry. I will definitely lead a good life in this life. I will definitely not let myself suffer any more injuries. Of course, I also believe that the man I choose will not let me suffer any more.'

Lu Yi glanced at the roadside stall and was also quite helpless towards Yan Huan.

"Miss Yan, your gemstones were sold for 1.5 billion US dollars, and now you have two billion. Tell me, is this how you spend your two billion dollars? Why do you insist on eating this instead of eating other things?"

"That's right, I want to eat this," Yan Huan placed her hand in Lu Yi's pocket to keep warm.

However, she did not expect to receive two billion dollars in one go. Although she originally had another eight billion dollars, if she had not filled that hole, she would not have become a billionaire.

She would not have become a billionaire anymore. She could even be ranked on the world wealth rankings.

Although she had used up eight billion in one go, she didn't feel any heartache. If it weren't for her sudden realization back then, this gemstone would still be in Lu Qin's hands and would have been sold off by him, she still wouldn't be able to get a single cent. How great was it now that she had so much money all of a sudden.

Even if it wasn't two billion, but two hundred million, she was already very excited. When the time came, her three children would split it equally. This would be the money she had saved for their education,

the children of the Lu family really did not lack money to spend. Each and every one of them would be worth billions in the future

"Let's go." Lu Yi held her hand and went over.

It was still quite early at this time. In fact, it had only just been daybreak. The people at work had not yet woken up. Other than the cleaners, there were only a few people who had woken up.

Lu Yi ordered two bowls of wontons, a few fried dough sticks, and a few steamed buns. He also placed a pile of Wontons in front of them.

After eating, Lu Yi placed the wontons in front of Yan Huan.

Yan Huan took the chopsticks and drank a bowl of wonton soup first. It had to be said that this soup was really delicious. It was neither salty nor bland. It was pure chicken soup. The taste was quite good. They often drank the soup made by Auntie Gu, therefore, they could roughly taste what was in the soup.

This old couple had always been very honest in doing business. Moreover, they didn't charge much for it. Don't look at such a small stall. There were many people coming every day, and there were also many people eating.

They sold from morning to night. This was also because they used the income of this small stall to support their family.

Yan Huan took another bun and ate it. The bun was small, almost one bite at a time. She took a bite and almost scalded her mouth. However, even if it was scalding, she still had to eat it.

Perhaps it was because there was no pressure, but they all felt that their taste was much better. Yan Huan ate two bowls of Wontons in one go and over a dozen more buns. She hadn't eaten much in the first place, this was probably the most she had eaten for breakfast in the past few days.

Lu Yi was actually a little afraid that she would eat more. He was worried that Yan Huan would eat until he was full.

Fortunately, Yan Huan didn't feel any discomfort. It was also possible that she was really too nervous and didn't eat properly, so she was really hungry, this meal was just to make up for the previous few meals.

After Yan Huan fell asleep again, Lu Yi drove back to the Lu family. At this time, he had not told his family about the incident at the airport. Things were a little complicated, so he had to go there personally.

When he arrived, he heard ye Shuyun's crying and mother Lei's comforting voice as soon as he entered the door. But as he spoke, mother Lei also cried.

"Tell me, why did he treat me like this? "Even though I'm not his biological son, haven't I treated him well all these years? I raised Xinyu and treated him as my biological father. When they were in trouble, I tried my best to save him, but how could he treat me like this? He's trying to destroy the Lu family. How much does he hate me? If he really hates me, why didn't he just kill me? If he really wants to find someone to hate, then let him kill me."

Chapter 1619: he made up the money

"Anyway, I don't want to live anymore..."

Mother Lei was also crying, but she didn't know how to comfort ye Shuyun.

She only knew how to make up such a big gap. Lei Qingyi and Yi Ling had gone to think of a way, but no matter how they thought of a way, they couldn't take out so much money in one go, even if they sold their entire family, they would not be able to come up with so much money

No matter how much money they found, it would still be a drop in the bucket in the end. How could they make up for it.

However, was she really going to watch her own sister go to jail? The two of them had suffered a lot. When they were young, they did not have parents. Later on, they were adopted by ye Jianguo and the Lei family. In the end, they married and had children. Now that their days had passed, they had almost no regrets, but why did such a thing happen.

Why?

Yes, why?

Many people wanted to ask why, but who could answer and who could explain.

Right now, no one was willing to give them an explanation. Ye Xinyu was still nowhere to be seen. Ye Chuji could not be contacted when he was on a business trip. There was almost no news of him. Ye Jianguo was even more shameless, he actually hid from everyone. As for Sun Yuhan, she was nowhere to be found.

Wasn't she the one who loved to show off? wasn't she the one who loved to appear in public? wasn't she the one who loved to show off?

Why was there no news recently? Why was there no sign of her.

Was it not clear that it was the ye family who did it? It was the ye family who did it on purpose. They were just waiting for the Lu family to fall.

Mama Lei hated the Ye family when she mentioned them. They had really helped the ingrate. They should not have helped the ye family in the first place. They should have let the Ye family fall just like that. They should have dispersed so that the ye family would not bite them back, they were almost going to bite them to death.

