

The Good 1151

Chapter 1151: Traitor of the Elves (1)

All of a sudden, a black shadow flashed past, and to which Shen Yanxiao immediately dodged. However, the next second, that black shadow directly passed by where Shen Yanxiao stood and smashed into the little elf's shoulder.

The little elf groaned in pain. On the ground, a small stone could be seen rolling away.

Shen Yanxiao was surprised. It was obvious that the stone was aiming for the little elf from the very beginning.

Soon after, a few more stones continued to fall down from high above, and the intended target was still the little elf. Deciding to end this farce, Shen Yanxiao's agile body immediately rushed towards the little elf, and with a stretch of her arm, she pulled her into her embrace, protecting her from the rain of stones.

"Who is it!" Shen Yanxiao narrowed her eyes as she looked at the dense pile of stones on the ground where the little elf previously stood. It was no surprise that she was extremely unhappy.

Even though elves had a cold temperament, they would not go out of their way to harm a little kid. In this short time she met this particular little elf, she had already seen two groups of elves bullying her.

Following Shen Yanxiao's shout, a few young elves poked their heads out from the dense leaves on a tree. All of them had very delicate and handsome appearances, but they were entirely expressionless. The only thing she could gleam was their contempt and loathing within their emerald eyes.

"You shouldn't be with such an elf. They are not good people." A young elf who looked to be around eleven or twelve years old stood on a tree branch and coldly looked at Shen Yanxiao and the shivering little elf in her arms.

"Oh? Why?" Shen Yanxiao sneered.

"The Moonshine Tribe is a traitor to the elves. Their tribe had conspired with humans to destroy the peaceful world that belongs to the elves. She is a traitor to the elves. If you are with her, you will also become a traitor!" Another young elf stuck his head out from the tree branch. He was filled with hostility towards the little elf.

Shen Yanxiao frowned. If the culprit was an adult elf like Bin Dong, she would have punished them without any hesitation. However, in front of a group of young elves, her hands were tied.

They were so young, so why were they so hostile towards the little elf by her side?

"W-we are not traitors. Uncle Yu is a good man. He has never hurt any elves." The little elf was protected behind Shen Yanxiao. She tried her best to muster the courage to defend herself when she heard their accusation.

Uncle Yu?

A flash of brilliance immediately flashed across Shen Yanxiao's mind. Shen Siyu once mentioned that her maternal grandmother was an elf of the Moonshine Tribe and her mother, Wen Ya, had made a name for herself in the Moon God Continent. She suspected that Wen Ya's bloodline was closer to the elves. Therefore, before Wen Ya reached adulthood, no elves had suspected that she was a mixed-blood between a human and an elf. It was only after Wen Ya reached adulthood that her human bloodline finally awakened that the elves finally discovered her abnormality.

After that, her mother could not continue living on the Moon God Continent. She could only return to the Brilliance Continent and meet her father, Shen Yu.

When Shen Yanxiao saw Wen Ya's projection when she awakened her elven blood, she had always suspected that she was still alive. She had once tried to get some information about her mother from Shen Siyu, but he had always avoided answering her.

Shen Yanxiao had a question in her mind: were her parents still alive?

Could it be that they had no choice but to conceal their tracks for some reason?

Perhaps, they were in the Moon God Continent?

Chapter 1152: Traitor of the Elves (2)

The little elf behind her was from the Moonshine Tribe, and it was indeed her mother's tribe. Furthermore, the Uncle Yu she mentioned by accident, could it be... Shen Yanxiao's father, Shen Yu?

A huge question mark hovered above Shen Yanxiao's head. She was eager to know everything, but she was not in a hurry to ask as the matter before her had yet to be resolved.

"Traitors are traitors. The elves of the Moonshine Tribe have fallen. Otherwise, why would you be chased out of Wind City? Even the Elf King has abandoned you. It's useless to say anything else." These elves did not believe the little elf's explanation.

The Moonshine Tribe had been driven out of Wind City?

