

## The Good 1271

### Chapter 1271: Double Cultivation Is The Kingly Way (3)

After buying things, Shen Yanxiao accompanied Vermillion Bird on the street. It was not easy to see Vermillion Bird, but he was not careless at all. He pulled Shen Yanxiao everywhere for some shopping.

Shen Yanxiao just patiently accompanied him.

However, as they strolled...

There was a tragedy.

Mo Yu looked at the person in front of him with a dumbfounded expression. She was supposed to undergo hellish training in the advanced training camp, but she was instead bringing a little brat along with two mascots on the street.

"Yan Xiao..." Mo Yu raised his hand with difficulty and pointed at Shen Yanxiao, wondering if he was hallucinating.

Shen Yanxiao looked at Mo Yu speechlessly. She really didn't expect that she could meet him just by strolling around...

Because Shen Yanxiao was not well known among the elves in the Moon God Continent, she did not change her appearance. Who knew... that she would fail miserably so suddenly?

"Mo Yu." Shen Yanxiao pretended to be calm and smiled.

"It's really you, girl!!" Mo Yu immediately flared up!

He rushed in front of Shen Yanxiao and was just about to say something when the next second, a blazing flame flew directly towards his face.

Mo Yu immediately dodged and looked at Vermillion Bird who was standing beside Shen Yanxiao with a blazing flame in his palm.

"You're too close." Vermillion Bird looked at the elf in front of him with a cold face.

How dare he interrupt his time with his master?

1

Courting death!

Mo Yu stared at Vermillion Bird in shock. Looking at his red hair and his red eyes, Mo Yu understood that the other party was not an elf, but a magical beast with the ability to transform into a human!

But how did Shen Yanxiao end up with a magical beast?

"Vermillion Bird, I know him." Shen Yanxiao held her forehead. Vermillion Bird's attack was too fast. She didn't even have time to explain.

"So what?" Vermillion Bird raised his eyebrows.

He normally could not spend much time with Shen Yanxiao. So, on this rare day, he did not want any blind guy to disturb him.

Furthermore...

Mo Yu rushed over just now, obviously wanting to grab Shen Yanxiao's shoulder. Vermillion Bird absolutely would not allow others to touch his master at random.

Shen Yanxiao was silent. This was the first time she knew that Vermillion Bird's possessiveness was so strong.

Mo Yu swallowed his saliva and looked at Shen Yanxiao and Vermillion Bird.

Magical beasts that could transform into human form were all at the level of mythical beasts. Even he did not dare to resist them.

"Yan Xiao, you are not in the advanced training camp. Why did you come out?" For the sake of his life, Mo Yu could only stand in place and ask Shen Yanxiao.

Shen Yanxiao just wanted to answer, but Vermillion Bird beat her to it and said, "Why does she need to tell you when she comes out? You better not bother us, or else I don't mind giving you two more fireballs to taste." In the Brilliance Continent, there was a group of bastards who fought with him for his master. He thought that after coming to the Moon God Continent, he could always stay by Shen Yanxiao's side. Who knew that Shen Yanxiao would go to some training camp and separate from him again!

Vermillion Bird already had a belly full of fire. So now, if anyone dared to disturb his relationship with his master, he would burn them until they pissed their pants!

"Uh..." Mo Yu wanted to cry. Why were all mythical beasts so aggressive?

Shen Yanxiao sighed helplessly, and she placed a hand on Vermillion Bird's shoulder to calm him down. She then looked at Mo Yu and said, "I have some things to deal with. Don't worry, I won't delay my cultivation."

Who asked why you came out! I'm asking you how you came out! Mo Yu was depressed!

#### **Chapter 1272: Double Cultivation Is The Kingly Way (4)**

The security of the advanced training camp was very tight. Mo Yu had once trained there for half a year, so he naturally knew that it was absolutely impossible for elves to leave without permission.

Even if some elves wanted to sneak out, they could not escape the eyes of the guards.

But...

