

The Good 1141

Chapter 1141: City of Elves (2)

The Tree of Life was the reason for the elves' growth. The closer they were to the Tree of Life, the faster the source of life in their bodies would grow. As such, every elf would work hard to live closer to the Tree of Life.

In the elven society, the hierarchical system was very strict. The elves of different ranks lived in layer after layer of cities that spread out from Moonshine City. The stronger and the more talented the elf was, they would be able to enter the city of the appropriate layer. Correspondingly, the closer they got to the Tree of Life, the faster their growth would be.

Shen Yanxiao came to the Moon God Continent to improve the source of life in her body.

For her, the best choice was for her to stay in Moonshine City.

However...

The division between the lower-level cities and the upper-level cities was very obvious. Unless they could prove their strength and enter the upper-level cities, they would be chased out by the elves even if they ran to the gates.

Moreover, every city had a protective barrier. No matter how skilled Shen Yanxiao was, she would be discovered by the elves the moment she stepped into their city without permission.

She had to admit...

The elves were extremely savage when it came to maintaining the hierarchy.

If Shen Yanxiao wanted to enter Moonshine City, the only method was...

To fight her way up.

Looking at the map in her hands, Shen Yanxiao pursed her lips.

Other than Moonshine City, the cities were divided into five levels, respectively: green, yellow, red, white, black. The outermost level was the cyan-level cities, followed by yellow, red, and white-level cities. Lastly, it was the black-level cities closest to Moonshine City. The higher the level, the fewer their number. There were more than fifty cyan-level cities, but there were only five black-level cities.

Shen Yanxiao and Vermilion Bird were about to arrive at a cyan-level city named Fragrant Night City.

The cyan-level city was unguarded so any elf could enter at will. Shen Yanxiao had the appearance of an elf so there was no obstruction when she entered Fragrant Night City.

Even though it was the lowest-level city, the buildings in Fragrant Night City had adopted the style that elves liked. At a glance, it was all pure white.

Beautiful elves walked around the city. None of them were remotely ugly.

Shen Yanxiao only had the words 'racial advantage' in her mind.

Elves were born with good looks. No matter how ugly an elf was, they were considered beautiful in the Brilliance Continent.

Therefore, the Moon God Continent was a paradise for appearance. Any random elf could beat a human in appearance.

Shen Yanxiao's appearance could be regarded as top-notch among humans, but among the elves, she could only be considered as beautiful. She was still a certain distance away from being breathtaking.

Even though the elves were divided into different cities according to their ranks, every elf had their own tribe.

This was similar to the aristocratic families in the Brilliance Continent. The difference was that the elves could not stay in the tribe all the time, as they would be thrown into different cities according to their ranks.

Before Shen Yanxiao left for the Moon God Continent, Shen Siyu had told her some things about her mother, Wen Ya.

Wen Ya's father was a human, but her mother was an elf. Wen Ya's mother, Shen Yanxiao's grandmother, belonged to the Moonlight Tribe, a branch family of the Moonshine Tribe.

Chapter 1142: City of Elves (3)

Shen Siyu had told her all this information, but she did not pay much attention to it. All she was thinking about was how she could step into Moonshine City from a cyan-level city.

Every city would have a tryout every month. As long as they passed the strength test, the elves could apply to enter the upper-level cities.

Shen Yanxiao found an inn in Fragrant Night City with Vermilion Bird. The owner of this inn was a male elf with an injured left arm. On the surface, he looked to be in his early thirties, but Shen Yanxiao knew that elves lived longer than humans. The elf before her was probably no younger than 80 years old.

Ordinary humans could live for a hundred years, but elves could live for five hundred years. Moreover, they aged extremely slowly.

Shen Yanxiao noticed that every elf in Fragrant Night City had a cyan badge on their chest. This badge represented their rank and Shen Yanxiao also had one. However, her badge was imitated by Yang Xi in advance. On the outside, it looked no different from an elf's badge, but the essence was completely different.

If she wanted to enter a city of a certain rank, she had to be equipped with a corresponding badge before she could freely pass through the barrier outside the city. However, the cyan-level city did not have any such barrier, so no elves would notice her even if she brought a replica.

Even though she was in a cyan-level city, Shen Yanxiao could already feel a warm current flowing into her source of life.

This was the reason why Shen Siyu wanted her to come to the Moon God Continent. Even if she were to stand at the edge of the continent, the influence of the Tree of Life would increase the source of life of the elves.

