

The Good 651

Chapter 651: A Taste of One's Own Medicine (3)

"Hey, they're here! Everyone, prepare to attack!" The members of the Fantasy Devil City finally discovered Shen Yanxiao's team. All of them revealed a cruel smile. They had killed dozens of miners with their arrows yesterday and as fresh blood dyed the ground red, their blood was boiling with excitement.

"Haha, it's an easy feat. We don't need to prepare to deal with those groups of pigs." When they had taken action yesterday, the opponent had no means of retaliating at all as they shot out at the same time, and each of them had their own targets. Thus, killing dozens of men in an instant before they retreated. There was basically no danger to speak of.

"Haha, just treat it as a hunt! However, the object of our hunt is not animals but instead, humans! Haha!"

As they saw the team gradually closing the distance, these archers rubbed their palms as they chose their targets.

When the team was about to completely enter their attack range, the leader gave a command and all the archers loaded their bows while aiming towards their targets!

Hundreds of arrows rapidly shot towards the crowd. However, just as it was about to strike their targets, all the arrows seemed to have been frozen in the air.

"This... what's going on!?" Those from the Fantasy Devil City were all dumbstruck as the arrows they shot out were all frozen in mid-air.

A petite silhouette walked out from the crowd and her raised arm had revealed her fair skin. She pulled down her hood and revealed a cold smile as she looked at the group of people standing above the mount.

"You are the ones who attacked my citizens?" A chilly yet gorgeous smile blossomed on her gorgeous face. Shen Yanxiao had utilized Xiu's power and stopped all the arrows in the air.

The archers from the Fantasy Devil City panicked. This bizarre scene had shocked their souls out of their physical body and they forgot to immediately retreat after attacking. Instead, they were discovered by the opponent and the shock of getting discovered pulled them back to their senses. All of them did not dare to utter a single word and instantly turned around to escape.

"Thinking of leaving?" Shen Yanxiao looked at their pathetically feeling backviews and a chilly smile curled on her lips. With a twist of her slender arms, the arrows in the air changed directions and aimed at their original owners.

The next second, hundreds of arrows flew out at lightning speed with a wave of her hands and pierced through the backs of those escapers in the blink of an eye.

A series of miserable shrieks resounded throughout the skies.

Shen Yanxiao sternly commanded, "Don't let a single one go. Attack!"

The moment Shen Yanxiao issued a kill order, dozens of mercenaries summoned their magical beast at the first instance. Those demons who waited in the group seemed to have been unchained as they pounced towards those archers.

For a moment, flesh and blood spilled all over and a pungent smell of blood suffused the air.

Among the miserable screams, they could hear some people who revealed that they were from Fantasy Devil City in order to protect themselves, in hopes that the agreement between the four countries could stop Shen Yanxiao's massacre.

However, Shen Yanxiao remained standing with her hands on her back within the bloodbath. She looked at those people who were getting torn into pieces and said. "The dead don't speak. As long as all of you are dead, no one will know I did this. Moreover, I wouldn't know who had sent you."

"You can't..." Screams of protest continuously sounded and they were thoroughly torn apart the next second.

A drop of blood splattered on Shen Yanxiao's cheeks and she raised her hand to wipe it away.

"Those who commit crimes against me shall be punished regardless of the distance."

Chapter 652: A Taste of One's Own Medicine (4)

On this day, battles continuously occurred in the eastern area of the Forsaken Land. The pungent blood scent was diffused into the air as it scattered along with the wind and sprinkled on the land that had been peaceful for thousands over years.

Large amount of red blood stained the earth and added a touch of splendor to the dried up and gloomy land.

Today was an eternal nightmare for some and also the end of their lives. Those butchers of yesterday had turned into lambs to be slaughtered as they fell apart under the mythical beasts might.

In the evening, the ten teams had made it back without a single casualty and yet, they killed thousands of their enemies.

The five jerks along with their mythical beasts had returned in glory and those self-opinionated killers were merely vulnerable targets before these genius youngsters.

"How is it? Have you been attacked?" Near the gates of the city, Tang Nazhi complacently smiled as he looked at the few comrades of his.

"Of course." Yang Xi shrugged his shoulders. The moment the Azure Dragon appeared, the opponent was instantly massacred.

"It's a pity there was no opportunity for me to attack. The Qilin merely moved its hooves and they turned into a pile of meat." Qi Xia felt rather regretful. He originally thought he could have a good fight, but he did not expect the opponent to be extremely weak. His mythical beast had yet to complete his warm up and the battle had ended.

