Chapter 81: A Person Who Has A Money Eye

Ten minutes later, when Shan Yue came out of the shower wiping her wet hair, she realized that the principal's group was still waiting in the living room. Her expression darkened. "It's so late. What are you still doing at my house? Get out."

"We're here to express our condolences. We still have something to tell you..." The principal quickly smiled apologetically.

Shan Yue's cold attitude made him feel a little embarrassed. In the past, he would have flown into a rage. However, Shan Yue was now protected by Han Lin, so he had no choice but to endure his temper and continue to flatter her.

"I have nothing to say to you. Everything will be handled by my lawyer. Please leave. I don't want to repeat myself." Before the principal could finish, Shan Yue interrupted impatiently. If the principal had been half as nice when she came to the principal's office to ask for a solution, she wouldn't have blown things up.

Now that he knew that she was not to be trifled with, he pretended to be pitiful and came over to beg for forgiveness. He just gave some gifts and money and sent her away. Shan Yue was not so tolerant and magnanimous, and she did not like this at all!

"This..." Seeing that the situation was not right, the dean pulled the principal, who still wanted to continue pestering him, and said in a low voice, "Anyway, we've already convinced Shan Yue's parents. We'll come again next time."

Only then did the principal stop. At the thought of his precarious position as the principal, he retracted his foot that was about to step out. "Shan Yue, the teachers have taught you for almost three years. Even if they don't have any credit, they have worked hard..."

"Do you want me to call Han Lin over and personally invite you out?" Shan Yue glanced over coldly.

As expected, as soon as she said this, the principal quickly left without needing the other teachers to persuade him. He wiped his sweat like a mouse seeing a cat and said, "Alright, alright, alright. We'll leave first. These gifts are from the teachers. You must accept them."

"Take everything away. Don't leave a single thing behind!" Shan Yue said coldly.

The few people from the Shan family standing at the side were already stunned by Shan Yue's series of actions, especially Sun Ling. She was dumbfounded as she watched the principal rub her eyes in disbelief a few times when he begged Shan Yue. She suspected that she was hallucinating.

Seeing the principal and the others chased away by Shan Yue, Sun Ling finally couldn't help but cry out, "Hey, hey, hey, what are you doing? There's still 50,000 yuan inside!"

With that, Sun Ling quickly went to the door to stop them. "Principal, teachers, sit down again..."

Shan Chen couldn't stand Sun Ling's greedy look anymore. He frowned fiercely and said hesitantly, "Mom, don't be like this!"

"Like what? How can we chase the teachers who come to our house as guests away? It's fine if Shan Yue is insensible, but you guys are still so insensible..." Sun Ling muttered as she pulled them home.

"Stupid thing." Shan Yue was disgusted by Sun Ling's appearance. She spat out these words in a low voice, turned around, returned to her room, and slammed the door.

Seeing that the person involved had already left and that Sun Ling was overly enthusiastic, the principal quickly stuffed the envelope containing 50,000 yuan into Sun Ling's hand. "Then Mother Sun, please accept our kindness for Shan Yue first. It's getting late. We have to leave."

After everyone left, the Shan family fell silent again. Looking at the gifts all over the ground and Sun Ling counting the money with a smile, Shan Chen felt embarrassed to have such a mother for the first time. His face turned red as he said, "Mom, you shouldn't be like this. You're embarrassing Sister too much."

Shan Yue had already made it clear that she did not accept any of their goodwill, but Sun Ling was still rushing to collect the money. This was too degrading!

However, when Sun Ling heard Shan Chen's words, she immediately exploded. "Embarrassed? What embarrassment? You just want to say that your mother is embarrassing you, right?"

Shan Chen was speechless from the questioning and could only criticize Sun Ling silently with his eyes.

Sun Ling became even angrier and retorted loudly, "This is 50,000 yuan. If that lunatic Shan Yue doesn't want it, I want it! Do you know how long it takes for your parents to earn 50,000 yuan? The principal also said that this is mental compensation for Shan Yue. What's wrong with her mother holding it for her?"

