Technician's Manual - Chapter 29

Chapter 29 - Stowaway Ah Xiu

“This is... Shu Ling.”

In the single dormitory of Broken Lake Prison, Ya Xiu looked at him lying on the palm of his hand and fell asleep, wearing a blue striped pajamas, like the magic spirit of a human cub, with a feeling of blood connection in his heart.

In the last adventure of the virtual world tonight, the two of Ashiu went to the white mist area marked “Welcome” and found an island of adventure inside.

Unlike the island of inheritance, the island of adventure is not dangerous at all, and there is no trial. Only wild magic spirits play on the island.

When they stepped into the island, the Shu Lings rushed away, but because of their sharp eyes and quick hands, they only had time to catch the two Shu Lings. The captured Shuling thought they were unlucky and were willing to recognize them as masters.

There are two of them, each of them is a Shu Ling, and the Shu Ling that Ash has obtained is a human cub who sleeps in his palm—'substitute'.

「Standby」

“One Wing Shu Ling”

“Restriction: The magician must be a primate intelligent creature.”

“Basic effect: Create a phantom that is exactly the same as the target, and it will shatter if it is impacted. If the target is an intelligent creature, it will follow the instructions of the wizard.”

“Passive effect: a slight relief of pain.”

“If you feel pain, treat yourself as someone else, then it won’t hurt.”

And what Jian Ji got was a water magic faction Shu Ling, “Ripple”.

「Torrent」

“One Wing Shu Ling”

“Restriction: There must be no owner liquid around.”

“Basic effect: shoot a stream of water with impact kinetic energy.”

“Passive effect: increase the grasp of liquid.”

“The gentle flow is life, and the violent flow is change. Nothing is constant, except for the flow itself.”

According to Sword Ji, Riptide Shuling can be sold at a high price in her school, because Riptide Shuling is a rare high-burst attack Shuling in the watercraft faction, and it can also derive many powerful miracles, but it is difficult to summon. It is very large, so the price is extremely high, even more than part of the two-winged magic spirit.

Although Ya Xiu really wants to say what money you want as a paper man, but after thinking about it, it might be the automatic upgrade mechanism in the game, and now he still has to hold Jian Ji’s thighs, and it is definitely not the time to conflict with Jian Ji— -During the critical period of the project, no one can offend the only technician who does the job!

Therefore, the two happily completed the distribution of the trophies. Jian Ji was very satisfied, and Ya Xiu was more satisfied: because the avatar is one of the main magic spirits necessary in the miracle of slashing me!

A Xiu's top priority is to gather together a few magic spirits that cut my miracle and completely smash the dominance of the back-neck chip, otherwise he won't even have the qualifications to escape from prison!

He fixed his eyes on the avatar in his palm, secretly stimulating the inexplicable spiritual energy in his mind.

After Ah Xiu came back from the virtual realm, he found that his spiritual consciousness had changed from virtual to real. This feeling was like an imagination really turned into a physical force, and it seemed that he had added an invisible phantom limb. Can drive mental power to touch everything in reality.

No need to ask, Ya Xiu also knew that this spiritual energy was the mana that Jian Ji had mentioned many times. Mana is the universal energy source of the magician, and it is also the power foundation for the magician to mobilize the magic spirit. A magician without magical power is no different from ordinary people.

On the other hand, as long as you have the power, then you are the magician, even the most crappy one.

But Ya Xiu remembered that before he entered the Void Realm, he didn't even have any mana.

These mana sources, Ya Xiu, are very clear, because he and Jian Ji are sailing in the virtual world, and each layer of white mist that breaks not only tempers his spirit, but also gathers free knowledge for him, and under the dual effect, he becomes almighty. Energy-technical power.

Therefore, after returning from the Void Realm, Ya Xiu not only possessed the magic spirit, but also possessed the magic power.

In other words, he is already an upright and pure magician.

but.....

Yaxiu tried to use his mental tentacles to explore the body of the avatar Shuling, but his feedback was like the listening part of a foreign language test of level six. Not only did he not understand it, but he couldn't even understand the single sentence description.

is completely consistent with what Jian Ji said, "As long as it is not the Shu Ling you summoned yourself, you can't even analyze its structure".

Since there is no way to analyze it, it is of course impossible for Ya Xiu to find the door of truth in the spirit of avatar.

In other words, Ya Xiu is a magician who cannot enter the Void Realm by himself!

This is completely contrary to the magician system mentioned by Jian Ji-every magician, whether it is an extraordinary talent or a hard-to-carve, whether it is an extraordinary background or an orphan, starts out, without exception, he first summons a magical spirit through learning and training. , And then enter the virtual realm.

From ancient times to the present, there has never been an unlearned magician!

The term skiller, originally refers to the 'skilled teacher', and every skiller can be a teacher of a skill!

But now, an exception has appeared!

Axiu Heath, an ignorant wandering spirit in another world, crossed the threshold of knowledge and became an official magician!

He suddenly remembered the legend of the golden fish and the stowaways that Jian Ji just said.