"Ha, you guys..." Yan Yu could not help but laugh.

Li Xiaowei remained silent throughout and even Orochi who stood beside him had an expression of dissatisfaction. It was as if someone had owed him hundred millions of dollars.

“Bro, why are you so depressed?” Tang Nazhi slung his arm over Li Xiaowei’s shoulder.

“We didn’t encounter any enemy today.” Li Xiaowei said.

“Ah?” Tang Nazhi blinked. The probability of him not encountering an enemy was too low. The Phoenixes, Vermilion Bird and Lan Fengli had all returned with the enemy’s blood on their hands but unexpectedly, Li Xiaowei did not meet a single enemy today.

It was only one tenth of a probability, yet he was so unlucky to have encountered it. What else could Tang Nazhi say?

It was no wonder Orochi’s face was so ugly. He originally left with the intention to fill his stomach and who would have expected that he did not even see a single strand of their hair?

“I wonder how’s it going with Xiaoxiao’s side.” Qi Xia looked at the skies. Nine out of ten teams had returned and the remaining one was Shen Yanxiao’s team.

“When had that little girl suffered a loss? Since she dared to go, it meant she had a hundred percent confidence to take down the enemy. We can just be at ease.” Yang Xi was not worried about Shen Yanxiao in the slightest. Even though her team seemed to be the weakest, even Lan Fengli that guy had returned without a single scratch. With her intellect and strength, what could possibly happen to her?

If Yang Xi knew that a certain young girl was in fact, a killing god, he would probably not be that optimistic.

The other mining members had left, but the five jerks, the Vermilion Bird, and Lan Fengli were reluctant to leave. They stood at the city gates and looked outside of the city while waiting for a certain familiar silhouette to appear.

When the sun had set halfway, a team of members had finally appeared before everyone’s line of sights.

From afar, the five of them saw the little girl who was leading the team and it was that familiar face and arrogant smile of hers that greeted them.

The Vermilion Bird transformed into a streak of light and dashed towards Shen Yanxiao. He was the only one among everyone who was aware that there was an incredibly powerful soul that resided within her. Even if something did happen to all the nine teams, Shen Yanxiao would never be injured with Xiu’s protection.

However, the fact that he was thrown into the other teams by his master made him depressed. Other people’s mythical beasts had all followed their master as they entered the battlefield, but why did his master love to kick him away?

Chapter 653: A Taste of One’s Own Medicine (5)

Shen Yanxiao’s safe return meant a complete victory in today’s attack.

Nine out of ten teams had encountered an enemy attack.

Based on the information from the other nine teams, there were some fools who threatened them with their background while they were being besieged. Out of the 9 group of enemies they encountered, two were from the Seventh Kingdom, one was from the God Wind Alliance and the remaining six were either from Blue Moon Dynasty and Fantasy Devil City.

“The Blue Moon Dynasty is still really afraid of me. To think they would send out thousands of troops to intercept us.” Shen Yanxiao had obtained a general understanding of the situation in the Forsaken Land after today’s battle.

“Even though the Seventh Kingdom and the God Wind Alliance have dispatched their men, they were basically there to cause some disturbance. The casualties from their three groups are also on the lower end. However, the Blue Moon Dynasty’s hatred for us seems to have ingrained into their bones. They would always leave half of their men after every sneak attack.” Du Lang gathered all these pieces of information and made a conclusion.

“Based on today’s situation, even though the Seventh Kingdom and the God Wind Alliance are not happy to see our progress on the city’s construction, they did not go to the extreme. Right now, the main opponent we have to focus on is the Blue Moon Dynasty.”

Shen Yanxiao propped her chin and said with a smile, “It seems like our eight characters clash with the Blue Moon Dynasty, as if we were born to be enemies.” After a Luo Fan came and went, another Qu Rui arrived. Right now, the Fantasy Devil City had also appeared. It seemed like their fate with the Blue Moon Dynasty was predestined.

“They should not be carrying out the same attack after today’s counterattack. Even if they want to reorganize their men, I believe the Fantasy Devil City would not be able to bring out as many archers.” Du Lang carefully analyzed. Based on today’s attack, the opponents would most likely take a breather for a few days and by then, their city walls would be completed.

