

“The Dragon Lakeview District. Lu Chen was the one who bought the mansion but my parents will move in with us,” Lin Yijun explained.

“Wouldn’t it be really cramped if they moved in too?” Xu Fang grinned slightly.

She thought to herself, Looks like Lu Chen ain’t that rich anyway. It doesn’t cost much to buy a house with four bedrooms and two living rooms.

Most importantly, Lu Chen did not buy Wang Xue’s family another house. This made her feel somewhat more superior.

Didn’t Lu Chen always act as if he was loaded? How could he compare to her future son-in-law, Xu Jie, when he was still reluctant to buy Wang Xue a house?

Although Xu Fang and the others had visited Chongqing a handful of times, at the end of the day they were still not from Chongqing, so they obviously didn’t know that the Dragon Lakeview District had mansions that cost at least 50 million. They thought that it was just another ordinary housing area.

“Yijun, wouldn’t it be inconvenient for the entire family to be cramped up together? If Lu Chen hadn’t been so reckless and spent a few million to buy everything in the Louis Vuitton store for you that time in Qijiang County and donated most of it, he could have used the money to get Aunt Xue a house; he could even afford a cheaper mansion,” Wang Wan said, smiling. Her words dripped with sarcasm.

Wang Kai and the others nodded along in agreement.

They had all heard about how Lu Chen spent 4.5 million to buy everything in the Louis Vuitton store and had donated all of it. Although they never said anything, they felt that Lu Chen was a wastrel that liked to throw his money away.

“Yijun, I think that Lu Chen can be very reckless at times. You should really talk to him about it. Although he’s rich, he can’t be spending money like this,” Wang Jin tried to advise.

Lin Yijun laughed bitterly, before nodding and said, “Alright, Uncle Jin. I will talk to him someday.”

Although she wasn't clear about how much money Lu Chen had exactly, she knew that the amount was astronomical when she saw him investing 50 billion on the construction of the Science and Technology Park, the supermarket, as well as the rough stone mining company.

A few million to Lu Chen was equivalent to a few bucks to any ordinary person.

If spending a few bucks could make someone feel better, most of them would gladly choose to do so, wouldn't they?

However, a few million was astronomical for the Wang family too. Hence, Lin Yijun smiled wryly and chose to not say anything.

Lin Yijun did ask Lu Chen about it previously, and she learned that Lu Chen had never taken out any loans from the bank for all his investments. This was also one of the reasons Xie Weihao was on Lu Chen's side.

This was because even if Lu Chen's investment went awry, it wouldn't affect Chongqing's economy in any way. However, if he succeeded, it would boost

Chongqing's entire economy to a whole new level.

As for the supermarket and the mining company that Lu Chen invested in previously, they were just hobbies in front of the Science and Technology Park. When the city council realized that it was one of Lu Chen's investments, they gave him the green light to proceed without any obstructions.

When Xu Fang and the others noticed that Lin Yijun's car was heading to a remote area and could feel the car getting more and more slanted as if they were heading up a hill, they were sure that the house that Lu Chen bought must be some cheap, large house that was located in a remote area.

Xu Fang and Wang Wan stared at each other before smiling knowingly.

"Yijun, we are in the suburbs, right? Why did you guys buy a house in such a remote area?" Wang Wan feigned innocence and asked curiously.

"Although Saddle Hill is near to the suburbs, with Yi Qi Technology's building

here, this place will be developed in no time. In the future, the entire Saddle Hill will be under the Science and Technology Park,” Lin Yijun explained seriously. She wasn’t as cunning as Wang Wan and didn’t understand the meaning behind her words.

“Then, the house you bought at what’s-it-called housing area must be cheap right?” Wang Wan asked again.

“The Dragon Lakeview District,” Xu Fang reminded her.

“Right. The Dragon Lakeview District. Is it like those economic housing areas subsidised by the government to help the poor?” Wang Wan chuckled mockingly.

Lin Yijun finally understood what Wang Wan was insinuating.

She laughed and didn’t bother to hide anything before saying, “The Dragon Lakeview District is an exclusive mansion area built by Jun Yue Group right before the dissolution of their board of directors for the rich people of Chongqing. The smallest mansion in that area is at least five hundred square meters and most of them are at least three to four storeys.”

million. Moreover, all the mansions are only sold to those who can pay in full. Loaning or allowance of credits aren't allowed." Looking at their dumbfounded facial expressions, Lin Yijun felt good.

Especially when she saw Wang Wan and Xu Fang's expressions as they were the ones who loved boasting the most.

"At least 50 million for one?" Wang Wan and the others gasped. Moreover, in full payment? They couldn't imagine the lives of the wealthy.