This was the first time Shen Yanxiao experienced such a wonderful feeling. The moment she entered the room, she could not wait to sit cross-legged and work hard to let her source of life absorb the power of the Tree of Life.

The training of elves differed from that of humans. Humans already possessed battle aura and magic, and it could be constantly being purified. However, the source of life of elves was desperately dependent on absorbing the power from the Tree of Life. After leaving the boundary of the Tree of Life, the growth of their source of life would become extremely slow.

That was why it was hard to find elves in other continents.

The reason for that was because if they were to leave the Moon God Continent, it would mean that they would have to leave the Tree of Life they relied upon for survival and their strength would stagnate.

This was the first time Shen Yanxiao experienced such a feeling and her mood was rather complicated. She tried her best to adapt to this training method as she knew that she did not have much time. She had to lower her time in the Moon God Continent as much as possible and return to the Brilliance Continent quickly.

There were still people she cared about there.

Throughout the entire afternoon, Shen Yanxiao did not take a single step out of the room. Vermilion Bird stayed at one side with Mini Dragon and Little Phoenix, not daring to disturb Shen Yanxiao.

In fact, the three of them were not idle either. The Tree of Life in the Lunar Continent was not only effective for elves, but also for plants and beasts.

Even Little Phoenix that always acted cute had sensed the aura from the Tree of Life. It trembled as it laid on Vermilion Bird's head, as it obediently trained.

It was not until night fell that Shen Yanxiao ended her first training session as an elf. She opened her eyes and looked at the pitch-black night sky outside the window as her stomach rumbled.

Chapter 1143: City of Elves (4)

"How do you feel?" Xiu asked.

Shen Yanxiao stretched her muscles and bones. She did not feel any different, but she could clearly sense that the small seed in her source of life was about to germinate.

"Even though it is slow, it is much better than when we were in the Brilliance Continent," Shen Yanxiao said with a smile. It had been some time since her elvish blood had awakened in the Brilliance Continent. When she was there, there had been no changes to her source of life at all. And right as she stayed in the Moon God Continent for half a day, her source of life was about to germinate.

Shen Siyu truly did not lie to her.

“That’s good. The seal on this layer is also at the seventh rank. So, you’ll have to rely on your own strength to undo them one by one,” Xiu said.

“I know, but the effects of the cyan-level cities are already so great. I wonder how good the effects of upper-level cities are.” Shen Yanxiao could not wait any longer. Seeing her strength increasing was extremely enticing to her. It almost felt like she was about to fly up into the sky like a rocket.

But it’s just a fleeting moment.

Her human form had only begun training diligently for only a short while before she exploded in strength. And her path as an elf was only just beginning.

“Oh, I’m so hungry. I’ll go and find something to eat.” When she was in her human form, Shen Yanxiao never had to experience hunger. However, as a fledgling elf, the source of life in her body was not enough to support her consumption.

Shen Yanxiao could only become a foodie again.

“Chu?” Little Phoenix opened its eyes when it heard Shen Yanxiao’s voice. It tilted its head in doubt and looked at Shen Yanxiao. From the looks of it, it did not seem to want to go out.

Vermilion Bird had been with Little Phoenix for a long time and naturally knew what it meant by its head tilt.

“This little guy seems to have sensed the power of the Tree of Life and is showing signs of growth. Go ahead, I’ll stay here and keep an eye on both of them.” The originally arrogant Vermilion Bird had already developed the awareness of a nanny due to the constant care he needed to show to Little Phoenix and Mini Dragon.

“The Tree of Life can also affect magical beasts?” Shen Yanxiao lifted her brow.

“Marginally, it will only have an effect on young magical beasts. For an adult magical beast like me, the effect is very minimal.” Vermilion Bird, who had the appearance of a cute little kid, called himself an adult.

However, Shen Yanxiao’s expression was rather complicated. She stared at Vermilion Bird before sizing him up and revealing a spurious smile. “Adult?”

“...” Vermilion Bird was momentarily stunned as he understood that Shen Yanxiao was reading him.

Almost instantly, he exploded and pounced towards Shen Yanxiao while screaming.

However, Shen Yanxiao did not give Vermilion Bird any chance to retaliate, as she immediately escaped from the room.

Vermilion Bird’s furious roar could be heard from the closed door. Hearing it, Shen Yanxiao was in a good mood.

It felt good to tease a tsundere.

