

## The Good 1181

### Chapter 1181: Doubts (1)

In one of the black-level cities, Water City.

In a rather secretive location, Mo Yu was currently looking at his comrades seated at the round table with excitement.

“Mo Yu, you’ve gone crazy.” The handsome elf in silver armor frowned as he looked at the excited Mo Yu.

“Mo Feng, listen to me. She is the most interesting elf I have ever seen. You have not seen her uniqueness with your own eyes. If you had, you would not be doubting me.” Mo Yu spoke eagerly. The other four elves seated at the table were in similar positions as him; they were all members of the Silvermoon Guards. They were stationed at the entrances that led to the five black-level cities in Moonshine City. They were all dispatched because they had to personally resolve some thorny issues.

Mo Feng frowned and said, “No matter how special she is, she’s only a cyan elf. Mo Yu, the reason why we are choosing members of the Silvermoon Guards from other cities is not for you to have fun. No matter how playful you are, you shouldn’t cause trouble like this. How capable can a cyan elf be? Even if she is more special than other elves, you cannot favor her like this and directly recommend her to the advanced training camp. Your actions are too unreasonable so I disagree with your application.”

“You... why don’t you understand what I’m talking about? With her qualifications, it’s basically a disgrace to her abilities if she went to the other training camps!” Mo Yu practically wanted to roar. If he wanted to make an exception and recommend Shen Yanxiao to the advanced training camp, he had to obtain the approval of the five people present.

Mo Yu’s thoughts were very simple and he felt that this matter should not be difficult to accomplish. However, he did not expect that the moment he mentioned about sending a cyan elf into the advanced training camp, he would be opposed by his four companions.

Sitting beside Mo Feng, Mo Yan also looked at Mo Yu with a disapproving expression.

Mo Yu was the most reckless among the five of them and his personality was completely different from an elf. This time, they had left Moonshine City and came to other cities to select elves with potential. The other four had chosen from black-level cities and the worst they would look at were from white-level cities.

However, Mo Yu deliberately acted flippantly and went to a cyan-level city to cause trouble. Not only that, he even wanted to send a cyan elf to the advanced training camp. That was simply unimaginable.

“Mo Yu, if you really think that elf has potential, we will allow you to send her to the intermediate training camp for the time being. However, we will never agree to send her to the advanced training camp.” Mo Yan directly rejected Mo Yu’s request.

It had to be known that the elves in the advanced training camp were all black elves. Even white elves could not enter, not to mention a cyan elf. If they were to agree to Mo Yu’s suggestion, they would be a laughingstock.

Mo Yu was already roaring with anger. Why can't these people believe in his judgment?

Even though he liked causing trouble, he did not dare to cause trouble with this kind of matter. After all, he knew the gravity of the situation.

"Mo Yan's decision is already very lenient. According to normal rules, a cyan elf cannot enter the intermediate training camp. Mo Yu, don't force yourself. If that elf you mentioned is talented, she will have a chance to display her skills even in the intermediate training camp." Mo Lei chose to compromise and agreed to Mo Yan's suggestion.

### **Chapter 1182: Doubts (2)**

"Intermediate training camp? Absolutely not! You don't know the extent of her talents. Sending her to the intermediate training camp, even if it's only for a month, would severely slow down her growth. We don't have much time left, and we have to select a group of capable guards to enter Moonshine City in half a year's time. Do you know how much her growth would be stunted if you were to send her to the intermediate training camp?" Mo Yu scratched his head in a frenzy. If not for the fact that time was tight, he would not have gone to such extreme lengths.

He knew how unimaginable it was to send a cyan elf to the advanced training camp, but...

They did not have much time left!

"So you also know the importance of this matter. If so, how can you joke around like this? This matter concerns the safety of the elves and we cannot allow you to mess around." The usually gentle Mo Mu was also confused by Mo Yu's strange behavior.

"Ah!!!" Mo Yu immediately stood up and glared at his four friends.

"You don't understand. That's why you think my decision is crazy. But do you know? That little girl absorbed 100% of the Tree of Life's power! 100%! Do you understand? Give her the best resources and she can grow faster than all the elves!"

"100%?" Mo Yu's words successfully caused the other four elves to reveal a trace of surprise.

With them being the top echelons of the Elf world, they naturally knew that the absorption efficiency would severely affect the growth of an elf.

