

When they arrived at Heaven Club, Li Hu saw that He Zhinian was accompanying a middle-aged man in a respectful manner. There was nothing spectacular about that guy at all. However, unbeknownst to him why, when the middle-aged man looked at him, he felt an unprecedented pressure weighing upon him.

It was indeed an invisible pressure that made him—the boss of the Mafia underworld for more than a decade—afraid of the middle-aged man’s gaze.

“Li Hu, this is Mr. Mu from Beijing,” said He Zhinian as he introduced them.

“Nice to meet you, Mr. Mu,” said Li Hu as he approached him and offered his greetings.

Mr. Mu sized him up. Then, he took out a photo and showed it to Li Hu. “This person is in Qijiang currently, and I want you to find him. By the way, his wife and daughter are in Qijiang as well. If you can capture them, I will give you 100 million as a reward.”

Li Hu took the photo from him and had a look. His eyes gleamed in that instant.

Wasn't this the photo that his underlings showed him previously? He even heard that the person in this picture was a good fighter.

"Okay. I will bring this person to you by today—no, within an hour," said Li Hu confidently.

Mr. Mu's eyes gleamed as he thought to himself that Li Hu definitely knew where Lu Chen was, otherwise he wouldn't be so confident.

However, he did not say anything and merely nodded his head.

"Then, I shall take my leave first to complete the task," said Li Hu. Even though he was powerful, the 100 million was quite important to him as he did not have any money now. If he had this 100 million as his starting capital, he believed that his wealth would soon surpass that of Niu Dashan and he would become the richest man in Qijiang.

"Go then," said Mr. Mu curtly.

After Li Hu left, He Zhinian asked Mr. Mu carefully, "Mr. Mu, who is that person in the

photo?”

Mr. Mu had come all the way from Beijing, and he did not hesitate to spend 100 million to find the person in the photo. So it shouldn't be a surprise if He Zhinian was astonished.

“He is someone who you can never afford to provoke in your lifetime,” said Mr. Mu casually.

He Zhinian was shocked and couldn't help but look at the person in the photo again. Why does the youth in this picture look so familiar?

“Let's go. Investigate the whereabouts of his wife and daughter first. I bet that Li Hu would most likely not be able to capture him,” said Mr. Mu as he walked outside.

He Zhinian followed behind him while making a phone call to his men, ordering them to investigate the whereabouts of Lin Yijun and her daughter.

...

Lu Chen stayed back once again.

As expected, Li Hu's men came knocking on their door more than an hour later.

More than ten cars were parked outside the Wang residence's gate and more than a hundred underlings came down from the cars. Each of them were either carrying a steel pipe or an axe in their hands. It was the typical manner of the Mafia underworld who fought in a group.

When everybody within the Wang residence saw this, they were so frightened that their faces drained of color, their eyes filled with fear.

All the guests had escaped from the Wang Family's compounds as they were afraid that they would be dragged into this mess.

When Xu Jie saw that Li Hu had personally led his team here, he was shocked and snuck away quietly.

Given the situation now, it would be better for him to sever ties with the Wang Family. Otherwise, he couldn't even imagine his manner of death later.

Especially since this situation arose because he was the one who had asked

his men to beat up Li Hu's people. Logically speaking, he should be the one bearing the greatest responsibility for it.

The gazes of the Wang Family members were full of disappointment when they saw that Xu Jie had snuck away at this critical moment.

Compared with Lu Chen, who remained determined and stood firmly in front of them, Xu Jie's retreating figure looked more like a clown to them now.

Wang Wan was upset and disappointed that Xu Jie had abandoned her and her family at this critical moment and snuck away by himself.

How ironic was it that a husband and a wife should be one. However, when there was a sign of trouble, it was each man to themselves.

Wang Kai looked at Xu Jie's retreating figure and made a decision.

He would not beg or borrow money from Lu Chen for Xu Jie anymore.

"Get me the steel pipes." When Lu Chen

looked at his opponent's fighting stance, he knew that he had to give them a fight today. He then looked at the time and estimated that Du Fei and his men would be arriving soon.

Although he was quite powerful, it would be difficult to deal with more than a hundred men by himself. Luckily for him, the courtyard of the Wang residence wasn't that big, hence these men could not enter the courtyard all at once, but partially instead.

In addition to that, most of the men were merely in their late teens, some of them were even just skin and bones. From the looks of it, they didn't seem like they had any fighting abilities at all.

Based on this alone, Lu Chen really admired Du Fei's team. Although there weren't many men in his group, they were all tall and sturdy. Not many of them were there to idle their time away or live off the earnings of the group without doing anything. Each of them could hold their ground if they were to be thrown into a fight.

If it weren't for Du Fei's forty to fifty men,

Dongfang Long wouldn't have stayed his hand.

It was mainly because Du Fei was a skilled fighter himself. As such, the people whom he recruited into his group had to have some real capabilities as well.

"Chen." Wang Shi, who had received five stitches on his head, brought over two steel pipes that he had prepared beforehand.

Lu Chen took the steel pipes from him and waved it about in his hands. Then, he turned back and said to the rest of the Wang Family, "Please find a place to hide yourselves first."

