

## The Good 1501

### Chapter 1501: Shen Yanxiao's Plot (2)

Night fell and the four-nation alliance set up camp in the vast Forsaken Land. Tents were set up in the camp and bonfires were lit. In the dark Forsaken Land, clusters of flames were lit.

A few soldiers from the Longxuan Empire sat around the fire. From time to time, they would look at the city they had conquered yesterday.

Or rather, that place could no longer be called a city. Instead, it was a pile of stones.

"That Shen Yanxiao, isn't she too ruthless? Why did she destroy the city so thoroughly? There isn't even a place for us to stay." One of the soldiers could not help but complain.

The weather in the Forsaken Land was simply unbearable. It was fine during the day, but the sudden drop in temperature at night was something many of them could not adapt to. Waves of cold wind blew past, penetrating their armor and making them shiver.

If those cities were still there, they would have a place to shelter themselves from the wind and rain. They would not have to sleep in the wilderness.

"She is just struggling before she dies! She knows she is no match for our four-nation alliance, so she is destroying everything," another soldier said.

"To think I had inquired about the situation of the cities in the Forsaken Land. I was hoping to live in them for a day or two during this battle, but it turned out like this." The soldier curled his lips with regret.

"Be careful with your words. If Commander Jiang Wan hears you, you will suffer."

"Tsk tsk, I was only making a remark. It's mainly Shen Yanxiao's fault. Isn't it good for a Vermilion Bird Family's disciple to obediently stay in the capital? Why did she have to come to the Forsaken Land to show off and break away from her nationality to collude with demons? If she had been more attentive, wouldn't we be free of trouble? If this place had belonged to the Longxuan Empire, would we still have to come here and suffer? I really don't understand what that stinky girl is up to. Is her brain not good?" The soldier vented all his anger on the enemy. As he vented, he stood up and walked to the fire to get some food.

However, the moment he stepped out, he suddenly felt a force attacking his back and the next second, he could not help but fall towards the fire.

In an instant, the soldier who fell into the fire let out a howl similar to a pig being slaughtered. He rolled and crawled away from the fire to one side and the few soldiers seated beside him were stunned.

Why did this guy suddenly fall down and eat sh\*t all of a sudden? Furthermore, his face was smashed into the fire?

Wasn't he about to be disfigured?

This incident attracted the attention of many soldiers.

A few gentle breezes swept past those soldiers, carrying a faint fragrance.

The commanders of the four armies had tasked some men to keep an eye on the siege weapons of the four countries. As the main fighting force for this war, all the siege weapons were being tightly guarded.

Around each of the siege weapons, there were more than a dozen soldiers standing on three levels inside and outside. All of them held sharp swords and looked straight ahead. The slightest movement would cause their bodies to tremble.

Within the camp of the Blue Moon Dynasty, Qu Xun's expression was somewhat twisted as he looked at the siege weapons under his hands.

The Blue Moon Dynasty had mobilized more than three hundred siege weapons. In the previous battles, Qu Xun's troops seemed to have provoked some god of plague. Not only did they suffer the most casualties, but they also suffered heavy losses.

### **Chapter 1502: Shen Yanxiao's Plot (3)**

Of the two hundred plus siege weapons that the four-nation alliance had lost, more than eighty belonged to the Blue Moon Dynasty.

Qu Xun's heart bled. He had yet to reach Sun Never Sets, but he had already used up half of his siege weapons!

As a matter of fact, Qu Xun ordered his men to pull back the half-destroyed siege weapons from the battlefield and berated the blacksmiths to see if they could be saved.

A few damaged siege weapons were pieced together, but it was hard to repair them into a complete one. Seeing this, Qu Xun was hopping mad.

The blacksmiths were thoroughly berated by Qu Xun and could only bury their heads and continue repairing. However, in the face of the siege weapons that had been smashed into a pile of scrap metal by the cannons, they could not turn the situation around no matter how skilled they were.