Chapter 82: Accept 50,000 yuan

Shan Xing could not stand Shan Yue's actions and only thought that she was putting on an act. She also helped to criticize Shan Chen. "Shan Chen, why have you become like this now? You actually despise and criticize Mom. You don't know how sad Mom is now."

Sun Ling's temper flared up, and her words became more and more ridiculous. "Shan Yue, that heartless thing, never used it for me when she earned money. I'll take this 50,000 yuan as her filial piety to me. And Shan Chen, you must have been bewitched by Shan Yue. You never left her side. Our family is really finished. We've been messed up by that b*tch Shan Yue..."

Shan Chen was also unhappy. "Mom, don't talk nonsense."

Seeing that the family was arguing, Shan An, who was completely treated as an invisible person, coughed and looked at the thick stack of money in Sun Ling's hand with mixed feelings.

He worked at the construction site and received a meager salary every month. As soon as he brought it home, Sun Ling would immediately take it away. Therefore, he had never seen so much money. Although he was a little jealous, he still felt that they shouldn't accept this money. However, he didn't dare to resist Sun Ling. He could only smooth things over. "Alright, alright. Chenchen, what happened to your sister in school? Why did these school leaders bring money again?"

The last time Sun Ling received money from the school, she had blackmailed them when Shan Yue fell into the water and almost became a vegetable. In just a short period of time, could it be that Shan Yue had encountered some danger in school again?

Shan An was slightly worried.

"Dad, it's like this..." Shan Chen no longer argued with Sun Ling. Instead, he told them about how Shan Yue had been accused of cheating and scored full marks.

Moreover, from his perspective, he exaggerated Shan Yue's grievances and difficulties when she was wronged. He hoped that the Shan parents would care more about his sister and stop treating Shan Yue as a money tree.

When Shan An heard what had happened in school, he was both emotional and gratified. In the end, all his emotions could only turn into one sentence. "I knew it. All my children are outstanding. Shan Yue is very hardworking. She will definitely have a bright future."

Knowing that his children were so outstanding and hardworking, Shan An immediately felt that it was worth it to earn money at the construction site under the sun, rain, and sweat.

Shan Chen nodded and echoed, "Sister is really amazing."

Hearing Shan An praise Shan Yue like this, Shan Xing immediately felt unbalanced. Shan Yue had always been used as a negative example at home to accentuate her outstandingness. When has Shan Yue been praised by everyone? This made her very unconvinced.

"What's so amazing about it? It's just blind luck. Maybe she stole the monthly exam papers in advance to take a look. That's why she scored so well. If it were me, I could do it too." Shan Xing pursed her lips.

"Then when did you get full marks? Shan Xing, as far as I know, you haven't even entered the top ten of the grade." Shan Chen felt indignant for Shan Yue.

"Hmph, that's because I didn't work hard. If that pig-brain Shan Yue can get first place, so can I. Just wait and see." Shan Xing was furious.

"That's right. My Xingxing is the smartest girl in the world. That idiot Shan Yue must have relied on some unknown method to score so well. Even if she suddenly became smart, it's because our family has good genes," Sun Ling said disdainfully.

When he heard Shan Xing say that Shan Yue was a pig brain, Shan Chen felt extremely ironic. He could not help but say, "Since you look down on Sister so much, you definitely don't know that she was already guaranteed admission to the Capital University and was rejected by her!"

"What!" Shan Xing was stunned and his eyes widened.

Sun Ling also looked like she had seen a ghost and could not believe her ears. That was the best and top capital university in the entire Federation. When did Shan Yue actually have a guaranteed spot?

Seeing them doubting their lives, Shan Chen felt much better. Hence, Shan Chen told them how Shan Yue had easily solved the problem that Lin Xiao had announced. He even vividly described how the netizens praised and admired Shan Yue.

“Sister has a low profile and doesn’t want to be noticed. That’s why she hasn’t appeared to respond and rejected Lin Xiao’s invitation. Otherwise, she would have become famous long ago,” Shan Chen said proudly.

