

The Vengeful Son-in-law Chapter 531 -

The Vengeful Son-in-law

“Ryan? Who?” Nikolai immediately asked in confusion. The others did not react for a moment. In the Military Intelligence 3, the highest cultivators were Marlin and Silas, and the mission was so important and difficult that only they could carry it out.

Even Thorn did not react for a moment.

Marlin continued, “Of course, Instructor Ryan of the Fourth Group?”

Nikolai said, “Marlin, don’t make jokes. This mission is very important. We can’t allow any mistakes. Ryan is just a new instructor. He’s not so capable.”

The other senior management also echoed in agreement, and they were worried that a task at this level would be handed over to a newcomer.

However, Marlin insisted, “You underestimated Ryan. I think it won’t be a problem if he carries out the mission. He’s better than me.”

They all stared straight at Marlin, trying to see if he was joking, but they didn’t expect Marlin to be so serious. Nikolai said uncertainly, “Marlin, are you sure you’re not joking?”

Advertisement

Marlin said with a bitter smile, "Do you think I'm joking? Ryan is the most suitable one for the mission. It just so happens that he's new here. He hasn't been on a mission before and hasn't contributed much to the Military Intelligence 3. This time, he's the only person for the mission."

Hearing Marlin's words, they were deep in thought. Working with Marlin for many years, they could tell that he was not joking.

This was enough to surprise them and they found it hard to believe.

After a while, Thorn said directly, "Marlin, have you fought with Ryan?"

Everyone else's eyes fell on Marlin at once. These days, rumors about Ryan were spreading. Many people were saying that Marlin was defeated by Ryan, which was why he was so afraid of Ryan.

Advertisement

However, Ryan and Marlin didn't admit it. So people were suspicious.

Marlin sighed in his heart, knowing that this matter could not be avoided. Now that Thorn asked, he nodded, and said in a deep voice, "Yes, Ryan and I have already fought."

Thorn asked again, "What's the outcome?"

Marlin smiled bitterly and said, "You've all guessed it. Why do you need to ask?"

What he said was an indirect admission that Marlin was defeated by Ryan, which was still very shocking to them.

After a while, a senior asked, "How is Ryan's strength?"

Marlin took a deep breath and said seriously and fearfully, "Unfathomable!"

They were still shocked to hear such a valuation, especially after they heard Marlin's instructions, they were dumbfounded, unable to believe that Ryan was able to defeat Marlin on the sea and he had the energy to hunt the sharks, unscathed... This was terrifying!

Thorn exclaimed in astonishment, "Has Ryan reached the Innate Realm, Major Perfection Realm?"

Advertisement

Marlin shook his head and said, "I don't think so, but he's at least in the fourth stage of the Innate Realm. The point is, Ryan is only 28 years old, and his prospect is beyond measure."

Then, Marlin looked deeply at Thorn and said, "Thorn, you have done a great job for Military Intelligence 3 this time. You found such a top player. I think that with Ryan leading the team in this year's competition, the results will be ideal."

Soon, their eyes lit up. Military Competition was also a top priority for them. Military Intelligence 3 had been at the bottom all these years, and their reputation had been poor. They were excited at the thought of standing out in the competition! After that, they discussed for a while and decided to leave the mission to Ryan.

When Ryan heard the news, he was very surprised. "It's not appropriate for me to carry out such an important task, is it?" he asked.

Thorn patted him on the shoulder and said seriously, "On the contrary, you're the only person for the mission. With great power comes great responsibility. Ryan, don't refuse."

"Well..." Ryan smiled bitterly. Thorn's decision really messed up his plan. He had been teaching at the Military Intelligence 3 for a week and going on the mission would certainly occupy most of his time so that he had less time to go home.

However, Thorn had already said so, and it was not appropriate for him to refuse. Moreover, he had been in the Military Intelligence 3 for almost two months and had not been on a mission, which was not reasonable.

After thinking about it for a while, he nodded and said, "Okay, since the organization has such an arrangement, then I won't refuse."

Thorn was overjoyed and said, "Hahaha, okay, Ryan, I knew you were very righteous and would not refuse. I believe you'll do a good job. With your strength, you will definitely be able to win honour and glory for Military Intelligence 3. Show those foreigners that there are top experts in H Country."

Ryan said with a smile, "Then please tell me the details of this mission, Director Sunn."

"No problem." Thorn was very happy. It seemed that with Ryan's participation, he could definitely complete the task.

When Ryan had a clear understanding of it, he frowned slightly. He did not expect that this task was so urgent that he had to leave to pick up Melissa at the airport tonight.

And the task last for more than half a month, so he would leave Phoebe for almost a month.

Thorn saw him frown and asked quickly, "How is it? Is there a problem?" Ryan thought for a moment and shook his head. "No problem," he said.

“That’s good.” Thorn then began to order. This mission was important. In addition to Torn, he sent two other people over as a support for Ryan. One was the top of the Scout Team, and the other was the top of the Dragon Blood Team.

Ryan had no problem with this. Anyway, he was mainly responsible for Melissa’s safety, and the other things to deal with were left to these two elites.

“Ryan!” “Ryan!”

After receiving the order, the two elites of the Scout Team and the Dragon Blood Team immediately rushed over to report to Ryan.

Both of them were strong. They already had half a step of the Innate Realm.

Ryan nodded faintly and said, “Let’s go.”

They did not dare to show any disrespect to Ryan. They were actually Ryan’s assistants. After all, if the real assassins of the Innate Realm appeared, they would not be able to help.

Because Melissa’s plane arrived at 11: 00 pm, Ryan and the others arrived at the airport an hour early, only to find that Melissa had arrived and was waiting at the airport with a displeased look.

The Vengeful Son-in-law Chapter 532 -

**The Vengeful
Son-in-law**

Ryan immediately realized that things went wrong. As expected, as soon as they walked over, a few burly white bodyguards moved forward and stopped them. They scolded them in English and ordered them not to move forward.

The top member of the Scout Team responded in fluent English, "We are agents of the Military Intelligence 3, H Country. We came here to protect Miss Melissa in H Country. Here are our documents."

As he spoke, he took out his documents. Ryan and the other top member of the Dragon Blood Team also showed their ID.

However, they did not even check their ID and did not hide the contempt in their eyes.

These bodyguards looked up and down at the three of them and found that they were skinny, twice smaller than them, and so these guards were very disdainful of them. A white man in his thirties with green eyes said, "Did H Country send the three of you to protect Miss Melissa?"

Van, from the Scout Team, said, "That's right. This is the instructor of our Scout Team. His cultivation is very high. With him around, he can protect Miss Melissa's safety."

Van pointed at Ryan. Although he was unhappy with Ryan before, he had to admit Ryan was excellent.

Kyro, from the Dragon Blood Team, nodded and echoed Van's words.

Advertisement

So they all looked at Ryan. When they found out that Ryan was thin and not strong at all, and there was no domineering aura, they all showed disdain.

Ryan could easily guess what they were thinking. He had learned about the arrogance of these foreigners before. In the face of

this situation, there was no need to talk nonsense. He just needed to show his strength directly to convince them.

However, just as Ryan was about to make a move to show how capable he was in front of these white people, Melissa, who was protected by a group of bodyguards, walked over in high heels. Her face was frosty and she said, "I'm tired. I'm going to the hotel to rest."

Advertisement

"Yes, Miss Melissa!" The white man immediately bowed to Melissa with an incomparably respectful and pious attitude, as if Melissa was his master. Then Melissa walked past Ryan directly. From the beginning to the end, she didn't even look at Ryan and treated him as nobody.

Ryan was a little stunned. It was the first time he had been ignored like this since he turned to be the master in martial arts. It seemed that this Melissa was treating him as a useless man.