A wisp of evening breeze blew past Qu Xun's back. He turned his head to look around in frustration but did not see anyone. Seeing nothing odd, he continued to urge the blacksmith.

The soldiers guarding the siege weapons forced themselves to pay attention to their surroundings.

In fact, they suspected that the people in the Forsaken Land would be idiots if they came and destroyed these siege weapons.

This was a camp where three million people were stationed!

No matter how courageous the people in the Forsaken Land were, they would not come here to seek death, right?

The soldiers did not believe that someone would come and cause trouble, but due to their commander's orders, they had no choice but to stand guard here obediently.

In the dark night, only the flickering light of the fire could be seen. The huge siege weapons were covered with a thick tarp that concealed its true appearance.

A soft sound echoed.

The soldiers immediately looked towards the source of the sound. They only saw the cloth covering the siege weapons moving but did not discover anything else.

“The wind at night in the Forsaken Land is so damn cold.” One of the soldiers could not help but mumble as he tried to shrink his neck so that the cold wind would not invade his body.

The heavy tarp made waves of noise in the wind. The soldiers would look at it from time to time. But after they found nothing amiss, they did not pay any more attention to it.

Under the cover of the tarp, the siege weapons were suddenly thrown away.

Six small pits were dug up at the same time and six scrolls suddenly appeared in mid-air. It was as if six invisible hands had carefully placed those six scrolls into the pits, and the soil that was dug up covered the scrolls again as if it had never been touched.

Yu Bu made another sound and the soldiers habitually ignored it.

The words that were covered with a golden luster had a trace of magic aura, but it was suddenly concealed so no one noticed it.

The night breeze in the Forsaken Land was not as gentle as in other areas. Many soldiers had snuck into their tents to avoid the strong winds. Only the soldiers who were on guard were holding their posts.

The fire that had yet to be extinguished was flickering in the wind and the camp was somewhat empty. A black triangular piece of cloth suddenly floated out of nowhere and under the cover of the night, that piece of black cloth quietly landed on the fire and was burnt cleanly.

“Idiot.” A soft voice that was almost drowned out by the wind was heard. That small voice was soon crushed by the strong wind.

The soldiers of the Blue Moon Dynasty guarded the siege weapons and listened to the sound of the wind blowing against the cloth. They narrowed their eyes and shrunk their shoulders, trying to make their presence in the wind lessen.

Chapter 1503: Shen Yanxiao's Plot (4)

While many soldiers had just entered their dreamland, the soldiers guarding the siege weapons were cursing internally.

However, the next second, they suddenly heard a loud noise from behind them. The soldiers turned around in frustration.

In the end, a single glance caused them to collectively let out miserable screams!

“Ah!!!”

Hundreds of blood-curdling screams could be heard in the army camp of the Blue Moon Dynasty, waking up their comrades who had just fallen asleep.

It was not easy for Qu Xun to fall asleep, but he was woken up by a series of screams outside the tent. He angrily sat up and without even wearing his shoes, he grabbed the sharp sword by the bed and dashed out.

Exactly which idiot was it who dared to shout in the middle of the night? He would chop them up!

When Qu Xun walked out of the tent, he was completely stunned.

The dozens of siege weapons that were parked outside the tent had all disappeared. The tarpaulin fell limp on the ground and all the soldiers looked at the empty tarpaulin in shock.

“What’s going on...” Qu Xun released an ear-piercing scream as if someone had strangled his throat.

“Commander... I... we don’t know either. Are the siege weapons still here? We saw them just now! But somehow, they suddenly... disappeared.” The soldier guarding the siege weapons was on the verge of tears.

It was as if they had seen a ghost. Dozens of huge siege weapons had disappeared without a trace at the same time. Previously, those siege weapons were still well taken care of under the tarp. However, they only turned around for a moment before the tarp was suddenly emptied!

“Open the tarp! Blast them one by one!” Qu Xun roared.

The soldiers immediately lifted the tarp.

Under the rain, the ground was flat without any abnormalities. However, they could not find any traces of the siege weapons.