Shen Yanxiao was slightly surprised. The Moonshine Tribe was considered an advanced tribe among the elves, and their status in the Brilliance Continent was almost the same as the Vermilion Bird Family in the Brilliance Continent. All the advanced tribes lived in black-level cities, and Wind City was one of the five black-level cities.

However, the Moonshine Tribe had been driven out of Wind City, which was equivalent to having their status as an advanced tribe erased.

Could it be, all of this was because they were related to humans?

Shen Yanxiao frowned.

"It's not like that! It's not like that..." In the face of their criticisms and verbal abuse, the little elf seemed extremely fragile. She wanted to explain better, but the elves standing on the tree branches were already picking up stones and throwing them at her again!

Shen Yanxiao was furious when she saw such blatant bullying. She immediately took out Clemance from her interspatial ring and threw her bag to the ground. She nocked five arrows on the bowstring and immediately shot at the incoming stones.

The arrows easily pierced through the stones. How could the stones that the young elves threw with their bare hands compete with the arrows Shen Yanxiao shot with Clemance? With all the stones pierced, Shen Yanxiao's arrows had no intention of stopping. In the blink of an eye, five arrows flew towards those unruly kids.

Dang dang dang!

Five crisp sounds could be heard as the five arrows accurately nailed the tree trunk under the five unruly kids' feet. They were only a millimeter away from penetrating all of them.

The few unruly kids who were initially aggressive were shocked by the scene before them. Even though elves had an innate proficiency in archery, the proficiency of a cyan elf in archery was only slightly higher than a low-ranked archer. It was absolutely impossible for a cyan elf to shoot five arrows at the same time and hit their target!

Shen Yanxiao's gorgeous archery skills instantly made the group of unruly kids shut their mouths. All of them looked at Shen Yanxiao standing below in a daze as they stared at the cyan badge on her chest.

"Why is she a cyan elf?" One of the elves looked at Shen Yanxiao in surprise.

"You... are you an elf of another level? Why did you disguise yourself as a cyan elf? Haven't you heard of the traitor Moonlight in other cities? Why are you protecting her?" The elves were afraid of Shen Yanxiao's strength, but they could not understand why an advanced elf would protect a traitor.

Shen Yanxiao curled her lips into a sneer. Looking at those unruly kids who had been frightened silly, she directly put Clemance back into her interspatial ring and held the little elf with one hand and her pocket with the other.

Chapter 1153: Traitor of the Elves (3)

"Can you not interfere in my business?" Shen Yanxiao threw out this sentence in a lukewarm tone and pulled the little elf away from this hostile area.

Shen Yanxiao held the little elf's hand, but she could feel that the little hand in her palm was trembling.

She hesitated and stopped. She lowered her head and looked at the little elf who buried her head in her chest. The little elf's thin shoulders trembled incessantly. Shen Yanxiao clearly saw a crystal clear teardrop dripping on the little elf's chest.

"What's wrong?" Shen Yanxiao softly asked.

The elf shook her head silently.

Shen Yanxiao crouched down and lifted the little elf's face with one hand. Looking at that little face covered with tears, Shen Yanxiao felt helpless.

"Sister..."

“Yes?”

“Thank you for believing me. Our tribe is not a traitor. We have never betrayed the elves...” The little elf sobbed as she looked at Shen Yanxiao. Bead-sized tears rolled down from her eyes, and her rosy lips paled.

Shen Yanxiao was surprised.

The little elf wiped her tears and looked at Shen Yanxiao. “Uncle Yu is a good person, and Uncle Wuya is also a good person. They have never done anything to harm the elves. Humans are not the enemies of elves.” Her young voice carried a trace of determination.

Shen Yanxiao understood who the two people the little elf was referring to. Wuya was her grandfather, her mother’s father, a human from the Brilliance Continent, and that Uncle Yu was probably her father, Shen Yu...

Shen Yanxiao increasingly felt that her parents might not be dead.

She wanted to ask more questions, but looking at the agitated little elf, Shen Yanxiao felt that it was not the right time.

Thinking for a moment, Shen Yanxiao reached out to stroke the little elf’s head and said with a smile, “What’s your name? I don’t know yet.”