"If that is so, did you guys buy the mansion that costs 50 million?" Xu Fang was still unwilling to give up. She recalled the time Xu Jie paid for the down payment of their house that cost one million in a housing area that was considered expensive in Qijiang County. At that time, she couldn't wait to get Wang Xue and the others to visit her so she could boast about it.

The news of Lu Chen buying a 50 million exclusive mansion was like a large blow in her face.

Wang Jin and Wang Kai looked at each other, shock evident on both their faces.

“It’s an exclusive mansion area?”

Wang Wan and the others were dumbfounded. All exclusive mansions were mansions but not all mansions were exclusive.

If Lin Yijun described her house as an exclusive mansion, then how much would it cost to own a mansion in the Dragon Lakeview District?

“What’s the price for the cheapest mansion there? I think a normal exclusive mansion would cost around seven to eight million, right?” Xu Jie couldn’t help but ask.

His family had bought a mansion in Qijiang County as well. However, it only cost around four to five million. Even in Qijiang County, it still couldn’t be considered exclusive.

“Are you serious? It’s hard to find a mansion that expensive in Qijiang County.” Wang Wan was surprised. She doubted what Lin Yijun told them was true.

“The Dragon Lakeview District is the only area in Chongqing with exclusive mansions; the cheapest costs at least 50

How wealthy was Lu Chen exactly?

Even his house cost 50 million!

Although she didn't turn around, Lin Yijun knew that they were all stunned. She smiled and chose to not reveal that the mansion that they bought was the best mansion in the entire Dragon Lakeview Mansion Area. They might not be able to handle another blow.

In no time, they reached the entrance to the Dragon Lakeview Mansion Area. Looking at the rows of mansions that looked like castles, Xu Fang and the others finally stopped trying to berate her.

They finally believed what Lin Yijun said, a feeling of helplessness rising within them.

Especially Wang Wan who recalled how she boasted in front of Lin Yijun on so many occasions previously. She felt like a clown.

She couldn't believe how much she boasted in front of Lin Yijun and the others when they were just being low-key and played along with her ignorance.

“Yijun, which one of the mansions belongs to you guys?” This time, Wang Wan finally stopped trying to be sarcastic and asked normally.

“The largest one at the top,” Lin Yijun answered as she pointed at the largest mansion next to the lake.

Everyone’s eyes widened as they looked over to where she pointed.

That mansion was four to five times bigger than all the other mansions and it stood out right in the middle of them.

It was literally a small castle!

When all of them reached the mansion, Wang Wan and the others came down and gawked at the extravagant decorations of the place, overwhelmed by the sheer luxury of the mansion.

“You guys are finally here! Come on in, I will show you guys around!” Wang Xue had instructed Lin Dahai to accompany Tang Qingshan and the others when she heard that the Wang family was approaching, so she could come over and guide her family around. Scratch that, she came over to brag to her family members.

Wang Xue was on cloud nine. Smugness emanated from her no matter how hard she tried suppressing it.

She didn't care that this mansion wasn't owned by her.

Most importantly, she now had the opportunity to boast in front of Tang Qingshan and the Wang family.

“Wang Xue, how much did Lu Chen pay for this place? I heard from Yijun that the cheapest mansions here cost at least 50 million, and your house is so much bigger than the other mansions. I'm sure this

place cost more than a billion!” Wang Jin exclaimed.

“A billion? You wish. This mansion is the largest exclusive mansion in Chongqing. It cost Lu Chen at least 2 to 3 billion for it,” Wang Xue exclaimed as she gestured exaggeratedly.

If this mansion were to be sold, it would generally cost around 1 to 1.5 billion. Of course, that was before renovations. If Lu Chen were to sell his house right now, there would be tycoons that were willing to pay more than 2 billion, especially people from the Four Great Families.

When the Dragon Lakeview Mansion Area was first developed, it was mainly marketed as a housing area for the richest of the rich in Chongqing. It was an honor to be able to live here. Even the Four Great Families had each bought mansions here too.

Of course, during the planning stages, the Four Great Families had each designed an exclusive mansion that was second only to Lu Chen’s mansion. Although the Four Great Families each had their fair share of exclusive mansions, they had to own a

mansion in the area even if they didn't stay there to prevent themselves from lagging behind the others since Jun Yue Group had greatly promoted this area as a residence for the richest of the rich.

"2 to 3 billion?" No one knew whether it was true. However, looking at the fancy design of the place, they wouldn't dare to doubt it because they had been humiliated every time they doubted them in the past.

After Wang Xue had taken the Wang family on a tour around the entire mansion, they were all shell-shocked.