Shen Yanxiao hummed a tune and left without any shame.

The amount of crystal coins Qi Xia prepared for her was not small. It was enough for her to spend for a period of time. However, it was absolutely unrealistic to sustain for a year.

As for that poor Third Young Master Qi, why didn't he prepare a year's worth of expenses for Shen Yanxiao?

Because...

A certain fox knew very well that someone's ability to accumulate wealth was savage to the extent of insanity.

Shen Yanxiao lacking money? That was definitely the biggest joke in history.

Chapter 1144: City of Elves (5)

This heartless little thief even dared to steal the treasury under the Emperor. What else would she not dare to steal?

The Phantom members who were far away in the Brilliance Continent silently lit three incense sticks for the elves after Shen Yanxiao left for the Moon God Continent.

However, a certain heartless thief did not intend to harm the elves on the first day she entered someone else's territory. Shen Yanxiao left the inn and tried to find a place in Fragrant Night City that could provide food.

It had to be said that there were few shops selling items in the elves' territory. Other than a few shops selling gems, medicinal ingredients, and bows, there was nothing else.

The elves were a self-sufficient race. They would resolve many things on their own. Furthermore, the elves in the cyan-level cities were of a low level and they practically did not have any income sources. Every single one of them relied on their tribe to support their finances and no matter which city they were in, the tribe leaders who stood at the highest level would send someone to distribute clothing and a small amount of crystal coins for them every month.

The amount of crystal coins they received was very little, and most of it was only enough for them to maintain food supply for a month. If they were in an upper-level city, the scene would definitely be prosperous, compared to that, a cyan-ranked city was equivalent to a slum.

Who could count on these poor elves who could barely pass their days to buy luxury goods?

It would already be great if they could fill their stomachs!

Elves were very elegant, but they did not have a mind for business. Their thoughts were very simple. They felt that money and business were vulgar. Therefore, they were not willing to develop their business sense.

After the humans and elves started their trade, some smart elves started to make plans to do business.

Before that happened, it was normal to not find a single shop in a city.

Shen Yanxiao wandered around for a long time before she found a shop selling fruit at the end of a street. The one selling the fruit was a very young elf that looked about five to six years old.

The little elf opened her watery big eyes and looked at her peers coming and going in confusion. She sat on a small wooden box with her delicate legs together and her two small hands obediently rested on her knees. Even though she did not say anything, her large eyes were filled with desire.

It was as if she was silently begging for elves to visit her.

Shen Yanxiao covered her stomach and walked to the fruit stand. She had to admit that the food of elves was extremely singular. The only place in the entire city where food could be bought was filled with just fruits. There was absolutely no rice or noodles!

The fruits in the Moon God Continent were all very exquisite and looked very delicious. Shen Yanxiao stood in front of the fruit stand and looked at a few fruits that looked like apples but had similar shapes to oranges, wondering if she should try them.

“How much is this?” Shen Yanxiao hesitated for a long time before she pointed to a strange-looking fruit and asked.

The little elf’s eyes immediately sparkled. She was so excited that she wanted to jump down from the wooden box, but her legs were too short. In a panic, she pounced forward.

Shen Yanxiao subconsciously steadied the little elf.

The little elf panted as she looked up. A trace of redness surfaced on her delicate face. She looked at Shen Yanxiao in fear and opened her mouth. “Ten... ten fruits, just one crystal coin.”

Chapter 1145: Delicious Fruits (1)

Looking at her eyes that were as clear and nervous as a deer, Shen Yanxiao began to wonder if she had some disgusting facial masks.

Ten fruits for one crystal coin—that price was rather low.

Just as Shen Yanxiao was about to fork out the money, a cold and arrogant voice suddenly sounded.

“So ugly.”

The moment Shen Yanxiao heard that, the little elf trembled. Her hands that were grabbing Shen Yanxiao’s sleeves unconsciously tightened and fear surfaced in her clear eyes.

Shen Yanxiao frowned and turned around.

Behind her, three young male elves stood with pride.

The elf in the middle wore a yellow badge on his chest, and the two elves standing by his side were evidently attached to him. Both of them had a cyan badge on their chest.

“As an elf, you actually did such a despicable thing. These fruits that can be seen everywhere, and you still want to sell them? You’re really shameless.” The elf with the yellow badge on his chest looked at the little elf in Shen Yanxiao’s arms with contempt. His cold and sharp gaze was like an ice blade that cut her skin.