Shen Yanxiao came out!

Mo Yu was speechless.

Not to mention how serious it was to sneak out of the advanced training camp without permission, Mo Yu could not even imagine how she had sneaked out.

Unfortunately, Vermillion Bird did not give Mo Yu a chance to ask any questions before pulling Shen Yanxiao away. Mo Yu wanted to catch up, but Vermillion Bird waved the flame in his hand with his back facing him, and Mo Yu instantly withdrew his outstretched foot.

He could not defeat a mythical beast ah ah ah ah ah!

“Why are you standing there?” Mo Feng walked to Mo Yu’s side and found Mo Yu’s tangled expression very interesting.

Mo Yu turned to look at Mo Feng and said with a bitter face, “Mo Feng, do you think an elf can sneak out of the advanced training camp?”

Mo Feng was stunned for a moment before he patted the back of Mo Yu’s head and said, “What are you thinking about? How can there be an elf who can slip out? It’s not like we didn’t try it back then. Was there we weren’t carried back by the guards?”

Mo Feng, Mo Yu, Mo Lei, Mo Yan, and Mo Mu had all entered the advanced training camp at the same time. At that time, they had just reached adulthood and were still young and full of vigor. The five young elves were not calm, and they often got into a lot of trouble in the advanced training camp. They had once tried to sneak out of the advanced training camp, but they had always failed.

There were several times when they were sent back to the dormitory by the guards with bows and arrows. General He Xu, who was in charge of the advanced training camp, had once called the five of them before him and reprimanded them.

It could be said that back then, the five of them had spent a lot of time and effort to sneak out. They were just short of digging a tunnel.

But in the end, they had all failed.

The reason why Mo Yu was so confident in the guards of the advanced training camp was because he had personally experienced them before.

“Then, if I say that I saw the elves in the advanced training camp appearing on the street, will you believe me?” Mo Yu asked.

Mo Feng raised his eyebrows.

“Did you drink too much last night? Are you still drunk? Go back and rest early. We are going back to Moonshine City tomorrow. If you go to the Elf King like this, what will happen?” Obviously, Mo Feng thought that Mo Yu was drunk.

Back then, the five of them had tried their best but failed to slip out. Now, which elf had such extraordinary abilities?

Mo Yu blinked his eyes and put on a long face.

“Alright, I drank too much. I didn’t see anything.” He knew that no one would believe him!

That improbable encounter happened just like that, and Shen Yanxiao was not worried that Mo Yu would report it.

Firstly, Mo Yu was not that kind of person. Secondly...

The person who sent her to the advanced training camp was Mo Yu, so there was no need for him to drag her down.

With a shameless thought, Shen Yanxiao continued to take Vermillion Bird around.

When night fell and Shen Yanxiao finally returned to the advanced training camp, Vermillion Bird reluctantly looked at Shen Yanxiao with an unhappy face.

Shen Yanxiao rubbed Vermillion Bird's head before touching Little Phoenix and Mini Dragon respectively. She quietly left in the night and returned to the advanced training camp.

### **Chapter 1273: Double Cultivation Is The Kingly Way (5)**

At night, Shen Yanxiao rested in the dormitory for the night. The next morning, she immediately entered the third floor of the Pure Spirit Tower with the pass.

On the third floor, Shen Yanxiao took out the equipment needed to concoct potions from her storage ring.

She bought the most basic potions. She did not buy anything that was too precise or too complicated.

Pharmaceutical supplies were very cheap in the Moon God Continent, because the elves here were basically equipped with a set each, so Shen Yanxiao did not spend too much money.

The price of potion formulas were also very cheap. Other than grandmaster-level formulas, even master-level formulas cost no more than a thousand gold coins.

Shen Yanxiao used most of her money to buy medicinal herbs.

Although the medicinal herbs in the Moon God Continent were cheap, Shen Yanxiao had bought a lot of them for the next few months, so she had stocked up a lot.