Even if he was a skilled fighter, he could not ensure the safety of everyone here with so many hooligans around.

He was prepared to lure all the ruffians away after the Wang Family had hidden themselves in the house. Moreover, he had already thought out the route for it. He would run in the direction of Chongqing so that he could try his best to meet up with Du Fei and his men.

There were more than a hundred people there. Even if they were just some small-time ruffians, he could not say for certain that he could defeat them if they were to fight for their lives.

If his opponent was intimidated by him, then the situation would be easier to handle. He only needed to flip over a dozen of them to scare them off.

However, if his opponent wasn't intimidated and rushed toward him all at once, then he could only run for his life.

After all, fighting was exhausting.

The main thing was, there were just too many people in that area and they could be injured by the weapons at any time. If he was stabbed by his opponent, then that would be the end for him.

When Lu Chen turned back to look, he noticed that the three men of the Wang Family had taken up the steel pipes that they had prepared earlier and stood beside him.

Wang Kai, Wang Jin and Wang Shi had a determined look in their eyes.

This was the Wang Family's business, so how could they let Lu Chen protect them alone?

Xu Fang and Wang Wan wanted to say something but stopped themselves when they saw the determination in the eyes of Wang Kai and the other two. In the end, they did not say anything at all and backed away with Wang Qiong.

Even if they were shameless, they did not have the guts to say that Lu Chen should shoulder all the responsibilities by himself at this very moment.

"Uncles, you guys should retreat." Lu Chen had a plan, so naturally he did not wish for the three of them to disrupt him. The best plan for now was to lure Li Hu's men away, otherwise he would be in trouble as well.

"Chen, you do not need to say anything. We have to protect the dignity of the Wang Family even if it costs us our lives today," said Wang Kai resolutely.

"Yes, we cannot allow you to fight our battle alone!" said Wang Jin in a deep voice as he raised the steel pipe in his hands.

“Chen, what my sister and mom did previously was wrong. If we were to let you fight this battle alone for the Wang Family, then how can we consider ourselves humans? Therefore, Chen, please let us fight this battle along with you,” said Wang Shi with determination.

Lu Chen was slightly stunned when he saw that all three of them were prepared for a fight to the death.

He was about to say something when he realized that his opponent was already approximately a few meters away from them.

“Well, prepare to fight then.” Lu Chen smiled bitterly in his heart. The only thing he could do now was to prepare for a fight to the finish.

Let's just see who'd be more ruthless then...

Li Hu led his team as they approached Lu Chen and his three men. Currently a few meters away from them, he was shocked to see that Lu Chen and his three men were prepared to take on more than a hundred of his men.

He had already been in this line of work for more than ten years and had worked his way up the ladder to become the boss of the Mafia underworld. As such, he had seen his fair share of heroic beings.

However, these four men were the boldest people that he had encountered in his entire life.

It was four men against a hundred men. Even then, they did not show the slightest hint of fear. They really are cut out to be a f\*cking Mafia!

“I, Li Hu, am a reasonable person. Since this kid injured twenty of my men, I want the Wang Family to tie him up and hand him over to us. Then, I can let bygones be bygones.” Although Li Hu admired their courage, he did not forget the reason why he came here personally, and that was to bring Lu Chen back to Mr. Mu.

“Wang Kai, agree to his request!” Xu Fang yelled out amidst the crowd when she heard this.

As long as they handed Lu Chen over to Li Hu, he would not stir up any more trouble for the Wang Family. Therefore, she was extremely agreeable to that.

“Dad, since they have mentioned that they’re here to stir up trouble because Lu Chen had beaten up their men, why do you need to get yourself mixed up in this mess? Come back here quick!” shouted Wang Wan.

Wang Jin did not say anything and only gripped the steel pipe in his hands tightly.

“Shut up! All of you!” Wang Kai finally stood firm on his decision as he turned to look at Xu Fang and Wang Wan as he bellowed.

“Shi, don’t follow your father to his death. Come back here, quick!” shouted Xu Fang at her son when she saw that her words had fallen on Wang Kai’s deaf ears.

Wang Shi did not turn his head at all as he fixed his gaze on Li Hu and gripped the

steel pipe in his hands tightly. Then, he said coldly, "Li Hu, I am the one who injured your underlings. This has nothing to do with my cousin. So if you want to exact your revenge, you should come at me instead."

"Wang Shi, are you mad? Do you not want to live anymore?" Xu Fang was so angry that she stomped her foot. She wanted so badly to rush forward and drag Wang Shi back.

Since Li Hu did not mention Lu Chen's name earlier, she did not have anything to say.

However, now that Li Hu had finally designated Lu Chen as his target, how could the Wang Family accompany Lu Chen to his death?

"If it is a fight that you want, then it is a fight that you shall get!" Wang Jin could not bear to listen to them anymore and was the first to rush forward with the steel pipe in his hands.

Whether it was Xu Fang or Wang Wan, it didn't matter as they had completely pissed him off.

He would rather be the first to rush forward to meet his death than to continue listening to the shameless words that were uttered by his mother and sister.