The little elf trembled and her soft body instantly stiffened.

“Will there really be any elves who would buy such a fruit?” The elf with the yellow badge picked up a bright red fruit with contempt. He exerted some force with his white fingers and looked at the little elf with a pair of arrogant eyes. “As expected of the scum of the Moonlight Tribe. You’re learning the shameless actions of humans. Exchanging fruits for money? You’re simply despicable to the extreme.”

The male elf’s words were like a merciless slap on the little elf’s face. The little elf trembled even more, and her watery eyes were filled with tears of fear and grievance. She said while trembling, “I... I didn’t...”

“No?” The male elf sneered. He threw another fruit on the ground and stepped on it.

“You’ve learned the shamelessness of humans at such a young age. Your Moonshine Tribe is really degenerate. Do you think any elves would buy this garbage?”

Shen Yanxiao frowned as she listened to the male elf’s insults. A trace of displeasure flashed past her calm eyes.

She could understand that elves did not like human profiteers, but it was too much to hold that against a young elf and mock her like that. Moreover, the Moonshine Tribe that the bastard mentioned seemed to be Shen Yanxiao’s maternal family.

Even though Shen Yanxiao did not have the slightest impression of the elves of the Moonshine Tribe, she could not stand this elf flaunting his strength here because of her mother, Wen Ya.

The little elf felt aggrieved, but she did not dare to defend herself. She could only bite her lips and look at the three elves with tears in her eyes.

However, that male elf was unwilling to budge and Shen Yanxiao’s expression became increasingly ugly.

“One crystal coin for ten fruits?” Shen Yanxiao suddenly asked.

The moment Shen Yanxiao said that, the three elves were stunned. The little elf who was holding back her tears also looked up at Shen Yanxiao with tears in her eyes.

“One crystal coin for ten fruits, right?” Shen Yanxiao looked at the little elf and asked calmly.

The little elf was stunned for a moment before she hesitantly said in a trembling voice, “Yes.”

Shen Yanxiao smiled. She pulled the little elf with one hand and took out the money bag the Qilin Family had prepared for her with the other. She grabbed a handful and stuffed it into the little elf’s hands. “I want all the fruits in your shop.”

Chapter 1146: Delicious Fruits (2)

“What...” The little elf clearly did not react to Shen Yanxiao’s words as she stared at her in a daze.

Shen Yanxiao did not say anything else. She stuffed the bag of money back into her pocket and took a fruit to eat.

With an audible crunch, the four petrified elves woke up.

The three elves looked at Shen Yanxiao in disbelief.

“You actually spent money to buy this garbage? Don’t you know that there’s a fruit tree planted in the north of Fragrant Night City and you can casually pick it with one crystal coin?” The elf with the yellow badge looked at Shen Yanxiao in surprise.

It was hard for him to believe that such a beautiful elf would do such a foolish thing.

“I know.” Shen Yanxiao raised her eyebrows and looked at him without shame.

“So what? It’s my business what I want to buy. I don’t need you to interfere with my affairs.”

I have money and I am willing to be scammed. Bite me if you can.

Shen Yanxiao’s shameless appearance caused the three elves’ expression to turn black.

“You really don’t know what’s good for you!” The elf in the lead found it hard to believe that there was such a rogue of the same species. It was rare for him to be kind enough to remind her. Not only was she not grateful, but she even answered him in such an arrogant way. He felt choked up.

“You’re not ashamed to use your tribe’s money to do such a thing? As a cyan elf, you have to have the self-awareness of a cyan elf. To waste your tribe’s resources for your stupid pride...” The leader of the elves shot a glance at the cyan badge on Shen Yanxiao’s chest and spoke with slight contempt.

Cyan elves were the weakest elves and the most useless in the world of elves. They basically had no fighting power at all. Cyan elves that were placed in the cyan-level cities by various tribes would collect a portion of the crystal coins allocated by their tribes every month. The distributed crystal coins were very few and could only satisfy their basic needs. However, there were also some cyan elves that would receive preferential treatment due to their relationship with the upper echelons of their tribe.

However, this kind of preferential treatment was limited to the abundance of crystal coins. Even the most favored cyan elves would never be able to jump ranks and enter a city of upper levels.

Shen Yanxiao’s purse was not small. It was not a fortune that ordinary cyan elves could accumulate.

Therefore, the three elves assumed that Shen Yanxiao was a good-for-nothing who was pampered by the upper echelons of their tribe. She had plenty of crystal coins, so she could squander them without any restraint.