“How could this be... how could this be...” Qu Xun stood barefooted on the empty land. Looking around, the place where the siege weapons were placed had become an empty land.

Not to mention siege weapons, not even a single strand of hair could be seen!

“Send someone to look for them! Dig up all these places!” Qu Xun panicked. He had never seen such a strange situation.

The size of the siege weapons was astonishing. They were seven to eight stories high. How could such a huge siege weapons disappear into thin air?

All the soldiers of the Blue Moon Dynasty were called out. They began to look around for the dozens of lost siege weapons. Qu Xun asked the soldiers to dig up all the places where the siege weapons were originally placed. However, other than the black soil, there were only some broken stones.

If one were to look closely, perhaps they could see some black ash mixed in with the excavated soil. However, there were too few ashes and they were the color of the black soil.

The disturbance in the Blue Moon Dynasty’s military camp had attracted the attention of the other three forces. Jiang Wan, Shi Heng, and Elder Wen were all curious about what had happened in the Blue Moon Dynasty, so they sent someone to investigate.

As for the information they obtained, it caused them to be dumbstruck.

“More than eighty siege weapons of the Blue Moon Dynasty have been lost!”

More than eighty massive siege weapons had been lost in the middle of the night. What was even more terrifying was that there were soldiers standing guard around the siege weapons during this period of time and they did not even see anyone approaching! At that moment, the soldiers of the Blue Moon Dynasty were still active in the military camp!

Chapter 1504: Shen Yanxiao’s Plot (5)

That night was practically a nightmare for the soldiers of the Blue Moon Dynasty.

Everyone felt that this was not real.

Even those soldiers guarding the siege weapons subconsciously pinched their thighs. It was not until they were crying from the pain that they understood.

Everything was real, it was not a dream.

Qu Xun did not have many siege weapons to begin with, and now that he had lost more than eighty of them, he felt like dying. For the entire night, he seemed to have gone crazy as he ordered a group of men to search everywhere. Even the land in the military camp was riddled with holes.

In the end, they did not even see a single trace of those siege weapons.

Not far from the military camp of the four countries, six sneaky figures snuck into the underground city.

That would be the next target for the four-nation alliance.

However, who would have expected that the eighty plus siege weapons that were lost in the Blue Moon Dynasty’s military camp not far away were quietly placed in the underground city.

A group of low and intermediate-ranked demons had surrounded those eighty plus huge siege weapons.

Freud, who was leading the team, looked at the large number of siege weapons and looked at the Phantom members who just entered the underground city in disbelief.

“Can I ask... what are those?” Freud pointed at the siege weapons and asked Shen Yanxiao with great difficulty.

Shen Yanxiao lowered her head and used a handkerchief to wipe the mud off her fingertips. Without even raising her head, she said, “Siege weapons.”

“Siege...” Freud swallowed his saliva. He had received a mission from Shen Yanxiao before nightfall, asking him to guard the underground city with more than ten thousand demons while waiting for her orders. However, he did not see Shen Yanxiao when he arrived. He only saw many strange runes written on the empty central plaza of the underground city.

Soon after that, it was time to witness a miracle!

Freud did not want to describe the shock and craziness he felt when he saw those eighty plus siege weapons appearing in the plaza. He only wanted to know how Shen Yanxiao did it!

“Are these the siege weapons of the Blue Moon Dynasty?” Freud had been in human territory before, so he could recognize the Blue Moon Dynasty’s totem beneath those siege weapons.

“Yes.” Shen Yanxiao wiped her fingers clean in all seriousness.

“...” Freud’s expression was thoroughly horrified.

What had they done!

“Freud, tell the demons to transport these siege weapons back to Sun Never Sets as soon as possible. Tomorrow, although we may not be able to protect the city, we cannot lose these treasures.” Shen Yanxiao ordered.

Freud turned around and gave orders to the demons as if he was in a trance. He felt as if he was in a dream when he saw the demons pushing away the siege weapons with great effort.