“For the time being? If that is the case, will they take further actions?” Qi Xia raised his brows after he heard Du Lang’s analysis. He then turned to Shen Yanxiao and said, “Your grudge with the Blue Moon Dynasty is not that simple. If you give them any time to breathe, I believe they will definitely come back and torture you. I had inquired with the people I brought along, who are all experts in city construction. Based on their estimation, with the current numbers and area of Sun Never Sets, it will take at least five months for the construction to be completed.”

“Five months?” Shen Yanxiao touched her chin. A temporary retreat was not the result she wanted. She did not wish to bear with those idiots’ harassment while she was busy with the construction of the city.

“After today’s lesson, they would at least require a month’s time to think up a new idea.” Du Lang added on.

“A month? That won’t do. We need five months to construct the city, and if we allow them to continue their harassment for five subsequent months, how are we to concentrate on the important matters?” Tang Nazhi frowned. Evidently, he had already regarded himself as a citizen of the city.

Shen Yanxiao narrowed her eyes and thought about a method to resolve future troubles once and for all. The next second, a smile curled on her lips and she said in all seriousness, “Qi Xia, Yang Yi, Yan Yu, Nazi, Little Wei, you shall accompany me tonight on a trip to the Fantasy Devil City.”

“What!”

“Why are you going there? We should be hiding from them right now! Are you trying to court death?”

“City lord, you mustn’t do that at this critical time!”

Shen Yanxiao’s suggestion was met with rejection by everyone, only the five jerks had unexpectedly remained silent.

“Rest assured, I have my own plans. I will make them obediently stay within their cities for the next five months.” Shen Yanxiao smiled as an ingenious idea had formed in her mind.

Chapter 654: The Might of Eight Mythical Beasts (1)

Shen Yanxiao had called for the five jerks and two Phoenixes before she left the city. Du Lang was very worried, whereas Jiu Shu cleverly dumped Lan Fengli together with Shen Yanxiao to go on their trip towards Fantasy Devil City.

No one knew why Shen Yanxiao brought them to the territory of the Blue Moon Dynasty. They only knew that every decision of hers would always end up with a shocking result.

For example, after the six wolves returned to the city, they still remembered the scene where Shen Yanxiao stopped hundreds of arrows with her bare hands. Moreover, she even changed the directions of the arrows. After that incident, the position of Shen Yanxiao in their hearts had evidently risen to an omnipotent God.

If not for the fact that they feared Shen Yanxiao might beat them up, they would have already jumped at her feet and worshipped her.

When they returned to the city, they immediately recounted the domineering scene of Shen Yanxiao to the other members. With their spittles flying everywhere, their vivid description had caused the other teams to thump their chest and stamp their feet in frustration for the fact that they did not personally witness their city lord’s domineering power!

Wuuuu, city lord, can you please fight once more? We would like to have a look!

Shen Yanxiao and her party rode on the two Phoenixes towards the south of the Forsaken Land.

With the Phoenixes’ full speed, they had already arrived at the gates of the Fantasy Devil City before midnight.

Even though it was late at night, the city was still bright with lights. If one had forgotten the fact that this was the Forsaken Land, it would be of no difference to a normal city when looked from afar.

Several cannons were mounted on the walls and the soldiers who were guarding the walls patrolled around. Despite the recent silence, they took their jobs seriously.

“This is the Fantasy Devil City? It’s so-so. It’s really small compared to Sun Never Sets.” Tang Nazhi sat on the back of the Phoenix, and as he looked at the city that was only half the size of their city, he snorted in disdain.

Little did they know that the surface area of Fantasy Devil City was the norm in the Forsaken Land. The Sun Never Sets was an exception of that norm that only the other four main cities could compare with it.

However, those main cities were forbidden areas, and not a single country dared to have designs on those areas.

There were over tens of thousands of demons there, so it would definitely be a difficult hassle to clear the place.

No one dared to take on the task of reclaiming the five main cities unless they were tired of living or their brain had a screw loose.

Shen Yanxiao settling the demons inside Sun Never Sets was absolutely a feat no one had ever seen before!

“Xiaoxiao, don’t tell me you brought us here in the middle of the night to enjoy the night view?” Yang Xi chuckled.

Shen Yanxiao raised her brows and said, “Enjoy the night view? No, we’re here to display our might!”

The next second, Shen Yanxiao waved her hand. As the Vermilion Bird was connected with her, he immediately understood her intentions and transformed into a flame that hovered in the skies. The dazzling flames lit up the skies, reflecting the red clouds.

“Display of might? I like it.” Qi Xia smiled and directly summoned Qilin!

