

## **The Good 1521**

### **Chapter 1521: Decisive Battle (13)**

Demons with good teamwork were simply a nightmare.

The armies of the four-nation alliance were instantly broken apart by the demons from the central position. Although the soldiers had rekindled their fighting spirit under the Sage's instigation, the demons' assault was more terrifying than they had expected.

The war between Sun Never Sets and the four-nation alliance had begun.

Countless demons and human soldiers faced off against each other. Roars rose and fell!

This was an earth-shattering battle. Demons were not afraid of death as they attacked the invading enemies, and the humans were fighting to protect their homes.

Both sides held onto their beliefs and refused to back down.

After the four-nation alliance integrated, the demons were engaged in a bitter fight. No matter how powerful their fighting strength was, they were faced with an enemy several times their numbers. Besides, other than those soldiers, those summoned magical beasts had also dealt them a fatal blow.

The numbers advantage soon revealed some results.

The low-ranked demons fell one by one. Purple blood mixed with bright red blood soaked the land.

Freud led a group of advanced-ranked demons to fight a bloody battle. They could no longer remember how many soldiers they had torn apart with their hands. They even could not remember how many of their kind had fallen by their side.

"Have all Magus and Archers lock their sights on those advanced-ranked demons! Their fighting strength is too strong. If this continues, we will only suffer more casualties!" Jiang Wan immediately gave orders to his subordinates.

In an instant, dense rain of magic spells and arrows bombarded Freud and the other advanced-ranked demons!

No matter how powerful advanced-ranked demons were, they could not withstand the combined attacks of hundreds of thousands of Magus and Archers!

Explosive magic spells exploded on their bodies, causing deep wounds. Purple blood soaked their clothes, but they were like devils that crawled out from hell. They did not flinch as they continued to mercilessly kill the enemies around them.

A high-level demon was attacked by dozens of Magus at the same time. He wanted to break out of the encirclement but was blocked by the knight with the heavy shield.

A large-scale magic spell suddenly fell from above his head. Knowing that he was incapable of escaping, he looked up at the sky and released a mournful roar. He gritted his teeth and used his hands to pierce through the heavy shields of the two knights, directly piercing through their chests!

When the large-scale magic spell landed, there was only a huge pool of blood on the ground!

Such a tragedy had happened countless times on this land.

The number of low-ranked demons decreased sharply. Even though the intermediate-ranked demons had rough skin and thick flesh, they could not withstand such a crazy attack. Their bodies were filled with arrows, and blood dripped to their feet with every step they took.

“Roar!!”

The dying intermediate-ranked demon released its last roar. One of them broke away from the cover of its comrades and dragged its weak body to crash into the soldiers in front of it.

The sharp swords in the soldier’s hands pierced through the demon’s flesh, but it was still unable to stop the demon’s frenzied attack. The impact and rolling of the demon’s massive body caused dozens of souls to fall into hell.

Blood and tears intertwined. The demons used their lives to declare their loyalty to Sun Never Sets!

With a loud bang, the protective shield that had been continuously bombarded for half a day finally shattered. Now, the assault of the four-nation alliance could directly reach Sun Never Sets!

Chapter 1522: Decisive Battle (14)

Once the protective shield was broken, the four-nation alliance could lock their long-range attacks on the city walls.

Once the walls of Sun Never Sets were damaged, everything would come to an end.

After half a day of fighting, there were not many siege weapons left in the four-nation alliance. If they wanted to destroy the city walls, they would have to wait for reinforcements.

This was also the last chance for Sun Never Sets to launch a counterattack. Once a new batch of siege weapons from the four-nation alliance arrived, Sun Never Sets would not be safe.

In the alliance of the four countries, the demons were fighting a bloody battle.

The battle in the Sun Never Sets had reached its climax.

After Vermilion Bird consumed the fruit of the Tree of Life, his injuries were greatly healed and his condition was even better than before.

Qilin, Azure Dragon and Vermilion Bird were the same five ancient spirit beasts, and the cooperation between them had reached the peak.

They cooperated with the two-headed phantom dragon to fight against the enemies in the sky.

A large number of casualties had occurred on both sides, and the losses in Sun Never Sets were especially severe.

Almost all the low-level magical beasts were killed!

