

《The Mysterious CEO》

85 Decision....

"Can I ask the reason?" Mo Jun asked.

He knew that Mo Corporation still needed Si Corporation for completely recovered from the crisis. As Feng Corporation had leaked many pieces of information of Mo Corporation, which had created billions of losses to them and now if their partnership with Si Corporation got cancelled, their losses would increase.

"As you know that Mo Corporation's many pieces of information were leaked, whose effect is still continuing to remain till the Feng Corporation exists. I can't take that risk" Si Li said.

Mo Jinnan rolled his eyes after hearing Si Li's reason. He understood that Si Li wanted something else, this reason was only an excuse to let him off.

But...What did he want?...

However, Mo Jun didn't understand Si Li's tricks and still tried to convince him "Xiao Li, don't forget we had formed this partnership when your father was in the position of CEO of this company. You can't cancel this partnership so easily".

"At that time, Mo Corporation was stabilized, that was why, my father had formed the partnership with your company. However, currently I am CEO of this company and Mo Corporation is unsterilized, so I don't think I should continue with this partnership" Si Li rejected the idea of Mo Jun.

One of the reasons for Mo Corporation's failure was, Mo Jun trusted on other people instead of his own son. That was the reason, Feng Corporation was able to gather so many pieces of information about the Mo Corporation despite being as an outsider.

Even, currently, Mo Jinnan was working under the Mo Corporation as an employee instead of as a CEO. Current CEO of Mo Corporation was still Mo Jun.

However, some past events had happened, which made Mo Jun like this.

Lu Lan was quietly listening, whatever was happening here. In fact, she also understood that it was Si Li's tricks and he wanted something else. Now she was eagerly waiting for Si Li to put his trump card.

"However, Uncle Mo, I can help you in this" Si Li finally started to put his card.

Mo Jun's eyes lit up "How?"

In fact, Mo Jinnan and Lu Lan narrowed their eyes and curiosity was showing on their faces and they leaned forward to list every word of Si Li carefully.

"I want you to agree with Mo Jinnan and Miss Song's marriage" Si Li finally put his card.

Mo Jinnan was taken aback when he heard Si Li words. He never expected that ruthless Si Li would be agreed to suffer losses only for the happiness of his friend.

It was the first time, Mo Jinnan was encountering this side of Si Li. Maybe it was Lu Lan's influence on him.

Even, Lu Lan was shocked after hearing Si Li.

Mo Jun finally understood it was the trap set up by Si Li.

"Xiao Li, it's our personal matter, don't cross your line" Mo Jun warned him.

"It's your son's life, stop interfering in it" Si Li backfired him.

"That girl doesn't deserve him. He needs someone with a strong background who is able to protect him" Mo Jun said in a high voice.

"That doesn't matter," Si Li said in a firm voice.

"Of course, it does matter. I don't want past to repeat itself" Mo Jun roared.

"Dad..." Mo Jinnan immediately stood up and stop his father from saying anything.

All of a sudden, the environment inside the office became tensed.

"Si Li, stop it. I will handle it on my own" Mo Jinnan said.

"No.... I won't stop" Si Li rejected Mo Jinnan.

Si Li looked at Mo Jun and gave him an ultimatum "Uncle Mo, you decide, the

partnership between our companies or your stubbornness against Mo Jinnan and Miss Song's marriage".

"You are crossing your lines" Mo Jun shouted.

"Your decision," Si Li said in a high voice.

Both Si Li and Mo Jun were looking at each other eyes, as if no one wanted to admit defeat.

Lu Lan clenched Si Li's arm, as if she wanted him to stop.

Mo Jinnan sighed helplessly.

There was a silence in the room and the environment still heated up. No one uttered a single word, the only sound of breath could be heard.

Mo Jun closed his eyes to control his anger, he couldn't lose partnership of Si Corporation and Mo Corporation, as it was a downfall for his company. Losing partnership with Si Corporation meant the shutdown of Mo Corporation.

Mo Corporation stood up after Mo Jun had put his blood and sweat and sacrificed his other dreams and his precious time with his wife and family.

Mo Jun was regretting to show his trust on those Fengs. If he didn't trust them as their family members, he wouldn't be in this situation.

However, he couldn't agree with Si Li's condition, as well. It would be the meaning of losing his son's life.