A golden light shone and a large beast gradually formed in the skies. A turbulent wave was formed as a loud furious roar sounded through the skies. The water element within the air instantly condensed into silver clouds as it hovered around the golden light.

After the light faded, a golden Qilin suddenly appeared in the skies. A dragon head, a tiger’s back, a deer’s body and golden scales could be seen all around its body. Its feet stepped on four different clouds and his figure was just like a large mountain!

“It seems like we can’t stay idle either.” Yang Xi stood up from the Phoenix and immediately summoned the Azure Dragon.

In an instant, lightning flashed and thunder roared, brightening up the entire horizon. After which, a huge dragon peeked out from the clouds.

As it hovered in the skies, its dragon claws seemed to be grabbing onto lightning bolts!

Chapter 655: The Might of Eight Mythical Beasts (2)

“Are you bullying my White Tiger just because he can’t fly?” Yan Yu could not help but laugh as he stood up and summoned the White Tiger with a wave of his hand.

A blinding white light the shape of a ball descended down the earth and its dazzling light spread around its surrounding. When the light faded, a massive White Tiger the size of a city suddenly appeared.

“No worries, I’m with you!” Tang Nazhi laughed out loud as he leaped down from the Phoenix.

The ground of the Forsaken Land was shaking intensely, before a large beast broke through the dried earth and emerged above ground. The Black Tortoise that was similar to a mountain was erected before everyone, and Tang Nazhi steadily landed on its body.

Li Xiaowei hesitatingly looked up at Orochi who had a gloomy expression on his face.

Orochi sneered and said, "My opponents I have not seen over thousands of years have gathered together here today. How could I possibly lose out to them?"

A black shadow leaped up and transformed into a black mist which shrouded the earth. The next second, an eight-headed serpent appeared before their sights, and its size was no less than that of the other five mythical beasts!

Azure Dragon! White Tiger, Vermilion Bird! Black Tortoise! Qilin! Phoenix! Orochi!

Eight mythical beasts at the top of the food chain formed an unsurpassable tall mountain range. With the emergence of the eight mythical beasts in the Forsaken Land, lightning flashed, the wind roared, the earth shook, and the demons feared. At that very moment, all the magical beasts could only be subservient!

People in the Fantasy Devil City were prepared to enter their dreamlands but all of a sudden, they felt an earthquake and were baffled by it. Shortly after, the sounds of thunder crashing down and lightning flickering in the skies along with the howling of the wind followed.

The abnormal phenomenon caused everyone to wake up from shock and look out at the half bright skies in panic.

"Is there an earthquake?"

"F*ck, it's an earthquake! Run!"

Sounds of screams echoed from each house and the quiet Fantasy Devil City was instantly in chaos.

Geng Di woke up from his sleep due to the noise and the bodyguard stationed at his door was trembling.

"What's happening outside? Did the beast tide come ahead of time?" Geng Di sensed the shaking beneath his feet and furrowed his brows.

"Reporting to the city lord. Something bad has happened outside."

Outside the city, eight mythical beasts were standing against the wind.

The guards who were stationed on the city gates had already been shocked out their wits by the appearance of the eight mythical beasts before them.

When had they ever seen mythical beasts in their lives? However, at that very moment, there were eight mythical beasts standing right outside their city walls looking extremely mighty and powerful

There were the Azure Dragon, Qilin, Vermilion Bird and the Phoenixes in the skies.

On the ground, there was the White Tiger, Black Tortoise and Orochi.

The scene made everyone suspect if they were dreaming. The mythical beasts of the legends had unexpectedly appeared at the same time. Moreover, there were... eight of them!

Some of the guards who were weak hearted had directly fainted with foam leaking out their mouths.

The citizens of the Fantasy Devil City were unable to imagine why so many mythical beasts had appeared outside their city gates, but they knew of one fact; once these eight mythical beasts decided to set themselves against their city, then there would be only one result, disaster!

The appearance of a single mythical beast was sufficient to frighten the whole city.

Not to mention eight!

Citizens of the Fantasy Devil City were all attracted by those majestic mythical beasts and a large number of them crowded at the city gates as they looked at them in fright and fear.

“Xiaoxiao, how do you wish to display our might?” Tang Nazhi stood on the Black Tortoise, and as he looked at the crowd near the city gates, he eagerly prepared himself for a fight.

“Show them the might of our mythical beasts.” Shen Yanxiao sat on the Vermilion Bird as it hovered in the skies with one raised hand.