Then the white man said contemptuously to the three of them, "You can leave now. Miss Melissa doesn't need your protection."

After that, he snorted again and said in a disdainful tone, "The H Country people are born weak, and even agents are crap. How disappointed."

"You!" When Van heard this, he immediately became angry. This white man was too arrogant to take them seriously. If they were trash, they wouldn't say anything. The point was that they were not. They were the elites of the Military Intelligence 3, especially Ryan, the instructor of the Military Intelligence 3, representing their division.

Kyro could not help but show anger on his face. As the top of the Dragon Blood Team, although he was not as outstanding as Ryan, he was an excellent agent who had completed many difficult tasks. Many internationally renowned criminals died in his hands, and he had his pride. How could he stand being ridiculed like this?

Just as they couldn't help but want to argue with the white man, Ryan coughed softly and said faintly, "Don't bother to argue with him. Our mission is to protect Melissa. We will have plenty of opportunities to prove ourselves."

They were not Ryan's soldiers, but they did not dare to disobey Ryan's orders now. However, in their hearts, they were still a little dissatisfied. They thought that Ryan was too weak. If it were Marlin, he would have taught this arrogant white man a lesson.

Could it be that Ryan only dared to bully his soldiers? Some people were like this, especially fierce to their own people, and once when facing outsiders, they would be cowardly.

Advertisement

Ryan saw through their thoughts but didn't bother to explain. He had already sensed two powerful auras, lurking nearby, and their attention was on Melissa, obviously targeting Melissa.

And Melissa's security details couldn't stop these two masters. At that time, he had to take action, so he didn't have to waste his time with them now.

Ryan was thinking that it would be better for Melissa not to stay in H Country for so long. Then he could leave here and returned to H City a week.

Coming out of the airport, a lot of attention was paid to their direction, because of Melissa. The main reason was that Melissa was too beautiful. She was not a pure

Western beauty, but a quarter Asian. She had a very delicate and beautiful face and was over 1.8 meters tall. Her skin was even fair and soft to the extreme.

In particular, her deadly perfect figure was far more beautiful than that of an Asian woman, with long legs, a slightly bent waist, and a big brast.

The most unforgettable thing was her class, full of nobility and elegance that no other woman had. According to her bloodline, Melissa was indeed a European aristocrat. Only one glance from her would drive men crazy.

However, she was not just another pretty face. Her business ability was very strong. It was rumored that she started to help her father, Barsabo, run the company at a very young age. With her help, Barsabo could build a huge business empire in such a short time.

This time, she came to H Country because she wanted to invest. So she was not satisfied that H Country had only sent three ordinary agenis to protect her! She felt despised by H Country!

After coming out of the airport, there was already a motorcade and a group of people welcoming her. These people were the local leaders of H Country. They specially came to welcome her presence and her to invest in H Country.

When she saw the scene, she felt better reluctantly.

After a small talk, Melissa, led by her professional bodyguards, was about to get into a Rolls-Royce in front of her when Ryan move forward and said, "As the bodyguard sent by H Country this time, I will provide close escort for Miss Melissa. I need to sit

in this car with her."

Some of the bodyguards around Melissa were stunned for a moment. They did not notice how Ryan had crossed their line of defense and walked close to Melissa.

Melissa was also shocked by Ryan. For the first time, she looked at Ryan and saw that Ryan was not very tall but weak. She did not hide her contempt for him and said directly, "I don't need your protection."

The Novel will be updated daily. Come back and continue reading tomorrow, everyone!

The Vengeful Son-in-law Chapter 533 -

The Vengeful Son-in-law

With that, she turned around and went straight into the Rolls-Royce. She didn't save Ryan's face at all. In her eyes, Ryan was just an ordinary agent from H Country. How could he be in the same car as her?

Besides, she didn't think that Ryan had the ability to protect her. In fact, in her impression, she didn't think that a thin and weak nation like H Country could produce any powerful agents.

Ryan wanted to follow her. Immediately, two sturdy white bodyguards stopped him. They looked at him with hostility and said in a commanding and disdainful tone, "Please step back."

Ryan frowned slightly. He could sense the two strong auras and they followed them. They were obviously coming for Melissa. If motorcade started to drive later and he didn't stay with Melissa in a car, he couldn't be 100% sure to protect Melissa.

He simply said, "There are two powerful killers targeting Melissa. I need to stay with Melissa in a car to better protect Melissa."

Hearing his words, not only the two bodyguards but also the others burst out laughing as if they had heard a big joke. Even Melissa, who had already entered the Rolls-Royce, sneered, thinking that Ryan was too low-level to deceive them with such a stupid trick.

Advertisement

“Hahaha. With us standing by, those killers don’t dare to approach Miss Lisa. Even if they dare to have any devious thoughts, can you protect Miss Melissa? Or is this people from H Country’s humor?”

“I’ve always heard that people from H Country are good at telling jokes. I didn’t believe it before, but now I’ve learned it. Haha!” “Your guys, step aside. If there’s really an assassin coming over, you’ll wet your pants.”

“I heard that the Military Intelligence 3 is the worst organization in H Country. H Country actually sent an agent from the Military Intelligence 3 to protect miss Melissa. Obviously, they didn’t take Mr. Barsabo seriously!”

They spoke one word after another, without concealing their disdain for Ryan and even for the H Country.

Advertisement

In their opinion, H Country’s overall national strength was still good, but when it comes to personal strength, it was still far from the European people!

They were furious that H Country was so arrogant that it did not take the European rich man, Barsabo, seriously. They just sent three pieces of trash to protect the honorable Miss Melissa.

Ryan frowned slightly. He didn’t expect to encounter this kind of thing when he came to carry out the mission this time. He thought that Thorn had already communicated with Melissa’s team that he came directly to be a bodyguard. But he was still ostracized.

Kyro couldn’t stand it any longer. He said loudly, “Listen carefully. Ryan is the ACE instructor of our Military Intelligence 3. His strength is comparable to the top of your European 3s powerhouses! You’d better be polite to Ryan.”

In Europe, the level of masters was different from that of H Country. They believed that masters in the Master Realm were B-level masters, and the Extrinsic Peak was A-level masters, and the Innate Realm was an S-level master. As for the third stage of the Innate Realm, they should be 3S-level masters.

Kyro thought Ryan was in the third stage of the Innate Realm. But in fact, Ryan was already in the fourth stage, which was equal to the top master at the 4S level.

His words were loud and serious. But when Europeans heard it, they regarded it as bullshit. They did not listen to them at all.

Instead, they had a worse impression of Ryan, thinking that the people from H Country were the kind of people who had no ability and loved to brag.

Melissa, who was in the car, shook her head as well. She had no hope of H Country's secret agents this time. This time she came to H Country, there was indeed an assassin group targeting her, which was considered dangerous. Originally, she thought that H Country could provide her with some security. But now it seemed that she could cancel this plan. Fortunately, she was careful. This time, she came to H Country with the bodyguard team strong enough to protect her!

In their team, there was also one 2S-level master.

Ryan also found this strong man, who had been guarding Melissa's side all the time as an assistant. He could be considered as a master at the second stage of the Innate Realm. But he was not very strong.

Advertisement

Forget it. Since Melissa was so stubborn, he couldn't be bothered to say anything more. In order to ensure Melissa's safety, he directly sent two fierce warnings to the two masters hidden in the crowd across separated places.

Suddenly, the two sensed his murderous intent. Their faces changed on the spot and their hearts beat faster. They quickly lowered their heads.

Seeing that the effect had been achieved, Ryan believed that with his warning, the two killers did not dare to take action for a short time. So he didn't bother to insist. He turned around and left to go to another car.