Lu Yi stood outside and glanced at Lu Jin and old master Lu who were sitting on the side and did not want to say anything.

"Alright," Mama Lei wiped her tears and tried to persuade Ye Shuyun.

"Don't cry. Let's eat first. No matter what, we have to eat. We haven't reached the most desperate moment yet. Aren't we still thinking of a way?"

Mama Lei turned back to look at Lu Yi. Perhaps she felt that Lu Yi had something to tell Lu Jin and old master Lu, so she quickly brought ye Shuyun back to prevent her from crying again.

Ye Shuyun could not be blamed for this. This matter almost pushed ye Shuyun into hell. Ye Shuyun was almost driven to the brink of guilt. She had harmed the Lu family, harmed Lu Yi, and also harmed Old

Master Lu, she had harmed Yan Huan and her three children, especially her three grandsons, who were only three years old. What was wrong with them? However, in the future, they would be pointed at their faces and scolded. They were the children of criminals.

Tell her how she would feel, what she would do, and how she would bear it?

Mama Lei brought ye Shuyun into the room. In a while, she would bring the three children over. Even if they stayed here, they wouldn't be able to take care of themselves in the end. How could they still take care of the three children who were still young.

Sigh... she sighed. What should she do? Yes, what should she do? How could she let the Lu family escape this calamity?

After ye Shuyun left, Lu Yi walked over.

He sat in front of Lu Jin and Old Master Lu. They seemed to have aged overnight. Even Lu Jin's hair had turned white. In fact, it had only been two days, to them, it was not a small blow for them to have aged to this extent. No, it was not a small blow, but a devastating blow.

"Dad, Grandpa," Lu Yi raised his head. His face was still the same, as if nothing had changed.

"Have you dealt with it?" Lu Jin sighed. "Your mother might not be able to escape. I will think of a way to transfer it to me. It might be easier for Yan Huan. Remember to protect the three children well."

Lu Jin was most worried about his three grandchildren. They had been in pain since they were young. With the few of them around, it would be easy to see who would bully their grandchildren in the future. However, they were no longer around, when he thought of the three poor children and their Little Xun, his heart ached.

Old Master Lu did not really want to say anything. He had been through a lot. This was how people were. They were like water. Sometimes they would encounter deep water, and sometimes they would encounter shallow shoals, it was impossible for them to always be on the same level.

He could really see through it.

"Father, grandfather, the Ye family's matter has been resolved."

Lu Yi said indifferently, as if everything was that simple, that normal, that easy, and that one sentence.

However, he just said that lightly. To the entire Lu family, it was really no less than putting a bomb on each of their hearts. Then, it exploded until they went crazy, and it also exploded until there was no trace of it.

"What did you say?" Lu Jin did not react for a long time

"It's solved?"

"Yes, it's solved." Lu Yi nodded again.

Lu Jin also stood up with a whoosh. "Is this another person's prank?" This was also what he had been thinking about the most these two days. However, it was impossible. He had already understood the

situation of the ye family, could it really be a prank, or was it a prank that the ye family had brought to them?

“No.” Lu Yi pursed his thin lips. How could it be a prank? The letter was true. He didn’t know who was the one who kindly reminded him, and the matter of the Ye family tricking their Lu family was even more true.

It was also true that the gap needed eight billion to be closed. Everything was real. It wasn’t a dream, nor was it a joke.

No one could make such a joke.

“Then...” Lu Jin still did not understand and could not believe it.

“You paid the money?” Old Master Lu’s face had not changed since the incident. He had always been tense and looked no different from usual. In fact, his back was slightly bent.

“Yes,” Lu Yi nodded. “I made up the money. I made up the money an hour ago.” There would be people coming over to check the accounts in the next few days. However, it was a pity. If they checked now, they might be able to get something on the Lu family, however, after today, everything at the Ye family airport would be normal. There would be no illegal activities. Of course, Ye Shuyun would not be involved, naturally, it wouldn’t fall on the Lu family.

“You made up for it?” Lu Jin’s voice was almost at the peak. He quickly lowered his voice.

“Lu Yi, where did you get the money? Eight Billion?”

“Yes.” Lu Yi nodded again. “Eight billion. I made up for it. I didn’t miss a single cent.”

Chapter 1620: was sold for 1.5 billion yuan

“Where did you get the money?” Lu Jin felt like he was going to have a heart attack from the shock. He knew how much furniture the Lu family had. Even if he sold all of his belongings, he wouldn’t be able to get 8 billion yuan. The Lu family was a military and political family. His family had a lot of things, antiques, and land. If he sold all of them, he might have some. But even if he wanted to sell all of them, he couldn’t sell them all at once. So, tell him, where did the 8 billion yuan come from? Where did it come from?

“Huanhuan bought something at the trade fair last time.” Lu Yi turned around and glanced at the large fish tank in the living room. The big-eyed fish were still swimming happily inside.

No matter what happened outside, there were no changes to them. They did not have many memories to begin with, and they did not have that many memories to search for.

Even if they did not have the Lu family in the future, they could still live without a care in the world.

