

The galaxy left behind the stars in the world - Chapter 13 Don't Be Afraid

Chapter 13 Don't Be Afraid

"When you are alone there will be a shadow by your side." But who ever thought that shadows would appear when there is no light?

Just like things in nature, they all have their own time, season, and weather.

Shu Tong before very do not understand why the world will be so many people will leave the world because of depression, after all, the disease and the flesh will not feel the pain.

Until now she finally experienced the so-called invisible pain, the spiritual kind of indescribable pain is actually far greater than the physical pain.

"Shutong, don't be afraid! Go back to see the doctor well, we wait for you." Shu Tong packed his school bag ready to leave the classroom when he heard these words next to Xia Sichen's seat.

Shu Tong's eyes were red and he hesitated to look back at him and nodded slowly, she looked up at that moment and suddenly found that many people's eyes were turning to her, as if to say "Don't be afraid, we have been in."

Because the class is being taught Shu Tong just look at their eyes to read what they want to say, and the corners of her mouth rose and nodded slightly to the classroom outside.

Shu Tong looked at the end of the classroom is standing in the office door teacher Xu Feng, a faint smile turned around and ready to go downstairs, she turned the moment behind her came.

"Go listen to the doctor!"

Shutong stopped and froze for a moment, and did not turn back nor did he have any words just nodded his head that he remembered.

The road home for her is like a white horse passing as quickly, how she wished this road home can be longer. She knew she would add after her aunt would beg relatives to take me to the hospital again.

The cousin who had taken Shutong to the hospital several times before did not promise to take her this time, Shutong stayed quietly in the room just as she was lost in thought when her phone suddenly rang and looked at it was actually from Mu Yunfan.

"How about it? Did your cousin take you there?"

"She didn't agree. And said if there is a mental problem, send it to a mental hospital and forget it."

Shu Tong finished typing these words silently on the phone, and Mu Yunfan replied almost in seconds.

"How can she be like that!" Shu Tong looked at the phone did not speak, she reached out to hold the forehead and sighed.

The room was quiet and frightening, Shutong was still sitting quietly on the edge of the bed looking at the dark blue curtains and quietly drifted off, as if thinking about why, why no one was willing to help her, why someone always denigrated her.

"Shutong? Are you there?" A knock on the door pulled Shu Tong back to reality, she left the bed to open the door, the woman outside the door tall, quiet look some slightly fat long hair draped over both shoulders.

She is Xing Bei's mother is also considered Shu Tong's neighbor, and Xing Bei, Zhao Yizhe and Shu Tong are childhood friends.

The three of them had been with each other since childhood, and although Shutong was older than both of them, she was always like a little sister among the three of them.

"Shutong, let me take you to the hospital tomorrow." She stood in the doorway and looked at Shutong and said slowly.

Shutong's original anxious mood also became much calmer, gathering her mood Shutong showed a smile: "Yes, thank you.

"Okay, thanks."

After a bumpy ride they arrived at the hospital.

"You have to trust me, I'm your primary care doctor." The woman sitting in the office chair wearing a white lab coat quietly sat in front of the computer, writing on Shutong's medical record book.

Shu Tong's heart was always uncertain in this half hour, because she was always worried about the alleviation or aggravation of her condition, and hoped that the result must be alleviation, because only then she could afford to leave the classroom when their eyes could afford to leave the words said by Mr. Xu Feng.

But the reality is always different from the imagination is not so little, Shu Tong silently from the psychotherapy room, looking at Xing Bei's mother quietly sitting in the

waiting area on the chair with Xing Bei's brother in her arms. Xingze just turned two years old this year very pestering mother so had to bring him along to the hospital.

"It's okay, you let go of your heart a little bit every day." She said gently as she held Xing Ze towards Shu Tong. Shu Tong's raised his head and forced a smile of approval, then turned around and walked towards the elevator.

Shu Tong looked at the people coming and going in the hospital, children, adults, and the elderly and in that moment she suddenly understood the importance of human life. This time the doctor gave her more medication, of course, the cost has also increased.

"By the way, go to school for a while when you go home, the doctor said to rest for at least a week before going to school." Xingbei's mother said cautiously. Maybe it's because children are sleepy, Xingze slept all the way until he got off the bus in front of the school he only woke up.

Shu Tong quietly stood outside the school gate, from the outside of the school look inside feel very different, this time of day is the time of the class so the playground students are very few.

But some distance away but Shu Tong saw Xing Bei in the playground on the gym class from afar, "Shu Tong, you're back from the hospital? Come, I'll open the door for you."

The doorman aunt saw Shu Tong and Xing Bei's mother standing at the door and hurriedly opened the door.

"How is it? What did the doctor say?" Auntie asked with some anxiety.

"Fine, but the doctor recommended a week of rest before coming to school, we came to school to ask for a leave of absence." Before Shu Tong replied standing next to Xing Bei's mother opened her mouth and replied.

"That's good, rest at home for a few days to adjust before coming back."

"Okay, auntie, we'll go in then." After Shu Tong finished speaking, he carried fruit and a chicken fillet and waved to Xing Bei on the playground, who hurriedly ran this way.

"Mom, why are you here? Did you take Shutong to the doctor?"

"Well, we're getting ready to go back and came to school to give Shutong a little leave." Xing Bei nodded and looked at Shutong: "Be happy every day!"

Shutong smiled and nodded slightly: "Oh! This is for you to buy the chicken fillet, you secretly take back to class to eat ha!"

"You take yourself back to eat, buy me this why!"

"Oops! I bought it for you, take it quickly." Standing on the side of the mother also nodded to Xing Bei signaling him to take it.

After the Xing family mother and son finished renewing the old, Xing Bei's mother took Shu Tong towards the principal's office on the second floor, just past the door of the faculty office when Shu Tong saw Principal Yang who was on the phone in the faculty office.

Shu Tong's heart was in a state of flux and did not know how to speak, just as she froze in place, Yang Cheng put the phone back into his trouser pocket and turned his head to see Shu Tong.

"Shutong, have you gone to the hospital?"

"Went, ready to go home."

"That Principal Yang hello, I am Xing Bei's mother this time it is me who took Shutong to the hospital."

Just a moment's work in the faculty office, Xing Ze did not know where to run, she had to let Shu Tong to find, now there are only three people in the faculty office, the principal, Aunt Xing, and one of Shu Tong's classroom teachers.

"Principal Yang, that Shu Tong's situation is a bit serious."

Principal Yang did not say anything just nodded helplessly, in school he has seen Shu Tong's abnormal behavior, he also knows whether Shu Tong's condition has become heavier or lessened.

Shu Tong was playing with Xingbei on the playground, from afar it looked like this time Shu Tong's face was less sad and more smiling, suddenly Xingbei's mother's voice came from the hallway: "Shu Tong! Come up here."

"Come, Shutong sit here." She looked at the principal and sat down carefully.

"You call your teacher Xu and ask him where he is, and you go and tell him the situation."

Shutong nodded and took out her cell phone and dialed Xuxiang Feng's phone number.

"Hey, hello." Soon a familiar voice came from the other end of the phone, she was at a loss for words the girl beside her said comfortingly, "It's okay, you say."

"Teacher, this is Shu Tong, I am now at school, where are you? I'll go find you." Shutong's voice decreased significantly.

"I'm at school now." These six words made Xudong Feng's calm mood become a little angry: "Why are you at school? Didn't I tell you to go to the hospital? What's wrong with you?"

"Teacher, these are three questions which one should I answer first?" At this time Shu Tong has obviously regained her normal mood at least she flirted with the teacher she had been afraid of.

"Did you go to the hospital or not?" A questioning voice came from the other end of the phone.

"I went, the principal said to look for you to talk about the situation, where are you?"

"The dormitory." Two words ended their call.