After he left, there was another burst of wanton ridicule behind him. A few others made disdainful movements towards Ryan.

Van and Kyro were stunned when they saw this. They thought they were misjudged by sight. Ryan was scared? Especially for Van, he was incredible that this was not the Ryan he knew.

In this way, they were more firm in their views just now. It seemed that Ryan was really the kind of person who was tyrannical to the native and cowardly in the face of foreigners. With a very strong nationalism, they were extremely contemptuous and disgusted with this kind of person!

Because Ryan's warnings just now caused great pressure to the two killers, so they did not dare to kill rashly on the way back to the hotel. They hid in the dark and waited for the opportunity.

Ryan was sitting in the Mercedes behind Melissa, making sure that Melissa was still under his protection. As long as the two killers didn't use weapons such as rocket launchers, he was confident of protecting Melissa.

Back at the hotel, Melissa went straight into her room to rest. She had been flying all day and was already a little tired. After taking a shower, she planned to rest early and go to the survey tomorrow morning.

Because the Melissa team booked a presidential suite, except for Melissa, who lived in the master room, these bodyguards were waiting outside in the hall. After a long time, they were bored. The white bodyguards began to look at the three of them.

“Hey, the agent from the H Country, you just said that you are a 3S-level master. You are so powerful. I’m just an A-level master. Why don’t we have a competition?”

A white bodyguard over 1.9 meters tall and as strong as a bear raised his eyebrows at Ryan and said provocatively.

Ryan stood by the french window. His eyes were as sharp as an eagle’s. He could see the people on the ground from more than twenty stories.

He didn’t answer because his attention was focused on the two killers. He was monitoring them.

When the white bodyguard saw that Ryan was silent, he thought Ryan was afraid and said disdainfully, “What, you don’t dare?” Ryan remained silent.

Kyro couldn’t stand it any longer. He stood up and said in a deep voice, “I’ll fight you!”

The Vengeful Son-in-law Chapter 534 -

The logo for 'The Vengeful Son-in-law' features the title in a bold, black, sans-serif font. The text is centered within a bright yellow, irregular, hand-drawn-style shape that resembles a splash or a cloud. The background of the entire page is white, and the logo is positioned in the lower half of the page.

It was unbearable.

Kyro couldn't figure out why a master like Ryan was so cowardly and unconcerned to the provocations. Ryan's cowardice not only reproached Ryan himself, but also the Military Intelligence 3!

Originally, Kyro respected Ryan, but now, he despised Ryan. A coward like Ryan was not qualified to be respected by him, nor was he qualified to represent the Military Intelligence 3!

No matter how powerful Ryan was, he would only be domineering at home but submissive to others. He was just a loser.
Not only Kyro, but Van was dissatisfied with Ryan. Ryan indeed disappointed them today.

The white bodyguard turned his eyes to Kyro and felt the powerful aura emanating from Kyro. He was a little surprised. He looked up and down at Kyro and said arrogantly, "You are not my opponent."

Kyro was so angry that he snorted heavily and said, "You won't know if I can defeat you until we fight."

Advertisement

After speaking, Kyro immediately attacked that white bodyguard. As a strong man of Extrinsic Peak, although he was not as terrifying as the people of Innate Realm, his power should not be underestimated. In addition, he was angry and used 90% of his strength, which made the white bodyguard feel stressed. That guard's pupils constricted and he reacted very quickly to avoid Kyro's punch, then he immediately launched a counterattack against Kyro.

It had to be said that the bodyguard team that Melissa brought this time was strong. Every bodyguard was as strong as the people at the level of Extrinsic Peak.

Soon, their fists collided. With a bang, the collision caused the whole room to shake. Their continuous attacks shook the room, scaring the customers in the surrounding rooms.

Ryan's thoughts were interrupted. He turned around and saw them fighting, then frowned slightly. He had found the two killers, but now he was disturbed and lost the targets.

Advertisement

The two killers, trained at least in the second stage of the Innate Realm. Melissa's bodyguard team was unable to protect her.
When they were fighting so hard, Melissa's door was opened, and a beautiful blonde

woman came out. With a cold face, she scolded, "Enough! What are you doing? You're disturbing the honorable Miss Melissa. Stop it!"

The white bodyguard immediately stopped and a look of fear flashed across his face. He placed his right hand on his chest, bowed, and said apologetically, "It's my fault for disturbing the honorable Miss Melissa to rest. I'm willing to be punished."

Melissa's cold and lazy voice came from the room. "Deduct your salary for a month, and if you do this again, you'll be fired."

The white bodyguard's face was bitter and did not dare to complain. He just pressed his head deeper. "Thank you for your punishment, Miss Melissa."

When the door closed, the white bodyguard breathed a sigh of relief, glared at Kyro fiercely, and then stopped provoking him.

The others were also full of hostility and disdain towards Kyro.

Kyro was very unhappy, but there was nothing he could do for a while, so he had to bear his anger in his heart. Their mission this time was to protect Melissa. If they had a conflict with Melissa's bodyguard team, it would make a bad influence on the reputation of the Military Intelligence 3.

Most importantly, if Melissa really had an accident in H Country, they couldn't bear the responsibility.

"Ryan, as the leader of this mission, you should protect the dignity of our Military Intelligence 3, not just stand by and watch." Kyro walked up to Ryan and said in a deep voice. He was a very rightful person. He couldn't stand such a thing.

Van added, "Kyro is right. If it was our instructor who led the team this time, he would definitely not allow these foreign devils to provoke us. Ryan, forgive me for saying this. As the leader, you represent the Military Intelligence 3 instead of yourself."

Ryan was a little surprised by the two of them. He didn't expect them to dare to contradict him after knowing his strength. Actually, Ryan appreciated their characteristics.

Advertisement

Ryan smiled and said, "Do you think I disgrace the Military Intelligence 3?" When they heard Ryan's question, they were stunned for a moment. They did not expect Ryan to be so straightforward. So they felt a little awkward.

Kyro was still a little angry, so he simply nodded and answered, "Yes! Ryan, as an expert of Innate Realm, you are strong, so you should protect the reputation of our Military Intelligence 3, instead of being indifferent when we are provoked by these

foreigners! In this way, they will think that we are cowards, and then despise our Military Intelligence 3, and even our entire country!"

His words were impassioned and inspiring.

Ryan was not angry at all. Instead, the smile on his face deepened and he continued, "In your opinion, how should I protect the reputation of the Military Intelligence 3?"

When Kyro heard this, he was even more disdainful of Ryan. He thought that Ryan was a brainless martial artist without intelligence and masculinity!

Kyro raised his head, looking like a patriotic hero serving the country and the people. He said loudly, "It's very simple. In the face of these foreigners' provocation and violence, you should use your fists to let them know that our Military Intelligence 3 is powerful, and our people in H Country are outstanding. And we can't be insulted by them!"

He thought he was right. Ryan would be ashamed if he had any masculinity. But Ryan laughed. "Hahaha..."

Hearing Ryan's laughter, Kyro became speechless. Van frowned and was extremely disappointed with Ryan. Now he despised Ryan more.

Ryan smiled and said, "So is our mission to protect Melissa or to show the power of the Military Intelligence 3?" His words stunned Kyro and Van. They didn't think from this angle before. They just thought that they cannot bear to be provoked by those foreign devils.

Ryan continued, "Protecting Melissa is our top priority. If something happens to Melissa in H Country, then our Military Intelligence 3 will be even more humiliated."

Van said, "Ryan, you're avoiding the topic. Maintaining the reputation of the Military Intelligence 3 doesn't conflict with protecting Melissa."

"It's not a conflict, but don't forget that Melissa is here to make the investment this time. What would she think if we abused her bodyguard team? The investment would be ruined."

