Technician's Manual - Chapter 30

Chapter 30 - Celia

“Good morning, sister Sonia.”

Sonia turned her head and saw Celia-senpai coming out of the meditation building, she couldn't help raising her eyebrows slightly.

Although she said she didn't want to get involved with Felix, it was actually difficult for her to avoid Felix, because Felix was also a student of Professor Trozan.

Only a genius of swordsmanship can enter the eyes of the “Hidden Sword Saint”.

After more contact with Felix, Sonia naturally also knew Celia. In just a few short contacts, Sonia knew that Celia was the same type of person as her, the kind of female hunter who had to climb up at all costs.

Therefore, Celia is naturally hostile to Sonia. After all, Felix is her prey. Now Sonia's appearance is equivalent to the fact that you have finally caught a rare animal, only to find a trap next to it. A well-armed pet training master, it will be weird if you are not alert.

Although Sonia said that she looked down on Felix, if Felix, the young master of the Vosroda family, was willing to be her licking dog, she was not unable to give a chance, so she was a little hesitant and planned to raise fish first. It depends on the situation.

Celia took a look at Sonia, and took a half step back after covering her nose: “The school girl enters the Void Realm for the first time, she seems very excited.”

Are you serious about taking a half step back?

Although Sonia didn't take a shower after training last night, she also wiped her body with a towel and changed her clothes. It is impossible to smell. However, she had just come out of the meditation room, her head was not washed and her makeup was turned on. Compared with Celia's fully-armed 'plain pose', she was naturally scruffy like a dog on the side of the road.

Sonia knew at a glance that Celia's "plain face" could not be transformed in less than an hour.

"Senior Celia is good." Sonia said slightly, "Senior sister came to the Meditation Building to borrow the bathroom?"

Sonia has no habit of being beaten and not fighting back. There is no flaw in mocking Celia for not coming to meditate but to make-up. It can be said to be cursing without dirty words.

"I naturally came to meditate and enter the Void Realm." Celia barely smiled, stretched out her hand and said, "This is the inheritance magic spirit I found last night, what do you think of the school girl."

A little boy Shu Ling holding a scabbard appeared in Celia's hand. Sonia glanced at her, her eyebrows suddenly raised, and she recalled the information of this Shu Ling in her heart.

「Sword Sheath」

"One Wing Shu Ling"

"Restriction: The magician must use a sword weapon"

"Basic effect: in conjunction with other swordsmanship spirits, the latter will cause a 150% effect every ten seconds for the first activation."

For the swordsman, the scabbard is a very practical magic, and it can even extend a swordsmanship branch faction: assassination of the swordsman.

Through the emergence of miracles such as 'Sword Sheath Gathering Light', 'Gathering Power', 'Breaking Sword Qi', etc., the swordsman can and can only issue a burst of defensive sword aura that can break through all defenses of the same level, the power is crowned. Of all factions of magicians, the middle one must die.

For a moment, Sonia even wanted to exchange Riptide Magic Spirit with Celia.

Although Riptide Shuling is more expensive than Scabbard Shuling on the trading platform, most of the time this thing is priceless. A suitable sword Shuling is hard to find, and even if you encounter it, you may not get it.

But when she saw Celia's playful eyes, she understood everything—this lady was deliberately showing off.

"Now, do you think Felix would like it?"

Sonia suddenly felt a little guilty—the appearance of her in the dormitory last night, shouldn't it be the same as Celia's expression at this time. I really want to thank the roommates for not killing me.

"I really envy your boyfriend," Sonia pulled out an ugly smile: "For the swordsman, this is a very precious magical spirit."

"Really, since the school girl said that, then I believe it."

Celia covered her mouth and smiled, still vigilant in her heart.

After the swordsmanship test the night before, Celia thought that Felix would abandon her and pursue Sonia, but unexpectedly Felix didn't have such an idea and still treated her very well, just wanting to talk to Sonia. Ya has another match.

