

Towers 121

Chapter 121: Entrance Test

Liu Yan and the others were admiring the advanced technology in the Lighthouse Academy.

At this moment, under the guidance of the guide staff, they arrived at a venue.

The awakened ones were gathered here. All of them were from the third level of the Tower.

At a glance, Liu Yan could see a few familiar faces. They were from the same Tower.

However, most of them looked unfamiliar. He had never seen them before.

Chu Long was standing at the side. She also noticed this scene. She then said in surprise, "There are quite a lot of awakened ones able to register for the Lighthouse Academy."

Liu Yan also nodded slightly. To enter the Lighthouse Academy, one needed three yin cards and three yang cards.

Liu Yan and the others could get these yin and yang cards easily. They even had many extra yin and yang cards.

As for the other awakened ones, it was much more difficult for them to collect enough yin and yang cards for admission.

It was extremely difficult to obtain a yin card and a yang card on the third level of the Tower, let alone three yin cards and three yang cards. All of them had to risk their lives to get the yin and yang cards, and many of them were dead.

Other than obtaining the yin and yang cards on their own on the third level of the tower, they could only come to the third-and-a-half-level central resting platform to purchase them.

Liu Yan and Luo Qingcheng had sold their extra yin and yang cards yesterday. From what they had seen, if these awakened ones wanted to buy a yin card or a yang card, they would need at least tens of millions of federal coins to collect the tuition fees for admission to Lighthouse Academy. It was extremely difficult.

Surprisingly, there were quite a lot of awakened ones who could pay the tuition fees at the first instance and enter the upper house of the Lighthouse Academy.

Luo Qingcheng nodded her head slightly. She explained to Liu Yan and the others, "When you were on the third level of the Tower, you had already met those from the original ten Towers. This place is a larger gathering region of many Towers. There were more than a hundred Towers here. In addition, those who could enter the upper house of the Lighthouse Academy immediately after they came out from the third level were the best among the awakened ones."

Liu Yan and the others nodded slightly when they heard this. Only then did they understand.

Now, it made sense why there were still so many awakened ones gathered here.

There were a few hundreds of awakened ones were in the same Tower as Liu Yan. They had also passed the trial at the third level. They also went through the hole of the Mysterious Door to reach the third-and-a-half level.

However, only less than half of them were able to collect the tuition fees of the Lighthouse Academy's upper house right at the beginning

Right now, there were thousands of awakened ones in front of Liu Yan and his team. It seemed that this was indeed the result of the convergence of over a hundred Towers.

The awakened ones in front of them could be said to be the cream of the crop among all the awakened ones. They were also the future of the entire federation.

Their growth and determination to climb the tower would decide the future of the entire federation.

At this moment, Liu Yan and the others were chatting idly when they heard the discussions of some of the awakened ones around them.

"There will be an entrance test later. It is said that the entrance test will concern our future. It will have a great impact on our future."

"Is that so? Can an entrance test really determine our future?"

"That's right. The higher-grade talent and stronger ability will determine our future."

"..."

Liu Yan listened to the discussions around him and looked at Luo Qingcheng curiously, "What is this entrance test? Does it have such a huge impact?"

Liu Yan did not know much about the situation of the third-and-a-half-level central resting platform. Murong Xue, who relied on her family, did not know much either. Only Luo Qingcheng, who had stayed here for two years, had a better understanding of it.

At this moment, Luo Qingcheng's expression was a little serious as she said, "It does have a great impact. The awakened ones who have a very high level of talent are more successful in the first three levels of the tower. They were simply stronger than the others. However, if they don't do well in the entrance exam, it will greatly affect their future strength."

When Chu Long and Murong Xue heard this, they also looked over curiously and listened carefully.

At this moment, Luo Qingcheng continued to explain, "The first three levels of the tower are just like the beginner village. Everyone can develop and train at will. As for how strong they would become, it depends on the awakening of their talent, their strength, luck, and so on. Hence, it was full of uncertainty."

"But it's different when we get to the upper house of Lighthouse Academy. After we get here, we will train systematically. The awakened ones will quickly increase their strength according to the most suitable direction. Therefore, this entrance test is crucial to us."

“As for the specific content of the entrance test, it is rather secretive. I don’t know much, but this entrance test is indeed extremely important. We must treat it seriously and give it all of our efforts!”

Hearing this, Liu Yan and the others nodded slightly. They all understood.

It looked like they had to take this entrance test seriously.

At this moment, a middle-aged man arrived in front of all the awakened ones.

The moment the middle-aged man appeared, he immediately attracted Liu Yan’s attention.

Through his A-grade perception skill Omniscient Insight, Liu Yan could sense the middle-aged man’s powerful aura.

The middle-aged man’s aura was even stronger than Liu Yan’s. However, it was not as powerful as the Golden-Armored Blue Ape.

In general, this middle-aged man was quite powerful.

At this moment, the middle-aged man spoke out, “All new students, please be quiet!”

His simple words were filled with an imposing manner and even carried an oppressive aura.

The awakened who were chatting amongst themselves felt his oppressive aura. They all stopped abruptly. They all looked at the middle-aged man in front of them in shock.

“What a powerful aura!”

Murong Xue and Chu Long also had shocked expressions on their faces.

Liu Yan carefully felt it. Although this middle-aged man’s aura and his strength seemed to be stronger than his, the middle-aged man was not much stronger.

If they were to fight each other, Liu Yan felt that even if he could not defeat the middle-aged man with his full strength, at least he would have no problem keeping his life.

If he was given a certain amount of time, he believed that he would be able to grow up very quickly. Very soon, he would be able to surpass this middle-aged man in front of him.

At this moment, the middle-aged man saw that everyone had quieted down and smiled amiably. He continued to say, “Hello, all new students. I am the director of this batch of new students, Lei Jianbo. I have something to announce. It concerns your future, so please listen carefully!”

Although Lei Jianbo had an amiable expression on his face and his tone was relatively friendly, his terrifying aura made everyone not dare to underestimate him. They all looked at Lei Jianbo with fear on their faces. all of them listened to his words seriously.

Lei Jianbo continued, “Next, we will begin your freshmen test. The freshmen test is divided into three parts. Each part has its importance, so I hope that everyone will treat it seriously. The results of the test will determine your future in the academy. The stronger you are, the more resources you will receive. It will have a great impact on your future development. In addition, the test will be classified according to your strengths. It will help you determine which direction is the best for you. In the end, those who are

weak will be eliminated from the upper house of Lighthouse Academy! The upper house of Lighthouse Academy only welcomes talents. We only focus on cultivating elites. We don't need any mediocre weaklings!"

Chapter 122: First test: the Will to Climb the Tower

When the freshmen heard that those with poor results would be kicked out of the Lighthouse Academy, their expressions changed.

They had never heard of this before. They had paid expensive tuition fees to enter the upper house of the Lighthouse Academy. They thought that as long as they worked hard and cultivated in the upper house of the Lighthouse Academy, they would become stronger and become an expert.

This also meant that no matter what, their future would not be too bad.

After all, those who could come out of the upper house of Lighthouse Academy were all outstanding individuals, the elites of the entire federation.

But now, Lei Jianbo's words had undoubtedly made them panic.

They hadn't even entered the upper house of Lighthouse Academy yet. It was just a freshman test, but they would be kicked out of the upper house of Lighthouse Academy because they weren't strong enough.

This was too cruel!

The freshmen couldn't help but start discussing in hushed voices.

"Unbelievable! It's only the first day of school, and we have to worry about being expelled already?"

"If we were to be expelled, wouldn't we have paid the tuition fees in vain?"

"I had used up all of my family's assets to get into this academy."

"I also used up all of my family's assets. If we were to be expelled, it would be a huge loss!"

"This competition is too cruel."

"..."

Liu Yan and the others looked at each other. They did not expect it to be so cruel.

Chu Long suddenly said with some worry, "I have almost no combat ability. I won't be kicked out, right?"

Luo Qingcheng, who was at the side, was more familiar with the situation. She smiled and comforted Chu Long, "Don't worry. The test is divided into many aspects. It's not just about combat ability. As long as you have a certain ability and a certain quirk, you will be kept."