As far as most elves were concerned, at most they could only absorb 80 to 85% of the Tree of Life's power. Other than the Elf King, it was impossible to find a second elf in the entire Moon God Continent that could absorb so much of the Tree of Life's power.

Moreover, even the Elf King's absorption efficiency of the Tree of Life's power was only close to 100%. In fact, it was only about 99%.

"Are you serious?" Mo Feng looked at Mo Yu in doubt. If they did not know that Mo Yu did not dare to joke about this, they would have thought that he was just teasing them.

"Of course! If it's not true, why would I want to send her to the advanced training camp? I'm not a lunatic!" Mo Yu was furious.

The other four elves looked at each other as if they were trying to determine the credibility of Mo Yu's words.

"How did you know that her absorption efficiency is at 100%?" This matter was too shocking so Mo Mu had no choice but to ask for the details.

Mo Yu took a deep breath and said, "I saw it with my own eyes. At the test area in Fragrant Night City, I originally did not intend to bring a minor into the training camp. Even if it was the primary training camp, I never thought of letting her in. However, that little girl was very stubborn. So in order to have her give up, I asked her to test her rank at the test area. However, do you know what I saw at the test area?"

"What did you see?"

Mo Yu narrowed his eyes. Everything that happened that day was clearly replayed in his mind. He narrowed his eyes and looked at his four comrades as he spoke in a clear voice.

"I saw that after she placed her hand into the test liquid, it changed colors three times in less than a minute! Three colors! Can you imagine it? There's actually an elf's source of life that is so unstable, to be able to break through layer after layer in such a short period of time. Just as she broke through to the red grade, all the test liquid evaporated in an instant!"

### **Chapter 1183: Doubts (3)**

The moment Mo Yu said that, Mo Yan and the rest immediately became nervous.

The growth speed of an elf's source of life was very slow and even for the most talented black elf, it was the same. During the test, it was absolutely impossible for there to be a situation where a rank advancement would occur.

Furthermore...

The test liquid evaporated?

That was even more inconceivable.

They were all well aware that the main ingredient in the test liquid was the sap of the Tree of Life and that it would never evaporate.

However, Mo Yu said that all the test liquid had evaporated.

In that case, it could only mean that the sap of the Tree of Life contained in the spring water had been absorbed by that elf without her knowing!

"Are you sure she absorbed it all?" Mo Lei spoke with great difficulty. It was not that he did not trust Mo Yu, but it would be terrifying if that was true.

"I am not blind! I am sure that after evaporating, there was not a single drop of water in the crystal basin!" Mo Yu said with determination.

The sap of the Tree of Life was extremely viscous. The sap that had not been mixed would show signs of coagulation. Moreover, the sap of the Tree of Life was emerald green and it was extremely conspicuous

on the transparent crystal apparatus. Even if there was only a little bit, it would not escape the eyes of an elf.

At that time, Mo Yu repeatedly looked at that crystal basin several times, but he did not find any traces of the sap of the Tree of Life. Other than the fact that it was completely absorbed, he did not have any other thoughts.

“About this...” Mo Feng was greatly shocked. He looked at Mo Yu with hesitation. “Even though you are sure, it is too unbelievable for us. We cannot believe it so easily. I-if you really want us to believe it, bring that elf to us. We have to see her absorbing the sap of the Tree of Life with our own eyes before we can be sure.”

“Then what if everything is true?” Mo Yu narrowed his eyes and asked.

Mo Feng and the other three elves looked at each other and found the same answer in each other’s eyes. Mo Feng then sighed and said, “If everything is as you say, then the four of us will be your guarantors and persuade those guys from the advanced training camp to let that little girl enter the advanced training camp to train with the black elves.”

In the face of such terrifying absorption efficiency, Mo Feng and the others had no choice but to relax their conditions.

“Alright! I will contact her tomorrow, but you have to prepare the test beforehand.” Mo Yu smiled. He was not worried that Shen Yanxiao would not pass the test of Mo Feng and the rest. He was confident in his judgment.

“Rest assured, I will apply for the items for the test from the elders. I only hope that the little girl you selected will not disappoint us.” Mo Feng nodded. If such a genius were to appear, they could finally breathe a sigh of relief.

After all, their main objective for leaving the Moonshine City was to select outstanding elves to enter the city.

“You will surely not be disappointed,” Mo Yu smiled and said.

“I hope so. What’s the name of the little girl you’ve selected? I’ll see if I can find out her background.” Mo Lei was rather prudent in his actions and just as Mo Yu said, that little girl should definitely not be someone unknown.