When concocting potions, Shen Yanxiao did not forget to take out the dark crystal. She specially bought a waist bag to put the dark crystal in. This way, even in the process of concocting potions, she would have some contact with the dark crystal. This way, Xiu could absorb dark elements in her body.

Shen Yanxiao praised her own wit.

After arranging everything, Shen Yanxiao first took out a high-level potion formula.

This formula was not difficult. Shen Yanxiao planned to first try the difference between when she was in her elf state and her human state when concocting potions.

Shen Yanxiao carefully remembered the potion formula in her heart and began to fret over the herbs in her storage ring.

The moment the medicinal herbs were in her hands, Shen Yanxiao felt a wonderful feeling flowing from the medicinal herbs in her hands to her heart.

She could clearly feel the freshness and completeness of the herb.

This wonderful perception made Shen Yanxiao feel very interesting.

When picking herbs, a lacking way of picking would cause all kinds of damage to the medicinal properties of the herbs. Only a skilled collector could completely preserve all the medicinal properties of the herbs. If one encountered someone who was clumsy, it was very likely that the herbs would be damaged during the process of picking.

The freshness of medicinal herbs was also related to the medicinal properties of medicinal herbs. Some medicinal herbs had stronger medicinal effects the fresher they were, but some had better effects the longer they were put in.

Most human pharmacists relied on their eyes to judge the freshness and completeness of herbs.

But now, Shen Yanxiao could clearly feel all of this. Her spiritual perception was much more detailed than her naked eye.

This way, she could pick out the best herbs from the pile to concoct potions.

“No wonder the elves are born archers and pharmacists. Such talent is really incomparable to that of humans.” Shen Yanxiao felt that everything she was experiencing was extremely wonderful.

She picked out some of the better herbs from the pile and used them to concoct the medicine in front of her.

The best herbs would also produce a high-purity potion.

Shen Yanxiao began to process the herbs, grinding, squeezing, and filtering them.

She was very careful in every step. As the potion concoction progressed, Shen Yanxiao felt that her grasp of these materials was becoming more and more precise.

Not by her eyes or her sense of smell, but by her mind.

It was as if her mind had opened a pair of eyes, allowing her to see many things that the naked eye could not. While mixing herbs, she could accurately determine the weight of each drop of herbs. During the preheating process, she could grasp the time difference of one second.

#### **Chapter 1274: Double Cultivation Is The Kingly Way (6)**

Elves were born with acute perception towards plants. They could grasp any changes in plants that had lost their life.

Shen Yanxiao's experience was far less than when she was a human.

This difference made Shen Yanxiao feel exceptionally relaxed. She finally understood why all the elves could easily concoct potions.

Due to the elves' talents, their grasp of each medicinal ingredient was accurate without any mistakes. There was no need for humans to carefully look and smell it. As long as they followed their perception, everything would be very simple.

Realizing that the elves were so talented in regards to herbalism, Shen Yanxiao wished she could snatch a few of them back.

Be it the speed or purity of the potion, they far exceeded humans!

It would be good to bring them back to Sun Never Sets to sell a few potions!

However, Shen Yanxiao only thought about it. Not to mention the elves' hostility towards humans, there was also a problem with the elves themselves which made her afraid to act rashly.

Pollution...

No one knew if this hidden danger would suddenly erupt one day.

Shen Yanxiao quietly concocted the potion, and a bottle of potion was produced not long after.

Her speed was reduced by half compared to when she was a human, but the purity of the potion had increased by more than two levels!

Shen Yanxiao fell in love with the feeling of being an elf while concocting potions. She concocted one potion after another, and as she looked at the rows of potions piling up before her eyes, Shen Yanxiao had already thought of a good method of processing them.

She would get the Vermilion Bird to bring these potions to the merchant ship of the Qilin Family and have them bring them back to Sun Never Sets for Qi Xia to process.

While she was training her herbalism, she could provide potions for Sun Never Sets. Shen Yanxiao did not delay in the slightest.