“Lord, where did you get these siege weapons?” Freud swallowed his saliva and asked.

Shen Yanxiao blinked and said as a matter of fact, “Of course from the camp of the four-nation alliance.”

Freud felt his heart was about to jump out!

Did Shen Yanxiao have to be so calm?

Did she steal those siege weapons from the enemy camp?

She really did not buy it from the market!

### **Chapter 1505: Counterattack, Begin! (1)**

Freud practically floated away from the underground city.

The Phantom members were the only ones left in the huge underground city.

“Nazhi, can you be any more stupid?” Qi Xia raised his eyebrows and looked at Tang Nazhi. Tang Nazhi had really refreshed his bottom line of stupidity today.

Tang Nazhi muttered, “Isn’t this for safety reasons?”

He was cautious, not stupid!

Qi Xia curled his lips and said, “Can you explain why you wore a face cloth after drinking a stealth potion?”

Shen Yanxiao’s previous plan had shocked the five of them.

She did not intend to destroy the siege weapons of the four-nation alliance. Instead, she intended to steal a batch of them.

All of this was thanks to the enchantment magic Shen Yanxiao learned from the Moon God Continent!

The enchantment scrolls could produce all sorts of miraculous effects when combined together. The few sets of enchantment scrolls Shen Yanxiao took out this time had the effect of instant teleportation. The

six enchantment scrolls could form a small teleportation array that could transport non-living items to a place not far away in the blink of an eye.

This was the first time Qi Xia and the rest had heard of such a miraculous teleportation array.

Shen Yanxiao was confident of this plan. Therefore, as soon as night fell, she took them with her and drank a Grandmaster Invisibility Potion before sneaking into the base camp of the four-nation alliance.

However, Tang Nazhi was a genius. Before he drank the Invisibility Potion, he insisted on covering his face with a piece of black cloth. He put it in a nice way so that it could provide him with more protection. Even if he were to be discovered, he would not let the other party recognize him.

But, the strong winds of the night in the Forsaken Land had blown away his 'cover'!

Towards Tang Nazhi's extremely stupidity, Qi Xia and the rest had the urge to strangle him to death!

"This is my first time drinking a Grandmaster Concealment Potion. How would I know how long it will last? I'm just taking precautions." Tang Nazhi still wanted to quibble, but when he saw the looks of contempt his comrades shot at him, he immediately felt guilty.

Crash!

Who knew that the wind in the Forsaken Land would be so strong!

"IQ degeneration." Yan Yu sighed.

"Xiaoxiao, this method of yours is really powerful. If you do it a few more times, I reckon we can steal all the siege weapons from the four-nation alliance!" Tang Nazhi immediately changed the topic. It was his first time being a 'thief' and he had already stolen such a huge number of siege weapons. Thinking about this, he felt a sense of accomplishment.

"No."

"Why?" Tang Nazhi was stunned. This mission could be said to have been perfect. They did not expend a single soldier to steal so many siege weapons, so why couldn't they continue?

"My enchantment skills are insufficient. All the enchantment scrolls were given to me by my enchantment teacher. With my current abilities, I am unable to complete the writing of the teleportation spell alone." Shen Yanxiao sighed. If it were that simple, she would have brought the Phantom members to cause havoc in the four-nation alliance.

There were only so many enchantment scrolls that could form a teleportation array in her hands, and she had used all of them tonight. The remaining enchantment scrolls were incapable of forming a teleportation array.

Thus, she could only use this method once.

Shen Yanxiao's answer made the Five Beasts feel regret.

Their carefree thieving trip was extremely exciting.

“Yang Xi, see if you can change the effective range of the siege weapons that have been transported back. These siege weapons are to be used in the defenses of Sun Never Sets. Nazhi, Xiaowei, I have a mission for you when we return.” Shen Yanxiao narrowed her eyes. The theft of the siege weapons would end here.

### **Chapter 1506: Counterattack, Begin! (2)**

However, Shen Yanxiao’s counterattack was only the beginning.