"Principal, this is a little token of my appreciation, bought you a little fruit please take it, thank you for helping me." Saying that, he put the fruit on the table and walked towards Mr. Asahi's dormitory.

When she came to a place less than two meters away from the dormitory, she was suddenly a little nervous. But she couldn't go back the way she came.

"Teacher." Shutong stood at the door with the fruit and looked at Teacher Asahi Feng who was cooking noodles.

"Shutong, come in." Shu Tong went in and put the fruit on his table first, because Mr. Xu Feng was an art graduate, so of course his dormitory was full of drawing tools. The room was neat and tidy as if it was spotless although the room was a little small, but it was still well organized.

"I thought you didn't go to the hospital and ran to school."

Shu Tong smiled and looked at him without speaking, "This is?" He opened his mouth again and asked.

"I am Xing Bei's mother, no one took her this time, so I took her with me."

He didn't say anything just nodded slightly, "Remember, go back well and take your medicine on time."

Shu Tong, who was standing at the side, nodded, and when she left she handed him the fruit, even though he was reluctant Shu Tong still let him take it.

A "don't be afraid" to dispel how much worry;

A "I" to find how much security.

"Don't be afraid, there is us!"

Brave girl will always turn the armor into decoration and wear the Milky Way on her body. Until now home has been two or three days, although the time back is not too long but for Shutong all day to do nothing to make this short two or three days become very boring and tasteless, she will occasionally take the headphones to the road blowing wind, take a walk.

Occasionally she would draw a painting, although painting is not her biggest hobby, but she found that quietly and seriously doing something will make her heart's worries dissipate a lot, but every day repeating the same life anyone will feel bored.

She was always thinking about what new things I would do today.

This day, my aunt gave her a pile of wool and a few long needles, she thought about how to knit a scarf, she silently thought up from the beginning of the time to tear down and re-knit to the final more and more smooth. The wool is a bit thicker than the common wool, and warmer to the touch.

A needle and thread, after three days of busy scarf is finally completed, originally wanted to send with her father but at this time she always have a kind of unspeakable reproach to her father, so she thought of the surface often unattached, to and from the dashing teacher Xu Feng.

She was always afraid that the scarf would be disliked by Mr. Xu Feng and that it would be misunderstood by other students. She was thinking about how to give him the scarf on her way to school, but time passed quickly and she arrived in a short time. She met her best friend Meng Yilime just after she got off the bus, they had been playing together when they were little but then Meng Yilime left her grandmother's house so there was less contact.

But to my surprise, when I was in elementary school, Meng Yilime was actually assigned to Shu Tong's dormitory, and gradually they played together again. The first time I saw it, I was in the same school, but not in the same grade.

"Hello, I thought you'd have to wait a while to get here!" She patted Shu Tong's shoulder and said with a smile. She always looks like a sand sculpture, but sometimes in the face of Shoutong's problems she can always give serious analysis.

"By the way, do you have your medicine with you?"

"I have it with me, don't worry." Shu Tong's face revealed a smile that had never been seen before, seeing the smile on Shu Tong's face Meng Yilime's expression also became

This time the smile is not as forced as the previous one, which makes people look very comfortable.

"You smile hey! Shutong, hahahahahaha!" She suddenly stopped and put her hands on Shoutong's shoulders and said happily.

"All right, all right!" Shutong pulled her hand down.

"How I hope, you from now on you will always smile like this, you know, your smile some time ago is particularly awkward."

"I try." There are still two hours before the school opens, although some early, but at this time the street has a lot of students with backpacks to and from the rush.

Shu Tong and Meng Yi Lime came to the supermarket, she wanted to buy a bag containing a scarf, so it might look a little better.

The breeze is gusty, but it's late winter in A town, although the temperature is not as cold as in previous years, but if there is a gust of wind blowing, then suddenly people feel the cold wind stinging, people on the street are carrying scarves, gloves and other cold things. Some people even wear a thick cotton jacket, of course, Shu Tong is the exception she wore a padded sweater underneath a black tweed pants.

The original is a little fat, she looked up and fat some.

"Mirtazapine" is a drug to treat depression, its effectiveness is good but its side effects are not generally large, Shutong eat it just eat two days, her meal size soared every day after eating breakfast for more than an hour her stomach began to drum again.

It is because of this amount of food so that her weight rose a little, the face of the baby fat to see a clear.

Weight gain, headaches and dizziness, hand tremors are the price she pays for taking her medication, which is of course why she secretly doesn't take it.

"Let's go, there are five or six minutes to open the door, how we first go to the school entrance line." The two walked towards the path with their backpacks, one thin and one fat, one tall and one short, their backs left on that sheepish path.

Another week without coming to school, there are some eyes to where she is standing, she is also as usual smile immediately after the head down.

"Shutong, you're here! Are you feeling better?" Chu Rui, Mu Yunfan, Chen Yixuan appeared behind her.

"Much better, thank you!" The corners of her mouth rose slightly.

"Go for it! Every one of us didn't give up on you, so you can't give up on yourself either, we'll be there for you!" The voice of Xia Sichen could be heard from a long distance, and for more than a moment Shu Tong felt how lucky she was to have met them.

Shutong stopped their own footsteps they almost simultaneously turned back to look at Xia Sichen, looking at their expressions Xia Sichen big steps suddenly became slow, a bewildered face said.

"What are you guys looking at? Are you convinced by my eloquence?"

"Hahahahaha." This was followed by a burst of laughter, and this time Shu Tong was not an exception.

This time Shu Tong's face seems to be a lot less sad and a little less forced smile. Back in the classroom, she didn't stand in the balcony and stare, but talked and laughed with her friends.

"By the way, I knitted a scarf for Mr. Xu Feng, what do you guys think I'll give him?"

"What?! You knitted a scarf for him, why don't you knit it for us?" Peng Ze, who was standing at the side, was a little surprised.

"Yeah, how come you didn't knit it for us?"

"Hahaha, if we knitted, so many people will not be tired of our Shoutong!"

"Hahahahaha" A burst of laughter surrounded the classroom of Class 9-2.

"Well, when I have time to knit for you, but"

"But what?" Lin Han asked, puzzled.

"Then wait for your wedding as a wedding gift! Haha."

"Hahahaha, so stingy well?"

"Oops, give me some ideas." Shu Tong turned the topic into the main topic.

"Can give you ideas, but you have to promise us a condition." Peng Ze said with a serious face.

"What?"

"You are not allowed to make us worry in the future."

.....

At once the atmosphere fell into awkwardness, and Shu Tong's face became a bit overwhelmed.

Chu Chu seemed to see what was on Shutong's mind and said, "We know it's a little hard, after all, it's not something you can control, just do your best."

"As long as you smile more every day is progress!"

Shu Tong's eyes suddenly reddened, and his throat seemed to be blocked by something as if he couldn't say anything.

"How about this, you write a note and put it on the teacher's desk."

Minute by minute in the past, there are five minutes to go on the evening meeting, Shu Tong's heart also gradually tightened up.

"That Lin Han you go to call the students who asked for leave." The voice came in from the classroom door Lin Han immediately got up and took the roster to the Registrar's Office. Only to see Xu Feng teacher wearing an army green cotton jacket into the classroom, without saying a word after writing the ledger in the classroom turned a few circles and then walked outside again.

"Shutong!" Shu Tong, who was looking down at her book, jerked her head up and looked at Xu Feng standing at the door and immediately walked outside the classroom.

Xu Feng walked in front of her until the office door suddenly stopped in his tracks, and she stood next to him with both hands clutching the edge of her coat.

"Did you drink your medicine on time?"

"Yes." This time Shu Tong did not just nod and not say anything as usual.

"I haven't seen you for a few days, you seem to have gained weight!" Xu Feng's tone is very strange, strange so that people can not help but laugh of course Shu Tong is no exception.

