

Chapter 367 The Relegation Battle

This was the end of Hu Yue's case, hence Lu Chen didn't pay much attention to it anymore.

A little after seven in the evening that day, a group of top stars arrived at Dong Jia Electronics to endorse the company's new products.

Hu Yue and Assistant Liu, who were waiting outside Dong Jia Electronics to talk with Lin Yijun, were filled with regret when they saw these top stars being the company's ambassadors.

Firstly, Dong Jia Electronics paid a higher endorsing fee compared to any other

Chapter 367 The Relegation Battle

companies. Secondly, now that Hu Yue knew Dong Jia Electronics' boss was the wife of Yi Qi Technology's boss, she knew losing this customer would cause her to suffer even more losses.

But that wasn't something she should be thinking right now. Hu Yue was thinking of begging Lin Yijun to ask Lu Chen to let her go, or else she could never show her face in the entertainment industry ever again.

Her public persona was obliterated when the top directors shelved her, and when

Chapter 367 The Relegation Battle

the netizens chastised her.

Countless fans swarmed to her and asked her about what was happening, and how did it come to this.

But Hu Yue couldn't stand up and explain herself.

She knew nothing about medicine; if she answered any questions regarding that, everyone would know she faked it.

When Lu Chen stepped foot in the Science and Technology Park the next day, Xu Shuting was already at his office.

Chapter 367 The Relegation Battle

Lu Chen's office was a temporary one, since he wouldn't be working in it on a regular basis.

More often than not, Lu Chen came to the Science and Technology Park to talk about matters relating to tech with Ding Dacheng.

Lu Chen was interested in these high-tech items, and thanks to his great learning capabilities, he learned a lot about advanced tech these few days.

Of course, he was only learning this on a whim. But when Ding Dacheng, the scientist, saw how

Chapter 367 The Relegation Battle

adept Lu Chen was at learning, he was greatly impressed.

The reason Lu Chen came here today was because he had something to ask Xu Shuting.

Previously, he had asked Xu Shuting to contact the authorities in Middle Sea, as his next step was to invest 10 billion to build the Rare Earth Group there.

Middle Sea was an international city, and rare earth was a globalistic material. Regardless of whether it was for his export or import business, he needed a strategic place with water, land

“Young Master Lu, as the authorities of Middle Sea suspect that the deaths of Xia Shu and Di Yaohui are related to you, we are still settling this matter as of now. Hence, any other negotiations can only start after this case is handled.” Xu Shuting walked up to Lu Chen.

Lu Chen’s brows furrowed. Xia Shu and Di Yaohui were killed by the hitmen Lan Ling hired; he had nothing to do with it at all.

Back at the hotel in Chongqing, Lu Chen had already told them that he didn’t kill Xia Shu and Di Yaohui, and that Lan Ling was the one who did it; he had given them a chance for them to get back to

Middle Sea.

But Lu Chen didn't expect that they would be murdered by Lan Ling's hitman the moment they arrived at the airport.

Now that Lan Ling had already joined Lu Chen and was helping him in training assassin teams for The Killer Shrine, he wouldn't hand her over to the police.

The only thing that he could do was to let the police from Middle Sea carry out their investigations.

If he couldn't build a Rare Earth Group in Middle Sea, he could move it to another special region in Shenzhen.

Shenzhen was also a globalized city, and it had the same level of transport as well as the internationalization as Middle Sea. If Middle Sea didn't want his investment, he would just drop it then.

"Okay, you may go and settle this." Lu Chen nodded, knowing that this matter could take a few days' time.

Later on, he chatted with Wang Wei before going over to the Chongqing Sports Stadium.

Chongqing SWM Soccer Team would be facing Middle Sea FC today in the former's home stadium; he had to go there and

Chapter 367 The Relegation Battle

cheer for his club.

Middle Sea FC was ranked second in the Chinese Super League, missing out on the top spot by just three points, and Evergrande Taobao FC had that honor. If Middle Sea FC won today's match, they would be on par with Taobao FC. As such, they had to win against SWM Team today.

On the other hand, Lu Chen had recently acquired SWM Team, so of course he wanted his team to win.

The team members' morale was either boosted by the fact that they had a new boss, or that Lu Chen rewarded each and every

one of them yesterday. Either way, everyone was in their best shape during their pre-match practice. As such, Lu Chen, who was watching their training from the spectator's seat, breathed a sigh of relief.

If the whole team was still disunited after he gave out those big rewards, it would greatly embarrass him.

After the members were done with training, Lu Chen gave them another pep talk to boost their morale further and took a group photo with them before he left the stadium.

There was still more than three

Chapter 367 The Relegation Battle

There was still more than three hours until the match would start; it was pointless for him to stay in the stadium at this time.

Before Lu Chen left, the team's manager informed him that the tickets for today's match were sold out, including the box seat tickets, and that those were only sold out today.

This was a good thing. Regardless of the match's result, at least the first match after he acquired the team was fully seated.

"President Lu, Middle Team FC's President Hu is also here.

Chapter 367 The Relegation Battle

According to tradition, we have to treat him to a meal. Do you have some time to spare?" Director Liu Yi asked.

"You go with him. I'll be there a bit later." Lu Chen shook his head. He might have acquired a team, but he wouldn't manage it 24/7. That was a job for the manager, whom he would hire later on.

"I understand." Liu Yi nodded and walked Lu Chen out of the stadium.

Lu Chen then dropped by at the Chamber of Commerce. When he found out that Chen Churan

Chapter 367 The Relegation Battle

was still handling the matter about the soccer funds there, he went and talked to her.

"Can you help me?" Lu Chen looked at Chen Churan and asked.

Chen Churan's eyes lit up. This was the first time she heard Lu Chen asking someone for help.

"Tell me what you need." Chen Churan nodded. This time, she didn't look like a naive girl anymore. Instead, she looked quite mature in her office attire.

"Scout an European soccer club manager for me; I want to have

him handle my team." Lu Chen knew that football was at its best in Europe, and that was why he needed a great manager from there; he needed someone to handle the team better than he could.

Now that Chen Churan had the soccer funds in her hands, she would come into contact with a lot of the bigshots in the soccer world; she must be able to help him.

"Okay, I'll go to Beijing tomorrow and look around for you. How much are you offering?" Chen Churan nodded and asked.

Chapter 367 The Relegation Battle

"Money isn't a problem. As long as he can lead the team well, he can name his price," Lu Chen said.

He needed his team to win. It was fine if his team didn't make him money, but they must win their matches.

Besides, he wasn't short on money.

"Okay, there shouldn't be a problem then."

Chen Churan nodded and smiled. "The match is about to begin. We should be able to make it after dinner. You have to