The little elf sniffled and said, “My... my name is Tian Bao.”

“Tian Bao?” Shen Yanxiao smiled. “A very cute name.”

Tian Bao shyly lowered her head. She liked this friendly big sister. She was the first elf to know that she was from the Moonshine Tribe. But instead of rejecting her, she protected her.

“Let go of Tian Bao!” A furious roar with a trace of immaturity sounded from behind them. Shen Yanxiao suddenly turned around and saw an eight or nine-year-old elf boy rushing towards her.

Shen Yanxiao raised her eyebrows. She picked up Tian Bao and tapped on the ground. Then, she leaped into the air. With her in the air, the elf boy that pounced on her fell flat on his face.

The next second, Shen Yanxiao landed back on the ground with Tian Bao in her arms.

The elf boy did not care about his sorry state. He climbed up and pounced on her again.

Shen Yanxiao calmly reached out and slapped the elf boy on his forehead.

Then...

On the emerald green grassland, an elf boy with short arms and legs was trying his best to wave his little claws. He wanted to scratch a certain heartless thief, but he could not touch her at all.

“Let go of Tian Bao! Let go of her! You baddies!” The little boy roared.

Shen Yanxiao raised her eyebrows and looked at Tian Bao who was completely dumbstruck.

Tian Bao swallowed her saliva and looked at the cute little boy. “Brother... This sister is not a bad guy...”

The furious little boy immediately stopped his struggle and raised his head in doubt. He looked at Tian Bao through the gaps between Shen Yanxiao's fingers.

"Really?"

Chapter 1154: Family of Three (1)

Tian Bao nodded firmly.

The cute little boy breathed a sigh of relief and stopped struggling. He looked at Shen Yanxiao with vigilance.

Shen Yanxiao raised her eyebrows as she looked at his intense gaze that was clearly different from other elves.

"Who is he?" Shen Yanxiao asked.

Tian Bao said, "He's my brother."

Shen Yanxiao looked at the cute little boy and then at Tian Bao. The elf's appearance was too beautiful. They virtually had no semblance with each other.

Knowing that there was no danger, Shen Yanxiao put Tian Bao down.

The cute little boy immediately stepped forward and pulled Tian Bao behind him as he nervously stared at Shen Yanxiao.

"Brother..." Tian Bao looked at her brother's overly nervous state in embarrassment and pulled the corner of his clothes.

The cute little boy said, "You shouldn't believe in any elves, or sooner or later you'll foolishly die. Why did you bring her here?"

Tian Bao pouted.

"I don't believe in just anyone! Sister is a good person and she gave me a lot of money." With that said, Tian Bao took out a handful of crystal coins from her pocket and showed it to the little boy.

The cute little boy was stunned and looked at Shen Yanxiao in doubt.

"Why did she give you so much money?" The little boy was still on high alert.

"Sister wanted to buy our fruits, but she gave us a lot of money. There were not enough fruits, so I asked her to come over and take them." Tian Bao blinked and explained honestly.

The cute little boy sized Shen Yanxiao up and down again. After ensuring that she did not have any strange behavior, he said, "You have good eyesight. Alright, follow me. I'll take you to get it." With that said, the cute little boy pulled Tian Bao to the front.

Shen Yanxiao helplessly chuckled. Looking at the little elf boy who was extremely protective of his calf, she suddenly understood why Du Lang and the rest were speechless about her protective nature.

This attitude of an old hen protecting her chicks was really cute.

The cute little boy pulled Tian Bao and brought Shen Yanxiao to a forest at the edge of Fragrant Night City. The trees here had just been planted not long ago and the trunk of each tree was not thicker than a person. Some simple wooden houses were built under the trees and many elves were working in front of the houses. However, the expressions of those elves were so numb without any luster.

“We’re here.” The cute little boy stopped in front of a small wooden house and pushed the door open to enter.

The room inside was not large, with only three simple beds and a wooden table carved from tree roots.

A few bulging bags were placed in the corner of the room.

