‘ Huh! ‘.

How did my FP shot up to 5000. If I remember correctly, it should be around 100 after my meditation and morning training.

’ System, how did my FP shot up? ‘

« Reporting to Host, Host has earned the reward for Quest »

' Huh ? But, I haven't found the girl yet '. I ask while clicking on the notification button to look for some information.

« Host has completed the mission series Quest »

With system's voice, a window opens up.

« Quest : Mission Series : Investigation »

Demonic Aura has been detected in the nearby vicinity. The host needs to investigate the cause behind it.

« Rujfzt : • Snuhafi lcaii

• 5000 FP

« Penalty : ??? »

« Time limit : 2 months »

« Status : Completed »

What!

How!

When!

« Reporting to Host, traces of Demonic aura had been detected on the body of the person that Host had fought today. So, Host has completed the Quest by tracing the demonic aura »

What!

' He..He.. was a demon '. I ask while stuttering as sweat forms on my forehead.

« Reporting to Host, that person was not a Demon. But that person is related to Demons as most of his mana had an ominous energy making it very similar to demons »

Hm..

....

Wait!!

Damn it!

You mean this kidnapping incident is related to Demons.

....

Thank god, I can get some help tomorrow for rescuing that girl. I will get out of this mess immediately after that.

.....

Art wufv, I dmzemo fgmpo lcaii zujfzt.

' Sys-'. Before, I could even speak, it starts creating trouble for me.

« Second part of Quest is being initiated.... »

« Quest : Mission Series : Find the objective and stop the Demons »

« Reward : • 20000 FP

• Equipment. »

« Penalty : ??? »

« Time limit : 6 months »

Looking at the screen, I feel an headache and so I close the Quest window. After all this time, I have come to know that arguing with the system was only a waste of time.

.....

Letting out a sigh, I ask , ' System, what about the skill ?'.

« Reporting to Host, Host can obtain an Advance class specific skill without any FP and understanding of the skill will be provided from system's database »

' Yes, I can finally get some skills. Show me what I can get '.

....

I couldn't help but get excited. I was hoping to get some fighting skill after almost dying last time.

« Skill Shop (Rewards) »

Assassin : Stealth Lv 1 : Allows the User to remove his presence. If used on people with higher level there are chances of getting discovered within the 30m radius.

Master Swordsman Lv 1 : Allows mastery of all kind of swords depending on skill level.

Wizard: Fire art Lv1 : Allows the Host to manipulate fire. Power depends upon skill level.

« Host can choose a skill »

Looking at the dazzling name of the skills, I couldn't help but crave for all of them. But some where, I had already made a decision.

....

Huhh...

Letting out a sigh, I speak. ' System, I choose stealth '.

...

Currently, this is the best option for me. Even if I choose one of the other two, I couldn't fight at my current level of strength. So, hiding and sneaking an attack is the best thing I could think of.

« Skill « Stealth » Lv 1 obtained »

.....

' System, it mentioned skill shop earlier, does that mean I can buy skills '. I ask in curiosity as I observe the heading of the page.

« Host needs to reach Lv 30, the third layer of Ancient Manual to unlock the shop and the other features »

Ah!

....

Damn, I couldn't imagine that happening any time soon. I don't even know, if I can live till that day because this thing won't even let me know the penalty for failing the Quest. What in hell does that ??? even means.

...

So, I decide to put my attention in the present.

' System, put 3000 FP into Lv bar '. I command the system as raising my level was very important because I planned to raise my agility.

....

Remembering the earlier event, I couldn't help but breathe in cold air. I mean that guy avoided my strike even after letting his guard down.

If he was serious, I might have trouble to even run away from him.

So, if I want to launch a sneak attack or even run away, I have to be quick. I couldn't afford to take any risk with my life.

« Host has gained a level »

Seeing the notification, I pour down all my extra Stat points on my Agility stat increasing it to 16.