Simultaneously, the eight mythical beasts roared in unison.

Chapter 656: The Might of Eight Mythical Beasts (3)

The cries of a dragon, a phoenix and a tiger...

The deafening cries of the beasts overturned the cannons fixed on the city walls!

The citizens of the Fantasy Devil City covered their ears and crouched down in fear from the roars of the mythical beasts.

Shen Yanxiao looked at the results in satisfaction and soon after, she lowered her hand and all the roars stopped in a split second.

As she signaled for the Vermilion Bird to fly forward, Shen Yanxiao soon arrived at the entrance of the city.

The gorgeous lady stood against the wind unyieldingly and the strong winds blew against her fine black hair. She towered from high above, looking at the crouched citizens on the ground and said, “I am Shen Yanxiao, the city lord of Sun Never Sets. Tell your city lord that when Sun Never Sets is completed, I will certainly personally pay a visit!”

Personally pay a visit!

Everyone listened to Shen Yanxiao’s declaration while trembling. Even though her words appeared to be polite, but with her current visage and tone of voice, it seemed to be more of a threat than anything.

Having their faces trampled on and allowing their opponents to toot their horns in the face of their city, Fantasy Devil City had basically embarrassed themselves to the extreme.

However, no one dared to utter a single rebuttal at that moment as it would be of no difference to seeking death.

With the emergence of eight mythical beasts, all experts had turned into dregs by comparison, so who would dare to utter a single word of rebuttal?

Shen Yanxiao looked at the silent city and a smile of absolute confidence curled on her lips before she directed the Vermilion Bird to turn around.

“Let’s go!”

With a single command, eight massive beasts orderly left the city.

One by one, the domineering mythical beasts gradually disappeared from their vision. But even until Shen Yanxiao and her party had gone far away, the citizens in the city were still too afraid to move.

Geng Di who was surrounded by a group of bodyguards arrived late, and as he looked at the citizens gathered near the gates, he revealed a gloomy expression.

“What the hell is going on!” Geng Di hollered.

The guard in charge of the city gates frantically ran down from the walls and came to Geng Di in a pant.

“Reporting to the city lord. Earlier... earlier on there was a girl who brought... brought eight mythical beasts to our city gates.”

“Ei-eight mythical beasts? Are you sure you are not mistaken?” Geng Di looked at the guard in astonishment as he suspected if he was still dreaming.

Was he trying to joke with him?! Was that guard playing around with him?

Which girl would be so powerful to be capable of bringing along eight mythical beasts?

“Yes, I am certain. Everyone at present had seen it clearly.”

Geng Di gasped. He could not imagine which force had the capability to gather eight mythical beasts. Solely based on the Brilliance Continent alone, the number of mythical beasts every country possessed was within single digits. Eight was basically the total sum of mythical beasts a single country possessed!

“Where’s the mythical beasts and the girl?” Geng Di had difficulty breathing. Regardless of the girl’s identity, with such a powerful lineup of mythical beasts behind her, he could not afford to offend her no matter what!

“She... she left...”

“Left?” Even a clever man like Geng Di could not understand the purpose behind her actions. She came to their city gates in the middle of the night with eight mythical beasts, but in the blink of an eye, she returned? What did she come here for?

“She... she left a word for you before she left,” the guard nervously spoke.

“For me? What words?” Geng Di was even more confused. He did not remember meeting any such powerful person?

“She... said she is Shen Yanxiao of Sun Never Sets. Moreover, after the completion of her city, she will personally pay you a visit...”

Chapter 657: The Might of Eight Mythical Beasts (4)

Geng Di could feel his heart dropping down to the pits of his stomach.

“Shen Yanxiao from Sun Never Sets!!” Geng Di practically could not believe his ears.

No words could describe Geng Di’s current emotion. That girl who personally led eight mythical beasts and appeared before his city gates to make such a statement was none other than that Shen Yanxiao whom he had dispatched men to hinder a few days ago! The current city lord of Sun Never Sets!

“How could it be her? How? How could she possibly possess eight mythical beasts!” Geng Di could feel his head short-circuiting. The information Qu Rui had brought to him clearly stated that she only possessed two mythical beasts.

Even though two mythical beasts was something to be feared, Geng Di was not overly afraid.

After all, there was also a concealed expert with a mythical level beast in his city. Coupled with the deep foundation of his city in the Forsaken Land, he was not without power if a fight were to break out.