Corpses of flying magical beasts fell from the sky one after another, making people tremble with fear.

With the protective shield broken, the people on the city walls were no longer safe. They had no choice but to retreat from the city walls. Without the support of the ground, Shen Yanxiao and the rest were in a bitter fight.

“Brothers, it’s time for us to fight!” Du Lang stood in front of the gate and looked at the mercenaries who had followed him through life and death situations for many years. The armies of the four alliances were attacking Sun Never Sets, and there was not much ammunition left for the cannons. Right now, they could only rely on their own strength to stop the enemy outside the city.

“At first, we came to the Forsaken Land only because of the Lord’s hire. But ask yourselves honestly, during your time here, have you regarded Sun Never Sets as your home? Right now, the enemy is outside the city. If you are not cowards, follow me and kill your way out! Those who cherish their lives, get lost immediately!” Du Lang shouted.

“Boss, even if you want to chase us away, we will not leave. With Sun Never Sets here, we will live. If Sun Never Sets is destroyed, we will die! We are willing to protect the safety of Sun Never Sets with our bodies!” Evil Wolf shouted.

Behind him, none of the Cave Wolves Mercenary Group members took a step back. Even if they knew that they would have to face tens of thousands of enemies the moment they left the city, they would not take a step back.

“Good! Don’t let down the Lord’s expectations of us and don’t let our magical beasts go to waste! Brothers, let’s kill our way out!” Du Lang tied the sharp sword in his hand with bandages. As long as his hand did not stop, his sword would not be lowered!

All the Knights and Swordsmen of the Cave Wolves Mercenary Group made the same choice as Du Lang.

Those who stood behind the Cave Wolves Mercenary Group had also copied their charge.

With a heavy sound, the city gates were finally opened.

The Cave Wolves Mercenary Group rode on their high-level magical beasts and dashed out of the city gates!

Demons could not protect their city alone.

They had their own dignity and honor!

Outside the city gates, the God Wind Alliance’s army had been dispatched to attack the city. They were directly attacking the Sun Never Sets army led by Du Lang!

The interweaving of blood and the sound of metal colliding was shocking!

Glory is my life!

These iron-blooded men of the Cave Wolves Mercenary Group had once again used their actions to prove their loyalty to Sun Never Sets!

## Chapter 1523: Decisive Battle (15)

After the army left the city, the gates of Sun Never Sets were closed once again. Yin Jiuchen stood at the gates and put her hands together to pray.

“God, please bless my Sun Never Sets. May the holy light shine on the warriors of Sun Never Sets. Please let them return safely!” Yin Jiuchen’s voice was choked with sobs. She was only a Herbalist, and she did not have any fighting capabilities. She could only continuously produce potions before the battle to provide for the warriors.

Now that the war had begun, she could only stand here helplessly and pray for heaven’s pity.

May God bless Sun Never Sets!

The sounds of fighting at the city gates could be heard clearly even in the city. All the non-combatants in Sun Never Sets had come to Yin Jiuchen’s side. They prayed together with Yin Jiuchen so that Sun Never Sets could survive this crisis.

From time to time, corpses of flying magical beasts would fall from the skies. Some belonged to their side while others belonged to the enemy.

The death of every magical beast cast a shadow over the people in Sun Never Sets.

The entire Sun Never Sets was filled with a strong smell of blood.

The clean ground had been dyed red by the blood of the flying magical beasts, and the mountain of corpses was a ghastly sight.

Ye Qing stood beside Yun Qi and looked at the battle in the sky. For the first time, he felt vexed.

He was vexed that he was only a Herbalist without the strength to truss a chicken. Why couldn’t he lend a helping hand to his student?

What number one Herbalist in the Brilliance Continent?

At that very moment, Ye Qing would rather use his talents in herbalism in exchange for a mythical beast that could turn the tide and kill the enemies in the sky.

“The protective shield has been broken. Everyone else, attack the siege weapons of Sun Never Sets at once!” After the aerial forces of the four-nation alliance realized that the protective shield of Sun Never Sets had been broken, they immediately dispatched a portion of their forces to bombard the city.

Countless magical attacks struck those siege weapons, and the eighty over siege weapons were instantly destroyed.