“Er...” The smile on Mo Yu’s face stiffened.

#### **Chapter 1184: Doubts (4)**

“Well... I don’t think I’ve asked for her name yet... so... I don’t know...” The originally aggressive Mo Yu instantly shrunk his neck and sat on the chair with a guilty conscience.

In an instant, four pairs of sharp eyes shot towards him in unison.

“Aiyo, is a name really that important?” Mo Yu lowered his head and found an excuse.

The four elves, who had been stirred up by Mo Yu, were instantly defeated by this hopeless idiot.

How could they expect such an idiot to have discerning eyes?

After Shen Yanxiao arranged for her to earn quick bucks, she prepared to go to the dungeon the next night to visit her Third Uncle who had been detained due to his romantic exploits. However, before she could prepare to check out the situation, Mo Yu suddenly came to the inn.

“Hey!” When Mo Yu saw Shen Yanxiao resting, Mo Yu ran all the way into the inn.

Shen Yanxiao looked at Mo Yu in doubt. Didn’t he say he would come to find her in seven days? Why did he come so soon?

“What’s wrong?” Shen Yanxiao asked.

Mo Yu asked, “What’s your name?”

“...” Shen Yanxiao was thoroughly speechless. So this guy specially came back to ask for her name?

Coincidentally, when Shen Yanxiao and Mo Yu had conversed with each other throughout their journey from Fragrant Night City to Jadeite City, during the whole journey, he had never asked for her name. Instead, Mo Yu had only mentioned his name.

“My name is Yan Xiao.” Shen Yanxiao erased her human surname. The Hundred Families did not exist among the elves. If someone with the surname Shen suddenly appeared, it would probably cause a lot of problems.

Who asked her Third Uncle to be so flippant in Jadeite City? Otherwise, Shen Yanxiao would not have to hide her name.

“Yan Xiao? Tsk, why does it resemble that bastard Mo Yan’s name?” Mo Yu touched his chin. He had not forgotten about his four friends making things difficult for him.

Shen Yanxiao looked up at the sky speechlessly. How were they alike?

“Forget it, none of this is important. I am here for something else.” Mo Yu was eager to see Shen Yanxiao shocking everyone in front of that bastard.

F\*ck! How dare they not believe in his judgement? He would bring her to them and scare them to death!

“What is it?” Shen Yanxiao asked.

“It’s about you entering the advanced training camp.”

When Shen Yanxiao heard that, her lazy attitude immediately turned serious.

“What about it?” She hoped that she was lucky. She did not want to waste her time in vain.

Mo Yu looked at Shen Yanxiao in embarrassment. He had gone a little too far in this matter. He had said that everything would easily be settled at the start, but so many problems had suddenly popped up in the end.

“Well, actually... even though your talent is shocking, you are still a cyan elf. Therefore, even if I want to send you to the advanced training camp, it will not be that simple,” Mo Yu said.

Shen Yanxiao nodded. At the start, she also felt that it did not conform to the elves' style to send her into the advanced training camp.

As expected, something must have gone wrong.

"Forget it if I can't enter the advanced training camp. It would be the same for me if I went to the primary training camp." Shen Yanxiao was rather easy to talk to.

Mo Yu hastily shook his head and said, "It's not that you can't enter, it's just a little troublesome."

"Why do you say that?" Shen Yanxiao raised her eyebrows and asked.

Mo Yu cleared his throat and said, "It's not impossible to send you in, but you have to show your talent first."

### **Chapter 1185: Test (1)**

"Show off?" Shen Yanxiao was embarrassed by the sudden request.

Mo Yu explained. "In fact, it is unprecedented for cyan elves to jump ranks and enter the advanced training camp. Therefore, your talent must be guaranteed by me and my four other colleagues. Even though I am very sure of your abilities, those four want to see it with their own eyes. Do you understand?"

Shen Yanxiao nodded. However...

"How am I supposed to show off my skills?" She had only been in the Moon God Continent for about ten days so did not know much about the skills of elves. The strength of a Magic Archer was still there, but she did not feel that there was anything much she could show off in front of the elves.

"It's simple. As long as you do the same thing you did in Fragrant Night City, you will impress them easily. You don't have to do anything else," Mo Yu smiled and said.

"Sure." Even though Shen Yanxiao did not understand what Mo Yu meant, as long as she could enter the advanced training camp, everything could be discussed.