Chapter 83: Visiting the Zhou Family

“That’s absolutely impossible!” Upon hearing this, Shan Xing subconsciously denied it.

Seeing that Shan Chen had taken out his phone again and was about to look for evidence for her to see, Shan Xing immediately panicked. “Anyway, I don’t believe that stupid Shan Yue will become smart. It’s boring. I’m going back to my room!”

As she spoke, Shan Xing hurriedly walked towards her room in a daze. Her footsteps were rather flustered, as if she was afraid that Shan Chen would say something earth-shattering.

Sun Ling was satisfied with the money. When she heard what Shan Chen said, she thought that Shan Yue was deliberately causing trouble by lying. She sneered and left.

Only Shan An was so excited that he was about to cry when he heard that Shan Yue was actually so outstanding that she could be guaranteed admission to the Capital University. Only then did he realize that he was usually too busy earning money and did not dare to resist Sun Ling at home. He had accidentally missed so much of Shan Yue’s growth and felt extremely guilty.

Shan An pulled Shan Chen to the dining table and sat down. He touched his knees helplessly and said in a trembling voice, “Chenchen, tell Dad about your sister...”

On the other side, at the Zhou family.

As Zhou Xuan was busy acquiring another company, he only returned home after a meeting at night.

Ever since he took over the Zhou Corporation a few years ago, he had adapted to such a busy life. He was only free occasionally. To him, even helping Zhou Yang clean up his mess was a rare relaxation time after leaving the scheming business world.

Just as he rubbed his swollen eyebrows and got out of the car, the butler quickly came up to him and said, "President Zhou, Elder Zhang is still waiting for you in the reception room. Do you want to receive him or...?"

"Huh?" Zhou Xuan was a little surprised. He handed his suit jacket to the butler and asked curiously, "Why didn't you tell me he was here? I could have come back earlier."

Seeing the fatigue in Zhou Xuan's eyes, the butler lowered his head and said, "This is Elder Zhang's idea. He actually brought a young man over in the afternoon. When he heard that you weren't around, he waited in the living room and even instructed us not to disturb you."

They waited until the moon came out before Zhou Xuan returned to the Zhou family.

When Zhou Xuan heard this, he knew that Elder Zhang must have something important to ask of him, which was why he had waited so long. He immediately strode towards the living room and said, "I'll go over now and prepare a pot of Longjing."

Longjing was the tea that Elder Zhang liked to drink, and Elder Zhang's name was Zhang Huang. He was the principal of the Capital University and his benefactor during his university days. Although their interactions had decreased a lot in the past few years, their teacher-student friendship had not decreased.

As soon as he entered the living room, Zhou Xuan saw the white-haired Zhang Huang on the sofa. Zhang Huang was already over 70 years old, but his eyes were bright. After all, he had spent most of his life doing scientific research, and he had the aura of an intellectual.

Facing the old teacher, Zhou Xuan greeted him respectfully, "Mr. Zhang, I didn't know you were coming in advance. I was delayed by a meeting at the company until now. I'm really sorry."

"It's fine, it's fine. I'm willing to wait for you." Zhang Huang quickly waved his hand and introduced the bespectacled boy to Zhou Xuan. "This is your junior, Lin Xiao. He's studying in the Math Department and is also very outstanding."

"Hello, Senior Zhou! My name is Lin Xiao. I've heard many of your deeds in school and admire you very much."

This was the first time Lin Xiao had seen the all-powerful head of the Zhou Corporation, Zhou Xuan. He bowed to Zhou Xuan very cautiously.

Zhou Xuan also said politely, "I'm Zhou Xuan, I graduated four years ago."

Seeing that the two of them knew each other, Zhang Huang went straight to the point. "Zhou Xuan, I'm here this time to ask you for a favor. This has to start from the question

that a few professors in the school asked Lin Xiao to post online more than a month ago...”

The problem that a few old professors wanted to use to issue a challenge had actually been solved by an anonymous netizen recently. Moreover, the answer was very perfect. Its level was almost comparable to a few professors.

