Chapter 1421

It was undeniable that Jane had a rather good figure.

She was thin where she needed to be. She was not flabby at all.

She also had curves in the right places. Her figure was rather amazing.

She was pretty bold as well. She actually dared to do something like that while staying in a room alone with another man.

It seemed like she had already prepared herself when she came into the room!

“Sean, I’m begging you, alright...”

Jane walked toward Sean while speaking.

“Put on your clothes.

“Leave some dignity for yourself.”

Sean slowly averted his gaze as he replied to her.

As soon as Sean finished speaking, he turned around and walked toward the floor-to-ceiling window. His back was facing Jane.

Jane was stunned. She doubted her own charm once again.

She had gorgeous looks and a good figure. She was dressed in such clothes while standing in front of a man, yet he was actually capable of remaining unaffected by her.

Jane was in slight disbelief. She did not believe that there existed men that would not give in to such temptations!

Sean met Jane's gaze. His gaze did not waver at all.

He did not look at Jane's body nor was there any conflict in his gaze.

It was as if Jane's body was just an obstacle that could not affect him in any way.

After listening to Sean's words and noticing his glance, Jane finally understood that there was no way for her to attract Sean through such means.

Therefore, she slowly put on her clothes after remaining silent for a while.

She had no choice but to admit that it was the first time that her efforts in pursuing someone else were not returned when it came to Sean.

"Since Willow and I have known each other since we were children, can you let our family go?"

"I'm begging you!"

Jane looked at Sean with a pleading gaze after dressing herself.

Sean shook his head lightly after glancing at her once.

He had never decided to go against Billion Trees Real Estate because Jimmy had spoken to him disrespectfully.

It was because Jimmy had done too many things that went against his conscience. Everyone was enraged at him.

If Sean did not crush Billion Trees Real Estate, he would not be able to face himself and his men, who had protected the country with their lives.

“What did you say?”

“Are you trying to take over my company without paying me a single cent?”

“Sean Lennon, are you a fool or am I the fool right now?”

Jimmy suddenly widened his eyes after listening to what Sean said.

Not only was Sean asking for a lot, but he was trying to take advantage of him!

“What’s wrong? Do you disagree?”

Sean crossed his legs. There was a calm gaze in his eyes.

“I absolutely disagree!”

“Back then, you were the one who suggested the condition of paying 73 million dollars in return for all the shares of my company.

“But you’re now...”

Sean waved his hand and interrupted Jimmy before he could finish speaking.

“Do you still have the right to negotiate terms with me right now?”

Jimmy was rendered speechless after Sean questioned him.

Back then, both of them were considered big bosses in the real estate industry of Joules Town.

However, Jimmy was in prison now.

He had truly lost the right to negotiate terms with Sean.

Jimmy gritted his teeth when he thought about this. He regretted everything that he had done so much right now.

If he knew that this day would come, he would definitely have agreed to Sean’s terms without hesitation back then!

If he accepted Sean’s terms back then, he might still be alright right now. Besides, he would still have several million dollars in cash on his hands.

He might not even be able to get 73 million dollars right now.

Not only was his company being ruined right now, but he also faced the risk of paying a huge fine.

Also, he had to bear the costs of the contract termination penalty fees from other companies, the salaries of the company's employees, and so on.

Jimmy would definitely go bankrupt. He would even owe a lot of money to his creditors.

After all, the larger a company was, the lesser risks it could withstand.

Once there was a problem with any single part of the company, a chain reaction would occur.

The problem itself would become more and more serious as well.

It was just like how Billion Trees Real Estate had not managed to resolve a small problem in time.

When Jimmy realized the problem within the company, Sean had already struck them with a series of fatal blows. He did not even have the chance to defend himself.

"Oh!"

Jimmy exhaled lightly.

Sean slowly leaned back against his chair as he spoke to Jimmy in a calm tone.

However, Jimmy felt a chill across his back when he heard Sean's calm voice.

"You!"

Jimmy's eyes slowly widened once again.

He realized that he no longer had any leverage against Sean.

Sean had him in a death grip right now.

Sean did not say any nonsense. He took out his phone and dialed a number.

"Commander."

The call went through quickly. Zander's voice rang out.

Meanwhile, Sean turned on the speaker on his phone.

"If you don't agree to my request, I won't let you take over the company even if I die!"

Jimmy said through gritted teeth as he looked at Sean.

Sean and Jimmy met each other's gazes for a few seconds.

He could see the strong determination in Jimmy's gaze.

If Sean was not even willing to agree to this request, he would really go against Sean till his death.

"At least you have some conscience.

"I'll give you 2 million dollars."

Sean nodded after letting out a deep hum.

"Give it to me now."

Initially, some people wanted to wait it out and see if Jimmy still had any means of turning the tide.

However, Jimmy was still locked up and undergoing interrogation in the government office one night later. Meanwhile, all the assets under Billion Trees Real Estate had also been frozen.

“Billion Trees Real Estate is done for!”

“Lennon Real Estate will rise to the top!”

A lot of people came to such a realization.

They all knew extremely clearly that it was impossible for Billion Trees Real Estate to turn the tide after last night.

Meanwhile, the downfall of Billion Trees Real Estate signified the rise of Lennon Real Estate.