Many elves looked down on this favoritism.

The three elves despised Shen Yanxiao even more...

“Bin Dong, forget it. How can an idiot like her who can only live in a cyan-level city have the brains to think about the concept of saving? Trash is trash. They don’t think about advancing and will only squander away the tribe’s wealth without any restraint. She can only stay in a city like this for the rest of her life. Why bother with this trash?” A cyan elf standing beside the yellow elf rudely mocked Shen Yanxiao’s actions.

Shen Yanxiao raised her eyebrows and looked at the cyan badge on the elf’s chest.

The cyan level was garbage? Then what about him who also wore a cyan badge?

That cyan elf clearly sensed Shen Yanxiao's gaze. He raised his head and said rather arrogantly, "What are you looking at?"

Chapter 1147: Delicious Fruit (3)

Shen Yanxiao sneered.

Shen Yanxiao's dismissive attitude made the arrogant elf unhappy. The yellow elf, Bin Dong, frowned and said to his lackeys, "Even if both of you are cyan elves, you are not like her. I will bring you two to participate in the test in a week's time. Don't be like some trash that only knows how to waste the resources of their tribe."

When the two cyan elves heard that, expressions of joy immediately appeared on their faces.

Bin Dong had already entered a yellow-level city so he had a certain understanding of the advancement test. With his guidance, it would be much easier for them to advance.

"Thank you!"

Bin Dong slightly nodded and revealed an arrogant expression.

"I will help you as long as you have the mindset to advance. It's better than trash who only knows how to eat and wait for death."

Trash?

Shen Yanxiao chuckled. She vaguely remembered that ever since she reincarnated, there would always be some reckless idiots who would pin this word on her.

Shen Yanxiao smiled. She tilted her head and lazily looked at the three elves who were talking to themselves. "If you are not buying anything, don't stand in front of the shop. Don't tell me the elves from yellow-level cities don't know any manners?"

Bin Dong's expression darkened as he glared at Shen Yanxiao.

"Shameless!"

Shen Yanxiao smiled and said, "I find it strange. She set up a stall to do business, and it has nothing to do with you. Why did you rush here in such a hurry? Could it be that you're hungry and want to eat? Are you poor? If that's the case, you should have said so earlier. I'm treating today so you can eat as much as you wish. I don't need you to fork out money."

"Who are you calling poor!" In the world of elves with strict hierarchy, Bin Dong had never seen a cyan elf who dared to be so unbridled in front of a yellow elf!

"Who's answering me?" Shen Yanxiao revealed a shameless expression.

Didn't you like to pretend to be noble and indifferent? So what if I am a scoundrel? If you are capable, you can try to be even more of a scoundrel than me.

Even though the three elves had arrogant personalities, their nature made them incapable of dishing out insults. After Shen Yanxiao ridiculed them, their faces turned red but they had no way to refute. They could only glare at Shen Yanxiao angrily.

“What kind of city is raising such an elf? You’re not even strong. You just know how to talk. You can just follow this Moonshine Tribe elf around! I’d like to see what good you can do by staying with an elf from a tribe that even the Elf King spurns!” Bin Dong’s face was ashen as he snorted and turned to leave.

He did not want to stay near that shameless elf any longer.

When the two cyan elves saw Bin Dong leaving, they immediately followed behind him. Before they left, they glared at Shen Yanxiao fiercely.

However, a certain unscrupulous thief looked at them with a smile. She did not feel unhappy at all.

As she watched the three elves who were beyond redemption leave, Shen Yanxiao suddenly felt a pull on her clothes.

Puzzled, she turned around. The little elf was pulling on her clothes with a worried expression, and her watery eyes were filled with worry and responsibility.

“Sister, thank you, but provoking that elf will bring you trouble.”

The little elf was grateful for Shen Yanxiao’s help, but she was afraid that Bin Dong would cause trouble for Shen Yanxiao. After all, there was a huge gap between their levels, and she did not want to see her benefactor in trouble.

Chapter 1148: Delicious Fruits (4)

Looking at that innocent little face, Shen Yanxiao’s gaze also became gentle. Perhaps it was due to some cute little girls constantly appearing around her, but Shen Yanxiao always had a place in her heart for young children.

Perhaps everything she experienced in her previous life had flooded into this world. Whenever she saw these ignorant and naive children, she always hoped that they could grow up without worries.