If she was not clear about this point, Luo Qingcheng would not have thought of ways to enter the upper house of Lighthouse Academy.

After all, she was a Trickster, and she was not good at fighting too.

Chu Long heard this and immediately felt relieved. Although she did not have much combat power, she had the S-grade talent, Holy Healing, and the rare profession Holy Priest of class transition.

Whether it was healing or supporting abilities, she was extremely powerful. Naturally, she would be able to play a great role in a team.

As for Liu Yan and Murong Xue, they looked at each other. They were both extremely confident in their strength and were not worried at all.

At this moment, Lei Jianbo, who was in front of them, spoke out once again, "Silence!"

Although the new students were dissatisfied, none of them dared to make a sound.

Lei Jianbo also continued, "I know you had paid for the tuition fees. However, if you are kicked out of the academy after the test ends, you will not be refunded. I hope that you will take the tests seriously. Next, the test will begin!"

The awakened ones looked bitter when they heard this.

This way, they had no way out.

The three yin cards and three yang cards were extremely expensive for most of them.

If their test results were not good and they were kicked out of Lighthouse Academy, they would waste their hard-earned money. They could not afford such a loss.

Without a doubt, there was only one path in front of them. That was to pass the test, stay in Lighthouse Academy, and become an expert in the future!

At this time, many staff members of the upper house of Lighthouse Academy appeared. They were distributed in front, holding a special origin stone recording instrument.

When the new student director Lei Jianbo saw that they were ready, he also announced,

"Now, let's begin the first test: confirm the will of the lighthouse! This test will test your purpose in climbing the Tower. Each of you must tell us the purpose of coming here. Let us confirm your original intention of becoming an expert. We will only provide resources to those who are useful to the federation. There is a special instrument here that can confirm whether you are lying through your brainwaves and heart rate. I hope that you all would tell the truth honestly. If we find out that you're lying, you would be kicked out of here right away!"

Liu Yan and the rest were a little surprised when they heard this. They did not expect this was the first test.

After thinking about it, they understood that the academy did not have to need to nurture those awakened one will ill intention no matter how talented they were.

The awakened ones, on the other hand, would be unfavorable to the federation for their interests in the future.

However, what surprised Liu Yan and the rest was that there was a so-called lie detector here?

From the sound of it, they seemed to be using a special device to determine if one was lying through their heart rate and brainwaves.

After knowing this, Liu Yan could not help but be a little worried.

After all, Liu Yan's original intention in climbing the tower was to find out the reason for his transmigration. He also wanted to figure out a way to leave this place.

Such an original intention did not bring many benefits to the federation, but it did not bring any harm either.

However, this matter was related to Liu Yan's secret, so it was not good to reveal it.

Otherwise, if the people of Lighthouse Academy and the federation knew that Liu Yan had transmigrated here, they might capture Liu Yan and study him for a while.

Liu Yan had the SSS-grade talent, Divine Extraction, his current strength was also pretty good. However, compared to those true almighty experts in the federation, the current Liu Yan was still extremely weak. Naturally, he needed a certain amount of time to grow well and become stronger.

Liu Yan couldn't help but think of the deception skill that he had obtained from Luo Qingcheng. The level of the deception skill was not low either, it had reached C-grade. Liu Yan thought that it should be enough for him to pass the test.

At this moment, the new students in front of them had already split up and went to the front of the staff to carry out the first test.

Very soon, it was the turn of Liu Yan and the other three.

Luo Qingcheng's goal was the clearest and simplest. She was the first to walk forward and sit down in the special equipment of the staff.

A few sensors were placed on Luo Qingcheng's temples.

The origin power in the origin stone was stimulated and started to circulate extremely.

The staff held the recording equipment and looked at Luo Qingcheng and asked, "Tell me your purpose for climbing the tower!"

Luo Qingcheng's face was serious as she replied, "To become stronger. I want to go to the higher levels of the Tower to find my sister. I want to confirm her safety!"

Although she had no intention of serving the federation, she still had a positive purpose, so she passed the test.

After the staff member finished recording, he let Luo Qingcheng leave.

Murong Xue walked forward and sat down.

The machine was running, and the staff member asked the same question.

Murong Xue said with a face full of yearning, "I climb the Tower because I want to become stronger. I want to pursue the pinnacle of martial arts!"

When the staff member heard this, he could not help but cast an appreciative gaze at Murong Xue.

Such a new student undoubtedly had the highest chance of becoming an expert in the future. Lighthouse Academy greatly welcomed new students like Murong Xue.

“Very good. Next!”

Hearing this, Chu Long walked up and sat down.

Facing the staff member’s inquiry, Chu Long was a little confused. She glanced at Liu Yan behind her. She then said with a serious expression, “I climbed the Tower because I want to become stronger. After that, I can always be together with Brother Liu Yan. I will go wherever he goes. I hope that I can help him and not drag him down.”

This was a normal reason to climb the Tower, but it was also considered to pass the test.

Very quickly, it was Liu Yan’s turn.

Liu Yan walked up and sat down. Facing the staff member’s inquiry, he activated his C-grade deception skill.

Following that, Liu Yan said, “I climbed the Tower to become stronger. Then, I will protect humanity and serve the federation!”

Chapter 123: Combat Technique School

When they heard Liu Yan’s motive, Murong Xue, Chu Long, and Luo Qingcheng were all surprised.

They were quite familiar with Liu Yan. They didn’t know Liu Yan’s real motive. But based on their understanding of Liu Yan, he didn’t seem like the kind of person who would say something like that.

The staffs were also somewhat surprised. What Liu Yan said was undoubtedly what they wanted to hear the most.

The federation also needed this kind of tower climber the most. Not only would their willpower be strong, but they would also go further, ascend higher, and become stronger.

In addition, this kind of tower climber would contribute the most to the federation in the future.

It was just that there were too few tower climbers with such awareness.

The staff looked at the equipment, The equipment did not have any special reaction. It meant that Liu Yan was telling the truth.

“Young man, you have a good spirit. I have high hopes for you.”

The staff praised him and then started recording.

Liu Yan glanced at it. His first test result was a full score of 100.

Murong Xue was 85 and Luo Qingcheng was 70. Chu Long was the lowest, only 60, so she barely passed the test.

“Thank you.”

As Liu Yan spoke, he stood up and left.

However, he was secretly laughing in his heart. He did not expect that the skill that he extracted from Luo Qingcheng would be so useful.

When he returned to the side of the few girls, they all cast a strange look at Liu Yan.

“I didn’t expect you to have such a noble resolution, Liu Yan.” Murong Xue said with some surprise.

“Of course.” Liu Yan curled his lips and spoke.

Chu Long also nodded and said, “From now on, I will work together with Brother Liu Yan to become stronger. We will serve the federation and protect the human race!”

Luo Qingcheng did not say anything and looked at Liu Yan suspiciously. She felt that something was a little strange.

However, she had signed a soul contract with Liu Yan, so there was naturally no need to worry that Liu Yan would harm her even though he was acting a bit weird.

Following that, Liu Yan and the other three had passed the first test. They waited on the spot. At the same time, they also watched the other tower climbers’ first test.

Many awakened ones saw Liu Yan say this and immediately obtained full marks. They also imitated Liu Yan’s words.

However, the lie detector sounded an alarm one after another. Under the unkind gazes of the officials, those awakened ones were forced to reveal their true motives.

There were all kinds of strange purposes.

“To become stronger, to buy a house and a car!”

“My parents forced me to come here. If I don’t come, they’ll beat me up!”

“I heard that being strong makes it easier to pick up girls, so I came...”

“To obtain a higher status.”

“To not inherit the family property.”

“...”

There were all sorts of strange reasons and all sorts of scores.

However, most of them were still positive goals. Even if their reasons were a little strange and the scores were not high, they would still be qualified.

After all, people were not saints. Most people climbed the Tower to become stronger for their selfish desires, and this was still reasonable.

A small number of people with bad intentions would be directly expelled from Lighthouse Academy’s upper house. Their scores were lower than 60.

The remaining people were also discussing amongst themselves. The officials did not reveal the difference between the scores. They only said that as long as one could pass the first round, it would be fine.

However, many of the tower climbers were guessing that the high scores were very likely related to the number of resources they could obtain later on. The degree of importance that they could receive from the academy would also be different.