"Pfft, it seems a bit."

"Right, haha." The late winter weather is very short at this time the sky has darkened, the building's lights shine the distant mountains have a hazy beauty.

Two people are not talking air is mixed with a few embarrassment.

"Come to school and eat on time ha! And how we can not change do not force to change."

His words make Shu Tong some confusion, what he said can not change it? Just when Shutong thought he then spoke again.

"Just like me, you see also quite fat, never mind what others say."

Shu Tong suddenly realized that he knew that in the last year a new teacher came to school to teach physical education he always ridiculed Shu Tong fat like a pig in front of everyone, but Shu Tong did not understand there are people who are fatter than her why he always target her, there is his time is simply Shu Tong's nightmare, at that time there is no class division even the class teacher is not Xu Feng.

"Come outside a little cold, into the office to say."

"What do you mean by that?" He took the bag that Shu Tong put on the desk and said with a smile.

"Report!" Lin Han's voice came from the doorway, stopping what Shu Tong was going to say next.

"By the way, you haven't drunk your evening medicine yet!" Teacher Xufeng asked again.

Shu Tong nodded and said, "Not yet."

"Lin Han, go and bring Shu Tong's medicine here."

Shu Tong froze in place: do I have to drink it in the office, ah ah shetrin is very bitter! She thought to herself. The reason why she said that sertraline was bitter was because there were times when she originally drank two capsules she always drank one.

"Is this what you knitted?"

"Yes, you don't mind if I don't knit well."

"But I don't like to wear this." He replied with a smile.

Shutong did not answer immediately, Lin Han took the medicine to the office. Shutong took the cup to get water, "Teacher, you accept it, this is Shutong a needle and thread knitting." Lin Han, who was standing at the side of the desk, said.

"Craft work is really good ah! Shutong." The teacher sitting at the back of Xu Feng suddenly spoke up, and Shutong smiled shyly without speaking.

"Mr. Xu, you take it, do not give it to me." The teacher continued to flirt.

Xu Feng laughed and did not answer: "Come here, I'll find you a cup to cool the water."

Eventually he put that scarf away, Shu Tong finished drinking the medicine and went back to the classroom.

People, who are emotional animals should remember the good of others and then use their ability to repay, if everyone is cold-blooded and heartless then the world will be a dead silence.

"I want to be happy forever, but my life, my emotions always stand in the way of my drive to be happy."

This day somehow the gray and dreary weather became sunny, and at noon the class liked to move the stool to the hallway to sunbathe and then chat together.

"Shutong, bring the stools out and let's sunbathe together." Xia Sichen's voice came from outside the classroom.

"It's too sunny outside, I'm not coming out." Shutong refused his proposal.

"Oh, it's okay, more sunshine is good for your body."

"Come on out, you're still afraid of getting a tan from the sun these days?" Then came Mu Yunfan's voice.

Shu Tong had no choice but to bench out, but just sit down she always felt very awkward, because the whole building on their few and on her a girl. Although their relationship is very good, but she sometimes always feel uncomfortable, she is afraid that someone will gossip about her.

"I'm afraid it's not good for me to sit with you guys as a girl, right?" Shu Tong sat on the stool but her color was not too good and she sat uncomfortably.

"Oops, it's okay! Who dares to say you, there is not us." Sitting next to Chu Chu spoke up.

Shutong had to obediently sit aside, the sun shone on their bodies, may be a little harsh they all closed their eyes, back against the wall.

"Hey, Shu Tong did you drink the medicine at noon?" Mu Yunfan still kept that posture and asked.

But there was a delay in hearing the answer, Shutong closed his eyes head slightly raised and leaned against the wall, this moment she did not seem to have any worries without any restlessness, Mu Yunfan opened his eyes and looked at her without speaking, this moment the whole school building seemed to be quiet, there was no noise.

Time passes, the five people on the building neatly sitting there with their eyes slightly closed, this moment Shu Tong's life seems to be back to calm, everything has become so beautiful.

A gust of breeze blew, the campus pine needles leaves with the wind came to the second floor of the building, the leaves seemed to know the thoughts of Shutong fell in her arms and gave her a deep hug as if to say.

"It's okay, it will pass."

"Shutong, wake up!" Chen Yixuan stood next to Shutong and called out.

Shu Tong opened her eyes and looked at them and smiled.

"I fell asleep?"

"Well, but we also squinted for a while."

"Hahaha, did you wake up from your sleep."

Shu Tong embarrassingly got up and stretched a bit to move the stool back to the classroom, and Chu Chu and the others also moved the stool towards the classroom.

Although only a short ten minutes, but in those ten minutes Shutong slept peacefully, no pain in the dream, no tears, not to mention the blood.

The night is painful for Shutong, the night seems to be a clock as long as it rings the pain will come with it, from the beginning of not dare to close their eyes to sleep to

the current sleepless nights, Shutong has not slept a peaceful sleep without nightmares for a long time.

"By the way Shu Tong, have you finished reading the book I lent you two weeks ago?" Xia Sichen quietly said to Shutong.

"Hmm? Book? Which book? Didn't I remember to return it to you?" Shu Tong answered him seriously.

"You're thinking carefully, you haven't returned it yet? Big idiot." Xia Sichen said with a smile.

Shu Tong was about to find the math teacher then called her up to get her homework, "Shu Tong, you are basic, go for it." The teacher smiled and gave her the homework book.

Sure enough Shu Tong forgot, of course this kind of forgetting things has happened more than once. She used to memorize things quickly, but nowadays she hates memorizing or mimeographing things in language class.

Forgetting, for Shutong is fatal, "I'm afraid that one day I won't find my home" is written in one of her songs.

Sometimes forgetting this and that, she will be amused by herself, but that smile is full of helplessness, pain.

She always looked out the window, looking at the trees, looking at the sky, the silence is not a sound.

"Shutong, where's your cup?" Chen Yixuan and Mu Yunfan suddenly stood on the edge of her seat with a bad smile and asked.

"Not in the children!" Shutong turned his head a little impatient to say, the result of a look in front of the cup has long disappeared.

"Huh? Where is the quilt?" Looking for it, she stopped moving and looked at them with a calm face: "Take it out."

They looked at her: "You first say you are not happy?"

Shu Tong did not say anything, she did not say anything because she was afraid of scaring them after the illness, she knew in her own heart what she did at that time after she sobered up, she did not know at all.

"It's okay, you've been in this situation more than once, there are us!" After saying this they did not go away but sat on the benches of the students around Shutong and talked with her.

"What are you guys talking about? I can't believe you didn't call me." Returning to the classroom, Chu said as he ended his stool.

"To you Shutong, the two of us hiding your cup is actually to tease you." Mu Yunfan looked at Shutong and said seriously.

"Yes, did not you find? We tease you are when you are alone." Chen Yixuan then spoke.

Shu Tong did not say anything, but she understood that they were concerned about her, she understood when Mu Yunfan said that "who allowed you to die".

I don't know how many times, obviously about to hit the bottom but a pair of hands pulled her back, this time just a little bit she will disappear forever in this world.

"Shu Tong is not going to eat?" A teacher who had just returned to the office said to Shutong, who was receiving water.

"Oh, it's okay if I don't eat." Then he covered the cup and walked towards the classroom.

A pill was clutched tightly in her hand, and Shu Tong was the only one in the class at this time. A pill was put into her mouth, her left eye flowed tears eyes covered with blood, she once again heard a voice that others could not hear, others could not see the scene.

This time, she really did not want to endure.

After swallowing, she sat quietly in her seat, after a few minutes she did not feel anything she wondered if she had drunk less, just as she picked up the bottle of medicine again, Lin Han walked in to take the bottle and shouted, "You're crazy again are you! Shutong froze in place.

"Shutong! Why didn't you eat breakfast again?" Chu Chiao came in from the door after they finished eating.