The cute little boy swiftly picked up a cloth bag from the corner and dragged it to Shen Yanxiao with great difficulty.

“For you.” It was still that infuriating face.

It had to be said that elves were not cut out for business. Their cold and arrogant nature could absolutely cause many transactions to come to an abrupt end.

Forget about the fact that customers should always be treated with necessary decoradum, just looking at that half-dead face, not waving your hands and directly walking away with a gloomy face was already being magnanimous.

Shen Yanxiao took the bag with a smile. She did not mind the little boy’s attitude and only asked, “Tian Bao said that these fruits cannot be placed in the interspatial ring. Why is that?”

She was filled with curiosity about these fruits. They could increase her efficiency in absorbing the power of the Tree of Life. It was almost comparable to those advanced potions in the human world that could increase battle aura and magic.

Chapter 1155: Family of Three (2)

Xiu had mentioned that although the growth of an elf’s source of life was closely linked to the Tree of Life, improving one’s source of life was extremely difficult. The effect of this fruit was better than the potions Shen Yanxiao had concocted to increase her battle aura and magic.

What bothered her more was the little boy’s reaction when he heard that she was buying the fruit.

His reaction was unnatural. It was very likely that he knew the uniqueness of the fruit.

The cute little boy frowned and looked at Shen Yanxiao.

“You have to ask father,” the cute little boy said.

Father?

Just as Shen Yanxiao was curious, the door was pushed open.

A young male elf pushed open the door and entered. When he saw the three figures in the room, he was obviously stunned.

“Father!” The moment Tian Bao saw the elf, she immediately pounced over and asked for a hug.

The elf immediately came back to his senses and patted Tian Bao's head.

"This is?" The elf sized up Shen Yanxiao with surprise flashing past his eyes.

"Father, she's our family's guest. Sister bought a lot of fruit so we have money now." Tian Bao placed all the crystal coins in her pocket into her father's hands, as if she was presenting a treasure, and her face was full of smiles.

"Oh, please have a seat," the elf said.

Shen Yanxiao smiled and sat down on a small stool. She had to admit that this family of three was pitifully quite unfortunate.

Tian Bao's father was a handsome elf. However, Shen Yanxiao noticed that his left leg seemed to be disabled as his limp was obvious when he walked.

"I am Yue Xi, may I know your name?" Yue Xi pulled his children to sit down. It was evident that he was very curious about Shen Yanxiao.

Shen Yanxiao smiled and said, "My name is Shen Yanxiao."

"Shen?" Yue Xi was stunned. Something seemed to be flickering in his eyes as his eyes peered into Shen Yanxiao as if he was trying to figure something out.

"I've never seen you before in Fragrant Night City. Are you from another cyan-level city?" Yue Xi asked.

Shen Yanxiao said, "I guess so."

Yue Xi nodded with a thoughtful expression.

"Father, this customer asked why our fruit cannot be placed in the interspatial ring." The elf boy placed his hands on the stool and said.

Yue Xi forced a smile and said, "You must have noticed the uniqueness of our fruit and bought so many. You even specially made a trip here, right?"

Shen Yanxiao nodded. She did not have a bad impression of this family of three. Moreover, Tian Bao seemed to really respect her father. Moreover, they were all elves of the Moonshine Tribe so naturally, Shen Yanxiao was not on guard against them.

Yue Xi said, "I originally did not intend to sell these fruits, but my legs are disabled and I can't do much. There are many things in the tribe and I did not wish to increase the burden on the tribe, so I had Tian Bao attempt to sell some. Unfortunately, fruits are not popular here. I'm not joking here, but you are our first customer."

Shen Yanxiao was surprised, but she soon felt that it was only natural.

Bin Dong previously mentioned that they could harvest fruits at will as long as they paid one crystal coin in Fragrant Night City. Which elf would spend one crystal coin to purchase ten fruits? Moreover, the money the elves in the cyan-level cities had was limited. They were definitely not willing to use their limited amount of coins to buy fruits at such a price.