Therefore, the companies that had initially decided to keep a middle ground all started being friendly toward Lennon Real Estate.

Sean let Jeffrey and the others handle these matters.

Meanwhile, he sat down in a cafe located in a secluded area with Zane.

“Your performance truly surprised me.”

Zane stared at Sean. He did not bother to conceal the tone of admiration in his voice.

"I can tell that you've schemed against me.

"Thinking about it, I find this situation rather unbelievable. Not a single wealthy person in the business circle of Joules Town has ever dared to scheme against me.

"You were the first one that dared to do so, and you even made me fall for your scheme."

Zane came to a huge realization at that moment.

He finally understood just how extraordinary the young man before him was right now. One could not guess what Sean's true motives were even up till the very last moment. Initially, everyone else assumed that Sean was doing this for that piece of land. Otherwise, why would he make a bid worth 5 billion dollars to purchase that piece of land? After that, everyone assumed that he was doing this to go against Billion Trees Real Estate.

However, Zane was the only one who understood that Billion Trees Real Estate was simply one of Sean's stepping stones.

The downfall of Billion Trees Real Estate was not Sean's ultimate goal. It was simply a term in Zane's promise to Sean.

"Poor Jimmy Lidell. He thought that he lost to you due to a moment of carelessness.

"The truth is he has lost since the very start. You're simply using the assets of Billion Trees Real Estate as leverage for your negotiation with me."

After Zane finished speaking, he held up his teacup and took a sip of tea.

The Collins household in Joules Town.

Everyone heard about everything that had happened in the past couple of days.

Although Old Master Collins had not left the house for a long time, he was still the first to know about everything that happened in the outside world.

Right then, Old Master Collins and his eldest son, Hubert, were seated in the study.

Both of them were equally speechless.

“I didn’t expect him to be that capable.”

After some time, Old Master Collins was the first to speak up.

He truly did not expect Sean to be capable of going against Billion Trees Real Estate to the extent that they did not even have the opportunity to launch a counterattack.

Sean’s means of doing so shocked Old Master Collins even more.

He did everything at just the right time. He worked towards his goal step by step, and each of his schemes built up on each other.

“However, he’s just that capable.

“Besides, I don’t think that he managed to do it just because he was lucky.”

Hubert sighed lightly and spoke up while shaking his head.

William could not bring himself to retort what Hubert had said.

Lennon Real Estate had not gone against Billion Trees Real Estate because Sean was lucky.

All of Sean’s plans seemed pretty useless at their initial phase.

However, the huge effects of his plans were finally clear to everyone today.

He took advantage of the power of public opinion by exposing Billion Trees Real Estate for delaying the handover of their property. Billion Trees Real Estate was in a state of distress due to this incident.

He then collected evidence of Billion Trees Real Estate's crimes behind everyone's backs and contacted a few important figures from the government office. He successfully took Jimmy Lidell down straight away.

“Old Master Collins told me that when you were young, you often came to the Collins household for meals with Old Master Langdon. He also mentioned that you really like wagyu beef.

“Since it was such a coincidence, he asked me to tell you about it.”

Hubert told Sean about the reason he had called with a smile across his face.

It was undeniable that Hubert was excellent at making up stories.

He could come up with a story on the spot. It was as if he were really telling the truth.

William shook his head slightly. He felt that there was no need for Hubert to explain so many things to Sean.

It was Sean’s honor to be asked to come over for a meal. He would definitely come over as well.

Why would he waste his time making so much small talk?

“Oh, is that so?”

“Then... alright.”

Hubert frowned slightly. He then slowly hung up on the call.

“Go ahead and have a meal with him. I’m not free.”

William picked up his walking stick. He then got up to leave.

It seemed like he wanted to avoid Sean.

“Old Master, there’s no need for you to leave. Mr. Lennon isn’t coming.”

Hubert told William while shaking his head slightly.

“What’s going on?”

William turned around and looked at Hubert with a look of shock on his face.

He never would have expected Sean to reject an invitation from the Collins family.

The Collins family had an extremely high status in Joules Town. No one dared to look down on them.

Not many people would dare to reject an invitation from the Collins family.

"Aunt May, I won't get married. I'll stay here by your side always."

Caitlyn blushed slightly and cast an instinctive glance at Sean. She then spoke up with her face flushed red.

"You're a silly child."

May shook her head and stopped talking.

Sean chuckled as well. He felt extremely lighthearted as he watched May and the others working on their chores busily.

There were several dozens of children in the courtyard. They were all dressed in brand-new clothes and shoes. They were playing and chasing each other around the courtyard.

Anyone would be infected by the joy of the children while standing somewhere filled with pure and innocent children.

It was the same for Sean as well.

Sean withdrew the hard exterior that he maintained when he was outside as he looked at the innocent smiles on the children's faces.

"Aunt May, this is the list of things that we need to purchase."

A care worker walked over with a list in his hands.

It was a list of items that the orphanage needed.

They were some daily necessities.

Although Sean had brought them plenty of items and resources, it was impossible for him to bring them everything that they needed.

Therefore, there were still other things that had to be purchased.

"Alright! I'll buy them after I'm done with everything that I need to do here."