"That, I have the cakes I just bought this morning for you to eat." Li Yang brought the cakes in the drawer over there.

"Thank you, I do not want to eat, you keep it for yourself!" Shu Tong just said a burst of discomfort tumbled, Shu Tong immediately ran towards the outside of the

classroom, Chu Rui, Mu Yunfan, Peng Ze, Chen Yixuan, Xia Sichen and other boys and followed behind.

"Shutong! Where are you running to? Don't you feel well?" Lin Han followed Shu Tong to the toilet, while those boys waited outside on the building.

"Vomit ~" Shutong vomited in the toilet, followed by weak legs and headache

"Are you okay? Tell the truth did you drink the medicine?!!!" Xia Sichen asked anxiously.

Shutong did not answer him and walked towards the stairs that way, "Say it! Isn't it!" Peng Ze pulled her sleeve, Shu Tong still did not say a word but her legs were weak and she could not exert herself. If it wasn't for the boy walking behind her she would have gotten what she wanted this time.

"The bell rang and they went back to the classroom to look for Xu Feng, but Shu Tong pulled them back.

"Teacher, Shu Tong drank too much medicine, let's go and tell the principal about it." Somehow Lin Han and Peng Ze stood in front of the lecture table and said to the English teacher, then the two of them walked out of the classroom. Sitting in his seat, Shutong was trembling with fear.

"Shutong, come, you come out." The English teacher called her out.

Shu Tong stood aside with her head down, because she had already thrown up so now she felt much better.

"Lin Han said you drank the medicine, right?" Shutong nodded.

"I'll tell you Shutong, you can't be like this, you have to believe that you will get better" because it is facing the office side so Shutong saw at a glance from the stairway up the Xuxiang Feng, he stood there looking at Shutong, Shutong subconscious eyes averted, simply He stood there looking at Shu Tong, Shu Tong subconsciously averted his eyes, simply could not listen to what the English teacher said.

Stayed almost four or five minutes, Xu Feng came this way skimmed Shu Tong smiled and said to the English teacher: "Teacher Zhang, let Shu Tong and I go over a little." But Shu Tong stood in place inch by inch walking in front of the Xu Feng turned his head and said.

"You come here!" His expression was hard to see, and Shu Tong stood in place with his head bowed in fear.

"Mr. Xu is calling you, go ahead, it's okay." Mr. Zhang patted her shoulder and said in a comforting tone. Shu Tong looked at Xu Feng who was standing not far away and walked forward in a coy manner.

"What's wrong?" The tone of voice is mixed with a little impatience, Shu Tong did not answer him just lowered his head, red eyes.

"Do here!" Shutong obediently sat aside of Xu Feng.

"Here, drink some water." A male teacher in the office took a glass of water and put it in front of Shutong, who said thank you but didn't have the slightest intention to drink.

"Do not drink? Do not drink to your aunt call to watch you drink!" Xu Feng suddenly spoke.

Shu Tong heard to call home immediately picked up a glass of water to drink up, and then tears involuntarily flowed down then cries became louder.

"You do not cry, it's okay." The male teacher comforted to.

"Let her cry! Let's talk after crying."

"How many pills did you drink?"

"A dozen."

"Lin Han, go and bring the medicine over."

"Let's go, let's go to the health center and see!"

"Teacher no need, I don't feel bad now, I just went to the toilet and threw up."

"No, how we have to go!"

"Teacher, it's really not necessary."

It may really be because of the vomiting reason at first very uncomfortable but now Shu Tong surprisingly no longer feel the previous.

I prayed that the gods would take me away from this worldly evil, but the gods are firmly trapped by the devil.

I prayed for the devil to take me away, but the devil said that hell is full of people I can not enter.

"You haven't eaten breakfast yet, have you?" The male teacher interrupted their conversation.

Shu Tong nodded her head live and replied, "I don't want to eat." Before the male teacher could say anything

"You haven't eaten breakfast, what do you want to eat? I'll take you out to eat." Xu Feng asked.

"Thanks, I don't want to eat."

"I heard that Li Yang all gave you the cakes he bought?"

Shutong nodded without saying anything, "You gave refused again?"

"I'm not hungry."

"You do not eat, your teacher Xu also did not eat breakfast." The male teacher said with a smile.

"Noodle crust to eat or not?" Shu Tong shook his head, "Do you want to eat beef noodles?" Shutong still shook his head.

"Do you want to eat spicy noodles? Let Mr. Xu take you out, you blackmail him a meal." The male teacher flirted.

"Meat to eat or not?" Shutong still shook his head. "Oops, how can this meat also do not eat." Xu Feng laughed helplessly and looked at Shutong with his hands around his neck.

"Go eat some and then let Mr. Xu Feng take you to the health center to look at, listen." Suddenly Shu Tong's previous class teacher opened his mouth and said.

To the hospital? Shu Tong's body does not have a penny if you want to wash the stomach, if you want to prescribe drugs that how, she does not want to bother Xu Feng and the principal again.

"Fortunately, now Principal Yang is not in, just now I gave a call." Hearing this Shu Tong suddenly stopped tears, "teacher, you do not call my family, I'm really better now, there is no hard feelings."

Shu Tong's eyes were red and showed a smile.

"What are you doing, do you know?" Shutong froze in place without saying anything, "A forced smile!" He went on to say.

"You know, every time I see you in class I'm in pain, not only are you in pain I'm also in pain."

Shu Tong bowed his head: "I'm sorry, I'm loss is a scourge, always give you trouble." Said the tears flowed down once again.

"I'm sorry, I don't want to cry, but this is the most understandable way I think you guys can relieve stress, although there are others."

"Something else? You get it you try, I'll call you at home right away!"

"No, teacher, I will never do that again, please don't call." Shu Tong's emotions gradually became agitated.

Xu Feng did not say anything just slightly closed his eyes and sighed deeply, a minute by minute consumption.

"Forget it, are you sure you don't have any discomfort now?"

Shutong nodded affirmatively.

"Then you go back to class, we'll talk later."

Shutong silently walked out of the office, "Shutong! You listened to the teacher again, right?" Peng Ze questioned.

"So, are you uncomfortable now?" Chen Yixuan asked as he walked over.

"No, I'm really not uncomfortable now." Shutong said his truest feeling.

"Then you must give us a word if you feel uncomfortable."

"Mm."

The sun still hangs high in the sky, although the sun is blinding but makes people feel comfortable without the slightest feeling of heat.

These morning classes they seem to be not too at ease, eyes always glance to the third row of the last group, of course, Shu Tong also on the confusion, she herself knows well that she will stay to this day, stay in December 2, 2019.

Crows, it is only a couple of caws will attract the disgust of humans, but only they themselves know just want to call out to their kind.

Rats, it is just hungry to go out for food but was killed by people in various ways, but only they themselves know that everything in the world has its right to live.

Shu Tong this time just defeated by emotions, but there are so many words ridiculed her.

It is said that water and fire are merciless, but in this peaceful era merciless but human.

"Shutong, let's go, go eat." Finally the last class of the morning was over, and Shutong was still sitting dumbly in her seat without saying a word.

"Hey! Hear that, go eat." Peng Ze tapped her on the shoulder.

"No, I don't want to eat, you go eat!"

Peng Ze understood that she did not want to eat others in how to persuade her is useless, so he said, "Then you will wait to eat the cake given by Li Yang in the morning, I put it in your drawer."

After saying that, he turned around and walked out of the classroom to go to the cafeteria to eat.

Shu Tong went to the office and got a glass of water, and then started to write his homework. Because this day at noon homework is very little so quickly finished, after writing she suddenly found herself nothing to do, and remembered that the noon harm to drink medicine, her first reaction is to go to Peng Ze's school bag to find but empty, and finally she found her medicine in Chen Yixuan's pocket.