Half of the Blue Moon Dynasty’s siege weapons had been lost, and it caused a huge commotion in the four-nation alliance. All the armies began to pay more attention to their siege weapons. Qu Xun had even ordered some soldiers to stand guard on the weapons. They were just short of tying themselves to it.

However, the strange incident did not happen again.

Everything seemed like a dream.

The armored horses of the four-nation alliance continued to move toward Sun Never Sets.

On Shen Yanxiao’s side, Tang Nazhi and Li Xiaowei led all the Black Tortoise Family’s disciples and swiftly rushed to the city behind the Ashen City. At that very moment, the Black Tortoise Family’s array finally had some use.

When the four-nation alliance attacked Baizhou City, Tang Nazhi and Li Xiaowei had already laid out an inescapable net on their way to the next city, waiting for the four-nation alliance to take the bait.

Several days later, the four-nation alliance arrived at this seemingly normal land.

However, what welcomed them was a series of extremely strange arrays. There were nearly a hundred thousand men in the vanguard and they were trapped in hundreds of arrays, unable to escape.

Before Jiang Wan and the others had the chance to rescue those trapped soldiers, the mid-level troops had triggered the traps buried underground.

In an instant, a series of explosions sounded in succession. Flames shot in all directions and explosions followed one after another.

Every trap that was triggered would cause dozens of soldiers to be implicated.

For a moment, the vanguard forces of the four-nation alliance were in chaos.

Arrays and traps continuously cast a tragic shadow on the four-nation alliance.

“What exactly is going on!”

Even the most composed Shi Heng was burning with anxiety.

The road ahead was filled with traps and it was impossible for them to continue forward, not to mention dragging the siege weapons.

The slightest bit of carelessness would trigger a series of traps. Not only would they suffer heavy casualties, but their siege weapons would also be damaged.

The leaders of the four countries immediately gave the order to stop their advancement. Faced with well-hidden traps, they could only send out one suicide squad after another and carefully eliminate them.

Even though it reduced their casualties, it also delayed their speed.

Usually, they could take down a city in three days. But, it was taking them around five days to eliminate the traps.

Just like that, they had to sacrifice thousands of soldiers just to eliminate the traps

The four commanders cursed Shen Yanxiao's eighteen generations of ancestors in their hearts!

Every time they adapted to Shen Yanxiao's methods, she would change to a new method to deal with them. And every time, she would cause the four-nation alliance to be on the verge of tears.

The four-nation alliance worked hard to check the traps, but Tang Nazhi and Li Xiaowei did not relax in the slightest. They arranged all sorts of traps on the roads of every city, which were the Black Tortoise Family's specialty.

For that, Tang Ao contributed all the stock in the Black Tortoise Family's storeroom.

The thousands of years of accumulation of the aristocratic families was enough for the soldiers of the four-nation alliance to suffer.

At the same time, Yang Xi led all the blacksmiths of the Azure Dragon Family to modify the eighty plus siege weapons they had seized. He prayed that they could complete the modification before the final battle to protect the safety of Sun Never Sets!

### **Chapter 1507: Counterattack, Begin! (3)**

The days of the four-nation alliance could be said to be miserable. Even though they had won the following few battles, just like before, they did not even get anything back.

Under the harassment of various arrays and traps, the commanders of the four-nation alliance felt that they were going crazy.

This battle was too frustrating!

Even Jiang Wan had changed his hostility towards Shen Yanxiao from national hatred to hatred as an individual. He wished he could drag this crafty little kid out and give her a good beating.

In the base camp of the four-nation alliance, the four commanders were restless. Although thousands of casualties was nothing to them, they were about to collapse if they were to be tormented like this!

This was similar to a fight between two people. One was clearly powerful and could crush the other party to death with one hand, but the other party was smart enough to avoid a direct confrontation with him and would come over to slap him for no reason. Even though this slap could not kill, the feeling of being slapped on the face was honestly infuriating!