Therefore, with all the assurance he had, he had dared to brazenly dispatch teams to obstruct the mining teams of Sun Never Sets.

However, Shen Yanxiao’s appearance today had given him a huge tight slap on his face!

She had brought her mythical beasts to another country’s city and blatantly showed off her might.

Geng Di knew very well that she came here for a show of force and to also give a warning. She was warning him that if he continued to oppose her, she would definitely lead eight mythical beasts to flatten his city.

Even though he knew that Shen Yanxiao came to threaten him, Geng Di did not dare to resist in the slightest.

Eight mythical beasts!

The initial number had quadrupled!

Unless Geng Di had the capability to invite all the experts in the Blue Moon Dynasty who possessed a mythical beast, it was impossible for him to resist the anger of eight mythical beasts!

“Dammit. Immediately call out Qu Rui that fool! I want to ask him if he was blind to have provoked a killing god for me!” Geng Di felt extremely upset at Qu Rui and also at himself. He should not have easily listened to Qu Rui. He should have carefully tasked his men to investigate the in and outs of Shen Yanxiao. If he had done so, he would not be forced to be as passive as he was now.

With the thought that the opponent had only two mythical beasts, he had dispatched archers to intercept their mining teams!

If that was not courting death, then what?

The more he thought about it, the more fearful he felt. The reason why Shen Yanxiao had not massacred her way into the city was very likely due to the agreement between the four countries. Otherwise, she would have taken her revenge without a care for the consequences.

No eggs can remain unbroken when the nest is upset!

The entire Fantasy Devil City would turn into a sea of blood!

Qu Rui, who was in a daze, was brought to Geng Di and before he could figure out the current situation, he received two tight slaps on his face.

“Trash! You’re a piece of trash that is unable to accomplish anything but spoil everything!”

Qu Rui blanked out from the slap. He caressed his cheeks and looked at the enraged Geng Di. He did not understand how he provoked the city lord when he merely had a good night’s sleep.

“I... What did I do again?” Qu Rui hesitantly asked.

“What did you do? You still have the cheek to ask that question? Did you not mention that Shen Yanxiao from Sun Never Sets only had two mythical beasts?” Geng Di was extremely furious as he pointed at Qu Rui’s nose and shouted.

“That’s right.” Qu Rui honestly nodded. Wasn’t that something you already knew?

As a result, the moment he replied, Geng Di gave him a kick and sent him flying!

“Do you think I’m blind? How are there only two? There are clearly eight mythical beasts! Why the f*ck did you tell me there are only two!” Geng Di had always been a cautious man. If not for the fact that he believed in Qu Rui’s information, how could he have easily underestimated Shen Yanxiao?

Chapter 658: The Might of Eight Mythical Beasts (5)

Qu Rui was one sidedly beaten to the extent that he had no chances of fighting back. To add to his despair, he did not even know why he was getting beaten up. He had indeed only seen two mythical beasts at that time, so how could there suddenly be eight?

Geng Di grabbed onto Qu Rui’s ears and lifted him. He roared angrily, “Do you know because of your misinformation, we provoked Shen Yanxiao! While you were sleeping on your a*s, she personally led eight mythical beasts to my city to show her power! Do you know the concept of eight mythical beasts!? Your father can’t even protect you now that you’ve provoked a killing god!

Qu Rui was immediately flustered. He was a second-generation young master who relied on his ancestor’s virtue to enjoy a good life. He had never imagined he would provoke anyone that even his father could not settle.

However, when he saw Geng Di who always had a calm disposition getting enraged like that, he finally realized that he might have really provoked a character he could not afford to offend.

“City lord... I honestly had no idea. At that time, I only saw her summoning two mythical beasts.” Qu Rui quickly climbed on Geng Di’s leg and hugged his thigh while snivelling his snot.

He merely thought that she was beautiful, so he started to have designs on her. However, who would have imagined that the little beauty possessed such a terrifying background?

“What use is there to claim that you’re unaware now!” Geng Di had a splitting headache. Qu Rui had a certain degree of responsibility for this incident, but another part of it was because he himself had underestimated the enemy.

For a long time, there were many geniuses and elites who came and left the Forsaken Land. However, there were only a few that could establish a foundation here.

A large number of elites from the Longxuan Empire had advanced with confidence but always ended returning in defeat.

Therefore, Geng Di had subconsciously regarded them as failures and felt that having two mythical beasts was already unimaginable. How could he have imagined that Shen Yanxiao possessed all the mythical beasts in the Longxuan Empire?