For someone like Liu Yan, who had a full score, he would definitely receive the academy's resources and focus on nurturing him as long as there were no problems with his talent and other aspects.

Liu Yan and the other three listened to the discussions around them, but they didn't really care.

Murong Xue said with disdain, "I have such a strong talent and strength, I don't believe that the academy won't give me the resource."

Luo Qingcheng and Chu Long didn't care about these things in the first place.

As for Liu Yan, he already had a full score. He did not have to worry at all. Even if his score was low, Liu Yan didn't care.

Liu Yan was looking forward to the academy's resource allocation, but he didn't feel that it was too important.

After all, Liu Yan already had an SSS-grade talent, Divine Extraction. Even without the resource allocation, Liu Yan could rely on his talent to continuously raise his strength.

Becoming an expert was only a matter of time for him.

Very soon, the first round of the test was completed.

Out of thousands of tower climbers, only 100 to 200 had been eliminated. The ratio was still extremely small.

Those who had managed to reach this stage did not have ill intentions. They were not too unscrupulous.

At this moment, Lei Jianbo came to the front again and announced,

"Next, the second test: Battle record display! Each tower climber will go to the academy's official personnel in turn. The smart wristband and equipment will be connected and display the summary of your battle record for the first three levels. The academy will conduct a preliminary screening of your battle record. Those who have come up with luck and tricks will be screened out. We're just protecting you by eliminating you. You will not be able to survive at the higher levels with just luck and tricks. You're just courting death without strength! In addition, you will also be divided into schools according to your battle achievements. You can also make your own choices. The specific information of the four schools has already been transmitted to your smart wristband. You can check it yourself!"

"Oh right." Lei Jianbo's expression changed, he said again, "The vice presidents of our four schools will arrive in a moment. They are all top experts and important talents in our academy. If you perform well and gain their recognition, your future will be limitless!"

After the new director Lei Jianbo announced this, the new students also started to look around curiously.

Many people had heard of the four great schools of the Lighthouse Academy. It was said that the four great schools each had their duties, and their own merits.

However, without exception, the four great schools were extremely important to the Lighthouse Academy and the entire federation. Their contributions were huge.

Under the influence of the four great schools in various aspects, the awakened ones of the federation were able to form a perfect system, allowing mankind to gradually become stronger.

At this moment, Liu Yan was also extremely curious. He hurriedly used his smart wristband to check the information about the four great schools.

The four great schools were: the Combat Techniques School, the Command School, the Weapons School, and the Logistics School.

Liu Yan looked through them one by one.

The first was the most crucial Combat Technique School. Without the Combat Technique School, the awakened ones would not be able to develop their combat skill. The other schools were all empty talk. They focused on developing the combat strength of the awakened ones.

The Combat Technique School focused on increasing the effects of skills and inventing new skills. It allowed the awakened to quickly and steadily increase their strength. Moreover, under the same level of strength, they could display even more terrifying combat strength!

When Liu Yan saw the introduction of the Combat Technique School, his eyes immediately lit up.

The other schools did not have much of an attraction for Liu Yan. However, the Combat Technique School had many new skills. If he were to go in and learned some new skills, wouldn't he be able to immediately increase his strength by a huge margin?

After all, Liu Yan did not need to spend a large amount of time learning new skills like the others. The others still needed to slowly familiarize themselves with the new skills and even need to spend a large amount of time in actual combat to practice them.

Liu Yan was much simpler. He could directly use Divine Extraction. After learning it for a second, he could still familiarize himself with it and easily increase his strength!

Chapter 124: The Most Elite Command School

While Liu Yan was studying the information about the four schools, four people suddenly appeared in front of him.

Through his A-grade perception skill Omniscient Insight, Liu Yan could sense the powerful auras of these four people. Some of them even had auras that were not weaker than the new director, Lei Jianbo.

Liu Yan immediately looked over in surprise. These four people were all experts.

At this moment, Lei Jianbo was also looking at the group of new students, he said, "All the new students, let us welcome the executive vice presidents of the four great schools. Next, they will also give you a brief introduction to the four great schools. I hope that you can perform well in the following tests. If you get the favor of the vice presidents, your future will definitely be boundless!"

After Lei Jianbo finished speaking, he looked at the four people beside him and said politely, "Vice presidents, please introduce yourselves."

The first vice principal was a man in his early thirties. He was also the youngest among the four vice presidents.

The man's figure was strong, and he seemed to have quite a good cultivation.

Liu Yan was also staring at this man. There was no other reason. This man was the youngest among the four vice presidents, but he was the strongest.

Through his Omniscient Insight, Liu Yan could clearly sense that this man's aura was no longer inferior to Lei Jianbo's. His strength should be above Lei Jianbo's.

Most importantly, he was the youngest among the vice principals. Undoubtedly, he would go further in the future.

The man walked forward, and with a smile on his face, he said, "Hello, freshmen. I am the vice principal of the Combat Technique School, Shi Tian. It is very easy for you to enter our Combat Technique School. That is, your combat strength is the strongest! Our school has always been the strongest among the four great schools. It has always been like this. What we pursue is the pinnacle of martial arts!"

After Shi Tian finished his words, the freshmen could clearly see the displeasure on the faces of the other vice principals. After all, they were displeased by what they were being said. However, no one dared to refute him. This was because this was the truth. In terms of pure physical strength, Shi Tian was indeed the strongest among the vice principals. The individual strength of the Combat Technique School had always been the strongest among the four great schools.

When Lei Jianbo heard the words of Shi Tian, the vice principal of the Combat Technique School, he stepped forward and said, "Ahem, what Vice Principal Shi said makes sense. The Combat Technique School is indeed the strongest among the four great schools, but that doesn't mean that the other schools are weak. They all complement each other in their respective fields and have a great effect on each other."

The group of freshmen naturally understood what the new director, Lei Jianbo, meant. The other schools also had their roles to play.

But without a doubt, they still yearned for the Combat Technique School the most.

If they could enter the Combat Technique School and become the main combat force in a team, who would want to go to other schools and become the support in the future?

Murong Xue was very excited at this moment. What she pursued was the pinnacle of martial arts. The Combat Technique School was undoubtedly the most suitable for her.

At this moment, Shi Tian spoke and also retreated.

An old man walked out from the side. He was the only old man among the four vice presidents. His hair was white, and he had a scholarly look on his face.

The old man looked at the group of new students, he smiled and said, "Hello, new students. My name is Ye He, and I am the vice principal of the Command School. Vice Principal Shi's words were indeed reasonable. The Combat Techniques School is also the most dazzling existence among the four great schools."

Hearing Ye He's words, the freshmen were somewhat surprised. It was rumored that the four great schools had always been competing with each other.

As the vice principal of the Command School, Ye He had publicly acknowledged the prowess of the Combat Technique School. This kind of measure had caused many people to be somewhat surprised.

At this moment, Ye He also continued to say, "However, this does not mean that the other schools are useless. On the contrary, the four great schools have stood still in the Lighthouse Academy together for many years. Each school must have its own extremely crucial roles to play. For example, our Command School emphasizes knowledge and technology. We believe that knowledge is power. Grasping the correct strategies and tactics is the core quality of a tower climber. With Command School's guidance, we can also command the warriors of the Combat Technique School to display their greatest strength. If they were to charge into the Tower without any tactics, they would become cannon fodders no matter how strong they are."

Ye He's words immediately made the freshmen laugh.

It was indeed the case. No matter how strong they were, the fierce beast was usually stronger.

Not to mention the fact that the number of awakened humans could not be compared to the fierce beasts. The awakened ones were generally not a match for the fierce beast of the same level.

The awakened ones of some heaven-gifted talents were able to defeat the fierce beast of the same level or higher level.

Hence, the role of the Command School was indeed crucial.

If the awakened ones were to charge into the tower without any strategies, no matter how strong they were, there would always be a stronger fierce beast. There would always be a day when they would fall.

At this moment, Ye He also continued, "As for our Command School, we only recruit elites. We need a certain amount of strength, but we also need wisdom. Our Command School's strength isn't the strongest among the four great schools, but we can be said to be the most elite one. Command School always has the fewest people, and it is also the hardest school to enter!"

