

# 《The Mysterious CEO》

## 88 2 hours...

When Si Li entered in the hall, everyone saw him. First, they were shocked to see him, but quickly they averted their sight from him, as if he didn't appear in front of them.

Even, he wasn't bothered by everyone's disregard and straightaway went towards a room which was in the corner.

"Wait..." A high voice came from behind.

Si Li hadn't moved and stood there, not even turned back to look at the source of the voice.

A man wore a black suit came forward and stood in front of Si Li, face to face. His eyes were the grey colour, his eyebrows were thick, his nose was sharp and his lips were thick. He looked younger than Si Li, his face was cold and indifferent and his eyes showed the disdain towards Si Li.

"Mr Si, you are at the wrong place. You are not allowed here. It would be better for you to go back in this instant" The man indifferently said.

"I need 2 hours," Si Li said.

Si Li's face was still calm, as if the man's disdain didn't affect him at all.

The man chuckled "You must be dreaming. Go back. You are not welcome here".

Both the young man and Si Li were looking at each other, as if no one wanted to admit defeat. Si Li didn't want to go back and the man didn't want to allow Si Li here.

All of sudden, the temperature in the building drop down. Everyone in the hall immediately left their work and stood up and looked at the young man, as if they were waiting for the signal from the young man, who was standing in the front of Si Li, to attack on Si Li.

"What is happening here?" An old man's voice echoed in the hall.

An old-age man came out of one of the rooms. He also wore a black suit, his hairs

were white colour, his sharp black eyes looked at the two men who were standing in front of the room in the corner.

"Choi Sun and Si Li back off" the old man shouted.

Reluctantly, Si Li and Choi Sun took a step back, however, their cold gaze didn't move from each other.

The old man went towards Si Li and Choi Sun and stood beside Choi Sun "Si Li, What are you doing here? Don't forget, you are not allowed here".

"I need 2 hours" Si Li looked at the old man.

"You aren't allowed to go for even a second in that room..." The old man said in a high voice.

Although, he was old, but still, his voice had a determination, even a young man would lack in front of the old man's voice.

"It's related to Feng Corporation. You know it, don't you?" Si Li said in a firm voice.

The old man looked at Si Li for a while, afterwards, he said "Fine, but remember if you took a single extra second, you wouldn't be able to leave this place alive".

"Master..." Choi Sun wanted to protest, however, the old man raised his hand to stop the Choi Sun.

Choi Sun showed anger look towards Si Li, but still, he moved aside.

Si Li's face was nonchalant neither show sadness nor happiness.

Si Li took a step ahead, however, the old man stopped him "Wait..."

Si Li raised his brows and had a questioning looked towards old Man.

"Lu Yihan, go with Si Li" the old man looked at a boy, who was standing in the hall and then, the old man turned towards Si Li "What... do you expect me to believe you? Huh?"

After hearing old man's words, Choi Sun had a mocking smile.

Si Li didn't respond and strode inside the room and Lu Yihan followed him inside the room.

While, outside, no one moved and all stood at the same place and their facial expression became cold and scary, as if Si Li took one second extra after 2 hours, they would dash into the room and shot him.

Time was slowly passing and the temperature in the hall was decreasing with the time passed.

1 hour 58 minutes passed.

Everyone walked towards the room and gathered outside the room.

One minute was left...

Everyone took their guns outside...