However, when Lin Xiao contacted the other party and invited him to the capital university, he was immediately rejected. Ever since then, no matter how many messages Lin Xiao sent or how generous the rewards were, the other party was like a stone sinking into the sea and never replied.

Chapter 84: Number One in the World, Zero

Zhang Huang emphasized how eager the old professors were to see the person who solved the question. They even lost their appetite and searched for connections everywhere. However, the other party left too little information. In the end, they had no choice but to look for Zhou Xuan.

“Actually, the core logic of this question is related to an important research by the professors. The person who can solve this question will definitely be helpful to the research. Now that the research that the professors have spent half their lives on has reached an important stage, it’s really urgent,” Lin Xiao added after Zhang Huang finished introducing.

As the student closest to the professors, he had seen with his own eyes how much the gray-haired old professors cared about this research and how much they yearned for the person who solved the questions to appear. Therefore, he could understand how eager the old professors were to find someone. He would do his best.

“So, what you mean is that you want me to use my hacking skills to find out where this person is.” Zhou Xuan pondered for a moment and said slowly.

“Yes, if we didn’t really need this person, we wouldn’t have wanted to use such a radical method to find him.” Zhang Huang quickly nodded and looked at Zhou Xuan with admiration. “You’re the most outstanding student I’ve ever taught and the most skilled hacker I know so far. The last hope for this is you.”

Zhou Xuan kept a low profile. Very few people knew that he had this ability. Zhang Huang had also used his authority as the principal to find out by chance when Zhou Xuan was still in university.

If he remembered correctly, Zhou Xuan's hacking skills were already one of the best in the country a few years ago. Now, he was probably already a world-class expert.

"Alright," Zhou Xuan replied and instructed his assistant, He Sheng, to come in.

"I personally taught He Sheng how to hack. The Zhou Corporation's network security is handed over to him. At the same time, He Sheng is also the fourteenth-ranked [Falcon] on the world's hacker rankings. Let him try it first," Zhou Xuan said calmly.

As he spoke, He Sheng had already entered with a laptop. He found the blank information page of the mysterious person who had solved the problem that Lin Xiao had given him and started typing quickly.

Looking at He Sheng's dazzling finger techniques, Lin Xiao could not help but ask, "That person has nothing except a string of account ID. Can we really find him like this?"

"By hacking into the backend database of the posting software, we can find this person's Internet address. Then, we can further crack the other party's location and other information," He Sheng explained as he worked.

Zhou Xuan also said, "As long as you use the Internet, you will definitely leave traces on the Internet."

"Wow, it's really impressive." Lin Xiao's eyes lit up as he praised sincerely. He could already imagine the old professors being overjoyed when he brought the person who solved the question to them.

He Sheng was a little embarrassed. He smiled and said, "My hacking skills were all taught by President Zhou. President Zhou is much better at this than me."

Even more powerful than He Sheng, who was ranked 14th in the world? Lin Xiao was first surprised, then relieved. He smiled and said, "Since Senior Zhou can teach a hacker ranked fourteenth in the world, his standard must be number one in the world, right?"

"No." Zhou Xuan shook his head. Many years ago, the first place on the hacker rankings had been occupied by a person named Zero all year round. She had broken through the final confidential databases of countless countries and organizations. Countless people hated her, but they yearned to find her.

In terms of hacking skills, Zero had almost no opponents. No matter who challenged her, they were easily defeated. Zero even said that as long as anyone could find out her true identity, she would hand over the position of the number one hacker.

The world only knew that Zero was a woman. In fact, this information was revealed by Zero herself. Her age and identity were unknown.

When Zhou Xuan was still young and vigorous, he had also challenged Zero. Although both sides defended and invaded several rounds, Zhou Xuan still lost to Zero.

After so many years, Zhou Xuan's hacking skills were naturally much better than before. He had also thought of challenging Zero again to compete for the glory of being the world's number one hacker, but in the past year, Zero seemed to have disappeared into thin air and could not be contacted.