"Ah ah! Help!" The sudden cry for help came in Shu Tong's ears, then she looked at her seat, the scene was similar as always, it was the woman who fell down from upstairs again.

Shu Tong although not the first time this kind of hallucination, but in the face of such a scene she still can not accept.

"No no, that's an illusion, I want to drink the medicine." Shutong panicked and began to take the medicine, Mirtazapine six, Sertraline seven are fed into their mouths, then began to shiver involuntarily grab their hair.

The scars on both arms were about to recover, but her consciousness pinched her arms with both hands in order to calm her down, "Ahhhhh!" Her body seemed to have no strength left to fall heavily under her seat.

"I'm in so much pain, I I want to leave! Why, why!" She sat on the floor with her hands on her knees and hissed.

Then there was a silent cry as she looked at the medicine on the table and she understood what she had done this time again. Her tears came tumbling down like a heavy summer rain.

"God, please let me go! Please if you want to take me away then just take me away, why! Why let me live like this, what have I done wrong!"

"Shutong! What's wrong with you!?" Bai Yufan saw this scene and quickly ran towards Shutong.

Shutong sat in the corner with his hands on his knees and did not say a word, looking at him: "I'm sorry, I did wrong again, Bai Yufan I really want to love the world ah!" Bai Yufan looked at the scattered medicine on Shutong's desk and suddenly understood.

"What's wrong with her!?" Chu Rui, Peng Ze, Mu Yunfan, and Xia Sichen all rushed to the sound.

"Shutong! Why are you doing this again! Do you think it makes sense for you to do this?"

"Are you trying to make us worry to death?!" Lin Han shed tears in anxiety.

"Don't cry, I'm fine I..." Before Shutong could finish Lin Han hugged her.

"Shutong, go to the principal's office, the principal called you." Chu Rui looked at Shutong slowly spoke.

Before Shutong could respond Lin Han pulled her up and headed out of the classroom, just out of the classroom Shutong saw Xu Feng standing in front of the principal's office, looking at her from afar.

"Shutong, if you don't go to the hospital again I'll call your family!" The principal said seriously.

The principal let Lin Han and Li Huan go to the classroom to get the medicine, Shutong followed the principal and Xu Feng and the male teacher silently bowed his head, on the way Xu Feng teacher did not say a word just keep striding forward.

"Here, hold out your hand to take a blood pressure first." The doctor took out the blood pressure machine and said.

The principal stood next to Shu Tong holding a cell phone in his hand, and Mr. Xu Feng was standing outside.

"Blood pressure is a little high, go to induce vomiting first, but the best is to wash the stomach." That doctor looked at the principal and said.

"Lin Han. You go with Shutong."

Lin Han and Shu Tong came to the bathroom, but no matter how much she vomited, she couldn't throw up, probably because she hadn't eaten.

Lin Han looked at Shutong's uncomfortable appearance with a distressed face and said, "I'm going to get you a glass of water." ,

Shu Tong stood in front of the mirror, she had a skeptical expression thinking: "Is this me? Why do I not recognize it." She stretched out her hands to touch the mirror, in the mirror she was pale and could not see any life.

"Here, drink some water." Lin Han handed water to Shutong, who took the hand without speaking.

"Shutong, you have to listen to me this time we go to the hospital to see." Principal Yang came over and said in a thin voice.

"To which hospital? This is not to see it?" Shutong replied.

"Go to the county hospital, the doctor here suggested to go to the county hospital to check it out." He went on to say.

Shutong did not answer immediately, she was a little hesitant.

"Shutong, go check it out! It's okay." Lin Han persuaded.

Shutong looked at her and nodded.

"What to do, I seem to have my aunt." Shutong said quietly to Lin Han in the hallway of the health center.

"Huh? I'll go tell the principal that you go buy sanitary napkins."

"Hey, don't, how embarrassing."

"Then what can you do? It's okay."

"Hey! Lin Han."

The understanding child who has been aggrieved is like swallowing glass, full of blood and can't spit it out.

"Principal, that, Shu Tong that came."

The principal standing aside with a puzzled face asked, "Which one?" Lin Han was about to answer when Shutong pulled her arm from behind: "Nothing, she said nonsense."

"Oh, Shutong, she's just having her period, I'll go with her to buy some sanitary napkins." Shutong blushed and stood to the side without speaking, "Okay, so what's so embarrassing, go ahead!"

With the principal's consent Lin Han pulled Shu Tong in the direction of the kiosk, Xu Feng and the male teacher surnamed Huang stood not far away and said something.

"You're still embarrassed, I knew the principal would know." Lin Han said with a smile as she pulled Shu Tong's hand.

"Hmm. Thank you."

When the two people finished buying and were ready to return to the original road, they saw Mr. Huang standing not far away, they must be the principal was not at ease so he asked Mr. Huang to see if they were almost back.

"Well, now how we go back to school, and when your aunt comes we will go to the hospital." Principal Yang spoke up and said.

Shu Tong and Lin Han back to school, not long after came the principal's voice: "Shu Tong, your aunt is here how we go!" This time Shu Tong dizziness abdominal pain to see the aunt anxious face ashamed of himself.

After getting into the car Xu Feng teacher sat on the passenger side, the principal drove the car Shutong, aunt, Lin Han sat in the back. Along the way, Mr. Xu Feng, aunt did not open his mouth to say a word.

"I'm a little seasick, can you stop, I get off to catch my breath." The aunt suddenly opened her mouth and said.

The principal also stopped the car, Lin Han also some motion sickness off the car. Only Shu Tong and the three of them stayed in the car, "You see I originally wanted you to get carsick and then vomit out, the result is that your aunt got carsick."

"I have not all vomited?" Shu Tong said expressionlessly, the principal smiled and turned his head, Shu Tong looked at the teacher sitting in the passenger side of the Xu Feng, he held his head with one hand without saying a word.

Shu Tong knew that this time she was perhaps really excessive in the eyes of the teacher, and certainly not only in his eyes alone.

When we started again, Shutong's head has been dizzy she slowly leaned on the car window with her eyes slightly closed, "Shutong?" The principal's voice came from the front but was late in waiting for an answer.

"Principal, Shutong seems to have fallen asleep."

The speed of the car is getting faster and faster, finally arrived at the hospital principal will stop the car after the Xu Feng teacher they stand in front of the hospital waiting for the principal.

"Well, go into the registration!" After entering the hospital Xu Feng looked at the section to be hung, and then the principal took them to the sixth floor.

"The best thing to do in her case is to wash her stomach." The doctor said to the principal, Mr. Xu Feng and his aunt sat on the chair and did not say a word.

Shu Tong heard the stomach panic, stupidly standing in place "teacher, I'm much better do not need to wash the stomach."

"Listen to the doctor's words, go to the gastric lavage insurance." The principal spoke up and said. Shu Tong listened to the doctor's words under Lin Han's comfort and obediently went into the stomach pumping place, "You go and ask your teacher to buy some paper, then you stay here with her!"

Shutong watched Xu Feng go out, Lin Han suddenly remembered Shutong physiological period just came to say that the water for gastric lavage is cold water, she

When people are unlucky anything bad can happen, "You don't move, don't hold your breath, don't bite the tube, it will be over in a while." A beautiful female nurse with a tube, next to an instrument and two buckets.

Shutong sleep in the bed when the inner very apprehensive, she was really scared but did not want too show teeth biting the skin of the mouth hands clutching the corner

of the coat. "It's okay, Shutong I'm here!" Lin Han, who was standing next to Shutong, said comfortingly.

"Come on, I'll put the tube into your mouth and feed you to swallow." The nurse fed the long tube into Shutong's mouth, and for a moment Shutong couldn't breathe, and her throat was dry and uncomfortable. Slowly that tube into Shutong's stomach, suddenly felt the stomach has liquid flow into the cold cold cold.

