### Chapter 1441

“Is that good enough?”

The middle-aged man next to Johnson said with a frown.

However, the five men and women were still silent

“I’ll add one more.

“I’ll reduce taxes by half in the first two years.”

Johnson was silent for a few seconds before offering again.

Several people widened their eyes again.

A 50% cut in tax was a good deal.

After all, these conglomerates pay hundreds of millions in taxes every year

A 50% cut meant 50 million dollars.

They could do a lot of things with 50 million dollars.

They were therefore excited.

One of the middle-aged men could not help but let out a long sigh.

They could only suffer in silence.

However, Johnson did not care about their difficulties.

All Johnson cared about was whether the answer was satisfactory to him and would give him an explanation to the public

“Why are you causing a scene if you can’t do it?

“Why are you causing trouble if you can’t handle it?

“Why are you rushing to go after Billion Trees Real Estate before me?

“Now that we have this mess, what do you think we should do?”

Johnson’s tone was cold.

If no one took over Billion Trees Real Estate, no one would take over the unfinished buildings and workers delayed wages.

They would have their hands full from the unit owners and workers causing trouble and complaining to the authorities.

Therefore, Johnson must resolve the matter as quickly as possible.

Johnson was upset that Sean showed up uninvited.

The five top big shots of Joules Town's real estate industry looked at Sean with complicated looks in their eyes.

They had no idea how they should treat Sean.

However, since they saw that Sean was not here for them, they chose to keep quiet.

“What is it?”

Johnson asked with a frown, looking at the tabletop.

“Just have a look.

“It should be able to please you.”

Sean picked up a bottle of mineral water and unscrewed the cap.

Johnson thought Sean would treat him with respect and courtesy.

However, he did not expect Sean to have such an attitude.

He was not as humble as other company owners had been to Johnson.

It even gave Johnson the illusion that he was Sean’s subordinate.

“Mr. Dane, you’d better have a look first.”

Zane reached for the document before spreading it out and placing it in front of Johnson.

Johnson still looked unconcerned.

He did not think Sean could come up with anything that would please him.

However, Johnson’s eyes widened slightly after reading the document.

Several of the business world’s big shots in the room focused their eyes on Johnson’s face.

They could see every trace of Johnson’s facial expression.

They could tell that Johnson was shocked before being skeptical,

However, it was not a bad thing overall. What Sean came up with seemed to please Johnson!

With that in mind, several of the business circle’s top big shots looked toward Sean.

He just found Sean too arrogant.

Sean was so conceited!

How could Billion Trees Real Estate’s affairs be solved so easily?

If it were that easy, Jimmy would not be sitting in jail right now!

The five big shots of the business circle froze and were also disdainful.

Sean was too young and had no idea how serious Billion Trees Real Estate’s matters were.

The more arrogant he was now, the more embarrassing he was later.

“Don’t get ahead of yourself.”

Johnson said indifferently after a few seconds of silence.

“It doesn’t matter what I say.

Sean tapped on the desk, reminding Johnson.

Sean shook his head slightly before locking eyes with the middle-aged man.

“Hmph! I admit that Lennon Real Estate’s quite capable.

“But it’s not as simple as you think, Mr. Lennon.

“Having friends opens doors while having fewer friends closes doors. You should know that, Mr. Lennon.”

The middle-aged man was silent for two seconds, his tone also upset.

“Do you deserve to be my friend?”

Sean’s answer was simple and unceremonious.

Zane was in between laughter and tears on the sidelines.

He realized Sean did not have the smooth sophistication that a businessman should have.

On the contrary, he was rigid and spoke without any mercy.

“Then you showed up with your shares when Mr. Dane made an offer he’s happy with...”

Zane looked at Sean and spoke quickly.

“No, it was an accident.

“I didn’t plot against Mr. Dane.”

Sean smiled and replied while waving his hands.

However, despite Sean’s retorts, Zane still found Sean’s smile meaningful.

“No, you did.”

Zane paused but remained firm in his speculation.

“Whatever you say, Mr. Curley.”

Sean stopped replying and only nodded gently.

“You... You...”

Zane pointed at Sean, trying to say something but nothing came out.

Ever since he met Sean, he had noticed that Sean seemed to take control of everything.

Whatever happened was under Sean’s control.

It did not seem to have anything to do with Sean at first glance.

However, all Sean had to do was show up and do something, and it would have brought him great benefits.

Sean had been the biggest beneficiary since the auction to today’s meeting.

Zane glanced deeply at Sean, having mixed feelings.

Therefore, Johnson and the rest waited.

They wanted to see if Sean had any good ideas about how to solve these problems.

Johnson’s attitude aside, the big shots of the business circle alone did not believe in

Sean.

Even they felt helpless when they had been in Joules Town for years.

Sean was so young. Where did he get the confidence to fix this?

Therefore, many people were waiting to see Lennon Real Estate make a fool of itself.

Even the top companies were ready to acquire Lennon Real Estate.

The tycoons in Joules Town's business circle were frantic.

Nor have the lives of many ordinary people in Joules Town been calm for two days.

The collapse of Billion Trees Real Estate was final.

Besides that, word of its end had already got out.

Billion Trees Real Estate had been in Joules Town for years.

They had dozens of properties.

Most of them had been completed, but there were still three buildings in construction.

Two of the buildings were half a year behind the completion date stated on the contracts.

Enter title...

In short, Billion Trees Real Estate was closely related to many people.

It was a big company with hundreds and even thousands of employees.

There was also the issue of workers' wages and late delivery to unit owners.

Apart from issues like taxes and those related to the government aside, these issues alone were enough to have one's hands full.

However, the unit owners got more nervous when the news about Billion Trees Real Estate's shareholder change and its chairman's arrest broke.

They had already delayed the units' delivery for half a year. Now that Billion Trees Real Estate's chairman was arrested, the construction of the buildings would be further delayed!

Therefore, many people gathered at the Billion Trees Real Estate building.

However, there were still seal tapes around Billion Trees Real Estate's headquarters.

Even if they were here, there was nothing they could do.

However, these people were here to make an impact.

Only with greater influence could their problems be taken seriously.

Therefore, more and more unit owners, migrant workers, and some Billion Trees Real Estate employees had gathered here.

They got together and said all kinds of things. The impact was bound to take up a lot of public resources.

Zander paused for two seconds before nodding in acknowledgment and turning away.

The night passed quietly.

The entire Joules Town was buzzing that night.

The big shots in the business circle had back-to-back meetings.

The meetings naturally revolved around Lennon Real Estate and Billion Trees Real Estate.

Whether multimillionaires or billionaires, they all had one thing in common.

They did not think Sean and Lennon Real Estate could succeed.

Zander glanced at the papers in his hand and nodded.

However, Zander was still unsure.

When Sean told him to gather everyone, he thought Sean's plan was crazy.

With so many people gathered together, even a small thing could blow up into something big

After all, people liked to follow the crowd and have a herd mentality.

If one caused a scene, the others would follow.

Sean gathered everyone over. Was he not afraid of things getting out of hand?

"Commander, I don't think this crowd is going to be easy!"

Zander reminded quietly after checking the time.

"It's not going to be easy?"