Time flew by as she concocted more potions. Shen Yanxiao did not even stop for a moment.

Her body was absorbing the life force as her hands were busy concocting potions. She was also helping Xiu absorb the dark elements while maintaining a stable mental connection with the Vermilion Bird at night.

Shen Yanxiao was obviously busy, but she did not feel tired at all.

She was like a child that had intruded into a new world that happily studied herbalism to the death.

Seven days passed in the blink of an eye and Shen Yanxiao did not feel tired even after she had been busy for seven days and nights. Looking at the pile of potions neatly arranged in her interspatial ring, Shen Yanxiao felt exceptionally satisfied!

"Ha! It's so easy for elves to produce potions. If this continues, I might even become a Great Herbalist in no time!" After loosening her muscles and bones, Shen Yanxiao smiled as she fantasized about her limitless beautiful future. Her training time on the third floor had also ended. Shen Yanxiao packed her things and ran out of the Pure Spirit Tower to look for Qie Er for the fourth floor pass.

Shen Yanxiao's speed of climbing up one level per week had shocked all the elves silly.

When they saw Shen Yanxiao taking the fourth floor pass from Qie Er with a smile and entering the Pure Spirit Tower, their expressions could only be described as horrified!

Do you need it here?

Could you give them a way out!?

Shen Yanxiao's rocket-like speed not only shocked her group of elves, even those elves who were a month earlier had heard of her.

### **Chapter 1275: Double Cultivation Is The Kingly Way (7)**

From the previous batch of elves to the new batch of elves that had just entered the advanced training camp, they all knew that there was a heaven-defying little elf in the advanced training camp. She was young, but her strength had reached an extremely terrifying level.

After entering the advanced training camp for a short one month, she had already rushed to the fourth floor of the Pure Spirit Tower.

Not a single elf in the previous batch could achieve that level of speed.

Generally speaking, talented elves could enter the second floor of the Pure Spirit Tower in about a month after entering the advanced training camp.

There would basically be one to two such elves in every batch.

Take An Ran for example. After a month of training, he finally obtained a pass to enter the second floor of the Pure Spirit Tower. Other than Shen Yanxiao, he was the only one among their batch of elves to enter the second floor.

Even though An Ran's progress was fast, it was still within the acceptable range for the elves!

But Shen Yanxiao!

She was a pervert!

One floor per week! She did not even take a breather!

She reckoned that if not for the pass, she would stay in the Pure Spirit Tower until the training camp ended five months later!

Terrifying, too terrifying!

All the elves in the advanced training camp regarded Shen Yanxiao as a pervert.

Even Elder Yue expressed great shock when he learned of Shen Yanxiao's progress.

It could be said that from the establishment of the advanced training camp until now, no elves could compare to Shen Yanxiao in terms of speed of improvement. Her appearance had completely broken the advancement record of the Pure Spirit Tower in the advanced training camp!

When Shen Yanxiao appeared again and took the pass to the fifth floor, the elves were already numb.

Wasn't it just the fifth level?

It doesn't matter!

In any case, in another week, this girl would come and get the pass for the sixth floor.

They were used to it!

As Shen Yanxiao was progressing too fast, Elder Yue was worried if she could handle it.

For this reason, Elder Yue specially came to talk to Shen Yanxiao when she took the fifth floor pass. As a result, he discovered that in a short span of half a month, Shen Yanxiao had advanced from a red elf to a white elf, and he was instantly speechless.

When he looked at Shen Yanxiao who had a ruddy complexion and a healthy aura, all the care and concern in Elder Yue's heart shattered into pieces in an instant. In the end, he could only remain silent for a long time before he allowed Shen Yanxiao to continue climbing the tower.

Shen Yanxiao intended to continue with her dual cultivation and enter the fifth floor of the Pure Spirit Tower. However, the moment she stepped into the fifth floor, she immediately felt a huge force assaulting her face, and she felt dizzy.