"Don't bite the tube." The nurse reminded at the side.

"Do you want to throw up now?"

Shu Tong nodded slightly, his eyes flooded with tears.

Because of the physiological period plus the impact of the cold water, Shu Tong's abdomen was in a burst of pain. She looked at the ceiling of the hospital tears slowly flowed down from the corners of her eyes, she did not understand what she had done in her last life to make her suffer this much pain in this life.

In this way, it is better to let her leave this world quietly.

The "buzzing" sound from the machine echoed in Shu Tong's ears, and the hard, long tube from her mouth stopped all the way down in her stomach. Lin Han, who was standing on the side, looked at Shutong, who was lying on the bed with tears in the corners of her eyes, and was distressed.

Time passed, and so fifteen minutes passed.

In these fifteen minutes, Shu Tong really experienced the feeling of si death, for a moment her mind remembered those "little suns" in her life. After washing her stomach, Shutong's face was pale and her clothes were half wet.

"Shutong, just ask the doctor about the situation, the doctor said it is safer to be hospitalized for two days for observation." Principal Yang came out of the doctor's office and said.

But with Shutong's temper she would never agree to be hospitalized: "Teacher, it's almost enough to wash the stomach, no need to be hospitalized."

"Look at you again disobedient, just stay for two days for observation." When Shu Tong hesitated, Xu Feng, who was standing on the side, said, "Listen to me!" This is the first thing he said to her from the school gate.

Shu Tong considered for a while and decided to stay in the hospital, it would only take a day or two anyway.

"Okay, then I'll go and do the hospital procedures for you." The principal turned around and went out.

The nurse took Shutong to register for blood tests Xu Feng and Lin Han followed behind, the nurse first took a thermometer for Shutong to clip under his armpit, "Sleeve roll up," the nurse walked to Shutong with the blood drawing utensils. Shu Tong turned his head in fear, standing at one side of the Xudong Feng quietly watching, she did not know if he was looking at the arm that a conspicuous scar, after drawing she immediately pulled the sleeve down.

Just sleep on the hospital bed nurse hung her hanging needle, the principal sat on the side of Shutong's bed and smiled: "Then you stay well in the hospital, we'll go back to school." Shu Tong nodded.

Watching them go out from the ward, and then look at the expressionless aunt Shu Tong heart has a kind of indescribable feeling, "What do you want to eat, I'll go buy you." Aunt looked at Shutong with a heartbroken face and asked.

"I do not eat, I have a few dollars on me to you you go eat!" Shu Tong's heart is very guilty very self-condemnation silently look at the aunt.

"It's okay, just principal Yang gave me a loan of two hundred dollars." Hearing this Shu Tong silently turned his head, tears disobeyed from the eyes fell on the quilt. "Then you go buy it, what you buy I eat." Shutong said somewhat choked up.

"Auntie, can you take my aunt to the canteen for a while? She doesn't know where it is." Shutong looked at the mother of a little sister in the next bed and said with some embarrassment.

"Okay, I'll take her there."

"Thank you, auntie."

Shu Tong looked at the medicine bottle in the medicine bottle little by little reduced, have to say that the medicine bottle is really big. Shutong wanted to go to the toilet because of the shorter size, and that infusion tube has too long so the blood will return up if it does not move.

"Hahahaha" Shu Tong laughed out loud looking at this time wretched herself her own heartfelt laugh at herself.

People always understand that life is precious when they experience life and death.

The time in the hospital is always a minute slower than the real time, that is perhaps because the white angel to snatch people in the hands of death so will be a minute slower to let death think: old morning.

That whole night Shutong and aunt did not sleep, she quietly lay in bed looking at the light outside the window.

The bottle had been dropped until after midnight, and blood tests had to be drawn every half hour. Every finger of Shu Tong did not escape the fate of being stuck by needles, and the hand she was playing with was swollen as if it had been inflated with air.

Although the lights in the ward had been turned off, she still saw the figure sitting at the end of the bed.

That night was particularly slow, "Aunt, I just can't stay any longer, I'll go to the doctor and tell him to let me out of the hospital!" Shu Tong said anxiously.

"Good, then you go and say wait for your father to arrive and then go to do the procedures to pay." Aunt nodded and said.

Shu Tong and the doctor said good after and aunt downstairs together and stood outside the hospital waiting, this year's winter is really not too cold sun often hanging in the sky.

Sitting in the car on the way home Shutong did not know how to face them and him at school later, after all, when she left they were very worried and he seemed very angry.

"Come on, let's go find your teacher Xu." Father stood behind Shutong and slowly spoke. Shu Tong came to school when it was noon break, Mu Yunfan they were all in the playground memorizing essays, of course this this is not of their own volition.

Not far away, the language teacher looked at them silently, "Shutong, you're back! How is it better?" Xia Sichen ran over and asked.

"Well, much better."

"How about you still want to go to the stomach wash?" Chu said flirtatiously.

Shu Tong smiled and shook his head, followed his aunt and father towards the second floor, came to the principal's office but saw no one.

The warmth of the midday campus sun stays here, the small bamboo grove on the playground is still green, and the teenagers coming and going on the playground make the winter campus interspersed with that touch of vitality.

In winter, everything goes into hibernation, sometimes heavy snowfall makes the world fall into silence, the earth is snow white looks very clean.

"Hey, Mr. Asahi, where are you? I'm out of the hospital."

"Dormitory." A cold voice came from the other end of the phone.

Shu Tong gave them an explanation and then walked towards the teacher's dormitory building, "Teacher?" Xu Feng heard her voice and came out, "How is it?"

"Much better." Shu Tong silently lowered her head.

"How did you feel after going to the hospital for the second time? Hmm?" His words were interspersed with a hint of laughter.

Shutong stood still and did not speak, just silently bowed his head.

"You bought something for me again, do you have a lot of money?" He said as he glanced at the bag placed on the table.

"It's just a little bit of fruit, I'm really sorry for giving you so much trouble in my heart." Shu Tong replied in a flat tone.

"You take these back to your fathers to eat."

Shu Tong did not say anything, "Okay! When you make your own money in the future to buy me." His face changed quickly smiled and patted Shutong's shoulder.

"Let's go, go tell the principal." He turned around and went downstairs, "Close the door for me and take your things away." He then added.

Shutong closed the door behind him and then turned around and went downstairs.

"How is it? Did you feel comfortable after going to the hospital and hanging a few bottles of suspension?" Sitting next to Shutong, Xu Feng said.

Shu Tong hands clutching the sleeves did not speak, "Shu Tong, this time you really have to listen to ah! You see your aunt stayed with you in the hospital all night yesterday." The principal sitting opposite her also spoke up.

Shutong nodded without saying anything.

"You must listen to me today, you must take time off to go back today." Xu Feng said in a firm tone as he looked at Shutong.

"That vocational education people up when let Mr. Xu call you you come is." Principal Yang also opened his mouth and said.

Almost to junior high school graduation, those who feel they can not get into high school part of the students are decided to go to vocational education, the first thing is to take them to visit the school.

"Shutong, you go and ask Mr. Xu to take you to get your medicine back." Principal Yang said.

"Come."

"Teacher, the day after tomorrow we are going to visit the school you let me stay at the school!" Shutong followed behind Xu Feng and suddenly spoke up.

"No way! Tell you today is the principal came to me to say let you stay, I also do not agree."

To the synthesis room Shutong sat on the sofa, Xu Feng took out the medicine and also sat down.

"Shutong, you have to be obedient know?" His tone became gentle.

"Teacher, I'm much better now, I want to stay." Still persevering, Shutong said.

"You know, my child went to the hospital with a cold and injections his mother and I are heartbroken, I find that you do not accept anyone's good now." He changed his sitting position and looked at Shutong seriously and said.