The sounds of gunfire were deafening. The low-ranked demons guarding the base gritted their teeth as they endured the vibrations of the city walls and the explosions in their ears. They were so anxious that their eyes turned red as they continuously loaded bullets.

They knew that in the alliance of the four countries, their people were fighting a bloody battle!

“We can’t let them attack the cannons!” The moment Shen Yanxiao saw the enemy’s aerial troops, she immediately knew that things were not looking good. She immediately ordered Vermilion Bird to fly into the sky and use flames to expel all the aerial magical beasts that were attacking the city!

The flames of war spread and those who fought for their beliefs advanced triumphantly!

Outside the city, Tang Nazhi, Li Xiaowei and Yan Yu had already summoned their mythical beasts.

These three massive beasts were similar to three bulldozers as they caused a bloodbath in the God Wind Alliance’s army!

The mythical beasts sent by the four-nation alliance this time were all aerial magical beasts. Those magical beasts had been sent to the skies and the earth would be the main battlefield for the three mythical beasts!

Tang Nazhi directly jumped down from the Black Tortoise’s back. He wielded his sword with both hands and slashed at the hundreds of soldiers in front of him. A crack appeared on the withered ground!

The Black Tortoise released a low roar. With the earth element, it could mobilize all the soil in the land.

Sharp earth thorns sprang out from the ground, instantly killing hundreds of soldiers!

#### **Chapter 1524: Decisive Battle (16)**

Yan Yu waved his staff incessantly and a holy shield enveloped the soldiers of Sun Never Sets. The White Tiger had torn apart all the enemies that attempted to approach him!

In a battle, the existence of a top Priest could change the situation!

Orochi, who had a wild personality, had completely broken free from its shackles of the past. Its hideous heads continuously sprayed poisonous green flames at the soldiers in all directions.

Li Xiaowei stood in the middle of Orochi while holding the bow Shen Yanxiao had given him.

Seven Star Shooting the Moon!

Explosive Arrow!

Arrows flew out from his bowstring one after another. No arrows missed!

Every arrow shot took away a soul.

Behind Li Xiaowei, Shen Jiawei continued to shoot with his bow. His skills were not as brilliant and precise as Li Xiaowei’s, but he could still deal fatal blows. When the Sun Never Sets was in a life and death situation, he resolutely stood on Shen Yanxiao’s side and fought alongside her!

Vermilion Bird drove away the flying magical beasts that wanted to attack the city while Taotie pulled on Shen Yanxiao’s clothes with a pale face.

“Master, let me go.”

“You can take it?” Shen Yanxiao looked at Taotie’s complexion that had yet to recover.

Taotie firmly nodded.

“Vermilion Bird, fly outside the city walls.”

Vermilion Bird followed Shen Yanxiao’s instructions and swiftly arrived outside the city walls, then he lowered his altitude.

Taotie took one last look at Shen Yanxiao before suddenly jumping down from the sky!

A blinding light exploded in mid-air.

All of a sudden, an ancient ferocious beast that was similar to a huge mountain reappeared in the world!

“Roar!!”

An earth-shaking roar indicated the arrival of a demon!

The killing intent hidden in Taotie’s scarlet eyes was revealed!

Compared to the size of Taotie, even the largest of the five spirit beasts, the Black Tortoise, could only be left in the dust!

The moment Taotie landed on the ground, he stepped on thousands of soldiers from the four-nation alliance. He did not stop. Instead, he roared and dashed towards the base camp of the four-nation alliance!

His objective was those dozens of siege weapons that remained!

“It’s Taotie! It’s really Taotie! How is this possible!” Shi Heng could not believe his eyes.

The size of Taotie was astonishing. The siege weapons that were several stories high could not even reach his limbs!

Such a huge beast was not something they could contend against in a short time!

All the creatures that stood in the way of Taotie would be crushed into mincemeat by this living weapon!

The indestructible siege weapons had become a joke in front of Taotie. With a sweep, he smashed those remaining siege weapons into dust!

“A holy beast! It’s a holy beast! Immediately recall half of the mythical beasts in the sky above Sun Never Sets. Only they can stop Taotie. Otherwise, we’re doomed!” Jiang Wan’s complexion turned deathly pale. He had guessed Taotie’s identity, but he did not guess his strength correctly!