Hearing Ryan's words, they were silent again. It was true. If they had taught Melissa's bodyguard team a lesson, Melissa would probably not have made any investment in H Country.

Kyro still frowned and said reluctantly, "Then should we just let those foreign devils provoke and humiliate us without? Besides, we're just showing our strength, not bullying them. If we can show our strength and let them know how strong we are, it's better than now!"

Ryan smiled, patted them on the shoulder, and said meaningfully, "Don't worry. They'll know. There are many ways to maintain the reputation of the Military Intelligence 3, but we would definitely do it through defeating Melissa's team. It's unworthy and improper."

Hearing Ryan's words, they were relatively relaxed, but their hearts were still uncomfortable.

In the next few days, Melissa was visited a lot of places in H Country, and also attended meetings with a lot of high-level officials of H Country to discuss affairs about investment.

Over the past few days, the three of them had been bodyguards following Melissa, but they looked different from those tall and powerful white bodyguards.

Those guards still didn't take the three of them seriously and became more and more disdainful. Several times, Kyro and Van almost couldn't hold back and were about to have a fight with them, but Ryan stopped them in the end.

This made them despise Ryan even more, and even Kyro and Van felt very aggrieved. On this day, after Melissa finished the negotiation of the investment, she planned to relax and go to visit a scenic spot.

The terrain of that scene spot was steep and full of danger. Once Melissa went there, she would definitely be ambushed by the assassin. At that time, she would fall into danger. So Ryan immediately said, "Miss Melissa, you can't go to that place to play. You will be ambushed by the assassin!"

The Vengeful Son-in-law Chapter 535 -

The Vengeful Son-in-law

Melissa frowned and said to the bodyguard captain beside her, “Captain Horton, is the place we’re going tomorrow dangerous?”

Captain Horton sneered disdainfully and saluted her respectfully, saying, “Dear Miss Melissa, please don’t worry. With our team by your side, there will be no danger. We promise to protect your safety.”

Melissa nodded. When she heard Horton say that, she relaxed and said, “Since that’s the case, then tomorrow’s schedule doesn’t need any changes.”

Ryan said, “Miss Melissa, I advise you to change your schedule. If you insist on going to the scenic spots, the assassins will definitely take action. The assassins are two masters of the Innate Realm, and they are very skillful...”

Before he could finish his sentence, Captain Horton cut him off and said rudely, “People of H Country are cowards. Shut up and don’t ruin Miss Melissa’s mood anymore!”

The other white bodyguards also stared at Ryan disdainfully, thinking that Ryan was not only timid but also coward. Why did H Country send such an agent to protect Melissa? It seemed that H Country didn’t have many talents.

Advertisement

Even Van and Kyro felt that Ryan was exaggerating. Melissa had been safe and no assassins had appeared. Besides, there wouldn’t be many tourists in that scenic spot tomorrow. and her bodyguard team could deal with a group of killers.

Ryan said in a deep voice, "I'm not joking. These days, two killers of the Innate Realm have been following us. They hide their intentions well and you can't find them with your cultivation. But I've noticed them and I can tell they have prepared to assassinate Miss Melissa right away, and that scenic spot..."

Captain Horton interrupted him again. "Enough! You mean you're better than us? We didn't find any assassins, but you, a man of H Country, found them? That's ridiculous!"

These Europeans were too stubborn, and Ryan frowned even more. If it weren't for the task assigned to him by the organization, he wouldn't have bothered himself to say that to them.

Advertisement

He said seriously to Melissa, "Miss Melissa, please trust my judgment. The assassins will definitely assassinate you tomorrow.

Going to an empty place with few people around is putting yourself in danger."

Actually, Ryan didn't take the assassins of Innate Realm seriously. But he felt that this time, not only were they targeting Melissa, but there were also other more powerful assassins hidden in the dark who were at least at the third stage of the Innate Realm!

If that was the case, Melissa would be still in danger even with him around to protect her.

However, Melissa didn't believe him at all, let alone take him seriously. She sneered and said, "Agent from H Country, if you're timid, you can leave. I won't report it to your boss. Anyway, your boss sent you here, and he didn't rely on you to protect me." Her fluent English sounded very pleasant, she taunted Ryan with a half-smile that he was afraid of death.

She had always been prejudiced against the H Country, thinking that the people of H Country were just a weak nation, who could never be a match for those strong and powerful Europeans.

Ryan saw her ridicule and contempt. To be honest, he was also very angry. If Thorn hadn't repeatedly stated that this mission was important and begged him to carry out this mission, he really wouldn't have come here. Even rich European girls couldn't interest him.

When the other bodyguards and assistants heard her, they laughed even more rudely. Van and Kyro lowered their heads, feeling humiliated than ever.

Ryan looked straight at Melissa and said, "Miss Melissa, I've already reminded you. Since you don't believe me, don't blame me for not protecting you well."

Melissa snorted. She glanced at Ryan coldly and then turned around to leave. Then Ryan heard her words, "I never expected the agents of H Country to be able to protect me."

Advertisement

What she said was so disrespectful that Van and Kyro were gritting their teeth in anger.

But Ryan smiled. He had done his best. Since Melissa refused to listen to his advice and insisted on going on, he wouldn't bother to persuade her anymore. When the assassins appear tomorrow, Melissa would naturally understand how stupid she was today.

Another night passed. Ryan had protected Melissa for almost a week as a bodyguard. Fortunately, he had called Phoebe every night so he felt not that lonely.

That night, he chatted with Phoebe for more than an hour. He didn't hang up until Phoebe was sleepy.

What he didn't know was that after hanging up the phone, Phoebe was no longer sleepy. She lay on the bed, checking the photos and videos about her and Ryan. She looked at them for a long time. Finally, she sighed and put down the phone, then fell asleep.

The next morning, Ryan was suddenly jolted out by a ring when he was meditating in his room. He opened his eyes, took out his cell phone, and saw that it was a call from the Second Card.

The Second Card was used to the contact between him and the others of the Military Intelligence 3s.

He answered the phone, but before he could speak, an anxious and flustered voice came, "Ryan! Something happened! Something happened, something happened to Melissa!"

When Ryan heard this, his eyes immediately wide opened and his heart skipped a beat. He had a bad feeling and said in a low voice, "What happened? Tell me everything."

Van told him, "We've been attacked. There are really assassins ambushing at the scenic spots and assassinating Melissa! They are very skillful. We're not their match. Two white bodyguards have been killed, and Kyro and I have been injured... We can't hold on. Ryan, come here quickly!"

"What?!" Ryan was shocked. Melissa was attacked? Wasn't she still upstairs in the presidential suite? Ryan used his consciousness to sense Melissa's. But he found not only Melissa's was gone, but also everyone else's.

Ryan was very quick that he immediately understood that Melissa must have gone to the scenic spot early in the morning without informing him, and then they were ambushed by the assassins.

This stupid and arrogant western woman!

On the phone, Ryan heard Van's rapid breathing and painful moans. He was obviously injured.

In addition, he could vaguely hear the sounds of fighting and killing.

The thing he was most worried about happened. Now, it was useless to scold them. Ryan asked them where they were. Then he hung up the phone and rushed over as fast as he could.

Van must have called the Military Intelligence 3 before calling him. Unfortunately, the headquarters of the Military Intelligence 3 was too far away, so he had to call him.

He didn't expect to meet the accident on his first mission. What the hell. Seeing him hang up the phone, Kyro asked, "How's it going? Will Ryan come here?"

Van said, "Ryan is already on the way, but the hotel is too far away. It takes a least half an hour to drive here... Can we hold on for another half an hour?"

Kyro didn't answer. He knew that they couldn't hold on. The assassins were too skillful and strong. They were no match for them at all. Their defeat was only a matter of time.