Shutong ashamedly lowered his head not in a word.

Xu Feng looked at him and said with a smile, "Go back and clean yourself up and go around their school the day after tomorrow."

"Teacher, I . . . . "

"I'll be honest with you, from the time I sent you back to the hospital, the moment I stepped into the school gate I decided, it's not good to be your good guy, I'll be your 'bad guy'!"

"Do you hate me now? It's okay, you can hate me if you want!" After he finished speaking, he walked towards the other side of the playground.

Shu Tong froze on the sidelines and was about to speak when the principal came down from upstairs: "Shu Tong, your aunt and your father and I have discussed it, you will go back today."

She looked at the far away figure hesitated for a moment looked at the principal and nodded.

"Good, you go in and pack your things."

"Report!"

Zhao teacher looked at a nod, Shu Tong moved slowly packing things, "It's okay, you just go back." Somehow Chen Yixuan they are standing around Shutong.

Because it is self-study Zhao teacher is notoriously good-tempered also do not care, know not to make a fuss not to make noise on the line.

"Yeah, it's okay we wait for you to come back."

"Yes, wait for you to come back."

"Shutong, hurry up." From the doorway came the voice of the principal urging.

Shu Tong looked at them and nodded and turned to leave.

When Shutong left, he returned the money that the principal had lent to his aunt at the hospital and left.

Some people say "forgetfulness and low laughing point is the standard of a happy life." And Shu Tong also forgetful but tend to remember the sad things very clearly, her laugh point is also low but at the same time her tear point is also very low.

In this world, no one will really understand someone, if they understand they can only love to help, but those who will not understand will only create rumors behind the scenes.

Shu Tong sometimes will be suspicious, those around her "little sun" will not just be so good to her on the surface, and then behind her back to say bad things about her.

But now she is sure that they are the real light in her life, the light that can save her from the abyss of hell, the light that can bring a smile back to her face.

The sky will not always rain, just like people's moods will not always be so bad.

The day and a half passed quickly, Thursday the day Shu Tong got up early and began to clean up after themselves.

This morning was a little cold so she wore a white down jacket, this dress is very cute back with a pair of wings, if you gently pinch the pocket organ it will move.

"Tong Tong, are you ready? It's time to go." Outside came the voice of my aunt urging.

"Okay!"

Early in the morning, a ray of sunlight fell on the river surface.

"Shutong, you're here!" Lin Han ran all the way to Shutong, smiling.

"Well, where's the teacher?"

"I don't know, I was just here, I just finished writing my leave note."

Lin Han had just finished speaking when Xu Feng came up from the stairway ready to enter the office, he glanced at Shu Tong who was standing aside and said with a smile, "Still in good spirits today."

A faint smile appeared on Shutong's face, and after everyone finished writing their leave slips, Lin Han, Bai Yufan and the others and their parents got into the car.

On the way Shu Tong and Lin Han sat together, a headset a cell phone .....

After more than two hours of travel finally arrived at the destination, the whole school was well built after entering the door, then the teacher took them to visit the cafeteria and eat the noon meal.

"Good, this is our students who study cooking, today we know you are coming to visit so we specially left a few students to show you." A teacher wearing a blue coat said.

The students quickly cut up the vegetables, put oil, stir-fry, put spices, plate, all the steps were done so skillfully, then a burst of aroma came to the nose.

Shu Tong was very happy this day, but in that moment Shu Tong's heart was tight she knew she was not right, so she ran alone to the toilet, took out the phone and put on the headphones and listened to the song for a while, no medicine, music is her medicine, she regained her mood and turned to leave.

Music was her dream all along, she always treated it as her best friend, her innermost thoughts it knew best.

After visiting all the places in the school, they went back the same way. Shu Tong leaned against the car window wear headphones tiredly and closed her eyes slightly. A ray of sunlight sprinkled on her eyes, a breeze blew her short hair a little messy.

"Shutong, we're here! By the way you still have to go to school to write a leave of absence!" Lin Han shook Shu Tong, who was sitting on the side, and said.

Shutong rubbed his hazy eyes and replied, "Yeah, okay." When they arrived at school it was already more than five o'clock, the students had just finished their lunch and the teachers were just getting ready to eat.

"Hey, teacher I came to school to write a leave note." Shu Tong said.

"Oh, I'm eating out, I'll come later." The other end of the phone replied.

After the other end hung up, Shu Tong and his aunt sat quietly on the chairs outside the janitor's room again.

Time passed by, and almost three minutes later, Mr. Zhao outside the faculty called out, "Shutong, come, come here."

Shu Tong hurriedly ran over to the Registrar's Office, "Your teacher Xu asked me to give you a leave slip he is eating, you can go after you write the leave slip."

"Oh, okay." Shu Tong picked up the pen and filled it out, halfway through filling it out the phone suddenly rang.

"Hello, teacher."

"I asked teacher Zhao to give you a leave slip, have you written it yet?"

"Writing."

"Good, then how about coming out and calling your grandfather ....."

Before he could finish Shu Tong retorted, "Teacher, that's my aunt."

"Call your aunt over to have a meal together, I made a slip of the tongue, you see you put me angry people can not be distinguished."

"I'm angry? Well, it's all my gas. In the dinner there is no car how do we go back ah?" Shu Tong some want to laugh and said.

"Well, then you write it." After saying this, Xu Feng hung up the phone.

Shu Tong finished writing the leave note hurriedly ran out, but found no one in the chair, "Shu Tong, your aunt said he could not wait no car he went back first." The doorman aunt came over to her and said.

"Gone!?" Shu Tong surprised with anger, turned around and sat on the chair.

She froze for a while and took out her phone and dialed Mr. Xu's number.

"Hello." A calm voice came from the other end of the phone, and she hesitated for a moment and said snidely, "Teacher, I've been abandoned."

"What's wrong?"

"My aunt left on her own, and now I'm alone at school."

"Left? Did you let him go?"

"I didn't."

"Then go and find the principal first, he should be eating in the dormitory now."

Shu Tong ran towards the principal's dormitory in big strides, "Report!" Shutong knocked on the door or no sound.

"Shutong, are you looking for the principal?" Physical education teacher Mr. Zhang asked.

Shutong nodded, "He's not here, he seems to have gone out."

Shutong turned around and went downstairs lost, "Teacher, the principal is not in."

"Then wait for me to come back."

Shu Tong sat alone in silence on a chair in the playground, and in the distance the language teacher came towards her.

"Shutong, I have another certificate of honor for you here! This time you can still get a silver award, if you work harder it might be a gold award."

"Oh, thank you, teacher."

"Go and I go to get it, that bonus eight hundred dollars to your card, you check the receipt?" The language teacher said to Shu Tong while walking.

"I haven't checked it yet."

Shu Tong looked at the small red book with the words "Certificate of Honor" written on it, somehow she was not very happy.

"Shutong! Come here." Standing outside the classroom, Chu called out to Shu Tong.

"Hahahaha, your clothes are so cute." Mu Yunfan grabbed the small pair of wings behind Shutong with his hand and said with a smile.

"I'll show you guys." Shu Tong said on Jing hat on, hands into the pockets gently squeeze the organ, she ran around the building hahaha laughing look has not been seen for a long time.

"Hahahahaha, Shutong, you are so cute." Xia Sichen said with a smile.

"Come, come let me play a little." Said Peng Ze tucked his hand into the pocket of Shutong's clothes.

"Hahahaha, you are so childish, let me try." Then Chu Chu, Mu Yunfan and the others all joined in.

"Okay, okay, don't get it, and then get the clothes pocket is about to be broken by you." Shu Tong also said with a smile.

A burst of laughter came from the entire building as they lay on the balcony looking at the high mountains in the distance and at the sky that was about to turn dark.

"Shutong, why is Mr. Xu still not coming, you rush it." Chu resigned looking at the phone in Shu Tong's hand and said.