Demons had launched a surprise attack on their camp, and the army of Sun Never Sets was fighting with their lives on the line. And right now, another holy-level Taotie had appeared!

In the face of a holy-level magical beast, other than the second class expert that could inflict a certain degree of damage, all other attacks were useless!

If they did not bring back a portion of their mythical beasts to fight against Taotie,

They would probably die before Shen Yanxiao died!

**Chapter 1525: Decisive Battle (17)**

After receiving the summons from the four-nation alliance, half of the aerial forces hovering above Sun Never Sets immediately withdrew. They were eager to rush to the front line to fight against Taotie!

With the departure of these forces, the pressure on Qi Xia and the rest decreased sharply!

Qi Xia's eyes were bloodshot. He did not need to chant as he frantically cast a large-scale magic spell. Whenever his magic power was depleted, he immediately drank a Magic Awakening Potion. In his interspatial ring, there were hundreds of potions that could recover his magic power!

Large-scale magic spells fell one after another and blasted the flying magical beasts of the four-nation alliance!

Qi Xia narrowed his eyes and searched for someone in the chaotic battlefield.

"Qilin, let's go and kill that bastard!" Qi Xia coldly curled his lips, and his eyes that filled with killing intent locked onto that wind snake.

The man who was controlling the wind snake to kill the flying mounts of Sun Never Sets did not realize that he had provoked a demon.

He made use of the wind snake's dexterity to kill the flying mounts of Sun Never Sets in the air and cruelly admired the appearance of those magical beasts whose nerves had been corroded by the wind snake's poison as they struggled to survive, which they were then torn into pieces by the other flying magical beasts of the four countries.

Before he noticed it, a ghost-like shadow had arrived behind him!

After killing a griffin, the wind snake hovered in the air. The man looked at the griffin with satisfaction.

However, at that very moment, the wind snake was pulled back by a huge force.

The man turned his head in panic and saw a figure descending from the sky before landing behind him in an instant! At that very moment, his wind snake was being bitten by the kirin!

"Damn it!" The man growled and immediately ordered the wind snake to bite the Qilin.

Qi Xia held onto his staff and looked at the panicking man. He did not care about the wind snake biting the Qilin.

Soon after, the man calmed down a little and looked at Qi Xia with his staff in doubt.

Did this Magus have a screw loose in his head? He actually came to his side?

The man was a Swordsman, so he did not have the slightest fear when facing a Magus a few steps away.

In his opinion, a Magus without the advantage of distance was basically trash without the strength to truss a chicken. Once a Swordsman approached them, only death awaited them.

As for that idiot, he had sent them here himself!

"You are an important member of Sun Never Sets, right? If I were to kill you, I believe Elder Wen will reward me handsomely." The man licked his lips as he looked at Qi Xia with a vicious gaze.

Qi Xia curled his lips and looked at the conceited man. "Kill me? Sure, I'll let you kill me."

The man suddenly lifted his heavy sword and slashed towards Qi Xia. With a cold expression, Qi Xia slightly turned his body at a speed so fast that the opponent could not react in time!

The instant the man brushed past him, Qi Xia reversed his staff and directly pierced the man's chest with the sharp end of the staff.

Fresh red blood spurted out from that man's chest. Seeing this, Qi Xia sneered and pulled out his staff as he looked at the man convulsing on the wind snake.

"I didn't want to do it myself. It's your fault for being blind. You shouldn't have hurt her. Rest assured, I won't let you die so easily." A devil-like smile blossomed on Qi Xia's lips. Then, a ball of ice-blue magic power was brewed in his palm and forcefully stuffed into the man's body.

"Have a taste of the thrill of lightning penetrating your body."

### **Chapter 1526: Battle Between Life and Death (1)**

Blood stained the battlefield. The battle had inflicted heavy damage on the Sun Never Sets and the four-nation alliance, but it was not over yet.

The forces of Sun Never Sets were gradually eroded, and the four-nation alliance relied on their own strength to launch continuous assaults.

Taotie was surrounded by five mythical beasts. Black Tortoise and Orochi were fighting against two mythical beasts respectively. Even White Tiger had no choice but to fight against the mythical beasts that had rushed forward, in order to protect Yan Yu.