“Drag him away.” The more he looked at Qu Rui, the angrier he felt. He now wished for him to get away from his sight.

The situation had already developed to this current state so it was too late for regrets now, and for Shen Yanxiao to display her might right in front of his city, she must have already discovered that the men dispatched to hinder her mining teams were from him.

Geng Di dragged his weary body back to his room while his mind was filled with anxiety.

If things were to stop at that, it would be for the best.

However, the words Shen Yanxiao left behind in the end made him feel uneasy.

“You will personally pay a visit after Sun Never Sets is completed? Little girl, you’re too arrogant.” Geng Di secretly gnashed his teeth. He was not the only city who had obstructed her team, but Shen Yanxiao made the decision to lead her team to his city to display her might. It was obvious her intentions were to make an example out of him, and also partially because the other two cities did not go to as extreme as him.

However, Geng Di was currently in a dilemma as he had already formed a feud with Shen Yanxiao.

“Men!” Geng Di rubbed his temples and shouted.

One of his bodyguards immediately entered his bedroom.

“Have those men stationed outside Sun Never Sets to withdraw. From today onwards, we shall abandon the harassment plan towards their city.” If he still continued messing with her, Shen Yanxiao would most probably kill her way into the Fantasy Devil City with her mythical beasts. Geng Di honestly had no courage to provoke Shen Yanxiao anymore.

Even so, he felt somewhat unwilling to give up on that huge chunk of meat in the eastern area.

After much thought, Geng Di stood up and went to his table. He then rolled up his sleeves and wrote a letter.

“Arrange for someone to send this letter to my father as fast as possible. Remember, it must be quick.” Geng Di ordered.

“I understand.”

After the bodyguard retreated, Geng Di took a deep breath. He came to realize that the Shen Yanxiao whom he had never met was absolutely not someone easy to deal with. She might very possibly be the most difficult representative the Longxuan Empire had sent in a century.

Chapter 659: Constructing a City that Would Never Fall (1)

After their display of might, those hidden shadows outside of their city had disappeared without a trace.

In the end, although Shen Yanxiao did not display her might to the other two cities, she concluded that there must have been spies planted within the various cities in the Forsaken Land, so teaching the Fantasy Devil City a lesson was basically making an example out of them. She was telling the other two cities that she was not someone easy to bully!

If they dared to continue with their provocation, they would have to be constantly on guard that she would lead her mythical beasts to flatten their cities!

After Du Lang and the rest knew that Shen Yanxiao brought eight mythical beasts to someone else’s city to have a display of might, he was frightened out of his wits. At that moment, he finally realized that the number of mythical beasts in their city had reached a shocking number of eight!

If they were to flip through the entire Longxuan Empire, the number of mythical beasts they could find would probably be that number and right now, all of them were taken under Shen Yanxiao’s wing.

They simply could not imagine if the Emperor of the Longxuan Empire had gotten hold of this news, would he faint from shock?

After they resolved the problems of the ambush, the city had finally recovered its usual peacefulness.

With the help of those experts Qi Xia and his party brought here, the construction of the city increased its pace.

In less than a week, the city walls construction was complete, and the walls that were built with obsidian gave off a black luster. Even in the gloomy Forsaken Land, it was still exceptionally eye-catching.

After the completion of the city walls, the construction of the city infrastructure had begun.

Among the people Qi Xia and the rest had brought over, dozens of them were experts in city construction. Shen Yanxiao had directly handed over the building plans to them to handle.

When those responsible for the city construction knew that Shen Yanxiao decided to use obsidian stones for the city walls, all of their hearts bled. They could not help but kneel down to cry and scream. What a waste of precious resources!

“City lord, how could you use such a precious resource like obsidian on city walls?” A middle-aged man looked at Shen Yanxiao with a tearful expression. It was such a waste!

They did not dare to imagine how many tons of obsidian they had used to build the city walls. Within the Longxuan Empire, the number of obsidian they could produce in a year was equal to the amount they had used in those walls.

However, their city lord was indeed luxurious. She had unhesitatingly used them all to build the city walls!

Even though the wall was sturdy, it was too luxurious!

It would do even if you used refined steel, and that material is so much cheaper!

Shen Yanxiao's mouth twitched as she looked at the group of professionals who were weeping with tears in front of her. They treated her as if she was a bum who did not know her stuff because she used a precious sword to cut vegetables.