Celia didn't think Felix wanted to take two boats with one foot. He was not the kind of person who would conceal his emotions. If he wanted to split his legs, he would break up directly, and would not

perfuse Celia at all. Therefore Celia believes that Felix is really not interested in Sonia, just clinging to winning or losing.

But even so, Sonia is still Celia's strong opponent. After all, the sparks between men and women are often caused by friction. Now Felix has no idea, but what about the next second? What about tomorrow? What about next week?

As long as Felix breathes, he may change his mind.

Therefore, Celia can only keep her boyfriend firmly and prevent him from having the opportunity to contact Sonia privately, such as now.

Not only that, she has to increase her bargaining chip, try to deter Sonia as much as possible, and take precautions.

"Senior girl, you have to work hard too." Celia encouraged: "I heard that your family background is not very good. Compared with us locals in Galos, you can pass the national exam and enter Jianhua University. It's much better than us, and I'll definitely be able to stay in Galos in the future and take my family to live in the big city."

is here, the rich are full of contempt and encouragement for the poor...Sonia smiled kindly: "Thank you, senpai for your concern."

"Oh, you were originally a bird that can fly higher, but it's a pity that your family has dragged you down."

Celia's words were fake and genuine, she was really a pity Sonia. Not to mention aristocratic families, if Sonia was born in a middle-class family in Gallus, she would definitely have a better development, but it is a pity that she is a village girl from a poor agricultural town on the border.

She didn't notice, Sonia's eyes had changed.

"Senior sister said that."

Sonia paused for a moment, showing a helpless smile: "Many times, where a person's starting point is, it also determines where a person's end point is. Birth is our first lottery ticket, and I only got a consolation prize."

Celia wondered if she was speaking too harshly and Sonia broke her defenses, thinking about what to say to comfort the school girl.

"A person like me from a poor place can't change my tackiness after all. No, after talking with the senior sister for so long, I forget that I didn't wash my face anymore. I used this sloppy face to chat with the senior sister. I really am It's so rude."

"No need to say that..."

Just when Celia wanted to say a few words to comfort Sonia, she saw Sonia call out a magic spirit, and a cloud of water came out of her hand and rushed directly to her face.

"After washing my face, I feel much refreshed."

Celia stared at the magic spirit in Sonia's hand: "This is..."

"Huh?" Sonia was stunned, her eyes started to wander, and she stammered: "This, this is me... the adventure I got from the virtual world last night! Well, this is the torrent technique I got from the island of adventure. Spirit! You see my luck is good. UU Reading [www.uukanshu.com](http://www.uukanshu.com)"

Celia said 'oh', and three big characters were written on her forehead: Me! Do not! letter!

How can someone encounter the island of adventure on the first day when they enter the virtual world?

and also obtained one of the most precious magical spirits of the water magic faction, torrent water spirits! ?

Are you acting as a fool to cheat?

Did she buy it? But how can a village girl have the money to buy such a precious magic spirit, and there is no market for the torrent magic spirit, Celia has wanted to buy it for a long time, and there is no seller at all!

Since it was not bought, it was given to her by someone else.

At Jianhua University, there are not many people who can take out the torrent of magic spirits casually...

Celia reluctantly sorted out her expression and pulled out a smile, "This is a very important magic spirit in the watercraft faction. School girl, do you have any thoughts about changing to the watercraft faction?"

"Well, although I am talented in swordsmanship, I am also interested in the watercraft faction..." Sonia saw Felix come out of the meditation building and waved goodbye hurriedly: "Senior sister, I have to leave beforehand, see you later !"

Celia was wondering about Sonia's rush, and when she turned her head, she saw Felix just out of the building.

"Senior Sister, are you waiting for me?" Felix smiled and said, "Voidland is really a very interesting place...I want to go to the library to see more information about Voidland. Sister, do you want to come together?"

Celia glanced at the direction Sonia had left, and then at Felix. She felt that she understood something, and her teeth tickled jealously.

But a thousand words rushed to my throat, only a sweet response.

“Okay.” She smiled and stretched out her hand: “This is the scabbard magic spirit I got from Void Realm last night, but I don’t learn swords...you brother, what should I do with this magic spirit?”