Just as Zhou Xuan's thoughts were flying, He Sheng suddenly said in surprise, "President Zhou, I've found it. The last time this account was logged in was in S City!"

Chapter 85: The Opponent's Counterattack

"S City again?" Zhou Xuan raised his eyebrows in surprise. He leaned closer to the computer controlled by He Sheng and looked at it carefully.

As the special program written by He Sheng ran step by step, further details about this mysterious person's address appeared.

"S City is close to the suburbs, District E? Looking at the satellite image, that place is basically filled with bungalows and shanties. It's a slum, right?" He Sheng pulled up a map and asked curiously.

He seemed to have been to this place the last time he went to S City... Zhou Xuan revealed a thoughtful expression.

"I've found the Internet mobile device that that person used!" He Sheng suddenly shouted in surprise. Then, his fingers quickly typed on the keyboard in a daze, trying to establish a connection with the mysterious person's device.

"Found it?" When Zhang Huang and Lin Xiao heard this, they sat up excitedly. They looked at each other and saw disbelief and ecstasy in each other's eyes.

As long as they could find the other party, they were willing to pay any price. They only hoped that the other party would give them a chance to meet, even if it was just for five minutes!

"Wait a minute..." He Sheng quickly typed the code, but his expression was no longer as relaxed as before. It became more and more serious. He had just locked onto the other party's mobile device and tried to hack into it through the remote virus code. However, the originally unimpeded search process had gone awry at this step.

The progress bar on the computer screen showing whether the virus had successfully loaded was stuck halfway. After half a minute, there was no progress.

At the same time, Shan Chen finished his homework and looked at the news on his phone as usual before bed. Just as he was reading a piece of social entertainment news with relish, a bright red box suddenly appeared on his phone.

[Warning! This device has been invaded by an unknown virus. It is temporarily blocked by the firewall. Please deal with it as soon as possible.]

Was there a virus in his phone? Shan Chen was a little stunned. But he had never used his phone to browse any informal websites or click on a potentially dangerous link. Where did this virus come from? Or was it just a prank?

With a trace of hope, Shan Chen tried to delete the warning bullet box that had appeared. However, as soon as he moved, the bullet box became unstable. It flashed, and the bright red warning words kept indicating the seriousness of the problem.

At this moment, his phone had already lost control. Shan Chen was a little flustered. He subconsciously looked at Shan Yue's room. Thinking that Shan Yue seemed to be in a bad mood tonight, he hesitated for a moment before trying to press the restart button.

However, the restart icon on the screen only lit up for a second before it instantly dimmed. The warning box was still flashing. After another five seconds, Shan Chen's phone screen turned black.

"What's going on?" Shan Chen was even more at a loss.

On the other side.

"It's a little tricky. I failed to invade with the virus just now. The other party's equipment was loaded with a very tight firewall program that intercepted my virus. Now, I'm trying to attack a second time." He Sheng's eyes were fixed on the computer screen, not daring to be distracted.

After hitting the enter key, He Sheng sent another even stronger invasion control virus while paying attention to the movements of the other party's firewall.

In the Zhou family's living room, Lin Xiao and Zhang Huang's eyes were also closely watching the computer screen in front of He Sheng. They had a premonition that finding this person this time seemed to be a little tricky. Although they could not understand the dense code and were helpless against He Sheng's little trouble, they silently prayed that He Sheng's job would be smoother.

Only Zhou Xuan remained calm and took a sip of Longjing tea from time to time.

He did not think that a hacker more powerful than He Sheng could appear in a small city like S City. After all, He Sheng was also a hacker ranked fourteenth in the world. It might be a little troublesome to encounter a tightly guarded firewall, but it was only a matter of time before he could solve it.

“The other party counterattacked! However...” He Sheng looked at the counterattack program feedback and was a little lost. He did not speak for a long time.

“What’s wrong?” Zhou Xuan asked.

The Novel will be updated first on this website. Come back and continue reading tomorrow, everyone!