"The aura here is so strong." Shen Yanxiao immediately slowed down her source of life's absorption of external energy. The fifth floor of the Pure Spirit Tower was far different from the previous four floors.

The energy here was very strong and pure. Even if all the energy in the lower four levels were purified and combined together, it was not even half of the energy here.

Shen Yanxiao frowned. Even though she had slowed down the absorption speed of her source of life, the surging life force was still frantically attacking her source of life.

It was as if the energy was eager to enter her body.

What was even more terrifying was that when the life force surged in, Shen Yanxiao clearly felt a slight tremble in her source of life, and waves of stabbing pain were spreading from her source of life to her body.

### **Chapter 1276: The Peculiarity In The Pure Spirit Tower (1)**

The pain went straight to her nerves and spread throughout her body.

Shen Yanxiao frowned, feeling an indescribable discomfort.

A gray mist flowed out from Shen Yanxiao's chest and condensed into a human form before her eyes.

Shen Yanxiao trembled. Xiu suddenly stretched out his arm and pulled the trembling little girl into his embrace.

"Don't absorb the energy here." Xiu's voice sounded in Shen Yanxiao's ears.

"Xiu, it hurts." Shen Yanxiao gritted her teeth and cut off the connection between her source of life and the outside world according to Xiu's words. However, she could not stop the life force that surged in.

The pain was slightly relieved, but it was still bone-chilling.

Xiu frowned and narrowed his eyes. Suddenly, a faint light shrouded them.

“The energy here is strange.” Xiu tightly held Shen Yanxiao in his arms and carefully poured his energy into her body to dispel the life force that continuously attacked her.

The little girl in his arms finally stopped trembling, and Xiu breathed a sigh of relief.

“What exactly is going on here? I’ve never encountered such a situation before.” Shen Yanxiao’s expression finally turned for the better. The life force on the fifth floor was completely different from the first four floors. If she did not wish to continue with her training, she only needed to shut off her source of life. However, even if she did that, the life force lingering in the Pure Spirit Tower would still flow into her body.

Shen Yanxiao felt extremely uncomfortable with the energy that had a mind of its own.

“I am not sure yet, but the life force here is indeed much denser than before. According to common sense, this amount of energy should not cause you any pain.” Xiu narrowed his eyes and looked at the faint mist around them. He had set up a barrier around them to prevent the life force from pouring in.

The energy here was too strange. Shen Yanxiao could endure pain, but here she was crying out in pain.

One could only imagine how much pain she was enduring.

Every single Pure Spirit Tower was stable by using a thick tree trunk that grew all the way up from the ground to the top of the tower as a foundation. On the first four floors, only the bare trunk could be seen, but in the middle of the fifth floor, branches could be seen extending outwards. Tender green leaves could be seen dotting the branches.

Through the fog, that little bit of green was very conspicuous.

“If you want to know the reason, you have to check these tree branches.” Xiu whispered.

Shen Yanxiao nodded. When she entered the Pure Spirit Tower, she noticed the tree trunk in the center of the tower. Qie Er only mentioned that the tree was transplanted from the Tree of Life, so the life force radiating from it was thicker than anywhere else.

Shen Yanxiao had the same thought previously. However, when she stepped into the fifth floor of the Pure Spirit Tower, she felt that things were not that simple.

Even though she had never seen a real Tree of Life, if the trees in the Pure Spirit Tower were only branches of the Tree of Life, then their strength would not be so terrifying.

The energy here was already very dense, and it was just only the fifth level. If they were to enter the seventh level, how powerful would the energy be?

Was this really just a branch of the Tree of Life?

Shen Yanxiao thought that even if she were to enter Moonshine City, the intensity of the life force there would only be similar to the first few floors of the Pure Spirit Tower.

## **Chapter 1277: The Peculiarity In The Pure Spirit Tower (2)**

Xiu maintained the barrier so Shen Yanxiao could not step out. Otherwise, she would immediately feel the intense pain.