Today, they finally realized what it meant to be rich.

Although Wang Wan and Xu Fang were annoyed by Wang Xue's bragging, they had no choice but to go along with it because they knew that the difference between them was too large.

Even if Xu Jie's company finally got onto the right track, and even if he worked really hard for more than 20 years, he might still not be able to afford this mansion, let alone the Wang family.

Right then, even Wang Wan and Xu Fang's attitude toward Wang Xue took a 180 degree turn. Even the way they spoke to Wang Xue had hints of flattery.

When they met Lu Chen, Wang Wan, who had never acknowledged Lu Chen as part of her family, spoke to him so sweetly it was as if she had drunk a pot of honey.

Lu Chen didn't invite many people to his house-warming party. This was mainly because he didn't have many friends that were worth inviting. It was Wang Xue who had invited most of the guests, totalling up to four tables of people.

However, Lu Chen still invited a 5-star restaurant's chef to prepare their food. All the food that they ate could cost up to 10 thousand if they were to dine at a 5-star restaurant.

Many of the people who came brought house-warming gifts, so Lu Chen ended up giving everyone a red packet. Each of the red packets contained a bank card with individual pin numbers.

When the guests went to the bank to check how much money was in the card,

all of their jaws dropped in shock.

There was 50 thousand in each card.

At that moment, even the Wang family and Tang Qingshan as well as the others were greatly impressed by Lu Chen's generosity.

Especially Tang Qingshan, who was initially doubting how Lu Chen had obtained so much money to purchase an exclusive mansion like this. However, when he looked at the 50 thousand in the card, he sighed. Tang Qingshan had completely given in to Lu Chen.

"Dalong, have you ever asked Lu Chen what he does?" Tang Qingshan asked his son, Tang Dalong.

"Why?" Tang Dalong asked. He didn't understand what his father meant.

"Look, if Lu Chen can afford an exclusive mansion, his net worth must be in the billions! He must feel guilty for snatching Yijun, who was meant to be your wife. Maybe you can ask for him to help you out so that you can quit your job and be an entrepreneur too," Tang Qingshan babbled on.

Tang Dalong was speechless. He had already let go of this matter a long time ago. Moreover, Lu Chen had no obligation to help him out.

His position as manager at Yi Qi Technology was enough for him to earn millions annually already.

“Lin Yijun is still your godsister anyway. Why don't I ask your mother to talk to her? She has always been nice to Lin Yijun too. I'm sure that she will help you out as a favor,” Tang Qingshan added on.

Although Tang Dalong was tempted, he laughed wryly and said, “I didn't ask. Maybe next time.”

He did not have the guts to go and beg Lu Chen.

Even though he was close to Lin Yijun, he was never close to Lu Chen. Moreover, they were rivals in love at one point too. Although he had already let it go, and he was sure that Lu Chen never took anything that happened in the past personally too, he still couldn't just go and beg Lu Chen for his help.

After seeing his son leave after saying that, Tang Qingshan sighed mentally and stopped saying anything.

However, he had already made plans to talk about it to his wife later on. Lu Chen was a great contact that could benefit them. It would be a waste if they didn't use this connection.

Even though his son was earning millions annually, who wouldn't want to achieve greater things if they were given a chance to?

"Wan, how much was in the card? Does it have a thousand at least?" Xu Fang asked Wang Wan who was checking the card at an ATM.

Wang Kai and the others glanced over at Wang Wan curiously too. The red packet that Lu Chen gave all of them contained nothing but a bank card. This was the first time all of them had ever received this kind of red packet so they were all curious as to how much was in the card.

"Of course it would have more than a thousand. I think that it might even contain more than 10 thousand. If he wanted to

give a thousand only, wouldn't it be better if he had just given us cash instead?" Xu Jie reasoned. He had completely submitted to Lu Chen now. Previously, Lu Chen had promised to invest in his company when Wang Kai unabashedly asked Lu Chen to lend him some money. Although Lu Chen did not directly lend them the money, he promised that the amount of money invested would depend on what Xu Jie's company's future plan was. With this in mind, Xu Jie was already planning how to write a good proposal for Lu Chen later on.

He didn't dare to long for more, but he was confident that he could manage his company well if Lu Chen could invest more than 10 million in his company.

However, regarding the proposal, he still had to get help from the professional as well as discuss it over with his father.

"There's 50 thousand in my card! Mother! Can you let me take a look at yours?" Wang Wan exclaimed after checking her red packet.

50 thousand?

Chapter 233 Impressed

Everyone from the Wang family was shocked at the amount of money in the red packet. Even Xu Jie was impressed.