When the group of new students heard this, their faces were filled with shock. They had never thought that the Command School would be so difficult to enter.

At the side, the Lei Jianbo added, "Vice Principal Ye is right. The Command School is the hardest to enter. The number of people in the Command School is usually less than 1% of the Combat Technique School. Those who could enter the Command School are the finest elites. In the future, they will all be at the level of leaders!"

Upon hearing those words, many people began to yearn for the Command School.

The Combat Technique School was indeed attractive. However, if the awakened ones were not that strong enough after graduating from the Combat Technique School, they would still be nothing in the eyes of the masses.

However, the Command School was different. They were the elites among the elites. As long as one could enter the Command School, they had great potential of becoming leaders in the future.

If one couldn't become an expert to charge and kill enemies, then becoming a commander to strategize from the back was also a very good profession.

At this moment, Liu Yan could not help but cast a look of admiration toward Ye He.

Ye He's words were extremely elegant. Not only would he not offend anyone, but he would also acknowledge the role of the other schools and emphasize the crucial point of his own Command School.

Just a moment ago, there were still many freshmen who were yearning for the Combat Technique School. At this moment, there were already quite many people who wanted to enter Command School.

However, based on Ye He's words, it wasn't that easy to enter the Command School. Combat strength was not the main requirement of getting into the Command School. Intelligence and leadership were the most crucial factors.

Liu Yan didn't have much hope for the Command School. After all, with such powerful talent and skills like Divine Extraction, Liu Yan was still more than willing to increase his strength. It would allow his strength to reach a peak that no one could compare to.

The students of Command School could enter the leadership level and also command many awakened ones. However, it would undoubtedly be a lot more troublesome. Liu Yan did not really like dealing with many awakened ones.

Luo Qingcheng, who was beside him, spoke out at this time, "My goal is Command School. It could help me find my sister the most."

Chapter 125: The Second Test Began

When Liu Yan heard Luo Qingcheng's words, he could not help but nod his head in agreement.

Luo Qingcheng was right. If she wanted to find her sister, entering the Command School was undoubtedly the best way.

After all, Luo Qingcheng was not good at fighting and did not have much combat strength. It was almost impossible for her to rely on herself to go to the higher levels of the tower to find her sister.

In addition, Luo Qingcheng's talent was Deception. She was also a Trickster. Such skill and profession were undoubtedly very suitable for entering the Command School. In the future, she would become an outstanding leader.

Hearing this, Chu Long was a little embarrassed as she said, "Then what should I do? I can't enter the Combat Technique School without combat strength. I can't enter the Command School without being smart."

Liu Yan smiled and said, "There are still the Weapon School and the Logistics School. Don't worry. Although your combat ability isn't strong, your support ability is very strong. There will definitely be a suitable school for you."

Hearing this, Chu Long nodded and waited.

At this moment, the Command School's vice principal Ye He finished speaking and received a satisfactory result, so he also left.

Another middle-aged man with a cold expression walked out, he said indifferently, "My name is Ling Feng, and I'm the vice principal of the Weapon School. The Weapon School mainly produces and strengthens equipment. The effects of equipment are limitless. Those who are passionate about weaponry can come to the Weapon School."

After saying this, Ling Feng directly left.

His speech was really short, and he wasn't willing to say a single word anymore.

When the freshmen saw this, they were all somewhat surprised.

"Vice Principal Ling's personality is too cold, isn't it?"

"I like such a cold personality!"

"It's said that the Weapon School is also very powerful. To be able to produce powerful equipment, it's an extremely popular existence."

"The Combat Technique School isn't suitable for those who aren't strong enough. The Command School is too difficult to enter, and most people aren't able to enter. It seems that Weapon School would be a good choice."

"..."

Liu Yan was also a little surprised. The vice principal of the Weapon School was aloof and cold.

However, through his Omniscient Insight, Liu Yan could sense the strength of Ling Feng. Although he was not as strong as Shi Tian, he was not fallen much behind.

As the vice principal of the Weapon School, his strength was actually about the same as the vice principal of the Combat Technique School. He was indeed powerful.

In addition, he had even stronger equipment. In a real battle, his combat strength might not necessarily be weaker than Shi Tian.

At this moment, Liu Yan could not help but feel a little conflicted.

Currently, out of the three schools, the Combat Technique School did not have much attraction for Liu Yan. Liu Yan did not like the leadership.

Instead, the Combat Technique School and the Weapon School were both very attractive to Liu Yan.

The Combat Technique School could learn many new skills. Liu Yan could easily master the new skills through Divine Extraction. It could help him increase his strength quickly

The same was true for the Weapon School. If he could craft powerful equipment, Liu Yan could use Divine Extraction to increase the grade of the equipment. This would also greatly increase his strength.

Liu Yan couldn't help but feel a little conflicted. He could only think about it later.

In any case, he had to complete the tests before deciding which school he wanted.

The remaining vice principal walked up at this moment. It was a beautiful young woman in her thirties or forties. She was incomparably beautiful and was the only woman among the four vice principals.

"Hello, new students. I am the vice principal of the Logistics School, Yu Zhitong. Our Logistics School is mainly in charge of supplies and support. It is suitable for all supporting occupations to come here. Some of you may not have strong individual combat strength, but they can also support other awakened ones. You can play a great role too. Our Logistics School welcomes you to join us." Yu Zhitong's voice sounded. Her voice was gentle. The group of new students felt extremely comfortable listening to her voice.

When the group of new students heard this, they started discussing it among themselves.

"I can finally find a suitable school. The other three schools are not bad, but the Logistics School was the most suitable one for me."

"That's right. The awakened ones who are mediocre like us can only go to the Logistics School."

"The Logistics School isn't too bad either. We'll be in charge of supplies and support. We can also play a big role."

"Yeah, there's even such a good-looking vice principal. Isn't that great?"

"I feel that I can enter the Combat Technique School, but I plan to go to the Logistics School."

"I'll go to the Logistics School as well. It's said that there are the most beautiful girls there, while the other three schools are basically all men. It's so boring!"

"You're right, my fellow friend!"

"..."

At this time, Chu Long finally found a suitable school for her. She immediately said happily, "Looks like I'll go to the Logistics School. I can become more useful if I study in Logistics School."

Hearing this, Liu Yan slightly nodded and said, "Chu Long, with your S-grade talent and rare class, you will be valued by the Logistics School. Your future will also be very bright."

Chu Long did not care much about this and asked worriedly, "Brother Liu Yan, after I enter the Logistics School, can we still move together?"

Luo Qingcheng smiled and said, "Don't worry, different schools only learn new things separately. When we climb the tower, we can still move together."

Chu Long heard this and immediately felt relieved.

At this time, the new student director Lei Jianbo also walked forward once again. He smiled and said, "Alright, I believe that all of you have already understood the four great schools. I hope that all of you will become more serious and pass the remaining two tests. First, you will successfully enter the school before you consider which one of the four great schools you want to enter. Next, we will start the second test. The results will be displayed. All of you will line up and come forward to show your respective results!"

When the group of new students heard this, they all came back to their senses. That was indeed the case. They had to successfully enter Lighthouse Academy first before they could consider which of the four great schools they were going to enter.

Many people had heard that the freshmen test was relatively strict. A lot of people would be eliminated during the test. Lighthouse Academy had always only recruited elites.

Most people were able to pass the first test. However, the second test and third test would be much stricter and would also eliminate quite many people.

Soon, the second test began.

One by one, the freshmen lined up and took turns going forward. The smart wristband and the instrument were connected. They would show their general results of the first three levels of the tower. Then, the results would be evaluated based on the results.

Liu Yan and the others lined up. The test had already begun at the front. The results would be displayed on the big screen, and the freshmen at the back could see them.

At this moment, the general results of the first test had already been displayed on the big screen:

Fierce beast killed on the first level: 0. Assist kill: 3.

Fierce beast killed on the second level: 0. Assist kill: 0.

Fierce beast killed on the third level: 0. Assist kill: 0.

Achievements in the first three levels: none.

Reputation points in the first three levels: 3,000.

The awakened killed on the first three levels: 3.

Evaluation result: Fishing in troubled waters, harming one's kind!