Chapter 1156: Family of Three (3)

“This fruit can increase the rate of absorption of your source of life. You should have already sensed this. The reason why this fruit cannot be placed in the interspatial ring is because it is a living being, different from ordinary fruits. Even after it is plucked, it will not wilt and dry up. It will naturally grow and maintain its best state.” Yue Xi patiently explained.

Shen Yanxiao was surprised.

After it was plucked, it was still considered a living being?

That was unheard of.

“How many of these fruits do you have?” Shen Yanxiao finally understood why Tian Bao was not afraid of not selling any fruits. It seemed like these fruits had a very long shelf life.

Yue Xi looked at those fruits piled in the corner and forced a smile. “What you see is everything.”

Shen Yanxiao frowned. Even though there were many fruits, she intended to use them for a long time as they had a special effect. She was afraid that she would finish them very soon. Just a moment ago, she sensed that the effect brought about by the fruit had dissipated, returning her rate of absorption to its original level.

According to Shen Yanxiao’s calculations, the duration of the effect lasted for about an hour.

Even if she only trained for ten hours a day, the fruits in the room could only support her for two to three months.

“Are you unable to get any more of these fruits?” Shen Yanxiao felt that if that was the case, it would be too much of a pity. It was rare for her to find something good, but it seemed her luck was limited.

Yue Xi directly shook his head.

“These fruits belong to the Moonshine Tribe. The ones in my hands are merely what I have accumulated in the past. Now that I have been banished to a cyan-level city, I no longer have the qualifications to obtain any more fruits.”

Shen Yanxiao narrowed her eyes. Banishment was a punishment prepared for the elves in upper-level cities. Even though the elves could work hard to improve themselves and advance toward an upper-level city, they still needed to abide by the rules of the city. Once an elf committed a mistake, they would be deprived of their source of life by the high-ranked tribes and banished to a cyan-level city.

Banished elves had committed serious crimes.

An elf’s source of life was equivalent to a human’s battle aura and magic. Removing it was equivalent to completely destroying a human’s livelihood, turning them into a cripple.

Shen Yanxiao was curious as to what kind of terrible crime did such a gentle-looking elf commit to be exiled.

Such cruel punishment did not seem to match the elf in front of her.

Yue Xi looked at his children with a bitter smile. He was no longer a complete elf. Without his source of life, his physical strength was inferior to his children.

“Customer, I see that you seem to require these fruits?” Yue Xi asked.

Shen Yanxiao nodded.

Yue Xi hesitated for a moment and looked at Shen Yanxiao with some hesitation. “Perhaps I can tell you the method to obtain them, but can you answer a question first?”

“Sure,” Shen Yanxiao answered decisively.

Yue Xi was silent for a moment. Soon after, he mustered up courage and took a deep breath. “Do you... know of a human named Shen Yu?”

Chapter 1157: Moonshine Tribe (1)

Shen Yanxiao was surprised.

Yue Xi said, “To be honest, I found you familiar the moment I saw you. Your appearance looks very similar to two of my friends. One of them is Shen Yu. He is a human, but the other is a mixed-blood between a human and an elf. I heard that they gave birth to a child in the past. I wonder...”

“You know them?” Shen Yanxiao’s heart skipped a beat. If her guess was right, the mixed-race Yue Xi mentioned should be her mother, Wen Ya. Since Yue Xi said he was friends with them, then he must have seen them before.

Yue Xi nodded.

“That elf’s name is Wen Ya, and she is the young miss of our Moonshine Tribe. When she was still in the Moon God Continent, I was one of her guards.” Yue Xi’s face carried traces of yearning but also loneliness.

Yue Xi was her mother’s guard! Shen Yanxiao was surprised.

“After Wen Ya left the Moon God Continent, she went to the Brilliance Continent and married Shen Yu there. They had a child together, and your eyebrows are very similar to Shen Yu. You also have some similarities with Wen Ya,” said Yue Xi.

Shen Yanxiao chuckled and looked at Yue Xi. “They are my parents.”

