

# THE GALAXY LEFT BEHIND THE STARS IN THE WORLD - CHAPTER 22 I JUST WANT TO FIND A PLACE TO HIDE.

"I always want to go to a place where no one knows me to start a happy life again, I don't want to face the city's bright lights, I don't want to hear the noise of the streets, I don't want to see all the deceitfulness. I just want to simply go to a place where there are mountains and water and flowers and birdsong and no right and wrong."

Shu Tong quietly standing on the fourth floor looking at the distant mountains looking at the big green and brown trees, said to himself.

We always do not understand those who are thinking of leaving every day, every day with a heart on their faces after zero, thinking that they are just some children still in school, they do not understand the difficulties of entering society, do not understand the burden and pressure that adults have to carry, they live such a good life why will have these ideas.

Those adults will not know those children who grew up understanding the inferiority complex caused by the climbing in school, will not know why teenagers have learned to disguise themselves to hide their hearts, will not know why teenagers in the unhappy time just faintly say a "I'm fine, fine! Then force a smile.

"Hey, Shu Tong is not feeling well? We came to accompany you." Somehow Peng Ze and the others appeared behind her and said to her with a smile.

"When did you guys come up?" Shutong turned around at the sound and asked.

"Hmm? We just came not long ago." Chu Chu opened his mouth and replied.

A few people stood on the hallway looking into the distance and fell into silence with Shu Tong, just when the atmosphere was about to freeze Shu Tong opened his mouth: "Do you think I'm nice?"

They did not answer immediately just turned their heads in surprise to look at her, their eyes seemed to ask: What's wrong with you mood again?

"Oops, I'm fine I just simply wanted to ask." Shu Tong saw what they had in mind, I don't know when their tacit understanding had been so good.

"You're very nice we all know, it's just that you're too kind and too understanding and too inferior." Mu Yunfan answered her question first.

Shu Tong listened to his words and silently thought about it then nodded and said, "It seems to be so ha."

"Which is not as if it is obviously like this, Mu Yunfan is right."

"Yes, we all think so."

"Okay, you guys go down first, I'll think about it carefully and then I'll classroom." Shu Tong walked to the door of the computer classroom and spread a piece of paper on the floor and sat on the ground.

Chen Yixuan looked at her movements he said with certainty: "She will certainly not go down now, or we go down."

People have nodded towards the stairway over there, "Hey, wait we have to leave someone here." Peng Ze called out to them and whispered.

"That's right, just in case." Mu Yunfan also agreed with him.

"I'll stay, I have nothing to do down there anyway." Bai Yufan said.

"It's fine for me and Bai Yufan to stay." Chen Yixuan said.

"Good, then you guys come down and call us if anything happens." After saying that Chu Chu and Mu Yunfan they went downstairs.

Shu Tong hands clasped knees quietly sitting there, there is no sound quiet even heartbeat can be heard, Bai Yufan and Chen Yixuan silently stood there down the stairs listening to the Shu Tong's movement in front.

After an unknown period of time, there was a movement in front of her, she slowly stood up and walked to the front of the round table and stood there quietly. Her face had a marked change as if there was no soul.

Only to see her hands on the platform with both hands to force themselves up feet away from the ground a few inches, and suddenly a pair of hands appeared behind her quickly stop and hold, she instinctively struggled to stretch out both hands hard to break the pair of hands with strength.

"Hurry up! Come to help her feet have been placed on the fence she has been moving I can not hold her!" Chen Yixuan hands tightly confined her, at this time if he let go of her will fall from the fourth floor.

As Shutong was walking towards the edge of the perimeter table, Bai Yufan hurried downstairs to tell Chu Chu and the others.

"Chen Yixuan you must not let go, we are coming!" Peng Ze and the others hurriedly ran over to this side with big steps, a gust of cold wind greeted them, but their tight faces did not care about the cold wind at all.

Mu Yunfan and Chen Yixuan a force finally held her from the height of the enclosure down, Shu Tong messy hair will be pale cheeks blocked up, can only see the pair has been covered with tears eyes.

Sitting on the ground shivering, her head was blank as if this body was not hers.

"Shutong! Shutong! Come to your senses!" Xia Sichen looked at the Shutong in front of him heart indescribably hard, if at first they are gone then she is now .....

"Come draped." Bai Yufan took out his own clothes and draped them over Shutong's body.

Surrounded by a dead silence, they are standing beside her silently guard her.

I do not know how long the person sitting on the ground suddenly spoke.

"You ..... are not you all gone? Why are you guys looking at me like this, what did I just do?"

Her eyes are full of doubt quietly look at them, but they did not immediately answer her question, they are used to it after all, this kind of things like "memory loss" has happened not once or twice.

"Shutong! Do you know what you were doing?" Bai Yufan said angrily.

"Sorry, I ..... made you guys worry again."

"Oops, it's okay, you didn't do anything too much." Chu said with a smile and turned his head and gave Mu Yunfan and the others a look as if signaling something.

But this series of actions are sitting on the floor of the Shu Tong all in the eyes.

"Okay! You guys go away! Don't mind me, I want to be quietly assured that I am normal now." She looked as if she was blaming herself.

At this time, it was already dark the entire building only a glimmer of light from the stairway lights.

Until Shutong noticed that they all left, she could no longer hold back, hands clutching her head tears flowing down from the corners of her eyes.

This time she was sober, she just blamed herself the kind of self-blame from the heart.

"I'm sorry, I'm sorry."

But just when Shu Tong was ready to change her position, she saw the swaying of a figure on the opposite wall her heart thumped she realized they might not have left.

So she secretly turned her head slightly with a glance at those hiding behind her outside the doors of those classrooms, her tears disobeyed and had flowed down.

"Sorry, I know you guys are still there." Shu Tong turned his head and said.

The people behind her did not squeal, still silently hiding in the corner listening to her.

"I'm sorry, Chu Rui, Mu Yunfan, Peng Ze, Chen Yixuan, Xia Sichen, etc., it's all me."

The faint light shone on the silent fourth floor hallway, and the opposite tiled wall was imprinted with a faint star and a glowing round of arcane candles.