The official announced, "You only know how to fish in troubled waters. You had harmed the other awakened ones. Step on the corpses of the other awakened humans as you advance. Lighthouse Academy does not welcome cowards like you. Please leave!"

Chapter 126: The Power of God of War

All the new students were shocked when they heard this.

Although most of them didn't hurt other awakened humans, there were still quite many people who came to the first three levels of the Tower by using tricks.

Most of them were eliminated by the second test.

The awakened ones had been wearing the smart wristband ever since they entered the Tower, so their battle records were all recorded.

Many of them were not strong enough, so they used improper methods and tricks to come to this level.

Now, all of them were eliminated. It was undoubtedly a little cruel.

The awakened were regretting it now. If they had known earlier, they would have taken the risk to kill some fierce beast in the first three levels of the Tower and accumulated some battle records.

At that time, they thought that survival was the most important. So, they avoided the fierce beasts and tried to stay alive.

Now that they had successfully survived, they were unable to enter Lighthouse Academy and become an expert.

If they were kicked out by Lighthouse Academy, it meant that they would be mediocre for the rest of their lives.

Some of the awakened ones' battle records were not bad, and they were not panicking at the moment. They were glad that they had killed some fierce beasts at that time, so they had good enough battle records to barely pass the test.

Their battle records might not be impressive, but they could at least pass the second test and have a chance to enter Lighthouse Academy.

As for Liu Yan and the others, they were very calm.

Liu Yan and the other two had very good battle records. It was not a problem for them to pass the test.

Even if it was Chu Long, although she did not kill any fierce beast, she played a great supporting role. Some battle records were completely sufficient.

Very soon, it was the turn of Liu Yan and the others.

Luo Qingcheng was the first to walk forward. The smart wristband was connected to the instrument and the battle records were displayed on the big screen.

Fierce beast killed on the first level: 2. Assist kill: 4.

Fierce beast killed on the second level: 3. Assist kill: 5.

Fierce beast killed on the third level: 1. Assist kill: 7.

Achievement on the first three levels: Core of the team command

Reputation points on the first three levels: 53,000

The awakened killed on the first three levels: 1

Evaluation result: Expert in assist kill, the core of the team command

The officials were slightly surprised when they saw this.

Luo Qingcheng's stats were above average, but to be able to achieve the achievement of the "core of the team command" meant that she played a key role in commanding.

Such a talent undoubtedly had a chance of entering the Command School.

The official announced, "You've passed the test. You have the chance to enter the Command School!"

Luo Qingcheng's face was filled with joy when she heard this. She had originally wanted to enter the Command School. Now that she had such an achievement, it undoubtedly increased her hopes by a lot.

Chu Long and Murong Xue also congratulated Luo Qingcheng when they saw her return.

"Congratulations, it seems that you have the chance to enter the Command School. I heard that those who had the "core of team command" achievement will have a high chance." Murong Xue said with a smile.

Chu Long hugged Luo Qingcheng and said with a smile, "In the future, when Sister Luo Qingcheng becomes the leader, we will have to depend on you."

"Not at all."

Luo Qingcheng glanced at Liu Yan and thought to herself that Liu Yan would be the one who carried the whole team.

After that, Chu Long also walked forward and started the second test.

The smart wristband connected with the instrument. Then, the big screen displayed Chu Long's battle record.

Fierce beast killed on the first level: 0. Assist kill: 5.

Fierce beast killed on the second level: 0. Assist kill: 8.

Fierce beast killed on the third level: 0. Assist kill: 21.

Achievements in the first three levels: Top healing ability, super support

Reputation points in the first three levels: 86,734.

The awakened killed on the first three levels: 0.

Evaluation result: Top healing, super support.

Everyone was a little surprised when they saw this.

There were many awakened ones with healing abilities and support abilities, but no one had ever got such a high evaluation and such a high reputation.

It was very obvious that Chu Long's healing and support abilities far surpassed the other healing and support-type awakened ones.

When a staff member saw this, he said with admiration, "Little sister, looks like you're healing, and support abilities are very strong. If you enter the Logistics School, you should be able to do very well. You will become a powerful healing and support staff!"

At the front, the vice principal of the Logistics Academy, Yu Zhitong, saw Chu Long's battle record and looked at Chu Long a few more times. She secretly remembered Chu Long in her heart.

The awakened in the support and healing class were not few.

But those who could be so strong were very rare. Such a talent was extremely needed by the Logistics School.

Up until now, Chu Long was also the strongest healing and support type awakened that Yu Zhitong had seen.

At this moment, the other vice principals were also observing the battle records of the new students one after another, searching for talents that were suitable for their school.

Only the vice principal of the Weapon School, Ling Feng, still had a haughty expression on his face. He was not even looking at the screen.

Seeing this, the vice principal of the Command School, Ye He, smiled and asked, "Vice Principal Ling, I remember that your Weapon School has been lacking powerful talents recently. Don't you want to look for some suitable ones?"

Hearing this, Ling Feng shook his head slightly and said, "The battle record doesn't show the talent I need. What the Weapon School needs is a student who is hard-working and with passion. It doesn't have much to do with talent."

Hearing this, Ye He nodded slightly, feeling that what Ling Feng said was somewhat reasonable.

This battle record display could indeed only show the general battle result, but not the details.

One could only judge an awakened's achievement and strength in the first three levels of the Tower by the reputation point. However, there was no way to know the specific details.

At this moment, Chu Long had already finished her test and returned to Liu Yan and the others' side.

Her test was undoubtedly quite successful. Although she had zero kill in the first three levels of the Tower, she had contributed many assist kills. Adding to her achievements and reputation, it also meant that her healing and support abilities were strong. She was qualified to enter the Logistics School. She would be given enough resource and focused on training.

Luo Qingcheng looked at Chu Long with slight surprise. Previously, through the chat, she had roughly learned that Chu Long had the weakest strength in Liu Yan's team.

However, Chu Long's test was so much better than hers. Chu Long's reputation point was almost double than hers.

Luo Qingcheng was suddenly a little surprised. If even Chu Long was so strong, then how terrifying were Murong Xue and Liu Yan be?

At this moment, it was Murong Xue's turn to take the test.

Murong Xue walked forward with a face full of confidence. She connected the smart wristband to the instrument and began the second test to display her battle record.

Murong Xue's battle record was displayed on the big screen.

Fierce beast killed on the first level: 8. Assist kill: 0.

Fierce beast killed on the second level: 15. Assist kill: 0.

Fierce beast killed on the third level: 27. Assist kill: 4.

Achievements in the first three levels: God of War's power, tank master, and super strength

Reputation in the first three levels: 157,979.

The awakened killed on the first three levels: 8.

Evaluation results: Super strong warrior, God of War, peak combat strength!

When the new students saw Murong Xue's battle record, they were all shocked.

He had killed many fierce monsters. He also obtained high evaluation, especially the reputation of more than 150,000! It was terrifying!

Chapter 127: Liu Yan's Exaggerated Battle Record

On the test square of the second test.

When the group of new students saw Murong Xue's battle record, they were all discussed animatedly.

"D*mn, isn't this too powerful?"

"150,000 reputation points, this is too powerful."

"She's so good-looking, yet her strength is so terrifying. She is blessed by the god!"

"She is so fierce. Please look at me!"

"..."

Before Murong Xue, none of the freshmen had more than 100,000 reputation points.

However, Murong Xue's reputation point was more than 150,000.

Reputation points were based on everything that a Tower climber had done on the first three levels of the Tower. Killing a fierce beast, obtaining equipment and treasures, increasing one's strength, and so on. Many factors affected reputation points.

However, without a doubt, the higher one's reputation points were, the stronger one's strength would be.

With 150,000 reputation points, it meant that Murong Xue was an expert among this batch of new students.

The few vice principals were all surprised to see this scene.

Shi Tian said excitedly, “Not bad, not bad! She’s a good seedling. With such a high reputation point, such strong strength, and the achievement of the God of War, she’s the most suitable candidate for our Combat Technique School.”

The other vice principals were also a little envious when they heard this, but they did not intend to compete.

This was because Murong Xue’s battle record was indeed the most suitable candidate for the Combat Technique School.

Of course, they also wanted such a powerful talent, but it was undoubtedly a waste of Murong Xue’s talent if she went to their schools.