“She bought fish and taught grandfather and father two antique calligraphy and paintings. Lu Yi turned around and said, “There is also a notebook of mine, and one of them, even she forgot about it.”

“While she was trying to find money, she accidentally found a country looking for an irregular blue gemstone, which looked exactly the same as the one she bought at the trade fair.”

“That gemstone...”

Lu Jin’s nervous heart was in his throat.

“It’s the national treasure of that country. Because the national treasure was lost, they were looking for it secretly. And that gemstone also fell into Huanhuan’s hands by accident. We just wanted to give it a try.”

“I’ve contacted the other side. They took a special plane here early in the morning and confirmed that the gemstone is real. It was sold for 1.5 billion...”

Lu Jin’s heart skipped a beat.

“1.5 billion yuan isn’t enough.”

“Dad, it’s US dollars.”

Lu Yi’s tightly pursed lips seemed to loosen up a little. There was also a slight upward curve. I had already placed the money into the airport’s account. The airport’s accounts were now exactly the same.

“There’s still nearly 2 billion yuan left.” When Lu Yi said this, whether it was him, Lu Jin, or grandfather Lu, they were no longer depressed. It was as if even the air was fresh.

“Huanhuan split the money among the three children. I’ll invest it first. Just the amount of money invested is quite a lot.”

“Alright.” Lu Jin suddenly slapped his thigh. “My three grandsons were billionaires when they were three years old. That’s Great.” He smiled, but tears were squeezed out of the corners of his eyes.

He was really useless. He hurriedly stood up and secretly wiped his tears. Alright, it’s good that the matter has been resolved. This was also a reminder to them that it was better for the members of the Ye family not to interact with each other in the future, this included ye Chuji.

The matter might not have been done by Ye Chuji, but it ultimately had something to do with him.

And after experiencing this, the Lu family no longer had any relationship with the ye family. However, he had thought of things too simply. There were some things. He still had to contact them.

“Father, you might not be able to rest.” Lu Yi’s next sentence made Lu Jin stunned.

“Why?”

Lu Jin had thought of every possible way to get out of the army. He had put in a lot of effort in the past. Now, all his focus was on his three children. Why? He was already so old.., why did he have to make this old man tired?

“Dad, the airport is now under Mom’s name.”

Lu Yi reminded his father, “If you don’t care, then my mother will?” But how could they not know ye Shuyun’s character? Lu Jin, who had lived with Ye Shuyun all his life, knew about it?

Ye Shuyun didn't know how to do business at all. How could she care about the airport? If the airport really fell into her hands, it would probably collapse in a few days. And if the airport collapsed, how big of an impact would it have on the economy of Hai City, did they know? Not to mention the economy of Hai City, even the thousands of employees at the airport, as well as a series of industries related to the airport, trade, and transportation, would all be affected by an immeasurable impact.

These were things that no one else could bear, and they couldn't help others to bear them.

Lu Yi was busy with the matters of the Procuratorate. As for Yan Huan, she hated the ye family, so she couldn't possibly go to see the ye family. She couldn't possibly let old master Lu Go, right.

Therefore, in the end, Lu Jin still had to go to the airport, and only Lu Jin could go. The reason why something happened this time was because someone had found a loophole in the airport. Although they still knew what the reason was and who did it., however, they could roughly find out that if they didn't want something like this to happen again, then they had to keep an eye on it to prevent something like this from happening again.

Lu Jin suddenly felt a headache coming on. It wasn't easy for him to retire, and he would play with his children every day from now on. But what was going on.

"I'm going to visit your mother," Lu Jin stood up and prepared to find Ye Shuyun. He also told her about this matter. As long as her family was fine, she would be fine.

As long as this matter was over, he was willing to do things that she wasn't willing to do at all. After all, the airport was really under ye Shuyun's name.

After Lu Jin left, Old Master Lu raised his eyes..

"What's with that gemstone?"

He asked his grandson, "Don't lie to me. I know you're not telling the truth."

"Most of it is the truth," since Old Master Lu asked, Lu Yi told him. However, the explanation was simple, and most people could accept it.

"Huanhuan knew about the existence of this gem in the past, so she happened to run into it during the trade fair. If it wasn't because the Lu family was in urgent need of money this time, she might not have remembered it. It turns out that she bought this thing back then."

Old Master Lu stood up. His originally bent back seemed to be straighter. After taking a few steps, he stopped again, "Go to school later and bring the three children back. The house is so messy, we can't always ask your aunt to take care of them."

"Grandpa, I got it."

Lu Yi raised his wrist to check the time. In a while, he brought the three children back home. The adults were in a bad mood these days, which scared the three children. Even the ones who loved to laugh the most were not laughing anymore, the two boys held their sister's little hand, as if they were afraid that their sister would be bullied.

He did not rest. Once this matter was resolved, the Lu family would have nothing more to do. As for who caused the airport incident, they would soon know. Of course, the Lu family would not throw eight billion into the airport for nothing, eight billion was enough to support another big family in Hai City, which was this eight billion. It almost destroyed the Lu family.