Melissa was also in a mess. She was no longer as noble and arrogant as before. She looked scared and regretful. She should have followed the advice of the H Country agent.

The bodyguards beside her were killed one by one because they were no match for the assassins at all, and she grew more and more frightened and flustered.

"Captain Horton, can you repel these killers?" Melissa asked nervously.

Horton protected Melissa behind him. He gritted his teeth and said, "Miss Melissa, don't worry. I will protect you. I won't let you get hurt!"

However, just after he finished his words, an astonishing momentum suddenly erupted from the front. He saw a white man in his fifties staring at them. The white man was not only about 1.7 meters tall.

After Horton saw him clearly, he shuddered. He shouted out in shock, "He's a 2s level master, he's Satan!"

At the same time, in the other direction, another powerful momentum also erupted. Horton saw a woman with red hair and a long scar on her face. Her pupils' colors were different, and her whole body was covered with an evil aura. She stared at them with a cruel smile.

Seeing this woman, Horton was scared out of his wits and almost desperate, and he trembled while speaking. "Oh my god, another 2s level master, the Red-haired Witch!"

The Novel will be updated daily. Come back and continue reading tomorrow, everyone!

The Vengeful Son-in-law Chapter 536 -

The Vengeful Son-in-law

Horton also had the superpower of level 2s. As the leader of the bodyguards, he was the strongest one. He knew very well how powerful and destructive a man of level 2s was!

He had the confidence to protect Melissa from an assassin of level 2s. However, there were two and they are the famous Satan and Red-haired Witch from the assassin world. They were so strong that Horton was no match for them!

At this moment, he was rather panicked.

Melissa, who was behind him, was also frightened. Obviously, she had heard of the two killers. Suddenly, her face turned pale and she said in fear, "Captain Horton, what should we do now?"

Horton swallowed his saliva heavily and said, "They are in the H Country and can't do anything bad. Miss Melissa, don't worry. No matter what happens, I will protect you!"

Melissa was relieved a little bit.

Advertisement

When the other Caucasian bodyguards saw Satan and Red-haired Witch, they were so scared that their legs went numb. Satan and Red-haired Witch had the superpower of level 2s and were powerful. And the bodyguards of level A were definitely no match for them!

A lot of assassins were sent to kill Melissa this time. More than a dozen assassins had already come out before Satan and Red-haired Witch. It was hard for them to resist. Now they couldn't survive when they encountered Satan and Red-haired Witch!

When Van and Kyro saw them, their faces also turned pale. They finally understood what Ryan said. There were really two masters of the Innate Realm who wanted to kill Melissa. And they came to the scenic area, which was an opportunity for them!

They didn't dare to kill her blatantly in a crowded city. But they were on the mountain in the suburbs. There were trees everywhere and few tourists. It was a golden opportunity for the assassins!

Advertisement

They did not dare to imagine that Melissa was really killed in H Country. The reputation of the H Country would be damaged and Military Intelligence 3 would be severely punished!

Satan and Red-haired Witch slowly approached. Melissa was surrounded by the assassins of level A and couldn't resist them. She was like a chick in their cage.

Horton's face darkened and he said loudly, "Satan! Red-haired Witch! How dare you assassinate the honorable Miss Melissa? You want to die! If you offend Master Barsabo, you will die without a doubt!"

Red-haired Witch smiled fiercely. Her voice was very sharp and unpleasant to hear. They got goosebumps when they heard her. She said: "Horton, you only had the superpower of level 2s. But you served the rich people. Tsk tsk, I'm disappointed in you."

Satan also said, "Do you think you can win?" Horton was threatened by them. His face changed and he clenched his fists. He was panicked and hesitated.

Melissa was scared and said quickly, "Captain Horton, my father paid you. You can't abandon me."

Red-haired Witch said, "Horton, you have one more chance. If you kneel down to beg us, you will not die. It's not easy for you to reach the level of 2s. Once we attack you together, you won't be able to hold on."

Horton looked up and said with a ferocious look, "Bullshit, I'm not afraid of death! Satan, Red-haired Witch, don't talk nonsense. Just fight with me. I will not withdraw!"

Then he immediately said to Melissa, "Miss Melissa, don't worry. No matter what, I won't abandon you. I'll fight with Satan and Red-haired Witch here. Get in the car with Geroge and leave. Seek for protection of the H Country, and they can't kill you!"

Horton said it very firmly as if he was going to die. Melissa was moved and her eyes were wet. She said: "Captain Horton, I won't abandon you either!"

Advertisement

Then, she stepped forward and said to Satan and Red-haired Witch, "You want to kill me for money. I can pay you the three times if you let me go!"

Red-haired Witch said grimly, "Melissa, it seems that you don't know us. Even if you give us ten times the price, we won't give up the mission. I advise you to kneel down and wait for death."

Satan smiled grimly and added, "Or, you can run and see how far you can reach..."

Melissa felt that they wanted to kill her so much, she was completely frightened. She had never been so scared before. Now she was especially regretful. She should have listened to the H Country agent yesterday!

Horton gritted his teeth and said, "Miss Melissa, don't waste your time. Run quickly. I'll try to give you more time!"

Then he said to the two strong bodyguards, "George, Weston, escort Miss Melissa. Come on!"

As he spoke, he was about to attack Satan and Red-haired Witch. He was like a martyr and was not afraid of death.

Would he really die for Satan and Red-haired Witch? Of course not. He was just trying to escape by distracting their attention.

If it was just Satan or Red-haired Witch, he could barely protect Melissa. But now that both of them were here, he had no chance of winning. Even if he stayed here, he would die with Melissa. It took him a long time to reach the level of 2s. He couldn't die. He could live for at least a few decades.

After working out the plan, he rushed out directly. He looked brave and Melissa was so moved.

Satan and Red-haired Witch also frowned. They perked up and prepared to fight with Horton.

But the next moment, Horton shocked everyone. After Horton rushed out of the crowd, he did not pounce on Satan and Red-haired Witch. He ran away in another direction.

"No! He's running!"

Satan was the first to realize it. He said angrily and was about to chase after Horton. At this time, Red-haired Witch was not surprised at all. She smiled grimly and said, "Don't worry. Master Fool won't let him run away."

Melissa, who was originally very touched, was suddenly stunned. She never thought that Horton actually ran away. It was obvious that he was tricking them!

Horton successfully ran away and was especially excited. Although he was paid a lot of money to protect Melissa, so what? It's useless to earn so much money without his life!

However, he wasn't proud for a long time. A young man suddenly appeared in front of him. His face was pale. He was like a vampire and his eyes were especially sharp. He stared at him with a playful smile. "Horton, you didn't let me down."

As soon as he finished speaking, he started moving. In the blink of an eye, he came to Horton and clapped his hand fiercely.

Horton's head went numb when he saw him. He was so scared that his legs were about to be weak. He screamed, "The Fool, who had the superpower of level 3s!"

The Fool laughed. "I didn't expect you to know me."

He attacked fiercely. Horton couldn't match him at all. And he was scared that he even couldn't exert 70 percent of his strength.

After a while, he was easily captured by The Fool.

The Vengeful Son-in-law Chapter 537 -

The Vengeful Son-in-law

Horton was punched several times by The Fool and had lost the ability to fight. The Fool held him in his hand like holding a chick. Horton looked rather embarrassed.

He was now in great fear, trembling all over, completely devoid of his previous confidence and arrogance. Now he had completely withered, terrified of death!

He even began to beg for mercy desperately, "Master Fool, Master Fool! Please let me go. I promise that I won't oppose you again. I am willing to become your subordinate, Master Fool!"

He screamed loudly. Melissa was so angry at his miserable look of begging for mercy that she almost fainted. She never thought that Horton, who had always acted so bravely and domineeringly, was so afraid of death. He was disappointing and shameful!