"If not on the walls, then where?" Shen Yanxiao rubbed her temples. She was indeed a noob in regards to construction, and she had only heard from Du Lang and the rest that obsidian was very sturdy. As a result, she used them on the city walls to increase their defenses.

The moment Shen Yanxiao asked, the few professionals immediately listed a large number of places which obsidians could be used for. Majority of them were used as the main support poles for palaces and houses, and most of the examples listed did not use obsidian on a large scale.

"Just these few? But, there are still dozens of tons of obsidian piled up in the southern corner of the city. If we used them according to your layout, we will not be able to use them all." Shen Yanxiao was confused.

"Dozens of tons?" All of them swallowed their salivas and stared at Shen Yanxiao in disbelief.

"There are other ores too, but Su He would be more knowledgeable on that. Why don't you ask him instead?" Shen Yanxiao felt an incoming headache. She was an expert in regards to fighting and taking revenge, but as for constructing a city or what not, she was honestly not very good.

By now, Su He and the others had all recovered under Yan Yu's care, and they could already walk on their own.

Chapter 660: Constructing a City that Would Never Fall (2)

When he heard that Shen Yanxiao had pushed the problem to him, Su He could only helplessly smile with a somewhat pale complexion.

A short moment later, Su He was encircled by a group of professional architects as they scrambled to inquire about the ore reserves of Sun Never Sets.

From Su He's detailed run down, they finally came to realize that the Forsaken Land was also filled with wealth besides danger. Various precious rare minerals were basically as common as ordinary stones here and they could obtain as many as they needed. The only problem was that they needed to send some minors to dig it out.

That piece of information caused these groups of architects to wept, as they would have to dig their wallets if they wanted to use a single piece of obsidian outside of the Forsaken Land. Not to mention

how many benefits Qi Xia and the rest had given them so that they would enter the Forsaken Land, they would never leave even if they were chased out.

It was to the extent that they were determined to remain here even if they had to be shameless.

The rich mineral reserves here were absolutely sufficient for them to construct a dream-like city. A never seen before unbreakable city!

The hot-blooded architects seemed as if they had been injected with drugs as they rapidly created blueprints for the entire city.

Due to the fact that the shape of Sun Never Sets was of a circle, they started their blueprints with the central tower and planned for construction of houses in its surrounding. Moreover, they kept the original city gates and made a direct pathway from the front gates to the central plaza until the back gate.

The architects boldly and decisively planned for the prototype of the city on a piece of paper while Su He led mining teams to continue digging up minerals.

Everything progressed in a good direction.

The five jerks went to look for Shen Yanxiao at that moment to discuss about the future development after the construction of the city was completed.

“What ideas do you have?” Shen Yanxiao’s head swelled from the barrage of questions from batches and batches of workers for the past few days. Yin Jiuchen currently stood behind her as she gently used her hands to rub Shen Yanxiao’s temples.

“Do you intend to build this place into an independent castle or you plan for it to be a real city?” As the young master of a merchant family, Qi Xia had a great insight into the development of a city.

“Of course it’s a real city. I’m not itching for a war so why would I want a castle? Moreover, there are many mouths to feed in my city, and even though my current finances could guarantee food and clothing for several years, it is still essential for them to survive on their own in my city.”

“Then it is necessary to open a trade route in order to attract merchants along with their commodities for them to go through here. Or perhaps we can directly develop the characteristics of the Forsaken Land to attract those profit-seeking merchants.” Qi Xia did not have a single ounce of pressure when he mentioned the word ‘profit-seeking’, as if he had completely forgotten that he was the greatest crafty merchant in the Longxuan Empire!

“The characteristics of Forsaken Land? Demons?” Tang Nazhi giggled.

“If you wish to buy them, I can sell them to you. On the account of our friendship, I’ll give you a 20% discount!” Shen Yanxiao said.

“Thanks, but my tastes are more on the bland side.” Tang Nazhi waved his hands.

“Demons cannot be sold as commodities. However, they are indeed a problem. Even though we have accepted the demons here, it does not mean the same for others. If you wish to attract merchants, it is not enough to have lures. If the merchants enter the city and discover that it is flooded with demons,

I'm afraid they might be instantly frightened out of their wits. And soon, the news of the city being filled with demons would spread throughout the entire Brilliance Continent and by then, only ghosts would come here to do business with you," Qi Xia lazily said, but his words had pinpointed a crucial problem.