"Not good, are to play so many times."

"I'll do it."

Shu Tong was about to stop when the phone has come to the familiar voice: "What again?"

"Old, teacher, are you coming back soon?"

"Soon."

At this time, an idea appeared in Shu Tong's heart: "Teacher, how about this, anyway, today is Thursday and tomorrow will be a holiday, or I will not go back."

"No, I'll be right back." Shu Tong was about to say something when the other end had already hung up the phone.

"Headphones are the refuge of mankind, music is the heart-saving pill of mankind."

[Preview] 3/5-3/9 Charming Goddess, Fancy Short Video Contest >

The waiting time passed by minute by minute, and the sky gradually darkened, and the temperature also lowered a lot with the darkness falling.

"Hey, teacher Shu Tongxu is back." Chu resignation pointed in the direction of the school entrance and said to Shu Tong.

Shu Tong stood on tiptoe and took a look in the distance, then hurriedly ran towards the stairway. However, when she was about to reach Xu Feng, her steps became slower again.

"Teacher, you've finally finished eating." Shu Tong saw that he was still holding a piece of bread in his hand and said with a light smile, "Are you not full?" After saying that Shu Tong secretly laughed.

"Well, I ate a bowl of noodles." On the contrary his tone was very subdued.

"Eating a bowl and still so slow, really fake." Shu Tong said in a small voice.

Unexpectedly such a small voice was still heard by the person in front, he suddenly turned his head to glance at her without speaking.

Shu Tong looked at his eyes and hastily turned back to smile ingratiatingly, she knew that there were only two solutions to the current situation.

One, stay in school tomorrow after school in back.

Second, let the teacher send her back.

But the first solution has been scrapped here in Xu Feng, and now the second solution Shutong has been hesitant to speak out.

"Well?" Standing aside, Xu Feng suddenly spoke to.

"Well?" Shu Tong has been thinking about what to do now so more originally did not hear his question.

"I said how about a visit to school today."

"Oh oh, school ah, quite good."

"Well, said to do ID cards, right? When are you going to do it?" He was in the same position as usual with his arms in his hands.

"Oh, I'm going to do it next Monday morning."

"You can't do it alone." He answered her neatly.

Shu Tong was not talking, just a why look on his face.

"I think you just need to go out more, seeing as you're in a good mood today."

"Well, I also think I'm in a pretty good mood today."

After a long time, the two did not open their mouths to speak both stood frozen on the steps not far from the door of the faculty office looking at the wide playground.

"By the way, teacher what should I do now?" Yes, what should she do now, it's already after eight o'clock and she hasn't eaten lunch yet, her stomach is hungry and "rumbling".

He also came back to his senses and put his hands into his pockets, turned his head to look at Shu Tong and said.

"What? Don't you want to give me a word so I can send you back?" His words caught Shu Tong off guard as if these minutes of silence is waiting for her to say these words.

"Uh (◕◕)....how can I be nice?" Shutong smiled awkwardly and lowered her head.

"You're still embarrassed?" He asked back with a faint smile.

"Teacher, I ..... my cheek is very thick?" She swallowed with some exasperation and said.

"Well, you go to the classroom first wait for me to send you." After saying that he turned around and walked towards the dormitory.

"ε=( 'o ` \* )) ugh, if I wasn't facing him normally now, I would have ..... oops never mind not to mention it."

"Well? What did Mr. Asahi say?" Penzey ran through and asked.

"He said he sent me." Shu Tong stood on the building looking into the distance and launched a daze.

Time passed by.

"Shutong!" The voice of Xu Feng came from the other end of the office.

Shu Tong walked towards that end with big strides, and she silently followed behind him.

"Wait a minute, go to the Registrar's Office and ask Director Li for a leave slip first, I'll go to the car."

"Is it written yet? Give it to me."

"Are you going to give it to the janitor's office? Oops, let me go give it." Shu Tong took the leave slip and ran towards the janitor's office, and just jogged not two steps before he was stopped by the person behind him.

"Are you brainless? Did you see that I signed it?" His tone was mixed with some helplessness.

Shu Tong subconsciously looked at the leave slip, the two blanks of the principal's signature and the class teacher's signature were blank, "Oops, Shu Tong you really have no brain." She muttered a few words in a low voice and tapped her forehead with her hand, turned around and walked towards the teacher with her head down.

"Don't you want to take your school bag?" In the distance came the voice of Little Yellow Teacher.

"Little yellow teacher and I go together." The person next to him suddenly spoke up.

"Oh, that I book bag Tuesday leave and take it back."

Shu Tong took the leave slip and got into the car, "Clang!" The car door was closed by Shutong.

"Are you ready to break my car door, with so much force." The person sitting in the main driver said with a helpless face.

Shutong sat quietly in the back seat without speaking.

"You know my dream, you know my pain, you know we all feel the same." The car rang up the melodious music, the corners of Shutong's mouth slightly upward smile and said.

"Wow, teacher Zhang Jie's song, yeah, you also like Zhang Jie? He is one of my favorite male singers yo!"

Most afraid of the sudden silence of the air, no one in the car to speak only to hear the sound of music. Shu Tong looked at such a scene can't wait to find a crack in the ground.

."

"Well." Then the car slowly drive up.

This journey, the car only the sound of music, I do not know how long after the small yellow teacher spoke: "Shutong, you look otherwise over the place."

"Well, good."

"That, to the teacher."

"Clang!" Sounded the same sound, three people froze next to the car.

"You put my car door ah, how angry you are." Xu Feng stood to the side and said heartily.

Little yellow teacher also smiled and looked at Shu Tong.

"Uh, that, I did not mean to, I am just a little strong," said Shu Tong scratching his cheeks with a sneer.

She tiptoed to the car door, gently opened and then re-closed it again: "Teacher, this is okay now."

He glanced at her without speaking and walked toward the intersection.

"That, teacher, can you guys send me inside for a while." Shu Tong swallowed a mouthful of saliva pursed his lips and said.

"This is a flat road you are afraid of what?"

Shutong every time you walk that road at night is always very afraid, of course, there are lights also afraid.

"Okay, teacher, I'm going back, thank you."

"Well, take your medicine on time and be happy, call me if anything happens."

Shu Tong stood at the door and watched the two figures disappear before entering the house, but the next mood is a drop.

"You just know how to trouble your teacher." The words came out of his aunt's mouth.

"Then who left first today? I even wrote the leave note and came out and you left." Shu Tong's tone was a bit exasperated.

"You are a demon! Just know how to find trouble for people."

"Yes! I'm a demon, so what?" Shu Tong looked at her aunt fiercely somehow her eyes got wet, she turned around and left the house.

"Come, Shu Tong come to our house." Xingbei's mother-in-law stood in the courtyard and called out.

"No."

Shu Tong stood silently on the path, tears kept flowing down, she looked at the cell phone in her hand and dialed the phone.

"Hello."

A voice came from the other end of the phone, but Shutong didn't say a word.

After five or six minutes, she thought the other end had hung up the phone but did not expect the phone to show that it was still on hold.

"I ....."

"Done crying?"

"I'm not, that, I just want to thank you for sending me back today." Shu Tong forced to hold back choking tone of voice flat said.

"I'll tell you, no matter how your family is they definitely care about you especially your aunt and uncle. It's good that you called me, you know, today to send you back I asked a lot of teachers they are not willing to come, only Xiao Huang teacher immediately agreed."

"Well, but I really don't want to stay at home."

"Shutong! Come we have cooked you to eat." Behind her came the voice of Xingbei's mother-in-law.

"No, I'm not hungry, thanks."

"Look you ask you to eat and you don't eat, you have to be obedient you know? You've been rejecting people's kindness to you now." The caller continued.

"So, can I go to school next week?"

"No."