She had believed in Horton and spent so much money to hire him to protect her. However, he turned out to be just a coward. Now she really regretted it!

She was really regretful and scared now. If she had known that there would really be an assassin ambushing here, she shouldn't have listened to Horton last night. Instead, she should have listened to the agent from H Country!

Advertisement

In that case, she wouldn't be caught in such danger. She didn't want to die yet. She was still young and had a long way to go.

The Fool looked at Horton disdainfully and kicked him toward Melissa. "A coward like you is not qualified to be my subordinate."

The kick was so hard that it broke Horton's chest and ribs and formed a big hole. If Horton weren't a master in the Innate Realm and had tenacity, he would have died long ago.

Even so, the intense pain was killing Horton!

His face was full of fear and despair. He felt the killing intent from The Fool. He had a strong desire to survive and shouted, "The Fool, you can't kill us! You are on H Country territory! H Country has sent agents to protect us. If you kill us, H Country will not let you go!"

Advertisement

Van and Kyro also stood up and said, "The Fool! Miss Melissa is our distinguished guest. If you kill Melissa, you can't leave H Country alive. I advise you not to mess around!"

"That's right. The most powerful instructor from our Military Intelligence 3 was in charge of Miss Melissa's safety this time and he's already on his way here and will be here soon. He's the most powerful 4S-level master. All of you together are no match for our instructor!"

However, The Fool seemed to have heard a big joke. "Hahaha... A 4S-level master? Military Intelligence 3 is just an abandoned organization in H Country. All the talent is dead. Only two instructors from Scout Team and Dragon Blood Team are capable. Dragon Blood instructors perform missions in other countries. The Scout Team instructor is just a 3S-level master. Even if he comes, he can't be our opponent."

Satan and Red-haired Witch frowned on the side. Satan said, "Master Fool, we did sense a powerful aura these days. It's a warning to us. I don't know if it's a 4S-level superpower or not."

Red-haired Witch also said, "Master Fool, Satan is right. There is indeed a powerful superpower these days, warning us. But we didn't know if whether he is a super agent of H Country or not."

The Fool waved his big hand and said firmly, "Impossible! I have already investigated it clearly. This time, the Military Intelligence 3 is in charge of protecting Melissa. There is no way that the Military Intelligence 3 can have a 4S-level master."

Then he flicked his fingers and said, "Stop talking nonsense. Kill everyone around Melissa as fast as you can. The employer wants Melissa alive."

Satan and Red-haired Witch got the order, nodded hard, and immediately attacked Melissa's team.

The two of them, as the strong men of the second stage of the Innate Realm, were extremely powerful. Now that Horton had lost his fighting ability, the remaining A-level bodyguards were no match at all. Even the bullets could not hit them. Their team was so weak that they were beaten down by them in an instant.

Advertisement

In the end, Van and Kyro were the last lines of defense to protect Melissa. They knew that it was impossible for them to survive in such a situation. It only passed ten minutes. Ryan would never have

rushed over in such a short time.

The two of them looked at each other and saw the reluctance in each other's eyes. They were going to face death unflinchingly.

As members of the Military Intelligence 3, they shouldered the honor of the whole of H Country. Ever since they joined the Military Intelligence 3, they had solemnly sworn that their lives belonged to the Military Intelligence 3. This was their responsibility and their mission.

Unfortunately, they did not die for their country, but for the daughter of a European consortium...

"I, Van!" "I, Kyro!"

Both of them shouted at the same time, "We didn't regret joining the military intelligence in this life! We die for military intelligence now and will become members of it the next life!"

After shouting these words, they burst out laughing without fear. The only thing left was a sense of pride. They looked like two candles burning their last glow and illuminating the world.

They were only masters at the Extrinsic Pea and they were still a long way from the Innate Realm. However, so many people present were touched by their boldness and fearlessness at this moment.

Finally, they turned around and said to Melissa, "Miss Melissa, before we die, we just want to tell you that our H Country agents are not afraid of death!"

Melissa was moved by their deadpan spirit. Her eyes flashed wildly and she bit her lips tightly.

Next, Van and Kyro, like moths to fire, kept going forward, roaring, making their last

sound, and pouncing on Satan and Red-haired Witch, two masters of the Innate Realm!

Satan and Red-haired Witch put away their contempt. Although the two H Country agents were far behind them, they still showed their respect for their bravery at this moment.

“In that case, we won’t torture you.”

As soon as they finished speaking, Satan and Red-haired Witch both moved and rushed towards Van and Kyro. They were much faster than Van and Kyro. Almost in the blink of an eye, they were already in front of them. Then punched them at the same time, directly breaking Van and Kyro’s defenses. The fist hit their chests heavily and the force surged into their bodies.

Their chests and their internal organs were crushed. Their bodies were thrown back like straws. They spat out a large mouthful of blood in the air, their eyes became slack, and their vitality started to drain away very quickly.

The next moment, they fell heavily on the ground. They were dying from draining vitality.

But they did not scream, nor were they afraid. Instead, they smiled. They did not retreat. They completed their mission and did not embarrass the Military Intelligence 3. Even if they died, they died honorably.

Unfortunately, they couldn’t see Ryan. The mission still failed...

However, just as they were in despair, they heard a shocking roar, accompanied by the sonic boom.

“Van! Kyro!”

When they heard this voice, they shifted their heads to the right with difficulty and saw a figure coming over at an extremely fast speed. In a short while, it was already in front of them.

It was Ryan...

The Novel will be updated daily. Come back and continue reading tomorrow, everyone!

The Vengeful Son-in-law Chapter 538 -

The Vengeful Son-in-law

Fortunately, Ryan finally arrived.

Instead of driving, he ran all the way here. It normally took him an hour to drive, but it took him only ten minutes to get here by feet.

Unfortunately, it was still too late. He had just witnessed Van and Kyro's death and heard their words, which deeply moved his heart!

For the first time, he felt the importance of the military intelligence!

He ran there as fast as he could, approaching the speed of sound, regardless of the rapid depletion of his physical strength.

Unfortunately, it was still too late for him to save Van and Kyro!

The human body was too big to drive close to the speed of sound, so the damage to it was great!

Advertisement

Even with Ryan's extremely strong physique, he couldn't stand it now. His internal organs were suffering, as if they had been torn apart.

Fortunately, he was quick to recover. He could recover within a short time.

Now he stood in front of Van and Kyro with a gloomy face. Looking at the huge hole in their chests, he watched as their life slipped away. Ryan felt terrible.

In the past few days, Ryan had got involved with them. He was distressed to see them die in front of him. In particular, the last words of them, the kind of magnificence that burned themselves for the country were all branded and deeply engraved in Ryan's heart!

Advertisement

On seeing him, Van and Kyro smiled at ease and raised their trembling hands slightly. They saluted Ryan with a bright and proud smile. "Ryan, you're finally here. We'll leave it to you... Ryan, we didn't bring shame on the Military Intelligence 3..."

"Ryan, we depend on you..."

Ryan squatted down and held their hands tightly. He felt their pulse and tears welled up in his eyes. He knew that Van and Kyro were going to die.

In earnest, he also saluted comrade and said, "Okay, Van, Kyro, please rest assured that I will not disappoint you and will not embarrass the Military Intelligence 3!"

The smile on Van and Kyro's face widened as they heard his words. They were completely relieved. The next moment, their smiles were fixed on their faces...

They were dead. They had gone forever.

It was the first time that Ryan witnessed people's death. He tried to reach out to grab the souls of Van and Kyro, but he couldn't.

Tick, tick, tick...

Ryan lowered his head and his tears fell to the ground drop by drop.