Just as she was about to head to the central position with Xiu, he suddenly lifted her up.

Shen Yanxiao gasped and looked at Xiu's jaw in surprise.

"I am unable to maintain a large barrier to prevent you from accidentally walking out. It is safer this way." There was no expression on Xiu's face. Everything he did was for the sake of her safety.

Shen Yanxiao moved her lips but said nothing. She merely nodded silently.

His cold arms wrapped around her tightly and her entire body was pressed against his cold chest. However, her face could not help but heat up.

Xiu's footsteps were very fast. Passing through the fog, they soon arrived at the center.

It was as if a huge tree had been blocked by the floor and the ceiling, leaving only a section of the tree.

The tender green leaves on the tree branches were very beautiful.

Xiu's gaze stopped on those leaves.

Shen Yanxiao asked, "Is there a problem with these leaves?" Xiu's focused gaze made her wonder.

"Take a closer look at these leaves. Is there something wrong with their stem?" Xiu held Shen Yanxiao with one hand and reached out to push aside a leaf, revealing a thin leaf.

Shen Yanxiao took a closer look. The color of those leaves was very similar to the color of the leaves.

However...

"The color of the stem is much darker than the color of the leaves." Shen Yanxiao said.

Xiu nodded.

"No matter how powerful the life force is, it will not cause unbearable pain for elves. Previously on the first floor of the Pure Spirit Tower, even though those elves could not absorb a large amount of life force in a short period of time, they did not feel pain from the very beginning. Moreover, their discomfort stemmed from the oppression of the source of life and not from the pain of their nerves. This is completely different from your situation." Xiu analyzed the oddness of this place. Regardless of the situation, Shen Yanxiao's reaction just now was very strange based on how life force usually worked.

"Do you remember what Elder Yue told you about the pollution of elves?" Xiu looked down at Shen Yanxiao, his golden eyes reflecting that delicate and pretty face.

"Are you saying that the strange situation here is due to... pollution?" Shen Yanxiao's voice was filled with shock.

"I'm not sure, but it's very likely." Xiu narrowed his eyes and said, "Your situation is different from other elves because you can absorb life force in large quantities. If pollution is mixed with life force, then with the absorption speed of ordinary elves, I'm afraid it would be hard for them to have the same reaction as you. Only at your absorption speed would it cause such intense pain."

This was similar to a slow-acting poison. Drinking a little every day would not cause anyone to notice anything amiss. However, if they were to suddenly drink a full cup one day, then the discomfort would immediately appear.

That was the comparison of Shen Yanxiao's absorption of life force with the other elves.

"How could this be..." Shen Yanxiao's eyes were filled with disbelief.

The pollution that brought about destruction to the elves was mixed with life force?

It had to be known that from birth to death, what elves could never leave behind was the power of life. They were absorbing the power from the Tree of Life almost every second!

### **Chapter 1278: The Peculiarity In The Pure Spirit Tower (3)**

If everything was as Xiu guessed...

Then...

Didn't that mean that all the elves in the Moon God Continent had been infected with pollution?

This disaster was enough to destroy the elves!

"I'm still not sure why the life force here is so much stronger than outside. It's still unknown. If this is only a branch of the Tree of Life, then it would be easy to explain. However, if this is a part of the Tree of Life, then I'm afraid everything the elves have to face will not be as simple." Xiu frowned. He did not care about the life and death of the elves. What he cared about was that Shen Yanxiao was currently in the Moon God Continent. If the pollution was released from the Tree of Life, then it would be too dangerous for Shen Yanxiao to continue staying here.

After all, due to the seal, her source of life could absorb life force at a rapid pace. That was a good thing, but if pollution was mixed in, then it could only be a bad thing.

"We can only investigate this ourselves. Elder Yue would never tell me this. Moreover, Qie Er doesn't seem to know the origin of these tree trunks." Shen Yanxiao was smart. Even if Elder Yue thought highly of her, all the information about the Tree of Life was top secret among the elves. It was impossible for it to be leaked easily.