"Alright, I'll come and find you tomorrow morning. I'll bring you there." After Mo Yu said that, he left the inn.

Shen Yanxiao continued to train her source of life and temporarily abandoned her plans to look for Shen Jing. Mo Yu had previously mentioned that even though Shen Jing was detained, he was very safe due to the fact that the relationship between elves and humans hadn't deteriorated to such a level yet. Other than the lack of freedom, he had a reliable supply of food and water so for the time being, there was no danger.

On the other hand, Shen Yanxiao also wanted this dishonest uncle of hers to be detained for a period of time so that he would finally learn his lesson.

...

The next morning, Mo Yu came to the inn to fetch Shen Yanxiao. He did not bring her into the black-level city. Instead, he brought her to the basement of the Jadeite City Lord's manor.

Even though Mo Yu was a high-ranked member of the Silvermoon Guards, he could not casually produce a black badge. As a result, Shen Yanxiao could not enter black-level cities, so she could only have Mo Feng and the rest make a trip to the Jadeite City.

Shen Yanxiao followed behind Mo Yu into the basement. Four tall, handsome elves were already seated on the chairs in the basement. The moment Shen Yanxiao stepped in, the four elves looked at her in unison.

“You are Yan Xiao?” Mo Feng sized up the beautiful little elf before him. In terms of appearance, Shen Yanxiao’s beauty was not earth-shattering. She could only be regarded as above average in elf standards. Speaking about external appearances, the strength of an elf was mostly reflected on their appearance.

The higher the rank, the better the elf looked.

All elves grew according to their source of life. The more prosperous their source of life was, the more powerful they were, and the more beautiful they would be under the influence of their source of life.

That was also the reason why there were many beautiful and handsome elves in upper-level cities.

In the Moon God Continent, the publicly recognized number one beauty was the Elf King.

So, in the world of elves, beauty was a symbol of strength.

“Yes.” Shen Yanxiao silently sized up the four elves in front of her. Their attire was the same as Mo Yu. They were all wearing the same silver light armor, with an exquisite silver bow on their backs and a delicate dagger on their waists.

If she was not wrong, the four elves in front of her should be the same as Mo Yu; they were all members of the Silvermoon Guards. Moreover, their status would not be too low if they had the qualifications to potentially send a cyan elf like her into the advanced training camp.

### **Chapter 1186: Test (2)**

“Why do you want to enter the Silvermoon Guards?” Mo Mu stared at Shen Yanxiao. From Mo Yu, they learned that Shen Yanxiao’s ultimate goal for entering the training camp was to join the Silvermoon Guards.

That was the common goal of all the elves who entered the training camp, so usually, they did not have to ask this question much.

However, Shen Yanxiao was recommended by Mo Yu and if her abilities were as amazing as described, it was highly likely that she would enter the Silvermoon Guards. Therefore, they had no choice but to ask.

“Because of the Tree of Life,” Shen Yanxiao answered straightforwardly.

“Tree of Life?”

“Only by entering the Silvermoon Guards can we protect the Tree of Life,” Shen Yanxiao said righteously. The sincerity in her eyes was beyond doubt.

The five elves looked at each other. Evidently, they were satisfied with her answer.

The Tree of Life was the foundation of all elves. The destruction of the Tree of Life would bring about a calamity to the elves. Thus, it was their ultimate duty to guard the Tree of Life.

“Good answer, but that is not something you can accomplish with your enthusiasm. Whether you have the qualifications or not to say such a statement depends on yourself,” Mo Lei said with a cold expression.

Shen Yanxiao shrugged her shoulders.

“Didn’t I come here to prove to you that I am qualified?”

With the exception of Mo Yu, the other four elves raised their eyebrows at Shen Yanxiao’s confident declaration.

This little girl was young, but she was quite bold.

“You are here to prove that you are qualified to enter the advanced training camp, not the Silvermoon Guards. You need to be clear about this.” Mo Yan frowned and reminded her. Shen Yanxiao’s eyes had a coldness that was different from other elves. Her seemingly calm eyes were flickering with vitality that elves rarely possessed.

Such vitality was rarely seen among elves.

Shen Yanxiao merely smiled and did not respond.

As long as she could enter the advanced training camp, everything would be under her control.

“Alright, stop with the nonsense. How’s your preparation going? Hurry up and start.” Mo Yu honestly did not want to hear their chatter here. Rather than saying all this nonsense, it was better to prove to them with her actions.