“Silvermaster finds the golden fish, and then he can smuggle to the time continent to become a goldman, and I took the swordsman’s downwind boat and smuggled into the sea of knowledge to become a silverman...”

The smuggling of others is the movement of the upper and lower classes of magicians, which is equivalent to the movement of people in different regions of the same country. It is always an internal contradiction; while the smuggling of Asia is from a primitive tribe to a developed country, which can be said to be a species invasion.

This is definitely a secret that cannot be exposed, Ah Xiu thought.

Once other magicians find that they are stowaways, they will never let go of themselves in order to protect biodiversity.

stand-in!

Ya Xiu muttered silently in his heart, but nothing happened, and the Substitute Shu Ling was still asleep on the palm of his hand.

The next second, the light curtain suddenly popped up, and a series of information flowed through his eyes.

“Warning: You are trying to output mana! This is forbidden!”

Ya Xiu patted his head-yes, since the chip restricted him from entering the virtual realm, it would definitely restrict his use of mana!

If you want to urge Shu Ling to cast a miracle, you must bypass the chip; if you want to bypass the chip, you must urge Shu Ling to cast the miracle purification chip... Gan, it has entered an endless loop again!

“Sword Ji A Dream, save me——”

“Sword Princess?”

Ya Xiu yelled twice, the bedroom was still empty, and the magical sword girl did not appear this time.

He changed his thoughts, Jian Ji had spent the night with him in the Void Realm. She was really tired, and the paper man had to rest, so don't disturb her today.

“If the damage is enough, use an opponent, cut it open happily, and curse yesterday. Waiting for the day into the night, there will be scars left...”

Ya Xiu raised his head, only to realize that it was already 8 o'clock the next morning, and the early morning song played by the prison punctually sounded.

It's time to have breakfast, there is a death fight waiting for him in the death fight club.

...

..

Sonia opened her eyes slowly in the meditation room of Jianhua University.

She stretched out her hand, and a young girl in a white dress appeared on her palm.

If this magic spirit is announced, it will definitely arouse the attention of many people-it is very rare that people who gain the first day into the Void Realm, not to mention that Sonia has also obtained such a precious trophy.

She didn't lie to the viewers, Riptide Shu Ling is indeed very popular on the Shu Ling trading platform of Jianhua University, even if it is placed in the entire Garos, it can be regarded as the first-order one-wing Shu Ling.

But she didn't tell all the facts: The value of the avatar is not low.

In fact, the price of a general-purpose magical spirit is one level higher than that of a specialized magical spirit. Unless the purpose is too narrow, one wing of a general-purpose magical spirit can be sold for the price of a second-wing specialized magical spirit.

After all, the specialization magic spirits are only in demand by the magicians of certain factions, and the general magic spirits can be used by all the magicians, and the supply exceeds the demand and the price is naturally high.

Then why did she hide this news?

She wants the viewer to discover this 'think carefully'.

As early as in the virtual world, Sonia found that the viewer could no longer read her voice.

Maybe this is because of the limitations of the virtual world, but it doesn't make much sense- anyway, the viewer can listen to her voice again when he arrives in reality.

When they got the avatar and torrent, even if Sonia couldn't see the viewer's expression~www.mtlnovel.com~, she could see from his body movements that he wanted to be a avatar, so Sonia took the opportunity to take the stand and will take the avatar. Shuling gives up to the viewer.

After returning to reality, the viewers can learn from Sonia's heart that she knows the value of the avatar, but she said that half of it is reserved, and it is a big profit to pretend to get the torrent of water. The posture is to allow the viewer to accept the surrogate magic spirit calmly.

This kind of a bit cautious, but the scheming is all for your own good, and the methods are so superficial that you can see through the stupid girl, even if you can't cause a crit on the viewer, at least it can make the viewer feel good about her greatly.

I thought you were on the first floor, and I was on the second floor, but you saw me on the third floor, but the fact is that I was on the fourth floor just to wait for you to see me through.

The premise of all this is that Sonia has to hide that she is actually on the fourth floor. This is not difficult for her-after two days of thinking training, Sonia has been able to initially control her thinking and let herself only think about what she wants to think.

Sonia retracted the rapids magic spirit and walked out of the meditation room.

“Watcher, I’m going back to take a bath, you remember to avoid it.”

“The viewer?”

Walking out of the meditation building, Sonia looked around and made sure that the viewer was really not there.

As long as Sonia called in the first two days, the viewer would appear from a blind spot that Sonia could not see. There was no exception. This time they did not appear for several minutes. It can only explain—

After experiencing the exploration of the virtual realm, the viewer also had to rest and stop the all-weather monitoring of Sonia.

However, Sonia did not have any joy of regaining her freedom. Instead, she was as embarrassed as she took a cake back to the bedroom to eat and found that the bathroom in the bedroom was blown up!

I finally found the opportunity to prepare a sugar-coated cannonball, you actually ran away after eating the sugar-coated! ?