Yan Yu could no longer remember how many bottles of Magic Recovery Potion he had drunk. His hand that was raising his staff was aching to the extent that it was numb, and his senseless arms could only keep on waving around. Each more cast of the Sacred Shield would save a soldier's life. He could not stop, and he did not dare to.

Priests were the guarantee of survival for all professions. Only when a Priest was alive would others have the hope to survive.

Yan Yu's complexion was deathly pale. He was born with a weak physique and he had an incurable disease. In such a high-intensity battle, he had nearly suffered from a relapse time and time again, but he had forcefully suppressed it with healing potions. Even though the corner of his mouth had lost its color, he still did not give up on casting healing magic.

The Seven Wolves were soaked in blood and their high-level magical beasts were riddled with scars. Magic Wolf and Sleep Wolf, who were far away in the four-nation alliance's camp, had joined the demons. As the only Priest, Sleep Wolf had more responsibilities than anyone else.

At that very moment, Sleep Wolf's left hand had been cut off, with only a small piece of flesh still connected. However, he did not have the time to check on his injuries. After drinking a bottle of Blood Clotting Potion, he continued to wave his staff.

He was the only Priest here. His heart was filled with hatred as he watched those familiar demons die under the enemy's butcher knife.

Magic Wolf had always been guarding Sleep Wolf. When Sleep Wolf was slashed, he forcefully used his other hand to pull the sword away. The five fingers of his hand that held the sword had been cut off by the sharp blade, but he still did not give up.

Demons were willing to shed their last drop of blood for Sun Never Sets, so they could not be afraid!

Uncle Nine led the group that escaped from the Graveyard of the Sun and fought their way through the four-nation alliance.

The low-ranked demons were nearly all dead, the middle-ranked demons were all injured, and even a lot of advanced-ranked demons had died. If they did not open the encirclement, all the demons in Sun Never Sets would probably die here!

The entire battlefield was suffused with a thick scent of blood, causing their sense of smell to have completely disappeared.

Shen Yanxiao led the flying magical beasts to defend against the enemy. She understood that the current situation was not good.

There were only so many troops in Sun Never Sets. How many people could make it back alive?

The color of blood filled the skies above Sun Never Sets. Shen Yanxiao's eyes were bloodshot, and the arrows in her hands did not stop for a single moment.

Kill! Kill! Kill!

Swords and swords intersected as flesh and blood splattered everywhere.

This was a real bloodbath!

Just as Sun Never Sets fell into a bitter struggle, two Phoenix cries pierced through the clouds!

Little Phoenix that was lying on Vermilion Bird's head excitedly scuttled out and opened its mouth as it let out rapid chirps.

Shen Yanxiao's heart skipped a beat. She looked up at the source of the voice.

In the sky not far away, two Phoenixes bathed in fire rapidly flew towards Sun Never Sets!

On one of the Phoenixes, Shen Yanxiao saw a familiar figure!

It was a young man who had just grown up. His slender figure was somewhat thin, but it was filled with fury that could destroy the world.

### **Chapter 1527: Battle Between Life and Death (2)**

"Xiao Feng..." Shen Yanxiao looked at Lan Fengli who had grown up and her eyes were filled with excitement.

Lan Fengli returned at top speed with the two Phoenixes. The two Phoenixes shot out blazing flames and killed all the flying magical beasts of the four-nation alliance!

“Sister.” Lan Fengli looked at Shen Yanxiao. When his gaze fell on the wound on Shen Yanxiao’s shoulder, killing intent exploded from his eyes.

“Sister, Xiao Feng is back. Can Xiao Feng kill these people for you?” Lan Fengli looked at Shen Yanxiao with heartache. She was his sister, and she should not have been treated like this.

“Sure,” Shen Yanxiao smiled and said.

Lan Fengli smiled and suddenly leaped down from the Phoenix.

As he fell from the sky, a huge ball of light exploded beneath him!

When the light faded, a huge magical beast suddenly appeared beneath Lan Fengli!

The moment the magical beast appeared, Taotie seemed to have sensed something and immediately released a heaven-shaking roar!

“What’s that?” Jiang Wan stared at the magical beast that was as huge as Taotie and could not believe his eyes!