“We have already prepared the items so we can start at any time.” After Mo Feng said that, he stood up from the chair and walked to the table. He took the crystal apparatus on the table and filled it with test liquid.

“Let’s start with the basics,” Mo Feng looked at Shen Yanxiao and said.

Shen Yanxiao lifted her brow and walked over without saying anything. She rolled up her sleeves and placed her fair and delicate hand into the test liquid.

The moment she touched the cool liquid, Shen Yanxiao was surprised.

The test liquid looked the same as the one in Fragrant Night City, but the texture was completely different.

The texture of the test liquid in Fragrant Night City was similar to ordinary spring water, able to be swayed at will without any obstruction. However, the basin in front of her was clearly different. Even though it looked the same, after she placed her hand inside, she could immediately sense the density of the liquid, which produced a similar feeling to a sticky jam that was wrapping around Shen Yanxiao’s hand.

The subtle changes made Shen Yanxiao curious, but on the surface, she looked calm.

Very soon, there was a slight change in the test liquid. The originally transparent water instantly turned into a tender yellow...

All the elves present were surprised.

### **Chapter 1187: Test (3)**

Mo Feng and the rest looked at Mo Yu in unison. Mo Yu had clearly mentioned that Yan Xiao was only a cyan elf, but why did it display the color of a yellow elf in the test?

In order to ensure the accuracy of this test, Mo Feng specially prepared the advanced test liquid used for elves to enter black-level cities from white-level cities. The concentration of the Tree of Life's sap in this test liquid was far higher than what was used in cyan-level cities, so there would absolutely be no mistakes in the test result.

However, Mo Yu had personally seen Shen Yanxiao's test results a few days ago. Even if the power of the Tree of Life in a white-level city was much denser than in a cyan-level city, it would not allow anyone to breakthrough a rank in such a short time, right?

The four elves were puzzled.

Not to mention them, even Mo Yu himself was confused. He clearly remembered the results of Shen Yanxiao's test in Fragrant Night City, and it was absolutely cyan.

How did she jump from a cyan elf to a yellow elf in just a few days?

Even Mo Yu found it unimaginable, let alone Mo Feng and the rest.

However, the shock Shen Yanxiao brought them was far from over. As soon as the test liquid turned yellow, a red color soon spread out from Shen Yanxiao's palm. The red color soon devoured all the yellow hue in the liquid, instantly turning the liquid turned red.

Then, a white line spread from Shen Yanxiao's fingertips into the red liquid.

The third change!

The four elves who were initially skeptical of Mo Yu's words were thoroughly shocked after witnessing Shen Yanxiao's third change!

They looked at Shen Yanxiao in disbelief and subconsciously rubbed their eyes, wondering if they were hallucinating.

Was there really an elf with such an unstable source of life?

But to undergo three levels of change in a short period of time?

Everything before their eyes had completely shattered their worldview!

In a few moments, the basin of liquid began to boil and strands of white mist began to pervade the crystal apparatus.

Mo Feng and the rest immediately fixed their eyes on the ball of mist, fearing that they might miss something.

Shen Yanxiao frowned as she looked at the spreading fog. To be honest, she felt uncomfortable. However, the focused gazes from Mo Feng and the rest told her that if she wanted to convince these elves to send her to the advanced training camp, it was best not to take out her hands right now.

The scene in Fragrant Night City happened again.

But now, the onlookers were no longer a group of ignorant cyan elves. The five elves present were the few of the most powerful elves of the elven race, so they were well aware of what the scene before them represented, which was precisely why their hearts were currently filled with excitement and shock!

The absorption of the Tree of Life's power was not only a matter of percentage, but also of speed.

The time it took to absorb the Tree of Life's power was a huge gauge of an elf's potential.

The Tree of Life's sap in the test liquid had been processed beforehand, so it contained a certain degree of impurities, and it could be said to be a type that was difficult to absorb. Otherwise, they would not dare to use the test liquid for the elves. Otherwise, the sap of the Tree of Life would be absorbed after a few tests.

#### **Chapter 1188: Test (4)**

However, Shen Yanxiao could absorb the power in the test liquid in such a short time. That was simply unbelievable.

Due to the increase in concentration of the test liquid in white-level cities, the water content of the test liquid was much lesser. Therefore, it was unlikely for it to create a pervasive light similar to the scene back in Fragrant Night City that could cover the sights of all the elves.