"Well, it's not difficult." Xiu raised his eyebrows.

Shen Yanxiao blinked her eyes and looked at Xiu. As Xiu was lifting her up with one hand, her current posture was her sitting on one of Xiu's arms while her small hands were wrapped around his neck.

Due to their discussion about the pollution, Shen Yanxiao did not realize how ambiguous their actions were. However, Xiu's expression had allowed her to regain her senses.

Her face was right beside that handsome face. If she just moved half a finger's distance, their faces should be stuck together.

Shen Yanxiao could clearly see Xiu's skin. It was clean and white without a single pore!

She could also see Xiu's long eyelashes, thick and curly, similar to a small fan.

His sharp nose and thin lips...

Thump... thump...

Shen Yanxiao heard her heartbeat.

Xiu did not realize that a certain little girl was currently peeping at his 'beauty'. He raised his empty hand and gently placed his slender fingers on the tree branch. Strands of silver silk flowed out from his fingertips and wound around the tree branch...

"What are you doing?" Shen Yanxiao forcefully suppressed her restless heart and tried her best to be 'serious'.

"I can extend my power to this tree and locate its main body. If this tree exists independently, then I can sense its roots. If not..." Xiu did not finish his sentence. He continuously released his power to extend the length of his perception. The silver light coiled around the tree and gradually entered the ground.

The elves on the next few floors were still cultivating. But, none of them noticed that the silver threads that were as thin as hair were snaking all over the thick tree trunk, from top to bottom, deep underground.

Shen Yanxiao quietly looked at Xiu's side profile. Xiu rarely had any expression on his face. The number of times he looked up and frowned was extremely few. His face would always have that cold and detached expression that repelled people thousands of miles away.

However, for some reason, Shen Yanxiao saw a trace of seriousness in his eyes, and that hidden glint in his eyes made Xiu look attractive.

#### **Chapter 1279: The Peculiarity In The Pure Spirit Tower (4)**

The silver line continued to extend, and Xiu's brows got more furrowed as time passed.

"What's wrong?" Shen Yanxiao, who was focused on peeping at Xiu's 'beauty', immediately noticed Xiu's abnormality.

Xiu did not answer immediately. Instead, he retracted his hand and placed Shen Yanxiao on the ground before looking down at his fingertips.

His originally white fingertips had turned slightly red, as if he had been scalded by hot water.

"I did not sense the roots of this tree." Xiu retracted his gaze and looked at Shen Yanxiao.

"I used my energy to sense this tree, and after my energy went deep underground, I discovered that it did not take root underground. I continued to explore but I was attacked by a barrier somewhere."

"You were attacked?" Shen Yanxiao was stunned for a moment. She had experienced how terrifying Xiu's strength was, and she honestly did not know what barrier Xiu could not pass through.

However, judging by Xiu's expression, it was evident that he did not succeed in passing through the barrier.

Xiu nodded and said, "It's just that the power released isn't that powerful and it's impossible to pass through that barrier. The power of that barrier is much more powerful than what you saw outside any elf city."

Shen Yanxiao had visited almost all the cities in the Moon God Continent. The only city she hadn't visited was Moonshine City.

If there was any barrier in the Moon God Continent that was more powerful than a black-level city...

Then it could only be the Moonshine City!

"You're saying that the trees in the Pure Spirit Towers are directly connected to Moonshine City?" A trace of surprise flashed past Shen Yanxiao's eyes. If that was the case, then those trees might not be as simple as Qie Er described.

It was very likely that they were part of the Tree of Life!

"No wonder the energy produced by them is so powerful. No wonder the life force in the Pure Spirit Tower is so dense!" Shen Yanxiao bit her lips and turned to look at the dark-colored leaves.

"If what made me feel pain was really pollution, then... the pollution is coming from the Tree of Life?" Shen Yanxiao was shocked by her conjecture!

What a joke!

The Tree of Life that the elves relied on for survival was the culprit that was about to lead to their demise?