When did Sun Never Sets have another holy beast?

Shi Heng’s complexion turned deathly pale and his lips trembled as he said. “Dhole head and dragon body, similar to a dragon but not a dragon... ancient vicious beast... Yazi!”

Yazi!

Similar to Taotie, he was the son of the Dragon God!

Ranked as an ancient vicious beast!

“Roar!” Hearing Taotie’s roar, Yazi roared in response.

Lan Fengli jumped down from Yazi.

“Yazi, I’ll let you kill to your heart’s content today!”

With that said, Lan Fengli disappeared.

He would not let off anyone who dared to harm Shen Yanxiao!

The skinny young man was like a bolt of lightning as he dashed into the battlefield. Wherever he went, all the soldiers of the four-nation alliance were beheaded in the blink of an eye!

A blood-colored gale spread under Lan Fengli’s hands!

The god of killing had awakened, and it was as if the sun had been extinguished!

“Damn it! Who is that young man!” Elder Wen trembled as he looked at the young man who swept across the entire battlefield. Hundreds of people besieged him, but he killed all of them in the blink of an

eye. The number of corpses piled up under his feet had even exceeded the number of people the Seven Wolves had killed together!

Lan Fengli was ready to kill, and no one could stop him.

There was only one thought in his mind!

Kill everyone in the four countries!

Leave none alive!

With the addition of Lan Fengli, the Phoenix couple, and Yazi, the entire situation was reversed in an instant.

In the sky, the perfect cooperation between the two Phoenixes caused the four-nation alliance's aerial troops to complain incessantly.

On the ground, Yazi roared and rampaged. The four-nation alliance could no longer find another batch of five mythical beasts to stop the murderer!

The pressure on Taotie and the other mythical beasts decreased sharply and the counterattack of Sun Never Sets officially began!

With the two holy beasts clearing the way, the alliance of the four countries was instantly defeated. Du Lang and the others met up with Freud and the rest who were surrounded, and the battlefield merged together.

The few mythical beasts of the four-nation alliance that were struggling at death's door had already returned to the horizon after Taotie and Yazi collaborated with each other!

Even their corpses had been devoured by Taotie!

Taotie, who possessed the ability to devour and absorb magical cores, had his strength increase after devouring the magical cores of seven mythical beasts. All his injuries had healed in the blink of an eye!

The nightmare of the four-nation alliance had arrived. Before their reinforcements arrived, they were doomed to fail.

### **Chapter 1528: Battle Between Life and Death (3)**

The soldiers of Sun Never Sets were unstoppable, and the four-nation alliance was losing ground.

Above Sun Never Sets, the aerial forces of the four-nation alliance were no match for Shen Yanxiao and the rest. They could only retreat a little by little in defeat.

Seeing this, Shen Yanxiao finally relaxed.

Sun Never Sets finally ushered in the dawn of victory.

Within the four-nation alliance's camp, the Sage from the Broken Star Palace narrowed his eyes and looked at the miserable state of the four-nation alliance as they retreated in defeat.

“Sage, we can’t hold on any longer!” Qu Xun looked at the Sage with tears and snot streaming down his face. Right now, they could only pin their hopes on the Broken Star Palace.

“I wonder if the Broken Star Palace has any assistance for us?”

The Sage shook his head.

In an instant, the four commanders felt their hearts turn cold.

Did the Broken Star Palace really intend to stand by and do nothing?

Which of the four countries had not been instigated by the Broken Star Palace? Even though they did not see many people from the Broken Star Palace, they still had some hope deep down that if they were to lose, the Broken Star Palace would not ignore them.

However, when the dawn of defeat was coming, they clearly realized it.

The Broken Star Palace did not intend to care about their lives.

“Shen Yanxiao’s strength has exceeded our expectations. She is lucky this time. However, Sun Never Sets has suffered a great loss and our Broken Star Palace will certainly eliminate them in the future. Don’t be too desperate. If we can consume more of Shen Yanxiao’s forces, it will be easier for our Broken Star Palace to take revenge for you in the future.” The Sage spoke with a strong sense of righteousness. Three million soldiers had become the sacrificial lamb in his mouth.

The words of the Sage filled the four commanders with fury!