Elder Wen and Qu Xun, who had always been at odds with each other, had been forced to sit together and discuss countermeasures under Shen Yanxiao's wretched methods.

The Sage of the Broken Star Palace sat in the tent and looked at the four commanders who did not look good.

“Sage, is the Broken Star Palace really not going to take action? Shen Yanxiao is just too disgusting. We have to be on tenterhooks every day when we walk. I wonder if the Broken Star Palace has any methods to deal with her?” Qu Xun wanted to cry. Up until now, he had suffered the most losses. There were less than a third of his siege weapons left and nearly 150,000 of his soldiers had died.

He did not even get to see Shen Yanxiao, but he had already exhausted so much of his fighting strength. He wished he could buy a piece of tofu and knock himself to death.

The Sage calmly looked at Qu Xun and slowly said, “What are your thoughts? Why don’t you tell me?”

Elder Wen mustered up his courage and said, “What Marquis Qu Xun said makes sense. We can’t continue to waste our resources like this. We’ve already lost quite a number of siege weapons. Based on the current situation, it would be pretty good if we still have four hundred over siege weapons left when we arrive at Sun Never Sets. Even though we have already requested more siege weapons from the country, it will still take some time for them to arrive before we arrive at Sun Never Sets. I’m afraid that once the war starts, we won’t be able to destroy Sun Never Sets in one blow.”

Up until now, the commanders of the four countries had been suppressing their anger. Other than spurning Shen Yanxiao’s shamelessness, they were also dissatisfied with the Broken Star Palace for standing idly by.

The Sage said, “Everyone, don’t worry. When we arrive at Sun Never Sets, the Broken Star Palace will certainly lend a helping hand. However, the current situation cannot be changed by an individual’s abilities. Even if more Sages of the Broken Star Palace arrive, I’m afraid we will not be able to reverse the situation.”

The four leaders secretly pursed their lips. What a nice way of putting it. If they were to fight in Sun Never Sets, who knew if the Broken Star Palace would actually send people over.

Even though they were complaining, they did not have the courage to confront the Broken Star Palace.

As if he had sensed the internal thoughts of Jiang Wan and the rest, the Sage continued. “In fact, if you are unwilling to let your soldiers investigate the trap, I have a method but I don’t know if you are willing.”

The four commanders looked at each other. In the end, it was Jiang Wan who asked, “What is the method? Please enlighten us.”

#### **Chapter 1508: Counterattack, Begin! (4)**

The battlefield was slowly advancing toward Sun Never Sets. Shen Yanxiao stayed in Sun Never Sets. Every day, other than to prepare for war, she spent all her time absorbing the dark aura.

Ever since Xiu fell into a deep sleep that day, Shen Yanxiao had not received any response from him. It was as if he had sunk into the depths of her heart lake, where he could neither hear nor see her.

This was the first time Shen Yanxiao had broken contact with Xiu ever since she was reborn.

She was not used to this feeling.

Shen Yanxiao sat on the bed with her legs crossed as she tried her best to absorb the dark elements in the air. Vermilion Bird quietly sat on one side with Little Phoenix and Mini Dragon, not daring to disturb Shen Yanxiao.

Taotie obediently laid on the table and stuffed food into his mouth, but he was extremely careful not to make any sound.

As Shen Yanxiao's contracted magical beast, Taotie and Vermilion Bird could clearly sense that ever since she returned from the Moon God Continent, there seemed to be a trace of uneasiness lingering in her heart. The existence of this emotion was all because of a certain soul that had fallen into a deep sleep.

While Shen Yanxiao was absorbing the dark elements, her consciousness had also sunk into her heart lake.

In the dim heart lake, she saw Xiu.

Unlike in the past, Xiu did not stand on the heart lake to observe her arrival.

He seemed to have fallen asleep as he floated in mid-air. At that moment, his eyes were tightly shut and balls of grey mist were surrounding him as they entered his body bit by bit.

Xiu's weakness made his body turn illusory.

Shen Yanxiao looked at Xiu and unconsciously felt her nose turning sour.