Yue Xi was surprised. After recovering from his shock, he immediately knelt on one knee and said to Shen Yanxiao in an unstable tone, “Little Young Miss, please accept my bow.”

Shen Yanxiao hurried forward to help Yue Xi up.

However, Yue Xi was extremely excited.

“Little Young Miss, Young Miss once said that you are far away in the Brilliance Continent. I thought that I would never have the chance to meet you in my life, but I did not expect such a coincidence to happen in this world. Tian Bao, Nuo Qi, come and pay your respects to Little Young Miss.” Yue Xi refused to get up and called for his children to pay his respects to Shen Yanxiao.

Puzzled, Tian Bao obediently knelt before Shen Yanxiao under her father's orders. Her large eyes were filled with doubt and joy.

Tian Bao felt happy that her benefactor had suddenly become her tribe's Little Young Miss.

Shen Yanxiao felt helpless. "Get up, I have something to ask you." Yue Xi said that Wen Ya told him that her daughter was in the Brilliance Continent. Did that mean that Wen Ya only returned to the Moon God Continent after Shen Yanxiao was born?

Wen Ya was still alive?

If she was still alive, then what about Shen Yu?

The three elves slowly stood up. Yue Xi's face was visible with excitement.

"Little Young Miss, please ask."

Shen Yanxiao asked, "My parents, are they still in the Moon God Continent?" She had always wondered if Wen Ya and Shen Yu were still alive. Otherwise, why did Shen Feng not find their bodies back then? In addition, she saw Wen Ya's phantom in her source of life. It was likely that it should have been left behind after they were ambushed by Shen Duan. All the signs indicated that they might still be alive.

Yue Xi revealed a difficult expression as he looked at Shen Yanxiao with hesitation.

"They... are in the Moon God Continent."

Shen Yanxiao's face blossomed with a smile. So her parents were still alive!

However, Yue Xi's expression did not look good. He seemed to be worried about something. Shen Yanxiao noticed his abnormality, and the joy in her heart was slightly restrained.

Yue Xi claimed that he was Wen Ya's bodyguard, but he committed a serious crime and was banished to this cyan-level city. The entire Moonshine Tribe had also moved out from a black-level City. The Moonshine Tribe was already an advanced elf tribe. Normally, a tribe wouldn't be degraded by so much.

Chapter 1158: Moonshine Tribe (2)

Something huge must have happened to the Moonshine Tribe for such a situation to occur.

She wondered if Shen Yu and Wen Ya were well.

Shen Yanxiao bit her lips. Although she had occupied this body, she was still related to Shen Yu and Wen Ya by blood. Even though they had never met, her heart was still affected by the bond of blood.

"How are they now?" Shen Yanxiao asked.

Yue Xi shook his head.

"I was driven to Fragrant Night City ten years ago. It has been so many years, and I haven't caught up with your parents since. When I left, they were still living in the Moonshine Tribe. If you want to find them, go to the city where the Moonshine Tribe currently resides."

“Then, where is the Moonshine Tribe now?” There were only five black-level cities and since the Moonshine Tribe had been demoted, they could only go to white-level cities.

Yue Xi said, “They are in Jadeite City.”

“...” Shen Yanxiao was speechless. Why did the name of this city sound so similar to the city that had locked up her Third Uncle?

“What’s wrong?” Yue Xi looked at Shen Yanxiao’s sudden silence and asked curiously.

Shen Yanxiao cleared her throat and shook her head.

She was too embarrassed to tell him that her casanova of an uncle had teased a young lady in Jadeite City not long ago and at that very moment, he was locked up in the city.

Embarrassing, too embarrassing!

Shen Yanxiao finally understood why Shen Feng liked to subconsciously overlook this good-for-nothing son of his. It was because his ability to cause trouble was too crazy.

No matter how much of a cassanova you are, don’t mess with an elf. Even if you want to seduce an elf, at least don’t find one with a powerful backer. If you don’t seek death, you won’t die!

No matter how thick-skinned Shen Yanxiao was, she could not gossip about her uncle in front of her mother’s guards.