The Broken Star Palace was obviously using them as cannon fodder. It was very likely that they were the cannon fodder the Broken Star Palace used to test Shen Yanxiao’s strength!

It would be best if they could eliminate Shen Yanxiao. If it was not possible, the Broken Star Palace could still obtain more information about Sun Never Sets from this battle.

The Sage was not there to assist them. He was there to observe the situation in Sun Never Sets!

Hatred!

How could they not hate him!

The lives of more than three million people were actually used to scout for others!

Ridiculous! Pathetic!

Jiang Wan was furious, but he still retained a trace of reason.

Now was not the time to fall out with the Broken Star Palace. They had already lost a lot of troops in this war. If they were to fall out with the Broken Star Palace at this time, it would probably implicate the entire country!

The other three had the same thoughts as Jiang Wan. They had a bellyful of anger, but they did not dare to utter a sound.

Up till now, Sun Never Sets had used up all its trump cards. The Sage had obtained all the information he needed and foresaw the final defeat of the four-nation alliance.

“I’ll take my leave first. You can decide for yourselves what you want to do. If Shen Yanxiao has too much strength left, I believe she will retaliate against your country once she recuperates. Whether you want to escape or fight to the death will depend on your choice.” The Sage left a threat and turned to leave.

Shi Heng tightly gripped the hilt of his sword and did not slash him to death.

The Broken Star Palace had forced them to stand against Shen Yanxiao. They were well aware that the Sage’s words were not as simple as a threat. That girl would really do that!

“Damn it! Are we going to be used by the Broken Star Palace just like that? Those are our soldiers!” Shi Heng roared in anger. At this point, he did not dare to escape or withdraw his troops. Once Shen Yanxiao caught her breath, the God Wind Alliance would suffer!

#### **Chapter 1529: Battle Between Life and Death (4)**

The four commanders felt as if their hearts had turned to ashes. Seeing that their defeat was certain and that they had been dealt such a blow by the Broken Star Palace, they felt like dying.

But to escape?

They did not dare to. They did not dare to use the survival of their country as stakes.

Once Shen Yanxiao recovered, she would certainly take revenge on them. The cities in their country were not as sturdy as Sun Never Sets.

From the looks of it, whether they wanted to continue to be enemies with Shen Yanxiao or not, they had to continue fighting.

The four-nation alliance had been pushed back, and there were countless dead bodies on the ground.

The army of Sun Never Sets advanced like a hot knife through butter.

Long Yue had been protected at the rear of the army, and Jiang Wan had also placed one of his strongest teams under him.

Long Yue had witnessed the entire battle with no expression on his face. At that moment, as the army was forced to retreat step by step, he directly walked to Jiang Wan’s side, despite the soldiers obstructing him.

Jiang Wan looked at Long Yue in surprise. “Your Highness, this is not a place you should be!”

Long Yue looked at Jiang Wan and said, “Since you’re about to lose, why continue?”

He could see that the four-nation alliance no longer had any hopes of victory. There were only five mythical beasts left among the twenty plus mythical beasts, and all of them were seriously injured. Their siege weapons were gone and their soldiers were either dead or injured. There were less than 800,000 soldiers left from the three million strong army.

There were still two holy beasts and eight mythical beasts on the opposite side. They would undoubtedly lose this battle.

Jiang Wan's expression was ugly. How could he not know that he had lost this war?

"Failure is inevitable, but if we don't continue now and leave Shen Yanxiao with a chance to breathe, she will definitely retaliate against us in the future." At that time, the armies led by the two holy beasts and eight mythical beasts would bring about destruction to the Longxuan Empire.

Long Yue chuckled.

"General, you are familiar with the art of war. The battle between Sun Never Sets and us today has taken a toll on her. Shen Yanxiao will not be able to make a comeback in a month or two. During this period, she is recuperating. Can't we do the same? But now that you are deciding to fight to the death, Shen Yanxiao has no choice but to kill us." Long Yue had once stayed in Sun Never Sets for a period of time. He had also met with the key figures around Shen Yanxiao.

"Right now, all of Shen Yanxiao's confidants are still alive, so we still have a chance to turn things around. If this continues, there will definitely be casualties and at that time, it will truly be a fight to the death."