It was the first time he cried ever since he entered the Innate Realm. Now he clenched his teeth and fists, making a cracking sound.

Advertisement

At this moment, the assassins all surrounded him completely.

Melissa stood behind him. She was trembling, completely devoid of her previous nobility and dignity.

Satan and the Red-haired Witch walked up to Ryan, glanced at him with contempt, and then said to Melissa, "Melissa, it seems that the bodyguard team you hired this time is too incompetent to protect you. You'd better go with us obediently. Otherwise, we might not show any mercy."

Melissa gritted her teeth tightly with a pale face. If it weren't for her character being tougher than many women, she would have collapsed in this situation.

Finally, she looked at Ryan. She had an intuition that this ordinary guy from H Country had a powerful force that could protect her...

However, she gave up the thought immediately. How could this be possible? Even a superpower like Horton failed. And the agent from H Country looked so thin...

At this moment, Ryan stood up. His eyes were dark, devoid of emotion. He looked at them with a murderous look.

"You all have to die," Ryan said clearly, word by word.

For some reason, when they saw his eyes, all their minds stopped for a moment, and they could not help but shiver. It was as if they were going to die.

The next moment, an aura strong enough to topple the mountains and sea erupted from him, and everyone felt the aura around him, and could not help but take two steps back.

At this moment, Satan and the Red-haired Witch were deeply affected. Their faces changed drastically and they screamed in horror. "This is the aura of a 4S level superpower!"

"God, this H Country's agent is a 4S level fighter!"

The Fool, who was not far away, felt Ryan's aura, and he was also stunned at that moment. The next moment, Ryan took a look at him, and something exploded with a roar!

In his mind, there was only one voice left, a 4S level top fighters were few and far between in the world! Others were shocked to hear this. A 4S level fighter with a superpower was not someone they could offend.

"Retreat!"

"Run! Run as far as you can!"

Satan and the Red-haired Witch came back to their senses and ran away without any hesitation.

They were very confident in themselves because Horton was the most powerful one among Melissa's bodyguard team. Now, there was a 4S level fighter, who was not someone they could resist.

"Run away? Run away if you can." Seeing that they tried to run away, Ryan smiled with corners of his mouth upward and sneered. At the next moment, he made a move.

He was so fast with almost half the speed of sound, accompanied by a sound explosion. Almost in the blink of an eye, he caught up with Satan and the Red-haired Witch. Like

the god of death, he hit Satan on the back. With a loud bang, Satan suddenly lost his strength and fell heavily to the ground. His back had been smashed, with an enlarged palm printed, and all his muscles and bones were broken under this palm.

The next moment, he appeared behind the Red-haired Witch. "You can't run away."

Seeing that Ryan killed Satan with hefty slap, she was scared out of her wits. She had never seen such a horrible person, like a ghost!

"I'll fight you!"

The Red-haired Witch burst out with a strong desire to survive. She did not run away anymore. Instead, she chose to turn around and fight with Ryan.

"You're overconfident." Ryan snorted disdainfully. He hit her on the arm and her arm was broken. Instantly, he grabbed the her neck with one hand, lifted it up, and pressed it down hard...

With a bang, the Red-haired Witch hit the ground heavily, raising a cloud of dust on the ground.

Her head was pressed to the ground by Ryan, and it was broken. There was fear and despair in her eyes, and then she died.

This kind of violence scared the other killers so much that they couldn't stand still.

Especially when Melissa saw this, her eyes widened in shock!

She never expected that the H Country's agent whom she looked down on were so terrifying.

Ryan killed Satan and the Red-haired Witch in a row with the greatest of ease, and he didn't even sweat.

The next second, he looked at The Fool and smiled grimly. "It's your turn."

The Fool was filled with dread at the sight of Ryan's eyes. He got goose bump! The next moment, he turned around and ran.

He was so fast that he disappeared in the blink of an eye.

Ryan gave a sneer of disdain and began to chase after him.

The Vengeful Son-in-law Chapter 539 -

The Vengeful Son-in-law

“Run! Run! Run!” “Run as fast as I can!” The Fool thought.
No one could feel the shock and horror of The Fool at this moment!

This assassination mission, he had prepared for a long time, to prevent the accident from happening. Even if it was a 3s level remarkable talent, he could guarantee that he could complete the mission and capture Melissa alive. But what he did not expect was that this time, it was actually a 4s level superpower talent!

Ah, The Fool really hated it. Why did such a thing happen? It was not serious that he couldn't complete the task, but he couldn't die here. He took a lot of effort to cultivate to the 3s level.

At this moment, he was very regretful, but more frightened and confused. Military Intelligence 3 was just a down-and-out organization in H Country. In the war a few years ago, many talents had already died. How could a 4s level superpower suddenly appear now? It was not right. Moreover, the most terrifying thing was that this 4s level superpower looked so young!

At this moment, he burst out with an unprecedented desire for survival. In a short while, he had already run far away.

He was no match for a 4s level superpower, but when it came to running, Ryan might not be able to catch up with him.

After a while, he couldn't feel Ryan's breath and was overjoyed that he had already thrown Ryan off!

However, not long after he was happy, he suddenly heard a playful voice in his ear. "Is that the speed all you can achieve? It's too slow."

Advertisement

"Hiss!"

When The Fool heard this voice, he immediately got goosebumps all over his body. He was instantly frightened and shouted, "This is impossible..."

He knew that he could no longer escape because Ryan had already got so close to him, a distance that could be reached with one hand.

At the critical moment, he made the fastest reaction and rushed forward, making a roll, avoiding the fatal slap from Ryan.

Ryan cried out in surprise for the fool could dodge his attack, but that was all. Ryan's second attack gave The Fool no chance to survive.

Advertisement

Just as The Fool was about to stand up, he looked up and found that Ryan had already come to him. From his angle, Ryan's figure was infinitely big, like a war god.

Ryan's eyes were cold and emotionless, and then he kicked The Fool. The kick was not very fast so that The Fool could see the trace of the kick clearly. According to his ability, he could avoid the kick, but his mind was frozen. His reaction was so slow that he could only watch Ryan kick him!

He knew that it was not because his movements were slow, but because Ryan's mental strength was too strong, which directly caused a huge impact on his mental world, causing the stagnate in thinking and reacting

He had never heard of such a method before. In shock and fear, he had been kicked by Ryan. The fierce and powerful strength broke his waist and he was off the ground hundreds of meters. When he fell down, he had lost his ability to fight.

He struggled to get up, scared and trembling. He only felt his whole body was broken. He was a 3s level superpower at least, but he was crippled by this man from H Country with one kick. How terrifying was Ryan's strength?

Sensing Ryan's murderous intent on him, he was more frightened than ever. He screamed hysterically, "Don't kill me! Don't kill me! Please! I can be your servant for the rest of my life..."

Before he could finish his sentence, the vigor in his eyes and all the vitality dissipated at this moment. His tall body also lost the strength to stand and collapsed weakly.

The Fool, a powerful and terrifying 3s level superpower, renowned in the international assassin world, was killed by a kick from the man from the H Country. If it spread, I don't know how many people would be shocked.

Ryan smiled disdainfully at his dead body, picking him up with one hand, and walked towards Melissa.

Advertisement

Time returned to a minute ago, as Ryan killed Satan and Red-haired Witch in an extremely fast and violent way and chased after The Fool. Another dozen a-level assassins lost their backbone for a moment and were stunned at a loss. Melissa was also confused. She had never thought that things would go this way.

The rest killers, when they came to their senses, did not dare to act rashly, but looked at each other. The atmosphere seemed very strange for a moment.

Now that all the bodyguards were gone, only Melissa was left there, a naked prey with no ability to resist. As long as they made a move, they could capture Melissa alive easily.