It was the same for Lan Fengli and Yin Jiuchen.

Shen Yanxiao crouched down and reached out to stroke the little elf’s hair with a smile. “I’m not afraid of them. You don’t have to worry.”

The little elf looked at Shen Yanxiao with doubt. Soon after, she lowered her head and looked at the crystal coins in her hand. Blinking her eyes, she raised her head and stuffed the coins back into Shen Yanxiao’s hand.

“Sister, I don’t want these coins. Thank you for saving me this time. I know you were trying to help me just now. You can’t finish all these fruits as an elf. I don’t want money. You can eat as much as you wish. I won’t accept money.” The little elf blinked her innocent eyes and looked at Shen Yanxiao with determination.

Oh! A little girl acting cute? That was so lethal!

Shen Yanxiao did not know whether to laugh or cry as she looked at the abnormally stubborn little girl. Indeed, she did what she did earlier was because she was unhappy with those three arrogant elves. She could not possibly finish all the fruits here. However, ordinary elves would never come out to do business unless they were at their wit's end. This had something to do with their personality. For a little elf to come out to sell fruits at such a young age, she must have some difficulties.

Twenty crystal coins was a drop in the bucket for Shen Yanxiao, but it was a considerable sum for a cyan elf.

"No need. I have many friends. They will help me eat them," Shen Yanxiao smiled and said. There were still three of her mascots in the inn, right? They would help her eat them all. With that said, she stuffed the crystal coins back into the little elf's hands.

The little elf hastily shook her head and said, "Sister, even if you want these fruits, these fruits don't require so much money!"

The little girl was very upright and did not intend to take advantage of Shen Yanxiao.

Shen Yanxiao felt helpless and casually asked, "Are you going to sell fruits in the future?"

The little elf was stunned. She thought for a moment and said, "Yes."

"Then this money can be considered as an advance payment. I'll come and get it when you restock." Shen Yanxiao casually tricked him.

The little elf tilted her head and thought about Shen Yanxiao's words. She felt that it was reasonable. Plus, she really needed the money. Otherwise, she would have given all the fruits to this sister for free.

"Sister, are you free now? I still have many fruits at home. Come with me, I'll bring them to you!" The little elf said.

Shen Yanxiao was speechless. This kid was really stubborn.

Shen Yanxiao wanted to refuse, but Xiu's voice sounded at that moment.

"Follow her."

"What?" Shen Yanxiao was stunned. Lord Xiu was never such a petty person.

"The fruit you ate just now has a beneficial effect on your source of life. It is impossible for the fruits in the Moon God Continent to produce such an effect. Follow her and determine why the fruits she sold are different." After Shen Yanxiao ate that fruit, she did not notice that effect at all. However, Xiu had clearly sensed the subtle changes in her source of life.

Chapter 1149: Delicious Fruits (5)

This minute effect was hard to notice. If Xiu had not resided in Shen Yanxiao's heart lake and could clearly sense all the subtle changes in her body, he probably would not have noticed.

Shen Yanxiao was surprised. A fruit could increase the growth of her source of life?

"How does it work?" Shen Yanxiao asked.

Xiu explained. "The fruit allows your source of life to absorb the power of the Tree of Life more thoroughly. However, this effect is only temporary. I estimate that your absorption of the power of the Tree of Life should increase by a level for a short period of time after eating the fruit."

"That amazing?" Shen Yanxiao was surprised. She honestly did not feel anything.

Right now, raising her life force was what she cared about the most. If this fruit could really help her absorb it more efficiently, then it would absolutely be great!

"I looked at the fruit you just ate just now, but I did not notice any abnormalities. Its appearance is similar to ordinary fruits you can find in the Moon God Continent. Only after eating it did it show its uniqueness. According to my guess, the uniqueness of this fruit should lie inside. If possible, try to find as many as you can. It will only be beneficial to you." Whenever it concerned Shen Yanxiao's strength, Xiu would always be more attentive than her.

After Shen Yanxiao's elven blood awakened, he could no longer personally undo the seal on her. She had to rely on herself for the rest of the seal.

Shen Yanxiao touched her chin and narrowed her eyes as she looked at the little elf who was still waiting for her response.

"Do you have a lot more of these fruits?" Shen Yanxiao asked calmly.

The little elf immediately nodded.

Shen Yanxiao smiled and said, "Alright, I'll go to your house to get it."