As a result, Mo Yu and the other elves could only look on helplessly as the sap extracted from the test liquid seeped into Shen Yanxiao's skin bit by bit.

In a few minutes, the entire pot of test liquid had been evaporated and absorbed.

The entire crystal basin was extremely dry without leaving any remnants.

For a moment, with the exception of Mo Yu, the other four elves had all shut their mouths.

It was hard for them to find any words to describe their shock.

They finally understood why Mo Yu took such a huge risk and insisted on sending this little elf into the advanced training camp!

That was because she had the qualifications and the potential.

Her speed in absorbing the power of the Tree of Life was much faster than anything that they had witnessed.

Without a doubt, this little elf was the one they were looking for!

"Are there any other tests?" Shen Yanxiao took out her hand from the empty crystal apparatus and looked at the elves with a calm expression.

“There’s no need,” Mo Yan spoke with great difficulty.

This little girl could even absorb the Tree of Life’s sap in the test liquid with impurities so quickly and perfectly. They could basically give up on the tests they had prepared earlier on.

Right now, the happiest person in the room would be Mo Yu. He looked at his four good friends, who were deeply shocked, and crossed his arms in front of his chest proudly. It was almost as if he was asking for a beating.

“What do you think? I’ve already said that she has the qualifications to enter the advanced training camp. Now all of you should know that I have good foresight, right? Hahaha...” Mo Yu did not conceal his complacency in the slightest.

She could advance from a cyan elf to a yellow elf in a few days. Who could have such heaven-defying speed of advancement?

Mo Feng and the rest speechlessly looked at Mo Yu, who was extremely cocky, and felt embarrassed. It was not because of their previous doubts, but...

It was because Mo Yu was acting so embarrassingly. They really did not want to acknowledge that they were working with an idiot!

“Cough, Yan Xiao, your talent is indeed shocking. We have never seen such a talented elf before. Since you have the heart to join the Silvermoon Guards, we also hope that you can increase your strength to the extent you can enter the Silvermoon Guards within half a year after entering the advanced training camp.” Mo Feng walked to Shen Yanxiao as he sincerely hoped. His heart was filled with expectations for this little elf.

Perhaps it was a blessing from the heavens for the elves to have such an outstanding little lad at this worrying time.

With her, perhaps that matter could...

Shen Yanxiao’s perfect ‘performance’ had won the admiration of Mo Feng and the other three elves. With no more objections, they swiftly voted and decided to send Shen Yanxiao into the advanced training camp together with Mo Yu.

With their guarantee, it was almost certain that Shen Yanxiao would enter the advanced training camp.

However, entering the advanced training camp was only the beginning of Shen Yanxiao’s journey to the Moon God Continent. The moment she stepped into the advanced training camp, everything had just begun.

### **Chapter 1189: Crowded Out (1)**

The advanced training camp was located at the corner between two black-level cities. Just its size took up a wide stretch of land.

There were two entrances, and each entrance was guarded by dozens of guards. Discipline was the common sight here.

Every month, a group of black elves would enter the advanced training camp.

Today was exactly the day the new batch of elves would enter.

Early in the morning, twenty elves stood outside the advanced training camp. They were all members of the advanced training camp.

Each and every one of them had a black badge on their chest and there were also badges of their respective tribes pinned on them.

The twenty elves gathered together and waited for the moment to enter the advanced training camp.

However, there was an elf who was ostracized by them. He was an elf with a cold expression and similarly wore a black badge on his chest. However, there was a silver moon badge pinned on the side of the black badge. When the surrounding elves saw that silver moon badge, they revealed a trace of disdain.

“Aren’t the elves of the Moonshine Tribe chased out of Wind City? How could their members enter the advanced training camp?” One of the black elves looked at the isolated elf in disgust. The disdain on his face was unconcealed, as if that elf standing there quietly was an eyesore.

“I’m curious too. Didn’t the Elf King say that all the elves of the Moonshine Tribe are not allowed to enter black-level cities? So why would this guy come here?” Another elf frowned.

“Precisely because they were chased out, they wanted to find other methods to enter the upper echelons. Even though the Elf King did not allow them to enter the black-level cities, it did not restrict the elves of the Moonshine Tribe from participating in the training camps.” The elf speculated the reason for the Moonshine Elf’s presence.

The Moonshine Tribe was originally one of the highest-ranked tribes among the elves. Before they were demoted, their members could be seen everywhere.