Murong Xue was the most suitable candidate for the Combat Technique School

Ye He, the vice-principal of the Combat Technique School, smiled and said, “Vice Principal Shi, I remember that you’ve always been clamoring to find a disciple, so that you can teach your disciple everything you’ve learned in your life. However, you’ve always struggled to find an outstanding and suitable candidate. What do you think?”

Hearing this, Shi Tian was stunned. Previously, he had indeed wanted to find a disciple. However, he could not find a student that was outstanding enough to his standard.

At this moment, Shi Tian looked at Murong Xue’s battle record again. With a satisfied expression, he nodded slightly and said, “Her reputation point is much higher than when I first came up from the third level of the Tower. Her talent and strength are completely sufficient. If she is willing to, I will take her as my first disciple and teach her everything I have learned in my life!”

“Then congratulations, Vice Principal Shi.”

The other vice principals congratulated him when they heard that. At the same time, they were also a little surprised. Ever since Shi Tian had entered the Lighthouse Academy as a teacher, he had not been able to find any student that he like in the past few years. Today, he had such a high evaluation of Murong Xue. It seemed that Murong Xue was indeed extremely outstanding, and she was compatible with the Combat Technique School.

At this moment, facing the envious gazes of the crowd, Murong Xue also had a look of enjoyment on her face.

She had received so many blows from Liu Yan on the third level of the Tower that she had almost forgotten that she was also a genius.

At this moment, she had once again proven that she was also a genius by showing off her battle results through the test. Murong Xue instantly felt a lot better in her heart.

Murong Xue immediately returned to the side of Liu Yan and the others.

When the surrounding freshmen saw Liu Yan was with Luo Qingcheng and Chu Long, they felt a little envious.

The three girls had different styles, but their extremely beautiful appearance attracted countless gazes.

And the only male in this group, Liu Yan, naturally received a lot of hateful gazes from many people.

“Damn, this kid is too comfortable. He has three top-notch beauties by his side.”

“If any one of these three beauties can be my teammate, I will wake up smiling every day.”

“It’s not just that. These three beauties are not only good-looking, but their battle records just now were also pretty good. They are all very strong.”

“Could it be that this brat is tagging along with these three beauties? He is really lucky!”

“It would be great if I could have such a good-looking and strong teammate!”

“...”

At this moment, Lei Jianbo and the four vice principals on the stage were also a little surprised when they saw the situation here.

Although Luo Qingcheng’s battle records were average, she was a rare commanding talent.

Chu Long was an extremely powerful healer and support awakened. She was also extremely precious.

Needless to say, Murong Xue had the highest reputation point so far, which meant that she was the strongest expert among this batch of new students.

Naturally, it was a little surprising that such outstanding three girls were gathered together.

Especially since these three girls had a male teammate, he was naturally even more eye-catching.

However, unlike the envy and jealousy of the new students below the stage towards Liu Yan, Lei Jianbo and the four vice presidents on the stage were more looking forward to Liu Yan.

They had more experience. They knew that the Tower climbers would not casually form a team. Their strengths would be similar.

Since the three girls’ battle records were quite good, then Liu Yan, who was with the three female teammates, might not have a bad battle record either.

At this moment, under the gazes of everyone, Liu Yan also walked forward and began the test.

Liu Yan felt like laughing in his heart. Murong Xue’s 150,000 reputation points had already surprised these people?

When Liu Yan was on the second floor of the Tower, his reputation points had already reached a terrifying 320,000.

After passing through the third floor of the Tower, his reputation points would increase by a lot.

After all, on the third floor of the Tower, Liu Yan had killed quite many fierce beasts, including a fierce beast with a talent of SS-grade, the Ancient Draconic Croc.

At this moment, Liu Yan was a little nervous and looking forward to his result. How was his battle record on the first three floors of the Tower?

He could only connect his wristband to the equipment, and Liu Yan's results appeared on the big screen.

Fierce beast killed on the first floor: 42, assist kill: 0.

Fierce beast killed on the second floor: 34, assist kill: 1.

Fierce beast killed on the third floor: 51, assist kill: 12.

Achievements of the first three floors: First kill of elite monster, first place in reputation ranking, sharpshooter, pinnacle warrior, explosive assassin, elemental power, core commander, first kill of SS-grade boss!

Reputation in the first three levels: 829,468.

The awakened humans killed in the first three levels: 6.

Evaluation result: Legendary all-rounder warrior, human leader, future of humanity!

The group of freshmen, vice principals, and the others were a little surprised when they first saw the number of fierce beasts that Liu Yan had killed.

Such an exaggerated number of kills even made them suspect that there was something wrong with the equipment.

When they saw the achievement bar filled with achievements, they were shocked beyond words.

Not only were there so many achievements in the achievement bar, every single one of them was extremely incredible. They were not ordinary achievements. They were all top-notch achievements.

Especially the last achievement, the first kill of an SS-grade boss? Everyone had their mind blown away.

On the first three floors of the Tower, to be able to kill a fierce beast with A-grade talent was already an absolute genius. Yet, this fellow had killed an SS-grade boss?

The reputation bar made everyone doubt their own lives. 800,000 points? Was this for real?

Normally, 80,000 points were already considered a pretty good genius.

100,000 points were already considered an expert. Yet, this fellow had 800,000 points?

His final evaluation results stated legendary all-rounder, a human leader, and the future of humanity.

Everyone was dumbfounded and did not know what to say.

Chapter 128: The Monstrous Genius

Lei Jianbo also saw Liu Yan's exaggerated battle record.

At first, he was shocked. He even suspected that there was a problem with the instrument.

But when he thought about it, the instrument was connected to the origin power core of the entire Lighthouse Academy. There was no problem at all.

Immediately after, Lei Jianbo's face was filled with surprise.

"Previously, I heard from the principal of the Lighthouse Academy's lower house that a peerless genius has appeared. He surpassed the record from decades ago. Looks like it should be this young man in front of me. Our Lighthouse Academy's upper house has finally produced a monstrous genius. We are going to rise!" Lei Jianbo said with a face full of joy.

1

At that time, when he heard from the principal of the lower house of the Lighthouse Academy that a monstrous genius had appeared, or even the future of mankind, he still had some doubts. He felt that it was too exaggerated.

After all, it was only a lower house branch. There were only a few worlds merged into the Tower. In addition, it had fewer new students too.

But now, it seemed that it was not an exaggeration at all.

Up until now, the highest record of reputation points was more than 600,000 points. It was a record from decades ago.

There had been all sorts of geniuses in the past few decades, and there were quite a few good seedlings among them. They had all grown to become a top-notch expert of mankind.

However, none of them had surpassed the best record.

However, Liu Yan had not only broken the best record, but he had also surpassed it by a lot. He had over 800,000 reputation points.

Without a doubt, 800,000 reputation points were extremely high. He was even able to crush the fierce beast on the third level of the Tower.

His strength had long surpassed the difficulty of the third level!

Seeing this, the Combat Technique Academy's vice principal Shi Tian, said with a bright smile, "Such a strong freshman must enter our Combat Technique School. Our school can nurture his combat strength and let him become the top expert of humanity!"

The vice principal of the Command School, Ye He, had always been more refined and did not like to fight over things. Now, he stroked his snow-white beard and thought for a while. He then smiled and said, "No, no, Vice Principal Shi, such a monstrous genius must be the leader of our human race. He must have extraordinary strength. What he lacks is the ability to command. He must be sent to our Command School to be nurtured. In the future, he will be the leader of our human race and lead our human race forward!"

The vice principal of the Logistics School, Yu Zhitong, smiled, she said, "I won't argue with you guys, but if this little genius is willing to come to our Logistics School, I will welcome him. There are so many beautiful women in our school. Who knows, he might come to our school."

Ling Feng, who had always been rather arrogant and rarely spoke, actually opened his mouth and said, "He is an outstanding genius, so he must not lack any strength and commanding ability. On the contrary,

he could come to our Weapon School to create strong weapons and equipment. Only then will we be able to benefit all human awakened ones!”

When the others heard this, they were all somewhat surprised.

There were very few people in the Weapon academy. Moreover, Ling Feng had always been very cold and aloof. Many geniuses had been rejected by him.