Hearing that Shen Yanxiao had accepted her invitation, the little elf's face immediately revealed a trace of joy and excitement. She released Shen Yanxiao's hand and took large strides with her two short legs before she busied herself in the small stall. She took out a large cloth bag and held it in her hand. She moved a small wooden chest and climbed up. Then, she tiptoed and stretched out her small hands before shoving all the fruits on the stall into the bag.

Shen Yanxiao did not know whether to laugh or cry as she looked at her extremely adorable appearance. She wanted to go forward and help, but the moment she approached, the little elf immediately shook her head and said, "No, no... I'll... I'll do it..."

Shen Yanxiao had no choice but to step aside and silently looked at the little elf.

There was not much in the stall, only some fruits. After a short while, the little elf finished packing all the fruits into a bag. Even though it was not a lot, the bag of fruits seemed huge besides her petite body.

Shen Yanxiao facepalmed. Then, she stepped forward and decisively picked up the bag. She then opened the interspatial ring to place it inside.

However, at that very moment, the little elf suddenly pounced on Shen Yanxiao's hand holding the bag.

Shen Yanxiao was speechless. She looked at the little elf dangling on her arm and asked, "What... are you doing?"

The little elf said in all seriousness, "These fruits... cannot... cannot be placed in an interspatial ring..."

“Why?” Shen Yanxiao was puzzled. Other than the fact that the interspatial ring could not store any living beings, there should not be any problems with storing anything else. When she went out previously, she had placed a lot of fruits inside her bag, and there wasn’t anything wrong with them.

Chapter 1150: Delicious Fruits (6)

The little elf anxiously said, “Father said that the fruit won’t taste good if it’s placed inside.” The little elf nervously looked at Shen Yanxiao, fearing that she would put the bag into her interspatial ring.

Shen Yanxiao frowned. Before the fruit was plucked, it grew together with the tree and was considered as a living being. However, once the fruit was plucked, it could no longer be considered as a complete living being. Therefore, there would not be any problems even if it was placed in an interspatial ring. So the little elf’s words caused her to be puzzled for a moment.

Xiu mentioned that this fruit had an effect on her source of life. Could it be that these fruits were indeed different from ordinary fruits?

With this thought in mind, Shen Yanxiao did not dare to casually put those fruits back.

“Then carry it,” Shen Yanxiao said.

Only then did the little elf let go of Shen Yanxiao’s hand. Perhaps it was because she was too tense, but the little elf realized that she had been too rude. Now that she had calmed down, she immediately blushed when she looked at Shen Yanxiao.

“I... I’m sorry... I... I didn’t mean to...” The little elf blushed.

Shen Yanxiao chuckled and did not say anything else. Even though her current physique was not comparable to when she was human, she was not that weak. She might as well take the bag and leave with the little elf.

The city of the elves was very different from the city of humans. Large patches of greenery could be seen in the city. Other than a few main roads, there were many areas in the city where huge trees filled her sight. The real residence of elves was on these huge trees. They built tree houses on the thick tree trunks and lived there. Most of the other buildings in the city had other uses.

Elves were children of nature, so they were more willing to live in a place close to nature.

Shen Yanxiao thought that the little elf’s house was not far behind the road. However, the little elf took her straight through the greenery and went deeper.

Shen Yanxiao walked past the tree where the elves lived and looked up at the elves who lived on the high branches. The sunlight that shone through the dense leaves sprinkled on the grass, bringing about some warmth that made her feel comfortable.

‘They are indeed very environmentally friendly...’

Shen Yanxiao thought to herself.

The little elf pulled Shen Yanxiao along the way. After passing through patches of greenery, Shen Yanxiao had given up trying to find the little elf’s residence and allowed her to drag her forward.

However, the further they walked, the fewer trees there were on the grassland. The trees that had gathered together to form a green umbrella gradually disappeared. Sunlight sprinkled on the ground and fewer elves appeared.

Furthermore, the trees here were evidently smaller than the previous ones. If the trees here were said to be as tall as the sky, then the trees here seemed even smaller.

“Sister, we’re almost there!” The little elf turned to look at Shen Yanxiao, her eyes filled with joy.

Shen Yanxiao nodded. After they walked into a huge tree, she could clearly sense those unfriendly gazes from all directions staring at them.

There was something amiss here.

The elves were not as emotional as humans. But it was not common to show such strong hostility and rejection.

Shen Yanxiao gritted her teeth. Did something go wrong with her disguise?