But they didn't dare. The Fool was so powerful, but he could only run for his life when facing that H Country agent, not to mention them.

That was why they didn't know what to do.

They exchanged glances and discussed what to do next, whether to run or take risks.

As a result, some people wanted to escape, and some people wanted to take risks to capture Melissa alive and make a big fortune.

Melissa was extremely anxious and tormented. These killers surrounded her and looked at her covetously, like a knife hanging on her head, ready to fall at any time, making her extremely terrible!

She had never been so helpless before, pinning all her hopes on a H Country agent who she had once looked down upon.

It was in such a short time that Ryan came back...

When they saw Ryan coming back with the body of The Fool, the demonic horror made all of them numb and their legs weak.

"Good. You're all here. It saves me a lot of time."

Ryan put down the body and grinned at them. Under the fear of all of them, like a tiger entering a flock of sheep, he began a cruel hunt.

They all tried their best to escape. Unfortunately, in front of Ryan, an invincible super power, their lives were no longer in their own hands.

In less than ten seconds, Ryan beat the dozen killers to death. He, on the other hand, didn't even sweat. It seemed easier than eating or drinking.

Apart from Ryan, only Melissa and Horton were left alive. They were completely stunned and could not describe their shock and subversion in words!

"444, 4S superpower talent, My God..." Horton was trembling. A glance from Ryan scared him to faint.

And as for Melissa, there was now also a huge wave rolling in her mind! In her eyes, Ryan was no longer a person, but an omnipotent god.

Ryan walked over and glanced at her indifferently. There was nothing else but a faint sentence, "You're safe." Melissa looked at him, her heart racing inexplicably, nervous and uneasy.

"Thank you." Melissa said in broken mandarin and made a gesture of gratitude to Ryan.

Ryan ignored her. Instead, he walked to Van and Kyro's bodies, squatted down, and helped to close their eyes.

"Comrade Van, comrade Kyro, I have completed my mission. I have not humiliated the Military Intelligence 3. You can rest in peace." Ryan saluted them again, and then began to call Thorn to report the situation.

At this moment, Melissa walked over carefully and asked anxiously and expectantly, "Hello, the respected agent from H Country, may I know your name?"

The Vengeful Son-in-law Chapter 540 -

The Vengeful Son-in-law

Ryan looked at her calmly.

Melissa's heart somehow beat a lot. She had known Ryan for a week and met him every day. And she didn't care about Ryan at all before. She even disdained him. She thought that Ryan was just an ordinary agent. They were like a princess and a commoner.

But now, she had no such contempt at all. On the contrary, she was very nervous and panic in front of Ryan. Her original pride and dignity disappeared completely.

Ryan's performance just now totally changed her view of him. It turned out that Ryan was not an ordinary agent, but a 4s level super master! Although she was just an ordinary person, she also knew what did that meant. He was one of the people standing in the pyramid of life who had broken free from the shackles of wealth. In other words, even her father had to try his best to develop relationships with such a powerful man, and facing this kind of man, even her father would not dare to be arrogant.

The reason why she believed in Horton so much was that her father treated Horton respectfully. He invited Horton to be her bodyguard to protect her with huge visible and invisible benefits in return.

Horton was only a 2s master, but the agent from the H Country in front of her was a 4s master who could kill Horton in a second.

So, Ryan's status and influence were beyond her imagination.

Advertisement

Melissa had never seen such a strong man before. She would never forget the scene that Ryan controlled everything and looked down on all living things and his one thought could determine whether one would live or die. The scene had been engraved in her mind.

As a girl born in a prestigious family, Melissa had seen all kinds of outstanding men, but she had never seen anyone like Ryan whose strength went beyond her imagination. Ryan was comparable to a superhero in a science fiction film!

And her growing environment made her worship the strong. Now Ryan was the powerful master that she admired crazily.

Ryan's mind was acute. How could he not know what she was thinking? The corners of his mouth rose slightly. He revealed a disdainful smile. Instead of answering her, he glanced at the corpses all over the ground. Many of them were her bodyguards.

"Do you regret it?"

Advertisement

Melissa was stunned. She was clever and quickly understood what Ryan meant. Lights in her eyes dimmed and she glanced at the bodyguards on the ground. "It's all my fault. I didn't listen to you."

Ryan was furious when he heard this. He could care less about the death of these white bodyguards, but he could not ignore the sacrifices of Van and Kyro! If it weren't for Melissa's stubbornness, the two of them would not sacrifice at all! They were only in their early thirties, and they still had a great life to enjoy. Their families would also be in long-term pain because of their sacrifice!

Melissa felt Ryan's anger, and she became even more flustered. She was so scared that she took two steps back and her heart thumped. "I don't want this to happen either!"

Ryan took a deep breath and gave up the urge to beat her up. Then he turned around and stopped looking at her. Now he was waiting for the Military Intelligence 3 to send someone over to deal with the mess here.

Melissa was now particularly afraid as Ryan had put too much pressure on her which was even greater than the pressure she felt when facing her father.

She looked up and found that Ryan did not intend to teach her a lesson. She breathed a sigh of relief, gritted her teeth, and walked over again. She said weakly, "I was wrong. I was too willful and didn't listen to your warning... I won't do this next time. Can you not be angry?"

"Don't be angry?" Ryan's anger, which was finally suppressed, was provoked by her words. He turned around abruptly and laughed in anger. "Melissa! I told you yesterday

that assassins are targeting you. You can't come to the scenic area and create opportunities for the assassins! In the end, not only did you not listen to me, you even deliberately left me behind and brought your so-called powerful bodyguards here!"

..” Melissa was so frightened by Ryan’s angry look that she lowered her head in fear.

Ryan couldn’t suppress his anger and continued to roar, “What? Am I wrong about you? You think the whole world revolves around you because you have money, and because you have money, then the assassins don’t dare to touch you? Do you know that if it weren’t for my country, I wouldn’t care about you at all! Now, two of my comrades are dead. They are only in their thirties.

They won’t have the chance to enjoy their wonderful life. It’s all because of your willfulness, your self-righteousness, and your single-mindedness! Melissa, why should they pay for your willfulness and arrogance?!”

Melissa was stunned by Ryan’s roar, and then she became angry again. She glared at Ryan and retorted, “Why are you shouting at me so loudly! I didn’t mean to! I don’t know the assassins would ambush me! Horton promised me that I would be safe. I didn’t mean to have them killed. Besides, they weren’t my bodyguards, and I didn’t pay them anything. They were the ones who were willing to protect me. They’re dead, but it’s none of my business...”

Ryan’s expression became gloomy instantly when he heard what she said. “What did you say?!”

Melissa was frightened by Ryan, but she still retorted, “I’m not wrong. They were willing to protect me, and you can’t change it even if you yell at me!”

Ryan closed his eyes, clenched his fists, and made a cracking sound. If it weren’t for Melissa’s special identity, Ryan really wanted to teach Melissa a lesson.

After a while, Ryan let out a long breath and became expressionless again. It was as if the person who had just been furious was not him. The coldness in his eyes now scared Melissa.

“I’m sorry, I said something wrong. I didn’t mean that...”

Ryan interrupted her and said coldly, “Needless to say. You’re right. We’re not in an employment relationship. You’re not obligated to be responsible for their sacrifice. When my colleagues come they’ll arrange new bodyguards to protect you.”

When Melissa heard this, she immediately panicked. For some reason, she felt especially uncomfortable and disappointed. She went forward, grabbed Ryan’s hand,

and said apologetically and flusteredly, "I'm sorry. I was impulsive. I said something wrong. I didn't mean that. Please don't be angry."

Ryan shook off her hand and said coldly, "Miss Melissa, please behave yourself."