The few of them recalled for a moment. This seemed to be the first time that Ling Feng had taken the initiative to ask for someone.

When Lei Jianbo saw that the few vice principals had already started to compete among themselves, the atmosphere started to become a little tense. He helplessly smiled and said, “Vice principals, don’t be anxious. It’s not time yet. After the end of the third test, only then will we be able to decide which school this young fellow will go to.”

When the few vice principals heard this, the atmosphere was a little lightened up. Otherwise, if they continued to compete, they might even end up fighting on the spot.

At this moment, when Liu Yan saw his exaggerated battle record on the big screen, he was also a little surprised. Liu Yan himself did not expect that his battle record would be so impressive.

After recalling for a moment, Liu Yan realized that in just a few short months, he had experienced so much since he entered the Tower. He had also grown so much.

From the first level of the Tower, he had continuously used Divine Extraction to extract the corpses of the fierce beast and the awakened human. He continuously increased his various attribute points and obtained various attribute skills.

Later on, when the fierce beast attacked the city on the first level of the Tower, he went in the opposite direction. He went deep into the central nest of the fierce beast. Not only did he obtain a large number of the corpses of the fierce beast and the awakened human, but he had also increased his strength once again.

He had even killed the first elite monster and obtained quite a lot of rewards. He had successfully changed his class transition to Hunter and obtained his first pet, Shadow Wolf.

From the beginning, Shadow Wolf was a hungry beast that was eager to grow up. Following Liu Yan, it had devoured several powerful fierce beasts and continued to evolve and grow. Now, it had grown into an SS-grade Ice and Fire Draconic Wolf. Its strength was extremely terrifying.

Then, Liu Yan arrived at the second level of the Tower, the Elemental Peak. He had killed the first S-grade fierce beast. Later, he had entered the ice and snow secret realm and killed a large number of powerful fierce beasts. He had also obtained an inheritance. Later, he had even obtained an enchanted puppet.

However, the enchanted puppet was not of much use. With the increase in Liu Yan’s strength, the combat strength of the enchanted puppet was no longer enough.

However, among the inheritances he obtained, Liu Yan clearly remembered that there were many ways to increase the strength of the enchanted puppet.

The materials he had accumulated previously were almost enough. When he found another powerful soul, he would be able to quickly increase the combat strength of the enchanted puppet.

Judging from the inheritance he obtained, the combat strength of the enchanted puppet was not bad. It could be used as a very good auxiliary combat strength, which was pretty convenient.

Later on, Liu Yan reached the third level of the Tower.

After eating the golden fruit on the third level of the Tower, his SSS-grade talent, Divine Extraction, was completed. The range of the extraction was even wider.

Later on, Liu Yan used the silver-backed gray ape and the golden-armored gray ape to obtain his first powerful SSS-grade skill after many times of extraction.

1

Later on, after completing his class transition and obtaining his first S-grade weapon, Liu Yan's combat strength soared. He directly went to kill the Ancient Draconic Croc with the SS-grade talent, and his strength rose once more.

Along the way, he had experienced too many things.

The current Liu Yan had also grown a lot, and his strength had undergone a qualitative increase.

Perhaps he couldn't be considered a true expert yet, but Liu Yan was very confident that with such a rapid increase in strength, he would be able to grow into a true powerhouse in the near future.

After all, this SSS-grade skill, Divine Extraction, would become stronger as he progressed. Hence, he could increase his strength even faster in the future.

For example, the higher the level of the Tower, the more Liu Yan would gain, and the more strength he would increase.

The awakened ones would find it harder to increase their strength at the higher level of the Tower, but Liu Yan was the complete opposite. It was simply heaven-defying!

Facing the admiring gazes of the surrounding people, Liu Yan's heart was somewhat calm.

Liu Yan was clear that his future path was still very far. He could go further, ascend higher, and grow stronger!

Chapter 129: Origin Power Core of the Platform

Liu Yan completed the second test and walked down under the admiring and jealous gazes of the crowd.

Murong Xue looked at Liu Yan as if she was looking at a monster.

When they were on the resting platform on the second level of the Tower, Murong Xue felt that she and Liu Yan could still fight evenly.

Afterwards, she only found out later that Liu Yan's long-range attack ability was stronger than her close-combat ability. Liu Yan's close-combat ability was also comparable to hers.

But at that time, Murong Xue also felt that the gap between her and Liu Yan was not very big.

After experiencing the third level of the Tower, she had grown a lot and even went through a hidden class transition. Her strength had greatly increased.

But now, Murong Xue felt that the gap between her and Liu Yan seemed to be even greater.

Murong Xue suddenly felt a little helpless. Since young, she had always been a genius. She was always better than everyone. She had never worried about who would be stronger than her. She only needed to train hard, and she would surpass everyone else by miles.

But Liu Yan was completely different. On the contrary, it was Liu Yan who surpassed her.

This was the first time Murong Xue had experienced this kind of helplessness of losing to someone else.

At the same time, Luo Qingcheng was also extremely surprised.

Previously, she knew that Liu Yan's strength was extremely powerful. Otherwise, she would not agree to sign a soul contract with Liu Yan and even give her body to Liu Yan.

However, she did not expect that Liu Yan was so ridiculously strong that he directly broke the record set by the Lighthouse Academy's upper house for dozens of years.

He was not a genius. He was simply an existence on the level of a monster.

As for Chu Long, she did not think too much at this moment. When she saw that Liu Yan was very strong, she was purely happy for Liu Yan.

"Brother Liu Yan, you are so powerful. In the future, no one will dare to bully me if I follow you!" Chu Long happily threw herself into Liu Yan's arms.

Liu Yan patted Chu Long's head and put Chu Long down. He smiled and said, "Of course. No one will bully you!"

The other two girls were shocked and envious, but they were also happy for Liu Yan.

Then, they waited by the side.

Not long after, the second round of the test ended.

Only a small number of new students were eliminated in the first test.

However, there were more people eliminated in the second test. Many of the new students were just lucky to get here. They did not have the talent or strength they should have to enter the Lighthouse Academy.

Liu Yan took a rough look. Almost half of the freshmen were eliminated. There was indeed a lot of them.

Some were happy while others were sad. The freshmen who were eliminated had a bitter look on their faces as they left helplessly. There were even many people who were so sad that they cried.

For them, after parting with Lighthouse Academy's upper house this time, they would never have the chance to enter Lighthouse Academy's upper house in the future. This also meant that they would never have the chance to become an expert in the future.

Outside of Lighthouse Academy, some people relied on themselves to become an expert. However, it was undoubtedly extremely difficult and extremely rare.

Meanwhile, the new students who passed the second test were all incomparably excited at this moment.

Many of them had heard that the second test had the highest elimination rate.

Although the third test was relatively strict, it mainly divided talent and strength. It determined one's status and importance in the academy, as well as the number of resources one would receive.

However, almost no one would be eliminated.

This also meant that as long as one passed the second test, they would be able to stay in the upper house of Lighthouse Academy and receive training.

However, how much training they received would depend on the subsequent third test.

Those who failed the test had all been chased away, leaving behind only those who passed the test.

At this time, there were nearly half of the people in the square, and it was also much more spacious.

The new student director, Lei Jianbo, also walked forward at this time and started speaking:

"First of all, I congratulate everyone present. You have passed the second test. You have met the requirements to stay in the Lighthouse Academy."

"But I also want to tell all of you that you cannot let your guard down. The following third test is also extremely important. It will determine how much attention and resources you will receive in the upper house of Lighthouse Academy in the future. I hope all of you will take it seriously

"Next, I would like to announce the third test. The content of the third test is the actual combat test."

"There is an extremely magnificent statue at the entrance of the academy. I believe all of you saw it when you entered. Actually, it is not just a statue. Inside the statue is the origin power core that supports the energy of our entire three-and-a-half-level platform! The third test is to use the origin power core to create a virtual opponent to fight against you. Next, all of you will enter the teleportation array. Then, you will enter the virtual space to fight against the virtual opponent created by the origin power core."

"Remember!"

Lei Jianbo reminded them with a solemn expression, "All of you must do your best to persevere. Even if you can't defeat your virtual opponent, you must try your best to persevere for a long time to obtain a higher score. Every second that you persevere for, your future might undergo an earth-shattering change!"