Lu Chen was speechless when he saw that Wang Jin was the first to rush forward.

Though, he did admire Wang Jin's courage.

"Bring it on," said Lu Chen as he gripped the two steel pipes in his hands tightly and rushed forward as well.

Li Hu and his men stared at them with wide eyes when they saw Wang Jin and Lu Chen rushing toward them.

In the past, they were the ones instilling fear in the hearts of other people. Even if they didn't make a move, their opponents would not dare to take the initiative to do so.

Unexpectedly, the four people from the Wang Family had turned his views upside down today.

Li Hu took a steel pipe from one of his underlings' hands. He had heard that Lu Chen was a skilled fighter before this,

hence he really wanted to take Lu Chen on to see whether it was true.

However, at this moment, a cacophony of noises erupted from behind them that made him turn around. He then saw more than a dozen vans turning in right around the corner and stopping behind their cars. Following that, over a hundred men came down from the cars, each of them looking more ruthless than Li Hu's men.

Lu Chen saw the vans as well and knew that Du Fei and his men had finally arrived.

He was delighted and quickly rushed in front of Wang Jin. With a steel pipe in each of his hands, he defeated his opponents wherever he turned.

Basically, he managed to knock out a ruffian each with every strike of his steel pipes.

Lu Chen's ruthlessness boosted the courage of Wang Jin and the rest as all three of them raised their steel pipes respectively and swung it about wildly.

In fact, all three of them weren't skilled in fighting. However, Lu Chen had paved the

way for them as most of the firepower was focused on him. Therefore, not many people paid much attention to them.

On the contrary, they were provided a safe haven to vent out their frustrations.

As soon as one of the ruffians staggered away from Lu Chen, they would go after them with their steel pipes in a merciless manner. Hence, many ruffians were heavily injured because of them.

“Hu, let’s go quick. Those people are here for us!” said one of the ruffians to Li Hu when he saw the group of burly men beating his fellow colleagues up.

Obviously, Li Hu knew that these men were after them.

Moreover, their opponents were tall, strong and sturdy-looking men. Each and every one of them looked like they could easily take on several of his men at once, so how could he dare to fight back when faced with such an enemy?

“Could these men have come here upon Lu Chen’s orders?” Li Hu turned to look at Lu Chen who was going all out in beating up

his underlings. In that instant, a hint of killing intent flashed across his eyes.

Based on Lu Chen's fighting abilities, Li Hu felt that it would be difficult to capture him today, even without his backup.

Who is this kid anyway? Why did Mr. Mu fork out 100 million to capture him? Li Hu thought to himself, puzzled.

"Hu, we won't be able to escape in time if we drag this out any longer. They look like they are going to surround us," said one of the ruffians as he tugged on Li Hu's arm.

It was then that Li Hu finally reacted. He did not bother about the group of ruffians anymore and brought along his trusted subordinates to escape.

Following closely behind Li Hu was twenty to thirty of his men. Seeing them escaping, the rest of the ruffians lost their will to fight and quickly tried to scatter themselves. At that moment, they were akin to a flock of frightened birds.

Lu Chen stopped in his tracks when he saw that Li Hu was sneaking off. Since the rest of the ruffians were trying to escape

for their lives, they were unable to cause much damage to Wang Kai and the rest of them.

He then took out his mobile phone and gave Du Fei a call.

“I want you to stop them. They are around twenty meters away from you guys in the Southwest direction,” said Lu Chen as he took a look at the escape route that Li Hu and his men were taking.

Regardless of the reason why Li Hu wanted to capture him specifically or as a favor to Niu Dashan, Lu Chen had to detain him today.

“Okay.”

Du Fei also noticed the direction in which Li Hu and his men were fleeing, so he hung up the phone and brought along a dozen of his men and rushed toward them.

All the people in the Wang Family stared in disbelief when they saw Li Hu escaping with his men.

Soon, they realized that somebody had actually helped them behind the curtains.

The only thing was, these people were from the Mafia underworld. Everybody was frightened when they saw them pursuing Li Hu's men and beating them up to a pulp.

"Mom, who are these guys? Why are they helping us?" asked Wang Wan in surprise.

Xu Fang shook her head. However, her eyes gleamed in that instant as she said excitedly, "Could Xu Jie have sent these men as reinforcement? It must be him, otherwise who else would help out the Wang Family?"

Wang Wan's eyes shone as she felt that this was a possibility because there was no reason for these people to help the Wang Family out of the blue.

However, if these men were here on Xu Jie's orders, then he should be here as well. So, why did they not see him around?

"Wan, why don't you give him a call and ask him whether these men are really here upon his orders," said Xu Fang with a hopeful look.

Wang Wan nodded her head as she pulled out her mobile phone and searched for Xu

Jie's number. While she was doing that, she saw a group of men dragging Li Hu toward Lu Chen.

Wang Wan was stunned. Could it be that these men are here on Lu Chen's orders instead?

How could this be? How could he have the capabilities to order so many men here?

Moreover, these men looked like they are from some other Mafia underworld!