She quietly walked over and grabbed Xiu's left hand.

"I will get through this. I will wait for you to wake up, but you must wake up soon." Shen Yanxiao wanted to hold Xiu's hand tightly, but she was afraid that she would injure his weak soul if she used too much strength.

When it rains, it pours. Shen Yanxiao was strong in front of others, but only she knew that it was a matter of life and death.

Xiu was in a deep sleep, which meant that she would lose her most important trump card.

Along the way, she had arranged a lot of harassment for the four-nation alliance, just to consume more of their forces.

Even so, the disparity between the two was still huge.

That was the most difficult problem Shen Yanxiao had ever encountered.

"In the past, with you here, I would always like to ask you all the crucial questions. Now that you are asleep, I can only deal with the four-nation alliance myself. I wonder if you will be satisfied with my current actions after you wake up." Shen Yanxiao seemed to be talking to Xiu, but also to herself.

There was so much external pressure on her, and she could only feel a moment of tranquility and peace when she was by Xiu's side.

Shen Yanxiao quietly looked at Xiu as if he was still awake.

When Xiu was around, she could never sense her dependence on him. However, once he fell asleep, she realized how disappointed she was when she subconsciously asked a question in her heart without getting any response.

Habit was a terrifying thing. After Shen Yanxiao reincarnated, she had become accustomed to Xiu's existence.

No matter how seldom their conversations were, Shen Yanxiao was well aware that he was there, whether Xiu spoke or not.

In her heart.

### **Chapter 1509: Decisive Battle (1)**

In the face of countless traps, the four-nation alliance directly utilized their magical beasts. Even though they managed to avoid the loss of human soldiers, it still caused them heartache.

Military orders must be obeyed. They could only look on helplessly as their magical beasts fell into the trap and wailed in pain.

Finally, the armies of the four-nation alliance arrived at the city.

Hundreds of cannons were ready on the city walls. Dozens of siege weapons could be seen on the walls.

When Jiang Wan and the others saw those siege weapons, their faces turned black.

Even a fool would know that those siege weapons were the ones that the Blue Moon Dynasty had lost.

An unprecedented battle was about to begin.

Shen Yanxiao stood on the city wall and looked at the dense army outside the city.

After more than a month, she used eleven cities to exchange for more than a million soldiers and more than eight hundred siege weapons.

Now that they had arrived at the four-nation alliance, only half of their forces remained.

Qi Xia and the others wore light armor and stood beside Shen Yanxiao. Behind them were the mercenaries of the Cave Wolves Mercenary Group.

"This day has finally come." Shen Yanxiao took a deep breath and looked at the gray sky of the Forsaken Land.

"Victory is life, defeat is death. We vow to live or die with Sun Never Sets!"

Within the city walls of Sun Never Sets, the soldiers and demons who were ready to set off quietly listened to Shen Yanxiao's declaration. This was a battle of life and death.

"You call me Lord, Lord of the Forsaken Land. But today, I will tell you that the Forsaken Land does not belong to me alone. Every human and demon here has personally joined the founding of this land. It belongs to all of us! Today, we are about to face the armored horses of the four-nation alliance. Outside

the city, millions of soldiers are waiting for us. We do not have any advantage in numbers, but we will not lose to anyone in terms of beliefs! This land belongs to us, and we will defend it with our own hands! We will drive all the invaders out of the Forsaken Land! I swear that as long as I am alive, I will not leave this place!" Shen Yanxiao vowed in a loud voice. She would not retreat. She would live if Sun Never Sets was here, and she would die if Sun Never Sets was breached!

If the armored horses of the four-nation alliance wanted to enter Sun Never Sets, they could only step on her corpse!

"We are willing to live and die with Sun Never Sets!" A deafening roar echoed in the sky. Everyone was determined to die.

This was their land and they would never allow the four countries to trample on it!