When the freshmen heard this, they were all a little surprised. They didn't expect that they would be fighting against a virtual opponent. For a moment, everyone was a little curious about what kind of virtual opponent that would be.

At this moment, Lei Jianbo, and a few of the vice principals of the schools were secretly laughing.

This origin power core was the energy center of the entire three-and-a-half-level platform. It was powered by a large number of high-grade origin stones, and it was the energy center of the entire city.

Under normal circumstances, the origin power core would naturally be fully charged, and the origin power within it would naturally be extremely terrifying.

The virtual opponent created by the origin power was extremely powerful. Moreover, its strength could even be adjusted. Even the vice principals with astonishing battle prowess wouldn't be a match for it.

In other words, it was impossible to win against such an opponent.

If a freshman had strong strength, the virtual opponent would constantly increase its strength. Hence, the freshman would never be able to win.

That was why Lei Jianbo had emphasized the importance of enduring for as long as possible. Because in reality, those who couldn't win were those who had failed. Naturally, one could only measure the combat strength of a freshman by how long they could endure.

There were reasons why they used this method to test the combat ability of the freshmen in the third test. Firstly, it could stimulate everyone's greatest potential. Secondly, it was also to show these geniuses that there was always someone better than them.

Lei Jianbo and the vice principals were very clear that the freshmen who had been through all kinds of hardships and came to Lighthouse Academy were all outstanding people. They had pride in their hearts, thinking that they were very powerful.

However, this kind of pride and self-righteousness would most likely cause the deaths of these geniuses. Lei Jianbo and the others knew this really well.

Therefore, before the new students entered the academy, they had to suppress the egos of these freshmen. They had to let the freshmen know that there was always someone better out there. They wanted to make the freshmen humbler by letting them lose the battle.

Chapter 130: The Future Pillar of Logistics School

The freshmen looked at the teleportation array in front of them as they queued up to challenge their virtual opponents.

They did not know what kind of cruelty was waiting for them.

Soon, the first batch of freshmen came out.

When they entered, their faces were filled with curiosity and anticipation.

When they came out, their faces were filled with bitterness.

In the virtual space, although they wouldn't be injured, the mental torture and pain were real.

The few new students who came out complained to the other new students.

"This virtual opponent is too powerful. I'm not a match for him at all."

"My defense-type talent and class only managed to block two moves. Then, I was completely defeated."

"You're still considered alright. I was instantly killed in one move. It's too miserable!"

"I managed to hold on for two minutes, but this is too difficult. It's too painful."

"I don't want to challenge this virtual opponent anymore. It's simply a monster!"

"..."

When the other freshmen heard this, their expressions also didn't look too good. They had a bad feeling about this.

However, they had already reached this point, so they naturally couldn't retreat. Batches of freshmen entered to challenge the virtual opponent, and after holding on for a short time, they came out with a bitter expression.

Liu Yan observed for a moment. Basically, if they could persist for three minutes, it would be considered a pretty good result. Then, there would be a vice principal coming over to pick people.

As for those who could not persist for three minutes, although they would not be eliminated, they would not be valued. They could only apply to the schools themselves later on. After that, they would become insignificant in Lighthouse Academy.

After analyzing this point, Liu Yan also reminded the girls, "No matter what, try to stall for more time. You must stall for three minutes. Otherwise, it will be very difficult for you to be taken seriously in the future."

When the girls heard this, they all nodded and thought of ways to stall for time.

Very soon, it was the turn of the girls and they all entered. Liu Yan was in the next batch.

In just a few minutes, Luo Qingcheng was the first one who could not hold on any longer and came out.

Liu Yan was not surprised to see Luo Qingcheng coming out so quickly. After all, she was not a combat-attribute talent and class.

Looking at the time, it was exactly three minutes. Luo Qingcheng had just reached three minutes, which was already considered a pretty good result.

As expected, the vice president of the Command School, Ye He, came to Luo Qingcheng's side at this time. He smiled and said, "Little girl, I see that your command talent is very good. You managed to last for three minutes in the actual combat test. This is considered very good. Are you interested in coming to our Command School?"

The other freshmen around heard their conversation. They were all filled with envy.

Although a small number of freshmen had managed to last for three minutes, it had attracted the attention of the vice principal and they had entered the various schools.

But among them, no one was recruited to the Command Schools.

It was too difficult to enter the Command School. The requirement to enter Command School had nothing to do with strength but mainly depended on intelligence and command talent.

And Luo Qingcheng not only had an extremely rare command talent, but she was also able to last for three minutes in the actual combat test. Naturally, she had attracted the attention of the vice principal of the Command School, Ye He.

Recruited by the vice principal personally and applying to enter the Command School were totally different. Although they were both entering the Command School, they were not on the same level at all.

When one was valued by the vice principal of a school, one would naturally receive all kinds of preferential treatment and resources. In this way, one was destined to be extraordinary in the future.

Luo Qingcheng was recruited by Ye He personally to the Command School, so everyone was jealous of her.

Hearing this, Luo Qingcheng hurriedly nodded her head and said, "Of course, I'm willing to. It's my honor to enter the Command School."

Luo Qingcheng had always wanted to enter the Command School, and now it was exactly what she wanted.

Seeing this, Ye He smiled and nodded slightly, "Okay, after that, you just need to bring my oral order and report to the Command School."

After that, Ye He returned to the stage.

Although Luo Qingcheng's talent was not bad and she was being valued, it was not to the extent of receiving special care from the academy.

At this time, Luo Qingcheng also returned to Liu Yan's side. She said with some happiness, "I knew that I couldn't beat that virtual opponent, so I kept dodging and running, trying my best to stall for three minutes. Unfortunately, my Deception talent was not effective against the virtual opponent. Otherwise, I would have been able to stall for even longer."

"It's not bad to be able to stall for time. Congratulations." Liu Yan smiled and spoke.

The new student director Lei Jianbo did not say how long they should fight against the virtual opponent. The main thing was to see how long they could hold on.

Therefore, they did not have to fight. They could just run and hide to stall for time.

Being able to stall for the time was also a reflection of their strength.

Luo Qingcheng looked around and did not see the figures of the other two girls.

She knew Murong Xue's strength and it was normal for her to be able to last a little longer. However, Chu Long was a support class, and she could last for such a long time?

"Strange, Chu Long can last for such a long time. She's pretty amazing!" Luo Qingcheng said with some surprise.

"I also don't understand how she can persist." Liu Yan also said with a helpless smile.

Chu Long's various skills were either healing or enhancing the battle strength of her teammates. They weren't of much help in her battles. Liu Yan also didn't understand why Chu Long hadn't come out yet.

After eight more minutes, Chu Long walked out of the teleportation array with a tired face.

The surrounding freshmen were all a little surprised when they saw this.

Chu Long was rather good-looking. In addition to the battle record from the second test, everyone could see that she was a support class.

A support class could last for eight minutes? It was indeed a little shocking.

Up until now, the longest record was only ten minutes. Moreover, the record-holder was a tank class with amazing talent.

A support type awakened could last for this long, it was indeed a little shocking.

At this moment, the vice principal of the Logistics School, Yu Zhitong, had arrived in front of Chu Long. She said with a smile, "Little sister, you're pretty amazing. A support class can last for eight minutes. That's really impressive."

Chu Long grinned and said with a smile, "I've been using my skill to strengthen my defense and kept healing myself. I've been able to last until just now!"

When Yu Zhitong heard this, she was a little surprised.

She was very clear about the strength of a virtual opponent. They were at least 50% stronger than their peers.

Moreover, the strength of a virtual opponent would continue to grow stronger as time passed.

Under such circumstances, Chu Long was still able to heal herself and hold on. This showed how amazing Chu Long's healing ability was.

Yu Zhitong immediately understood that the incomparably cute Chu Long in front of her was an extremely rare and powerful support class.

Once she was trained well, she could coordinate with a group of powerful warriors in battle and become a powerful support and healing awakened.

Yu Zhitong directly sent out an invitation and said, "Little sister, come to the Logistics School. As long as you work hard, I will train you well. You will definitely become the pillar of our Logistics School!"