Shen Yanxiao was speechless!

"I don't think I've been infected." Shen Yanxiao's lips twitched. She had absorbed a lot of life force in the Moon God Continent, and that thing called pollution might have entered her source of life together with it. She did not want to be tricked by the Tree of Life before she achieved her goal of undoing her seal.

Xiu shook his head and said, "Pollution is targeted at elves and has no effect on you. Otherwise, you would not have such a huge reaction. A large part of the reason for your pain is also due to your rejection of pollution."

To put it simply, Shen Yanxiao did not absorb any pollution at all!

"I'm immune?" Shen Yanxiao raised her brow.

Xiu narrowed his golden eyes and looked at Shen Yanxiao. "What is the greatest effect pollution has on the elves?"

Shen Yanxiao said straightforwardly, "To cause them to have negative emotions and be less pure and kind."

Xiu continued. "You already have this kind of attitude, so you can't be infected to begin with. So, how can it affect you?"

“...” Shen Yanxiao was speechless. Was she being indirectly described by Xiu as despicable, shameless and low-class...?

### **Chapter 1280: The Peculiarity In The Pure Spirit Tower (5)**

Elves were kind and pure, and the pollution would make them evil and complicated.

She was already not kind nor pure...

Therefore, pollution had no effect on her?

Crash!

He clearly came here to mock her!

Where was the promised high-end and classy? Please don't make me suffer!

“Then I am really... lucky...” Shen Yanxiao looked at Xiu with a fake smile. The pink bubbles in her heart instantly shattered.

She knew it!

She knew it!

Xiu faintly said, “This is the innate nature of humans, but it is indeed a fatal poison for elves.”

“Why do you say that?” Alright, she was not the only one who was ridiculed. At the very least, she had dragged the entire human race with her, she could be considered as satisfied!

“Among the eight major races, human emotions are the most abundant and the most complicated. Humans possess seven emotions and six sensory pleasures. Different people grow up in different environments and the personalities they create are also entirely different. However, this is not the case for the other races. Other than humans, every race has their own prominent characteristic.”

“Elves are indifferent. They coexist with the lives of all living things in the world. They like peace and nature. They are indifferent to everything that is outside.”

“Dwarves are impulsive. Their likes and dislikes are very obvious. They are fanatical about their likes and dislikes.”

“Merfolks are vain. They live at the bottom of the sea and dance with the sea. They like praises the most.”

“The dragons are greedy. They pursue countless treasures to decorate their nest.”

“The undead are evil. They like everything dark.”

“Demons are killing...”

Xiu's cold and cheerless voice narrated the uniqueness of the several races. Every race had their unique points, but they were all very unified. It was practically impossible for a greedy elf or a vain undead to appear.

Among humans, they contained all the negative emotions of the major races, which was very normal...

Shen Yanxiao looked at Xiu and asked softly, "What about the god race?" Would the god race that was revered by all have a negative personality?

Xiu looked at Shen Yanxiao and slowly said, "Arrogant."

"Arrogant?" Shen Yanxiao pondered over this word that was not too belittling.

"The fundamental reason why the god race would not clash with races other than the Devil race is... disdain." Xiu coldly said. Other than the Devil race, no other race in the world was their opponent.

For the god race, only the Devil race was worthy of the word "opponent"!

"Too complicated negative emotions will disrupt the elves' mental state. The elves mainly rely on their source of life, and their indifference is also to better train their source of life. However, once their feelings become complicated, their source of life will also be polluted." This was a vicious cycle. As long as a seed of negative emotions was planted in the elf's soul, it would automatically germinate in their source of life and slowly nibble away at their soul.

The reason why Shen Yanxiao was not affected by pollution was precisely because she was a human in a certain aspect. She had been a human for more than a decade in her past and present life. Complicated negative emotions were a piece of cake for her.

Therefore, pollution could not invade her unyielding heart. That was because it was already darker than pollution...