“If I want to go to Jadeite City, do I have to pass the advancement tests?” Shen Yanxiao touched her chin and wondered how she could pass the first few tests.

To be honest, she did not know much about the elvish system. Even though she had heard some information about the test from Bin Dong, she did not know much of the details.

Other than where the Elf King lived, there were still five levels of cities she had to go through. She had to climb up step by step. She had no idea how long this would take.

So... frustrating.

“That’s right.” Yue Xi nodded. After a short pause, he continued.” Little Young Miss, do you wish to pass the advancement test and enter Jadeite City?”

Shen Yanxiao nodded honestly.

However, Yue Xi shook his head and said, “If Little Young Miss plans to use the normal way, it would take at least half a year before you can enter the Jadeite City.”

“Ah? Isn’t the test once a week?” Shen Yanxiao had already thought it through. She would make the best use of her time to improve and strive to pass the test every week or two. That plan would be perfect.

Yue Xi said, “Little Young Miss should have just arrived at the Moon God Continent, so you don’t know much about this place. The test for the cyan-level cities is indeed once a week, but the test for yellow-

level cities is once a month. The tests for red-level cities are once every five months, and the white-level cities are once a year.”

Yue Xi calmly told Shen Yanxiao of the cruel reality of her situation. Before she could digest everything, Yue Xi added another huge blow.

“Furthermore, in the first six months after entering the next-level city, you are not allowed to carry out a higher-level test.”

Chapter 1159: Training Camp (1)

Shen Yanxiao felt awful...

Your mother, ah! She already needed to wait such a long time to take each test, and yet, there was still that rule prohibiting her to take the next test within six months of entering the city? Wasn't this too much?

The system of the elf world brutally smashed Shen Yanxiao's beautiful plans into pieces.

Even if she passed every single test in her first try, it would still take at least two to three years to enter a black-level city.

Two to three years...

It was already too late, alright?

There was still a large group of family and friends waiting for her in the Brilliance Continent, alright?

She was pressed for time!

Shen Yanxiao's expression instantly turned for the worse. Her lips twitched as she looked at Yue Xi and said, “Is there any quicker method?” She really could not afford to waste her time. If she were to follow the normal procedure, by the time she climbed to the base of the Tree of Life, Sun Never Sets would probably be tortured by the beast tide until there weren't any dregs left.

Yue Xi was slightly surprised. Evidently, Shen Yanxiao's forlorn expression made Yue Xi tilt his head.

“Yes, but I don't recommend it.”

“Tell things first.” Shen Yanxiao breathed a sigh of relief. She loved shortcuts.

“Silvermoon Guards.”

“What's that?”

Yue Xi said, “They are a group of guards tasked to protect the safety and harmony of the Moon God Continent. As long as you enter the Silvermoon Guards, all the restrictions I mentioned before are no longer restrictions. If you can become the sharpest member of the Silvermoon Guards, you can directly skip the rank restriction and be directly assigned to the Elf King, the closest distance one could get to the Tree of Life.”

Directly entering the Tree of Life! Shen Yanxiao's eyes sparkled. This was definitely her go-to route.

“How can I join the Silvermoon Guards?” Shen Yanxiao impatiently asked.

Yue Xi revealed a hesitant expression. No matter what, Shen Yanxiao was still the Little Young Miss of the Moonshine Tribe. Was it really okay to let their Little Young Miss become someone else’s bodyguard?

Wouldn’t his leader strangle him to death if he knew?

However, looking at Shen Yanxiao’s excited state, Yue Xi could only spit it out.

“If you wish to enter the Silvermoon Guards, you must first enter the Silvermoon Training Camp. Every time a test is held in cities, the Silvermoon Training Camp would also start to recruit elves. Little Young Miss only has to register. After entering the training camp, you will be specially trained, and only the most outstanding elves can enter the Silvermoon Guards. However, if Little Young Miss is not selected by the Silvermoon Guards, then you can only be randomly assigned to various corners of the Moon God Continent, such as the Moonlight Coast or some other cyan-level cities.”