Jiang Wan looked at Long Yue in surprise. He did not expect that this young prince could see that.

"In the end, we are merely benefiting the Broken Star Palace. Are you still going to continue to be bewitched by the Broken Star Palace?"

"But... even if we retreat now, we will still lose a lot," Jiang Wan said.

"If we retreat now, Shen Yanxiao will only have hatred for us. If we don't retreat now, she will massacre us to the last man standing." Long Yue sighed. From the very beginning, he did not wish for this war to happen, but he knew that he could not change anything with his abilities.

However, he honestly did not wish to see Jiang Wan and the rest continue to be obstinate.

If Shen Yanxiao were to be pushed into a corner, he believed that even after the war ended, Shen Yanxiao would dare to bring a few holy beasts and mythical beasts to the capital of the four countries to start a massacre.

Jiang Wan gritted his teeth. Long Yue's words were not without reason. He knew that this grudge had been formed, but he did not wish to see his soldiers die a tragic death.

### **Chapter 1530: Battle Between Life and Death (5)**

Jiang Wan struggled for a long time before he decided to discuss with the other three commanders.

In fact, none of them wanted to continue fighting.

They had already lost. And right now, they were only struggling at death's door. It was also because of what the Broken Star Palace said that they still had lingering fears.

However, Prince Long Yue's words allowed them to regain some rationality.

In the end, they decided to retreat!

The armies of the four-nation alliance began to retreat. Seeing this, Shen Yanxiao did not order her men to continue their pursuit.

The commanders of the four countries pitied their soldiers, and Shen Yanxiao was even more so.

“Finally, I made it.” Shen Yanxiao sat on Vermilion Bird’s back as if her body had fallen apart.

This war was the most intense fight she had ever gone through since her rebirth.

Shen Yanxiao felt her heart ache as she looked at the corpses on the battlefield.

These people and demons had sacrificed themselves for Sun Never Sets.

If it were not for them, Sun Never Sets would undoubtedly be defeated!

When the armies of the four-nation alliance retreated, Sun Never Sets cheered.

It was as if all their strength had been sucked out. They were still fighting bravely a moment ago, but at that very moment, all of them were paralyzed on the ground. All of them could not help but burst into tears as they looked at the corpses on the ground.

Those who had fallen here were all their family and friends. Yesterday, they had been drinking and chatting happily, but starting from today, they would be separated forever.

War was always cruel. It could take away many lives in an instant.

“Finally, we’ve won...” Du Lang looked up at the gray sky. This was the first time he felt that the sky was so beautiful ever since he entered Sun Never Sets.

“Bring the wounded back to the city for treatment at once!” Shen Yanxiao came to the battlefield and immediately gave the order without any time to feel depressed.

Some of them were seriously injured and if they were not treated in time, it would probably lead to more deaths.

The war had ended, and she did not want another person to die.

The tightly shut gates of Sun Never Sets were finally opened. Yin Jiuchen and the others who were praying inside looked at the scene with tears in their eyes.

Ye Qing and Yun Qi perked up and led the non-combatants to treat the wounded.

Those who still had strength lifted up their injured comrades.

They did not dare to calculate the casualties of this battle.

Batch after batch of wounded were transported to Sun Never Sets. Even though the participants were exhausted, they still dragged their exhausted bodies to support their comrades while the magical beasts silently took up the role of transporting tools.

Shen Yanxiao did not leave those who were injured and those who had died on the cold ground.

Even if they were dead, they were still heroes of Sun Never Sets. They still had to return to Sun Never Sets, to the city that they had defended with their lives.

The women in the city were already sobbing. They endured their grief and treated the wounded. As they looked at their friend lying on the ground with blood all over his body, they felt as if a knife was stabbed into their hearts.

If possible, they hoped that such a battle would never happen again.

Sun Never Sets began the post-war treatment, but the four-nation alliance was not so lucky.

They did not have a fixed camp in the Forsaken Land so as they fled back, a large number of wounded died on the way.

The hearts of the four commanders sank to the bottom. They had come with great momentum, but right now, they were fleeing with their tails between their legs like stray dogs.

The Forsaken Land had become a nightmare for all of them. If possible, they would never want to set foot in this place.