Shen Yanxiao took a deep breath and said in a loud voice, "Freud, Enchantress, Jia He, Jia Lan, Tian Qiu, Zhong Ling, Qiao Chu, lead all the demons and be on standby at all times. Once the artillery fire starts, charge into the four-nation alliance through the underground passage. I will catch them off guard!"

"We accept your orders!" The seven advanced-ranked demons knelt on one knee and pressed their right fists against their chests.

"Qi Xia, Yan Yu, Yang Xi, Nazhi, Xiaowei, after the artillery fire starts, summon your mythical beasts with me and attack the enemy."

"Understood!"

"Members of the Cave Wolves Mercenary Group, summon your magical beasts and be the vanguard. Lead the people in the city and kill the enemy with us!"

"Understood!"

Shen Yanxiao turned around and faced the millions of warriors outside the city walls. She raised her arm and gave the order.

"All cannons and siege weapons, attack at once!"

### **Chapter 1510: Decisive Battle (2)**

For a moment, the sounds of gunfire could be heard. The four-nation alliance and the Sun Never Sets began to exchange fire with each other's heavy weapons.

The four-nation alliance concentrated their firepower on the city walls in an attempt to open a gap.

Sun Never Sets was not like other cities. Other than the sturdy city walls, its protective shield was also a huge blow to the four-nation alliance.

Only by destroying the protective shield could they directly attack the city walls.

The number of heavy weapons Sun Never Sets had was far fewer than the amount the four-nation alliance had, but they were equally matched against the four-nation alliance when considering the protective shield.

The siege weapons modified overnight by the Azure Dragon Family had a much longer range than before. As a result, these siege weapons focused their firepower on the soldiers behind the four-nation alliance's siege weapons.

Huge boulders fell one after another. It could crush a group of soldiers to death in an instant. The boulders doused with flames continued to roll after they landed on the ground, leaving deep marks on the dried up ground.

The four countries were in an uproar.

"How did Shen Yanxiao do it?" Jiang Wan stared at the modified siege weapons. Even though there were no changes in their destructive power, the range was too savage! The range of their siege weapons was dozens of meters longer than their own siege weapons. The boulders they threw directly flew over their siege weapons and bombarded the soldiers behind them.

As a result, the majority of their troops did not dare to stand too close to the siege weapons. As a result, their formation was directly disrupted. As a result, after the soldiers near the siege weapons died, it would take a long time for them to send out new soldiers. During this period of time, the siege weapons were incapable of attacking, causing them to become the target of the cannons.

"Damn it! If this continues, our siege weapons will not be able to hold on before their protective shield is broken!" Qu Xun stomped his feet in anger. It was one thing for his siege weapons to be used by the enemy, but they had also been modified to be so savage. Wasn't this simply asking for trouble?

"When will the siege weapons arrive?" Shi Heng pulled a long face. It would be disadvantageous for them if this continued.

"It will be soon. It will arrive in half a day at most," Luo Xuan wiped his cold sweat as he said.

They had thought of Sun Never Sets too simply. The defenses of Sun Never Sets were definitely the strongest among all the cities in the Brilliance Continent. Coupled with those cannons and modified siege weapons, it was practically an unshakable fortress.

"We can't wait that long. Immediately inform the other three commanders to mobilize the mythical beasts. Artillery and siege weapons cannot attack flying magical beasts. We must have the flying magical beasts attack from above and break the protective shield of Sun Never Sets." Shi Heng gritted his teeth. The fighting strength of Sun Never Sets was absolutely beyond their imagination.

If they were to continue delaying, they would not be able to keep these hundreds of siege weapons of theirs.

At that time, they would become meat on a chopping board, and Shen Yanxiao and the rest would slaughter them.

The commanders of the four countries immediately reached a consensus, and twenty over aerial mythical beasts were suddenly summoned.

Among the millions of soldiers, the twenty plus huge mythical beasts were exceptionally eye-catching as they roared out loud.

Twenty plus aerial mythical beasts suddenly rose into the sky and circled around the artillery and siege weapons as they flew towards Sun Never Sets!

How spectacular was that scene?