Not every elf would be fortunate enough to become a member of the Silvermoon Guards. Yue Xi was very worried. Looking at Shen Yanxiao’s appearance, she seemed to know little about the elves and probably, her source of life was not very powerful. It would be fine if she was selected by the Silvermoon Guards, but if she was not selected and was sent to a place far away from the Tree of Life, then the potential gains would not make up for the losses.

Those who were tasked to guard the elf world were selected from the training camp. The more outstanding an elf was, the more likely they would be allocated to a higher-level city. However, once they entered the training camp, it would mean that they had to completely accept the subsequent arrangements. No matter where they were allocated in the future, the elves could not complain. Otherwise, they would be directly exiled and would even be banished to a wasteland that was inferior to cyan-level cities.

Joining the training camp was a gamble. If they won, it would be the fastest shortcut to the Tree of Life. If they lost, they could no longer approach the Tree of Life.

Chapter 1160: Training Camp (2)

In the Moon God Continent, many elves from low-level cities had thought about getting rid of their rank restriction by going through the training camp. However, there were very few successful cases. The elves in cyan-level cities were already not talented to begin with. Even if they barely managed to enter the training camp, they would not experience any significant improvements. Some elves were even arranged to guard the border of the Moon God Continent, staying far away from the Tree of Life. In such a situation, it was hard for them to have any achievements in their lives.

Yue Xi carefully analyzed the pros and cons of the training camp to Shen Yanxiao. He hoped that she would consider it carefully.

But for Shen Yanxiao, no matter how poorly this method could go, she had to give it a try.

That was because there was still a group of people waiting for her to return to the distant Brilliance Continent. The longer she stayed in the Moon God Continent, the more unforeseen things could happen in the Brilliance Continent.

“If I enter the training camp, can I still come out?” Shen Yanxiao had already made up her mind to enter the training camp. However, she still more or less remembered that unlucky Third Uncle of hers and her parents that she had never met.

Yue Xi said, “The training duration is only half a year. If Little Young Miss is accepted by the Silvermoon Guards, then Little Young Miss can freely move around all the cities outside Moonshine City. Now, there will be about a month’s time before the recruitment will be held. Once it’s done, they will arrange for you to stay in a city. Generally speaking, the places Silvermoon Guards are in charge of are only black-level cities and Moonshine City.”

Shen Yanxiao tapped her chin. Half a year of training and one month of free activities. Once it’s all said and done, she might have five months to squat by the Tree of Life and work hard to increase her strength. No matter what, it was a good deal.

Of course, these calculations were based on Shen Yanxiao successfully entering the Silvermoon Guards.

“I intend to give it a try. Yue Xi, tell me what else you have to pay attention to.” Shen Yanxiao said.

Yue Xi sighed. “Since Little Young Miss has made up her mind, then I shall not persuade you any further. These fruits in my hands I will give them to Little Young Miss. With five days left before the registration, Little Young Miss should eat these fruits to improve your source of life as quickly as possible. There are not many things to pay attention to in the training camp. Basically, they would accept all the participants, but I am not very clear about what will happen in the training camp. Nonetheless, Little Young Miss cannot take a single step out of the training camp for half a year. I heard that there are a total of three training camps, and the ranks of the elves in those three training camps are different...”

According to Yue Xi, the cyan and yellow elves would be arranged in the primary training camp while the red and white elves would be in the intermediate training camp. If the elves from the black cities wanted to join the training camp, they would directly enter the advanced training camp.

Primary training camps were located in yellow-level cities while intermediate training camps were built in white-level cities. As for the advanced training camp, it was naturally located in black-level cities.

If she wanted to enter an advanced training camp, she would have to perform well in the primary training camp before she could jump levels.

Shen Yanxiao listened carefully and remembered what Yue Xi told her.

Yue Xi gave all the fruits to Shen Yanxiao and she did not hesitate to leave most of the crystal coins Qi Xia prepared for him and his two children.

The coins were not of much use to her. After she entered the training camp, money would no longer be necessary, so she might as well leave the money to Yue Xi and his family.