However, after their entire race was demoted, all the black elves of the Moonshine Tribe were deprived of their right to live in black-level cities. Their black badges had also been confiscated, with only some white badges given to them.

“You’re shameless. The Elf King has already abandoned you, but you’re still thinking of ways to squeeze into black-level cities.”

“Don’t humans have a saying that goes, ‘one must always strive for the best’? When the Moonshine Tribe was demoted, it was inevitable that some elves would feel unresigned and want to use the training camp to ascend into the heavens in one step.”

“Ha... don’t tell me he wants to enter the Silvermoon Guards?”

“Do you think he deserves it? Even if he is a black elf, he can only enjoy the treatment of a white elf after his tribe was demoted. After he leaves the advanced training camp, a portion of his marks will be deducted according to the demotion. What kind of dreamworld is he living in to wish to enter the Silvermoon Guards?”

The group of elves looked at the elf who overestimated his abilities with a sneer. There was no pity, no sympathy, only disgust and contempt.

A petite figure quietly stood among the elves, and her calm gaze looked past the figure in front of her to the isolated elf.

The voices of those elves were not soft, and that elf was not far from them. Those mocking words must have fallen into that elf's ears.

### **Chapter 1190: Crowded Out (2)**

However, he did not reveal the slightest anger as he stood there quietly.

It was as if those harsh words were not aimed at him.

"Speaking of which, why are there always strange guys in our group? Forget about that traitor of the Moonshine Tribe. I also saw a little kid who had yet to reach adulthood sneaking in just now. She did not even wear any tribal badge on her chest." One of the gossiping elves thought that he saw another special existence and immediately stretched out his head to look for her.

"Are you referring to her?" Another elf with sharp eyes noticed that petite figure.

The other elves uniformly turned towards that petite figure.

Shen Yanxiao was currently observing that elf who remained unmoved by insults thrown at him. However, she did not expect that she would become the target of the elves in a short time.

She frowned and looked at those slightly prickly gazes.

"That black badge on her chest... seems to be a temporary badge." One of the elves noticed Shen Yanxiao's abnormality.

The black badge Shen Yanxiao wore on her chest was somewhat different from the ones worn by other elves. The outermost part of the badge was decorated with a circle of silver, proving what she was wearing was a temporary badge.

A temporary badge was a temporary pass for some low-level elves to enter an upper-level city. Normally, it would only be used in special circumstances.

Temporary badges couldn't be used for long as once they pass the specified time limit on their badge, the power on the temporary badge would gradually disappear. When the time comes, it would become a useless ornament.

"Really? She doesn't have a tribe, yet she is wearing a temporary badge? What's the background of that little kid?" The hierarchy of the elves was very strict so only black elves could enter the advanced training camp. Now that a low-level elf had suddenly snuck in, it had indeed attracted a large amount of discussion.

The elves who stood by Shen Yanxiao's side immediately maintained a certain distance from her as their gazes filled with suspicion and contempt.

Shen Yanxiao touched her nose. In the blink of an eye, she had fallen to the same plight as that elf. In such a situation, she did not care much. This temporary badge was given to her by Mo Yu and the rest, and the deadline was only half a year. After half a year, if she could enter the Silvermoon Guards, there would naturally be brand new badges for her.

If not, she had to leave the black-level city at once.

Temporary badge and no proof of a tribe. Shen Yanxiao's existence was even more unreasonable than the Moonshine Elf.

In their minds, there could only be one possible reason why she was not wearing a tribal badge. This little girl must have been removed from her tribe and no other tribe was willing to attach themselves to her.

The concept of an elf getting disowned from the tribe was basically the same as an elf getting demoted by the Elf King.

The way the elves looked at Shen Yanxiao became increasingly chilly.

If the elves of the Moonshine Tribe had a black elf as a subsidiary, then the temporary badge on Shen Yanxiao's chest could be said to have made her a target that the elves would ostracize.

The arrogant elves could not tolerate an elf who was abandoned by their tribe without any real skills.

In an instant, Shen Yanxiao became the most unpopular elf in the advanced training camp.

However, she did not pay much attention to it. Compared to the looks of rejection from the elves, Shen Yanxiao was more interested in another elf that was also ostracized.

The elf looked over due to the commotion. When he saw Shen Yanxiao, there was no repulsion or contempt in his eyes, only a trace of doubt.
